Chapter 101 - This Is Too Crazy!

Chapter 101: This Is Too Crazy!

“What? You want us year three students to participate in the cleanup operation too?”

“This is too crazy!”

“That’s right. Although the demon generals and foreign races have all been killed, there are still high-level demon warriors and insect beasts out there. Us year three students haven’t even reached the level of a martial artist. If we go in, won’t we be sending ourselves to death?!”

When they reacted, the training room was filled with noise.

Instructor Shen frowned and shouted, “Silence!”

He swept his gaze and said coldly, “The decision of Commander Zhao and the grandmasters in the military district is one that is carefully considered. Many of you year three students had yet to participate in actual combat in the wilderness, and this cleanup operation is a superb opportunity for actual combat!”

“If you are still afraid even though all the demon generals have been cleared, you will never be able to accomplish anything in your life!”

At this point, he snorted heavily. “I can understand if the students from other high schools have objections. However, you guys have experienced a period of virtual combat and have enjoyed the free Blood Essence Pills. If you guys are still afraid of going into the wilderness area, then you are nothing but a bunch of disappointments!”

The students immediately fell silent.

Instructor Shen’s cold voice continued to ring. “Without a real battle with the foreign races, you will never be able to grow.”

“Tell me now. If you want to quit, I can help you submit the withdrawal application!”

However, no student said a word.

Everyone knew that if they dared to quit at this moment, they would be kicked out of the focused training class.

“Alright, since no one wants to quit, then all the students in the Qu City High School focused training class will participate in this operation. The results will be tallied towards the total points.” Instructor Shen looked at the group of students and said indifferently, “Remember, this is not a virtual battle but a real wilderness battle. Even if you regret it halfway, you still have to continue!”

“Take advantage of the two days of preparation time and work together with your teams. The other high schools don’t have as many resources as you do!”

With that said, Instructor Shen shouted, “Now go and begin your training!”

Swoosh! Swoosh!

Zhou Hao and the other students quickly entered the virtual cabin and immediately began the virtual combat training.

When Instructor Shen saw this, he shook his head and left the classroom. Just as he reached the door, he saw Principal Zheng, the dean, and Department Director Hong.

“Sigh, I still think that this decision by the military is too rushed!” Principal Zheng shook his head and sighed. “These students are not prepared at all!”

Instructor Shen smiled bitterly. “Principal Zheng, did the beasts give us time to prepare when they attacked our city?”

Department Director Hong snorted and said, “Without hardship, these students will never grow up. I think that the military’s decision this time is very far-sighted!”

The dean smiled. “Actually, I’m very envious of them. It has to be known that other than the foreign races, there are also many good things in the wilderness. By arranging for these students to participate in the operation, the military is basically giving them an opportunity!”

Two days passed in a flash.

At the South Station of the Huadong City.

Bus after bus stopped densely in front of the metal door.

There were 16 high schools in the entire city, and eight of them, including Qu City High School, were assigned to the South Station.

However, only four high schools were willing to participate in the operation, and only a third of the year three students from these four high schools came.

Most of the remaining students were afraid to come to the wilderness area to fight the foreign races. Moreover, their parents were also unwilling to let their children take the risk.

After all, their lives were in danger in the wilderness area.

Soon, more than a thousand students walked down from the bus one after another.

Other than the students from Qu City's high school focused training class, the others either had fear on their faces or their bodies were trembling. Some even lay on the ground and shouted, "I want to go back."

Not far from the bus, there were ten teams of martial artists wearing full armor. They were the mercenary team hired by the Alliance Mall and the other guilds that had been allowed to participate in the operation.

"I'm dying of laughter. What were those important figures in the military thinking? They actually let these students come to the wilderness!"

"Yeah, I don't understand at all. How could a group of students who haven't even killed a mutated beast fight a demon warrior?"

"Hmph, there are many good things in the wilderness area. These students are really lucky!"

The martial artist teams mocked.

Not long after, Battalion Commander Chu, who was at the South Station defense line, walked over and saluted. Then, he shook Shen Jing's hand. "Instructor Shen, the students from the training class you're leading are indeed different from the other students!"

Shen Jing said indifferently, "It's just for show. Whether or not the training these days is effective will depend on their actual performance in the wilderness!"

Chapter 102 - Green Lattice Grass?!

Chapter 102: Green Lattice Grass?!

With that, he asked in a low voice, "How's the safety of the wilderness area?"

"Don't worry. Every area is monitored. All the grandmasters in the military camp have been arranged to enter. Moreover, the standard armors they're wearing this time are all T-3 models. It can even resist the attacks of low-level demon generals," Battalion Commander Chu said with a smile.

"That's good!" Shen Jing relaxed, but he still asked hesitantly, "Battalion Commander Chu, are you sure there aren't any demon generals in the entire wilderness area?"

Battalion Commander Chu said helplessly, "Senior Zhou has personally checked every area. He didn't even let go of the shadow insects that were hidden very deeply."

Hearing this, Shen Jing was completely relieved. He smiled and said, "With Senior Zhou making sure, there will definitely be no accidents."

Battalion Commander Chu patted Shen Jing's shoulder and looked at his watch. "There's still ten minutes. If you have any instructions, quickly tell your students now. Try not to interfere once we enter the wilderness."

"Understood!"

As he spoke, Shen Jing turned around and returned to the front of the students.

"In this cleanup operation, each of you will have to kill at least three demon warriors. If you don't meet the requirements, you should know your own limits and take the initiative to quit the training class!"

His voice was not low, so the students from the other classes and high schools heard him.

"Damn, which high school is this guy from? How ruthless!"

"Kill three demon warriors? They're simply crazy. Does he want glory so badly that he would put his students in danger?"

"I know them. They seem to be from Qu City High School's focused training class. It's said that they imported the virtual cabins of Yanjing City!"

"I see. No wonder he dared to make killing three low-level demon warriors a requirement. However, he's still being too careless!"

"I feel like he's just saying that for show. If demon warriors were so easy to kill, martial artists would have long become rich!"

The other students discussed.

"Distribute the standard armor!!"

Suddenly, a loud voice sounded. One by one, the soldiers walked in front of every student with standard armor.

The martial artist teams not far away were shocked when they saw this.

"Damn, it's actually standard T-3 armor!"

"This is standard military armor. It can resist the attacks of ordinary demon generals. The military is too generous!"

"It's a waste to give it to a group of students. They might as well give it to us!"

These martial artists were somewhat dissatisfied. Not only was the standard military armor expensive, but it was also not for sale. Without a certain relationship, it was simply impossible to obtain it.

In the training class, Zhou Hao, Xu Ling, Yuan Cheng, and the others also noticed the difference in the armor.

"It's T-3 armor. Looks like the military hasn't made a rash decision. They still care about the safety of us students!" Yun Yan and the other geniuses had high statuses and naturally recognized the armor level at a glance.

The other students also recognized the armor, and their expressions immediately relaxed.

Rumble!

At this moment, the heavy metal door slowly opened.

"In this cleanup operation, teams are prohibited from fighting each other in the wilderness. If anyone is discovered to be fighting, they will be severely punished!"

The martial artist team was the first to set off. As Battalion Commander Chu's voice sounded, their hearts trembled. Some of their thoughts were immediately dispelled.

The more than 1,000 students from the four high schools lined up and followed closely behind.

As soon as they left the South Station, the traces of the beast wave attack on the city's high walls and the three lines of defense were clearly displayed in front of every student.

Although a large number of demon beast corpses had been cleaned, the blood on the ground had not dried up. From time to time, it would emit a stench. There were also many pieces of debris that had not been cleaned off on the three lines of defense.

"Ew..." Some students couldn't help but retch.

The soldiers standing on both sides looked straight ahead.

In the training class team, the students were all silent. Just from the traces of the battle, they could imagine how tragic the beast wave attack was. Especially the huge claw marks on the high wall, it was shocking!

"If not for Senior Zhou, I really can't imagine the consequences of the beast wave attack breaking through the high wall and entering the city!"

"Not only Senior Zhou, but the soldiers of the city are also worthy of respect!"

"That's right. They used their lives to stop the beast wave attack!"

After entering the wilderness area for a thousand meters, many students regained their senses and sighed.

Zhou Hao looked at Zhang Yi and Xu Ling. Just as he was about to ask which area to clean, he heard a voice.

"Xu Ling, we lost to you in the last virtual combat training. Do you dare to compete again in the real wilderness this time?"

The person who spoke was Fang Yu. Her eyes were filled with unwillingness.

Xu Ling frowned.

"Fine, we'll compete. It's not like we're afraid of you. However, there should be some stakes, right? Otherwise, we're not interested!" Zhou Hao said indifferently.

Fang Yu snorted and flipped her wrist. A green four-leaf clover appeared in her palm. On it, there were blood-colored meridians that resembled the meridians of a human.

"Green Lattice Grass?!"

Xu Ling was about to reprimand Zhou Hao when she couldn't help but exclaim when she saw the four-leaf clover.

The other students also stared at the four-leaf clover.

Zhou Hao said in surprise, "Xu Ling, is this the Green Lattice Grass that can greatly increase blood essence and increase the probability of breaking through to a martial artist?"

Xu Ling nodded. "That's right. Although the Green Lattice Grass is not a high-level cultivation resource, it is still relatively difficult to find. Moreover, usually, the Green Lattice Grass only has three leaves, but this one has four leaves and the effect would be even better when consumed!"

Her voice was filled with envy.

Chapter 103 - Do You Dare to Accept the Bet? Answer!

Chapter 103: Do You Dare to Accept the Bet? Answer!

Wang Ming, Li Ji, and the other students in the class stared at the Green Lattice Grass and swallowed their saliva.

Wang Ming, Li Ji, and the other students in the class stared at the Green Lattice Grass and swallowed their saliva.

After all, the Green Lattice Grass was an excellent supplementary resource.

Fang Yu revealed a prideful expression. "Xu Ling, what if I bet this?"

Xu Ling did not say a word. Although she did not want to compete with Fang Yu, she still yearned for the Green Lattice Grass.

Seeing this, Zhou Hao knew that Xu Ling was tempted.

"Sure," he said directly.

"Very good. If you lose, I won't ask you to provide resources that are compatible with the Green Lattice Grass. I just want Xu Ling to admit in front of everyone that I'm the eldest sister of the class. Also, there's you, Zhou Hao. Hmph, I've been unhappy with you for a long time. If you lose, kneel in front of me and kowtow three times!" Fang Yu said coldly.

When Xu Ling heard this, she immediately said angrily, "Fang Yu, you're too much!"

Yuan Cheng and Yun Yan also frowned, feeling that Fang Yu had indeed crossed the line. They were both classmates and had interacted with each other for a while. There was no need for her to make such a request as a bet!

Fang Yu snorted and said, "Do you dare to accept the bet? Answer!"

In class, Xu Ling was more beautiful than her. Last time, Xu Ling had even beat her in virtual combat, embarrassing her in public. Therefore, she hated Xu Ling very much.

As for Zhou Hao, she hated him even more every time he flirted with Xu Ling during the virtual training.

"We don't..." Xu Ling was about to speak when Zhou Hao interrupted her. "We accept!"

Xu Ling could not help but scold, "Zhou Hao, do you really want to kneel in front of her and kowtow three times?!"

Zhou Hao pulled Xu Ling to the side. "Xu Ling, you're stuck at the third level of blood essence for a long time. If you can obtain the Green Lattice Grass, you'll be able to break through faster and become a martial artist!"

Xu Ling looked at Zhou Hao, feeling touched. She bit her lower lip. "Zhou Hao, I know you're doing this for my own good, but our team's strength..."

Zhou Hao interrupted him and smiled. "How can we know the outcome if we don't give it a try? Moreover, even if we lose, it'll be fine. I'm thick-skinned. It's very easy for me to kowtow three times."

"Zhou Hao, thank you!"

Just as Xu Ling finished speaking, Zhou Hao chuckled and teased, "If you really want to thank me, you can just marry me..."

When Xu Ling heard this, she instantly stopped feeling sentimental. She said angrily, "Screw you. Are you asking for a beating?"

When Fang Yu and the others saw that Zhou Hao and Xu Ling were flirting again, they said angrily, "Are you guys done discussing or not?!"

Only then did Xu Ling turn around and agree softly, "Fine, Fang Yu, let's bet!"

"Alright, it's a deal!" Fang Yu smiled. She did not believe that Xu Ling would be so lucky this time. More importantly, there were no more demon generals this time.

“Wait!” Zhou Hao suddenly shouted.

“What? Do you regret accepting the bet?” Fang Yu frowned.

Zhou Hao shrugged. “Of course not. Since we’re betting, we naturally can’t compare who killed more demon warriors. In addition to the foreign races, there are also some cultivation resources in the wilderness. According to the rules of this cleanup operation, resource collection should also be considered since they add to the total points.”

Fang Yu laughed. “Sure, let’s compete based on the total points. I don’t believe you guys can continue to be so lucky!”

The other students shook their heads when they saw this.

“Xu Ling and the others are definitely going to lose this time!”

“That’s right. This is the wilderness area and there are no demon generals there. Their team’s speed at killing demon warriors is definitely inferior to Fang Yu’s team!”

“Even a rare lucky item like the lucky bracelet can’t keep increasing their luck!”

“That’s right. Hai, I’m afraid our class will have another arrogant big sister in the future!”

Amidst sighs, the many students separated and entered the wilderness area.

Zhou Hao, Xu Ling, and Zhang Yi walked towards the left.

Seeing that Zhang Yi did not say a word, Zhou Hao knew that he was still worried about his sister. He went forward and patted Zhang Yi on the shoulder and consoled, “Zhang Yi, don’t worry. Zhang Ying will be fine.”

Zhang Yi forced a smile. “Hopefully.”

When Xu Ling heard this, she couldn’t help but shake her head. She changed the topic and said, “Zhou Hao, Zhang Yi, where are we going?”

There were more than a hundred areas outside Huadong City.

Zhou Hao pondered and said, “Let’s go to Area 268!”

“Isn’t Area 268 a bit... too far away?” Xu Ling couldn’t help but ask.

“Although it’s far, it’s easier for us to discover some rare resources there. The areas closest to the city have been explored by many martial artist teams before the beast wave attack. And during this cleanup operation, most of the students from the other high

schools will definitely choose these same areas. They don't have the courage to go to the areas further away!" Zhou Hao explained.

Zhang Yi nodded. "I agree with Zhou Hao. If we want to defeat Fang Yu's team, we have to take the risk!"

Xu Ling was hesitant, but in the end, she gritted her teeth and said, "Alright, I'll do as you guys say."

Chapter 104 - Its Not That Easy

Chapter 104: It's Not That Easy

Area 268 was indeed very far. If Zhou Hao ran at full speed, he would be able to arrive quickly. However, since he was traveling with Xu Ling and Zhang Yi, he naturally could not expose his strength and could only travel slowly.

After nearly 50 minutes, they finally arrived at the edge of Area 268.

"Phew, I'm so tired. Let's rest for a while!" Xu Ling opened her helmet. Her forehead was covered in sweat, and her hair was also wet.

The weather was hot, and it was even hotter for them since they were wearing armor. Even though there was an automatic cooling system inside the armor, it still consumed energy. Unless one couldn't stand it anymore, it usually wouldn't be activated.

Zhou Hao handed Xu Ling a bottle of water. "Wash your face. It'll be cooler."

Xu Ling rolled her eyes. "Do you really think that I'm that extravagant?"

"Don't worry, I brought a lot of water!" Zhou Hao smiled.

"Did you replace all your food with water?" Xu Ling was stunned and could not help but ask.

Zhou Hao nodded. "That's right."

Xu Ling was very speechless. "We'll be staying in the wilderness for a few days this time. Aren't you afraid of being hungry if you don't bring food?"

Zhang Yi said, "It's fine, I brought a lot."

How could Xu Ling not know that Zhou Hao and Zhang Yi had already discussed this beforehand? One of them only brought water, and the other only brought food. She shook her head and said, "I'm really impressed by the two of you!"

Zhou Hao swept his gaze around and pointed at a hill about 300 to 400 meters away. "Let's go over and rest. The ancient trees and weeds here are dense, so our vision is poor!"

"Sure."

The three of them stood up again and quickened their footsteps to the back of a low hill.

Just as they arrived and were about to rest, Zhang Yi suddenly said in surprise, "Xu Ling, Zhou Hao, look. Isn't that the Triangular Purple Pattern Scorpion under the stone?"

Xu Ling and Zhou Hao hurriedly looked at the stone Zhang Yi was pointing at.

With this sweep, they immediately saw a palm-sized scorpion below. This scorpion was purple in color and had triangular patterns on its back. It was very obvious in the shadow of the stone.

"It's really a Triangular Purple Pattern Scorpion?!" Xu Ling was pleasantly surprised.

"Quick, catch it. Don't let it escape!" Zhou Hao hurriedly reminded. At the same time, he smiled in his heart. He had not wasted the 300 luck points for nothing.

Just now, he did not choose a random place to rest. Instead, he had chosen this hill after spending his luck points.

Without hesitation, Zhang Yi pounced towards the shadow of the rock.

However, the Triangular Purple Pattern Scorpion seemed to have sensed the commotion and its figure jumped out at lightning speed.

Xu Ling immediately shouted anxiously, "Zhang Yi, quick, don't let it enter the hole. The Triangular Purple Pattern Scorpion is best at burrowing. Once it enters, it'll be very difficult for us to catch it again."

As she shouted, she ran up from the side to stop it.

However, Zhou Hao was even faster than her. With a roll and pounce, he happened to land on the spot where the Triangular Purple Pattern Scorpion was headed towards.

Xu Ling smiled and praised, "Not bad, you're good at finding opportunities."

Zhou Hao pursed his lips. "This is called talent."

"Don't get cocky just because I compliment you." Xu Ling rolled her eyes in a pretty manner. Then, her watery eyes stared at the Triangular Purple Pattern Scorpion.

Zhang Yi walked over and his gaze moved to the scorpion. He could not help but take a deep breath and say, "I heard that the materials of a Triangular Purple Pattern Scorpion can be used to make a top-grade supplementary medicinal pill. I wonder if it's true?"

"Of course it's true." Xu Ling's cold and beautiful face was red and filled with joy and excitement. "After drying it and grinding it into powder, you can add it to the pill refinement. It can increase the quality of the pill by one to two levels. It's very expensive."

At this point, she sighed and looked at her wrist. "We just arrived in Area 268 and encountered a rare creature like the Triangular Purple Pattern Scorpion. Looks like the lucky bracelet can really increase luck."

Zhang Yi's eyes lit up. He could not help but ask, "Xu Ling, how much can this Triangular Purple Pattern Scorpion be sold for?"

"At least 500,000," Xu Ling said without thinking.

"What? 500,000?" Zhang Yi's eyes widened.

Zhou Hao handed the Triangular Purple Pattern Scorpion to Xu Ling. "Take it."

Xu Ling glanced at Zhou Hao. "You were the one who caught it. It's naturally yours."

Zhou Hao chuckled and said, "What's there to distinguish between the two of us? Isn't what's mine yours?"

Slap!!

Xu Ling kicked Zhou Hao. "Screw you. You want to get beat up again?"

Only then did Zhou Hao say in all seriousness, "It's useless for me to hold on to it. Your family manufactures medicine. This thing is useful for you."

"Alright, I'll keep it first. We'll split it when we get back." Xu Ling hesitated for a moment and placed the Triangular Purple Pattern Scorpion into her armor bag.

“Since we’ve gotten a good start, let’s continue. We might even be able to find something better!” Zhou Hao suggested.

Xu Ling shook her head. “It’s not that easy.”

Chapter 105 - Do You Admit That Im Talented?

Chapter 105: Do You Admit That I’m Talented?

However, three minutes later.

“Look, it’s the Cat’s Eye Heart Stone!”

Five minutes later.

“Wow, it’s the Red Blood Fruit!”

Half an hour later.

“Damn, it’s the Purple Leaf Earth Ginseng. We’re rich!”

Beside a stream, Zhang Yi pulled out two Purple Leaf Earth Ginseng that looked like radishes in surprise.

“Cat’s Eye Heart Stone, Red Blood Fruit, Purple Leaf Earth Ginseng... I didn’t expect the resources in Area 268 to be so rich!” Xu Ling’s red mouth formed an O shape as she rubbed her eyes and looked at the Purple Leaf Earth Ginseng in disbelief.

This plant was far more valuable than the Green Lattice Grass. It could quickly increase blood essence and strengthen one’s foundation. In the city, a single Purple Leaf Earth Ginseng could be sold for 1 million yuan, and it was often out of stock.

Zhou Hao was very calm. “It’s very normal. Before the beast wave attack, Area 268 was the territory of a king-level demon beast. Very few martial artist teams dared to come here to adventure and hunt. Therefore, most of the resources in this area have not been harvested. This time, we ended up benefiting!”

Zhang Yi nodded and said, “Zhou Hao is right. We were right to choose a further area.”

Xu Ling also felt that it made sense. "In that case, it's not just us. The other teams will probably also gain a lot by choosing a relatively far area."

"That might not be the case." Zhou Hao shook his head and smiled. "The rarer and more precious the resources, the harder it is to find them. For example, the Triangular Purple Pattern Scorpion we discovered at the beginning was hidden in the shadow of a rock. If we didn't look carefully, it would be very difficult to discover it. Therefore, the reason why we were able to discover the four precious resources so quickly is actually all thanks to your bracelet."

Zhang Yi smiled and subconsciously looked at Xu Ling's bracelet. "Xu Ling, your lucky bracelet is the most precious!"

Xu Ling stuck her tongue out cutely. "I didn't know it was so useful. Let's continue!"

She was also very excited to discover four different kinds of resources in a row and was somewhat impatient to find more. However, their luck was starting to decline.

After that, they did not discover many precious resources. Instead, they encountered many demon warriors, including a high-level demon warrior.

"Hu, that was close. Fortunately, Zhou Hao, you seized the opportunity and slashed the wound of that high-level demon warrior. Otherwise, Zhang Yi and I would definitely have been injured!"

The battle ended.

The three of them lay on the ground, breathing heavily. Among them, Xu Ling patted her chest with lingering fear.

Zhou Hao was naturally pretending to be tired. With his strength, not to mention a high-level demon warrior, even a high-level overlord could be easily handled.

"Xu Ling, do you believe that I'm talented at finding opportunities now?!"

Xu Ling took a sip of water and handed it to Zhou Hao. She also glared at him. "Any talent would be wasted on you."

Zhou Hao smiled and said, "Does that mean you admit that I have talent?"

Xu Ling snorted proudly and ignored Zhou Hao.

Zhang Yi said, "Zhou Hao is indeed very talented at finding opportunities. Other than the high-level demon warriors just now, he was also the one who defeated the four to five intermediate-level demon warriors earlier!"

Of course, Xu Ling could tell that Zhou Hao was talented, but she was afraid that he would get cocky, so she did not want to admit it. However, since Zhang Yi had already said it, she didn't want to keep up her act. Therefore, she took out a piece of chocolate from her bag and handed it to Zhou Hao. "Here, this is your reward!"

"Hehe, this is your favorite snack." Zhou Hao accepted it with a smile and muttered, "I guess what's yours is also mine."

"It's getting late. We have to find a safe place quickly." Xu Ling heard Zhou Hao's mutter and her face turned red. She immediately stood up and changed the topic.

At night, the wilderness would become very dangerous.

Even though there were no more demon generals now, many demon warriors that were difficult to deal with would come out to hunt at night. Moreover, many of them were venomous. If one was careless and got infected, even the T-3 armor would not be able to help.

Zhang Yi knew this and quickly stood up.

...

In the blink of an eye, three days passed.

Zhou Hao's team basically searched the entire Area 268. During this time, they encountered many high-level demon warriors, but they were all dealt with by Zhou Hao who relied on the environment. This made Xu Ling look at Zhou Hao in a new light.

In addition, they found a total of 18 precious resources, some even rarer than the Purple Leaf Earth Ginseng.

This was naturally Zhou Hao's contribution. If not for him consuming luck points, many resources would have been very difficult to discover.

On a smooth stone beside a pool.

Zhou Hao and the other two sat and rested.

"We have to return before dark. It's a little far. Let's leave at noon," Xu Ling said as she ate her bread.

"Agreed." Zhang Yi nodded.

Zhou Hao swept his gaze around. He was not being random when he chose this spot to rest.

Chapter 106 - Be Careful

Chapter 106: Be Careful

Swoosh.

Suddenly, a cold black python rushed out of the pool.

“Be careful, it’s the Blackman Demon Python!!”

Zhang Yi heard the commotion and shouted anxiously.

Zhou Hao reacted very quickly. He grabbed Xu Ling’s arm with one hand and quickly stuck the saber in the gap with the other. Then, his figure retreated explosively.

Pu!

The Blackman Demon Python pounced at lightning speed. Before it could even see the saber, it opened its bloody mouth and swallowed the tip of the saber.

The saber immediately pierced through the Blackman Demon Python’s upper jaw.

“Zhang Yi!” Zhou Hao shouted.

Zhang Yi regained his senses and charged forward. He held his saber and slashed at the Blackman Demon Python’s head.

Swoosh!

The sharp saber cut off the Blackman Demon Python’s head. Dark black blood flowed out, making the rocks below emit a corrosive sizzling sound.

Xu Ling’s pretty face was pale as she watched this scene. She knew that if Zhou Hao had not caught her in time, she would have definitely died miserably.

It had to be known that the Blackman Demon Python was a high-level demon warrior with the most intense venom. The venom would corrode the T-3 armor and cause it to melt in just a few seconds.

“Zhou Hao, thank you!” She turned around and thanked him sincerely.

“What’s there to be polite about? After all, didn’t you already promise to become my wife?” Zhou Hao smiled.

This time, Xu Ling did not glare at Zhou Hao again.

Zhang Yi said, “Xu Ling, Zhou Hao, in our biology materials class, our teacher once said that there are rare plants near the Blackman Demon Python. There might be treasures in the pool.”

Plop.

As soon as Zhang Yi finished speaking, Zhou Hao jumped into the pool without hesitation.

“Be careful!” Xu Ling couldn’t help but remind worriedly.

Swoosh.

Not long after, Zhou Hao emerged from the depths of the pool. He laughed and said, “Zhang Yi, good thing you paid attention in biology materials class. As expected, I found a treasure. It’s the Ice Needle Mushroom!”

“What? It’s actually the Ice Needle Mushroom?!”

Xu Ling and Zhang Yi were both stunned, but soon, their faces revealed excitement.

The Ice Needle Mushroom was a precious plant with a rare plant spirit.

As long as it was a plant spirit, it would have an extremely powerful medicinal effect. It was a hundred times more valuable than the Purple Leaf Earth Ginseng, the Green Lattice Grass, and the Red Blood Fruit.

Plant spirits were true natural treasures!

“Zhou Hao, quick, look at how many blood-colored lines are on the back of this Ice Needle Mushroom?!” Xu Ling seemed to have thought of something and hurriedly asked.

Zhou Hao also reacted and turned the Ice Needle Mushroom over. “There are three blood-colored lines!”

Xu Ling immediately heaved a sigh of relief and said excitedly, “That’s great. Not only does the Ice Needle Mushroom with two blood-colored lines not have any medicinal effect, but it’s also extremely poisonous. However, the three blood-colored lines are the best plant spirits. After consuming it, one can advance to a high-level master in a short period of time!”

Zhou Hao swam to the edge of the pool and went ashore with a smile. "In that case, we'll definitely win this time!"

Zhang Yi nodded heavily. "Although this Ice Needle Mushroom only has three blood-colored lines and has not fully matured, its value is definitely far greater than the 18 resources we discovered before. Moreover, plant spirits are extremely rare. We were lucky to encounter one."

"That Fang Yu probably isn't as lucky!"

Xu Ling's smile widened. "Fang Yu will definitely lose this time!"

Zhou Hao shook his head and said, "I originally wanted the Green Lattice Grass for the bet, but I didn't expect us to obtain the Ice Needle Mushroom. The Green Lattice Grass is insignificant now. However, it's still not bad to be able to see Fang Yu suffer!"

Xu Ling and Zhang Yi couldn't help but laugh when they heard this.

...

In the depths of Area 251.

Fang Yu, Lei Jinpeng, and the other Yanjing genius teams were still searching, and their faces were filled with joy.

"The wilderness area after the beast wave attack is really filled with gold. The military leader of Huadong City is really generous to let the students participate!" Lei Jinpeng said with a relaxed tone.

Fang Yu smiled faintly and said, "The overall strength of the Huadong City is relatively weak. All the high schools don't even have a single martial artist. The military leaders probably want to take this opportunity to increase the students' strength. After all, the future of a city depends on the students!"

Yun Yan nodded and said softly, "Commander Zhao and the others are still willing to do something for the city. Just one this point alone, they are much better than the higher-ups of the Yanjing City."

Yuan Cheng shook his head and said, "The social statuses in Yanjing City are indeed severely fixed, but this is only natural when the city has developed to a certain extent. Huadong City is still in the development stage, so it's naturally flourishing."

"Brother Yuan is right." Another thin boy who had a depressed personality spoke up in agreement.

Lei Jinpeng placed the saber on his shoulder. “No matter what, we’ve gained a lot this time. Some of them are also helpful to our strength. We should be able to increase our strength to a high-level martial artist when we return!”

Fang Yu narrowed her eyes. “I wonder how Xu Ling’s team is doing. I noticed previously that they seem to be heading towards Area 268. That place is even farther away than ours.”

“So what if it’s far? Some resources are very difficult to discover without rich experience!” Lei Jinpeng was full of confidence as he said indifferently, “Don’t worry, nothing will go wrong this time!”

Chapter 107 - Too Powerful!

Chapter 107: Too Powerful!

“Fang Yu, why do you have to compete with Xu Ling and the others? We’re all in the same class. We should get along considering that we’ll see each other frequently in the future!” Yuan Cheng couldn’t help but say.

Fang Yu snorted. “I just can’t stand Xu Ling and Zhou Hao. They’re just two guys who rely on luck. It’s really humiliating for them to break the virtual cabin newbie record!”

Yun Yan shook her head as she listened.

In her opinion, Fang Yu was a decent person, but she was a little arrogant.

...

Time passed slowly.

Outside the South Station’s defense line gate, the teachers and instructors of the various high schools were standing at the edge of the wilderness area. They looked at their watches anxiously.

In the past four days, they had been unaware of the situation of the students who had entered the wilderness.

Shen Jing’s expression was calm. He had long learned from Battalion Commander Chu that although many students had been injured in this wilderness cleanup operation, no

one had died. Most of the high school student teams were afraid and only searched at the edge of the deeper areas. Therefore, they were not in danger at all.

On the other hand, the situation of the student team from Qu City's high school training class had fallen into danger quite a few times. Fortunately, they had the help of the military camp martial artists to resolve the danger.

"This is a rare opportunity. I hope you guys can gain something!" Shen Jing sighed in his heart. Usually, it's very hard for students with ordinary talent to break through the blood essence barrier. And although it was easy for students with better family backgrounds to advance to the martial artist realm, these students still needed more cultivation resources to advance to a higher level.

And this time, the military leaders had opened up all the wilderness areas, and it was even during the vacant period after the beast wave attack. To many students, this was a chance for them to rise up!

If they grasped this opportunity, they could change their fate.

If not, they could only continue being an ordinary person.

Principal Zheng and the dean were also standing beside Shen Jing. They kept staring at the wilderness with anxious expressions.

"They're back, they're back!" Suddenly, someone shouted.

On the road leading to the wilderness area of the city, some student teams covered in dried blood appeared one after another.

They walked over with tired expressions.

Swoosh! Swoosh!

The teachers and instructors of the various high schools rushed up to show their concern.

Many students immediately began to wail and complain about their grievances at the sight of the teachers and instructors.

"It's too difficult, teacher. We almost died in there!"

"Yeah, I won't participate in such an operation again!"

"Wuwu, I miss Dad and Mom. I want to go home!"

Many students were already exhausted and sat on the ground unsteadily.

The school leader hurriedly consoled, "It's good that guys came back alive!"

Not long after, Qu City High School's student team gradually appeared on the street. They were also in a sorry state.

Principal Zheng, the dean, and Department Director Hong also rushed forward.

"How was it? Did you guys gain anything?" They couldn't help but ask after seeing the students. After all, they still had high hopes for the year three students of Qu City High School.

These student teams shook their heads. "Teacher, Principal, those demon warriors are too powerful. We can't resist them at all and can only hide. How can we have the time to find anything else!"

"That's right. It's already very good that they survived!"

Principal Zheng and the dean's faces darkened and they were disappointed.

As the sky became darker and darker, the number of students returning from the wilderness increased. Among them were many teams from Qu City's high school training class.

Instructor Shen, who had been standing rooted to the ground, slowly walked forward.

When the students from the focused training class saw Instructor Shen, they automatically lined up.

"Wang Ming, how's your team's performance?" Instructor Shen looked at Wang Ming and the others.

Wang Ming stepped forward and hurriedly took out everything from his armor and backpack.

Swoosh! Swoosh!

Immediately, many demon warrior materials and some precious resources appeared on the ground.

"Wow, it's the Red Blood Fruit, the Thousand-Faced Flower!"

"Damn, there are more than thirty low-level demon warriors and three intermediate-level demon warriors corpses!"

"How impressive!"

Many students from the other high schools gathered around and looked at the things on the ground. They were all shocked and envious.

The principal and instructors sighed.

“As expected of the training class focused on by the Education Bureau, their combat strength is indeed impressive!”

“That’s right. Intermediate-level demon warriors are not easy to deal with. Their five-person team was able to kill three of them. Their teamwork is absolutely perfect!”

“Hai, should our school also find a chance to establish a training class?”

Instructor Shen listened to the surrounding discussion, but his expression did not change. He swept his gaze over the Red Blood Fruit and the Thousand-Faced Flower and said indifferently, “Your gains were average!”

Wang Ming and the others’ expressions collapsed.

“Li Ji!” Instructor Shen looked at Li Ji’s seven-man team again.

Swoosh! Swoosh!

Just like Wang Ming’s team, Li Ji walked forward and took out all their gains. Be it the demon warrior materials or precious resources, he had more gains than Wang Ming’s team.

There was even a Green Lattice Grass that was worth more than the one Fang Yu had taken out previously.

“Not bad.” Instructor Shen finally smiled.

Li Ji and his seven-man team clenched their fists tightly, their faces filled with excitement. To be able to get the strict Instructor Shen’s approval meant that their gains this time were indeed not bad.

The other high school students were envious and jealous. Each of these resources could easily allow them to break through their blood essence barriers and advance to the next level.

“Look, it’s Fang Yu and Yuan Cheng from the Yanjing genius team!” Suddenly, someone shouted.

Chapter 108 - Theyre Back!

Chapter 108: They're Back!

Swoosh! Swoosh! Swoosh!

One by one, everyone's gazes moved to the calm and relaxed Yuan Cheng and the others.

"Are they the geniuses transferred from the Yanjing Training Camp?"

"It's said that everyone from there is as strong as a high-level martial artist!"

"I wonder how they performed this time!"

When Yuan Cheng, Fang Yu, and the others saw Instructor Shen, they hurriedly walked over and joined them.

"How was your team's harvest?" Instructor Shen looked at Fang Yu and her teammates. Moreover, he had also heard about the bet between Fang Yu and Xu Ling.

Fang Yu walked out proudly and took out everything from her armor backpack.

Swoosh.

The items piled up into a small mountain.

"Damn, that's too much!"

"There are 13 high-level demon warriors! There are no less than 50 intermediate-level demon warriors!"

"How valiant. As expected of someone from the Yanjing Training Camp!"

"There are also a lot of precious resources. Damn, there are actually 23 types!!!"

"I'm so envious. Their gains are too great!"

"That's right. If we had known that the wilderness area actually had so many good things, we would have also gone deeper!"

The students of the other high schools were so jealous that their eyes turned red, and they also regretted their decision.

As for Wang Ming, Li Ji, and the other students from Qu City High School, they looked at the pile of materials and shook their heads with a bitter smile.

“Where’s Xu Ling, Zhou Hao, and Zhang Yi? Why aren’t they back yet?”

“I don’t know, could something have happened?”

“Maybe their gains were too little and they don’t want to be embarrassed. They’re probably still hunting in the wilderness!” Someone yelled out.

When Fang Yu heard this, her lips curled into a sneer. Her eyes swept over Wang Ming, Li Ji, and the other students, as if she was saying, “I’ll be the big sister of the class from now on!”

Wang Ming, Li Ji, and the other students looked at Fang Yu and lowered their heads.

Yuan Cheng and Yun Yan shook their heads speechlessly when they saw this.

“Not bad!” Instructor Shen smiled. He looked at the team and then looked at his watch. “There are still some students who haven’t returned. Everyone, continue to wait.”

Time passed bit by bit, and most of the students returned one after another. Even the ten martial artist teams that had entered the wilderness earlier had returned. However, because of their poor quality armor, nearly a third of them had died in the wilderness this time.

However, their faces did not have much grief and grief, as if they were already used to it.

Seeing a large group of students gathered together, these martial artist teams also walked forward curiously.

“Is this supposed to be the gains from an entire school? It’s so little!” Seeing the items on the ground, these martial artist teams sneered and shook their heads.

A student shouted angrily, “What do you guys know? These are the gains of a training class.”

“What? The gains from a single class?”

“Are you serious?”

“Are you kidding me? None of the students have reached the level of a martial artist. How could a class of students collect so many demon warrior materials?!”

The martial artist team did not believe it at all.

A student wanted to refute, but at this moment, someone in the Qu City training class shouted, “Instructor, Xu Ling, Zhou Hao, and Zhang Yi are back!”

Swoosh! Swoosh! Swoosh!

Many students looked towards the wilderness area.

Although the sky had long darkened, the lights outside the city were very bright. As Zhou Hao and the other two approached, many students also saw the blood on their armor.

“They look rather tragic. They probably encountered many demon warriors!”

“Compared to Yuan Cheng, Fang Yu, and the others, the situation is much worse!”

“There’s definitely no way to compare them. Among the three of them, only Xu Ling is strong. Zhang Yi can barely help, but Zhou Hao is simply a burden!”

The students of the training class began to discuss one after another, their voices filled with disdain for Zhou Hao. After all, if they lost this bet, the students in the class would be suppressed by the new big sister, Fang Yu!

When Zhou Hao and the other two walked over, the students gathered in three circles automatically opened a path.

The three of them walked along the path in confusion.

Seeing the team in front of Instructor Shen, they instinctively walked over and stood in line.

The students of the other high schools surrounded them again. While they were waiting, they all learned about the bet between the Yanjing genius of the training class and the most outstanding student of Qu City High School, Xu Ling.

Whether it was Fang Yu or Xu Ling, their faces and figures were excellent.

Therefore, everyone was curious to find out who would win in the end.

Even the principal and teachers of the other high schools took the opportunity to stay behind to watch the bet.

Chapter 109 - Big Surprise

Chapter 109: Big Surprise

Instructor Shen looked at Xu Ling and said, “Xu Ling, the other students’ results for this wilderness cleanup operation are all here. Now, only your team is left.”

Xu Ling nodded and stepped out. Then, she took out everything from her armor bag.

Swoosh! Swoosh!

A large pile of demon warrior materials fell to the ground.

Although there were 6 high-level, 20 intermediate-level, and more than a 100 low-level demon warrior corpses inside, the other students were not impressed. After seeing the gains of the Fang Yu team, the other students were only surprised for a moment and did not have any other reaction.

Instructor Shen smiled. “Not bad. Xu Ling, your team did well!”

He knew that there were only three people in Xu Ling’s team, and Zhou Hao was one of them. Therefore, it was already extremely rare for them to obtain so many demon warrior materials!

“Thank you, Instructor!” Xu Ling smiled.

At this moment, Fang Yu, who was standing in the team, walked out and smiled faintly. “Instructor, it seems that Xu Ling’s team has lost the bet. According to the rules, she should call me Big Sister in front of all the students. Also, there’s Zhou Hao. He should kneel on the ground and kowtow three times!”

Shen Jing frowned and looked at Fang Yu. “Are you sure you want to do this?”

It had to be known that not only were the students from Qu City High School around, but there were also students from other high schools. Once Xu Ling and Zhou Hao did this, they would never be able to lift their heads again.

Forget about Zhou Hao. After all, his strength was relatively low.

However, Xu Ling was an outstanding student that Shen Jing thought highly of and had great potential. He did not intend to let Fang Yu humiliate Xu Ling.

Fang Yu naturally heard the dissatisfaction in Instructor Shen's voice, but she still looked up and insisted, "I'm sure!"

Instructor Shen's expression darkened.

Zhou Hao walked out slowly and said indifferently, "Fang Yu, I think our bet was a little unfair!"

Fang Yu sneered. She knew that Zhou Hao would play tricks and not fulfill the bet. "Oh? Which part is unfair?"

"Of course I'm talking about the terms of the bet. Although you are willing to give up your Green Lattice Grass, it's still nothing compared to my dignity and Xu Ling's!" Zhou Hao said indifferently.

"Then what do you think we should do?" Fang Yu looked at Zhou Hao. She wanted to see what he was up to!

Zhou Hao snapped his fingers. "Simple. If you lose, then I'll add another condition. Other than the Green Lattice Grass, you have to bow and call Xu Ling Big Sister!"

Fang Yu laughed out loud. "Zhou Hao, is there something wrong with your head? Our team has already won, why are you still changing the terms of the bet?!"

Zhou Hao snorted. "It's up to you whether you agree or not!"

"Alright, I agree!" Fang Yu nodded without thinking.

Zhou Hao clicked his tongue and laughed. "Fang Yu, you're too impatient!"

Xu Ling also covered her mouth and smiled. She had deliberately not taken out the precious resources because she wanted Fang Yu to make a fool of herself. Previously, she had been furious at Fang Yu for trying to get Zhou Hao to kneel and kowtow three times.

Hearing Zhou Hao's words, the smile on Fang Yu's face disappeared. She stared at Xu Ling and had a bad feeling.

Indeed.

Xu Ling opened her armor backpack and slowly took out all the precious resources inside.

“It’s the Triangular Purple Pattern Scorpion!!”

“Red Blood Fruit, Cat’s Eye Heart Stone... Damn, it’s a Purple Leaf Earth Ginseng!!”

“There’s more, there’s more!”

“1,2... 18 different precious resources!!”

As Xu Ling took the items out, the surrounding students constantly cried out in surprise. Countless eyes stared fixedly at the precious resources.

Fang Yu’s expression changed drastically.

Although Xu Ling had already taken out 18 different precious resources, their total value had yet to exceed the value of resources Fang Yu’s team had brought back.

However, she quickly regained her senses and said coldly, “Xu Ling, I have to admit that you’re indeed very lucky. But even if these 18 different precious resources of yours are worth a lot, don’t forget that you still have to account for the materials for the demon warrior!”

“The total value of the demon warrior materials and precious resources we collected should still be higher than yours, right?”

As she spoke, she looked at the instructor.

Instructor Shen sighed. He had not expected Xu Ling’s team of three to bring back so many precious resources. If any of these resources were placed in the city, it would cause countless buyers to fight over them.

Unfortunately...

“The total value of all the items collected by Fang Yu’s team has indeed exceeded Xu Ling’s team.. This is according to the market rates of Huadong City!” Instructor Shen shook his head.

“Hai, what a pity!”

“Yeah, and they were so close to winning. In the end, they still lost because their total value was lower!”

“It’s not fair. There are only three people in Xu Ling’s team, and there are five people in Fang Yu’s team. Moreover, all of them are geniuses. Xu Ling’s team even has a burden!”

“So what if it’s unfair? They agreed to the terms of the bet back then!”

“I remember Zhou Hao agreed to it, right?”

Many students sighed. The students from Qu City’s high school training class looked at Zhou Hao angrily.

Zhou Hao shrugged, looking indifferent.

Xu Ling smiled and said, “Instructor Shen, I still have something relatively precious in my backpack that I haven’t taken out. I can’t put it on the ground. Please help me get a basin of water!”

Instructor Shen was stunned. “There’s more?”

Most of the surrounding students were also stunned.

Chapter 110 - This Is Injustice!

Chapter 110: This Is Injustice!

“Yes.” Xu Ling nodded heavily.

“Alright.” Instructor Shen suddenly stomped his foot and leaped out. He quickly retrieved a basin from the army camp.

He returned to the group and asked, “Does anyone still have water?”

“I do.” Many students went forward and poured water into a basin.

Fang Yu’s expression was ugly as she clenched her fists tightly and looked at Xu Ling nervously.

Xu Ling slowly took out the Ice Needle Mushroom and placed it in the water basin.

Chi! Chi!

The cold aura of the Ice Needle Mushroom immediately froze the water basin.

“Heavens!! It’s... it’s a plant spirit, the Ice Needle Mushroom!!”

“What? It’s actually an Ice Needle Mushroom?!”

“What kind of luck is this!!”

“This is crazy. How did they find an Ice Needle Mushroom? This, this... Ahhh, I’m jealous!”

“Although the Ice Needle Mushroom is only the lowest-level plant spirit, it’s still a plant spirit!!”

The moment the surrounding students, school leaders, teachers, instructors, and martial artist teams saw the Ice Needle Mushroom, their eyes surged with shock and disbelief.

Plant spirits were an extremely rare cultivation resource that was classified as a natural treasure. Every type of plant spirit was nurtured by the essence of the world’s energy.

A plant spirit was a treasure that could only be chanced upon by luck!

Instructor Shen was also stunned. He stared fixedly at the Ice Needle Mushroom in the basin that had instantly frozen the water into ice. He could not help but lean closer and look down at the back of the Ice Needle Mushroom.

“Three blood-colored lines. Hahaha, Xu Ling, your luck sure is good!!” After confirming that this Ice Needle Mushroom could be consumed, he laughed excitedly.

When Fang Yu heard this, the only hope she had disappeared completely.

Her elegant face was filled with shock, and her body could not help but retreat, as if she had lost her soul.

When Lei Jinpeng saw this, he hurriedly went forward to support Fang Yu. He gritted his teeth and sighed. “We lost. I didn’t expect Xu Ling to be able to find a plant spirit! This is injustice!”

Yuan Cheng, Yun Yan, and the others looked at each other and saw a bitter smile and helplessness in each other’s eyes.

They had never expected the other team would be able to find a plant spirit.

However, they could only admit defeat. The other team was really lucky to have come across a rare plant spirit!

“That lucky bracelet sure is a top-grade item!” Yuan Cheng couldn’t help but look at the bracelet on Xu Ling’s wrist, his eyes revealing deep envy.

Yun Yan couldn’t help but nod. “That’s right!”

“No!!” Suddenly, Fang Yu struggled free from Lei Jinpeng’s support and walked in front of Xu Ling in a few steps. She gritted her teeth and said, “You, you cheated!”

Without waiting for Xu Ling to speak, she shouted in a voice that was almost a roar, “How could such a rare plant spirit be found in the wilderness? You must have prepared it beforehand! That’s definitely the case!”

Swoosh! Swoosh! Swoosh!

Countless gazes looked at Fang Yu with pity.

“This Yanjing genius is too sore a loser!”

“Yeah, she’s a little crazy!”

“Although Xu Ling’s family background is good, it’s still impossible for her to have a plant spirit!”

“That’s right. If the Xu family had a plant spirit, Xu Ling’s father would have long become a high-level master. Or if he had used it on Xu Ling, she would have also become a high-level grandmaster.”

“This is something even children understand!”

The students discussed bluntly.

Xu Ling did not say a word and stared coldly at Fang Yu.

When Fang Yu heard the discussion, her body trembled. She muttered, “Impossible, impossible. All of you are lying!”

Zhou Hao took a few steps forward and said indifferently, “Fang Yu, are you not going to hold up your end of the bet?”

As he spoke, he condensed his blood essence into a thread and suddenly pressed it towards Fang Yu.

Fang Yu, who was originally in a daze, immediately woke up.

“I, I...” She stammered, unable to speak.

“Enough!” Instructor Shen shouted.

Immediately, the surrounding discussion disappeared.

Instructor Shen looked at Fang Yu and shook his head. “Fang Yu, I’m very disappointed in you! In addition, since you’ve made a bet, you have to fulfill the bet. The students of the Yanjing Training Camp are not sore losers!”

Fang Yu bit her lip. She was a very proud girl. She would rather die than bow and call Xu Ling “Big Sister” in front of so many students.

Xu Ling naturally could tell that Fang Yu did not want to fulfill the bet. She said, “Instructor Shen, forget it. However, I have a suggestion. If she doesn’t fulfill the bet, then she can just withdraw from the training class!”

Fang Yu’s eyes widened when she heard this.

Chapter 111 - Big News, Big News!

Chapter 111: Big News, Big News!

Instructor Shen was stunned for a moment, but he fell silent. He had indeed thought of transferring Fang Yu away. The other party’s series of performances had really disappointed him!

“No!”

Yuan Cheng, Yun Yan, and another Yanjing student rushed out one after another.

“Instructor Shen, you’re probably aware of the consequences of pulling Fang Yu out of the training class. Whether it’s the training camp or her family, they will no longer allow her to return!”

“Instructor Shen, you can’t do this. The five of us were transferred here together. If you transfer Fang Yu, then we’ll leave as well!”

“Instructor Shen, you have to think carefully. At most, we’ll fulfill the bet together!”

Fang Yu listened to Yuan Cheng, Yun Yan, and the others’ words and felt her nose turn sour as tears streamed down her face.

Instructor Shen sighed. Regardless of character or strength, Yuan Cheng and Yun Yan were both very outstanding. He would not transfer them away.

However, with the commotion caused by Xu Ling and Fang Yu, the training class could no longer be harmonious.

“Big Sister!” Yuan Cheng looked at Instructor Shen, gritted his teeth, walked directly to Xu Ling, bowed, and shouted.

“Big Sister!” Yun Yan was the same.

Lei Jinpeng and the other Yanjing students also did the same.

Xu Ling hurriedly waved her hand. “Yuan Cheng, Yun Yan, don’t be like this! This is not what I wanted!”

Her relationship with Yuan Cheng and Yun Yan was not bad.

When Fang Yu saw this scene, the pride in her heart was suddenly shattered. She took a deep breath, stopped her tears, and slowly walked in front of Xu Ling. She bowed almost 180 degrees and lowered her head. “Big Sister!”

After doing all of this, she walked in front of Zhou Hao and whispered, “I’m sorry!”

Zhou Hao frowned. He did not expect the always arrogant Fang Yu to apologize.

“Alright, put away your pride in the future. We’re all in the same class so let’s get along.”

Fang Yu nodded honestly. “Yes, I understand.”

When the Qu City High School students saw this, they rolled their eyes speechlessly.

“This Zhou Hao sure knows how to act cool!”

“Fang Yu is indeed too arrogant. Lowering her head this time is a very heavy blow to her. However, Zhou Hao shouldn’t be the one lecturing her!”

“That’s right. It was all Xu Ling’s credit.”

“Damn, I just can’t stand this Zhou Hao!”

Many students could not help but discuss. In fact, they were just jealous of Zhou Hao. After all, they also wanted Fang Yu to bow her head in front of them so that they could say something pretentious.

Instructor Shen clapped his hands. “Alright, everyone, disperse. This wilderness cleanup operation is over!”

With that said, the other high school students entered the city under the leadership of the school and the teachers.

The martial artist team looked at the Ice Needle Mushroom somewhat unwillingly and turned to leave.

Soon, only the team from the training class was left outside the city gate. As for the other students from Qu City High School, they left one after another under the lead of Principal Zheng, the dean, and Department Director Hong.

Battalion Commander Chu walked over. "Has everything ended?"

"Sorry for the trouble." Instructor Shen shook his head.

Battalion Commander Chu waved his hand. "They're all students, so it's very normal. Moreover, it's good to have competition... Look, your training class has completely stolen the limelight this time. Moreover, even I envy your gains!"

Instructor Shen pursed his lips. "There are many resources in the wilderness area. There's no way the students could have cleared everything when it's only been three or four days. The rest will still go to your military!"

"The soldiers have suffered a lot. They deserve it!" Chu Ying sighed.

Instructor Shen was silent. He knew that Battalion Commander Chu was right. More than 10,000 soldiers had died in this beast wave attack.

"Alright, get your students to put the things away. Your training class is the city's hope. Old Shen, you have to nurture them well!"

With that said, Battalion Commander Chu turned and left.

In the blink of an eye, two days passed.

In Qu City High School's focused training class.

Many students had happy expressions. Even outstanding students like Wang Ming and Li Ji had smiles on their faces.

The resources obtained from the wilderness cleanup operation had increased their strength by a lot. A small number of students who were stuck at the second level of blood essence had basically reached the third level of blood essence. As for Wang Ming, Li Ji, and the other students who had reached the third level of blood essence, they had even broken through to the martial artist level!

It had to be known that most high school students in the city might not be able to become martial artists their entire lives.

Becoming a martial artist at the high school level meant that one had the chance to enter superior academies and continue to advance.

“Big news, big news!” A well-informed student ran into the virtual training room and shouted.

Chapter 112 - Just Be an Ordinary Person!

Chapter 112: Just Be an Ordinary Person!

Swoosh! Swoosh!

Many students were attracted by the noise.

“What’s the big news?”

“Tell us quickly, don’t keep us waiting!” Many students urged.

Seeing that Yuan Cheng, Yun Yan, and the other Yanjing geniuses had all turned to look at him, the student said mysteriously, “I just passed by the principal’s office and happened to hear the principal and Instructor Shen talking.”

“What were they talking about?” Many students pricked up their ears to listen.

“According to them, our class’s Xu Ling relied on the Ice Needle Mushroom of the vegetation spirit to break through from the third level of blood essence to the master level!!” the student said slowly.

As soon as he said this, the students of the training class shook their heads.

“Is that all?”

“This isn’t considered big news, right? It was expected!”

“That’s right. The Ice Needle Mushroom is a plant spirit after all. Its medicinal effect is miraculous. I thought that Xu Ling could directly break through to the high-level master level!”

“How can one break through to the master level so easily? I estimate that the medicinal effect has yet to be fully absorbed by Xu Ling’s body. Only after she completely digests the Ice Needle Mushroom will she have a chance at reaching the level of a high-level master!”

“Hai, although I’m envious, it can’t be helped. Such luck is indeed hard to come by.”

Yuan Cheng, Yun Yan, and the other Yanjing geniuses also shook their heads lightly. When Xu Ling took out the Ice Needle Mushroom, they knew that a master-level genius was going to appear in the training class.

Seeing that everyone did not have much of a reaction, this well-informed student hurriedly said, “What’s the hurry? I’m not done yet. Not only did Xu Ling break through to the master level this time, but she also luckily obtained the Ice Muscle Body.”

Wang Ming, Li Ji, and the other outstanding students were stunned.

The other students were puzzled.

Someone could not help but ask, “What’s an Ice Muscle Body?”

“I can tell at a glance that you haven’t been studying hard in your Culture class. The Ice Muscle Body is a branch of the Ice Phoenix Body, one of the top ten supernatural bodies... Damn, damn!”

Halfway through his sentence, the student who was speaking suddenly reacted and was dumbfounded.

The other students also widened their eyes.

“Damn, is... is this true?”

“Although the Ice Muscle Body is only a branch of the Ice Phoenix Body, it’s still a special physique. As long as she doesn’t die midway, she’ll definitely advance to the supernatural level!”

“Damn, what... what kind of luck does Xu Ling have!”

“I’m really jealous. It’s one thing to discover the Ice Needle Mushroom, but to actually rely on it to stimulate the hidden physique of the body. Teacher once said that this was a one in a hundred million chance!”

The phrase Ice Muscle Body was like a bomb that exploded in the training class.

All the students were envious and jealous. Even Yuan Cheng, Yun Yan, and the other Yanjing geniuses were stunned.

They knew better than anyone that the Ice Muscle Body could clear all obstacles or bottlenecks in the road to becoming a supernatural expert. Once many large factions learned of this, they would definitely recruit Xu Ling crazily.

After all, the birth of a supernatural expert was an expert who could truly make a big difference!

“Fang Yu, thank god you admitted your mistake last time. Otherwise...” Lei Jinpeng reacted and said with some lingering fear.

Fang Yu nodded repeatedly. If it was said that she was still somewhat unconvinced in her heart previously, then now, after learning that Xu Ling had activated her Ice Muscle Body, she no longer dared to compete with her.

At this moment, Zhou Hao appeared at the classroom door.

Swoosh! Swoosh! Swoosh!

Wang Ming, Li Ji, and the others, including Yuan Cheng, Yun Yan, and the others, all looked at Zhou Hao. However, their eyes were filled with pity.

The entire class knew that Xu Ling and Zhou Hao were very close. Although they did not publicly announce that they were a couple, in their eyes, the two of them were basically already a couple.

Now that Xu Ling had activated her Ice Muscle Body, it could be said that she had soared into the sky. It was impossible for such an expert, who was destined to become a supernatural expert, to continue to be a couple with an ordinary student like Zhou Hao.

Zhang Yi followed closely behind Zhou Hao. He saw that the students in the class were looking at Zhou Hao strangely and could not help but ask curiously, “What’s wrong with you guys?”

A student immediately said, “Zhang Yi, do you know about Xu Ling?”

Zhang Yi was stunned for a moment and asked anxiously, “What happened to Xu Ling?”

“Xu Ling has already broken through to the master level!”

“What? A master? That’s great!” Zhang Yi was excited.

A student who was displeased with Zhou Hao sneered, “Not only did Xu Ling break through to the master level, but she also activated the Ice Muscle Body. Do you know

what the Ice Muscle Body is? That's a special physique. In the future, she will definitely become a supernatural expert!"

"Hehe, in the past, Xu Ling already had impressive strength and family background. Back then, if you worked hard, you could still catch up. But now... the difference is like heaven and earth!"

"That's right. A toad should stop dreaming about eating swan meat!"

"Just be an ordinary person!"

Some students sneered. Most students were actually jealous of the intimate relationship between Zhou Hao and Xu Ling. However, some of the students, such as Wang Ming and Li Ji, looked at Zhou Hao sympathetically.

Chapter 113 - Xu Ling with the Ice Muscle Body

Chapter 113: Xu Ling with the Ice Muscle Body

Back when they were looking for the Dark Gods, Zhou Hao was the first to discover them. Everyone's impression of him had improved a lot.

Zhang Yi was immediately furious. "So what? It was Zhou Hao who found..."

Zhou Hao interrupted him. "Zhang Yi, stop talking. Hurry up and go back to your seat. Class is starting soon!"

"Xu Ling is here!"

Someone shouted, and everyone's attention immediately turned to the classroom door.

Boom!

Soon, a beautiful figure appeared with cold blood essence pressure.

Xu Ling, who was wearing a plain white shirt, walked into the classroom. Her skin was like jade and looked smooth and fair. Her cold face even surged with the aura of an ice queen.

In the past, Xu Ling's beauty only made people love her.

But now, after activating her Ice Muscle Body, Xu Ling's entire body emitted a special charm. This charm was like an ice lotus, making people unable to resist looking at her.

Many students were stunned. Yun Yan and Fang Yu also felt ashamed of their inferiority.

Xu Ling ignored the other students' gazes and walked straight to Zhou Hao's virtual cabin, handing him a box.

"What?" Zhou Hao asked without looking up.

"I know you're not used to eating in the morning. This is a cake I made. Hurry up and fill your stomach with it. You still have to train later!" With that said, Xu Ling hurriedly entered her virtual cabin.

When Zhang Yi saw this, he could not help but smile.

The other students broke down in unison.

If their gazes were lasers, then Zhou Hao's virtual cabin would definitely be instantly destroyed.

Not long after, Instructor Shen walked in quickly.

His expression was calm, but anyone could tell that he was excited.

"Xu Ling!"

"Yes!" Xu Ling hurriedly left the virtual cabin and stood up.

Instructor Shen said in a gentle voice, "It's quite natural for your foundation to be unstable after you suddenly advance to the master level. In a while, I'll increase the training intensity for you in the virtual combat training. After the virtual combat training, come with me to the military area for special training and try to adapt to your strength in a short period of time!"

"Yes, Instructor!" Xu Ling nodded.

Instructor Shen nodded in satisfaction and swept his gaze over the other students. His voice immediately became solemn. "Everyone's strength has improved to a certain extent during this collective cleanup operation in the wilderness. However, don't be arrogant and complacent. You have to know that there's always someone stronger than you. I will increase the training intensity for all of you and let you adapt to your strength as soon as possible."

“Yes, Instructor!”

...

In the evening.

At the Yang Garden Residence.

After the wilderness area was cleaned, Zhou Hao had a rare moment of leisure. He returned home as soon as school ended.

After taking a shower, he sat on the sofa and opened the Heaven Dao software.

Then, he looked at the synthesis gold mystery boxes. On it was a detailed list of the items he had previously synthesized.

“Ice Needle Mushroom—Red Blood Fruit—Cat’s Eye Heart Stone—Blue Dragon synthesized into a thousand-year Ice Marrow Mushroom.”

“Supplementary effect of the thousand-year Ice Marrow Mushroom: high probability of obtaining a special physique.”

Upon seeing this, he couldn’t help but mutter, “Although the more items you synthesize, the more roses you spend. However, the effect of the synthesized items also improves!”

The reason why Xu Ling was able to activate the Ice Muscle Body was naturally not because of her illusory luck. Instead, it was because Zhou Hao had synthesized the Ice Needle Mushroom into a thousand year Ice Marrow Mushroom, allowing her to obtain a special physique and enjoy its hidden medicinal effects.

It could be said that even without other resources, Xu Ling could still successfully advance to the supernatural level. However, it would take a longer time.

“Looks like it’s time to find some cultivation techniques, combat techniques, and secret techniques to synthesize!” Thinking of this, a red armor suddenly appeared on Zhou Hao’s body. Then, he walked to the balcony and soared into the sky.

Although Zhou Hao was only at the master realm now, due to the perfect foundation provided by the “Dragon Elephant Wisdom Technique” and the “Nine Revolutions Golden Body Art” cultivation techniques, as well as the enhancement of the God Slaying Saber, Zhou Hao’s true combat strength was comparable to a ninth-grade supernatural expert. Therefore, the enhancement of his strength by some natural treasures like the plant spirit was actually very minimal.

He might as well synthesize some secret techniques to cultivate.

After landing at the entrance of the Martial Artist Union Building, he had just stepped through the revolving glass door when a figure suddenly appeared in front of him.

It was President He Biao.

“Senior Zhou, why have you come to the Martial Artist Union?” President He’s attitude was incomparably respectful. After all, this person in front of him was a supernatural expert who could easily kill the Cloud Mink King!

Zhou Hao smiled and said, “I came to buy some secret techniques to study.”

When He Biao heard this, he immediately felt admiration. “I didn’t expect you to be so humble in your research despite your strength. I’m really ashamed.”

Zhou Hao was speechless, but he said, “As the ancients say, there is always someone to learn from. The path of martial artists is even more broad and profound. I need to learn and study more if I want to improve.”

Chapter 114 - Synthesized A Rare Item

Chapter 114: Synthesized A Rare Item

“Yes, yes, you are right!” He Biao made an inviting gesture and then followed Zhou Hao to the secret-level floor.

Zhou Hao casually chose a movement-type secret technique.

He now had the “Sky Splitting Divine Technique” for attacking and the Black Tortoise Divine Turtle Armor for defending. Moreover, the “Nine Revolutions Golden Body Art” could also greatly increase his physical defense. Therefore, what he lacked was movement techniques.

After choosing, Zhou Hao did not let He Biao send him off. He directly soared into the sky and arrived at the wilderness area. Then, he opened the Heaven Dao software.

“There are a total of five movement techniques:” Vanishing Step “,” Thousand Illusionary Body “,” Illusionary Step “,” Nine Palace Technique “,” Blood Mist”...” Zhou Hao hesitated when he opened the synthesis page.

These five movement techniques were relatively low-level.

Even if they were synthesized, it would probably still only produce a low-level high-level secret technique.

If he could first upgrade the five movement techniques to the third level through the mystery box before synthesizing them, he would definitely be able to obtain a better movement technique.

However, after thinking carefully for a moment, Zhou Hao dispelled this thought.

He still had more than 40 million luck points left. Although it was very likely for him to increase all five of his movement techniques to the third level, he would not have the luck points to synthesize the five top-grade movement techniques after that.

It had to be known that the higher the level of the item, the lower the probability of successful synthesis.

Therefore, he might as well first synthesize a low-level movement technique before upgrading it through the mystery box.

It was much more worth it this way.

Thinking of this, Zhou Hao immediately placed the five movement techniques on the synthesis page.

“Ding! The synthesis of the five items will cost 5,000 roses. Are you sure you want to synthesize?”

The system displayed a message.

Zhou Hao did not hesitate and clicked ‘yes’ subconsciously.

At the same time, he hurriedly consumed a million luck points.

The consumption of roses was based on the level of the items. Two items, three items, four items, and five items cost 100, 500, 1000, and 5000 roses respectively.

Zhou Hao had understood this from the moment he synthesized the thousand-year Ice Marrow Mushroom.

Therefore, he only chose five movement techniques. After all, six types would cost him 10,000 roses. If the synthesis failed, it would be a waste.

Boom!

As his luck points was consumed, the five boxes on the synthesis page instantly disappeared.

A few seconds later, a box gradually appeared.

“Ding! Congratulations on completing the synthesis and obtaining a rare cultivation technique,” Flowing Light “. The item has been placed in your backpack. Please take note!”

Synthesized rare-level items were kept private and would not be announced on the screen.

Zhou Hao was also not surprised that he did not see the system announcement.

He returned to his personal page and retrieved Flowing Light. Immediately, a large amount of information regarding this movement technique surged into his mind.

Flowing Light: Allows one’s body to become like a stream of light, traveling thousands of miles in an instant.

In next to no time, he understood that once he cultivated this movement technique to its peak-level, he could basically cross hundreds of kilometers in an instant.

However, very few people could really cultivate this technique to its peak-level. At most, they could only master it and travel tens of kilometers in an instant.

Zhou Hao was not disappointed. He simply went to the gold mystery box page.

Ever since he advanced to gold level, he had yet to open a gold mystery box.

Looking at the gold mystery box, Zhou Hao first charged 100 million yuan.

After all, opening a single gold mystery box required one million Heaven Dao coins.

Fortunately, after the last beast wave attack, he had sold a portion of the demon king materials and obtained 200 million yuan through Grandmaster Zhen Hong of the human resources department in the Merchant Alliance.

However, he did not plan to sell the materials for the Cloud Mink King’s corpse for the time being.

Immediately, his account balance became 1,053,100.

“I wonder what the difference between a gold mystery box and a silver mystery box is?!” He pondered. According to the rules, gold mystery boxes were similar to silver mystery boxes. However, since the cost of opening a silver mystery box was a hundred times higher, there had to be a difference somewhere.

He opened his eyes.

Ding... do you want to open a gold mystery box once? ‘

“Yes!”

Soon, the system sent another message. “Ding! Please fill in your current cultivation techniques, weapons, and medicinal pills.”

Zhou Hao hurriedly filled in the “Flowing Light”, “Nine Revolutions Golden Body Art”, and “God Slaying Saber”.

Since the other items had already reached peak-level, there was no point in filling those items into the form.

After filling in the form.

The golden mystery box screen displayed the information.

Cultivation Technique: “Three Revolutions Golden Body Art”—“Six Revolutions Golden Body Art”.

“Flowing Light”—“Flowing Light Evasion”—“Golden Crow Escape Technique”—“Nine Horn Lightning Snake Movement”.

Weapon: God Slaying Saber—Blade of Nirvana.

Medicinal Pills: None

Zhou Hao immediately spent 10 million luck points.

With 10 million luck points, Zhou Hao had the status of “achievable dreams”. Therefore, Zhou Hao expected to get the “Nine Horn Lightning Snake Movement”.

Boom!

When the gold mystery box opened, the entire virtual screen trembled.

A golden five-clawed golden dragon circled the mystery box before drilling in.

At the same time, the gold mystery box opened with a bang.

Chapter 115 - Who Is It?

Chapter 115: Who Is It?

Ding! Congratulations on obtaining a rare cultivation technique “Golden Crow Escape Technique” from the gold mystery box. The item has been placed in your backpack, please take note. ”

At the same time, a system announcement appeared on the screen: Congratulations user “I am just an ordinary person” for obtaining a rare-level cultivation technique from the gold mystery box. Congratulations!

The announcement for the gold mystery box also required users to have at least the gold level to be able to see it.

Most gold, platinum, and diamond users saw this announcement and were not as excited as ordinary and silver users.

Many of them only frowned.

“This guy really got another rare gold cultivation technique!”

“Hmph, he must have some lucky charm with him. Unfortunately, my level is not high enough. Otherwise, I would have been able to find out more about him!”

“Tsk tsk, the mystery box is only a low-level game. When he gets to the live-stream room, I’ll have to compete with him!”

Zhou Hao naturally did not know that users above gold had already targeted him. At this moment, after opening the second-level rare “Golden Crow Escape Technique”, he frowned slightly.

Clearly, the higher-level movement technique “Nine Horn Lightning Snake Movement” required more luck points to be obtained.

Shaking his head, he went to his personal page and retrieved the “Golden Crow Escape Technique”.

“Golden Crow Escape Technique”: The ancient Golden Crow Race’s movement technique. After mastering it, one can travel thousands of kilometers in an instant and be carefree!

Additional Divine Power: Possess three chances to transform into an ancient Golden Crow.

As this information surged into his mind, Zhou Hao's face flashed with pleasant surprise. "I didn't expect there to be additional divine powers! Looks like this is the difference between the gold mystery boxes and the other boxes!"

The ancient Golden Crow was extremely powerful. Be it escaping or attacking, it was invincible.

In other words, with the Golden Crow escape technique, Zhou Hao basically had extra lives.

"Not bad!" Although he did not get the "Nine Horn Lightning Snake Movement" he wanted, the "Golden Crow Escape Technique" was still more powerful than he had expected.

Immediately, he used the "Golden Crow Escape Technique". His body suddenly turned into a red stream of light, and in the blink of an eye, he arrived at the center of a wide lake outside Huaxia City.

Roar!!

Just as he was floating in midair, a blue python suddenly rushed out from the surface of the lake. This python had antlers on its head. It opened its bloody mouth, and a ten-meter-long water arrow blasted towards Zhou Hao at lightning speed.

"Damn, this is an overlord-level demon beast, the Blue Water Dragon!" Zhou Hao, who was still in a daze, only reacted when the water arrows were about to drown him.

He casually slashed out with his saber.

Rip!

A sharp saber aura spread out and directly shattered the water arrow. Then, it suddenly rushed towards the Blue Water Dragon.

The originally arrogant overlord-level demon beast, the Blue Water Dragon, looked at the terrifying and sharp saber aura as fear surged in its eyes.

Boom!

When the Saber Qi enveloped over, the inside of the Blue Water Dragon's body was directly torn apart. Its eyes lost their luster and fell.

Zhou Hao's body flashed and arrived beside the Blue Water Dragon. He kicked it out of the lake.

Boom!!

The thousand-meter-long Blue Water Dragon smashed into the shore of the lake, causing the ground to tremble.

...

In the wilderness area not far from the lake, a few figures were resting.

Hearing the commotion from the lake, they all stood up.

"It's the roar of the Blue Water Dragon!"

"Damn, who is this? He actually dared to provoke the Blue Dragon Water Dragon. Although that beast is only a low-level overlord, due to the environment, its strength is still comparable to an intermediate-level overlord!"

"Let's go and take a look. It might be another supernatural expert!"

The three of them were extremely fast and arrived at the low hill beside the lake in less than ten seconds.

They happened to see Zhou Hao kick the Blue Water Dragon away and were all stunned.

Zhou Hao landed beside the Blue Water Dragon's corpse and was about to put it into the Black Tortoise Divine Turtle Armor when he sensed three powerful auras.

"Who is it?" An incomparably terrifying pressure surged from his body.

Swoosh! Swoosh! Swoosh!

The three figures regained their senses and hurriedly flashed to Zhou Hao's side.

"Sir, we didn't mean to spy on your battle. We only rushed over after hearing the commotion!" The middle-aged man in the lead was wearing black armor and bowed respectfully.

The man and woman next to him were shocked when they saw the corpse of the Blue Water Dragon.

From the moment they heard the Blue Water Dragon's roar to the moment they rushed over, the entire process took less than ten seconds.

Just ten seconds!

The overlord-level demon beast, the Blue Dragon Water Dragon, was actually killed in ten seconds??

Zhou Hao came to a realization and couldn't help but smile. "It's fine."

He retracted his pressure, and the three of them immediately felt their bodies lighten.

"Are you all supernatural experts?" Zhou Hao asked. The auras of the three people were much stronger than Commander Zhao's, but they were slightly weaker than Han Pu's. They should be supernatural experts below the third-grade.

The middle-aged man hurriedly said, "Yes, sir. The three of us have just broken through to the supernatural level. The main reason why we came to the Thousand Pool Ice Lake this time is to train our strength."

Zhou Hao nodded and asked, "Then where is this place?"

The middle-aged man was stunned for a moment, not knowing what Zhou Hao meant.

The enchanting woman on his left understood and hurriedly said, "Sir, this is the southern area of the Huanan City!"

"What? Huanan City??" Zhou Hao's eyes widened.

Chapter 116 - Its Late, I Have to Go Back

Chapter 116: It's Late, I Have to Go Back

"Yes." The charming woman nodded repeatedly.

The middle-aged man and the other man nodded one after another.

Zhou Hao smiled bitterly. He did not expect that he would accidentally travel from the Huadong City to the Huanan City in a flash after testing the strength of the "Golden Crow Escape Technique".

The two places were thousands of kilometers apart!

The charming woman noticed Zhou Hao's tone and expression and could not help but ask, "May I ask where you came from, sir?"

Zhou Hao waved his hand and sighed. "I came from Huadong... Alright, it's not early. I have to go back!"

With that said, he waved his hand, and the Blue Water Dragon's huge corpse instantly disappeared.

"I hope to see you guys again!"

Swoosh.

His figure suddenly disappeared.

The three supernatural experts were dumbfounded. They only returned to their senses a few minutes after Zhou Hao disappeared.

"Did that senior... just say that he was from Huadong City?"

"Huadong City is five to six thousand kilometers away from here. This..."

The middle-aged man's expression was solemn. "This matter cannot be made public. That senior almost instantly killed an overlord-level Blue Water Dragon. Moreover, when he disappeared just now, I didn't even catch a trace of his shadow. His strength is simply shocking!"

At this point, he couldn't help but take a deep breath, and his eyes flashed as he said, "It's very possible that we encountered a peak-level ninth-grade supernatural expert!"

At the Yang Garden Residence.

Zhou Hao sat on the sofa comfortably and drank his beverage. There was still a pleasantly surprised expression on his face. The effect of the "Golden Crow Escape Technique" was simply extraordinary.

The distance between the Huadong City and the Huanan City was thousands of kilometers. Before the Cataclysm, even large passenger airlines took nearly three hours to travel between the two places. After the Cataclysm, technology on Earth had developed rapidly, but even special aircraft required more than half an hour to arrive.

As for him... it had only taken less than three minutes. Moreover, he had even finished off an overlord-level Blue Water Dragon in the process. The time it took for him to truly travel was less than ten seconds!

"The movement speed of the" Golden Crow Escape Technique "is already so miraculous. I wonder how abnormal the higher-level" Nine Horn Lightning Snake Movement" will be!"

He muttered softly, his eyes flashing with anticipation. Although at this stage, with the remaining 30 million luck points, it was still somewhat difficult for him to obtain the “Nine Horn Lightning Snake Movement”, as long as he continued to accumulate luck, he would eventually obtain this higher-level movement technique.

Of course, at present, the “Golden Crow Escape Technique” could already completely satisfy his traveling needs.

“A gold mystery box that costs 1,000,000 Heaven Dao coins is indeed awesome. Not only does it increase the cultivation technique’s effects, but the cultivation technique and secret techniques are also ridiculously powerful!” He felt somewhat emotional. Before opening the box, he had felt heartache, but after opening the box, he could only feel that it was totally worth it!

Knock, knock.

At this moment, there was a knock on the door from outside. Zhou Hao hurriedly got up and opened the door.

It was his parents.

As soon as they entered, Wang Shuyun changed into her slippers and said with a smile, “Little Hao, the medicinal effect of that rock you gave us last time is really extraordinary. The pain in your father’s back has subsided a lot. Moreover, many people in the company I work in say that I’m ten years younger!”

Zhou Hao knew that Wang Shuyun was talking about the Life Stone.

That thing was a natural treasure that could allow one to subtly advance to the grandmaster level. Its effects were naturally excellent.

“Mom, it’s good that it’s effective. Didn’t I leave some medicinal herbs at home a few days ago? Those things are all relatively precious cultivation resources. If you have nothing to do, just use those to nourish your body,” Zhou Hao said with a smile.

Zhou Xueguo and Wang Shuyun looked at each other and smiled mysteriously. “Alright, we’ll do as you say, Son.”

After dinner.

As Zhou Hao was browsing his phone in his room, he heard his father’s voice. “Honey, the few things that our son brought back are all just as valuable as the Scarlet Blood Vine and the Rhino Horn. You have to be careful. Don’t let your company mess with them!”

“Don’t worry. I’ve worked in the company for more than a decade, so how could I be scammed? The leader has already said he could use those materials to create a lot of high-grade medicinal pills. When our son eats them, he will definitely be able to break through to become a martial artist!” Wang Shuyun said confidently.

“That’s good. By the way, did your leader tell you the exact time the pills will be ready?” Zhou Xueguo asked.

Wang Shuyun shook her head. “No, I’ll ask tomorrow. The process of making medicinal pills is very complicated. I think it will take at least a week.”

Hearing these words, Zhou Hao could not help but shake his head lightly. He was already at the master level and his combat strength had even reached the peak of the ninth-grade supernatural level. The resources he had obtained from the wilderness area were useless to him. He originally wanted to let his parents consume them to increase their physical fitness, but he did not expect the two elders to consider him first.

“Looks like I have to reveal my strength as soon as possible to reassure Dad and Mom!” he thought to himself.

Restraining his senses, Zhou Hao instantly made the surrounding voices disappear.

Chapter 117 - Ranked At The Bottom

Chapter 117: Ranked At The Bottom

He swiped his phone for a while and lay down to sleep. With his current strength, he would be fine even if he did not sleep for half a year, but he still maintained the habit of an ordinary person.

The next day.

After arriving at the virtual training room of the school, Zhou Hao saw that Xu Ling was already sitting in the virtual cabin. Upon seeing this, he leaned closer and stretched out his hand.

“What?” Xu Ling looked up and asked.

“Your cake was pretty good yesterday. Where’s the one you brought for me today?” Zhou Hao smiled.

Xu Ling's jade-like face instantly flushed red. She glared at Zhou Hao. "I'm not your nanny. If you want to eat, cook it yourself!"

With that said, she added, "I did it casually yesterday. Consider it a reward."

Zhou Hao was already used to Xu Ling's sharp tongue, so he continued to smile indifferently. "What was the reward for?"

Xu Ling snorted and turned her head. "You're asking the obvious. I'm ignoring you!"

Zhou Hao leaned closer and almost smelled the delicate fragrance emitted from Xu Ling's body. This delicate fragrance was naturally produced by her special physique, making one feel refreshed.

"Tell me the details so that I can get another reward from you next time!" Half of his body entered Xu Ling's virtual cabin.

Many students around them went crazy with jealousy when they saw this.

"Go, go, go. Hurry up and go back to your seat. Instructor Shen will be here soon!" Xu Ling pushed Zhou Hao out with a red face.

As soon as she finished speaking, Zhou Hao heard Instructor Shen's unique footsteps outside the classroom.

He hurriedly returned to his virtual cabin.

The moment Instructor Shen appeared at the door, the other students also hurriedly entered the virtual cabin.

Shen Jing stood at the podium and swept his gaze around before starting to check attendance.

The rules of the focused training class were very strict. Those who were late by three times would be directly disqualified.

After checking attendance, he said, "The training intensity will continue to increase today. In addition, the training class has been established for almost a month. The day after tomorrow, the class will hold a true combat training assessment. The results will include the total amount of points you currently have. The combat training assessment itself will also take up a lot of points!"

After a pause, he said with a solemn expression, "If any of you are ranked at the bottom of this assessment and do not exceed the minimum requirements, you will be expelled from the class regardless of your total points!"

Swoosh.

As soon as he said this, the expressions of all the students in the training class changed.

After getting a taste of the cultivation resources of the training class, none of them wanted to leave.

A student could not help but ask, "Instructor Shen, may I know if this combat assessment will be a one-on-one battle or a team battle?"

Instructor Shen said indifferently, "Of course it's a one-on-one battle."

Upon hearing this, most of the students heaved a sigh of relief. Many of them glanced at Zhou Hao from the corner of their eyes.

Zhou Hao was supposed to be ranked at the bottom of the class, but because he relied on Xu Ling and Zhang Yi, his total points was not bad and was even ranked in front.

However, in this combat training assessment, without Xu Ling's protection, Zhou Hao would undoubtedly have to rely on himself.

In other words, Zhou Hao would definitely be ranked at the bottom of the class.

Therefore, most of the students did not feel pressured.

Instructor Shen also swept his gaze over Zhou Hao and sighed in his heart. In his opinion, Zhou Hao would definitely be disqualified this time.

Once the latter was disqualified, there would be no hope for him and Xu Ling to remain as a couple in the future.

"I hope it won't be too much of a blow to him!" He retracted his gaze and thought to himself. It was very difficult for the relationship between a poor boy and a rich girl to have any results since ancient times. Furthermore, ever since the Cataclysm, strength became the only thing people valued.

On the top floor of the Xu Medical Company building.

"Chairman, Miss is here," the uniformed secretary said softly.

Xu Zhenguo, who was handling some documents, hurriedly stood up and walked out with a smile.

“Ling’er, why did you come to the company after school today? Didn’t you still have to undergo special training with Instructor Shen?” Xu Zhenguo walked in front of Xu Ling. His voice was soft and gentle and contrasted with his dignified appearance.

Xu Ling walked into the chairman’s office with a worried expression.

Xu Zhenguo noticed his daughter’s mood and hurriedly waved his hand to dismiss the female secretary, indicating that he did not want to be disturbed.

“Ling’er, what’s wrong? Who bullied you? Tell Dad and I’ll go straight to his door and beat him up to vent your anger!” Xu Zhenguo hurriedly said.

Xu Ling shook her head. She sat on the sofa and looked at Xu Zhenguo. “Dad, our class is holding a true combat training assessment tomorrow!”

Xu Zhenguo was stunned for a moment before he immediately smiled. “That’s a good thing. With your strength, you should be able to surpass those geniuses in Yanjing and get first place in the class... I’ll celebrate for you personally when the time comes!”

“Dad!” Xu Ling bit her lip and hesitated. “But... but our team’s Zhou Hao is too weak. I’m afraid that he won’t even be able to meet the minimum requirements this time. Therefore, I came here to ask for your help, Dad!”

Chapter 118 - Stop Jinxing

Chapter 118: Stop Jinxing

Xu Zhenguo frowned subconsciously when he heard this. He had more or less heard of this student, Zhou Hao. After all, Zhou Hao was very close to his daughter, so it was impossible for him not to know.

However, he had never interfered because he was afraid that his daughter would become rebellious.

But now, it seemed that his daughter had fallen for him completely.

He knew very well that no matter what difficulties his daughter encountered, she had never asked him for help.

“Dad!” Seeing that Xu Zhenguo did not say anything, Xu Ling could not help but shout again.

“Ling’er, how do you want me to help your classmate?” Xu Zhenguo suppressed the annoyance in his heart and asked.

Xu Ling hesitated. “Dad, didn’t your company develop a special medicinal pill to increase your cultivation level recently? I want to give that to Zhou Hao.”

Xu Zhenguo refused flatly. “No!”

Xu Ling was stunned. She did not expect her father to refuse so decisively without any room for negotiation. “Dad, why?”

Xu Zhenguo also realized that his tone was wrong and hurriedly explained, “Ling’er, the side effects of that medicinal pill are too great. Although it can immediately help your classmate advance to a high-level martial artist, he will be stuck at this level for the rest of his life.”

Xu Ling shook her head. “Dad, but... but that’s not what you said last time!”

“Last time... Last time, it was because we didn’t finish testing the side effects!” Xu Zhenguo looked at Xu Ling and couldn’t help but say, “Ling’er, I know you’re being kind, but this kind of thing can’t be rushed or forced. Even if you help your classmate this time and let him pass the combat assessment, what about next time? Can you help him forever?!”

Without waiting for Xu Ling to speak, he continued, “Now that you have the Ice Muscle Body, you’re destined to be extraordinary in the future. You should give up on those ordinary students!”

Xu Ling was not stupid. On the contrary, she was extremely bright. When she heard this, how could she not know what her father meant? She stood up from the sofa and said expressionlessly, “Dad, I understand. Continue with your work!”

As she spoke, she walked quickly to the door.

“Ling’er...” Xu Zhenguo shouted anxiously.

Xu Ling paused for a moment. “Dad, Zhou Hao was the one who discovered and found the Ice Needle Mushroom. If not for him, your daughter would have died in the mouth of the Blackman Demon Python. In addition, I’m not saying this on purpose to help him. I’m only stating the facts. If Zhou Hao is expelled from the training class this time, I will also leave the training class with him!”

With that, she walked out of the office without looking back.

Xu Zhenguo looked at his daughter's back and smiled bitterly. He regretted saying those words just now.

"I will personally go and meet this Zhou Hao tomorrow! I want to see why my daughter is willing to do so much for him!"

...

The next morning.

On the training grounds of Qu City High School.

There was a dense crowd of people. All the year three students and teachers were sitting in the audience seats, and there were many parents on the high platform.

It was just like the previous combat assessment.

"The same combat assessment is being held at the same place. I wonder if there will be any accidents this time?"

"Stop trying to jinx it. I still want to live for a few more years!"

"Now that the wilderness area is almost cleaned up and there are only a few high-level demon warriors left, how could the foreign races invade our Qu City High School again?"

"That's right. Don't scare yourself!"

Most of the year three students were discussing in low voices, and the parents of the training class were also talking to each other.

"Director Xu has really nurtured a good daughter!"

"That's right. The Ice Muscle Body... That's a special physique destined to be extraordinary. When Director Xu becomes successful in the future, don't forget to support us!"

"Director Xu must have received a lot of invitations from the large factions in Yanjing City these days!"

Xu Zhenguo couldn't stop smiling as he listened to the surrounding parents praise him and his daughter.

Soon, Instructor Shen walked up to the high platform.

Xu Zhenguo hurriedly stood up and saluted.

“Zhenguo, I remember you were quite unlucky back then. I didn’t expect your daughter to turn out to be so lucky!” Shen Jing chuckled.

Xu Zhenguo smiled and touched his head. “I must have transferred it to her. By the way, Instructor Shen, about my daughter...”

Shen Jing waved his hand and interrupted, “Zhenguo, if you trust me, then take my advice and don’t be in a hurry to make your decision. Take your time and see how things go after a while.”

Xu Zhenguo immediately nodded. “Of course I trust you, Instructor. I’ll leave my daughter in your care!”

Not long after, all the students of the training class arrived. The school started distributing the standard T-3 armor.

After Wang Ming, Li Ji, and the other students finished wearing their armor, their expressions became solemn. Their armor was T-3, meaning that in this combat assessment, they were at least going to face demon warriors.

Indeed, Instructor Shen’s voice sounded from the high platform.

“In this combat assessment, the minimum requirement is to kill two low-level demon warriors!”

As soon as he finished speaking, the audience immediately went into an uproar.

Chapter 119 - Youre Really hopeless!

Chapter 119: You’re Really hopeless!

“What? Killed two low-level demon warriors? Did I hear wrong?!”

“Demon warriors, that’s something only martial artists can deal with. The focused training class was only established for less than a month, yet it’s already so powerful!”

“Last time, when they entered the wilderness, they worked together to kill the demon warriors. But this time, they need to do it on their own!”

“According to the standard of the city’s martial artist assessment, one can directly register as a martial artist as long as they can kill two low-level demon warriors by themselves. Apparently, there are no other requirements to register as a martial artist. Does this training class require everyone to become martial artists?!”

The other year three students were all shocked.

“Line up in rows of five. Gather quickly!” Instructor Shen shouted.

The originally dispersed students of the training class quickly gathered into a five-person row.

Clang! Clang!

Soon, iron shelves were sent to the training grounds.

As the black cloth was lifted, low-level demon warriors with hideous expressions appeared in front of everyone.

“Single-Horned Boar!”

“White Wolf!”

“Red Crown Python!”

“ ... ”

In the training team, many students looked at these demon warriors with bitter expressions.

They originally thought that they would be facing the weakest warrior-level demon beasts, but they did not expect that most of them were actually comparable to intermediate-level demon beasts.

Clearly, Instructor Shen was too confident in them.

“Let the assessment begin!!”

With a whistle, the five people standing at the front stepped forward.

Boom! Boom! Boom!

The iron shelves opened, and low-level demon warriors rushed out crazily. Their speed was shocking.

At the back of the group, Zhou Hao looked at the cold Xu Ling and could not help but whisper, "Hey, Xu Ling, have you been keeping a straight face these past two days because you're on your period?"

Xu Ling did not say a word.

Zhou Hao pursed his lips. "Are you mute?"

Xu Ling turned her face around and frowned. "Zhou Hao, don't you feel any pressure at all in this combat assessment?"

"Hehe, so you were worried that I wouldn't pass the assessment? I didn't know you cared about me that much." Zhou Hao immediately laughed.

Xu Ling was speechless and said angrily, "Why are you still thinking about such nonsense at a time like this?!"

Zhou Hao looked at Xu Ling and clicked his tongue. "You are indeed different with your special physique. You even look good when you're angry!"

"You're really hopeless!" Xu Ling shook her head and ignored Zhou Hao. In any case, she had already decided to leave the training class with Zhou Hao.

Bang! Bang! Bang!

At this moment, intense fighting sounded from the five separate training grounds.

The students soon faced the White Wolf, the Single-Horned Boar, and the other demon beasts that were comparable to intermediate-level demon warriors. If this was back then, the students would definitely panic. However, after a month of virtual combat training, their combat strength had undergone a fundamental change. After a short period of adaptation, they all erupted with combat strength that far exceeded their cultivation level.

"Beautiful!"

"Too impressive. The focused training class is indeed worthy of being the city's hope!"

"Instructor Shen is indeed worthy of his reputation. In less than a month, he has transformed these students!"

"Resources are still very important. These students are basically all at the third level of blood essence, and some of them have even reached the level of a martial artist!"

Some of the parents on the high platform smiled at each other.

The students of the other classes were completely stunned. They did not expect the training class to change them so drastically. It had to be known that more than a month ago, those focused training class students were no different from the students from other classes in strength. In fact, some of the students in the focused training class were actually weaker.

But now, the students from the focused training class are already capable of killing low-level demon warriors!

"I wonder if the training class is still recruiting?"

"Definitely. Moreover, it's said that some students will be disqualified from the combat assessment this time. When the time comes, they will definitely recruit more!"

"Ah, what are the requirements for entering the training class?"

"I don't know. In any case, I have to sign up this time. No matter how difficult it is, I have to enter the training class!"

Many students were inspired.

Time passed slowly. Teams of students from the training class went forward one after another to fight the demon warriors.

The ones with the best results were Yuan Cheng, Yun Yan, and the Yanjing geniuses. Each of them had killed ten demon warriors, reaching the upper limit of the combat assessment.

As for Wang Ming, Li Ji, and the other outstanding students who had broken through to become martial artists, their results were also not bad as they had each killed six demon warriors.

Most of the remaining third level blood essence students performed well as well. They had killed at least three demon warriors. All of them had exceeded the minimum requirements set by Instructor Shen.

Soon, it was Zhou Hao and Xu Ling's turn.

Countless students and parents looked over, their gazes focused on Xu Ling.

"Yuan Cheng, Yun Yan, and the other Yanjing geniuses took less than half a minute to kill ten demon warriors. I wonder how long Xu Ling will take?"

"It must be even shorter. After all, Xu Ling is already a master-level expert!"

“Not necessarily. Xu Ling has only broken through to the master level for a short period of time. I don’t think she has fully adapted to her strength yet.”

Some parents discussed among themselves.

The students of the other classes, especially the boys, were stunned the moment they saw Xu Ling!

Chapter 120 - Shock Everyone

Chapter 120: Shock Everyone

“Damn, is that Xu Ling?”

“How beautiful!”

“Did she undergo plastic surgery?”

“Ignorant fool. Now that Xu Ling has activated her Ice Muscle Body, her skin, body, and aura will naturally be different!”

“I can’t take it anymore. I feel like I’ve fallen in love with her!”

The boys widened their eyes and wished they could rush up to see Xu Ling up close. The girls were all envious.

Zhou Hao and the others walked forward.

“All the best!” Zhang Yi raised his fist.

“Let’s work hard together!” Zhou Hao smiled.

On the high platform, Instructor Shen looked back and forth between Zhou Hao, Zhang Yi, and the others, wondering who the hidden genius of the school was.

Although Xu Ling’s sudden transformation had made him less excited about the whole matter, he was still on the lookout for that peerless genius.

“Begin!!”

Boom! Crack!

With a whistle, the iron doors opened one after another.

Zhou Hao was facing the Red Crown Red Python. He saw that the speed of this Red Crown Python far surpassed the other four low-level demon warriors. It rushed over in less than ten seconds after covering a distance of hundreds of meters.

“Haha, this Zhou Hao is doomed!”

“I remember that in the previous combat assessment, Zhou Hao was lucky enough to kill a mutated beast and obtained the opportunity to enter the training class. But this time... he actually encountered the Red Crown Python!”

“I’ve said it before. No matter how lucky you are, there will be a day when you run out of luck!”

“I bet he can’t last more than ten seconds!”

“You think too highly of him. He’ll last three seconds at most!”

Many year three students laughed and discussed. They were naturally not unfamiliar with Zhou Hao. After all, he was the only one who had relied on luck to enter the training class.

Some of the other students who had passed the training class assessment also sneered secretly.

On the high platform, most of the parents’ gazes were focused on Xu Ling, but Xu Zhenguo was staring at Zhou Hao.

Pu!

The Red Crown Python pounced like a bolt of lightning. Zhou Hao pretended to be clumsy as he dodged sideways, his body almost brushing past the Red Crown Python’s scale armor.

After the Red Crown Python missed, its tail immediately swept towards Zhou Hao.

Zhou Hao placed the saber in front of him and took a step forward.

Bang!

The Red Crown Python’s tail was powerful, directly blasting Zhou Hao back.

However, the angle at which Zhou Hao was standing happened to cause the Red Crown Python's tail to hit its own head.

Chi!

Zhou Hao raised his saber with both hands and slashed.

The Red Crown Python's head was sliced in half by the saber like tofu.

"What?!"

Xu Zhenguo, who was staring at Zhou Hao, suddenly stood up!

The other parents were stunned when they saw Xu Zhenguo's action. However, they soon heard an uproar that sounded like a tsunami.

The year three students in the spectator stands exclaimed.

Instructor Shen, who was originally watching Xu Ling's battle, also noticed the abnormality. He swept his gaze around and could not help but be stunned.

"This... Zhou Hao was the first to kill a demon warrior?"

Boom! Crack!

The second iron cage opened, and the Single-Horned Boar rushed towards Zhou Hao.

Instructor Shen, many parents, Xu Zhenguo, and the others stared at Zhou Hao this time.

Swoosh.

Zhou Hao's body was like a spring. At the instant the Single-Horned Boar rushed up, he bounced back slightly and then turned to the side to draw his saber.

Bang.

The Single-Horned Boar's head fell, but its body still maintained its forward momentum.

Waves of exclamations sounded from the audience again.

Zhou Hao's clean killing of the Single-Horned Boar had truly exceeded their expectations.

The killing of the Red Crown Python just now could still be considered an occurrence of luck. However, considering that this Single-Horned Boar was not a fool, everyone was able to recognize the combat strength Zhou Hao displayed!

On the high platform, Xu Zhenguo could not help but exclaim, “This... this Zhou Hao’s strength...”

Shen Jing stretched out his hand and interrupted, “Don’t make a sound. Keep watching.”

The other parents who wanted to speak immediately shut their mouths. Xu Zhenguo also suppressed his surprise and continued to watch.

Next were the White Wolves and the Snow Leopard...

However, every warrior-level demon beast was quickly killed by Zhou Hao. The entire process did not take more than five seconds!

It took Zhou Hao less than two minutes to kill the ten demon warriors.

Such a speed of killing was comparable to that of Yuan Cheng, Yun Yan, and the other Yanjing geniuses.

When he retreated from the real battlefield, the entire training ground was silent.

Chapter 121 - Combat Talent?

Chapter 121: Combat Talent?

Wang Ming, Li Ji, Yuan Cheng, Yun Yan, and the other students of the training class watched Zhou Hao return to the team in a daze, their faces filled with disbelief.

“For Zhou Hao to do what he just did, he must have reached the level of a martial artist!”

“That’s right. To think that Zhou Hao, who has always been ranked at the bottom of the class, actually broke through to the martial artist level without others noticing!”

“He probably broke through after the wilderness cleanup operation last time. Xu Ling must have given Zhou Hao a lot of rare resources. With so many resources, even a pig can break through to become a martial artist!”

“But even if he’s a martial artist, it’s still impossible for them to kill the demon warriors so quickly, right? And there were even ten of them!”

“When did Zhou Hao become so powerful!”

Most of the students in the training class could not help but discuss.

On the high platform, Shen Jing retracted his shocked gaze.

Principal Zheng could not help but step forward and whisper, “Instructor Shen, could Zhou Hao be...”

Shen Jing shook his head. “No, I’ve observed carefully. This Zhou Hao’s blood essence level is only at the martial artist level. The reason why he was able to kill the demon warriors so quickly is because he has natural combat talent!”

“Combat talent?” The parents of the students, including Xu Zhenguo, shouted in surprise.

“That’s right.” Shen Jing’s expression was solemn. “All of you should have noticed that Zhou Hao doesn’t make any unnecessary movements. It actually resembles the Minute Subtlety movement technique of high-level experts. However, at the same time, he doesn’t seem to be following a movement technique at all. This shows that he has never systematically learned this before. Moreover, when he first moved, his movements were clumsy and stiff. But as he continues moving, he appears to be becoming more and more proficient...”

“There’s only one explanation for this situation. It’s his innate combat talent!”

At this point, Shen Jing sighed with emotion. “I’ve been an instructor in the Yanjing Training Camp for nearly twenty years, but there are very few students with such combat talent. I didn’t expect to find someone like him in Qu City High School!”

“Instructor Shen, it’s not that I don’t believe you, but this Zhou Hao has never displayed any combat talent before. Isn’t it too much of a coincidence for him to show it in actual combat this time?” Xu Zhenguo frowned and asked.

Shen Jing glanced at Xu Zhenguo and said indifferently, “In the previous combat competition, Zhou Hao killed two mutated beasts. Do you really think that was just luck?”

The eyes of the other parents lit up. "That's right. I also thought it was strange back then. No matter how lucky a student is, it's still impossible for him to rely on luck to kill so many mutated beasts. Now that I think about it, it's very likely because of Zhou Hao's combat talent!"

Xu Zhenguo also recalled carefully.

Shen Jing's voice continued to ring out. "Actually, combat talent isn't that special. It's mainly about one's timing. Especially in a battle with the enemy, the opportunities to strike can be quite fleeting, and most people are unable to catch such an opening. However, a person like Zhou Hao seems to be able to accurately catch it and defeat demon beasts stronger than him!"

Hearing Shen Jing say this, the scene of Xu Hao killing the Red Crown Red Python by using the python's own tail flashed in Xu Zhenguo's mind. He could not help but nod heavily. "Instructor Shen, thank you! I have learned a lot."

Seeing this, Principal Zheng asked, "Instructor Shen, since natural combat talent is so rare, it seems that Zhou Hao is also a genius. With some nurturing, he might be able to become an expert!"

Instructor Shen shook his head lightly. "People with combat talent are usually extremely strong when they develop, but it requires them to be able to develop in the first place ... This Zhou Hao's foundation talent is too ordinary. Previously, he was stuck at the first level of blood essence. If not for the many resources he obtained from clearing the wilderness, he probably wouldn't have been able to break through to become a martial artist in his entire life!"

Xu Zhenguo shook his head when he heard this, thinking to himself that he couldn't be soft-hearted. He still had to break up his daughter and Zhou Hao.

However, at this moment, Instructor Shen suddenly changed the topic. "However, combat talent is still too rare. It's not easy for us to find such a genius. We have to give him a chance."

Xu Zhenguo immediately smiled bitterly. "Instructor Shen, do you mean that Zhou Hao is worth nurturing?"

"It depends on his luck," Instructor Shen said ambiguously.

Xu Zhenguo was speechless. The combat assessment of the training class came to an end as Zhou Hao and the other students finished up.

Zhang Yi patted Zhou Hao's shoulder excitedly. "Not bad, Hao'zi. I didn't expect you to have also broken through to become a martial artist!"

Zhou Hao chuckled. “I just wanted to give you guys a surprise!”

As he spoke, he looked at Xu Ling.

Xu Ling's jade-like face was also filled with an excited smile. When she heard that Zhou Hao had passed the assessment, she was even happier than when she found out that she had passed.

However, seeing Zhou Hao wink at her as if he wanted her to praise him, the smile on her face immediately disappeared. She snorted. “You didn’t surprise us, you simply shocked us. You made Zhang Yi and I worry for nothing. Remember to buy us dinner tonight to make up for it.”

When Zhang Yi heard this, he smiled and said, “Yes, yes, Zhou Hao, you have to treat us!”

“No problem. Why don’t you guys come to my house tonight? My mom cooks really well,” Zhou Hao said without thinking.

Zhang Yi hurriedly nodded. “Sure, let’s go to your house and try Auntie’s cooking!”

Xu Ling became hesitant. “If I go to your house, won’t I disturb Uncle and Auntie? Also, seeing your parents so soon is a little...”

Zhou Hao laughed. “Xu Ling, are you afraid of meeting my parents?”

Xu Ling could not stand seeing Zhou Hao being smug. She immediately put up a front and said, “Fine, I’ll go. I wasn’t afraid at all. Also, buy some wine tonight. We have to celebrate.”

“Alright!” Zhou Hao said happily.

On the high platform, Instructor Shen’s voice sounded. “The combat assessment for the focused training class has officially ended. After nearly a month of hard training, everyone has improved faster than I expected. Everyone has surpassed all the minimum requirements. You’ve all made me proud!”

“Therefore, I’ve decided that everyone will pass this combat assessment!”

Chapter 122 - Opening the Land Pathway

Chapter 122: Opening the Land Pathway

“Yeah!”

“That’s great!”

“Wuwu... Including my total points, I’m ranked at the bottom this time. I didn’t expect the instructor to be so nice!”

Many students who had lagged behind in points in the training class were so excited that they cried tears of joy.

Only after experiencing the training class did they truly understand that the training class could change their lives.

Therefore, every student was very nervous and worried that they would be expelled from the class.

But now, with Instructor Shen’s words, they at least had a peace of mind for the rest of the month.

Most of the year three students in the spectator stands were sad.

“Damn, if everyone in the training classes passed, how are we supposed to enter the training class?!”

“That’s right. Even Zhou Hao, who is ranked at the bottom, has broken through and became a martial artist. If we go in, we will definitely be able to break through to a martial artist too!”

“Quickly ask the teacher if there are any other ways to enter the training class.”

After the combat assessment ended, the principal, dean, and even the teachers of the various classes were surrounded by smart students who asked about the training class.

...

After school.

Zhou Hao had just returned to the Yang Garden Residence when he received a message from Commander Zhao and the others.

After hesitating for a moment, he still turned his Black Tortoise Divine Turtle Armor into red armor and quickly arrived at the city’s East Station headquarters.

Boom!

As soon as he appeared, Commander Zhao, He Biao, Zhen Hong, and the other grandmasters stepped forward to welcome him.

“Senior Zhou!”

“Senior Zhou, it’s been a few days since we last met. Your aura has become even stronger!”

“Senior Zhou is so powerful, but he still doesn’t forget to study. It really makes us ashamed!” The grandmasters said respectfully.

Zhou Hao smiled and waved his hand. “Commander Zhao, what’s the matter?”

Commander Zhao hurriedly said, “It’s like this. The king-level demon beasts that submitted to the beast wave attack last time have all been controlled by the special chip that Senior Han brought. After an unanimous agreement, we decided to first use these king-level demon beasts to open a land tunnel to the frontline fortress.”

“The frontline fortress at the spatial rift?” Zhou Hao was stunned.

Commander Zhao hurriedly explained, “This is actually Senior Han’s suggestion. The frontline fortress at the spatial rift is the key to the survival of humans on Earth. There are an incomparably large number of foreign races there, and there are also many experts in the base. If our Huadong City can open up land transport with the frontline fortress, then the city will be able to welcome rapid development!”

Zhou Hao nodded in realization. “That’s a good thing. I don’t mind.”

Commander Zhao and the other grandmasters laughed when they saw this.

“Only with Senior Zhou’s support can we have the confidence to do this!” they all joked.

Zhou Hao said without thinking, “I’ll naturally fully support something that’s beneficial to the development of the city! Commander Zhao, if you need anything, just let me know!”

Commander Zhao said happily, “Senior Zhou, with your words, I’m completely relieved. In fact, the most important thing about clearing the land transportation channel is the crew’s safety. After all, the distance from the Huadong City to the frontline fortress base near the rift is quite far. The wilderness area in between is incomparably dangerous. If not for the king-level demon beasts that you suppressed, we definitely wouldn’t dare to do such a thing.”

Zhou Hao couldn’t help but ask, “When will this be carried out?”

“It will probably take half a month to prepare,” Commander Zhao muttered.

“Alright, I’ll be prepared.” Zhou Hao nodded. “Is there anything else?”

Commander Zhao hurriedly shook his head. “No.”

Zhou Hao soared into the sky and quickly disappeared into the horizon.

They watched as Zhou Hao left.

The group of grandmasters sighed. “Senior Zhou is so powerful and is even willing to work hard to contribute to the city. It’s indeed admirable!”

Commander Zhao nodded. “The stronger you are, the greater the responsibility you have. Senior Zhou is the true pillar of our human race. Moreover, he is willing to help our city even though it is unlikely he’s from here. Therefore, we have to work hard and develop the city well to avoid disappointing him.”

“Agreed.”

“Seconded.”

...

After returning to the Yang Garden Residence, the red armor on Zhou Hao’s body slowly turned into ordinary clothes. He was very supportive of Commander Zhao and the others’ plan, but he did not know much about the frontline fortress at the spatial rift.

The school’s teachers also rarely explained such things to them. They only said that every frontline fortress was a true foreign race battlefield. Apparently, Department Director Hong from the school had once retired from the fortress.

It was said that the foreign race battlefield was like a meat grinder. Countless experts died there every year, but at the same time, countless geniuses rose up there.

Compared to the frontline fortresses of the spatial rift, bases like Huadong City, Yanjing City, and Huanan City were basically all flowers in a greenhouse.

Chapter 123 - Troubled by Good News

Chapter 123: Troubled by Good News

Zhou Hao recalled that Zhang Yi and Xu Ling would be coming over tonight.

Therefore, he quickly cleaned the living room and went to the supermarket to buy some fruits. He also took out the good wine that his father couldn't bear to drink.

Ding Dong.

Just as he finished packing, the doorbell rang. Zhou Hao hurriedly opened the door.

The person who entered his vision was Xu Ling, who had meticulously dressed up. Her hair emitted a delicate fragrance, as if it had just been washed. Her butterfly hair was stuck in a ponytail at the back and was decorated. Two strands of hair fell down from the left and right of her temples. Her eyelashes had also been combed again, and the skin on her face was spotless and fair.

Seeing that Zhou Hao was stunned on the spot, Xu Ling secretly smiled. Her eyes drifted to the living room and she whispered, "Where's Uncle and Auntie?"

Zhou Hao returned to his senses and smiled. "They're not back from work yet. Come in quickly."

Xu Ling nodded slightly and walked into the living room to see the slippers placed at the side. She consciously took off her shoes and changed into them before looking around the living room curiously.

"Zhou Hao, where's your room?" she asked.

"The room in the east is mine," Zhou Hao replied before hurriedly entering the room.

Xu Ling wanted to spit when she saw this. "I bet it's really messy in there. Hmph, why didn't you work harder when you knew we were coming over tonight?"

Zhou Hao stood in front of Xu Ling again and said innocently, "No, I already cleaned it myself."

Xu Ling looked at the living room suspiciously and touched the coffee table and dining table. "Not bad."

Zhou Hao looked at Xu Ling's elegant curves and could not help but recall her tightened figure in the virtual training environment. His mind heated up, and he went forward to

put his hand on Xu Ling's shoulder and smiled. "Xu Ling, there's only the two of us now."

It was obvious what Zhou Hao was trying to say.

Xu Ling was shocked, but she surprisingly did not resist. Instead, she lowered her head, her cheeks flushing. "What... what are you planning?"

Looking at Xu Ling's blushing face, Zhou Hao did not say anything and lowered his head as he tried to kiss her.

Xu Ling's body tensed up as her heart raced. Seeing that Zhou Hao was about to kiss her, she hurriedly closed her eyes shyly.

"Zhou Hao, I'm here!"

However, at this moment, a shout sounded from outside the door.

Xu Ling immediately pushed Zhou Hao away like a frightened rabbit and quickly walked to the sofa to sit.

Zhou Hao was speechless. He had finally gathered his courage and planned to get intimate with Xu Ling when Zhang Yi interrupted him.

He looked at Xu Ling, who was sitting on the sofa with her head lowered, and couldn't help but shake his head with a bitter smile.

Zhang Yi did not know that he had interrupted the two of them. Seeing that the living room door was open, he walked in. "Eh, Xu Ling, you're already here?"

Xu Ling nodded like a chick eating rice.

Zhou Hao said angrily, "Zhang Yi, aren't you supposed to be my best friend. In the end, you arrived even later than Xu Ling. Hurry up and change into your slippers."

Zhang Yi scratched his head and said in embarrassment, "I went back to pack my house and missed a bus, so I was a little late."

"Zhang Yi, why are you still taking the public bus? You should have made a lot of money from the training class as well as the combat assessment competition last time. Moreover, the demon warrior materials you killed are all yours. You don't have to be so frugal," Zhou Hao couldn't help but say.

"I'm used to it already. It's a habit I can't change." Zhang Yi smiled.

Seeing this, Zhou Hao did not continue to persuade him. He knew Zhang Yi's personality.

"Where are Uncle and Auntie?" Zhang Yi asked when he saw that Zhou Hao and Xu Ling were alone.

Zhou Hao looked at the time. "They should be on the way."

As he spoke, he made a call.

"Little Hao, what's the matter?" His mother, Wang Shuyun's voice sounded.

"Mom, two of my classmates came over today. Buy more food when you come back," Zhou Hao said with a smile.

Wang Shuyun replied, "Alright, but I have something to do at the company today. I might go back later. Go buy some food first. Don't let your classmate starve."

"Alright." Zhou Hao nodded.

After hanging up the phone, he placed the fruits he bought on the coffee table and looked at Zhang Yi and Xu Ling. "What do you two like to eat? I'll go buy some and fill our stomachs first. My parents might be home late tonight!"

Zhang Yi shook his head. "I don't have anything special that I like to eat."

Xu Ling also shook her head. "Me too."

"You two... Forget it, I'll go to the supermarket first. You guys play with your phones first." With that said, Zhou Hao jumped down from the balcony.

Xu Ling immediately chased up to the balcony and placed her hands on her small waist as she berated, "Zhou Hao, why did you jump off the balcony when the front door was open? You're really something. Just because you have a little strength now... How arrogant can you get!"

"I'll definitely go through the front door next time," Zhou Hao's voice sounded.

Xu Ling returned to the living room angrily and sat on the sofa to eat an apple.

Zhang Yi smiled and said, "Zhou Hao lacks someone to manage him."

Xu Ling nodded without thinking. "Yes, he just lacks supervision."

"Xu Ling, I think you're quite suitable to be the supervisor," Zhang Yi said in all seriousness, but there was a mischievous look on his face.

Xu Ling was stunned for a moment before she quickly reacted. Her cheeks flushed red, and under her thick eyelashes, her black eyes stared at Zhang Yi and said, “Zhang Yi, when did you learn to talk nonsense like Zhou Hao? How dare you tease me!”

Zhang Yi coughed lightly and said seriously, “I’m just happy. Although Zhou Hao is usually carefree, he’s also very competitive deep down. Previously, many people in the class looked down on him, but he never said anything or argued back. He just worked hard silently. Fortunately, hard work always pays off. He finally stood out in this combat assessment!”

Xu Ling was silent.

She knew how difficult it was for Zhou Hao to be in the training class. After all, every student around him was much stronger than him. In such an environment, anyone would feel immense pressure.

Many students would often give up under such pressure, and very few could work hard.

In the past, she also thought that Zhou Hao was the former, but after the combat assessment during the day, she finally understood that Zhou Hao had always been working hard.

It was precisely because she knew that he was working hard that she did not refuse when he tried to kiss her just now.

After all, hard working people deserved encouragement.

She was also very willing to encourage the person she liked.

Chapter 124 - Something Happened!

Chapter 124: Something Happened!

Not long after, Zhou Hao returned from the front door with a huge bag of snacks.

He threw it on the coffee table and smiled. “Pick whatever you want to eat. I’ve bought everything.”

As he spoke, he looked at Xu Ling and handed her a chocolate box. "Xu Ling, I remember that you like chocolate with the panda patterns. Here, this is specially bought for you."

Xu Ling received the chocolate in surprise and opened it carefully.

It was really engraved with a panda pattern.

"Zhou Hao, there's only one supermarket in the entire city that sells panda chocolates. Don't tell me you specially went to that supermarket?" Xu Ling looked up at Zhou Hao.

Zhou Hao said casually, "Fortunately, it's not far. Otherwise, even if I were a martial artist, I wouldn't be able to buy it even if I broke my leg... How is it? Are you touched? Hehe, are there any rewards?"

Xu Ling was indeed touched, but after Zhou Hao said this, her emotions disappeared. "Yes!"

With that said, she stood up and kicked Zhou Hao. "Hmph, alright, I'll admit that you're considerate. Here's your reward!"

"So mean." Zhou Hao stared at Xu Ling's chest indifferently.

"I like being mean to you. What's wrong..." Halfway through her sentence, Xu Ling realized that there was something wrong with Zhou Hao's gaze. She pondered for a moment and immediately felt ashamed and furious. "Zhou Hao, you're shameless!"

The two of them circled the sofa and chased after each other.

Zhang Yi shook his head and continued eating his snacks.

After fooling around for a while, the two of them sat on the sofa and started eating snacks.

Soon, Xu Ling and Zhang Yi discussed Zhou Hao's breakthrough to become a martial artist.

The two of them were very curious. After all, consuming rare resources required time for the body to absorb in order to have a chance of breaking through. However, Zhou Hao had only reached the first level of blood essence before this. His physical talent was ordinary and his absorption efficiency was very low. Logically speaking, in such a short period of time, he should have been able to increase his blood essence to at most the third level.

Zhou Hao casually stopped Xu Ling from continuing to ask.

The three of them chatted until almost 9 pm, and they barely had any snacks left.

“Zhou Hao, why aren’t your parents back yet?” Xu Ling couldn’t help but ask.

“That’s right. Don’t Uncle and Auntie usually come back early? Even if they have something to do, they shouldn’t be this late, right?” Zhang Yi asked curiously. He knew that Zhou Hao’s parents had been leaving work early recently.

Zhou Hao frowned. “I’ll call my father.”

He picked up his phone and dialed his father’s number.

Du...

It rang more than ten times, but no one picked up.

Zhou Hao then called his mother, Wang Shuyun, but she didn’t pick up as well.

“Maybe they’re on their way.” Seeing the worry on Zhou Hao’s face, Xu Ling couldn’t help but comfort him.

Zhou Hao shook his head. “My parents usually take the subway. It’s easy for them to answer the phone on the way. I’ll call them again later.”

Soon, ten minutes passed.

Zhou Hao called his parents again, but no one picked up.

Swoosh.

Zhou Hao stood up and gritted his teeth. “I’ll go find my parents. Something must have happened to them!”

Xu Ling and Zhang Yi stood up as well.

“Wait, let’s go together.”

“Let’s go to Auntie’s company first.”

The two of them spoke one after another.

Zhou Hao nodded.

The three of them left Yang Garden Residence together and rushed to the Jing Pharmaceutical Company where Wang Shuyun was located.

In Huadong City.

On the left side of Qu Yang Avenue, almost a third of the Jing Pharmaceutical Company was located there.

Although it was already past 9 pm, the street was still very lively. Many employees who were working overtime under the streetlights were eating at restaurants on both sides of the street.

When Zhou Hao, Zhang Yi, and Xu Ling arrived, the restaurants were even more crowded. The entire street seemed very crowded.

“Zhou Hao, don’t worry too much. Judging from the situation, Auntie is probably still working overtime,” Zhang Yi consoled.

“That’s right, Zhou Hao. So many employees haven’t gotten off work yet. This shows that they’re indeed very busy tonight,” Xu Ling also said.

Zhou Hao’s worried expression eased a little.

The three of them passed through the big crowd and arrived at the gate of Jing Pharmaceutical Company.

“What are you guys doing?” The security guard at the door stopped the three students.

Zhou Hao immediately said, “My mom isn’t off work yet. I’ll go in and take a look.”

The security guard suddenly understood. “Oh, they’re the family members of the staff. Tell me your mother’s name and sign here.”

“My mom’s name is Wang Shuyun. She’s in charge of the medicinal herbs reserves,” Zhou Hao replied and signed.

“The medicinal herbs reserves are located in Area C, don’t run around after entering,” the security guard reminded.

Zhou Hao and the other two nodded and quickly entered.

They arrived at Area C and had yet to enter when they heard the discussion of the employees coming in and out.

“This Wang Shuyun is pretty unlucky. Last time, she accidentally ruined the Scarlet Blood Vine and the Rhino Horn. This time, she actually ruined the Yellow Poria Flower, the Ginseng Spirit, and other valuable medicinal herbs.”

“That’s right. Yellow Poria Flower and Ginseng Spirit are both medicinal herbs used to refine high-level medicinal pills. They’re much more expensive than the Scarlet Blood Vine and the Rhino Horn. I wonder if she’ll be able to pay for them this time?”

“She definitely won’t be able to pay it back. Moreover, I heard that there’s something going on behind the scenes this time!”

“Oh? What is it? Tell me.”

Chapter 125 - Intolerable Bullying!

Chapter 125: Intolerable Bullying!

“It’s said that Wang Shuyun got four rare-level medicinal herbs from somewhere, and each of them is worth no less than a million. She wanted to ask the Medicine Department to help her refine a medicinal pill, but the medicinal herbs were secretly detained by Minister Wang. It’s precisely because of this that Minister Wang deliberately got someone to do something.”

“No way. Wang Shuyun is already an old member of the company. How could Minister Wang target her like this?”

“So what if she’s an old member? Who wouldn’t be tempted by rare medicinal herbs worth millions?”

Hearing these people’s discussion, Zhou Hao’s expression darkened. A terrifying pressure spread out, but he did not lose his cool. He kept his blood essence pressure from sweeping away the others. Instead, his blood essence pressure only enveloped the entire Area C’s Medicinal Herbs Department Building.

“My mom is on the seventh floor!” With that said, his figure instantly disappeared.

Zhang Yi rushed forward without thinking, and Xu Ling followed closely behind.

...

In the supervisor’s office on the seventh floor.

Wang Shuyun and Zhou Xueguo sat on the sofa with ugly expressions.

A fat man in front of them smiled and said, “Wang Shuyun, you’ve worked in the company for a long time. It’s fine as long as everyone knows the truth. How about this? The company won’t ask you to compensate for the damage to the Yellow Poria Flower and Ginseng Spirit and will even give you 3 million yuan... But you have to pretend that you didn’t give us the four medicinal herbs you gave us last time. How about that?”

Wang Shuyun immediately stood up and said angrily, “Supervisor Zeng, aren’t you bullying me? My son risked his life to find those four medicinal herbs in the wilderness. On what basis are you taking them from me?!”

At this point, she said in an intense tone, “I trusted the company and handed the medicinal herbs to the company to create the medicinal pills. I even paid a certain amount of manufacturing fees. In the end, you actually pocketed the medicinal herbs I gave you!”

Supervisor Zeng’s expression turned cold. “Wang Shuyun, I told you a lot of reasonable things previously. Did you not listen to me at all? Let me tell you, it’s not in your benefit to go against the company. On account of the years you’ve worked, the company can even give you 3 million yuan. Otherwise... Hmph, don’t even think about getting a single cent. Moreover, you will also have to compensate for the losses of the Yellow Poria Flower and other medicinal herbs!”

“You’re too much!” Zhou Xueguo gritted his teeth. “Aren’t you afraid that we’ll expose this matter?!”

Supervisor Zeng laughed. “Expose? Go ahead and expose us if you can! Jing’s Pharmaceutical Company has been established for so many years and has experienced so many things. Do you really think we are afraid of your threats?”

At this point, he said impatiently, “Wang Shuyun, on the account that we’re all colleagues, I suggest you listen to what I tell you and accept the conditions. Otherwise, if things get out of hand, you might even lose your lives!”

Boom!

As soon as he finished speaking, the office door shattered.

A figure flashed and instantly appeared in front of Supervisor Zeng.

“You, who are you?” Seeing the figure that suddenly appeared, Supervisor Zeng looked as if he had seen a ghost and was so frightened that he sat down in his office chair.

“Little Hao?!”

“Son, why are you here?!”

Wang Shuyun and Zhou Xueguo were stunned when they saw Zhou Hao.

Hearing their words, Supervisor Zeng was stunned for a moment before smiling. “So you’re Wang Shuyun’s ordinary son. I was wondering who it was. You scared me!”

Zhou Hao stared at Supervisor Zeng coldly. “Were you threatening my parents just now?”

Supervisor Zeng sneered. “So what? You’re just a child...”

He had just finished speaking when he stopped abruptly!

A pair of fists had already pierced through his chest and grabbed his beating heart.

Pu!

Zhou Hao clenched his fist tightly, and his heart shattered.

Supervisor Zeng’s fat body fell heavily to the ground, blood flowing everywhere.

Seeing this scene, Wang Shuyun and Zhou Xueguo were shocked.

They had never expected their son to dare to kill someone!

However, they quickly regained their senses and hurriedly went forward. “Son, quick, run!”

Zhou Xueguo also said anxiously, “Son, remember to tell the others that I was the one who killed this supervisor. It has nothing to do with you.”

As he spoke, he turned around and looked at Zhang Yi and Xu Ling pleadingly. “I beg you not to leak this information. My son didn’t kill anyone!”

Zhou Hao was about to comfort his parents when a scream sounded from outside the office.

Two female employees who had heard the commotion walked to the door and looked at the blood flowing in the office, exclaiming one after another.

Wang Shuyun and Zhou Xueguo were stunned as their faces turned pale.

They thought to themselves, “It’s over!”

“Son, you have to remember to tell them that I was the one who killed Supervisor Zeng!” Zhou Xueguo was anxious like an ant on a hot pan. As he spoke, he took off his coat and crazily wiped the blood from Zhou Hao’s fists. Moreover, he quickly stained his hands with blood.

Wang Shuyun was also anxious to the point of tears. “Son, you, you should go to the inner room quickly. There’s water there. Wash the blood on your hand.”

Chapter 126 - I Killed Him

Chapter 126: I Killed Him

Swoosh! Swoosh!

As they screamed, many employees from the two-story building rushed over.

Minister Wang from the Medicinal Herb Department also quickly appeared at the entrance of the supervisor’s office. He had been paying attention to Wang Shuyun’s matter since he was the one who had instigated Supervisor Zeng to threaten Wang Shuyun and her husband.

As soon as he entered the office, he saw Supervisor Zeng lying in a pool of blood. His eyes immediately widened. “You, you actually dared to kill Supervisor Zeng??”

Zhou Xueguo heard Minister Wang’s voice and hurriedly turned around.

“Yes, I killed him. I killed Supervisor Zeng!” He shouted like a lunatic.

Wang Shuyun quickly pulled Zhou Hao behind her.

Minister Wang smiled instead of being angry when he heard this. “Very good. Wang Shuyun, Zhou Xueguo, you guys are really bold. How dare you kill someone in the Jing Pharmaceutical Company. You’re done for!”

Zhou Xueguo laughed and cursed, “Damn you, Wang Bi. Even if we end up in prison, we won’t let you take our medicinal herbs... Die!”

As he spoke, he gritted his teeth and used all his strength to charge towards Minister Wang.

Everyone was stunned when they saw this.

Zhou Hao also did not expect his father, who had always treaded safely, to go against Minister Wang.

However, he quickly reacted and understood that his father was trying to use his actions to prove that he was the one who killed Supervisor Zeng.

Bang!

Minister Wang was a martial artist and easily dodged Zhou Xueguo.

He sneered and said, "Do you really think you can kill..."

Just like Supervisor Zeng, he also stopped midway.

Swoosh! Swoosh! Swoosh!

Everyone looked at Xu Ling in shock.

She pinched Minister Wang's neck with one hand and exerted strength with her fingers. Immediately, the sound of bones cracking sounded from Minister Wang's neck. His eyes widened and he quickly stopped breathing.

After doing all of this, Xu Ling retracted her palm and calmly took out a hand towel to wipe her hands. "We'll tell the others that I was the one who killed Supervisor Zeng and Minister Wang. It's bad to keep such trash around anyway. By the way, I'm the daughter of Xu Pharmaceutical Company's Chairman Xu, Xu Ling."

"Please call the police immediately."

With that said, she hurriedly signaled to Wang Shuyun with her eyes.

Wang Shuyun regained her senses and immediately understood what Xu Ling meant.

Indeed, in this situation, only Xu Ling could resolve the matter. After all, their family was only an ordinary family. Once the police arrived, they would definitely be arrested and thrown into jail.

However, Xu Ling was different. She was Chairman Xu's daughter. The police had to inform Chairman Xu before they could do anything.

When Chairman Xu arrived, there would be room for discussion.

Thinking of this, Wang Shuyun hurriedly went forward to support Zhou Xueguo and whispered into his ear.

Zhou Xueguo looked at Xu Ling gratefully. He had not expected that at such a critical moment, his son's classmate would actually stand up and even risk killing someone to help their family escape!

Zhou Hao stood rooted to the ground and looked at Xu Ling in a daze.

For him, even if he destroyed Jing Pharmaceutical Company, it would not affect his parents at all.

At most, he would expose his identity. After all, he believed that Commander Zhao and the others would be able to help him.

However, he did not expect Xu Ling to attack.

"I didn't like the wrong person!"

In the past, he liked Xu Ling mostly because of her appearance.

However, at this moment, he completely treated Xu Ling as a close friend.

Taking a few steps forward, Zhang Yi blocked Zhou Hao and whispered, "Zhou Hao, don't be rash. At a time like this, only Xu Ling can help. Don't let her down."

Zhou Hao nodded. "I understand. Don't worry, I won't be rash."

Zhang Yi heaved a sigh of relief. "That's good. This is nothing to Xu Ling. Don't forget about her physique. Moreover, it was Minister Wang and Supervisor Zeng who took the medicinal herbs from your parents in the first place!"

Zhou Hao nodded and walked in front of Xu Ling. He pulled her hand. "Xu Ling, thank you."

Xu Ling held Zhou Hao's palm and smiled sweetly. "Zhou Hao, I should be the one thanking you. If not for you, I wouldn't have obtained the Ice Muscle Body!"

At this moment, a police siren sounded from downstairs.

Soon, many police officers rushed to the seventh floor.

"Move aside!" The middle-aged man in the lead shouted.

Immediately, many employees surrounding them dispersed.

The middle-aged man walked in and saw Minister Wang lying on the ground at the door. He immediately frowned, but when he looked up and saw Xu Ling, he was stunned. "Little Ling, why are you here?"

Xu Ling smiled and said, "Uncle Geng, I killed them. They all saw me do it!"

Chapter 127 - A Meritorious Deed?

Chapter 127: A Meritorious Deed?

Geng Huo's expression darkened, and then he looked at the surrounding employees. They immediately nodded.

"Nonsense!" he shouted. He took a few steps towards Xu Ling and whispered, "What happened here?"

Xu Ling hurriedly explained the situation in detail.

Geng Huo came to a realization, and his expression eased up a lot. "I see. In that case, they deserved to die. Don't worry, leave this to your Uncle Geng. As long as we can find evidence that Minister Wang and Supervisor Zeng took the medicinal herbs from your classmate's parents, it won't matter even if you did kill them."

"Thank you, Uncle Geng!" Xu Ling said gratefully.

"Don't be so rash in the future," Geng Huo said as he took out his phone and called Xu Zhenguo to tell him what had happened.

On the other end of the line, Xu Zhenguo said indifferently, "Old Geng, just do what you're supposed to do. You definitely can't embezzle resources like this. Moreover, I heard that this batch of medicinal herbs was obtained by a student that went to the wilderness!"

When Geng Huo heard this, he immediately said angrily, "What? Wang and Zeng are really detestable. The beast wave attack almost wiped out our Huadong City and the students had to risk their lives to enter the wilderness. It was so difficult for them to find cultivation resources, but they actually embezzled the resources!!"

"Don't worry, I'll handle this matter impartially!"

Xu Zhenguo nodded and reminded, "Old Geng, you have to pay attention. Also, it's best to inform Commander Zhao. After all, the beast wave attack was resolved by Senior Zhou. Strictly speaking, the resources in the wilderness area belong to Senior Zhou!"

Geng Huo immediately understood the seriousness of the matter and said seriously, "Got it!"

After hanging up the phone, he looked at the surrounding employees and coldly explained the seriousness of the matter.

"It's not enough for Minister Wang and Supervisor Zeng to die. Everyone, it's best if you don't hide the incriminating evidence and tell the truth. Otherwise, you will also be in trouble!"

Upon hearing this, several employees were shocked and hurriedly said, "Director Geng, I can tell you what happened!"

"I can too."

"Minister Wang even gave Supervisor Zeng a million yuan. I know where the transfer record is!"

When Xu Ling heard this, she smiled and turned around. She looked at Zhou Xueguo and Wang Shuyun and whispered, "Uncle, auntie, it's fine now!"

Zhou Xueguo was still in disbelief. "Are you sure?"

Xu Ling nodded. "Uncle, Auntie, the medicinal herbs that Minister Wang and Supervisor Zeng embezzled were obtained from the wilderness area. All the resources in the wilderness area should actually belong to Senior Zhou, who resolved the beast wave attack. Therefore, Supervisor Wang and Supervisor Zeng actually embezzled Senior Zhou's things. Such a crime is very serious. It's even possible for them to receive a more severe punishment than death."

"Therefore, killing them is not only not a sin, but also a meritorious deed!"

Zhou Xueguo and Wang Shuyun were instantly dumbfounded.

They didn't know that this matter could be resolved so easily.

It was just as Xu Ling had said.

After Geng Huo informed the Bureau about what happened at the Jing Pharmaceutical Company, the Bureau immediately assigned great importance to it. Even the city leader was alarmed.

In just half an hour, the city leader, Bureau leader, and the others rushed to the Jing Pharmaceutical Company.

Soon, a large number of leaders and cadres crowded the seventh floor corridor.

The city leader's forehead was covered in sweat. Clearly, he had been in a hurry the entire time. He walked in front of Geng Huo and praised, "Old Geng, you're still the most reliable. You didn't inform Commander Zhao first. If Commander Zhao finds out that you didn't handle the matter properly, not only will your Bureau be reprimanded, but our city will also be reprimanded!"

"Embezzling the resources obtained from the wilderness area is a huge matter. Commander Zhao has repeatedly emphasized at the city meeting that we absolutely cannot tolerate any martial artist, company, or faction embezzling the resources obtained from the wilderness area after the beast wave attack!"

The Bureau leader also nodded hurriedly. "I didn't expect something like this to happen at Jing Pharmaceutical Company!"

The city leader asked, "How's the victim's family?"

"They're fine. They're just a little emotionally unstable!" Geng Huo hurriedly said.

Hearing this, the Bureau leader and the city leader hurriedly walked into the office. Minister Wang and Supervisor Zeng's corpses had also been carried out long ago.

Because the matter had not been resolved yet, Wang Shuyun, Zhou Xueguo, and the others were all sitting on the sofa.

"Ah, City Leader...." Seeing the important figures that often appeared on the television, Wang Shuyun and Zhou Xueguo were shocked and hurriedly stood up.

The city leader took a step forward, held Zhou Xueguo's hand, and said amiably, "I'm sorry for making the two of you suffer. I didn't expect that Jing Pharmaceutical Company would do such a heartless thing. It's my fault for not doing my job well. Don't worry, I have already ordered the Bureau to handle this matter impartially. I will definitely handle this in a way that satisfies the both of you!"

The Bureau leader walked forward and immediately said, "Don't worry, I'm the head of the Bureau. If there's anything you need, just tell me."

Zhou Xueguo and Wang Shuyun were at a loss.

Xu Ling stood up. "You are too kind, leaders. The Jing Family Pharmaceutical Company has been established for so many years so it's natural for there to be some parasites like Minister Wang and Supervisor Zeng lurking around. Fortunately, we found out about

it early this time, but this is probably not the first time they did something like this. Therefore, I hope that you two leaders can investigate the Jing Family Pharmaceutical Company strictly and give the employees justice!”

Chapter 128 - The Compensation Is Not Enough

Chapter 128: The Compensation Is Not Enough

The city leader looked at Xu Ling in surprise.

“This is...”

Geng Huo hurriedly stepped forward and said, “This is the daughter of Director Xu of the Xu Family Pharmaceutical Company, Xu Ling. She activated the Ice Muscle Body a few days ago.”

The eyes of the city leader and Bureau leader lit up as they revealed an extremely enthusiastic smile.

“So she’s Director Xu’s daughter. No wonder she has such an outstanding aura!”

“That’s right. To be able to activate the Ice Muscle Body, her aura must be extraordinary!”

“I heard that Miss Xu was the one who killed the parasite. She’s really not inferior to men!”

The group of leaders and cadres behind him praised.

The city leader and Bureau leader also said, “Little Ling, don’t worry. We will definitely investigate Jing Pharmaceutical Company properly!”

As they spoke, the directors of the Jing Pharmaceutical Company and the higher-ups ran over.

They kept wiping the sweat on their faces as they arrived at the office. When they saw the group of leaders, they were so frightened that their hearts trembled. "Mayor, Director, this is all because of the negligence of us higher-ups at the Jing Pharmaceutical Company. Please don't worry, leaders. We will start the cleanup operation immediately and find the black sheep!"

When Xu Ling heard this, she couldn't help but snort. "Is finding the parasites enough? Don't you also have to compensate for the losses of the victims?"

Ring ring...

Suddenly, the city leader's phone rang.

He took a look at the number and his expression turned solemn. He picked up the call and said, "Yes, yes, I am at Jing Pharmaceutical Company... Don't worry, I will definitely punish the company that embezzled the medicinal herbs severely and not let them off!"

After hanging up the phone, he looked at the higher-ups of the Jing Family Pharmaceutical Company with a threatening look. "Commander Zhao has already heard about this. He is very furious that your Jing Family Pharmaceutical Company would dare to commit such a crime. You guys are simply too disrespectful!"

"We'll shut down your company and reform it first. After we figure things out, you can submit an application to resume... Also, you'll need to compensate the victims for their losses!"

The higher-ups of Jing Pharmaceutical Company were on the verge of tears. It was too much of a loss for the company to be closed and reformed. It cost them more than 10 million yuan per day.

"City Leader, Bureau leader, we will definitely make changes according to the requirements, but you have to make an exception for us. The company can't be shut down. Thousands of employees still have to work and eat!"

"That's right. Once the company is closed, what will happen to the livelihood of thousands of employees?"

"Thousands of employees mean thousands of families. Their livelihoods are the most important."

The city leader and Bureau leader frowned.

At this moment, Zhou Hao also received a message from Zhao Zai on the wireless channel.

He immediately replied, "Deal with it impartially. In addition, the compensation must satisfy the families of the victims!"

When Commander Zhao saw the message, he hurriedly forwarded it to the city leader.

He did not dare to neglect them at all. He looked at the higher-ups of Jing Pharmaceutical Company and said authoritatively, "We will shut down the company for one day first and get rid of all the parasites. The city and the Bureau will supervise this matter closely. You guys will also provide compensation that will satisfy the victims. Otherwise, your company will be shut down forever!"

The higher-ups of Jing Pharmaceutical Company's eyes lit up when they heard this.

They were not stupid. From the city leader's change in attitude, it seemed that compensation for the victims' losses was the most important. As for the shutdown and reformation, there was still room for discussion.

The director gritted his teeth and knelt in front of Zhou Xueguo and Wang Shuyun. "Wang Shuyun, the company bears full responsibility for mistreating you. How about this? I've decided to compensate you with 10% of the company's shares. Are you satisfied with this arrangement?"

"What? 10% of Jing Pharmaceutical Company's shares?"

Not only were the higher-ups and shareholders shocked, but Zhou Xueguo and Wang Shuyun were also stunned.

It should be known that although Jing Pharmaceutical Company was not comparable to Xu Pharmaceutical Company, it was still one of the top ten pharmaceutical companies in Huadong City. The 10% shares it owned represented a huge profit!

Bang! Bang! Bang!

The other shareholders understood the situation and also knelt in front of Zhou Xueguo and Wang Shuyun.

"The company can't be closed, Comrade Wang Shuyun. You're already a senior member of the company. Can you bear to sit by and watch so many colleagues lose their jobs?!"

"Comrade Wang Shuyun, thousands of people rely on the company to live. I believe you can empathize with them. If the company is closed, many families will lose their livelihoods because of it!"

Wang Shuyun fell silent. Of course, she knew the consequences of closing the company. If not for her son, the closing of the company would have a huge impact on her family. Even if it was just for a few days, the consequences would be unthinkable.

Thinking of this, she sighed in her heart.

However, just as she was about to speak, Zhou Hao's voice sounded. "20%!"

The entire office instantly fell silent.

- Chapter 129 - Getting Rich Overnight

Chapter 129 - Getting Rich Overnight

Chapter 129: Getting Rich Overnight

After the Cataclysm, the pharmaceutical industry became the number one money-making industry. Even in a city with a relatively poor population, a pharmaceutical company with the lowest profits could earn at least 10 million yuan per month.

As for the top ten Jing Pharmaceutical Companies, their monthly profits were billions or even tens of billions.

Therefore, the director of the Jing Pharmaceutical Company was already heartbroken when he offered 10% of the shares. It was no different from cutting off his own flesh. In the end, Zhou Hao actually asked for 20%. It was simply like cutting off the bones of the director and shareholders!

"No!"

"20% is too much. Among us shareholders, the director with the largest shares only occupies 35%!"

"That's right. With 20% of the shares, they'll basically become the second biggest shareholder. They'll have too much say."

The group of shareholders immediately shook their heads and shouted.

If they only had to offer 10% of the shares, they could grit their teeth and make it work. However, if they had to offer 20% of the shares, they would basically suffer a huge loss.

Zhou Hao smiled calmly and said, "Since everyone is unwilling to compensate, let's close the company and reform it. As for the exact amount of time it will take, it will depend on the city leader's decision!"

Although the city leader did not know who Zhou Hao was, he said without thinking, "I can't make the decision. We have to let Commander Zhao decide!"

The city leader decided to shift the burden of responsibility.

The expressions of the director and shareholders of Jing Pharmaceutical Company changed drastically.

They knew Commander Zhao's ruthless personality very well, especially when it came to pharmaceutical companies like theirs. It was said that they had been dissatisfied with them for a long time. If he was allowed to make the decision, Jing Pharmaceutical Company would probably be shut down indefinitely!

"Fine. We accept!!" The director of Jing Pharmaceutical Company almost cried. Then, he fell to the ground.

The other shareholders also looked grief-stricken.

Zhou Hao smiled.

Xu Ling also smiled and said meaningfully, "It seems that the shareholders of Jing Pharmaceutical Company are all smart people. I believe that with your efforts, the company's parasites will be eradicated very quickly!"

...

It was almost 12 pm when Zhou Hao and the others returned to the Yang Garden Residence.

Zhou Hao's parents were still in a daze as they sat on the sofa after receiving 20% of the shares of Jing Pharmaceutical Company.

"Uncle, Auntie, don't worry. The city leader and Bureau leader were both present. The shareholders of the Jing Pharmaceutical Company won't dare to go back on their word. Tomorrow, I will specially get my father's legal department to go to your company and help you sign the contract for the shares!" Xu Ling consoled Zhou Hao's parents as she fetched hot water for them.

Only then did Wang Shuyun return to her senses and say gratefully, "Xu Ling, it's all thanks to you this time. If not for your help, I'm afraid we would have suffered a fate worse than being imprisoned!"

“Little Hao, what are you waiting for? Hurry up and thank your classmate!”

Xu Ling hurriedly said, “Auntie, there’s no need. Zhou Hao helped me a lot in school. It’s only natural for me to help him back!”

Zhou Xueguo knew about the relationship between his son and Xu Ling. He smiled and said, “Xu Ling, remember to come over often in the future!”

Xu Ling’s face turned red.

Wang Shuyun was experienced. Seeing Xu Ling’s reaction and expression, she immediately knew what was going on and could not stop smiling. “Yes, yes, come and visit us often. Little Hao always talks about you at home.”

Xu Ling’s heart was thumping like a deer. She looked at Zhou Hao and dragged out her words. “Is that so...”

Zhou Hao did not understand for a moment. He scratched his head. “Mom, that’s not true at all! I don’t talk about her at home.”

Wang Shuyun was immediately speechless. She wondered why her smart son had suddenly become stupid and failed to read the room.

“Uncle, auntie, it’s getting late. Zhang Yi and I will go back first. If there’s anything, tell it to Zhou Hao so he can inform us!” Xu Ling glared at Zhou Hao.

This blockhead Zhou Hao was simply too much!

Wang Shuyun and Zhou Xueguo hurriedly nodded. “Alright, be safe on the road.”

After sending Zhang Yi and Xu Ling to the entrance of the residential area, Wang Shuyun watched as they got into a taxi and said in satisfaction, “What a girl! Our Little Hao sure is capable. After all, you were able to get a girl like her.”

Zhou Xueguo sighed and said, “That’s right. She’s smart and willing to help Little Hao. Moreover, she didn’t hesitate to kill Minister Wang back then. She really shocked me. To be able to do this for our Little Hao, it seems like this girl really likes our Little Hao.”

Zhou Hao chuckled.

When Wang Shuyun saw this, she couldn’t help but say, “Little Hao, you have to treat her well in the future. If I find out that you let her down, I won’t let you off easily.”

Zhou Xueguo also reminded, “Your mom is right. A girl like her can’t be found easily. You can’t be careless with her.”

“Got it.” Zhou Hao nodded. He was indeed touched by Xu Ling stepping forward today.

The next morning.

In the Qu City High School training room.

As soon as Zhou Hao entered, he sensed that the students in the training room were looking at him differently.

Chapter 130 - Establishing the Global Elite Training Camp

Chapter 130: Establishing the Global Elite Training Camp

In the past, these students were mostly disdainful, cold, and jealous.

But today, besides jealousy, there was also deep envy and shock.

Sitting in the virtual cabin, he immediately heard whispers.

“This Zhou Hao is really lucky!”

“Isn’t that so? It’s fine if his strength has reached the level of a martial artist, but now even his family has undergone a tremendous change!”

“20% of Jing’s Pharmaceutical Company’s shares. What a leap!”

“The role model of becoming rich overnight!”

“Tch, it’s all because of the woman. Without Xu Ling, would Zhou Hao have changed so much and caused such a huge commotion last night?”

“Alright, stop being jealous. This is fate!”

Most of the students sighed repeatedly, and some students were immediately rebuked. After all, Zhou Hao’s status had become different from before.

With 20% of the Jing Family Pharmaceutical Company's shares, his family had already taken a complete leap in terms of status. Moreover, Zhou Hao himself had reached the level of a martial artist and his combat strength was even comparable to a high-level martial artist!

Listening to the surrounding classmates' discussion, Zhou Hao's expression was calm. He was not surprised that what happened to his parents last night had spread so quickly.

Not long after, Xu Ling walked into the classroom.

Zhou Hao left his virtual cabin and directly entered Xu Ling's virtual cabin.

Smelling the fragrance emitted by Xu Ling's special physique, he smiled and took out an exquisite box.

Xu Ling was a little shy, but she did not push Zhou Hao away. Instead, she looked at the exquisite box and revealed a sly look. "Could it be panda pattern chocolate?"

Zhou Hao shook his head and signaled for Xu Ling to open it.

Xu Ling opened the box curiously and saw a panda-shaped cake inside. She immediately said in surprise, "Zhou Hao, did you make this?"

Zhou Hao said angrily, "Am I capable of making something like this?"

"Tch, I knew it wasn't you. It must have been Auntie." Xu Ling pursed her lips and rolled her eyes. She was disappointed inside. Even though she knew it wasn't true, would it kill him to say that he was the one who made it?

Zhou Hao naturally did not know what Xu Ling was thinking at this moment. He urged, "Eat quickly. It's cold."

Xu Ling was speechless and kicked Zhou Hao out.

"No way, is she on her period again?" Zhou Hao rubbed his head, feeling puzzled.

Ring ring.

The school bell rang and Shen Jing strode into the classroom.

His expression was calm.

However, the students of the training class who were familiar with Instructor Shen's personality had long figured out that this was a sign that Instructor Shen was in a good mood. Their expressions relaxed.

“Everyone performed pretty well in the combat assessment yesterday. You all didn’t embarrass me. Today’s training intensity will be slightly decreased today. Consider it a reward for you, but only for this day!” Shen Jing said slowly.

“Yeah!”

“That’s great!”

“Long live Instructor Shen!”

The students were excited.

All the students had been through hellish training and hoped desperately for the training intensity to be decreased.

Shen Jing raised his hand, and the classroom immediately fell silent.

“Alright, go in and start the virtual environment.”

...

In the evening.

Zhou Hao arrived at the East Station’s headquarters. Han Pu, Commander Zhao, and the others welcomed him when he arrived.

“Little Han, why did you come to Huadong City today?” Zhou Hao asked with a smile as soon as he landed.

As a supernatural expert, Han Pu was usually very busy. After delivering a batch of special chips last time, he rarely came to Huadong City. However, he contacted Zhou Hao from time to time through the wireless channel.

Han Pu said enthusiastically, “Senior Zhou, we came here mainly to discuss something.”

Zhou Hao asked curiously, “Oh? What’s the matter?”

“It’s like this. The situation at the frontline fortress at the spatial rift has been a little tense recently. Therefore, after the discussion of the higher ups in the Supernatural Council, we have decided to establish another Global Elite Training Camp in the frontline fortress city to quickly nurture experts to support the frontline.” As Han Pu spoke, his expression became solemn.

Commander Zhao and the others immediately turned nervous when they heard this. They asked, “Senior Han, has the situation at the frontline worsened?”

The frontline fortress at the spatial rift was responsible for the safety of all humans. If the frontline fortress could not withstand the attack, all the cities in the rear would collapse one after another.

After all, the foreign races' main activity area was in the rift, which was filled with a large number of foreign race experts.

Han Pu hurriedly said, "Don't worry, the situation is still in control. Because the foreign races have been attacking more fiercely recently, we're a little nervous. The main purpose of establishing the Global Elite Training Camp is to prepare in advance!"

Chapter 131 - The Privilege Of An Expert

Chapter 131: The Privilege Of An Expert

Hearing this, Commander Zhao and the others heaved a sigh of relief.

Han Pu looked at Zhou Hao and said, "Every Global Elite Training Camp is very competitive and many cities will fight for the participation spots. This time, because it's newly established, the spots aren't as difficult to obtain. However, there are still only four to five spots allocated to the various cities. And because of Senior Zhou, I specially applied for five more spots in Huadong City."

"That's a good thing!"

"Thank you, Senior Han, for your help!"

"Thank you, Senior Han."

Commander Zhao and the other grandmasters were pleasantly surprised.

If they could increase the spots by five, it meant that their Huadong City would have a few more grandmaster-level experts in the future. After all, the minimum requirement for graduating from the Global Elite Training Camp of the frontline fortress was a grandmaster.

For example, Commander Zhao, He Biao, Zhen Hong, and the others had all come from the elite training camp.

The more grandmasters there were in the Huadong City, the faster the city would develop in the future.

In the past, it would already be considered good if Huadong City could maintain the most basic quota of four to five people. However, this time, because of Senior Zhou, they had five more spots.

Han Pu waved his hand. "Commander Zhao, don't be happy yet. Although I've helped you apply for five more, the number of applicants for the Global Elite Training Camp this time is different from before. In the past, you only needed to be recommended by the various cities, but this time, you need to undergo a unified assessment."

"Unified assessment?" Commander Zhao and the others were immediately puzzled.

Zhou Hao was also puzzled and asked, "What kind of assessment will that be?"

Han Pu replied, "Didn't a new batch of virtual cabins enter Huadong City? In five days, the various cities will use the virtual cabins for the assessment. Only by reaching the minimum requirement can one obtain a spot."

After hearing this, Zhou Hao and the others immediately came to a realization.

"May I know what the minimum requirement is?" Commander Zhao asked again.

"One must be able to kill three high-level demon warriors or a low-level demon general to obtain the spot!" Han Pu said softly. "And they have to be below the age of 20!"

Commander Zhao and the other grandmasters widened their eyes when they heard this.

"Senior Han, isn't... isn't this minimum requirement too high?"

"That's right. Most students below the age of 20 are still in their third year of high school. Even in the capital's training camp, there aren't many students who can reach such a standard!"

"I know that the frontline fortress wants to increase the requirements, but we still have to consider the actual situation!"

He Biao, Zhen Hong, and the other grandmasters complained.

In their opinion, the minimum requirement was too harsh. In the entire Huadong City, even Xu Ling, who had just broken through to the master level, did not dare to say that she was confident in killing a low-level demon general.

In other words, according to this requirement, their Huadong City probably wouldn't even be able to get a single spot.

Han Pu smiled bitterly. "It's useless for you to complain to me. This is the requirement set by the higher-ups of the Supernatural Council. It's impossible to change it again. However, doesn't your Huadong City have a student with a special physique? She can enter directly without being tested."

Upon hearing this, Commander Zhao and the others felt a little relieved.

Han Pu added, "Of course, with Senior Zhou's strength, we will provide you with two free spots. Anyone you recommend can also be exempted from the assessment."

Zhou Hao was stunned. "I can directly recommend two students?"

"Of course. You were able to easily kill the Cloud Mink King. As long as you are willing, you can easily become a higher up and join the Supernatural Council. This much is nothing." Han Pu said with a smile.

Commander Zhao and the other grandmasters also laughed.

Peak-level ninth-grade grandmasters were almost peak-level existences in the human race, so it was very normal for them to have some privileges.

Zhou Hao smiled and said, "Han Pu, thank the higher-ups for me when you get back. I'll go to the frontline fortress base at the spatial rift myself when I have the time!"

Han Pu was overjoyed when he heard this.

With Zhou Hao's strength, he would be of great use if he went to the spatial rift fortress.

"Then I'll be waiting for Senior Zhou!" Han Pu said excitedly. "Commander Zhao, there's still five days to prepare. You have to seize the opportunity to nurture the outstanding geniuses in the city. This opportunity is very rare."

Commander Zhao and the others nodded.

Han Pu left quickly.

Commander Zhao looked at Han Pu's disappearing figure and could not help but ask, "Senior Zhou, among the students below the age of 20 in the city, the only ones who have reached the level of a martial artist are in the focused training class of Qu City High School. Do you think we should give the spots to the students of the other high schools this time?"

Chapter 132 - Xu Lings Worry

Chapter 132: Xu Ling's Worry

Zhou Hao said indifferently, "The students from the other high schools didn't even seize the opportunity of the wilderness cleanup operation last time. There's no need to give them another chance to enter the elite training camp of the frontline fortress this time, lest they waste it."

"Yes, I'll arrange it immediately." Commander Zhao nodded. Actually, he was also dissatisfied with the performance of the other high schools.

In the Qu City High School training room.

As Shen Jing walked into the classroom, the originally noisy training room instantly fell silent.

When they saw the smile on Shen Jing's face, they were all stunned. They had interacted with Instructor Shen for a long time and he was usually more serious and rarely smiled.

"Looks like something good has happened!"

"Definitely. Instructor Shen didn't even smile when our class performed so well the day before yesterday."

"Tsk tsk, today's training will be easy again."

Many students discussed in low voices.

As expected, Shen Jing coughed lightly and went straight to the point. "I have a happy matter to tell everyone!"

The students immediately pricked up their ears.

"The frontline fortress at the spatial rift is going to establish a Global Elite Training Camp. Due to various reasons, our class obtained ten spots..." Shen Jing repeated what Commander Zhao had told him yesterday to the students.

The students exploded when they heard this.

"Damn, the Global Elite Training Camp?"

“That’s a training camp that’s ten times stronger than the Yanjing Training Camp!”

“It’s said that the minimum requirement for graduation is a grandmaster!”

“Our class actually got ten spots. It’s simply heaven-defying!”

“No wonder Instructor Shen attended class with a smile. This is a happy occasion!”

Not only were Wang Ming, Li Ji, and the other students excited, but even Yuan Cheng, Yun Yan, and the other Yanjing geniuses were so happy that they almost jumped up.

The Global Elite Training Camp was the birthplace of true experts.

It was the holy land that all the geniuses yearned to be a part of!

Shen Jing looked at the excited students and smiled as well. He allowed them to be happy for a while before raising his hand.

The classroom quickly fell silent.

“I understand everyone’s feelings. Since the military was able to give all ten spots to our training class, it is a sign that they trust us and also an affirmation of our hard work for the past few days!”

Shen Jing then continued with a serious expression, “But it’s also very difficult for us to secure all ten spots. I’ve already told you the spot requirements just now. At present, the only people in our class who can barely reach the quota are Yuan Cheng, Yun Yan, and Xu Ling.”

When the other students heard this, they couldn’t help but be excited.

Indeed, only these three people in their class were the only ones who could barely kill low-level demon generals.

Shen Jing continued, “Therefore, in the next five days, I hope that everyone can train furiously. In the next five days, the city will also do its best to provide cultivation resources. Whether you can break out of your cocoon and become a butterfly and change your fate will depend on your hard work for the next five days!”

As soon as he said this, most of the students seemed to have been injected with chicken blood and roared.

All of them wished they could start training immediately.

After all, everyone knew that this opportunity was a life-changing one.

If they missed this opportunity, they would regret it for the rest of their lives.

...

In the blink of an eye, five days passed.

After the hellish crazy training and the fact that the city had spared no effort to provide the training class with many cultivation resources, every student in the training class had undergone a huge transformation in just five days.

The students in the class who reached the martial artist level increased from 10 to 21.

The remaining people all had third level blood essence. Among them, two thirds were very close to breaking through to the martial artist level.

Other than that, their combat strength had all exceeded their cultivation level.

However, Xu Ling was just as worried as before the combat assessment.

The city had provided a lot of resources this time, but none of it was able to help Zhou Hao. After all, Zhou Hao had just used a rare resource to increase his strength from the first level of blood essence to a martial artist. His cells were already unable to accommodate any other resources.

"Xu Ling, what are you worried about? Have you forgotten my talent in finding opportunities? Moreover, this is not a combat assessment but a virtual training assessment. My life is not in danger at all. In this situation, I might be able to perform better than usual!" Zhou Hao smiled indifferently.

Chapter 133 - The Ji Familys Supernatural Constitution

Chapter 133: The Ji Family's Supernatural Constitution

Xu Ling forced a smile on her jade-like face. She knew very well that it was extremely difficult for her to perform superbly in the assessment. After all, this assessment was a joint-assessment that was held by all the cities. If Zhou Hao was unlucky and encountered other geniuses, he might very well be eliminated early.

Suddenly, she seemed to have thought of something and hurriedly took off the luck bracelet on her wrist and handed it to Zhou Hao.

“Wear it. I hope it increases your luck as it increased mine,” she said expectantly.

“Thank you.” Zhou Hao did not stand on ceremony and directly put it on.

At 2: 10 pm.

Shen Jing walked into the classroom with a solemn expression.

Glancing at all the students, he said in a deep voice, “In ten minutes, the moment that determines your fate will arrive.”

As he spoke, he lowered his head to look at the information displayed on the electronic screen and slowly said, “There are a total of 1360 people who are participating in the competition for the spots. Among them, there are 2 who have special physiques and have reached the master level. There are 7 who have reached the high-level, and 62 who have reached the intermediate-level ,martial artist”

Upon hearing this, all the students in the training class drew a cold breath.

They did not expect the competition to be so intense. There were actually 62 people who had reached the intermediate-level!!

It had to be known that five days ago, only 12 people in the entire Huaxia City had reached the intermediate-level. In just five days, there were 50 more intermediate-level martial artists!

“The students in the various cities have all gone crazy!”

The students stared at him.

Martial artists needed to build up their blood essence foundation. Only by consuming rare medicinal herbs like the plant spirit would there be no hidden dangers.

After Shen Jing finished speaking, his voice became solemn. “I believe you have all noticed it by now. The competition for the spots this time is abnormally intense and cruel. It is true that according to the rules set by the elite training camp, you only need to meet the minimum requirements. However, this virtual environment is complicated and different from the past. The people you encounter this time are all enemies. Even your classmates in this class will become your enemies.”

“At the same time, the better the results of this virtual training, the better the resources and benefits will be after you successfully secure the spot. All the best!”

As time ticked by, all the students calmed down.

“Zhou Hao, after connecting to the virtual environment, I’ll try my best to find you!” Xu Ling said softly. She was one of the two masters who was participating in the assessment this time. Her strength basically allowed her to crush the other participants. As long as she could quickly find Zhou Hao, she would be able to help him easily pass the assessment.

Zhou Hao said indifferently, “Don’t worry, I can handle it.”

Xu Ling said angrily, “Stop showing off. Let’s find a place to hide first.”

As the two of them were talking, the assessment began.

Boom!

The participating students from the various cities instantly connected to the virtual environment.

Principal Zheng, the dean, and Department Director Hong walked into the training room one after another. They looked at the students in the virtual cabins and sighed. “I hope they can seize this opportunity. We’ve done everything we could.”

At the frontline fortress of the spatial rift.

On the highest floor of the Supernatural Building.

As the virtual combat spot competition for the various cities began, all the supernatural experts were staring at the wide electronic screen in front of them. The sixth-grade supernatural expert, Senior Shi, who was in charge of the Global Elite Training Camp, was no exception.

The screen displayed all the participants.

“Senior Shi, there are two geniuses with special physiques in this spot competition. One of them is Ji Yufan from the Ji family of Yanjing City, and the other is Xu Ling from Huadong City. These two geniuses have already reached the master level. We’ve already decided to give them the spots anyway, but it’s said that they both want to participate in the competition as they want to find out about their strength and results,” a supernatural expert surnamed Wang said with a smile.

Shi Zhi nodded and muttered softly, “The Ji family... Are you talking about the Ji family with the fire physique?”

Another supernatural expert surnamed Wei hurriedly said, “Yes, it’s the Ji family that inherited the fire-element physique!”

“The Ji family’s special physique has never been severed. Unfortunately, their descendants only inherited their physique and did not inherit the combat strength of the Ji family’s first-generation supernatural expert.” Shi Zhi shook his head indifferently.

The supernatural expert surnamed Wang looked at Shi Zhi and whispered, “Senior Shi, it is said that this Ji Yufan has inherited a physique that is stronger than all the other physiques in the previous generations. His talent is also stronger than the five generations of experts before him, including the first generation expert. Although he is only at the master level, his combat strength is comparable to an ordinary grandmaster!”

Shi Zhi exclaimed softly, “Really?”

“The Ji family once handed over Ji Yufan’s combat video to our Supernatural Council. Originally, they planned to directly send Ji Yufan to the fortress base, but I refused and told them to wait since you were already establishing the Global Elite Training Camp.” the supernatural expert surnamed Wang said with a smile.

Chapter 134 - If You Cant Become a Supernatural, Youre Still an Ant

Chapter 134: If You Can't Become a Supernatural, You're Still an Ant

“If that’s the case, we can focus on nurturing this Ji Yufan.” Shi Zhi looked at the supernatural grandmaster surnamed Wang. “What about Xu Ling from Huadong City? How’s her combat strength?”

Before the supernatural expert surnamed Wang could speak, Han Pu hurriedly said, “Senior Shi, Xu Ling just activated her Ice Muscle Body. Her combat strength is relatively ordinary.”

“Oh? Ice Muscle Body?” Shi Zhi’s eyes lit up.

“That’s right,” Han Pu said in a low voice. “It’s a special physique activated by consuming the Ice Needle Mushroom, a plant spirit.”

Shi Zhi was stunned and could not help but turn to Han Pu. “Was it triggered by the Ice Needle Mushroom?”

Han Pu nodded repeatedly and explained the general situation.

The other supernatural experts were shocked when they heard this. “This Xu Ling’s luck is simply ridiculous. It’s very rare for the Ice Needle Mushroom to activate the Ice Muscle Body and it was only known to work in theory!”

Shi Zhi could not help but sigh. “She’s indeed very lucky. Not bad. Sometimes, luck is also a type of strength. Xu Ling was able to rely on the Ice Needle Mushroom to activate the Ice Muscle Body. Although her combat strength is ordinary, we can also consider focusing on her.”

Han Pu and the supernatural expert surnamed Wang looked at each other and smiled.

“Are there any other participants with good talent? You can recommend a few more. Currently, everything in the Global Elite Training Camp is still in its initial stages and we are in desperate need of geniuses.” Shi Zhi smiled faintly.

The other supernatural experts looked at each other and did not recommend anyone else.

After all, to supernatural experts, only people with special physiques were considered geniuses and were worth nurturing.

As for the others, no matter how outstanding they were, it was very difficult for them to cross the huge threshold of becoming a supernatural expert.

If one did not become a supernatural expert, they would only be an ant in the end and would not be of much use in the foreign races’ battlefield.

When Shi Zhi did not hear any more recommendations, he could not help but feel disappointed.

He was the one who had facilitated the expansion of a Global Elite Training Camp in the fortress. Therefore, he thought very highly of the first batch of participants.

But now, it seemed that the first batch of participants only had two people with special physiques.

“What about the Xia family of the Yanjing City, the Nangong family, and the other families with special physiques?” Shi Zhi asked unwillingly.

Wang hesitated for a moment and said, “Senior Shi, the Xia family, the Nangong family, and the other supernatural families with a hundred years of history have long secretly sent their descendants to the First Training Camp.”

Shi Zhi frowned. “Why didn’t I know?”

“They... They were sent in recently,” Wang said with a bitter expression.

Boom!

The temperature in the entire meeting room instantly fell by more than ten degrees, and the air seemed to have frozen.

Shi Zhi's words jumped out from between his teeth. "I see, they lack faith in me!"

Han Pu, Wang, and the other supernatural experts hurriedly advised, "Senior Shi, calm down. The supernatural inheritance families all have deep foundations and have many choices. The First Training Camp has been established for nearly a hundred years and there are many experts there and also various resources. It's understandable that they chose to send their children there. After all, we just started building this training camp!"

"Hmph!" Shi Zhi snorted heavily. "Just wait and see. I don't believe that we can't nurture a true expert!"

Han Pu and the other supernatural experts smiled bitterly. They knew that Lord Shi's bad temper had returned.

They weren't completely no match for the First Training Camp, so it wasn't a good idea for them to compete with them.

However, no one dared to say anything to offend Lord Shi.

...

In the dark and claustrophobic environment, several weak lights flashed like fluorescent lights.

Swoosh! Swoosh! Swoosh!

Zhou Hao and the other participants entered at the same time.

"Damn, where is this? Why aren't we in the wilderness area?"

"The light is too dim. I can't see anything. How can I kill demon beasts and insects in such an environment?!"

"What a scam. Who set up this environment?"

"Who, who touched my butt..."

After many participants appeared, they swept their eyes over the surrounding environment and complained. Most of their virtual combat training was carried out in the wilderness. There, even during nighttime, they could still easily see dozens of meters around them.

Therefore, many participants were unable to adapt after suddenly entering such a dark and claustrophobic environment. Unfortunately, every second of the competition was precious.

Di di.

In just ten seconds, every participant discovered that there was an additional screen on their left arm that emitted an ear-piercing sound.

“Please note, please note that the rules of the competition have changed... Every participant is to follow the route map on the screen on your left arm and arrive at the signal source within half an hour. If you complete the mission within the specified time, you will successfully advance to the next stage. The loser will be immediately disqualified!”

“At the same time, the points rankings will be displayed.”

As the ear-piercing sound fell, all the participants, including Zhou Hao, Xu Ling, Yuan Cheng, and the others, immediately swept their gazes towards their left arms.

Indeed, a screen appeared on their left arms, and a flashing red dot appeared on the screen. Their points appeared in the lower right corner.

Zhou Hao subconsciously clicked on his points.

Swoosh.

The screen flashed and changed.

The points ranking and the corresponding benefits were all displayed.

Benefits of the top ten: Able to choose any type of plant spirit, any secret technique worth 100 billion yuan, any set of armor and saber worth 10 billion yuan. Able to choose the location of the room number at will (male or female).

Benefits of top thirty: Able to choose any secret technique worth 1 billion yuan, any armor and saber worth 100 million yuan. Able to choose the number of the accommodation building at will.

31st to 60th place: Work harder. Those that are ranked at the bottom will have no benefits.

Chapter 135 - Accidentally Becoming Number One Again

Chapter 135: Accidentally Becoming Number One Again

Upon seeing this, Zhou Hao's eyes lit up. The benefits were indeed good.

Of course, he did not care about resources. He only cared about the benefits of casually choosing room numbers. If he could enter the top ten, that meant that he could choose the room next to Xu Ling and Zhang Yi's rooms.

At the thought of being able to live next to Xu Ling, he became excited.

"Looks like I have to enter the top ten!" Zhou Hao said with a smile. Originally, he had only planned to only meet the minimum requirements, but now that the points ranking and benefits had been announced, he had no choice but to work a little harder.

The other participants were the same as Zhou Hao. When they saw the corresponding benefits on the points ranking, they were all excited as if they had been injected with chicken blood.

However, what they valued the most was resources, especially the plant spirit that was provided to the top ten. That was an incomparably precious cultivation resource.

"Hmm? I didn't expect the training camp to be so generous this time. They actually even dare to nurture us with plant spirits. However, the most important thing for me is still the privilege of choosing the room number. I need to get a room that's near the Ice Muscle Body. If not for this Xu Ling, I wouldn't even be bothered to participate in this bullsh*t competition!" In a damp spot, Ji Yufan looked at the screen with disdain.

The Ji family was similar to the Nangong family and the Xia family. They all had supernatural physique inheritances and were very powerful in terms of resources and foundation. Originally, Ji Yufan would not have joined this new training camp. However, due to a coincidence, he heard that a woman in the Huadong City had activated her Ice Muscle Body and was about to join the new training camp. That was why his parents made him change his mind at the last minute.

After all, if he could combine his Fire Body with the Ice Muscle Body, there was a very high chance that his supernatural body would be perfectly activated. When that happened, it would be even easier for him to break through to the supernatural level, and he could even become a higher-level supernatural expert.

Roar!

Zhou Hao was about to rush towards the red dot on the signal when he heard a low roar. Immediately after, a rich fishy smell rushed into his nose.

Pu!

Zhou Hao then slashed out with his saber. After slashing, he ran quickly without even looking.

The signal source was not fixed. Instead, it kept changing randomly. Most of the participants would encounter demon beasts of different strength on the way to the signal source.

These demon beasts were only at the intermediate-level.

However, aside from the people who were high-level martial artists and masters, the speed of the other participants was quickly disrupted.

Swoosh!

Zhou Hao was extremely fast, even dozens of times faster than the signal source.

In less than 15 seconds, he arrived at the signal source.

Di!

When Zhou Hao arrived, voices sounded from the screens on the arms of all the participants.

“Please note! Please note that a participant has already arrived at the location of the signal source. This player arrived in 15 seconds, the reward is 1,000 points!”

Hearing this voice, the thousand of participants were all dumbfounded.

“Damn, who... who is this?”

“15 seconds? Isn’t that too abnormal? Did he not encounter any demon beast attacks?”

“Damn! Could the signal source be beside him?!”

Many participants’ eyes turned red with envy. It had to be known that they had only obtained 10 points from killing an intermediate-level demon warrior. However, the first participant to arrive had actually been rewarded with 1,000 points, which was equivalent to killing 100 intermediate-level demon warriors.

If they were already so far behind from the start, how were they supposed to catch up?!

Zhou Hao was stunned for a moment.

He did not expect that he would be the first to arrive at the signal source. There was even an announcement on the screen, and it seemed that his participation number had appeared on the points ranking.

“Could it be that we will be fighting each other later?” he muttered, thinking of the reason for the rules.

Many participants noticed the change in the points rankings when they heard the commotion.

Most of them secretly remembered the number of the first place.

The participants of Qu City’s high school training class were stunned when they saw the number of the first place.

“This... this number is Zhou Hao’s, right?”

“1010 points. Heavens, Zhou Hao only killed an intermediate-level demon warrior before reaching the signal source?”

“I’m speechless. Zhou Hao must be near the signal source. Otherwise, it wouldn’t have been 1010 points!”

After the participants of the training class reacted, they were both envious and excited. After all, no matter what, Zhou Hao was from Qu City High School and had already occupied the first place on the ranking list. If word got out, Qu City High School would be completely famous!

“That’s great! I didn’t expect Zhou Hao to get first place on the scoreboard. As expected of the lucky bracelet.”

Xu Ling was even more excited than Zhou Hao for obtaining the first place. She had already thought one step ahead and realized that even if Zhou Hao was eliminated later on, with the 1,000 points reward, he had basically secured a spot for himself!

Zhang Yi was also happy for Zhou Hao.

After the first participants arrived, the signal sources stopped changing. As time passed, more and more participants arrived at their signal sources.

After half an hour, the remaining 300 participants who had yet to arrive were directly eliminated.

“Haha, good job, Zhou Hao!”

“Impressive, Zhou Hao. As expected of a student from our Qu City High School!”

Many students from the training class who had advanced were very happy. They also praised Zhou Hao when they saw him.

Chapter 136 - Target

Chapter 136: Target

As for the participants from the other cities, they all looked at Zhou Hao, who was ranked first on the scoreboard, and thought to themselves, “So this guy’s name is Zhou Hao. Hmph, I’ll have to find a chance to get rid of him later.”

“These guys from Qu City High School are really stupid. They actually exposed the name of the person who got first place in their class.”

Ji Yufan originally did not think much of Zhou Hao, who was lucky enough to get first place. However, he noticed that Zhou Hao seemed to be very close to Xu Ling. Moreover, they seemed a little too intimate. He immediately made up his mind to eliminate Zhou Hao.

Di!

At this moment, an ear-piercing sound sounded from the screen on everyone’s arms.

“The second stage of the competition has begun. Every participant will be immediately sent into an iron cage. Inside, if you’re unlucky, you might encounter other participants, and only one person can advance from the iron cage. Therefore... participants, pray that you don’t encounter any other participants!”

“By the way, by eliminating the other participants, you will get 60% of their points.”

“All the best!”

The ear-piercing sound echoed.

Swoosh! Swoosh! Swoosh!

Before all the participants could react, their bodies were suddenly enveloped by a force.

Immediately after, they realized that they were in an iron cage.

“Zhou Hao?!” A pleasantly surprised voice quickly sounded in Zhou Hao’s ear.

Zhou Hao turned around and saw a participant staring at him excitedly.

“Hahaha, I really can’t stop my luck now that it’s here. I didn’t expect to encounter the first place on the points rankings at the start of the second round. Looks like I’ll be able to get free points... Pfft!”

Before this participant could celebrate for long, a saber beam appeared in his eyes, and his figure disappeared completely.

An additional 120 points appeared on the screen on Zhou Hao’s arm.

“This guy got quite a lot of points. It seems like he killed twenty intermediate-level demon warriors,” he muttered as he sized up the other party in the iron cage.

At this moment, the iron cage opened with a click.

Seeing that there were no other mechanisms, Zhou Hao directly walked out.

“Di! The first participant completed the second level mission in nine seconds! Reward: 1,000 points!”

The screen announcement sounded again.

Many participants who were facing each other in the iron cage subconsciously glanced at the points rankings to see who was so lucky.

However, when they saw that Zhou Hao, who was ranked first, had gained another 120 points, they were all stunned.

“Damn, it’s Zhou Hao again???”

“It only took him nine seconds to increase his points by 120. Does that mean he killed the other participant in nine seconds?”

“Zhou Hao was the first to complete both missions. It’s likely that he’ll end up being first place in the competition!”

“I didn’t expect Qu City High School to have someone like Zhou Hao other than the lucky Xu Ling.”

Many participants were not stupid. After seeing the points Zhou Hao had gained, they all understood that Zhou Hao had to have true strength to be able to complete the mission so quickly.

After all, Zhou Hao had gained an additional hundred plus points. According to the rules, the participants Zhou Hao killed must have been at least an intermediate-level martial artist or even a high-level martial artist .

The participants of Qu City's high school training class were all stunned.

They had not expected that Zhou Hao would be the first to complete the second stage of the competition.

"Zhou Hao is no longer the same Zhou Hao from before!"

"Things are different now. I didn't expect Zhou Hao, who used to always be ranked in last place, to become the pride of our Qu City High School!"

"Instructor Shen once said that Zhou Hao has combat talent. Looks like Instructor Shen is right. He's clearly only at the martial artist level, but his strength is probably comparable to a high-level martial artist!"

Xu Ling and Zhang Yi were even more excited.

"He's going to get the spot for sure!" They were sincerely happy for Zhou Hao's impressive results.

Click, click, click.

Ten minutes passed.

The iron cages of the second stage were all opened, and many competitors covered in blood walked out.

When all the participants gathered together, their gazes simultaneously gathered on the spotless Zhou Hao.

Ji Yufan narrowed his eyes. When he saw that Xu Ling's entire body was almost touching Zhou Hao's shoulder, the killing intent in his heart became stronger.

Xu Ling's Ice Muscle Body was basically the perfect match for his Fire Body. He would definitely not allow anyone to taint Xu Ling.

Chapter 137 - Provocation

Chapter 137: Provocation

"I better pray that you don't bump into me!" Ji Yufan snorted coldly in his heart.

Zhou Hao swept his gaze over Ji Yufan. With his powerful awareness, he naturally had long noticed that something was wrong with Ji Yufan, but he did not care.

Di!

"The final stage of the competition is about to begin. This stage will be a fight against time. In a while, every participant will be placed outside a circular plaza. There will be more than 10,000 low-level demon generals around the plaza. Your mission is to arrive at the center of the square, a safety area with a radius of two meters. Whoever is the first to arrive will be rewarded with 5,000 points!"

Boom!

With a deafening sound, the remaining less than 500 participants disappeared.

When they appeared again, they had already arrived at a circular plaza with a diameter of 10,000 meters.

Roar! Roar! Roar!

Just as Zhou Hao and the others regained their senses, they heard a large number of beast roars at the edge of the plaza.

Many participants turned around and were so frightened that their souls flew away. They saw a large number of low-level demon generals staring at them thirstily.

"The countdown begins!"

10!

"7!"

As the countdown reached 5, the invisible barrier at the edge of the plaza disappeared. More than ten thousand low-level demon generals rushed out crazily.

"Damn, wasn't the countdown supposed to reach 0?"

"Damn, how scammy!"

Some participants who were still making preparations were unable to react in time at all. When they saw the demon beasts rushing over, they all cursed. However, it was already too late for them to escape. They were directly torn into pieces of meat by the demon beasts.

Only a hundred or so participants rushed crazily towards the center of the plaza when the countdown began. However, the speed of the low-level demon generals far exceeded theirs.

“Run!”

“Damn it, how could we possibly outrun a demon general? The designer must have been kicked in the head by a donkey!”

“I can’t take it anymore. Brothers, see you on the other side!”

In just more than ten seconds, the more than 30 participants who were left behind were caught up by more than 10,000 demon generals, and their bodies gradually disappeared.

“Zhou Hao, grab my hand!” As a master-level expert, Xu Ling was extremely fast. She discovered Zhou Hao the moment she started running and quickly approached him.

Zhou Hao did not hesitate at all and grabbed Xu Ling’s hand.

“Don’t leave Zhang Yi behind.” Zhou Hao had sharp eyes and saw that Zhang Yi was already at the back.

Xu Ling nodded and slowed down. At the same time, she rushed towards Zhang Yi with Zhou Hao.

Seeing that the demon general was about to bite Zhang Yi, Zhou Hao directly struggled free from Xu Ling’s hand and ran in the opposite direction. He seized the opportunity and slashed diagonally.

Puchi.

With the help of his high speed, the saber directly cut off the heads of the two demon generals that were trying to bite Zhang Yi.

“Beautiful!” Xu Ling couldn’t help but praise.

When Yuan Cheng, Yun Yan, and the other Yanjing geniuses saw this, they could not help but exclaim, “What a good timing. If you were just a little bit slower, Zhang Yi would be done for!”

Zhou Hao ignored the surrounding gazes and shouted, "Zhang Yi!"

Zhang Yi suddenly exerted strength in his feet and his body bounced out like a spring.

Zhou Hao quickly stretched out his hand and grabbed Zhang Yi's hand.

Xu Ling also retreated and grabbed Zhou Hao's hand again.

"Let's charge together!"

"Haha, let's charge together!"

The three of them laughed.

The remaining 60 plus participants revealed envious eyes when they saw this. At such a critical moment, the three of them still did not forget each other. They were definitely friends who could depend on each other!

Ji Yufan, who was charging at the front, was furious.

Especially when he saw Xu Ling and Zhou Hao intertwine their fingers, he gritted his teeth so hard that they almost cracked.

Bang!

He suddenly stopped in his tracks and quickly retreated.

In just five to six seconds, Ji Yufan got close and ran alongside Zhou Hao, Xu Ling, and Zhang Yi.

"Xu Ling, you have an Ice Muscle Body and are destined to be with a Fire Body like mine. Our special physiques can perfectly stimulate each other!" Ji Yufan said coldly.

Xu Ling frowned.

Zhou Hao said bluntly, "Who are you?"

"Frog in the well. I'm from the Ji family and have inherited a supernatural physique. I have the Fire Body and will even activate the Fire God Body in the future and become an expert among supernatural experts!" Ji Yufan snorted disdainfully. "I advise you to stay away from Xu Ling. Otherwise, don't blame me for being impolite!"

Zhou Hao said angrily, "Are you crazy? We don't even know you. Get lost. Don't get in our way!"

Bang!

Ji Yufan could not be bothered to waste his breath on an ordinary person like Zhou Hao. He directly stabbed out with his spear.

Chapter 138 - A Difficult Decision

Chapter 138: A Difficult Decision

“Be careful!” Xu Ling sensed Ji Yufan’s movements and shouted anxiously.

However, the spear attack that was comparable to a grandmaster’s attack was too fast.

Xu Ling only had time to warn Zhou Hao and did not have the time to block the attack.

Ji Yufan looked at Zhou Hao, who did not have any reaction, and the disdain on his face became stronger. He wondered if someone with such strength was even worthy of competing with him for the Ice Muscle Body?

Chi!

Just as the tip of the spear was about to stab into Zhou Hao’s chest, Zhou Hao moved his foot and lightly swung his left shoulder. The tip of the spear brushed past the clothes on Zhou Hao’s chest and missed him.

“How is this possible?!”

“He actually dodged it?”

“How did Zhou Hao do it?”

Not far away, Yuan Cheng, Yun Yan, and the others, who were running with all their might, were actually paying attention to Zhou Hao and the others. After all, a special physique genius like Ji Yufan was too eye-catching. Therefore, when they saw that Zhou Hao had actually dodged Ji Yufan’s attack, their faces revealed shock.

It had to be known that even they did not have the confidence to dodge Ji Yufan’s attack.

Even Xu Ling, who had reached the master level, could only remind Zhou Hao anxiously.

Although Zhou Hao's performance in the previous two stages was shocking, Yuan Cheng, Yun Yan, and the others did not believe that Zhou Hao already had the strength to contend with Ji Yufan!

But the truth was right in front of them.

Could the peerless genius hidden in the school be Zhou Hao? This thought appeared in Yuan Cheng and Yun Yan's minds at the same time.

However, they quickly shook their heads. They really could not bring themselves to believe that Zhou Hao was the peerless genius who had used a shocking saber move and killed a grandmaster-level expert of the Dark Gods with peerless combat strength!

Ji Yufan was stunned for a moment before his expression darkened. "You actually dared to dodge?!"

Zhou Hao smiled coldly. "What? You're trying to kill me but I'm not allowed to dodge? This is the first time I've met such an arrogant guy like you!"

With that said, he quickly stretched out his palm, grabbed the spear Ji Yufan had thrust out, and pulled forcefully.

Ji Yufan and the spear immediately rushed to Zhou Hao's side as they were carried by the momentum of the attack.

Bang!

Zhou Hao casually kicked out, and Ji Yufan's body was like a kite with a broken string as he was quickly sent flying and smashed into the tens of thousands of demon generals that pounced over from behind.

Pu! Pu! Pu!

Ji Yufan went into a frenzy. He waved the spear in his hand with his full strength and killed the demon generals one after another. However, there were too many demon generals, and they drowned him in a few seconds.

Before he was disqualified, he shouted angrily, "Zhou Hao, Just you wait! When I meet you at the training camp, your life will be ruined!"

Zhou Hao did not care at all about Ji Yufan's threat.

"Ahhh!"

At this moment, the demon generals were getting even faster. The forty-plus participants who were left behind were all torn to pieces and disappeared from the virtual environment plaza.

Seeing that the ten thousand demon generals were about to catch up to Zhou Hao and the others, Yuan Cheng and Yun Yan, who were ahead, gritted their teeth and paused for a moment. Then, their figures immediately fell behind.

Fang Yu, Lei Jinpeng, and the other two were stunned for a moment before they pondered for a moment and quickly slowed down.

Soon, the five of them were running alongside Zhou Hao and the other two.

“Xu Ling, grab our hands!” Yuan Cheng and Yun Yan shouted.

“Yuan Cheng, Yun Yan... Thank you!” How could Xu Ling not be able to tell that Yuan Cheng and the others were trying to help them?

Slap! Slap! Slap!

Almost instantly, the eight people’s palms connected.

“Charge!”

They used all their strength to sprint. Although the strengths of the eight people were different, under the situation where they were united, they suddenly exploded with an extremely fast speed. The remaining dozen or so participants were quickly surpassed by the eight of them.

“Ahhh!”

Seven to eight seconds passed, and another six participants were eliminated.

At this moment, there were still fourteen participants left in the plaza. Among them, there were eight from Qu City High School and four from the Yanjing Training Camp. The remaining two geniuses were from the other cities.

“Hurry up, we’re almost there!”

The two-meter safe area was very close to them, but the expressions of Yuan Cheng, Yun Yan, and the others changed slightly.

This was because the safety area was two meters wide and could not accommodate eight people. At most, only five people could squeeze in!

“Who’s going in and who’s staying out?” Facing the choice, the eight of them stood at the edge of the safe area, their expressions flickering.

After all, they knew very well that once they were disqualified, it was very likely that they would lose the opportunity to join the Global Elite Training Camp!

If they missed this opportunity that could change their lives, they would regret it for the rest of their lives.

Chapter 139 - Me? A Peerless Genius?

Chapter 139: Me? A Peerless Genius?

“Yuan Cheng, Yun Yan, the five of you should go in quickly. If not for your help just now, we wouldn’t have been able to get here!” Xu Ling suddenly said.

Yuan Cheng, Yun Yan, Fang Yu, and the other Yanjing geniuses were all stunned.

“Xu Ling...”

Xu Ling waved her hand and interrupted, “Hurry up, stop hesitating.”

Yuan Cheng, Yun Yan, and the others said in unison, “Thank you!!”

Bang! Bang! Bang!

The remaining six people were quickly killed by the demon generals, and the ten thousand demon generals were about to reach the edge of the safe area.

Seeing this, Yuan Cheng, Yun Yan, and the others standing in the safe area looked at each other before leaving the safe area one after another to stand together with Zhou Hao, Xu Ling, and Zhang Yi.

“You...” Xu Ling and the other two were stunned.

Yuan Cheng smiled and said, “If you guys are going to die, then we’ll all die together!”

Yun Yan flicked the hair that fell from her forehead and nodded. "Yes, we're all from Qu City's high school training class. Naturally, we have to stick together!"

Fang Yu looked at Xu Ling. "I was wrong in the past. I hope you can forgive me."

The remaining Lei Jinpeng and the other Yanjing genius did not say a word. However, the fact that they were willing to leave the circle showed that they also felt the same way.

Slap! Slap!

Xu Ling held Yun Yan's hand, and Yun Yan held Yuan Cheng's... The eight of them held hands again.

"If we die, we die together!"

Their voices were loud and firm.

Roar! Roar!

Just as the ten thousand demon generals were about to drown the eight of them, an ear-piercing voice sounded from the screen on their arms.

"Di! Congratulations on meeting the hidden condition of the third stage of the competition. All of you will be rewarded with 3,000 points for overcoming the crisis together!"

At the same time, the ten thousand demon generals disappeared.

Only Zhou Hao, Xu Ling, and the other Qu City High School students were left in the square.

"Ah, we weren't eliminated and even met a hidden condition?" Yuan Cheng, Yun Yan, and the others were all dumbfounded.

Zhou Hao smiled. "In the face of the foreign races, we humans naturally have to work together to overcome the difficulties. I believe that was also the real objective of the third stage!"

Yuan Cheng, Yun Yan, and the others came to a realization.

That's right!

Over the past hundred years, if not for the humans of Earth working together to resist wave after wave of attacks from the foreign races, they would have long been enslaved.

“Look at the total points rankings. Our numbers are all ranked in the front!” Fang Yu exclaimed.

Swoosh! Swoosh!

Xu Ling, Zhang Yi, and the others hurriedly looked at the arm screen.

As expected, Zhang Yi, Fang Yu, Lei Jinpeng, and the others, who were originally behind in points, jumped into the top ten.

After all, the reward for the third stage alone was 3,000 points!

“Haha, that’s great. This time, the eight of us will all be able to enter the Global Elite Training Camp together. We can even choose our room numbers at will. In other words, the eight of us will still be able to live next to each other!” Yuan Cheng, Yun Yan, and the others were all pleasantly surprised.

Zhou Hao also smiled.

In fact, before this, Zhou Hao wasn’t really fond of Yuan Cheng, Yun Yan, and the other Yanjing geniuses. He especially disliked Fang Yu and Lei Jinpeng. However, after what just happened just now, his understanding of them had changed slightly.

Confronted with more than ten thousand demon generals, not only were they willing to fall behind to help the three of them, but they even left the safe area to die together.

Such people were worth befriending.

“Di! The competition for the Global Elite Training Camp has officially ended. Congratulations to the students ranked in the top 60 for obtaining the qualification to enter the Global Elite Training Camp. Please arrive at the frontline fortress base of the spatial rift in half a month. At that time, we will have special personnel to welcome you!”

An ear-piercing sound spread throughout the entire square and spread out through the virtual cabin.

“The virtual environment is about to close, countdown 10...”

In the ten seconds of the countdown, Yuan Cheng, Yun Yan, and the others looked at Zhou Hao and couldn’t help but ask, “Zhou Hao, are you the hidden peerless genius of the school?”

Zhou Hao’s heart skipped a beat, but his expression did not change. He pretended to be surprised and pointed at himself. “Me? A peerless genius?”

Bang.

Xu Ling, who was beside him, kicked Zhou Hao and curled her lips. “How could he be a peerless genius? Yuan Cheng, Yun Yan, don’t be fooled. Zhang Yi and I have seen him dodge attacks before. It’s quite normal for him to have dodge Ji Yufan’s attack.”

Yuan Cheng, Yun Yan, and the others looked at Zhang Yi suspiciously.

Chapter 140 - The Strong Are Respected

Chapter 140: The Strong Are Respected

Zhang Yi nodded. “That’s right. When we were searching for rare resources in the wilderness, we saw him use such a movement technique. It seemed to be some kind of short distance dodge.”

“It’s a Minute Subtlety movement technique!” Zhou Hao said angrily.

“Yes, yes, that’s the name.” Zhang Yi scratched his head.

Yuan Cheng, Yun Yan, and the others asked curiously, “Minute Subtlety movement technique?”

Zhou Hao smiled and said, “This is a relatively high-level dodging technique. I figured it out myself. When we leave later, you can ask Instructor Shen to see if he can tell you guys anything about it. To be honest, I don’t even know much about it myself. I rely entirely on my intuition.”

“Alright, we’ll ask Instructor Shen.”

...

In the focused training class.

Zhou Hao and the others left the virtual cabin and saw many students in the class staring at them enviously.

“Congratulations!”

“Top ten. I’m so envious!”

“That’s right. You guys are the pride of our Qu City High School for being able to enter the top ten together!”

Slap! Slap! Slap!

A round of applause sounded.

Although the students of the training class were envious, they were still sincerely happy for Zhou Hao, Xu Ling, and the others. After all, the eight of them had made it to the top ten of the Global Elite Training Camp. Without a doubt, Qu City High School, which had stolen the limelight, would now become the center of attention.

Obviously, these eliminated students would also benefit from the fame.

Principal Zheng and the others standing in front were also excited. Even Instructor Shen, who rarely showed his emotions, revealed an excited expression.

For the Qu City High School’s focused training class to suddenly have eight top ten students from the training camp, this meant that Shen Jing had picked the right students.

Moreover, the moment the results were announced, Head Instructor Cheng from Yanjing City sent him a congratulatory message.

A moment later, Shen Jing went out to answer a call. When he returned, the excitement on his face became even stronger.

He raised his palm and pressed it into the air. “Silence!”

Soon, the voices in the training room disappeared.

Shen Jing swept his gaze around and smiled. “First of all, congratulations to Yuan Cheng, Yun Yan, Xu Ling, Fang Yu, Lei Jinpeng, Wang Shuo, Zhou Hao, and Zhang Yi. Not only did they obtain the spot for the Global Elite Training Camp, but they also obtained outstanding results in the top ten!”

Slap! Slap! Slap!

Another round of intense applause sounded.

Shen Jing smiled and pressed his palm down again before continuing, “Secondly, the other students who have been disqualified from our class, don’t be discouraged. Just now, I received news that because of our class’s outstanding performance this time, the city will establish a special training camp, and everyone in our class can enter.”

“The special training camp this time is different from the focused training class. In terms of resources, it’s even better than the Yanjing Training Camp. More importantly, the Global Elite Training Camp will provide extra spots for us next year!”

As soon as he said this, the students in the focused training class who had been eliminated let out thunderous cheers.

Shen Jing added, “Lastly, I’ll tell you another piece of good news. For the next half a month, all of you will be on break!!”

“Damn, Instructor Shen, you’re too kind!”

“Long live Instructor Shen!”

“Half a month off, thank you Instructor Shen!”

One by one, the students were excited and their voices shook the sky.

...

In the Supernatural Building.

The total points rankings were displayed on the wide electronic screen in front of the higher-ups of the Supernatural Council.

Wang and the other supernatural experts frowned.

“Senior Shi, isn’t this result too ridiculous?”

“That’s right. Xu Ling and Ji Yufan, two geniuses with special physiques at the master level didn’t even make it to the top three. If news of this gets out, I’m afraid the other training camps will laugh at us!”

“I’ve specially asked around just now. This Zhou Hao who is ranked first is currently only at the level of a martial artist. Moreover, just a while ago, he was only an ordinary first level blood essence student!”

Several supernatural experts spoke up.

Shi Zhi glanced at them indifferently. “Although I am the one who made adjustments to the three stages of the assessment at the last minute, tell me, which of the three stages are problematic?”

Wang, Han Pu, and the other supernatural experts immediately fell silent.

The three stages set by Senior Shi were all based on reality. It tested the comprehensive data of the participants. This was especially true for the last stage. They all agreed with it.

“Points are everything!” Shi Zhi snorted. “Don’t think I don’t know what you guys are thinking. In this assessment, I canceled the recommendation privileges that have always been implemented by the other training camps. Because of this, many cities didn’t even get a single slot. The high-level military personnel of these cities should be displeased, right?”

At this point, his voice became cold. “So what if they aren’t pleased? Whether it’s in the training camp or in the foreign race battlefield, the strong are the most respected. They should rely on strength and not connection to get the spots. Tell them that if they want to get more spots, they should focus on increasing the strength of the future generation in the city!”

Chapter 141 - What? Are You Afraid?

Chapter 141: What? Are You Afraid?

The other supernatural experts hurriedly said, “Yes, Senior Shi!”

Shi Zhi looked at Han Pu. “You will be in charge of ensuring the safety of the sixty students who got the spots. If there’s anything you need, just tell me. This is the first time I’ve established a training camp. I believe the other departments in the base will also cooperate.”

“Yes, I’ll get them settled as soon as possible.” Han Pu nodded heavily.

Shi Zhi looked at the supernatural expert surnamed Wang. “How is the progress on the other facilities in the training camp?”

The supernatural expert surnamed Wang hesitated for a moment and replied, “Senior Shi, the land space in the city is currently rather limited. Isn’t it too wasteful to build small villas for the top ten?”

Shi Zhi’s gaze turned cold. “I want my training camp to have all the facilities of the other training camps. Our facilities even have to be better!”

“Understood, I’ll supervise it now!”

At the Dark Gods headquarters.

Ever since the destruction of the Huadong City had failed, the Dark Gods had not sent any spies to infiltrate the Huadong City. Moreover, the Demon Race, the Insect Race, and the Machine Race had also stopped sending their high-level overlords to lead beast wave attacks on the Huadong City.

It was as if they had agreed to ignore Huadong City altogether.

“President, do we really have to do this?” A nervous voice sounded from under a black shadow.

The Dark Gods president, who was covered in a mask, said coldly, “What? Are you afraid?”

The dark figure hurriedly said, “President, it’s not that I’m unwilling to part with a high-level grandmaster. It’s just that the price of sacrificing a high-level grandmaster just to assassinate a special physique genius is too high!”

The Dark Gods president gritted his teeth and said, “I understand that the price is high, but we are already being blamed for failing to destroy Huadong City. If we don’t do anything, our Dark Gods will have to bear the consequences!”

“This... the Demon Race and the Insect Race are too unreasonable. Who would have expected a peak-level supernatural expert to appear in the Huadong City!” the black figure couldn’t help but say.

“Hmph, when have the Demon Race, the Insect Race, and the other foreign races ever been reasonable? If not for the fact that our Dark Gods are still useful, they wouldn’t have helped us!”

The Dark Gods president shook his head. “Alright, arrange this as soon as possible. We have to succeed no matter what!”

“Yes!”

...

A week later.

In a bar in the North District of the Huadong City.

The lights were dazzling and bustling.

More than forty students from Qu City High School’s focused training class were all gathered here.

Because Zhou Hao and the others were going to the frontline fortress base of the spatial rift tomorrow, Instructor Shen had specially reserved this bar tonight for all the students to send the eight of them into the elite training camp.

“Come, Zhou Hao, let me give you a toast. I hope you can let bygones be bygones if I have offended you in the past!” Wang Ming raised his glass and looked at Zhou Hao.

Zhou Hao also smiled and raised his glass before drinking it all.

“Nice!”

“Zhou Hao, let me give you a toast too. I wish you the best in your new class!”

“Zhou Hao, here’s a toast to you. Actually, I’ve always been jealous of your relationship with Xu Ling, but I’ve gotten over it now. Only you, Zhou Hao, are worthy of Xu Ling. Let’s drink away all the grudges of the past!”

“Zhou Hao, I used to look down on you. But now, you are someone I aspire to become. Hah!”

Many students from the training class walked towards Zhou Hao and proposed a toast.

Zhou Hao also drank with them one by one, their grudges disappearing.

After all, he was going to the frontline fortress base tomorrow. In the future, there would be very few opportunities for them to see each other. No matter how many grudges they had, it was meaningless. Therefore, everyone could relax tonight.

Xu Ling, Yun Yan, and Fang Yu, the three beautiful students, also stayed together to drink. The topics of their discussion were naturally different.

“Xu Ling, tell me honestly. Have you and Zhou Hao...” After drinking some wine, Yun Yan’s face turned red.

Xu Ling blushed. “What? We’ve only held hands.”

Fang Yu said in surprise, “No way. I thought you had tried it!”

Yun Yan drank another cup and became even more drunk. “Fang Yu, Fang Yu, stop talking about Xu Ling. Aren’t you also a virgin?!”

“Screw you, Yun Yan. I’m at least the same as Xu Ling. I’ve held hands with a boy before. I bet you haven’t even held a boy’s hand before, right?” Fang Yu curled her lips.

Yun Yan was drunk. “Who... who told you that? I’ve held a boy’s hand before. Last time in the virtual environment, didn’t we all hold hands together?”

Xu Ling and Fang Yu rolled their eyes. “How can that even count?!”

Boom!

Just as the three of them were about to rely on their drunkenness to dig up more exciting gossip, a terrifying pressure enveloped the entire bar.

All the students immediately felt difficulty breathing, and some even fainted.

Swoosh.

A figure rushed towards Xu Ling like a burning flame.

Chapter 142 - An Urgent Situation

Chapter 142: An Urgent Situation

When Zhou Hao saw this, he trembled. He immediately understood that this person’s target was Xu Ling!

“Xu Ling, run!”

As he shouted, Zhou Hao did not care about exposing his identity. He directly activated his ordinary standard armor and flashed in front of Xu Ling.

Bang!

He and the fiery figure instantly exchanged blows.

The two of them did not have any fancy movements as their fists collided.

The terrifying and powerful forces collided and exploded with a strong sonic boom. The sound was like rolling thunder, sweeping up layers of air waves that spread out.

Bang! Bang! Bang!

A violent wave of air swept out, sending Yuan Cheng, Yun Yan, and the others flying.

If not for Zhou Hao separating a portion of his aura to protect them, the wave attack alone would have severely injured them.

“It’s... it’s a grandmaster-level expert!”

“He’s definitely a grandmaster!”

“The Dark Gods. This grandmaster’s aura is cold and sinister. There’s a 90% chance that he’s a grandmaster of the Dark Gods!”

“Quick, inform Commander Zhao!”

Yuan Cheng, Yun Yan, and the others recovered from their shock. All of them struggled to get up and hurriedly informed Instructor Shen and the higher-ups of the city.

“Xu Ling, are you alright?”

After informing them, they hurriedly ran to Xu Ling, who had fallen to the ground.

The Dark Gods Union’s grandmaster’s first target was Xu Ling. Even though Zhou Hao had reacted in time and blocked in front of Xu Ling, the impact of the terrifying aura still made Xu Ling’s body tremble.

Pu!

Xu Ling spat out a mouthful of blood and gradually opened her eyes. “I, I’m fine. I just suffered a little shock!”

Yun Yan immediately grabbed Xu Ling’s wrist and heaved a sigh of relief. “She’s fine. It’s just that her blood essence is surging.”

Hearing this, Yuan Cheng, Yun Yan, and the others finally relaxed.

At this moment, Zhou Hao, who was wearing standard armor, had already rushed out of the bar with the Dark Gods assassin and was fighting in the sky.

The aftermath of their battle destroyed many buildings.

Just as Zhou Hao was about to use Senior Zhou’s identity to instantly kill this assassin, Commander Zhao, He Biao, Zhen Hong, and the other grandmasters sensed the combat aura and rushed over.

“Not good, it’s a high-level grandmaster of the Dark Gods!!”

“It’s the Dark Gods again!”

“Quickly inform Senior Zhou!”

"It's that hidden genius from Qu City High School. I didn't expect his strength to have reached such a level!"

The moment Commander Zhao and the others saw this grandmaster, they immediately sent a message to Senior Zhou. At the same time, they stared intently at the battle between Zhou Hao and the high-level grandmaster of the Dark Gods.

Zhou Hao, who had received the distress signal, smiled bitterly. How could he pretend to arrive as Senior Zhou now?

"Looks like I still have to get involved with my other identity!" Thinking of this, he simply used the powerful secret technique "Shadow Seven Sabers"!

Chi.

His body quickly flashed as a stunning saber beam appeared.

The high-level grandmaster of the Dark Gods immediately revealed a shocked expression. Facing this shocking saber move, he was unable to react at all. Soon, a bloody mark appeared on his forehead.

"You, you're actually that... that..."

Before he could finish speaking, his body smashed heavily onto the ground, and his aura gradually dissipated.

Silence surrounded the bar.

Regardless of whether it was Yuan Cheng, Yun Yan, or the other grandmasters, their eyes were filled with disbelief.

After all, this Dark Gods assassin in front of them was a true high-level grandmaster-level expert. Even though the strength of the Dark Gods grandmasters was generally weak, they were still high-level grandmasters no matter how weak they were!

If it was a supernatural expert like Senior Zhou who had killed him, they would not be surprised at all. However, the person who killed the assassin was...

"Wait." Seeing that the man in standard armor was about to leave, Commander Zhao hurriedly shouted.

Zhou Hao turned around and deliberately asked in a hoarse voice, "What's the matter?"

Commander Zhao took a deep breath and said, "Are you a student of Qu City High School?"

“Yes,” Zhou Hao said slowly.

Upon hearing this confirmation, Commander Zhao, He Biao, and the other grandmasters became excited.

Indeed, this person in front of him was really the hidden peerless genius of Qu City High School. Moreover, his strength had actually reached the point where he could kill a high-level grandmaster-level expert.

This rate of improvement was simply terrifying!

In comparison, a special physique genius like Xu Ling was a lot less impressive. Even if her potential for growth was very high, was still inferior to this peerless genius!

“Student, the frontline fortress at the spatial rift is currently establishing a global elite training camp. If you’re willing, we can guarantee a spot for you to enter so you can be nurtured,” Commander Zhao hurriedly said.

Zhou Hao replied in a hoarse voice, “Sorry, I prefer to be alone.”

With that said, he turned around and left, his figure quickly disappearing.

Chapter 143 - Blood Poison Centipede

Chapter 143: Blood Poison Centipede

Looking at Zhou Hao’s back, Commander Zhao could not help but sigh. “We already owe this peerless genius a lot of favors. Unfortunately, we can’t help him at all. Moreover, if such a peerless genius is nurtured, his growth will be even faster.”

He Biao shook his head and said, “Commander Zhao, such a peerless genius can’t be taught in the training camp. Moreover, he should already have a better master.”

“That’s right. Only Senior Zhou can teach such a stunning saber beam,” Zhen Hong said with a sigh.

Commander Zhao was stunned for a moment before coming to a realization. “Looks like Senior Zhou doesn’t want us to know his relationship with this peerless genius.”

In a ruined bar, Yuan Cheng, Yun Yan, and the other students watched the peerless genius leave with mixed emotions.

This was the true peerless genius who could suppress his peers!

Originally, they couldn't help but feel a little proud after obtaining a spot in the elite training camp and entering the top ten. However, now, this pride had disappeared.

At this moment, Commander Zhao and the other grandmasters walked into the bar one after another. They looked at Yuan Cheng and the other students, stepped forward, and asked in concern, "How are you guys? Are you guys injured?"

"Commander, we're all fine, but most of the students have fainted from the shock. Some of them even suffered minor injuries, but they're currently fine," Yuan Cheng hurriedly replied.

Commander Zhao nodded. "That's good..."

Before he could finish speaking, Xu Ling, who was standing beside Yuan Cheng and Yun Yan, spat out a mouthful of blood.

"Xu Ling, what's wrong?" Yuan Cheng, Yun Yan, and the other students were shocked and hurriedly helped Xu Ling up.

Zhou Hao, who had just returned, heard the sound and rushed over. He flashed in front of Xu Ling and said anxiously, "Xu Ling, don't scare me. What happened to you?"

As he spoke, he divided his blood essence and quickly extended it into Xu Ling's body. He followed her blood vessels and quickly found a long, thin insect that was similar to a centipede.

Zhou Hao's expression changed as his domineering blood essence directly enveloped the centipede insect and forced it out of Xu Ling's body.

Commander Zhao and the other grandmasters' expressions changed drastically when they saw the centipede.

"This is a Blood Poison Centipede. They can silently enter the blood vessels of the human body and release their poison. They are extremely harmful to martial artists!"

"Damn the Dark Gods. They're trying to destroy Xu Ling!"

One by one, the grandmasters were furious.

Zhou Hao hurriedly asked, "Commander Zhao, is there an antidote for the Blood Poison Centipede?"

Commander Zhao sighed. "The Blood Poison Centipede is one of the ten great poisonous insects of the demon race. It has an intense poison. Although there is an antidote for the poison, it's still very hard to find. This is because the antidote grows in the spatial rift and is extremely difficult to find!"

"There was once a supernatural expert who was ambushed and poisoned by the Blood Poison Centipede. He went to the spatial rift to find the antidote but did not succeed. Moreover, before he died, he told us not to go to the spatial rift."

"That's why I said that it's hard to find."

Zhou Hao asked in a deep voice, "Commander Zhao, I want to know what the antidote is. No matter how difficult it is, I want to find it!"

Commander Zhao could understand Zhou Hao's mood. Although he knew that it was impossible to find the antidote, he still said, "I'm not too sure about the exact details. Only a powerful supernatural expert knows the name and exact location of the antidote. When you go to the frontline fortress base of the spatial rift, you can ask the dean of the training camp."

"Commander Zhao, if we don't find the antidote, how long can Xu Ling last?" Zhou Hao asked.

"At most half a month." Commander Zhao shook his head. "But don't worry. Xu Ling is a special physique genius. I'll send the news to the supernatural experts. I believe they have the ability to let Xu Ling live longer!"

Zhou Hao heaved a sigh of relief. Half a month was not a short period of time for him. After all, with the "Golden Crow Escape Technique", he could move thousands of kilometers in an instant. Moreover, with his strength, even if he entered the spatial rift, he should be able to stay alive.

However, before figuring out the antidote and its location, he wouldn't rashly enter the spatial rift.

Not long after, the other students who had been knocked unconscious woke up one after another. They also quickly learned that Xu Ling almost got assassinated by a high-level grandmaster expert of the Dark Gods. Fortunately, the peerless genius of Qu City High School was present and protected their lives.

However, Xu Ling had been poisoned by the Blood Poison Centipede and only had half a month to live.

"Zhou Hao, don't worry. Commander Zhao said that he'll get the help of a supernatural expert!"

“That’s right. A supernatural expert will definitely have a way. There’s no point in panicking now!”

“Don’t worry, Xu Ling will definitely be fine!” The students of the training class consoled.

Soon, Instructor Shen and Xu Zhenguo arrived at the bar.

“Daughter!” Seeing Xu Ling’s dispirited expression, Xu Zhenguo’s eyes turned red.

Instructor Shen’s face darkened, his eyes flashing with anger.

Zhou Hao said firmly, “Uncle Xu, I’ll find the antidote. Even if the spatial rift is incomparably dangerous, I’ll still find the antidote and bring it out to save Xu Ling.”

Zhang Yi patted Zhou Hao on the shoulder.. “I’ll go with you.”

Chapter 144 - To The Spatial Rift Fortress

Chapter 144: To The Spatial Rift Fortress

Xu Zhenguo had already understood how terrifying the Blood Poison Centipede was and how dangerous it was to find the antidote. For Zhou Hao to make such a promise, he could tell that Zhou Hao was extremely courageous.

“Good child, Ling’er was right to have picked you!”

The next morning.

Outside the East Station of the Huadong City.

One after another, ferocious king-level demon beasts stood together.

On their backs were Zhou Hao and the other eight students who were headed to the spatial rift fortress base, as well as some grandmaster-level experts from the fortress base and Han Pu.

Many students from the training class, the school leaders, and Instructor Shen looked at them with reluctance. Zhou Hao’s parents also reminded Zhou Hao to watch out for his safety.

“Mom, Dad, don’t worry. With a supernatural expert and a grandmaster-level expert protecting us, nothing will happen to us on the way! We also have these king-level demon beasts.” Zhou Hao consoled.

Wang Shuyun looked at Xu Ling, whose face was slightly pale, and whispered, “Son, Xu Ling is a good girl. You can’t abandon her just because she’s poisoned!”

Zhou Hao did not know whether to laugh or to cry. “Mom, am I that kind of person?!”

Zhou Xueguo also reminded, “A person has to finish what he started. Of course, you have to act according to your capabilities! Don’t push your limits!”

Zhou Hao was speechless. “Got it.”

On the other side, Xu Zhenguo’s eyes were still filled with tears.

Last night, he did not sleep at all. If not for the prohibition of casual entry to the frontline rift fortress base he would have definitely abandoned everything and accompanied his daughter there.

“Ling’er, don’t worry. Even if I have to go bankrupt, I will find the antidote for you!”

Although Xu Ling’s face was pale, she had gotten much better after last night. “Dad, I’m fine. Besides, didn’t Senior Han say last night that he would get the dean to examine me personally when we arrive at the elite training camp? I believe there will be a way!”

Xu Zhenguo nodded. The dean of the elite training camp was a true super expert. Such a figure definitely had a way to save his daughter.

“Ling’er, take good care of yourself along the way. That brat Zhou Hao is fine, but that’s only if he dares to enter the spatial rift and help you find the antidote. If he does that, I’ll be completely relieved to hand you over to him!”

When Xu Ling heard this, her pale face turned red. “Dad, what nonsense are you talking about?!”

Xu Zhenguo forced a smile. Going to the frontline fortress base was supposed to be something worth celebrating over so he did not want to ruin his daughter’s mood. “My daughter has grown up. It’s time for me to let go. When you get to the fortress, remember to take time to tell me that you’re safe!”

“I will!”

At this moment, Han Pu, who was sitting on the back of a king-level demon beast, slowly said, “Let’s go!”

Roar!

One demon beast after another stood up with a low roar.

“Go home!” Zhou Hao and the other eight students waved their hands.

Instructor Shen and the students of the training class watched as the king-level demon beasts left. They knew very well that they would probably have very few chances to see each other in the future.

...

The journey from the Huadong City to the frontline fortress was more than a thousand kilometers. Fortunately, the speed of king-level demon beasts was not slow and they only needed three days to arrive.

However, because there were a large number of wilderness areas along the way and many foreign races such as demon beasts and insect beasts were everywhere, the time would be extended once an attack happened.

Han Pu drank a small cup of wine and lay comfortably on the demon beast's fur. “Little girl Xu Ling, don't worry. Although the poison of the Blood Poison Centipede is intense and the antidote is difficult to find, you will be fine. After all, you're different!”

“A special physique is extremely effective against poison. As long as you can advance to the grandmaster level, you can rely on the blood in your body to suppress the spread of the poison. It won't be a problem for you to live!”

Xu Ling bit her lip and could not help but ask, “Senior Han, but... but I only have half a month...”

Han Pu pursed his lips. “That's only if you have no one around to help you. However, don't forget that you're a student of the training camp now. The dean won't give up on you.”

Yuan Cheng couldn't help but ask, “Senior Han, is the dean very powerful?”

“Nonsense!” Han Pu said angrily. “Take these king-level demon beasts we're riding for example... The dean can destroy them with a single breath!”

The eyes of Yuan Cheng, Yun Yan, and the other students lit up.

Xu Ling's eyes also revealed hope. Such an expert would definitely be able to suppress the poison in her body.

Chapter 145 - Are You Sure You Want to Choose Number 1?

Chapter 145: Are You Sure You Want to Choose Number 1?

On the way, Han Pu occasionally chatted with them about the situation in the fortress base, allowing Xu Ling and the others to have a rough understanding.

“There are no residents in the fortress base. There are only students, soldiers, and martial artists. Unlike the Huadong City where you stay, all the resources in the fortress base require points to be purchased. You will know when you enter the training camp. In short, points are very important!”

“Outside the defensive line of the fortress base is the battlefield at the edge of the spatial rift. It’s commonly known as the foreign race battlefield. In the past, the places where we fought the foreign races were inside the spatial rift. But now, the battlefield has been transferred to the outside of the spatial rift. Moreover, the scope of the battlefield has been shrinking more and more. Some of the battles have even spread to the defensive line of the fortress base!”

As he spoke, Han Pu’s tone became solemn.

“The living space of us humans is getting smaller and smaller, and the situation is getting more and more serious. That’s why we have this new global elite training camp. The goal is to nurture more experts!”

The expressions of Zhou Hao, Xu Ling, and the others were also incomparably solemn.

They could sense the huge pressure from Han Pu’s words.

Facing the attacks of the foreign races, it was becoming more and more difficult for the humans on Earth to persist. If they lost the fresh blood, then the final outcome of humanity would be annihilation.

Han Pu glanced at Zhou Hao and the other students and suddenly smiled. “Don’t feel pressured. Right now, there are still us old guys holding the fort. Your mission is to train well and increase your strength. When we can’t hold on any longer, it’ll be your turn!”

Han Pu was smiling, but Zhou Hao, Yuan Cheng, Yun Yan, and the others were silent.

Three days passed in the blink of an eye.

Along the way, other than being attacked by some insect beasts, they did not encounter any other accidents. The main credit went to these king-level demon beasts. Their aura pressure had reduced a lot of trouble.

At 9 am on the fourth day.

The group arrived at the West Station defense line of the frontline fortress.

Zhou Hao, Yuan Cheng, and the other students were stunned as they looked at the wall that was thousands of meters tall and completely made of special metal.

“Haha, I was also shocked when I first arrived at the fortress base. This defensive wall looks shocking, but in fact, its defense ability is very weak. The true defense line is inside the base. The wall is completely built with energy and is more than 10,000 meters tall!”

Han Pu smiled and jumped to the ground. Then, he walked to the defense line checkpoint of the West Station.

The soldiers at the checkpoint seemed to know Han Pu and bowed.

Soon, Han Pu waved his hand at Zhou Hao and the others. “All of you, come down.”

Swoosh! Swoosh!

Zhou Hao, Yuan Cheng, and the other eight students all turned around and got off. The king-level demon beasts they were riding on also turned around and left.

With the special chips, Han Pu was not worried about them escaping.

“All of you, follow me closely. The checkpoint outside is not strict, but it’s extremely strict inside. Even I have to go through layers of checking gates!” Han Pu reminded.

Zhou Hao and the others nodded heavily.

After crossing the first line of defense.

Just as Han Pu said, as they entered the defensive wall, the checkpoints became stricter and stricter.

Even Han Pu had to register his identity.

The eight students who had entered the fortress for the first time even recorded all the information. Moreover, the soldiers at the checkpoint even made several phone calls to confirm before letting them in.

“Other than the Demon Race, the Insect Race, and the Machine Race, there are other foreign races. One of them is called the Fiend Race. They can mimic any form of life and infiltrate our human city.”

“Therefore, every checkpoint has a special aura scanning device. This device can differentiate humans from foreign races to prevent any spies from infiltrating the base!” Han Pu saw the confusion of Zhou Hao and the others and explained.

Zhou Hao and the others finally understood.

Yuan Cheng couldn't help but ask, “Senior Han, are the exit checkpoints also this strict?”

Han Pu smiled. “Of course not. However, to leave the fortress base, one has to at least have the strength of a grandmaster.”

“In front of you is the last checkpoint. After this checkpoint, I'll bring you to the training camp to report. You guys all have good results and will be provided with single villas.”

Zhou Hao, Xu Ling, and the others were stunned. “Single villas?”

“That's right.” Han Pu looked at Zhou Hao and the others and smiled. “Don't tell me you guys think you're going to live in a dormitory like the bunk bed?”

Zhou Hao, Xu Ling, and the others nodded.

Han Pu immediately laughed. “The conditions of the global elite training camp are naturally not that bad. Even the student ranked 60th gets to live in an independent room.”

“

Half an hour later.

Zhou Hao and the others took Han Pu's car and arrived at the entrance of the new elite training camp.

“The seventh global elite training camp!”

Looking at the name displayed beside her, Yun Yan could not help but ask, “Senior Han, does that mean that there were a total of six elite training camps before?”

Han Pu nodded. "That's right. This is something that has been established in the past hundred years of The Cataclysm. In the beginning, there was only one training camp, and the students that they recruited were all geniuses between the ages of 18 and 25. Later on, there were gradually five more camps, and the geniuses that they recruited became younger and younger. This school was newly built!"

As he spoke, he brought Zhou Hao and the others to the reporting area. After filling in the information, he brought them to the dormitory area.

"There are a total of ten single villas, each corresponding to a number from 1 to 10. You can choose any villa you want. There are all kinds of daily necessities inside. If you need anything else, you can get help from the school's logistics department," Han Pu said with a smile.

After a pause, he continued, "In the first month, everything in the school will be provided to you for free. However, from the second month onwards, you will have to use points to buy items. As for how to obtain points, the instructor will tell you when you officially start school."

Hearing this, Zhou Hao was the first to speak. "I choose number 1!"

Yuan Cheng and Yun Yan were immediately speechless.

"Zhou Hao, number 1 represents an extraordinary meaning. Are you sure you want to choose number 1?" Xu Ling kicked Zhou Hao directly. Although she was poisoned, her temper still did not change.

Chapter 146 - Suppressing Poison

Chapter 146: Suppressing Poison

Zhou Hao scratched his head and smiled dryly. "I was just giving myself a goal!"

Xu Ling snorted. "Stop joking. Hurry up and pick another one."

"Alright, then I choose number 10!" Zhou Hao's expression darkened.

"That's more like it. I'll choose number 9!" Xu Ling said without thinking.

Yun Yan smiled and said, "I'll take the 8th. Xu Ling, let's live next to each other."

Fang Yu also hurriedly said, "I'll take 7."

After that, Zhang Yi, Yuan Cheng, Lei Jinpeng, and Wang Shuo also chose their numbers one after another. They chose number 5, 1, 2, and 3, respectively.

Seeing everyone's eyes move over, Yuan Cheng touched his nose and smiled bitterly. "I agree with what Zhou Hao said. I want to set a goal for myself!"

"Then you have to work hard!" Fang Yu and Yun Yan laughed secretly.

After everyone finished choosing, Han Pu clapped his hands. "Alright, since you've all chosen, the school system will record your room number in a while. Let me remind you that this room is not permanent. Starting from the first day of school, there will be an assessment every month. At that time, the accommodation will be rearranged according to the points ranking."

Yuan Cheng exclaimed, "Senior Han, why didn't you say so earlier!"

Han Pu patted Yuan Cheng's shoulder lightly. "All the best, young man. I believe in you."

Xu Ling, Zhang Yi, and the others laughed.

"Alright, go into the dormitory and take a look. Xu Ling, come with me to see the dean!" Han Pu quickly left with Xu Ling.

It was not until 9 pm that Xu Ling returned to dorm 9.

Zhou Hao, Yun Yan, and Fang Yu entered Xu Ling's dormitory one after another.

"How is it? Does the dean have a solution?" Zhou Hao asked impatiently as soon as he entered.

The others also looked at Xu Ling.

Xu Ling replied, "The dean has already helped me suppress the poison in my body. This suppression can last for a month. After a month, he will help me suppress it again. However, the dean said that this suppression will make the Blood Poison Centipede's poison stronger and stronger. If this continues, even he won't be able to suppress it anymore!"

Zhou Hao frowned and said, "How many times can he suppress it at most?"

"Ten times!" Xu Ling did not hide the truth.

When Yuan Cheng, Yun Yan, and the others heard this, their expressions changed.

"It's too difficult to advance from a master to a grandmaster in ten months!"

"Yeah, is there really no other way?"

"No, why don't we go and beg the dean again?"

Xu Ling shook her head. "There's nothing the dean can do either. Other than finding the antidote, only a peak-level supernatural expert can completely suppress the poison and allow the poison of the Blood Poison Centipede to enter dormancy. However, peak-level supernatural experts..."

Yuan Cheng, Yun Yan, and the others sighed. It was already hard enough for them to meet ordinary supernatural experts, let alone a peak-level supernatural expert. Such a figure was definitely elusive, so why would he take action just because of such a small matter?

Zhou Hao's eyes lit up, and the pressure in his heart suddenly relaxed. It had to be known that Zhou Hao's other identity was Senior Zhou, a peak-level ninth-grade supernatural expert. It would be great if he could completely suppress the poison in Xu Ling's body like the dean had said.

Thinking of this, he said in a relaxed tone, "Xu Ling, don't worry. I think the dean should be able to contact a peak-level supernatural expert."

Xu Ling nodded, but she did not have much hope.

"Alright, everyone, go back and rest. There might be good news tomorrow. Don't forget, Xu Ling has the lucky bracelet!"

After everyone left, Xu Ling looked at Zhou Hao. "Promise me that you won't go to the spatial rift. I don't want you to die!"

Zhou Hao smiled. "Don't worry. Until the suppression fails, I promise you that I won't take the risk of entering the spatial rift."

Xu Ling wanted to say something else, but Zhou Hao covered her mouth with his finger.

"If you die, I won't live either."

"Zhou Hao..." Xu Ling was so touched that tears streamed down her face. Just as she was about to go forward and hug Zhou Hao, he said, "Alright, go to sleep quickly."

With that said, Zhou Hao turned around and left impatiently.

Xu Ling : "..."

On the balcony of the second floor of Villa 10.

The cool moonlight shone down.

Zhou Hao watched as the lights in Villa 9 were switched off before he retracted his gaze and looked at the tall wall in the distance.

Chapter 147 - Selecting a Mount

Chapter 147: Selecting a Mount

Zhou Hao was more anxious than anyone else about Xu Ling being poisoned.

However, compared to the others, he was also more confident in resolving the problem of Xu Ling being poisoned.

Even if he couldn't find the antidote in the spatial rift, Zhou Hao wouldn't feel despair. After all, he had the mysterious Heaven Dao software.

The mystery box in the software even had ancient prehistoric cultivation techniques and escape techniques. It should not be a problem for him to resolve the poison of a Blood Poison Centipede.

Of course, this was the last resort.

In the night sky, Zhou Hao quietly left the villa. Then, he soared into the sky in an empty place. He used the "Golden Crow Escape Technique" and returned to Huadong City from the spatial rift fortress base in a flash.

It took him three to four days to get here.

On the other hand, he returned in an instant.

He directly arrived at the East Station Headquarters of the Huadong City. Because he did not conceal his aura, Commander Zhao and the other grandmasters sensed him the moment he arrived and went forward to welcome him.

"Senior Zhou, you're finally here," Commander Zhao said with a smile.

Zhou Hao said apologetically, "Commander Zhao, I wasn't in the city a few days ago. How's the high-level grandmaster of the Dark Gods?"

Commander Zhao, He Biao, and the other grandmasters looked at each other and smiled. "He's already dead."

"Oh? Dead?" Zhou Hao pretended to be surprised.

"He was killed by the hidden peerless genius of Qu City High School... Senior Zhou, may I ask if that peerless genius is your disciple?" Commander Zhao asked in a low voice.

Zhou Hao did not plan on hiding anything this time and nodded. "That's right. He did inherit his saber technique from me. I didn't admit it before because I didn't want him to be disturbed."

Commander Zhao and the others came to a realization.

"Senior Zhou's disciple is really outstanding. He was actually able to kill a high-level grandmaster!"

"Yeah, Senior Zhou has taught him well."

"No wonder this genius doesn't appear often. It turns out that with a master like Senior Zhou, he probably doesn't lack resources."

Zhen Hong and the other grandmasters smiled.

Zhou Hao waved his hand and said humbly, "He's still lacking in strength. The high-level grandmaster of the Dark Gods doesn't have strong combat strength. If he really did encounter a high-level king-level expert from the foreign races, he wouldn't have been able to handle it."

Commander Zhao and the others were speechless. This disciple was already strong enough to kill a high-level grandmaster, yet Senior Zhou had such high expectations of his disciple.

"By the way, Commander Zhao, I checked the channel messages. It seems like you needed me at noon?" Zhou Hao said.

Commander Zhao slapped his head and hurriedly said, "Senior Zhou, if you hadn't mentioned it, I would have forgotten. It's like this. There are a few king-level demon beasts controlled by special chips in our city. That's why I got Senior Zhou to come over and see if you need them."

“The potential of the descendants of king-level demon beasts is not low. If they are nurtured from a young age, they can be tamed.”

Zhou Hao was stunned. “Really?”

Commander Zhao nodded. “Let’s go. The king-level demon beasts are all in the demon beast cages specially built beside the camp.”

The group immediately arrived beside the camp.

Roar! Roar!

As soon as the soldiers opened the demon beast cages, shocking roars sounded.

However, when these demon beasts sensed Zhou Hao’s aura, they immediately became listless. They felt fear from the depths of their bones towards Zhou Hao.

At this moment, Commander Zhao pointed at these king-level demon beasts. “Those demon beasts that are giving birth are very protective. Even though they are controlled by the chip, we still don’t dare to rashly approach them.”

Zhou Hao understood and strode in.

Dozens of king-level demon beasts lowered their heads and prostrated themselves on the ground, as if Zhou Hao was the emperor of the Demon Race.

Soon, he saw more than ten furry and cute demon beast pups biting and playing with each other.

Zhou Hao walked forward and casually grabbed five to six different demon beast pups before turning to leave.

The demon beasts’ parents also did not dare to protest.

When Commander Zhao and the others saw Zhou Hao return, their eyes lit up as they stared at the demon beast offspring in his hand.

After all, these were the descendants of king-level demon beasts. If they were nurtured well, they would quickly grow to become king-level demon beasts. Most importantly, unlike being controlled by the chip, these king-level demon beasts could be nurtured as combat companions.

“There are a total of six different types, with two flying types...” Zhou Hao threw these furry little cubs onto the ground.

Seeing so many unfamiliar humans, these demon beast cubs bared their fangs and brandished their claws as they roared. Their appearances were both fierce and cute.

Commander Zhao smiled and said, “Senior Zhou, you were the one who subdued these king-level demon beasts. Their descendants naturally belong to you.”

The other grandmasters did not say anything when they saw this.

Zhou Hao shook his head. “I’ll just casually choose one as my mount. I’ll leave the rest to the city to be nurtured. In the future, when they grow up, they can also help the city.”

As he spoke, his gaze swept towards a cat-type demon beast with white wings.

“I’ll pick this one, a Lion Tiger Beast.”

Chapter 148 - The Lion Tiger Beast Cub with a Trash Bloodline

Chapter 148: The Lion Tiger Beast Cub with a Trash Bloodline

With a lift of his hand, picked up this cute cat flying demon beast.

Roar! Roar!

This lion cub roared.

“Be quiet.” Zhou Hao patted the cub’s head, and the latter immediately fell silent.

Commander Zhao was somewhat ashamed as he said, “Senior Zhou, you’ve already helped the city enough. Now, you’re even leaving behind demon beasts for the city...”

Zhou Hao interrupted, “Commander Zhao, don’t say such polite words. I’m also a member of the city, so it’s only right for me to help... Alright, don’t be so polite with me in the future. Otherwise, I won’t recognize you as a friend anymore!”

“Alright, alright.” Commander Zhao hurriedly nodded.

“Commander Zhao, I heard from Han Pu that the high-level grandmaster from the Dark Gods targeted a student from Qu City High School?” Zhou Hao asked.

Commander Zhao could not help but tell him the entire story.

Of course, Zhou Hao already knew about this. He just needed an excuse to openly help Xu Ling.

“The Blood Poison Centipede is indeed a little troublesome, but it’s nothing,” Zhou Hao said casually. “How about this? I previously promised Han Pu that I would make a trip to the fortress base. This will be a good opportunity for me to visit Xu Ling.”

Xu Ling was the first genius to activate a special physique in Huadong City. Commander Zhao really did not want anything to happen to such a student. He had been worried sick these past few days.

At this moment, when she heard that Zhou Hao was willing to help, he was overjoyed and said, “That’s great. With Senior Zhou’s help, Xu Ling is saved.”

Zhou Hao placed the cub on his shoulder and said, “There’s no time to lose. I’ll rush to the fortress base now. Commander Zhao, leave a message on the wireless channel if anything happens here. I’ll rush back as soon as I see him!”

With that said, he soared into the sky.

He Biao, Zhen Hong, and the others looked at Zhou Hao, who was in the sky, before retracting their gazes to look at the remaining five demon beast pups.

How could Commander Zhao not know what they were thinking? He immediately pulled a face. “Senior Zhou left them for the city. No one is allowed to take them!”

He Biao, Zhen Hong, and the others immediately looked at each other.

In the wilderness area.

Zhou Hao landed on a mountain peak in a mountain range. He was too fast and could arrive at the frontline fortress in a few seconds. However, it was only 1 am now. Even if he went over as Senior Zhou, he still wouldn’t be able to suppress the poison for Xu Ling.

Therefore, he planned to go to the Seventh Elite Training Camp tomorrow night.

On the peak of the mountain, the ground was covered in snow.

Zhou Hao sat casually on a smooth boulder and placed the Lion Tiger Beast in his arms. This little bastard was not afraid of the cold at all and shouted in a low voice.

Touching the Lion Tiger Beast’s head, he opened the Heaven Dao software.

Glancing at his luck points: 3,278,1900

Last time, he had spent more than 10 million luck points to synthesize a secret movement technique and open the gold mystery box to obtain the “Golden Crow Escape Technique”. Fortunately, he had accumulated a lot in the beast wave attack. Otherwise, he would have to worry about accumulating luck points again.

I wonder how the bloodline of this Lion Tiger Beast is? As he thought this, he opened his personal page.

Nickname: I’m just an ordinary person.

Level: 2031000 / 10,000,000 (Gold)

Backpack: None.

His personal page was still very simple. Even though he had a Lion Tiger Beast now, it did not show anything.

Zhou Hao shook his head helplessly and went to the mystery box page. If he wanted to read the information regarding the Lion Tiger Beast, he had to go through the mystery box.

He then clicked on the gold mystery box.

Ding! Please fill in your current cultivation techniques, medicinal pills, weapons, and pets. ‘

Zhou Hao did not plan on opening the gold mystery box. Therefore, this time, he did not fill in any cultivation techniques, medicinal pills, or weapons. He only filled in the pet section.

After filling in the information, more information appeared in the pet section: Lion Tiger Beast Cub—Sky Lion Tiger Beast Cub—Nine-Headed Sky Lion Tiger Beast Cub—Dragon Lion Beast Cub—Seven-Headed Dragon Tiger Cub.

Upon seeing this, he swept his consciousness towards the cub.

Immediately, information surged out: Lion Tiger Beast Cub, mortal-level demon beast bloodline. The bloodline shackles are huge, making it extremely difficult for it to break through the mortal-level limit.

Zhou Hao was speechless. He did not expect the cub of an intermediate king-level Lion Tiger Beast to have such a trashy bloodline.

After hesitating for a moment, he still dispelled the idea of opening the gold mystery box to upgrade the Lion Tiger Beast Cub.

The main reason was that the gold mystery box now had four categories of items. Even if one consumed luck points, they might not necessarily be able to obtain a pet upgrade. And if one consumed less luck points, they would at most be able to obtain a second-level pet upgrade—the Sky Lion Tiger Beast Cub.

Compared to the higher Seven-Headed Dragon Lion Tiger Cub, the bloodline of the Sky Lion Tiger Beast Cub was clearly not that impressive. Instead of wasting luck points, it was better to save up and open a better one.

It was precisely because of this consideration that he did not want to open the gold mystery box now.

“Little guy, I’ll upgrade your bloodline in the future!” Zhou Hao rubbed the cub that was somewhat similar to a cat and muttered.

After leaving the gold mystery box page, Zhou Hao hesitated for a moment and finally went to the front page of the live broadcast.

Ever since he obtained the Heaven Dao software, he had never gone into the live broadcast section. After all, he was too weak at that time and didn’t have money, so he naturally didn’t dare to go there.

However, now that his strength had increased to the master level and his combat strength had reached the peak of the supernatural level. If he really wanted to earn money, he could make even more than a cash printing machine.

“Some of the other high-level users say that the live stream is the true way to increase strength in the software. Even the last three revolutions of the” Nine Revolutions Golden Body Art “that I cultivate can only be obtained in a live stream... I wonder what’s so mysterious about this live stream?!”

Thinking of this, Zhou Hao could no longer suppress the urge in his heart and casually clicked on a live-stream with a female thumbnail.

Chapter 149 - Unlocking New Method To Use the Software

Chapter 149: Unlocking New Method To Use the Software

There were indeed many users in the live-stream room, and high-level users were everywhere.

A gold-level expert like Zhou Hao was not conspicuous. However, the moment he entered the live-stream, he still caused a huge commotion.

“Eh, why does the name ‘I’m just an ordinary person’ sound so familiar?”

“Damn, isn’t... isn’t this the lucky big shot who got a lot of good items from the mystery box?!”

“I finally got to see a big shot up close! I’m so excited...”

“We worship you. Please teach us how to open the mystery box!”

After Zhou Hao entered the live stream, before he could even watch the live stream, he saw a large amount of information displayed on the virtual screen.

“You call yourself a big shot when you’re only at the gold level?”

“Hehe, I haven’t been here for a while. It seems that the standards have dropped?”

Some platinum and even diamond users could not help but mock.

After all, in their eyes, everyone below platinum was an ant.

“Did your village just get an internet connection? Do you not even know about this lucky mystery box big shot?”

“I’m dying of laughter. Is this the level of platinum users and diamond users? Don’t you guys even look at the system announcement?”

“Although this ‘I’m just an ordinary person’ is only at the gold level, he’s been hogging all the announcements for the past few months! How could he not be considered a big shot?!”

“This is a true big shot who opened ten mystery boxes and obtained three level three rewards in a row!”

“Damn, is this for real? Is the probability for opening high-level items in mystery boxes so high now?”

“Like hell it is! There wasn’t even a system announcement for half a month. That’s why he’s a big shot!”

Many high-level users were stunned when they saw this news.

The stronger one was, the busier they would be in reality. Thus, these high-level users rarely used the Heaven Dao software. Zhou Hao, for example, had not used the Heaven Dao software to open mystery boxes for a while now. And all the users above the diamond level were quite busy, so it was naturally impossible for them to be updated with the announcements of the software.

Therefore, most of them did not know Zhou Hao.

But now they did.

To be able to obtain three level three rewards from ten mystery boxes, they could tell that he was definitely a lucky big shot.

It had to be known that luck was the most important thing in the Heaven Dao software!

Although high-level users were considered big shots and were sought after by many users, Zhou Hao, whose luck was off the charts, was even more enviable.

Zhou Hao frowned. He did not like being the center of attention. He ignored these users who were constantly tagging him on the live-stream and began to browse the live-stream.

The live-stream was divided into video and voice broadcast.

The live-stream he entered was a voice recording and had no video.

However, the streamer did not seem to be around. There was no sound in the entire live-stream room.

However, this streamer was quite popular. Even though the screen was dark and there was no sound, the users below were still chatting.

“What’s the difference between opening a mystery box and going into a live stream?” Zhou Hao did not forget his goal in entering the live stream. However, after watching for a while, he was getting more and more disappointed.

This was because there were no boxes or lucky draw events in the live-stream.

“Do I need to reward the host?”

Thinking of this, he hesitated. He did not have much balance in his account.

Just as he was hesitating, a user suddenly started giving gifts in the live-stream.

The scene in the live-stream also immediately displayed: 'I want to become an emperor' gifted 1 Concept Pill. 'I want to become an emperor' gifted 10 Concept Pills...

Zhou Hao's eyes widened.

What was this Concept Pill?

He hurriedly opened the gift.

The presents in the live-stream room displayed: Energy bars, Bloodline Pill, Cultivation Technique Fruit, Comprehension Leaf, Physique Cup, Concept Pill...

There were a total of 18 types of gifts!

Moreover, it only showed the gifts below the platinum level. Zhou Hao couldn't see anything above the diamond level!

Zhou Hao's gaze quickly landed on the cheapest gift, the Energy Bar. It read: 100 coins.

In other words, an Energy Bar cost 100 Heaven Dao coins to buy, and 100 Heaven Dao coins was 10,000 yuan!

It cost 10,000 Heaven Dao coins to open the silver mystery box, but it was only enough to purchase 100 Energy Bars. Moreover, this was the cheapest gift.

After that, he looked at the other gifts one after another. The Bloodline Pill cost 200 coins, the Cultivation Technique Fruit cost 500 coins, the Comprehension Leaf cost 1,000, the Physique Cup cost 2,000 coins, and the Concept Pill cost 5,000 coins...

"What the hell!! These gifts are too expensive!" Zhou Hao couldn't help but curse. 10,000 Heaven Dao coins was only enough to get him two Concept Pills. And this was only for the first six gifts. The gifts after the Concept Pill cost more than 10,000 coins. It was absolutely unreasonable!

"'I want to become an emperor' gifted 10 Concept Pills!"

As Zhou Hao browsed through the gifts, the gift announcements were still being displayed.

In just dozens of seconds, this user, "I want to become an emperor", had already given more than 100 Concept Pills. It was equivalent to more than 500,000 Heaven Dao coins!

"As expected of a platinum user, you're so damn rich!" Zhou Hao stared at the live-stream. Charging more than 500,000 Heaven Dao coins required more than 50 million

yuan. If he had spent the money on opening mystery boxes, he wouldn't have felt bad. However, this was a gift for someone else!

However, other than this user, no other user seemed to be sending any gifts.

Zhou Hao was not surprised. After all, the gifts in the live-stream were too expensive. If it were him, he would also not be willing to purchase them.

"Thank you 'I want to become an emperor' for the gifts. I hope you can win a lot of big rewards!"

Suddenly, a sweet and pleasant voice sounded in the live-stream.

Just hearing this, Zhou Hao felt an urge rise in his lower abdomen.

Chapter 150 - You Can Win a Reward By Giving Gifts?

Chapter 150: You Can Win a Reward By Giving Gifts?

"Fairy Yue Ling is being naughty again!"

"That's right. She even sounded charming when she spoke. Could it be a new charming cultivation technique?"

"Her charm was very natural. Looks like Fairy Yue Ling's cultivation is pretty good."

Soon, many users in the live-stream started sending messages and discussing.

Zhou Hao came to a realization. So it was a charming cultivation technique. No wonder even his body started reacting.

Of course, the main reason was that Zhou Hao had never experienced intercourse. Otherwise, with his perfect foundation establishment body, he would not have been so easily affected by the charm cultivation technique.

The platinum user "I want to become an emperor" was still giving away Concept Pills. He had already given more than 400 of them, which was equivalent to more than 2 million Heaven Dao coins. It was enough for him to open two gold mystery boxes!

Zhou Hao sighed with emotion as he watched. There were indeed many rich people in the live-stream.

Ding!

Suddenly, a crisp sound of gold coins sounded.

The screen in the live-stream room displayed, "Congratulations, "I want to become an emperor" for getting the reward multiplied by 1000 times!"

"Damn, it's multiplied by 1,000 times. Impressive!"

"I'm so envious. He got 1,000 Concept Pills!"

"I don't even dare to purchase Concept Pills. I only purchase the cheapest Energy Bars."

"Concept Pills are too expensive. It's better to purchase the Energy Bar, but Energy Bars are not very helpful in increasing strength!"

Many users started chatting on the public chat.

Fairy Yue Ling's sweet and pleasant voice sounded as well. "Congratulations "I want to become an emperor". In the future, remember to keep coming to my live-stream room, hehe."

Zhou Hao was completely stunned.

Users could actually win a reward for giving gifts in the live streaming channel?

The reward could even be multiplied by 1000 times?

"Could this be one of the ways to use the live stream?" Zhou Hao was shocked.

Returning to his senses, he couldn't help but type on the public chat. "May I ask if the reward is given in the form of gifts or in the form of Heaven Dao coins?"

The reason why he asked this was mainly because the items obtained from opening the mystery boxes were all directly sent to the backpack. If the gifts from the live-stream were also like this, then the software was really too abnormal.

After all, based on what he read from the chat, he could tell that Energy Bars, Cultivation Technique Fruits, Concept Pills, and other gifts could all be used to improve one's cultivation.

“The big shot finally spoke. The gifts in the live-stream are directly sent to the backpack.”

“Is the mystery box big shot going to become a live-stream big shot?”

“The expensive gifts are the ones that get displayed on the screen. I can already imagine the scene of the big shot crazily getting rewards in the entire live-stream room!”

“Forget it. The live stream channel is different from the mystery box. Other than luck, there are still rules to follow. If you want to get lucky, you will need a lot of coins!”

Many users started arguing.

Because Fairy Yue Ling often broadcasted, she was rather familiar with the nickname “I’m just an ordinary person”. She said in surprise, “Is this the big shot who keeps getting high level rewards from the mystery boxes?”

“Haha, Fairy Yue Ling, why aren’t you worshipping him yet?”

“Why didn’t you say something when such a big shot arrived on your live broadcast?”

“Speaking of which, Fairy Yue Ling, why do you only do voice broadcasts? Aren’t you pretty? Now that a big shot has entered, you have to seize the opportunity.”

“This is a big shot with overwhelming luck. Legend has it that he has a lucky charm with him. If you capture him, you might become rich in the future.”

Many users started teasing Fairy Yue Ling.

Fairy Yue Ling said shyly, “What are you guys talking about? He’s a big shot. Why would he stay in my live-stream room?”

Zhou Hao did not even care to listen to the interaction between Fairy Yue Ling and the users in the live-stream. He was currently extremely excited. If these gifts could really be directly sent to his backpack, then not only would he be able to increase his strength, but he would also be able to quickly increase Xu Ling’s strength.

In this way, Xu Ling would probably be able to quickly reach the grandmaster level!

” Energy bars, Bloodline Pill, Cultivation Technique Fruit, Comprehension Leaf, Physique Cup, Concept Pill... I have to figure out the use of these gifts as soon as possible!”

Zhou Hao took a deep breath and suppressed the excitement in his heart. His current account balance only had more than 50,000 coins. At the moment, he could only give 10 Concept Pills.

“Since they said that Energy Bars are trashy, then I’ll try this Bloodline Pill first!”

One Bloodline Pill cost 200 coins.

He planned to give away 100 pills to see if he could get lucky.

Glancing at his luck points, Zhou Hao gritted his teeth and directly spent 1 million luck points.

Swoosh.

As his luck points decreased, Zhou Hao was about to give out the Bloodline Pill when his eyes widened. He saw the screen change.

In the empty space beside the first four gifts, a constantly changing number appeared.

The numbers next to the Bloodline Pill started decreasing. It went from 719 to 618...

“What... What is this number?” Zhou Hao was dumbfounded.
