Chapter 68

14 years later

These past 14 years have been good to us, and our pack, Lucian, has continued to show his love, support, and trust for me, and he has never let me down again. He is an amazing father to our three kids, Ashley, is now 14, Henry is 12, we named him after Lucian's father, and our youngest is Willa, who is now 11.

Although the girls are both Daddies girls, they really look up to me and want to be just like me. Henry is a total mummy's boy. He spends loads of time with me. He adores his dad, but I am always the one he seeks out when he needs anything.

Lee and Suzie had their little girl and called her Savanna Aurora, her and Ashley are really close, they are both Alpha's but they do not compete with each other, they always just encourage the other one. They had 2 boys after that Lee named after well, obviously his dad he's 13, and Raymond is 12.

Zander and Ella have little Zack he loves his cousins, and they had a little girl Susan a year later. They said they were done, but 2 years later,

little Sasha was born. All of the cousins are really close, and our cousins' kids adore them. They are so protective of them.

Fred and Lisa had a girl after having Anthony, Crista is now 11 years old and really close with Willa and Shawns daughter Gail, who is also 11. They just have they two as well.

Talia and the twins named their pups Kayden and Kyla, Kayden is his mum's double, whereas Kyla looks just like her dad's with Tyler's hazel eyes. They are all growing up into wonderful people. They are a joy to be around. We have pack get togethers at least 4 times a year so all the kids can mix, and several more packs have started to join us and host their own now.

Emily also had a pup a month after Talia they finally got heir Gamma heir little Aiden, then came Shauna a year later.

Dalia had 2 more after having Grace, Casper after her father he is now 13 and Casey 11 after her Gamma female, who helped save her years ago. Natalie has her son Greg 15 and 2 daughters Rebecca 13 and Lisa 12.

Gina had a set of twins both boys named Derek after her father and Lance after theirs they will be 14 in a couple of months, she was nervous getting pregnant again in case she had another set of twins but she got away with one and they got their

girl little May she is 13. She put her foot down and said no more she didn't want to risk getting twins again like Talia did.

I am sitting enjoying a rare moment of peace in my office away from my kids and mate when my phone rings and I see it is my cousin Frank on the

other line I quickly pick up the call.

"Hi Frank, how are you, Lilly and the boys doing" I say, happy to hear from him

"We are all good Aurora how are your lot" he asks me

"The girls are worse than the boys" I say laughs

"Aurora she is here. Our daughter has arrived, and she has had a worse life than I thought she would have" he says, sounding upset

"Is it the girl from the Blue Crescent Pack" I ask, I have had the Alpha on the phone and seen the emails he has sent looking for her.

"Yes it is. We can not let them know she is here" he says to me before he tells me everything she has told him about her life.

"Fu.cking ba.stards, dont worry, we will protect her. What do you need me to do, when do you want me to come" I ask.

"Whenever you can Aurora" he says, relieved

"I will get everything up to date here and be through as soon as I can, Lucian will probably want to come with me so he will need to get his sh.it together too" I let him know

"Oh he definitely will. That man can't be away from you. Let me know when to expect you all, I hope you are bringing the pups" he says

"As if they would let me come without them" I laughs before getting off the phone.

I quickly linked Lucian to come to my office. He arrived in 5 minutes, locking the door and coming straight for me. The horny sod thinks I am calling him for a quickie while everyone is occupied.

"Although that would be fun, that is not why I called you here, so down boy" I tell him, chuckling.

"Awe but there is no one here baby" he says, wiggling his eyebrows as I laugh.

"This is serious behave" I say, trying to actually sound serious.

I fill him in on what Frank has told me. By the time I am finished, he is just as angry as we were. As we thought, he insisted on coming too and said he can be sorted by the end of the day tomorrow and we can leave.

I let him know we have to bring the pups, Frank wants to see them, and so will his family. He half-heartedly complains not really, meaning it, and soon changes his tune when I tell him that I will make it up to him tonight. That perks him right up, but he still manages to get me bent over my desk for a quickie before he leaves the room in a fantastic mood.

It looks like I am finally going to meet the girl Talia told me about years ago, I think I will give her a quick call before we go and see if she has any information that can help me with her. I want to be able to do everything I can to help her, I know what it feels like to have your family turn against you and feel alone in the world.

We will make sure Aria will have everything she

needs from now on to feel loved and supported in her life. She couldn't have met a better family than Frank's, they will love her like their own.

I call Talia and fill her in she can not tell me much other than wait to train her wolf when she turns 18, and like my name, her name also has meaning. She clarified it more when she said I would understand when I heard her wolf's name. She is a goddess like mine.

I sit and try to think of all the goddesses I can remember and any special abilities they have, I have to say I am totally stumped and can not wait to meet the girl and her wolf. I have always held an interest in the ancient gods and goddesses. No wonder my wolf ended up being named Athena, but then she says it is because she is fierce and built for war.

I know with Aria turning up now, it means something big is coming we need to prepare for, I just hope I am able to get her ready in time for it. We have over a year anyway, or I would have to start training her wolf sooner. I just wish we knew what was coming, Talia says that even she is not sure yet what to expect, so we have to be ready for anything.
