

Starting With One Million Luck Points

Chapter 201 - Testing

Chapter 201: Testing

“Oh, really?”

Ling Shuying’s beautiful eyes moved. She did not expect Zhou Hao to be so cautious.

Although every martial artist had many secrets, there was nothing that could not be said about the general scope of their activities.

Zhou Hao was different. Whether it was his background or his way of doing things, he was very mysterious. He did not even reveal his own cultivation region.

This made Ling Shuying feel that Zhou Hao was filled with secrets.

Dean Shi Zhi could not help but be a little embarrassed. He did not expect these two to be like this after meeting.

In fact, Ling Shuying and Zhou Hao were very similar and were very mysterious.

The difference was that Zhou Hao was a free martial artist, and Ling Shuying was from the highest-level Green Cloud Division in Huaxia.

Dean Shi Zhi’s understanding of the Green Cloud Division was very limited. He only knew that the Green Cloud Division commanded the military and all the martial artists in Huaxia.

However, perhaps because of his identity and other reasons, Dean Shi Zhi had not been able to obtain any additional information.

After Dean Shi Zhi helped introduce Zhou Hao and Ling Shuying, he left tactfully.

He knew that what the two of them were going to discuss next was very likely not something someone of his level was supposed to know about.

Ling Shuying could not help but be speechless when she saw Dean Shi Zhi leave.

Although they were not in the same department, they were still colleagues working for the Chinese government.

It was not a high-level secret. As a supernatural martial artist, Dean Shi Zhi naturally had the right to listen.

However, now that Dean Shi Zhi had left, she could have a deeper conversation.

“How long have you been at the peak of the supernatural level?”

As Ling Shuying asked, she stared at Zhou Hao very seriously.

She was a martial artist with a perception physique. If Zhou Hao was lying, she would definitely be able to tell.

“Not long.”

Zhou Hao said casually as he pondered over the reason why Ling Shuying had called him over.

Ling Shuying’s identity should not be that simple either. She was definitely not just some investigator.

Moreover, he was also very unfamiliar with this Green Cloud Division. It seemed that even Dean Shi Zhi did not know much about it as well.

It had to be known that before he appeared, Dean Shi Zhi and the others were basically the strongest combatants on the surface.

If even Dean Shi Zhi did not know, it could be seen how mysterious he was.

“You really don’t know how to chat!”

Ling Shuying could not help but roll her eyes at Zhou Hao. She had always been extremely confident in her beauty.

Especially since she was also rather enthusiastic towards others. Among the majority of the martial artists of the opposite sex that she had seen, very few were so cold towards her.

In the end, Zhou Hao was like an extremely vigilant ice mountain.

However, the more Zhou Hao acted like this, the more Ling Shuying became interested.

Ling Shuying had already decided to investigate Zhou Hao thoroughly and find out all his secrets!

Of course, Zhou Hao did not know that this woman was so terrifying. Just because he was acting cautious, she had already made up her mind to investigate him thoroughly.

“Why are you asking this?”

Zhou Hao spoke again and brought the topic back.

In fact, he was more concerned about this topic.

Ling Shuying asked how long it had been since he cultivated to the peak of the supernatural level. Clearly, she had something else to ask after that.

“Hmph, just asking.”

Zhou Hao was too mysterious and cold just now, so Ling Shuying immediately became arrogant.

Originally, one of her important missions this time was to give Zhou Hao a cultivation technique above the peak of the supernatural level.

The realm above the peak of the supernatural level was called the Heaven Realm. After cultivating to this level, cultivation techniques that used to cultivate the blood essence of martial artists were already useless.

In fact, no matter how one cultivated blood essence, they were unable to cultivate to the Heaven Realm.

“Uh...”

Zhou Hao was speechless. This woman was too arrogant.

Although he did not appear too enthusiastic, he still answered the other party's question truthfully.

In fact, it had not been long since he had peak supernatural strength.

Seeing Zhou Hao's stunned expression, Ling Shuying laughed a little proudly.

Ling Shuying had already discovered that compared to the other peak-level supernatural experts, Zhou Hao was more fun to deal with.

Other martial artists who had cultivated to this level were either old fellows who were on the verge of death or martial artists who were obsessed with cultivation.

Clearly, Zhou Hao was different.

“What do you think is the realm above peak-level supernatural experts?”

After thinking for a moment, Ling Shuying still took the initiative to speak.

She also wanted to see Zhou Hao's understanding of martial arts.

She decided to gradually expose him after listening to him speak. Finally, she would take out the cultivation technique that the Green Cloud Division had asked her to transfer to Zhou Hao, making Zhou Hao admire her to the core.

After all, this guy had always been mysterious and cold. When had she, Miss Ling, ever suffered such a cold face? Today, she had to teach this guy a lesson!

Chapter 202 - Imagination

Chapter 202: Imagination

Zhou Hao's heart skipped a beat. The question he was expecting had indeed been asked.

It seemed that the many ninth-grade supernatural grandmasters entering the depths of the spatial rift was not a tradition. Instead, it was an arrangement made by those in a higher level.

Or rather, it was at least related to this mysterious Green Cloud Division.

Before today, Zhou Hao really could not answer what realm was above the ninth-grade supernatural level.

However, now, due to a coincidence, he even had the cultivation technique that was most compatible with him. How could he not know about the realm above the ninth-grade supernatural realm?

Zhou Hao even felt that he knew more about the realm above the ninth-grade supernatural level than Ling Shuying.

While Ling Shuying was waiting for Zhou Hao to be dumbfounded, Zhou Hao suddenly raised his hand and pointed.

As a force pierced through the void and killed an Insect Race expert hundreds of meters away, Ling Shuying was stunned.

"That was you?"

Wasn't the technique Zhou Hao was using right now the same as the one she had discovered on the Insect Race and Demon Race beings outside the spatial rift?

"No! That person used essence energy, and you just used blood essence. It's only because of the secret technique that you were able to activate the Heaven and Earth essence energy!"

In the beginning, Ling Shuying was somewhat shocked. Now, she was completely shocked.

What the hell was going on?

Shouldn't Zhou Hao cultivate the cultivation technique first and only cultivate the corresponding secret technique after obtaining the foundation of the cultivation technique?

What kind of demon was Zhou Hao? He actually cultivated the secret technique first without even knowing what the cultivation technique was!

Ling Shuying was certain that as long as Zhou Hao had not entered the spatial rift, he would definitely not know about the Heaven Realm cultivation technique.

Therefore, Ling Shuying was very dumbfounded at this moment. She originally wanted to see Zhou Hao's shocked and lost expression, but now, she herself was shocked and at a loss.

"Did something happen?"

Zhou Hao probably knew what Ling Shuying was thinking, but he still pretended not to know.

"Did... did you once cultivate with an expert, or even the disciple of that expert?" Ling Shuying combed her hair and asked uncertainly.

In her opinion, this was the most reasonable explanation.

Ling Shuying had already imagined a lot of information.

For example, she started imagining that Zhou Hao was definitely the disciple of a Heaven Realm expert, so his methods were very similar to this expert.

More coincidentally, not long after Zhou Hao appeared, she discovered the traces of that Heaven Realm expert.

This meant that this master and disciple had definitely met recently!

Zhou Hao did not know that Ling Shuying had such a rich imagination.

The reason why he had taken the initiative to use the Ultimate Breaking Finger just now was simply because of what he wanted to say next.

“I was originally not too sure what realm is above the peak of the supernatural level.”

“However, after cultivating the Ultimate Breaking Finger, I think I probably guessed something correctly.”

Zhou Hao was very helpless at this moment. This woman was very erratic.

Just now, she was still asking him if he knew anything about the realm above a peak-level supernatural expert.

In the end, she even asked him curiously if he had a master who was an expert. It made him extremely speechless.

Ling Shuying felt that Zhou Hao had agreed by not answering directly.

Zhou Hao did not refute that he had an expert master, which further proved her guess.

She figured that Zhou Hao had suddenly appeared here and was very active at the frontline defense line because he needed to meet up with his expert master.

Of course, the Green Cloud Division did not care about such things.

Every martial artist had their own responsibility and life.

Even the Green Cloud Division would not interfere with a martial artist's personal life as long as they shoulder the responsibility that they should bear.

However, if Zhou Hao had such a powerful master, wouldn't he know that the realm above the peak-level supernatural experts was the Heaven Realm?

Thinking of this, Ling Shuying quickly dismissed this thought.

Actually, that might not be the case.

It was very likely that Zhou Hao's master had not become a Heaven Realm expert before entering the spatial rift. Therefore, since the other party did not know about the Heaven Realm, Zhou Hao naturally did not know either.

The two of them had agreed to meet at a certain time for the master to pass on his subsequent legacies. And that was why she had discovered traces of Zhou Hao and the Heaven Realm expert.

The more Ling Shuying thought about it, the more reasonable she felt.

This made more sense. After all, why would a Heaven Realm expert suddenly come out from the depths of the spatial rift?

It must be because he was worried about his precious disciple!

“Hey, why aren’t you talking?”

Zhou Hao waved his hand in front of Ling Shuying’s eyes, feeling very speechless.

This woman was too easily distracted when talking to others.

“Cough cough...”

“Alright, let’s talk business.”

Ling Shuying’s face also changed unnaturally. She had been too smug just now and had nearly forgotten about the important matter.

Chapter 203 - Hidden Strength

Chapter 203: Hidden Strength

“Your hunch is right. Or rather, you are relatively special. Before cultivating essence energy, you actually forcefully cultivated this secret technique that requires essence energy.”

After coughing twice, Ling Shuying indeed said the words “essence energy”.

“Essence energy?”

Zhou Hao was prepared to hide something and immediately pretended not to know.

“Yes, essence energy.”

“The realm above the ninth-grade supernatural level is called the Heaven Realm!”

“Martial artists who have reached this level are known as Heaven Realm experts. There are twelve levels to this realm and it is a very long cultivation process.”

“After entering the Heaven Realm, martial artists mainly cultivate essence energy instead of blood essence.”

As Ling Shuying spoke, she stretched out her snow-white hand. After the aura in her body moved, strands of ice-blue essence energy condensed into a beautiful and vivid blue demon concubine in her palm.

Zhou Hao also knew that not only was this blue concubine beautiful, but she was also very dangerous.

He was already very clear about the strength of essence energy.

“You’re a Heaven Realm expert?” Zhou Hao asked deliberately.

In his senses, Ling Shuying was not a Heaven Realm expert. She probably had not cultivated essence energy for long.

“Of course not.”

“If I were a Heaven Realm expert, why would I still be here?”

Ling Shuying complained and then took out a secret manual from his storage device and handed it to Zhou Hao.

“There’s no need to be surprised. All the martial artists in Huaxia will receive this gift after they cultivate to the peak of the supernatural level.”

“This is a Heaven Realm cultivation technique. Take a look and check yourself.”

After Ling Shuying finished speaking, she could not help but be puzzled. Zhou Hao’s reaction was almost unexpected.

Shouldn’t Zhou Hao be overjoyed that he had obtained a Heaven Realm cultivation technique so easily?

Or could it be that Zhou Hao’s mysterious master had already taught him a Heaven Realm cultivation technique?

That shouldn’t be the case. Judging from the time and the traces at the scene, Zhou Hao and his mysterious master had not successfully interacted at all.

Although Heaven Realm experts could temporarily leave the spatial rift, they could not leave for too long.

Zhou Hao looked at the items and realized that Ling Shuying had handed him a secret manual that recorded three cultivation techniques.

The first cultivation technique was called the Yuan Opening Art. According to the description in the secret manual, this was the most widely circulated heaven-level cultivation technique.

Because this cultivation technique did not have any special characteristics, most martial artists had a certain compatibility with this cultivation technique.

Zhou Hao immediately followed the instructions in the secret manual and did a self-analysis.

Immediately, he realized that this Yuan Opening Art was really trashy. It was simply far inferior to his Grand Yan Record.

The previous owner of the Grand Yan Record, Si Nanxun, could not stop complaining about the Grand Yan Record. If he was told to cultivate with the Yuan Opening Art, he might start cursing.

If one had to measure it in detail, the cultivation effect of the Yuan Opening Art was at most 20% of the Grand Yan Record. It was no wonder this item was so widely circulated.

The Heaven Realm experts that cultivated this cultivation technique might even be the weakest existence among all the Heaven Realm experts.

It was simply useless!

Soon, Zhou Hao's attention arrived at the second cultivation technique.

The name of this cultivation technique was very flashy. It was called the Divine Wind Sword Art, and one could tell at a glance that it was a cultivation technique that mainly cultivated sword techniques.

After testing it himself, Zhou Hao was disappointed again.

The Divine Wind Sword Art was indeed better than the Yuan Opening Art, but it was not much better.

"Hmm? Are the Yuan Opening Art and the Divine Wind Sword Art not suitable?"

"What's your compatibility with the Yuan Opening Art and the Divine Wind Sword Art?" Ling Shuying asked curiously.

Although the Green Cloud Division had prepared three cultivation techniques for the peak supernatural experts of Huaxia, only the first two were more generalized.

Most of the peak-level supernatural experts were compatible with the first two.

However, judging from Zhou Hao's reaction, he seemed to be very dissatisfied with the first two techniques.

"My compatibility with the Yuan Opening Art and the Divine Wind Sword Art is pretty good, but I want to take a look at this Green Wood Spring Autumn Art."

From the name alone, Zhou Hao could tell that the final Green Wood Spring Autumn Art was definitely more advanced than the previous two cultivation techniques.

Of course, his compatibility with the Grand Yan Record had directly reached the peak. No matter how heaven-defying the Green Wood Spring Autumn Art was, he still wouldn't change his cultivation technique.

However, he had just come into contact with the Heaven Realm. It was always good for him to understand more.

Chapter 204 - Green Cloud Division

Chapter 204: Green Cloud Division

"I see."

Hearing Zhou Hao say this, Ling Shuying also relaxed. If Zhou Hao's compatibility with the first two cultivation techniques was extremely low, it would be troublesome.

It had to be known that those two cultivation techniques were both extremely generalized cultivation techniques. If one's compatibility with those two cultivation techniques was extremely low, then it was likely that one would not be able to find a suitable cultivation technique to cultivate.

"I'll choose this one."

After checking himself, Zhou Hao chose the Green Wood Spring Autumn Art.

His compatibility score for this cultivation technique was only above 70, far from reaching 100 for the Grand Yan Record.

However, if he wanted to make a choice now, he naturally had to choose the Green Wood Spring Autumn Art. Regardless of whether he cultivated it or not, he had to choose first.

“Are you sure?”

Ling Shuying looked at Zhou Hao in surprise. The level of the Green Wood Spring Autumn Art was not low. Most martial artists’ perception of the Green Wood Spring Autumn Art usually had a compatibility score of 1 to 30.

Only those with a compatibility score exceeding 35 could be qualified to cultivate the Green Wood Spring Autumn Art.

“I’m sure.”

Zhou Hao said indifferently. After all, he wouldn’t cultivate it anyway.

Or perhaps, he could also cultivate it to fool others.

“Sure, but your compatibility needs to exceed 35. How high is your compatibility with this cultivation technique?”

As Ling Shuying spoke, she took out a testing device.

This was not something that Zhou Hao could just casually say. Such a high-level cultivation technique came with an extremely precious Comprehension Crystal.

Comprehension Crystals were left behind by Heaven Realm experts who also cultivated this cultivation technique. There were very few of them.

Therefore, Zhou Hao had to have a good compatibility before he could cultivate this cultivation technique and receive the Comprehension Crystal.

“I probably have 70 points of compatibility.”

Zhou Hao said casually and began to test according to Ling Shuying’s requirements.

“Oh, 70 points... Wait, what did you say?”

Ling Shuying was instantly speechless. Zhou Hao really dared to say something like that. Even if he had 50 points of compatibility, it would still be very impressive. He actually said that he had 70 points of compatibility without thinking.

“Huh?”

Just as he finished despising Zhou Hao for being ignorant, Ling Shuying was immediately proven wrong.

It turned out that Zhou Hao was not lying. This guy's compatibility score had actually reached a terrifying 75 points. In other words, Zhou Hao was being too conservative by saying that he had 70 points of compatibility!

In an instant, Ling Shuying looked at Zhou Hao with a complicated expression.

Disdain, shock, envy...

After starting to cultivate the Heaven Realm cultivation technique, Ling Shuying knew even more clearly how important the compatibility of the cultivation technique was!

The cultivation technique she cultivated had a compatibility score of only 60 points with her. She did not expect Zhou Hao to have such great compatibility.

While feeling envious, Ling Shuying also handed a Comprehension Crystal to Zhou Hao solemnly.

“What is this?”

Zhou Hao realized that he had never seen a stone that was shining with white light before.

It seemed that there were still many things he did not know about outside the spatial rift, let alone inside.

“This is the Comprehension Crystal left behind by a Heaven Realm expert.”

“The mental strength of a Heaven Realm expert has already undergone a qualitative change.”

“Through some special treasures, they can be preserved for a long time.”

After Ling Shuying explained, Zhou Hao gradually understood.

This kind of Comprehension Crystal contained a portion of the comprehension of a Heaven Realm expert.

These crystals were very helpful for juniors that cultivated the same technique.

Unfortunately, Si Nanxun did not leave such a crystal behind.

Of course, with Zhou Hao's compatibility with the Grand Yan Record, even if Si Nanxun left behind the Comprehension Crystal, it would still be of limited use to him.

In the future, after he cultivated to the Heaven Realm, he could leave behind comprehension crystals for Si Nanxun's descendants, provided that he still had descendants.

"Are you considering joining the Green Cloud Division?"

Ling Shuying was very tempted by Zhou Hao's monstrous talent.

"What's the Green Cloud Division?"

This was undoubtedly another topic that Zhou Hao was very interested in.

"The Green Cloud Division is the highest-level division that directs and manages the Huaxia military and all martial artists. After martial artists cultivate to the peak of the supernatural level, they will be invited to participate in the assessment."

"After passing the assessment, some martial artists will choose to enter the spatial rift to cultivate. Some martial artists can temporarily stay outside the spatial rift and work in the Green Cloud Division."

Ling Shuying introduced simply.

"Can I choose not to participate?"

Zhou Hao asked openly. He did not want to be restricted too much.

"Of course you can, but the cultivation technique you have is only at the basic level."

"If you don't enter the Green Cloud Division, you won't be able to obtain any merit points. Naturally, you also won't be able to obtain any subsequent cultivation techniques."

Ling Shuying crossed her arms in front of her, as if she was certain that Zhou Hao would join.

Zhou Hao's compatibility with the Green Wood Spring Autumn Art had reached an astonishing 75 points. She did not believe that Zhou Hao did not want the subsequent cultivation techniques.

However, Ling Shuying did not know that Zhou Hao had another Grand Yan Record that was even higher than the Green Wood Spring Autumn Art. She was also completely unaware that Zhou Hao's compatibility score with that technique had even reached the maximum of 100 points!

If he had known about this, Ling Shuying would definitely not be so confident.

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 205 - Essence energy crystal

Chapter 205: Essence energy crystal

“Then, what do you need to do after joining the Green Cloud Division? Do you need to enter the spatial rift immediately?”

Zhou Hao did not really need the subsequent cultivation techniques of the Green Wood Spring Autumn Art. In fact, with the Heaven Dao software, he might even be able to obtain the subsequent cultivation techniques very quickly. He might as well take the opportunity to dig up some useful information.

“Of course not. The Green Cloud Division is the top division in Huaxia. Members usually cultivate and rarely have missions.”

“Unless there are any special circumstances, there’s no need for us to immediately enter the depths of the spatial rift to fight.”

“However, when you cultivate to a certain extent and discover that your cultivation speed outside the spatial rift is getting slower and slower, to the point of stagnation, you will naturally want to go deeper into the spatial rift.”

“You have to know that the path of cultivation is like sailing against the current. If you don’t advance, you will fall behind.”

“In a place with thin Heaven and Earth essence energy, it’s not easy to maintain a high cultivation level without falling behind.”

Zhou Hao had been listening intently as Ling Shuying spoke.

These things were not recorded in Si Nanxun’s cultivation notebook.

Clearly, these should all be general knowledge. That was why Si Nanxun had not written them down in his cultivation notebook.

“So if I don’t enter the depths of the spatial rift and cultivate to a certain extent, will it be impossible for me to maintain my cultivation level in the outside world?”

Zhou Hao felt that there shouldn’t be such a limitation. Even if it was like this in the beginning, after so many years, the experts should have found a solution by now.

“Of course there’s a way to maintain it. Look at this.”

Ling Shuying took out a pale blue transparent crystal from her spatial storage.

“Colored energy crystals?” Zhou Hao immediately asked.

“No, the energy in this crystal... is Heaven and Earth essence energy!”

After watching for a moment, Zhou Hao’s heart stirred.

The blue transparent crystal in Ling Shuying’s hand contained an extremely powerful energy.

If it were in the past, Zhou Hao might not have known. However, now, he knew very well that this was Heaven and Earth essence energy. It was a higher-level energy that was above a martial artist’s blood essence.

“This crystal that contains Heaven and Earth essence energy is called an essence energy crystal. It’s also known as an essence crystal.”

“Essence Crystals need to be exchanged with merit points. There are also four types: low-grade, intermediate-grade, high-grade, and top-grade.”

Zhou Hao was just about to touch it when Ling Shuying put it away, treating it like a precious treasure.

Zhou Hao smiled bitterly. He had no intention of taking it for free. He just wanted to get a closer look.

“This is the benefit of joining the Green Cloud Division. By joining the Green Cloud Division and completing missions, you will be able to obtain merit points. With merit points, you will be able to obtain Essence Crystals.”

“How is it? Do you want to consider it carefully?”

She believed that even without her explanation, Zhou Hao could also understand how useful the Essence Crystals were.

With Essence Crystals, the cultivation speed of peak-level supernatural martial artists would increase drastically, allowing them to reach the Heaven Realm even faster.

And if one did not prepare to enter the spatial rift after becoming an early-stage Heaven Realm expert, their need for essence crystals would only increase.

It was even to the extent that after becoming a Heaven Realm expert, the cultivation effect of using essence crystals would also be better.

Therefore, no matter who it was, they had no reason to refuse.

Seeing Zhou Hao's curious expression, Ling Shuying was even more certain that Zhou Hao would definitely join. After all, this was something that many people wished for.

"How frequent are the missions in the Green Cloud Division? And what are they like?"

After thinking for a moment, Zhou Hao decided that he could contact the Green Cloud Division.

According to Ling Shuying, there weren't any powerful Heaven Realm martial artists outside the spatial rift, so he didn't have to worry too much.

"The missions of the Green Cloud Division are not distributed. Instead, members get to pick their own missions. You have to complete at least ten one-star missions or two five-star missions every month. Of course, you can also choose to complete other missions."

"As long as the total number of stars obtained from the mission exceeds ten stars."

"This isn't classified information anyway..." Ling Shuying said casually.

...

In the distance of the frontline defense line, Dean Shi Zhi and a middle-aged man with a hideous claw mark stood together.

This middle-aged man's figure was ramrod straight as he stood like a spear. His aura was also like an abyss that surged and exploded. As he stood there, the soldiers and martial artists at the frontline of the defensive line felt much more at ease.

This person was one of the experts of the Huaxia military, Xiao Jiangtian, one of the Four God Generals.

Although this person's martial strength was powerful and his military achievements were outstanding, he was not as solemn as ordinary martial artists. His personality was very unique, and he was secretly very gossipy.

For example, at this moment, looking at Ling Shuying and Zhou Hao in front of him, Xiao Jiangtian felt that the two of them were very compatible with each other.

It had to be known that although Ling Shuying was talented and powerful, she was very arrogant.

Usually, she would explode in anger after spending ten minutes with a male martial artist.

But now, the two of them were talking for a long time without her showing any signs of impatience.

How rare!

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 206 - A Blood Loss

Chapter 206: A Blood Loss

“Old Xiao, with you gone, will the spatial rift in the north be alright?”

Dean Shi Zhi was in no mood to gossip about Ling Shuying and Zhou Hao. He was still worried about the spatial rifts everywhere.

Xiao Jiangtian was one of the Four God Generals. Like Zhou Hao, he was also a peak-level supernatural expert.

For a long time, he had been holding down the fort in the spatial rift in the north.

However, recently, there were many abnormalities in the spatial rift on this side, and the danger level was constantly increasing.

After careful consideration, the Green Cloud Division directly sent Xiao Jiangtian over.

Firstly, he wanted to understand the situation and figure out the reason. Secondly, he wanted to provide additional support just in case.

“You don’t have to worry about that. After all these years, the military has still nurtured many successors.”

“Actually, the real trouble is still over here. Even with me around, I’m worried that the situation will probably not be optimistic.”

Xiao Jiangtian's current actions contrasted with his words. At this moment, his gossiping soul was still burning as he looked at Ling Shuying and Zhou Hao in the distance with interest. He did not seem worried at all.

Seeing that Ling Shuying was so furious at Zhou Hao that she stomped her foot, Xiao Jiangtian couldn't help but laugh.

Dean Shi Zhi looked at Xiao Jiangtian's smile with a confused expression. He could not help but think to himself if he had said something wrong just now. The more he thought about it, the more uneasy he felt.

On Zhou Hao's side, he had been asking about the Green Cloud Division. However, until now, he had not given a definite answer. Just as Ling Shuying was about to explode in anger, he finally figured everything out.

"Alright, I agree to join the Green Cloud Division. What are the procedures?"

Zhou Hao now knew that with his situation, there was almost no harm in joining the Green Cloud Division.

The only downside was that he had to complete the mission quota of 10 stars per month.

This was because the Green Cloud Division's missions were mostly combat and reconnaissance missions. These were all related to the foreign races.

If he wanted to obtain luck points, he also had to constantly kill foreign races.

All roads lead to the same destination. Therefore, killing the foreign races was killing two birds with one stone.

"That's simple. After I help you register on the intranet of the Green Cloud Division, you can access the intranet through the communication device."

"However, during your visit to the intranet, you have to look carefully at the rules of the Green Cloud Division. It's best if you can memorize them."

As Ling Shuying spoke, she began to help Zhou Hao record the basic information and open the intranet of the Green Cloud Division.

After Zhou Hao logged in, he perfected the information and completed the registration.

Soon, he saw that other than the usual martial artist regulations, there were also many confidentiality regulations.

He naturally agreed to all of them.

...

When Zhou Hao was registering to join the Green Cloud Division, they were also discussing him in the Green Cloud Base.

However, there was not a single person in the spacious meeting room. The twelve participants were all virtual projections.

Clearly, none of these twelve experts were in Green Cloud Base. Or rather, even if they were in Green Cloud Base, they had things to do and could only participate in a virtual meeting.

“Have you seen the data and video data sent by Ling Shuying?”

A deep voice sounded.

“I did. This President Zhou is really unbelievable.”

Another expert spoke.

“That’s right. Before cultivating essence energy, he already succeeded in cultivating the Ultimate Breaking Finger. I believe it won’t be long before an extra seat gets added to this meeting room.”

When everyone heard this, they were very surprised, but they quickly understood.

Zhou Hao’s level of monstrosity was indeed extraordinary.

All along, the few of them had been the true ceiling of the combat strength of the Chinese martial artists.

And before Zhou Hao cultivated essence energy, he had already successfully cultivated the Ultimate Breaking Finger, an essence energy cultivation technique. With this, he definitely had the qualifications to sit here in the future.

This was because cultivating an essence energy technique at the blood essence stage was extremely difficult. It was no different from creating an atomic bomb using just a few scraps of metal. Thus, all of them were very impressed.

Zhou Hao and Ling Shuying were currently at the southernmost area of the frontline defense line and the core area of the spatial rift.

Zhou Hao had already completed the registration procedures for joining the Green Cloud and had successfully accepted a one-star mission.

Looking at the one-star mission he had accepted, Zhou Hao felt like he had lost money previously.

This was because this mission was to kill 30 illusionary sound insects.

Previously, he had killed an unknown number of illusionary sound insect groups. Unfortunately, he had not joined the Green Cloud Division at that time and could not obtain any merit points.

A hundred colored energy crystals could be exchanged for a single essence crystal.

Of course, 100 merit points could also be exchanged for a single essence crystal. One could obtain 10 merit points by completing a one-star mission.

Zhou Hao had previously killed nearly 2,000 groups of Illusionary Sonar Insects. If he had joined earlier, he would have 600 merit points and could exchange for 6 pieces of essence crystals!

It had to be known that essence crystals were very valuable. Previously, Ling Shuying was even unwilling to let him touch them.

Just thinking about it made his heart ache.

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 207 - 7: Mutated Illusionary Sound Insects

Chapter 207: Mutated Illusionary Sound Insects

“You’ve killed so many illusionary sound insects before, so you should be very experienced in finding them.”

Ling Shuying was surprised to see Zhou Hao struggle with finding the illusionary sound insects. For a moment, she could not help but begin to suspect the authenticity of the matter of him killing the illusionary sound insects.

Could it be that this guy was taking credit for other people’s contributions?

Or was it because this guy wanted to monopolize the credit and obtain more merit points, so he deliberately didn't tell her where the illusionary sound insects were?

The more Ling Shuying thought about it, the more she felt that this was the case. She could not help but secretly despise Zhou Hao.

"Previously, there were nearly 3,000 illusionary sound insect groups and it was very easy to find them. Later on, I had to rely on luck to find them."

"As for the special method to search for the illusionary sound insects, even you don't know. How could I know?"

Zhou Hao felt that he hadn't done anything wrong. He also wanted to gain merit points and exchange for some essence crystals.

After learning about the Heaven Realm, his thirst for essence crystals was extremely intense.

This was because he had to enter the spatial rift to completely resolve the problem with Xu Ling.

If he had the help of the essence crystals to break through to become a Heaven Realm expert, then he could enter the spatial rift. Although he wouldn't dare to be careless, at the very least, he would have the strength to protect himself and wouldn't be easily trapped.

"Petty!"

Ling Shuying ignored Zhou Hao's words. She stubbornly felt that Zhou Hao definitely had some special method, but he was just unwilling to share it with her.

According to the previous statistics, 80% of the illusionary sound insects that appeared this time had all died at Zhou Hao's hands.

Under such circumstances, she would definitely not believe that Zhou Hao did not have a special understanding of the illusionary sound insects.

"Eh, I think I've found them."

After traveling for a while, Zhou Hao's eyes lit up.

Zhou Hao was certain at a glance that these illusionary sound insects were the ones that had escaped last time.

There was indeed a long path to justice!

“Hmph! I knew it. You definitely have special methods.”

Ling Shuying cursed in her heart. Men were all cheap and would not cooperate easily.

She felt that she always had to rely on her anger to get them to do what she wanted.

Now that she was angry, Zhou Hao indeed stopped beating around the bush and quickly found the illusionary sound insect groups.

However, Zhou Hao was really innocent. After all, it depended on his luck. After all, he only had a larger perception range and could only discover the illusionary sound insect when they were within the range.

However, judging from Ling Shuying’s current attitude, she definitely wouldn’t believe it.

“There are more than 600 groups of illusionary sound insects here. If we each get half, won’t we be able to complete the mission quota for this month?”

Zhou Hao looked at Ling Shuying.

“That’s true, but the illusionary sound insects here are different from the ones you killed before.”

Ling Shuying was not as optimistic as Zhou Hao. She had already prepared to ask Xiao Jingtian and the others to help.

Zhou Hao also discovered that these illusionary sound insects had undergone a second mutation.

Be it the vegetation or animals on Planet Earth, mutations could occur.

After the first mutation, some plants and animals would become more difficult to deal with.

However, these plants and animals would often undergo a second or even third mutation, making them even more terrifying.

It was the same for the Demon Race and Insect Race beings of the foreign races. It seemed that only the Machine Race beings would not undergo such a second mutation or even third mutation.

Last time, after most of the illusionary sound insects had been killed by Zhou Hao, those lucky escapees had undoubtedly been greatly provoked.

Perhaps it was because of this provocation that they underwent a second mutation.

Under normal circumstances, the illusionary sound insects were insects the size of a hornet with purple crystals.

Now, most of their crystals had turned from light purple to dark purple.

At the core area, some with red crystals even appeared. Clearly, these illusionary sound insects had already completed their third mutation. It was no wonder Ling Shuying was so cautious.

“I don’t think these red ones mutated because they were provoked, right?”

Zhou Hao looked at Ling Shuying and asked. As a senior member of the Green Cloud Division, Ling Shuying, who was ranked 72nd on the Skynet, still knew certain things.

“I can tell you these things now.”

“As time passed, we also discovered that under special circumstances, mutation is very easy to occur around the entrance of the spatial rift.”

“It’s usually fine if they’re low-level foreign race beings. However, if they’re high-level foreign race beings like the illusionary sound insect, then mutation is inevitable.”

“Therefore, once high-level foreign race beings appear around the spatial rift, we have to kill them immediately. Otherwise, this will happen.”

“According to the internal information of the Green Cloud Division, there have been encounters of fourth mutation Insect Race beings before.”

Chapter 208 - This Kid Is Different

Chapter 208: This Kid Is Different

Hearing this, Zhou Hao could only smile bitterly in his heart. At the same time, he felt even more guilty.

In this way, he had definitely made a huge contribution previously. In the end, because he did not join the Green Cloud Division in advance, he had actually lost so many merit points.

“Let’s try to resolve it first. If we can’t destroy it completely, we’ll ask for help.”

After thinking for a moment, Ling Shuying made a decision.

In fact, she was very confident in herself. She had cultivated a Heaven Realm cultivation technique for a long time.

Although Zhou Hao had killed many illusionary sound insects before, those were only the first mutation illusionary sound insects.

There was definitely a world of difference between a first mutation Illusionary Sound Worm and a third mutation one.

“Sure.”

The two of them immediately arrived at their respective areas and began to hunt the illusionary sound insects.

Not far away, Xiao Jiangtian and Dean Shi Zhi also arrived.

In the lush, vast, and dense forest.

Dean Shi Zhi sighed secretly. This general Xiao Tianjun was really bored.

At this moment, he actually had the mood to bring him here to watch Ling Shuying and Zhou Hao kill the illusionary sound insects.

Xiao Jiangtian’s talent was very special. At this moment, special ripples circulated around him and Dean Shi Zhi, completely covering their auras.

Therefore, when they appeared here, Zhou Hao and Ling Shuying did not notice at all.

“Old Shi, look carefully. This will also be good for you.”

“These two guys can basically be considered half-step Heaven Realm martial artists now.”

“We can also see and learn a lot from their battles.”

As Dean Shi Zhi was ridiculing in his heart, Xiao Jiangtian’s nosy expression changed as he spoke with a solemn expression.

At this moment, Dean Shi Zhi was suddenly shocked. He finally understood.

It turned out that Xiao Jiangtian did not have a burning gossip spirit. Instead, he wanted to learn from the Heaven Realm mystery!

Similarly, he immediately realized that this was indeed an extremely rare opportunity.

It had to be known that it was almost impossible to watch Zhou Hao and Ling Shuying fight from a close distance.

On this side, Zhou Hao and the illusionary sound insects were already fighting again.

Zhou Hao could be considered to be acquainted with these illusionary sound insects. Zhou Hao's aura was very familiar to these Illusionary Sound Insects.

The moment Zhou Hao appeared, countless illusionary sound insects began to attack him.

After encountering a first mutation illusionary sound insect, he only needed to use the Ultimate Breaking Finger to destroy it.

However, if he continued to use the same strength as before, it would not be easy for him to kill the second mutation illusionary sound insects.

Fortunately, he already had a legitimate Heaven Realm cultivation technique now, so he could naturally use his essence energy openly under relatively restrained circumstances.

On Ling Shuying's side, she was fighting the second mutation illusionary sound insect while waiting for Zhou Hao to ask for help.

After all, how long had it been since Zhou Hao obtained a Heaven Realm cultivation technique? He did not even have much essence energy stored in his body.

Facing the second mutation illusionary sound insects, his blood essence power was basically useless.

If nothing went wrong, Zhou Hao would not be able to last much longer.

This guy had been acting so mysteriously previously, making her very displeased. This time, she had to make Zhou Hao suffer a little.

As he pondered, Ling Shuying also glanced sideways.

"Damn!"

Even Ling Shuying, who had always been a lady, almost cursed in her heart.

This Zhou Hao was simply a monster.

He had only obtained the Green Wood Spring Autumn Art for a short period of time, but now, he was actually able to use it!

That's right. Zhou Hao was already able to use the Green Wood Spring Autumn Art. Moreover, he was using it in combat. He was circulating the cultivation technique to extract Heaven and Earth essence energy with one hand and fighting with another. He was simply a monster!

Dean Shi Zhi also gasped as he watched from afar.

After all, Dean Shi Zhi also knew a little about the Heaven Realm.

Now, after seeing Zhou Hao's performance, he was directly dumbfounded.

They simply did not dare to believe that a half-step Heaven Realm expert was so terrifying.

"Cough cough..."

"You don't have to be too surprised. This kid is different."

"I've seen many half-step Heaven Realm martial artists. This is the first time I've seen someone like him."

Seeing Dean Shi Zhi's dumbfounded appearance, Xiao Jiangtian also consoled him.

Of course, Xiao Jiangtian was also very dumbfounded.

If Zhou Hao was only slightly stronger, he could still accept it. However, Zhou Hao was simply too abnormal.

Chapter 209 - Never Admit Defeat

Chapter 209: Never Admit Defeat

If this continued, what level of expert would Zhou Hao become in the future?

Not far away in midair, Zhou Hao was secretly delighted as he attacked.

He had really made a killing this time. These second mutation illusionary sound insects were extremely valuable.

Every time he killed a group of Illusionary Sonic Bugs, he would obtain 50,000 luck points, directly increasing his luck points by five times.

At this rate, he would have another 15 million luck points.

If not for Ling Shuying fighting with him, the number would have been multiplied by two.

However, no martial artist was an isolated island.

Although Ling Shuying had some small personality flaws, it was still fine. He could just think of it as the price for making a friend.

In the depths of the forest, Xiao Jiangtian was worried that if they continued to watch, their hearts might not be able to take it. After observing for a while, he decided to return with Dean Shi Zhi.

It couldn't be helped. Be it Zhou Hao or Ling Shuying, they were both too heaven-defying.

How infuriating!

As a peak-level supernatural expert, he was still somewhat inferior to Zhou Hao and Ling Shuying.

...

What Zhou Hao was using at this moment was naturally not the Green Wood Spring Autumn Art, but the Grand Yan Record.

On the surface, he was only circulating the Green Wood Spring Autumn Art. In fact, the essence energy he used had long been refined by the Grand Yan Record.

Unfortunately, Ling Shuying did not know any of this.

Ling Shuying was so shocked that she could only look at Zhou Hao in disbelief.

After fighting for an hour, she retreated to the side and regulated her breathing to recover.

In the end, Zhou Hao continued to fight as if nothing had happened. It seemed like he did not even spend any energy.

Comparisons were indeed odious.

After fighting for a long time, Zhou Hao also finished off the 300 and more illusionary sound insects that he was responsible for. Then, he looked to the side enviously.

Seeing Zhou Hao's gaze, Ling Shuying immediately panicked.

"Don't even think about it. These are all mine!"

With that said, she ignored the fact that she had not fully recovered and charged into the insect groups again.

"Actually, if you give me the materials, I can help you kill a portion of them. The final merit points will be yours." Zhou Hao thought for a moment and said.

He did not need any materials at all, only luck points. However, it would be more strange if he said he didn't want the materials.

"Dream on."

Even though Zhou Hao said that he only wanted the materials and would give the merit points to Ling Shuying, Ling Shuying was still unwilling.

This was the pride of an expert!

He was helpless as well and could only watch Ling Shuying suffer.

Her cultivation speed was far inferior to Zhou Hao's. Her compatibility with the cultivation technique was even worse.

However, Zhou Hao also saw how tenacious and persistent this woman was. There were several times when her essence energy was almost exhausted, but she still continued to fight these illusionary sound insects.

After the battle ended, Zhou Hao did not have the intention to laugh at Ling Shuying at all.

His talent shocked Ling Shuying, and her tenacity and persistence also moved him.

"Did you see that? I didn't need your help at all."

Ling Shuying curled her lips proudly. Even though her essence energy had been completely exhausted and his meridians had been injured, she was still unwilling to admit defeat.

All along, she had always been the best among her peers and was extremely competitive. Therefore, she did not easily admit that she was inferior to others! She also was not one to easily give up!

After completing the mission, the two of them exchanged greetings and quickly parted ways.

When the sun set, Zhou Hao had already returned to the training ground at the outermost edge of the frontline defense line.

Xu Ling and the others were still training here.

Now, he had already learned the relevant information regarding supernatural experts. The urgent matter at hand was to continue cultivating essence energy and increase his cultivation.

Of course, the problem with his cultivation technique could now be resolved.

Although the Grand Yan Record he was currently cultivating was not bad, the Grand Yan Record was still not a top-notch cultivation technique.

There were two reasons why the Grand Yan Record was so heaven-defying when Zhou Hao used it. One reason was because he had a very high compatibility with the Grand Yan Record.

The second reason was because the martial artists Zhou Hao encountered were all cultivating ordinary cultivation techniques. In comparison, the Grand Yan Record would naturally appear to be heaven-defying. Thus, there were still no problems with the Grand Yan Record at this moment.

However, as Zhou Hao's strength continued to increase, he would definitely come into contact with higher level martial artists.

At that time, the Grand Yan Record would definitely not be enough.

Otherwise, the previous owner of the Grand Yan Record, Si Nanxun, wouldn't have been complaining endlessly about this cultivation technique.

Now, Zhou Hao had already accumulated 100 million luck points. No matter how high-level a Heaven Realm cultivation technique was, he would definitely be able to obtain it.

This was because his compatibility with the Grand Yan Record was extremely high. When it came to the cultivation of the Grand Yan Record, he was at least two levels higher than his peers.

If he could use the Heaven Dao software to upgrade the Grand Yan Record this time, the difference would be even greater.

By the time he advanced to become a Heaven Realm martial artist, even if he was only at the elementary level, his strength would definitely be unprecedentedly powerful.

At that time, entering the spatial rift would undoubtedly be much safer.

Chapter 210 - System Upgrade

Chapter 210: System Upgrade

Zhou Hao immediately looked at his luck points.

Luck Points: 102,012,030 (Lady Luck's favorite)

...

Zhou Hao immediately prepared to open the mystery box in the Heaven Dao software.

When he opened the Heaven Dao software, he was suddenly stunned.

At this moment, the Heaven Dao software interface was as dark as the starry sky. In the center of the dark screen was a line of small golden words. "System upgrade is in progress. The upgrade is expected to be completed in a day. Please wait!"

Immediately, Zhou Hao felt uncomfortable.

He swept his gaze over the chat screen of the Heaven Dao software and realized that it was almost unprecedentedly lively.

Because the Heaven Dao software was currently being upgraded, all users could not open mystery boxes or live streams. Therefore, everyone was complaining.

"Damn! I can't believe this is happening!"

Most users of the Heaven Dao software relied heavily on the Heaven Dao software and basically needed to use it every day.

For the streamers on the Heaven Dao software, stopping the broadcast for a day meant one less day of profit. The impact was huge.

"There's nothing you can do even if you don't want to accept it. The system is upgrading. No matter how unwilling you are, you won't be able to use it."

"This has never happened before. I was really caught off guard."

“It’s over, it’s over. I’m in a hurry to open the mystery box. It’s urgent...”

Many users kept flooding the chat box of the Heaven Dao software.

Without a doubt, the sudden halt of the Heaven Dao software’s upgrade had a very serious effect on too many users.

Fairy Yue Ling sighed. “Sigh, I wonder what will happen after the Heaven Dao software upgrades this time?”

Immediately, many users followed suit and expressed their opinions.

“After upgrading, many things should be optimized and simplified. There might also be new functions,” a user analyzed.

...

Zhou Hao also nodded. Although the Heaven Dao software from before was not bad, overall, many things were still too repetitive and complicated.

In addition, the function of the Heaven Dao software seemed to be rather monotonous.

He hoped that these problems could be resolved with the upgrade of the Heaven Dao software.

Soon, Zhou Hao thought of something important.

The Heaven Dao software announcement said that it would upgrade for another day, but it did not say when the upgrade started.

Previously, he had been carrying out missions with Ling Shuying, so he naturally did not pay attention to the upgrade of the Heaven Dao software.

Zhou Hao immediately typed and asked on the public chat.

I’m just an ordinary person. “Does anyone know when the Heaven Dao software started upgrading?”

After Zhou Hao asked, many people also started asking the same question.

Just now, everyone was only busy complaining. They did not expect that this was the problem that they should be most concerned about.

The importance of the Heaven Dao software to everyone was self-evident.

If there were any new functions or opportunities after the Heaven Dao software was upgraded, he definitely couldn't lose at the starting line.

Some of the users who knew chose not to answer. They even hoped that the others would not answer.

However, that was naturally impossible.

"Big shot, I know. It started at 12 noon today. I was using it when the system upgrade suddenly popped up. @ I'm just an ordinary person."

"Wow! The big shot has appeared. Is it because the big shot got too many rare-level items? Is the Heaven Dao software going to punish the big shot now? @ I'm just an ordinary person"

After Zhou Hao appeared, he immediately caused a commotion.

Many users began to interact crazily with Zhou Hao, as if he might know something.

However, Zhou Hao was also just as clueless. He had gained too much in real life these days and had not had the time to enter the Heaven Dao software.

He did not even know when the Heaven Dao software started its upgrade, let alone know the inside story.

After obtaining the information he wanted, Zhou Hao quickly left the software and continued to cultivate.

As the Heaven Dao software was upgrading, an emergency meeting was held in the meeting room of the Green Cloud Division.

Unlike before, three of them had already arrived at the scene with solemn expressions. The remaining nine were still virtual projections.

"Everyone, let's get straight to the point."

After a square-faced middle-aged man with black-framed glasses and a Chinese tunic suit sat down, he immediately spoke.

The other 11 people naturally had no objections and listened patiently.

"According to reliable news, there has been a major change in all the spatial rifts on Planet Earth recently."

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 211 - Big News!

Chapter 211: Big News!

“The number of spatial rifts in many areas has increased by a lot. Even some areas that did not have spatial rifts before are starting to have them.”

“I’m basically certain that in a month, there will be thirteen more extremely troublesome spatial rifts in the entire Huaxia territory.”

After the square-faced middle-aged man finished speaking, he looked at everyone.

“Thirteen? So many?”

The other experts couldn’t help but reveal shocked expressions. The current situation in Huaxia was very serious. Be it inside or outside the spatial rift, there was insufficient manpower.

If there were thirteen more spatial rifts, the defensive pressure would undoubtedly be unprecedented.

“Have any foreign races appeared in these spatial rifts?”

An expert quickly asked for the key information. After all, some of the spatial rifts that appeared earlier did not have any foreign races.

Naturally, there was no need for such a spatial rift to be heavily guarded.

“Yes. Now we can almost be sure that there are foreign races living in all thirteen of these rifts.”

“Then, as the spatial rift gradually takes shape, the foreign races will definitely appear.”

Upon hearing this, the meeting room fell silent for a moment as an intense pressure surged towards them.

They had long known that they did not have much time left!

Therefore, he had been making all kinds of preparations.

It was just that they did not expect the changes to happen so quickly. The younger generation martial artists did not have enough time to grow at all.

This made them feel somewhat helpless.

“The most important thing now is to do three things quickly. First of all, we have to nurture the elites of the various elite training camps as soon as possible. They are all the future pillars of humanity.”

“Secondly, we need to mobilize all the martial artists in Huaxia and all the available resources to defend the thirteen spatial rifts.”

“Finally, the martial artists in the depths of the spatial rift will also need to increase the speed of their hunting of the foreign races and reduce the external pressure.”

The square-faced middle-aged man broke the silence and said his opinion.

The other experts regained their senses and nodded forcefully.

...

Zhou Hao did not know about the meeting of the Green Cloud Division.

Now, he was still in the training area, waiting for the upgrade of the Heaven Dao software to be completed.

After all, there might be new opportunities inside.

Although Zhou Hao did not know what the upgraded Heaven Dao software would be like, he did not have to worry at all. After all, he now had more than 100 million luck points.

The upgrade of the Heaven Dao software was probably nothing major.

As long as the mystery box lucky draw function and the live-stream function were still available, Zhou Hao could use his luck points to continue accumulating more and more.

The night passed uneventfully. At noon the next day, Zhou Hao opened the Heaven Dao software punctually.

At the same time, the other users logged in.

However, to everyone's disappointment, the new opportunity that everyone had imagined did not appear.

In other words, it was basically the same as before.

On the chat channel of the Heaven Dao software, many users continued to complain.

“What kind of upgrade is this? Nothing has changed!”

“It can’t be said that nothing has changed. Look, the interface is now divided into four panels. There should be something on the third panel.”

“Isn’t the third panel blank?”

While everyone was busy complaining, Zhou Hao was carefully checking the upgraded Heaven Dao software.

The front page of the Heaven Dao software now had four transparent panels.

In the upper left corner was the mystery box, and in the upper right corner was the live broadcast. In the lower left corner was the third panel that others had mentioned.

However, this panel was somewhat special.

On the public chat, many people said that the third panel was blank.

However, Zhou Hao’s third panel displayed the word “shop (Unactivated)”.

It was obvious that opening this panel in the Heaven Dao software required certain requirements.

The fourth panel was the backpack.

The entire interface was as simple as usual.

At this moment, Zhou Hao’s message icon suddenly flashed.

Opening it, he saw that it was a message from Fairy Yue Ling.

“Big shot, can you see what the third panel is? It’s said that some people can see it. I’m clearly not one of these lucky people. Wuwu.”

After gradually getting familiar with Zhou Hao, Fairy Yue Ling also became a little playful.

“You can’t see it too?”

Zhou Hao was rather surprised. Originally, he thought that the qualifications to see the third panel should be related to financial resources.

For example, all the users complaining right now were actually low-level users.

However, now that even Fairy Yue Ling was unable to see it, that meant that the appearance and activation of the “shop” function might not have anything to do with financial resources.

“Big news! Big news!”

As Zhou Hao and Fairy Yue Ling were chatting, a diamond-level user suddenly said excitedly on the public chat.

“Big shot, what’s the big shot news?”

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 212 - Legendary Item Fragment

Chapter 212: Legendary Item Fragment

Diamond-level users always did well no matter where they went.

Moreover, this person even had big news to share.

Zhou Hao’s interest was immediately piqued. He also wanted to see what the big news was.

“The third panel’s function is a shop. After recently obtaining five rare-level items from the mystery box, the shop icon appeared”

“According to my test just now and after asking many friends, I came to a conclusion. That is, after accumulating 100 rare-level items in half a year, one should be able to activate the shop function.”

Immediately, the chat channel exploded.

“Damn! What a scam! How is it possible to get 100 rare-level items in half a year? Are you kidding me?”

“If others can’t, this person might be able to @ I’m just an ordinary person.”

“Damn! @ I’m just an ordinary person. Please guide me, big shot!”

“@ I’m just an ordinary person. Big shot, announce the secret manuscript and let the world benefit.”

“Big shot, show yourself and say something. @ I’m just an ordinary person.”

On the public chat, everyone kept tagging Zhou Hao crazily. They also wanted to become as lucky as Zhou Hao!

Zhou Hao’s heart skipped a beat. If he could really activate the shop by obtaining 100 rare-level items in the near future, then he might really be the first person to activate the shop function.

In order not to disappoint those tagging him, Zhou Hao also began to open the mystery box.

Currently, after the upgrade of the Heaven Dao software, it could be said that nothing had changed.

Everything was the same as before.

In the beginning, Zhou Hao did not spend any luck points. In the end, the system gave him a lot of roses.

Now, Zhou Hao had a lot of money on hand. Last time, he had obtained more than 300 colored energy crystals from killing the Heaven Crystal Purple Scorpion King and the illusionary sound insects.

During this period of time, he had accumulated more than 500 colored energy crystals.

In the past, he might have been happy for a long time. However, now that he knew about the Heaven Realm, 500 colored energy crystals was really nothing.

After all, 100 energy crystals could only be exchanged for one Essence Crystal.

With his wealth, he opened some gold mystery boxes and platinum mystery boxes to see if there were any changes to them without using his luck points.

Then, he completely proved that the results of the one-day upgrade of the Heaven Dao software were basically the same for all the users.

After all, no user could activate the upgraded shop function at the moment.

This was undoubtedly very annoying. After all, the appearance of the shop function made it seem as if it was within grasp.

After opening a batch of mystery boxes, Zhou Hao got a lot of roses, stinky tofu, and tea eggs.

He had a deep feeling that the software wanted him to open a provision store.

Immediately, he did not stand on ceremony. With a wave of his hand, he directly spent 100 million luck points to let the Heaven Dao software know the fear of being dominated by Lady Luck!

100 million luck points was not easy to accumulate. According to past experience, the effect would definitely be very explosive.

With a thought, his 100 million luck points was instantly depleted.

At the same time, Zhou Hao also began to open the mystery box mercilessly like a storm.

“Ding! Congratulations on opening the mystery box and obtaining a high-level item—Green Water Sword. This item has been placed in your backpack. Please take note!”

“Ding! Congratulations on opening the mystery box and obtaining a high-level item—Triple Lines. This item has been placed in your backpack. Please take note!”

“Ding! Congratulations on opening the mystery box and obtaining a high-level item—Spring Rain Sword Technique. This item has been placed in your backpack. Please take note!”

“Ding! Congratulations on opening the mystery box and obtaining a rare-level item—Divine Willow Seed. This item has been placed in your backpack. Please take note!”

“Ding! Congratulations on opening the mystery box and obtaining a rare-level item—Wordless Heaven Book. This item has been placed in your backpack. Please take note!”

“Ding! Congratulations on opening the mystery box and obtaining a legendary item—Demon Subduing Bow Fragment x1 (1 / 100). This item has been placed in your backpack. Please take note!”

...

Many users were still discussing Zhou Hao when the public notifications suddenly appeared.

This time, Zhou Hao had gotten at least 80 high-level items.

A total of seven rare-level items appeared at once! Instantly, the entire crowd exploded!

“Ahhh! Big shot, big shot, what did you do? This is too crazy! @ I’m just an ordinary person.”

“Roar! @ I’m just an ordinary person. I will reward you handsomely if you teach me how you do it.”

“@ I’m just an ordinary person. Is the big shot in need of any lackeys?”

“I’m so envious! The world is so cruel. He got seven rare-level items at once. How many mystery boxes did you open? @ I’m just an ordinary person.”

Although the drop rate of high-level items was not high, most users could still get them from time to time.

However, rare-level items were different. The drop rate of a rare-level item was very low. Most old users who had opened a lot of boxes had never seen a single rare-level item.

“Big shot, what’s with that legendary item?”

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 213 - The Eighth Great Wonder of the World

Chapter 213: The Eighth Great Wonder of the World

The ordinary users stared at the hundred plus high-level items. After all, this was the first time they had seen many high-level items.

Many high-level users stared at the seven rare-level items. To get seven rare-level items at once was simply the eighth great wonder of the world.

A few top users were looking at the legendary item fragment.

This was the first time in the history of the Heaven Dao software that a legendary-level item had appeared. Although it was only a fragment, it was still very terrifying.

“@ I’m just an ordinary person. Big shot, why don’t you reply? How did you do it? Also, what kind of high-end item is a legendary item fragment?”

Many users were still in a daze.

In fact, Zhou Hao was also somewhat dumbfounded. In all this time, this was the first time he had obtained a legendary-level item. The most ridiculous thing was that it was only a fragment.

This fragment was not simple. It required a total of 100 pieces to synthesize this item called the Demon Subduing Bow.

However, Zhou Hao had also verified one thing: the diamond user was probably right.

After obtaining another seven rare-level items, the shop icon on his third section became much clearer.

Based on this logic, he would get around 100 to 120 rare-level items to activate the shop function.

After spending all 100 million luck points this time, his gains were undoubtedly huge.

His backpack was now filled with high-level items. However, he was no longer interested in these high-level items. Some of them could even be given to others.

What really interested him were the seven rare-level items and a legendary-level item.

Demon Subduing Bow Fragment x1 (1 / 100), a peak-grade essence energy weapon. After collecting 100 fragments, it could be synthesized.

Currently, the Demon Subduing Bow was still in a fragmented state and Zhou Hao could only see very little information. However, Zhou Hao was still very surprised and shocked.

He did not expect this Demon Subduing Bow to be a peak-grade essence energy weapon.

Essence energy weapons were currently the privilege of Heaven Realm experts. Ordinary martial artists simply did not have the qualifications or financial resources to obtain an essence energy weapon.

Essence energy weapons were divided into low-level, intermediate-level, high-level, and peak-level. After synthesizing the Demon Subduing Bow fragment, Zhou Hao would obtain a peak-level essence energy weapon.

However, although the Demon Subduing Bow was good, accumulating fragments was bound to be an incomparably long process.

If he wanted to get the Demon Subduing Bow fragment, he would need to spend at least 100 million luck points.

In order to obtain luck points, he had to kill foreign races. But were there really so many foreign races for him to kill?

What Zhou Hao did not know was that the spatial rifts all over the world were currently undergoing subtle changes. Not long after, thirteen more spatial rifts would appear in Huaxia.

Now, the higher-ups of the other Green Cloud Division were still having a headache over this matter. However, Zhou Hao was worried that the foreign races would not be enough to kill. This was simply too much!

After checking the Demon Subduing Bow fragment, Zhou Hao looked at the Wordless Heaven Book.

This Wordless Heaven Book was what he needed now. This was because the Wordless Heaven Book could advance his Grand Yan Record by one level.

There was nothing to say. He could just use it directly!

After imprinting all the contents of the Grand Yan Record onto the Wordless Heaven Book, his Grand Yan Record also became a higher-level “Five Elements Grand Yan Record”.

“Worth it!”

Looking at the filled backpack, Zhou Hao smiled.

In certain times, it could be said that he was content with what he had. However, Zhou Hao’s gains this time had far exceeded his expectations. He had obtained a huge harvest.

The more luck points he accumulated, the more heaven-defying the effect was.

Because it was too high-profile this time, even after a long time, the chat was still filled with Zhou Hao’s legendary deeds.

Many gold and platinum users were tagging him crazily. Even many high-level diamond users were crying from greed.

Generally speaking, most diamond users were big spenders.

However, this was the first time Zhou Hao had gotten seven rare-level items and one legendary-level item.

“@ I’m just an ordinary person. Big brother, how many mystery boxes did you open?”

A diamond user with the ID “Young Master Nephew” asked curiously on the public chat.

“7 rare-level items and 1 legendary-level item at a time. Even if you opened the maximum number of boxes, you still won’t be able to get so many at a time, right? There must be something going on behind the scenes! There must be something going on!”

“Ahhh! I’m jealous, I’m completely jealous! Not to mention seven rare-level items, even if it was 1 rare-level item, I would still be overjoyed.”

“@ I’m just an ordinary person. Big shot, quickly tell me what’s going on with the legendary item. Please show everyone.”

What everyone was most interested in now was indeed the legendary item Zhou Hao had obtained.

Although the probability of obtaining a rare-level item was low, one could still occasionally see other users getting it. However, no one had ever seen anything like this.

Other users opened mystery boxes to test their luck. However, Zhou Hao would always obtain something whenever he opened them.

Chapter 214 - Be Careful!

Chapter 214: Be Careful!

Zhou Hao had no intention of answering these users’ questions, and he also did not go to Fairy Yue Ling’s live-stream.

At the same time, his luck points and funds had basically been depleted. Now, he still had to work hard to kill the foreign races to earn luck points and money.

On the one hand, he was able to draw out the legendary item this time. On the other hand, he had spent a lot.

He directly used a bankruptcy method to obtain the legendary item.

If it was already so difficult for him, it was no wonder the other users couldn't get any legendary items.

After closing the virtual screen, Zhou Hao's mind returned to reality.

The Heaven Realm cultivation technique he originally cultivated, the Grand Yan Record, had already surpassed the three ordinary cultivation techniques.

Now that he had improved the Grand Yan Record to the Five Elements Grand Yan Record, he could not wait to start cultivating.

After circulating his cultivation technique, Zhou Hao's face immediately revealed ecstasy.

This Five Elements Grand Yan Record was indeed worthy of being a cultivation technique that consumed rare-level items to advance. Its effect was directly ten times that of the original Grand Yan Record!

According to the information Si Nanxun had left in his cultivation notebook, the level of the Five Elements Grand Yan Record was definitely impressive!

"Hmph!"

As he was overjoyed, Zhou Hao also snorted coldly, his aura trembling.

A black panther that was pouncing towards him was directly killed by his aura!

Fortunately, no one saw this, or they would have definitely cried from fear.

This black panther, which was comparable to a third-grade supernatural martial artist, was directly killed by Zhou Hao's aura before it could even approach three meters. It was simply too terrifying!

After killing the black panther, Zhou Hao casually took care of its materials.

Clearing the demon beast materials now could only be said to be a habit.

In terms of value, with his current strength, it did not matter whether he collected these demon beasts or not.

After everything was settled, Zhou Hao also began to check on the training situation of Xu Ling and the others.

His senses were very powerful. Although this training area was not small, he still quickly discovered Xu Ling.

At this moment, Xu Ling and Yun Yan had already successfully met up. Although the two of them were in a somewhat sorry state, they were not injured.

Yun Yan's dressing style was cool and bold to begin with, and it was no exception even in this trial.

Now that there were some cuts in her clothing, one could see a large area of snow-white skin at a glance. It was very pleasing to the eye.

"Xu Ling, do you feel that something is watching us?"

A strange expression appeared on Yun Yan's beautiful face.

From the beginning, she had felt as if someone was staring at them!

"Hmm?"

Xu Ling looked around in surprise. She didn't see the Demon Race, Insect Race, Machine Race, or other foreign races.

There should be nothing staring at them.

"I didn't discover anything around us either, but I keep feeling like there's a gaze observing us..."

Yun Yan puffed her cheeks. She was actually very familiar with this feeling.

It was just like how when she went shopping with Xu Ling and the others, there were always people staring at her from the streets.

This was not because she was narcissistic. Perhaps it was because of her mental strength, or perhaps it was because of her so-called sixth sense. She indeed had this feeling.

"Why... why don't you change your clothes?"

Xu Ling hesitated for a moment and realized that Yun Yan's current appearance was really too pleasing to the eye.

This girl's figure was originally very voluptuous, and now, it was even filled with wild charm. Even a girl like Xu Ling blushed when she saw this.

"Oh, you're right."

Yun Yan nodded and immediately found a place to change.

Far away from the two of them, Zhou Hao revealed a bitter smile. Indeed, a beautiful scene could easily disappear...

However, he still wanted to ask if Yun Yan often used her blood essence power to reconstruct her body. Her figure was too perfect.

If Xu Ling was said to be a white lotus under the moonlight, then Yun Yan was simply a rose in the wind.

"Be careful!"

As Zhou Hao was sighing with emotion, a shout sounded from afar.

It was Lu Zhan, the dark horse who had suddenly risen up in the previous end-of-the-month competition.

Lu Zhan revealed a frightened expression at this moment and sighed in his heart. It was unknown what this Zhou Hao was thinking. A Green-Eyed Black Wolf had already arrived in front of him, but he still hadn't reacted.

Actually, Zhou Hao had long discovered this Green-Eyed Black Wolf.

However, he had clearly underestimated the stupidity of the Green-Eyed Black Wolf. The bloody aura of the black panther on his body had yet to completely disappear, yet this Green-Eyed Black Wolf still dared to attack him.

The Green-Eyed Black Wolf was extremely fast, and its strength had almost reached peak master level.

Lu Zhan was extremely worried. In the Seventh Elite Training Camp, such a demon beast probably required the cooperation of the top five students to deal with.

But now, he was alone with Zhou Hao.. They were clearly not their match.

Chapter 215 - Nothing Is Hard As Long As You're Willing to Work Hard!

Chapter 215: Nothing Is Hard As Long As You're Willing to Work Hard!

Bang!

This time, Zhou Hao did not use his essence energy and directly killed the Green-Eyed Black Wolf.

Instead, he used his usual strength as a master to fight the Green-Eyed Black Wolf.

Be it the Demon Race, the Insect Race, or the Machine Race, they all had top-notch experts.

With President Zhou's identity, he could attack at any time. However, as student Zhou Hao, Zhou Hao needed to keep a low profile.

As long as these foreign races did not know who President Zhou was, he would always be safe. No matter what he did, he would not be specially targeted by the foreign races and would be able to act freely.

Bang!

Zhou Hao punched out and directly caused an explosion in the air.

Under the cover of the armor, the might of his punch was even stronger and terrifying. After all, Zhou Hao's might could actually evenly match the Green-Eyed Black Wolf!

"How powerful!"

Lu Zhan's charging figure stopped.

After entering the Seventh Elite Training Camp, he had been cultivating diligently from morning to night, so he improved very quickly.

This was a true awakening process. When this process ended, Lu Zhan would see a completely different world.

Therefore, after Zhou Hao exchanged blows with the Green-Eyed Black Wolf, he immediately understood that Zhou Hao's strength was far stronger than he had imagined.

Bang! Bang! Bang!

After repelling the Green-Eyed Black Wolf with a punch, Zhou Hao pounced forward again.

Then, a pair of iron fists directly caused an explosion with a storm-like attack.

The incomparably terrifying Green-Eyed Black Wolf was directly blasted back repeatedly.

In the beginning, Lu Zhan was only surprised at Zhou Hao's strength. Now, the surprise in his eyes directly turned to shock!

Originally, the other students were at the first level, Yuan Cheng and the other outstanding students were at the second level, and Zhou Hao, Ji Yufan, and Xu Ling were at the third level.

Although there was a gap between them and Zhou Hao, it was at most a level. If they continued to work hard, the gap would continue to shrink. It was definitely only a matter of time before they caught up to Zhou Hao.

But now, Lu Zhan realized that he was wrong. He was ridiculously wrong!

Zhou Haojue was at least already standing on the fifth level. Compared to him, Ji Yufan, Xu Ling, and the others, Zhou Hao was at least two levels higher and was far ahead! In the Seventh Elite Training Camp, he was fully deserving of being the number one elite!

"Hah!"

On the other side, Zhou Hao roared and suddenly lashed out with his leg.

Before Lu Zhan could figure out what was going on, a black figure rushed out.

This black figure was extremely fast. It was actually a Red-Tailed Python. Its strength was not inferior to the Green-Eyed Black Wolf at all.

Because it contained poison, the danger level was even higher than the Green-Eyed Black Wolf!

"Let me help you!"

As soon as Lu Zhan finished speaking, he realized that he had spoken nonsense.

This was because even in a one-on-two situation, Zhou Hao still managed to firmly gain the upper hand and even began to continuously suppress the Green-Eyed Black Wolf and the Red-Tailed Python!

Lu Zhan was once again surprised and shocked.

In the violent wind, Lu Zhan was completely dumbfounded as he looked at the scene in front of him in bewilderment. He seemed to have become completely petrified.

He had already overestimated Zhou Hao's strength and even confirmed that Zhou Hao was at least two levels stronger than all of them.

But now, he suddenly realized that he had still underestimated Zhou Hao!

Both the Green-Eyed Black Wolf and the Red-Tailed Python could easily kill him. But now, Zhou Hao was actually not at a disadvantage even though he was fighting the two of them alone. It could be seen how powerful Zhou Hao was!

Lu Zhan was naturally unaware that he was still underestimating Zhou Hao. After all, Zhou Hao was not at the fifth level but had instead surpassed all the levels.

Swoosh!

The shadow of a condensed silver crescent axe flashed as Zhou Hao slashed the Red-Tailed Python into two.

Then, he swung his axe down and directly turned the huge python head into meat paste!

This axe was an intermediate-level item obtained from opening the mystery box. It was not that impressive, but it was more than enough to deal with these demon beasts.

Its material and toughness had already far surpassed most grandmasters' weapons.

In Lu Zhan's eyes, this was simply a divine weapon!

The Red-Tailed Python's body was incomparably tough. If not for the core area of the weapon's explosive power hitting the Red-Tailed Python, it would not have been able to blast it into meat paste.

However, Zhou Hao had done this with ease.

At this moment, a monstrous fighting spirit ignited in Lu Zhan's heart. Zhou Hao had become his only goal and direction.

After this, he would work even harder and cultivate even more crazily. He had to surpass Zhou Hao!

Although Zhou Hao was very powerful, Lu Zhan was confident in himself!

There was nothing difficult in this world as long as one was willing to work hard!

Zhou Hao naturally did not know what Lu Zhan was thinking at this moment. Otherwise, he might subconsciously reveal a strange expression.

It was naturally a good thing to have a goal. However, many goals needed to be set realistically based on the actual situation and could not be set blindly...

While Zhou Hao was fighting the Green-Eyed Black Wolf and the Red-Tailed Python, Yang Hui and the other four figures appeared on a cliff.

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 216 - Am I That Kind of Person?

Chapter 216: Am I That Kind of Person?

The few of them looked at Zhou Hao's battle below and were incomparably excited.

"Be it Zhou Hao's combat experience, usage of blood essence, or movement techniques, they are all remarkable and almost perfect!"

The usually picky Yang Hui also gave a very high evaluation this time!

"Genius! A peerless genius!" A white-bearded elder beside Yang Hui said firmly.

He had lived for most of his life and had seen many genius martial artists, but this was the first time he had seen such a perfect genius who was good at all aspects.

Other than the fact that Zhou Hao had only cultivated for a short period of time and that his strength was not very high, Zhou Hao was simply a living example of a perfect martial artist.

"It seems that our Seventh Elite Training Camp is going to rise again."

A female martial artist dressed in formal attire bit her red lip and looked at Zhou Hao with bright eyes.

"That's hard to say. There are many geniuses in the other six elite training camps, and they spend even more time training."

“At the very least, Zhou Hao is definitely lacking in terms of cultivation time. And time is very difficult to make up for among geniuses.”

The other instructor was not as optimistic as Yang Hui and the others.

However, although this instructor had disappointed everyone, he still continued to speak.

“Of course, every elite training camp has its own specialties. In terms of nurturing geniuses, our Seventh Elite Training Camp also has its own specialties.”

“Compared to the other elite training camps, we still have a huge advantage. That is, we are close to the seventh spatial rift!”

“In combat, strength increases the fastest. We should keep bringing these little guys over to train in the future.”

As soon as this middle-aged man in a black training suit finished speaking, a gasp sounded.

Yang Hui and the others were all looking down in shock.

In less than ten minutes, the two master-level demon beasts were killed by Zhou Hao’s axe!

“Impressive! Among students of the same age, there are definitely no more than twenty people who can do this.”

Yang Hui praised without holding back. At the same time, his heart stirred as he looked at the black-clothed instructor.

“Iron Lion, why don’t you go and capture a few master-level demon beasts to let Zhou Hao practice?”

Of course, Iron Lion was only this instructor’s nickname. However, he did not mind this nickname.

“You sure know how to order people around. If you want it done, do it yourself.”

Yang Hui’s request was directly rejected mercilessly by Tie Liuyun.

In the forest, everything returned to calm.

After Zhou Hao sorted out the materials of the two demon beasts, Lu Zhan had yet to recover from his shock.

Although he had vowed to surpass Zhou Hao, this unlucky child was still quite shocked.

“You’re very strong!”

“But I will definitely surpass you!”

After saying this, Lu Zhan chose to leave to continue training.

It couldn’t be helped. With Zhou Hao by his side, he had no chance to attack at all, so he naturally wouldn’t be able to improve.

Zhou Hao smiled. This guy was too interesting.

Zhou Hao also completely respected Lu Zhan’s decision to leave.

After all, one shouldn’t just tag along with an expert.

In less than ten minutes, the news that Zhou Hao, a student from the Seventh Elite Training Camp, had killed two master-level demon beasts spread throughout the entire frontline defense line.

When they heard this news, all the martial artists felt that it was unbelievable.

In the eyes of most martial artists, the students of the elite training camp were all delicate children who never experienced hardship.

They really did not expect a student to be able to do this.

Especially since Yang Hui and the others had seen it with their own eyes. They had no other choice but to believe it!

As the entire frontline defense line was discussing and praising Zhou Hao, Zhou Hao had already met up with Xu Ling and Yun Yan.

After training for so many days, Xu Ling and Yun Yan’s pretty faces were filled with fatigue.

Seeing Zhou Hao’s glowing face and full expression, the two of them revealed strange expressions.

“Where did you go to hide?”

Yun Yan asked uncertainly. After all, they were both in the weakened state but Zhou Hao was full of energy and in a saturated state.

It seemed like he did not encounter any danger or battle.

“Do you think I’m that kind of person?”

Zhou Hao was speechless. Couldn’t this Yun Yan have a better impression of him?

Unexpectedly, at this moment, Xu Ling also nodded seriously and said, “Zhou Hao, did you go somewhere to hide?”

Pu!

Hearing Xu Ling say this, Zhou Hao was about to vomit blood.

“Can’t you two just accept the fact that I traveled around without being injured at all?”

Zhou Hao looked at the two of them speechlessly. These two girls clearly did not trust his strength!

Chapter 217 - Simply Outrageous!

Chapter 217: Simply Outrageous!

“Keep bragging!”

“How could we not know how dangerous this place is?”

Although Zhou Hao had also revealed his strength once before, no one had seen him in a fight.

Under such circumstances, many people even suspected that Zhou Hao had used some trick.

Yun Yan believed that Zhou Hao definitely had the strength, but she felt that he was on the same level as Xu Ling and Ji Yufan.

She thought that he might even be inferior to Xu Ling and Ji Yufan.

In this training ground, even Xu Ling and Ji Yufan could not travel freely without getting injured, let alone Zhou Hao.

Zhou Hao shook his head helplessly and did not argue with Yun Yan.

He was even thinking about how Yun Yan would react if she saw him kill a peak-level supernatural demon beast with a single punch.

“Alright, alright, stop fooling around. Since we’ve gathered, let’s continue training.”

“With the three of us working together, our safety has increased greatly. We can now go and take a look at some areas that were previously very dangerous.”

Xu Ling took out food and water for the two of them as she spoke.

“That’s too bland. Let’s eat something good.”

Zhou Hao looked at the mineral water and the special compressed biscuits Xu Ling handed him and casually ridiculed.

Then, under Xu Ling and Yun Yan’s dumbfounded gazes, his figure directly flashed and left the team without permission.

“Hey, where are you going...” Xu Ling looked at Zhou Hao’s disappearing figure, feeling both angry and anxious.

It had to be known that this place was filled with danger.

It was one thing for Zhou Hao to be so crazy normally, but for him to act like this even in such a situation, she really wanted to smash his head!

What Xu Ling and Yun Yan did not know was that Zhou Hao had returned because he had seen a Mountain Boar on the way here.

The Mountain Boar had huge and delicious meat.

After heaven and earth mutated, the Mountain Boar also mutated.

The other animals and plants had become more aggressive. However, interestingly enough, this Mountain Boar actually became more delicious after mutating.

The meat was delicious and chewy. Regardless of whether it was roasted, stir-fried, or fried, it was still top-notch delicious!

Not only was it delicious, but its flesh also contained sufficient blood essence. Eating wild boar meat could also speed up one’s cultivation.

If it were anyone else, Xu Ling and Yun Yan probably wouldn’t care.

However, because it was Zhou Hao now, the two of them couldn’t care less about the danger and could only quickly follow.

The strange thing was that Zhou Hao should have been one step ahead of them. However, he seemed to have disappeared after the two girls started chasing after him.

What the two of them did not know was that after leaving their line of sight, Zhou Hao almost directly teleported. After killing the Mountain Boar with a single slash, his figure flashed and appeared halfway.

He was waiting for Xu Ling and Yun Yan to come and find him.

Half an hour later, Xu Ling and Zhou Hao finally arrived as they moved cautiously.

“Zhou Hao, are you tired of living? Why are you still acting on your own in such a dangerous place? If you do this again, I’ll...” As Xu Ling spoke, she was about to attack.

“Hey, wait... wait... I’ll give you a surprise!” In order to save his life, Zhou Hao hurriedly took a step away.

After seeing the Mountain Boar behind Zhou Hao, Xu Ling’s eyes lit up and her anger disappeared. At the very least, she suppressed the urge to go up and smash his head.

However, their lives were at risk in this training. Could he be more serious?!

However, with such a Mountain Boar, their food problem was finally resolved.

Everyone knew that the meat of the Mountain Boar was delicious.

Many places were specialized in raising Mountain Boars. Although there were also many Mountain Boars in the forest, in the wilderness, there were all kinds of foreign races. No matter how gluttonous a martial artist was, not many martial artists would choose to take the initiative to come to the wilderness or hunt Mountain Boars around the spatial rift.

...

“Do you really want to have a barbeque?”

After arriving at a stream, Xu Ling’s beautiful eyes revealed hesitation and conflict.

Wasn’t it a little inappropriate for them to have a barbeque in such a place?

“It’s indeed a little inappropriate...”

As if he knew what Xu Ling was thinking, Zhou Hao also spoke at this moment.

Xu Ling and Yun Yan also looked over, wanting to know what Zhou Hao’s decision was.

“It’s still lacking something! If I roast it like this, the taste probably won’t be good!”

When Xu Ling and Yun Yan thought that Zhou Hao was about to say something important, they did not expect him to say something like this.

It was clear what Zhou Hao meant by that. They still lacked the dipping sauce and pickles!

This fellow was too particular. Although this was only a training ground, it was undoubtedly a battlefield for students like them!

Should one be worried about sauces on the battlefield?

It was simply outrageous!

“I’ll go to the salt lake to get some salt ores to extract the salt. The two of you, go over and pick some wild mountain peppers.”

Zhou Hao had even arranged tasks for Xu Ling and Yun Yan. At the same time, he also went to look for salt ores.

Xu Ling and Yun Yan were dumbfounded. This guy was getting more and more overboard!

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 218 - This Guy Is So Cocky!

Chapter 218: This Guy Is So Cocky!

Before Zhou Hao appeared, Xu Ling and Yun Yan simply did not dare to imagine that they could eat so well in the training area!

Xu Ling looked at Zhou Hao with a disappointed expression.

“Can’t you be a little more alert? This is a very dangerous training area after all.” Xu Ling looked at Zhou Hao who was eating heartily and said angrily.

Ever since they entered the training area, all the students had been tense, afraid that they would lose their lives if they were careless. Some of them were even so frightened that their legs turned weak before they even began.

Yet, this fellow didn't know what it meant to be nervous.

Seeing his look of enjoyment, those who did not know would think that he was here for an outing!

They really did not know if this guy was careless or just had an abnormal way of thinking.

"I've always been very alert!" Zhou Hao said casually as he continued to eat.

Hearing this, Xu Ling and Yun Yan were very speechless. This was because he was completely relaxed.

Seeing that the two of them were still standing there in a daze, he hurriedly called out, "You guys should come and eat too. It's too delicious!"

As he spoke, he cut two pieces of meat and handed it to the two of them.

Xu Ling and Yun Yan looked at the meat in their hands that was oozing with oil and fragrance. They looked at each other in tacit understanding and couldn't help but swallow.

It seemed as though Zhou Hao's relaxed vibe was contagious. Seeing Zhou Hao's satisfied expression, Xu Ling and Yun Yan could not help but relax and start eating comfortably.

Hmm, how fragrant!

...

On a cliff, a beautiful figure in a white research suit looked down with narrowed eyes.

Looking at the three students below who were not vigilant and were still focused on eating, her expression was dark.

The woman's name was Su Mengying and she was from the Seventh Fortress Base. She was also the vice dean of the Seventh Elite Training Academy.

All along, she had been doing research on martial artist weapons.

This time, after hearing that an extremely heaven-defying student had appeared in the academy, she could not hold back her curiosity and personally came to check. In the end, she saw a scene that made her doubt life!

She even suspected that the difficulty of this training was too low, which was why they were so indifferent.

However, she immediately rejected this idea.

As someone who had experienced this before, she had also participated in this kind of training before and knew very well how dangerous it was. Now that she thought about it, although she did not have lingering fear, she still remembered it vividly.

Moreover, the global situation was even more serious now, and the spatial rifts were only getting more and more dangerous.

As for the description of Zhou Hao by Yang Hui and the others, she basically did not believe it at all.

No matter how powerful a junior from the elite training camp was, their strength was still limited. It was absolutely impossible for a junior to be stronger than a veteran who had experienced countless life and death situations.

When she heard that Zhou Hao had remained calm when facing the siege of three demon beasts of the same level, she almost laughed out loud.

Now, based on what she saw, she felt that Zhou Hao was too careless!

She had already prepared many gifts for Zhou Hao. What happened next would depend on his performance.

Whether they would survive or not will depend on their battle!

By the stream, after Zhou Hao had eaten and drunk his fill, his eyes revealed a meaningful smile.

Of course, he knew that not far from here, there was a peak-level master-level Hundred Feet Worm chasing their scent.

“What are you laughing at?”

Xu Ling was almost dumbfounded by Zhou Hao. She felt that she could not understand him anymore.

It was one thing for this guy to be lazy in the training area, but now he was even laughing for no reason.

“He must be planning something bad!” Yun Yan glanced at Zhou Hao and said seriously.

“Pfft! Is that what you think of me?”

Zhou Hao was speechless. He hadn’t realized that Yun Yan was like this before.

Could it be that Yun Yan had eaten too much Mountain Boar meat and had become stupid from eating it?

“Be careful. I sense a dangerous aura approaching.”

Xu Ling put down the delicacy in her hand, took out her weapon, and observed her surroundings vigilantly.

Her senses were usually very accurate. Previously, when she and Yun Yan were moving together, she had sensed danger many times and avoided it in time.

“Something seems wrong.”

Yun Yan also became solemn. Both of their reactions were not slow.

Zhou Hao was not surprised at all. If the two of them were not vigilant when a peak-level master-level Hundred Feet Worm rushed over, they would have cultivated in vain.

“What... is that?”

Looking at the huge Insect Race being in the distance, Yun Yan was stunned.

“Run, this is a peak-level master-level Hundred Feet Worm!”

Compared to Yun Yan, Xu Ling reacted very quickly and immediately made a judgment.

“We can’t run. It’s faster than us.”

Zhou Hao spoke slowly, still looking indifferent.

Of course, the Hundred Feet Worm was definitely faster than Yun Yan and Xu Ling, but it was definitely not as fast as him. However, he kept that information to himself.

“Let’s prepare for battle.”

Xu Ling revealed a bitter expression as if she was facing a formidable enemy. Although she did not understand why this Hundred Feet Worm would appear here, she knew that she had to fight with her full strength.

Yun Yan did not hesitate and immediately entered combat mode.

On the cliff, Su Mengying nodded.

The performance of Zhou Hao and the other two could only be considered average.

However, with their strength, it was not wise for them to face a peak-level master-level Hundred Feet Worm head-on.

If there were no special methods, the three of them would end their training here.

She would not let the three of them be in danger, but if she had to intervene, it also meant that they would be eliminated.

Chapter 219 - Insta-kill

Chapter 219: Insta-kill

“Zhou Hao, what are you doing? Come back quickly!”

Seeing Zhou Hao take out an ax charm and actually lead the way to kill the Hundred Feet Worm, Xu Ling immediately shouted anxiously.

Yun Yan was also scared silly.

Chi!

“What?”

However, Xu Ling and Yun Yan’s worries vanished in the next moment. Immediately after, the two of them stopped in their tracks, their eyes revealing shock.

Zhou Hao’s figure directly flashed like a flowing light phantom, flashing three times around the Hundred Feet Worm and drawing three crescent axe lights.

Then, the huge Hundred Feet Worm was directly dismembered by him, its limbs falling to the ground!

Xu Ling and Yun Yan swallowed a mouthful of saliva. The two of them were already so shocked that their entire bodies went numb. Their tongues were tied, and they were unable to say a word.

The peak-level master Hundred Feet Worm was actually killed by Zhou Hao in a single move!

Although they had known since the last trial that Zhou Hao did not reveal his strength, they knew that he was definitely not weak. Otherwise, he would not have been able to finish first in the end-of-month competition.

However, the combat strength Zhou Hao displayed just now had directly exceeded their expectations.

After all, he had insta-killed a peak-level master Hundred Feet Worm!

On the cliff, Su Mengying's body trembled in shock.

Originally, she was waiting to see Zhou Hao and the other two get beaten up by the Hundred Feet Worm before showing up to save them. She did not expect Zhou Hao to instantly kill the Hundred Feet Worm!

Yun Yan and Xu Ling did not notice it, but she did!

Just now, Zhou Hao had not waved his axe three times. Instead, he had waved his axe seven times in an instant, directly dismembering the Hundred Feet Worm on the spot!

However, Xu Ling and Yun Yan were wrong, and so was the beautiful vice dean.

Zhou Hao did not swing his axe seven times just now. Instead, he instantly swung his axe fifty four times and sliced the Hundred Feet Worm into pieces.

After killing the Hundred Feet Worm, Zhou Hao casually waved his hand.

"Do you guys have to be so surprised? It's not like I did anything extraordinary?"

Seeing Yun Yan and Xu Ling's shocked expressions, Zhou Hao said casually.

"I say, aren't you being too cocky?!" Hearing Zhou Hao say this, Xu Ling immediately said angrily.

The scene in front of them was already so shocking that it was indescribable!

In usual circumstances, the three of them would not be able to escape from the Hundred Feet Worm.

But now, Zhou Hao had actually killed this Hundred Feet Worm in a single move!

They had previously thought that they were overestimating Zhou Hao, but now, Xu Ling and Yun Yan realized that they had still underestimated him!

Unlike Yun Yan, Xu Ling was shocked and happy, but she also felt an indescribable emotion in her heart.

Zhou Hao, that bastard, had actually deceived her again!

“Zhou Hao, why don’t I know when you became so powerful, huh?” Xu Ling stepped forward and grabbed Zhou Hao’s ear as she asked in a strange tone.

Zhou Hao wanted to retort that Xu Ling never asked but chose to keep quiet.

At this moment, it was more appropriate for him to apologize.

“Hehe, I just wanted to give you a surprise,” Zhou Hao replied decisively, no longer as high-spirited as before.

After all, even a hero couldn’t get past a beauty.

“Surprise? I think it’s more like shock!” Zhou Hao’s words successfully consoled Xu Ling. Her tone could not help but lighten up and did not continue to pester him.

After dealing with the materials on the Hundred Feet Worm, Xu Ling and Yun Yan continued to leave in shock.

“Zhou Hao, how did you cultivate to become so powerful?”

Yun Yan was shocked and could not calm down for a long time.

The three of them had already walked far away, but she still asked curiously.

It had to be known that Zhou Hao did not have special physiques like Ji Yufan and Xu Ling, nor did he have any special bloodlines. For someone like him, it was not easy to reach this level.

“That’s right. I rarely see you put effort into your cultivation.”

Xu Ling was also very puzzled. After all, every time she went to find Zhou Hao, this guy was always lazing around.

“I didn’t really cultivate...”

Zhou Hao told the truth. His strength originated from his incomparably deep and compact foundation as well as his current Heaven Realm cultivation technique.

He had really not cultivated much himself.

The reason why he was so powerful was simple. Basically, he was in a different realm as compared to the other cultivators.

“Hai... he’s getting cocky again!”

Yun Yan felt a headache coming on. On the way, they had asked Zhou Hao many questions, but Zhou Hao always seemed to answer in a cocky way.

Zhou Hao felt wronged. He had definitely told the truth. However, many things were too unbelievable, so Xu Ling and Yun Yan did not believe him at all.

In this day and age, no one believed the truth.

“We’re in trouble again.”

After taking a few steps, Zhou Hao suddenly stopped.

In fact, he had long sensed the Black Rock Bear King in the distance.

“You guys should take this one this time.”

The previous Hundred Feet Worm contained poison and was too dangerous. Therefore, he had insta-killed it previously.

Now, although this Black Rock Bear King was dangerous, it did not have any poison. It was just nice for Yun Yan and Xu Ling to practice.

“Take what?”

Xu Ling’s beautiful eyes were filled with confusion.

She did not sense anything around her.

On the other side, Yun Yan was about to ask, but before she could finish speaking, she immediately became vigilant.

Not far away, a Black Rock Bear King the size of a tank pressed towards them step by step with a firm aura!

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 220 - Too Monstrous!

Chapter 220: Too Monstrous!

This was also a peak-level master-level demon beast.

However, it had actually learned how to conceal its aura. No wonder they did not sense the existence of this demon beast at all just now.

Behind them, Su Mengying also followed along.

She had captured many demon beasts nearby to test Zhou Hao's true level.

Zhou Hao's secret axe technique just now had made her unable to completely calm down.

This brat was simply too monstrous.

On the way, she had already checked Zhou Hao's resume.

From Zhou Hao's resume, she could come to a very accurate conclusion.

That was, Zhou Hao was an ordinary person.

From enrollment to graduation, to entering the elite training camp of the fortress base.

Before the end of the month competition last time, Zhou Hao had not displayed anything outstanding. He was even ranked at the bottom.

However, with Zhou Hao's stunning performance just now, Zhou Hao was indeed a monster that was in a completely different realm when it came to strength.

The only explanation was that Zhou Hao was really too good at hiding his strength!

In the beginning, Zhou Hao might have been an extremely heaven-defying genius. However, because he had yet to mature and could die at any moment, he had always hidden his edge.

It was only recently that he felt that he had the strength to protect himself that he revealed his peerless talent!

After thinking of this, Su Mengying even nodded in agreement.

In the forest below, Xu Ling and Yun Yan were already fighting a huge battle with the Black Rock Bear King.

Rather than calling it a huge battle, it would be more accurate to say that Xu Ling and Yun Yan were getting beat up.

Their strengths were simply not on the same level.

It was just that the two of them were agile and their strength was not too weak. By cooperating with each other, they could barely fight the Black Rock Bear King.

Fifteen minutes later, the two of them gradually could not hold on any longer and were in danger.

However, they did not ask Zhou Hao for help. Their combat strength needed to be slowly accumulated. The longer they persisted, the greater their improvement.

Finally, the moment the sword in Xu Ling's hand was swatted away by the Black Rock Bear King, a huge bear palm slapped towards her head.

Chi...

Xu Ling's head did not explode. All she saw was Zhou Hao's ax flying out.

After sensing Zhou Hao's strength at a close distance this time, Xu Ling was even more shocked.

Even if she and Yun Yan joined forces, it would be very difficult for them to survive against the Black Rock Bear King.

However, the Black Rock Bear King was unable to withstand a single strike from Zhou Hao.

Above the mountain rocks, Su Mengying had long known how powerful Zhou Hao was. However, when she saw Zhou Hao's stunning performance, waves still surged in her heart.

In the elite training camps of the seven fortresses, there were countless geniuses.

However, there was no one like Zhou Hao, who was already so monstrous after only being in the elite training camp for a month!

After that, Zhou Hao directly led Xu Ling and Yun Yan to sweep through everything. No matter what Insect Race, Demon Race, or rare foreign race beings they encountered, he would sweep through them.

Not long after, the three of them appeared at the rendezvous point they had previously agreed on.

Actually, it did not matter whether they arrived at the rendezvous point or not.

Zhou Hao was too good at hiding his strength.

To them, this training was a life and death training. To Zhou Hao, it was at most an ordinary mission.

What the two of them did not know was that Zhou Hao had treated this training as a picnic.

If not for the two of them traveling with him and Su Mengying following from afar, he would not have needed to take action in all the battles.

By directly releasing essence energy, he could completely turn these demon beasts and Insect Race into a bloody mist.

“The three of you are so slow.”

In the empty space of the rendezvous point, Yuan Cheng and Zhang Yi had long limped over.

Seeing that Zhou Hao and the other two had only just arrived, the two of them were somewhat smug.

“Damn, you guys aren’t injured at all?”

The smug smile on Yuan Cheng’s face quickly disappeared.

He and Zhang Yi had put their lives at risk to arrive here.

But now, Zhou Hao and the other two were full of energy. Not to mention not being injured at all, even their clothes were not dirty!

“Don’t tell me you guys haven’t encountered a battle...”

Zhang Yi asked in a daze. As soon as he said this, even he felt that it was a stupid question.

This place was filled with demon beasts and various foreign races. Even if Zhou Hao and the other two came in the sky fighter, a battle would still happen without an expert holding down the fort.

However, judging from their appearances, it did not seem like...

Zhang Yi's doubts were quickly answered.

"Yes, but they were all dealt with by Zhou Hao."

Yun Yan told the truth, while Yuan Cheng and Zhang Yi were somewhat dumbfounded.

Was Zhou Hao really that powerful?

Originally, only Xu Ling and the others had chosen the empty space beside the lake as their meeting point.

However, because all the demon beasts and other foreign races in the area had been killed by Zhou Hao, many students of the Seventh Training Camp subconsciously arrived here after escaping to the nearby area.

After all, this place was relatively safe!

Everyone had been in fear for many days in the training area. After discovering this time, they directly pounced onto the opportunity and gathered here.

As more and more students arrived, they looked at Xu Ling and the other two with extremely strange gazes.

Chapter 221 - Zhou Hao Is Amazing!

Chapter 221: Zhou Hao Is Amazing!

All of them had disheveled hair and dirty faces and were in a sorry state. Some had almost died on the way.

Zhou Hao, Xu Ling, and Yun Yan were completely unlike the others. Not to mention being full of energy, they did not have any injuries at all. Even their clothes were not damaged at all.

The other students felt strange, but Lu Zhan did not find it to be strange.

He had seen Zhou Hao attack with his own eyes, so he knew very well how heaven-defying and terrifying Zhou Hao was.

Ji Yufan had long arrived here, but he had completely lost his previous confidence and superiority. He was in a sorry state and looked depressed.

In fact, he had killed countless beasts and had gained a lot. His strength had also advanced a step further.

However, when he saw Zhou Hao, his smile disappeared. His pride as a peak-level genius from a prestigious family had also disappeared.

He knew the danger here better than anyone.

After entering this training area, he encountered many dangers one after another. His body was already covered in injuries, and his clothes were tattered.

On the other hand, Zhou Hao's clothes were brand new and he looked relaxed. It was obvious how powerful he was!

In other words, although he was now one step closer to Zhou Hao, there was still a considerable gap between the two of them.

However, Ji Yufan quickly understood.

Cultivation in the Martial Dao was vast and long. Without a special physique and a powerful family background, one could not get far.

Most of the peak-level experts came from such factions or had the support of other peak-level experts.

As a person with no special physique, no heaven-defying talent, and no family background, it was already extremely difficult for Zhou Hao to go further on the martial path, let alone become a top-level expert.

Zhou Hao's lead was only temporary!

After some time, he, Ji Yufan, would definitely let Zhou Hao know what cruelty was!

Seeing Ji Yufan's meaningful smile, Zhou Hao also smiled.

Ji Yufan's family background was extraordinary, his appearance was handsome, and his talent was outstanding. He was perfect in all aspects. Unfortunately, he was a fool...

“We’ll go back the way we came. When we return to the training camp, this training will be over.” After everyone arrived, Xu Ling said.

Many students here were injured. Fortunately, no one had died.

“Sure.”

The surrounding students had no objections to Xu Ling’s suggestion.

The strongest people here were Xu Ling, Ji Yufan, Lu Zhan, and Zhou Hao.

Ji Yufan was arrogant and did not get along with others, so he definitely would not lead everyone out of the training area.

Zhou Hao and Xu Ling were together, and Lu Zhan had already agreed to Xu Ling’s suggestion.

In this situation, everyone naturally should follow Xu Ling.

Unsurprisingly, Ji Yufan had only come here to rest temporarily. When everyone returned together, he felt that it was beneath him to travel with them.

Although many students were very displeased, no one dared to say anything to Young Master Ji.

The increase in numbers made everyone more courageous, but the risk of being exposed was also much higher.

It was just like walking on the road. A small ant might be very difficult to notice, but a large group of small ants was very obvious.

At this moment, more and more foreign races were attracted by them.

Almost every time they advanced for a distance, a battle would occur.

Zhou Hao was in the crowd and did not have the opportunity to show off.

After everyone attacked together, secret techniques covered the sky and earth, directly drowning ordinary foreign races.

The one who was truly in the limelight was Lu Zhan, who was attacking in the front.

Of course, Lu Zhan’s original intention was to seize all opportunities to train himself.

He knew very well how powerful Zhou Hao was. In order to quickly reduce the distance between him and Zhou Hao, he had to work extremely hard!

Bang!

When a Black-Winged Giant Lizard appeared, Lu Zhan, who was in the lead, was directly blasted flying as he spat out blood.

“Peak-level master-level demon beast! It could even be considered as a half-step grandmaster-level demon beast!”

The expressions of many students instantly turned pale, and a strong sense of helplessness surged into their hearts.

Was it really appropriate for a demon beast of this level to appear here?

They had only arrived at the Seventh Fortress for a short period of time, but they were already facing such basic demon beasts. This was too much of an honor for them.

“Let’s gather together and slowly retreat. We can’t escape alone, or we’ll be defeated one by one!”

“That’s right. No one is allowed to run alone. Otherwise, they will be deemed traitors!”

“Don’t be afraid. There are so many of us. We can kill it together with some effort!” Many students said.

Although they said that they were unyielding, they were not confident at all. All of them were afraid to death.

Hiss...

After the Black-Winged Giant Lizard slowly took a few steps forward, a student was so frightened that his limbs went limp and he sat on the ground. He even needed someone to support him when he walked.

However, no one laughed because everyone was very afraid now.

Even Xu Ling and Yun Yan were not optimistic. Although Zhou Hao was powerful, he was not invincible.

In this situation, even Zhou Hao was unable to establish the cauldron!

“It’s here!”

“Be careful!”

“Save me!”

“Quick, ask the instructor for help!”

As the Black-Winged Giant Lizard suddenly increased its speed, the students were directly at a loss and started talking at once.

On the cliff, Su Mengying was also prepared to help.

She was not the one who had arranged for the Black-Winged Giant Lizard to appear here. It was actually very unreasonable for the students to fight this lizard.

However, the frontline defense line was too large, so it was inevitable that there would be some who escaped.

Swoosh!

Who knew that at this moment, Zhou Hao would head in the opposite direction!

As the others retreated crazily, he rushed towards the armored Black-Winged Giant Lizard.

Just as many students felt their legs turn weak from fear, Zhou Hao jumped up and suddenly chopped down with his axe.

With a single swing of the axe, silence reigned!

This axe drew a huge silver line in the air.

Under his ax, the huge horn on the armored Black-Winged Giant Lizard’s forehead was instantly cut off.

The Black-Winged Giant Lizard was immediately horrified to the extreme. It did not stop and immediately fled in fear.

“Damn!”

“Zhou Hao is awesome! How impressive!”

“This, this, this...”

“How is this possible?”

“How powerful!”

“How impressive!”

Many students were stunned, and their jaws fell to the ground. All of them looked at Zhou Hao in disbelief, as if they had seen a ghost!

Chapter 222 - Leading Everyone for Half a Day?

Chapter 222: Leading Everyone for Half a Day?

Looking at the Black-Winged Giant Lizard that was escaping crazily as if its butt was on fire, the eyes of the students from the Seventh Elite Training Camp widened.

This simply overthrew their understanding!

The Black-Winged Giant Lizard was three times larger than a mammoth. It had four wings on its two ribs, and its combat strength was very powerful!

In its infancy, it had no horns on its forehead. After it gradually matured, a long horn would appear on its forehead. This also proved that its strength had reached its peak.

Among the many peak-level master-level demon beasts, the Black-Winged Giant Lizard was also ranked at the top.

Previously, Lu Zhan had only been struck by the other party and several of his bones had already been broken. If not for the protection of the armor, Lu Zhan would probably have already become a corpse.

But now, Zhou Hao had actually chopped off the horn on the Black-Winged Giant Lizard's forehead with a single ax.

Waves of shock surged in the hearts of the students. Their gazes as they looked at Zhou Hao could no longer remain calm!

It should be known that before the end of the month competition last time, Zhou Hao was still ranked at the bottom!

It's only been a while since then, but now, not only had Zhou Hao become the strongest of them, his strength had also reached a terrifying level!

Many boys looked at Zhou Hao with complicated gazes.

Zhang Yi, Yuan Cheng, and the others were very happy. Zhou Hao was their friend and they were naturally also happy that Zhou Hao had become stronger.

The other boys, on the other hand, were envious.

Why? Why does Zhou Hao get to be so powerful?

All the boys couldn't help but wonder why they weren't the ones who were so impressive.

They could not figure this out no matter how hard they tried!

Some boys also looked at Zhou Hao in admiration and were very excited.

They were unable to replicate Ji Yufan and Xu Ling's strength. After all, the two of them both had special physiques.

Zhou Hao, on the other hand, was different. He was only an ordinary person!

Since Zhou Hao was able to reach such a height, it meant that they could also do it after working hard!

However, these students did not know that they were simply in a different realm from Zhou Hao. The result they could achieve through hard work was naturally also different.

Most of the girls looked at Zhou Hao with bright eyes.

Even Fang Yu, the Yanjing genius who had previously thought highly of himself and disdained Zhou Hao and the others, had to look at Zhou Hao in a different light now.

Zhou Hao's current strength was already incomparable to theirs!

Xu Ling looked at the heated gazes of many girls and felt very complicated.

Of course, she still mostly felt pride.

Previously, Zhou Hao had not attacked in the team. Many students even thought that he was afraid to attack.

However, reality had given them a ruthless slap. It turned out that the reason why Zhou Hao did not attack was not because he did not dare to attack against the demon beasts, but because he felt that there was no need for him to attack at all.

In the following journey, many students were very relieved. This was because as long as Zhou Hao was around, they could directly move around in this training area.

Some students were even thinking if they should go back to kill more beasts and earn some points.

Of course, they only thought about doing so. This was because the training period was about to end. At this time, they had to return to the edge of the battlefield to complete the training.

Therefore, even if Zhou Hao agreed to return, it would be in vain.

Thinking of this, many students could not help but be very disappointed, thinking to themselves that they had missed the good opportunity to earn points.

The rest of the journey was as smooth as they had expected.

Zhou Hao was basically a walking pass!

When everyone returned to the gathering point, many people revealed puzzled expressions.

Other than Instructor Yang Hui, why was there another young woman?

Among the many students, some of them came from extraordinary backgrounds and naturally knew Vice Dean Su Mengying.

After a simple exchange, everyone learned that the beautiful young woman was actually the famous Vice Dean Su Mengying.

Many of the weapons and equipment they used, including the cultivation medicines, healing medicines, and equipment, were produced by Vice Dean Su Mengying.

Glancing at the team, Yang Hui immediately revealed a puzzled expression.

Yang Hui was confused as she saw that there was still one person missing.

Where was Ji Yufan?

Of course, this was not a big deal. There were no rules stating that everyone had to move together.

However, Ji Yufan was the only one who had yet to return. He was alone in the training area and was alone and helpless. It was still relatively dangerous.

On the other hand, Ji Yufan was feeling very smug.

The reason why he did not travel with everyone was that he had basically explored the map of the training area during this period of time.

Zhou Hao and the others might not be weak, but with so many burdens, it was unknown when they would be able to return to the gathering point.

He was different. After these days of exploration, he had already found a shortcut.

According to his estimation, Zhou Hao and the others might only arrive half a day later than him.

Although he tried his best to restrain himself, he still couldn't hide the smug smile on his face.

On the way, they did not encounter any foreign races again and the entire journey was incomparably smooth. This made Ji Yufan even more pleased with himself, feeling that the route he had chosen was really excellent.

Of course, even if he racked his brains, he still wouldn't have expected that the foreign races were only scared silly by Zhou Hao!

However, when he returned to the gathering point, the smile on Ji Yufan's face disappeared.. His face darkened and gradually turned red.

Chapter 223 - Perfect timing

Chapter 223: Perfect timing

Because he realized that other than him, everyone else had already returned!

All of them widened their eyes and stared at him.

Ji Yufan was confused. After all, their group had more people and would thus be more burdensome for them to travel around.

At this moment, Ji Yufan simply doubted his life.

Fortunately, after Ji Yufan returned, Yang Hui also started to bring everyone back to the fortress base.

The Sky Fighter was very fast, and the distance between the Seventh Elite Training Camp and the Seventh Spatial Rift was not far. Not long after, they returned to the training camp.

Looking at the familiar environment in front of them, many students sighed with emotion.

“Ah, we finally made it back.”

“That’s right. The training area is too dangerous. There were many times when I felt like I was going to die.”

“Looks like we should still cultivate diligently in the future. Look at Zhou Hao, Lu Zhan, Ji Yufan, Xu Ling, and the others. They did not have any trouble navigating the training area.”

Many students felt like they had just survived a disaster. This matter had also stimulated their fighting spirit to cultivate crazily.

Some injured students were arranged to receive treatment.

This time, it was not only Lu Zhan who was injured. Ji Yufan, who was traveling alone, was also injured. He even almost lost his arm in the training area.

Compared to Lu Zhan and Ji Yufan’s injuries, Xu Ling, Yun Yan, and the others’ injuries were not worth mentioning.

After calculating the rankings, Zhou Hao got first place as expected. Moreover, he was even more ruthless this time. With more than 26,000 points, he was ahead of the second place by more than 20,000 points!

In fact, his score was even calculated after he and Ling Shuying had switched off the sensing function of the armor when they went to kill the illusionary sound insects. Otherwise, his points would definitely have exploded.

After disbanding, everyone returned.

On the way back to their residence, all the students had mixed emotions.

Zhou Hao and Xu Ling naturally walked side by side and returned together.

This time, although many boys felt jealous, they felt even more helpless!

“Although you’re very powerful now, the path of martial arts is long and far-reaching.”

“You definitely can’t stop now just because you’re in the lead.”

At this moment, the others were mostly complimenting Zhou Hao. No matter how jealous they were, they still had to put up an act.

After all, no one wanted to offend Zhou Hao. Otherwise, they wouldn't even know how they would die.

Xu Ling was different. She had a tacit understanding of their relationship and directly reminded Zhou Hao not to stop or he would be pushed back.

"Got it."

"However, if you want to teach me a lesson, you have to at least surpass me."

As Zhou Hao spoke, he subconsciously stretched out his hand, planning to pat Xu Lingxiang's shoulder.

In the end, Xu Ling rolled her eyes and glared at him until he retracted his arm back.

However, at this moment, Xu Ling suddenly gave him a big hug.

Others only saw Zhou Hao's glory, but she knew that without a family background, a special physique, or any other outstanding advantage, Zhou Hao had done well. After all, for Zhou Hao to cultivate to this level without having any of those things, the difficulty level must have exceeded everyone's imagination.

Zhou Hao did not understand why this girl was suddenly so proactive.

However, he still immediately responded to Xu Ling's hug.

He would be dumb to not take advantage of this opportunity.

As for the difficulties on his cultivation path, although it wasn't exactly difficult, it wasn't easy either.

However, not everyone can succeed even when given the opportunity. On this aspect, Zhou Hao had done well.

After returning to his villa, Zhou Hao immediately showered and changed before thinking about what to do next.

After obtaining the Heaven-level cultivation technique this time, he had opened the door to becoming a Heaven Realm expert.

However, to become a Heaven Realm martial artist, the cultivation resources required were a terrifying astronomical figure.

It was very difficult to obtain so many resources outside the spatial rift.

And entering the spatial rift was too risky as it was filled with too many unknown factors.

The best solution was still the mystery box and the live-stream room!

When it came to mystery boxes and live-stream rooms, one naturally needed essence crystal, energy crystals, and luck points.

“Sigh...”

“Where can I get more energy crystals and luck points?”

Zhou Hao lay on his bed with a headache.

There were only so many foreign races in the seventh spatial rift. He had been lucky to encounter a few beast wave attacks and some unexpected situations.

At other times, the guards at the frontline defense line had already killed all the foreign races that needed to be attacked. It was none of his business.

After all, he was now the president of the Supernatural Council. He couldn't shamelessly compete with the experts at the frontline for jobs, could he?

What Zhou Hao did not know was that as long as he opened his mouth, countless frontline defense lines would invite him to kill the foreign races.

Especially now that many changes had happened in the spatial rift. Moreover, there were more than thirteen spatial rifts that required high vigilance.

Just as Zhou Hao was frowning, his communication device suddenly flashed. It was a voice call from Dean Shi Zhi.

“President Zhou, I'm really sorry...”

Hearing Dean Shi Zhi's words, Zhou Hao immediately smiled unkindly.

What did he mean by sorry? Dean Shi Zhi had contacted him at the right time.

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 224 - Asura Hell

Chapter 224: Asura Hell

Previously, in order to resolve the problem of the Heaven Realm cultivation technique, he had directly used up all his luck points and energy crystals.

Now, when he saw the foreign races, he felt as if he was looking at small gold coins jumping around.

Zhou Hao's silence made Dean Shi Zhi feel even more apologetic.

Zhou Hao was only an honorary president of the Supernatural Council that received 200 colored energy crystals every month. Now, he had to go to the frontline defense line every two to three days. No matter who it was, they would feel bad.

The life of a supernatural expert should also be valued! They couldn't order a peak-level supernatural expert around all the time, right?

But then again, without Zhou Hao, no one would be able to resolve the crisis of the sixth spatial rift.

"Give me your phone. Why are you still hesitating at a time like this?"

Beside Dean Shi Zhi, Su Mengying also knew what he was thinking. However, at this moment, it was not the time to be bothered about these things.

"President Zhou, we know that you must be very unhappy and unwilling."

"But there's nothing we can do about it. Even if the sky collapses, we still need someone to hold it up. The greater the ability, the greater the responsibility."

"If you have any requests, we can discuss them. However, the situation in the sixth spatial rift is currently very critical. We have to ask you to help us temporarily to stabilize the situation and buy time for the Green Cloud Division to resolve this crisis."

At this moment, Su Mengying was trying to persuade President Zhou to come forward and relieve the pressure of the sixth spatial rift.

Zhou Hao felt wronged. He had not even said a word. Why did Dean Shi Zhi and Su Mengying assume that he was unwilling to help?

Now that he was going to the frontline defense line, he was simply happier than he was when he was returning home!

“I understand, but where’s the sixth spatial rift?”

He now knew that there were a total of thirteen dangerous spatial rifts in China.

However, other than the seventh spatial rift that was closest to him, he did not know where the other spatial rifts were.

“The exact information and coordinates have been transmitted to your communication device!”

There was an unconcealable surprise in Su Mengying’s voice. She did not expect it to be so easy to persuade President Zhou.

After the call ended, in the meeting room, Dean Shi Zhi, Instructor Yang Hui, and the others even gave Su Mengying a thumbs up.

With Zhou Hao’s help, the situation in the sixth spatial rift could definitely be stabilized to the greatest extent. They could now also buy time for the Green Cloud Division.

By the time the experts of the Green Cloud Division arrived, they would be able to completely suppress the crazy attack of the foreign races this time.

In the villa, Zhou Hao’s figure moved and directly appeared in midair. Then, he turned into a long rainbow beam and rushed towards the sixth spatial rift.

He had previously heard a very important piece of information: he needed to be faster this time.

Otherwise, the Green Cloud Division would send experts to snatch the job!

He was now also a member of the Green Cloud Division and knew very well how powerful these guys from the Green Cloud Division were.

If more than ten people like Ling Shuying came, then no matter how many foreign race experts there were, it would have nothing to do with him.

What Zhou Hao did not know was that even in the Green Cloud Division, Ling Shuying was also a top-notch expert. Not to mention ten, there were only six martial artists of her level outside the spatial rift.

Including the current Zhou Hao, there were only a total of seven people.

The other martial artists from the Green Cloud Division were all peak-level supernatural experts and below. Their strength was not much stronger than Dean Shi Zhi and the others, and they were even slightly inferior.

The sixth spatial rift had now directly transformed into the Asura Hell.

Countless foreign races had already rushed to the city at the frontline and were fighting the martial artists and soldiers guarding this place.

“Kill!”

“Kill them and force them back. We have to hold on! Hold on!”

A supernatural expert’s armor seemed to have been pierced by a laser, and a fist-sized bloody hole was burned in his abdomen. However, he was still trying his best to command the battle.

“The situation is actually so tense!”

After Zhou Hao tore through the air and arrived, his expression became solemn.

The foreign races’ attacks were even faster and more violent than he had imagined.

This was the first time he had seen these foreign races break through the defense line and kill their way into the frontline city.

Blood had already flowed into rivers on the tall city tower. The blood belonged to both the foreign races and the human martial artists.

Everyone crazily wanted to seize back the city gate tower and kill all the foreign races, but facing the foreign races that were coming at them like a tide, they were simply unable to do anything!

- Chapter 225 - One Against Ten Thousand!

Chapter 225 - One Against Ten Thousand!

Chapter 225: One Against Ten Thousand!

“Hah!”

After shouting, Zhou Hao directly circulated his essence energy and used the Demonic Wood Palm of the Green Wood Spring Autumn Art cultivation technique.

Suddenly, a huge palm print smashed down from the sky.

Several Machine Race siege machines, as well as many powerful Machine Race and Demon Race beings, were all completely shattered by this huge palm print that fell from the sky.

This was the essence energy caused by a Heaven Realm technique. Using a Heaven Realm technique to kill these low-level foreign races was simply overkill.

The many martial artists and soldiers who were originally in despair were now dumbfounded.

What was going on? What level of expert had attacked?

Zhou Hao had killed two king-level demon beasts, one king-level giant insect, and even destroyed two siege machines that were extremely threatening to the martial artists and soldiers!

More interestingly, Zhou Hao's huge palm print created a deep pit the size of a basketball court on the ground.

Because the wood essence energy was too rich, many weeds, flowers, and trees were growing crazily in the deep pit.

Hiss...

"Is this a gardener's cultivation technique?"

After striking with his palm, Zhou Hao did not know whether to laugh or to cry.

After cultivating the Five Elements Grand Yan Record, he already had wood essence energy. Therefore, it was not difficult for him to use the secret technique of the Green Wood Spring Autumn Art.

However, this was also the first time he had used the Demonic Wood Palm. He did not expect the effect to be so shocking.

If he went to a barren land and slapped them a few times, wouldn't the desert become an oasis?

Of course, this was only a thought. There were still many things that needed to be resolved!

“The reinforcements are here!”

“Everyone, don’t be nervous. This is President Zhou of the Supernatural Council!”

Zhou Hao’s palm just now was incomparably terrifying, scaring many people.

After all, many martial artists and soldiers were unfamiliar with Zhou Hao.

If Zhou Hao could kill so many foreign races and siege machines with a single palm, it meant that he could also shatter the city wall at the frontline.

After learning that Zhou Hao was the honorary president of the Supernatural Council and had repeatedly contributed to the war in the seventh spatial rift, many martial artists and soldiers were excited. They saw hope for victory.

Previously, they had been forced to retreat step by step because their upper-level combat strength was severely lacking and they were also threatened by the Machine Race’s laser cannon.

Now that President Zhou had arrived, the situation would definitely gradually stabilize!

As everyone was thinking this, Zhou Hao’s figure had already begun to move through the battlefield.

The essence energy in his body was limited, so he was unable to constantly use it to fight.

He had to make the best use of his time and kill all the foreign races he could before reinforcements arrived.

As he began to kill crazily, his luck points kept jumping visibly.

Luck points was his ultimate foundation. The higher his luck points, the more confident he became.

Previously, his luck points had been depleted. Even though his strength had improved greatly, he still felt that something was wrong.

“How powerful!”

“Damn! Is he even human?”

“Heavens, he’s simply invincible!”

“Is this the glory of a president of the Supernatural Council?”

“Too damn strong!”

Many martial artists and soldiers were dumbfounded as they watched Zhou Hao kill his way into the foreign races.

The current Zhou Hao was simply like a ferocious tiger that killed its way into a pack of wolves. He killed wherever he went. Until now, there had been no powerful foreign race that could fight Zhou Hao for a prolonged period of time.

Usually, they would be suppressed and killed in three to five rounds. At most, they would last ten rounds before losing to Zhou Hao.

Zhou Hao's existence also instantly attracted most of the firepower.

“Not good! These foreign races have all surrounded and attacked President Zhou. Let's go and support them!”

“Quick! Quick! We can't let anything happen to President Zhou!”

“Help me up, I'll go over and help!”

In the beginning, everyone was shocked by Zhou Hao. Now, they were incomparably worried.

These foreign races were indeed not stupid. After discovering the problem, they immediately decided to resolve the most troublesome problem.

If anything happened to Zhou Hao, the losses to Huaxia would be incalculable.

“Demonic Wood Tree Sea!”

As the countless foreign races rushed over like a tide, Zhou Hao could no longer care about conserving his essence energy.

After using the Demonic Wood Tree Sea, the surrounding thin wood essence energy was also drawn by him.

In an instant, countless vines and other plants grew crazily from the ground, riddling the nearby foreign races with holes and draining their nutrients on the spot.

As the essence energy in Zhou Hao's body was constantly being consumed, the sea of trees also became taller and wider.

Many Demon Race, Insect Race, Machine Race, and other foreign race beings were also being devoured by the Demonic Wood Tree Sea at this moment.. The area beside Zhou Hao had become a vacuum.

Chapter 226 - The True Backbone Of Humanity!

Chapter 226: The True Backbone Of Humanity!

“Damn!”

“This... this...”

“Damn, a Heaven-level big shot hidden on Planet Earth?”

“How... strong!”

“President Zhou is amazing, impressive!”

The people who had been worried about Zhou Hao’s safety just now immediately realized that their worry was completely unnecessary.

This President Zhou of the Supernatural Council was simply awesome.

A single man could hold back ten thousand enemies!

After Zhou Hao appeared, the powerful foreign race beings were unable to advance any further.

On the other side, Ling Shuying, who had resolved the crisis of the other spatial rift, was dragging her exhausted body as she jumped down from the Sky Fighter. She was prepared to kill more foreign race beings as soon as possible.

After killing these foreign race beings, she would be able to rest well!

However, when Ling Shuying erupted with an overwhelming aura and landed from the sky, she was immediately dumbfounded after killing a peak-level grandmaster-level demon beast with a flying knee.

What the hell was going on?

Didn’t they say that the sixth spatial rift was about to be completely lost? Now, almost all the powerful foreign races here had been killed...

Moreover, what was going on with the distant sea of trees?

Sea of trees? Wait!

After discovering the sea of trees, Ling Shuying suddenly recalled that the cultivation technique Zhou Hao had previously obtained was the Green Wood Spring Autumn Art.

This sea of trees was one of the accompanying secret techniques of the Green Wood Spring Autumn Technique, the Demonic Wood Tree Sea

She remembered that when she was young, her grandfather used the Demonic Wood Tree Sea to create a small tree...

All along, she had thought that the Demonic Wood Tree Sea was just for gardening. She did not expect it to be so terrifying!

After Ling Shuying arrived, Zhou Hao also felt weak.

In order to resolve the many foreign races here as soon as possible, the essence energy in his body was directly consumed cleanly, without even a drop.

Of course, his gains were also huge. He directly earned more than 40 million luck points. After killing so many foreign races, he also had to obtain a lot of colored energy crystals.

On the worn-down city tower, Ling Shuying looked at Zhou Hao in disbelief.

No matter how heaven-defying Zhou Hao was, he couldn't be so monstrous, right?

Not long ago, Zhou Hao obtained the Green Wood Spring Autumn Art from her. In the end, Zhou Hao had actually cultivated the Demonic Wood Tree Sea to such an extent!

Compared to Ling Shuying's shock, the many martial artists at the sixth line of defense were more excited.

Previously, when the foreign races attacked the city gate tower, many people thought that the sixth defense line was going to be lost.

But now, after Zhou Hao arrived, he had forced back the foreign race army on his own.

Even though they had seen it with their own eyes, this was still an unbelievable and shocking matter.

"Clean the battlefield and repair the defensive fortifications!"

As many martial artists and soldiers were pleasantly surprised, the supernatural expert guarding the sixth spatial rift also walked out covered in blood.

This supernatural martial artist was holding a golden saber and was also extremely famous. He was called the Golden Saber Ding Peng!

Among the many supernatural martial artists in Huaxia, he was also ranked at the top.

“President Zhou, thank you for coming to the rescue in time!”

Ding Peng’s body was filled with a murderous aura, and his voice was hoarse like an owl.

Unlike most other supernatural martial artists, Ding Peng’s strength was obtained from experiencing countless life and death situations on the battlefield.

Now, even as he stood in front of Zhou Hao, Zhou Hao could sense the incomparably dense killing intent on his body!

“You’re welcome.”

Zhou Hao replied casually.

The reason why he came this time was firstly to resolve the situation and secondly, it was because of his personal matter.

Now, he had obtained a lot and his luck points had broken through 40 million again. This was almost the most luck points he had ever accumulated in a single battle.

“President Zhou, there aren’t many martial artists that I admire.”

“Old Ding doesn’t even care about those gold-plated martial artists from the training camps and fortresses.”

“However, Old Ding is completely convinced by you, President Zhou!”

“You single-handedly stopped the attack of countless foreign races. You are truly the backbone of humanity!”

At this moment, Ding Peng was extremely excited and sincere.

“Elder Ding, what’s the meaning of this?”

Beside Zhou Hao, Ling Shuying had a displeased expression.

Zhou Hao was an itinerant cultivator whereas Ling Shuying was a martial artist from the school.. Ding Peng's words just now could basically be considered as an insult to all the martial artists that graduated from training camps.

Chapter 227 - Becoming Famous In A Battle

Chapter 227: Becoming Famous In A Battle

“Hahaha.”

At this moment, many surrounding martial artists also laughed.

Ding Peng was also somewhat embarrassed. He was a rough man and more or less had the aura of a pugilist. What he had said just now was mainly to express his respect and gratitude towards Zhou Hao. He did not have the intention of insulting others.

After Ling Shuying got here, the other experts from the Green Cloud Division also arrived to provide support.

However, when they saw this scene, many supernatural experts were dumbfounded.

“Old Ding, what’s going on?”

Ding Peng had been a supernatural expert for a long time, and most supernatural martial artists were very familiar with him.

After everyone arrived, they also asked Ding Peng in confusion.

Seeing that Ding Peng was covered in blood and his saber was about to curl up, everyone understood that the previous battle must have been very arduous.

But now, why had the battle here ended?

Ding Peng naturally began to talk about the battle just now.

Everyone knew Ding Peng well and would never say anything rash.

Therefore, after the supernatural martial artists heard Ding Peng's words, the confusion in their eyes also changed to surprise. Then, the surprise turned into shock!

"President Zhou?"

"Damn, is that true?"

"You're saying that President Zhou defeated the foreign race army alone?"

The supernatural experts who were usually high and mighty were all completely dumbfounded.

Now, they all finally learned about how dangerous the previous situation was. Those foreign races had even rushed up the city wall.

Under such a dangerous situation, it was simply inconceivable for Zhou Hao to be able to kill the foreign race army alone.

As everyone spoke, they vaguely addressed Zhou Hao as the Supernatural Council's strongest president!

After the battle here ended, Zhou Hao did not stay for long and returned to the Seventh Training Camp.

When Zhou Hao returned to his villa, the news of his battle spread like a hurricane in the martial artist circle.

In fact, many martial artists already knew about Zhou Hao's actions in the seventh spatial rift.

This battle allowed him to become completely famous among the Huaxia martial artists.

Dean Shi Zhi and the others were very happy when they heard this news.

The current situation was getting worse and worse. Zhou Hao's appearance had undoubtedly given them all a boost in morale!

In the villa, Zhou Hao had already opened the virtual screen of the Heaven Dao software.

He had obtained more than 40 million luck points in this battle. He had also obtained the materials of various Demon Race, Insect Race, Machine Race, and other foreign race beings. After adding them together, he had obtained a total of 600 colored energy crystals.

"Compared to blood essence, essence energy is clearly stronger."

“However, the essence energy outside the spatial rift is very thin. Not only does it seem to circulate slowly during cultivation, but it also seems to be slow in recovery.”

After charging 600 colored energy crystals for 60 billion Heaven Dao coins, Zhou Hao also began to think if he should continue opening mystery boxes or go to the live-stream room to take a look.

Speaking of which, it seemed that he had not visited Fairy Yue Ling’s live-stream for a long time.

During this period of time, he had many things to do in the real world. Last time, he wanted to go and take a look, but he ended up encountering the upgrade of the Heaven Dao software.

In Fairy Yue Ling’s live-stream, ever since she started showing her face, her popularity had indeed increased a little. However, these days, it had gone back to being lukewarm.

Her live-stream ranking was now in between 70,000 and 80,000. At first, it was still stable, but recently, it gradually fell.

Facing this situation, Fairy Yue Ling could only smile bitterly.

She was already very grateful that Zhou Hao could help her this once. Therefore, these days, she did not send any messages to disturb Zhou Hao.

In Fairy Yue Ling’s opinion, a super big shot like Zhou Hao might have long forgotten about her.

“Hai, if a big shot doesn’t come, Fairy Yue Ling’s live-stream will be on the verge of closing down.”

A user joked on the chat.

“Hahaha, brothers, let’s pool our resources together. Otherwise, her rankings will definitely drop below 75,000.”

Fairy Yue Ling had a gentle personality, a sweet and charming voice. Moreover, she also had a peerlessly beautiful face that could cause cities to fall.

Although there were currently no top-notch big shots helping out in the live-stream, there were still many hardcore fans.

At this moment, many fans were giving small gifts to Fairy Yue Ling. At the same time, they also hoped to be able to witness a miracle.

Regardless of whether it was gold or platinum users, one could still stand a chance at winning something. Although not many people won, their losses were still acceptable.

Suddenly, a string of words appeared on the screen of the live-stream.

“I’m just an ordinary person who has entered the live-stream room.”

Seeing these words, an excited and happy expression flashed across Fairy Yue Ling’s beautiful face.

Chapter 228 - Its Best to Be Careful

Chapter 228: It’s Best to Be Careful

She thought that Zhou Hao had already forgotten about her. She did not expect him to appear in her live-stream room again.

“Welcome, big shot! @ I’m just an ordinary person.”

Fairy Yue Ling’s beautiful eyes were filled with splendor.

The other users in the live-stream were in an uproar.

“Ahhh! Impressive. Big shot, you’re here to see Fairy Yue Ling again!”

“This is great news for Fairy Yue Ling. With the big shot around, Fairy Yue Ling’s rankings can soar again! @ I’m just an ordinary person.”

“Big shot, teach me your secret technique. Please help me! @ I’m just an ordinary person.”

“I finally get to see you! @I’m just an ordinary person.”

“How impressive. How impressive. The big shot has appeared again!”

“Big shot, you’re awesome. Last time, this big shot opened the mystery box and got 7 rare-level items and 1 legendary-level item!”

“Damn! That impressive? Really?”

“Really? I didn’t even know that.”

Zhou Hao’s appearance was like a stone thrown into a calm lake. It immediately lit up Fairy Yue Ling’s live-stream.

Many users were even more excited than Fairy Yue Ling.

“Big shot, tell us what a legendary-level item is like. @ I’m just an ordinary person.”

“Big shot, please teach me how to open a box next time.”

“Damn! It’s really the big shot! @ I’m just an ordinary person.”

Many users kept entering Fairy Yue Ling’s live-stream room. Everyone was very curious about this super big shot who had consecutively obtained seven rare-level items and one legendary-level item.

“Big shot, tell me. How many mystery boxes did you open last time? You got so many good things at once Damn, I am so jealous!”

“Big shot, I’ll pay you handsomely if you teach me how to open boxes...”

...

I’m just an ordinary person. “You just have to open them!”

As many users @ him crazily, Zhou Hao casually responded.

It was not that he did not want to share his secret, but he simply could not share it. He was the only one with luck points.

It was just like Xu Ling and Ji Yufan’s special physiques. There were the only ones who had them.

Here, he did not have a special physique but instead had luck points.

Although he was just saying it casually, he was not talking nonsense.

This was because there was no secret to obtaining rare-level items from mystery boxes.

“Hahaha, I bet the big shot is here to make a big scene again. @ I’m just an ordinary person.”

“Brothers, the big shot said it himself. You just have to open them!”

“Tsk!”

“Just do it!”

“Fairy Yue Ling’s ranking will probably soar to 65,000 this time! Isn’t that right, big shot? @ I’m just an ordinary person.”

“Big shot, can you tell us when you give a gift? We’ll give as much as you give. @ I’m just an ordinary person.”

“It’s certain! With a big shot around, it’s basically guaranteed that Fairy Yue Ling’s ranking will go past 70,000 tonight. Do you understand?”

...

Many users were very excited. As more and more users rushed over, Zhou Hao was checking the gifts in the live-stream.

There were still six types of platinum-level gifts. They were Energy Bars, Bloodline Pills, Cultivation Technique Pages, Comprehension Stone Tablets, Divine Body Constitution and Concept Scrolls.

The types of gifts did not increase, but the description of one of the gifts changed.

The gift that changed was the Energy Bar worth 10,000 coins. This Energy Bar was an upgraded version of the original Energy Bar. After using it, one could recover their blood essence power and also increase their cultivation level.

Before upgrading, be it the platinum Energy Bar or the lower-level Energy Bar, they were of little use to the current Zhou Hao.

However, things were different this time. After the Heaven Dao software was upgraded, users could obtain a higher-level rare-level Energy Bar if they gave away the Energy Bar.

I was just an ordinary person. “Has anyone gotten a rare-level Energy Bar before? What is this?”

Because the description of the gift did not have a detailed explanation, Zhou Hao could only ask in the live-stream.

“Big shot, I’ve gotten one before. The drop rate is very low, but the effect is good!”

“Compared to ordinary Energy Bars, rare-level Energy Bars are more likely to be used to recover higher-level energy.”

The drop rate of rare-level Energy Bars seemed to be very low. There were many users in Fairy Yue Ling's live-stream room, but not many people had obtained one before.

However, after these users explained, Zhou Hao also understood that this was probably what he wanted.

On Planet Earth, the essence energy that naturally existed in the world was very thin. The closer one got to the spatial rift, the richer it became.

After entering the spatial rift, the deeper the surroundings, the richer and more majestic the essence energy became. However, it was also more dangerous in the depths.

Zhou Hao had already decided to try his best not to enter the depths of the spatial rift before reaching the Heaven Realm.

It was better to be safe than sorry.

Chapter 229 - There's No End To The Big Shot's Heaven Dao Coins!

Chapter 229: There's No End To The Big Shot's Heaven Dao Coins!

Therefore, on Planet Earth, if one wanted to quickly recover their essence energy, they could only use essence crystals.

The exchange rate for essence crystals and colored energy stones was very exaggerated. One hundred colored energy stones could only be exchanged for one essence crystal.

Zhou Hao estimated that essence crystals could only be used as currency and could not be used as cultivation resources at all. Otherwise, who could afford to use them?

However, things were different now. In the live-stream, one could get rare-level Energy Bars.

If he sold this rare-level Energy Bar, it would definitely fetch a sky-high price.

“Is the big shot going to try gifting the rare-level Energy Bar? I’m looking forward to it! @ I’m just an ordinary person.”

“Big shot, how many will it take to win? @ I’m just an ordinary person.”

After Zhou Hao entered Fairy Yue Ling’s live-stream, this live-stream no longer seemed to have anything to do with her.

Whether it was the old users or the new users, all the conversation topics were related to Zhou Hao.

“Chi, are you kidding me? If the big shot knew how he needed to give away to win, Fairy Yue Ling would have long been ranked first on the broadcast rankings, alright?”

A user called Brother Sanpang acted like he knew what was going on and began to educate the other users.

“Idiot, do you really think you can understand a big shot? A big shot is a big shot because he can win without knowing how many it takes. Do you understand?”

Another user shook his head. What this user meant was that as long as the big shot gave enough, he would get the reward.

It was just like buying a lottery ticket. If one really wanted to win the first prize of the lottery, wouldn’t one be able to do so if they bought all the tickets?

“Stop bothering the big shot. Actually, the big shot has already helped me a lot. Moreover, after the big shot came to my live-stream room, he also brought me a lot of popularity.”

“Thank you very much!”

Fairy Yue Ling was not a greedy person. Previously, she was already satisfied that Zhou Hao could help her rankings get past 80,000.

Now, she treated Zhou Hao like a good friend and did not want to ask for anything from him.

Moreover, Zhou Hao was now the leader of the mystery box industry. No matter which live-stream he appeared in, he would bring extremely terrifying popularity to that live-stream.

Although there had always been a steady stream of users entering Fairy Yue Ling’s live-stream, Zhou Hao still made a big difference. Moreover, after entering, Zhou Hao would attract a lot of attention.

“Fairy Yue Ling, this is your fault. Does the big shot lack this bit of Heaven Dao coins?”

“That’s right, that’s right!”

“That’s right. There is no end to the big shot’s Heaven Dao coins!”

...

Pu!

Seeing these users typing crazily on the public chat, Zhou Hao almost spat out blood.

Who said that there was no end to his Heaven Dao coins? Last time, in order to resolve the problem of his cultivation technique, Zhou Hao had spent all his Heaven Dao coins.

Zhou Hao had only been able to obtain more Heaven Dao coins after killing many foreign races not long ago. After that, he directly used the colored energy crystals he obtained to top up his Heaven Dao coins.

With a thought, Zhou Hao did not delay and directly spent 10 million luck points to get the Energy Bar reward.

Because the various live-stream rooms were connected, there were also many users who gifted platinum-level Energy Bars to the other live-stream rooms.

Therefore, the numbers behind the Energy Bar simply changed indefinitely.

At this moment, there was the number 50 next to the Energy Bar. In other words, Zhou Hao could win if he gave away 50 Energy Bars.

However, the number 50 did not even last for half a breath before it instantly became another number.

In this situation, if the next number was not a big number, Zhou Hao would still have to rely on his hand speed.

When the number behind the Energy Bar got to 179, Zhou Hao prepared to give it a try.

Almost as soon as this number appeared, Zhou Hao made a move. In the end, the reward still exploded in other live-streams.

However, the multipliers should be very low, and there was no announcement floating in the entire live-stream.

“Wow, wow, wow. The big shot is making a move!”

“In one move, the big shot spent 1.79 million Heaven Dao coins! Big shot, you’re awesome!”

“Why would the big shot care about such a small amount of Heaven Dao coins? Seriously!”

As many users discussed, Zhou Hao could only smile bitterly.

What he needed the most now were rare-level Energy Bars.

Unfortunately, each Energy Bar cost 10,000 Heaven Dao coins. Ordinary players couldn’t afford it, but high-level users could.

The number behind the Energy Bars kept fluctuating.

Zhou Hao could even imagine that before this number completely appeared, the other live-stream users would have already gotten the reward.

However, there was nothing he could do now. He could only attack continuously.

In any case, he had 60 billion Heaven Dao coins now, so he had nothing to worry about.

Chapter 230 - Wasting Money Like Earth

Chapter 230: Wasting Money Like Earth

As countless users in Fairy Yue Ling’s live-stream were in an uproar, Zhou Hao directly spent money like dirt and attacked repeatedly.

In the beginning, he had waited for a few seconds, but now, he did not stop.

No matter what the luck number was, he would swipe it when he saw it.

Ding! Congratulations: “I am just an ordinary person”. You have received the reward multiplied by 10 times for giving away the Energy Bar.

Ding! Congratulations: "I am just an ordinary person". You have received the reward multiplied by 20 times for giving away the Energy Bar.

Ding! Congratulations: "I am just an ordinary person". You have received the reward multiplied by 10 times for giving away the Energy Bar.

Under Zhou Hao's bombardment, he also began to get the rewards continuously.

After all, the other users were giving away gifts blindly while he knew exactly how many he needed to give.

However, what made Zhou Hao feel a little annoyed was that the drop rate of rare-level Energy Bars was simply as low as the drop rate of rare-level mystery boxes.

After a long time, not even a single rare-level Energy Bar had appeared.

In Fairy Yue Ling's live-stream, many users were dumbfounded.

Although there were some top-notch big shots in the various live-stream rooms, there were still very few big shots like Zhou Hao who quietly gave away many gifts.

Zhou Hao was not a quiet person. However, 10 million luck points could only buy him 60 seconds. He simply did not dare to delay.

After the first 60 seconds ended, Zhou Hao continued to grind. 10 million luck points instantly evaporated. At the same time, he also caused an uproar in Fairy Yue Ling's live-stream.

Although they had long heard of Zhou Hao's spending style and many users had seen it with their own eyes, everyone was still dumbfounded.

They all watched with open mouths, their hearts surging.

Zhou Hao's violent and ruthless spending method was too exciting!

"This thing is actually so difficult to get?"

After spending 20 million luck points in a row and not even getting a single rare-level Energy Bar, Zhou Hao was somewhat depressed.

However, there probably weren't many of them.

He had been in Fairy Yue Ling's live-stream for such a long time, but he had not seen any other live-streamers get rare-level Energy Bars.

Fairy Yue Ling clenched her fists tightly. She was really too nervous and excited. The surprise had come too suddenly, making her somewhat at a loss.

Over the past few days, her ranking in the live-stream had been falling, and it was difficult for her to stabilize it.

But now, her ranking was soaring like a rocket.

This was because while Zhou Hao was buying gifts, the other users in her live-stream also started following him in hopes of getting the reward. At this moment, they all started spending crazily.

It couldn't be helped. After all, Zhou Hao was a legendary figure on the mystery box channel.

So far, among all the users, only Zhou Hao had ever gotten a legendary-level item.

In addition, Zhou Hao was also the user who obtained the most rare-level items.

Under such circumstances, no matter which live-stream Zhou Hao was in, he would instantly attract a large number of people to watch.

"Big shot, Fairy Yue Ling's live-stream ranking has already reached 65,000!"

"How impressive. She has already surpassed 5,000 streamers!"

"Big shot, you're so impressive, @ I'm just an ordinary person!"

"Big shot, why are we so unlucky? @ I'm just an ordinary person."

During Zhou Hao's violent spending, many users also gave gifts with him.

However, everyone realized that compared to Zhou Hao, they were just pitiful people who had been forgotten by the heavens.

"Nonsense. Look at how many rewards the big shot got and how many you got. Moreover, the big shot gets a lot of rewards but he also misses often."

"The big shot is probably trying to get a rare-level Energy Bar. This thing seems to appear only a few times a day. After it appears, there won't be any more."

"It's hard to say. There are different numbers every day."

On the public chat of Fairy Yue Ling's live-stream, everyone was watching Zhou Hao enviously.

They also wanted to be as rich and monstrous as Zhou Hao.

Unfortunately, Zhou Hao was busy getting the rewards and naturally did not have the time to care about them.

The sixty seconds seemed even shorter when he had paid for them with his luck points.

Zhou Hao did not even get many rewards before the 60 seconds ended. He could only helplessly stop giving away gifts.

“Big shot, why don’t you try something else? @ I’m just an ordinary person.”

“That’s right, big shot. The rare-level Energy Bar has appeared a few times today. It might not appear again.”

Many users seemed to have guessed that Zhou Hao wanted a rare-level Energy Bar.

Now that Zhou Hao had spent nearly 5 billion Heaven Dao coins, he had gotten many ordinary Energy Bars but not a single rare-level Energy Bar.

Zhou Hao looked at the remaining 20 million luck points and hesitated for a moment.

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 231 - Just Spend It All

Chapter 231: Just Spend It All

Ordinary Energy Bars and even platinum-level Energy Bars were of little use to Zhou Hao.

All he wanted now was a rare-level Energy Bar.

Unfortunately, it seemed that the 10 million luck points was not enough for him to get a single rare-level Energy Bar.

At this moment, he still had more than 20 million luck points. He could split it evenly into two uses of 10 million luck points, or he could directly empty it at one time. Otherwise, he could also save up and spend it when he had 50 million luck points again.

10 million luck points only had the status of “achievable dreams” whereas 50 million luck points had the status of “blessed by Lady Luck”.

With more luck points, there would be additional effects. The effect of 20 million luck points and 10 million luck points was definitely different.

However, 20 million luck points for him to experience a qualitative change. At most, only the quantity would change.

“I’ll split it evenly!”

After thinking for a moment, Zhou Hao still decided to split the 20 million evenly.

After this, if he really couldn’t get any rare-level Energy Bars, he would save up until he had 50 million luck points before trying again.

On Planet Earth, the Heaven and Earth essence energy was very thin. After consuming it, it was very difficult for one to recover quickly.

In addition, rare-level Energy Bars could also be used as cultivation resources.

If he wanted to cultivate to the Heaven Realm on Planet Earth, he would definitely need a large number of cultivation resources.

After another 10 million luck points were instantly spent, Zhou Hao also began another round of bombardment.

“‘I’m just an ordinary person’ gave out 99 Energy Bars...”

“‘I’m just an ordinary person’ gave out 50 Energy Bars...”

“‘I’m just an ordinary person’ gave out 44 Energy Bars...”

“Awesome, awesome. The big shot is going at it again! @ I’m just an ordinary person...”

“Come on! Big shot, you have to get it!”

“I don’t think he’ll be able to get a rare-level Energy Bar. He’ll probably get a lot of ordinary Energy Bars.”

“How brutal. He’s spending so much!”

Although they were not the ones giving away the gifts, many users were still excited.

Fairy Yue Ling was somewhat guilty. Zhou Hao really wanted to get a rare-level Energy Bar, but the drop rate was too low.

Fairy Yue Ling: “Big shot, why don’t you try again next time? My live-stream might be a little shady...”

Fairy Yue Ling said timidly, praying in her heart that Zhou Hao would get a rare-level Energy Bar.

Ding! Congratulations ‘I am only an ordinary person’ for obtaining 100 rare-level Energy Bars! ‘

Unexpectedly, just as Fairy Yue Ling finished speaking, Zhou Hao suddenly got 100 rare-level Energy Bars.

A golden banner instantly appeared on the screen of all the live-stream rooms.

Rare-level Energy Bars were also rare-level items, but among the many rare-level items, the level of this item was somewhat low.

Without a doubt, all the live-streams were in an uproar.

Previously, there were also announcements of rare-level Energy Bars appearing on the screen. However, there were usually only a few or a dozen. There had never been anyone who directly got 100 rare-level Energy Bars like Zhou Hao.

Zhou Hao instantly understood. It turned out that when the luck numbers turned gold, he would be able to get rare-level Energy Bars.

Just now, he was still wondering why the luck number he saw was different from the other numbers.

So that was the reason!

“Damn! This big shot is awesome! He directly changed his fate and got the rare-level Energy Bars even though it was against his odds!”

“Big shot, you’re so impressive, @ I’m just an ordinary person.”

“Too impressive, this big shot must have won all the rewards!”

“Impressive, impressive. Big shot, impressive!”

“It’s my first time seeing someone get 100 rare-level Energy Bars. As expected of a big shot! @ I’m just an ordinary person!”

...

I’m just an ordinary person: “You’re too kind. I was just lucky.”

Zhou Hao replied in a good mood.

Fairy Yue Ling was extremely dumbfounded. Was this really just a coincidence?

After Zhou Hao got the rare-level Energy Bars in Fairy Yue Ling's live-stream, many platinum users and diamond big shots also rushed over crazily to watch.

"Damn! As expected of a big shot! @ I'm just an ordinary person!"

"Let me rub off some luck from you. @ I'm just an ordinary person."

...

Because of Zhou Hao's appearance, Fairy Yue Ling's live-stream had become very lively.

Due to Zhou Hao's crazy spending and also the gifts from the new users, Fairy Yue Ling's live-stream ranking was already starting to approach 60,000.

"Big shot, how many did you give away to get 100 rare-level Energy Bars? @ I'm just an ordinary person."

A diamond-level big shot asked Zhou Hao curiously.

At this moment, the other users in the live-stream rushed to answer.

They had watched the entire process.

I'm just an ordinary person. "I'll get going first. I'll come again next time. @ Fairy Yue Ling."

Zhou Hao was no longer planning on staying in the live-stream room. Since he had gotten the rare-level Energy Bars, he naturally had to test its effect.

"Roar, roar, something fishy is going on! The big shot ignored everyone but tagged Fairy Yue Ling in his message!"

"Something fishy must be going on!"

"How could this be... The fairy I idolize is already taken!"

"Damn it!"

...

Amidst the "wolf howls", Zhou Hao brushed his clothes and left quietly.

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 232 - Something Happened Again!

Chapter 232: Something Happened Again!

After leaving the live-stream, Zhou Hao received Fairy Yue Ling's message as expected.

Fairy Yue Ling: "You're leaving too quickly. I just learned a dance and was about to dance for you!"

Zhou Hao was stunned. He did not expect this at all.

However, he was busy getting the reward just now and did not notice what Fairy Yue Ling was saying.

He didn't even notice what Fairy Yue Ling typed on the chat just now.

After all, 10 million luck points could only buy him 60 seconds. He could not waste a second!

Zhou Hao thought for a moment and replied.

...

I'm just an ordinary person. "Ah? I didn't know about that... Then sure, I'll come back right now."

Fairy Yue Ling: "Uh... this..."

Fairy Yue Ling was somewhat dumbfounded.

I'm just an ordinary person. "Haha, I was just joking. I'll come again next time."

Fairy Yue Ling: "Thank you very much for giving away the gifts in my live-stream. I'm extremely grateful! I wish you all the best!"

I'm just an ordinary person. "Fairy, you're so sweet. I'll come again next time."

With that said, Zhou Hao immediately exited the Heaven Dao software.

After returning to reality, Zhou Hao immediately took out an ordinary Energy Bar.

The ordinary Energy Bar was a transparent bar and did not look special.

It was crispy when he chewed it in his mouth, but the recovery effects of ordinary Energy Bars were already very minimal.

After opening the system backpack, Zhou Hao took out a rare-level Energy Bar from one of the boxes.

Unlike ordinary Energy Bars, this rare-level Energy Bar did indeed have a very rich essence energy flow!

Moreover, not only could rare-level Energy Bars be eaten, but they could also be held in one's palm and absorbed and refined by circulating a Heaven Realm cultivation technique.

After Zhou Hao circulated the Five Elements Grand Yan Record cultivation technique, the pure essence energy contained in this rare-level Energy Bar had already been constantly absorbed by him.

Soon, Zhou Hao's eyes revealed deep surprise!

"This is too useful. It's simply comparable to an essence crystal!"

At this moment, Zhou Hao was excited. Previously, he had done so many missions in the Green Cloud Division, but he had only obtained a few pieces of essence crystals.

In the end, he had only gotten the reward once and directly obtained a hundred rare-level Energy Bars, comparable to a hundred essence crystals!

After consuming a total of four rare-level Energy Bars, the essence energy that had been emptied in his body was replenished.

Zhou Hao understood that with his current strength, he could recover his exhausted essence energy by consuming four rare-level Energy Bars.

However, as time passed, after his cultivation level increased, the consumption of rare-level Energy Bars would also increase.

It took him 30 million luck points to obtain these 100 rare-level Energy Bars.

In other words, he could directly try spending 30 million luck points the next time he wanted to get more rare-level Energy Bars.

After recovering his essence energy, Zhou Hao continued to cultivate. In any case, he did not lack resources now. He could increase his strength as much as he wanted.

Zhou Hao originally thought that with sufficient resources, he should be able to cultivate properly for once.

However, before he could cultivate any longer, he received an emergency order from the Green Cloud Division!

Zhou Hao looked at the communication device and frowned.

For some reason, these foreign race beings had gradually become very restless these past few days.

Unexpectedly, something happened again!

There were five total rifts that needed help. They were the first, third, seventh, ninth, and eleventh spatial rifts.

The first spatial rift had the most serious situation. It was said that half of the martial artists at the frontline had already died in battle. The remaining people were still fighting a bloody battle and constantly losing members.

Many big shots who had never acted before also appeared one after another this time. It could be imagined how dangerous the situation was this time.

All over Huaxia, soldiers were being urgently deployed.

However, there were too few experts on Planet Earth. This time, only five spatial rifts were in danger, and they were already overwhelmed.

If all thirteen spatial rifts were in danger, then...

It was not only the Green Cloud Division that was discussing. Some of the rifts had already asked Zhou Hao for help through various channels.

After the previous battle, Zhou Hao had already become everyone's pillar of support. It was as if as long as he was around, everyone would be safe.

Zhou Hao did not agree to these martial artists' invitations..

Chapter 233 - President Zhou Is Too Reckless!

Chapter 233: President Zhou Is Too Reckless!

As he continued to cultivate, he waited for the Green Cloud Division's order.

In the end, Dean Shi Zhi's distress call arrived instead of the Green Cloud Division.

"President Zhou, I'm really sorry, but the number of Planet Earth experts is limited. I'll have to trouble you again this time."

Dean Shi Zhi could not help but feel very helpless after saying this, but he had no other choice.

The situation in the first spatial rift could not be delayed!

"Dean Shi Zhi, what's the emergency?"

Zhou Hao had a good impression of Dean Shi Zhi. Now that the Green Cloud Division had not given the order, he could take on some private work.

Actually, it was not that the Green Cloud Division was too slow and took too long to pass down the order. Instead, the higher-ups of the Green Cloud Division were also very helpless at this moment.

Zhou Hao had just fought a huge battle not long ago and it was assumed that his essence energy had yet to fully recover. Thus, the higher-ups didn't want to ask Zhou Hao to travel around and participate in the battle again.

Therefore, after hesitating for a long time, they still decided to not pass down the order.

On the other hand, Zhou Hao had already learned the situation from Dean Shi Zhi.

This time, for some reason, many spatial rifts were attacked at the same time, as if it was planned.

In particular, in the area of the first spatial rift, various foreign races surged out continuously, and the situation was extremely tragic.

Just as Zhou Hao was about to take action, Zhou Hao also received a message from the Green Cloud Division.

The Green Cloud Division: "How much of your essence energy has been recovered? If you have enough essence crystals, how long will it take for you to recover?"

This time, the Greencloud Department was clearly prepared to spend a lot of money.

They were hesitant for a long time. However, the only way to resolve the situation now seemed to be Zhou Hao!

As long as Zhou Hao could successfully resolve the problem of the spatial rift, they could transfer an expert at the frontline to support the other spatial rifts.

"I've already recovered, but there's no need to give these essence crystals back."

"I suggest that we convert these essence crystals into wealth and give it to the families of the martial artists who died in battle."

After saying this, Zhou Hao was already prepared to attack.

Even if the Green Cloud Division had not said anything, he still knew.

The place he was going to this time was definitely the most dangerous first spatial rift.

"What? You've already recovered?"

In the Green Cloud Division, the martial artist in charge of contacting Zhou Hao was already completely dumbfounded.

In such a short period of time, Zhou Hao had already recovered!

This was far beyond his expectations.

He was also relieved and happy. Therefore, he hurriedly said, "The first spatial rift is in danger now. The organization hopes that you can immediately help the first spatial rift."

"If you have any requests, feel free to tell me."

The Green Cloud Division was very sincere this time. As long as Zhou Hao's request was not too overboard, they would be able to satisfy it.

"There's nothing I need right now. There's no time to lose. I'll go to the first spatial rift and take a look first."

After Zhou Hao finished speaking, the martial artists of the Green Cloud Division naturally stopped talking.

After Dean Shi Zhi learned that Zhou Hao was going to the first spatial rift to provide support, tears streamed down his face. It was as if Zhou Hao wouldn't be able to return alive this time.

The distance from the seventh fortress base to the first spatial rift was definitely not far.

However, flying at full speed, Zhou Hao easily crossed that distance.

This time, he was not the first to arrive. Before Zhou Hao, Ling Shuying and the others were already fighting bravely here.

"There are actually so many casualties!"

After arriving at the first spatial rift, Zhou Hao frowned.

They originally thought that the information regarding the Green Cloud Division and Dean Shi Zhi's words were somewhat exaggerated.

Now, he finally understood that the situation in the first spatial rift was indeed critical.

There were many foreign races that appeared here. Some powerful foreign races had already begun to kill the soldiers and low-level martial artists.

The most terrifying thing was that the foreign races that had appeared here were all at least at the second mutation level.

Their strengths were all powerful and domineering to the limit.

With Zhou Hao's arrival, many martial artists who were already exhausted saw hope and were shocked.

The enemies this time were really too powerful. Three experts from the Green Cloud Division had already arrived previously, but even with the three of them joining forces, they were still unable to completely stabilize the situation.

Everyone naturally had expectations for this mysterious President Zhou.

It had to be known that he had already created many miracles before this.

Facing so many foreign races that had undergone second or third mutation, it required a lot of high-level martial artists to come over to completely resolve the problem here.

However, in Huaxia, high-level martial artists had always been scarce.

As everyone was sighing with emotion, Zhou Hao had already killed his way into the crowd of foreign races.

“President Zhou, you can’t!”

“Not good!”

“It’s over. President Zhou is too rash!”

Seeing Zhou Hao kill his way into the depths of the foreign races without hesitation, the expressions of all the martial artists turned solemn.

Chapter 234 - Theres Hope!

Chapter 234: There’s Hope!

They knew that Zhou Hao was very powerful. With him joining the battle, they had a very high chance of defeating the foreign races if they worked together.

However, now that he was fighting alone, it was hard to say.

After all, the foreign races this time were powerful and there were many of them!

“Let’s go and help President Zhou!”

After being stunned for a moment, the martial artists immediately reacted.

At this moment, they could not choose to sit idly by. They had to save Zhou Hao.

Zhou Hao was their hope.

Many soldiers and martial artists in the first spatial rift fought as they waited for Zhou Hao to create another miracle and kill his way back safely.

However, what happened next undoubtedly shocked everyone.

After Zhou Hao killed his way into the crowd of foreign races, he was indeed immediately surrounded by many of them.

However, after being surrounded by these foreign races, Zhou Hao did not fall into danger. Instead, he started killing in all directions like a ferocious tiger that had killed its way into a pack of wolves.

All of the foreign races that approached him were either killed in a few punches or kicks, or were severely injured and on the verge of death.

From the start of the battle until now, he had single-handedly swept through these powerful foreign races that had undergone two or three mutations with ease.

“Damn!”

“President Zhou is too powerful!”

“How impressive. He killed his way into the foreign race’s formation alone. He’s even moving freely, as if he had entered an uninhabited place!”

Zhou Hao’s hunting behavior greatly encouraged everyone. Those martial artists and soldiers no longer felt tired. Their waists were no longer sore, and their legs no longer hurt. They felt that they could continue fighting for another three days and three nights.

Zhou Hao’s strength was even stronger than they had imagined.

There was hope for the first spatial rift!

In the command room of the Green Cloud Division, the twelve higher-ups of the Green Cloud Division were all anxious like ants on a hot pan, but they were also helpless.

At this moment, shocking frontline defensive line footage was transmitted back!

“Troublesome, troublesome. I don’t know what’s going on with these foreign races. All of them seem to have gone crazy.”

In the meeting room, the higher-ups of the Green Cloud Division felt a headache. They felt as if there was a huge rock weighing down on their hearts, making them unable to breathe.

Ever since the mutation of the spatial rift, the number of spatial rifts that needed to be strictly guarded had increased to thirteen, and trouble had followed without stopping.

“The combat footage from the first spatial rift is back.”

After receiving the battle report video, everyone stopped talking and immediately checked.

Currently, the most nervous and dangerous place was the first spatial rift.

The people present all had very important missions and did not have the time to go and provide support.

They were in charge of planning and arranging the troops. If anything happened to them, the entire defensive line would be in a mess and they might lose without even putting up a fight.

Seeing the start of the video, everyone's hearts sank even more.

In the video, the person in charge of the first spatial rift, the eighth-grade supernatural expert Tie Ruyun, was like a cloud as he constantly fought bloody in the foreign race wave. The martial artists and soldiers of the first spatial rift were also fighting valiantly and tenaciously.

However, there were too many foreign races this time. It was as if they could not kill all of them.

Many grandmasters, masters, low-level supernatural experts, and intermediate-level supernatural experts were constantly drowned in the surging flood.

Later on, the siege machines appeared among the foreign races again. They were very powerful.

The defensive barrier at the frontline could not last long before it was completely shattered.

Without the defensive barrier, an even more tragic battle also erupted at this moment.

Looking at the scene transmitted back, the higher-ups of the Green Cloud Division were very worried. The atmosphere was also extremely solemn.

The battle at the first spatial rift this time was simply unprecedentedly tragic.

One of the martial artists, who looked to be in his twenties, had his intestines blown out by the foreign race. However, he was still holding onto a foreign race member and directly detonated a grenade.

Such scenes were being played out continuously in all corners of the battlefield.

At this rate, the loss of the first spatial rift seemed to be inevitable.

Just as the higher-ups of Green Cloud Division lowered their heads as if they had lost their parents and were no longer hopeful, a green figure suddenly landed in the footage.

After this green figure rushed over to provide support, the green figure killed many powerful foreign races in the vicinity in a short period of time.

In this green figure's hands, foreign race experts below the third-grade supernatural level were like chickens and dogs that could be easily slaughtered.

"Who is this person?!"

At this moment, some of the higher-ups of the Green Cloud Division felt their hearts ignite.

Chapter 235 - Turning the Tide

Chapter 235: Turning the Tide

Zhou Hao was simply too powerful. His arrival had already turned the situation around to a certain extent.

"This is President Zhou, who has just joined the Green Cloud Division. He's also the honorary president of the Supernatural Council."

A higher-up who knew Zhou Hao in the meeting room immediately spoke.

"Damn!"

After he finished speaking, even with his composure, he was still shocked by the scene in front of him.

This was because after Zhou Hao killed many foreign races around the city gate tower, he actually charged into the depths of the foreign race army without hesitation.

Doing so was extremely dangerous, and it was even very likely that he would never return!

Unless there was no other choice, no martial artist was even allowed to do so on the battlefield.

In the meeting room, many higher-ups were furious.

However, what happened next far exceeded their expectations.

This was because after Zhou Hao killed his way into the foreign race army, not only was he not quickly killed, but he also began to rampage around.

His strength had already reached a terrifying level.

The current Zhou Hao was not even a peak-level supernatural expert. He could basically be considered a quasi Heaven Realm martial artist!

With Zhou Hao constantly killing at the center of the foreign race army, the pressure on the other martial artists kept decreasing.

The originally incomparably chaotic and even somewhat defeated situation gradually stabilized.

“Kill!”

“Kill these foreign races!”

“Attack!”

Around the first spatial rift, the martial artists and soldiers were all filled with fighting spirit.

Although the battle was still very tragic, everyone gradually started to feel like they could win.

“Kill these foreign race bastards!”

“Kill!”

While everyone was feeling very excited, the experienced Tie Ruyun maintained his rationality and calm. He ordered systematically, “Let’s cover for President Zhou and retreat first before we discuss further!”

Tie Ruyun was the person in charge of the first spatial rift and was an eighth-grade supernatural expert.

The armor on his body had almost completely shattered.

“Commander, why are we retreating now?”

Many supernatural experts were very puzzled.

Now that their situation was getting better, under such circumstances, they should directly kill the foreign races and return to the spatial rift.

“These foreign races have created such a huge commotion this time but don’t have many top-notch experts. There must be a problem.”

“Tell everyone to retreat to the city one after another. Make the best use of your time and completely restore the defensive barrier.”

“As long as we can defend the city and prevent them from attacking, we can reduce the pressure on the other spatial rifts.”

“In fact, after the situation on our side stabilizes, we can even send people over to support them.”

Hearing Tie Ruyun’s words, many supernatural experts came to a realization and immediately went to make the arrangements.

After making the arrangements, Tie Ruyun and the others immediately rushed to Zhou Hao’s location.

Although it was very dangerous, Zhou Hao’s safety was more important than theirs now. They vowed to protect Zhou Hao and retreat safely.

Although Zhou Hao had been killing everyone, it was undoubtedly a huge drain on him. He did not have much essence energy left.

Now, seeing that everyone had retreated to the city and Commander Tie and the others had come to receive him, Zhou Hao heaved a sigh of relief.

This was undoubtedly a good opportunity for him to obtain wealth and luck points.

It was just that with his current strength, the essence energy in his body was limited after all. If this continued, he would also not be able to withstand it.

“President Zhou, let’s return to the city first and discuss this at length. You go first, we’ll cover the retreat!” Tie Yunwu’s rough voice sounded.

Zhou Hao did not hesitate. His current state was not good, and he needed to rest and recover.

By the time Zhou Hao returned to the city tower, the preliminary cultivation of the defensive barrier around the frontline city had already been completed.

With the defense barrier around, everyone had a chance to catch their breath.

Soon, the many martial artists who had been fighting bloody battles for a long time returned to the city at the frontline.

The foreign races below began to attack the defensive barrier again, and the number of foreign race beings increased.

Fortunately, in the battle just now, the machine race's siege equipment had already been shattered into pieces by Zhou Hao.

Before the new siege equipment was shipped over, they were basically safe.

The defensive barriers of the frontline cities were very strong and could resist most ordinary attacks.

"President Zhou, it's all thanks to you for saving the situation this time. Otherwise, the first spatial rift would have been lost!"

In the frontline defense meeting room, Tie Ruyun expressed his gratitude for Zhou Hao's timely rescue.

"To be able to temporarily repel this foreign race attack is the result of everyone's hard work. I only did what I could."

Zhou Hao was not humble nor did he flaunt his results.. Instead, he spoke the truth.

Chapter 236 - Each Said Their Own Opinions

Chapter 236: Each Said Their Own Opinions

"Hahaha, President Zhou is an honest person. I like it!" Said a bearded supernatural expert as he laughed.

The aura on his body was very violent. He seemed to have used a secret technique previously and had yet to recover.

After experiencing a life and death battle just now, their tense nerves finally relaxed. At this moment, they could not help but find joy in their suffering and laugh.

Usually, most supernatural experts were very humble.

There were indeed not many people who spoke honestly like Zhou Hao.

“Alright, the most important thing now is how to deal with the foreign races’ attack.”

“I wonder what happened in the spatial rift. There are so many foreign races rushing out of the spatial rift.”

“I suggest that we continue to reinforce the defensive barrier.”

“As long as they can’t break through the defensive barrier, it won’t affect us at all.”

“That makes sense. However, we can only strengthen the defensive barrier. The more these foreign races accumulate, the more troublesome it will be.”

In the meeting room, the supernatural martial artists expressed their opinions.

Immediately, it seemed strengthening the defensive barrier was the best solution.

“That’s not appropriate either. The shield will not win forever against the spear. No matter how powerful a defensive barrier is, it will still eventually be shattered. Especially with the existence of the Machine Race, there will soon be extremely powerful siege weapons being transported over.”

After a discussion, everyone looked at Zhou Hao.

Everyone was discussing heatedly here, so why was Zhou Hao, the strongest expert, listening with interest like a bystander? He did not even express his opinion.

Seeing everyone look at him, Zhou Hao was actually somewhat dumbfounded.

After all, how could Zhou Hao know what tactics to use? His only strategy was to dominate with his strength.

As long as he was strong enough, no matter how many foreign races came, he could still defeat them.

However, this was no easy feat.

Be it him or the martial artists of Huaxia, no one was powerful enough to suppress everything.

In such a situation, one naturally had to pay attention to strategy and tactics. However, Zhou Hao knew nothing about strategy and tactics. Naturally, he could only listen to the opinions of the surrounding supernatural experts.

“President Zhou, how do you think we should handle this matter?”

Tie Ruyun looked at Zhou Hao and asked expectantly. In his opinion, Zhou Hao’s silence probably meant that he was busy thinking of a solution.

After all, Zhou Hao could always resolve the matter at critical moments. He might even have a brilliant idea right now.

Zhou Hao was stunned for a moment and did not expect Tie Ruyun to ask him such a question. After all, if he knew anything about strategy, he would have spoken his mind long ago.

However, seeing the anticipation on everyone’s faces, he naturally had to say something.

“Ahem... Let’s hear Ling Shuying’s opinion first.”

Zhou Hao passed the attention onto Ling Shuying as if it was only natural.

As long as I don’t feel embarrassed, the others will be the ones to bear the embarrassment.

Everyone could not hide the disappointment on their faces for a moment. Originally, they thought that Zhou Hao kept a low profile, but who knew that he was really clueless.

After being stunned for a moment, Tie Ruyun was the first to react. He coughed lightly and braced himself to say, “Cough cough, since President Zhou hasn’t thought it through, let’s hear Ling Shuying’s opinion first.”

Immediately, everyone cast hopeful gazes at Ling Shuying.

Ling Shuying had been resting and recovering at the side earlier and did not participate in the discussion.

Only when everyone asked Zhou Hao to speak did she want to listen with interest.

Unexpectedly, Zhou Hao had passed the attention onto her as soon as he opened his mouth.

“Didn’t we already come up with a conclusion just now? We’ll continue to guard them tightly.”

“At the same time, we should try our best to transfer some experts to help out in the other spatial rifts.”

“After the situation in each of the spatial rifts stabilizes, we will gather our forces and gather the experts that can be transferred from the spatial rifts. Then, we will begin to defeat these foreign races one by one.”

“The interior of the various spatial rifts is complicated. Although they are interconnected, there is a very long distance between one spatial rift and another.”

“It’s different for us outside the spatial rift. It’s very easy for us to travel back and forth between the spatial rifts.”

After Ling Shuying finished speaking, she also looked at Zhou Hao and wondered if he had any better ideas. After all, this was the best solution she could currently come up with.

“I completely agree.”

Zhou Hao was too lazy to think. Moreover, Ling Shuying’s solution was very good.

Now, his essence energy had also gradually recovered.

The 100 rare-level Energy Bars in the system backpack were the source of his confidence.

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 237 - Brave! President Zhou!

Chapter 237: Brave! President Zhou!

With so many rare-level Energy Bars, he could fight with his full strength for twenty times.

If not for the fear of exposing himself and attracting high attention, he would have resolved the crisis of the spatial rift alone.

“In addition, I suggest that while defending, the supernatural experts can kill the foreign races nearby to constantly reduce their numbers.”

After thinking for a moment, Zhou Hao added. Otherwise, everyone would have waited for nothing. It wouldn't be good if he didn't say anything.

"Then let's do it."

Everyone had decided.

Soon, Zhou Hao and the others appeared on the city wall at the frontline of the defensive line again.

Seeing the appearance of the supernatural experts, the morale of the other martial artists and soldiers also increased by a lot.

"I'll go out and take a look."

After arriving at the city gate tower, Zhou Hao did not plan to waste any time.

Every time he went all out to kill these foreign races, he would obtain a lot of luck points.

However, the battle had not ended yet, and there were still some spoils of war he had yet to obtain.

"Be careful."

Ling Shuying was surprisingly gentle this time as she reminded Zhou Hao.

Zhou Hao was stunned for a moment, surprised by Ling Shuying's sudden gentleness.

Of course, he did not have the mood to tease Ling Shuying at this moment. The priority now was to continue harvesting luck points.

It had to be known that getting rare-level Energy Bars also required a large number of luck points.

With so many foreign races appearing in the first spatial rift this time, it was naturally a good opportunity to harvest luck points.

"President Zhou has rushed out again!"

"President Zhou is awesome!"

"How impressive! President Zhou!"

Seeing a green figure rush out, the martial artists at the frontline of the first spatial rift became excited again.

Everyone still remembered Zhou Hao's mighty and heroic figure from before.

Outside the defensive barrier, Zhou Hao did not hesitate at all and directly unleashed his full strength.

After consuming four more rare-level Energy Bars, the essence energy in his body had already recovered.

At this moment, with his full strength, his combat strength was naturally very terrifying.

Boom!

Zhou Hao punched out, and a green fist shadow shook out in the air. A group of foreign races on the ground in the distance were directly shattered.

His high-profile appearance outside the defensive barrier instantly attracted the attention of all the foreign races, who rushed over to kill him.

In an instant, countless Demon Race, Insect Race, and Machine Race beings attacked Zhou Hao from all directions.

Rumble!

The powerful energy fluctuations made everyone feel depressed.

Seeing Zhou Hao's battle up close, everyone was incomparably shocked.

Powerful, incredibly powerful!

Not only did Zhou Hao have powerful combat strength, but his movement techniques were also very agile and his combat experience was very rich.

Most importantly, Zhou Hao did not panic at all when he was faced with such a dangerous situation!

On the battlefield, Zhou Hao actually still had many tricks up his sleeve.

His current full strength attacks relied on the Green Wood Spring Autumn Art. However, if he also used the technique of the Five Elements Grand Yan Record, his combat strength would be even more explosive.

However, the Five Elements Grand Yan Record was his trump card.

In a battle of this level, it was enough for him to use the Green Wood Spring Autumn Art.

Bang! Bang! Bang!

In the foreign race wave, Zhou Hao rushed left and right. Under the watch of Ling Shuying, Tie Ruyun, and the other experts, he directly attacked seven times.

“How impressive!”

“President Zhou is mighty and domineering!”

“President Zhou, show our might!”

Many martial artists watched Zhou Hao’s battle as their blood boiled.

Tie Ruyun and the other supernatural experts recovered for a while and also killed their way out of the defensive barrier one after another.

Zhou Hao was already outside helping them resolve the situation. As supernatural martial artists, how could they keep hiding in the defensive barrier?

A shocking battle began.

After the time for an incense stick to burn, everyone couldn’t help but reveal shocked expressions.

In such an all-out battle, their blood essence power was consumed very quickly.

After fighting for so long, most of the supernatural experts had already returned to the defensive barrier and began to recover.

After the ordinary supernatural experts returned to rest for the second time, Ling Shuying and the other experts from the Green Cloud Division also returned one after another.

As supernatural experts, Ling Shuying and the others were almost twice as powerful as ordinary supernatural experts.. Their strength was already very abnormal.

Chapter 238 - What Is This Treasure?

Chapter 238: What Is This Treasure?

After all, martial artists who could enter the Green Cloud Division were all elites among elites and trump cards among trump cards.

However, what shocked them even more was that Zhou Hao, who was the first to leave, was still charging around outside.

What was even more terrifying was that up until now, there was still no sign of fatigue on his face. Instead, he became more and more excited as he killed. There was even a faint excitement on his face.

Those who did not know better would think that he was picking up money!

Not to mention Tie Ru Yun and the others, even Ling Shuying and the other experts from the Green Cloud Division were stunned as they looked at Zhou Hao.

Was this guy a tireless combat machine?

After fighting for so long, Zhou Hao actually did not pause at all. Each move was extremely powerful!

How infuriating!

Outside the defensive barrier, Zhou Hao had no idea that the performance he considered to be average had already dumbfounded everyone.

Previously, when he had entered the center of the foreign races, he had only dealt with extremely powerful foreign races.

At this moment, the powerful foreign race beings were still at the back of the wave. Therefore, the foreign race beings that were fighting him now were all relatively weak. He could deal with them easily and did not spend much energy.

After Tie Ruyun and the others had gone back and forth eight times to rest, Zhou Hao finally returned to the defensive barrier somewhat unwillingly.

At this moment, the martial artists no longer felt admiration for Zhou Hao. All of them looked at Zhou Hao as if they were looking at a monster.

Although Ling Shuying and the others were powerful, they were only two to three times stronger than ordinary supernatural experts.

However, Zhou Hao was basically eight times stronger than ordinary supernatural experts.

The honorary president of the Supernatural Council was indeed terrifying and domineering!

“I have some special crystals here. Take them and recover.”

Zhou Hao also realized the problem now.

Although the combat strength of Tie Ruyun and the others was still very powerful, they only used some medicinal pills and other resources to recover their blood essence power. Some also used colored energy crystals, and some simply did not use cultivation resources and directly circulated their cultivation techniques to recover.

In such a situation, their recovery speed was naturally very slow.

“President Zhou, what is this?”

After receiving the ordinary Energy Bars that Zhou Hao distributed to everyone, many martial artists looked at him very suspiciously.

They had never seen such a thing before.

“This is an energy crystal synthesized with a special technique. It’s very effective for restoring one’s own consumption.”

After Zhou Hao finished speaking, many martial artists began to try it out curiously.

Tie Ruyun was skeptical. After all, if the effect of this synthesized crystal was really that good and could replace medicinal pills and colored energy crystals, then there wouldn’t be such short supply of cultivation resources anymore.

However, after seeing so many martial artists use it without hesitation, he also began to use it with the intention of giving it a try.

“This!”

As soon as Tie Liuyun began to absorb the energy from the Energy Bar, he was so shocked that he suddenly stood up!

It was not only Tie Liuyun. The other martial artists were also looking at Zhou Hao in disbelief.

“Damn! What is this? The purity and strength of its energy are actually better than the colored energy crystals and most of the medicinal pills!”

“President Zhou, what kind of treasure is this?”

“President Zhou, where did you get this? Sell some to me.”

“Me too. The price is negotiable, hahaha.”

“President Zhou, tell everyone quickly.”

In an instant, Zhou Hao was surrounded by a crowd.

Some grandmasters and masters in the distance were also extremely curious about the Energy Bars in the hands of these supernatural experts.

If not for the heaven-defying effect of this Energy Bar, these supernatural experts would definitely not be so shocked!

Zhou Hao was not surprised by everyone’s reaction. The effect of a platinum-level Energy Bar was indeed very good for most martial artists.

Most importantly, he did not need these things now. He could also sell some.

However, this was a critical moment in dealing with the foreign races. He could negotiate the price with them later.

“This crystal is synthesized using a secret technique and can’t be mass-produced. As for the other matters, let’s talk after we resolve the problem at hand.”

Although Zhou Hao did not need it, he did not plan to give it away for free.

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 239 - The Huge Value Of The Platinum-Level Energy Bar

Chapter 239: The Huge Value Of The Platinum-Level Energy Bar

“President Zhou, how did you synthesize such a crystal? The effect is surprisingly good.”

After some supernatural martial artists used the platinum-level Energy Bar, their eyes revealed ecstasy.

“I can’t tell you that. In addition, only I can synthesize this type of crystal.”

Hearing Zhou Hao’s words, the other martial artists around thought nothing of it.

After all, with such a good effect, martial artists and various research institutes would definitely try to figure out a way to synthesize this crystal in an extremely short period of time.

How could Zhou Hao not understand what everyone was thinking?

Just like now, most martial artists had at least reserved one platinum-level Energy Bar. Clearly, they were prepared to bring it back for the research organizations to research and synthesize this energy crystal.

However, he did not care.

No matter what, this matter did not affect him much.

This platinum-level Energy Bar was a treasure to others but was of little value to him.

It was a waste to abandon it!

Tie Ruyun held the platinum-level Energy Bar in his hand and looked at it constantly. It was a square crystal the size of a thumb.

What puzzled him was that this thing did not look like it was synthesized.

However, if it was a natural item, it would have long been discovered by the other martial artists on Planet Earth.

Tie Ruyun fell into deep thought.

After Zhou Hao had recovered most of his essence energy, he rushed out of the defensive barrier again and began to kill the foreign races that were constantly attacking the defensive barrier.

The defensive barrier’s defense was limited. Under the continuous attacks of the foreign races, the pressure on the entire defensive barrier increased drastically.

Fortunately, Zhou Hao and the other supernatural experts kept on attacking the foreign races. Otherwise, it would have been impossible for them to last long completely relying on the defensive barrier.

Just as Zhou Hao rushed out of the defensive barrier and fought the foreign races, many martial artists had already sent out the platinum-level Energy Bar they had just obtained to study and analyze through various channels.

Zhou Hao was unwilling to share the technology. This was his right.

However, if they could crack this technology, then Zhou Hao's attitude would naturally not be important.

The first to receive the platinum-level Energy Bar was the Green Cloud Research Institute.

The Green Cloud Research Institute was one of the organizations under the Green Cloud Division. Now, the higher-ups of the Green Cloud Division had already received the information sent by Ling Shuying and the others.

After hearing about the effect of the "synthesized crystal", or the platinum-level Energy Bar, hope ignited in the hearts of the higher-ups of the Green Cloud Division.

If they could develop such a 'synthesized crystal', the martial artists' recovery speed would increase greatly. This also meant that the martial artists' combat strength would increase greatly.

As for Zhou Hao not sharing his technology, many old foxes agreed that Zhou Hao was too young and naive.

If Zhou Hao did not take out this synthesis crystal, they would naturally be helpless.

However, now that they had the blueprint, with the technology of the Green Cloud Research Institute, they were confident that they could recreate it.

Zhou Hao believed that it wouldn't be long before he could see the synthesized crystals produced by the Green Cloud Research Institute.

As expected, a moment later, a report appeared in the meeting room.

Soon, the few old foxes smiled.

It couldn't be helped. They weren't bullying Zhou Hao. The situation in Huaxia and Planet Earth was so serious now. Since Zhou Hao was unwilling to contribute, they could only use their own methods.

However, before they could celebrate for long, one of the square-faced middle-aged men looked at the report and his expression suddenly turned ugly.

"What's wrong, Old Zhang?"

Seeing his appearance, the others' hearts skipped a beat and they couldn't help but ask.

"The data for the six samples sent back are the same in all aspects. However, the cost of making such an energy crystal is extremely high."

"It's very expensive to compress so much blood essence energy into such an energy crystal. In fact, it costs just as much to produce 100 sets of resources with the same blood essence energy ."

"In other words, we have to spend 10 million to make one synthesized crystal. However, that same 10 million can be used to make 100 sets of medicinal pills that have the same results."

"Of course, this thing has a better recovery effect than the medicinal pills. Its absorption rate has also reached an astonishing 99.9%. If it can reduce the cost of mass production, it will really be a very impressive secret weapon."

Minister Zhang said with a sigh and felt somewhat helpless towards Zhou Hao.

A peak-level supernatural expert could indeed produce such a thing. However, it would cost the same to use machine technology to produce it.

How poor was Zhou Hao to think of such an unorthodox method of making pills?

Chapter 240 - Purchasing Energy Bars at a High Price

Chapter 240: Purchasing Energy Bars at a High Price

After Minister Zhang showed the analysis report to everyone, the higher-ups of the Green Cloud Division did not know whether to laugh or to cry at Zhou Hao.

Zhou Hao had clearly spent a huge price to refine his blood essence energy and instill it into the crystal bit by bit.

They were also very speechless that a peak-level supernatural expert would actually do such a thing.

“Old Zhang, this brat clearly did all this to sell this synthesis crystal this time.”

“After analysis and testing, the results are almost the same. In that case, why don’t we directly buy it from this kid?” A pale, beardless, and fat Heaven Realm martial artist said with a smile.

A Heaven Realm expert was also known as a Heavenly King. Now, this person was known as Heavenly King Zhu.

“What does Heavenly King Zhu mean?”

Minister Zhang narrowed his eyes thoughtfully.

Zhou Hao’s extraction of this energy crystal was completely unpromising.

Of course, despite them thinking that Zhou Hao must have been extremely bored to have come up with this, it was not impossible for him to earn money in this way.

The Green Cloud Research Institute used its own technology to produce such synthetic crystals. The cost was 10 million yuan per piece.

However, this price was too high, and it was not worth it.

“What I mean is to buy this synthesis crystal directly from President Zhou at the price of 5 million or even 3 million per crystal.”

“No matter how much he has, our Green Cloud Division will buy it all.”

“Not only that, if he has a lot, we’ll buy it from him in bulk for 3 million yuan each and sell them to other parties for 6 million to 8 million yuan.”

“In this way, we can also control this energy crystal without any cost.”

Heavenly King Zhu had done all the calculations. Hearing his words, the other Heaven Realm experts in the meeting room felt that this Heaven Realm expert had some potential to become a businessman.

“Alright, let’s do that.”

Although the price of 3 million each was a little high, the Green Cloud Division could still afford it.

Moreover, this thing yielded such good results. Of course, it couldn’t just be used by the martial artists in Huaxia. All the martial artists in the world should share it at the price of 8 million yuan each.

After Minister Zhang made up his mind, the matter was decided.

In the Green Cloud Division, as a representative, Heavenly King Zhu left the Green Cloud headquarters for the first time and went to the first spatial rift to discuss this matter with Zhou Hao.

Now that the situation in the various spatial rifts had improved, he could finally leave.

Moreover, this was a matter that was beneficial to all the martial artists in the world. He could not let anyone steal the deal from him.

In the meeting room of the first spatial rift, Zhou Hao looked at the smiling fatty and was speechless.

The fatty looked at him as if he had discovered a treasure.

The two of them stared at each other for a while, and the atmosphere was a little strange.

“Senior, you’re a Heaven Realm expert. Why didn’t you help the first spatial rift to resist the danger?”

Zhou Hao was the first to break the silence and directly asked his question.

That’s right. The fatty opposite him was Heavenly King Zhu, who had rushed over from the Green Cloud Division to discuss a big business deal with Zhou Hao.

“Hahaha, don’t call me senior. Heaven Realm or not, we’re brothers everywhere. All the martial artists in the world are one family. My surname is Zhu, and my full name is Zhu Zao. You can call me Brother Zhu, or you can call me Heavenly King Zhu.”

Zhu Zao was very casual but did not answer Zhou Hao’s question.

“Heavenly King Zhu, what’s the matter?”

Zhou Hao knew that this Heavenly King Zhu did not want to answer his question, so he did not pester him any further. As for the reason, he could not be bothered to think about it.

However, this Heavenly King Zhu seemed to be too approachable. He did not have the slightest arrogance of a Heaven Realm expert.

“Of course. Do you know this thing?”

Heavenly King Zhu went straight to the point and took out an energy crystal. However, it was not Zhou Hao's platinum-level Energy Bar. Instead, it was a sample developed by the Green Cloud Research Institute after working overtime.

Seeing this, Zhou Hao almost vomited blood.

Good lord. He had just taken out the platinum-level Energy Bar not long ago and was about to start selling. In the end, it had only been a short while before other people started making fakes.

How ridiculous!

He was also a peak-level supernatural martial artist now and could see a lot of information. Therefore, he was very certain that before this, Planet Earth did not have such an energy crystal.

This was the high-level replica of his platinum-level Energy Bar!

"Hehe, don't be surprised. I came to find you this time to discuss a big business with you."

Heavenly King Zhu naturally saw Zhou Hao's constipated expression. He did not care and still smiled as he spoke.

Heavenly King Zhu showed all his sincerity and squeezed out a smile that he thought was the most amiable.

Little did he know that his charmingly naive smile made Zhou Hao feel like he was up to no good.

Chapter 241 - Talking Nonsense In A Serious Manner

Chapter 241: Talking Nonsense In A Serious Manner

"Senior, you want to buy this synthesized crystal?"

Although Heavenly King Zhu's smile made Zhou Hao somewhat at a loss, the discomfort in his heart immediately disappeared when he heard that the other party wanted to buy the platinum-level Energy Bar.

After all, Zhou Hao wasn't stupid and could spot a business opportunity when he saw one.

"That's right. I want to buy it in bulk. No matter how much you have, I want it all."

"There's something else I want to tell you. After all, you're a member of the Huaxia martial artists. This synthesized crystal is also a strategic resource."

"The Green Cloud Division has no right to ask you to share the technology, but the synthesized crystals in your hands must be provided to the Green Cloud Division first."

"Do you have a problem with this?"

After Heavenly King Zhu finished speaking, he became serious for once and looked at Zhou Hao solemnly.

"Sure."

Zhou Hao agreed without thinking. With a big client like the Green Cloud Division, he did not have to worry about sales at all.

The only thing that made him feel that something was wrong was that Heavenly King Zhu was smiling too proudly as if he had gotten a huge bargain.

Zhou Hao was a little uncertain for a moment.

Moreover, since the Green Cloud Division could already synthesize platinum-level Energy Bars on their own, why did they still want to buy from him?

Because the information between the two parties was severely unequal, Zhou Hao felt quite uncertain.

"Hehe, you will also benefit from selling synthesized crystals to the Green Cloud Division."

"If the synthesized crystal causes any trouble, the Green Cloud Division will be able to help you."

Heavenly King Zhu had a lot of experience and naturally knew how to do business. He knew that he had to give Zhou Hao a rundown of the benefits in order for the discussion to proceed smoothly.

“Not only that, look, after we familiarize ourselves with each other, I will also provide you with many conveniences. As long as they comply with the rules, of course.”

After Heavenly King Zhu finished speaking, he patted Zhou Hao’s shoulder like they were good brothers.

Seeing his appearance, Zhou Hao’s first reaction was that this guy was like a heartless businessman. How did he become a Heaven Realm expert?

“Senior Zhu, how much do you plan to offer to buy the synthesized crystals?”

Zhou Hao went straight to the point.

The platinum-level Energy Bar cost 10,000 Heaven Dao coins each, which was 1 million yuan each.

However, with his luck points, Zhou Hao could get ten times, twenty times, and thirty times the original amount.

On average, the price of a single Energy Bar might not even be 500,000 yuan.

In other words, as long as he sold them for more than 500,000 yuan, he would be able to earn money.

This time, the Green Cloud Division was very generous. Not only did they not ask him to share the technology, but they even agreed to take all the goods he provided.

Therefore, it was fine for him to make some concessions on the price.

As long as he could earn money, it was not a problem.

“How about this number?”

Heavenly King Zhu did not say a word and stretched out two fingers. Then, he added slowly.

“How about two million yuan each?”

As he spoke, Zhu Zao also felt that he was being too scammy.

No matter how heaven-defying Zhou Hao was, it must still be a little difficult for him to refine such a synthesized crystal.

However, he had heard that this boy’s compatibility with the Green Wood Spring Autumn Art had reached an extremely rare 75. In this way, the price could indeed be adjusted.

Zhou Hao was stunned. It was fine as long as the price was above 500,000.

Now, Heavenly King Zhu had directly given him 2 million yuan. Was the Green Cloud Division really that rich?

Although he was shocked, he did not show it on his face and pretended to think.

Seeing Zhou Hao remain silent, Heavenly King Zhu thought that Zhou Hao was dissatisfied with the price.

However, he was not surprised at all. He had long known that this brat was not so easy to deal with.

He immediately laughed and said, “Haha, Brother Zhou, the 2 million just now was naturally a joke.”

Hearing Heavenly King Zhu say this, Zhou Hao heaved a sigh of relief. He even said that the Green Cloud Division’s funds were so easy to earn!

“The price I offered was not 2 million, but 3 million!”

Heavenly King Zhu added.

“This price might not have reached your expectations.”

“However, in a sense, you’re contributing to the martial artists in Huaxia. We can subsidize you in other ways.”

“The Green Cloud Division is in charge of all the martial artists in Huaxia. We don’t have much money either. You have to understand the price.”

Heavenly King Zhu was talking nonsense in a serious manner. The price Minister Zhang had prepared for Zhou Hao previously was clearly 5 million. In the end, he settled this matter with 3 million..

Chapter 242 - The Front Line Battlefield Is Just a Training Ground

Chapter 242: The Front Line Battlefield Is Just a Training Ground

Zhou Hao, on the other hand, was pleasantly surprised.

He did not expect to sell the platinum-level Energy Bar for 3 million each!

Zhou Hao felt a little dizzy for a moment, as if he had seen an overwhelming amount of money being thrown at him. How could he care about analyzing the fishy situation after Heavenly King Zhu increased the price so quickly?

However, he quickly understood that he was currently cultivating a Heaven Realm cultivation technique and not a blood essence energy cultivation technique.

If he cultivated a blood essence energy cultivation technique, then this platinum-level Energy Bar would definitely be very heaven-defying.

A moment later, Zhou Hao and Heavenly King Zhu signed the agreement.

Looking at the agreement in their hands, the two of them were in a good mood.

Heavenly King Zhu was even about to get Zhou Hao to become his sworn brother. Zhou Hao was shocked by his passion, and his mind that had been overwhelmed by money began to slowly clear up.

Looking at Heavenly King Zhu, he started to fear that his platinum-level Energy Bar could have been sold for a lot more.

Zhou Hao felt as if his heart was bleeding.

However, he quickly consoled himself. It was fine if he earned less. He would just treat it as contributing to Huaxia.

Heavenly King Zhu was in a good mood and was about to tell Zhou Hao something that only Heaven Realm experts knew in advance. Therefore, he brought up the old topic again. "You asked me a question just now. You asked me why I didn't take action to resolve the chaos in the first spatial rift?"

"Please enlighten me, Heavenly King Zhu."

Zhou Hao said politely. After all, this was his big client and he couldn't offend him.

In the future, Heavenly King Zhu would be the one to pay for the platinum-level Energy Bars.

"Because we have a certain agreement with the foreign race experts. That is, Heaven Realm experts are not allowed to attack in the training area."

“Our Heaven Realm experts can’t kill weak foreign races. Their Heaven Realm experts also can’t appear in the training area to attack our martial artists.”

“The frontline defense line battlefield is only a training ground. It’s a place for both sides to train and nurture experts.”

“Actually, what you don’t know is that this is not a true battlefield. The true battlefield that determines life and death is in the spatial rift.”

After Heavenly King Zhu said this, Zhou Hao immediately understood and could not help but be somewhat shocked.

It seemed that the situation in the spatial rift was even more terrifying than he had imagined.

To avoid arousing suspicion, Heavenly King Zhu did not stay long.

After giving Zhou Hao the deposit of 1,000 colored energy stones, he returned to the Green Cloud Division.

After Heavenly King Zhu left, Zhou Hao also returned to the city tower.

Ling Shuying immediately heaved a sigh of relief when she saw Zhou Hao appear.

Although it was her responsibility to report the platinum-level Energy Bars and it was official business, she could not help but feel uneasy. She was worried that Zhou Hao would be captured for research purposes.

On the city gate tower, the expressions of the martial artists were very ugly.

Firstly, it was because of the countless foreign races outside the defensive barrier.

Another thing that gave them a headache was that the test results were out. This synthesized crystal could indeed be made, but the cost of making it was very high, directly reaching 10 million yuan per piece.

This news was undoubtedly a huge blow to them. They were still in a daze and could not focus.

Zhou Hao had given them three Energy Crystals each previously, which was definitely a sign of his wealth.

If they also had the financial resources...

They simply felt too sad!

“Not good, the Machine Race’s siege machines are here again!”

At this moment, Tie Ruyun’s expression suddenly changed drastically.

The reason why the first spatial rift had been lost was because the foreign races’ siege machines were too powerful. With just a few cannon shots, the entire defensive barrier of the city tower was blown to pieces.

“Let’s rush out and destroy that machine!”

“Let’s go!”

“Quick!”

For a moment, Tie Ruyun and the others were very nervous.

Once the defensive barrier was destroyed again, what awaited them was another bitter battle with blood flowing everywhere.

“Not good. The siege machines have also appeared in those two directions.”

What made everyone feel even more despair was that this time, there was not just one siege machine, but three.

Under such circumstances, the pressure on the first spatial rift was simply unprecedented.

“I’ll lead the team from the Green Cloud Division. We can destroy one of them.” Ling Shuying said with a solemn expression.

Including Zhou Hao, there were only five people from the Green Cloud Division..

Chapter 243 - A Moment Of Life and Death

Chapter 243: A Moment Of Life and Death

“We can also destroy one, but with our strength, we have to arrange for at least 20 supernatural experts to work together. Otherwise, we might be killed before we can even approach the siege machines.”

Tie Ruyun knew that it was a matter of life and death again.

There were only 35 supernatural martial artists here who could still fight.

Among these 35 people, many were low-level supernatural experts. Among them, there were at most 15 people who could infiltrate the enemy's rear. They were simply not enough people.

“Ling Shuying will bring the other 3 supernatural experts from the Green Cloud Division and the 6 supernatural experts from the first spatial rift to destroy the first siege machine.”

“Commander Tie and the remaining 23 supernatural experts, go and destroy the second siege machine.”

“Leave the last siege machine to me.”

With that said, Zhou Hao took the lead and killed his way out before anyone could react.

“Let's go!”

Although Ling Shuying was uncertain about Zhou Hao's arrangements, she still quickly moved after seeing him kill his way out.

If they did not attack at this moment, Zhou Hao would have to face all the pressure and die!

“Let's go too!”

Commander Tie looked at Zhou Hao with admiration.

No wonder Zhou Hao was able to cultivate to this level at such a young age. He was definitely a real man!

At this moment, Zhou Hao was extremely anxious as he charged towards the third siege machine.

There were many powerful foreign races here. Although it would be a difficult battle, Zhou Hao would definitely obtain a lot of luck points.

Now that he had a big client like Heavenly King Zhu, he did not lack Heaven Dao coins at all. What he lacked the most was luck points.

Seeing Zhou Hao attack the third siege machine single-handedly, the martial artists on the city gate tower felt deep veneration!

This was President Zhou of the Supernatural Council!

Facing the endless foreign races, only President Zhou dared to accept the order and bear the responsibility at this moment. He rushed towards the distant siege machines!

Zhou Hao's figure was quickly drowned by the endless foreign races.

Although everyone could not see Zhou Hao's figure, all the martial artists knew that President Zhou was fighting!

At this moment, Ling Shuying and Commander Tie were also fighting the foreign races.

If the foreign races' siege machines got closer, the defensive barrier would be in danger.

"Let's go too. We need to reduce the pressure for the experts who have infiltrated the enemy!"

An injured supernatural expert roared and led many injured martial artists and soldiers to start fighting the foreign races nearby.

Before long, an even more tragic battle erupted again.

The only gratifying thing was that the remaining spatial rifts were still under control despite the continuous fighting.

In the distance, Zhou Hao did not think that this siege machine was that heaven-defying.

After approaching, he realized that this was simply a huge ship-like behemoth. Its might was naturally incomparably terrifying and huge.

"Demonic Wood Tree Sea!"

After arriving beside the siege machine, Zhou Hao did not hesitate and directly used the Demonic Wood Tree Sea.

Under the envelopment of the Demonic Wood Tree Sea, countless plants and vines kept growing crazily. Soon, this huge monster was covered in countless plants.

As Zhou Hao killed the foreign races that had come to stop him, he crazily absorbed the essence energy from the rare-level Energy Bars to recover.

After consuming another 40 rare-level Energy Bars, an incomparably terrifying sea of trees had already completely surrounded the siege machines and was constantly destroying them from all directions.

However, the armor of this huge monster was very thick and Zhou Hao could not completely take it down in a moment.

However, this siege machine was already unable to continue forward, so it had naturally become useless.

Now, Zhou Hao realized that the Green Wood Spring Autumn Art also had huge potential.

For example, now, he could control the sea of trees and vines to fight the surrounding foreign races.

Of course, using this sea of trees naturally consumed a lot of energy. He only had 50 rare-level Energy Bars left. He only hoped that nothing unexpected would happen again.

However, what Zhou Hao was worried about still happened.

Just as they were trying their best to stop these three siege machines, two more appeared.

Moreover, the situation on Commander Tie's side was very bad.

Chapter 244 - Invincible Sweeping

Chapter 244: Invincible Sweeping

“Not good!”

At this moment, many martial artists revealed despairing expressions.

Originally, everyone thought that President Zhou's battle was the most difficult. After all, he was fighting alone.

Unexpectedly, things were going very smoothly on President Zhou's side. On the other hand, the situation on Commander Tie's side was very urgent and very troublesome.

More and more foreign races rushed out from the first spatial rift. No one knew what was going on in the depths of the spatial rift.

The entire battlefield was filled with difficulties.

The first spatial rift that had recently improved seemed to have really reached a desperate situation this time!

...

In the beginning, Zhou Hao planned to hold back and slowly grind these foreign races to death, destroying the siege machines.

However, the current situation was quite troublesome and he had to get serious.

In the previous battle, he had always used the Green Wood Spring Autumn Art. Although this Heaven Realm cultivation technique was powerful, it was simply far inferior to his Five Elements Grand Yan Record.

Without any delay, Zhou Hao directly formed a sword with his fingers. A long sword condensed from green essence energy instantly stretched out from his fingers.

This secret technique was one of the accompanying secret techniques of the Five Elements Grand Yan Record. It was called the Green Profound Sword.

After Zhou Hao used the Green Mysterious Sword, a powerful Insect Race expert that was fighting him just now was directly blasted flying.

However, there were too many foreign races. After this powerful insect was sent flying, more and more foreign races surrounded Zhou Hao like a tide.

However, these foreign races clearly did not know the difference between the Green Wood Spring Autumn Art and the Five Elements Grand Yan Record.

Now, with the Green Blade Profound Sword condensed from essence energy, his combat strength simply surged and became powerful to the limit.

The essence energy in his body kept circulating.

The Demonic Wood Tree Sea that he had used just now had also exploded. The siege machines trapped by the Demonic Wood Tree Sea were instantly shattered into pieces.

...

“Heavens!”

Zhou Hao’s sudden outburst directly stunned the many anxious soldiers and martial artists on the distant city tower.

At this moment, the shock in their hearts was already indescribable.

Unexpectedly, at this desperate moment, Zhou Hao was still doing well despite being deep in enemy territory.

“President Zhou is awesome!”

“As expected of President Zhou!”

“We have to persevere!”

In the thick smoke in the distance, the powerful siege machinery that everyone was looking at directly turned into pieces on the ground.

The morale of the martial artists and soldiers in the city gate tower also received a huge cheer!

The battle situation today could really be said to have ups and downs, making everyone’s jaws drop.

Their mood today was like riding a roller coaster.

On the other side, Zhou Hao rushed towards another siege machine after destroying one.

As long as the energy barrier was not destroyed, the frontline defense line could be maintained.

Currently, the most fatal attack on the energy barrier was the high-level energy cannon released by this siege machine.

Rumble!

As Zhou Hao approached, a blue light pierced through the world and shot towards him.

Clearly, this Machine Race siege machine had sensed danger and was attacking randomly.

However, the siege machine had become quite helpless as Zhou Hao was simply too fast. Unless its attacks could form a flawless fire coverage, it was simply no match for Zhou Hao.

'Stop him!'

Many noises sounded at this moment.

The foreign races could not help but be furious and turned to Zhou Hao.

It seemed that they could have broken through the frontline defense line of the first spatial rift long ago if not for Zhou Hao. After all, Zhou Hao had obstructed and disrupted their movements time after time.

Now, more and more powerful foreign races wanted to kill Zhou Hao so that they could completely destroy the frontline defense line.

Chi...

As Zhou Hao waved the Green Blade Profound Sword in his hand, a powerful and terrifying tearing force suddenly flew past him.

Glancing sideways, he saw that it was a humanoid Machine Race.

This humanoid high-level Machine Race warrior was like a human martial artist wearing armor.

The difference was that the human martial artist armor was actually an exoskeleton and was a part of the body.

At this moment, the silver-white high-level Machine Race member rushed towards Zhou Hao.

Not only was it carrying many powerful firearms, but its combat techniques were also very terrifying.

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 245 - Are You Looking Down On Me?

Chapter 245: Are You Looking Down On Me?

At the frontline defense line, such Machine Race beings were relatively rare. Moreover, they were extremely dangerous and could easily tear cultivators to pieces.

In order to deal with him, Zhou Hao directly used more than 70% of his strength.

Otherwise, he would not be a match for this Machine Race expert.

Ding! Ding! Ding!

The alloy saber of the Machine Race expert kept slashing at Zhou Hao's Green Blade Profound Sword.

In the air, dazzling sparks kept blooming.

The warriors at the frontline of the defensive line looked at the Machine Race expert with very serious gazes.

The combat techniques, attack, defense, and agility of this high-level Machine Race expert had all exceeded the imagination of most martial artists.

This thing was simply a perfect killing machine.

Fortunately, President Zhou of the Supernatural Council was here this time. Otherwise, no one in the first spatial rift would be a match for a high-level Machine Race martial artist.

In the distant sky, Zhou Hao and the humanoid Machine Race expert were extremely fast.

The ordinary martial artists and soldiers could only see two streams of light flying around in the air and did not know the situation of the battle at all.

Some of the more powerful martial artists could barely see the two figures.

At the moment, everyone was unable to tell how the battle was going between the two of them.

"This humanoid Machine Race expert is indeed the most difficult to deal with."

Some martial artists who were healing from injuries on the city wall said very fearfully.

In a one-on-one situation, even the strongest expert in the first spatial rift, Commander Tie Ruyun, was definitely not a match for this high-level Machine Race expert.

What all the martial artists were very concerned about now was what had happened in the depths of the spatial rift? Why had so many changes happened recently?

As Zhou Hao was being held back by this high-level Machine Race expert, the two huge siege machines below began to move forward again.

At their current speed, they would enter an effective firing range in three minutes. At this moment, the cities at the frontline of the defensive line would also suffer a fatal blow!

With the energy barrier around, many martial artists could head back after being injured.

In this way, most low-level martial artists and soldiers could be protected behind the energy barrier.

Once the energy barrier shattered, they could only engage in an extremely tragic close combat.

Compared to the foreign races, humans had almost no advantage in close combat.

Among the humans, powerful martial artists like Zhou Hao, Ling Shuying, and Tie Ruyun were also very powerful.

However, these powerful martial artists were really too rare.

Now that Commander Tie had been stopped, Ling Shuying and the other supernatural experts had not made any progress.

Although Zhou Hao had already destroyed a siege machine, he was currently being attacked by a high-level humanoid machine and would be busy for a while.

Boom!

In midair, Zhou Hao suddenly waved his hand, and a huge green sword beam instantly shot out.

This green sword beam was ferocious and powerful.

However, when the huge sword beam slashed over, the humanoid Machine Race expert on the other side actually dodged easily at an even faster speed.

“Has this guy become stronger?”

Zhou Hao was somewhat surprised.

Previously, this Machine Race member had chosen to fight Zhou Hao head-on because he was unable to dodge his sword beam.

But now, this guy seemed to have already gathered all of Zhou Hao's combat information.

The moment Zhou Hao attacked, he reacted at the same time.

Previously, Zhou Hao had still hidden his strength. Now, it seemed that it was time to attack with his full strength and kill this humanoid Machine Race.

If this humanoid Machine Race escaped, it would become more and more difficult for Zhou Hao in the future.

However, it was not easy to kill this Machine Race member now.

As the battle continued, the Machine Race's attack on Zhou Hao became even more precise.

At this moment, Zhou Hao could only seize the opportunity and unleash his full strength in order to kill this guy.

As Zhou Hao was thinking this, Ling Shuying, who had finished off a siege machine in the distance, also came to support.

"What are you doing here?"

Zhou Hao was somewhat speechless. There were still two siege machines below, but no one stopped them.

In a moment, the two siege machines would enter an effective firing range. At that time, the energy barrier would be useless in front of them.

"I'm here to help you. Are you looking down on me?"

Ling Shuying held a thin sword made of alloy. In terms of Planet Earth technology, it was already a very good weapon.

However, compared to the weapon Zhou Hao got from the mystery box, it was too inferior.

However, Zhou Hao did not give Ling Shuying a new weapon. It was definitely not a good thing for her to use an unfamiliar weapon on the battlefield..

Chapter 246 - 6: Ice Soul Black Crystal Secret Technique

Chapter 246: Ice Soul Black Crystal Secret Technique

"I can deal with it. Think of a way to delay the two siege machines," Zhou Hao said helplessly.

What gave him the greatest headache now were the two siege machines that were like ferocious beasts.

"Do I look like someone who can resolve this problem?"

Ling Shuying complained speechlessly as she fought alongside Zhou Hao.

If she could resolve the two siege machines below, why would she come here to find him?

"That's true." Zhou Hao nodded.

With Ling Shuying's help, the pressure on his side decreased a lot.

Previously, in order to preserve his strength, he had not attacked with his full strength. He was prepared to unleash a thunderous attack at the critical moment and kill this high-level Machine Race member.

Now that Ling Shuying had come to help, he was even more confident!

"I'll unleash a secret technique later to freeze this guy. Can you kill it?"

As he attacked with his full strength, Ling Shuying communicated with Zhou Hao with her mental strength.

"You can freeze this guy?"

Zhou Hao was somewhat surprised. Ling Shuying was indeed not weak, but it was a little exaggerated to say that she could freeze and restrain this guy.

"If you can freeze it, I'll definitely be able to kill it."

Zhou Hao did not ask further.

Ling Shuying's choice at this moment was undoubtedly very smart.

As long as Zhou Hao could free up his hands, the situation might change.

"Alright, attack!"

After Zhou Hao finished speaking, Ling Shuying's hands formed a series of seals like flowers and leaves.

Then, Zhou Hao clearly sensed that Ling Shuying's body had become cold.

An extremely terrifying cold aura seemed to be constantly being refined and condensed in Ling Shuying's dantian.

The humanoid Machine Race member opposite also revealed a puzzled expression.

Its database recorded many methods of human martial artists, but there was also a lot of information that was not available.

At this moment, it could not understand what Ling Shuying was doing.

After the intelligent core calculated at high speed, it also made a judgment. No matter what Ling Shuying wanted to do, it would kill her now!

Zhou Hao naturally saw through the intention of the Machine Race member opposite him. When the other party took out his alloy saber and rushed towards Ling Shuying, his figure moved and instantly clashed with this Machine Race member.

At the same time, Zhou Hao was still somewhat worried. His battle speed with this Machine Race member was very fast. With Ling Shuying's strength, could she still freeze the Machine Race member on the other side?

If Ling Shuying made a mistake, the consequences would be unthinkable.

Zhou Hao did not expect to have correctly predicted the difficulties Ling Shuying was facing.

Zhou Hao and this Machine Race member's movement speed was very fast, and only afterimages could be seen.

She was unable to accurately lock onto that Machine Race member. Moreover, that Machine Race member was very intelligent and seemed to know her and Zhou Hao's intentions.

At this moment, the Machine Race member was actually fighting Zhou Hao in close combat, not giving them the slightest chance.

Bang!

At a certain moment, Zhou Hao roared and punched out.

He knew that when Ling Shuying could not find an opportunity, he had to create an opportunity for her.

Ling Shuying naturally understood that Zhou Hao had deliberately created this opportunity for her.

Immediately, she entered a focused state.

At this moment, the world in her eyes seemed to become incomparably clear. Everything around her kept disappearing and becoming slow.

In the end, she only had one goal left.

As Ling Shuying's cheeks puffed up, she suddenly spat out a mouthful of ice mist. At this moment, the Machine Race beings moving at high speed in midair were also frozen in the ice crystals.

At this moment, this humanoid Machine Race member was like a butterfly frozen in amber, unable to move at all.

Although Zhou Hao had never cooperated with Ling Shuying before, their timing was still very good. At the moment Ling Shuying froze this humanoid Machine Race member, Zhou Hao exploded with a domineering strike that was 90% powerful, as if a green lightning bolt had struck in the air.

Boom!

A huge ball of flames suddenly exploded in midair.

A powerful air wave cloud ring instantly sent Ling Shuying flying.

Zhou Hao's figure moved and grabbed Ling Shuying.

Then, he immediately took out a rare-level Energy Bar and placed it in Ling Shuying's palm.

Ling Shuying's attack just now had already caused her to consume all her strength. Now, Ling Shuying had fallen into an extremely weak state.

In the meeting room of the Green Cloud Division, Heavenly King Ling suddenly stood up. Intense killing intent erupted from his entire body. He wanted to enter the spatial rift and kill the foreign races until their blood flowed like a river.

Ling Shuying had just used the Ling Family's Ice Soul Black Crystal Technique. The price she had to pay for using it was 10 years of her lifespan!

Chapter 247 - Experts Analyze While Laymen Watch The Show

Chapter 247: Experts Analyze While Laymen Watch The Show

“Why are you so weak?”

After resolving the humanoid Machine Race, Zhou Hao carried Ling Shuying back to the city tower.

Ling Shuying’s current state was very terrible. Her mental strength, essence energy, and blood essence power had all been exhausted.

Even her meridians had been frozen because of her secret technique.

The effect of that ultimate attack just now was very shocking. Under the Heaven Realm, there was definitely no foreign race being that could dodge or resist.

However, the aftereffects were also very serious. At this moment, Ling Shuying gave him the feeling that she was terminally ill.

“President Zhou...”

“I...”

Ling Shuying was very weak at this moment, but she still could not help but speak.

“What’s wrong?”

Zhou Hao looked at Ling Shuying in confusion, not knowing what she wanted to say.

“I want to strangle you to death. Why didn’t you use such a powerful technique earlier?!”

After gathering some strength, Ling Shuying finally finished speaking.

She was really going to be angered to death by Zhou Hao. The heaven-slaying sword slash that Zhou Hao had unleashed at the end could definitely kill that Machine Race member.

However, the detestable Zhou Hao had been hiding it all along. She thought that Zhou Hao was really unable to defeat the Machine Race. In a moment of desperation, she even used her family's secret technique.

Ling Shuying was on the battlefield just now, so she knew very well how terrifying Zhou Hao's attack was.

She was even somewhat shocked in her heart. No matter how powerful Zhou Hao was, he was still only a quasi Heaven Realm martial artist. Despite that, he was still able to unleash so much power.

"Uh..."

Zhou Hao did not know how to explain. It was not that he did not want to use it, but without Ling Shuying's help, he might not have been able to kill that guy with a single slash.

However, judging from Ling Shuying's current state, she had clearly paid a very heavy price.

"If we lose the first spatial rift this time, it'll be your fault!"

Ling Shuying did not know what Zhou Hao had placed in her palm. She subconsciously absorbed it as she spoke fiercely to Zhou Hao.

"I'll try my best..."

Zhou Hao smiled bitterly. If he continued to fight like this, he wouldn't be able to do anything when his rare-level Energy Bars were exhausted.

The rare-level Energy Bars on him were limited, but these foreign races seemed endless.

After dealing with the powerful humanoid Machine Race, everyone's mood was much better. They looked at Zhou Hao and Ling Shuying who were talking at the side and could not help but sigh.

"President Zhou and Senior Ling Shuying sure have good chemistry. They're really a perfect match."

"That's right. Previously, President Zhou struggled to beat that Machine Race expert. However, right after Senior Ling Shuying helped, he was able to kill that Machine Race expert in an instant."

“It’s just that the might of President Zhou’s final sword is too terrifying. The core of the Machine Race might have been completely destroyed. Otherwise, we could have researched it and made advancements in our armor technology.”

Most ordinary martial artists gossiped as they waited for their bodies to heal.

Those supernatural experts who were injured were still savoring Zhou Hao’s final slash!

As the saying goes, experts analyze while laymen watch the show.

Ordinary martial artists were simply unable to understand the strength and profundity of that strike, but supernatural martial artists like them could comprehend many things.

“That strike was too powerful!”

“That’s right. He probably touched the threshold of the Heaven Realm.”

Some newly-advanced supernatural martial artists did not even know about the realm above the peak of the supernatural level.

However, the martial artists of the same generation as Zhu Zao and the others knew very well.

The realm above the peak of the supernatural level was called Heaven Realm. Heaven Realm experts were also known as Heavenly Kings.

For example, Zhu Zao was honored as Heavenly King Zhu, and Ling Shuying’s father, Ling Beidou, was honored as Heavenly King Ling.

Of course, among the humans on Planet Earth, not all Heaven Realm martial artists were respected as Heavenly Kings. Only those martial artists who had made outstanding contributions to humanity could generally obtain this honor.

Otherwise, they would only be called Heaven Realm experts.

As everyone discussed, Zhou Hao had already killed his way into the battlefield.

In this battle, he had accumulated unprecedented amounts of luck points. Until now, his luck points had already reached a terrifying 60 million.

However, he only had 40 rare-level Energy Bars left. From this, it could be seen how terrifying his consumption of Energy Bars in this battle was..

Chapter 248 - Successful Defense!

Chapter 248: Successful Defense!

Zhou Hao killed his way into the battlefield again and was immediately targeted by the foreign races. They did not give Zhou Hao any chance to approach the siege machines.

The three siege machines from before had already been destroyed.

At this moment, one of the two siege machines below had been blocked by Commander Tie and the others. However, there was another one that had already broken through the frontline.

Boom!

As a ball of blue flames spewed out, an extremely powerful and domineering energy cannon instantly bombarded the energy barrier.

Countless cracks instantly appeared on the incomparably firm energy barrier.

The entire city tower at the frontline defense line was trembling violently. It could be seen how terrifying and powerful this siege machine was.

Boom!

At this moment, the second energy cannon shot out.

This time, the energy barrier was indeed completely shattered.

An even more tragic battle suddenly erupted at this moment.

Just as the siege machine was about to fire its third shot, a palm print descended.

Zhou Hao finally broke through the layers of barriers and charged over.

A Demonic Wood Palm suddenly landed. The huge siege machine was directly smashed into the ground, causing the entire ground to tremble.

However, this siege machine was not to be underestimated. It was almost completely unscathed after receiving Zhou Hao's palm.

This was the most terrifying aspect of the siege machines. Their strength was huge, and their defense was terrifying.

Facing such siege machines, most martial artists were helpless.

However, Zhou Hao did not delay this time. 90% of his strength instantly erupted. He formed a sword with his fingers and summoned the Green Blade Profound Sword.

The Green Blade Profound Sword that was already dazzling with green light instantly became even more dazzling in his hand.

This strike was even more powerful and domineering than when he had killed the Machine Race member just now. At this moment, the extremely sharp slash also landed with a bang.

When this huge sword aura landed, the thick armor of the siege machinery was instantly sliced open like thin paper.

Zhou Hao continued to slash with his sword.

At this moment, Zhou Hao's meridians also emitted waves of intense burning sensation.

The battle this time lasted too long.

The essence energy in his body had already been exhausted several times. However, he had recovered it each time with the help of the rare-level Energy Bar.

Although he had prepared sufficient resources, his meridians clearly had a limit.

In the short term, he definitely could not have another explosion of that level. Otherwise, who knew how long it would take for his meridians to recover.

On the city wall at the frontline of the defensive line, Ling Shuying looked at the rare-level Energy Bar in her hand that had already dimmed and was still in a daze for a long time.

What kind of treasure was this? She had already mostly recovered from her serious losses!

"Hai! I wonder how long this battle will last!"

On the city wall at the frontline of the defensive line, a martial artist sighed faintly.

An extremely tragic battle had erupted in the five spatial rifts in Huaxia this time. Among the five spatial rifts, the battle in the first spatial rift was the most dangerous.

It could be said that without President Zhou of the Supernatural Council, the first spatial rift would have been completely lost.

Whether it was the high-level humanoid Machine Race or the siege machines of the Machine Race, almost all of them had been destroyed by President Zhou alone.

The current Zhou Hao already had a very high reputation in the first spatial rift defense line.

There was even a saying among the martial artists and soldiers.

“President Zhou alone is worth an entire army!”

On the battlefield, Zhou Hao finally heaved a sigh of relief.

Although there were many foreign races, most of them did not have much intelligence and only knew to charge forward.

If not for the command of some high-level foreign races, those low-level foreign races would have already been scattered.

After the five siege machines were all destroyed, the human reinforcements arrived one after another. The foreign races saw that the situation was bad and chose to retreat temporarily.

“The foreign races have retreated!”

“That’s great!”

“We have successfully defended against the foreign races!”

“We did it!”

“How impressive! As expected of Huaxia martial artists!”

“How impressive! President Zhou!”

...

Seeing the foreign races retreat like a tide, the martial artists at the first spatial rift defense line could not help but cheer.

The first spatial rift defense battle this time was really too difficult and unbelievable. It could be said to be filled with ups and downs.

Even now, many martial artists were still in disbelief as they watched the foreign races retreat.

Unexpectedly, they really managed to defend against the foreign races this time!

“We succeeded!”

On the city tower, Ling Shuying had already recovered a lot because of the rare-level Energy Bar. Although her body still felt weak, it was unable to stop her current joy.

Once the first spatial rift was lost, the consequences would be unimaginable!

Seeing the foreign races gradually retreat, Zhou Hao decided to leave those foreign races alone. Although he had obtained 80 million luck points in this battle, his rare-level Energy Bars had also been used up.

Not only was the rare-level Energy Bars exhausted, but his meridians also felt a burning pain.

The current him could be considered to have exhausted all his strength.

Chapter 249 - Joint Invitation

Chapter 249: Joint Invitation

Although his meridians would become stronger every time they were slightly injured and recovered,

However, there were also limits to what his meridians could withstand. For example, if he continued to use powerful techniques without restraint, the meridians in his body might very well collapse.

If his meridians suffered such a fatal loss, Zhou Hao's cultivation would basically be crippled.

As soon as they saw Zhou Hao return, the city gate tower at the frontline exploded with the most enthusiastic applause and cheers of all time.

“How impressive! President Zhou!”

“President Zhou is awesome!”

“President Zhou is peerless!”

One by one, the martial artists were filled with enthusiasm and indescribable excitement.

Their gazes towards Zhou Hao were filled with worship and admiration.

Zhou Hao’s arrival had injected new hope and vitality into the frontline defense line of the first spatial rift. It was also because of him that they were able to defend the first spatial rift!

“President Zhou, Minister Zhang of the Green Cloud Division invites you to the Green Cloud Division headquarters!” Commander Tie said happily.

Under normal circumstances, even the direct martial artists of the Green Cloud Division would find it very difficult to receive the invitations from the high-level officers of the Green Cloud Division.

This time, Zhou Hao had proven his worth. He was directly invited by the twelve high-level officers of the Green Cloud Division!

In the history of the entire Huaxia martial artists, Zhou Hao was the first martial artist to receive such an honor.

Compared to Commander Tie’s excitement, Zhou Hao was somewhat conflicted.

He knew that although he had already restrained himself in this battle and hid many methods and strength, he was still too dazzling in comparison to the others.

In such a special period, a special martial artist like him was definitely worth researching.

They definitely wanted to find ways to benefit from his value.

However, his heaven-defying luck points and Heaven Dao software could not be replicated.

Even if the Green Cloud Division wanted to cut him up and study him, they would not be able to figure out anything.

“Forget it, let’s make a trip.”

After thinking for a moment, Zhou Hao still decided to cooperate.

He had contributed greatly to Huaxia.

Moreover, because of Heavenly King Zhu, his platinum-level Energy Bar had contributed even more to the Huaxia martial artists and the Green Cloud Division.

Considering their relationship, Minister Zhang and the others probably wouldn't make things difficult for him.

Moreover, it made sense for him to accept the invitation and get on good terms with those high-level officers. After all, if anything happened in the future, Zhou Hao could depend on the Green Cloud Division.

As Zhou Hao was analyzing the pros and cons, two very shocking pieces of news swept through the entire Huaxia Realm like a hurricane. Then, it swept through the five continents of Planet Earth at an incomparably terrifying speed!

The first piece of news contained some pictures, videos, and text information.

This information described the situation and situation of the battle at the first spatial rift in Huaxia.

To a certain extent, this should be considered a war secret.

However, the incident in the first spatial rift this time was too sudden, and it was very typical and unbelievable.

Therefore, the Huaxia military still decided to announce it and provide a sample for all the martial artists on Planet Earth.

If other countries and regions encountered such a crisis, they would not be flustered and helpless if they had this information.

As this information was announced, the name of President Zhou of the Huaxia Supernatural Council quickly shocked the five continents!

From these combat information, all parties were able to more or less understand how terrifying President Zhou was.

Many countries were now very envious. As expected, the Huaxia Martial Dao World now had a powerful descendant.

Be it the early Eight Heavenly Kings or the later Green Cloud 12 high-level officers, or the current President Zhou, the genius martial artists in Huaxia were simply endless!

The second piece of news also caused a commotion in the higher-ups of the Huaxia Martial Dao World. It was that President Zhou of the Supernatural Council had received a joint invitation from the twelve high-level officers of the Green Cloud Division.

This was an honor that no martial artist had ever received before. It might not happen again in the future!

As everyone was discussing Zhou Hao enthusiastically, Zhou Hao had already left for the Green Cloud Division headquarters.

The Green Cloud Division's headquarters was built in a very hidden place. There were no markings or clear coordinates on the map of the 500-kilometer area.

Zhou Hao had just arrived at the Green Cloud Division headquarters when he saw a familiar face.

"Hahaha, Brother Zhou, I was the one who went to the frontline defense line to see you not long ago. I didn't expect you to arrive so quickly!"

Zhu Zao was very happy. He did not have the arrogance of a Heaven Realm expert at all. After all, he had previously obtained huge benefits from Zhou Hao.

The way he looked at Zhou Hao now was as if he was looking at a shining gold mine.

Zhou Hao was indeed a gold mine. Just from this battle, Zhou Hao had already revealed many unbelievable things that were worth studying.

This was also the reason why he had invited Zhou Hao over.

Chapter 250 - Acting Cocky Again

Chapter 250: Acting Cocky Again

Although Zhou Hao had been invited by the twelve high-level officers of the Green Cloud Division, Zhou Hao did not see these twelve big shots this time. He only saw two of them.

One of them was the smiling Heavenly King Zhu who looked like a Buddha. The other was the boss of the Green Cloud Division, Minister Zhang!

Not to mention a newbie who had just joined the Green Cloud Division, even Ling Shuying and the other elites of the Green Cloud Division rarely interacted with Minister Zhang.

This was not because Minister Zhang was too powerful, but because he had too many things on his hands.

Zhou Hao knew that although there were only two people present, everything that happened here was definitely under the watch of the other ten big shots.

“President Zhou, to cut the long story short, I invited you here because I hope you can cooperate with the Green Cloud Research Institute to conduct some data testing.”

After shaking hands with Zhou Hao, Minister Zhang sat down and went straight to the point.

Zhou Hao’s martial strength was too powerful. Once they discovered anything valuable from him, the gains would undoubtedly be huge for all the martial artists in Huaxia.

“Sure.” Zhou Hao nodded. “However, there’s nothing special about me.”

Minister Zhang nodded. He had already understood from the moment he learned that Zhou Hao was willing to come over.

Although Zhou Hao had a secret technique, it was definitely a secret technique that could not be replicated.

Otherwise, Zhou Hao would not have come over so readily. Even if he did, he would definitely have made many conditions.

After having reasonable expectations, he was naturally not disappointed.

However, since it was official business, they still had to go through checkups.

Even if they could not replicate Zhou Hao’s strength, it was still very good to have a detailed data model of Zhou Hao’s various abilities.

On the other hand, Zhou Hao had already thought about this on the way here. Therefore, he was not surprised when Minister Zhou suggested it and quickly agreed.

If he were in Minister Zhang’s position, he would have done the same.

However, his strength and specialness could not be replicated. Therefore, even if Minister Zhang asked the Green Cloud Research Institute to test his various data, it would still be a waste of time.

However, it was useless for him to say this. The others would not believe him at all and would only think that he was being selfish.

“Here are 2,000 colored energy stones. Consider it a reward for your outstanding contribution to the first spatial rift.”

At this moment, Heavenly King Zhu handed a silver box to Zhou Hao.

Clearly, this silver box was also a type of spatial device. Otherwise, it would definitely be unable to store 2,000 colored energy stones.

Zhou Hao smiled secretly. It seemed that it was a pity that this Heavenly King Zhu did not become a businessman. He had a lot of business experience.

At this moment, Heavenly King Zhu took out 2,000 colored energy stones to reward Zhou Hao. He also wanted to gain Zhou Hao’s favor and make him lower his guard so that he could ask questions later.

“Do you have any special methods for synthesizing the crystals?”

Indeed, Minister Zhang quickly got to the main topic and asked what all the Huaxia martial artists were curious about.

“The reason why my synthesis works so well is because my compatibility with the Green Wood Spring Autumn Art is very high. After the previous test, my compatibility score was 75. As I cultivate deeper, my compatibility score has already reached 90.”

Zhou Hao replied as he added some truth into his lie.

“What? Your compatibility with the Green Wood Spring Autumn Art has reached 90 points?”

Minister Zhang and Zhu Zao, the two big shots of the Green Cloud Division, were so shocked that they stood up.

When one’s compatibility with any cultivation technique reached 90 points, they were basically all existences that were guaranteed to enter the Heaven Realm.

Although Zhou Hao was now called a quasi Heaven Realm, the difference between a Heaven Realm and a quasi Heaven Realm was like the difference between the clouds and mud.

Countless quasi-Heaven Realm martial artists might be stuck at the quasi-Heaven Realm their entire lives, unable to step into the true Heaven Realm even after spending their entire lives.

However, since Zhou Hao's compatibility with the Green Wood Spring Autumn Art was so high, then Zhou Hao's strength could be explained.

Moreover, according to what Zhou Hao just said, his compatibility with this cultivation technique would continue to increase.

In such a situation, it was naturally not a problem for him to directly use essence energy to extract a little blood essence from energy stones.
