

Two mates?

Chapter 62

Stuart's pov

I am going to this Alpha ceremony today. I really should have left before now, but Kelly has really been causing issues. I wasn't going to take her in case I met my true mate there but she has insisted on coming with me. I know she wants us to mark each other.

We have been casually dating for the last couple of years, and with her being of beta blood, she would be a good match.

The only issue is I do really want my true mate and so does my wolf Titan, Matt has finally managed to find his after searching for her everywhere so I know I still have a chance to find mine too.

I eventually caved to Kelly as I don't want to cause problems between our families, and you never know she may find her mate there too, and I can get her off my back at the same time. The main issue at the moment is that she is taking far too long to get ready, and she knows we should have left long before now.

My sister and brother have already managed to make a bad first impression on the pack, and I

was really hoping that I would be able to change that trend with them. I know Matt has managed to change their opinion on him, and Layla is determined to make amends now. She is trying hard to win Lucas over. He is a great guy, and he will make a great addition to the pack, and I love my new nephew. He is a fantastic dad. You can tell how much he loves his son. I really appreciated the gesture he made using our father's name as his middle name.

We finally make it to the Alpha ceremony very late, missing the ceremony and the meal, I am not happy with Kelly at all by this point, and she is totally oblivious to the problem.

Aurora is absolutely stunning, I can see why my brother was so interested in her at first, you can feel her power radiating from her, and she is so warm, friendly and pleasant when she greets us.

Lucian is definitely a lucky man, I think, as they walk us through to the other guests. Titan starts to perk up the closer we get, and all of a sudden, I see this stunning blonde woman with deep blue eyes. She is absolutely gorgeous, I can not help myself from rushing towards her.

As I reach her my happiness quickly turns to anger as I see she is already marked, this makes no sense why is my mate marked and why can I still feel her as my mate when she is marked. I grab

her roughly in anger. Titan is on the surface, feeling angry, too.

"Why the hell are you marked? You are my mate. You should not have let anyone touch you. I will kill them" I shout in her face while shaking her.

The next thing I know I am face down in the dirt in

a headlock with a knee placed in my back, I hear the Queen speak and laugh not quite making out what she said as Aurora laughs with her. What the fu.ck is so funny.

"Sweetheart, why do you have my brother in a headlock? Can you let him up please" I hear Matt

ask her

What the fu.ck, why the hell is Matt calling her sweetheart. There is no way she is his mate. We can't share a mate. We are not identical twins. Did he lie about her being his true mate? Has he stolen my mate.

"It depends if he will behave himself better this time" she says, sounding pi.ased off.

"You can let him up, Gina, and Aurora, you can let her down. I think she knows now not to act rashly. It looks like we all need to have a bit of a chat" Queen Talia says as Gina releases me, letting me stand.

Aurora unceremoniously drops Kelly on the ground before saying "don't even think of attacking any of my friends or family in the future" before turning and leading us into the packhouse with the Queen keeping step with her.

Their mates follow closely behind them, as Matt walks with Gina and Mum tells me to quickly follow. Kelly looks pi.ased that I didn't help her up as she runs to catch up with us. We all take seats in a meeting room, I make sure I get to sit next to Gina, Titan wants to stay close to her. She still looks annoyed at me.

Mum sits next to me before Kelly can take the seat, so she takes the seat next to Mum, huffing

loudly to show her displeasure at the whole thing.

"Look Gina, I am sorry if I overreacted earlier, but I was surprised when I found my mate and discovered she was already marked. It upset my wolf and I" I say as a way of an explanation and apology.

"Do you feel the mate bond to Stuart as well Gina" Queen Talia asks, smiling at her.

"I do, and I am actually quite pi. ssed off to tell you the truth. Matt should have told me he had a twin brother and that I had another mate out there before he even thought about marking me" she says, glaring at him.

At least I am not the only one she is angry at. Our mate is definitely feisty and strong, I think, as Titan agrees.

"Sweetheart, please, I had no idea Stuart would be your mate as well, we are not identical twins as you can see. Fraternal twins never usually share a mate. We always thought we would have different mates growing up" he pleads with her.

"The moon goddess obviously had other ideas with the two of you and wants you both running the pack together, with Gina as your Luna. Now you just need to work out if the three of you can work through this and be together" Queen Talia says.

"I definitely want to be with my mate, I have always wanted to be with my mate" I say, sure about it even if it means sharing her with Matt.

"What about me, we are good together, baby. I want to be your chosen mate" Kelly whines.

"I always said to you I wanted my mate Kelly, you have always known this. We have never been serious, and I have never said I would take you as my chosen mate" I say firmly.

"I rejected my mate to be with you, Stuart. You have to pick me now" she shouts.

"How could you do that Kelly, why did you never tell me you met your mate. Please tell me he accepted the rejection" I say angrily.

"He was just a warrior, not worthy of me, and you are an Alpha blood. How could I be with him when I could have you. He eventually accepted the rejection" she says coldly.

"I can not believe you, I would never want to cause any of our men pain that is evil Kelly" I say, disappointed in her.

"He met another mate anyway and left the pack. What is the big deal" she says, annoyed

"You are a cruel woman who doesn't deserve your mate or Stuart. I am happy to get to know you and see if this can work if Matt is fine with it" Gina

says, giving Kelly a cold look, then me a smile before holding Matt's hand.

"If it is what the moon goddess wants, who am I to argue with it. I can not have my mate and brother missing a piece of themselves" Matt says, looking at Gina lovingly "the only problem is, we now need a new beta" he says, laughing.

"What is wrong with the previous Beta's daughter" Queen Talia asks.

"What Kelly" I ask incredulously

"Oh don't be ridiculous. There is no way she is suitable. He does have another daughter, does he not, who is strong and loyal" she says.

"Yes Katia, is a fantastic warrior, and she is also highly intelligent. It is just unusual to make a woman a ranked member, and we will probably lose her when she meets her mate" Matt says.

"She has met her, so you will not lose her" Queen Talia says.

"You were happy to vote for female Alpha's, if Katia is qualified, she should not miss out because she is a woman" Gina challenges.

"You are right, sweetheart, she would make an excellent beta, I wonder who her mate is. What do you think Stuart" he asks me.

"I agree Katia is a great choice and her mate is the

Gamma's youngest daughter, she is not actually moving away with her mate they just were not ready to announce themselves yet" I tell him.

"Hanna is a good girl. She will make a great Beta's mate as well. They are both strong fighters" Mum says.

"No this is not fair, I was supposed to be in the beta position with you, not my sister" Kelly shouts

"You do not deserve it. You only care about yourself, and you are too scared of breaking a nail to bother with training properly. You are selfish, Kelly. I really hope you change your ways before it is too late or the moon goddess will not grant you a second chance" Matt warns her.

Cindy, Matt and Stuart's mum is thrilled with the turn of events, she really liked Gina as soon as she met her yesterday and is happy both her boys will be in the Alpha position running the pack together with their true mate.

Shawn was a bit shocked he has only just gotten used to his little cousin having one mate and moving away now she has two. He made sure to go over and have a chat with him, giving him a warning about not hurting her.

The rest of the event went smoothly thank the goddess, Kelly spent about an hour glaring at them before going to her room. Other than that,

there were no issues.

Gina came down in the morning with her two mates sporting a new mate mark, and the three of them looked really happy together. I am looking forward to attending their ceremony in a couple of weeks with Stuart also getting sworn in as the

Alpha at the same time.

The female ranked members all let me know as they were leaving how much fun they had, and that they were definitely thinking about adding some of my ideas to their packs to make their parties and ceremonies more fun and family oriented. All the teens said they enjoyed it much more than the

usual events that they are forced to attend as well.
