Chapter 1051

Chapter 1051:-fear

Zhou Hao's oppressive aura scared all the mutated beasts within three kilometers!

They kept their heads down and didn't dare to raise their heads. They only felt that the most terrifying pressure in the world was right in front of them!

Countless giant trees in the surroundings were also instantly cut into two by Zhou Hao's strong wind!

At this moment, the surroundings seemed to have entered a dead end, making everyone look extremely horrified!

"Awoo ... Awoo ..."

In the beginning, the group of mutated hyenas following behind the mutated hyena King had been extremely arrogant. However, when they saw Zhou Hao's explosive power, they were so frightened that their faces changed!

Their breathing began to become rapid and their eyes were filled with shock. They looked around in horror and shock.

The strength that Zhou Hao had displayed was simply too shocking. They did not even have the time to react before they were beaten to such a state!

The huge pressure was like a roaring tsunami. The sense of oppression was extremely strong!

In the distance, the mutated hyena King's scalp began to turn numb at the sight. It looked at the scene in front of it in extreme panic. After a moment of shock, it suddenly turned around quickly, roaring and preparing to escape.

At that moment, the mutated hyena King was fully aware of the danger it was in, and was approaching its position!

Right now, the biggest threat to him was Zhou Hao.

His own strength was far from enough in front of Zhou Hao. If he continued to stay here and fight Zhou Hao head on, he would definitely not end up well.

As he thought of this, Zhou Hao's expression turned extremely serious.

He pondered for a moment, then slowly opened his mouth and said with a cold smile, "Hehe, kid, you're really interesting."

"You came to my mountain and planned to leave just like that? who gave you the courage to do that?"

Zhou Hao looked at the scene in front of him with a burning gaze, and his eyes suddenly became cold and murderous. He chuckled and slowly said, "I'm warning you, you'd better not provoke me,"

"Otherwise, even if you escape to the ends of the earth, I'll still catch you all one by one!"

Zhou Hao's words were very intimidating!

Especially when he looked into the distance, where the mutated hyena King was preparing to escape, his gaze suddenly became more judgmental.

He smiled and said, "My territory isn't a place where you can come and go as you please. Since you insist on coming here, then don't blame me for being impolite."

After saying those words, Zhou Hao's tone suddenly became extremely sinister. In the next second, he leaped up and quickly chased after the mutant hyena King in the distance!

The mutated hyena King's back was already injured by Zhou Hao. Now, it could sense an extremely strong killing intent gradually spreading towards its position, rapidly filling the air. It suddenly felt that it was going to die Here!

At the thought of this, the mutated hyena King's face was filled with unwillingness!

After all, he had only been the mutated hyena King for a month, and had yet to enjoy the treatment of a boss!

Now that such a thing had happened, the mutated hyena King was naturally unwilling to accept it!

It also knew that as long as there was life, there was hope. Therefore, it was prepared to escape first and save its own life.

After all, only by staying alive could everything be resolved slowly!

If he were to lose his life here, then all his previous efforts would be in vain!

At that thought, the mutated hyena King seemed to have gone mad as it sprinted forward at top speed!

It intended to shake Zhou Hao off immediately. Otherwise, it would not have any more chances!

However, Zhou Hao had long since sensed the mutant hyena King's intentions.

It was already being chased by him, and now that it was preparing to escape, how could Zhou Hao let it go?

Zhou Hao's speed was extremely fast to begin with, and he caught up to the mutant hyena King in just a few steps.

With a loud boom, Zhou Hao stomped heavily in front of the mutant hyena King, digging a meter deep into the ground!

A thick cloud of smoke rose up, choking the mutated beasts nearby. They couldn't even open their eyes.

Especially the mutated hyena King at the very front, it was so scared that its heart was trembling!

It knew that there was no chance for it to escape, so it immediately lay down on the ground and looked at Zhou Hao with fear and uneasiness, as if it was going to submit to him.

At the sight of this, Zhou Hao only sneered, not taking the mutated hyena King's actions seriously.

"Hehe, I've given you a chance to surrender in the beginning, but you didn't agree. You even treated me very badly!"

"Now that you're on the verge of death, you only want to submit to me. Isn't that a little ridiculous?"

Zhou Hao's face was filled with mockery and a cold smile. He didn't even put the mutated hyena King in his eyes!

His eyes suddenly turned cold, followed by a violent glint that was so intense that the mutated hyena King could barely breathe!

Zhou Hao's eyes were cold as he opened his mouth wide and bit down on the hyena King's Head mercilessly!

"Aowu!"

The mutated hyena King's expression was one of extreme fear and shock. For a moment, it had forgotten how to react, and its entire body froze on the spot, unable to move!

The killing intent howled towards its position, gradually filling the air. The eyes of the mutant hyena King were suddenly filled with fear and grief!

Chapter 1052

Chapter 1052:-critical hit

“Aowu!”

A short, heart-wrenching wail suddenly burst out, shocking the surrounding air and causing it to tremble violently. Many of the mutant hyenas suddenly looked extremely shocked.

They had not expected Zhou Hao's explosive strength to be so brutal that they could not even withstand it!

Zhou Hao's killing intent was completely uncontrollable. It was like a tide, rapidly erupting in their direction.

Many of the surrounding mutated hyenas were so frightened by Zhou Hao's speed that they began to shiver uncontrollably. They didn't dare to go up to him and fight him, so they could only try to find an opportunity to Dodge.

After the mutant hyena King let out a wail, it quickly retreated into the distance, looking extremely frightened and uneasy. Its eyes were filled with anxiety and fear, and it was trying to escape.

The mutated hyena King fiercely kicked the ground, and then its entire body instantly shot up from the ground. It didn't take long for it to burst out with an extremely powerful force and gallop into the distance!

In fact, the mutated hyena King had always kept a trump card for its escape. Otherwise, it would be at the mercy of powerful beasts.

Now, it was the best time for it to escape!

At that thought, the mutated hyena King immediately opened its mouth wide and shot out a powerful jet of water at Zhou Hao, who was behind it!

Although the mutated hyena King couldn't fly and didn't have wings, its jumping power was much stronger than that of ordinary mutated beasts. It could jump up from the ground in an instant, and its jumping power was amazing!

"Aowu!"

With a howl, the mutant hyena King burst forth with an extremely powerful force, wanting to leave this place immediately.

"Roar!"

When Zhou Hao looked at the mutant hyena King, his eyes were filled with provocation and ridicule. This group of mutant hyenas really knew how to judge the situation!

However, he wasn't someone to be trifled with. How could he just watch helplessly as it flew away when it was right in front of his mouth?

Zhou Hao sneered at the mutant hyena King, who was trying to escape. He immediately opened his mouth and roared into the distance, as if he couldn't wait to spit at the mutant hyena King!

"Boss, let me handle this mutant hyena King!"

When the gray-haired man saw this, he immediately took the initiative to step forward and get ready to help his boss solve this problem.

"Such a small character, there's no need for you to personally come out, boss. If I wanted to get rid of him, wouldn't it be easy?"

The gray-haired man chuckled and couldn't help but start to rub his hands in anticipation.

After all, it had just soaked in the small pond full of spiritual Qi and was ready to test its strength.

If his own strength was enough to burst out with such a powerful ability, wouldn't it be a piece of cake for him to deal with this mutant hyena King?

Seeing the gray-haired man's eagerness and excitement, Zhou Hao only smiled slightly. Then, he slowly said, "Alright, since you want to go, then go."

“Alright, boss, I’ll help you get rid of this useless piece of trash now.”

It didn’t take long for it to jump up from the ground after uttering that short sentence. Then, it leaped up and quickly chased after the crazily escaping mutated hyena King!

Under the influence of the tree of spirit Qi, the water in the small pond had gradually begun to contain large amounts of spirit Qi.

Zhou Hao also wanted to see how powerful the gray-haired man’s strength would be after soaking in the spiritual energy-filled pond.

“Awoo, awoo ...”

After a short, low growl, the gray-haired man’s sharp eyes instantly locked onto the mutated hyena King.

He opened his bloody mouth and instantly spewed out a pillar of fire into the distance!

The pillar of fire burned fiercely and looked extremely fierce. It whistled and quickly swept towards Zhou Hao’s position in the distance!

Zhou Hao’s expression became extremely serious as he witnessed the scene before him.

The raging inferno slash that the gray-haired man was spitting out was even more powerful and intense than before. It seemed that the spiritual energy contained in the small pool was still very effective!

The gray-haired man stared at the mutant hyena King in the distance, his eyes filled with solemnity.

It let out a low growl again and in the next second, it sprinted towards a distant location!

After the grey-haired man let out an extremely valiant roar, not long after, the surrounding air burst out with a ‘Chi Chi Chi’ sound, accompanied by the flames spurted out by the raging Flame Slash!

The entire air seemed to be on the verge of exploding from the raging Flame Slash that the gray-haired man had spat out! The flame Slash that the gray-haired man spat out was extremely hot!

Even the surrounding air seemed to have been burnt up a few degrees, causing the surrounding to explode!

The gray-haired man burst out with an extremely valiant speed. Then, he quickly chased after a position in the distance!

The gray-haired man's speed was extremely fast. With a single leap, he chased after the mutated hyena King, instantly stirring up a gust of wind that whistled towards the surrounding area, instantly engulfing them!

Aowu, aowu!"

He could feel a strong wind whistling towards his position, quickly sweeping over!

The mutated hyena King's expression changed drastically, and even its breathing began to turn anxious and uneasy. Its entire face began to turn extremely ugly.

It only felt that its life was coming to an end. If it was really caught by the flames, it would definitely be burned to the point that not even its bones would be left!

The mutated hyena King's Green eyes were filled with endless fear and uneasiness. Its face gradually turned into one of shock and disbelief, and it roared as it tried to escape!

Chapter 1053

Chapter 1053:-despair

If it was really burned by the raging Flame Slash that the gray-haired man spat out, it would not have a good ending!

At the thought of this, the gray-haired man's breathing could not help but become extremely anxious.

The mutated hyena King was so nervous that it was trembling all over. It was uneasy, and its face was filled with fear. It looked around nervously and fearfully, panting heavily!

However, for some reason, the flame slashes that shot out from the gray-haired man's mouth seemed to have their own thoughts!

They rapidly chased after the mutated hyena King!

It was as if it wanted to incinerate the mutated hyena King, not giving it any chance to retaliate!

“Aowu!”

The mutant hyena King shrieked in pain and quickened its pace, dodging to the left and right.

It tried its best to avoid the flame cut that was chasing after it, but no matter how it moved to the left or right, it was simply unable to avoid the flame cut that was chasing after it!

It was as if they had a target in mind, locking onto the mutated hyena King's position. No matter how the mutated hyena King dodged, it had no way of shaking off the scorching flames!

Although the mutated hyena King's speed was also extremely fast, it was still extremely fast.

However, in the face of the pursuit of the flame Slash, he could only look on in despair. He watched as the flame Slash continued towards his position, instantly chasing after him!

He watched as the countless flames suddenly smashed towards his position!

Even the surrounding air became extremely hot in an instant. In that instant, the mutated hyena King's pupils trembled violently in fear, and it could only scream in horror, unable to say a word.

“Awoo, awoo ...”

Wails of despair burst out of the mutated hyena king's mouth. It didn't even have the chance to Dodge, as its entire body was instantly surrounded by Flame Slash.

It didn't take long for Flame Slash to set the mutant hyena King's entire body on fire.

In the scorching flames, the mutated hyena King let out a series of sorrowful cries. Not long after, it could no longer make a sound. In an instant, it was like a piece of rotten wood, directly burned into a piece of charcoal!

Seeing this scene, many of the subordinates of the mutant hyena King standing in the distance suddenly looked frightened.

Their bodies began to tremble uncontrollably, and they began to tremble uneasily. Their breathing began to become ragged as they looked at the scene in horror and fear. They could not come back to their senses for a long time, unable to believe what they had just seen!

How could this gray-haired man be so powerful? they had never thought that something like this would happen!

They were so powerful that the hyenas knew that even their boss couldn't defeat Zhou Hao's men. They were too powerful!

If they insisted on going up, they would definitely not have a good ending.

At the thought of this, the group of mutant hyenas immediately lay on the ground and wailed sorrowfully. One by one, they all lay in front of the gray-haired man, as if they were begging for mercy!

This was the Wolf Pack showing their submission to a person.

The grey-haired man's face lit up with joy when he saw this. He excitedly turned to look at his boss, Zhou Hao, and said with a smile, "Boss, boss, did you see that!"

"I'm E-Class now, right? boss, these hyenas seem to want to surrender to me!"

The gray-haired man's face was filled with excitement. Now that he had these mutated hyenas as his underlings, it would be a piece of cake for him to help his boss and protect the entire Kunlun Mountain.

At the thought of this, the gray-haired man's face suddenly became very proud. He smiled gently and slowly said, "Boss, can I make these hyenas my underlings?"

After hearing the gray-haired man's words, Zhou Hao only smiled and nodded. He chuckled and said, "If you're willing to take them in, go ahead. After all, if these hyenas are with us, they can be useful in the future."

If the animals in the group decided on a leader, they would always be loyal to their boss. They would bow their heads and never betray him!

Unless a more powerful figure appeared and defeated their boss, the mutant hyenas would not choose another more powerful boss as their new master.

When the hyenas saw Zhou Hao, their faces were filled with excitement. They were all so excited that their faces were filled with excitement.

Now that they had such a powerful boss to protect their safety, it was a good thing for them.

With that thought in mind, the gray-haired man beside him immediately roared at the mutated hyenas.

After hearing the gray-haired man's voice, the mutated hyenas' faces suddenly changed!

They lowered their heads and didn't even dare to look at their boss. They only felt that their breathing had become rapid. The deterrent force that their boss gave them was too strong!

In front of the gray-haired man, there was nothing they could do but submit. They had no way to refute him!

When Zhou Hao saw this, a smile appeared on his face.

"Boss, the mutated hyena king is dead. You should eat it and acquire its skills!"

The gray-haired man immediately pointed at the mutated hyena King, which was almost completely burnt, and said to Zhou Hao.

The air was filled with the aroma of roasted meat. Zhou Hao smiled and immediately walked to the side of the mutant hyena King. He opened his mouth and bit down on the head of the mutant hyena King!

With just one bite, he crushed the head of the mutated hyena King into pieces. Then, he began to eat it with a creaking sound. It sounded extremely delicious.

Chapter 1054

Chapter 1054:-level up

However, the other mutated hyenas were terrified when they saw their former boss die on the spot and even be chewed up!

They lay on the ground, their faces filled with fear. They couldn't help but let out a series of 'awoo, awoo' screams. They didn't even dare to open their eyes to see this extremely miserable scene!

Their eyes were filled with fear as they looked around in panic, not daring to say a word!

One must know that Zhou Hao's strength was too powerful!

It was the strongest mutated beast they had ever seen. If they offended Zhou Hao, they would definitely suffer!

If they really offended him, they were worried that it would not be a good thing!

Therefore, all of them could only suppress the panic and fear in their hearts and drip their blood on their heads. How could they dare to say another word?

If he angered Zhou Hao, he might even eat him up!

At that moment, Zhou Hao, who had just eaten the head of the mutated hyena King, felt a warm current spreading through his entire body, gradually enveloping him.

In the next second, Zhou Hao opened his bloody mouth and spat out a cold water pressure pillar into the distance!

This was the mutant hyena king's special ability, the water pressure column!

Now that Zhou Hao had devoured it, its mutant ability had immediately fallen on him.

When he obtained this mutant ability, Zhou Hao suddenly felt that his entire body was filled with an extremely powerful force, and he was almost unable to control his own strength.

"I didn't expect that the power of water and fire would be used by me now."

Zhou Hao's heart was suddenly filled with joy. Then, with a thought, he spat out another scorching Flame Slash from his mouth!

In a short while, Zhou Hao spat out a water pressure pillar, directly extinguishing the raging Flame Slash that was still burning in the distance!

"I didn't expect it to be so powerful!"

At that moment, Zhou Hao was also shocked by the scene he saw!

At that moment, many of the mutated beasts were excited to see Zhou Hao's strength increase again.

For the hyenas, the more powerful their boss was, the more excited they were, and the more incredible they felt!

Because only their boss could protect their clan well, when they saw Zhou Hao's unparalleled strength, they were all excited!

Zhou Hao couldn't help but smile. This was his own strength. It was good.

Zhou Hao wasn't stingy. After he ate the most essential part of the mutant hyena King, he gave the rest of its body to the gray-haired man and the others. After eating their meat, they would definitely grow a lot stronger.

"Many Thanks, boss!"

When the gray-haired man, the mutated cheetah, and the mutated Scorpion saw this, they immediately rushed over excitedly, thanking Zhou Hao repeatedly.

Now, being able to eat the meat of a mutated beast would be extremely beneficial to their growth!

Jonina had been extremely resistant at the beginning, but now she was gradually accepting this. After all, even though she was ambitious, she still needed to eat. Otherwise, she would just starve to death.

Jonina walked elegantly to the mutated hyena's corpse. After taking a small bite, she immediately began to gobble it up.

After they finished eating, the remaining food was eaten by the group of mutant hyenas.

"Ah Fei, you and Xiao Hui will guard this area. If anyone tries to force their way in, do everything you can to stop them, and then immediately inform me, understand?"

After hearing Zhou Hao's instructions, the gray-haired man and the mutant leopard beast immediately nodded their heads, showing their respect for Zhou Hao!

After this matter was completely resolved, Zhou Hao brought Qiao Nina back to the top of Mount Kunlun.

When they reached the top of the mountain, the scene that happened in front of them shocked Zhou Hao for a long time!

From the small pond in the distance, a large amount of steam was rising.

Moreover, countless wisps of spiritual energy were gradually emerging from the small pond. It seemed to contain extremely powerful spiritual energy!

Looking at the spirit Qi tree growing by the small pool, it had also borne a lot of fruits. Before they went down the mountain, the fruits were still small. Now, not only had they grown to the size of a fist, but they also had faint signs of turning red!

Zhou Hao smiled and said, "This spiritual fruit ripens once every ten thousand years, and each time it ripens, it can bear fruits for an entire month. Now we're really lucky to have a good meal."

Jonina could not help but drool as she stared at the fruit. It was as if the thought of eating the fruit was written all over her face!

When Zhou Hao saw this, he could not help but smile. Then, he picked an unripe fruit and handed it to Jonina. He chuckled and said, "From what I see, if I don't give it to you now, you'll probably want to eat this tree."

Jonina could not help but stick her tongue out helplessly when she heard that. Her expression immediately turned awkward.

"Hehehe, I'm not ..."

"You're still denying it? I don't believe you. "

Zhou Hao chuckled, then slowly said, "If you want to eat it, then eat it. But an unripe fruit of spiritual energy doesn't have as much spiritual energy as the previous fruits. Even if you eat it, I'm afraid it won't increase your strength by much."

When she heard Zhou Hao's words, Jonina nodded her head solemnly. She then said word by word, "Yes, I know. I just want to have a taste and see what an unripened fruit tastes like."

As Jonina spoke, she couldn't help but lick her lips out of curiosity. It was obvious how much of a glutton she was.

Seeing her gluttonous look, Zhou Hao could not help but smile. He said softly, "If you want to eat, then eat. I don't need a bite."

When Jonina heard this, she immediately licked her lips, her face filled with excitement. She immediately took the fruit from Zhou Hao and ate it happily, feeling extremely satisfied!

Chapter 1055

Chapter 1055:-sour fruit

Who knew that after taking a bite, Jonina's little face would immediately be scrunched up by the sourness.

"Wuu ... So sour!"

Jonina could not help but spit a few mouthfuls of saliva at the huge tree beside her. She was drooling non-stop, and the saliva was so sour that it was almost unrecognizable.

When Zhou Hao saw this scene, a smile appeared on his face. Then, he slowly opened his mouth and said with a smile, "Hehe, I don't think you'll be satisfied if you don't try."

"Now you know. Before a fruit ripens, not only is it not tasty, but it also contains very little spiritual energy. It has no value at all. This fruit can be considered as a lesson for you."

Jonina couldn't help but chuckle, then helplessly said, "It seems like I was too rash."

Who would have thought that just as Zhou Hao and Qiao Nina were talking, not long after, a soft sound could be heard from afar. In the next second, Zhou Hao furrowed his brows and quickly picked up Qiao Nina by his side with his mouth and flew away!

All of this happened in the time it took for a spark to fly off a piece of Flint. It made everyone feel extremely shocked and they could not believe what they were seeing!

Jonina was especially shocked when she suddenly felt her body rising into the air. She then looked around in confusion and saw that something was happening in the direction of the giant tree that she had spat at!

The huge tree seemed to have come to life. It kept waving its branches and smashing them down in all directions!

All the Wickers exploded in mid-air with a series of extremely fierce explosive sounds, causing many mutated beasts to change their expressions in shock. Their eyes were filled with disbelief as they stared at the big tree that had suddenly come to life.

"Boss, miss Qiao, be careful!"

When the gray-haired man saw this, he immediately pounced towards Zhou Hao and Jonina's location. It didn't take long for him to block their path.

With its back hunched and its fur standing on end, it looked extremely fierce as it stared at the giant tree that had suddenly come to life. It couldn't help but say in shock, "Boss, this giant tree can't have become a spirit, right? how did it suddenly gain its own consciousness?"

Zhou Hao, who was at the side, had already placed Jonina aside. He then smiled and said softly, "Don't worry. It doesn't mean to hurt us. It just has just recovered and can't control itself."

As he spoke, Zhou Hao turned to the gray-haired man and Jonina and said, "Take a look, what's up with this tree?"

After hearing Zhou Hao's words, Jonina and the gray-haired man immediately looked in the direction of the giant tree. When they saw the giant tree in the distance, their faces were filled with shock.

"This giant tree ..."

Before she could finish her sentence, Jonina suddenly realized to her shock that the giant tree in the distance had suddenly extended its branches. It was rapidly extending towards the surrounding area!

Its branches seemed to be able to extend at will, and it was rapidly approaching Jonina's location!

"Aowu!"

Jonina was so frightened that her expression changed, and her breathing started to tremble uncontrollably. She was extremely nervous, and a panicked and helpless expression instantly appeared on her face. She looked at the willow branch in front of her awkwardly and said to Zhou Hao, "This tree looks very dangerous!"

"Don't worry, I'm here for everything. "

Zhou Hao's expression was calm, as if he was not troubled by this matter at all.

Seeing that the willow branch was getting closer and closer to her position, Jonina was so frightened that she immediately hid behind Zhou Hao. She only poked her furry little head out and secretly peeked at the willow branch. She was so nervous that her breathing started to tremble.

Seeing this, a smile appeared on Zhou Hao's face. Then, he slowly said, "Don't be nervous. If you're afraid, you can just hide. "

When the gray-haired man saw this, his face suddenly became more serious and vigilant. He still bared his teeth and looked at the giant tree fiercely. He was worried that it would suddenly burst out and hurt his boss.

Who would have thought that just as the branches of the giant tree were rapidly moving towards his position and suddenly exploded, the next second, it suddenly fell limply to the ground, directly crawling to Zhou Hao's feet.

The willow branch trembled continuously, as if it was extremely afraid of Zhou Hao. It seemed to be particularly frightened and uneasy.

Jonina, who was initially extremely afraid, was shocked when she saw this. She looked at the branch in front of her in shock and said in astonishment, "Zhou Hao, it ... It seems to be very afraid of you?"

When she saw this, Jonina was no longer afraid. Instead, she walked to the side of the branch and tilted her furry little head curiously. She asked in confusion, ""Does this willow tree know who is more powerful?"

"Hehe, it seems that mutant plants also have intelligence. This is the first time I've seen such a powerful tree. Boss, its branches can change at will. Does that mean that it can stretch as long as it wants?"

"Rustle rustle rustle, rustle rustle rustle ..."

The willow branch suddenly began to sway rapidly, as if it was conversing with Jonina.

It suddenly extended into the distance and stopped moving after a while.

When Jonina saw this, she could not help but ask in shock, ""Are you trying to tell us that your branches can only grow up to this point?"

"Rustle rustle rustle, rustle rustle rustle ..."

The branch hurriedly swayed its willow branch, looking extremely excited.

"Are you willing to be my underling?"

Zhou Hao saw that the tree seemed to be able to understand his words, so he laughed and said, word by word.

"Rustle rustle rustle, rustle rustle rustle ..."

The giant tree swayed its branches excitedly, as if it was answering Zhou Hao's question.

"It looks like you're beating people up. Hehe, okay, you'll help me guard the Spirit Tree and the pond in the future. If other mutated beasts try to take this land, you'll have to beat them all up and send them flying. Don't show any mercy, understand?"

Chapter 1056

Chapter 1056:-beating Liu

"Rustle rustle rustle, rustle rustle rustle ..."

The Whomping Willow seemed to be extremely excited. It kept shaking its branches in high spirits, as if it was answering Zhou Hao's question.

"Yes, it's indeed not bad."

Zhou Hao smiled and nodded. Then, he said with a serious look, "The spirit Qi in the pond will explode in the next few days, and the tree of spirit Qi will bear fruit."

"We have to be fully prepared to prevent the invasion of mutated beasts into Mount Kunlun, and ..."

Halfway through his sentence, Zhou Hao's eyes suddenly lit up. He looked into the distance with a serious expression and said coldly, "There are even more dangerous things waiting for us."

"What?"

The mutated beasts, as well as Qiao Nina and the gray-haired man, suddenly became anxious after hearing what Zhou Hao said.

Their faces were filled with shock as they looked at Zhou Hao in confusion. With eyes full of doubt, they asked, "Boss, what do you mean by danger?"

"Don't forget that when we first came to Mount Kunlun, there was a group of humans who wanted to fight for the spiritual fruit. "

"Although we used to be humans, we've now become mutated beasts. If we can't think of a way to solve this problem as soon as possible, there will be a lot of trouble waiting for us."

Zhou Hao's eyes lit up and he said with a serious expression, "So, our enemies now are not only mutated beasts, but also humans."

"On this planet, we must realize what we need to do now. That is to improve all our strength and work hard to defeat all our enemies."

Zhou Hao smiled and slowly said, "Don't think that just because we used to be humans, we'll show mercy to the humans who attacked us. After all, they don't know who we are."

"When the bombs and pressure bombs hit our heads one by one, you will know that we are not from the same world as them."

This short sentence immediately reminded Jonina and the gray-haired man. The two of them smiled and slowly spoke, chuckling as they said, "Indeed, but we should also

uphold the idea of not attacking unless attacked. Otherwise, wouldn't we start a war for no reason?"

After hearing Jonina's words, the gray-haired man beside her could not help but nod with a serious expression. Then, he chuckled and said, "Miss Qiao is right, we should do that."

.....

At the same time, in the center of the planet, in the most secret combat room.

"Swoosh Swoosh Swoosh"

A shiny dagger flew rapidly towards the combat room in the distance. With an extremely outrageous force, it whistled and directly smashed over.

This sharp whistling sound immediately attracted the attention of many people in the surroundings. Everyone curiously followed the gaze and looked over. As expected, they saw an extremely shocking scene in the battle arena!

In the training ground, two people in special combat uniforms were fighting a life-and-death battle!

They were wearing the exact same battle attire as Zhou Hao and Jonina.

In front of the door to the training ground, a man wearing a combat division uniform looked at the scene in front of him with a serious expression, unable to come back to his senses for a long time.

The younger man standing next to him said to the middle-aged man with a serious expression, "Director Jiang, this batch of elite combat troops are the most elite special Forces members that have been selected after half a year of training."

"Equipped with our latest combat suit, they can instantly kill F-Class mutated beasts without any effort."

"We've already gone through several training and monitoring sessions, and they've all done very well without exception. So I think that they should be able to fight in our place this time!"

After hearing the man's words, director Jiang's face suddenly became extremely serious.

After he heard it, he immediately nodded with a serious expression. Then, he said word by word, "You're right. The level of this group of elite warriors is indeed much more powerful than the previous ones. I've seen this with my own eyes. "

Director Jiang's face was extremely serious. He nodded solemnly and slowly said, "How's the research on the extraction of mutant abilities going?"

They also understood that the mutant abilities of mutant beasts were extremely powerful. Although their previous battles were very fierce, this incident was truly unexpected.

However, after the painful lesson last time, they all understood one thing, and that was that the mutant abilities of mutant beasts were extremely powerful. It was not something they could deal with.

However, if he could extract the mutant Esper gene from the body of a mutant beast, it would definitely bring about a huge improvement in the progress of his research!

At that time, they would be able to use such mutated genes to deal with the exotic beasts.

At the thought of this, director Jiang's expression suddenly became extremely serious. Then, he frowned at the people in front of him and said again, "Only when the mutant beast's mutant ability is under our control will we be able to find a way to solve this problem and calm this battle!"

The man standing next to director Jiang suddenly looked extremely serious. He frowned at the scene in front of him, then cupped his fists and said in an extremely serious tone, "You're right, director!"

"We have already extracted the mutant ability gene. Now, we only need to choose the person you think is the most suitable and can use this to enter."

After hearing the man's words, director Jiang's face suddenly became extremely happy!

He turned around excitedly and looked at director Jiang in front of him. Then, he said anxiously, word for word, "Alright, gather the team members immediately."

When the man heard this, he immediately smiled and nodded. Then, he quickly gathered the group of people and prepared to let them try to do this.

Soon, the elite special training team began to gather here.

Chapter 1057: Mutant ability gene

At the same time, everyone was gathered here.

Director Jiang glanced at the five people standing in front of him.

One of them had an extremely serious expression on his face, and his hands were behind his back. His entire body was covered in muscles, and he looked extremely brave.

Director Jiang retracted his gaze, then smiled and said to the group, "All of you are elites who have been through special training. Now that half a year has passed, it's time for you to go to the battlefield!"

Director Jiang waved his hand, and the Deputy commander beside him immediately came over with a tray.

On the tray, there were five transparent glass bottles. Inside the glass bottles, there was a light blue liquid that was constantly flowing. It didn't look like an ordinary thing.

This group of elite fighters had extremely serious expressions. Their eyes were filled with anxiety as they looked at the glass bottles in front of them with eagerness.

When director Jiang saw this, his expression immediately became extremely satisfied.

He smiled and said to the group of people, "Hehe, I know that all of you have been looking forward to this day for a very long time. Right now, the mutant Esper ability gene has already been extracted. It's time for all of you to try it out."

After hearing the man's words, everyone's eyes were filled with excitement and anxiety. Their breathing began to become rapid, and their faces were full of excitement. They said excitedly, "Director Jiang, we'll be on standby!"

Seeing the anxious looks on everyone's faces, director Jiang didn't keep them in suspense any longer.

His face was filled with a light smile, and then he slowly opened his mouth and said again, "If we want to resolve this matter, wouldn't it be a piece of cake?"

When they saw the confident look on director Jiang's face, the group of people in the room suddenly looked excited.

They looked at each other excitedly, and their faces were full of excited smiles. They laughed and said word by word, "Director, we've already made the preparations!"

"If there's anything you need, just let us know!"

Seeing this group of people speaking to him with such confidence, director Jiang, who was standing at the side, suddenly felt extremely gratified.

It was precisely because they met this group of elite special Forces that their exploration of the mutated beasts was brought forward!

Now, the mutated beasts on the entire planet were running rampant. If they didn't think of a way to get rid of these mutated beasts one by one as soon as possible, there would definitely be a serious riot!

At the thought of this, professor Jiang immediately said to the group of elite special Forces, "Alright, since you're all so confident, then give it a try."

"These glass bottles contain the latest mutant genes that our combat Department has refined. If you drink it, there's a 50% chance that it will fuse with your own genes!"

"From there, you obtained the mutant ability of a mutant beast. Of course, this is the first time we've done such research. It's also possible that after you drank the gene of a mutant beast, your body can't withstand such a powerful force and you'll die!"

At this point, director Jiang's expression gradually turned serious and solemn.

He suppressed the anxiety and uneasiness in his heart and looked at the group of people standing in front of him. He said word by word again, "Of course, for the sake of your own health and safety, this experiment is not mandatory."

"If you're afraid and don't dare to do this, you can just quit. I won't force you to sacrifice yourself for this."

Halfway through his sentence, professor Jiang's expression suddenly became extremely serious. He suppressed the anxiety and uneasiness in his heart and said coldly, "I've already explained the situation to you. "

"It's up to you to decide what to do, but I have to tell you all the pros and cons. I'll respect your choice. "

The group of elite Special Forces soldiers couldn't help but look at each other. Their faces instantly became extremely serious.

After thinking for a moment, they said in a serious tone, "You guys are right!"

“But director Jiang, the reason we joined the elite special Forces back then was actually to deal with the mutated beasts, and do a good thing for our planet!”

“Our planet is currently in a time of crisis. We can’t care so much now. We have to do what belongs to us as soon as possible. We have to do it one by one!”

“In this era, people need to be sacrificed. If no one does it, then won’t our planet be finished?”

The group of people in front of him were all in high spirits!

When they saw the Deputy commander beside director Jiang holding a bottle of medicine in his hand, their expressions instantly became extremely calm. It was as if they had long since put their own lives out of their minds.

When they saw this scene, their faces immediately became extremely serious.

When director Jiang heard what they said, his heart was filled with emotion. He nodded in relief. Then, tears started to fall from his eyes. It seemed like he was touched by what they had said and the heroism they had displayed!

Professor Jiang smiled and slowly said, “This world will have to rely on the few of you to save it.”

“I believe that all of you will have the courage to do this, right?”

“Director, don’t worry. We’ll do our best to get the spiritual fruit back. However, I heard that there’s spiritual Qi permeating from the pond. We’ll have to go and check it out when the time comes.”

After saying this, the group of people immediately nodded and laughed. “Alright, since you’re all prepared, I have nothing more to say.”

“Go ahead and do this. I will be behind you, silently supporting you.”

Chapter 1058

Chapter 1058: A necessary sacrifice

The group of people immediately looked at each other after hearing director Jiang's words.

Their expressions immediately became extremely anxious, followed by a serious look. They suppressed the urgent thoughts in their hearts and said, "We understand!"

"Alright, since you're all ready, let's begin!"

With director Jiang's order, the Deputy commander held the transparent glass bottle in his hand and quickly walked toward the group of elite special Forces members.

However, not long after they walked over, one of the figures strode quickly toward the place in front of them.

His face was filled with determination as he quickly took a bottle of mutated Esper genes from the Adjutant's hand. He opened it and quickly poured it into his stomach.

When director Jiang saw this, he was shocked.

His eyes were filled with disbelief as he looked at the scene in front of him in shock. He couldn't believe what he was seeing!

Wasn't this young man's guts a little too big?

Without a word, he picked up the glass bottle and poured it down his stomach as if he was drinking water!

When director Jiang saw this scene, he was extremely shocked, and his face was filled with admiration.

"It seems like Zhang Yuwen has already made preparations. Not bad indeed."

The name of the man who was called by director Jiang was Zhang Yuwen. His expression was extremely firm as he looked at the director in front of him and said in an extremely serious tone, "I'll take the lead!"

After he drank it, the surrounding elite special Forces members all looked at him.

They were prepared to take a good look at who was so confident to do such a thing.

"Zhang Yuwen, do you feel any discomfort after drinking it?"

The man next to him immediately asked doubtfully. They had not drunk the potion yet, so when they saw someone stand up and prepare to be the first to drink it, they immediately asked in a very serious tone.

The man called Zhang Yuwen closed his eyes and carefully sensed it. However, before he could speak, he suddenly spat out a mouthful of blood.

His eyes widened in shock and disbelief was written all over his face. He stared blankly at the scene in front of him and was so shocked that he couldn't come back to his senses for a long time. He only felt that he had seen an extremely unbelievable scene!

"How could this be ..."

Director Jiang's expression became extremely serious when he saw the man vomit blood. He immediately waved his hand at the people in the distance and shouted, "Quickly call the doctor over!"

However, not long after director Jiang finished speaking, he saw Zhang Yuwen, who had just drunk the mutated ability gene, lying on the ground with an extremely painful expression.

He couldn't help but hold his stomach tightly, the expression on his face also looked extremely painful, his eyes full of anxiety and uneasiness, constantly curling up his body.

His current state seemed to be extremely painful. He wanted to struggle with all his might, but he didn't have any chance at all!

He clutched his abdomen tightly and curled up his body. His face was filled with extreme pain, and he couldn't help but spit out large drops of blood from the corner of his mouth. He seemed to be in extreme pain.

Not long after, his lower body was covered in blood, and it simply couldn't stop!

When the doctor rushed over and saw the scene in front of him, he couldn't help but shake his head helplessly. His face was full of solemnity as he said in a cold voice, "I'm afraid this person can't be saved. "

"What ... What? how did this happen?"

When the Deputy commander heard this, he was shocked and panicked. He looked at the doctor in front of him with fear and said in disbelief, "Doctor, Doctor, I'm begging you!"

"You have to save him. You can't just leave him alone!"

The Deputy commander's expression became extremely frightened and uneasy. He couldn't help but gasp for air. His eyes were filled with fear as he said word by word, "He's a member of our elite special Forces!"

"I'm sorry. Even I can't do anything about it. "

The doctor's face suddenly became particularly helpless. He couldn't help but shake his head and then said word by word, "His body's genetic structure has already been invaded. Now that it has been modified, it's not something we can cure."

"Right now, I can only ..."

Halfway through his sentence, the doctor sighed helplessly and lowered his head. He did not continue.

But even so, they also understood what the doctor had not finished his sentence.

He was afraid that right now, he could only wait for death here.

At the thought of this, the group's faces gradually became extremely ugly. Their eyes were filled with shock as they stared at the scene in front of them. They were so shocked that they couldn't come back to their senses for a long time. They simply couldn't believe what they were seeing!

"Could it be that after we drink the gene extracted from the mutant ability, we only have the choice of life or death?"

After hearing the words of a man in the crowd, many people's faces suddenly became extremely ugly.

They couldn't help but look at each other, their faces filled with shock. They were so nervous that they couldn't even speak.

If that was the case, then this matter was really difficult to handle!

The first man to drink the mutant Esper Gene's gene had a pained expression on his face. He clutched his stomach tightly and his body began to tremble uncontrollably.

In the next second, the man suddenly spat out white foam from the corner of his mouth. Then, it mixed with blood and instantly dyed a large area of the surrounding ground red!

When they saw this scene, everyone was shocked. They looked at the scene in front of them in shock and their breathing began to quicken. They could not believe what they had just seen!

Chapter 1059

Chapter 1059:-saving people is like putting out a fire

“Doctor, Doctor!”

One of the girls couldn’t stand it anymore. She couldn’t help but call for the doctor and anxiously said, “Doctor, he doesn’t look like he can hold on much longer!”

“No matter what, please save him. Otherwise, he’s really going to die!”

After hearing these words, the doctor’s face instantly became a lot more helpless. He pondered for a moment and then said word by word, “No, I can’t.”

“As a doctor, if I really had a way, of course I’d help, but I really can’t do anything right now. Even if I save him, he can’t avoid death. He’ll only suffer more.”

After hearing the doctor’s explanation, many people’s hearts suddenly sank.

Everyone’s initial assumption was that if the fusion failed, they would only get seriously ill and consume some physical strength.

But now, this small potion could actually take someone’s life directly!

This scene caused many people around to feel a chill in their hearts. It was too terrifying!

For a moment, the people around them were speechless. They looked at this scene with extremely nervous expressions. Their breathing was a little rapid, and they were so hesitant that they could not even say a word.

Professor Jiang’s expression turned serious when he noticed that a few people’s expressions and gazes in the crowd had become relaxed and fearful.

After a moment of silence, he slowly opened his mouth and said again, “It doesn’t matter. Since you’ve already seen the stakes, I won’t interfere with your choice.”

Director Jiang’s eyes were filled with solemnity. He glanced at the remaining four people and spoke in an extremely serious tone. Word by word, he said again, “Whether you want to go or stay, it’s your choice.”

Professor Jiang couldn't help but sigh heavily. Then, he looked at the group of people with a serious expression and said, word by word, again.

After these words were said, the remaining four people couldn't help but look at each other, their faces filled with anxiety.

They were also thinking about the pros and cons of this matter and how they should choose.

But now, when they realized that something was wrong, it did not take long before the group of people slowly said in an extremely serious tone, "Even if there are difficulties and obstacles ahead, we will still do our best!"

After saying this, professor Jiang slowly raised his eyes. There was an eager look in his eyes. He laughed and said, "Hehe, I really didn't misjudge you!"

"As members of the elite special Forces, the reason you joined this elite special Forces was to fight for our planet!"

"If our world is destroyed, all of us will be destroyed as well. That's why we need you now!"

After professor Jiang said this, many people around them suddenly became extremely serious.

They looked at each other with determination in their eyes. Then, they immediately walked to the Deputy commander and took out one of the experimental potions.

The man's name was Wang Haoran. After he took the initiative to step forward, he had a very determined look on his face and directly picked up the medicine bottle in his hand.

He directly unscrewed the bottle cap, then with a determined look on his face, he looked around and said in an extremely serious tone, "I'm willing to sacrifice myself for everyone. "

"I'll drink this bottle first as a form of respect. Everyone, just wait and see. If I die immediately after drinking the reagent, I have no complaints!"

"I'm willing to donate my body. When the time comes, I'll let everyone investigate why genes can't be integrated with the human body. I'm willing to do my last bit for the sake of scientific research and experiments, to protect the planet, to protect our people on this planet!"

Wang Haoran's words were extremely firm. His eyes were filled with determination as he looked at the group of people in the distance. Then, he said word by word, "Everyone, goodbye!"

Many people around were shocked by what Wang Haoran said!

These words were really said with great momentum, making people admire him endlessly!

Everyone's face was filled with admiration. They looked at Wang Haoran with determination and admiration. At this moment, they felt that Wang Haoran was a hero who deserved respect!

Even in this world, there were many people who understood one thing. That was, in troubled times, one person must be sacrificed in exchange for the peace of the world and the happiness of their descendants!

However, there were still many people who were not willing to do such a thing. They just wanted to live.

Now, even though he knew that drinking this mutated special ability would cause his life to be in danger, Wang Haoran still picked up the glass and drank it without hesitation. Such spirit was really worthy of admiration!

At the thought of this, many people around them immediately started clapping for Wang Haoran. Each of them had a look of admiration on their faces, and they immediately regarded Wang Haoran as a hero!

Wang Haoran picked up the bottle in front of him and drank it all in one gulp. When he drank the mutated ability gene reagent, Wang Haoran's body suddenly started to tremble uncontrollably.

His face was filled with anxiety and fear. Although he said that he was not afraid, he could not change his human instinct!

He was already scared to death, but he still closed his eyes tightly and gritted his teeth. Many people couldn't help but shed tears for him.

Such a hero was simply a role model for the times!

"Mr. Wang, how do you feel now?"

A few people saw Wang Haoran's appearance and immediately couldn't help but ask.

"I think ..."

Wang Haoran was about to say that he hadn't noticed any changes in his body, but in the next second, he saw his eyes widen instantly. His face was full of disbelief as he looked into the distance in a daze, as if he had been dumbfounded!

Chapter 1060 - Chapter 1060-mutation

Chapter 1060:-mutation

"Mr. Wang, Mr. Wang, are you alright?"

A few researchers in white coats and gloves hurried over.

They came to Wang Haoran's side in unison, their faces full of anxiety and uneasiness. They looked at Wang Haoran in front of them and couldn't help but ask with concern.

"I ... I ... It's so hot ... So hot!"

After hearing Wang Haoran's words, the researchers couldn't help but look at each other with confusion.

"We don't have warm air in the laboratory. Why do I feel hot?"

It should be known that the current season was the beginning of spring, and the weather was suitable. They would not turn on the air conditioner or warm air.

However, Wang Haoran, who had been normal just a moment ago, suddenly said that his body was hot at this moment. It was obvious that he was affected by the genetic experiment drug he had just drunk!

Director Jiang's expression turned serious when he saw this.

He suppressed the solemnity in his heart and then said in a cold voice, word by word, "It seems that the effect of the genetic experiment drug on everyone is different."

"What should we do now?"

The Deputy commander looked at Wang Haoran, who was in pain, and couldn't help but ask anxiously.

Director Jiang's face instantly became extremely serious. After a moment of silence, he sighed softly and shook his head. "What happens next will depend on his own fortune."

After these short words were spoken, many people around him were suddenly rendered speechless. They were so nervous that their breathing could not help but start to become heavy. Their eyes were filled with anxiety and uneasiness as they stared at the man in front.

It was as if he wanted to see if Wang Haoran could survive this!

The first person to die was already frothing at the mouth. He was dead and had already been carried out to be awarded merits.

At this moment, everyone's hearts were hanging high in the air. They were all looking forward to one thing, and that was the success of this experiment!

If this experiment was successful, it would give them some confidence and allow them to start the genetic test again as soon as possible, mutating their abilities and fighting against the mutated beasts!

Now, life on this planet was no longer so stable. There were mutated beasts everywhere. Not only did they hurt many people, but they also destroyed many buildings.

The mutated beasts were all huge and powerful. They also had special mutant abilities. They could either spit fire or create storms, so the people on the planet's Defense Forces were all suffering!

No matter what kind of defense they used, if they were to encounter those mutated beasts with special abilities, they would definitely be defeated!

Therefore, director Jiang thought that perhaps he could use the mutant abilities of mutant beasts to extract the mutant genes they had and use them in human bodies.

Perhaps this would allow humans to have such abilities. If humans could also have a large number of mutant abilities, they would be able to easily deal with the mutant beasts that appeared in the world.

Director Jiang looked at Wang Haoran in front of him, and his expression instantly became extremely serious.

He was so nervous that his breathing began to Quicken. Then, he stared at Wang Haoran with a serious expression. Just as he was about to say something, he saw Wang Haoran's eyes suddenly widen in shock. His expression was full of shock and disbelief.

His face suddenly began to twist. In the next second, Wang Haoran suddenly held his neck tightly. His eyes were so fierce that they were about to crack. His face was full of extreme pain, as if he had drunk some very unpleasant poison!

When he saw this scene, director Jiang's face instantly became even uglier. He really didn't expect to see such a shocking scene. It was simply unbelievable!

"Doctor, Doctor!"

When the Deputy commander beside him saw this scene, he immediately opened his mouth and shouted, wanting the doctor to save Wang Haoran's life.

When the doctor saw this, he immediately rushed over. He first took Wang Haoran's pulse and was shocked to find that Wang Haoran's arm was burning hot. He was probably running a high fever!

Seeing this, the doctor was scared out of his wits. He quickly said to director Jiang and the Deputy commander, "Not good, this is bad!"

"What's wrong, doctor?"

Director Jiang and the Deputy commander's faces all became very anxious. They couldn't help but look at him in shock and asked in confusion.

The doctor's expression was extremely serious. After a moment of silence, he could not help but slowly say, "I'm afraid his body temperature has already reached 60 degrees!"

"What ... What?"

Director Jiang and the Deputy commander were shocked. Even the three remaining combatants were shocked. They looked at Wang Haoran, who was lying on the ground, and found that his skin had turned red!

This kind of red was not a normal color at all, and it made people feel full of fear!

"A normal person's body temperature is around 36.5 degrees. 40 degrees is already considered a high fever, but you're saying that his body temperature has reached 60 degrees? How ... How is this possible?!"

"Yeah, if it's 60 degrees, wouldn't he be burned to death ..."

Their faces were filled with shock and disbelief. They looked at director Jiang in confusion. However, before they could speak, they heard the doctor next to them speak again with a serious expression, "Not only that ..."

"His body temperature is still rising. It seems like he can't control it."

After saying this short sentence, the group of people present were once again shocked.

They looked at this scene in shock. Before they could recover from their shock, they heard the Deputy commander point at Wang Haoran, who was lying on the ground, and say in shock, "He ... He's on fire!"

"What?"

Everyone looked at Wang Haoran in shock!

Chapter 1061

Chapter 1061:-self-ignition

At first, they thought the Deputy commander was joking.

However, when they saw Wang Haoran lying on the ground, they were shocked to find that he was telling the truth!

The color of Wang Haoran's skin had turned extremely red, and it even had a faint purple glow. It was obviously not a normal color!

At the sight of this scene, everyone's faces were filled with shock and disbelief!

They looked at their skin that had been burned red and couldn't help but say in shock, "Oh no, oh no, something big has happened. Hurry up and get some cold water!"

"Yes, yes, yes. Get cold water to lower his temperature. Hurry up!"

Director Jiang and the doctor immediately waved their hands and motioned for the special training forces to bring water.

At this moment, Wang Haoran was lying on the ground, his face full of pain. Because of the heat all over his body, he was almost tortured to madness.

He tried his best to roll on the ground, trying to reduce the burning pain, but no matter what he did, he couldn't control himself. The pain was driving him crazy!

The doctor's words were coming true!

The heat and pain in Wang Haoran's body were indeed getting worse. He almost couldn't control the power in his body and was about to end his life immediately.

He opened his eyes with difficulty and said to director Jiang, "Director Jiang, I'm begging you ..."

Wang Haoran's tears fell drop by drop. His eyes were full of fear and shock. His breathing was a little rapid. He gritted his teeth and choked, "Director Jiang, kill me, kill me now!"

BOOM!

Such a request shocked everyone present!

The group of people looked at Wang Haoran in front of them in shock. They really didn't expect him to make such a request!

At the side, Wang Haoran's face suddenly showed an extremely conflicted expression. At this moment, he simply didn't know what choice he should make in this matter.

Kill?

Moreover, he was a member of their elite special Forces. If word of this got out, wouldn't he become a Public Enemy?

At the thought of this, director Jiang immediately turned his head and stopped watching.

However, Wang Haoran was almost exhausted from the torture. His whole body had begun to turn red, and even his breathing was a little anxious and uneasy. He looked at director Jiang in despair and said again, "Director Jiang, I'm begging you!"

"Just give me a quick death. I can't stand this kind of torture anymore. If my body temperature rises again, I'll be tortured to death!"

At this moment, Wang Haoran's face was full of tears. His breathing was a little anxious. He choked and said again, "Please, I beg you, please give me a quick death ..."

Seeing Wang Haoran's humble begging, the doctor at the side couldn't help but soften his heart.

He subconsciously glanced at director Jiang, as if waiting for director Jiang to speak.

However, director Jiang suddenly closed his eyes and said coldly, "No, you can't!"

That short sentence shocked everyone present. They couldn't help but look at the scene in front of them hesitantly. Until now, they still hadn't accepted director Jiang's words.

One had to know that this was simply against humanity!

The elite special training team, the one who had taken the initiative to sacrifice himself for the genetic experiment, had already suffered such pain!

However, the professor had rejected his proposal and wanted him to die. Wasn't this torture?

A look of pity appeared on the faces of the group.

They anxiously took a step forward and said in an extremely anxious tone, "Director Jiang, why don't we just give him a quick and painless death?"

"He can't stand the torture anymore. Do you really want to see him suffer until he dies?"

"Yes, professor. He's already done enough for this experiment. He just doesn't want to be tortured anymore. He's not in the wrong ..."

The few of them spoke one after another, and everyone could not help but try to persuade him.

However, director Jiang's expression remained unmoved.

He still looked at Wang Haoran on the ground with a very serious expression. His face was full of coldness and gloom. He couldn't help but slowly open his mouth and said again in a cold voice, word by word, "If I say no, it means No."

Director Jiang's denial once again made everyone present panic.

After a moment of silence, they did not say a word.

After all, director Jiang was the most influential person here. As long as he said something, no one could object.

Even the people of the battalion could only listen to his words and could not refute them.

After all, the most important thing at the moment was to let those with mutated abilities step forward and eliminate the mutated beasts, obtaining victory in this battle that was attracting worldwide attention!

Therefore, everyone had to listen to director Jiang's words. Only his words were the words that everyone had to obey!

At first, they had thought that director Jiang was a reasonable person, but it was only now that they realized that everything was just their own imagination.

Director Jiang probably didn't take this matter seriously at all.

At the thought of this, the group's faces could not help but start to become extremely disappointed.

He did not expect director Jiang to be so ruthless!

In the beginning, director Jiang didn't think much of it. But now, when he saw this group of people, his face suddenly became particularly serious.

After a moment of silence, he asked coldly, ""Don't think I don't know what you're thinking. "

Director Jiang's face looked extremely serious.

He suppressed the emotions in his heart and then glanced at the group of people present indifferently. He said coldly, ""Don't you think that I'm a cold and heartless person?"

"Hehe, so what? I can tell you one thing!"

Chapter 1062 - Mentally prepared

Chapter 1062: Mentally prepared

"Back then, the reason why I chose this path was because I had already made sufficient preparations to deal with everything before I entered this path!"

Director Jiang raised his hand and swore, ""I've already made an oath. No matter what, I'll definitely continue on this path!"

"No matter what kind of difficulties I encounter, I will try my best to overcome them. Even if it takes my life, I will not hesitate to give it up!"

Director Jiang's words were extremely emotional!

When he got to the most excited part, he couldn't help but gasp for air. His face was full of seriousness as he said, "When I first called people to organize the elite special Forces, I had already ordered them again and again!"

"Anyone who wants to join the elite special Forces must be mentally prepared. Whether I want your life or your flesh in the future, you have to stand up immediately without a second word!"

"At that time, as long as you joined the elite special training team, you would know the slogan I came up with, right?"

The surrounding crowd immediately fell silent. They had to admit that director Jiang was right!

Back then, everyone who had joined the elite special training team knew about this.

Now that they heard director Jiang say such words again, their expressions suddenly became extremely emotional.

Indeed, each and every one of them had already made an oath.

No matter what difficulties they encountered in the future, they would never retreat. After all, this was a matter for the benefit of the entire planet. If they retreated, wouldn't they be looked down upon by this group of people?

When they thought of this, their faces suddenly became more emotional.

"All of you, do you still remember what I said?"

"I remember! We don't even dare to look up to professor Jiang's guidance for a moment!"

The remaining three people's eyes were filled with determination. Then, they spoke with great excitement, word by word.

"Yes."

Professor Jiang nodded in satisfaction. He looked serious and glanced at the three people in front of him again. He said coldly, "Since you guys haven't forgotten, that's good."

"I've already told you that no matter what, once you've made a decision, you can't change it easily!"

Director Jiang glanced at the group of people with a serious look in his eyes. Then, he said in a cold voice, "Since he's already chosen to make a sacrifice for genetic engineering, and now he's only suffering a little bit of torture, he wants to quit?"

Director Jiang's face was extremely cold. Although he was also extremely heartbroken, he didn't expect that Wang Haoran would suffer such inhuman torture after drinking the genetic vaccine. However, he had to be ruthless!

After a moment of silence, director Jiang coldly said, "If I don't help you guys quickly, what if the genetic vaccine is effective on him? if I kill him now so that he doesn't suffer, won't all our efforts be in vain?"

Director Jiang's words immediately woke up everyone around him.

That's right!

Since they had chosen this path, this was something they had to experience!

After all, no one knew how people would react if they really gained mutant abilities after drinking the genetic vaccine.

If Wang Haoran could really get a mutated superpower after burning it, wouldn't they ruin their big plan?

At the thought of this, everyone suddenly woke up and realized one thing. What they were doing now could not make them feel any sympathy!

At the thought of this, the group's faces instantly turned extremely ugly. They suppressed the pain in their hearts and said word by word, "Director Jiang, we understand!"

"Well, it's good that you know my good intentions,"

Director Jiang couldn't help but sigh in the middle of his sentence. Then, he said helplessly, "I have no choice."

Immediately after, his expression became extremely serious again. He glanced at the group of people in front of him and said word by word, "The remaining three of you, I'm sure you've seen how serious the situation is!"

"I'll give you three minutes to consider. If you want to stay here, you can. If you can't stand the torture and want to kill yourself like him, you can!"

Director Jiang paused for a moment, then frowned as he scanned the group of people. He said word by word again, "Then I'm sorry, I don't need such a person!"

“You guys can just quit now. You won’t have the chance to continue participating in the experiments of geneticists. We don’t welcome you here.”

After the short speech, the faces of the remaining three elite special training teams suddenly became particularly ugly.

They suppressed the anxiety and uneasiness in their hearts and looked at the people around them nervously.

What happened to Wang Haoran and the previous one was still vivid in their minds. They couldn’t believe what they had just seen!

Now, if he really agreed to this matter, then he would definitely leave and never return!

At this moment, the three of them tensed up. They looked at the scene in front of them with extreme seriousness. Their eyes were filled with anxiety and uneasiness, as if they were thinking about what they should do about this matter.

Everyone’s eyes were filled with solemnness. They were seriously thinking about what they would do in the future!

”

In the distance, Wang Haoran’s face was still full of pain. He was lying on the ground, gasping for breath. It seemed that his spirit had reached its limit and he would not be able to hold on any longer.

Seeing this scene, the Deputy commander could not help but wave his hand and say in a serious tone, ”I’ll go to the toilet first. ”

Chapter 1063: Burned to ashes

However, the Deputy commander had just finished speaking.

In the next second, the Deputy commander heard an extremely painful cry. It was a heart-wrenching cry.

The front passenger’s footsteps suddenly stopped.

His face was suddenly filled with shock as he looked at everything that was happening in front of his eyes. He couldn't believe what was happening in front of his eyes!

"How could this be ..."

The Deputy commander looked in the direction of the sound and suddenly turned back, only to see a scene that shocked him!

Wang Haoran, who was lying on the ground, began to emit hot steam from his body!

His blood vessels had already started to boil, as if boiling water was boiling. It was extremely shocking!

"Wuahhhhhhhhhhhhhhh!"

Wang Haoran's pained voice was heard again and again!

"Oh no, his body temperature has probably reached 100 degrees ..."

When the doctor saw this, a look of shock appeared on his face. He was so nervous that he couldn't help but gulp.

This wasn't just the limit of the human body, this was simply the limit of the limits!

"Uh ..."

Wang Haoran finally couldn't hold on any longer. He passed out in pain and then stopped breathing.

At the sight of this, the surrounding crowd instantly fell silent.

Wang Haoran's entire body was red as if he had been smeared with large patches of ink. He looked extremely terrifying!

When the Deputy commander saw this, he was extremely shocked. He looked at the scene in front of him in shock and did not come back to his senses for a long time. He only felt that his heart was filled with shock!

Such a person, wouldn't he be burned alive!

At the thought of this, the Deputy commander was so scared that he couldn't say a word. His face was filled with shock. Then, he slowly said, "Director Jiang, this ..."

Wang Haoran's skin had been burned red. There was no intact piece of skin and flesh!

The air was filled with the smell of cooked meat, which made people feel nauseated and want to vomit.

“Oh ...”

There were a few people who couldn't take it anymore. They had already covered their mouths, trying to hold back the disgusting smell and kept vomiting.

“Take him away, he can't be saved.”

The doctor went to take a look. When he saw the scene in front of him, he slowly said, “He has already been burned to death by himself. His skin and flesh have been cooked.”

After saying this short sentence, the people around him were shocked. Their eyes were full of disbelief, and in the next second, a trace of fear appeared on their faces.

Such a way of dying was simply too torturous ...

It would be better to just die like the previous person. It would be better than suffering such torture.

The remaining three people had a trace of fear on their faces, and their tone became anxious and uneasy. They asked in a trembling voice, “Cooked ... Cooked directly?”

“Yes.”

The doctor couldn't stand it anymore. He waved his hand and said with a serious look, “There's no saving her. ”

After these short words were spoken, everyone present instantly became extremely quiet.

No one could say a word. Their faces were full of disbelief and fear. They looked nervously at Wang Haoran, who was being carried away. Their faces were full of shock.

He died just like that ...

When director Jiang saw that these people had not said a word until now, the expression on his face instantly became extremely serious. Then, he glanced at the people in front of him and asked coldly, “You guys, have you thought it through?”

“It's been ten minutes. Make your decision as soon as possible. ”

Director Jiang's words immediately snapped everyone present back to their senses. Their faces instantly became anxious and uneasy. Their eyes were filled with solemnity. They had no idea what choice they should make now.

The air was deathly silent. The remaining three people knew that if they chose to stay at this moment, there was a 99% chance that they would end up in a more miserable state than the few people in front of them!

At that time, they would be completely finished and would not have any more chances!

After a moment of silence, a suffocating feeling filled the air again.

Everyone understood what kind of choice they were about to face!

Everyone's breathing began to become rapid, and their faces were full of pain. They thought about it again and again. One of the small but young men suddenly took a step forward and said to director Jiang in a serious tone, "Director Jiang, I'm willing to stay and try the genetic modification of mutant abilities!"

The man's name was Zhang bufan. He was the last person to join the elite special Forces. All this while, although his body size and height were not as good as the other members of the elite special Forces, he was the most hardworking and serious person!

When director Jiang saw Zhang bufan step forward, he was actually very surprised for a moment.

However, this matter had already reached the most critical moment. He could only step forward and walk to Zhang bufan. He said in an extremely serious tone, "Have you really made your decision?"

"You guys saw the tragic death of the two members just now. If you guys end up like him, I won't let you guys have a quick death. Do you understand?"

After saying this, Zhang bufan's face instantly turned serious.

After thinking for a while, he nodded with a serious expression and said, "Director Jiang, I understand what you're trying to say."

"Don't worry, I'll definitely be able to hold on. Since I chose to come here, I've never thought of retreating!"

"No matter what, I'll definitely persevere. I won't have any thoughts of retreating. Just call for everything!"

Chapter 1064

Chapter 1064: Never retreat

After he said this, the remaining two people immediately felt ashamed of their inferiority.

One must know that when they first joined the elite special Forces, everyone had actually already taken an oath. Absolutely no one wanted to retreat!

However, the scene that had just happened was too shocking!

They simply couldn't believe what they were seeing. If they were in their shoes, perhaps they wouldn't have been able to hold on.

Right now, the youngest member of their elite Special Forces team, whose physical strength was the least compared to the others, had actually taken the initiative to stand up and say that he would definitely not retreat!

Such a thing really made them admire him!

In that instant, their fighting spirit was reinvigorated.

The remaining two people also stood up and said to director Jiang with a serious expression, "Director Jiang, we're also willing to stay here!"

After hearing what the group of people said, director Jiang's face suddenly showed a relieved look.

He smiled and slowly said, "I knew it. Since they were able to pass through such a difficult selection, the people who stayed would definitely not retreat so easily."

"All you have to do now is to raise your fighting spirit and not admit defeat. I believe that you can do it!"

After hearing these words, the three of them gradually became determined. They laughed and said, "Alright, since you're all ready, let's begin."

After the three of them heard these words, even though they were already prepared, they still couldn't help but feel a little scared.

They looked at each other with anxiety and uneasiness on their faces. After hesitating for a moment, they couldn't help but say, "Since we've already decided to drink it no matter what, then ..."

"Then why don't the three of us drink together? this way, we can also boost each other's courage?"

After hearing Zhang bufan's words, the remaining two men looked at each other and suddenly felt that Zhang bufan's words were right!

This way, he would be able to avoid seeing the miserable state of others after they drank the genetic potion.

At the thought of this, the three of them immediately raised the glass bottles in their hands and drank it without saying a word.

Upon seeing this, the faces of the few people present instantly turned extremely grave.

They stared at the two people who had picked up the glass bottles in front of them and swallowed all the potions. They felt their breathing become extremely anxious!

After drinking the potion, the three of them placed the glass bottles on the tray.

Then, one by one, they began to wait quietly, intending to see what changes would happen to their bodies after they drank the potion.

As time passed, the three of them were suffering. Everyone was staring at the three people in front of them, afraid that they would miss something.

Five minutes had already passed, but the three of them still had no reaction.

Seeing such an abnormal scene, the professor's face turned a little strange. He couldn't help but take a step forward and walk up. He first checked Zhang bufan's pupils and found that everything was normal. He was suddenly speechless.

"Why isn't there any change? did the potion not work?"

Director Jiang's eyes were filled with confusion. He hesitantly grabbed Zhang bufan's arm and asked with surprise, "Do you feel anything wrong with your body?"

After being grabbed by director Jiang, Zhang bufan's face suddenly showed a trace of surprise. Then, he quickly waved his hand and said anxiously, "No, director Jiang. I don't feel anything."

"Did the medicine take effect? but that shouldn't be the case. If it did, it should show on their bodies. Why didn't they show any reaction at all?"

When professor Jiang saw this, he still couldn't believe what he was seeing. He suspected that his medicine had no effect on them.

However, when they looked at Zhang bufan again, they were shocked to find that the changes in his body were beyond their expectations!

Zhang bufan's entire body was emitting a large amount of hot air. In the next second, he was drenched from head to toe as if he was drenched in water.

Zhang bufan's face was filled with disbelief when he saw this. He couldn't help but look at himself in shock and asked again, "Director Jiang, I ... What's wrong with me?"

The man beside him also suddenly looked extremely pained. His face was filled with anxiety and uneasiness. Seeing that some veins were constantly growing on his body, he was so scared that his scalp began to go numb.

The man standing beside him suddenly felt extremely tired. After yawning a few times, he fell to the ground with a 'plop' and fainted. He never woke up again!

For these elite special training team members, the luckiest person was the last person.

His death was relatively quick. There was almost no time for him to react. He died directly.

Even though this scene was a little regretful for them.

However, this man and Zhang bufan had become their last hope.

Zhang bufan's entire body was steaming, and his face began to look panicked.

At this moment, he didn't know what choice he should make. His face suddenly showed a sense of panic and helplessness, so much so that even his breathing began to become a lot more rapid.

"It's over, it's over. I'm afraid I'll be like Wang Haoran and be steamed to death by myself!"

At this moment, fear swept over Zhang bufan's body and slammed into him fiercely and rapidly!

Chapter 1065

Chapter 1065: Help

The doctor at the side seemed to have noticed Zhang bufan's worry and fear for him, so he immediately stepped forward and grabbed Zhang bufan's wrist. Then, he asked in an extremely serious tone, "Mr. Zhang, do you have any other feelings?"

At this moment, Zhang bufan was already frightened. He had no idea what choice he should make.

When the doctor saw that Zhang bufan was starting to panic, he immediately tried to persuade him, "Mr. Zhang, don't be nervous, and don't be afraid!"

"You have to tell me what you really feel right now, then I can help you."

After hearing the doctor's words, Zhang bufan's expression finally calmed down a little. He muttered to himself for a moment, then said word by word with a trembling voice, "I ... I feel very hot right now ..." He said.

After Zhang bufan finished speaking, the doctor immediately took a step forward.

He grabbed Zhang bufan's arm, closed his eyes, and began to examine him carefully.

However, Zhang bufan's body temperature did not feel too hot.

The doctor put down his hand and a serious look appeared on his face. He looked at Zhang bufan and asked, "Do you really feel that way?"

"Did what happened to Wang Haoran earlier affect you? is that why you think that way? Mr. Zhang, I need you to have a correct understanding of yourself. Can you tell me how you truly feel?"

When he heard the doctor's question, Zhang bufan finally calmed down.

He suppressed the anxiety and uneasiness in his heart and looked at the doctor in front of him with anxiety in his eyes. He said word by word, "I do feel a little hot, and I'm sweating all over. My clothes are already soaked."

Zhang bufan said as he immediately took off his shirt, intending to cool down.

Whoever knew that when they saw Zhang bufan taking off his clothes, they were so shocked that they couldn't say a word!

They had never thought that such a thing would happen. They were shocked and couldn't believe it!

The muscles all over Zhang bufan's body suddenly became extremely strong and powerful, and his head seemed to be growing at a speed that was visible to the naked eye.

But now, under everyone's watchful eyes, he had grown to two meters tall. This shocked everyone present.

"Could it be ... Could it be that he will be the first person to successfully obtain a mutated ability?"

Many people in the surroundings were shocked. They looked at the scene in front of them and still couldn't believe it.

It didn't take long for Zhang bufan to return to his original state, like a deflated leather ball.

However, returning to his original state was also much better than directly dying.

Zhang bufan couldn't help but look at director Jiang. He asked hesitantly, "Director Jiang, what's going on with me? does this count as a success?"

However, before Zhang bufan could finish his words, the last person standing beside him, his brother Zhang Bulin, also changed!

Zhang Bulin's abnormal reaction stopped just like that, causing many people to look disappointed.

However, it was a good thing that he survived.

Zhang bufan couldn't help but walk to his brother's side and asked with concern, "Big brother, how do you feel now?"

Zhang Bulin looked at himself with a puzzled look, then he said with a face full of surprise, "I feel that the changes in my body are a little strange. I only feel that my body is burning, but there is no other reaction."

"Ah!"

Just as they were talking, a scream suddenly came from the distance!

The first to react was Zhang Bulin. He immediately strode forward and quickly went to the front. After a few steps, he immediately supported the person in front who was about to spill the medicine bottle.

Everyone looked at the scene in front of them in shock and did not come back to their senses. They could not believe what they were seeing!

It wasn't because Zhang Bulin had caught him, but because his reaction speed was too fast. None of them could react in time. What had happened?

They saw Zhang Bulin jump up from the ground. He was so fast that they didn't even have time to react. They didn't expect that there could be someone so fast in this world. It was like a movie.

"Zhang Bulin, you ... You you you ..."

The doctor pointed at him in shock and couldn't say a word.

Zhang Bulin was puzzled. He looked at the doctor Who was pointing at him in surprise and asked,"What did I do?"

Zhang Bufan's eyes were also filled with disbelief. He asked in shock,""Big brother, just now ... Just now, why did you suddenly jump up a few meters?"

"That's right, and you're so fast that you can't even beat a bullet. Aren't you a little too good?"

It was only after director Jiang heard the conversation between the two that he realized that something was wrong.

He hurriedly walked to Zhang Bufan and Zhang Bulin and asked with a face full of surprise,""Could it be that you've already obtained a mutated ability?"

After hearing these words, a look of shock appeared on the faces of these people.

Especially Zhang Bufan and Zhang Bulin, the two brothers couldn't help but look at each other. A look of disbelief flashed across their faces and they asked hesitantly,""But we didn't feel any changes in our bodies."

"Perhaps, the biggest change is the lack of change?"

After director Jiang brought up this matter, a look of extreme joy suddenly appeared on his face. He almost couldn't control the excitement and joy in his heart. His face was full of excitement, and he eagerly said again,"Yes, that's 100% true. I'm definitely right!"

Then, director Jiang immediately turned to Zhang Bufan and Zhang Bulin and said,""You two, come with me to the lab!"

They had no idea what director Jiang had discovered.

Chapter 1066: Successful experiment

But now, when they saw how excited director Jiang was, they immediately nodded and said excitedly, "Alright, we'll go with you!"

Director Jiang was extremely excited. He immediately turned to the doctor and said anxiously, "Doctor Zhou, can I trouble you to come with me?"

"Sure, no problem."

When doctor Zhou heard this, he immediately nodded. Although he did not know why director Jiang was keeping them in suspense, now that such a thing had happened, all of them had to do their best to get this matter done.

At this moment, a group of people rushed into the distance and quickly strode over.

Director Jiang first arranged for the two brothers, Zhang bufan and Zhang Bulin, to go to the infirmary for a blood test. Then, he sent the blood samples to the lab. The results of the blood test instantly excited everyone!

Their eyes were filled with disbelief as they looked at the scene in front of them in shock. Until now, they still couldn't believe what they had just seen!

"The experiment ... The experiment was successful?"

Director Jiang's tone couldn't help but tremble. Tears of excitement rolled down his face. He looked so excited, so excited, and so incredulous!

"The experiment is a success! This is great! My experiment is finally a success!"

Tears rolled down from director Jiang's eyes. He looked extremely excited.

"We've finally succeeded. We have a way to deal with the mutated beasts."

Director Jiang regained his confidence. He immediately took a step forward and walked in front of doctor Zhou. Then, he said excitedly, "Let's go to the test site!"

Zhang Bulin and Zhang Bufan immediately strode forward and followed director Jiang to the front.

When they arrived at the training ground, director Jiang's face instantly became extremely serious. He looked at the two people with a serious expression and then said word by word, "Listen carefully. Since the genes of the mutant ability have already been fused into your blood, you must find a way to display your power!"

"Because only if you find a way to integrate your own mutant abilities can you really do this well."

After hearing director Jiang's words, the two brothers immediately nodded and slowly said, "I believe in your own strength. You will definitely be able to do it."

When they heard director Jiang's words of trust in them, their faces instantly turned serious.

They held their breaths and carefully felt the power that was constantly flowing out of their bodies. At this moment, they felt that their minds and spirits had been sublimated!

The group's faces instantly became extremely serious. Not long after, they were ready to start exerting their strength and try to see how powerful their current strength had become.

When they thought of this, their expressions suddenly became extremely serious.

They suppressed the uneasiness and uneasiness in their hearts and slowly said, "Professor Jiang, do you think that the energy that burst out of our bodies just now was our mutant power?"

"What do you mean?"

After hearing Zhang Bulin's words, professor Jiang's face turned puzzled and curious.

He looked at the man in front of him hesitantly and slowly said, "What are your feelings? you can tell me. Although I don't know what's going on, I can help you analyze it."

After hearing these words, the two of them immediately looked at each other, and their expressions became extremely nervous.

The leader, Zhang Bulin, took a step forward first. His face was filled with anxiety as he spoke word by word, "Professor Jiang, you saw it just now. When we drank the mutant gene, some changes occurred."

“For example, my body suddenly became very strong and my speed also started to increase. My brother’s body became stronger and he looked like he was blown up by a balloon.”

“So, professor Jiang, I’m guessing that maybe it’s because we’ve just received the change in our mutated genes, so we haven’t received the mutated ability yet. That’s why the reaction isn’t so strong?”

“In other words, even if we have a mutated special ability now, we still need to rely on our own training to maximize the potential of the special ability?”

After hearing Zhang Bulin’s words, professor Jiang’s face instantly turned extremely serious.

He pondered for a moment, then nodded and said in a deep voice, “You’re right. I didn’t think of this from the start. It’s just as you said.”

Director Jiang nodded his head in agreement with what Zhang Bulin had said.

Not long after, he smiled and slowly said, “Since you’ve already understood this matter, then go ahead and do it.”

The two brothers, Zhang bufan and Zhang Bulin, looked at each other and nodded.

In the next second, the two of them strode away quickly and walked toward the location in the distance.

Zhang bufan mimicked his elder brother and sat cross-legged on the ground. He began to mobilize the power in his body, ready to test how strong it was.

As Zhang bufan was learning, he suddenly felt the power in his body gradually boiling. It was as if an invisible aura was gradually wrapping around him!

When he realized this, Zhang bufan’s face turned extremely shocked.

He was just about to test his strength when something shocking happened again!

He only noticed that his aura, after constantly boiling and boiling for a short while, his whole body suddenly seemed to be like a balloon that had been blown up, constantly expanding!

One time, two times, three times!

Zhang bufan didn’t stop until he had reached three times the normal amount.

“Director Jiang, is the mutant ability I got an amplification skill?”

Chapter 1067: Beyond one's knowledge

Zhang bufan couldn't help but look at director Jiang anxiously. He asked hesitantly, word for word.

When director Jiang heard this, he immediately looked at Zhang bufan in front of him, then nodded slightly and said, "Indeed, the bottle of mutant Esper gene you drank was indeed extracted from the mutant Gorilla."

"When the combat troops captured the mutant Gorilla, I saw its body grow extremely huge. It didn't look like a simple character. I had to put in a lot of effort to extract this mutant ability gene."

"Now that you've fused with this mutant ability, this trip has been worth it."

When he heard director Jiang's words, Zhang bufan's face immediately lit up with joy.

He looked at director Jiang excitedly and then said excitedly, "That's true. If I had known earlier, I would have trained more and strengthened my body. That way, I might be able to fuse my mutant abilities better."

When director Jiang heard what he said, he was surprised.

After a moment, he couldn't help but think, "If this is really as you say, then it's a good idea. Maybe the fusion of mutant abilities and the body really has something to do with the physical fitness?"

Professor Jiang's expression turned serious. He pondered for a moment before he slowly said, "It seems that I have to go back and do a good investigation this time."

"Well, since the matter is clear, you can go back to your training. When you can truly master your mutant abilities, you can go out and fight."

Director Jiang's words made the faces of the two brothers, Zhang bufan and Zhang Bulin, turn serious.

They knew how heavy a burden they had to shoulder!

If this matter couldn't be resolved smoothly, it would definitely lead to an extremely serious incident!

When this happened, the two brothers immediately felt extremely anxious and uneasy.

It was because what was happening in front of them was too beyond their current understanding!

Mutant beasts, superpowers, and humans who had surpassed the limits of the human body.

Now, could they really fight the mutated beasts to the death with their strength and finally win?

.....

At this moment, the coastal area of Zhou Hao's planet was in a state of panic.

Many people's faces were filled with fear and uneasiness. None of them had ever seen a mutated beast before. Now that they saw it wreaking havoc in front of them, they were instantly scared out of their wits!

"Not good, a mutated beast is coming. Run!"

"Damn it! What are these things? let's leave this place quickly!"

On Mount Kunlun, which was near the coast, Jonina was comfortably soaking in a small pool.

"Boom, boom."

In the distance, a series of violent trembling sounds suddenly came. The sound was very strong, shocking the surrounding mutated beasts, their faces turning extremely shocked.

They all turned to look in the distance in unison. When they saw what was happening in front of them, they were so shocked that they couldn't come back to their senses for a long time!

They had been living too comfortably for the past few days, so much so that none of them had realized that danger was gradually approaching!

Jonina was the first to realize that something was wrong. She immediately jumped out of the small pool and scanned her surroundings with a serious expression. It was only then that she realized something that shocked her!

“T-tornado?” he asked.

Jonina pointed at the sky in the distance. She immediately shook off the wet fur on her body and quickly walked over. She then nudged the gray-haired man who was still sleeping soundly at the side.

“Eh? What’s wrong?”

The gray-haired man gradually woke up from his sleep in a daze. When he saw the scene in front of him, he suddenly realized that something was wrong.

“Miss Qiao, what’s wrong?”

The gray-haired man shook the fur on his body. When he saw Jonina looking at him with an anxious and uneasy expression, his expression instantly became extremely serious.

He looked at Jonina in confusion, but before he could ask, he heard Jonina say to him in confusion, “Where’s Zhou Hao? why isn’t he here?”

“I don’t know where boss went either. He was clearly still here before I fell asleep.”

The gray-haired man was shocked as well. He could not help but look around hesitantly. Then, he asked in confusion, “Where did he go? why didn’t he tell us before he left? seriously.”

After hearing what they said, the mutated cheetah’s face turned extremely serious.

It immediately stood up and walked to the two people’s side. It said word by word, “The boss must have gone to patrol. It seems to have sensed the danger earlier than the two of you and has gone to prepare.”

After hearing these words, the two of them were extremely shocked.

Zhou Hao’s abilities were much more powerful than they had imagined!

He could actually predict danger in advance. Such an ability was really impressive!

“Don’t worry, I’ll go get boss now!”

The mutated cheetah was already wearing the beast bracelet, so it would listen to Zhou Hao’s every word!

Now that such a thing had happened, all of them suddenly felt that the responsibility on their shoulders was extremely strong!

Therefore, all of them were prepared to shoulder their own power and do one thing!

“How about I go with you?”

Jonina took a step forward. Her face was filled with worry. Ever since she knew that Zhou Hao had sensed danger, she had been extremely worried about him!

He was worried that if Zhou Hao was really in danger, what would happen if no one went to save him?

However, before Jonina could finish her sentence, she heard the gray-haired man say to her, “Don’t go, let him find it himself.”

Chapter 1068

Chapter 1068:-danger everywhere

“Howl?”

Jonina’s expression instantly turned into one of shock.

She looked at the gray-haired man standing in front of her in confusion. She had no idea what he meant by saying such words.

Why didn’t he let her go?

Just as Jonina was about to ask, she suddenly realized that the gray-haired man was giving her a look.

Jonina saw this and did not continue asking.

She smiled slightly and then slowly said again, “Okay, Ah Fei, you can go by yourself. When you see boss, come back and let us know.”

“Alright, I understand, big miss Qiao.”

When the mutated cheetah heard that, it immediately nodded its head with a serious expression. It quickly turned around and ran off into the distance.

Not long after the mutated cheetah left, the gray-haired man spoke in an extremely serious tone, saying to Jonina once again, "Miss Qiao, danger is approaching our Kunlun Mountain. Doesn't that mean that we need a leader for the mutated beasts under us?"

"I know you're worried about boss, but the mountain can't be without a master. If you leave with him, who will be the one to solve the problem if there's any danger on Mount Kunlun?"

The gray-haired man's words were extremely serious. He looked around and saw the mutated rat and hyena beasts hiding at the foot of the mountain. They had been alarmed, and he said again, word for word, "Miss Qiao, we still need you to lead the mutant rat-type exotic beasts. We need to be prepared at all times."

The gray-haired man couldn't control so many subordinates by himself. Now that they were in danger, they had to do their best to come up with a plan. Otherwise, this matter would be too difficult.

They were Zhou Hao's comrades who had fought side by side. Now that Zhou Hao was leaving, they had to take the initiative to step forward and resolve this matter as soon as possible. This way, Zhou Hao would not have any worries!

The gray-haired man's words at this moment were truly in Zhou Hao's shoes, which was why he said those words.

When Jonina heard what the gray-haired man said, she immediately smiled and nodded. Then, she said word by word, "Xiao Hui, you're right!"

"I was so flustered that I forgot that we still have to deal with the aftermath of this matter so that Zhou Hao can be prepared to face the enemy and danger with us."

"If it wasn't for your reminder, I would have really screwed up."

When the gray-haired man saw that Jonina seemed to have changed her mind, he suddenly heaved a sigh of relief.

Immediately after, he brought Jonina along to make arrangements.

Not long after, a roar came from the distance. As the roar grew louder and louder, many of the mutated beasts present couldn't help but tremble in their hearts.

Their faces contorted with anxiety and anxiety as they lay on the ground in shock. They looked extremely nervous and panicked as they muttered a series of agonized cries and howls.

When he saw this, the gray-haired man's face suddenly became extremely serious.

He suppressed the displeased anger in his heart and then said in a cold voice, frowning and scolding word by word, "Everyone, pay attention! Although the enemy you're about to face is terrifying, no one can help you if you're afraid!"

Hearing Zhou Hao's words, many mutated beasts couldn't help but start fighting in their hearts. They had no idea what they should do.

"They're here!"

Just as Jonina was about to say something, she sensed an extremely powerful aura suddenly pressing down on her position!

This kind of force was constantly growing stronger and stronger, so oppressive that they didn't even have the chance to breathe. They could only panic and try to leave immediately!

Jonina tried her best to calm herself down. Then, she warily followed the strong aura and looked in the direction where it came from.

When she saw the scene that shocked her beyond words, Jonina's body suddenly trembled!

In the distance, a valiant figure was whistling towards their position, rapidly sweeping towards them. It was an extremely powerful mutated Lion-like exotic beast!

This mutated Lion-like exotic beast didn't look like someone to be trifled with. It instantly frightened everyone, and their breathing began to become uneven.

They were so shocked by what had happened that they couldn't say a word.

They really didn't expect that there would be someone stronger than them. Now that such a powerful mutated beast had appeared, they were no match for this group of mutated beasts at all!

Jonina's mind began to tremble violently from the pressure of such a powerful force. She had never thought that something like this would happen. It scared all of them out of their wits.

"Hurry ... Hurry and get Zhou Hao back!"

Jonina's nervous face was filled with anxiety and unease. She could barely speak. Her face was filled with fear as she panted heavily, speaking to the mutated Scorpion-like exotic beast in the distance.

"Alright, I'll go now!"

Before the mutated Scorpion could take a step, the mutated Lion-like exotic beast with a hurricane under its feet rapidly flew toward Mount Kunlun!

It was obvious that this mutated Lion-like exotic beast had its eyes on the mountain they were on, wanting to snatch it away and make it its own!

All the mutated beasts were frightened when they saw that!

“All of you, gather your courage!”

The gray-haired man couldn't help but start panicking when he saw the group of mutated beasts. His expression immediately became particularly serious.

He suppressed his displeasure and anger and said to the group of mutated beasts, “Listen up, if you want to run away, I won't stop you. But if you dare to betray me, don't blame me for being impolite!”

Chapter 1069

Chapter 1069: The final choice

That short sentence immediately stopped the thoughts of the group of mutated beasts.

They also understood how powerful the gray-haired man was. Now that he was their boss, the group of mutated beasts had no chance of fighting back!

If they didn't listen to his command, then according to the gray-haired man's ability, he would definitely not give them any face.

If they were caught by the gray-haired man, they would definitely be eaten by him. They would be chewed up until not even their bones were left!

Now, faced with the threat of the gray-haired man, the mutated beasts could only force themselves to stay alert. They let out a furious roar at the group of people, then quickly headed towards Jonina's position in the distance, rushing over!

They all knelt in front of Jonina, their faces full of sincerity. They kept kowtowing to Jonina, and their mouths even let out a series of 'aowu, aowu' wails.

When she heard this voice, Jonina's expression instantly became extremely serious. Then, she slowly opened her mouth and said, word by word, "Alright, since you're all ready, we'll start fighting the enemy now!"

Following Jonina's order, the group of mutated beasts' expressions turned extremely serious.

They glared at the mutated giant lion in the distance, which was gradually approaching Mount Kunlun. They bared their teeth and howled angrily, looking particularly fierce.

However, in the next second, a roar suddenly came from behind them!

The moment this voice rang out, it immediately shook everyone's soul. Everyone's faces showed a trace of shock, so frightened that they could not even hold their breath!

Could it be that they were about to face the difficult situation of being caught like turtles in a jar with a Wolf in front and a Tiger behind?

Just as Jonina and the gray-haired man were panicking, not long after, they heard a roar from afar.

The more Jonina heard this voice, the more familiar it felt to her. She could not help but turn around to look at the gray-haired man beside her. She said hesitantly, "Xiao Hui, don't you feel that this voice is a bit familiar?"

At first, the gray-haired man was still a little flustered. However, after thinking about it, he felt that Jonina's words made sense.

Because this voice didn't seem to be coming for them, and ...

It actually sounded similar to his boss's voice!

"Could it be that the boss has returned?"

When he realized this, the gray-haired man's face was instantly filled with joy. He spoke excitedly. After he finished speaking to Jonina, he immediately turned his head to look at the direction where the voice had come from.

He was extremely shocked to discover that the sound actually made all of their scalps tingle. Not only that, but even the mutated giant lion exotic beast that was arrogantly advancing toward them in the distance seemed to be frightened by the sound.

Even the speed at which it was charging towards them was greatly reduced by the shock of the incomparably valiant voice.

When she saw this, Jonina's expression instantly became extremely serious.

Just as she was about to say something, she saw Zhou Hao's handsome and majestic figure suddenly stand up.

"Zhou Hao, you're back!"

When she saw that Zhou Hao had returned, Jonina's heart was at ease!

In fact, deep down in Jonina's subconscious, she felt that as long as Zhou Hao was here, everything would be solved!

The gray-haired man could not help but walk over to Zhou Hao's side.

His face was first filled with joy, then he strode forward with great excitement. He walked to Zhou Hao's side with a smile and said excitedly, "Boss, that's great! You're finally back! There are mutant beasts invading our territory!"

As the gray-haired man spoke, he pointed at the mutated Lion-like exotic beast that was rapidly flying towards them in the distance, and said to Zhou Hao, "Its abilities seem to be extraordinary!"

"After it appeared, these low-level mutated beasts all showed fear. The power it released just now was so strong that we almost couldn't breathe."

The gray-haired man was speaking the truth. Even now, he still felt that the pressure brought by the mutated Lion-like exotic beast was extremely strong, leaving them with no time to react at all. They only felt as if a huge rock was pressing down on their hearts, and they had no strength to fight back at all!

And this was the pressure they felt when they saw the mutated Lion.

If that huge mutated beast were to appear right in front of them, the pressure would be so strong that they couldn't even imagine it.

When she thought of this, Jonina's expression instantly turned into one of panic and bewilderment. Her nervous breathing started to become unstable as she anxiously said, "Zhou Hao, you must be careful!"

"The mutated Lion-like exotic beast that came this time is coming with a menacing momentum. It's definitely not someone to be trifled with. If we can't beat it, we'll hide for the time being and find another opportunity!"

After Jonina said this, the gray-haired man beside her also smiled. Then, he slowly said, "That's right, boss. I know you're very powerful, but this mutated giant lion beast doesn't seem to be easy to deal with."

"If we can't win, we'll think of other ways."

Who would have thought that when he heard Zhou Hao and Jonina's words, Zhou Hao's expression would suddenly turn calm. He smiled and slowly said, "Hehe, you can't beat him?"

"It's impossible for me to solve this problem. I think it'll be a piece of cake to solve it."

Zhou Hao's eyes were burning with determination. He looked at Zhou Hao with a smile and said, "I've already said that this is my territory. I won't allow anyone to stand on my land without my permission."

"Since this mutated Lion-like exotic beast doesn't know how to judge its price, we can finally have a full meal."

Chapter 1070

Chapter 1070: The grey-robed man's strength regressing

Jonina took a look and felt that something was wrong. However, she couldn't tell what was wrong, so she could only say, "I feel that something is wrong. You should be more careful when dealing with this mutated giant lion and Strange Beast!"

The gray-haired man nodded, frowned, and said with some seriousness, "I agree with her!"

Zhou Hao would not think too much about it. Even if the giant lion was not a simple beast, in his opinion, his strength would be biased at most, but the result was still the same.

As long as it doesn't go beyond his previous expectations, it won't be a match for him now.

Ho!

The mutation giant lion initiates the attack, pounced on, but causes Zhou Hao to be impressed, is very surprised.

In the past solved a lot of strange beasts, but this is the first time encountered now active attack, this strange beast, is indeed not simple.

But also only this time, Zhou Hao immediately launched their own fire cut, and their ability to absorb the beast, burst out of a powerful force.

At that moment, all of his C-level terrifying powers exploded, and powerful energy swept out. All the surrounding areas were cut in half by this wave of energy.

Ho!

The mutant giant lion's body also immediately appeared A to blood marks, blood from the wound from the inside outburst, and instant blood flow.

Both Jonina and the gray-haired man gasped in unison!

Now the boss is so strong!

Although they have seen Zhou Hao before the show of strength, but not as strong as this time, never seen.

No wonder this big boss, at that time dared to take them to enter this strange beast gathering place directly, originally this has this terrible strength.

Jonina swallowed and shouted, "Come on, Boss!"

The gray-haired man was also very excited. He secretly thought to himself that he had made the right decision by following this boss. If he had not waited for such a good opportunity to pass up before, then he may never improve.

Zhou Hao cut the mutant lion, then no longer use their own skills, but with their own flesh of the purest force began to attack.

From before until now, he had already become strong enough, but now he remembered that he did not seem to know how far his physical body had advanced.

Well, now there's a mutant lion who wants to die, and he can practice.

"Come on, keep going!"

When the mutant lion pounced on him, he had the power of his body and a flaming chop similar to his.

However, compared to the flaming slashing, the mutated lion's skills are now much worse, only to hit a blade shape of the slashing skills.

More precisely, the words are, Zhou Hao flame cut reduced version of the flame cut, can play out three.

Ho!

The mutated giant lion pounced on him one after another, but he was completely lost. A look of surprise appeared in his eyes as if he was looking at an alien in this world. That's right, that was the look in his eyes.

Zhou Hao was now looking at the mutated giant lion with the same eyes. This mutated giant lion was different from any other mutated beast he had encountered before. It was no longer clear that it was powerful.

This mutant animal, it seems to be very hard to hit, even harder than before.

This makes Zhou Hao feel as if he is back to his original planet or master playing with their own can tie the beast at that time.

To be precise, he is now in a situation where he meets his match.

No Wonder Jonina and the gray-haired man felt something was wrong. It wasn't. The mutant lion wasn't as easy to deal with as he thought.

But no matter how difficult it is, he has to solve it by his own means now, otherwise, he will have a headache later on.

Zhou Hao immediately pounced on him and started to fight back again. He knew that if he did not show any strength now, he would not be able to take down the mutated giant lion.

Ho!

The mutant lion growled and was now furious. It could not believe that its overlord was being beaten like this.

This human was even more powerful than their mutant beast, which was shocked and angry.

Zhou Hao was very surprised. He was also secretly surprised. This shouldn't have happened. Why did this mutated beast persist under his control for so long and still haven't collapsed?

From just now, this mutant beast is indeed injured, but at this rate, now want to kill is not possible.

"Boss?"

Jonina and the gray-haired man felt incredible. They felt that Zhou Hao's solution now was going to take some effort, but it was only going to take some effort.

But now, this is not the picture that they think they can solve, at the rate it's going, it's probably not going to end today.

Zhou Hao squinted his eyes. Although the mutated lion was d-class, his physical constitution had now reached c-class. It was too surreal.

There must be something secret about this mutant lion. With the way things are going, there's no way to tell today.

However, he wanted to keep the mutated lion anyway. Not only was it a prey, but the threat alone was enough to give him a reason to stay.

"Come and give me a hand!"

Zhou Hao said to them without looking back.

Jonina and the gray-haired man could tell that it wasn't so easy to solve the problem, so they made a decision and decided to act together.

"Yes!"

Jonina immediately went around the back and attacked from behind, while the gray-haired man went around to the left and now outflanked the mutant lion.

"Despicable!"

Mutation lion panic, in fact, it is already feeling their defeat, just the desire to survive so only hard support.

The mutant lion had been looking for a chance to escape, but now would use this method against it.

"It's the law of the jungle. The winner is the king. This is the rule set by your beasts. Now you're calling me mean. It's ridiculous!"

Zhou Hao sarcastic, these beasts like to rely on their own strong set the rules, to now play, it is another set of saying, this is playing double standard.

After a while, the mutant beast could not stand it anymore. All three of them were c-class mutants, and now they had completely crushed the mutant lion.

Ho!

The mutant lion wanted to struggle, but it only struggled for a little while and couldn't. It lay motionless on the ground.

Chapter 1071

Chapter 1071: The test

The gray-haired man's eyes were burning, and after swallowing his saliva, rubbing his hands in anticipation, he said, "Boss, this mutated beast can make the three of us fight together. It's quite capable. The Beast's heart is an excellent tonic. When you take it out, can you share some with me?"

Jonina's throat rolled and she swallowed, salivating.

The mutant beast kept struggling, struggling for a while useless, even began to beg.

"Don't eat me, my food is not good, I eat a lot of poisonous mutant animals, you eat you will die!"

The Mutant Lion's eyes were frightened, and now he hurried to speak.

This reason to frighten three-year-old children, can not deceive Zhou Hao, also can not deceive Jonina they.

Zhou Hao pondered for a moment. Thinking that the mutated giant lion could withstand so many fiery slashes, there must be a secret, he said, "Let me ask you, how did you improve your strength!"

After a moment's hesitation, the mutant lion stood up and said, "I tell you, can you not kill me?"

Zhou Hao touched his chin, after brewing for a while, said: "If you are honest enough, I can consider letting you go!"

Anyway this kind of mutation beast is also not little, wait to become stronger later, continue to catch just.

The Man in gray and Jonina looked at the mutated giant lion regretfully. They could tell that Zhou Hao wanted to know the secret and did not want to be food.

This time is Zhou Hao out of the most strength, now they can only be in accordance with Zhou Hao's meaning.

What's more, this is Zhou Hao brought in, no Zhou Hao, now they even go out is a problem.

The mutated giant lion thought for a while and said, "I don't know how I improved. I just remember that every time I returned to my territory, I slept under a tree. Then, I improved!"

Sleep under a tree and get promoted?

If he had heard this before, Zhou Hao would have killed it directly as a way of stalling for time.

But now, Zhou Hao did not do so, but as if thinking.

"Boss, I don't think this tree is just any tree!"

Jonina said firmly now.

"That's how I Feel!"

The gray-haired man nodded in agreement.

Zhou Hao thought of a flash of inspiration, thinking of the fruit of Reiki, is not that kind of magic world tree.

Thinking of this possibility, Zhou Hao immediately said to the mutant lion, "Take me there now, I won't kill you. From now on, you are my little brother!"

Even if it wasn't a worldtree, it would probably be a tree with the same effect, which would definitely be good for their strength.

He has improved a lot in this part of the world, but he will not be satisfied with it now.

After all, this was only the tip of the iceberg that he was now exposed to, and his ascension was only enough to allow him to protect himself.

If the situation had been like that, he would not have been able to protect Jonina.

"Boss, I'm taking you there!"

In order to reduce time, Zhou Hao and Jonina and others directly jumped on the back of the mutant lion, riding the mutant lion to go.

In this realm of beasts, many beasts have not yet opened their minds, once they see a different race, regardless of whether there is danger, will attack.

But when they see the mutant lion, these beasts are afraid to act, because it comes from a kind of blood and the soul of oppression.

With the mutant lion leading the way, they successfully entered the mutant lion's territory.

When going in, Zhou Hao felt his blood agitated and his heart was ecstatic.

As expected, he guessed correctly. There were trees that could increase their strength. The closer they got, the closer he felt his blood was boiling.

Before he reached the tree, Zhou Hao felt a strange force, which was moving his heart toward the place.

At that moment, he was almost certain that this was the world tree he was looking for.

It was the same as the Yggdrasill that he had encountered when he was fighting for the reiki fruit. As he got closer, he could feel that the cells in his body were already cheering for him to reach his destination.

There was a lake in front of them, and beside it was a tree with a cloak over the sky, and between the vibrant green leaves hung an attractive fruit, which was exactly the fruit of the spiritual aura they were looking for.

Jonina and the gray-haired man were overjoyed. They had never expected to meet such a complete world tree in this place.

Reiki fruit, there are seven or eight, very eye-catching.

This stupid lion doesn't know it's the fruit of Reiki?

Zhou Hao jumped off the back of the Lion, a wind-driven engine to the tree, climb up, picked A.

Jonina and the gray-haired man jumped down and climbed a tree to pick one, beaming with joy.

Did not expect that happiness is so sudden.

Just as they were about to continue picking, the ground shook and the tree trembled.

At the same time, a roar resounded through the air.

"Cover your ears!"

Zhou Hao put the fruit in his pocket, and then covered his ears, found that this is actually a kind of sonic attack of the beast.

Jonina and the gray-haired man had done it together, and now they both felt their eardrums tingle and their faces ache.

Danger!

Zhou Hao immediately jumped from the tree, and is running to the side, immediately called Jonina and gray-haired man jumped down.

“Boss, What’s Wrong?”

Jonina and the gray-haired man were all confused.

Before Zhou Hao could explain, several people appeared from behind the tree. They were wearing identical black uniforms and masks. Only a pair of eyes as sharp as a falcon could be seen. They were extremely cold.

The first was a tall man with a strange beast, a strange beast that struck with a sonic wave.

Immediately, they understand what is going on, these people are to rob the fruit of Reiki.

“These guys, they’re haunting me!”

The gray-haired man’s face darkened. He didn’t expect that they had already come here, and that he could still meet them. This was the second time.

This is what they have now, and now they will have to fight, but they do not have to fight a waste of energy.

These people are too domineering, Rob once before even, now also want to rob.

Zhou Hao also recognized these people are a group of people before hand, and not angry, but said with a smile.

“Gentlemen, we don’t know each other very well. Gentlemen, would you please leave me some and go?”

Zhou Hao although the face is showing a smile, but the heart is already a murderous cold, just once even, this also ran here for the second time to find trouble.

Chapter 1072

Chapter 1072: The cruel punishment

Previously, he was not sure that he would be able to keep all of them, but things were different now. He had eaten a piece of spiritual energy fruit, and his strength was now infinitely closer to a B-level beast than before.

Now these guys, unexpectedly still dare to find here, really when he is easy to bully, a group of reckless guys, this time to fulfill you.

Zhou Hao thought to himself.

“This fruit of spiritual aura is ours now that we have our eyes on it. This world is already a jungle. If you want to take a few, show us your strength now. If you can’t, get lost. Otherwise, die!”

The leader is now aggressive or the same as before, a pair of I have the strength I am the boss, looked at them with contempt said.

She was angry, as usual, and looked like she wanted to be beaten up, as if she owed him money, as if she was two hundred and fifty.

I confess that I was a savage woman before, but now that I see your Excellency, I feel that my savagery is nothing to you

The head of the man’s cold eyes flash away, unexpectedly said he was such a noble man is barbaric, is simply seeking death.

“Take them all!”

Said the man to several of his men and subordinates.

Although these subordinates and her subordinates were not as good as him, they could still use half of her combat power. She was considered an expert in this territory, so she should be able to take care of these guys.

His men are thinking the same thing, thinking that their opponents are the same as before.

“Keep your eyes peeled for the rest of your life!”

These subordinates are also cackling, now is a pair of I am very awesome same expression.

But they do not know, they are just two hundred and fifty in Zhou Hao's eyes, that is all.

"Boss, I can't take it anymore. I'll beat them up!"

Jonina came here for a long time no exercise, always feel very itchy, now is no longer under control, decisive rushed up.

"Well, you're out of your depth!"

For these soldiers, the female is synonymous with weak, see is jonina shot, these soldiers are sniffy.

In their view, what Jonina is doing now is a mayfly shaking a tree.

"Take That!"

However, when Jonina shouted and threw a punch, the soldiers' expressions changed. This was not a punch. It was five or six punches. No, to be precise, it was hundreds of punches.

Immediately, these soldiers are immediately aware that they are now a serious low point of Jonina's strength.

"Get out of the way!"

One of the deputies exclaimed, but it was too late to get out of the way.

Jonina had advanced to level C. her speed and strength were now enough to crush the mutated beasts that had just evolved into level D.

For a moment, the deputy felt locked in, unable to move, terrified. It was too powerful. It was fear from the depths of his soul.

Jonina is definitely above them, above them, even above their captain.

Aah!

Now their bowels are full of regret, but regret is useless, these fists accurately hit them.

When they were hit with their fists, they felt as if they had been hit by a mountain.

Boom!

All of them flew into the lake like boulders into a placid The Perfect Storm.

The captain looked shocked. How was that possible? This was a team that was only a level weaker than him. Even if he tried his best, he would not be able to take down these teams in one go.

At present this looks weak woman, now actually did, the key is that this with his team is not a united enemy.

Suddenly, the captain's face changed drastically, and he realized what a stupid decision he had made this time, by realizing that he was no match for him.

Run!

At the same time, an idea grew in his mind and now he had to run away.

"Captain, wait for us!"

Those soldiers in the lake want to call for help, but their captain picked a fruit of the spirit is already fled, see the state, they are desperate.

Their captain thought that he could escape, but he was secretly elated. Fortunately, he did not make a move. Otherwise, he would be the one left behind. The captain was already fantasizing about taking the fruit back to improve his strength and become famous in a single battle, to obtain all kinds of fame and power in the holding of unlimited scenery at that time.

"There you are!"

But soon a sudden voice brought him back to reality.

Captain Stein looked round warily, but could not find the man anywhere.

"I'm Here!"

It wasn't until the voice rang out again that Captain Stein realized the man was standing in a tree, looking at him.

"Your Excellency, it's a misunderstanding. I wanted to share it with you. I didn't mean for them to attack. It was all my stupid deputy's intention. Please let me go. Be a good person and let us meet in the future!"

Said captain Stein with a forced smile.

Zhou Hao showed his white teeth and smiled innocently. "I can let you go, but you need to tell me who you are, including the forces behind you!"

Captain Stein's face darkened. Asking him to reveal his secrets was tantamount to asking him to betray him.

"Sir, in a place like this, there is no law enforcement alliance, and Now You're not afraid of my men coming after you!"

Captain Stein, this is a threat.

Captain Stein made a stupid mistake, and now he's going to make another one, and that's just stupid.

Zhou Hao a clap forehead, think he really or think too much, with this kind of not see the coffin do not shed tears guy said so much of his IQ was also brought to the side.

If so many useful, in the past is already used, it will not take so long to wait until now so.

"I'm confused. I shouldn't have told you so much. You Don't want to tell me, so don't tell me. Just shut up forever!"

Zhou Hao grunted coldly, then a flaming chop locked on Captain Stein.

Captain Stein continued to run, but before he could get far, he began to lean forward and fall to the ground.

"Aah! My Leg!"

Captain Stein found that his leg had been cut off, and that there was still fire burning in it, and that it was cooked.

"You can't kill me. If you kill me, the forces behind me will never let you go!"

Zhou Hao felt that he was too kind, so he was ready to come again a flaming chop, this time the position is one of his hands.

Captain Stein screamed again, and now he's terrified.

"Don't come back, I said, I'll tell you anything!"

Zhou Hao still did not put up his killing intent, indifferent opening way: "This Is Your Last Chance!"

Captain Stein, feeling the full force of the killing, told the whole story of his power.

It turned out to be just a local force, know these, Zhou Hao sniffed, thought it was some kind of super force, the result is such a small force.

“Go back and tell your lord that if he ever messes with me again, I will destroy his entire clan!”

After Zhou Hao goes back, think oneself now is time to promote oneself, do not promote again, next time is afraid to be able to have bigger trouble.

Chapter 1073

Chapter 1073: No, leave with me now!

At this moment, the gray-haired man walked over and said hurriedly, “Boss, we can’t let him go. We’re letting the tiger go back to the mountain. If he goes back to look for his accomplices, we’ll be in danger!”

Jonina also said, “Boss, I have the same opinion as him. I don’t think we can let them go. They’ve been haunting us ever since. I Can’t guarantee that they won’t continue to cause trouble in the future!”

Zhou Hao mused, indeed there is this possibility, so began to brew up how to do better.

If you don’t let them go, then maybe they will come back, and it will be a real headache, even a tough one.

So, the sooner we settle this, the better, and nothing else will happen.

The Man in black now had red eyes, hysterically, he said, “Our power is not something you can fight against. You’d better let me go now. Otherwise, if my organization finds out that you dare to attack me, they will never let you go!”

In fact, the man in black now wants to strike while the iron is a hot threat so Jiangnan is now good to obey.

But when just said this sentence, Zhou Hao put on a face of a smile is not a smile, a pair of eyes in the murderous unconcealed.

All of a sudden, the man in black heart skipped a beat, he just remembered now this time encounter and before the encounter is different.

And it was only now that he realized that he was now on a strange beast planet, far away from the emperor. Even if his forces reached in, they would still be standing at the

same starting line, in other words, generally speaking, there is no way to deal with Zhou Hao.

"I take it back. I'll never make trouble again!"

Burst out of the strong desire to survive in the eyes of the man in black, Zhou Hao, and others than he had entered the area lock seen before any of the strange beasts are also terrible.

Therefore, now the man in black hurriedly explained, but he explained when also know too late.

"Don't..."

Zhou Hao is to give one side of the mutation of the lion a look, the latter understood, directly swallowed a black man.

With a scream and a burp from the mutant beast, it became a thing of the stomach.

"From now on, you will be my little brother. If you do well in the future, I will consider your promotion!"

Zhou Hao Heart is glad, but not killed before the mutation of the lion, or I am afraid that the spirit of the fruit of all to cheap those guys.

Now the fruit of Reiki is known to be very precious, even to the mutation of these beasts also have great help, can be said to be extremely precious.

What they got this time was more precious than any resource they had ever gotten before.

With these resources, they will be able to improve a lot and at the same time, they will not be as desperate as before.

"Boss, I found that coming out with you was a very good choice!"

Jonina has gone from being a planet Princess to being a fan girl.

Jonina's adoration of Zhou Hao is a mess.

Zhou Hao, let alone in the Kunlun side, even in the universe above any one planet, it is absolutely first-rate figure.

"Hehe, you should know the benefits now. You should learn more in the future. Boss is not only capable, but he also knows a lot. Our boss is known as the Doctor of the Universe!"

The gray-haired man was talking about himself, and he was explaining to Jonina what the doctor universe was, which meant a knowledgeable scholar of the universe.

Jonina now worship, but also think of their own to follow the old university there are a lot of, so she decided in her heart, he will follow a lifetime.

Boss, we know this strength is strong enough, why do we still want to find the beast now

When the grey-haired man was promoted, he found a place to rule and slept in every day. Now he could be a beast like a Lord.

During this time, grey-haired men sleep in every day, dozing has become accustomed.

Gray-haired man is very enjoying this life, Enjoy Shu, see him now quickly addicted to them can not extricate themselves, so Jonina told Zhou Hao this matter.

In the past, Zhou Hao would have turned a blind eye, but this was in the realm of exotic animals. Over here, they could rest and even enjoy it now, but if they continued like this, that is the equivalent of giving those beasts time to ascend.

If they were stuck in a rut, the monsters would overtake them. Then, they would be passive and would even have to live a life of hiding.

Therefore, Zhou Hao felt that as the boss now, he had to take on the responsibility of protecting them. Now, he had to do his duty. If he could not do that, then he would feel very guilty in the future.

So, Zhou Hao found over and decided to let the gray-haired man follow him out to exercise.

Come on, I'll go out and see how strong you are now

After staying here for some time, Zhou Hao finally could not help but look for it, and now said to the gray-haired man.

"Boss, can I get some sleep..."

The gray-haired man was obviously reluctant. How could he be willing to follow him out? After all, he was a lord now. He only needed to drive the strange beasts to eat every day.

"No, come with me now!"

Zhou Hao now says in a tough tone, not to be resisted.

"All Right!"

The gray-haired man could only reluctantly follow, and after a while came to the front of a nest.

Now this boss has not told now what to do, the gray-haired man can only wait, in the waiting time now he is also because of too long now listless, yawning.

Look at him like this, Jonina hates to iron, not steel, but for his boss painstakingly, the result is now this guy is living as such a loser.

They come here, are soldiers, are already destined to face a lot of unknown things.

Here, they are always on their guard, always fighting, which is what they know in advance before they come.

However, this grey-haired man had been living a comfortable life for some time, and now he was just being lazy. Now, he looked like a weak person who needed protection in that kind of comfort circle, not a soldier.

Otherwise, this is the boss's idea now, and now Jonina really has an urge to beat him up.

What Jonina didn't know was that even if she did do it now, the gray-haired man would be too lazy to resist.

Because the grey hair man now enjoys this kind of life very much, now already is gradually on indulgence this can not extricate oneself from.

Chapter 1074

Chapter 1074:-abandoned

“Boss, did you bring me here for some kind of training or...”

The gray-haired man was puzzled, and now he was puzzled by his boss, who had been silent for a long time, just when he wanted to continue asking.

Suddenly, a roar came from the front, deafening from near and far.

In the roar into the ear of the moment, gray-haired man covered his ears, face full of pain, the sound is sonic attack.

When did the beast appear?

Why didn't he find out?

The gray-haired man didn't know that his reaction was slower than before. Now, he didn't know that he was in danger. Now, he wanted to escape. That's right, he wanted to escape.

At this moment, the gray-haired man did not know that he had returned to the time when he faced a strange beast. It was the same as now. He just wanted to run away from this place instinctively.

"Loser!"

Looking at the gray-haired man who couldn't even find his way to escape now, Jonina couldn't help but sneer.

At this moment, the gray-haired man was like a headless fly. He was not even as good as the lowest-level soldiers. If it was those low-level soldiers, they would definitely show that they were well-trained just like they were during training.

But now the gray-haired man couldn't find his way, and what made Jonina even more dumbfounded was that the gray-haired man actually appeared to be in a panic.

Could it be that this guy had been so immersed in his own life that he had forgotten all the suffering he had suffered when he came here?

Jonina was instantly enraged. She hated that the iron didn't work out. In such a place, it was fine if he didn't take her seriously. However, what he did now would only make him a hindrance.

Before teach you, all by you to eat not, I said you waste are flattered you

There are two main reasons for Jonina's anger. One is that the gray-haired man is not responsible for himself or his teammates.

The second reason is the most critical, that is he sorry Zhou Hao help, if not Zhou Hao help, gray-haired man would not have today.

Ho!

Soon, the gray-haired man saw a mutated monster not far away running toward him. The monster was at least a c-class.

The gray-haired man felt that something was amiss. He only realized that he was losing his strength and had just woken up. It was only then that he realized that he had not returned to his comfort zone. He was still in the realm of exotic beasts that could die at any time.

In this, all kinds of things can happen at any time, ever-changing, unpredictable.

The gray-haired man was shocked and did not expect to encounter such a thing in his own comfort zone.

At the sight of the gray-haired man's flustered look, Jonina could only say now in her old age.

"Use the way you were taught to fight, or the way you learned from the boss, and you'll be safe now!"

In fact, now that the gray-haired man had a memory, he had already remembered it. It was only when he wanted to do as he remembered, that he realized that he had not only fallen in strength, and his reaction is now also slow, this should not be in his body.

"Damn it!"

The grey-haired man is now also aware of how foolish he was to have chosen comfort.

Ho!

The mutant beast slapped down, but missed, leaving a huge footprint on the ground.

At the same time, there were a few more cracks in the area caused by the fire.

Gray-haired man, the difference between the distance is close at hand.

Luck?

The gray-haired man was shocked. He was stunned for a moment, but now he did not expect to miss. He quickly reacted and immediately adjusted his current state.

Now the grey-haired man now this feeling, is very aptly said is like a dream.

After having this kind of feeling, the grey-haired man only then awakens own muscle memory afresh, only then can avoid repeatedly.

However, he has not yet fully recovered, now just dodging is to let him use the full strength.

Jonina shook her head. The gray-haired man couldn't do it, just as the boss thought he could.

"Boss, I'm dying! Help me! Help Me!"

Not for a while, the gray-haired man is the hope of Zhou Hao on the side of the body.

The speed of the Beast had begun to increase, and now the gray-haired man felt a sudden increase in pressure, just as he had when he had first dealt with the beast.

The gray-haired man was also gradually running out of energy and could not keep up. He was thinking that if he continued to use up energy like this, sooner or later, his energy in his body would be exhausted. Therefore, he could only choose to seek help at this time.

He thought, as long as the boss is to take action, it will be easy to solve now, so now grasping at the last straw now to the boss said.

If in the past, Zhou Hao is indeed will act, but now he will not, he stood motionless in place.

Watching the boss now motionless, intended to do nothing.

All of a sudden, the gray-haired man now know, this must be the meaning of the boss.

In fact, the gray-haired man realized that he had fallen behind, and now he thought that he must have let the boss down.

Therefore, the boss is now no use to him, discarded as an old shoe.

If Zhou Hao knew the thoughts in his mind now, he would be speechless at his rich imagination.

"I'm dying. I'm really dying. Jonina, help me, Please!"

See the Big Brother for a while and a half will not hand, Zhou Hao can only now turn his hope now on Jonina.

Jonina although less than Zhou Hao the boss, but now hand in hand with him to fight off the front of the mutant monster is now there is no problem.

But then, to the amazement of the gray-haired man, Jonina seemed now to be going to stand idly by.

Now the gray-haired man is very puzzled, why now he is only weak, now just do one thing wrong now will be abandoned.

Although puzzled, he still knew that now he needed to solve the current face of the crisis.

If he can't do it himself, no one else can do it for him now.

Therefore, he probably already knew what kind of situation he was in now. Whether it was before or now, this was something that he absolutely did not want to encounter.

But met, this time he can only be self-unlucky, there is now alone in the face of all this.

Chapter 1075

Chapter 1075:-dead!

“Hey!”

The gray-haired man regretted it too. He finally understood why the boss had been improving his strength. Now, he regretted that he had not understood it earlier.

Right now, the gray-haired man felt that he was being a complete bitch. He could have walked forward with this boss, but he chose to go in the opposite direction.

At this time, the gray-haired man also chose to give up the fight, but also know that now he is only a matter of time.

Now, many memories flashed through the gray-haired man's mind. Some of them were of him struggling for his life in front of the strange beast, and some of them were of his glory days, and some of them were of his previous experiences.

Looking back, the gray-haired man laughed and realized how foolish he had been to think he could do nothing.

“Boss, if there is an afterlife, I want to continue to be your little brother, now you do not save me, I do not blame you!”

The gray-haired man chose to close his eyes and stare at the final death.

After waiting for a while, grey-haired man is to find himself without any pain, his body pressure is gone.

Grey-haired man confused to open his eyes, is it strange animals kill themselves too quickly, so there is no pain?

Or is he now in the fabled Kingdom of Heaven?

“I don’t think you should be carrying that, Boss!” Said Jonina

Zhou Hao also is suddenly feel Jonina said some truth, also feel oneself before should have such consideration just right.

Grey-haired man, surprisingly have not found so far, this is just a test.

The gray-haired man widened his eyes when he saw that he was all right, and that the boss and Jonina were still standing in front of him.

A moment later, the gray-haired man pinched his face and felt the pain before he was sure that what he was seeing was not an illusion.

“Boss, I’m Not Dead?”

After saying this, and noticing the caring look in Jonina’s eyes, the gray-haired man now decided that he was not dead, and his eyes filled with tears.

Finally, the gray-haired man also noticed the giant monster obediently lying beside Zhou Hao, just remember this monster some familiar.

If you don’t look closely, you really can’t tell.

Not for a while, wait to see out, grey hair man remembered before Zhou haocuo take down the mutant lion.

But when I realized that the mutant lion was the former mutant lion, my face turned red and I wanted to crawl into a hole in the ground.

So, no wonder he did not die, and now he is completely enlightened.

But now he was so ashamed that he couldn’t even see the test.

Jonina is now very speechless, this gray-haired man can live like this, this is really a wonderful plus.

This is the realm of exotic animals, and there are many dangers, in which unpredictable dangers can occur at any time.

In this, they know from the moment they come in that they just need to keep getting stronger and then getting stronger.

After they carried out this idea, they never forgot it.

Come in also did not forget, but also dare not forget, this is like experienced something deep imprinted on his soul after.

But it is this kind of important matter, unexpectedly by the gray-haired man to forget now, so will make before such an embarrassing situation.

At this time, the gray-haired man was now as embarrassed as he could be. It was so embarrassing that he had never thought of it.

Just now he readjusted himself and thought it was some kind of mutant monster going to bed.

"If this were any other beast than my brother, you'd be dead, and you'd be dead!"

Zhou Hao helpless, he felt that he has said enough, all kinds of eloquence.

But even so, the grey-haired man was able to forget that, of all the fighters, this was probably the only one now.

"Boss, it's my fault. I accept the punishment. You can punish me however you want. I Won't complain!"

Now, the gray-haired man finally realized how dangerous his situation was. He also knew that if it was really as the boss had said, he might have died here before, and probably worse than dead.

Now, the gray-haired man also secretly swore in his heart, after he can not slack, he must use a lifetime to enhance the strength.

Now he realized that he had been too comfortable for too long, and that he had gone too far.

That is, this time with the boss is such a team-mate, if someone else, probably now he is dead.

Thinking of what had just happened, the gray-haired man was sweating profusely, a blast of cold air from the ground into the soles of his feet all the way to the top of his head.

Fortunately, is the boss, now the gray-haired man is also grateful, although this boss of this kind of teaching is very alternative, but are very useful.

He had lived almost as long as he had been here once as he had lived through an unforgettable experience.

From the past until now, he had gone through many things that he remembered, but when all those things were added up, he did not pay more attention to them than he did now.

“Boss, you should punish me. If you don’t punish me, I don’t feel good. I’m the bastard. I promise this will be the first and last time!”

Think of this boss from before to now but to help many times, so this time the gray-haired man immediately said.

Now the grey-haired man is regretting it, and now he wants to be punished in order to wake him up.

This time there is this boss, but next time may not be, so now he is now the same lesson is very important.

As long as it is done now, in the future he will not appear such a mistake, in the future can go on smoothly.

Jiangnan thought for a moment, or along the meaning of the gray-haired man, gave the gray-haired man punishment.

The punishment was to let the gray-haired man regain his sight within a month, then go hunting some d-class beasts alone. He was not allowed to bring his little brother, who was now a big head.

“Boss, no! I don’t have your skills! If I go alone, I’ll die!”

The gray-haired man immediately complained, and now also regret, if he had no mouth cheap would not have this punishment.

But now he knows that it is his choice, now no matter how difficult later, now he can only be alone to face and solve.

Jonina now looked at the gray-haired man gloatingly, and she actually agreed with the boss’s decision.

Only let the gray-haired man suffer, in order to let him long-term memory, in the future will not appear such a rookie mistake.

Chapter 1076

Chapter 1076:-causing trouble

The next day, just as the sun rose on the horizon, the gray-haired man was still sleeping when he suddenly realized that something was quickly approaching him.

The gray-haired man was instantly jolted awake. He immediately raised his head to see what it was. When he got a clear look, he realized that it was a huge beast looking at him.

The gray-haired man took a closer look and heaved a sigh of relief. This was the big head from yesterday.

Seeing big head, the gray-haired man was very depressed. After failing the test yesterday, he had promised to punish him today.

The punishment was for him to kill ten mutated beasts within ten days.

However, he did not expect the content to be so strict. He had just opened his drowsy eyes, and now he was about to go to battle.

This was something he had not expected. It seemed that he had no choice but to go.

“Big head, let’s go!”

The gray-haired man unwillingly jumped onto big head’s back and ran towards the central area.

Today, they had to complete it. Before he left, he had told Zhou Hao that he wanted big head to help.

Zhou Hao thought that it would be difficult and risky, so he agreed to let big head go with him.

“Ha!”

The grey-haired man let out a low growl and flew up from the ground, kicking a mutant Grey wolf’s head.

Peng!

In an instant, the wolf’s head exploded as if it had been hit by a hammer on a watermelon, and the wolf became a headless corpse.

Seeing that he had killed the first mutant Grey Wolf, the grey haired man gasped for breath, and his heart was finally at ease.

Fortunately, it was solved now. Otherwise, it would be troublesome later. The mutant gray wolves he encountered this time were usually in groups.

It wasn't easy for him to kill them in advance. Now that he had killed them, he could leave.

His mission for the day had been completed, and he could not stay in this place anymore. There were still these mutant grey wolves.

What the gray-haired man didn't know was that after he left ...

A few other mutant wolves sniffed the blood left by the dead Wolf's body. They quickly raised their heads and looked in the direction the man had left with a cold light in their eyes.

Aowuu!

These wolves raised their heads and called out, and in a short while, more mutant wolves rushed over, there were at least 20 – 30 of them.

The grey-haired man had also walked a short distance before he realized that he had not cleaned up the blood of the mutant Grey Wolf. His face suddenly changed.

However, just as the gray-haired man was about to go back to clean up, he heard a howl from behind, which was the place where he had killed the mutant Wolf.

"Big head, quickly return to the territory, quickly!"

The gray-haired man's hair stood on end. This was bad. He knew that he hadn't done a good job, which meant that he would be in big trouble.

The mutant wolves were not his match, and he could even kill them with ease. However, if the number of mutant wolves increased, he would not be able to fight them.

Therefore, he had to go back now. Now, he and big head together were definitely not the opponent of a dozen gray wolves.

Big head also sensed the danger and ran away, quickly returning to the territory.

It was under the tree that he had been sleeping under.

Zhou Hao happened to be barbecuing. When he saw big head and the gray-haired man return, he knew that something bad had happened.

However, before Zhou Hao could ask, he saw a number of mutant wolves coming out from the forest, one by one.

When he saw Zhou Hao, the gray-haired man finally relaxed. Fortunately, he had returned in time.

The moment those mutant wolves caught up, he would definitely die. Luckily, he was back now, and he did not have to die.

"I told you to go hunting, and you just completed the mission boss gave you!"

Jonina rolled her eyes. This gray-haired man was really something. He poked the hornet's nest and still brought him back to cause trouble for them.

The gray-haired man was embarrassed, but he didn't bother to explain. It was useless to explain now.

The wolves suddenly opened up a path for him, and the largest one stepped out.

This Wolf also had a large tuft of purple fur on its head, which made it look like a crane among a flock of chickens.

This seemed to be the boss of this place. This kind of Wolf Pack would usually let the boss solve this kind of problem first.

"Boss, it's all up to you now!"

The gray-haired man said quickly. He was no match for the other mutant wolves, let alone the boss.

He was already exhausted. If it wasn't for bighead, he wouldn't have been able to come back from the central area.

Right now, he was definitely not a match for these wolves.

The one he had killed before was not only a lone wolf, but also the weakest one.

In other words, his stamina was at its peak right now, and he was still unable to deal with these wolves.

So, naturally, the gray-haired man placed all his hopes on his boss, Zhou Hao, just like before.

Zhou Hao didn't say anything else. At this point, he had no choice but to act.

"Big head, get out of the way and let me do it!"

Big head was grimacing in pain, and Zhou Hao patted him on the shoulder.

Big head immediately stepped aside, allowing Zhou Hao to fight the blue-haired beast.

The mutant Wolf boss also bared its teeth, its eyes filled with ferocity, ready to attack at any time.

Seeing Zhou Hao walk out, boss Wolf suddenly put away his sharp teeth and said, "Human, hand over your companions, and the matter between us will be written off!"

This boss Wolf seemed to have some self-awareness. However, this was not enough. To Zhou Hao, under such circumstances, he could either fight or leave with self-awareness.

However, boss Wolf's self-awareness was not enough. After Zhou Hao took a deep breath, he immediately knew what he should do.

"Come on, let's exchange blows. If you can defeat me, you can take him away!"

When Zhou Hao said this, the gray-haired man next to him was scared out of his wits and was now trembling in fear.

If their boss were to lose, he would become food for these exotic beasts. Thinking of the feeling of being turned into minced meat and having his bones crushed by them, he instantly felt a chill run down his spine.

However, when he thought about how his boss had not been able to come out unscathed from all the opponents he had fought before, the gray-haired man suddenly felt that he was just scaring himself.

This boss had never lost before. How could he lose to a Lord-tier mutant Wolf boss?

After understanding this, the gray-haired man began to cheer for his boss. His boss had solved this problem for him.

Chapter 1077

Chapter 1077:-Wolf King

As long as this boss could be solved now, then the terrible thing wouldn't happen. However, the premise was that the current situation could be solved.

"You only know how to cause trouble for boss. If I Were Boss, I would definitely not care about you now!"

Jonina crossed her arms and snorted coldly.

This gray-haired man was getting more and more out of hand. He was lazy before, but now he was causing trouble everywhere.

In fact, this was the same as the low-level mistake from before. This kind of thing shouldn't have happened in the past.

But now that this had happened, Jonina was very unhappy. It wasn't because she despised the gray-haired man.

He simply felt that the gray-haired man didn't know what was good for him. This boss had helped him a lot before and had even given him a lot of benefits.

Not only did this gray-haired man not know how to be grateful, but he also went around causing such things.

It was only because this boss was strong enough. If it were anyone else, they would have been killed by a pig-like teammate like the gray-haired man.

Seeing that the princess, who was of noble birth, was angry, the gray-haired man just chuckled. He felt that he was very lucky.

Usually, when he encountered such a situation in the past, he would be able to escape for as long as he could. It was only with the help of this boss that he was able to survive for a long time.

It was also because of this boss that he could continue to live like this. If it were before, he would probably be dead by now.

The mutated Wolf boss was extremely fast. The key was that its claws could actually release skills, which were similar to Flame Slash, but not the same.

The claws were a type of wind blade that was extremely fast.

Zhou Hao knew that the mutant Wolf boss was a c-Class demonic beast. Under normal circumstances, it was no match for him, and he could easily deal with it.

However, when he encountered big head's previous situation, which was also a lesson learned from the past, he no longer dared to think this way.

Bighead's situation would definitely happen again in the future, and it might be the same now.

So now he knew what he should do, and how special the thing he was doing was.

It was fortunate that he was stronger before, or else he would have died long ago.

After learning from his previous experience, he began to be careful. He had even thought of his own attack. When he attacked, he would still have enough space to escape.

As he attacked, he was also looking for an opportunity to escape from this place. He had to do this.

Before he could fully determine the strength of the mutant Wolf's boss, he could only be careful now.

Now, he had a Princess and a friend by his side. No matter who it was, they were both people he needed to protect.

This was like a responsibility. Now, he wasn't just thinking about the spicy chicken. He naturally had to consider more.

He hadn't thought about it enough. To be more precise, he was thinking about not letting himself do what he wanted to do.

Since he couldn't do any of this, he now roughly knew what he should do next. After he was clear about his plan, he felt that he had to make a decision.

Zhou Hao had used this method.

"Human, I misjudged you. I thought you were some powerful being, but now it seems that you're just a cowardly rat!"

Boss Wolf said after laughing for a long time.

The rest of the mutant wolves behind him also started to mock him.

"You dare to fight with our boss with this little ability? you're overestimating yourself!"

"With your abilities, even if I were to take action, I don't think you're my match, let alone my boss!"

"I think it's better for you to go back and get your mother to protect you. Otherwise, when our boss wins later, you'll cry and ask your mother to protect you!"

The wolf underlings were all laughing now, but they were all hiding daggers in their smiles.

In fact, regardless of whether they won or lost, they had no intention of letting Zhou Hao and the others go. They were planning to wait until they were defeated and then swarm them all.

For the mutated beasts, this was the best way to improve. As long as they ate Zhou Hao, their power would definitely increase.

How could they miss this opportunity to increase their strength?

Zhou Hao naturally knew that this was a life-and-death battle. However, he did not take it seriously.

As the battle went on, he had roughly analyzed boss Wolf's strength.

The result of the analysis was that this boss Wolf's strength was not as good as his, and he was slightly inferior now.

Boss Wolf was not as good as him in terms of physical advantages. After analyzing the current situation, Zhou Hao immediately came up with a battle plan in his mind.

When this battle plan came out, he had already thought of a plan to defeat boss Wolf in front of him. This plan also meant that it was only a matter of time before he defeated boss Wolf.

With this plan in mind, Zhou Hao's lips curled into a smile. It would be much easier to solve the problem after this, and it was better to be prepared.

What are you laughing at, human? do you think that you can defeat our boss with your trashy body?

"Kneel down and apologize to our dead companions. Otherwise, die!"

"If you don't want to die, then kneel down immediately!"

The wolf underlings also saw Zhou Hao and smiled contemptuously.

Suddenly, these Wolf underlings were inexplicably furious. They just wanted to cut this human who looked down on them into eight pieces and swallow him.

Boss Wolf was also annoyed. He could also feel Zhou Hao's contempt.

Zhou Hao looked at boss Wolf in front of him with a playful look, then raised three fingers.

“I’ll definitely defeat you within three moves!”

Boss Wolf sneered and said that it was wishful thinking. It was impossible to defeat him in three moves, not even thirty.

From the beginning until now, Zhou Hao could not even make a move. He had been on the passive side, so in boss Wolf’s eyes, Zhou Hao was definitely not his match.

However, what boss Wolf didn’t know was that Zhou Hao had only been testing the waters.

Zhou Hao had only used 70% of his strength, and he still had 30% left.

He was just testing the waters before this to find out how strong boss Wolf was. To Zhou Hao, strength was his trump card.

Now, Zhou Hao already knew boss Wolf’s trump card. He knew himself and his enemy, so he would not lose.

He had been waiting for this moment.

In fact, it was the same before. After understanding this, he roughly knew what he should do now.

He could do other things, but they would all fail in the future. So, he didn’t want to do this now.

He also knew what he should do.

Chapter 1078

Chapter 1078: Mutant Wolf Pack

“Raging Flame Slash!”

As Zhou Hao leaped, a Flame Slash was also activated and swept out towards boss Wolf.

This was also a mutant demonic beast. Suddenly, the mutant Wolf boss's eyes flashed with surprise. He probably didn't expect that he was facing an ordinary human.

Finally, boss Wolf realized that he had underestimated his enemy. He also knew that he couldn't just use his previous strength now.

Therefore, boss Wolf became even more serious than before. However, he didn't know that being serious at this time wouldn't help.

Because this was no longer a gap that could be made up for by being serious. After Zhou Hao burst out with his strength again, his speed immediately increased.

This time, boss Wolf quickly fell into a passive position. Even struggling became difficult.

"Dammit, how could it be like this!"

Boss Wolf also realized that his current skills were still his speed or his attack. It was as if there was an invisible chain now, and he was restricted in all aspects.

For such a situation to occur, it could only be because his strength was not enough and his skills were not as good as others. That was why he was in a tight spot.

However, boss Wolf still couldn't believe that Zhou Hao was a human. How could he be stronger than them?

Not only was his body stronger than theirs, but his speed was also faster than theirs. Suddenly, boss Wolf knew that it would not be easy for him to solve this problem.

"Damn it, how did this happen?" suddenly, boss Wolf knew that it was not as easy as he had thought to solve this problem and leave this place.

However, boss Wolf also knew that the coaching team was destined to fall into a difficult battle when they chose to fight. He also knew that it was impossible to leave this place now.

Moreover, boss Wolf knew that he couldn't retreat. Even if he could continue to live now, he would encounter more terrifying things in the future.

So, before that, he had to solve all the problems at hand. Only after solving these problems could he be considered the original Boss Wolf.

Although they were high-status mutant beasts with powerful bloodlines, they still maintained their original rules.

If they wanted to be the leader of the wolves, they had to win every battle. If he failed now, then the Wolf Pack would choose someone stronger than him to replace him.

But now, he didn't want to be replaced, so at this time, boss Wolf knew what this battle meant to him.

He couldn't lose now, so he had to win in the end. Only then could he secure his throne.

"Human, I don't believe that your physical body can defeat mine!"

Now, boss Wolf thought that his body should be on par with the human in front of him. Even if the human was very strong, he couldn't surpass him by much. Since he could compete with him, then he just had to hold on and find his weakness to turn the defeat into victory.

Before this, boss Wolf was already at a disadvantage. He knew that he would not be able to hold on if he continued to be passive. At this time, Zhou Hao's attacks were as fierce as a storm.

Fortunately, he still had an advantage. Otherwise, he wouldn't have been able to solve this problem at all. Now, he knew how special his current situation was. If he continued to be like before, he definitely wouldn't be able to settle this situation.

Therefore, boss Wolf thought that as long as he could find Zhou Hao's weakness, he would still have a chance.

So, boss Wolf began to get beaten up, all for the sake of finding his flaws. However, he did not know that Zhou Hao had already seen through his thoughts.

Zhou Hao noticed that boss Wolf was starting to retreat. He knew that boss Wolf must be thinking of some sinister trick. These animals were like that. Once they found the opportunity, they would launch a fatal blow.

If Zhou Hao was still a newbie and had not seen the world, he would have fallen for the trick. Unfortunately, Zhou Hao had seen all kinds of storms and waves, so how could he not have mentioned this?

Boss Wolf didn't know that his opponent was also trying to figure out his thoughts. He thought that as long as he was prepared, he could solve the problem in front of him.

However, he did not know that Zhou Hao had seen through him. From head to toe, he had no secrets to hide.

"Boss Wolf, your little tricks don't work on me. If you think you can deal with me with those insidious tricks, then you're really ridiculous!"

Zhou Hao's words left boss Wolf in a daze.

He was indeed confused. Boss Wolf didn't expect that his thoughts would be known.

Boss Wolf did have spiritual intelligence, but it was just like a normal seven or eight-year-old child. How could he know how high a person's IQ was?

In boss Wolf's eyes, Zhou Hao was not much different from him.

Moreover, boss Wolf had no idea what intelligence was. He only felt that it was unbelievable, and he looked at Zhou Hao as if he was looking at an alien creature.

Zhou Hao found it funny. He had already said so much, but this Wolf was still so stupid that it didn't understand.

He also found it funny because he was alone now. He shouldn't have said such things to an animal.

However, he had already said it and he couldn't take it back. It was like saying something that was already said was like water that had been poured out.

"Hmph, human, I don't know what you're talking about. You're spouting nonsense and trying to be mysterious. Just watch how I peel off your skin later!"

Now, boss Wolf felt that Zhou Hao was just trying to be mysterious. As long as he did not understand it, it was all just an act.

Zhou Hao was speechless. This boss Wolf was really interesting. He actually thought that he was deliberately mystifying things that he did not understand.

It was really cheap to be the wolf boss. With such a brain, he became the boss. It was very dangerous here.

After all, it wasn't just these Wolf-like exotic beasts in front of him here. There were other exotic beasts as well. In this place, it wasn't just their strength that played a role, their intelligence played a role as well. They couldn't be underestimated.

In this place, if one had intelligence, they could live longer.

It was not easy for boss Wolf to lead an entire tribe to survive until now.

Zhou Hao didn't waste any more time. He just wanted to get this matter settled as soon as possible. Only after that could he continue to deal with other things.

"Boss Wolf, I think it's better for you to shut up if you don't know how to speak. If you don't speak now, I won't think you're mute!"

Zhou Hao said in all seriousness.

Boss Wolf was furious. He knew that Zhou Hao was trying to insult him for being brainless. In fact, he really didn't have any. However, Zhou Hao's words made him very angry.

It was like humiliating him. Boss Wolf only had one thought in his mind, and that was to tear Zhou Hao into pieces.

"You're very strong, but I don't believe you can really defeat me. Die!"

Chapter 1079

Chapter 1079:-seizing territory

The mutant Wolf boss pounced at him, but in Zhou Hao's eyes, it was in slow motion, and it was impossible to catch up with it.

At that moment, Zhou Hao also felt that the originally interesting battle had become dull. He wanted to end the battle as soon as possible.

Zhou Hao shouted in a low voice. He bent his body and ran to a specific place to wait, then accumulated his strength and waited.

The mutant Wolf boss thought that it couldn't avoid it, so it was secretly happy and felt that its continuous attacks were useful.

However, in the next moment, the mutated Wolf boss felt a sense of danger in its heart. It immediately knew that it was in danger.

"Damn it, I've been tricked, you cunning human!"

Boss Wolf wanted to stop immediately, but he was too fast. His body was already rubbing against the ground, and he couldn't stop even if he wanted.

In the end, boss Wolf collided with Zhou Hao, who was the one who launched the attack.

However, Zhou Hao wasn't only using his body to resist the attack. He still had the flame cut in one hand. The closer he got, the more powerful the attack would be.

Aowuu!

Boss Wolf was horrified and wailed in pain. He felt as if his body had been pierced.

Seeing that boss Wolf had stopped moving, Zhou Hao retracted his hand.

“It’s done. You can go and settle the rest. After that, I think we need to take over the rest of the territory. I have a plan now. I think if you can cooperate with me and complete it, we can achieve unprecedented improvement!”

Zhou Hao pondered for a moment and decided that since he had nothing to do recently, he might as well conduct an experiment.

In the scroll he had obtained before, there was an ancient cultivation method that was similar to substitution. As long as one could absorb the blood of these mutated demonic beasts and fuse it with one’s body, one would be able to continuously become stronger.

However, he had not been able to completely fuse them before. At most, he could only unleash one-tenth of his power.

Now, he thought that he might be able to improve more through the methods he currently knew.

“Boss, you should have told me earlier. If you had told me earlier that you would lead me to do great things, I wouldn’t have to always sleep in. What I did before was really too boring!”

The gray-haired man was immediately in high spirits. Right now, his favorite thing to do was to fight for territory. He was already strong enough, but he still lacked a place to practice.

Now, as long as he had this boss following him, it would be much easier to solve this kind of problem in the future.

“This matter is not easy to deal with. I will go with you. However, if we encounter some special circumstances on the way, we can not act rashly. After all, we are outsiders now and there are many things that we don’t understand. If we violate some taboo, we will be in real trouble!”

Zhou Hao thought about what he had encountered before and suddenly felt a lingering fear in his heart. Fortunately, he was strong enough to escape from those things. Otherwise, he would have been in trouble.

Fortunately, he had done what he wanted to do at that time, so he had the spare time now.

The gray-haired man patted his chest and made a solemn vow. He said with certainty, "Boss, don't worry. If I encounter something that I can't handle, I'll definitely listen to you. Don't say such things in the future. I'll do whatever you want me to do!"

Jonina rolled her eyes. This gray-haired man seemed to have forgotten everything so quickly.

Zhou Hao didn't pursue this matter any further. The next day, they began to fight for territory. In fact, there were many demonic beasts who occupied the mountains and were Kings.

As the mutant beasts had occupied too much space, they had to be very careful when they went out. It would be fine if they were still like before.

However, this was not the first time he had done this. Zhou Hao thought that it would be much easier for him to snatch the territory after he settled these things.

Roar!

Zhou Hao brought the gray-haired man and Jonina to the front of a nest. A beast's roar came from inside. It was a giant mutated ape with three heads and six arms.

This was a rare bloodline mutant beast, and its combat power was at the top among most mutant beasts. It was one of the local tyrants here.

"Human, you're looking for death!"

After the gray-haired man lured the mutated giant ape out of its hole, Zhou Hao and Jonina laid in ambush outside, catching it off guard and launching a sneak attack from behind.

"Ah!"

The mutated giant ape cried out in pain. It was also a primate with intelligence similar to humans. Now that it saw this situation, it immediately knew that it had been tricked. Therefore, it wanted to escape from this place.

The gray-haired man immediately blocked the way back to the nest, while Zhou Hao blocked the way out of the mountain. Not only was the mutated giant ape intelligent, but it would also take revenge for the smallest grievance.

When the light shone on him, Zhou Hao knew that if he did not dare to kill the mutated giant ape now, he would not be able to solve many things smoothly in the future.

Previously, there was still a group of people from the organization who had no intention of letting them go. If there was a mutated giant ape that could attack them at any time, it would probably become a very troublesome matter in the future.

Therefore, before that, Zhou Hao thought that he had to deal with the mutated giant ape now. It was useless to think about anything else now or in the future.

After doing all these well, he could do more in the future.

Zhou Hao immediately used his Flame Slash to continuously attack the mutated giant ape, giving Jonina and the gray-haired man a good chance to practice.

“Boss, this meat is really hard!”

Jonina’s fist smashed into it, and her eyebrows twitched. Her fist was red and swollen, but the mutated giant ape was not injured.

The wounds on the bloody area were all caused by Zhou Hao’s Flame Slash.

‘Damn cunning humans, I won’t let you go. I definitely won’t. Just you wait, once my big brother finds out, he’ll definitely help me kill you. ‘

The mutated giant ape roared angrily without pausing. As it spoke, it was constantly brandishing its fists in an attempt to attack Jonina and the gray-haired man.

“As expected, it’s still too forced?”

Seeing that Jonina and the gray-haired man were unable to hurt the mutated giant ape, Zhou Hao knew that he had to deal with the ‘kindness’ on his own.

Hence, Zhou Hao could only choose to attack. This time, his raging Flame Slash directly dismembered the mutated giant ape.

“Boss, you’re awesome!”

Chapter 1080 - A choice

Chapter 1080: A choice

Jonina had learned how to speak some local language. She gave him a big thumbs up, full of admiration.

The gray-haired man was very envious. He thought that it would be great if he had such a powerful skill and strength. That way, he could also become a Ranger.

In this universe, there were many teams, and there was also a game where one would always be alone. That was the dream of many powerhouses.

It was just that the conditions to become a Ranger were very harsh. The test of strength was already difficult for countless people.

The gray-haired man could only be envious. He thought that if he wanted to become a game, he had to become as strong as Zhou Hao.

However, he had already witnessed Zhou Hao's power from the beginning, and now he felt that he could only watch from the back.

"Bring the corpses of the mutated giant apes with you. I'll tell you how to improve your bloodline when we get back!"

When Zhou Hao said this, Jonina and the gray-haired man's eyes lit up.

They had long known that this boss would teach, but they didn't expect it to be brought forward.

"Yes, boss!"

Not long after they left with the corpse.

From the forest, more than a dozen people came out. They were all wearing the same silver uniform. If Zhou Hao was here, he would definitely recognize these people.

The leader, a middle-aged man with a square face, looked at the broken corpse of the mutated giant ape with pity.

"What a pity. Without a complete corpse, the value of this item is much lower!"

The square-faced middle-aged man said to his assistant.

"Go and collect all the blood for me. Also, send someone out to find another team. Whether they are alive or dead, we must find them. We will return in a month!"

“Captain,” the Deputy immediately said, “I’ll bring some people over to look for it. I’ll definitely find it for you!”

With that, the Deputy left with his underlings.

Zhou Hao did not know what happened after that. He asked the gray-haired man to bring the mutated giant ape’s corpse back to their residence.

Zhou Hao also made a few wooden barrels and gave an order, “In the following period of time, after your training, use the blood of the mutated giant ape for your training. I will help you dilute it once. After that, without my permission, you must not withdraw halfway!”

The gray-haired man said excitedly, “boss, I’ve followed you for so long just for this moment. I know what to do. I definitely won’t let you down!”

Right now, Jonina was beginning to feel conflicted. She was looking at the mutated giant ape’s blood with great disdain.

The mutated giant ape’s blood was different from human blood. It was like mud and looked very dirty.

“Boss, can I stop training now?”

Jonina couldn’t help but say. Her face was filled with reluctance and regret.

If it was before, Zhou Hao would definitely agree. However, they had already started, and now there was no turning back.

“Jonina, if you still want to continue being a high and mighty Princess, then I think we’ve reached the end of our path. You can go back now!”

Zhou Hao immediately turned hostile. It was fine that Jonina had been willful before. After all, many things were small matters, and there was no need to be so harsh.

However, this was no small matter. It was still the same now. After this, Jonina would not be able to truly grow.

At this time, Jonina had his protection, but once her wings were fully grown, Jonina would always have her own sky.

This was something they should have known when they came out.

“Boss, I just wanted to discuss it with you. I didn’t mean it that way. I want to replace it with the blood of an exotic beast, is that okay? or should I say that I’ll do as you say after it’s diluted!”

Zhou Hao thought that he might have been too harsh. After all, Jonina was still a girl. It would be too much for him to ask her to accept such a thing.

However, when he thought about how he had survived and what he had encountered, Zhou Hao was determined again.

His thoughts must not be wavered. He really did not want to repeat the same mistakes that he had encountered before.

“Jonina, I understand how you feel now, but I hope you can understand me as well. If it wasn’t for the fact that I had no other choice, I wouldn’t have let you do this!”

Zhou Hao could only continue to persuade her.

At this point, it seemed like Jonina still had something to say, so Zhou Hao chose to remain silent.

Now, Zhou Hao knew that it was meaningless to say anything more, so he kept his mouth shut.

“Alright, I’ll try!”

Jonina’s brows furrowed. After a moment of hesitation, she chose to compromise.

The reason why Zhou Hao wasn’t going to spoil Jonina was because he had put in a lot of effort, so that Jonina could truly grow up.

Seeing that he had managed to convince Jonina, Zhou Hao finally felt as if a heavy burden had been lifted off his shoulders. He felt that it had not been easy for him to be the boss.

For the rest of the day, Jonina resisted, but when she thought about what had happened before, she still chose to enter the wooden tub and soak her body in it.

“Ah!”

When she entered, Jonina’s eyes were wide open. To her horror, she realized that the blood could burn her body, and the pain was unbearable.

Jonina couldn’t help but admire her boss even more. How did he manage to survive?

What Jonina didn’t know was that Zhou Hao had never suffered like this before. He had thought for a long time and couldn’t think of any good ideas, so he came up with this plan.

Of course, Zhou Hao would not tell them that he had not suffered before. Now, he wanted to use this method to let them truly complete a transformation.

“Boss, am I already dead?”

When the gray-haired man entered the bath, he also screamed and fainted several times within an hour.

When he woke up, the gray-haired man felt as if he was being tortured. It was so painful that he wished he was dead.

Zhou Hao felt that it was a little too much, so he told them his thoughts.

“How about this? you guys go hunt those Ultra Beasts first and advance to late-stage C Class. You can start training after you’ve advanced!”

Zhou Hao mulled it over for a while before coming to this decision. He really had no other choice now.

If they hadn’t done so, they would probably have died.

“Boss, I can hold on. Just you wait, I’ll definitely make you look at me in a new light!”

However, to Zhou Hao’s surprise, the person who he had thought would be the first to come out, Jonina, had chosen to persist.

“Come out. I’ll continue to think of ways to improve in the future. This one can’t do now. I’ll continue to think of a suitable one!”

Zhou Hao chose to tell the gray-haired man to give up now.

The gray-haired man was gritting his teeth and had no intention of coming out.

Zhou Hao could immediately tell that he would not be coming out for a while.

Chapter 1081 - -unworthy of the name

Chapter 1081:-unworthy of the name

“Since you’ve already made up your mind, I have nothing more to say. You can train like this. If you really can’t hold on, come out. I’ll go find some food for you!”

Zhou Hao went to the mutated giant ape’s territory. After killing the boss, they had a larger area of activity.

Now that big head was able to move around freely with him, it was much easier to find prey.

In the past, they could only hunt when they were alone, but now, they could hunt as long as they saw it.

Whoosh! Whoosh!

As the flame Slash in his hand was sent out, a four-winged mutant Green Sparrow was successfully killed by him. It was quite big and had a rare bloodline.

After killing them and bringing them back, they would be able to have a full meal and improve their blood in a short period of time. It could be said to be rare.

When they returned, the gray-haired man had also come out of the wooden bucket.

However, what surprised Zhou Hao was that the princess, who was supposed to be physically weak, was still in the wooden barrel.

This was beyond his expectations.

“Boss, Jonina is too strong, I can’t compare to her!”

The gray-haired man admitted defeat. This was the first time he had discovered that a woman could have such a strong side.

He couldn’t do it now.

“Jonina, that’s enough. It’ll be useless if you stay here any longer. I’ll prepare a new Bucket of Blood for you guys later. That’s all for now!”

Seeing that the blood in the wooden bucket was getting thinner, Zhou Hao shouted at her.

Only then did Jonina stand up. She first went to the lakeshore to wash herself clean, then returned to her residence to change into a new set of clothes.

Jonina was surprised to find that not only had her power increased, but her skin seemed to have become better as well.

All women loved beauty, and Jonina found that her skin was as white as a newborn baby's, and she was very happy.

After Zhou Hao finished roasting the food, he gave it to Jonina, and then assigned them their next tasks.

"Boss, you're saying you want us to act alone?"

When he heard this plan, the gray-haired man thought he had heard wrong. No wonder he had such a reaction.

Although they had become stronger, they were still individuals and were still weak here.

But now, this boss was actually letting them carry out the mission alone. This was simply sending them to their deaths.

"I know you don't understand my current arrangement, but I don't need your doubts now. Didn't you always want me to tell you the trick to becoming a Ranger? if you can settle this matter now, I'll tell you!"

After hearing Zhou Hao's words, the gray-haired man immediately became excited. This was something he wanted to know even in his dreams.

"Boss, I'll definitely complete the mission!"

Jonina also agreed without hesitation. She didn't expect that the unruly and disobedient Princess would become so obedient.

Zhou Hao felt that everything was too surreal, as if he was in a dream.

"Don't worry when you go tomorrow. I'll follow you. I won't let anything happen to you!"

Zhou Hao said to the two of them. This was considered a calming pill for them.

The next day, when the sun was high in the sky, Zhou Hao called the two of them to the area where the mutated giant ape had been active before it died.

Although the mutated giant ape was dead, there were still many powerful mutated beasts out there.

Now, it had become the most suitable training area.

The gray-haired man was still a little nervous when he entered. In many ways, he was not as good as Jonina. Zhou Hao immediately knew that he had made an error in judgment.

This Princess didn't seem to be as bad as the rumors said. She definitely had a secret. Although he didn't know what it was, it was definitely not true.

"Jonina, relax. Believe in yourself. You're more than enough to deal with these D-class mutated beasts!"

Jonina was surrounded by a group of mutant beasts, and now she was suddenly nervous, and at a loss.

Actually, it wasn't that Jonina really didn't have a solution, it was just that Jonina had returned to the time when she was surrounded by mutant beasts. If it wasn't for her own guards, she would have become a delicious meal for the mutant beasts.

Jonina's breathing started to Quicken, her chest moving up and down, and she made a lot of mistakes in her movements.

Before, Jonina was already well-trained, but now she was like a newbie.

It turned out that Jonina would never make such a low-level mistake. Zhou Hao felt that he had to help her now.

"Jonina, look. I'll only teach you this once. You'll have to deal with the rest on your own!"

Zhou Hao had no choice but to demonstrate it again. Now, he had started his own battle. In order for Jonina to regain her grasp of the same battle technique, he had deliberately slowed down his speed.

Even so, he could still kill them easily, not a single one of them could escape.

Only now did Jonina recover. In the next moment, her eyes turned sharp, and she charged forward as if she had become a completely different person.

Roar!

These mutant beasts probably saw that Jonina was easy to bully, so they did not dare to fight Zhou Hao and ran to find Jonina.

In the end, all of them had become ghosts under Jonina's blade.

Jonina was actually not used to it. After killing the first beast, the subsequent ones were much easier to kill.

It turned out that her boss had not lied to her. It was really easy to deal with the mutant beasts now. It was just her first time doing it, and she liked it now.

“Boss, thank you!”

Jonina was extremely touched. If she hadn’t met her boss, she probably wouldn’t have had such an experience in her life.

“Mm.” Zhou Hao replied. He did not say much because he did not want to continue stirring up emotions.

Right now, he just wanted to settle this matter as soon as possible. This was only the first step of his improvement. There were still other things to do in the future.

This wasn’t enough. He had to do other things well. Although this was only the beginning, it could also be the end.

Therefore, this one step alone was not enough to let them achieve a true transformation.

“Go. Believe in yourself. You can do many impossible things. You can create miracles!”

Zhou Hao now felt that being a life mentor was not a bad feeling. He was filled with a sense of achievement.

Jonina nodded her head heavily, then turned around and charged into the circle of mutant beasts like a Wolf charging into a flock of sheep.

Chapter 1082 - A test between two people

Chapter 1082: A test between two people

However, to be precise, it was not the mutant beasts that surrounded Jonina, but Jonina who surrounded the mutant beasts.

It could be said that this was a one-sided massacre by Jonina. Wherever she went, there were mutant beast corpses.

Although the level of these mutant beasts was not high, they were enough for Jonina to practice on.

The next few days were for Jonina to practice.

Later on, Jonina felt that it was too easy to kill these mutated beasts here, so she took the initiative to increase the difficulty and went to another area to practice.

She had killed many mutated beasts, and because of her decision, she had indeed improved a lot.

However, this was not enough for now. Zhou Hao took them to carry out the mission he had thought of.

Zhou Hao said to the two of them solemnly when they arrived.

“This time, your lives may be in danger. If you find that the situation is not right, you must come out alive. Remember, you must come out alive!”

When he said this, Zhou Hao thought that it was the only thing he could say. It was useless to say anything else.

Only Jonina and the others could decide if they would be in danger if they did the right thing. That was all they could say for now.

It was useless to say more. He had already said what he needed to say. This was what he should do as a boss.

“Boss, don’t worry. After I go to that base, I won’t cause you any trouble. I will do as you say and I promise to complete the mission!”

The gray-clothed man said with confidence.

Zhou Hao didn’t continue. They were now close to the area they wanted to get close to. When they got closer, they could no longer see any mutant beasts.

There were a few powerful soldiers guarding the base, and the mutant beasts would not dare to come close. The fact that these soldiers were able to occupy this place meant that they were well prepared.

“Go in, I’ll be waiting for you outside. If you encounter any special things, you can leave them to me and I’ll help you solve them. You don’t need to think about the rest. Just do what you need to do now!”

After Zhou Hao finished speaking, he patted his big head and went to a place to take care of the situation here.

The gray-robed man and Jonina nodded, then rushed in at lightning speed.

They were very fast, and because it was night time, the soldiers inside did not notice them.

After the man in gray went in, he successfully killed a few guards and obtained a lot of potions from inside. These potions were important research results.

On the first day, both the man in gray and Jonina succeeded, and they both obtained some results. This was something that Zhou Hao had not expected.

When Zhou Hao received the results, he was stunned. He even felt that it was unreal.

It had only been a short while, and he had already improved so much. This made Zhou Hao feel a little incredulous.

“You’ve all improved quite well. Continue. I’ll increase the difficulty of your missions tomorrow. It doesn’t matter if you can solve it or not. The important thing is that you must do it!”

Zhou Hao could only continue to wait. However, things did not go so smoothly on the second day.

To be precise, the base seemed to be prepared. When the man in gray entered, he saw a few guards rushing out, as if they had been waiting for an opportunity.

Not good!

The man in gray immediately turned around and ran out. At this time, he did not dare to face them head-on. Although these people were not strong, they had some powerful equipment that could hold them back.

However, his current mission in this place was to solve the problem and leave. If he continued to be entangled in this, it would be difficult for him to leave.

“Get lost!”

The man in gray immediately burst out with his strongest combat power and used his fist to hit the guard in front of him.

The guard couldn’t believe it. He probably didn’t expect to meet someone who could surpass them in combat power in this place.

The guard immediately called his other companions and began to surround the man in gray.

The gray-robed man’s heart was burning with anxiety. He didn’t have much time left and had to leave as soon as possible.

These guys actually wanted to surround him right now. This was truly a ruthless move.

However, he was no longer the same person as before. It would be difficult for him to stay.

“Hmph, the boss was right to ask me to be careful. You guys are really cunning. Fortunately, I have already improved. Otherwise, I might have found your way!”

The man in gray kept jumping, using his enhanced jumping ability over the past few days. It didn't take long for him to jump out of the encirclement, and he decisively opened up the distance between them.

This was not enough. The distance could still continue to expand. Only when the distance was large enough would he be able to retreat completely.

“Don't let him get away. This guy has the top abilities of a mutated beast. If we catch him and sell him to those guys in the Federation, we'll definitely get a good price!”

The captain of the guards saw how high the man in gray jumped, and his eyes lit up as he said excitedly to his men.

In fact, there was one more thing that the captain didn't say, which was that the man in gray was the best test subject in their base.

The gray-robed man's expression changed slightly. He did not dare to stay any longer. He could feel that he was in a very dangerous situation.

“As expected, without boss's help, I still can't do it ...”

The man in gray smiled bitterly. He suddenly realized that it would not be easy for him to escape.

Before this, he had thought that it would be no problem for him to escape unscathed. However, it was all in his imagination. Now that he had entered this situation and wanted to get out, he realized that it was so difficult.

Instantly, the gray-clothed man began to feel a little anxious.

It was also because he was anxious that he revealed a flaw.

“Catch him!”

It just so happened that one of the guards on the opposite side had successfully hit him with a taser gun.

Terrible!

Although the man in gray had improved, it was more in terms of his agility. He did not have Zhou Hao's powerful all-around physique.

The man in gray knew that he could not leave by himself.

He was in danger now.

"You're really careless, you almost caused trouble for boss!"

Just when the man in gray thought he was going to be caught, a woman suddenly appeared beside him and said in a disdainful tone.

"Jonina!"

Seeing this woman, the gray-haired man's face was filled with surprise and joy. He looked at Jonina as if he had seen his Savior.

Jonina just wanted to get out of this mess as soon as possible. She walked to the front and removed the electric net.

Chapter 1083 - Entering the base

Chapter 1083: Entering the base

"Hurry up and leave. I'll cover your retreat. I'll help you buy enough time!"

Jonina stood in front of them, not even turning her head.

The gray-haired man immediately got up and ran away. He would only be a burden if he stayed.

Seeing that the gray-haired man had already escaped, Jonina immediately turned around and followed him. It didn't take long for them to escape the encirclement of the base.

The captain was furious and wanted to reprimand his men, but at this time, a mysterious man in a mask walked out and said to them.

"We have to capture them. These few have already perfectly fused with the blood of exotic beasts. They must be the greatest discovery. As long as we capture them, we'll

be able to unravel the secret of these genes. I want to see them alive, and I want to see their corpses dead!"

The mysterious man's eyes were burning as he said to the captain of the guards beside him.

The captain of the guards frowned. This kind of beast had already evolved into an exotic beast, so it wasn't just difficult to deal with.

"What, you're not willing to do it?"

The mysterious man also noticed the captain's abnormal behavior and said unhappily.

The captain of the guards shook his head and said,""It's not that I don't want to, but if I bring people to chase after them, I'll probably pay a very heavy price. I think I need to consider this carefully!"

The mysterious man said indifferently,"If you're worried about not having enough money, then you can rest assured. I promise you, as long as you help me settle this, I'll provide my latest blood serum for your team to use!"

The captain of the guards immediately said with certainty,""I'll definitely help you catch them!"

In fact, this was the guard captain's true thoughts. He wanted the serum that they wanted now.

He followed this mysterious man from the Milky Way Federation to this place. The reason why he was willing to lead the team was for the sake of the serum.

As long as they had the serum, their combat power would be greatly improved. Even if they could not fight against the top mutant beasts in the future, they would at least have the ability to protect themselves.

This was something that many Warriors dreamed of. Now that he finally had the chance to obtain it, how could he miss it?

"Go, the faster the better!"

The mysterious man said.

The guard Captain immediately mobilized the guards in the base and began a thorough search.

Zhou Hao and Jonina, who had escaped, did not return to their previous residence, nor did they return to the area they had previously controlled.

Zhou Hao and Jonina's minds were still on the base. They wanted to destroy the base, but the captain of the guards had been there before, so it was not easy to do so.

Now that he had successfully left, Zhou Hao knew that it would be much easier to destroy the research base.

Of course, he also knew that there was a time limit, so before the captain of the guards found out, they had to get everything done.

"Jorina, after we enter, go and find the experimental potions. The more valuable, the better. It's best if you can get me the core secrets. Once you get them, you'll have completed your mission!"

After giving his orders to Jonina, Zhou Hao continued to give orders to the gray-haired man beside him.

"As for you, what you need to do now is very simple. Go in and distract the remaining guards. After you've distracted them, you'll be in charge of receiving Jorina. Make sure that Jorina's path of retreat will not be cut off after she enters!"

"Before you go, I have to tell you seriously that this is not just a test for you, but for both of you. You have to cooperate and complete it together. No one can give up on the other. If one of you makes a mistake, the test will be a failure!"

Hearing this, the gray-haired man and Jonina both frowned. This wasn't just a slight increase in difficulty, it was making the already difficult quest even more difficult.

"Alright, boss!"

They knew that it would be difficult to solve this problem, so they chose to continue with the test.

Although it was very difficult this time, it was nothing compared to the previous missions and experiences.

"Who are you?"

Zhou Hao was waiting at the outermost area. He and big head were waiting there now, and no one would find out. There were many exotic beasts here.

After the gray-haired man entered, he immediately lured the guards away, buying Jonina enough time.

One of the guards saw the gray-haired man clearly. He was actually the one they had chased before. He was instantly excited.

“Quickly tell the doctor that the person we want to capture has appeared at the base, quickly!”

The vice-captain said to the guard beside him in a hurry.

Soon, the doctor came out with his men, but the gray-haired man had already run away.

“Hurry up and catch him. You must catch him. This potion will belong to whoever catches him!”

The mysterious masked man took out a potion and said to the guards.

The guards' eyes turned red. This was the potion that they had been dreaming of. This potion could stimulate their potential.

It could give them the combat power to fight Ultra Beasts alone. They could also go and fight now, but it was only temporary and they wouldn't be able to hold on for long.

However, it would be different if they could get the potions from here. They could become Rangers in the future and become strong, independent people.

They didn't have a choice, so they could only become mercenaries. However, this kind of life couldn't satisfy their needs at all.

Therefore, they all wanted to use this opportunity to change their lives.

“Catch him!”

The vice-captain was fully armed and led all the guards, leaving only a few guards behind.

However, when they went out, they didn't know that they had been lured away.

Right now, Jonina had already entered the base while there were few people.

After entering, Jonina quickly found the most important laboratory in the research base. After entering, Jonina also quickly found what Zhou Hao had asked her to do.

“Isn't that easy?”

Jonina suddenly felt that Zhou Hao had been too strict before. This was a piece of cake, but now it was too easy.

It was as easy as blowing off dust.

However, thinking about it carefully, Zhou Hao had his reasons for reminding her. Zhou Hao would not say anything unnecessary.

Thinking back to what Zhou Hao had said, Jonina raised her eyebrows. She felt that it was very strange that she could get it so easily.

Jonina didn't think too much about it. Right now, she just wanted to leave this place as soon as possible. As long as she could leave this place, her mission would be completed.

This place always made her feel very uncomfortable. It was as if she was in a cage.

She didn't like this kind of place. She preferred to be free.

Just as she was walking out, an alarm suddenly sounded in the laboratory. The alarm went off.

Not good!

Jonina's expression changed. She finally understood why Zhou Hao had mentioned it so many times before. So that was what it was all about.

Only then did Jonina realize that there was a red line on the ground at the entrance of the laboratory. It was actually some kind of sensor device.

She didn't look carefully when she came in, so she didn't see it.

If he had seen it, this wouldn't have happened, and there wouldn't have been such a low-level mistake.

However, it had already happened, so Jonina knew that she had to leave. If she left now, she would have completed her mission.

"I was too careless!"

After avoiding a few of the guards, Jonina ran away as fast as she could. The guards were no match for her, but she wasn't sure if they had any other tricks up their sleeves.

Chapter 1084:-unable to escape

She had to leave this place as soon as possible. When she triggered the alarm earlier, she didn't have much time left.

Jonina was too careless. She didn't dare to stay any longer and immediately sped up.

"Catch this cunning little rat!"

The vice-captain of the base rushed over as soon as he heard the news. He also brought some guards who were also fully armed.

When the members saw Jonina's well-endowed body, their eyes burned with passion.

"She'll belong to whoever catches her!"

The vice-captain's lips curled up as he spoke to his team members with a perverted look. They had been here for many years in search of new materials for research, but this was the first time they had encountered such a top-grade beauty.

By saying this, he only wanted to stimulate the bestiality of these team members and make them work harder.

"You bunch of trash want to catch me? in your dreams!"

Jonina laughed disdainfully, thinking that even if she wasn't as good as her boss Zhou Hao, she wouldn't be so easy to capture, and she wouldn't be so easy to deal with either.

The vice-captain snorted and sneered.

"This is the M3 Galaxy's training base. Our most Advanced Defense is to guard against small thieves like you who take advantage of the situation. I'm telling you now, don't even think about leaving this place easily!"

Jonina's face changed. It was M3 Galaxy. It was said that it was one of the galaxies where mutant beasts were rampant. In order to survive for a long time, the people there were researching a defense base to resist the invasion of mutant beasts. It was the best defense mechanism so far.

In other words, it was impossible for her to get out now even if she wanted to. It would be impossible for her to escape.

Seeing how Jonina was panicking, the vice-captain Zhou Kang's smile became even more wretched. At the same time, his expression became serious, and he scolded, "Why aren't you catching her? a bunch of good-for-nothings. You can't even do such a small thing. I think you don't want to do it anymore!"

These team members weren't angry after being scolded. Instead, they were very excited. They were excited because they had this opportunity to be rewarded.

However, they didn't know that they had been sold and were only being used as cannon fodder.

That was because the current vice-captain, Zhou Kang, could tell that Jonina had trained well and was the type who was capable.

It would be too difficult to take down Jonina. They were only good at this kind of technology, but they were far from being good at this kind of battle.

These team members thought that they could try something new now, so they all pounced forward excitedly. In the end, they all naturally missed.

A few of them had fallen so hard that their teeth had fallen out, and they kept gasping.

But even so, it was only for a short while. They were already used to such small injuries. Very quickly, they adjusted their state of mind and pounced forward as if they had transformed into beasts.

"It's all my fault for not listening to boss. If only I was like boss and didn't mind the blood of those exotic beasts!"

Jonina made use of her speed to shake off the group of people chasing after her. She then found a place to hide.

Right now, Jonina was filled with regret. She thought that if she had followed Zhou Hao's instructions to increase her strength, this matter would have been easily resolved.

She just didn't listen, so she was helpless in the face of this kind of problem. Now, a sense of powerlessness welled up in her heart, and she almost wanted to stop breathing.

"Boss, I don't think I can go back!"

Jonina searched for a while, and found that the base was like a maze. Without the guards to lead her out, she couldn't find the real exit on her own.

Right now, Jonina was in complete despair. The first person she thought of was her boss, Zhou Hao. If only her boss was still around.

However, when she thought about what the guard had said earlier, Jonina was even more regretful. This time, the place they were entering was the denizens of the M3 star system, who were far ahead in this field of design. These people were unique in this field and were at the forefront of the most advanced batch.

It could be said that if the M3 denizens claimed to be second, no one would dare to claim to be first. Furthermore, the technology that was passed on from there could build a solid and indestructible base.

Even the strongest S-Class Ultra Beast couldn't break it.

Jonina thought that even if the boss came in, he might not be able to get out.

"Hurry up and find it! You must find this little mouse!"

Zhou Kang and his team members were now flustered and exasperated. They had almost caught him just now, but they didn't expect that he would still be able to escape, and now he was hiding.

The captain had not returned yet, so he still had a chance. Once the boss returned, the right to claim the throne would probably belong to his boss.

Zhou Kang had already made up his mind. After he captured Jonina, he wanted to enjoy her for a while. When he left the planet, he would find a buyer and sell Jonina at a high price.

Over here, there were many mercenaries who went to various star systems to carry out all kinds of missions. Most of them were on the move back and forth, and they rarely had time to touch women. Those mercenaries were like wolves and tigers. If they knew that there was such a beauty, they would definitely fight to buy her.

Zhou Kang was thinking that if he could sell Jonina for a good price, it would be best to get some energy stones. Then, he would not have to run around for the rest of his life. He could also have some fun first. It was the best of both worlds.

Did you find it?

But after these guards went there a few times, they still couldn't find it. They were all like headless flies.

"Useless thing, I'll go find it myself!"

Zhou Kang took the energy-powered hex rifle and searched carefully in the base. He licked his lips and swallowed his saliva from time to time, making a gurgling sound.

This was Zhou Kang's deliberate voice, in order to scare Jonina.

Zhou Kang had done this kind of thing in the past. He had tried it every time, and there was no one who was not afraid.

Jonina was indeed terrified. She was trembling in a corner.

However, Jonina didn't continue to run away. Instead, she made a decision. Before she was caught, she would first cripple the person she hated the most.

That person was Zhou Kang, who was currently searching.

"Little beauty, you can't run away. Come out and serve me comfortably. When the time comes, I can send you out of the base safely!"

Zhou Kang kept talking while swallowing his saliva. He was holding his hex energy rifle, ready to shoot at any time.

This type of energy rifle was specially used to deal with some soldiers.

It was also useful against mutant beasts.

Zhou Kang took a few steps forward and revealed a perverted smile. He saw a cute pink pendant around the corner.

This was the one that Jonina had been wearing.

Zhou Kang immediately determined that Jonina was hiding in the room in front.

Chapter 1085 - Jonina trapped

Chapter 1085:-Jonina trapped

"My little beauty, you can't run away. You'd better surrender obediently. Don't worry, as long as you cooperate with me, I'll be very gentle to you!"

Zhou Kang opened the door. Now, he felt that he already had a plan in mind. However, when he opened the door, he was stunned. There was no one inside.

Zhou Kang was about to leave when a voice came out of the room.

“You’re looking for me?”

Zhou Kang’s face turned pale with fright. He realized that the voice had come from behind the door. So this was why he couldn’t see Jonina. When he opened the door, Jonina had been hiding behind it. There was a space there that was just big enough to fit the petite Jonina.

By the time Zhou Kang raised his hex energy rifle and fired, it was already too late. A ghostly figure had already appeared in front of him.

Then, Zhou Kang saw that it was Jonina. She raised her foot and kicked down hard.

“Don ‘t!”

Zhou Kang was so scared that he screamed, but there was nothing he could do now. He could only watch helplessly as he was kicked.

The next moment, Zhou Kang felt a piercing pain in his mind, and he lost all feeling in his lower body.

“Ah!”

Zhou Kang let out a blood-curdling screech as his vision turned black, and he immediately fainted.

When Zhou Kang woke up, he still couldn’t stop pulling. When he realized that he couldn’t feel his lower body, he immediately knew that he had lost his original use.

It was all this woman’s doing! Zhou Kang was furious. His eyes were red as he stared at Jonina.

“You B * tch, I’m going to kill you!”

Zhou Kang wanted to make a move, but there was already someone in front of him.

Zhou Kang’s movements paused when he saw the person who had arrived. He did not dare to act rashly and could only choose to swallow his anger for the time being.

This person was Luo Xingyu, the captain of their base.

“You can’t touch him now!”

Luo Xingyu also knew that Zhou Kang’s lower part was useless now. He hated this woman to the core, but now he felt that Jonina was still of great use.

When Luo Xingyu was chasing after the man, he realized that the man with gray hair had a powerful energy skill.

Immediately, Luo Xingyu was sure that this was what the lock was looking for. He made a prompt decision to come back and help with the arrest.

He couldn't catch the gray-haired man outside, but he had more than enough time to catch the people in the base.

To Luo Xingyu's surprise, Jonina had no intention of escaping.

Actually, it wasn't that Jonina didn't want to run, it was that she knew that even if she ran now, it would be useless. Sooner or later, she would still be caught because she was exhausted.

So, Jonina quickly made the decision not to run. She would stay here.

Anyway, the boss would find out sooner or later. Although she knew it would be difficult, she still hoped that the boss would come.

"Captain Luo, I can let this woman go now, but when she's useless, I hope you can hand her over to me!"

Now, Zhou Kang only had one thought in his mind, and that was to take revenge on Jonina in the most vicious way.

His lower part was crippled, and it was basically impossible to recover. It was completely gone.

Jonina's kick had concentrated all her power on it, and it had exploded.

Jonina was now sneering. Zhou Kang had brought this upon himself.

"Sure, but the doctor has already told us that this woman and her companions are the best Experimental materials. We've found them before and now they're the only ones we have. Before the doctor gives permission, you must not touch them!"

Luo Xingyu's words were not just a warning, but a threat.

Zhou Kang gritted his teeth. He wanted to tear Jonina into pieces right now, but he still restrained his thoughts of revenge.

It was said that this professor came from a powerful Nebula. He was a depressed professor. Although he was depressed, he had a special identity and had many resources that their entire Galaxy couldn't provide.

If they didn't cooperate, the doctor had a thousand ways to kill them.

The only thing they could do now was to cooperate. Only by cooperating well would nothing else happen.

"You'd better stop dreaming about escaping from here. We all know what your companions are thinking right now, but if they dare to come, they won't be able to escape from this inescapable net. This is the doctor's Best work, specially designed to deal with people like you, so you'd better enjoy your life for the next few days!"

On the other hand, Jonina was disdainful. That boss had defeated many superpowers and was still safe and sound.

Although the base was impregnable, it would not be a problem for the boss to open it if he used his strongest trump card.

And so, Jonina was temporarily locked up.

Outside.

Zhou Hao and the gray-haired man had already received the news.

"We're in trouble now, boss!"

Zhou Hao looked at the base and felt a headache. He thought for a while but could not think of a solution. It was a headache.

Zhou Hao had also seen the badge on their uniforms. Only the M3 Nebula had it. Zhou Hao had never thought that he would encounter the legendary strongest base here.

Zhou Hao rubbed his brows. He couldn't think of anything now, but she didn't plan on giving up on Jonina.

They had gone through a lot from the past until now, and there was already a bond between them. Now, he would not do something that only heartless people would do.

Zhou Hao could only start thinking of a solution with the gray-haired man. Even if they had to rack their brains, they had to come up with a solution. As long as they could come up with a solution, the rest would be easy to handle.

"Boss, how about this, I'll go to the front and help you lure them away, you go in and save them!"

The gray-haired man thought for a while and came up with an idea.

Although this was a good idea, Zhou Hao decisively rejected it.

“No, if something happens to me when I go in, I’ll have to die again. I can’t take this risk!”

It wasn’t that Zhou Hao was afraid of death, but he didn’t want to do such a risky thing. However, he couldn’t do what he wanted to do, which would lead to an early failure.

The gray-haired man was worried, but there was nothing he could do about it.

Zhou Hao rubbed the space between his brows. He was at his wits ‘end. He had thought that his advancement would be smooth after he came here.

He had never thought that he would meet such a group of people during this period of time. This situation was something he had never expected.

If he wanted to solve this problem from this place, it would be even more difficult than the things he had encountered before.

However, he could only think of a way to get out now.

Just as Zhou Hao was at his wits ‘end, he suddenly felt a flash of inspiration in his mind. He had an idea in an emergency.

Chapter 1086 - Only success is allowed

Chapter 1086: Only success is allowed

?

He thought of a solution because he suddenly discovered a skill that the gray-haired man could use recently. At other times, the gray-haired man’s skill could be said to be a very powerful skill.

This skill was like a hamster digging holes in the ground. It wasn’t very useful in normal times, but it was very useful in this situation.

“Can you use that skill of yours?”

Zhou Hao asked hurriedly.

The gray-haired man was stunned for a moment, but he quickly understood what she was saying. His face was filled with joy.

“Why didn’t I think of this skill!”

The gray-haired man quickly said that it could still be used.

“Let’s go. We’ll use this method to save her. We can only succeed, we can’t fail!”

The next day, Zhou Hao prepared a big gift for the gray-haired man to bring.

“I’ll lead them away for you, and you’ll act according to the situation later!”

Zhou Hao said to the gray-haired man solemnly. He had no choice but to say this because he could not afford to fail.

If they failed now, there would be no second rescue attempt, which meant that Jonina would be trapped in the base forever.

“Don’t worry, boss. I’ll definitely succeed!”

The gray-haired man made a solemn vow. In fact, even if Zhou Hao had not said so, he would have used his full strength now.

The two of them had a clear division of labor and began to act separately.

Zhou Hao’s appearance in the base’s territory quickly attracted the attention of the base guards, who immediately swarmed out.

They already knew that Zhou Hao was the strongest and the one they wanted to capture the most.

After Zhou Hao escaped, it was like looking for a needle in a haystack. They could only give up when they realized that they couldn’t catch him.

Now that Zhou Hao had reappeared, how could they let go of such a good opportunity?

“Catch him!”

Doctor Mystic was the most excited and chased after him with his guards.

Zhou Hao had deliberately waited for them to get closer before he started to run. He just wanted to distract these people.

This way, it would be much easier for the gray-haired man to save people when he entered.

The gray-haired man had already dug a hole. After searching for a long time, he finally found the best way to enter the base.

The gray-haired man went in easily. This kind of base was only a temporary base. The top was built with the strongest special titanium alloy, and the bottom was made of ordinary metal, which became the weakest area.

The gray-haired man sneaked into the base and quickly found the place where Jonina was being held.

“Why are you here? where’s the boss?”

Seeing the gray-haired man, Jonina was both surprised and happy, and she hurriedly asked.

The gray-haired man had started to move, so the boss must have started to move as well.

“Boss is responsible for luring the people away from the base. I don’t think you’ll be able to see them for a while. Let’s go. Leave as soon as possible. It’s not good to stay here for long!”

Jonina made a sound of agreement. Right now, she needed to leave as soon as possible.

Just as the gray-haired man was about to leave, he suddenly saw a person in front of him with a sinister smile on his face.

This person had appeared out of nowhere and was pointing a hex energy rifle at him.

Not good!

The gray-haired man wanted to Dodge, but it was too late. Zhou Kang had already pulled the trigger of his hex energy rifle.

The gray-haired man’s shoulder was shot, and his flesh was instantly mangled and blood flowed out.

“You’re looking for death!”

Jonina was furious. She didn’t think that Zhou Kang would find out and even hit the gray-haired man.

Jonina immediately threw a punch, and then a kick.

However, it didn’t hit, nor did it sweep, Zhou Kang dodged it.

“Quick, bring some people over immediately. I’ve found them!”

Zhou Kang took out his communication device and said to the guard on the other side.

However, Zhou Kang was soon stunned. He found that there was no response from the other end of the communicator.

That couldn’t be right. Even if the guards in the base had gone out to work, there should be at least one of them now. Why wasn’t there one at all?

In the next moment, Zhou Kang instantly understood what was going on.

Something important must have happened, so they were all taken away. Before this, whenever the professor needed them to do something important, they would all be taken away.

In an instant, Zhou Kang was embarrassed and didn’t know what to do.

Jonina, on the other hand, saw that something was wrong and immediately sneered. Zhou Kang definitely didn’t call anyone.

If Zhou Kang had called for help, he would definitely be very arrogant now, but now he actually showed his fear.

This was enough to show that Zhou Kang might not be able to find any help in the short term.

“You don’t have to do anything. Leave him to me. I’ve wanted to beat him up for a long time. Leave him to me. You just have to watch from the side!”

If they were very far away, Jonina would not have the courage to fight. However, they were not that far away.

At this distance, he could easily deal with Zhou Kang now.

“Dammit, how could it be like this!”

Zhou Kang immediately dropped the hex energy rifle in his hand. Now, he only wanted to escape from this place as fast as possible.

However, Jonina was even faster. She was like a leopard chasing after its prey, and in the blink of an eye, she had caught up.

It was already too late to leave.

Zhou Kang’s pupils shrank. He only knew that it was impossible for him to leave now.

“Don’t kill me. I can take you out. I can tell you the secret of the base. As long as you don’t kill me, I can take you to the core area of the base. There are good things there!”

Zhou Kang’s desire to live exploded, and now he said everything he shouldn’t have said.

Jonina, who was about to kill Zhou Kang, paused and asked, “What secret?”

Naturally, Jonina wouldn’t let go of such an opportunity to search for good things. In any case, there was still plenty of time to leave this place, so if she could take some good things now, it wouldn’t be a waste of time.

This time, he could complete the mission and destroy the base at the same time. It was killing three birds with one stone.

“As long as you promise not to kill me, I’ll tell you this secret right now. Otherwise, I won’t say a word even if I die!”

Zhou Kang only wanted to live, and Jonina agreed.

“Alright, I won’t kill you!”

Zhou Kang brought Jonina and the gray-haired man into the core area that Zhou Kang had mentioned.

In the middle of the room, there were a few test tubes with different potions inside.

When she got closer, Jonina was shocked to find that the power in her body was restless, as if it could break through the shackles at any time and rise to the next level.

No wonder Zhou Kang said that it was a good thing. It was indeed a good thing, and it was not an ordinary good thing.

He was only close to a breakthrough, and once he used it, he would definitely be able to break through easily. He might even reach a realm that he had never dared to imagine before.

Chapter 1087 - -a big gift

Chapter 1087:-a big gift

“This is a good thing. Unfortunately, we can’t use it. The terrifying power in it is too terrifying. If we use it forcefully, I’m afraid we’ll immediately explode and die on the spot!”

When she got closer, Jonina realized that it was a special kind of energy. This energy was the same as the energy in the five colored Pearl. Just using a part of it could make her improve greatly.

However, Jonina knew that her current body would not be able to withstand it, even though she had become stronger after training.

However, Jonina knew that she was still no match for her boss, Zhou Hao. She was still unable to absorb it.

“Although I can’t use it, it’s definitely a big gift for boss!”

Soon, Jonina adjusted her dejected mood. Although she couldn’t use it now, it was something to be happy about.

As long as Zhou Hao could improve, they would eventually be able to do so in the future. More importantly, they would be able to receive the best protection.

This boss was already very strong, and after using these potions, he would only become even stronger. The stronger this boss was, the safer they would be.

It could be said that there were only benefits and no harm.

Just like that, Jonina took everything, and she even took everything that was of some value.

Zhou Kang was trembling with fear. He was afraid that Jonina had taken away so many precious resources. He could already imagine the wrath of the mysterious Doctor.

But now, he didn’t dare to stop her, much less say anything. He definitely wasn’t her match.

Before leaving, Jonina didn’t attack Zhou Kang, as she had other intentions.

After Jonina and the man in gray had left.

Zhou Kang was already drenched in cold sweat. Now, he did not hesitate to take out a special dagger and stab himself a few times. He did it on purpose.

However, she didn't know that her little tricks were completely useless. When the doctor Mystic returned to the base with his guards, he was furious.

Not only did the doctor fail to catch Zhou Hao, but when he came back, he found that his latest model of experimental drugs were also gone. Immediately, he asked the guards to find Zhou Kang.

"You piece of trash, why are all my potions gone? tell me why!"

The doctor was furious. Those were his life's work, but now they were all gone. It wasn't that he didn't record it, but that there were some ingredients in the medicine that couldn't be recorded. The key was that he had added some new ingredients in recently, and he hadn't completed the specific tests yet.

Now that he was taken away, the doctor's questioning had almost turned into a roar.

"Doctor, I didn't expect this either. That guy had allies who sneaked into the base. I risked my life to stop them, but I couldn't. Doctor, calm down. I'll bring people to help you get them back now!"

Zhou Kang shivered and said hurriedly.

The doctor, on the other hand, was furious, and continued to roar, "You think I don't know that you let them in on purpose? you piece of trash, you traitor!"

Zhou Kang was stunned as if he was struck by lightning. He couldn't believe that the doctor even knew this. He didn't need to know how the doctor knew.

He only knew that once he found out, he would definitely die now.

"Doctor, I couldn't help it. Give me a chance to make up for my mistakes. I'm willing to help you get them back intact!"

The doctor now wanted to cut this Zhou Kang into a thousand pieces, but he thought that he was in need of people, so he restrained his impulse and said to Zhou Kang.

"Take everyone out and bring the potions I've prepared for you. No matter what, you have to help me get them back. If you can't get them back, you don't have to come back!"

Before the doctor could finish, Zhou Kang immediately promised that he would bring all of them back.

Zhou Kang took the medicine and the guards of the base to the area where the ultra Beasts were active.

In fact, Zhou Kang wasn't sure if he could get it back, but now he had to take some people with him. Otherwise, it would be too easy for the doctor to kill him.

"You damned bastards! If you don't let me live, then you can forget about living! Once I find you, I'll make sure you wish you were dead!"

Captain Luo Xingyu was also acting with Zhou Kang. Now, they had brought the guards of the base to the area where the ultra Beasts were active.

They were fully armed, and they were now in the zone of the strange beasts as if no one was there.

However, they didn't know when they were searching, and their whereabouts were soon discovered.

Big head had already planted quite a few spies in the area as Zhou Hao had instructed, and now he could monitor the entire exotic beast territory at any time.

Now that Zhou Hao had killed quite a number of Lord-level beasts, many of the mutated beasts had chosen to submit to him and were now helping them monitor the situation around them.

With the surveillance of those mutated beasts, they would know about any movement or sound.

When she had first heard the news, Jonina had been very nervous. She had not expected that those people would come here.

Zhou Hao had obtained the energy she had brought back and was currently absorbing it in seclusion. He would not be coming out anytime soon.

In the past, it would take three days to absorb it, and now it would probably take even longer.

In other words, they had no way to protect their current territory, nor could they fight against those people.

Find a place to hide first, I'll take big head to stop them. As long as big head comes out, these things will be easily solved.

Jonina said to the gray-haired man. This was the only thing they could do now.

The gray-haired man frowned. Although he didn't want to leave, he knew that he would only become a burden if he didn't leave now. Thus, he made a prompt decision and could only choose to leave.

On the other hand, Jonina and big head began to deal with the intruders, trying to buy enough time.

“B * tch, come out!”

Zhou Kang now had a lot of manpower, so he was very confident. Other than his sharp voice, which was a little strange, he was now quite domineering.

Zhou Kang only wanted to find the woman who ruined the rest of his life and cut her into pieces.

Jonina had big head hide with her, and would only launch a sneak attack at night.

“If you don’t come out, do you think I won’t be able to find you? if you really think so, you’re gravely mistaken. Just you wait!”

Zhou Kang had actually brought his men to slaughter the mutant beasts in his territory. At that moment, Jonina knew that she had no choice but to go out and face them.

After occupying this place, they planned to continue expanding and look for more spiritual fruits.

Chapter 1088 - Not worthy of being a man

Chapter 1088: Not worthy of being a man

It could be said that these mutated beasts were indispensable. If they were all dead now, they could only continue to fight for territory in the future.

However, it wasn’t easy to get these territories now. The only way to deal with them was to deal with the mutated beasts.

Otherwise, they might be in trouble.

“All of you, stop!”

Jonina’s appearance was within Zhou Kang and the others “expectations.

In fact, before this, Zhou Kang had already discovered that many of the mutated beasts here were well-trained. They would occasionally take the initiative to attack or monitor, and they were not much of a threat at all.

There was only one situation where there was such training, and that was when someone was training these mutated beasts and had begun to cooperate.

Such things were not uncommon in the Galaxy outside.

"You're finally willing to come out on your own, B * tch!"

Zhou Kang was gritting his teeth. All he wanted to do now was to take her back to make up for his mistake.

However, there was no way that Jonina would just let herself be captured.

"You may be able to kill a lot of mutant beasts now, but I'm not to be trifled with either. If I use all my skills now, you'll have to pay a heavy price. If you have the ability to attack me now, I'll take it. What's the point of you only fighting mutant beasts without intelligence? you don't deserve to be men!"

Jonina said coldly.

However, it was also this sentence that completely infuriated Zhou Kang.

Not a man. This sentence made Zhou Kang remember that he no longer had that thing down there. This became a painful memory that he would never be able to erase for the rest of his life.

He was already injured, and now he was even more injured.

This sentence wasn't very powerful, but it was extremely insulting.

"B * tch, it's all your fault that I'm like this. I'll kill you!"

Zhou Kang was so excited that he couldn't control himself anymore. He made a move.

But what she didn't know was that she had fallen into a trap. Jonina had learned how to goad him into action from Zhou Hao.

"Boss, this move of yours is really useful!"

Zhou Kang couldn't beat Jonina before, and now that he wasn't a man anymore, it was even more so.

It was only when Zhou Kang was close to feeling the danger that he realized what a stupid thing he had done.

“Idiot, come back!”

It was already too late for Luo Xingyu to stop Zhou Kang. He could only watch as Zhou Kang rushed forward without any regard for his life.

“Big head, get him!”

Jonina patted her Mount, big head, and big head immediately pounced on her.

“Save me!”

Zhou Kang couldn't block it at all, and was directly slapped to death by big head. He didn't even have time to let out a scream before he became a pile of meat.

“Trash, trash!”

Luo Xingyu trembled in anger. He never thought that Zhou Kang would die of stupidity. Not only did he die, but he also left the heavy burden on him.

Previously, with Zhou Kang, he was almost certain of success this time. But now, this advantage of his was completely gone.

“It seems that I can only use the good stuff the doctor gave me!”

Luo Xingyu took out the medicine that he had brought along. It was a new type of medicine that could strengthen the genes in the body and increase his strength.

It also had a stimulating effect. As long as he used it, he would be able to increase his confidence and regain the upper hand to take down Jonina.

“Big head, run!”

When she saw the potion, Jonina immediately said to big head.

Jonina recognized it at a glance. It was the same type of medicine that she had taken out from the base.

Once she used it, she would definitely not be Luo Xingyu's opponent.

Mercenaries like Luo Xingyu traveled between galaxies. Even if the energy absorbed by his body had not reached a planet yet, it was almost enough.

She had also learned a lot, but in terms of combat experience, she was slightly inferior.

All in all, she was no match for him, so she could only run away.

“Roar!”

Luo Xingyu took the medicine and the thick uniform on his body instantly exploded into pieces. Red meridians appeared all over his body.

He growled in a low voice. His eyes turned Scarlet, and the meridians in his body grew larger, like a spider web that wrapped around his whole body.

His face was also covered in dense red veins, which made him look ferocious and terrifying.

The team members weren't afraid, but envious. This kind of drug could only be rewarded for helping the doctor do a lot of things.

This was what they could not ask for more. Once this medicine was used, it could stimulate huge potential and modify genes.

Their genes were originally inferior to mutated beasts, but after the modification, they could undergo a qualitative improvement and change in this aspect, and they could even surpass mutated beasts.

“I'll catch her, you go to the other one. When necessary, I'll allow you to use the two potions I brought!”

After Luo Xingyu finished speaking, he rushed forward and turned into a wild beast, chasing after big head in the forest.

These team members' eyes were burning with desire as they looked at the potion in the vice-captain's hand. They wanted to snatch it from him.

However, they didn't dare to do that now. They could only use it with the permission of their Captain.

“Find that gray-haired one immediately and capture her!”

The few of them quickly came to an agreement and began a carpet search.

Luo Xingyu caught up to big head and Jonina, and intercepted them.

Roar!

Big head was shocked. He actually felt the same kind of terrifying aura and pressure from Luo Xingyu's body as his previous master.

It was too familiar. It was the suppression of his bloodline. Big head could only stay alert and prepare to escape at any time.

“Surrender and you can still live. Otherwise, I’ll take your life right now!”

Luo Xingyu said in a cold and unquestionable tone.

On the other hand, Jonina’s face turned pale. She had already taken so many resources from the base, yet the base still gave Luo Xingyu such precious resources.

Luo Xingyu was the leader of the mercenaries and had the highest combat power. After using this potion, his combat power had become even more terrifying.

This also meant that it was impossible for him to resolve this matter. There was no chance of winning.

Could it be that she was going to die Here? Jonina was in despair. She couldn’t think of any way to escape.

The speed of the mercenary leader had already far exceeded the ability of a C-Class mutated beast. With his strength, he was definitely at the peak of the entire area where mutated beasts were active.

Now that her boss, Zhou Hao, had not come out, she had no way to fight back. She did not even have the power to fight back.

“If I had listened to boss before, things wouldn’t be like this now!”

Thinking about how she didn’t cherish that time, Jonina felt bitter. If she had listened to him before, things wouldn’t be like this now.

Chapter 1089:-turning enemies into friends

“It seems that you’ve already made up your mind. Since you don’t intend to go with me, then you can go to hell!”

Jonina closed her eyes, quietly waiting for her death.

Roar!

Jonina was puzzled to find that she wasn't dead, and that she had heard big head's roar. Could it be that big head had blocked an attack for her?

That's not right. Jonina quickly denied this possibility. Although big head had the combat power of a class c among the mutated beasts, he would definitely not be able to withstand a single blow from Luo Xingyu.

What was going on?

Jonina couldn't figure it out, so she opened her eyes. When she opened them, she immediately understood what was going on.

It turned out that someone had come out to stop Luo Xingyu.

"Boss!"

Jonina's face was filled with surprise. This person was actually her boss.

Jonina still couldn't believe it. She thought that she was seeing things, but she quickly confirmed that she wasn't.

"Boss, don't tell me you haven't absorbed it yet. It's all my fault. If it wasn't for the fact that I can't even deal with a small fry, you wouldn't have so little time to absorb it!"

Jonina blamed herself. She now thought that the gray-haired man had gone to tell Zhou Hao the news, and that was why Zhou Hao had come.

Zhou Hao did not reply. Instead, he immediately charged forward like an arrow.

So fast!

Luo Xingyu felt that his speed was already very fast, but now he realized that the person in front of him was even faster.

Instantly, Luo Xingyu was on guard against a great enemy.

"No wonder the doctor is so interested in you, no wonder he would do anything to get me to catch you!"

Luo Xingyu finally understood what was going on.

However, Luo Xingyu also knew that it was impossible for him to continue to complete this mission.

This person was too powerful and unfathomable.

The next moment, a thought quickly appeared in his mind.

Escape!

Luo Xingyu turned around and ran. He was very straightforward and did not drag things out.

“If it was before, I might not be able to do anything to you. But now, you’re just like an ant!”

Once Luo Xingyu was far enough away, Zhou Hao charged forward again. His speed was constantly increasing.

Luo Xingyu’s speed was very fast, but Zhou Hao was even faster. Like a flash of lightning, he caught up with Luo Xingyu in the blink of an eye.

How was that possible?

Luo Xingyu was shocked. He had used the doctor’s medicine, but he was still caught.

The doctor was from the most powerful technology empire in that Nebula, and the drugs he refined were also the best, which could stimulate his most powerful potential.

But now, even his strongest potential could not compare to this person in front of him.

Looking at Zhou Hao’s age, he was only half her age.

Suddenly, Luo Xingyu was hit hard. He chose to give up, closed his eyes, and waited for death.

Luo Xingyu was dejected. He had never thought that he would be inferior to a junior.

“You’re very strong. I lost to you, and I’m convinced. Now, if you want to kill me or cut me up, do as you please!”

Luo Xingyu thought that at least he wouldn’t die in the hands of some unknown person. He suddenly felt a little better and thought that he had died a worthy death.

However, she waited for a long time, but Zhou Hao still did not make a move.

Luo Xingyu looked at Zhou Hao in surprise. It seemed that Zhou Hao had no intention of attacking and was thinking about something.

“You’re not going to kill me?”

Luo Xingyu wasn’t happy. He only felt that Zhou Hao was the most interesting person he had ever met. As an enemy, the first thing he did was not to kill but to think about things.

Zhou Hao was thinking that he might be able to enter another galaxy, but he needed connections now. It was just that it would be difficult to make connections.

This was because people from many galaxies were very xenophobic.

The main thing was that it was extremely difficult to get to know these people. These people were all top-notch in strength and had abundant resources.

These people also had a strong sense of honor and belonged to the type of people who would rather die than submit.

Now, Zhou Hao not only wanted to make connections, but he also did not want to be hunted down because of what he did.

Right now, he wanted to find a way and power to make himself stronger. He didn’t want to make enemies everywhere and constantly cause trouble for himself.

He didn’t have much time left. He could only become stronger as soon as possible to withstand the disaster and protect his Earth Star.

Otherwise, when the time came for a disaster to befall Earth Star, it would be inevitable.

Therefore, he needed to find a good solution as soon as possible.

On Earth Star, with his current strength, he couldn’t find such a way. He was already at the end of his rope.

Then, he could only go to other galaxies to find them, and they had to be galaxies that were strong enough.

However, how to get there was a headache for him.

But now, he felt that he might have a chance to go over, so he did not kill Luo Xingyu. Instead, he said to Luo Xingyu,”

“Captain Luo, I don’t think there’s any need for us to fight and kill. We can work together. I want to join your team and become a mercenary in the future!”

Zhou Hao took a deep breath and said in a serious tone.

Luo Xingyu was stunned for a moment. He had never thought that Zhou Hao would actually want to join his team.

“Zhou Hao, I’ve offended you this time. I’m not as good as you, and I admit my defeat. I have no complaints if you want to kill me, but if you want to invade my home through me, I advise you to give up on that idea. I won’t take you to my home!”

Luo Xingyu snorted coldly and then said with certainty.

This Luo Xingyu really had a rich imagination. Was he being paranoid? Zhou Hao was speechless.

It seemed that she had never hurt him before, but now he actually had such thoughts.

“I don’t know why you would say that, but I just want to tell you that I can’t destroy your home. I don’t have the ability to do so. Also, I want to tell you that you’re mistaken. I have no interest in your home. I just want to find what I’m looking for. You don’t have to worry that you’ll let a Wolf into your house!”

“If you’re really worried, how about this? you can introduce me to the other mercenary alliances in the other star clouds!”

Zhou Hao was very eager to go. Those mercenaries were not like the mercenaries on earth. In front of those mercenaries, the mercenaries on earth could be described as frogs in a well.

The mercenary Alliance that Zhou Hao wanted to go to was the most powerful mercenary in the entire universe. Each of them was a veteran, but their battlefield was the entire universe, and traveling to a few galaxies every day was the most basic mission.

It was also a star field that many people dreamed of. As long as they entered, they would be able to dig up treasures that countless forces wanted.

Chapter 1090 - shifting the battlefield

Chapter 1090:-shifting the battlefield

As long as they went to that place, they would be able to improve themselves and reach the legendary power that ruled over hundreds of millions of living beings.

All in all, he could get what he wanted if he went there. It was the only way for him to improve his strength.

If he wanted to become stronger, he had to go.

Looking at Zhou Hao's serious expression, he didn't look like the cunning people he had met before. Luo Xingyu pondered for a while and made a decision.

"I can take you there, but I have to remind you that the mercenary Alliance can get the treasure, but there's also a possibility that you won't be able to return!"

"Then I'll have to trouble brother Luo to give me a lift!" Zhou Hao smiled.

Luo Xingyu frowned. He had already said that it was dangerous, yet he still wanted to go. This guy was simply unreasonable.

"Since you must go, then wait for me here a month later. I'll have my family come to pick me up, and I'll take them with me when I leave!"

Luo Xingyu didn't waste any more time.

Zhou Hao was very excited. As long as he could become stronger, he would at least be able to protect Earth Star and the Milky Way.

Zhou Hao also felt very lucky. If he had not met Luo Xingyu, he probably would not have been able to leave the Milky Way.

When Zhou Hao returned to the territory, he immediately told the news to Jonina and the gray-haired man, who were his closest friends.

"Boss, you're not joking, are you?"

Jonina was stunned for a moment. She thought that she had heard wrong. They had been developing well, but now they were not doing it. Instead, they had to run to another star field to develop again.

This was equivalent to having a job, but now he had lost it and picked up another job that was full of uncertainties.

Jonina even suspected that what she heard was an illusion.

Zhou Hao said helplessly.

“Actually, I don’t want to do this either. It’s just that I don’t seem to have any other choice recently, so I can only do this!”

When he finished, Jorina and the others immediately knew that their boss would not change his mind. He was a very serious person.

“Boss, I’ll go with you!”

Jonina immediately said. If Zhou Hao could establish his own base here, then he could do the same in another galaxy.

The gray-haired man also expressed that he wanted to go with them to solve the problem. It was really not easy for them to wait for this time.

Zhou Hao nodded and agreed to let the two of them follow. He was alone now, and it was best to build a force for himself at this time.

It was only after he had established his own force that it would be easier for him to do what he wanted in the future. At least, he would not encounter some obstacles like before, which was already a headache.

He was already very strong by himself, but he was only one person. He could not protect the people who were more important to him and the existences he wanted to protect.

Therefore, the most important thing right now was to establish a force, which was also one of the things he was doing.

As long as he continued to grow stronger, he would be invincible.

A month later.

The few of them boarded Luo Xingyu’s family’s super battleship. The star field between them was filled with exotic beasts, and as long as they passed through it, they would always encounter some sneak attacks.

Therefore, they all knew what was best to do. At least, they wouldn’t let the exotic beasts leave them in the space-time wormhole of the star field.

“I’ll send you off here!”

Luo Xingyu was sent to one of the desolate planets in the M3 Nebula. Looking out from here, there were only vast mountains that seemed to stretch on forever.

After disembarking from the battleship, Zhou Hao immediately said to Jonina.

“Jonina, go and find some medicinal ingredients that are of higher value. Also, if you find any rare mineral resources, you have to inform me. This is your mission. Three days later, we will meet at the same location, which is here!”

The gray-haired man was now asking him what his mission was.

“Your mission is to go to the nearby area and see how many forces have infiltrated this place. In addition, you have to see if you will meet my old rivals!”

Zhou Hao thought of the old rival he had encountered before and was having a headache. Fortunately, he had successfully escaped from the matter that he wanted to escape from.

Otherwise, he would be in trouble now.

“Alright, boss!”

Just like that, the three of them separated again for a short time.

Zhou Hao turned on the Super livestream and noticed that the energy competition between the major star fields was in full swing. It was definitely the most intense during this period.

Zhou Hao looked at the numbers behind the names of many families. They were now astronomical figures, which made him envious.

If he could become stronger as soon as possible and complete these missions with Earth Star, how good would that be? that way, he would be able to solve more of these problems in the future.

However, at this moment, he could only gather his thoughts. Although the location of their Earth Star was relatively barren, it was the most suitable place to breed all kinds of high-value medicinal herbs. It could be said that this was an advantage that many forces in the star field did not have.

Such an advantage would allow Earth Star to continue to expand its advantage in the future and achieve things that they couldn't do before.

Now, he knew that it would be difficult, but it was better than doing nothing.

Zhou Hao began to search in the mountains and paid close attention to the ranking of the Super livestream room. Now, he could understand the situation of the galaxies around Earth Star through analysis.

Previously, some places had already been infected by the beast disaster and had completely disappeared from the rankings. The areas of these galaxies were not too far away. If they paid attention to their movements now, they could make preparations in advance.

No one knew if the infected would speed up the infection. To any Galaxy or planet, as long as they were infected, it would be a disaster.

“I hope I can solve the problem I want to solve this time!”

Zhou Hao could only pray that everything would go smoothly this time. He walked to the top of a mountain and began to look down at the forest below.

Compared to their previous location, the energy here was much more abundant. After all, the land was vast and the population was sparse. There was definitely more energy in this place.

In other words, as long as he continued to explore this place, he might be able to find even rarer energy sources.

There were already some energy reserves on Earth Star in preparation for leaving the Milky Way. However, they were not enough for him to break through, so before that, he could only prepare a part of it.

Chapter 1091 - -joining in the fun

Chapter 1091:-joining in the fun

As long as he was well prepared, even if he encountered a terrible situation later on, he would not be in a passive position when he wanted to help the earth Star get out of danger.

In the past, many star fields had fallen because they had been infected by those exotic beasts. Once they mutated, they were basically not far from extinction.

Earth Star was able to survive until now because he was able to find all kinds of rare energy from the outside and continuously supply it.

If it wasn't for him, Earth Star would probably be the next Galaxy to be destroyed in the long river of history. Fortunately, it wasn't destroyed yet.

However, if he did not take any precautions now, Zhou Hao believed that that day would not be too far away.

Therefore, he had to come here to find enough energy. However, his main goal was to find a mercenary group and join them.

However, he didn't know what was going on here. It wouldn't be easy for him to find her.

It seemed like he could only take it one step at a time. After searching for a while, he still did not see any signs of human habitation. Zhou Hao could only temporarily give up on the news of him looking for mercenaries.

He thought that he should first find some energy to prepare so that even if he had to leave for an emergency later, he could still use it in case of emergency.

Just as he was walking and thinking about some things, a loud noise suddenly came from in front of him. There was the sound of metal colliding and rumbling.

If one didn't listen carefully, they would think it was Thunder.

Someone was fighting?

Zhou Hao hesitated for a moment, but he still chose to go over and take a look. Now that he was in a foreign place, he thought that if he were to search for it alone, he didn't know how long it would take.

Therefore, now that he had met someone, he immediately thought that it would be wise to find a few people to understand the situation.

When Zhou Hao rushed to the battle area, he saw two groups of mechas firing continuously. However, it was obvious that their mechas were not made of ordinary materials. Despite the clash, they did not fall. There were only some insignificant wounds.

It seemed that he had already entered a star field where technology had developed to a certain extent. He was really lucky to have come to this planet. It had not even been two hours since he had landed, and he had already encountered this.

Zhou Hao did not make a move. Instead, he chose to watch from the sidelines. He wanted to see who would survive.

Whoever could survive would be asked what this place was, including the current situation.

The two parties controlling the mechas were both mercenaries. One was the red moon mercenary group, and the other was the Black Dragon mercenary group.

The two mercenary groups were now competing for the territory in front of them, mainly because they wanted to take advantage of this time to kill.

The captain of the red moon mercenary group, Zhou Ziyun, was now waving her mecha arm. After the energy was depleted, she could only continue to fight with her body.

Zhou Ziyun had also noticed Zhou Hao, but she quickly looked away and did not pay him any attention. Zhou Hao could not threaten her now, he was just an ant.

Zhang Long, who was part of the Black Dragon mercenary group, had also noticed an outsider in the battle area. He only glanced at the person before looking away.

Zhou Hao had been hiding his strength, so they couldn't tell how strong he was now. They only thought that he was one of those mercenaries who liked to join in the fun.

Over here, Zhou Hao was not the only one who was joining in the fun. Now, there were a few other groups of people who were also joining in the fun.

However, most of them had ulterior motives.

"Hmph, a group of rats who only dare to hide their heads and show their tails. Wait until I deal with this Red moon's leader and see how I deal with you!"

"Hmph!" Zhang Long snorted coldly and continued to operate his mecha's controller skillfully. He was now constantly fighting against Zhou Ziyun.

Zhou Hao lost interest after a few glances and quickly retracted his gaze. Although these shops were very advanced, the energy used was not good.

This was similar to the energy source on earth. As long as the energy source was the same, it meant that this energy source could not be used on earth.

"I hope I can get some good news when I ask them later!"

Zhou Hao chose to sleep. After stretching, he began to doze off. After a while, he closed his eyes and fell asleep.

However, he wasn't really sleeping. He was waiting for the final battle to end.

However, it was impossible to determine the victor of this battle in a short period of time.

"Good Lord, this guy actually dares to sleep in the battle area. Does he want to die now?"

“What a lunatic. Doesn’t he know that this mech can shake the heavens and earth? he’s simply courting death by sleeping here!”

Many people felt that Zhou Hao was a ridiculous person. They could have left right away, but Zhou Hao did not.

If this continued, he would soon be in danger.

However, no one reminded Zhou Hao of this. To them, it was just one more person dying. That was all.

They watched coldly from the side. This wasn’t the first or second time they had done this.

However, what they did not know was that Zhou Hao had seen everything. Of course, he did not care if these people chose to stand by and do nothing. Now, he just needed to see what kind of attitude these people had to determine whether they would become enemies in the future.

As long as these people didn’t have a good attitude, they would be classified as his enemies. As long as there was a possibility, he would know what he wanted to do later.

In fact, as long as these people didn’t say these things and didn’t speak out of turn, he could also pretend that he didn’t see them.

However, they just wanted to talk too much. From what they said, he could already judge that these people would become potential competitors in the future.

Therefore, he had already decided that if these people posed a threat to him in the future, he would immediately get rid of them all.

These people did not know that they were already on Zhou Hao’s blacklist, and had become his enemies.

BOOM!

Zhang Long ignored the people around him and continued to attack. His mecha was comparable to some C-Class mutated beasts. His family had spent countless resources to hire a famous mecha master from a country that specialized in mechas to create this mecha.

Although his mecha was large in size, it was very agile. Most importantly, its attack power was terrifying.

However, after using the mech, he was not using it against the mutant beasts, but against the Hong Yue clan, which had been at odds with her clan for more than a hundred years.

Chapter 1092 - The Black Dragon mercenary group

Chapter 1092: The Black Dragon mercenary group

The Hong Yue family had been like fire and water since they were at odds with each other. In fact, they could have fallen out at any time a long time ago. However, at that time, their strength was equal, so they chose to wait for the opportunity to act.

Now, the best opportunity had finally come. The entire Black Dragon mercenary group had been mobilized. He had also brought the dark Dragon mecha with him.

Now, it was to destroy the foundation of the red moon family, which was the red moon mercenary mecha clan. This clan was built with all the resources of the red moon family. It could be said that this was equivalent to the entire Red Moon family.

Now, it could also be said that if the mecha in front of him was destroyed, the red moon family would be destroyed.

“Hahaha, Zhou Ziyun, you can’t hold on much longer. If you agree to be my exclusive property, I can consider giving you a way out!”

Zhang Long said playfully as he operated his mecha to launch a fierce attack.

Zhou Ziyun’s face was filled with anger. She had never thought that the Black Dragon Family would use all their resources to exchange for the Black Dragon mecha in order to take down the Hongyue family.

The core components of the Black Dragon mecha had been carefully designed by a mecha master. It was a design that had been painstakingly designed.

The mecha master was famous in the mecha nation, even in several star fields.

Every year, many people would go to visit that mecha master, and they would flock to him like ducks.

However, it was not easy to make this mecha master work hard to develop a mecha.

However, the Black Dragon mercenary group had done it. Zhou Ziyun felt a sense of danger.

Zhou Ziyun was the most outstanding representative of the Hongyue family. She was also responsible for the rise and fall of her family. She had never thought that she would miscalculate now.

He had never expected this.

In the past, no matter how rampant the Black Dragon Family was, they didn't dare to cross the line because once they started fighting, they would probably fight to the death.

They all knew that if they attacked before they could take out a power that surpassed the other party's strength, it was the same as courting death.

Therefore, in the past hundred years, the two families had only had some minor conflicts at most, and never had any intention to escalate the situation.

However, she didn't expect that the Black Dragon Family would build a more advanced and stronger mecha. Now, they had completely suppressed the mecha she was controlling.

The advantage of the core components put her at a disadvantage. She was at a disadvantage when they fought.

If this continued, she would soon fall into a difficult situation. However, she really did not want this to happen.

After all, if they lost this battle, the red moon clan would definitely perish in name only.

The Black Dragon Family had been eyeing them covetously for a long time, not to mention the deep hatred between them.

Even the hidden forces that were ready to make a move would not let go of such a fat piece of meat.

Therefore, Zhou Ziyun knew what this battle meant to her family. However, she was very clear about it, and now, she felt even more hopeless.

"Zhang Long, even if I die, I will never let a scum like you touch me!"

Zhang Ziyu continued to fight back. Although she would be defeated sooner or later, she still continued to fight back. Now, she was trying to exhaust the Zhou family's mecha as much as possible.

This type of mecha was very special. As long as the mecha was used up enough, the Zhou family would not dare to continue using it. This way, their family could continue to preserve their descendants.

This was the last thing she could do.

“Zhou Ziyun, I’m giving you a chance now. As long as I become the master of your Hong Yue family, I can even become the strongest ruler in this star field. It’s your honor to follow me, so don’t be ungrateful!”

Zhang Long said angrily after being rejected. To him, any rejection would be a blasphemy against his dignity. He was about to inherit his family, and eventually even the absolute ruling power of this star field.

Zhou Ziyun didn’t waste any more time. There was only one crazy thought in her mind, which was that even if she would lose a lot, she would not let them have an easy time.

Therefore, Zhou Ziyun already had a rough idea of what she should do now. If she continued to act like before, it would be useless to say anything now.

“Zhou Ziyun, since you don’t know how to appreciate my kindness, I’ll fulfill your wish. Hmph, don’t think that I don’t know what you’re thinking right now. I’m telling you now, after I kill all of you, I’ll kill everyone in your family, not a single one will be left alive!”

Hearing this, Zhou Ziyun’s face turned pale, and she stopped what she was doing.

There was no point in continuing to fight now. Her family only existed in name. No, to be precise, when the Black Dragon mech was built, it had already existed in name only.

The Black Dragon mech was the most powerful mech, and it was also the most powerful mech that was specifically used to deal with the Hong Yue family. Its energy source was a rare crystal ore dug out from the void. This was formed after the death of a type of mutant beast, and it had terrifying energy.

However, their Crimson Moon mecha could only utilize one percent of this energy.

However, the Black Dragon mecha was even stronger. It was already far ahead in this aspect, and had already mined five percent.

“The heavens have no eyes. They want to destroy my Red Moon clan!”

Zhou Ziyun felt that the heavens were unfair, and she muttered in a daze.

Just as Zhou Ziyun was about to surrender, she suddenly heard a voice from afar.

“Do you need me to make a move?”

Zhou Ziyun followed the voice and saw that it was Zhou Hao who had been sleeping earlier. It seemed like this fearless guy was trying to help her.

However, Zhou Hao was just an ordinary mercenary. Even if he helped him, he would be throwing his life away. It was like throwing an egg at a rock.

At the thought of this, Zhou Ziyun declined Zhou Hao's good intentions.

"No need. I appreciate your kindness, but you're no match for the Black Dragon now. You'd better leave. This has nothing to do with you. You'd better go as far as possible. Zhang Long is a narrow-minded man. If he suspects your identity, it'll be too late for you to leave!"

Zhou Ziyun also felt a warm feeling in her heart. This was the exact moment when she said "as long as you drink water, you know whether it's cold or warm."

Now, he knew very well that Zhou Hao wanted to help the red moon stand out of good intentions.

Zhou Hao wasn't actually doing this out of a sense of justice. He just couldn't stand Zhang Long. How could Zhang Long do such a cruel thing to a girl? he was obviously not a good person.

Chapter 1093 - The best choice

Chapter 1093: The best choice

Therefore, Zhou Hao immediately had an idea. When he went to do other things, he should settle the things that needed to be done now.

As long as all these were settled, he believed that he would have less trouble when he encountered such things again in the future.

From the conversation between those people, Jiang Nan already knew what was going on here. It was probably a battle between the strongest families.

After understanding this, Jiang Nan immediately thought about what he was going to do. He had decided to help the red moon family.

If he were to use the power King frenzy at this time, the red moon clan would definitely be deeply grateful. Then, he would help the red moon clan become the Overlord, and for a period of time, he would be able to open the green channel in this star field.

In other words, he would be able to freely search for the energy he wanted in any area.

After making such a plan in his heart, he immediately knew what he should do.

Zhou Hao smiled and continued.

“Miss Zhang, I haven’t even made a move yet. Do you really think that I can’t handle this matter?”

Zhou Ziyun did not have any expectations at all. She only felt that Zhou Hao was probably the kind of mercenary who wanted to save the damsel in distress and was conceited.

“If you insist on doing this, then you can do it. But before that, I think it’s better for you to leave. Otherwise, you won’t be able to leave if you get involved in this matter. Don’t say I didn’t warn you!”

Zhou Ziyun’s words were very unpleasant, but she was doing it on purpose.

However, Zhou Hao immediately understood that this woman had a sharp mouth but a soft heart. It seemed that he had made the right decision.

“Don’t worry, if I die Here, I will have no regrets!”

As soon as Zhou Hao said that, the surrounding forces, including the forces in the livestream room, instantly became like ants in a pot.

“What is this guy trying to do? he wants to kill the Black Dragon?”

“Did I hear it wrong? this guy is too arrogant!”

“I think he’s an idiot. Even if he has some strength, he’s nothing in front of this mech!”

Many onlookers now felt that Zhou Hao was too crazy. They only felt that Zhou Hao would end up like a Mantis trying to stop a chariot.

Zhou Hao ignored them. As long as it was something he didn’t care about, he could turn a blind eye to it.

There was a benefit to doing this now, and that was that he could quickly clear his mind of distractions. Only in this state could he start fighting and erupt with his strongest fighting power.

Zhang Long squinted his eyes. He felt that Zhou Hao was just a reckless person.

“Kill him!”

Zhang Long said to his subordinate, who was also one of the Black Dragon mecha operators from the Black Dragon mecha clan.

The Black Dragon mecha was usually used to carry out missions and was the captain of the Black Dragon Family.

Zhang Long was the young master of the family. He could only do as he was told and operate the mecha to attack.

“Yes, young master!”

Seeing the mech raise its mechanical arm, Zhou Ziyun thought that if she saw that she was not his opponent, she would save him. After all, she was standing up for the red moon family.

Now that the Hong Yue family had fallen into such a state, these forces were not just watching from the sidelines. They were all trying to hit them when they were down. None of them were good.

Zhou Hao was the only one who was willing to stand up at this critical moment and lend a helping hand.

Even if the Hong Yue family was gone, they could not let Zhou Hao die Here.

“If he’s in danger, all of you attack together. You must protect him!”

Zhou Ziyun gave the order to the mecha clan behind her. This was probably her last order.

Although the members of the red moon family who were operating the mechas knew that they were going to die, they all chose to accept the order.

At that time, Zhou Ziyun would not know that the decision she had made was the right one, nor would she know that her decision would change the situation.

Of course, Zhou Ziyun did not know that. She thought that Zhou Hao was just trying to be brave.

“You’re looking for death!”

The Black Dragon family’s Captain raised his mechanical arm and threw a punch, which met Zhou Hao’s fist.

The moment they exchanged blows, Zhou Ziyun could already imagine the scene of Zhou Hao being severely injured. She could not help but close her eyes, not wanting to continue watching.

However, when she closed her eyes, Zhou Ziyun was very confused. She realized that it had become very quiet.

It was very strange for such a thing to happen. Zhou Ziyun opened her eyes and couldn't help but take a look. She immediately knew what was going on.

However, when she saw what was going on, Zhou Ziyun's eyes widened. Her eyes widened.

How was that possible?

Zhou Ziyun saw that Zhou Hao had used his weak-looking body to cripple one of the Black Dragon's arms.

Although the Black Dragon mechas were not as high-level as the one Zhang Long was piloting, they were still made of materials comparable to her family's and were indestructible.

If they were used on battlefields, they would have no problem conquering the entire universe.

However, this was the first time that something so unbelievable had happened.

This was something that had never been seen or heard before.

In fact, he couldn't even believe that this was real.

But now, it was true. Zhou Ziyun was very clear about this.

The forces on both sides, who were gloating over Zhou Hao's misfortune, were all shocked and gasped.

That was the Black Dragon mech, a super mech that could fight a C-Class mutated beast without being at a disadvantage. But now, it was not a match for a human's physical body.

If they hadn't seen it with their own eyes, they wouldn't have believed that such a thing could really happen in this world.

However, it was happening right in front of their eyes, so they had no choice but to believe it.

“That’s too awesome. Which family did he come from? how come I’ve never heard of a family that specializes in cultivating the body and soul?”

“It’s unbelievable. It’s the first time I’ve seen someone cultivate their body to such a terrifying level!”

“No wonder he dared to enter the battle zone alone!”

Many forces now looked at him in a different light. They no longer looked down on him, and they also respected the strong.

In any place, the strong were highly respected, and it was the same here.

Zhou Ziyun was very surprised. She had never thought that Zhou Hao would be able to fight against the Black Dragon mecha.

Chapter 1094 - Helping Zhou Ziyun

Chapter 1094: Helping Zhou Ziyun

?

“You’re still very young. You still have a bright future ahead of you. There’s no need for you to accompany a dying man like me in doing something so meaningless. I’m very grateful to you for helping the red moon clan. From now on, you’re the benefactor of the red moon clan, but I don’t want you to die Here. Leave!”

Zhou Ziyun was grateful from the bottom of her heart. She quickly made a decision and told Zhou Hao.

Zhang Long was furious. He immediately ordered his men to surround Zhou Hao.

“If you want to leave, you’ll have to pay compensation!”

Zhou Ziyun said to Zhou Hao in a hurry.

“I’ll kill my way out for you now. Leave quickly. This is the last thing I can do. Don’t avenge my family and Don’t Let Me Down!”

Zhou Ziyun thought that even if she had to die early, it would be worth it to do so. She could make a worthy friend before she died.

Zhou Hao was speechless. Even at this point in time, this young lady of the Zhou family still did not believe in his ability to solve this problem.

Seeing this, Zhou Hao thought that he could only use his own strength to tell this Zhou family's young miss that he was more than capable of solving this problem.

In fact, as long as he thought about it carefully, he could understand why he didn't believe it. After all, he was fighting with his body at this time.

In many star areas, most of the people had relatively weak bodies. They could only increase their power by relying on external forces, which had some limitations.

An existence like him would be considered an anomaly in these star fields.

Although there were some medicinal herbs that could be used to improve themselves, those were in the minority. Moreover, not many people could survive by doing so.

It could be said that there was not much future for that kind of existence here.

There were fewer mutants like him, and he was also relatively weak.

In Zhou Ziyun and the others' minds, weakness was already deeply rooted in them, and it was useless for them to say anything now.

Therefore, Zhou Hao did not waste his breath. Instead, he used his own actions to prove it.

"What a pity. If he could survive, he might be able to become a powerhouse in the future!"

"That's right. It's such a pity. His ability is pitifully rare!"

Many forces felt sad for the death of their own kind.

Zhang Long looked at Zhou Hao greedily, thinking that if he did this right now, not only would he be able to take over the Hong Yue clan, but he would also be able to learn the cultivation method to improve his body from Zhou Hao.

As long as he could improve, this place would transform his family, and he would be able to bring his family to a higher level.

To Zhang Long, this was a pleasant surprise.

But what Zhang Long didn't know was that this wasn't a pleasant surprise at all. Zhou Hao wasn't that easy to deal with.

He didn't know now, but he soon realized that something was wrong.

He realized that a few of his subordinates were unable to take down Zhou Hao even though they were operating their mechas.

Zhou Hao easily dodged the attacks and retaliated.

If the battlefield was a stage, then this was Zhou Hao's personal show.

The Black Dragon mechas were now in a completely different state from when they were dealing with the red moon family's mechas. They were much slower than before. He had not expected things to turn out this way.

"You idiots, what did I teach you before? follow the plan and deal with him together!"

Zhang Long said in exasperation when he saw that his family's mechas were unable to catch Zhou Hao.

The captain was having a headache. He wanted to say that he knew about the training, but he found that it was not effective.

Zhou Hao's current strength was even stronger than the power released by their mechas. He was now able to shake their foundations at any time. This was something that they had never expected.

At first, Zhou Hao thought that these family members were too stupid, but as time passed, he realized that the situation was not like that.

By the time they discovered it, Zhou Hao had already accurately captured all the flaws and began to attack them one by one.

"All of you, come back!"

Zhou Hao was like a human-shaped monster. His body looked weak, but the power he was emitting was overwhelming.

The hill-sized mechas were no match for him at all. They were all pierced through by Zhou Hao.

These mechas also fell to the ground with a loud crash, not moving at all. They could no longer stand up.

"Idiot, trash!"

Zhang Long's eyes were wide open. He couldn't believe that they had fallen just like that. They were all core disciples of their families.

They had put in a lot of effort for this day. Every mecha required a lot of recuperation and all kinds of training.

The loss of this mecha was a huge expense for their family. The extent of damage now was basically equivalent to scrap.

Therefore, Zhang Long now knew that he had underestimated this uninvited guest who had suddenly appeared in front of him.

"I'm going to kill you!"

Zhang Long's killing intent was boiling. He immediately took control of his mecha. All he wanted to do now was to make Zhou Hao regret everything he had done.

However, before Zhang Long could rush to the front, he suddenly realized that his mecha had lost its balance. It started shaking violently, and the ground shook.

When Zhang Long saw the notification in front of him, he knew that the left side of his mecha was under attack. He looked in that direction and his expression turned ugly. It was Zhou Ziyun.

"Zhang Long, you've forgotten that you still have me!"

Zhou Ziyun sneered after her sneak attack succeeded.

Zhou Ziyun was also very happy. She had not expected Zhou Hao to be so strong that he could really change the situation.

Zhou Ziyun was no fool. She knew that if she attacked now, she would be able to defeat the Black Dragon clan sooner or later, so she attacked.

Zhang Long was furious. He had never thought that things would turn out like this.

"So what if all of you attack together? the true combat power of my mecha is not something you can imagine. All of you will die!"

Zhang Long immediately activated the hidden energy source on the back of the Black Dragon. He thought that he wouldn't be able to use it in the short term, but it seemed like he could now.

When he started up, the Black Dragon mecha stood up again.

“Be careful. The Black Dragon mecha’s energy source comes from the netherstone. Don’t underestimate it!”

Chapter 1095 - Zhou Ziyun’s decision

Chapter 1095: Zhou Ziyun’s decision

Just as Zhou Hao was about to make his move, Zhou Ziyun suddenly spoke in a serious tone.

Zhou Hao guessed that this might be the energy material that he had been looking for. As long as it was in his hands, it would be much easier to solve his problems in the future.

At that moment, Zhou Hao felt that he had made the right decision.

Zhou Hao immediately rushed forward. He had a rough idea of the Black Dragon’s strength. Although it was not specific enough, he now knew that the Black Dragon was no match for him.

Moreover, the Black Dragon mecha couldn’t do anything to him now. It could only be abused by him.

Zhou Ziyun was completely dumbfounded when she saw Zhou Hao rushing forward like a hothead. She had never thought that things would turn out like this.

“Forget it, I’ll just die!”

Zhou Ziyun also rushed forward. She had made a bet in her heart. Zhou Hao was the one who brought hope to them. If Zhou Hao was gone, they would end up in the same miserable state.

Therefore, Zhou Ziyun thought that it would be better to do what needed to be done now than to end up like this.

Zhou Ziyun rushed forward with him, but she soon realized that she had been wrong.

How was that possible?

Zhang Long was also shocked. He didn't expect Zhou Hao to be able to suppress his Black Dragon mecha. In terms of strength, Zhou Hao was now ahead of him.

Zhang Long's face turned unsightly. He now knew that Zhou Hao was the most troublesome enemy of his family.

This time, Zhang Long immediately realized that he had touched an iron plate. He immediately made a decision.

"Your Excellency, I was blind to have offended you. Now, please be magnanimous. I'm willing to give you a satisfactory compensation!"

Zhou Hao's hands paused for a moment, then he pretended to be very interested.

Seeing this, Zhang Long thought that he was convinced, so he continued,"

"As long as you're willing to stand by and do nothing, once I destroy the Hong Yue clan, half of the star field controlled by the Hong Yue clan will belong to you!"

Although that was what he said, Zhang Long was thinking that it would be a different story when the time came.

However, this time, Zhang Long had underestimated Zhou Hao, even though his offer was tempting and almost irresistible.

Unfortunately, this time, he was facing Zhou Hao, who would never agree to such a thing.

Zhou Hao was not an idiot. He knew what was the best plan now.

Zhou Hao thought that he was helping the Hong Yue family, but he said,""Really?"

Now, Zhou Hao felt that if someone could give a professional evaluation of acting, he would definitely be an actor at the level of a movie King.

"Your Excellency, my Black Dragon Family is a man of our word in this star field. We always keep our word. We're absolutely true!"

Zhang Long said in a hurry.

The surrounding mercenaries were all cursing in their hearts. If the Black Dragon Family was a man of his word, then no one in the star field would keep their word.

Although they knew that the Black Dragon Family was treacherous and two-faced, they didn't dare to say anything. If they did, trouble would come from their mouths. Therefore, they chose to keep it a secret.

Zhou Ziyun was panicking. She didn't expect things to turn out like this. She thought that she had finally convinced him.

"As long as you're willing to help me, I'll give him whatever he can give me. I'll give him whatever he can 't!"

Zhou Ziyun bit her lip and made a decision. If she could save her family now, she would even devote her life to Zhou Hao.

Zhou Hao also understood the meaning of this sentence and fell into deep thought.

Seeing that Zhou Hao was still considering, Zhang Long hurriedly said that he was willing to help him find beautiful women after dealing with the Hong Yue family.

Zhou Hao naturally did not believe Zhang Long. Seeing that Zhang Long had already believed what he had said earlier, he suddenly felt that it was meaningless.

It seemed that Zhang Long was still lacking. Zhou Hao was determined to help Zhou Ziyun.

Zhou Ziyun was more courageous, unlike Zhang Long, who had lost his advantage and was now in a mess.

Also, he hated lying.

Zhang Long had already lied just now, which meant that he had gone to work with him.

Zhou Hao didn't want to cooperate in the first place, and now he didn't want to cooperate even more, so he knew what to do next.

"Young master Zhang, I'll give you a chance now. Attack. If you can hurt me within three moves, I'll leave immediately. If you can 't, I'll have to send you on your way!"

Zhou Hao's words were very clear now.

Instantly, Zhang Long glared at him. He knew that he had been tricked, but he didn't dare to say anything.

Zhou Hao's power was unfathomable, and now that Zhou Ziyun had joined forces, he was already at a disadvantage. There was no way he could handle this matter.

Zhang Long no longer had the intention to continue with his previous plan. He only wanted to leave this place and preserve his strength.

As long as their family still had mechas, they would have a chance to make a comeback. Otherwise, they would not be able to achieve what they wanted no matter what they did.

Zhang Long wanted to leave with his mecha right now, but he knew that he had no other choice.

So, Zhang Long took a deep breath and suppressed his anger.

“Alright, I’ll do as you say!”

Seeing that Zhang Long had surrendered, many powerhouses were dumbfounded. Some of them even misheard.

“The Black Dragon Family actually admitted defeat. Am I dreaming?”

“Zhang Long of the Black Dragon Family is actually willing to compromise. This is too unreal!”

It was no wonder why these experts had such a big reaction. The Black Dragon clan was one of the top clans here, and they were very overbearing.

It could be said that it was like thunder to their ears, and it was a clan that their ancestors had to bow down to.

This family could be said to be invincible in this star field.

Zhang Long was one of the more arrogant ones in the family.

It was just that they did not expect that this insufferably arrogant young master would actually compromise now.

When they thought about how strong Zhou Hao was, they immediately understood what was going on.

Now, they were getting better and better. Where did this Zhou Hao come from? his current strength was simply strange and unpredictable.

This was the first time in their lives that they had encountered such an expert.

They were not the only ones who were curious. Zhou Ziyun was also curious. She wished she could open Zhou Hao’s head and see what was inside.

In Zhou Ziyun’s eyes, Zhou Hao was very mysterious now. He was a complete secret from head to toe.

“I’m ready. Sir, you can attack now. Come, I hope you can keep your word. Three moves!”

Zhang Long gritted his teeth, thinking that he only had to withstand three moves now. As long as he could withstand three moves, he could still prepare how to deal with the Hong Yue family.

At that time, he would still have time to deal with the Hong Yue family.

However, he did not know how terrifying Zhou Hao was.

Zhou Hao stretched out his hand, bent his fingers, and clenched them into a fist. Then, he punched forward.

Immediately after, Zhang Long regretted it. However, it was too late for regrets. It was quickly replaced by horror.

“How could this be

On this seemingly weak fist, there was an unending power that was unrivaled.

Chapter 1096 - Black Dragon Family exists in name only

Chapter 1096:-Black Dragon Family exists in name only

The first move had ended, and the experts of the major forces were all dumbfounded.

This was simply terrifying.

In the next moment, the atmosphere changed. Many people looked at Zhou Hao with admiration.

This was the expert they should worship.

On this planet, most of them relied on external means to deal with the mutant beasts, and had no way of fighting back.

This was the power that they had been longing for. They had never thought that Zhou Hao would have such power.

“So it was me who was blind. Senior, please accept me as your disciple!”

A few of them immediately knelt on the ground and said with excitement.

They made a prompt decision. Many people wanted to do so, but they didn't do so because this kind of expert didn't lack disciples.

Zhang Long was in disbelief. How could this be? the Black Dragon he was so proud of couldn't even hurt a hair on Zhou Hao's head.

This made Zhang Long feel that it was unreal.

However, seeing the huge pits on the ground and the traces of battle left behind by Zhou Ziyun's Red Moon mecha, he knew that it was all real.

“All of you, come over and help me. Hold on for a while!”

Zhang Long said to his subordinates behind him. They were all part of the Black Dragon Family. After some hesitation, they could only go up and block the front.

“Yes, young master!”

They were the men of sacrifice of the Black Dragon Family. Even if Zhang Long asked them to die, they had to do it.

Zhou Hao frowned. He had only allowed him to make three moves, but this kid did not care about martial virtue. Now, he actually wanted his people to gang up on him.

“Young master Zhang, if you do that, I'll be really angry!”

Originally, Zhou Hao only wanted the Black Dragon Family to submit to him. But now, he was angry and wanted the Black Dragon Family to disappear.

Zhang Long didn't know that his stupid choice had cost his family the best chance to survive. If he knew, he wouldn't have done it.

Unfortunately, he had chosen to do so.

What are you all doing? all of you, attack! I don't care what you do, kill him! Remember, you must kill him!

Zhang Long told his dare-to-die fighters.

Although he said so, he had another thought in his heart.

Escape!

That was what he was thinking. From the moment he could not hurt Zhou Hao, he knew that this mecha could not do anything to Zhou Hao.

The Black Dragon mechas used by the kamikaze Warriors were only the low-end version. The power they could display was not even half of the combat power of his current top-tier Black Dragon mecha. They were no match for Zhou Hao at all.

Zhang Long chose to run away as soon as the men of sacrifice surrounded Zhou Hao.

He ran away?

Many forces were dumbfounded. They had never thought that the high and mighty young master of the Zhang family would run away just like that.

The red moon Young master, Zhou Ziyun, was also dumbfounded.

Zhou Ziyun had thought that there was little hope of ending the battle now. She did not expect him to recover his strength so quickly.

Zhou Ziyun immediately gave chase.

On the other hand, Zhou Hao easily sent these men of sacrifice flying, one punch for one child.

The people from the various major forces were all overwhelmed with emotions. They were also mercenaries, and they traveled to and from various nebulas and star fields.

They naturally yearned for this kind of power and yearned for it. As long as they had this kind of power, they would definitely be the top of the Rangers.

As long as it became a game, they would be able to raise their status very quickly, from black iron mercenaries to bronze mercenaries of a higher level.

Some of them had already decided to go and find a master after the battle.

However, they did not know that they had lost this opportunity.

After Zhou Hao dealt with the black mechas, he immediately gave chase, even though Zhang Long's mecha was already damaged.

However, it was more than enough to kill Zhou Ziyun now.

This was what he wanted to cultivate. If he died now, it would be a headache in the future.

After a while, the kid caught up and saw that Zhang Long had been surrounded.

Many of the red moon clan's mechas had been scrapped. They were suspended in the air and had lost their ability to move.

Zhou Ziyun's Red Moon mecha was not any better off. It had also suffered significant losses. If this continued, it would only increase.

Luckily, he made it in time. Zhou Hao attacked and destroyed Zhang Long's Black Dragon mecha.

BOOM!

Zhang Long and the Black Dragon mecha exploded and disappeared.

Zhang Long couldn't be any more dead. Not even his bones could be found.

Zhou Ziyun opened the door of the red moon mecha and walked out, tears of gratitude flowing down her face.

"On behalf of the entire Hong Yue family, I offer you the highest respect!"

Zhou Ziyun knelt down on one knee and stared at Zhou Hao.

Zhou Ziyun's eyes were also filled with fire. She thought that it would be great if she had this kind of power. If she had this kind of power, the red moon family would definitely be able to expand the battlefield and conquer the surrounding star fields.

Although the red moon family was the biggest family in the M3 Nebula, it was a small family in the star field.

In this place, the Zhou family could only increase their strength by purchasing mechas. This was far from enough.

Zhou Hao felt uncomfortable being stared at. He felt that the look was strange, as if a mutated beast was longing to possess his body.

When he was still a student on Earth Star, he had encountered such a situation. He had no choice. He had the system to improve his body to the level of a mutated beast.

This was a power that many cultivators and living beings desired.

Zhou Hao knew what Zhou Ziyun was thinking, so he said, "I know what you're thinking. Let's go. Take me to your family. I'll pick a group of core seeds from your family to help them. From now on, you're my friend, and I'll do my best to help you!"

Zhou Ziyun was overwhelmed by the unexpected favor. This stranger was so good to her that she felt like she was in a dream.

"May I know the venerable one's name?"

Zhou Ziyun said with great respect.

Zhou Hao felt very uncomfortable. After all, they were of the same age. He coughed lightly and said, "From now on, we're friends. We're helping each other now, so you don't have to treat me like this!"

Zhou Ziyun, on the other hand, felt that this was only natural. However, now that Zhou Hao had said so, she tried her best to accept this identity.

Zhou Ziyun was flattered. Zhou Hao had actually treated her as a friend. This was a great honor.

Chapter 1097 - -helping

Chapter 1097:-helping

"My name is Zhou Hao. You can call me Zhou Hao from now on. I'm not here for any other reason. You just need to know that my hometown has been attacked by mutated beasts and I'm here to find resources. I have no other intentions. Don't worry about me having any ill intentions!"

Zhou Hao was Frank and outspoken. He said everything he needed to say without reservation. Not only did he want to be honest with her now, but he also wanted to do things more smoothly in the future.

Although he had helped the Hong Yue clan, his current strength would inevitably cause people to worry. After all, he was the strongest person in this star field who didn't need to rely on external items.

This kind of misunderstanding had happened before, and with the previous example, he had no choice but to say this.

If it was during peaceful times, there would be no need for this. However, ever since the appearance of the spatial Rift and the emergence of various mutant beasts, the situation had changed.

These mutated beasts were crazily plundering their territories, and many families were in fear.

At this time, their living space was constantly shrinking, and part of the reason was that outsiders had forcibly occupied the land.

At this time, it was normal for them to be nervous.

After all, even Earth Star, which was under his protection, was not completely out of danger. Many places were in danger.

He didn't continue to think about that. Since he had already entered the territory of the mutant beasts, he only needed to continue searching for resources. Once he found enough resources, he would leave this place.

Therefore, he didn't want to have any conflicts with anyone here, which would cause him to continue staying here.

Only after he had solved all these problems would the rest of the problems he wanted to solve be much easier.

"Senior, even if no one believes you, I will still believe you. After all, without you, I will die, and my family will die. If senior really wants to kill me for my money, you can take my life at any time in the future!"

To Zhou Hao's surprise, Zhou Ziyun had complete faith in him.

Seeing that she was so at ease, Zhou Hao thought that he was overthinking it.

"Take me there. I think your family needs my power to improve its strength!"

Zhou Ziyun nodded and led the way. Her family really needed strength now, and it was far from enough before.

Even before Zhou Hao's arrival, Zhou Ziyun's family had already taken on the responsibility of fighting against the void mutant beasts. They had been fighting against them every year.

Many years had passed. While her family had benefited, they had also suffered countless casualties.

However, they were forced to fight, if it were not for the appearance of the mutant beasts, their families would not have been willing to get involved.

“Senior, please!”

When Zhou Hao arrived at Zhou Ziyun’s family, he realized that he had been overthinking. The Zhou family did not suspect his identity at all.

When the Zhou family’s head saw that Zhou Ziyun had brought him back, he immediately treated him as a guest and welcomed him warmly.

What Zhou Hao did not know was that the news of his battle had already been spread to the Zhou family on this planet through the live broadcast.

Everyone on this planet was watching the live broadcast. When they found out that a mysterious expert had appeared out of nowhere, they were the focus of the entire world.

Especially when they heard that the young master of the Zhang family of the Black Dragon Family was going to war with the Hongyue family, the world’s attention was focused on the winner.

When the Zhou family saw the Black Dragon mecha, they were all disheartened. They thought that the Zhou family was doomed this time.

They had never expected that a mysterious expert would appear out of nowhere and actually help their Zhou family resolve their problems.

They didn’t know why he did it, so they were suspicious before.

The Zhou family had their own speculations. They suspected that a mysterious power was trying to gain the Zhou family’s trust and destroy the Black Dragon Family with the Zhang family.

However, after seeing this mysterious expert help them destroy the strongest Black Dragon mecha of their nemesis, the Zhang family, all their doubts were dispelled. What replaced it was trust.

Therefore, they had already made preparations and set up the banquet.

When Zhou Hao entered the Zhou family’s Manor, he saw a large table of wine that was equivalent to a Manchu Han Imperial Feast. There were many unfamiliar faces in the Zhou family’s luxurious Manor, but when they saw him, they all showed a friendly smile.

Zhou Hao was puzzled. It didn't make sense. The Zhou family's technology was already leading in this star field, but the strength of the people here was so trashy that it was unbearable to look at.

He really couldn't figure out why this was happening. If he hadn't seen it with his own eyes, he would never have believed it.

Zhou Ziyun seemed to have noticed his confusion and asked, "Is there a problem?"

Zhou Hao nodded, then asked the question in his mind without thinking.

Before Zhou Ziyun could say anything, the Zhou clan leader, Zhou Lingtian, explained that there had been a chasm in their clan's bloodline.

In the records of ancient times, their predecessors were all powerful. At that time, they paid attention to forging iron as well as their own strength.

However, after that, for some unknown reason, everything fell into silence. As a result, they did not have such an expert appear now.

Zhou Hao immediately knew what was going on and said, "Zhou family head, I think I know what the problem is. Can you find me a dozen of the Zhou family's younger generation?"

Zhou Lingtian immediately went to call for his men. Although he did not know why he was doing this, he knew that he only needed to follow Zhou Hao's instructions.

Not long after, more than ten Zhou clan's juniors appeared before Zhou Hao.

"You, come here!"

Zhou Hao pointed at a girl and beckoned with his finger.

The faces of the younger generation were all red with excitement. In fact, they had also watched the live broadcast. They were all members of the Zhou family, and they were all paying attention to the battle that concerned the life and death of the two families.

Even though the Zhang family still existed now, ever since the outcome of the battle was decided, the Zhang family already existed in name only.

The one who had exterminated the Zhang family was this senior who seemed to be around their age. Now, they were all very excited and knew that this senior definitely wanted to help them.

The pretty girl immediately walked in front of Zhou Hao and greeted him respectfully, "Senior!"

Zhou Hao asked the girl to extend her hand, and she immediately did so.

Zhou Hao grabbed his hand and felt that it was soft and smooth. After a while, he realized that it felt good, so he touched it a little longer.

“Senior?”

It was only when the girl’s face turned red that Zhou Hao realized that he was being a little improper. He immediately looked at her carefully.

Chapter 1098 - -found the problem

Chapter 1098:-found the problem

Zhou Hao looked at them for a while and finally figured out what was going on. It turned out that these people’s bloodlines were severed. Their bloodlines should have been severed, but due to the advancement of technology on this planet, it had degenerated and blocked their meridians. That was why they could not improve their own strength.

“I’ve found the problem. I have some pills here. Take them back and consume them. After that, cultivate according to the instructions in this book of mine. As long as you can reach the first level within three days, come and find me. If you can’t, there’s no need to come!”

This family had a lot of resources. It would be a pity if they didn’t nurture them now.

Therefore, the Zhou family had now become part of Zhou Hao’s plan to cultivate his power.

“Many thanks for senior’s gift!”

The ten of them were extremely excited. This reward was more valuable than any reward they had received before.

If they could obtain such a reward, they would become as powerful as this senior in the future.

Although they had their own thoughts, their ultimate goal was to eradicate the mutant beasts that had caused them to live in misery.

Although they couldn't become as strong as this senior, they could at least fight against those mutant beasts.

The reason why the Zhang family could be on equal footing with the Hongyue family was that they had the Black Dragon mecha, which was enough to fight against the mutant beasts.

The red moon family was the same. They had the red moon mecha, but their mecha was created by their ancestors after several generations. It was only the top model of the red moon.

If they could become stronger, then the strength of the family would rise to another level, and it would not be so difficult to deal with those mutant beasts.

The Zhou family head and Zhou Ziyun were both very surprised. They found that there seemed to be a force moving restlessly in their bodies.

Their eyes were immediately filled with desire. Now, they felt a kind of attraction from these pills and books.

These pills and books could change their lives completely.

"Mr. Zhou, I'm willing to use my family's assets to exchange for it. I don't know if you're willing to do so!"

Very soon, Zhou Lingtian could not hold it in any longer. He knew very well that these medicinal pills and books were very precious. They had already surpassed the value of the red moon mecha.

He could see the desire in Zhou Lingtian and Zhou Ziyun's eyes. In fact, even if they did not say anything, Zhou Hao would have given it to them.

After all, he didn't want to nurture just the dozen people in front of him, but the entire Zhou family.

As long as the Zhou family rose up, they would definitely be able to give him a helping hand in the future. In the future, it would be easier for him to fight for territory in this universe.

Due to the constant plundering of resources by the mutant beasts, many of the galaxies were struggling to survive, hence, resources were extremely rare.

There were not many resources left on Earth Star. If they wanted to rise, they could only look outside. Only by obtaining enough resources outside could they speed up their improvement.

Earth Star was currently unable to upgrade itself through internal consumption. Hence, it could only look for resources from the outside. However, the competition outside was even more brutal. It was often a war between star fields.

However, a galactic war would not happen easily. It was just that Zhou Hao had become more cautious after a series of events.

The main thing was that he knew that as long as he was careful enough, he could do what he wanted perfectly.

He had done a lot of things before, but the result was still the same, so now he could only do his best.

“Zhou family head, please don’t say such things in the future. Miss Zhou and I are friends. Besides, we have a common enemy now. Mutated beasts are the aliens of the entire universe. What I’m doing now is only natural!”

Zhou Hao’s words made many of the Zhou family members admire him even more. In their eyes, Zhou Hao was already emitting a brilliant light.

Zhou Hao was actually so broad-minded that he did it for the entire universe.

They had only seen one person like Zhou Hao.

If it was another star field, as long as they seized the opportunity, they would create division and snatch resources. They would not care about whether other star fields would be invaded.

“On behalf of everyone on this planet, I would like to thank Mr. Zhou for everything he has done. We will always remember Mr. Zhou’s great kindness!”

Zhou Lingtian was filled with respect, as well as yearning and longing.

If one day, he could become such an expert, then he would learn from him.

Many experts had already set their eyes on the top of their heads and looked down on all living beings after leaving their own star fields. They simply didn’t care about the life and death of ants like them.

However, Zhou Hao was different from the other powerhouses. He was treating them with such sincerity.

Zhou Lingtian continued to exchange pleasantries before he went off to entertain other guests. This was because the Zhou family was already the largest and strongest family on this planet. They would have a lot of time to work on from now on.

Some of them wanted to join the Zhou family, including the marriage. These were all things that needed to be done.

Zhou Ziyun followed Zhou Hao every day. As long as Zhou Hao had any orders, she would be the first to help him.

Zhou Ziyun, the young master, had become a maidservant, but she didn't complain and followed behind him every day.

From Zhou Ziyun's point of view, since the day Zhou Hao saved her, her life had already belonged to him.

Even if she were to use her entire life to repay him, she would never be able to repay Zhou Hao completely. So now that she was unable to repay him, she would use her entire life to repay him.

Zhou Hao did not know Zhou Ziyun's thoughts. He only thought of her as a tour guide to understand the situation on this planet and the surrounding planets.

Now, he needed to know all this and arrange his future plans. He wanted to help the Zhou family tide over this crisis by himself, so he would ask the Zhou family to help him find resources.

When he found the resources he wanted, he would prepare for the next plan. His previous plan had begun, and he only needed to complete the plan step by step.

After all of this was done, the things he needed to solve would be much easier, and time would be almost up.

While Zhou Hao was learning more about the planet ...

It had also caused a great sensation in the major star cities!

Countless forces were now flocking to the Zhou family, and the people who visited them every day were all in large numbers.

They all wanted to invite Zhou Hao.

The Zhou family refused to let them in. They had already received enough visitors before this. If they came again, they would probably become a market.

However, even if they could not enter the Zhou family, there were still many people waiting outside. They all wanted to see Zhou Hao.

On the same day, the interstellar city where the Zhou clan was located had a huge increase in the number of people coming and going. The hotels and some accommodation places were all full.

When the Zhou family knew about it, they were filled with joy. Naturally, they were happy to see this.

From now on, their Zhou family would become the only super family in this place.

With the help of this expert, their Zhou Jiajiang would be able to reach an unprecedented height.

Chapter 1099 - The training begins

Chapter 1099: The training begins

Zhou Hao knew nothing about the outside world. Now, he was completely oblivious to the outside world.

It wasn't that he didn't care, but he had received a reward from the system and discovered something more important.

The system had issued a mission to capture at least 10 King-class mutant beasts on this planet.

After completing the mission, he would be able to obtain a King-level reward.

This was the first time he had heard of the system issuing a mission at such a critical moment.

Zhou Hao was overjoyed. This was exactly what she wanted.

"Go and gather your family members. Tell them that I've decided to help you again. Anyone who has a year's experience on the battlefield, come over!"

Zhou Hao had now become the most distinguished guest of the Zhou family, and his words were to be spread by Zhou Ziyun.

In a short while, the Zhou clan's most powerful experts gathered in the Zhou clan's courtyard.

If they didn't know each other, these top powerhouses would definitely look down on them. However, after watching the livestream, they were now full of admiration.

Zhou Hao was definitely the person who could bring them out of the dark. He was now their spiritual leader.

"Your Excellency, even if you ask us to go through a mountain of daggers and a sea of flames, I definitely won't even frown!"

"Sir, if there's anything you need us to do now, feel free to do as you please!"

The Zhou family members were all fired up. They knew that they were going to do something big, and it was not a small thing.

Zhou Hao looked at them like an instructor and said.

"This time, there's a high chance of death. I can give you another chance to reconsider if you want to go now. I don't want to see anyone run away and drag down your teammates!"

Zhou Hao had encountered this kind of situation before. At that time, she was stronger, so she was able to solve the troublesome problem.

Things were different here. After all, they had to deal with the king-level mutated beasts, which were even more terrifying than the ones they had encountered on earth.

Of course, Zhou Hao had the ability to solve this problem. However, he wanted the Zhou family to possess this strength as soon as possible. Only by improving as soon as possible could they give him a helping hand.

With their current strength, they were probably not even enough to fill the gaps between his teeth, so he knew what he could do now.

"Mr. Zhou, don't worry. I will lead the team this time. If anyone dares to run away, I will be the first to kill him!"

A big man with a knife scar on his face walked out from the crowd and patted his chest. Then, he glared at the people behind him.

Zhou Hao waited for a while, and seeing that no one had left, he brought them to the battlefield on the planet.

It was also the place where the mutant beasts had come from. In order to improve their strength, Zhou Hao had deliberately found the most dangerous area.

"I know that this is a lot of pressure for you, but as long as you do as I say, I guarantee that you will be very grateful for what I'm telling you in the future!"

Zhou Hao looked ahead. There was a plain in front of him, and not far away, there was a pitch-black crack, so deep that he couldn't see the bottom.

This was where the mutated beasts came from. Zhou Hao was thinking that as long as he could solve this problem, there would be nothing to worry about in the future.

The Zhou family members were not suspicious. They were just very nervous. The pressure was not small.

They had yet to enter the battle, but their legs were already weak.

Only a few of them were able to stand up straight. Most of them were nervous and in a state of shock.

Seeing that no one had left, Zhou Hao was very satisfied. It seemed that he had made the right choice this time.

'As long as these people don't leave, I can continue to develop according to my previous plan, and the final result might be different from what I want.'

However, at least he now knew how to do this right now.

Only by doing this well could he make his current subordinates strong enough to fight against these mutant beasts.

If they couldn't improve, then all his previous plans would be in vain, and he would have come for nothing.

This trip wouldn't take long, but it might waste his precious golden time. There wasn't much time left before the next wave of stronger mutant beasts came out. He needed to race against time.

Roar!

They had only been standing not far away from the place, but they could already hear the roar of a mutated beast. It seemed to be warning them that they had entered the mutated beast's territory.

“Here’s the medicament that I’ve prepared for you. As long as you take it, it’s up to you how much spiritual energy you can arouse in the battle!”

Actually, Zhou Hao did not say that he had already done what he should.

He wanted to give them more and better things, but now that he thought about it, it seemed more important to improve himself.

“Charge! This is Mr. Zhou’s gift to you. If you can’t even grasp this opportunity, then you can go back and never come out again!”

The scar-faced man in the lead reprimanded the Zhou family members who were still standing behind him.

These people then began to move forward. As they entered the depths of the abyss, the roars became louder and louder.

When they got closer, they were all trembling with fear, feeling as if they were fighting against a mutated beast.

If it was before, they would naturally be fearless. However, without the red moon mech, they could only fight with their bare hands.

Seeing that they were unable to adjust to their current state and get used to the simple equipment, Zhou Hao could only choose to take the lead.

“All of you, watch how I defeat these mutated beasts!”

Zhou Hao could only teach him this once. This was a battle calculation he had learned in school. Although it was simple, it was very practical.

Many students had used this move before they were lucky enough to survive.

Facing these mutated beasts, Zhou Hao felt like he was facing a familiar game. They were like wild monsters in front of him.

“Mr. Zhou, you’re awesome!”

The members of the Zhou family behind him all had interesting expressions on their faces as they looked at Zhou Hao in disbelief.

They had never thought that a single person could easily deal with a mutated beast with his combat skills.

They did not look down on the mutant beasts just because Zhou Hao could deal with them easily. After all, they were the ones who had brought disaster to their planet.

Now, they worshipped him even more. They felt that they were really lucky. If they had not met Zhou Hao, they would have been completely finished.

Chapter 1100 - extraordinary performance

Chapter 1100:-extraordinary performance

“Everyone, let’s charge together! Don’t let Mr. Zhou down!”

Under the leadership of Zhou San, all the Zhou family’s juniors rushed forward.

These mutated beasts probably never thought that these people could have such a brave side, so they were caught off guard in this situation.

“It’s just as Mr. Zhou said. As long as we gather our courage now, we can also do this!”

A few powerhouses felt a surge of power in their bodies and were very excited.

They didn’t have any more concerns and released all their power.

“Hurry up and run!”

“This is a group of monsters!”

“These humans are so scary. I’m going to find my mother now!”

These mutated beasts were all running for their lives, not expecting things to turn out this way.

The people who had originally become food were now able to resist them.

“Hahaha, that’s great. Mr. Zhou, from now on, my life is yours. You can order me around at any time!”

The experts of the Zhou family were all sweating profusely. They were extremely excited. They had never thought that they would be able to have such a satisfying battle.

In the past, it would have been best for them to give up. However, things were different now. This was a battle that could make them stronger.

The experts of the major clans in the live broadcast room were all envious and jealous. Why didn't they have such luck?

Most of these planets relied on technology, but their technology could not make them as powerful as mutated beasts.

Therefore, they had been passive in the previous battles, but they also knew that as long as they obtained the same power, they could do things that were impossible for them before.

The experts of many tribes had made up their minds to go to the Zhou family in the future. The Zhou family had become a Holy Land that many tribes wanted to go to.

Zhou San and a few of the core members of the Zhou family were all very excited. They could do whatever they wanted after controlling it.

Now, they were sure that what they were doing was right. They were sure that this was what they should do now.

"Mr. Zhou, there's a King-level mutated beast here. I'll leave it to you!"

At this time, Zhou San saw a mutated beast walking out from the inside. This King-level mutated beast was easy to spot.

This kind of King-level mutated beast was the strongest.

"Alright!"

Zhou Hao walked up, but as he did, he realized that there was a person sitting on the beast. He didn't know who it was, but he was sure that it wasn't someone from this star region.

"I don't know who you are, but I just want to tell you that your life has come to an end!"

Since this man was with a mutated beast, he must be up to no good. Therefore, Jiang Nan thought that he was already dead.

The mutant on top said in disdain, "Human powerhouses are just like ants. In the face of absolute power, you're still vulnerable. I've killed many people like you who overestimate their own strength!"

Hearing this, Zhou Hao laughed. He did not expect to meet such a powerful enemy that could give human powerhouses a headache.

He had been to the mercenary Alliance before and knew that some bounty missions were very special. As long as such missions were issued, it would attract attention.

This was because the rewards of such missions were very rich. As long as they completed these missions, they would be able to level up and go further in the future.

This was the goal of many powerhouses, a mission that many powerhouses wanted to complete.

Zhou Hao had never thought that he would encounter such a mission when he was still an official mercenary. He felt that the heavens were really kind to him.

In the next moment, Zhou Hao charged forward. He was now as fast as lightning.

“You’re overestimating yourself!”

However, from the mutant’s point of view, Zhou Hao’s attempt to fight against the mutant beast with his weak human body was equivalent to seeking his own death.

“How is that possible?”

However, when the mutated beast groaned in pain, the mutant realized that it had lost a leg.

The reason why he could find it was because he could feel the pain. He was one with the mutated beast, so when the mutated beast was injured, he would be injured too.

He had already become one with the mutated beast, so why was he still injured?

The mutant’s face was filled with malevolence. This was different from what he had expected.

“How could this be? how could this be?!”

The mutated human racked her brains but still couldn’t figure out what was going on.

It would be strange if he could figure it out.

After all, Zhou Hao had the system’s help and he had already broken the shackles that prevented many powerhouses from absorbing energy.

This kind of shackle existed on every planet. It was like a chain that bound them, making them passive in every way.

He had broken through the shackles, so he could be as strong as the mutated beasts. No, to be precise, he could be stronger.

“I’m going to kill you. I won’t let you live. Your existence is a great threat to me. You must die now!”

The mutant beast was extremely jealous. It would never allow a human to fight against it. It had never thought that it would encounter such a situation on its first battle.

Zhou Hao found it funny. This mutated beast was like a child. It was so determined to win.

No wonder the mutant beasts had yet to take over all the planets. Zhou Hao finally understood why they still had enough time to catch their breath.

“Mr. Zhou is too strong. Although we can’t be as strong as him, we can’t fall too far behind. We have to work hard to catch up with Mr. Zhou’s footsteps. All of you, show me everything you’ve got!”

Zhou San said to the Zhou family behind him. He was in high spirits.

The Zhou family was the same, and so was Zhou Lingling, who had received help before. Now, she only wanted to improve herself and protect the Zhou family.

This would definitely allow the Zhou family to complete an unprecedented battle. As long as they could complete all of this now, the Zhou family would definitely be able to rely on this great achievement to become the most powerful Zhou family in the world.

The Zhou family had been unable to deal with the mutated beasts because they were not strong enough in the past. They had suffered too many losses, but it was different now. As long as they were strong enough now, they would be able to do many things in the future.

The Zhou family would also welcome a period of glory. This was something they didn’t even dare to think about before.

“I killed a single-horned bull. Hahaha, I’m a genius too!”
