

Starting With One Million Luck Points

Chapter 151 - Taste of Sweetness

Chapter 151: Taste of Sweetness

He remembered very clearly that before consuming his luck points, these numbers were not there.

They only appeared after the luck points were consumed!

While Zhou Hao was in a daze, the number behind the Bloodline Pill had already decreased to 210 and was still decreasing rapidly.

When the number got to 21, Zhou Hao regained his senses and thought of a possibility.

He hurriedly clicked on the Bloodline Pill and gave away 30 Bloodline Pills.

Immediately, the entire live-stream screen displayed: “‘I am only an ordinary person’ gifted 30 Bloodline Pills... Congratulations ‘I am only an ordinary person’ for receiving the reward multiplied by 1,500 times!

A crisp sound of gold coins sounded in the live-stream.

The users in the live stream were in an uproar!

“Damn!!!”

“1,500 times! Is this what it’s like to be a lucky big shot?!”

“He got the reward multiplied by 1,500 times after just gifting 30 gifts. I’m really impressed. As expected of a big shot. How impressive!”

“Indeed, this big shot is lucky no matter what he does! He’s really impressive!”

“Although the Bloodline Pill is not considered precious... To be able to get the reward multiplied by more than 1000 times the first time, his luck is really off the charts!”

The messages sent by users filled the public chat, revealing deep envy and jealousy.

Many high-level users were silent. Zhou Hao had gotten the reward multiplied by 1500 times after gifting only 30 items. If he could maintain his luck, then he might really be able to dominate the live-stream as well.

After all, all the users knew that the live-stream was the true core of the software.

If he dominated the live-stream, it would probably cause countless storms and change the original situation.

Fairy Yue Ling also hurriedly congratulated him. "Thank you for the gifts, 'I am only an ordinary person'. Congratulations on getting the reward!"

At this moment, Zhou Hao was also feeling excited.

He was not excited because he had won 1,500 times, but because he could actually see how many items he needed to give to get the reward after spending the luck points.

It was even more awesome than the mystery box!

"If I had known that there was such a heaven-defying function in the live-stream room, I would have entered the live-stream room earlier!!"

Zhou Hao was extremely excited, but he quickly shook his head. In this live-stream room, the only way to give gifts was to reach the gold level. Even if he entered the live-stream room early, he wouldn't be able to discover this new way of spending luck points.

"Continue!"

Having tasted the sweetness, he couldn't wait to look at the other gifts.

But at this moment, the number displayed behind the gift gradually disappeared.

"What? 1 million luck points can only last for a minute?" Zhou Hao was dumbfounded. It was not easy to accumulate luck points, but 1 million could only last for such a short period of time.

Fortunately, he had a lot of luck points.

However, he did not immediately spend his luck points. Instead, he filled in the remaining 100 million yuan he had.

Immediately, his account balance became 1,043,200.

He took a deep breath.

A million Heaven Dao coins seemed like a lot. However, if he wanted to give away Concept Pills that cost 5000 coins, he could only give away 200.

Glancing at his luck points, he gritted his teeth and spent another 1 million.

Swoosh.

His gaze seemed to have seen through the list of gifts. The numbers quickly appeared behind the first six gifts. This time, he directly looked at the more valuable Comprehension Leaf, the Physique Cup, and the Concept Pill.

The number behind the Concept Pill displayed 730. The rate of decrease was very slow.

The Constitution Cup displayed 319 points, which decreased rather quickly.

The number behind the Comprehension Leaf read 117, but it was decreasing extremely fast. Soon, the number got to 7.

Through the chat of the live-stream users, Zhou Hao learned that all the gifts in the live-stream were connected. In other words, for the Comprehension Leaf to decrease the number so quickly, it meant that other live-stream users were giving away the Comprehension Leaf.

Swoosh.

In just half a second, the number behind the Comprehension Leaf increased to 2,100.

It couldn't be helped. Zhou Hao could only place his gaze on the Physique Cup.

One Physique Cup cost 2,000 coins, and was the second most expensive item.

"281, 275..." Zhou Hao stared fixedly at the numbers behind. He knew that the numbers would only appear for the next minute. However, the speed at which the Constitution-Enhancing Cup decreased was too slow.

Zhang Xuan gritted his teeth.

When there were only 210 numbers left behind, the luck points indicator was also about to disappear. He simply clicked on the Physique Cup subconsciously and then directly sent out 220!

In the live-stream room, gifts could be given one by one, or in groups of ten. Similarly, one could also enter the number themselves, but it had to be the multiplication of ten.

Ding!

A beautiful sound of gold coins colliding sounded.

Chapter 152 - Testing the Bloodline Pill

Chapter 152: Testing the Bloodline Pill

The live-stream screen displayed “‘I am only an ordinary person’ gifted 220 Physique Cups. Congratulations to ‘I am only an ordinary person’ for getting the gift multiplied by 500 times!

“Damn, is the big shot at it again?”

“The Physique Cup is valued at 2000 coins. He directly gave me more than 200. He spent more than 400,000 Heaven Dao coins! What a risky move!”

“He got it again. How impressive. He got it twice, twice!”

“Fairy Yue Ling should work harder to seduce this big shot!”

“Big brother, please teach me. I want to get the reward too. I’m willing to pay 2 million Heaven Dao coins as tuition fees!”

“Get lost. You want to learn it for 2 million? You’re looking down on the big shot! Any one of the gifts in this live-stream room is priceless. Heaven Dao coins are nothing.”

Many users typed on the public chat enviously. Some even crazily tagged Zhou Hao’s nickname, wanting to learn from him.

After all, everyone knew that the gifts in the live stream meant strength.

Fairy Yue Ling did not speak. Instead, she sent a private message to Zhou Hao. In the live-stream room, private messages could be sent to users, but it required a certain level.

“Big shot, thank you for the gift. I hope you can come to my live-stream often in the future. If you have any requests, feel free to ask.”

Zhou Hao did not read the private message. At this moment, his heart was thumping. Even though he knew that he would definitely win if he gave away more than 200 Heaven Dao coins, he was still extremely nervous. After all, that was more than 400,000 Heaven Dao coins.

After calming down, he finally noticed the private message.

“There’s actually a private message function in the live-stream...” He opened it and saw that it was sent by Fairy Yue Ling. He hesitated for a moment and replied with a mischievous smile, “Anything?”

Fairy Yue Ling quickly replied, “As long as it’s not too much.”

Zhou Hao smiled and did not reply.

He left the live-stream room.

After experimenting twice this time, he had basically figured how to use his luck points in the live-stream room. Compared to the mystery box, it was even more dangerous and the rate of return was very high.

No wonder there were so many users in the live-stream room.

After all, opening a rare-level item in a mystery box was extremely difficult. In the live-stream, as long as one had coins, one could basically get a reward.

“I’ll figure out what the Bloodline Pills and the Physique Cup are used for first. After that, I’ll continue watching the live-stream!” Zhou Hao thought to himself. He was still very calm and wasn’t willing to take risks easily.

In the blink of an eye, he opened his personal page.

As expected, he saw the items in his backpack: 1,500 Bloodline Pills and 500 Physique Cups.

Zhou Hao clicked on it subconsciously and information surged into his mind.

Bloodline Pill: Can increase the bloodline of living beings.

Physique Cup: Can be triggered to improve the physique of living beings.

The information introduction was very simple.

Zhou Hao couldn’t help but frown. The living beings here should be referring to the living beings of all kinds. However, just in case, he decided to first feed the cub in his arms. After all, he had 1,500 Bloodline Pills, which was more than enough.

He immediately received the reward.

Bloodline Pills the size of beans floated in front of him. The Physique Cup also appeared and was filled with a liquid that was similar to water.

Roar! Roar!

The Lion Tiger Beast seemed to have sensed the aura of the Bloodline Pill and immediately became restless.

“This little fellow’s nose sure is sharp!” Zhou Hao patted the Lion Tiger Beast’s little head speechlessly. Then, he grabbed a Bloodline Pill and placed it directly in front of its mouth.

The Lion Tiger Beast opened its mouth and swallowed the Bloodline Pill.

Roar! Roar!

It began to roar again.

“What a big appetite!” Zhou Hao grabbed another handful.

Next, Zhou Hao grabbed five times in a row. There were about 100 Bloodline Pills, and he let the Lion Tiger Beast swallow them. Only then did the little guy lay in Zhou Hao’s arms in satisfaction, not moving at all.

He put away the other Bloodline Pills and the Physique Cup.

Zhou Hao stared at the Lion Tiger Beast.

As time passed, the Lion Tiger Beast yawned lazily, but he could clearly sense that its aura was constantly increasing.

Originally, the cub’s aura was only that of a low-level demon general. However, after consuming 100 Bloodline Pills, its aura kept increasing to the peak of a low-level demon general in half an hour.

Zhou Hao also discovered that other than the change in its aura, the luster of its fur was even brighter, and the white feathers on its wings were even sharper. There was also a faint line on its forehead.

“This Bloodline Pill is indeed effective... I’ll feed it for a few more days and see how it goes!” Zhou Hao muttered. He was not worried about the consumption of the Bloodline Pill at all. As long as the Bloodline Pill was still available in the live-stream, he would be able to obtain them continuously.

Chapter 153 - Testing

Chapter 153: Testing

Zhou Hao looked up at the sky and did not stay any longer.

With a thought, his body instantly disappeared.

In an instant, he returned to Villa 10 of the Seventh Elite Training Camp in the frontline fortress.

“I wonder if I can put this little guy into the Black Tortoise Divine Turtle Armor spatial storage?” Looking at the sleeping Lion Tiger Beast, Zhou Hao enveloped it with his thoughts and tried to move it into the Black Tortoise Divine Turtle Armor space.

Swoosh.

The Lion Tiger Beast immediately disappeared, and appeared in the spatial storage of the Black Tortoise Divine Turtle Armor.

After observing for a while and seeing that the Lion Tiger Beast was fine, Zhou Hao smiled.

The next morning.

Zhou Hao was still sleeping in bed when there was a knock on the door.

“Who is it?” He hugged the blanket and closed his eyes.

“Zhou Hao, get up and train quickly!” Xu Ling shouted and knocked harder.

Zhou Hao replied angrily, “You guys go train first. I’ll be there in a while.”

Bang.

The sound of landing quickly sounded from the balcony.

Immediately after, Zhou Hao felt his ear being pinched by a soft hand.

“Xu Ling!! What are you doing?!” Actually, he had long sensed that it was Xu Ling.

“What are you talking about? Get up quickly. You can’t slack off even after entering the training camp.” Xu Ling glared. “If you don’t wake up, I’ll get Zhang Yi to pour a basin of water on your blanket.”

Zhou Hao was speechless. Thinking of how he might be woken up every day in the future, he began to regret staying next to Xu Ling.

He straightened up and rubbed his eyes. He immediately saw Xu Ling, who was wearing a pale yellow singlet and a pair of loose sweatpants. He couldn't help but blurt out, "So big."

Slap!!

Xu Ling, who was so red that her ears were red, slapped Zhou Hao on the head and said angrily, "Get up quickly. I'll wait for you downstairs. Zhang Yi, Yuan Cheng, Yun Yan, and the others are all there. Don't make everyone wait too long."

With that, she turned around and jumped out of the villa.

When Zhou Hao heard this, he quickly got up and dressed before walking out of the villa.

"Everyone woke up pretty early." He scratched his head, feeling a little embarrassed.

Yuan Cheng smiled and said, "Let's go to the training ground to train for a while before heading to the canteen. Our mission today is to figure out the buildings in the training camp."

Soon, the day passed.

In the evening.

Zhou Hao and the others returned from the training grounds covered in sweat.

After everyone returned to their villas, Xu Ling could not help but kick Zhou Hao.

"Why are you kicking me again?" Zhou Hao leaned back on the sofa in satisfaction and drank his drink.

Xu Ling snorted. "You know very well why I kicked you. Do you think I didn't notice who you were looking at on the training grounds."

Zhou Hao coughed.

Xu Ling said fiercely, "You're only allowed to look at me from now on, do you hear me?!"

Zhou Hao muttered, "But you didn't let me look this morning..."

Slap!!

Xu Ling hit Zhou Hao's head again.

Xu Ling blushed. "I'll let you look when you're obedient in the future."

Zhou Hao's eyes lit up. "Really?"

"When have I ever lied to you?" Xu Ling said. Seeing that Zhou Hao was about to drool, she immediately became embarrassed. "Stop imagining things. Not there! I'll let you look at something else."

Zhou Hao was about to say something when Zhang Yi's voice sounded from downstairs.

"Xu Ling, the dean is calling for you."

"I'll go to the dean first."

Xu Ling left quickly as if she was escaping.

Zhou Hao's figure flashed and arrived outside the fortress base. He had sent a message to Han Pu at noon saying that he would arrive in the evening.

Indeed.

When he arrived at the entrance of the West Station of the fortress base, Han Pu and a few men and women with equally powerful auras were waiting.

"Senior Zhou!" Seeing Zhou Hao, Han Pu immediately welcomed him excitedly.

The other men and women also rushed forward.

"Senior Zhou," they called out respectfully.

After all, the person in front of them was a peak-level ninth-grade supernatural expert who stood at the peak of humanity.

Zhou Hao nodded and smiled. "Alright, no need to be so polite. I came here mainly to suppress the poison for Xu Ling."

Han Pu hurriedly said, "Thank you for coming down personally."

"It's fine. This distance is nothing. Let's go. Take me to the Seventh Elite Training Camp," Zhou Hao said casually.

Han Pu immediately stretched out his hand and gestured for them to leave. Then, he followed the supernatural experts of the other training camps to the Seventh Training Camp.

Not long after, the group arrived at the quiet room where the dean was.

Shi Zhi narrowed his eyes and swept his gaze towards Zhou Hao. At the same time, his body emitted a terrifying pressure.

Zhou Hao knew that the dean was testing him. He calmly walked forward.

The expressions of Wang and the other supernatural experts, who were originally suspicious, changed when they saw this. To be able to so easily withstand Dean Shi's pressure, this Senior Zhou's strength was truly unfathomable.

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 154 - Puzzlement

Chapter 154: Puzzlement

"Senior Zhou!" Seeing this, Dean Shi also retracted the pressure from his body and stretched out his hand.

Zhou Hao shook Shi Zhi's hand. "Where's that Xu Ling?"

Dean Shi smiled and said, "Senior Zhou is indeed swift and decisive. Xu Ling is in the quiet room next door. I'll demonstrate how to suppress the poison later."

"Sure."

The two of them quickly arrived at the quiet room next door and saw Xu Ling lying on a bed that was emitting a cold aura.

"This is the Ice Marrow Jade Bed. It can effectively reduce the spread of the Blood Poison Centipede in her body. She can only lie for an hour every day." As Dean Shi spoke, he walked to the side of the jade bed and raised his hand to suddenly press down on Xu Ling's body.

Boom.

The powerful aura of a sixth-grade supernatural expert fell like a star, and the silence in the quiet room instantly disappeared.

However, Zhou Hao sensed that Shi Zhi's control of his strength and aura was exquisite.

Such a huge pressure did not damage Xu Ling at all. Instead, it circulated along the meridians in Xu Ling's body to suppress the poison.

Squeak!

Waves of sharp centipede sounds sounded.

"This is the Blood Poison Centipede resisting. The Blood Poison Centipede that the Dark Gods planted is a king-level insect beast and is extremely poisonous. If not for the fact that they immediately forced the Blood Poison Centipede out, I'm afraid this girl would have been gone by now." As Shi Zhi spoke, fine sweat actually appeared on his forehead. Clearly, suppressing the poison of the Blood Poison Centipede was quite a burden on him.

After a moment, he retracted his palm and sat in a chair beside him while panting.

"Senior Zhou, do you understand?"

Zhou Hao nodded and walked towards Xu Ling.

Xu Ling was awake at this moment. When she saw Zhou Hao, she hurriedly thanked him. "Thank you, sir!"

Zhou Hao smiled and said, "You're welcome. Don't worry, you'll get better."

With that said, he raised his hand and pressed down.

A violent aura spread out and suddenly entered Xu Ling's meridians. According to the order in which Dean Shi's meridians circulated previously, he carefully controlled his aura and quickly approached.

Squeak!

The poison of the Blood Poison Centipede vaguely transformed into the shape of a huge centipede that crazily resisted Zhou Hao's aura. However, Zhou Hao's aura was too domineering, as if it was crushing everything in its path, causing the poison of the Blood Poison Centipede to constantly shrink.

Shi Zhi, who was watching from the side, widened his eyes. He did not expect this Senior Zhou's strength to be even stronger than he had expected.

His aura surged.

In just dozens of seconds, the poison of the Blood Poison Centipede was compressed into a meridian on Xu Ling's arm.

Seeing this, Dean Shi hurriedly said, "Senior Zhou, that's enough. If you continue to suppress it, the poison of the Blood Poison Centipede will explode."

Hearing this, Zhou Hao hurriedly stopped, and the poison of the Blood Poison Centipede immediately entered dormancy, forming a dark circle on Xu Ling's arm.

Shi Zhi smiled. "Very good, the effect is much better than I expected. Xu Ling, you can rest assured now. Once the Blood Poison Centipede's poison enters a dormant state, as long as it isn't provoked by its own kind, it won't emit its poison."

Xu Ling said excitedly, "Director, does that mean that... that I'm fine?"

Shi Zhi nodded. "You can think of it that way. After all, the Blood Poison Centipede is very rare. The probability of you encountering another one is very small. The Blood Poison Centipede will basically never erupt."

"Thank you, Dean. Thank you, Senior Zhou!" Xu Ling cried tears of joy as she stood up and bowed in gratitude.

"This Ice Marrow Jade Bed is beneficial to your body. Continue lying there. In the future, you can also come to the quiet room to lie for an hour every day," Shi Zhi reminded.

When Xu Ling heard this, she hurriedly lay down.

Zhou Hao looked at Shi Zhi and could not help but have a good impression of him. It was indeed commendable for such a supernatural expert to be willing to consider the safety of a master-level student.

The two of them left the quiet room. Shi Zhi could not help but sigh and say, "Senior Zhou, the current situation of the war between humans and the foreign races on Earth is not optimistic. An expert like you is as rare as a phoenix feather or a qilin horn. Therefore, I hope you can stay in the fortress base."

Zhou Hao became puzzled. After hesitating for a moment, he still asked, "Dean Shi, to be honest with you, I only recently gained some insight and my strength has improved drastically. Therefore, I don't know much about the top supernatural experts of humanity. However, after more than a hundred years of The Cataclysm, our humans on Earth should have accumulated a lot of top supernatural experts. How could..."

"There are indeed many peak-level supernatural experts," Shi Zhi interrupted. "But very few remain on Earth."

Zhou Hao was stunned. “Dean Shi, why? If those peak supernatural experts didn’t stay on Earth to resist the foreign races’ invasion, where could they have gone?”

Chapter 155 - Urgent Request for Help

Chapter 155: Urgent Request for Help

Shi Zhi sighed. “They naturally entered the spatial rift.”

“They entered the spatial rift?” Zhou Hao subconsciously widened his eyes and said in confusion, “The spatial rift is incomparably dangerous. During the Golden Age of Cataclysm, it was said that even invincible experts who had broken through to the supernatural level had died in it. Wouldn’t a peak-level supernatural expert die if he entered the spatial rift?”

Just as Shi Zhi was about to explain, a supernatural expert quickly landed from the sky.

“Senior Shi, three high-level overlords and a peak-level overlord have appeared in the foreign race battlefield. The Supernatural Council has issued an emergency distress signal.” The supernatural expert’s face was filled with anxiety.

When Shi Zhi heard this, he asked, “What? A peak-level overlord?”

“Yes, the experts in the foreign race battlefield are in danger. Please go immediately.” With that said, the supernatural expert turned around and soared into the sky.

Zhou Hao said anxiously, “Dean Shi, I’ll go with you.”

Shi Zhi nodded. “Alright.”

Immediately, the two of them brought Han Pu and the other supernatural instructors from the training camp to the foreign race battlefield.

...

The so-called foreign race battlefield was actually 10,000 meters away from the southern gate of the fortress.

Countless iron defense lines had been established here. A large number of soldiers relied on the defense lines to crazily attack wave after wave of the demon beast wave attack.

Unlike the other bases, the foreign race battlefield would erupt with beast wave attacks every day. Therefore, the foreign race battlefield was also known as the battlefield meat grinder.

When Zhou Hao, Shi Zhi, Han Pu, and the other supernatural experts rushed over, they saw that more than ten iron defense lines had already collapsed. More than ten thousand soldiers were torn to pieces by the beast wave attack, their blood flowing into a river.

Roar! Roar!

Behind the demon beast wave, there was a densely-packed crowd of overlord-level demon beast. Among them, there were four demon beasts that were more than 3,000 meters in size. They looked like towering giant mountains, making people feel fear.

“Senior Shi is here!”

“Old Shi, you’re finally here. What are you doing cooped up in the training camp every day?!”

On the rooftop of a steel fortress, dozens of supernatural experts were gathered. Seeing Zhou Hao and the others coming, they all shouted.

These supernatural experts quickly noticed Zhou Hao, who was standing beside Shi Zhi.

“Old Shi, this is?” A rough-looking man’s voice was like thunder.

Shi Zhi hurriedly introduced, “This is Senior Zhou from Huadong City. His strength is top-notch supernatural!”

“What? A peak-level supernatural expert?”

“Old Shi, why don’t you take a look at the situation when you’re joking? All the peak-level supernatural experts have long entered the spatial rift.”

“That’s right, Senior Shi. You can’t joke around like this.”

The other supernatural experts shook their heads.

They knew that the experts who had reached the peak of the supernatural level would not stay on Earth.

Roar!!

At this moment, a huge roar that tore through the sky sounded.

The overlord-level demon beasts began to join the beast wave attack one by one.

“Not good, these bastards can’t wait any longer. Everyone, prepare for battle!” The rough eighth-grade supernatural expert, Lei Hu, roared.

Swoosh! Swoosh! Swoosh!

All the supernaturals activated their armor and masks at the same time.

Lei Hu’s rough voice sounded. “The radar scanner shows a total of 72 main overlord-level demon beasts. Among them, there are 52 low-level overlords, 16 intermediate-level overlords, 3 high-level overlords, and 1 peak-level overlord!”

“I’ll restrain the peak-level overlord-level demon beast, the Thunderstorm Giant Bear King. Old Shi, Old Ze, and Old Xia, will be responsible for holding the other three high-level overlords... The remaining overlords will be handed to the remaining supernatural experts. You guys have to resolve this as soon as possible, or else Old Liu and the others won’t be able to hold on for long.”

The supernatural experts quickly replied, “Understood!”

“Kill!”

Swoosh! Swoosh! Swoosh!

As killing cries exploded, supernatural experts rushed towards the beast wave without fear of death.

Each of them was like a nuclear bomb. As soon as they entered the beast wave attack, they swept away a large number of demon beasts with a few charges, greatly reducing the pressure on the soldiers and martial artists at the iron defense line.

Roar! Roar!

Soon, the overlord-level demon beasts that had joined the beast wave attack noticed these supernatural experts. They roared and rushed towards these supernatural experts.

There were relatively few supernatural experts. Including Zhou Hao, there were only 56 supernatural experts in total. Other than the eighth-grade supernatural Lei Hu and the sixth-grade supernatural Shi Zhi, the remaining 52 supernatural experts below the sixth-grade had to face the 68 overlord-level demon beasts.

This meant that there would definitely be supernatural experts who would have to face several overlord-level demon beasts at the same time.

The pressure on them could be imagined.

Boom! Boom! Boom!

The supernatural experts quickly broke out in a battle with the overlord-level demon beasts. The aftermath of their battle was incomparably terrifying, sweeping through the surrounding demon beasts like a storm.

Although the pressure on the iron defense line soldiers instantly lessened, their expressions were solemn.

This was because everyone knew that the battle between supernatural experts and overlord-level demon beasts was the key to determining the outcome of the battle.

Once the supernatural experts were defeated, not to mention the iron defense line, even the fortress would collapse.

Chapter 156 - Supernatural Expert

Chapter 156: Supernatural Expert

Zhou Hao looked at the intermediate-level overlord-level demon beast that was charging at him. He took a deep breath and directly used a divine-level saber technique, the “Sky Splitting Divine Technique”.

After experiencing the live stream, he knew very well that he needed to accumulate more luck points. And the foreign race battlefield in front of him was undoubtedly the best opportunity.

Pu!

The world-shaking saber beam was like a waterfall that instantly drowned this intermediate-level overlord-level demon beast.

Rumble!

An intermediate-level overlord-level corpse that was thousands of meters tall fell with a bang, smashing a group of low-level demon generals to death, raising a large amount of soil and rocks.

“Luck points+700,000!”

Zhou Hao, who was paying attention to the change in his luck points, couldn't help but reveal an excited expression when he saw the sudden increase of 700,000.

Indeed, it was faster to accumulate luck points by killing demon overlords!

“Continue!”

Zhou Hao was like a reaper as the saber in his hand flashed. Almost every ten seconds, he would kill an overlord-level demon beast.

In less than two to three minutes, the number of overlord-level demon beasts in the entire foreign race battlefield had decreased by 15.

The other supernatural beings who were fighting the overlord-level demon beasts did not have the time to notice the changes in the battlefield. However, the large number of soldiers and martial artists at the steel defense line had long noticed.

“Which supernatural expert is this? How valiant!”

“He kills overlord-level demon beasts as if he is slaughtering chicken!”

“Haha, this is what a true supernatural expert should be like. An overlord-level demon beast is like an ant in front of him!”

“I've counted. In less than three minutes, more than ten overlords have died under the saber of this supernatural expert!”

“The fortress base is saved!”

“Not necessarily. It still depends on the battle between Senior Lei and the peak overlord-level beast.”

A large number of soldiers and martial artists discussed.

Pu! Pu! Pu!

On the battlefield, overlord-level demon beasts fell continuously.

“Luck points+630,000!”

“Luck points+570,000!”

Zhou Hao looked at the constantly increasing luck points and was as excited as if he had been injected with chicken blood. After all, every additional 1 million luck points meant that he could see the number fluctuating in the live-stream room for an extra minute.

“Kill, kill!”

Zhou Hao immediately targeted the overlord-level demon beast that was fighting the other supernatural experts.

Swoosh!

With a sprint, he directly crossed tens of thousands of meters and arrived beside a tiger-type overlord-level demon beast. He slashed out with his saber.

The saber beam seemed to cut through space as it directly cut off the head of this overlord-level demon beast.

The supernatural expert, who was about to dodge, saw this scene and hurriedly thanked, “Brother, thank you!”

“You’re welcome.” After replying, Zhou Hao went to kill the other demon beasts.

The supernatural expert heaved a sigh of relief. Just as he was about to fight the other overlord-level demon beasts, he was stunned to discover that more than ten overlord-level demon beasts had already fallen on the battlefield.

“What... what’s going on?”

Pu!

Apart from being stunned, this supernatural being quickly saw that the red-armored supernatural expert went on to kill another overlord-level demon beast in the blink of an eye!

“What the heck? Could... could it be that these overlord-level demon beasts were all killed by this guy?” He regained his senses and stared.

Pu! Pu! Pu!

Zhou Hao was extremely fast, as if he was teleporting. He flashed continuously on the battlefield that was hundreds of kilometers wide. Every time he flashed, a stunning saber beam would appear.

In just seven to eight minutes, there were only more than twenty overlord-level demon beasts left on the battlefield.

Thirty plus supernatural experts suddenly had no opponents. They looked at each other in dismay as they watched the red figure kill the intermediate-level overlord-level demon beasts.

“This should be the fastest battle we’ve ever fought with overlord-level demon beasts!”

“That’s right. Who is this supernatural expert? He’s killing overlords too quickly. All of us need more than half an hour or even an hour to barely kill a low-level overlord!”

“I remember now. This seems to be the ninth-grade supernatural grandmaster that Senior Shi introduced previously, Senior Zhou!”

“Damn, could this Senior Zhou really be a ninth-grade supernatural expert?”

“He must be a ninth-grade supernatural expert. Otherwise, how could he be so powerful to be able to kill an overlord-level demon beast in such a short period of time?”

These supernatural experts who had nothing to do all became excited.

A peak-level ninth-grade supernatural expert!

This was a super expert who stood at the peak of humanity.

If there was really such an expert in the fortress base, it would be much easier for them in the future. They would also have the confidence to fight against overlord-level demon beasts!

Soon, the remaining twenty something demon beasts, including the intermediate-level overlord beasts, were all killed by Zhou Hao.

The might of the “Sky Splitting Divine Technique” was too shocking. In addition, Zhou Hao had a perfect foundation in the “Nine Revolutions Golden Body Art”, causing him to explode like an ancient giant god. It did not take much effort for him to deal with these demon beasts.

More than fifty supernatural experts gathered together again.

“He’s definitely a ninth-grade supernatural grandmaster!”

“Too powerful. I suspect that even those high-level overlord-level demon beasts are unable to resist Senior Zhou’s saber!”

“Agreed. That saber technique is really shocking. Moreover, it’s extremely fast, even faster than lightning!”

“I wonder how Senior Zhou cultivated his saber technique to actually be able to cultivate it to such an unpredictable level.”

As they discussed, Zhou Hao had already rushed to Shi Zhi’s side.

Chapter 157 - Did You Kill All of Them?

Chapter 157: Did You Kill All of Them?

“Senior Zhou, don’t worry about me. Quickly go and help the other supernatural experts. There are too many overlord-level demon beasts this time. I’m afraid the other supernatural experts won’t be able to handle it!”

Shi Zhi was a sixth-grade supernatural expert and could barely fight a high-level overlord.

Just now, he had been struggling to deal with this high-level overlord, so he did not have the energy to pay attention to the situation on the battlefield.

Zhou Hao did not say a word. The blood in his body boiled, and the bones in his body emitted cracking sounds. The “Nine Revolutions Golden Body Art” cultivation technique immediately circulated.

“Die!”

With a low shout, Zhou Hao slashed down.

With his current strength, killing a high-level overlord-level demon beast would still require him to spend 20-30% of his strength.

Rip!

The saber beam was like a waterfall as it instantly slashed onto the forehead of this bull-type high-level overlord.

Click.

The two huge curved horns snapped as the saber beam spread out unobstructed, leaving a saber mark on the bull-like overlord's head.

Roar!!

The high-level overlord-level demon beast had a tenacious life force. Facing the saber beam that was filled with the power to tear space, it struggled crazily. However, in the end, it still fell to the ground with a bang.

The nearly 4,000-meter-tall figure caused the ground to tremble.

Shi Zhi was instantly stunned.

"Senior Zhou, you, you..." He looked at Zhou Hao, speechless.

Although he thought that Zhou Hao was a peak-level ninth-grade supernatural expert, he did not expect Zhou Hao to be so powerful that he could end the life of a high-level overlord-level demon beast with a single saber move.

"Luck points+1,230,000!"

Zhou Hao stared at the changes in his luck points. A high-level overlord directly gave him more than a million luck points, almost equivalent to three to four low-level overlords.

In a good mood, he smiled and said, "Dean Shi, stop daydreaming. The beast wave attack has not ended. Go and remind those supernatural beings who are idling around and get them to help resist the beast wave attack."

Shi Zhi returned to his senses and turned around to look. Only then did he realize that the overlord-level demon beasts on the battlefield were all gone?!

"Senior Zhou, did you kill all those overlord-level demon beasts?" He looked at Zhou Hao in shock.

"That's right. They're just a group of overlord-level demon beasts. They're nothing. Alright, hurry up and organize the other supernatural experts to fight!" With that said, Zhou Hao attacked the other two high-level demon beasts.

Shi Zhi looked at Zhou Hao's back and was speechless for a long time.

There were more than sixty overlord-level demon beasts!

Even if the overlord beasts stood rooted to the ground, it would still take some effort for these supernatural experts to kill them.

But now, in less than 15 minutes, nearly 70 overlord-level demon beasts had been killed by this Senior Zhou.

“Han Pu, what kind of top supernatural monster have you found?!” Shi Zhi sighed with emotion, and his face also revealed a relaxed expression.

In any case, with such a peak-level supernatural expert around, the crisis that the fortress faced was completely resolved.

The remaining three demon overlords were quickly dealt with by Zhou Hao.

Even the peak overlord-level demon beast, the Thunderstorm Giant Bear King, only took Zhou Hao less than 50% of its strength to kill it.

An hour later.

Without the leadership of a large number of overlord-level and king-level demon beasts, nearly 70% of the beast wave attack had been forced to retreat into the spatial rift.

The soldiers and martial artists at the steel defense line were extremely excited.

This was the first time they had faced a beast wave attack so easily and quickly. They could not help but shout excitedly, “Long live the supernatural expert!”

On the Iron Fortress Heaven Platform at the edge of the defensive line.

Lei Hu, Ze An, Xia Wan, Shi Zhi, and the other supernatural experts all looked at Zhou Hao.

After this battle, they completely understood that Senior Zhou was indeed a true peak-level ninth-grade supernatural expert. Moreover, his strength was even much stronger than a peak-level supernatural grandmaster.

“Senior Zhou, please accept our bow!”

Suddenly, Lei Hu led the way and bowed with the other supernatural experts.

Zhou Hao was shocked and hurriedly stretched out his hand to support Lei Hu and the other supernatural experts. “What are you guys doing?”

Lei Hu’s voice was rough, but his expression was incomparably sincere. “Senior Zhou, without you, even if our fortress can resolve the beast wave attack driven by the peak overlord-level Thunderstorm Giant Bear King, we would have still suffered heavy losses. On behalf of all the soldiers and experts on the battlefield, I thank you!”

Chapter 158 - Tense Situation

Chapter 158: Tense Situation

The other supernatural experts nodded.

In the past, in the beast wave attack, there were usually at most one or two high-level demon overlords and only more than ten demon overlords in total.

Although the number of overlord-level demon beasts had gradually increased recently, It wasn't as dramatic. This time, there were only 70 overlord-level demon beasts because they were driven by the Thunderstorm Giant Bear King.

Originally, they were all prepared to sacrifice themselves at any time. However, they did not expect Zhou Hao's eruption to let them easily resolve this beast wave attack and save their lives.

Zhou Hao waved his hand. "Senior Lei, you're too polite. After all, we're all on the same side. As the saying goes, the stronger you are, the greater the responsibility. In the face of the beast wave attack, I naturally have to contribute. I'm just doing my job."

At this point, he couldn't help but ask, "Senior Lei..."

Lei Hu interrupted him directly. "Senior Zhou, be it the foreign races or the Earth during the Cataclysm Era, strength is everything. You are a peak-level ninth-grade supernatural grandmaster, so you can just call me Lei Hu in the future. Of course, you can also call me Lei Zi."

"This... Alright, Lei Hu, how many times has the fortress faced a situation like today?" Zhou Hao asked after casually referring to the other party as Lei Hu.

Before Lei Hu could speak, the female supernatural expert, Xia Wan, shook her head. "This rarely happens. Usually, even peak overlord-level demon beasts appear occasionally in a year. They weren't supposed to appear until the end of this year, which was why we were shocked when it appeared more than three months in advance."

"That's right."

Lei Hu nodded and said with a solemn expression, "Actually, judging from the beast wave attack situation in the past month, there should have been changes in the spatial

rift. The number of overlord-level demon beasts that appear every day from the beast wave attack is increasing. There are even more than 70 demon beasts today. I'm afraid the problem is somewhat serious."

When Zhou Hao heard this, he hurriedly said, "Lei Hu, does that mean that the change in the number of overlord-level demon beasts is related to the spatial rift?"

Hearing this, Lei Hu, Xia Wan, Ze An, and the other supernatural experts above the sixth-grade had surprised and puzzled expressions.

Shi Zhi explained, "Senior Lei, Senior Zhou has only recently advanced to a ninth-grade supernatural grandmaster. Moreover, his strength increased suddenly, so he doesn't know much about the other peak-level supernatural grandmasters."

Lei Hu and the others finally understood.

"Senior Zhou, it's like this. The peak supernatural experts of the humans on Earth have all entered the spatial rift more than ten years ago. Be it our China or the western countries, all supernatural experts above the eighth-grade have to enter the spatial rift."

As Lei Hu spoke, he sighed repeatedly. "It is precisely because a large number of supernatural experts have entered the spatial rift that the pressure on the cities behind us and the frontline fortresses has been greatly reduced."

"Moreover, it was also the hard work of these senior experts that prevented the foreign race experts above the peak overlord level from coming out of the spatial rift. It was thanks to them that the various cities could flourish over the past ten years."

When Zhou Hao heard this, he understood. So even true super experts had entered the spatial rift. No wonder there were so few supernatural experts in the fortress base after the Cataclysm happened a hundred years ago. Moreover, only the four of them had surpassed the sixth-grade.

Of course, there were also supernatural experts in the other fortresses. However, their numbers were probably similar to the ones here.

Xia Wan looked at Zhou Hao and said, "Senior Zhou, actually, we have been developing for the past ten years, especially us supernatural experts above the sixth-grade. We all want to break through to the ninth-grade, but unfortunately, it is too difficult."

"Fortunately, you appeared. Otherwise, our Supernatural Council really wouldn't know how to resolve the following problems."

Shi Zhi nodded. "That's right. In the past month, not only have there been changes in our spatial rift, but the number of overlord-level demon beasts in the other spatial rifts

around the world has also increased rapidly, especially when it comes to peak overlord-level demon beasts.”

Zhou Hao frowned. He did not expect the situation on Earth to be so tense. It seemed that Han Pu had only said what he said previously to comfort students like him and Xu Ling.

It was also thanks to his identity as Senior Zhou that he was able to understand the true situation of the humans on Earth.

“Lei Hu, Xia Wan... Could it be that the Supernatural Council has never sent anyone into the spatial rift to understand the situation of the seniors?” he asked.

Chapter 159 - Energy Crystal?

Chapter 159: Energy Crystal?

Lei Hu, Xia Wan, and the other supernatural experts looked at each other and shook their heads with a bitter smile.

“Senior Zhou, we have actually organized a supernatural team to enter the spatial rift before. However, the spatial rift is too dangerous. After this supernatural team entered for half a day, we completely lost contact with them.”

“After that, our grandmasters formed three teams that carried the advanced communication equipment we researched, but we still found nothing. Moreover, these three teams were also wiped out,” Lei Hu sighed.

The other supernatural experts were silent.

They had all tried their best, but the situation in the rift was even worse than they had imagined.

Moreover, supernatural experts were extremely important to humans. Therefore, the Supernatural Council did not dare to continue sending supernatural teams in the future.

They really could not bear the losses.

Zhou Hao frowned and shook his head. "If we don't figure out the exact situation of the spatial rift, no matter how many foreign race experts there are, our humans on Earth won't be able to resist them sooner or later!"

Shi Zhi smiled bitterly. "Senior Zhou, there's nothing we can do about it. According to the data we obtained from the various spatial rifts, we can only last for another year at most before the frontline of the various fortresses collapse. At that time, the human defense line on Earth can only continue to shrink."

"Only a year?" Zhou Hao stared.

"This is still an optimistic prediction, but with Senior Zhou's help, I believe it will get better," Lei Hu said slowly.

Zhou Hao was extremely speechless. He had always thought that if the sky collapsed, there would be a dependable person to hold it up. But now, he had become that dependable person!

However, when he thought of the Heaven Dao software, he felt confident.

It was already 9:30 pm when Zhou Hao returned to Villa 10 of the Seventh Training Camp.

Originally, Lei Hu, Ze An, Xi Wan, and the other experts above the sixth-grade supernatural level had wanted Zhou Hao to stay in the presidential suite of the Supernatural Building. However, Zhou Hao dispelled this passion with the excuse that he was used to being free and carefree. Moreover, Zhou Hao had agreed to be the honorary president of the Supernatural Council, allowing Lei Hu and the others to feel relieved.

"I didn't expect the situation on Earth to be so dangerous!" After taking a shower and lying on the soft and spacious bed, Zhou Hao sighed lightly. Then, he shook his head and dispelled the distracting thoughts in his mind. No matter what the situation was, increasing his strength was the most important.

Opening the virtual screen, he glanced at the luck points: 82,810,740 (Current level: blessed by Lady Luck)

Upon seeing this, the worry on his face immediately relaxed.

After killing more than 70 overlord-level demon beasts this time, he directly obtained more than 50 million luck points, almost comparable to the gains from repelling the beast wave attack in Huadong City last time.

Most importantly, his luck points had finally increased again.

"I wonder just how powerful this status is!" Zhou Hao muttered and simply went to the gold mystery box page.

He had coveted the "Nine Revolutions Golden Body Art", the Blade of Nirvana, and the "Nine Horn Lightning Snake Movement" for a long time.

Previously, he had been worried that he did not have enough luck points and was afraid that he would waste it.

However, with more than 80 million luck points and with the blessing of Lady Luck, he believed that he should be able to get any one of the three ultimate items.

However, just as Zhou Hao was about to open the gold mystery box, he realized that his account balance was running out, making him somewhat speechless.

After thinking for a moment, he decided to sell the materials for the Cloud Mink King's corpse.

"Lei Hu, where can I sell my demon beast materials in the fortress base? I'm short on money." Zhou Hao directly called Lei Hu.

When Lei Hu heard this, his boorish voice immediately sounded. "Senior Zhou, aren't you making things difficult for us? We haven't even paid you for the seventy plus overlord-level demon beasts you killed this time. Give me a number and I'll immediately transfer the money to you!"

"No need. I'll go over for a while," Zhou Hao hurriedly said. The transfer would involve his account number, so his identity would be leaked.

With that said, his figure disappeared and he quickly arrived at the Supernatural Building.

This building was even more magnificent than the Martial Artist Union Building in Huadong City. It had nearly 200 floors.

Lei Hu and the group of supernatural experts had long been waiting outside the supernatural building.

As soon as Zhou Hao arrived, they welcomed him.

"Senior Zhou!" A group of supernatural experts greeted enthusiastically.

"I'm just selling some materials. There's no need to mobilize so many people!" Zhou Hao smiled bitterly.

Lei Hu waved his hand. “Senior Zhou, you’re a peak-level ninth-grade supernatural grandmaster and now you’re the president of our Supernatural Council. Your every move is naturally very important. By the way, do you want points or energy crystals?”

Zhou Hao was stunned. “Energy crystal?”

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 160 - Source Of The Energy Crystal

Chapter 160: Source Of The Energy Crystal

Lei Hu explained, “Energy Crystals are a special energy ore condensed at the edge of the spatial rift. The currency and crystal cards we use now are all refined from energy crystals.”

“However, energy crystals are very expensive. They are divided into three colors: black, colored, and colorless. The energy contained in the black energy crystals is not very pure. The energy contained in the colored energy crystals is relatively pure, and the colorless crystals are top-grade.”

As he spoke, he looked at a young woman.

This woman was the financial president of the Supernatural Building. She immediately said, “Senior Zhou, according to the material value, an ordinary overlord is worth 0.1 to 0.3 billion yuan, an intermediate overlord is worth 0.3 to 1 billion yuan, a high overlord is worth 1 to 3 billion yuan. A peak overlord is worth 3-10 billion yuan.”

“As for the 72 main-level demon beasts you killed, the value of the materials is about 31.7 billion. If you convert them into energy crystals, you can exchange them for more than 30,000 black energy crystals!”

“10,000 black energy crystals is equal to 100 colored energy crystals or 1 colorless energy crystal.”

Zhou Hao came to a realization and couldn’t help but think to himself, Since yuan can be used to exchange for Heaven Dao coins, then this energy crystal should be able to be exchanged as well.

“Then let’s convert them all into colored energy crystals!”

This financial president smiled and said, "Senior Zhou, after converting to colored energy crystals, your total comes down to 317 colored crystals. Please wait a moment."

About half a minute later, a member of the council took out the metal box, and 317 colored energy crystals were placed inside.

After the transaction was completed, Zhou Hao looked at Lei Hu and could not help but ask, "Do these energy crystals come from the edge of the spatial rift?"

"That's right." Lei Hu nodded and laughed heartily. "Senior Zhou, you're not planning to go to the edge of the rift to mine, right?"

Zhou Hao blinked. He did have such plans. After all, after learning the importance of the live-stream, he had to earn a lot of money.

"Haha!" Lei Hu couldn't help but laugh.

The other supernatural experts also smiled.

"What? Is the edge of the spatial rift very dangerous?" Zhou Hao was surprised.

Lei Hu shook his head. "The edge of the spatial rift is naturally dangerous, but at certain times, even ordinary soldiers can go there. In fact, we discovered these energy crystals after the Cataclysm happened. After understanding its important use, many supernatural experts thought of digging for them themselves. After all, supernatural cultivation cannot be done without energy crystals."

Zhou Hao listened intently.

Lei Hu's voice continued, "However, the energy crystals are extremely hard and are embedded in the depths of the ground that has been enhanced by the energy of the spatial rift. If a supernatural expert wants to dig them out, they will have to spend a lot of energy. Basically, they can only dig out a few in an hour. Compared to the energy they spend, the energy crystals they dig out are really not worth it."

"Therefore, since then, no supernatural expert has wasted time doing such a thankless task. Now that we're digging for energy crystals, we usually let the soldiers bring special equipment over at a specific time. The efficiency is much higher than supernatural experts."

Zhou Hao understood and smiled dryly. "Looks like it's more worth it to honestly kill the foreign races!"

Lei Hu and the other supernatural experts laughed again.

“That’s right. It’s good that Senior Zhou understands. We should leave the mining to the soldiers and martial artists. After all, we can’t steal their jobs.”

“That’s right. Our mission is still to kill the foreign races.”

Many supernatural experts shouted.

Lei Hu added, “Senior Zhou, you are now the honorary president of the Supernatural Council. You have a free quota of 10 colored crystals every month. You can receive them at any time.”

Zhou Hao nodded. “Alright, I understand.”

In the Supernatural Building, he chatted with Lei Hu and the other supernatural experts for a while.

Zhou Hao patiently asked for some supernatural general knowledge, and Lei Hu and the others patiently explained.

Although they had only interacted with him for a short period of time, these supernatural experts gradually began to admire Zhou Hao. The latter was so powerful, but he did not put on any airs. His attitude was humble and approachable, making them have a good impression of him.

Zhou Hao returned to the villa in the training camp at 10: 30 pm with 317 colored energy crystals.

A thumb-sized colored crystal was equivalent to 100 million yuan.

Just as Zhou Hao reached the entrance of the villa and was thinking about the wonders of nature, he quickly discovered that he was being blocked by a beautiful figure.

- Chapter 161 - Do I Have to Satisfy Some Excessive Request

Chapter 161 - Do I Have to Satisfy Some Excessive Request

Chapter 161: Do I Have to Satisfy Some Excessive Request

"Zhou Hao, where did you go this late at night?" Xu Ling asked as she pinched her tiny waist.

After the poison was completely suppressed, her skin regained its jade-like skin, making her look very stunning under the moonlight.

Zhou Hao casually lied. "I went out and walked around the shops around the training camp. Didn't we just arrive? I was thinking of buying some daily necessities, but these shops actually require points!"

Xu Ling immediately believed him. Her cold face relaxed a little and she snorted. "Didn't Senior Han tell us long ago that everything in the fortress requires points? When school officially begins, our free points will only be distributed. For the next few days, it's best for us to stay obediently and not run around!"

"I know. I just have nothing to do." Zhou Hao shrugged and asked worriedly, "How are you feeling?"

Xu Ling said angrily, "Do you only remember to ask now?"

Zhou Hao hurriedly said, "My mind was blank when I saw you suddenly appear."

Xu Ling stretched out her fair arm and pointed at the black spot on it. "It was Senior Zhou from our Huadong City who helped me completely suppress the poison. I didn't expect Senior Zhou to be a peak-level supernatural expert."

"That's great. Now, I don't have to worry anymore." Zhou Hao pretended to be excited, but then he said, "However, after I become stronger, I still have to go into the spatial rift. After all, the poison in your body is still there. If I don't get rid of it completely, it'll still be a hidden danger."

"At least you still have a conscience." Xu Ling smiled. "Alright, go back and sleep!"

Seeing Xu Ling turn around, Zhou Hao grabbed her wrist and chuckled. "Xu Ling, the bed in my room is big enough. Why don't..."

Bang.

Xu Ling accurately kicked Zhou Hao's butt. "Screw you. Is that all you ever think about? If you have the time, you should train more!"

With that said, she left Zhou Hao with a beautiful back view.

Seeing Xu Ling enter the villa, Zhou Hao shook his head and smiled. He was naturally joking just now to prevent Xu Ling from suspecting him.

Returning to his bedroom, he placed the two colored energy crystals in his palm.

Then, he opened the Heaven Dao software and topped up his balance .

Swoosh.

The two colored energy crystals in his hand instantly disappeared, and his account balance increased by 2 million Heaven Dao coins.

“As expected, it can be used!” Zhou Hao’s face revealed excitement. He had finally figured out the essence of Heaven Dao coins. It was actually Heaven and Earth energy.

Without hesitation, he went straight to the gold mystery box page.

He clicked on the screen subconsciously.

Ding! Please fill in your current medicinal pills, cultivation techniques, weapons, and pets. ‘

Zhou Hao immediately filled in the form.

Click.

After filling in the boxes, he turned the box.

Cultivation Technique: “Nine Revolutions Golden Body Art” (Three revolutions)—”Nine Revolutions Golden Body Art” (Six revolutions)

“Golden Crow Evasion Technique”—”Nine Horn Lightning Snake Movement.

Weapon: God Slaying Saber—Blade of Nirvana.

Medicinal Pills: Bloodline Pill—Three-Lined Bloodline Pill—Nine-Lined Bloodline Pill.

Physique Cup—Sacred Cup of Constitution—Divine Cup of Constitution—Ancient Divine Cup of Constitution.

Pets: Lion Tiger Beast Cub—Sky Lion Tiger Beast Cub—Nine-Headed Sky Lion Tiger Beast Cub—Dragon Lion Beast Cub—Seven-Headed Dragon Tiger Cub.

Upon seeing this, Zhou Hao’s eyes narrowed. “Looks like the gifts obtained from the live-stream can also be improved.”

He glanced at the luck points again: 82,810,740 (Current level: blessed by Lady Luck)

After hesitating for a moment, Zhou Hao took out eight more colored energy crystals and topped up again.

His account balance immediately increased to 105,513,000 coins.

Taking a deep breath, he suddenly spent 50 million luck points.

This was the first time he had used so many luck points. Immediately after, he clicked on ten consecutive gold mystery boxes.

Swoosh.

The gold mystery box spun crazily.

The entire virtual screen was filled with Golden Dragons.

“Ding! Congratulations on obtaining a rare-level item, the Nine-Lined Bloodline Pill, from the gold mystery box.”

“Ding! Congratulations... on obtaining a rare-level cultivation technique,” Nine Revolutions Golden Body Art “(Six revolutions).”

“Ding! Congratulations... on obtaining 10,000 roses.”

“...”

After opening ten consecutive gold mystery boxes and consuming 50 million luck points, he had only obtained two rare-level items: the “Nine Revolutions Golden Body Art” (Six Revolutions) and the Nine-Lined Bloodline Pill.

This made Zhou Hao frown.

However, he quickly understood. 50 million luck points was indeed a huge sum, but the “Nine Revolutions Golden Body Art” was an unqualified cultivation technique for the foundation establishment stage. To be able to obtain the six revolutions, he probably had already exhausted the luck that Lady Luck favored.

“Looks like I’ll have to spend at least 50 million luck points to obtain the” Nine Horn Lightning Snake Movement”and the Blade of Nirvana!”

After this experience, Zhou Hao more or less had some understanding of the other two ultimate items.

While Zhou Hao was thinking, the system announcement sounded: Ding! Congratulations to user “I am just an ordinary person” for obtaining the ultimate rare-level cultivation technique from the gold mystery box. Congratulations!

Ding! Congratulations to user “I am just an ordinary person” for obtaining the ultimate pill from the gold mystery box!

As soon as the announcement was out, countless users went into an uproar.

In the chat hall, the messages kept flashing.

“I’m here to worship the big shot again!”

“An ultimate! Any one of them is a legendary existence without a superior!”

“I can only look up to him now!”

“Ignoring everything else, just by relying on the mystery box, this big shot will probably be able to crush his peers!”

In Fairy Yue Ling’s live-stream room.

Many users who often stayed behind were also in an uproar.

“The big shot went to open the mystery box again!”

“I’m so envious. No matter what he does, he attracts attention.”

“Speaking of which, Fairy Yue Ling, you should have sent a private message to the big shot last time. Take the initiative. You really don’t have to work hard if you can seduce such a big shot.”

“That’s right. We’re all cultivators. How is your dignity more important than strength? If you seduce such a big shot, you will never have to worry and can just rely on the gifts we give you. That will be enough for you to use for the rest of your life.”

Fairy Yue Ling looked at the continuous messages on the live-stream and felt helpless. Of course, she wanted to seduce such a lucky big shot, but unfortunately, he ignored her.

“Do I have to fulfill an excessive request?” She struggled in her heart. The Heaven Dao software was an opportunity that could change her fate.

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 162 - Another Breakthrough

Chapter 162: Another Breakthrough

The longer she stayed here, the more she understood that she had to work harder if she wanted to go further.

Moreover, sometimes, there were things she needed to give up. Otherwise, chasing after the Heavenly Dao would only be an illusory hope.

Sighing, Fairy Yue Ling shook her head bitterly. "Even if I wanted to, I don't know if he would be willing to come to my live-stream room again!"

After all, she could only send messages to the people in her live-stream.

Zhou Hao naturally did not know that his action of opening the mystery box again had incited something in Fairy Yue Ling's mind. At this moment, he had already arrived at the wilderness area outside the fortress.

The "Nine Revolutions Golden Body Art" was bound to cause a lot of commotion. If Zhou Hao extracted it in the villa, it would definitely alarm Dean Shi and the other supernatural experts.

Roar! Roar!

Roars sounded from time to time from the depths of the wilderness. Some green eyes in the darkness stared at Zhou Hao, who had suddenly appeared.

Zhou Han ignored these demon beasts. He sat down cross-legged and opened the Heaven Dao software. He entered the backpack on his personal page and then clicked on the extraction button.

Boom.

As he extracted the item, a large amount of profound information regarding the three additional revolutions of the "Nine Revolutions Golden Body Art" surged in.

"Fourth revolution!"

A sound that was like the morning bell exploded in Zhou Hao's blood. The blood had completely turned gold at this moment. Moreover, every drop of golden blood revealed a supreme terrifying aura.

His entire body emitted a vast aura that was like a primeval beast, making the eyes of the demon beasts in the surrounding darkness reveal fear as they prostrated on the ground.

“Fifth revolution!”

The changes in his body did not stop. After his blood turned golden, his bones also began to change rapidly.

The lustrous white bones were washed by a supreme and vast aura and gradually transformed into a dark gold color. If one used a microscope to look at it, they would discover that every inch of the bones was revolving with countless golden runes.

“Sixth revolution!”

The originally dark gold bones had all transformed into gold this time, just like Zhou Hao’s blood. The terrifying aura Zhou Hao emitted had also instantly become restrained and calm. However, from afar, he looked like a dormant beast.

After six revolutions, the changes on his body slowly faded away.

Zhou Hao stood up and took a deep breath. The air within a thousand meters was instantly sucked dry because of him. Then, he clenched his fist and casually waved it forward.

Space shook violently.

After adapting for a moment, Zhou Hao’s eyes flashed with excitement. “As expected of a high-level foundation establishment cultivation technique. Just the sixth revolution is already so abnormal. Now, with just an ordinary punch, I can shatter a peak-level overlord-level demon beast. I really can’t imagine how strong my body will be if I completely reach the ninth revolution!”

Although he did not know his exact combat strength, he knew that the current him had definitely surpassed a peak-level ninth-grade supernatural grandmaster.

Of course, in terms of realm, he had also broken through to the grandmaster level.

After all, martial artists trained their blood essence, masters trained their bones and muscles, and grandmasters strengthened their organs. As they do so, grandmasters reach the limit of the human body before transcending.

Zhou Hao had now cultivated the “Nine Revolutions Golden Body Art” to the sixth revolution and had only completed the transformation of his blood, bones, muscles, and bones. However, his five viscera and six bowels had yet to be completed.

However, cultivation level was not equivalent to combat strength.

For example, because the grandmasters on Earth cultivated relatively ordinary cultivation techniques, their foundation establishment grades were relatively poor.

Therefore, their combat strength was generally not strong. There were very few that could match a high-level grandmaster. Only some experts with supernatural physiques like Xu Ling could unleash super combat strength.

However, Zhou Hao was different. His body had passed through the perfect foundation establishment of the “Dragon Elephant Wisdom Technique” and the “Nine Revolutions Golden Body Art”, so his combat strength naturally far surpassed his cultivation level.

Retracting his thoughts, Zhou Hao looked at the Bloodline Pill floating in front of him. This was one of the more than a thousand Bloodline Pills he had casually selected.

After being upgraded by the mystery box, this Bloodline Pill had nine lines that emitted an ancient aura.

Nine-Lined Bloodline Pill: Can instantly increase a living being’s bloodline.

The information was still very simple.

Zhou Hao took out the Lion Tiger Beast Cub from the Black Tortoise Divine Turtle spatial storage.

Roar! Roar!

As if it had sensed the aura of the Nine-Lined Bloodline Pill, the little cub roared crazily, its eyes revealing intense desire.

“Eat it.” Zhou Hao grabbed the Bloodline Pill and brought it to the cub’s mouth.

The Lion Tiger Beast Cub swallowed it impatiently.

Boom.

The moment it swallowed, its body instantly underwent a huge change. The lines on its forehead became three lines, each revealing a mysterious aura. Its wings disappeared, and the hair on its body became even more exquisite. Its furry tail also became thin like a long whip.

The biggest change was its claw. Its original meat pad had disappeared, and its five claws were now curved like blades. Furthermore, there were faint lines on its claws.

Roar!

The cub's size did not change much, but when it roared, there was a faint dragon roar that spread out, causing all the demon beasts in a radius of 50 kilometers to prostrate on the ground.

Chapter 163 - Bloodline Transformation Dragon Lion Tiger Cub

Chapter 163: Bloodline Transformation Dragon Lion Tiger Cub

Zhou Hao was stunned for a moment before hurriedly opening the Heaven Dao software. Then, he subconsciously clicked on the gold mystery box and filled in information about his pet.

Immediately, the pet compartment changed: Dragon Lion Tiger Cub—Seven-Headed Dragon Lion Tiger Cub.

“This Nine-Lined Bloodline Pill is really awesome. It actually directly increased the bloodline of the Lion Tiger Beast Cub by two levels!”

Zhou Hao could not help but sigh with emotion. Raising one's bloodline was incomparably difficult, especially for demon beasts. Every level of their bloodline was a huge shackle.

However, the Nine-Lined Bloodline Pill was something he had spent 50 million luck points to open. It was only natural for it to have such an effect.

Therefore, he was not surprised.

“I'll continue to feed this little guy the Bloodline Pill tomorrow and see if I can transform it again!” Zhou Hao muttered as he rubbed the Dragon Lion Tiger Cub. At the same time, he felt that since the Bloodline Pill could increase the strength of a living creature's bloodline, he could definitely get more pets.

“If there's a chance, I'll find some cubs and give them to Xu Ling, Zhang Yi, and the others.”

Roar! Roar!

The Dragon Lion Tiger Cub rubbed its head against Zhou Hao's palm affectionately. After its bloodline transformed into noble dragon blood, it became intelligent and knew that its transformation was all thanks to this human.

"Little guy, go and test your strength," Zhou Hao shouted.

Swoosh.

The Dragon Lion Tiger Cub disappeared in the blink of an eye.

In just a moment, it returned with a huge overlord-level demon beast in its mouth.

Bang.

The thousand-meter-tall overlord-level demon beast smashed heavily in front of Zhou Hao, making him jump in fright. He waved his hand and stored the corpse of the beast.

"This little guy's aura is clearly only at the king level, but he can easily kill overlord-level beasts. Impressive!" His face revealed pleasant surprise. Although overlord-level demon beasts were similar to ants to him now, it was still something worth being happy about for his pet to have such strength.

Roar! Roar!

The Dragon Lion Tiger Cub jumped onto Zhou Hao's shoulder and rubbed its little head against his neck as if it was trying to claim credit.

Zhou Hao smiled and threw a Bloodline Pill to the cub.

The Dragon Lion Tiger Cub did not mind and swallowed it in one gulp.

After playing with the Dragon Lion Tiger Cub for a while in the wilderness, he threw it into the Black Tortoise Divine Turtle Armor spatial storage and returned to the villa.

Be it his luck points, strength, or the increase in his pet's bloodline, he had gained a lot today.

Zhou Hao also realized the mystery of the Heaven Dao software.

In the next few days, no high-level overlord-level demon beasts appeared in the spatial rift again. Every day, at most, some intermediate-level overlord-level demon beasts would launch a beast wave attack.

The Supernatural Council had experienced beast wave attacks of this level countless times, so Lei Hu and the others did not disturb the honorary president, Zhou Hao.

In fact, Zhou Hao was quite happy to let Lei Hu and the others disturb him. After all, those overlords gave him luck points.

However, since Lei Hu and the others did not ask for his help, it was not appropriate for him to go to the iron defense line and fight with the other supernatural experts to kill the overlord-level demon beasts.

Therefore, for the past few days, he had basically stayed in the training camp.

As the official start of school for the Seventh Training Camp approached, the originally empty training camp gradually increased in number.

However, Ji Yufan, who Zhang Yi, Yuan Cheng, and the others hated, had also arrived.

In the qualifying round, although Ji Yufan did not pass the last stage, he had killed many demon generals before he died. Together with the points he had obtained from the previous two stages, he entered the top 60.

“Zhou Hao, don’t be smug. Xu Ling will be mine sooner or later!” As soon as Ji Yufan entered the training camp, he went straight to the front of the villa and shouted.

Xu Ling stood on the balcony of Villa 9 and said coldly, “Ji Yufan, on the account that we’re all classmates in the future, I don’t want to curse at you, but I hope you won’t say such things again in the future. Otherwise, I’ll get the dean to step in.”

As a descendant of the supernatural family’s Ji family, Ji Yufan had a very strong background, but he was still afraid of Dean Shi.

Therefore, when he heard this, he shrank his head and said forcefully, “Zhou Hao, you coward. What’s the use of hiding behind a woman?!”

Zhou Hao also walked to the balcony on the second floor and looked down at Ji Yufan who was standing on the street. He said lazily, “Ji, you’re really ridiculous. Also, don’t just talk nonsense. You only have the right to say such things after snatching this villa from me. Otherwise, you’ll only be embarrassing your family again.”

“Haha, that’s right!”

“I’ve long disliked this Ji Yufan. Doesn’t he just have a special physique? What’s there to be cocky about?!”

“He was just lucky to be from a supernatural family.”

In the residential area of the student accommodation across the street from the single villas, many students walked out and laughed.

Ji Yufan was too arrogant and had long displeased many students.

“Hmph, just wait and see. In the end-of-month assessment of the first semester, I’ll let you know the huge difference between an ordinary person and a supernatural being!” Ji Yufan’s face turned red. He threw out a fierce sentence and turned to return to the dormitory building.

Chapter 164 - Rules Of The Training Camp

Chapter 164: Rules Of The Training Camp

After Ji Yufan left, Xu Ling frowned and whispered, “Zhou Hao, you shouldn’t underestimate him. After all, Ji Yufan has a fire-element physique. He definitely won’t let us off easily after we tricked him in the qualifying round. You have to work hard.”

Zhou Hao threw Xu Ling a peeled apple and said indifferently, “Don’t worry. If we can beat him once, we can beat him again.”

Xu Ling nodded, but she thought to herself that she had to cultivate diligently and strive to be the first to advance to the grandmaster level. At that time, Ji Yufan would no longer dare to bully Zhou Hao.

As she thought, she took a bite of the apple. “Pfft... Zhou Hao, where did you buy this apple? It’s so disgusting!”

Zhou Hao hurriedly said, “Xu Ling, these apples are very expensive. My mother instructed me to bring them.”

The reason why the apple tasted bad was naturally because Zhou Hao had added the liquid of the Physique Cup into it.

When Xu Ling heard that the apple was from Zhou Hao’s mother, she braced herself and ate it.

“I still have a lot. In the future, I’ll peel one for you every day,” Zhou Hao said with a smile.

“Huh? I have to eat it every day?” Xu Ling’s cold and beautiful face immediately turned bitter.

Zhou Hao immediately said, “Think of it as aunty’s gift.”

Zhou Hao’s words succeeded in making Xu Ling eat the apples.

Xu Ling said unwillingly, “Alright, I’ll eat them.”

...

The night before school officially began, 60 students gathered at the training ground.

Dean Shi, Han Pu, and the other supernatural experts walked to the front.

“First of all, congratulations on becoming students of the Seventh Global Elite Training Camp. In the next three years, we will be together...”

Dean Shi said some pleasantries and quickly left.

Only one supernatural expert was left in the entire training grounds.

“My name is Yang Hui. In the future, I’ll be in charge of training all of you. I’m a rather strict person. If any of you can’t handle it, you can tell me. I’ll arrange for someone to send you away.”

“But... as long as you accept it, then no matter what I arrange, you have to do as I say. Do you understand?!” Yang Hui said coldly.

“Understood!” The 60 students, including Zhou Hao, said in unison.

Yang Hui nodded. “Very good. You should more or less know that the current situation of humanity is not good. Therefore, you have to work harder to train and strive to graduate early to contribute to the base.”

“The training camp doesn’t rear trash. Please leave the training camp automatically if you’re ranked last in the monthly assessment. Don’t make me kick you out!”

As soon as he said this, many students immediately went into an uproar.

Yuan Cheng, Yun Yan, and the others also frowned. No one wanted to be disqualified after entering the training camp. The rules were basically the same as the rules for their focused training class.

“Silence!” Yang Hui shouted and emitted a supernatural aura. The powerful pressure made the faces of every student turn pale.

“Next, I’ll distribute the student card. Keep your card safe as if your life depended on it. Don’t lose it. Once you lose it, you won’t be able to do anything in your life or in your studies.” As he spoke, he began to read the names of every student.

Zhou Hao and the others went forward to receive their student cards.

The card was similar to a crystal card, but it had the sword-shaped symbol of the Seventh Training Camp on it.

After receiving the items.

Yang Hui added, “For the top ten of the qualifying round, we put in an extra 1000 points in your cards. The eleventh to the thirtieth place will get 500 points each. As for the rest of you, you will only get 100 points!”

“Let me remind you guys. Points are very important in the fortress base. You will need to spend 100 points every month on necessities alone.”

“Therefore, don’t waste your points casually. In the future, you will also be given free points based on your monthly ranking. Therefore, if you want to obtain more points, work hard and compete!”

Many students below the 30th rank had ugly expressions when they heard this, including Ji Yufan. The student card he had was only enough for a month’s living costs, making him, who was used to being pampered, very uncomfortable.

“Dismissed. The students in the top 30 will stay behind. You all need to receive additional rewards for the points ranking!” Yang Hui said.

Immediately, Ji Yufan and the other thirty students left the training grounds.

As for Zhou Hao and the others in the top thirty, they stayed behind.

Soon, more than ten logisticians from the school walked over. All of them were carrying special black boxes.

The students in the top thirty looked at these boxes enviously.

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 165 - Purple Marrow Liquid

Chapter 165: Purple Marrow Liquid

They had not forgotten that every single one of the top ten would obtain a plant spirit!

Yang Hui looked at the thirty students who were left behind and said with a calm expression, "This time, the dean has spent a lot of effort to nurture you. I hope you don't let him down."

"First place to tenth place, come forward."

Zhou Hao, Xu Ling, Yuan Cheng, and the other ten students immediately went forward.

"Your reward is the plant spirit, a secret technique worth 100 billion yuan, and armor and weapons worth 10 billion yuan."

As Yang Hui spoke, he signaled for the logisticians to open the black metal boxes.

Swoosh.

A refreshing fragrance seeped out.

Zhou Hao and the others immediately felt relaxed after sniffing the scent.

"Plant spirit!" Yuan Cheng, Yun Yan, and the others stared at the plant placed in the metal box with burning eyes.

Plant spirits were extremely valuable. For example, Xu Ling had activated her Ice Muscle Body after consuming an Ice Needle Mushroom and her strength had even increased to the master level.

Yang Hui said indifferently, "Zhou Hao, you're in first place so you get to choose first. However, let me remind you that these plant spirits are all Purple Marrow Liquid and have the same medicinal effect. The differences lie in the secret techniques."

Zhou Hao casually chose Box 3. After that, it was time for Xu Ling, Yuan Cheng, Yun Yan, and the others to choose.

After choosing, Yang Hui's voice sounded again. "The instructions for consuming the Purple Marrow Liquid are in the box. Remember, consume it according to the instructions. Otherwise, your life will be in danger. Also, it's best to consume it at night. In this way, you will be able to absorb 60% of the medicinal effect the next day."

Next were the students in eleventh to thirtieth place. Their additional rewards were worth less. They only had secret techniques worth 1 billion yuan and armor and weapons worth 100 million yuan.

...

At night.

In Xu Ling's villa.

Zhou Hao, Yuan Cheng, Yun Yan, and the others were gathered together.

"I thought it was some impressive plant spirit. It turns out it's only the Purple Marrow Liquid. This plant spirit is only slightly better than the Ice Needle Mushroom," Fang Yu curled her lips.

Yun Yan smiled. "Be content. Many people would be more than happy just to get a chance to consume plant spirit. This Purple Marrow Liquid can at least help us advance from a high-level martial artist to an intermediate-level master. If we completely absorb it, we will be able to reach a high-level master and will only be a step away from breaking through to a grandmaster."

Yuan Cheng nodded. "That's right. Compared to the other students, we'll gain an advantage. Moreover, we have a secret technique worth 100 billion. That's the most precious."

"Speaking of secret techniques, what we all chose just now might not be suitable for us. How about this? Let's all take out our secret techniques and see which one is more suitable for each of us. After all, they're all of the same value," Xu Ling suggested.

"I agree," Yun Yan immediately said.

Yuan Cheng, Fang Yu, and the others also had no objections. Immediately, Zhou Hao and the others took out the secret technique.

These secret techniques were saber techniques, spear techniques, movement techniques, staff techniques, and axe techniques. All of them were supernatural secret techniques that could be fought over by grandmasters in every city.

"Zhou Hao, your points ranking is the highest. You choose first." Xu Ling looked at Zhou Hao.

Zhou Hao shook his head. "I'm fine with anything. You guys choose first."

Xu Ling glared at Zhou Hao, but she did not say anything. Instead, she looked at Yuan Cheng.

Yuan Cheng did not stand on ceremony. "I'm good at spear. I'll choose a spear technique."

After him was Yun Yan's turn. She had chosen a movement technique.

Everyone finished choosing and left behind an axe technique.

"Then I'll take the axe technique," Zhou Hao said with a smile. With his current strength, it didn't matter what technique he chose.

Xu Ling could not help but say, "Zhou Hao, don't you use a saber?"

Zhou Hao said casually, "Axes are like sabers anyway. They're both blades."

Yuan Cheng, Yun Yan, and the others were speechless.

"Alright, everyone, go back. Quickly consume the Purple Marrow Liquid to increase your strength. The pressure on us is not small. The other students are all trying to snatch our villas." Zhou Hao hurriedly changed the topic.

Yuan Cheng, Yun Yan, and the others nodded and left the villa one by one.

Soon, only Xu Ling and Zhou Hao were left.

"Zhou Hao, why don't I help you ask the dean if you can switch for a saber technique?" Xu Ling said softly. She had been lying in the Ice Marrow Bed these past few nights and had become familiar with the dean.

"It's fine. I'll go back first," Zhou Hao said and turned to leave.

Xu Ling stomped her foot angrily. "This bastard. He can't even tell that I'm worried about him."

Zhou Hao returned to his villa and directly threw the Purple Marrow Liquid and secret techniques into his spatial storage. These things were useless to him.

Lying in bed, he lifted the Dragon Lion Tiger Beast out. This little guy's body had not changed since last time.

Roar! Roar!

As soon as it saw Zhou Hao, the Dragon Lion Tiger Beast jumped and landed on Zhou Hao's chest.

"What a gluttonous little fellow. Here, this is the last Bloodline Pill." Zhou Hao had been feeding the Dragon Lion Tiger Beast these past few days. However, probably because it had consumed the Nine-Lined Bloodline Pill, its bloodline upgrade had become even more difficult. After consuming more than a thousand Bloodline Pills, its aura still did not change much.

After throwing the last Bloodline Pill out, Zhou Hao opened the Heaven Dao software. Looking at the balance of tens of thousands of Heaven Dao coins on it, he simply charged another two colored energy crystals, which was worth 200 million yuan.

“Time to go to the live-stream room and test the effect of the other gifts,” he muttered before entering the live-stream page.

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 166 - The Big Shot Is Here

Chapter 166: The Big Shot Is Here

The effects of the Bloodline Pill and the Physique Cup he had obtained last time were pretty good. In the past few days, he had repeatedly made Xu Ling eat apples that contained the liquid of the Physique Cup. The latter’s Ice Muscle Body had clearly become much stronger. Other people might find it difficult to sense, but Zhou Hao could clearly sense the changes in Xu Ling.

There were many people live-streaming. Moreover, just from the thumbnails, one could tell that they were powerful experts.

After thinking for a moment, Zhou Hao still entered Fairy Yue Ling’s live-stream. The latter’s thumbnail looked clean and refined, giving off the aura of a fairy.

As Zhou Hao entered, the users in the live-stream immediately went wild.

“Damn, the big shot is here!”

“Welcome, ‘I’m just an ordinary person’. Hello, big shot!”

“Please help me, big shot. I’ve spent tens of millions of Heaven Dao coins on the mystery box. I didn’t get anything from it! I’m losing blood!”

“Same here, same here. That mystery box is getting more and more shady.”

One by one, the gold and platinum users sent out messages.

The silver users were also constantly browsing through the messages.

Many users who were unfamiliar with Zhou Hao’s username were dumbfounded.

Fairy Yue Ling was also excited. "Thank you, big shot, for coming to my live-stream room again. I'm so honored."

The other users also started teasing.

"Haha, Fairy Yue Ling is already excited?"

"He's already visited your live-stream twice. If you're not going to express your gratitude, then at least show your face!"

"That's right. Fairy Yue Ling, why don't you start a video live stream!"

Zhou Hao was in a good mood as he typed on the public chat. "Good evening, everyone."

"Wow, the big shot spoke!"

"Eh, is it nighttime in the big shot's world?"

"I'm feeling inexplicably excited."

Many users responded.

Zhou Hao stopped looking at the public chat after typing. He did not come to the live-stream to chat with others. After opening the gift, he directly spent a million luck points.

Immediately, rows of numbers appeared behind the energy bars, the Bloodline Pill, and the other gifts.

Zhou Hao first gifted 100 Energy Bars and got 500 times the reward. Then, he gave away 230 Cultivation Technique Fruits and got 1,000 times the reward.

One million luck points could only last for a minute.

After Zhou Hao received the rewards, he immediately looked at the Concept Pill, which cost 5,000 coins per pill. At this moment, the number behind the Concept Pill was already at 210. Moreover, it was changing relatively quickly. In just two to three seconds, the number reached 140.

Clearly, many users in the other live-stream rooms were giving away Concept Pills.

Zhou Hao held his breath as he stared fixedly at the Concept Pill.

This gift was too expensive and he did not have much balance in his account. Therefore, he did not dare to directly throw out 150 pills. After all, the number was

changing too fast. Perhaps other live-stream users would also give out gifts like this while he was giving away the gift.

In that case, it will have to depend on how fast his fingers moved.

Ding!

Just as he was hesitating, the top of the live-stream screen immediately displayed: Congratulations user for “entering the Dao as a demon” for gifting the Concept Pill and obtaining the reward multiplied by 1000 times!

Seeing this, Zhou Hao regretted it. He did not expect the reward to be multiplied by 1000 times this time. If he had known this would happen, he would have given more than a hundred pills even if he had to lose money!

“The reward for the Concept Pill is multiplied by 1000 times again.”

“That’s right. This ‘entering the Dao as a demon’ is a diamond big shot. I often see him post messages.”

“Concept Pills can increase one’s comprehension of the myriad things in the world. With 1,000 of them, one’s comprehension will definitely soar!”

“Nonsense. Even a pig can figure out the profundity of a Heaven and Earth concept after consuming 1,000 pills. I remember that Fairy Yue Ling once obtained a Concept Pill?”

The users in the live-stream were chatting on the public chat.

Zhou Hao swept his gaze over the information and returned to the gifts. Just as he was about to look at the other gifts, his face revealed surprise. After the other user had just gotten the reward for the Concept Pill, the number behind immediately changed to: 57.

“There’s actually another reward after the 1000 times reward?”

Upon seeing this, he became excited. This time, he no longer hesitated. He directly clicked on the Concept Pill and quickly gifted away 60.

Ding!

The sound of gold coins colliding sounded.

The top of the live-stream immediately displayed: “Congratulations ‘I am just an ordinary person’ for giving away the Concept Pill and obtaining the reward multiplied by 500 times.

All the hosts could see the winning information for gifts that cost more than 2,000 coins.
Many users in Fairy Yue Ling's live-stream were dumbfounded.

Chapter 167 - It's Not Easy To Live Stream, Please Befriend Me

Chapter 167: It's Not Easy To Live Stream, Please Befriend Me

"Damn, big shot, aren't you too impressive? You even dared to give out gifts after the 1000 times reward, and you even won?!"

"You picked up nearly 500 Concept Pills for nothing. Big brother, are you being blessed by Lady Luck?!"

"The gifts of this software do come out one after another sometimes. It must be because 'entering the Dao as a demon' gave too many gifts just now. Otherwise, it would be impossible for him to get a 500 times reward after just giving away 60 Concept Pills."

"Ahhh, I'm so envious. I should have gifted a few dozen just now!"

"Alright, it's useless to be envious. Not everyone dares to give away Concept Pills."

Fairy Yue Ling also hurriedly sent a private message to Zhou Hao. "Congratulations, big shot, for obtaining the reward for the Concept Pill. Big shot, do you want to add me as a Dao friend so that we can chat normally?"

At this moment, the numbers behind the gifts disappeared.

Zhou Hao was in a good mood. He opened his private message and couldn't help but smile. "What's a Dao friend? How do I do that?"

Seeing that Zhou Hao had replied, Fairy Yue Ling was extremely excited and hurriedly sent another message, "Big shot, click on the top right corner of the live-stream. There will be a 'do you want to add Fairy Yue Ling as a Dao friend'. You can click on it."

“Alright,” Zhou Hao replied. Then, he followed Fairy Yue Ling’s instructions and clicked on the screen. Indeed, a message popped up.

Soon, he added Fairy Yue Ling as his Dao friend. After he left the live-stream room, he realized that there was an additional Dao friend list on his personal page.

“Thank you for adding me as a friend, big shot.” The message page flashed. It was actually sent by Fairy Yue Ling.

“You’re welcome,” Zhou Hao replied simply. At the same time, he checked his backpack. At this moment, there were 500 additional Energy Bars, 1,000 Cultivation Technique Fruits, and 500 Concept Pills in his backpack.

As for the six gold-level gifts, other than the Comprehension Leaf, he had already received all of them at least once.

Therefore, he simply entered Fairy Yue Ling’s live-stream room again.

One Comprehension Leaf cost 1,000 coins.

He still had more than a million Heaven Dao coins in his account and could give away more than a thousand.

Therefore, after thinking for a moment, Zhou Hao did not spend any more luck points and directly gave away the Comprehension Leaf.

He had gifted more than 1100 items this time and had only obtained 500 times the reward.

“Is he trying to get all the gold-level gifts?!”

“Now that he’s gotten all the gold-level gifts, the big shot will probably aim for the platinum-level gifts next!”

“The cheapest platinum-level gift costs 10,000 coins, and the multiplier is very low. It’s said that the highest reward is only 100 times.”

“A platinum-level gift is an upgraded version of a gold-level gift. The software system definitely won’t give it in bulk like a gold-level gift. Moreover, I’ve seen diamond users give diamond-level gifts. The multiplication is even lower. However, any one of those gifts is worth no less than a rare item in a mystery box.”

Zhou Hao looked at the news on the public chat and subconsciously looked at the platinum-level gift.

Indeed, the platinum-level gifts had the same name as the gold-level gifts.

Energy bars, Bloodline Pills, Cultivation Technique Pages, Comprehension Stone Tablets, Divine Body Constitution, Concept Scroll.

The corresponding prices for these gifts were 10,000 coins, 20,000 coins, 50,000 coins, 100,000 coins, 200,000 coins, and 500,000 coins.

It was ridiculously expensive.

However, Zhou Hao was not surprised. After all, after testing the effects of these gifts, he felt that the gifts were very worth it. It had to be known that countless experts, even if they had money, were unable to buy such precious items.

However, in the Heaven Dao software, these items were like wholesale items in the shop. As long as one paid a certain amount of Heaven Dao coins, one could obtain them.

“I’ll digest the items I obtained first before gifting these platinum-level gifts.”

Zhou Hao thought to himself. Since the platinum-level gift was an upgraded version, the effect would definitely be better than a gold-level gift. However, he didn’t mind the gold level items for now and was not in a hurry to get the platinum items.

At this moment, the private message flashed again.

Zhou Hao opened it and saw that it was from Fairy Yue Ling. “Big shot, if you want me to, I’ll start a video live stream tomorrow.”

Upon seeing this, his mind could not help but flash with Fairy Yue Ling’s ethereal thumbnail, and an urge rose in his lower abdomen.

Suppressing it forcefully, he frowned and asked, “Fairy Yue Ling, since you’re so enthusiastic, you should have some needs, right? Tell me directly.”

Fairy Yue Ling was stunned. She did not expect the other party to be so direct. However, they were both cultivators, so there was no point in being shy. Therefore, she hurriedly said, “Big shot, it’s like this. If you want to maintain the live-stream, you need at least 10 million coins worth of gifts per day.”

Zhou Hao came to a realization. A gift of 10 million Heaven Dao coins was equivalent to 1 billion yuan, which was 10 colored energy crystals. In the live-stream room, it was equivalent to giving away 20 platinum-level Concept Scrolls worth 500,000 coins each.

“Fairy Yue Ling, the quota of 10 million coins should not be difficult for you, right?” he said indifferently.

Although there were few users who sent gifts in the live-stream, there were still occasionally platinum and diamond users who sent gifts. Moreover, every time they sent gifts, they would basically receive multiplied rewards. For example, the minimum requirement could be easily met if 2,000 gold-level gift Concept Pills were gifted.

Fairy Yue Ling smiled bitterly.

With her current popularity, it was indeed very easy for her to get gifts worth 10 million coins a day.

However, the competition between the streamers was very intense. If she only completed the minimum requirements every day, then her ranking would quickly decline. If this continued, her exposure rate would be very low. Not to mention obtaining the reward of the Heaven Dao software, even maintaining the broadcast would be very difficult.

“Big shot, all users who open the Heaven Dao software will have to compete for the rankings every month.”

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 168 - Fairy Yue Lings Compromise

Chapter 168: Fairy Yue Ling's Compromise

“If your ranking is lower than 100,000, even if you meet the minimum gift requirements for the live-stream room, your broadcast privileges will still be revoked. You will have to wait for three years before you can continue broadcasting. If your privileges are revoked five times, you will be permanently kicked out of the Heaven Dao software.”

When Zhou Hao heard this, he asked curiously, “Can’t you stop broadcasting if you don’t want to get kicked out?”

Fairy Yue Ling nodded. “No, once you start broadcasting, you can’t quit. However, there are many benefits to broadcasting a live-stream. Usually, after the user level reaches the diamond level, they will basically start broadcasting or become one of the top ten on the live-stream rankings. When you reach the diamond level, you will understand.”

Fairy Yue Ling’s words revealed a lot of information.

Zhou Hao also knew that the higher the level of the software user, the more authority they would have. For example, he was only able to see the gold mystery box after upgrading to the gold level.

“How do I check the ranking?” he asked again.

“Big shot, click on my cover profile. You’ll be able to see the stream of gifts and the rankings!” Fairy Yue Ling replied.

Zhou Hao immediately clicked on the cover profile picture in the upper left corner of Fairy Yue Ling’s live-stream room. Immediately, he saw that the stream of gifts in Fairy Yue Ling’s live-stream room displayed: 17 days and 18 billion gifts (current ranking 87190).

He could not help but be surprised.

After 17 days and more than 10 billion gifts, she was still ranked in the top 90,000. The competition in the live-stream room was too intense!

“Fairy Yue Ling, looks like it’s not easy for you either!” He could not help but sigh with emotion. He originally thought that Fairy Yue Ling was quite popular, but he did not expect her ranking to be so low.

“That’s right. Big shot, you also know that most users are cultivators. Although the gifts in the live-stream can greatly reduce cultivation time, there aren’t many big shots like you who are so lucky. Even if many users give gifts, most of them are still relatively cheap. Only users above the diamond level will give expensive gifts when they want to increase their strength.”

Fairy Yue Ling paused for a moment and continued, “And the users in my live-stream are all relatively low-level. Therefore, although my popularity is high, my ranking is still very low.”

At this point, she bit her lip and hesitated for a moment before saying, “Big shot, I hope you can come to my live-stream often. If you have any requests, you can ask me. I’ll try my best to satisfy them.”

Zhou Hao smiled.

“Will you satisfy my excessive requests?” he asked half-jokingly.

Fairy Yue Ling did not reply.

Zhou Hao thought that he had angered Fairy Yue Ling, but he did not care. After all, no one owed anyone anything on the software, and he was not obligated to help Fairy Yue Ling.

Closing the software, he swiped his phone for a while. Before sleeping, he habitually looked at the software again and suddenly saw a message flash.

Fairy Yue Ling replied, "Sure."

Zhou Hao was stunned. He really did not expect Fairy Yue Ling to agree. However, the latter's ranking this month was indeed very low. Presumably, Fairy Yue Ling was under a lot of pressure.

"Fairy Yue Ling, I was joking. Don't take it seriously. I'll go to your live-stream when I have the time," he replied and closed the Heaven Dao software.

...

Mountains stood with ethereal immortal aura in a picturesque scenery.

In a hot spring on the peak of a mountain.

Fairy Yue Ling's skin was smooth like jade and her entire body emitted an indescribable immortal aura that was clean and refined. Her figure was like the golden ratio, curvaceous and curvy.

The hot spring water vapor rose and soaked her waterfall-like hair.

"Peak Master, Elder Qingxu has come to visit," a female attendant bowed from a hundred meters away from the hot spring.

"Tell him that I'm not feeling well and can't see guests." Her cold voice was void of emotion.

The maid nodded and retreated.

Fairy Yue Ling looked at the virtual screen displayed by the Heaven Dao software and sighed faintly. If not for the double pressure of reality and virtuality, she would not have changed her attitude.

"I hope this 'I'm just an ordinary person' won't be too excessive with his request." She bit her lip lightly, looking pitiful.

Di di.

At this moment, the notification flashed.

She hurriedly opened it and saw Zhou Hao's reply. A smile appeared on her beautiful face, and her anxious heart slowly relaxed.

After joining the Heaven Dao software for nearly two years, she knew very well how rare it was to come across a lucky big shot like Zhou Hao. Whether it was the rare items in the mystery box or the precious gifts in the live-stream room, even though they increased the strength of every user greatly, it was still very difficult for users to obtain them.

However, not only did Zhou Hao obtain many rare-level items from the mystery box, but he also got consecutive rewards in the live-stream. Such a user was definitely a big shot that many streamers would want to rope in.

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 169 - Strength Test

Chapter 169: Strength Test

Moreover, the first live-stream room this big shot ever entered was her live-stream room.

This was undoubtedly a rare opportunity for Fairy Yue Ling.

It was precisely because of this that Fairy Yue Ling finally changed her attitude after thinking for a long time. However, it was fortunate that the other party did not seem to take the opportunity to make any other requests.

This made her feel extremely grateful.

She looked at the message window.

Fairy Yue Ling directly spent 10,000 Heaven Dao coins and sent a voice message. "Thank you."

...

Zhou Hao naturally did not know that his casual joke had made Fairy Yue Ling conflicted and nervous. To him, the Heaven Dao software was only a way to increase his strength. His attention was basically focused on reality.

Especially after learning about the crisis humanity on Earth was facing, it was even more impossible for him to focus on the Heaven Dao software.

The next morning.

An ear-piercing ringtone sounded.

Rumble!

Be it the villa or the dormitory area, an earthquake-like sound sounded. Sixty students quickly dressed and rushed to the training ground.

This was the first day of school for the Seventh Training Camp. If they were late, the consequences would be unimaginable.

On the training grounds.

Yang Hui, a second-grade supernatural expert, stood upright.

Swoosh! Swoosh! Swoosh!

The sixty students, including Zhou Hao and Xu Ling, gathered in less than five minutes.

Yang Hui looked at his watch and swept his gaze coldly.

“Since today is the first day, I’ll give you an extra five minutes. However, from tomorrow onwards, the moment the bell rings, you will only have three minutes to gather. For every second that passes, you will run an extra lap around the entire training camp!”

“Do you understand?!”

Zhou Hao and the others immediately said in unison, “Understood!”

Yang Hui nodded. “Very good. Today, we’ll conduct a strength test to better understand your strength.”

With that said, he clapped his hands.

Soon, the logisticians of the training camp brought over testing equipment.

Many members were familiar with these equipment.

“Fist strength, speed, reaction time... These are the three most basic data for martial artists. And these precise equipment are currently the most advanced for humans. They can accurately test each of your strengths,” Yang Hui’s voice sounded.

“We will test you guys in the order of your rankings, Zhou Hao, you go first!”

Swoosh! Swoosh!

Many students looked at Zhou Hao.

“The sudden increase in strength of a plant spirit like the Purple Marrow Liquid is not big. It’s said that Zhou Hao was only a martial artist before. I estimate that after one night, he should have reached the level of an intermediate-level martial artist.”

“That’s right. At most, he’ll be a peak intermediate-level martial artist. The effects of the Purple Marrow Liquid are more obvious in the later stages.”

“What a pity. The plant spirit is simply wasted on him.”

Some students whispered to each other. Of course, they were jealous of Zhou Hao and the others. After all, in terms of strength and cultivation level, Zhou Hao was basically ranked at the bottom of the class.

Zhou Hao stepped forward and punched the fist strength testing device.

Fist strength displayed: 8,310 kilograms, followed by speed, 75 m / s, and then reaction time.

The three statistics were out very quickly.

Yang Hui looked at Zhou Hao and said indifferently, “You improved quite a lot. It seems you didn’t waste the Purple Marrow Liquid.”

The students who were originally discussing were proven wrong.

Next were Xu Ling, Yuan Cheng, and the others. They had all consumed the Purple Marrow Liquid and had generally improved by a level. For example, Yuan Cheng, Yun Yan, and the others had all advanced to the master level without exception.

Xu Ling’s advancement was even more exaggerated, directly reaching peak-level master.

The students were so shocked that their jaws almost fell off.

If the Purple Marrow Liquid had improved them by so much in one night, then the subsequent medicinal effect would be even greater. At this rate, Xu Ling would at least be able to advance to the intermediate-level grandmaster level.

Even Yang Hui looked surprised.

In the entire class, only Zhou Hao had a calm expression. The reason why Xu Ling had improved so much was naturally because of the Physique Cup. After consuming more than a hundred Physique Cups, her Ice Muscle Body had almost been upgraded from

the low-level to the intermediate-level. Naturally, the absorption effect of the plant spirit was also doubled.

Ji Yufan, who was standing behind the group, had an ugly expression. If it was before, he would be very happy that Xu Ling had improved so quickly. However, now that he knew that Xu Ling did not have a good impression of him, he wanted her to improve as slowly as possible.

“Hmph, what’s the use of having a high cultivation level? Combat ability is the most important.” He snorted coldly in his heart.

After an hour and a half, all the students finished their testing.

Among them, the strongest was undoubtedly Xu Ling, followed by Ji Yufan, Yuan Cheng, Yun Yan, and the others. Because Yuan Cheng, Yun Yan, and the others had consumed the Purple Marrow Liquid, they all rushed into the top ten.

The lowest ranked martial artist in the entire class was an intermediate-level martial artist.

Yang Hui looked at the students who were discussing and snorted heavily. “Do you feel that your strength is alright? Are you feeling smug?”

“I can tell you clearly that your class is the weakest among the seven training camps in the entire fortress base!”

As he spoke, his gaze was cold. “In the First Training Camp, all 180 students from the three classes have at least reached the intermediate-level master level. In the Second Training Camp, the lowest-level students of the two classes are at the master level... In the Sixth Training Camp, all the students have reached the level of high-level martial artists.”

When Yuan Cheng, Yun Yan, and the other students heard this, they immediately fell silent.

Chapter 170 - Insect Wave Attack

Chapter 170: Insect Wave Attack

Yang Hui said coldly, "If not for the plant spirit, there would only be two people in your class who have reached the master level. Therefore, put away your pride. You guys might be the best students of your city, but you are still inferior to the other students! Starting from today, you will train in the morning, go out in the afternoon to hunt demon beasts, and return to the classroom to attend class for an hour at night."

Their schedules were packed, but no one complained.

After all, no one wanted to be ranked at the bottom.

...

The day's devilish training quickly ended.

Most of the students returned to their dorms exhaustedly, as if their bodies had been emptied.

Zhou Hao, on the other hand, was very relaxed. Yang Hui's training was not difficult for him at all. He returned to the villa to take a shower and went to the balcony on the second floor.

Xu Ling seemed to have also just finished showering. She was wearing cute pajamas and enjoying the wind on the balcony.

"Zhou Hao, are you tired from training today?" she asked as she combed her hair.

"I'm alright." Zhou Hao jumped to Xu Ling's balcony and smelled the fragrance on her body.

Xu Ling rolled her eyes at Zhou Hao. "Your butt is itching for a beating again, right? Go back to your room."

Just as Zhou Hao was about to speak, Yun Yan from Villa 8 also came out in her pajamas. Her pajamas were very sexy, completely highlighting her fiery figure.

Yun Yan looked at Zhou Hao and Xu Ling, who were on the balcony, and teased, "Hey, the two of you, watch your behavior."

Xu Ling's face was red as she kicked Zhou Hao. "What are you waiting for? Go back quickly."

Zhou Hao glared at Yun Yan and turned around to return to his balcony.

"Xu Ling, let's go shopping later. We didn't really get to buy any clothes when we came," Yun Yan suggested.

"Sure, let's bring Fang Yu too. The three of us can all go together," Xu Ling said with a smile.

When Zhou Hao heard this, he couldn't help but shout, "Zhang Yi, Yuan Cheng, come out here. We need to have some activities too! What do you guys think?"

"I'm going to sleep. I'm so tired." Yuan Cheng appeared on the balcony.

"I'm going to train later." Zhang Yi was very diligent. He still had to save his sister, Zhang Ying.

Lei Jinpeng and Wang Shuo said, "Zhou Hao, why don't we go have fun together?"

Before Zhou Hao could speak, Xu Ling glared at him. "Go away, you two. Don't lead Zhou Hao astray."

Lei Jinpeng and Wang Shuo immediately laughed. "Zhou Hao, be careful not to become a slave to your wife."

Yun Yan and Fang Yu, who had just walked out, laughed secretly.

Xu Ling's face turned even redder.

Seeing this, Zhou Hao hurriedly retreated into the house. After Xu Ling, Fang Yu, and Yun Yan left the villa, his body flashed and he arrived at the top floor of the Supernatural Building.

"Lei Hu, what's the emergency?" He received a message from Lei Hu.

Lei Hu's expression was solemn, and his rough voice quickly sounded. "Senior Zhou, a peak overlord-level queen insect has appeared in the southern spatial rift fortress. The current situation is serious. The insect wave has almost destroyed the iron defense line. Their side has sent an emergency distress signal to us."

Zhou Hao's eyes lit up and he immediately said, "There's no time to lose. I'll rush over now."

The other supernatural experts were worried about the insect wave. However, in his eyes, those insects were all luck points.

Lei Hu did not expect Zhou Hao to agree so quickly. He said in admiration, "Senior Zhou's attitude towards humans makes us ashamed. Please wait for a moment, I'll immediately send an aircraft over."

Zhou Hao waved his hand. “No need. I’ll fly over directly.”

With that said, his figure disappeared.

Lei Hu was speechless. He really wanted to say that the southern fortress base was very far. Even a supernatural expert traveling at full speed would take a day .

Swoosh.

Zhou Hao returned.

“Senior Zhou, let’s take the fighter jet. It’s faster,” Lei Hu hurriedly reminded.

“It’s fine. I’ve grasped a movement technique so I can travel extremely fast. Lei Hu, send me the location of the southern spatial rift fortress base,” Zhou Hao said with a smile.

Lei Hu slapped his head. “I was careless. I’ll send it to you now.”

The coordinates of the southern rift fortress immediately appeared on Zhou Hao’s radar screen. “See you.”

Xia Wan, Ze An, and the other supernatural experts above the sixth-grade saw Zhou Hao’s figure disappear and sighed. “I wonder if Senior Zhou can make it in time.”

“Since Senior Zhou decided to do it this way, he definitely has the confidence to arrive in time,” Lei Hu said slowly. “Let’s wait for the news.”

Half an hour later, news arrived from the southern spatial rift fortress base.

As soon as the wireless signal connected, Lei Hu asked anxiously, “Blind Yu, how’s the situation in your base? Did you contact Senior Zhou’s communication channel?”

Ze An, Xia Wan, and the other supernatural experts above the sixth-grade revealed nervous expressions.

Chapter 171 - Shocking Everyone Again

Chapter 171: Shocking Everyone Again

There were many large spatial rifts worldwide, and there were a total of six large spatial rifts located in the Huaxia area. They were in the East, South, West, North, East Central Plains, and West Central Plains.

Once any of the defense lines of the spatial rift fortress collapsed, the other spatial rift defense lines would also be affected.

Buzz!

An electric current sounded, and then the seventh-grade supernatural expert who Lei Hu called Blind Yu laughed excitedly. "Hahaha, Lei Hu, where did you find such a valiant super expert? He's too ferocious. In less than half a minute, he insta-killed a peak overlord-level insect queen!!"

Lei Hu and the others quickly heard the other supernatural experts' incoherent excitement.

"Awesome, awesome, awesome!"

"That was a peak overlord-level insect queen, but she fell in a single move. A ninth-grade supernatural grandmaster really lives up to his reputation!"

"This Senior Zhou is really impressive. After killing the insect queen, he killed almost ten thousand insect beasts with a single saber move. His combat strength is simply peerless."

Hearing this, Lei Hu and the others looked at each other and heaved a sigh of relief. The southern spatial rift fortress finally passed this crisis safely.

However, when they regained their senses, their faces revealed disbelief.

After all, it would take at least half an hour for a fighter aircraft to arrive from the eastern fortress to the southern fortress. However, this Senior Zhou only took half an hour to arrive at the southern fortress base and had already resolved the crisis.

Such efficiency was simply shocking.

What they did not know was that Zhou Hao had even deliberately delayed for a while, mainly because he was afraid that his speed would scare these supernatural experts.

"With a peak-level supernatural expert like Senior Zhou around, our Huaxia will have nothing to worry about!"

“That’s right. He killed a peak overlord-level foreign race with ease. Moreover, his saber technique was shockingly powerful. He can sweep through an entire army with a single move. I feel that Senior Zhou alone is comparable to an entire army.”

“I even suspect that Senior Zhou’s combat strength has already broken through the supernatural level.”

Ze An, Xia Wan, and the other supernatural experts sighed.

Lei Hu shook his head with a solemn expression. “Although we have an expert like Senior Zhou protecting the fortress base, we still can’t relax. The spatial rifts have always been a huge problem. Many of our predecessors have died in it. To this day, even the seniors who have broken past the supernatural level who are resisting the foreign races!”

“Previously, we didn’t have the spare energy to explore the situation in the spatial rift. Now that Senior Zhou is holding down the fort, we don’t have anything to worry about for the time being. I think it’s time for us to discuss how to continue entering the spatial rift to investigate the situation.”

Ze An, Xia Wan, and the others nodded.

“Senior Lei Hu is right. Senior Zhou also mentioned exploring the spatial rift earlier. After all, if we don’t figure out the situation of the spatial rift, we will forever be forced to resist the foreign races’ invasion. I agree with this!” Shi Zhi said slowly.

The other supernatural experts nodded one after another.

When Lei Hu heard this, he could not help but say, “In that case, when Senior Zhou returns, we’ll hold a meeting between the supernaturals.”

...

At 10: 30 pm.

The supernatural meeting had just ended. As the honorary president, Zhou Hao did not speak the entire time. He knew his limits well. Although he was powerful, he was still inexperienced in making decisions.

Therefore, in the entire meeting, he listened to the opinions of others and occasionally nodded in agreement.

“Senior Zhou, I still think that we have to get rid of the Dark Gods before entering the spatial rift. Otherwise, we won’t be able to rest easy!”

A few supernatural experts hurriedly chased up to Zhou Hao and expressed their opinions.

After all, everyone knew Zhou Hao's strength. Every word and action of his was greatly valued.

Zhou Hao couldn't help but stop when he heard this.

Of course, he hated the Dark Gods very much. Not only was his good friend Zhang Yi's sister still in their hands, but even Xu Ling had almost been killed by the Dark Gods assassin.

"Your name is Zhang. Zhang Bei, right?" Zhou Hao looked at a middle-aged supernatural expert.

The middle-aged supernatural expert hurriedly nodded.

Only then did Zhou Hao continue, "The Dark Gods are indeed an unstable factor. I personally agree with your point of view, but the prerequisite is that we have to find the Dark Gods' headquarters first. If you have any clues, tell me. This way, I can persuade Lei Hu and the others to eliminate the Dark Gods first."

When Zhang Bei heard this, he was immediately overjoyed. "Senior Zhou, don't worry. We will definitely handle this matter seriously and strive to find the headquarters of the Dark Gods."

"All the best." With that said, Zhou Hao's body flashed and disappeared from the Supernatural Building.

Chapter 172 - Improved Spirit

Chapter 172: Improved Spirit

When Zhou Hao returned to the villa, it was already 10: 40 pm.

He took a hot shower and lay in bed. Then, he opened the virtual screen of the Heaven Dao software.

He glanced at the bottom right corner.

Luck Points: 68,169,100 (Current level: blessed by Lady Luck)

After killing the insect beasts at the southern spatial rift fortress base, he had obtained nearly 40 million luck points. This was mainly because the insect wave army was composed of low-level insect generals, high-level insect kings, and very few overlord-level insect beasts. Moreover, after the peak-level overlord-level insect queen died, the other insect beasts retreated crazily.

Although Zhou Hao killed quickly, he still needed time.

Therefore, he only earned 40 million in the end.

However, he was still very satisfied with this. After all, it had only taken him half an hour.

Retracting his gaze, Zhou Hao quickly noticed the notification screen flashing. He opened it and saw that it was actually a voice message from Fairy Yue Ling.

He opened it and heard a crisp and pleasant thank you.

It had to be said that Fairy Yue Ling's voice was indeed very pleasant to the ear. There was a hint of coldness in her sweetness, and it also carried a trace of natural charm.

Presumably, this was also the reason why the latter's voice broadcast could accumulate a lot of popularity.

This time, Zhou Hao did not go to Fairy Yue Ling's live-stream room. Instead, he went to his personal page backpack and received all the Energy Bars, Cultivation Technique Fruits, Comprehension Leaves, and Concept Pills he had obtained last time.

Soon, information regarding the four gifts spread in Zhou Hao's mind.

Energy Bar: Can quickly increase the energy of living beings.

Cultivation Technique Fruit: Able to reduce the time of cultivation.

Comprehension Leaf: Enhances the comprehension of living beings.

Concept Pill: Effectively increases understanding of everything in the world.

Zhou Hao directly experienced these gifts himself this time. He first consumed the Energy Bar. This Energy Bar was similar to snacks and fries. He ate it bite by bite.

Immediately, pure energy surged into his body and washed his limbs.

If it was an ordinary person, they would probably be able to reach the martial artist level after eating just 100 to 200.

However, Zhou Hao had already reached the perfect foundation establishment, so the impact of these energy bars on him was already minimal.

Next were the Cultivation Technique Fruits, Comprehension Leaves, and Concept Pills.

After consuming the first two gifts, there were still no obvious changes. However, after consuming 10p Concept Pills consecutively, his spirit seemed to have improved.

Boom!

As his spirit improved, everything around him became clearer.

Suddenly, Zhou Hao's eyes were better at perceiving the flow of the air, the breathing of Xu Ling, Yun Yan, and the others in the distance.

After his body had completed the transformation of the "Nine Revolutions Golden Body Art", his senses towards the world had become incomparably sharp for the first time.

Moreover, whether it was the "Sky Splitting Divine Technique" or the "Golden Crow Escape Technique", the mysterious information kept in the back of his head flashed again and again like a movie through the improvement of his spirit.

Zhou Hao immediately understood that these two powerful secret techniques actually involved unfathomable spatial profundities.

In the past, even though he had forcefully comprehended the profundities of the two secret techniques because of the mystery box and could use them, he had not truly understood the true profundity of the two secret techniques.

It was just like how one could drive a car without having to understand the true principle behind it.

But now, after consuming a hundred Concept Pills, he had gradually come into contact with the essence of the myriad of things in the world and understood the true profundity of the two secret techniques.

Without hesitation, Zhou Hao hurriedly swallowed the remaining Concept Pills.

His spirit continued to improve.

However, this time, he did not care about the miraculous changes in the surrounding environment. Instead, he focused on comprehending the essence of the "Sky Splitting Divine Technique" and the "Golden Crow Escape Technique".

However, unfortunately, the two secret techniques were too powerful. After maintaining the improvements of his spirit with another 500 Concept Pills, he was starting to get diminishing returns.

“Hah, so the Concept Pill actually has such a miraculous effect... Although I can use two powerful secret techniques, if I don’t understand the true essence and profundity, I will undoubtedly lose miserably if I encounter other experts who also cultivate powerful secret techniques in the future!”

Zhou Hao muttered as his eyes flickered.

Chapter 173 - "Feeding" Xu Ling

Chapter 173: "Feeding" Xu Ling

Now, he also understood the drawbacks of the mystery box rare-level cultivation technique.

Fortunately, he had discovered the problem in advance through the Concept Pill.

Otherwise, such a hidden danger would definitely cost him his life in the future.

“Since the Concept Pill has such a miraculous effect, what about the upgraded version, the Concept Scroll?!” Zhou Hao took a deep breath and suppressed the urge to enter the live-stream room.

“I’ll take it one step at a time. There’s no hurry.”

After calming down, he was about to close the software when a message was sent.

Needless to say, it was Fairy Yue Ling.

“Big shot, if you want to come to the live-stream room, you can inform me. I’ll change it to a video broadcast.” This was the message she had sent.

Zhou Hao immediately replied, “Sure.”

After understanding the effect of the Concept Pill, he indeed needed to enter the live-stream.

The next day.

At the training camp training grounds.

During the break, Zhou Hao, Xu Ling, Yun Yan, and the others gathered together. The other students also formed a circle. Only Ji Yufan, who was cold and arrogant, glared at the students who wanted to suck up to him.

Lei Jinpeng curled his lips in disdain. "This Ji Yufan is too arrogant."

Fang Yu said, "He indeed has the strength to be arrogant. I heard that last night, the Ji family used some channels to buy him a secret technique. Apparently, his technique costs just as much as ours. In just one night, he has already cultivated the secret technique to the second level!"

"What? The second level?" Shock appeared on Wang Shuo and Yuan Cheng's faces.

Xu Ling couldn't help but frown.

As the top ten, they had all obtained supernatural secret techniques worth 100 billion yuan. It was extremely difficult for them to even master such a secret technique, let alone cultivate it to the second level.

Zhou Hao could not help but ask, "Is it very difficult to cultivate those secret techniques?"

"Nonsense, of course it's difficult. Yuan Cheng, Yun Yan, and the others haven't even reached the entry-level. I haven't as well. Xu Ling has only just reached the entry-level. What about you, Zhou Hao?" Fang Yu asked as she looked.

"Me? I haven't started on it yet," Zhou Hao said casually.

Fang Yu, Yuan Cheng, and the others were all speechless. If they could, they wished they could go over their precious secret techniques hundreds of times a day. However, Zhou Hao had not even read it once.

Xu Ling glared at Zhou Hao, her eyes seeming to say, "You're too lazy."

"All the best. No matter what, we can't let that annoying fellow Ji Yufan get first place." Fang Yu clapped her hands.

At this moment, Instructor Yang Hui whistled.

The students who were resting immediately gathered and began training.

In the evening, Zhou Hao ordered two servings of food and went to Xu Ling's villa.

Xu Ling had just taken a shower and her clothes were still thrown on the sofa. When she saw Zhou Hao, she was so shy that she hurriedly covered her underwear.

"I saw everything. Xu Ling, you seem to like black and white." Zhou Hao chuckled and sat on the sofa. At the same time, he placed the food on the coffee table.

Xu Ling's earlobes were red with embarrassment. "Zhou Hao, you bastard."

She grabbed the pillow and threw it over.

Zhou Hao hurriedly said, "I was just joking. I bought dinner for you. Eat quickly while it's still hot."

When Xu Ling saw the food, she snorted. "At least you're considerate. Remember to knock when you come in the future."

As she spoke, she picked up the food and started eating.

"Eh, what are these small fruits in the food? I've never seen them before," she asked curiously as she picked up a fruit that was similar to a cherry.

"Maybe they're fresh fruits from the canteen," Zhou Hao said perfunctorily. Those fruits were naturally Cultivation Technique Fruits.

Xu Ling quickly ate a few fruits and frowned. "These fruits don't taste at all, but they melt in my mouth."

Zhou Hao urged, "Eat more. It's good for your body."

After eating, he secretly left behind another hundred Cultivation Technique Fruits. For the next two days, every time he ate with Xu Ling, he would put the Cultivation Technique Fruit in Xu Ling's food and occasionally mixed it with the Comprehension Leaf.

As for the Energy Bar and Concept Pill, he did not mix them in since the effects were too obvious.

On the sixth day of school., during the morning training and break, Fang Yu and the others chatted about cultivation techniques and secret techniques.

"Ji Yufan has reached the third level!" Fang Yu, who often asked around, revealed.

“The higher the level of the supernatural secret technique, the harder it is to cultivate. This Ji Yufan’s comprehension ability is too high. It’s only been a few days!” Lei Jinpeng gritted his teeth.

Yuan Cheng and Yun Yan sighed. “If this continues, I’m afraid Ji Yufan will be the undisputed number one at the end of this month!”

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 174 - Expecting Better

Chapter 174: Expecting Better

Fang Yu had a proud personality, so she couldn’t stand Ji Yufan, who was even more arrogant than her. “Xu Ling, you have to work hard. At the very least, you can’t be surpassed by Ji Yufan!”

Xu Ling looked at everyone and hesitated. “Um, I’ve already reached the fourth level of my secret technique.”

“The fourth level? Not bad... Wait, what?! Xu Ling, did you just say that you’ve already reached the fourth level of your supernatural secret technique?!” Fang Yu’s eyes widened.

Yuan Cheng, Yun Yan, and the others also stared fixedly at Xu Ling.

“Really? Did you really reach the fourth level?” They couldn’t believe it.

After all, Xu ling cultivated a supernatural secret technique.

After a few days, they had barely reached the entry-level. They did not know how long they would have to cultivate before they reached the first level.

In the end, Xu Ling actually advanced to the fourth level and was even faster than Ji Yufan.

Chi! Chi!

Xu Ling did not speak, but four ice lotuses gradually condensed in her palm. As the ice lotuses bloomed, the surrounding air became cold.

“Is this the fourth level of the Ice Lotus Saber Art?!”

Yuan Cheng, Yun Yan, and the others had stunned expressions.

They all knew that Xu Ling cultivated the “Ice Lotus Saber Technique” that was compatible with her physique. The special feature of this secret technique was that every time she reached a new level, she would be able to condense an extra ice lotus.

Swoosh.

At this moment, a figure flashed past. It was the supernatural expert, Yang Hui.

His eyes stared fixedly at the ice lotus in Xu Ling’s palm, and for the first time, a smile appeared on his usually solemn black face. “Very good, Xu Ling. You were able to cultivate the supernatural secret technique to the fourth level in just six days. Your comprehension talent is not inferior to those supernatural seeds ranked in the top ten of the First Training Camp!”

“Work hard. Your future accomplishments won’t be inferior to mine.”

Xu Ling hurriedly stood up. “Yes, Instructor!”

The other students all understood that Xu Ling had actually cultivated the supernatural secret technique to the fourth level. All of them looked at Xu Ling in shock.

Ji Yufan’s eyes widened. He originally thought that his comprehension ability was already very strong, but he did not expect Xu Ling to be even stronger than him.

“Damn it, it’s becoming harder and harder to take down Xu Ling!” He gritted his teeth.

...

At night.

In the villa.

Zhou Hao lay comfortably on the soft bed. The effects of the Cultivation Technique Fruits were indeed good. He thought that he should give some to Zhang Yi. He had seen how hard Zhang Yi had worked since his sister was captured by the Dark Gods.

Roar! Roar!

After letting the Dragon Lion Tiger Beast out of the Black Tortoise Divine Turtle Armor spatial storage, the little guy jumped onto his chest and looked at Zhou Hao eagerly.

“I don’t have any more Bloodline Pills.” Zhou Hao spread his hands.

The Dragon Lion Tiger Beast immediately nudged Zhou Hao with its head.

“Alright, alright. I’ll get some for you in a while.”

Only then did the Dragon Lion Tiger Beast lick Zhou Hao affectionately.

Petting the Dragon Lion Tiger Beast’s head, he was about to open the Heaven Dao software when there was a commotion from the balcony.

The Dragon Lion Tiger Beast immediately stared at the balcony fiercely.

“Zhou Hao, everyone else is training hard. You only know how to enjoy yourself at night!”

Of course, Zhou Hao knew that it was Xu Ling. He patted the Dragon Lion Tiger Beast. “In the future, treat her like you treat me.”

The Dragon Lion Tiger Beast immediately nodded its head.

Soon, Xu Ling walked into the room and saw Zhou Hao lying on the ground. She was furious, but she immediately noticed the Dragon Lion Tiger Beast.

“Wow, what a cute kitten.” She immediately pounced over and hugged the Dragon Lion Tiger Beast. “Zhou Hao, where did you get this?”

Zhou Hao had long thought of an explanation. “I bought it from a nearby pet market.”

Xu Ling could not help but pout. “Why did you only buy one?”

“They only had one left. This little guy is not a cat but a Lion Tiger Beast,” Zhou Hao said casually.

“Lion Tiger Beast?” Xu Ling blinked and looked back and forth. “It doesn’t look like it. It doesn’t even have wings.”

Zhou Hao rolled his eyes and thought to himself, This is an ancient demon beast with a higher bloodline and can fly without wings.

“Lend it to me for a few days.” Xu Ling was completely obsessed with the Dragon Lion Tiger Beasts. She had long forgotten the goal of supervising Zhou Hao’s cultivation of the secret technique.

The little guy shouted unwillingly.

Zhou Hao glared at her. “Follow your master’s wife well.”

Xu Ling rolled her eyes at Zhou Hao angrily. “You’re becoming more and more ridiculous. I’m ignoring you. I’ll take this little guy away and let Yun Yan and Fang Yu take a look. They’ll definitely like it.”

With that said, she happily left with the Dragon Lion Tiger Beast.

After Xu Ling left, Zhou Hao opened the Heaven Dao software.

The Bloodline Pills and the Concept Pills were all gone and there were also not many Physique Cups left. It was time for him to get some more.

As soon as he went online, Fairy Yue Ling noticed him and quickly sent a message. “Big shot, good evening!”

Zhou Hao smiled and was not surprised that Fairy Yue Ling could tell that it was nighttime at his place. He replied, “Are you live-streaming?”

“I’m doing a voice broadcast now. Please wait for a moment, I’ll change to a video broadcast.”

“Alright.”

On a floating mountain with ethereal immortal aura.

Fairy Yue Ling looked at the virtual screen and was extremely nervous. She had never done a video broadcast before. However, in order to satisfy the big shot, she still decided to do it.

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 175 - Something Fishy

Chapter 175: Something Fishy

“Fairy Yue Ling, why did you close your live-stream?”

“What happened?”

Many old users in the live-stream sent her messages.

Fairy Yue Ling ignored them and directly started the video broadcast.

Swoosh.

As soon as the live broadcast began, many users entered through the friend list.

“Damn, Fairy Yue Ling, did you start a video broadcast?”

“You’re too beautiful, even more beautiful than she did in the thumbnail!”

“It’s over. I think I’m in love with Fairy Yue Ling...”

“This is the first time Fairy Yue Ling showed her face. She’s too beautiful.”

“There’s really a strand of immortal aura.”

Many users were stunned. Many people began to give gifts. Of course, most of the gifts were energy bars.

“‘I want to become an emperor’ entered the live-stream!”

The platinum user who had gifted the Concept Pills last time was stunned when he saw the video. Then, he could not help but say, “Fairy Yue Ling, you finally decided to do a video broadcast? If you had listened to me and did it sooner, you wouldn’t have been ranked below 80,000.”

After sending that message, he began to give away Concept Pills.

Fairy Yue Ling hurriedly thanked him.

Her voice matched with her refined immortal aura made many users have the urge to lick the screen.

Not long after, the live-stream displayed: “‘I’m just an ordinary person’ entered the live-stream.”

Fairy Yue Ling could not help but smile.

“Fairy Yue Ling smiled the moment the big shot entered!”

“There’s something fishy going on.”

“I seriously suspect that Fairy Yue Ling specially opened the video for the big shot.”

“Suspicion+1.”

Many users typed on the public chat.

When Zhou Hao saw Fairy Yue Ling herself, his eyes could not help but light up. “Not bad, she looks better than she did in the thumbnail.”

Fairy Yue Ling smiled and said, “Thank you for your praise.”

Zhou Hao admired it for a while before retracting his gaze. He did not come here to admire Fairy Yue Ling. Without hesitation, he immediately spent a million luck points.

Swoosh.

The numbers behind the six gold-level gifts changed.

“Congratulations ‘I am just an ordinary person’ for obtaining the Energy Bar multiplied by 1000 times!”

“Congratulations... for obtaining the Bloodline Pill multiplied by 500 times!”

“Congratulations... for obtaining the Concept Pill multiplied by 1000 times!”

Zhou Hao got the rewards for all these gifts.

Many users in the live-stream were envious.

Even the platinum user, “I want to become an emperor”, who often sent gifts, felt envious. “Big shot, do you want to accept a disciple?”

Zhou Hao ignored him and looked at the platinum-level gifts.

Taking a deep breath, he directly charged 200 colored energy crystals, which was 20 billion yuan.

His account balance immediately increased by 200 million Heaven Dao coins.

After spending 1 million luck points, the number next to the platinum-level gift still could not be seen.

He gritted his teeth and spent another 1 million, but he still did not see the number next to the platinum-level gifts.

He added another 2 million.

After spending a total of 4 million luck points, there were still no changes.

Zhou Hao frowned and simply increased the luck points by 6 million luck points.

This amount was already enough to get the status of “achievable dreams”.

Finally, numbers appeared behind the platinum gift.

Platinum-level gifts were basically an upgraded version of gold-level gifts.

There were Energy Bars, Bloodline Pills, Cultivation Technique Pages, Comprehension Stone Tablet, Divine Body Constitution, and Concept Scrolls.

Last time, Zhou Hao had already noticed that the drop-rate multiplier was not high after receiving the platinum-level gifts. The reward would only be multiplied by 20 times, 30 times, and at most 100 times.

At this moment, Zhou Hao's gaze was directly focused on the most expensive Concept Scroll!

The platinum gift Concept Scroll cost 500,000 coins per scroll. It could be said to be very expensive.

The number next to the Concept Scroll was: 25.

Because of the high price, there were relatively few users who gifted Concept Scroll in all the live-stream rooms. At this moment, the number behind the intent painting did not change.

Without saying anything, he directly gifted away 25 Concept Scrolls.

In Fairy Yue Ling's live-stream, it was very lively at this moment. All the users were waiting for Zhou Hao to get the reward again.

Some users were already speculating about how stunning Zhou Hao's performance would be.

Ding!

At this moment, the sound of gold coins colliding sounded.

The live-stream immediately displayed, "Congratulations 'I am just an ordinary person' for giving away the Concept Scroll and receiving the reward multiplied by 100 times!"

Suddenly, the entire chat was silent. A moment later, Fairy Yue Ling's live-stream exploded.

Fairy Yue Ling and the other users were instantly dumbfounded.

Chapter 176 - Unmanned Wealth and Violent Consumption

Chapter 176: Unmanned Wealth and Violent Consumption

“Damn! The big shot is impressive. He got the reward again!”

“No way, no way, no way! He won after only giving away 25!”

“As expected of a big shot!”

“I’m going to cry. Please teach me the secret technique! I’ll pay a lot of money for it!”

“Ahhh! I’m so jealous, so jealous. I can afford to give away 25 Concept Pills!”

“@ I’m just an ordinary person. Big brother, you’re too lucky. Do you even have any secret techniques? You actually got the reward after giving away 25!”

“That friend up there, you can afford it but you just can’t get the reward. Isn’t that infuriating? Hahaha...”

After Zhou Hao won the prize, the originally bustling live-stream instantly became even more noisy with excitement.

Because Zhou Hao had directly won the reward multiplied by 100 times, many diamond big shots surged into Fairy Yue Ling’s live-stream room like a tide and came to watch.

“The reward multiplied by 100 times! Awesome! Awesome! How many did you give away to get it?”

After a diamond big shot with the ID “Dragon Slaying Hand” entered the live-stream, he immediately asked curiously.

Generally speaking, the reward for an item like the Concept Scroll were only multiplied by 10 times, 20 times, or at most 30 times.

Although 100 times was still possible, the probability was very low. Even as the big shots who had dominated the rankings in the live-stream all year round, they had only witnessed it a few times.

“@Dragon Slaying Hand. The big shot got it after only giving away 25. Are you envious?”

The other users in the live-stream quickly replied proudly.

Because Zhou Hao had won the reward in Fairy Yue Ling's live-stream and they were frequent guests of Fairy Yue Ling's live-stream, they actually felt a little proud for a moment.

"Damn! Are you serious? He got it with just 25?"

Dragon Slaying Hand: Concept Scroll x25.

As expected of a diamond big shot, he immediately handed over 25 Concept Scrolls that were worth 12.5 million!

How generous!

However, this diamond user wasn't really trying to get the reward. He was only giving them away for fun and was basically giving them away for nothing.

The other users naturally knew his intention.

However, if he really hit the jackpot, it would have been fun.

"@ I'm just an ordinary person. I'm so envious, big shot. Previously, when I opened the mystery box, I saw you constantly dominating the announcements. Looks like you'll be doing the same thing in the live-stream room. Fairy Yue Ling will be blessed in the future, hehe."

This diamond user was very easygoing. At this moment, he also displayed deep envy and admiration for Zhou Hao.

Zhou Hao also responded to the envy and admiration of this diamond user.

"There's no need to be envious of me. I'm just an ordinary person."

Zhou Hao sent out the message with effective posturing.

Fairy Yue Ling's live-stream also became extremely lively.

"This is too much, too much! If this big shot is ordinary, then what are we?!"

"Sigh... When can I reach this level of peak perfection?"

At this moment, Zhou Hao's private message kept flashing.

Opening it, he saw that it was Fairy Yue Ling sending her blessing.

"Congratulations, big shot, for obtaining the 100 times reward for the Concept Scroll. Big shot, you're really lucky!"

Fairy Yue Ling was actually very excited at this moment. Her small heart was also thumping like a deer.

Zhou Hao replied simply. After being lucky, he placed his attention on the first three platinum gifts.

Although they were platinum gifts and every one of them was ridiculously expensive, there were many diamond-level users in the various live-stream rooms.

At this moment, the numbers behind the first three gifts also changed very quickly.

Before Zhou Hao could make a move, other users already got the rewards.

“‘I am just an ordinary person’ gave out Energy bar x100!”

“‘I am just an ordinary person’ gave out Energy bar x100!”

“‘I am just an ordinary person’ gave out Energy bar x100!”

...

This time, Zhou Hao saw the change in the lucky number and directly gave out the gifts consecutively.

In Fairy Yue Ling’s live-stream, everyone’s eyes widened. They felt as if their hearts had been hammered.

After all, Zhou Hao spent 1 million yuan every time he made a move. He was simply being wasteful!

However, Zhou Hao did not have the intention to stop. Every second counted and there was no time to lose. How could he stop?

After giving away nearly 20 sets and crazily spending 20 million coins...

Ding!

A light ring sounded, followed by the sound of gold coins entering the bag.

Immediately after, a banner appeared on the live-stream room: “Congratulations ‘I am just an ordinary person’ for giving away the platinum energy bar and obtaining 30 times the reward!”

This time, there were actually not many Zhou Haozhong’s. However, many people still cried from envy.

Zhou Hao had consecutively gifted 20 sets of 100 Energy Bars, but he also won the reward multiplied by 30 times. He was indeed lucky.

Of course, it would be rather awkward if Zhou Hao only got the reward multiplied by 20 times or even 10 times.

When the final moment was about to arrive, Zhou Hao even gave out more gifts crazily

Everyone in Fairy Yue Ling's live-stream gasped as they watched, not daring to breathe heavily.

Fairy Yue Ling's live-stream ranking also soared like a rocket at this moment.

At this moment, many users saw this unbelievable scene.

It had to be known that every streamer had many die-hard fans protecting them. It was basically impossible for streamers to rise up and increase their ranking.

Chapter 177 - Hope At The Darkest Moment

Chapter 177: Hope At The Darkest Moment

"Eh? What's going on?"

"Fairy Yue Ling's ranking has actually increased so quickly!"

At this moment, many streamers realized that the news of this matter had blown up.

Fairy Yue Ling, who was originally ranked below 80,000, now ranked up directly in the rankings like a rocket.

Without a doubt, the other streamers could tell that some super big shot must have switched sides and started supporting Fairy Yue Ling.

At this moment, some streamers even appeared in Fairy Yue Ling's live-stream to watch.

"Wow! It's actually 'I'm just an ordinary person'!"

Seeing that it was Zhou Hao who was giving away gifts crazily in Fairy Yue Ling's live-stream, many streamers' eyes widened.

At this moment, they were so envious of Fairy Yue Ling that their hearts were bleeding!

"This is crazy! The big shot is giving away gifts like crazy!"

"Ahhh! The big shot isn't stopping at all. He's still giving away more gifts!"

Many users in Fairy Yue Ling's live-stream were very excited.

Since they did not have the strength themselves, these users could only watch as others sent gifts. By watching Zhou Hao give away gifts like crazy, they could also feel a great sense of satisfaction.

Fairy Yue Ling did not know how to describe her current mood. At this moment, she was simply so excited that it was difficult for her to contain her emotions. Even her limpid eyes flickered with tears.

Her live-stream had always been neither popular nor unpopular and was maintained with difficulty. As more and more streamers rose up, her ranking kept falling and she was about to close down.

In the end, at the darkest moment of her life, she finally saw hope—Zhou Hao!

In the eyes of the other users and streamers, Zhou Hao had already gone crazy.

However, in fact, because he had spent 10 million luck points, he only had 60 seconds of luck time. Naturally, he did not dare to waste it.

After all, these luck points were not easy to obtain. Although he had easily obtained tens of millions of luck points in the past few beast wave attacks, such opportunities were not available every day.

Moreover, one had to have foresight. If he killed all the demon beasts one day, he wouldn't have the chance to make a killing and obtain a huge amount of luck points.

All of this might sound complicated, but it actually happened in a flash.

Ding! Congratulations: "I am just an ordinary person". You have received the reward multiplied by 20 times for giving away the Energy Bar.

Ding! Congratulations: "I am just an ordinary person". You have received the reward multiplied by 20 times for giving away the Bloodline Pill.

Ding! Congratulations: "I am just an ordinary person". You have received the reward multiplied by 20 times for giving away the Energy Bar.

...

Many people thought that Zhou Hao had already gone crazy, but they did not know that they were the ones who were crazy and not Zhou Hao.

When Fairy Yue Ling's live-stream ranking officially entered 70,000, Zhou Hao also stopped his violent spending.

In his private message, Fairy Yue Ling had already sent him several congratulatory messages and other messages.

Zhou Hao took a look. They were basically all messages of her thanking him.

As for the chat on the live-stream, many users were in an uproar.

"Big shot, you're awesome. Your performance was soul-stirring and satisfying. You're awesome!"

"Impressive, impressive. Fairy Yue Ling's live-stream ranking directly rose by more than 10,000!"

"Only the mystery box big shot is capable of something like this!"

...

Many users were extremely excited. Zhou Hao was even being referred to as the "mystery box big shot".

As many users were in an uproar and went crazy, many streamers were so envious that their hearts were bleeding. Just as Fairy Yue Ling was so excited that she could not restrain herself and was about to cry...

Zhou Hao had already stopped, logging off from the software.

In Villa 10, Zhou Hao was lying leisurely on the bed.

After taking out a Concept Scroll from his backpack, he immediately used it.

The mysterious ancient scroll-like Concept Scroll also turned to dust at this moment. At the same time, he discovered that the effect of this thing was very shocking. It was definitely worth the price.

At this moment, his five senses and six senses became incomparably clear. His comprehension of concepts had already become much deeper.

Not only that, but his understanding of the mystery box cultivation technique had also increased by a level, and he was gradually starting to understand the mystery behind it.

With a deeper understanding of the cultivation technique, his combat strength also soared!

At this moment, he could even sense a wave of surging strength.

For a moment, Zhou Hao was overjoyed!

On the other side, while Xu Ling was still cultivating in her room, Zhou Hao also appeared on the balcony of her villa.

Xu Ling immediately raised her eyebrows and looked at the balcony. Without thinking, she knew that Zhou Hao must have come.

“Hurry up and go back to cultivate! I wonder how many people are eyeing our villas and points!”

Xu Ling was already completely helpless against Zhou Hao.

Ever since entering the elite training camp, the others had been making the best use of their time to cultivate. Only Zhou Hao did not seem to be worried at all. It was as if others were fighting a mountain of blades and a sea of flames while he was taking a leisurely stroll.

“I don’t need to cultivate. I’m already invincible. What’s there to cultivate for?” Zhou Hao said half-jokingly as he walked towards Xu Ling.

It was false for him to say that he was invincible. However, at the very least, he was indeed invincible outside the spatial rift.

Of course, he would not tell Xu Ling about this for the time being. Even if he did, Xu Ling would not believe him.

At this moment, Xu Ling rolled her eyes at him.

“Don’t say that you’re invincible. As long as you work hard and get first place in the following assessment, I’ll give you a surprise reward!”

Xu Ling’s intelligent eyes turned slyly before she smiled and said with a meaningful look.

Chapter 178 - Got a Treasure!

Chapter 178: Got a Treasure!

Zhou Hao was amused when he heard this, but he quickly felt that it was a trap!

If he had taken the initiative to suggest this matter, he might have been able to take advantage of her. Now that Xu Ling had taken the initiative to say it and even smiled, there must be something wrong!

“Alright, it’s a deal. I’m very confident in getting first place.”

As he spoke, Zhou Hao also took out a page of the Concept Scroll.

“What is this?”

After seeing the ancient scroll page, Xu Ling was somewhat curious.

“This is a treasure I bought from a small shop in the fortress base. You can use it if you focus your mental strength and sense it carefully. It can increase your comprehension of cultivation techniques. Don’t waste it.”

Zhou Hao said casually, not telling Xu Ling how heaven-defying this Concept Scroll was.

“Zhou Hao, can you be more careful? You must have been deceived and cheated! Quickly take it back and return it.”

Although she felt warm inside, Xu Ling still said that Zhou Hao must have been cheated.

Such a treasure would definitely exist, but it would definitely not appear in a small shop.

At this moment, Zhou Hao shrugged indifferently. After saying this, he returned to his villa to cultivate.

“Try it. It might be useful.”

Seeing Zhou Hao leave, Xu Ling felt very helpless.

She was naturally happy that Zhou Hao was thinking about her, but she also did not want Zhou Hao to be cheated.

She could only pray that this thing was actually useful.

After Zhou Hao left, Xu Ling also took the Concept Scroll Zhou Hao left behind and began to use it according to Zhou Hao's instruction.

Even at this moment, she still felt that the ancient scroll in her hand was a scam and was definitely useless.

If Zhou Hao were to be deceived again next time, she thought that she would definitely have to give him a good whipping!

While feeling suspicious, Xu Ling started to use the Concept Scroll.

Although the Concept Scroll had turned into nothingness in her hand and there was a special fluctuation in her body, she did not sense any special effect.

Xu Ling had no idea that this was because her cultivation level was too low. The Concept Scroll could only slowly unleash its effects.

Otherwise, her body would not have been able to withstand the instantaneous outburst.

The next morning.

Xu Ling started cultivating early as usual.

After circulating her cultivation technique, her beautiful face immediately revealed an inconceivable expression.

After a night, her comprehension of the cultivation technique had actually increased by a huge level!

In just one night, five dazzling ice lotuses actually bloomed in her hand!

Without a doubt, she immediately realized that the mysterious ancient scroll Zhou Hao obtained was an extremely rare treasure.

She couldn't help but feel that Zhou Hao's luck was off the charts. He had really found a treasure!

Just as Zhou Hao was lying lazily in bed to catch up on his sleep, the sound of something heavy landing sounded from the villa's balcony.

Without a doubt, it was naturally Xu Ling.

After arriving at Zhou Hao's villa, Xu Ling called out to Zhou Hao excitedly.

"Zhou Hao! You've really found a treasure this time. Look!"

As she spoke, Xu Ling circulated her cultivation technique and directly showed Zhou Hao the fifth level of the Ice Lotus Sword Technique!

Five holy, dreamlike, and dazzling ice lotus flowers were blooming in Xu Ling's fair hand. They were extremely beautiful and dreamlike.

Five ice lotuses meant that Xu Ling's Ice Lotus Sword Technique had already reached the fifth level.

In just one night, the effect was already so impressive. It was obvious how powerful and mysterious the Concept Scroll was.

All of this was actually within Zhou Hao's expectations, but he still revealed a "pleasantly surprised" expression.

"See? When have I ever had bad taste?"

"Alright, tell me where you got it from. You really got a treasure this time."

Xu Ling looked at Zhou Hao expectantly. With this, their cultivation speed would increase by an unknown amount. Their victory in the following assessment competition was almost guaranteed.

"Uh... I just happened to pass by and bought it. There are too many shops in the fortress base. I don't think I'll be able to find that small shop again." Zhou Hao scratched his head and said innocently.

"Ah? No way. How could you not remember something so important!"

Xu Ling was extremely speechless at this moment. After rolling her eyes at Zhou Hao, she directly lay on Zhou Hao's bed powerlessly.

Looking at her beauty, Zhou Hao really wanted to kiss her.

"You're not allowed to play any tricks. Otherwise, I'll kill you with a single strike!"

Seeing Zhou Hao's eager appearance, Xu Ling immediately revealed her two cute canine teeth and said fiercely.

"Uh..."

Zhou Hao felt awkward. He was just thinking about it and had not done anything. Why would Xu Ling accuse him?

Chapter 179 - It Was Only a Glance!

Chapter 179: It Was Only a Glance!

Several days later, the first month of the elite training camp also ended.

The day of fighting for the ownership of the resources and the right to use the villas finally arrived.

At this moment, when many students saw Zhou Hao and Goddess Xu Ling arrive together, they were immediately jealous.

"I'm so jealous. Who does Zhou Hao think he is? Damn!"

Xu Ling's reputation in the Seventh Fortress Base had increased by the day. Her peerless talent was also dazzling. She was fully deserving of the title of the number one goddess and the number one genius.

And yet she still hung out with Zhou Hao, who was ranked at the bottom. They all felt that it was extremely unfair!

Seeing that many students around him were being jealous and angry, Zhou Hao immediately closed the distance between him and Xu Ling. Otherwise, the others' jealousy would have been for nothing!

His performance caused a wave of angry grunts.

"Hmph! Don't be smug. The end-of-month assessment is about to begin!"

"Goddess Xu Ling will undoubtedly get the first place, and Ji Yufan will definitely get second place. As for Zhou Hao, he's undoubtedly ranked at the bottom!"

At this moment, many students were furious and cursed Zhou Hao viciously.

Zhou Hao felt that their jealousy was good for them. After all, the more jealous these students were of him, the more motivated they were to cultivate.

From this perspective, these people should thank him properly.

Instead, everyone was currently acting like wolves and tigers and wished they could swallow him up.

Ji Yufan stood proudly in the crowd.

He looked at Xu Ling with a complicated expression.

In his heart, he was still reluctant to part with Xu Ling and wanted to have her. Especially since Xu Ling was becoming more and more dazzling, he wanted to have her more and more.

However, his rationality told him that no matter what he did, he couldn't get Xu Ling.

Since he couldn't get it, he had to be more outstanding than Xu Ling and crush her. This was because of the eternal pride in his heart.

At the same time, Ji Yufan's gaze also moved to look at Zhou Hao walking alongside Xu Ling

The moment he saw Zhou Hao, Ji Yufan immediately gritted his teeth in hatred. He was determined to cripple Zhou Hao if he met Zhou Hao in the competition, even if he had to be punished!

Zhou Hao only felt a light breeze blow past his face and completely ignored Ji Yufan's intense hostility.

When he sensed that he was being ignored again, Ji Yufan was naturally furious.

With his talent and family background, his rival should not be a student like Zhou Hao who was ranked at the bottom. However, he was helpless. In his eyes, Zhou Hao was extremely infuriating.

"Hey, are you two going to restrain yourselves in public?"

Yun Yan, who had a hot figure and was wearing a white tight suit, stretched lazily at this moment. The curves on her body were charming and extremely graceful, causing others to be unable to move their eyes away at all.

Many students looked over. If Goddess Xu Ling was a goddess in their hearts, then Yun Yan was a fairy.

“Cough cough... You should be careful too.”

At this moment, Yuan Cheng coughed lightly. Although he was also enjoying the view just now, many students were still looking at them, making him somewhat uncomfortable.

Yun Yan shrugged helplessly. She wasn't the one who asked others to stare at her. What did their staring have to do with her?

On the other side, Xu Ling pinched Zhou Hao's waist.

This guy was extremely daring. It was fine for others to stare but not for Zhou Hao.

Moreover, how was Xu Ling's figure any worse than Yun Yan's?!

“Don't look around!”

“I wasn't looking! It was just a glance”

Zhou Hao expressed his innocence.

“How can that be considered a glance?”

Xu Ling was speechless. This guy had clearly been looking at Yun Yan for a long time.

“Of course. I didn't blink the entire time so it counts as a single glance.”

Swoosh!

In the fortress base, after the many students gathered one after another, a black shadow flashed. Immediately, the supernatural expert, Yang Hui, appeared in front of everyone.

“Very good, no one is late!”

“The ranking battle this month is about to begin. The rules of the ranking battle are very simple.”

“All of you will enter the virtual cabin. The virtual cabin will simulate the environment around the spatial rift. All of you will be fighting some demon beasts around the spatial rift.”

“By killing different demon beasts, you can obtain different points. The stronger the demon beast, the more points you can obtain.”

“Be careful. Once you are killed by the demon beasts, you will not be able to reenter the virtual simulation!”

Hearing this, the expressions of many students became solemn.

This ranking battle trial was not only to test their results for the past month, but also to determine their cultivation resources for the next month.

If one’s performance was too poor and one was ranked in the last three, they would even have the risk of being kicked out of the fortress base.

“Of course, there’s also good news for you guys. After killing some powerful demon beasts, you might obtain special rewards.”

“Get ready and start entering the virtual cabin.”

Yang Hui did not say what special reward they would receive, but everyone still had some anticipation.

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 180 - Surprise Reward?

Chapter 180: Surprise Reward?

The virtual cabins of the fortress base were technological silver capsule cabins. They seemed to be somewhat different from the virtual cabins of other places.

This was also normal. All kinds of cutting-edge technology were gathered in the fortress base. After all, almost all the items in this place were the best.

Many students entered the virtual cabins one after another and began to log in automatically. Soon, they appeared in the endless wilderness.

Of course, it was only their consciousness that had appeared here. Their true bodies were still in the virtual cabins.

However, they could clearly sense everything that happened in the wilderness, including death.

Before entering the virtual cabin, many students cast meaningful gazes at Zhou Hao.

Xu Ling looked at these people unkindly. She naturally knew what these students were thinking.

“Be careful. At the very least, you have to persist until the end of the ranking battles. Don’t get eliminated early.”

Xu Ling looked at Zhou Hao and said seriously.

She also did not know how strong Zhou Hao was now. However, compared to the other students, she figured Zhou Hao was probably going to struggle.

“Sure.” Zhou Hao said calmly without any pressure.

This ranking battle was like a mountain of blades and a sea of flames to the other students. To him, it was really nothing.

Seeing that Zhou Hao did not care, Xu Ling immediately pinched his waist.

“If you get disqualified this time, I’ll teach you a lesson!”

After glaring at Zhou Hao helplessly, Xu Ling could only enter the virtual cabin.

She really did not understand why Zhou Hao was not nervous at all at such a tense moment.

After everyone entered the virtual cabin one after another, Zhou Hao also entered a virtual cabin.

After he entered, the virtual cabin automatically checked, logged in, and connected.

Soon, his vision cleared up, and he appeared in an endless wilderness.

The surroundings were filled with a murderous aura, as if danger was everywhere.

However, Zhou Hao had his hands in his pockets and was strolling leisurely in the wilderness.

Here, one could already vaguely sense the energy fluctuations of the spatial rift, showing how realistic the virtual cabin simulation spatial rift environment was.

“How boring. I wonder where Xu Ling is now?”

Zhou Hao walked aimlessly as he pondered.

At this moment, he actually wanted to find Xu Ling's location and secretly see how impressive Xu Ling had become.

However, this virtual environment was extremely vast. Even he found it very difficult to find Xu Ling in a short period of time.

Moreover, he couldn't reveal his true strength here. Otherwise, even the extremely technologically advanced silver virtual cabin would instantly explode into pieces.

Roar!

A demon beast with fur that was like flames appeared in front of Zhou Hao. Its figure suddenly flicked, turning into a red shadow that charged towards Zhou Hao's throat.

This was a mutated Red Flame Dog, a very common demon beast.

The so-called mutation was a second mutation caused by special energy.

Among the many demon beasts, this Red Flame Dog was also the demon beast that was most likely to undergo a second mutation.

Bang!

As the Red Flame Dog attacked, Zhou Hao suddenly punched out.

This punch was ferocious and powerful. With a punch, the Red Flame Dog's head was directly destroyed.

After looking at the rankings, Zhou Hao realized that killing this Red Flame Dog had only increased his points by 10.

Although it was only 10 points, his ranking had also reached the 22nd place.

It could be seen that a large number of students were still adapting to the environment and had yet to hunt demon beasts.

"Eh, this is?"

After destroying the Red Flame Dog with a single punch, Zhou Hao was originally prepared to leave. However, he did not expect a gray card to appear where the Red Flame Dog died.

"Is this the surprise reward Instructor Yang Hui mentioned?"

Zhou Hao touched his chin. This gray card was a secret technique fragment.

...

Secret Technique, Ultimate Breaking Finger, 1 / 50.

A finger technique secret technique could condense the strength of one's entire body into just two fingers. It gave one the ability to destroy gold and break jade with extraordinary condensed strength. The stronger one's physique, the stronger the might of the Ultimate Breaking Finger.

A secret technique combiner might even be able to use this to cultivate a sword technique!

...

After looking at the simple introduction on the card, Zhou Hao's interest was piqued.

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 181 - Battle of the Dark Horses

Chapter 181: Battle of the Dark Horses

However, these Ultimate Breaking Finger cards were actually very scammy.

The card he obtained had a number 19 on it. This meant that he did not just have to collect 50 gray cards, but 50 different cards with different numbers.

In this way, it was unknown how many demon beasts Zhou Hao would have to kill to collect all 50 gray cards.

In an extremely distant place from Zhou Hao, Ji Yufan had also killed many demon beasts.

Ji Yufan snorted coldly at the surrounding gray cards.

The Ultimate Breaking Finger was undoubtedly a very good secret technique, but the cultivation requirements were too harsh.

With the physique of an ordinary martial artist, many simply could not reach the minimum threshold for cultivation. Even Ji Yufan was unable to reach it!

Ji Yufan naturally disdained a secret technique that was impossible to cultivate.

In Ji Yufan's opinion, this gray card might be a part of the assessment. Perhaps the instructor wanted to see if there were any idiots who would be distracted by collecting such things.

What Ji Yufan did not know was that there were others more capable than him and were able to refine such a technique.

The appearance of the Ultimate Breaking Finger made the boring ranking trial even more fun for Zhou Hao.

There were many demon beasts around, but the small gray cards were not easy to obtain.

Zhou Hao had already killed many demon beasts along the way, but he only had three gray cards in his hand.

Most of the other students had the same attitude as Ji Yufan.

Many students had heard of the famous Ultimate Breaking Finger, but it was useless to them.

Cultivating the Ultimate Breaking Finger was very taxing on the body. The result of many martial artists forcefully cultivating the Ultimate Breaking Finger was that their entire right arm would be completely crippled.

If any other secret techniques were to appear in this place, the others might be excited. However, most of the students were already disappointed after finding out all the cards were Ultimate Breaking Finger cards.

Hiss...

A sound of vegetation shaking rang out. Then, a black shadow flashed. It was a huge python that wanted to swallow Zhou Hao.

The smelly snake saliva in the Black Scale Python's mouth seemed very realistic.

Just as the python was about to bite, Zhou Hao stepped to the side.

This step was neither too much nor too little. It was simply perfect.

He perfectly dodged the Black Scale Python's attack without spending any effort.

Crack!

Before the Black Scale Python could understand why its attack had missed, Zhou Hao had already flipped his hand and sliced off its head.

After the Black Scale Python died, a gray card appeared where it died.

Zhou Hao casually put the gray card away and continued forward.

Along the way, Zhou Hao killed all the demon beasts he encountered no matter what level they were.

After killing many demon beasts, his ranking also easily rose to the fifth place.

Zhou Hao did not have much of a reaction to the rankings, but the other students were all dumbfounded.

“What’s going on? Zhou Hao is ranked fifth?”

A student fought a fierce battle with a demon beast for a long time. After dealing with the demon beast in front of him, he discovered that Zhou Hao was ranked fifth. He immediately felt as uncomfortable as if he had eaten a dead rat.

Zhou Shen knew that Zhou Hao was the weakest among them. However, Zhou Hao’s current ranking was higher than theirs. It was simply humiliating!

In an instant, most of the students’ fighting spirit was aroused.

Previously, when they fought the demon beasts, they had to evaluate the pros and cons.

Now, everyone no longer cared. They started seizing every opportunity to kill demon beasts.

“Hmph! We were only holding back just now. Now that we’re serious, how can Zhou Hao keep his fifth place?”

A student said disdainfully. Even now, he clearly did not realize the seriousness of the problem.

There were also many people who had the same naive thoughts as this student. However, they would soon feel despair.

After a while, everyone realized that the rankings had indeed changed.

However, what was shocking was that not only was Zhou Hao not pushed to the back, but he even directly rose to the fourth place!

The current first place was Xu Ling, and the second place was Ji Yufan. However, Xu Ling and Ji Yufan's points were very close. The two would often surpass one another.

The student ranked third was called Lu Zhan. His previous performance was very ordinary, and not many people even recognized him.

However, in the month since he arrived at the fortress base, Lu Zhan's improvement was clearly incomparably huge. At this moment, he had also suddenly risen up and became an extremely terrifying dark horse.

In addition, Lu Zhan was a battle maniac to begin with. After entering the virtual cabin, he directly let himself go. All the demon beasts he encountered along the way were mercilessly killed by him.

"What's going on? Zhou Hao is actually in fourth place!"

Many students were shocked and found it unbelievable.

"That's strange. Could it be that this guy has found a group of low-level demon beasts and is now killing them continuously to obtain points?"

A student thought of a possibility, and that was that the low-level demon beasts around Zhou Hao were extremely abundant. The difficulty of killing these low-level demon beasts was not much harder than crushing an ant.

This student predicted that it was also in such a situation that Zhou Hao could keep killing these low-level demon beasts and accumulate points crazily.

These students were already very envious and jealous of Zhou Hao, so they naturally thought of this possibility.

Many people even planned to "imitate" Zhou Hao's shameless behavior of grinding points.

In any case, as long as one did not violate the rules, everything was reasonable.

However, they didn't know that the way Zhou Hao was accumulating points was not something they could imitate.

Chapter 182 - Predicting the Birth of a New Star

Chapter 182: Predicting the Birth of a New Star

The changes in the rankings were also noticed by the supernatural expert Yang Hui, Dean Shi Zhi, and the others.

Unlike the rankings that many students saw, they could also see the fragment card rankings.

Now, on the fragment rankings, Zhou Hao was ranked first with 29 fragment cards.

Looking at this result, Yang Hui and Dean Shi Zhi's eyes were also filled with disbelief.

In the fortress base, Zhou Hao's strength was really not outstanding, and he had not performed too well previously.

This time, Zhou Hao had risen up like Lu Zhan. Without a doubt, they were both rising stars.

Compared to that student named Lu Zhan, Zhou Hao was undoubtedly even more terrifying.

It had to be known that demon beasts that could drop secret technique cards in their bodies were all top-notch existences among demon beasts of the same kind.

And now, Zhou Hao had actually killed 29 powerful demon beasts. This number was simply terrifying!

It had to be known that Xu Ling, who was ranked first on the points ranking, had only killed six demon beasts that were at the second mutation level, while Ji Yufan had killed five.

The majority of the students had yet to kill even one. However, there were still some of them who had only killed one or two.

Clearly, when these students encountered such a powerful second mutation level demon beast, most of the students did not dare to, or rather, were unwilling to fight.

Zhou Hao, on the other hand, had already killed plenty of them in such a short period of time. This meant that Zhou Hao had basically not spared a single demon beast along the way. He had killed as many as he had encountered!

Yang Hui, Dean Shi Zhi, and the other supernatural experts looked at each other and could see the shock and surprise in each other's eyes.

An unimaginable new star would probably be born in the Seventh Elite Training Camp!

At the same time, Zhou Hao also killed five more demon beasts and obtained two more gray cards.

His points had also successfully surpassed Lu Zhan's and he was ranked third!

In an extremely distant place from Zhou Hao, Ji Yufan's expression was livid as he felt an unprecedented pressure.

He couldn't figure out how Zhou Hao had become so terrifying in just a month.

Or could it be that Zhou Hao had really found a place where low-level demon beasts gathered and was constantly killing low-level demon beasts to accumulate points?

However, that also didn't make sense. If that was the case, Zhou Hao wouldn't have obtained such a high number of points even if he was killing crazily.

Under Zhou Hao's provocation, Ji Yufan seemed to have been injected with chicken blood.

He would now head to the place with the most demon beasts.

He didn't mind other people surpassing him, but he would absolutely not tolerate losing to Zhou Hao.

He did not believe that with his talent and accumulation of abilities, he would be inferior to Zhou Hao!

He was indignant! He also did not believe that such a thing would happen.

After Ji Yufan exploded, his points also soared crazily.

Hiss...

"Has Ji Yufan gone crazy?"

Looking at the speed at which Ji Yufan's points soared, many students thought in surprise.

Now, Ji Yufan's points were increasing at a visible rate. This meant that this fellow might really have gone crazy from killing.

Under Ji Yufan's crazy killing, he also surpassed Xu Ling.

However, Xu Ling was different from Ji Yufan. She had always been in her peak state. If she encountered a demon beast that she couldn't handle, she would think of ways to defeat it or even directly retreat.

Therefore, even now, her condition was still at its peak.

Under Ji Yufan's crazy killing, although his points kept increasing, his condition was also falling crazily.

If this continued, before long, Ji Yufan might even lose his combat strength completely.

Outside the virtual cabin, Yang Hui, Shi Zhi, and the other supernatural experts frowned slightly.

As an elite martial artist, strength and courage were important, but brains were also indispensable.

Otherwise, no matter how strong one was, one was still nothing more than a boorish man and could not be considered a true expert.

This was especially true for the Elite Training Camp that nurtured elites. After all, the students of these camps were the future of humanity.

Ji Yufan's action undoubtedly disappointed Yang Hui, Dean Shi Zhi, and the other supernatural experts.

Zhou Hao had also encountered a little trouble in the area he was in.

After collecting forty gray cards, Zhou Hao started to get the cards with the same numbers over and over again.

Zhou Hao was helpless. It seemed that he could only start a massacre.

Otherwise, if this continued, he still wouldn't be able to collect everything before the trial ended.

Originally, he wanted to get along with everyone as an ordinary person. However, what he got in return was alienation and disdain.

Now, he decided to stop pretending. He was going to reveal his cards. He would let everyone know who was the true number one expert of the seventh fortress!

Of course, in the end, he was only doing this because he wanted to collect all fifty cards.

Now that he had gathered forty cards, he felt as if there was a fishbone stuck in his throat. It was extremely uncomfortable!

Chapter 183 - The Most Terrifying Thing Has Happened!

Chapter 183: The Most Terrifying Thing Has Happened!

After Zhou Hao became serious, the surrounding demon beasts also seemed to have been swept away by a hurricane.

No matter how many demon beasts there were or what level these demon beasts were at, they were all mercilessly killed by Zhou Hao.

Ji Yufan originally thought that he could hold on to first place even if he had to risk his life.

However, not long after, he discovered in despair that Zhou Hao's points had caught up to him at an incomparably terrifying speed.

No matter how hard he tried, no matter how many methods he used, he could only watch helplessly as Zhou Hao mercilessly surpassed him.

Pfft!

In the virtual cabin, Ji Yufan was furious and spat out a mouthful of blood.

Zhou Hao was once again affected. His martial artist pride had almost been completely shattered by Zhou Hao!

The many students at the seventh fortress base were all dumbfounded as they looked at the rankings with their mouths agape.

They could not understand what had happened for such a thing to happen.

It had only been a month. How did Zhou Hao become so terrifying?

Xu Ling was also very dumbfounded. She was originally very worried that Zhou Hao's results would not be good this time.

Only now did she know that before entering the virtual cabin, Zhou Hao was not just pretending to be calm. That calmness had actually stemmed from his absolute confidence in his powerful strength!

In this month, she had improved a lot. So did Ji Yufan and everyone else. Now, she realized that Zhou Hao was also improving, and he was improving faster than everyone else!

Xu Ling's beautiful eyes were filled with excitement. She was very happy, even happier than when she had gotten first place on the points ranking.

However, she quickly worked hard again. Although Zhou Hao had given her a huge surprise, she still did not want him to get first place so easily!

If Zhou Hao got first place, who knew how cocky he could get? Even if she couldn't stop Zhou Hao from getting first place, she had to at least catch up so that Zhou Hao wouldn't be too full of himself.

In fact, Zhou Hao did not even need Xu Ling to keep his ego in check at all. At this moment, he was rather speechless.

He had long collected 49 of the 50 gray cards. Then, something happened that made him want to vomit blood.

That was, no matter how many demon beasts he killed, he would not be able to obtain the card with the number 50. The cards he had obtained now were all numbers he already had.

If this continued, Zhou Hao felt that he might not be able to obtain the card with number 50 even after gathering two or three more sets of all the other numbers.

He even suspected that there was no number 50 card in this trial. Otherwise, it wouldn't have been so difficult.

After all, his strength was on a different level from Ji Yufan and the other students. If it was already so difficult to gather all of them, wouldn't it mean that it was simply impossible for the other students to gather all of them?

...

At this moment, Ji Yufan's entire body was already numb.

As he walked forward, he was also like a walking corpse, only waving his saber in confusion.

After all, his strength was not ordinary. The saber in his hand was specially prepared for him after he entered the Seventh Fortress Base.

In his hands, ordinary demon beasts were also easily killed.

After sending a Cloud Spirit Leopard flying, a gray card with the number 50 appeared beside Ji Yufan.

He immediately picked it up casually. Despite not having any need to collect these cards, he would still pick them up occasionally.

Although he was a little numb now, he still vaguely remembered that there seemed to be a lot of cards with the number 50.

Now, he already had at least ten number 50 cards.

On the other hand, Zhou Hao was even thinking if he should spend some luck points to secretly obtain the last card.

However, spending luck points on such a matter was a bit overkill.

Most importantly, he did not know if it was even possible.

As the ranking battle was about to end, his hunting speed became faster and faster.

What he had imagined had indeed happened. He had gathered three sets of cards ranging from 1 to 49, but he had not even seen a single card with the number 50.

Bang!

With a kick, an Iron Bone Silver Claw Wolf was sent flying into the air by Zhou Hao. Then, it exploded like a dazzling firework.

Zhou Hao did not stop and was prepared to continue forward. However, after sweeping his gaze, his face suddenly revealed a dense pleasant surprise!

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 184 - Revelation

Chapter 184: Revelation

Bang!

A bloody mist exploded in midair. At the spot where the Iron Bone Silver Claw Wolf had died, a gray card floated silently.

The number “50” was clearly written on this gray card.

The moment Zhou Hao received this card, all the students in the virtual cabins received a message.

“Zhou Hao, a student from the Seventh Elite Training Camp, was the first to gather 50 Ultimate Breaking Finger and obtain the secret technique.”

When this news spread, many students reacted differently.

There were too many unforeseen events in the end-of-month assessment this time, and most of the students were unable to digest it for a moment. Their brains were buzzing from the various news.

Among them, Xu Ling and Ji Yufan’s performance was expected by everyone.

However, Lu Zhan and Zhou Hao’s performances had far exceeded their expectations. This was especially true when it came to Zhou Hao.

Now, many students even felt that Zhou Hao had been pretending to be weak for a long time.

They guessed that Zhou Hao was actually already very strong long ago. It was just that he had always acted like a weakling, making them lower their guard.

Otherwise, Zhou Hao wouldn’t have improved so much in just a month after coming to the fortress base!

“Damn it! He actually hid his strength!”

Seeing Zhou Hao obtain more than 8600 points, most of the students were even more certain of their previous thoughts!

Perhaps it was because of the secret technique “Ultimate Breaking Finger” that Zhou Hao was unable to continue hiding.

Thinking of this, many students even began to reflect. Did they have some misunderstanding about the secret technique “Ultimate Breaking Finger”?

In the wilderness, Ji Yufan gritted his teeth tightly.

He was extremely furious at this moment. He was certain that Zhou Hao had been hiding his true strength for a long time!

The reason why he revealed his strength this time was because he had wanted to obtain the Ultimate Breaking Finger secret technique.

This also made Ji Yufan understand a principle. Seeing was believing.

Just like how he and the others had always thought that Zhou Hao was a weakling, Zhou Hao was actually on par with them and was even slightly stronger than them!

His understanding of the Ultimate Breaking Finger came from what he heard from the others.

Those people had not mastered the Ultimate Breaking Finger at all. To a certain extent, they did not have the qualifications to evaluate it.

Ji Yufan suppressed the anger in his heart and sat cross-legged to recover. Then, he also began to crazily collect the card fragments of the Ultimate Breaking Finger.

However, at this moment, it was already the end of the end-of-month ranking battle. His condition could not recover to its peak for a while.

In the final period of time, it would undoubtedly be very difficult for him to collect all the cards and obtain the Ultimate Breaking Finger.

At this moment, in the other virtual cabins, many geniuses had gradually relaxed and accepted this cruel fact.

This ranking battle had allowed them to completely understand how they ranked against other students and also motivated them to work harder.

If it was said that Zhou Hao had been hiding his true strength for a long time, then Lu Zhan, who had also suddenly risen up, must have only gotten stronger after coming to the Seventh Elite Training Camp.

After all, Lu Zhan did not have a special physique nor did he have a heaven-defying background. He probably relied on cultivating diligently to reach his current level.

Since Lu Zhan was able to accomplish this, it meant that they could also do the same!

In another area, Zhou Hao had already stopped killing the surrounding demon beasts.

After all, these demon beasts were only virtual data. If he continued, it would only be a waste of effort and would be meaningless.

Now, his attention was completely focused on the secret technique, the Ultimate Breaking Finger.

Almost all secret techniques were divided into grades. Interestingly, this secret technique called the Ultimate Breaking Finger was a secret technique without grades.

The Ultimate Breaking Finger did not come from the fortress base. Instead, it was a technique that came from the spatial rift.

As for whether it was created by other living beings in the spatial rift or by the supernatural experts of the human race in the spatial rift, no one knew.

There was still some time before the end of the trial. Zhou Hao also began to carefully study the Ultimate Breaking Finger.

This secret technique, Ultimate Breaking Finger, could be said to be nothing fanciful. It could be summarized in four words: hard, fierce, simple, and rough!

However, Zhou Hao was still somewhat puzzled.

Just now, he had already briefly tried to use the Ultimate Breaking Finger. Then, he realized that when he used the Ultimate Breaking Finger, there was an additional thread of extremely powerful strength in his body.

This strength was different from a martial artist's blood essence power. It seemed to be a higher-level energy.

Now, he vaguely knew that peak-level supernatural experts at the ninth-grade were not the limit of humans on Planet Earth.

This unfamiliar strength that was even stronger than blood essence power was likely a strength that only higher-level martial artists could master.

From the looks of it, the secret technique, Ultimate Breaking Finger, was even more complicated than most people imagined.

Chapter 185 - This Is Too Much

Chapter 185: This Is Too Much

An hour later, the end-of-month ranking battle trial also ended.

In the Seventh Elite Training Camp, many students looked tired.

Now, the final ranking had also been determined.

Zhou Hao was incomparably valiant and was ranked at the top of the list with more than 9,000 points. As for Xu Ling, who was ranked second, she only had more than 3,000 points, which was almost a third of Zhou Hao's total points.

The other students' points were even fewer.

In the end, Zhou Hao was ranked first, Xu Ling was second, Ji Yufan was third, Yun Yan was fourth. Lu Zhan, the other dark horse, was ranked fifth.

Lu Zhan's current strength was even stronger than Yun Yan's. However, he was unlucky and encountered the siege of high-level demon beasts. When the end of the month ranking battle was about to end, he was directly attacked and heavily injured.

Zhou Hao just walked out of the virtual cabin calmly when he was instantly surrounded by people.

Needless to say, Xu Ling, Zhang Yi, Yun Yan, and the others, as well as the supernatural experts, Yang Hui and Dean Shi Zhi, all instantly appeared beside Zhou Hao.

Zhou Hao was too powerful. He could be considered to be one of the top students of all the seven elite bases.

And Zhou Hao had only entered the Seventh Elite Training Camp for a month.

"Tell me, Student Zhou Hao, what's going on?"

Dean Shi Zhi looked at Zhou Hao sharply.

Before the ranking battle ended, they had already checked Zhou Hao's detailed information.

It could be said that before this, Zhou Hao's strength had always been considered average and even somewhat lacking. He was ranked at the bottom of the class.

However, this time, Zhou Hao had actually displayed strength that surpassed Xu Ling and the other peak-level geniuses. It was indeed somewhat unbelievable.

"Actually, I received guidance from a peak-level supernatural expert... His surname is Zhou!"

Zhou Hao knew that his performance this time would definitely shock everyone's jaws. Therefore, he had long thought of an excuse. Then, he casually said, "Everyone has their own secrets. I probably didn't violate any rules by hiding my strength, right?"

Zhou Hao's answer dumbfounded Yang Hui and Shi Zhi.

However, the two of them heaved a sigh of relief.

This made sense. Zhou Hao had received Senior Zhou's guidance before, so it was natural for him to be powerful.

After all, Senior Zhou's strength was at the peak of the supernatural level!

Many people in the surroundings also heard the conversation here. Their faces immediately revealed realization, and they had mixed emotions.

Their tortured hearts had just been consoled a little. However, in the blink of an eye, they started to feel sour again. They stared at Zhou Hao with envy and hatred, hating how they were not the ones who were nurtured by Senior Zhou.

Sigh, some people just had better luck!

Ji Yufan, who had been in an explosive state of mind previously, heaved a sigh of relief. Under the guidance of a peak-level supernatural expert, Zhou Hao was indeed able to obtain impressive strength at such an early stage.

However, cultivation was a long journey of qualitative change. It relied on talent, hard work, and wealth!

Zhou Hao did not have any of that. Ji Yufan knew that Zhou Hao's lead was only temporary.

If he had more time, he would still be able to easily trample Zhou Hao under his feet!

Many students had the same thoughts as Ji Yufan. In their opinion, they were currently on the first level, and a genius like Xu Ling was on the second level, while Zhou Hao was temporarily on the third level.

However, in the path of martial artists, a temporary lead did not mean anything.

It was only a matter of time before they caught up to Zhou Hao and surpassed him.

However, no one knew that thinking that Zhou Hao was on the third level or even the fourth level was completely wrong.

Because Zhou Hao had far surpassed all the levels!

Regarding Zhou Hao's matter, the supernatural expert Yang Hui and Dean Shi Zhi clearly had deeper considerations.

The two of them did not continue to ask Zhou Hao and instead analyzed the combat data of all the students.

After Instructor Yang Hui and Dean Shi Zhi left, Zhou Hao was immediately questioned by his friends!

“Alright, Zhou Hao, you sure hid your strength well. You never even revealed anything to us!” Xu Ling pinched Zhou Hao’s waist impolitely and said fiercely.

To think that she was so worried previously. She had really wasted her time.

This fellow actually dared to hide such an important matter from her!

Zhou Hao knew that he was in the wrong and could only endure this invincible pinch to calm Xu Ling down.

“Zhou Hao, you’re too powerful!”

“Ji Yufan only got more than 2,800 points. You, on the other hand, got more than 9,000 points!”

Yuan Cheng looked at Zhou Hao and almost engraved the word “admiration” on his forehead.

Hiding one’s strength was actually the usual trick used by most students and martial artists. After all, it was always better to have a few life-saving trump cards for a life and death situation.

However, Zhou Hao was really too good at hiding.

He was already the strongest student of the Seventh Elite Training Camp, yet he still maintained a low profile. He was simply too much!

“Haha, it’s actually nothing. Everyone, continue to cultivate hard and you will also be able to reach this level.”

Zhou Hao did not care at all about revealing his strength.

At his current level, he no longer needed to care about trivial matters.

What he was most interested in now was the profound realm above peak-level supernatural experts.

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 186 - Another Change in Frontier

Chapter 186: Another Change in Frontier

Of course, before truly exploring that realm, everything that needed to be improved had to be improved in all aspects.

In the end, Zhou Hao still needed to rely on his luck points.

After congratulating Zhou Hao, Yun Yan, Yuan Cheng, and the others also left tactfully, leaving Zhou Hao and Xu Ling alone.

“Actually, on second thought, under the current situation, it’s also right for you to hide your true strength.”

“After all, the Demon Race, the Insect Race, and the Machine Race are almost everywhere. Many top-notch geniuses were killed before they could truly mature.”

“Also, the secret technique you obtained this time is not something good.”

“Although this secret technique is a gradeless secret technique, according to the elders in my family, the grade of the Ultimate Breaking Finger should be terrifyingly high.”

“Apparently, this secret technique is very harmful to the body. Other than some martial artists with very special physiques, it’s simply not suitable for ordinary martial artists to cultivate it.”

As she walked towards the villa with Zhou Hao, Xu Ling also told Zhou Hao everything she knew about the Ultimate Breaking Finger.

“Don’t worry. I only gathered the Ultimate Breaking Finger on a whim to take a look.”

Zhou Hao smiled casually, indicating that he will not try cultivating it.

In fact, he had made up his mind to study this Ultimate Breaking Finger properly.

Hearing Zhou Hao say this, Xu Ling also relaxed, but she quickly said,

“You also said before that the reason why you can have such powerful strength now is because of the guidance of a peak-level supernatural expert, Senior Zhou.”

“But cultivation is a long process. If you don’t advance, you will fall behind.”

“You can’t let your guard down. Look, Lu Zhan has successfully entered the top ten this month. If you don’t watch out, you will fall behind very easily.”

Xu Ling made sense when she spoke. In fact, Xu Ling was not a talkative person. The reason why she said so much was because she cared and wanted to encourage Zhou Hao.

Although Zhou Hao was powerful, he was different from martial artists like her and Ji Yufan. Zhou Hao did not have a special physique or bloodline talent.

As his cultivation increased, this disadvantage would be infinitely magnified.

“Don’t worry. In the future, my first place will be relatively stable. Beautiful Xu Ling, aren’t you supposed to give me a reward?”

Zhou Hao said half-jokingly and even moved his face closer.

“Screw you!”

Xu Ling kicked out, but it did not land on Zhou Hao.

Instead, she took a step and closed the distance between her and Zhou Hao. Then, her red lips touched Zhou Hao’s cheek lightly. Then, her figure moved and she directly arrived at the balcony of her villa.

The afterglow of the setting sun shone on the girl’s beautiful face, making her even more enchanting and charming.

Zhou Hao was still reminiscing about the quick kiss just now.

...

At night, Zhou Hao lay on the bed in his villa, still thinking about the Ultimate Breaking Finger.

Without a doubt, this Ultimate Breaking Finger was indeed a secret technique above the peak of the supernatural level. Logically speaking, such a secret technique should not be circulated among the low-level martial artists of Planet Earth because it was harmful and useless.

However, this problem was not something he could figure out. The problem he was facing now was still to accumulate luck points and also explore the level above peak-level supernatural experts.

While Zhou Hao was still studying the Ultimate Breaking Finger, the communication device he used as Senior Zhou suddenly received a distress message from Dean Shi Zhi.

“What’s going on?”

Zhou Hao was stunned. Could something have happened again?

Zhou Hao did not have time to think. He followed the coordinates sent by Dean Shi Zhi and appeared at the front of a spatial rift.

When he arrived, he saw that something had indeed happened.

The Demon Race, Insect Race, Machine Race, and other foreign races were not obedient at night. Instead, they became even more active.

For some reason, the abundant Insect Race beasts were currently attacking the defensive line crazily.

Dean Shi Zhi, who was still full of energy in the day, had already suffered serious injuries and retreated to the back to regulate his breathing.

Shi Zhi and the others originally did not want to disturb Zhou Hao. After all, although Zhou Hao was also a member of the humans, it was still not Zhou Hao’s responsibility to constantly protect the defense line.

However, this matter was too troublesome. As a last resort, he could only ask him for help.

“Senior Zhou!”

“Senior Zhou!”

Many martial artists on the defensive line bowed when they saw Zhou Hao. At the same time, they heaved a sigh of relief.

Shi Zhi also saluted. Although he knew that Zhou Hao was very powerful, he did not expect him to arrive so quickly.

“Senior Zhou, I’m sorry to trouble you to come over so late at night.”

Shi Zhi felt very guilty.

“It’s fine. What’s going on? You don’t seem to have any external injuries?”

Zhou Hao waved his hand indifferently. These foreign races were all precious luck points to him. As long as there was a chance, he would definitely not refuse.

“It’s the illusionary sound insects. It’s an Insect Race that specializes in unleashing mental attacks. It’s very difficult to deal with.”

“I was caught off guard and was ambushed by the illusionary sound insects. My mental strength was severely injured.”

Dean Shi Zhi said with an ugly expression. Normally, this kind of illusionary sound insect would definitely not leave the spatial rift and enter Planet Earth.

When they explored the spatial rift, they had encountered illusionary sound insects before. However, this was the first time they had encountered one outside the spatial rift.

In just a while, more experts were attacked by the illusionary sound insects. Soon, two supernatural experts with painful expressions were saved.

“I’ll go take a look.”

Zhou Hao had already seen that in the dark night, there were indeed some small black dots. And every small black dot indicated hundreds to thousands of illusionary sound insects.

Every time the supernatural experts of the human race fought the Insect Race, the illusionary sound insects would interfere.

Moreover, although these illusionary sound insects were very small, their defense was very shocking.

A supernatural expert suddenly attacked and shattered a small black dot. However, this only managed to disperse the illusionary sound insects. None of the illusionary sound insects inside died.

It could be seen how heaven-defying the defense of this illusionary sound insect was.

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 187 - Difficult illusionary sound insects

Chapter 187: Difficult illusionary sound insects

“Senior Zhou, be careful. These Illusionary Sonic Bugs have extremely strong defenses and are also very well-hidden.”

“Most of the time, they will even suddenly appear beside us without us noticing.”

Just as Zhou Hao was about to attack, Dean Shi Zhi and the other two supernatural experts hurriedly reminded him.

“Don’t worry, leave it to me.”

What they did not know was that Zhou Hao had actually long known about this through observation. Moreover, Zhou Hao had also discovered that although the defensive strength of these illusionary sound insects was shocking, there was still a limit.

Some illusionary sound insects would explode after being hit by supernatural experts several times.

In other words, if one’s strength was sufficiently powerful, one could kill many illusionary sound insects with a single strike.

There were about two to three thousand black dots in the sky, meaning that there were about two to three thousand insect groups here.

After Zhou Hao entered the battlefield, he casually punched out and directly blew up the three king-level insect kings.

However, Zhou Hao’s target this time was not these king-level insect races, but the even more difficult to deal with illusionary sound insects.

If only the illusionary sound insects were the only ones attacking this time, the other supernatural experts would also be able to handle it.

After all, although the illusionary sound insects were difficult to deal with, they were still unable to withstand three to five consecutive attacks from supernatural experts.

Most importantly, many supernatural experts were currently being held back by the equally powerful Insect Race beasts and were unable to deal with the illusionary sound insects with their full strength. And the attacks of the martial artists below the supernatural level were simply like tickles to the illusionary sound insects.

Moreover, there were nearly 3,000 small black dots in the sky. Even supernatural experts would need a long time to kill all these insects.

“It’s Senior Zhou!”

After the martial artists and supernatural experts who were fighting at the frontline saw Zhou Hao, their spirits were immediately lifted.

However, thinking of the trouble this time, everyone could not help but feel nervous.

Senior Zhou's strength was indisputable. However, he had rarely interacted with these illusory sound insects before. For the time being, Senior Zhou probably didn't have a plan.

Boom!

Zhou Hao indeed did not have any plans. After coming over, he directly used a destructive method.

With a punch, a powerful wave of air reverberated in the void.

Simple and rough!

The illusory sound insects that were in front of Zhou Hao's fist were all sent flying.

However, to Zhou Hao's surprise, these illusory sound insects did not die after being blasted away by him.

In other words, although his strength was stronger and more terrifying than other supernatural experts, he was still unable to insta-kill these illusory sound insects.

What made Zhou Hao even more curious was that he could actually sense traces of special energy fluctuations from the illusory sound insects. These energy fluctuations usually only appeared when one cultivated the Ultimate Breaking Finger.

It was an energy that was even more powerful than blood essence.

Thinking of this, Zhou Hao's eyes lit up.

In any case, he had nothing to rely on now. Although his cultivation of the Ultimate Breaking Finger was not impressive, it was still useful. After all, he had studied it for a long time!

In the distance, Dean Shi Zhi and the others felt even more despair when they saw that even Zhou Hao was unable to instantly kill the illusory sound insects.

During this period of time, the frontline defense became more and more difficult. If they did not have an extremely effective method to kill these illusory sound insects, the entire defensive line would definitely suffer heavy losses from the swarm of more than 3,000 illusory sound insects.

Buzz!

Zhou Hao attacked again.

Unlike his previous punches, Zhou Hao only used two fingers to tap out suddenly. The blood essence power in his entire body circulated through a special meridian in his body and quickly condensed.

In an instant, an extremely powerful strength and blood essence power erupted.

With this move, Zhou Hao was surprised to see that the group of illusionary sound insects in front of him had been shattered into pieces by his finger.

At the same time, his luck points increased by more than 10,000 points.

In other words, he would get more than 10,000 luck points after killing a single illusionary sound insect group.

There were nearly 3,000 black dots here, meaning that he could earn a lot.

Zhou Hao immediately did not stand on ceremony. He cultivated the Ultimate Breaking Finger and used it to instantly kill the insect swarm.

Cultivation and earning money were both guaranteed!

“Damn! What kind of technique is this?”

After seeing Zhou Hao destroy a swarm of illusionary sound insects by pointing his two fingers, a supernatural expert spoke in incomparable shock.

They had all experienced how difficult it was to deal with these illusionary sound insects, but now, it had been easily destroyed by Senior Zhou!

It was hard not to respect such a powerful existence.

“As expected of Senior Zhou, he actually grasped such a unique technique!”

A supernatural expert exclaimed. This secret technique was so powerful that they could sense how terrifying it was even from afar.

“This... this seems to be the Ultimate Breaking Finger?”

Among the many supernatural experts, Dean Shi Zhi was the most knowledgeable.

After watching for a long time, he said with uncertainty.

Although the Ultimate Breaking Finger had been flowing into Planet Earth for a long time and very few martial artists had mastered it, Zhou Hao was the first supernatural expert to be able to use the Ultimate Breaking Finger in this way.

“It’s really the Ultimate Breaking Finger. This secret technique can actually be cultivated successfully! And it’s even so powerful!”

A supernatural expert said excitedly, as if he had seen hope.

“As long as I study diligently, I might even have a chance to become the next Senior Zhou!” A supernatural expert thought to himself.

“Don’t think too much. There are many powerful martial artists who cultivate the Ultimate Breaking Finger. Currently, there are only a few who have succeeded.”

A bucket of cold water was poured down, instantly extinguishing the spark that had just lit up in the cultivator’s heart.

Chapter 188 - Sky Crystal Purple Scorpion King

Chapter 188: Sky Crystal Purple Scorpion King

Bang!

As Zhou Hao pointed out with his fingers, invisible ripples immediately surged in the void and spread crazily in all directions.

The intensity of this air wave was very terrifying. At close range, it could even instantly injure supernatural experts below the third-grade.

As Zhou Hao attacked, the illusionary sound insects that ordinary secret techniques were unable to kill exploded like corn grains that had fallen into a pot of oil.

In the air, fireworks seemed to bloom from time to time in the direction of Zhou Hao.

However, in fact, these weren’t fireworks. Instead, they were flames produced by the explosion of the illusionary sound insects

Seeing this, Zhou Hao became even more certain that this Ultimate Breaking Finger was indeed a secret technique that flowed out of the spatial rift. Moreover, its grade was rather high!

It was at least above the peak-level supernatural expert!

It was precisely because this secret technique's grade was too high that master-level martial artists and grandmaster-level martial artists could very easily become crippled after cultivating it.

The physical strength and blood essence of masters, grandmasters, and even supernatural experts had not reached the minimum requirement of the Ultimate Breaking Finger.

The reason why he could cultivate was because his foundation was too robust.

With a robust and compact foundation and an incomparably pure and condensed blood essence strength and a powerful physical body, he could barely cultivate and use it.

At the same time, when he used the Ultimate Breaking Finger, a higher-level power would appear in his body.

If he was not wrong, such a higher-level energy definitely had a corresponding high-level cultivation technique.

This cultivation technique was on a completely different level from the blood essence cultivation technique.

Bang! Bang! Bang!

In midair, Zhou Hao attacked more than a hundred times in a row. After destroying more than a hundred insect groups, his figure flashed and appeared on the city wall at the frontline of the defensive line.

"Senior Zhou, are you alright?"

Seeing Zhou Hao return, Dean Shi Zhi, Instructor Yang Hui, and the other experts gathered around worriedly.

It was fine for them to be injured. However, if Zhou Hao was injured, they would be in big trouble.

Although there were many supernatural experts here, the other supernatural experts did not have the ability to efficiently kill the illusionary sound insects.

Even an eighth-grade supernatural grandmaster like Dean Shi Zhi would have to attack three to five times in a row to kill the illusionary sound insects.

During this process, it was very easy for them to be attacked by the illusionary sound insects.

Although supernatural experts below the third-grade were not weak, their mental strength was not very powerful.

If they suffered consecutive mental attacks from the illusionary sound insects, they would very easily be severely injured.

There were simply too many insect groups. Once the cultivators were heavily injured on the battlefield, they would definitely be attacked by the powerful insect groups. They might even be besieged and would definitely die!

"I'm fine, but this is too inefficient."

"Also, this Ultimate Breaking Finger is different and is not a secret technique of the supernatural level. Of course, I believe some martial artists with very special physiques can still cultivate it." Zhou Hao returned and said casually.

Although he could use the Ultimate Breaking Finger, he had yet to truly master it.

After using it for a period of time, he still needed to rest.

Each of these illusionary sound insect groups gave him 10,000 luck points.

There were around 2000 to 3000 insect groups. Basically, Zhou Hao could accumulate 30 million luck points.

However, those insects were too difficult to deal with. He had to think of a way to first repel the Insect Race's attack before thinking of a way to kill these illusionary sound insects.

"What? Senior Zhou, do you mean that this is a cultivation technique above the peak of the supernatural level?"

Dean Shi Zhi's eyes were filled with disbelief. After so many years of exploration, the various fortresses naturally had some guesses regarding the Ultimate Breaking Finger.

However, no one had expected this Ultimate Finger to be a secret technique above the peak of the supernatural level.

"Yes."

Zhou Hao nodded firmly. With his incomparably firm foundation and incomparably condensed blood essence power, it was still very difficult for him to perform the Ultimate Breaking Finger.

Other martial artists cultivating the Ultimate Breaking Finger were simply asking for trouble or even courting death.

At this moment, he even wondered how this Ultimate Finger Breaking Secret Technique had flowed into Planet Earth.

“Senior Zhou, why do you say that?”

Chapter 189 - Entering the Insect Wave!

Chapter 189: Entering the Insect Wave!

Although Zhou Hao’s prestige among the supernatural experts was very high and he was now the honorary president of the Supernatural Council, this matter was still a big deal and the other supernaturals still had to ask him about it.

“I obtained this Ultimate Breaking Finger by chance.”

“After obtaining it, I cultivated it for a period of time. At that time, although I discovered something, I was still uncertain.”

“Just now, when I used the Ultimate Breaking Finger to kill many illusionary sound insects, I clearly felt a higher-level energy increase in my body.”

As Zhou Hao spoke, he directly pulled out a trace of the invisible power that was different from blood essence.

The reason why he did this was to see if anyone here recognized this energy.

He could be considered to have ascended to the heavens in a single step. Thus, although he was powerful, he was severely lacking in knowledge.

Dean Shi Zhi and the others were all martial artists and were trained academically and were very familiar with all kinds of knowledge.

“This...”

However, Zhou Hao was disappointed.

None of the supernatural experts here, including Dean Shi Zhi, knew what this energy was.

Although everyone did not know what this higher-level energy was, they still completely believed Zhou Hao.

At the same time, they also understood why the other methods had limited effect on these illusionary sound insects and why the effects of the Ultimate Breaking Finger were so obvious.

It turned out that the two secret techniques were not on the same level at all.

“Senior Zhou, what do you think we should do now?”

Previously, Zhou Hao had reduced a large amount of pressure on the battlefield.

Now that Zhou Hao had retreated to the city wall to regulate his breathing, the pressure on the other supernatural experts had multiplied. There were even supernatural experts who had almost died.

“The current plan is still to think of a way to retreat as soon as possible.”

“As long as we can repel this insect wave, the initiative will be in our hands. I can attack at any time and gradually get rid of these illusionary sound insects.”

Zhou Hao did not hesitate and shared his thoughts.

Dean Shi Zhi, Yang Hui, and the other supernatural experts nodded. What Zhou Hao said made sense, but it was also very difficult for them to retreat this time.

“Senior Zhou, the reason why the insect wave suddenly erupted this time is because the Sky Crystal Purple Scorpion King is about to lay its eggs and requires the flesh and blood of a large number of human martial artists to replenish its nutrition...”

Dean Shi Zhi did not continue.

If they wanted to quickly defeat the insect wave, they had to kill the Sky Crystal Purple Scorpion King.

The strength of the Sky Crystal Purple Scorpion King was not inferior to a peak-level supernatural expert at all.

Moreover, the other party was currently hiding behind the insect wave. They were unable to approach at all.

Even Zhou Hao probably wouldn't be able to do anything under such circumstances.

"Does that mean that we have to get rid of the Sky Crystal Purple Scorpion King?" Zhou Hao asked Dean Shi Zhi.

The Sky Crystal Purple Scorpion King was one of the top-notch insect kings in this spatial rift area and was extremely powerful.

Because it was about to lay eggs, it would not appear at the frontline of the battlefield. Moreover, the time it took for the Sky Crystal Purple Scorpion King to lay eggs was very long, and it would enter a weak state after laying the eggs.

Therefore, the pressure on this defensive line was not that great.

Otherwise, with a Sky Crystal Purple Scorpion King here, even if there were no other demon beasts or foreign races from the Machine Race, everyone would still have a headache.

"That's right. If we can kill the Sky Crystal Purple Scorpion King, these insect waves will lose control and become a pile of loose sand. It won't be long before they retreat."

Dean Shi Zhi nodded and struggled to get up.

"Senior Zhou, I'll go with you to deal with the Sky Crystal Purple Scorpion King."

His eyes were filled with determination. Shi Zhi knew that Zhou Hao would definitely deal with the Sky Crystal Purple Scorpion King, and he definitely wanted to fight alongside Zhou Hao to increase their chances of winning.

However, Zhou Hao might still be able to return in the end, and he would definitely not be able to return.

Even the Sky Crystal Purple Scorpion King in its current state was incomparably terrifying. It was not something they could deal with at all.

"No need. You guys continue to block these insects. I'll go and kill the Sky Crystal Purple Scorpion King. Even if I can't kill it, I'll still blast it back into the spatial rift."

With that said, Zhou Hao's figure disappeared with a bang.

The surrounding people only saw Zhou Hao's figure flash further away before quickly disappearing.

Soon, a terrifying battle that shook the heavens and earth erupted behind the insect wave.

Chapter 190 - A Big Gift

Chapter 190: A Big Gift

At this moment, Dean Shi Zhi, Instructor Yang Hui, and the supernatural experts on the other battlefield were all extremely worried.

If Zhou Hao succeeded, the crisis would naturally be resolved. If he failed, they could only fight to the death and wait for the other reinforcements.

However, even if reinforcements arrived, they would still suffer heavy casualties this time.

Just as everyone was feeling incomparably worried, Zhou Hao had already begun fighting the Sky Crystal Purple Scorpion King.

At first, he thought that this Sky Crystal Purple Scorpion King was definitely incomparably terrifyingly powerful.

However, after fighting the Sky Crystal Purple Scorpion King with his full strength, Zhou Hao discovered that this thing should be very terrifying at its peak.

However, at this moment, the other party was clearly in an extremely weak state.

Moreover, Zhou Hao could tell that the Sky Crystal Purple Scorpion King was not trying to lay eggs. Instead, it was severely injured.

It was very likely that the news was spread by the Sky Crystal Purple Scorpion King itself.

Its goal was to confuse those supernatural experts and let them know that it would be very “obedient” for a very long time so that everyone would believe that they did not have to target it at all.

After thinking for a moment, Zhou Hao understood the reason!

In the spatial rift, human experts blocked the frontline to prevent some extremely powerful foreign races from crossing the boundary.

It was very likely that the Sky Crystal Purple Scorpion King was the foreign race that had broken through the blockade.

However, although it had broken through the barrier, it was still heavily injured by the human experts guarding it.

The so-called laying of eggs was just a lie. The truth was that it wanted to recover its strength but did not want to be targeted.

“Damn ant, die!”

After Zhou Hao rushed over, the Sky Crystal Purple Scorpion King was immediately furious.

Zhou Hao's guess was generally correct. It had indeed broken through the barrier and was severely injured.

However, the Sky Crystal Purple Scorpion King had never expected that under such circumstances, these human ants outside would actually dare to break through the layers of barriers and directly attack!

Rumble!

Boom! Boom!

Zhou Hao knew very well that he should take its life while it was ill.

Now that the Sky Crystal Purple Scorpion King was unprecedentedly weak, it was definitely the best opportunity to kill it.

Otherwise, once the Sky Crystal Purple Scorpion King recovered, humans would definitely have no end of trouble.

Crack! Crack!

After the battle began, Zhou Hao was overjoyed.

He had struck gold this time. This Sky Crystal Purple Scorpion King could be considered a gift from the human seniors in the spatial rift.

This scorpion was bold and daring. It was clearly severely injured, but it still dared to command the Insect Race and cause trouble.

Under Zhou Hao's attack, cracks kept exploding on the Heavenly Crystal Purple Scorpion King's body. These constantly exploding cracks were all the injuries it had not fully recovered from before.

After countless old injuries relapsed, the Sky Crystal Purple Scorpion King roared repeatedly.

The intelligence of this powerful insect was also very terrifying. The Sky Crystal Purple Scorpion King knew that it was no match for Zhou Hao, so it fought and retreated, seemingly prepared to escape back into the spatial rift.

At this point, how could Zhou Hao let it go back so easily?

Zhou Hao did not hesitate and attacked with his full strength.

Blood essence soared into the sky and danced around. A powerful force shook the heavens and the earth as it swept in all directions.

Half an hour later, sad cries constantly sounded from the Insect Race. The Sky Crystal Purple Scorpion King, who had escaped from the human experts in the spatial rift, had been directly killed by Zhou Hao this time.

The reason for this was because the Sky Crystal Purple Scorpion King did not have enough information. It did not expect an expert like Zhou Hao to exist among humans.

Otherwise, it wouldn't have taken the risk and directly come out.

After all, if the person who came this time was not Zhou Hao but another supernatural expert, then no matter who it was, they would only be its nourishment.

After Zhou Hao killed the Sky Crystal Purple Scorpion King, the swarm of Insect Race beasts immediately lost control and order. Many Insect Race beasts were directly stomped to death or devoured by their own kind.

The illusionary sound insects in the air also retreated crazily. Without the Sky Crystal Purple Scorpion King, the human experts could free up their hands to deal with them. If they continued to stay here, they would only be courting death.

"Chase after them!"

This time, the human combat experts chased after the insects without a second thought.

Now that the insect wave no longer had a leader, it was like a pot of porridge.

If they chased after them now, they could kill freely without having to worry.

Zhou Hao, who was originally behind the Insect Race, was now like the Asura Killing God.

In his opinion, the abundant insect wave was not terrifying at all. In his eyes, they were all luck points!

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 191 - Advance and Retreat Together

Chapter 191: Advance and Retreat Together

Then, many supernatural experts saw Zhou Hao holding the fort alone. Behind the insect wave, countless Insect Race experts had been killed.

At this moment, Zhou Hao's luck points was also increasing crazily.

The supernatural experts at the frontline also heaved a sigh of relief.

Previously, with the threat of the Sky Crystal Purple Scorpion King and the illusionary sound insects, everyone had been incomparably aggrieved and fearful during the battle.

Now that the Heaven Crystal Purple Scorpion King had already been killed by Zhou Hao, and the illusionary sound insects were also constantly fleeing crazily, it was the perfect opportunity for them to pursue and kill.

After the supernatural experts and grandmasters chased over, they simply wanted to chase after these Insect Race beings and kill them all!

However, everyone was still considered rational. After the insect wave gradually left Zhou Hao's location, they also stopped.

If they continued to chase, they might very well encounter other dangers.

"Senior Zhou, it's all thanks to you this time!"

Back when Zhou Hao was proposed to be the honorary president of the Supernatural Council, most supernatural experts supported it. However, there were still a small number of experts who did not object but remained silent.

Clearly, although they recognized Zhou Hao's strength, they felt that Zhou Hao's contributions were not enough for him to become the honorary president of the Supernatural Council.

But now, all the supernatural experts felt deep veneration for Zhou Hao and did not have any objections.

Apart from admiration, everyone also had deep respect for Zhou Hao. Zhou Hao's strength directly caused tempestuous waves to rise in their hearts.

The reason why the crisis this time could be resolved was because Zhou Hao had killed the Heaven Crystal Purple Scorpion King alone.

If not for Zhou Hao, this frontline defense line might have been lost!

"Senior Zhou, you've killed a lot this time. We need to calculate before we can transfer the money to your account."

A supernatural expert appeared in front of Zhou Hao very respectfully, his face filled with admiration and respect.

The insect wave attack this time was very sudden. Moreover, there were also the two unexpected existences, the Sky Crystal Purple Scorpion King and the illusionary sound insect.

After the battle erupted, even though they knew that a peak-level supernatural expert like Zhou Hao was holding down the fort nearby, everyone was still pessimistic.

In particular, not long after the battle erupted, supernatural experts were severely injured. Even Dean Shi Zhi was hurt, making everyone feel even more pressured.

Fortunately, after Zhou Hao participated in the battle, he directly displayed his miraculous Ultimate Breaking Finger secret technique and eliminated many illusionary sound insects.

In the end, after entering the insect wave, he directly killed the Sky Crystal Purple Scorpion King.

This time, Zhou Hao's gains would be incomparably huge, and all of this was well deserved!

"It's fine."

"You guys clean up the battlefield. I'll find an opportunity to see if I can completely eliminate the illusionary sound insects."

Zhou Hao's thoughts were still on the 30 million luck points.

The insect wave attack this time was a reward sent to his doorsteps. How could he let it go so easily?

"Senior Zhou, that is too dangerous!"

Dean Shi Zhi immediately objected. The expressions of the other supernatural experts were extremely moved.

They were impressed by this peak-level supernatural expert of humanity. In their eyes, Zhou Hao was a generous expert who was not selfish at all.

They immediately thought that such experts were necessary for the survival of the human race!

Although Zhou Hao had a calm expression, everyone could imagine how dangerous and terrifying the previous world-shaking battle was!

What made the supernatural experts even more shocked and ashamed was that at this moment, Zhou Hao did not want to rest. Instead, he planned to drag his exhausted body to continue attacking and resolve the final hidden danger as best he could!

"Senior Zhou!"

At this moment, the supernatural experts did not care how serious their injuries were. They all stood up.

This time, they had to fight alongside Zhou Hao. They would have no regrets even if they died!

Zhou Hao wanted to tell them not to keep him waiting any longer. After all, if he delayed any longer, those luck points would disappear!

Moreover, If so many supernatural experts went together, who knew how many luck points he would lose to the other cultivators. Zhou Hao felt helpless.

With this in mind, Zhou Hao felt somewhat heartbroken. Therefore, he decided that he absolutely could not let something like that happen.

Chapter 192 - This Is What Us Martial Artists Should Do

Chapter 192: This Is What Us Martial Artists Should Do

With this in mind, Zhou Hao felt somewhat heartbroken. Therefore, he decided that he absolutely could not let something like that happen.

“I understand your intentions!”

“However, think about it. If anything happens to you, who will be able to defend the frontline defense line?”

As soon as Zhou Hao said this, the shoulders of the supernatural experts drooped.

For the sake of their passion, they definitely had to fight alongside Zhou Hao. However, for the sake of humanity and the future of humanity, they really couldn't leave.

If anything happened to them, the frontline defense line would be done for!

“Alright, we martial artists are swift and decisive!”

“Everyone, clean up the battlefield and eliminate the remaining surviving insects. I will definitely return safely!”

After Zhou Hao finished speaking, he no longer hesitated and soared into the sky.

If he delayed any longer, it would be too late.

Looking at Zhou Hao's figure disappear into the horizon, many supernatural experts felt their blood surge. Some of the female supernatural experts were even weeping!

Senior Zhou had really sacrificed too much!

Zhou Hao did not know what everyone was thinking at this moment. He was now somewhat glad that his mind had been nimble just now and had dealt with the other supernatural experts with a few words.

Otherwise, if he delayed any longer, he wouldn't know where these illusionary sound insects would fly to.

After Zhou Hao chased over, his attacks rumbled like a storm.

For a moment, his entire body was like a ferocious tiger as he killed his way into the flock of sheep. Be it the illusionary sound insects or the other Insect Race members, they were all directly killed.

In any case, it was all luck points. It would be a waste not to kill them.

As Zhou Hao fought enthusiastically, many supernatural experts on the city wall at the frontline were incomparably worried.

Everyone was looking forward to Zhou Hao's return.

Under everyone's expectations, Zhou Hao, who had killed to his heart's content and had accumulated a lot of luck points, also returned somewhat tired.

This time, he was really tired of killing. The main thing was that he was chasing and killing, and there were too many insect wave attacks.

Seeing Zhou Hao return exhausted, many supernatural experts hurriedly went to welcome him. Everyone looked at Zhou Hao with extreme respect.

This was the peak-level supernatural expert of humanity. This was the pillar of humanity, the hope of humanity!

This was the Heaven Raising White Jade Pillar, the Sea Lifting Purple Golden Pillar! This was what it meant to be a hero, this was what it meant to be the pride of everyone!

Seeing everyone's respectful appearance, Zhou Hao was somewhat dumbfounded. Didn't he just kill a few extra Insect Race members? Why did everyone have such expressions?

Could it be that he had already become an extremely bloodthirsty pervert in the eyes of everyone?

Zhou Hao quickly dismissed this thought. After all, the Insect Race beasts were meant to be killed.

Although many supernatural experts had tried their best to invite him to stay and hold a celebration party for him, Zhou Hao still refused.

What a joke. In the Seventh Elite Training Camp, they still had to train tomorrow. After working for most of the night, it was time for him to go back and catch up on sleep!

"Senior Zhou!"

"Not lingering on one's achievements!"

“This is what we martial artists should do!”

Dean Shi Zhi watched as Zhou Hao left casually, feeling emotional.

The other supernatural experts nodded. No wonder Senior Zhou was able to cultivate to the peak of the supernatural level. This was the realm and state of mind of a true expert!

While Dean Shi Zhi and the others were still sighing at Zhou Hao’s magnificent feat and magnanimity, Zhou Hao’s figure had already flashed and returned to his villa.

He had gained a lot this time!

Zhou Hao opened the virtual screen of the Heaven Dao software and looked at the bottom right corner. He felt very happy.

Luck Points: 89,452,010 (Current level: blessed by Lady Luck)

This time, he had not been able to kill all the illusory sound insects.

However, he directly obtained more than 30 million luck points after killing the insect beasts.

Although it was not the most money he had gotten in the past few times, it was still quite a lot!

Moreover, if not for the fact that half of the illusory sound insects had escaped, he might have obtained around 50 million luck points this time if he killed all of them.

The Insect Race had more creature types than the demon beasts and the Machine Race. Even the Insect Race themselves probably did not know how many types they had.

Insects like the illusory sound insects had always been in the spatial rift and rarely appeared outside.

Therefore, the experts at the frontline defense line also did not have the experience of fighting the illusory sound insects, including Zhou Hao.

Otherwise, they wouldn’t have let so many illusory sound insects escape this time.

Zhou Hao looked at his luck points and fell into deep thought.

With so many luck points, whether it was opening mystery boxes or giving gifts in the live-stream room, he could undoubtedly do something big!

However, with the experience of killing the illusionary sound insects, Zhou Hao discovered that regardless of whether it was Demon Race, Insect Race, Machine Race, or other foreign races, they were all relatively weak outside the spatial rift.

Therefore, outside the spatial rift, under normal circumstances, peak-level supernatural experts were already able to dominate.

As for experts that surpassed the peak-level supernatural experts, they would enter the spatial rift to cultivate while resisting the stronger foreign races.

This meant that the strength of a ninth-grade supernatural grandmaster was very limited. They had to advance further in order to fight in the spatial rift.

For example, based on what happened today, be it the Sky Crystal Purple Scorpion King or the illusionary sound insects, they might be extremely common in the spatial rift. The supernatural experts inside could easily resolve them.

However, for the supernatural experts outside the spatial rift, they were terrifying and difficult to deal with.

The most important thing now for Zhou Hao was to quickly increase his strength.

Tip: You can use left, right keyboard keys to browse between chapters.

- Chapter 193 - Something Incredible Happened

Chapter 193 - Something Incredible Happened

Chapter 193: Something Incredible Happened

Zhou Hao lay on his bed very casually and organized the clues in his mind.

He felt that as long as he organized these clues, he would quickly be able to see a wider world, a world above the peak of the supernatural level!

...

After thinking for a moment, Zhou Hao seemed to understand.

His eyes also flickered.

This kind of power that he was currently unaware of was probably something that only peak-level supernatural experts and above could control and use.

However, outside the spatial rift, he couldn't find any cultivation techniques for this power at all. Even though he had already raised the Nine Revolutions Golden Body Art to the limit, it was still only a martial artist's blood essence cultivation technique.

Zhou Hao could not help but look at the luck points on the virtual screen again. If he increased his luck points to 100 million, could he open a cultivation technique above the peak of the supernatural level?

According to his past experience, Zhou Hao felt that this was very likely.

Seeing that he still lacked the luck points, Zhou Hao immediately decided to make another trip in a few days.

However, now that the Illusionary Sonic Insect had been killed and returned to the spatial rift, although he was powerful, it was still best for him to not rashly enter the spatial rift in order to be safe.

It would be best if he could increase his combat strength to the peak of the supernatural level outside the spatial rift.

At the same time, the news of the appearance of the illusionary sound insects appearing in Huaxia also shocked the world.

As everyone knew, the illusionary sound insects were from the spatial rift. Under usual circumstances, they would not appear outside the spatial rift.

The appearance of the illusionary sound insects in Huaxia also meant that something terrifying might really happen. Perhaps something had even happened to the experts in the spatial rift.

Otherwise, under normal circumstances, with these experts holding down the fort, these extremely powerful and special foreign races would be unable to take a step forward at all.

...

The next morning, the sound of a heavy object landing sounded from the villa's balcony.

Xu Ling had originally come to encourage Zhou Hao, but she realized that something incredible had happened today.

Zhou Hao, who was usually sleeping in, was actually sitting cross-legged on the bed today, meditating and comprehending something.

“You’ve improved!”

Seeing Zhou Hao hard at work, Xu Ling was very satisfied.

Although Zhou Hao’s strength was currently the best in the Seventh Elite Training Camp, Zhou Hao did not have a special physique like her and Ji Yufan.

The path of cultivation was not a 100-meter sprint. Instead, it was a super long-distance sprint that was more like 10,000 to 100,000 meters, or 1,000,000 meters, or even 10,000,000 meters.

A momentary lead was simply nothing much. If one was careless, it was very easy for one to be surpassed by martial artists of the same generation.

“Of course.”

Zhou Hao opened his eyes and felt his eyes light up.

Today, Xu Ling was wearing a white slim-fit sportswear. She exuded infinite youthful vitality. She was pure, flawless, and charming.

“Stop staring at me. Quickly gather at the training ground and continue cultivating!” Xu Ling noticed that Zhou Hao was staring at her with a faint smile and said angrily.

“If you don’t let me look at others, shouldn’t you at least let me look at you?”

Zhou Hao expressed his grievance. Moreover, before this, he had concealed his strength just to be safe. Back then, he decided he would only reveal his strength when he was invincible.

Now that he had changed his strategy and revealed his strength that was unparalleled in the Seventh Elite Training Camp, this little girlfriend of his still had such strict requirements for him. Sigh!

Zhou Hao wondered when he could finally relax.

“Stop joking. Hurry up, I’ll wait for you outside!”

With that said, Xu Ling left first.

Not long after, Zhou Hao also appeared outside the villa and went to the training ground with Xu Ling.

Seeing Zhou Hao and Xu Ling arrive together, the other students in the fortress were extremely depressed.

All along, Zhou Hao had always been ranked at the bottom of the Seventh Elite Training Camp. In the end, Zhou Hao rose up in the rankings and shocked everyone with a single feat. They were simply unable to accept this!

Many students were even jealous. How detestable!

“You guys are too slow! What are you guys doing?”

“A month has passed, but you guys didn’t advance according to my expectations!”

“Don’t you understand the situation of humans at all? Elites?”

Seeing that many students were somewhat lazy, Yang Hui’s cold metal-like voice sounded in everyone’s ears.

Hearing Yang Hui’s words, everyone’s expressions instantly turned solemn, and then they instantly lined up.

Entering the Seventh Elite Training Camp was not always a good thing. If one did not work hard enough, they could be easily disqualified.

Just like the other elite training camps, only the elites of the Seventh Elite Training Camp could stay!

“After a month of training and the end-of-month assessment not long ago, you have all grasped the basics.”

“This time, I plan to bring you guys to the frontline defense line not far away to train.”

“The frontline defense line is next to the spatial rift. This time, you will be going to the outermost area.”

“With your strength, you should be able to return alive if you are careful.”

As soon as Yang Hui said this, the expressions of many students changed drastically.

What was going on? What did that mean exactly?

Did that also mean that they could also die in the outermost defense line?

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 194 - Dangerous Training

Chapter 194: Dangerous Training

“Be careful. After we disperse, you have half an hour to make some basic preparations in the fortress.”

“After entering the outermost edge of the frontline defense line, all of you will be sent to a large area alone.”

“In the Seventh Elite Training Camp, only a small number of the most elites can remain and stand out.”

“Some people who haven’t realized the seriousness of the problem might leave this place one after another. They might also die in training or quit because of injuries.”

When Yang Hui said these words, his tone was extremely solemn.

If they did not sweat during training, they would bleed on the battlefield or even die!

Hearing Yang Hui’s words, even though everyone was an elite, they were still somewhat at a loss for a moment.

According to Instructor Yang Hui, they would directly go to the outermost edge of the frontline defense line this time.

Even with everyone’s strength, that place was still rather dangerous.

Moreover, they were unable to team up this time. They had to face all the difficulties alone!

“Instructor Yang Hui, if we encounter danger, can we ask for help?”

Although it was a little embarrassing, an elite student still couldn’t help but speak up.

In this student’s opinion, elites like them could die on the battlefield after growing up, but they definitely shouldn’t die in training.

“When you guys train, I will also enter an area suitable for my strength to fight.”

“If I encounter danger, can I ask for help?”

Yang Hui did not answer the student and asked a question instead.

“This...”

At this moment, many students already understood why Instructor Yang Hui was not in the fortress base most of the time.

It turned out that he had gone to battle!

“Understood.”

Many students immediately nodded worriedly. This training program was too sudden for everyone.

Yang Hui also knew that this training program was too cruel for them, who had just undergone a month of training.

However, it appeared that some changes had already occurred in the spatial rift. There was not much time left for everyone.

All martial artists had to grow up before the disaster completely descended. Otherwise, once the disaster arrived, they could only sit and wait for death!

After disbanding, everyone's mood was very depressed, including the expressions of Ji Yufan and the others.

The outermost area of the frontline defense line was completely different from the virtual cabins. In the virtual cabins, nothing was real. They did not have to face death directly and were safe.

The outermost layer of the frontline defense line was different. If they encountered a powerful foreign race beast or deviated from their route and entered a dangerous area, their lives would be at risk and it would be unlikely for them to return alive.

Not only that, the foreign races there were also rather powerful. Otherwise, Instructor Yang Hui's expression would not have been so solemn.

Immediately, many elites grabbed the half an hour's time with depressed and heavy hearts to make sufficient preparations.

Unlike the others, Zhou Hao was not nervous at all.

The frontline defense lines were not dangerous for him at all. Starting from the entrance of the spatial rift, there was the core area, the inner area, the outer area, and the outermost area.

Many supernatural experts and guards were stationed at the outermost area and were guarding tightly.

When he killed the Sky Crystal Purple Scorpion King previously, he had directly entered the core area. Now, he naturally did not have any pressure to go to the outermost area.

However, the other geniuses were different. At this moment, they all had bitter expressions.

They would have to suffer for this experience.

“Should we set up a rendezvous point?”

Xu Ling called Zhou Hao, Yun Yan, and some others over.

Although everyone would be dispersed in various areas in the beginning, they could still decide on a gathering point to travel towards.

After teaming up, their safety would increase drastically.

After all, there was strength in numbers!

“Alright, how about we meet up here?”

Yun Yan nodded and raised her hand to point at the map. It was a huge lake with many rivers around it.

As long as they found the nearby river in the outermost area, they could easily arrive at the lake and meet up with the others.

“This place is good!”

Zhang Yi nodded. This place was very well chosen.

This lake was located at the outermost edge of the frontline defense line. It could be said to be one of the safest areas. Here, even if they encountered any danger, they could still escape and travel towards the guards and experts.

These experts would not take the initiative to save them, but it could still increase their chances of surviving.

After all, the purpose of training was to stay alive while becoming stronger. It was definitely not to send them to their deaths!

Soon, Zhou Hao and the others agreed on the plan.

Without absolute strength, intelligence was clearly the most important.

Chapter 195 - Cant Waste the Chance

Chapter 195: Can't Waste the Chance

“Zhou Hao, do you have anything to add?”

Although Zhou Hao did not have a powerful bloodline or special physique, he was still the top elite of the Seventh Elite Training Camp after all. His opinion was very important.

“Let’s do as we planned just now. If we don’t enter the training area ourselves, we won’t know what will happen.”

After Zhou Hao finished speaking, the others nodded.

At this moment, Zhou Hao was calm and at ease. He did not have the fear of facing death, as if the training this time was no different from his usual training.

For some reason, at this moment, Xu Ling’s originally restless heart miraculously calmed down a lot.

For some reason, the current Zhou Hao gave her an indescribable sense of security.

Under Xu Ling’s heated gaze, even the thick-skinned Zhou Hao was a little overwhelmed.

If not for the fact that there were so many people and everyone else was in a bad mood, he wouldn’t mind public displays of affection.

Half an hour later, everyone returned to the training ground.

“Everyone, take the parachutes and board the Sky fighter!”

“The Sky Fighter will send you to the training area. Then, you will jump into the training area according to your numbers.”

“In seven days, the training will end. Gather at the entrance. Those who are unable to come to the entrance, send a distress signal.”

“If you can’t send a distress signal, I’ll try my best to bring you back based on the location device.”

Yang Hui’s words were undoubtedly very cruel. He had made it very clear that if they were not careful in this training, they would not be able to return alive!

The huge Sky Fighter had long been parked in a spacious and huge hangar far away from the training ground.

After Instructor Yang Hui finished speaking, Zhou Hao and the others lined up to receive their parachutes before boarding the Sky Fighter.

This type of combat parachute was easy to use and could be activated with a single click. As long as one grasped the right timing and opened it, they would have nothing to worry about.

After receiving the number plate, Yuan Cheng’s expression instantly turned bitter.

“I’m Number 1...”

Hearing this, the surrounding Yun Yan and the others also felt some pity.

This meant that Yuan Cheng would be the first to enter the training area.

“I’m 17. Is there anyone with adjacent numbers?” Xu Ling also took out the number plate she had received.

If the numbers were close together, it meant that the areas would also be closer.

In that case, the people with adjacent numbers might encounter each other on the way to the lake.

“What a coincidence, I’m 16!”

Yun Yan was happy. This meant that as long as she and Xu Ling did not deviate too much, the two of them would quickly meet up.

However, among the few of them, only Yun Yan and Xu Ling were lucky. All the other students were assigned to areas that were adjacent to people they weren’t so close with.

Under such circumstances, the two sides naturally could not work together.

Zhou Hao's number plate was 9, and he was very unfamiliar with the two students who had number 10 and 11.

Although Zhou Hao's current strength was the best in the Seventh Elite Training Camp, the other two did not ask Zhou Hao to team up shamelessly. After all, they had not interacted much before.

Of course, after jumping into the training area, they would still take the initiative to approach the area where Zhou Hao was.

Zhou Hao's strength was obvious to everyone. At a time like this, it was better to be shameless.

After the Sky Fighter entered the training area, Yuan Cheng, who was number 1, waved at everyone and jumped down from the Sky Fighter.

Gradually, every student jumped off with their parachute according to their assigned number.

The Sky Fighter flew very quickly. Not long after, Zhou Hao jumped down calmly.

However, he did not plan to waste any time in this area.

Now that he happened to be lacking more than 10 million luck points, he could completely take this opportunity to enter the core area and see if he could obtain this 10 million luck points in the core area.

After he accumulated 100 million luck points, he could use a higher-level luck status to open the mystery box.

After arriving at the ground, his figure moved and directly crossed countless areas. He instantly appeared in the core area outside the spatial rift.

The foreign races here were very powerful. Occasionally, there would be powerful foreign races at the level of the Sky Crystal Purple Scorpion King lingering in the spatial rift and looking out.

After coming here, even Zhou Hao had to be careful and not act rashly.

Chapter 196 - Into the Tigers Den

Chapter 196: Into the Tiger's Den

"So this is where the illusionary sound insects are hidden."

After traveling for a while in the core area, Zhou Hao suddenly felt happy.

He had already found the illusionary sound insects that he had lost previously. Although there were not many, there was still a considerable amount.

Every illusionary sound insect group was worth 10,000 luck points. After killing the remaining illusionary sound insect group here, he would have at least 3 million luck points.

In fact, during this period of time, these remaining illusionary sound insects had been giving the other cultivators at the frontline headaches.

They did not have Zhou Hao's heaven-defying technique and their method of killing the illusionary sound insect was very poor. It was also very dangerous.

The illusionary sound insects were most adept at penetrating mental attacks and were simply impossible to guard against.

Zhou Hao was killing two birds with one stone.

Bang!

Zhou Hao casually pointed out with his finger, and the surrounding void immediately trembled.

A powerful, domineering, and ferocious force pierced through the illusionary sound insect group in an instant, killing many of them on the spot!

At the same time, Zhou Hao naturally received 10,000 luck points.

With his previous experience, Zhou Hao was now even more adept at dealing with the illusionary sound insects.

Usually, before the surrounding illusionary sound insects could figure out anything, they would have already been killed by him.

Along the way, not only had Zhou Hao killed the illusionary sound insects, but he had also killed some other foreign race beings that he could deal with quickly.

The most urgent matter at hand was the cultivation technique above the peak of the supernatural level.

A martial artist's blood essence cultivation technique could allow them to roam freely outside the spatial rift. However, it was simply not enough for them to enter the spatial rift.

Moreover, as times changed, it was becoming harder and harder to survive outside the spatial rift.

These 300 illusionary sound insects were not a challenge for Zhou Hao.

However, after using the Ultimate Breaking Finger so many times in a row, his arm was also somewhat sore and numb.

This was even when his foundation was firm, his blood essence was powerful, and his physique was strong. If it were an ordinary martial artist, at this moment, his lower body would be completely paralyzed.

After killing so many illusionary sound insects, he was undoubtedly one step closer to 100 million luck points.

Unfortunately, the majority of the Illusionary Sound Insects that had been lost previously were still nowhere to be found. It was unknown whether the other illusionary sound insects had fled back to the spatial rift or somewhere else.

"Hmm?"

Zhou Hao looked at the spatial rift and narrowed his eyes.

In the spatial rift, not far away, there was a huge pit.

It was unknown if it was caused by the war between the foreign races or because of something else.

This deep pit had only just appeared because the surrounding soil was still fresh.

What really attracted Zhou Hao's attention were the metal pieces that were revealed in the depths of the pit.

Judging from the material and lines of the metal piece, it was definitely a relatively high-level broken armor!

At this moment, the area where the armor was revealed happened to be its spatial storage compartment.

Because the armor had been buried in the soil for too long, it had already become somewhat dim. However, even though it was damaged and dim, it still gave off an extraordinary feeling.

“Shall I go in and take a look?”

Zhou Hao hesitated.

With his strength, it would not take long for him to enter and get the broken armor before coming out.

However, there were too many unpredictable factors in the depths of the spatial rift. Anything could happen, so he still couldn't let his guard down.

Perhaps this was the bait the foreign races had set up to lure him into a trap.

The hideous spatial rift that stretched across the void was like a huge scar.

Some Insect Race, Demon Race, Machine Race, and some other relatively rare foreign race beings were all active around the spatial rift.

These foreign races beings were not the true experts of the foreign races. Those foreign race beings that were truly powerful would not wander around like this.

After deciding to enter the spatial rift to take a look, Zhou Hao quietly observed the area.

Without a doubt, the spatial rift was extremely dangerous.

He could already sense more than one powerful aura sweeping out from the spatial rift.

These powerful individuals might be very far from the entrance of the spatial rift, but with their speed, it would only take them a few breaths to arrive.

After waiting for a long while, Zhou Hao's gaze changed.

A huge beetle was releasing an incomparably powerful and terrifying aura as it passed by the entrance of the spatial rift.

This was an adequate king-level beetle named Green Python Striped Armor Beetle. Its appearance was extremely disgusting, but its aura was incomparably powerful.

Typically speaking, if Zhou Hao went over at this moment, it was very likely that he would cause unnecessary trouble.

However, Zhou Hao felt that this was definitely the best time to enter the spatial rift.

This was because although this beetle had terrifying strength, its nerves and senses were very slow, unlike the other foreign race experts.

Moreover, with the other party's powerful aura covering him, as long as he was more careful, the other powerful foreign races would not discover him at all. It was equivalent to having an additional layer of protection.

Chapter 197 - Precious Combat Notebook

Chapter 197: Precious Combat Notebook

As the king-level Green Python Striped Armor Beetle turned around and continued to move deeper into the spatial rift, Zhou Hao's figure directly transformed into a stream of light that flashed into the huge spatial rift.

No matter how slow its nerves and senses were, it still quickly sensed the approaching danger.

However, when the king-level Green Python Striped Armor Beetle turned back around cautiously, it discovered that there was nothing behind it.

It did not notice any changes in the pit at all.

After confirming that there was nothing, the king-level Green Python Striped Armor Beetle continued to advance. On the other hand, Zhou Hao appeared in a dense forest outside the spatial rift happily.

In his hand was a set of broken armor.

In the broken armor, there were some bone dregs and bone powder.

It was obvious that the owner of this armor had encountered an extremely powerful foreign race expert when he was alive.

His body had been corroded into pieces by some foreign race technique. Even his broken armor had been corroded severely.

The only fortunate thing was that the spatial storage compartment of the broken armor was very stable. Even though the armor was already broken, this place was still intact.

Of course, it was also possible that this human expert wanted to leave the things in the spatial storage for his descendants before he died...

This was the reason why humans could continue to inherit the legacy during these times...

Without much effort, Zhou Hao opened the spatial storage.

In this spatial device, there was a combat notebook.

This was definitely an extremely precious item. It recorded what this expert had seen, cultivated, and even fought in the spatial rift.

Zhou Hao even learned that the note was left behind by an expert named Si Nanxun.

His previous guess was right. At the last moment of his life, Si Nanxun was still thinking of ways to preserve the resources he had on him.

According to Si Nanxun's wishes, he wanted to leave some of his resources to his descendants.

Zhou Hao shook his head regretfully. The Sinan Clan had long been wiped out in the battle 60 years ago.

In today's history books, there was even a large section describing this combat clan.

After sorting out Si Nanxun's belongings, Zhou Hao found a relatively safe place and began to check.

Finally, Zhou Hao found what he was looking for.

Even peak-level supernatural experts cultivated the blood essence of martial artists.

A martial artist's blood essence was a powerful foundation energy. However, after reaching a certain level, a martial artist's blood essence was already unable to support an even stronger cultivation system.

It was like how if one wanted to build houses, one would use tiles and bricks. However, if one wanted to build an impregnable defensive fortress, they still needed to use high-intensity alloy and higher-level materials.

As for the cultivation level above the ninth-grade supernatural level, it was known as the Heaven Realm!

A Heaven Realm martial artist no longer cultivated the blood essence of a martial artist, but the essence energy of a martial artist!

Essence energy did not come from thin air. Instead, it was an advanced transformation of a martial artist's blood essence.

The basic principle behind the transformation was that the martial artist's blood essence would be purified by several times, ten times, or even a hundred times.

Then, one could fuse high purity martial artist blood essence with the extremely rich Heaven and Earth essence energy in the depths of the spatial rift to obtain essence qi.

Because of the difference in physiques, bloodlines, cultivation techniques, and blood essence condensation, the blood essence intensity of different martial artists was also vastly different.

In Si Nanxun's cultivation notebook, Zhou Hao quickly found the cultivation technique Si Nanxun was cultivating.

This cultivation technique was called the Grand Yan Record. According to Si Nanxun's assessment of the Grand Yan Record, this cultivation technique was very ordinary. However, his ability was limited and he was unable to switch to a higher-level cultivation technique.

After seeing Si Nanxun's detailed explanation of the Grand Yan Record, Zhou Hao could only sigh helplessly.

It was indeed impossible for Zhou Hao to take all the good things in the world.

It was already very difficult for him to obtain a cultivation technique of the Heaven Realm. At this moment, he really should not be picky.

However, the Grand Yan Record was really standard and ordinary. A cultivation technique of this level was not what Zhou Hao wanted.

Zhou Hao also learned something from Si Nanxun's notebook.

In the depths of the spatial rift, there were indeed very powerful human experts. They were gathered together in an orderly manner and were fighting against the powerful experts of the foreign races.

However, there were also some martial artists who were weaker and were not at the frontline of the spatial rift.

For example, Si Nanxun and the others' mission was to kill the powerful foreign races that were likely to enter the human world through the spatial rift.

It was precisely because there was the first line of defense in the depths of the spatial rift and the second line of defense of Si Nanxun and the others that the invading foreign races were kept under control.

However, according to Si Nanxun, these two lines of defense had already been under immense pressure for more than 60 years.

As a result, when human martial artists reached the ninth-grade supernatural level and became peak-level supernatural experts, they would immediately enter the spatial rift and participate in the battle.

This was to reduce the huge pressure on the frontline. It was also to give more time for junior martial artists to grow.

Zhou Hao originally thought that these peak-level supernatural experts were so anxious to enter the spatial rift to climb to a higher level in order to completely turn the situation around.

Now, he had found out that it was because the pressure on the frontline defense line was too great and the war situation was tense.

After reading Si Nanxun's cultivation notes, Zhou Hao felt as if everything had suddenly opened up in front of him. Many things that he had not known before now had been cleared up.

Of course, the greatest gain of this trip was still the Grand Yan Record that even Si Nanxun himself complained about.

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 198 - Simply Too Good!

Chapter 198: Simply Too Good!

However, even though Si Nanxun was complaining, the reason why he was able to cultivate to the third-level of the Heaven Realm was clearly because of the Grand Yan Record.

After burying Si Nanxun's bone dust and bone powder as well as his shattered armor, Zhou Hao also prepared to start cultivating the Grand Yan Record.

Unlike basic martial artist cultivation techniques, blood essence cultivation techniques were basically universal. Other than some cultivation techniques with outstanding attributes and were very special, the other cultivation techniques were basically suitable for both men and women.

Cultivating an essence energy cultivation technique was different. Every martial artist had a compatibility score with different essence energy cultivation techniques.

Before cultivating, one had to undergo a self-test. If one's compatibility score was below 60, they basically wouldn't have much success in cultivating the cultivation technique.

After carefully checking the Grand Yan Record, Zhou Hao felt somewhat helpless.

He had no choice now. He could only hope that the compatibility between him and the Grand Yan Record would be higher. Otherwise, he would feel terrible.

In Si Nanxun's cultivation notes, there were a total of three martial artists who cultivated the Grand Yan Record, including Si Nanxun himself.

Si Nanxun's compatibility with the Grand Yan Record was 70, so his cultivation speed was considered acceptable.

Among the other two, one of them had a compatibility score of 30 and was considered to have forcefully cultivated.

This was because the essence energy cultivation technique was very rare!

Although a compatibility score of 30 was not high, it was still very common for martial artists to have a 0% compatibility score with most essence energy cultivation techniques.

The remaining person had a compatibility score of 85. Si Nanxun's evaluation of this person was that the other party's cultivation speed was extremely fast. Although the Grand Yan Record was not very strong, it could still be considered to have truly shone in that person's hands.

After making a rough judgment, Zhou Hao also began to perform the pre-cultivation self-assessment.

At this moment, he was still worried about a problem. After all, a compatibility score of 0 was not uncommon.

If his compatibility score was 0, that would be ridiculous.

After circulating the cultivation technique according to the self-testing method, Zhou Hao also sensed bright spots appear.

These shining lights were like dazzling stars in the endless darkness.

After a small dot of light appeared, Zhou Hao heaved a sigh of relief.

As long as a small dot of light appeared, it meant that he had a compatibility score that was above 0 with the Grand Yan Record. At the very least, there would not be an awkward situation where his compatibility score was 0.

A moment later, a second, third, and fourth light spot suddenly appeared one after another.

After ten minutes, Zhou Hao's body trembled.

"Damn!"

Looking at the hundred flashing lights in the dark world of his perception, even Zhou Hao could not help but exclaim.

Among all essence energy cultivation techniques, the Grand Yan Record was only a first-grade cultivation technique. If the compatibility was perfect, the score would be 100.

At this moment, even Zhou Hao felt that it was somewhat inconceivable. The compatibility between him and the Grand Yan Record had actually reached the maximum level!

Could it be that he also had some hidden talent?

Zhou Hao's face revealed a strange expression. All along, he had been using his luck points to change his fate.

In the end, he did not even use his luck points this time and was already so lucky!

After completing the self-testing before cultivation, Zhou Hao could not help but start cultivating with the Grand Yan Record.

Now, when he used the Grand Yan Record to cultivate, the barriers Si Nanxun had mentioned did not appear at all. He felt as comfortable as if he was racing on the F1 track.

Zhou Hao understood that the Grand Yan Record might be lacking in the hands of martial artists like Si Nanxun. However, in his hands, it had directly become miraculous.

He did not know the origins of this cultivation technique, but it seemed to be tailor-made for a martial artist like him.

It was very easy for him to use the Grand Yan Record to extract blood essence. His limbs, bones, meridians, and even every cell in his body seemed to be cooperating.

“Nice!”

At this moment, Zhou Hao revealed a rather satisfied expression. This was true cultivation.

Initially, he was still a little worried that this cultivation technique would really not work as Si Nanxun had said.

Now that he had cultivated it, he realized that this cultivation technique was simply too good!

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 199 - Shocking Control of Strength

Chapter 199: Shocking Control of Strength

After cultivating the Grand Yan Record, Zhou Hao’s five senses had indeed undergone a qualitative change.

In the past, even though his foundation was incomparably consolidated, it was still very difficult for him to sense the extremely thin essence energy in the world.

However, things were different now. Even though the essence energy was very thin, he could still sense it.

Moreover, by circulating his cultivation technique, he could allow the Heaven and Earth essence energy to fuse with his martial artist’s blood essence and improve it, forming essence energy that only belonged to him!

Crack! Crack!

Crack! Crack!

While Zhou Hao was cultivating the Grand Yan Record, his limbs, bones, and meridians would emit explosive sounds and violent roars from time to time.

His entire body, inside and out, was undergoing some kind of transformation.

Zhou Hao cultivated for an entire day and night.

The next morning, the morning light in the wilderness shone on him before he left his cultivation state.

Although he had cultivated for a day and night in this place, the essence energy circulated continuously around his body. He was full of energy, his entire body felt refreshed, and he was very comfortable!

“No wonder it was so difficult to use the Ultimate Breaking Finger back then...”

Zhou Hao smiled bitterly. After cultivating the Grand Yan Record, the Ultimate Breaking Finger, which he thought was very high-level not long ago, was actually just ordinary.

It was not because the ultimate breaking finger was domineering or terrifying, but because essence energy was too powerful.

The difference was not even comparable to the difference between charcoal and aviation diesel.

Bang!

As Zhou Hao casually punched out, the demon beast that had been lying dormant for an entire day and night for the past hundred miles was directly shattered into pieces of meat that filled the sky.

“How powerful!”

Zhou Hao could not help but sigh as he felt the powerful strength flowing in his body like a roaring river.

This was only the beginning. He was still preparing to enter the Heaven Realm.

When his strength truly stepped into the first level of the Heaven Tier, his entire body would definitely undergo a true qualitative change and improve.

Next, Zhou Hao attacked several more times and killed several demon beasts before leaving.

Around the huge and hideous spatial rift, the experts and martial artists at the frontline of the defensive line would occasionally patrol this area.

Especially after the huge commotion just now, it had even attracted the experts in charge of patrolling here.

A nimble figure quickly appeared in this area.

This was a valiant and elegant female supernatural expert.

Zhou Hao had been to the frontline defense line many times, but he had never seen this female supernatural expert.

Ling Shuying, code name Nightingale, was a combatant from the special forces at the frontline.

She moved around a lot and was not stationed at the Seventh Elite Training Camp. Thus, she could often be seen in the inner area or the outer area of the spatial rift.

Not long ago, she had heard that a person known as Senior Zho had appeared in this part of the spatial rift and even became the honorary president of the Supernatural Council. Because of this, Ling Shuying was also ordered to investigate.

However, that Senior Zhou was elusive. She had arrived at the wrong time and was unable to find him.

Hiss...

After Ling Shuying casually walked around this area for a while, her beautiful eyes suddenly widened as if she had seen something unbelievable.

Many demon beasts, Insect Race, and other powerful foreign races had been killed here.

Moreover, it seemed to be a surprise attack that pierced through the heart and shattered all the organs in their bodies.

Such control of strength was simply shocking!

"Could it be that a big shot from the depths of the spatial rift has come out?"

Ling Shuying thought in shock. This was because although a martial artist's blood essence power was incomparably powerful, it was not invincible.

Only a small hole as thick as a strand of hair could be seen on these foreign race experts' chest. However, she could tell that a powerful force had shattered all of their internal organs and meridians after going through this small hole.

Only an expert beyond the peak-level supernatural expert could do something like this. Moreover, it couldn't have been an ordinary Heaven Realm expert. They had to be the best of the best!

Soon, Ling Shuying also sent the information she had discovered back to the Skynet.

The Skynet was the true highest-level organization. To a certain extent, everything from the strength of the experts to the Huaxia military were managed by the Skynet.

However, the level of the Skynet was too high for ordinary martial artists to know about. Some martial artists who knew the Skynet also did not know enough to explain it.

As long as one was not within the Skynet's system, even an expert like Zhou Hao did not know anything about the Skynet.

Zhou Hao naturally did not know that his casual test here had actually triggered a powerful reaction from Ling Shuying and Skynet.

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 200 - Peak Supernatural, Ling Shuying

Chapter 200: Peak Supernatural, Ling Shuying

The higher-ups of Skynet quickly made a judgment based on the information Ling Shuying sent back.

According to reliable intelligence, an expert from the depths of the spatial rift had arrived near the spatial rift when he was chasing after the Sky Crystal Purple Scorpion King.

It was very likely that what Ling Shuying had seen was done by that senior.

However, big shots like that were basically the pillars of the Huaxia region. Therefore, there was no need for Skynet to investigate this matter.

When Ling Shuying was investigating here, she did not know that Zhou Hao was watching her every move from afar.

Just as Zhou Hao was about to leave, he sensed an expert coming.

He originally thought that she was a supernatural expert at the frontline of the defensive line. He did not expect the other party to be a completely unfamiliar female supernatural expert. Moreover, the other party was rather powerful and was almost a peak-level supernatural expert.

According to Dean Shi Zhi, Instructor Yang Hui, and the others, all the peak-level supernatural experts had already entered the spatial rift. Now, it seemed that wasn't the case...

"Who is it?"

Ling Shuying had a sensory physique to begin with. She had been too shocked just now, so she had focused all her attention on investigating the surrounding clues. Now that she had regained her senses, she instantly looked in the direction of Zhou Hao.

Of course, she didn't see anything. Zhou Hao himself had long left.

Ling Shuying was somewhat puzzled at this moment. At this moment, she only needed to carry out the judgment of the Skynet higher-ups.

However, the woman's intuition told her that the higher-ups of Skynet might have really made a wrong judgment this time.

After all, according to the intelligence not long ago, the Sky Crystal Purple Scorpion King had already been killed by the honorary president of the Supernatural Council, Senior Zhou.

Under such circumstances, why would the human experts in the depths of the spatial rift still stay outside the spatial rift and casually kill these foreign races?

According to Ling Shuying, these foreign races were probably killed by a super expert who was just killing casually.

Although this idea was too ridiculous, how could a powerful martial artist who controlled his strength so meticulously need these foreign races to train?

However, other than this explanation, she couldn't think of any other reasonable explanation.

Zhou Hao's figure appeared again far away from Ling Shuying.

He originally thought that after cultivating the Grand Yan Record, he would unleash his might and sweep the world.

Now, it seemed that it was better to keep a low profile and make a fortune in secret.

Even Huaxia had powerful existences like Ling Shuying that he did not know about, let alone the entire world.

In the following battles, it was even better for Zhou Hao to rely on his blood essence and physical strength. Under normal circumstances, he did not plan to use his essence energy, or else there would be a lot of trouble.

“Hmm?”

Not long after Zhou Hao appeared, his communication device received a message from Dean Shi Zhi. In the message, Dean Shi Zhi explained that a Green Cloud investigator wanted to meet him.

“Is the Green Cloud investigator the woman I saw just now?”

Zhou Hao was stunned as he pondered.

After thinking about it, he still decided to interact with this mysterious woman and learn more about the higher-ups of this world.

After the aura around his body and essence energy surged, Zhou Hao also changed his appearance. Then, his figure moved and rushed towards a spot on the frontline defense line.

After arriving at this place, he indeed saw the woman he had seen not long ago.

At the same time, Ling Shuying also looked at Zhou Hao.

Ling Shuying was also surprised to see Zhou Hao.

According to Skynet’s intelligence, the experts of Huaxia and even the experts of the world should have all been recorded.

But now, Ling Shuying was very sure that Zhou Hao was very mysterious. There was no information about his past at all, as if he was a peak-level supernatural expert who had suddenly appeared.

That’s right. Ling Shuying was certain that Dean Shi Zhi and the others were not exaggerating. From the way Zhou Hao tore through the air and arrived just now, she could tell that Zhou Hao was definitely a peak-level supernatural expert.

“President Zhou, this is Investigator Ling Shuying.”

“This is the honorary president of the Supernatural Council, President Zhou.”

After Zhou Hao arrived, Shi Zhi also introduced him and Ling Shuying.

“President Zhou, hello. May I ask in what region do you usually cultivate?” Ling Shuying went straight to the point and asked directly.

“I just cultivate in some wild lands. There’s no need to investigate further.”

Zhou Hao’s answer was flawless. There were simply too many places like that world.
