

Starting With One Million Luck Points

Chapter 1233 - pter 1233-all in one throw

Chapter 1233:-all in one throw

The space-splitting beast roared. It had never thought that it would encounter such a thing.

“It’s all because you ruined my plan. I’ll definitely burn your bones and scatter your ashes. Letting you die would be letting you off too easily!”

Zhou Hao frowned. This space-ripping beast was one of the strongest, but with its temper, it was not going to do.

Also, why did this space-ripping beast look so familiar?

However, after thinking for a long time, Zhou Hao could not remember where he had heard it before.

She could feel that this might have something to do with something, but when she tried to recall, she couldn’t remember what it was.

“Divine sun fist!”

Zhou Hao easily dodged the first attack, and at the same time, he threw another punch.

His body was also emitting glaring sunlight. It was so dazzling that it was as if he had transformed into a small sun.

“Eat my fist!”

Then, in the eyes of all the netizens in the live broadcast room, Zhou Hao punched out.

BOOM!

The moment it was smashed out, a long tunnel appeared, and it was filled with flames.

.....

In the end, it hit the space-ripping beast.

Bang Bang!

In an instant, the space-splitting beast was sent flying. It broke through many mountains and finally crashed into the forest.

Huge rocks rolled down, and the mountains shook.

“Human, you’ve already reached the peak of the godly state. How is this possible?”

The space-splitting beast was extremely shocked and exclaimed in disbelief.

The netizens on the various planets in the live broadcast room were all stunned as if they had been struck by lightning. They had been guessing that Zhou Hao might be in the harmony realm.

He did not expect that Zhou Hao had already entered the godly state and had even reached the peak of it.

Even the old monsters from the various divine nations were no better.

“Monster! He’s a complete monster!”

“This time, earth is going to take off. With him around, even if the mutant beast horde appears in advance, the people of Earth will be able to rest easy!”

At the same time, the netizens of many planets and star fields had the same idea. They wanted to join earth and become its residents. This would become their best shelter.

When they heard this news, many people had already made preparations to head to Earth Star.

“This kid always gives us unexpected surprises!”

Anina’s father was also very excited.

This was a son-in-law of a warlord, and most importantly, he was at the peak of his cultivation.

Many old monsters were also shocked. They didn’t expect that a junior would be able to reach the same level as them so quickly.

“The future generations are formidable!”

At this moment, those who originally did not acknowledge planet Earth had now acknowledged such a poor planet in the star field.

“The waves behind push the waves in front. Hehe, you have a bright future!”

It was also at this moment that many old monsters from the major forces began to secretly plan to find a rich husband for their own family.

“Kid, you can be proud of yourself for being able to hurt me. However, if you want to kill me with this level, you’re simply overestimating your own strength!”

The space-splitting beast flapped its wings, and cracks appeared in the sky.

It was as if a knife had flown out, creating countless cracks in the sky.

At the same time, a storm appeared in the center, sweeping the earth.

This was another skill of the space-ripping beast.

Zhou Hao’s expression changed slightly. This mutated beast could actually use skills. It seemed that the damage it had caused him before was not much.

This also meant that his current cultivation level was definitely not enough to kill this space-ripping beast.

“Boss, you must be careful!”

Below, Jonina and Yang Yuanyuan were even more worried. The space-ripping beast’s combat skills could be affected even from a distance. Their boss, who was in the center, was in great danger. This was equivalent to walking on the tip of a blade.

“Leave the battlefield, as far as possible. I might not be able to do anything to him for a while. Go!”

Zhou Hao’s battle uniform could not withstand the cut and was instantly reduced to dust. His heart sank. He finally knew how terrifying a patrol realm mutant beast was.

Even if there were 100 immortal State Warriors, they would not be able to kill the space-splitting beast.

Therefore, he could only let the two of them leave this place. Otherwise, if he couldn’t settle this matter, he would immediately fall into a rather dangerous situation.

Jonina and Yang Yuanyuan immediately left the battlefield.

Ockas hesitated for a moment, but she still gritted her teeth and left the battlefield with her team.

“As expected, it still doesn’t work?”

The emperors who were watching the live broadcast all let out faint sighs.

The emperors were also disappointed. They did not have high hopes for Zhou Hao, but they had high hopes that a peak-stage immortal state warrior could fight against a patrol realm mutated beast.

After all, not only could the space-ripping beast pose a threat to Zhou Hao, but it could also pose a huge threat to the entire universe.

They were not the only ones who were disappointed. Zhou Hao was also disappointed.

Zhou Hao thought that as long as he reached the peak of the immortal state, he would have the power to fight.

He didn't expect that he wouldn't be able to kill the space-ripping beast.

The space-splitting beast was not only an Overlord in the sky, but it was also an invincible existence in the universe. It could travel through all kinds of space-time wormholes.

The space-splitting beast was too strong, so strong that Zhou Hao felt a sense of powerlessness.

"System, I want to open the blind box!"

Zhou Hao took a deep breath and made a decision.

"The king's treasure chest has been opened. The reward is 100 spring yang ores!"

Zhou Hao didn't stop and continued. If he couldn't kill the space-splitting beast this time, it would only cause the entire universe to fall into turmoil.

"Continue!"

The system continued to open the blind boxes.

"The king's treasure chest has been opened. The reward is 100 spring yang ores!"

Zhou Hao did not stop.

"Continue. I didn't ask you to stop. Just keep going!"

The system once again opened the remaining blind boxes in his inventory.

"100 points!"

“You’re rewarded with ten peach blossom points!”

As Zhou Hao fought, he listened to the rewards ring in his ears.

However, Zhou Hao was very disappointed. He realized that none of the rewards were what he wanted.

Zhou Hao could only continue to wait. This was too critical. The appearance of the space-splitting beast in this area was already very strange.

Zhou Hao suspected that this might be the starting point of the emergence of mutated beasts.

If this was the case, it meant that dealing with the mutated beasts was the most important task for him since the beginning.

This time, he had to settle this matter.

“Human, although your body is comparable, your blood essence is too little. This is the difference between bloodlines. You humans are destined to be no match for us mutated beasts. You are destined to have inferior bloodlines. You will lose!”

Although the space-splitting beast was injured, its recovery was amazing. It had only been a short while, but more than half of its wounds had recovered.
