

# Starting With One Million Luck Points

## Chapter 251 - Bold Guess

*Chapter 251: Bold Guess*

What they did not know was that as Zhou Hao's physique kept evolving, his compatibility with the Green Wood Spring Autumn Art had already reached 100 points.

Moreover, Zhou Hao also understood that it was not that he did not have special physiques like Ji Yufan and the others. It was just that his special physique seemed to be reflected in his compatibility with the cultivation technique.

As the president of the Supernatural Council, he could already easily access a large amount of confidential information.

Therefore, he knew very well that in the history of the entire Huaxia Martial Dao World, not a single martial artist had reached 100 points in their cultivation technique compatibility!

Yes, not a single one!

In comparison, it showed how powerful he was. Zhou Hao only cultivated the Green Wood Spring Autumn Art and the Five Elements Grand Yan Record but had perfected both of these cultivation techniques!

If this was exposed, it would be unreasonable for the Green Cloud Division to not cut him into pieces to research.

After the cultivation technique compatibility reached 80 points, the martial artist's strength would improve greatly.

In fact, Zhou Hao also wanted to understand why his compatibility with the cultivation technique was so high and then share this secret.

However, he was clearly unable to do this in the short term.

"Hai, I'm afraid I've made a wasted trip this time."

After a short shock, Minister Zhang could not help but smile bitterly, the smile on his face as bitter as it could be.

Although Zhou Hao had yet to be allowed to enter the Green Cloud Research Institute for testing, Minister Zhang basically knew the results.

One of Zhou Hao's two big secrets was his terrifying strength. This should be irreplicable.

The other secret was his method to extract and synthesize crystals. He originally thought that Zhou Hao had a special secret recipe, but in the end, it appeared that he had completely relied on his overly monstrous physique.

If they wanted to do what Zhou Hao did, they would need to find another quasi Heaven Realm genius.

However, the most important thing for a quasi Heaven Realm genius was to break through to the Heaven Realm and not synthesize an energy stone.

"Although you have made a huge contribution to the Green Cloud Division, the entire Huaxia Martial Dao World, and even Planet Earth by synthesizing the Energy Stones.,,"

"However, you're still very talented, so you should still focus on breaking through to the Heaven Realm."

Minister Zhang said earnestly. Although he also hoped that Zhou Hao could synthesize more Energy Stones, he could not delay Zhou Hao and let him jeopardize his future.

"Thank you for your reminder, Senior Zhang."

Zhou Hao immediately nodded. He naturally understood this.

However, the so-called synthesized crystal was simply platinum-level Energy Bar gifts and was not synthesized by him.

He did not need to spend time synthesizing. He just needed to accumulate luck points and keep giving away gifts.

"Actually, there are also huge benefits for you to not break through to the Heaven Realm." At this moment, Heavenly King Zhu smiled and said.

"Oh? What does Heavenly King Zhu mean?"

Minister Zhang was stunned for a moment before his eyes lit up.

"That's right! Ignoring the fact that breaking through to the Heaven Realm is very difficult, there are indeed huge benefits for you even if you don't break through to the Heaven Realm!"

After Heavenly King Zhu mentioned this, Minister Zhang immediately understood.

Even he, who had cultivated for forty to fifty years, could not help but be excited at this moment.

Zhou Hao was puzzled, not knowing what the two were talking about.

“Seniors, what do you mean?”

Zhou Hao asked in confusion. Normally, isn't it better to advance?

Why were they telling him this?

Because of his special nature, Zhou Hao was unable to break through in a short period of time, especially since he was still unable to enter the depths of the spatial rift to cultivate.

However, Minister Zhang, Heavenly King Zhu, and the others in front of him had all entered the spatial rift to break through to the Heaven Realm without exception.

Although the spatial rift was incomparably dangerous, the cultivation environment in the spatial rift was also better. That was the true cradle of the Heaven Realm.

Zhou Hao couldn't understand their reason for telling him this.

“Ahem, there's something you might not know yet... but I can tell you now.”

“The super experts of the humans and the super experts of the foreign races have an agreement. The various spatial rifts on Planet Earth are all training grounds for the two sides.”

“In the training grounds, the Heaven Realm experts of both sides are not allowed to interfere!”

“However, the true training grounds should be inside the spatial rift and not outside. This is very dangerous for the residents on Planet Earth.”

“All along, we have been waiting for an opportunity. We have been waiting for a group of very powerful quasi Heaven Realm martial artists to force the foreign races on Planet Earth back into the spatial rift and completely relocate the training grounds and the battlefield into the spatial rift.”

“In this way, not only will we be able to obtain a better cultivation environment, but the safety of Planet Earth will also increase in a straight line.”

“Even though I've prepared for so many years, I'm still too far away from this step.”

Minister Zhang could not help but look at Zhou Hao in excitement.

## Chapter 252 - Dawn

*Chapter 252: Dawn*

To nurture a group of very powerful quasi-Heaven Realm experts was no different from a fool's dream in a short period of time even if they exhausted the resources of the various countries on Planet Earth.

Therefore, the battlefield between the humans and the foreign races had always been in the territory of the humans and not the foreign races.

But now, Minister Zhang saw a glimmer of hope!

They needed a lot of time and effort to nurture a group of very powerful quasi Heaven Realm experts. Even with the seven elite bases, they still could not find so many elite seedlings.

However, nurturing a powerful quasi Heaven Realm martial artist was not impossible.

In particular, Zhou Hao's foundation was incomparably firm and consolidated, and his combat strength was also incomparably terrifying.

Now, this fellow was constantly using his essence energy to synthesize energy stones. It seemed as if his essence energy was endless. He could temper his essence energy repeatedly and cleanse his meridians.

They did not even need Zhou Hao to do anything. As long as Zhou Hao continued like this, he could definitely become the strongest quasi-Heaven Realm martial artist in the future.

At that time, Zhou Hao would definitely be able to sweep through the various spatial rifts on Planet Earth.

"Before you break through to the Heaven Realm, you must not enter the spatial rift."

"In addition, be it in cultivation or life, you can ask for anything."

“If you want us to, we can even send Comrade Ling Shuying to the Supernatural Council to help you work.”

Minister Zhang said shamelessly and tried to use Ling Shuying to seduce Zhou Hao.

Of course, this was something that couldn't be helped. After all, giving Zhou Hao more benefits could prevent him from being greedy.

In the other meeting room, Heavenly King Ling was extremely happy.

He did not feel that Minister Zhang had sold his daughter. Instead, he felt that Minister Zhang had done him a huge favor.

He couldn't even find the strongest quasi Heaven Realm son-in-law even if he tried. What was there to be dissatisfied about?

“Cough cough, why don't I have a beautiful daughter!”

Heavenly King Ling was smug, but the other Heaven Realm big shots were indignant. Among them, some only had sons, and some did not have any.

Some had daughters but their daughters were already married.

In the entire meeting room, there were only two people with such unique conditions.

One of them was Heavenly King Ling, and the other was Heavenly King Li, who had never gotten along with Heavenly King Ling.

Now that Heavenly King Ling's daughter had already been mentioned first, Li Tianwang naturally couldn't say anything else.

However, what everyone did not know was that Li Tianwang had already arranged for his precious daughter to get in touch with Zhou Hao.

Other people might not know the value and strength of a supreme quasi Heaven Realm expert, but how could he not know?

The current Minister Zhang had almost reached the level of the strongest quasi Heaven Realm in the past.

Although they were all the highest ranking officers of the Green Cloud Division, it would still take at least three to four of them to fight Minister Zhang to a draw!

In the reception room, Zhou Hao finally understood.

He was unable to break through quickly to begin with, so Minister Zhang's suggestion was naturally the same as his.

However, why would the other party send Ling Shuying to help him?!

Although Ling Shuying was so beautiful that it was unknown how many martial artists in Huaxia liked her, he did not have any intentions towards her.

Moreover, he had only seen Ling Shuying a few times and had fought alongside her twice.

However, judging from Minister Zhang and Heavenly King Zhu's intentions, they were clearly trying to matchmake him and Ling Shuying.

Zhou Hao was somewhat speechless for a moment.

Was it really appropriate for Minister Zhang to be so eager to take advantage of someone else's daughter?!

"Alright, I should get going. Thank you, Heavenly King Zhu, for taking Little Zhou to the Research Institute."

Without waiting for Zhou Hao to answer, Minister Zhang had already decided.

After Minister Zhang left, Zhou Hao and Heavenly King Zhu clearly heaved a sigh of relief.

"Hehe, let's go, Brother Zhou. Shall I show you around Green Cloud headquarters?"

Heavenly King Zhu hugged Zhou Hao's shoulder enthusiastically, not treating him as an outsider at all.

This was because Zhou Hao was not an outsider at all, but the source of his wealth!

Although Zhou Hao had not provided many synthesized crystals yet, Heavenly King Zhu had already found many trading partners in the five continents of Planet Earth.

As time passed, the demand for synthesized crystals in the martial arts world of the five continents would increase.

At that time, Zhou Hao would basically become a large-scale cash printing factory!

"Brother Zhu, do you need my help?"

Zhou Hao was somewhat unable to stand Heavenly King Zhu's enthusiasm.

After all, this was one of the twelve big shots of the Green Cloud Division.

Despite having a friendly personality, Zhu Zao's status was still very high. No matter how powerful Zhou Hao was, there was no need for him to be like this.

"I can't say that I have a favor to ask of you. I just want to deepen our relationship. However, don't worry. I've always been fair. I'll give you all the benefits you deserve! You will not get a single cent less of what you deserve!"

What Zhou Hao did not know was that Heavenly King Zhu had not finished speaking. Zhou Hao would not get a single cent less, but a few million less!

## **Chapter 253 - Endless Life, Endless Battle**

*Chapter 253: Endless Life, Endless Battle*

Zhou Hao's strength lay in the Heaven Dao software and luck points.

Therefore, although many data were tested in the Green Cloud Research Institute, they still weren't able to obtain any meaningful results.

Minister Zhang and Zhu Zao were not disappointed by this outcome. They had long expected this.

If Zhou Hao really had some secret that could be discovered and replicated in bulk, Zhou Hao would definitely not have come to Green Cloud Base so quickly.

After the test ended, Zhou Hao naturally returned to the Seventh Elite Base.

Although the consumption of energy in the battle in the first spatial rift was huge, the gains were also huge.

By now, Zhou Hao had more than 80 million luck points!

It was not far from 90 million.

According to his previous experience, if he wanted to obtain more rare-level Energy Bars, he would have to spend around 30 million luck points at a time.

Therefore, Zhou Hao planned to find a place to vent his anger.

After killing some demon beasts, Insect Race, and Machine Race beings, he accumulated 90 million luck points.

In this way, he could obtain three batches of rare-level Energy Bars.

In this battle, the use of a rare-level Energy Bar could be said to be vividly displayed.

If he did not have enough rare-level Energy Bars this time, he would be in big trouble.

Moreover, the first spatial rift would definitely be lost.

After thinking for a moment, Zhou Hao still chose to go to the seventh spatial rift. His luck points were not much different now. It was also fine for him to go to the seventh spatial rift to kill some foreign races and reduce the pressure on the seventh spatial rift.

Xiao Jiangtian and the others in the seventh spatial rift naturally welcomed Zhou Hao's arrival.

However, everyone was surprised by Zhou Hao's appearance. After all, according to the information they had previously spread, this President Zhou of the Supernatural Council had just killed to his heart's content in the first spatial rift not long ago.

Not long after, he recovered his essence energy and returned to the spatial rift to hunt the foreign races again.

This recovery ability was indeed impressive.

Seeing Zhou Hao kill the foreign races so enthusiastically, many martial artists felt that Zhou Hao should hate the foreign races very much. Many martial artists also felt that this President Zhou of the Supernatural Council was definitely an out-and-out battle maniac.

After all, he could always be seen fighting.

He was always either fighting or on the way to battle.

Just as everyone was guessing his motive, Zhou Hao had already killed everyone in the seventh spatial rift and finally gathered enough luck points.

He immediately felt happy and refreshed.

Seeing Zhou Hao's appearance, Xiao Jiangtian and the others were even more certain that Zhou Hao was a battle maniac.

After the other martial artists fought such a big battle, they were already exhausted. In the end, when it came to Zhou Hao, he actually had a satisfied expression.

Indeed, the world of experts was not something they could understand.

While everyone was still talking about Zhou Hao, he had already returned to his villa to lay down.

This was because the rare-level Energy Bars had already been consumed. This time, he went straight to the point after entering the Heaven Dao software.

The popularity of Fairy Yue Ling's live-stream has gradually increased over the past few days. However, because she didn't have many loyal high-level users to support her, her ranking was also in danger.

When Zhou Hao went online, Fairy Yue Ling was singing to the users in the live-stream.

Her voice was ethereal and sweet, sounding very pleasant.

Among all the female streamers, there were only a few who surpassed Fairy Yue Ling in terms of voice, appearance, and aura.

However, some high-level users would often make unreasonable demands. Because Fairy Yue Ling was unwilling to accept these demands, there were very few high-level users in her live-stream.

"Welcome, welcome. The big shot is here again! @ I'm just an ordinary person!"

As soon as Zhou Hao entered Fairy Yue Ling's live-stream, it was as if a nuclear bomb had been dropped in Fairy Yue Ling's live-stream, instantly livening up the entire scene.

"Look up to the big shot! @ I'm just an ordinary person!"

"Is the big shot going to spend money forcefully again this time? @ I'm just an ordinary person."

As soon as Zhou Hao entered the live-stream, he became the main character. It was as if these users did not seem to be here to see Fairy Yue Ling, but to see Zhou Hao.

"Is the big shot here to get another rare-level Energy Bar?"

"Big shot, please teach me. Do you have any secret recipes that I can buy at a high price?"

Fairy Yue Ling: “Welcome, big shot. @ I’m just an ordinary person.”

Zhou Hao’s arrival made Fairy Yue Ling very happy.

During this period of time, she was afraid of disturbing Zhou Hao and had not contacted him much.

In fact, Zhou Hao had already helped her a lot. Every time he appeared, her ranking would rise sharply.

Therefore, now that Zhou Hao had come to her live-stream room, even if he did not buy any gifts and only came to chat, she would still be very happy.

I’m just an ordinary person. “I’ve been busy recently, so I haven’t been here much. @ Fairy Yue Ling.”

Zhou Hao also replied to Fairy Yue Ling. He had been either busy with battles these past few days. Naturally, he did not have the time to come to Fairy Yue Ling’s live-stream.

“Fairy Yue Ling, quickly dance for the big shot.”

“That’s right, that’s right. If you want to enter the top 50,000, won’t it be easy?”

“Fairy Yue Ling, you’ve finally gotten better. You have to seize the opportunity well.”

In the live-stream, everyone kept giving advice to Fairy Yue Ling.

It had to be known that a big shot like Zhou Hao was like an honored guest, even if he went to the live-stream room ranked in the top 100.

In the entire Heaven Dao software, only Zhou Hao had obtained a legendary item.

He was basically a living legend..

## Chapter 254 - Unmanned Wealth

*Chapter 254: Unmanned Wealth*

In fact, what they did not know was that as long as Zhou Hao was willing, it would not be too difficult for him to get more.

Fairy Yue Ling: "I just learned a new dance. Does big shot want to watch it?"

For some reason, Fairy Yue Ling suddenly felt a little shy, and her heart throbbed inexplicably.

If not for Zhou Hao, she would not have even shown her face in the live-stream.

Although her dance was very beautiful, she was too embarrassed to show it.

I was just an ordinary person. "Of course."

After Zhou Hao casually replied, he actually did not even look at it.

Now, he had already spent 30 million luck points and began to draw rare-level Energy Bars.

"Fairy Yue Ling, quickly start a PK!"

Seeing that Zhou Hao seemed to have the intention to make a move, a user immediately suggested.

"Yes, yes, Fairy Yue Ling, start the PK!"

The PK match in the live-stream only appeared after the Heaven Dao software was upgraded.

Through PK, streamers could upgrade their stars and receive corresponding rewards.

The higher the star level, the greater the reward.

However, previously, Fairy Yue Ling had mostly lost. Until now, she was still only a one star host.

Hearing everyone's reminder, Fairy Yue Ling hesitated for a moment and still asked for Zhou Hao's opinion.

Fairy Yue Ling: "Big shot, can I start a PK now? @ I'm just an ordinary person."

According to Zhou Hao's spending level, there was definitely no problem for her to start a PK. However, Fairy Yue Ling was also worried that Zhou Hao would not like her acting on her own.

I'm just an ordinary person. "Sure."

Zhou Hao had been crazily ordering platinum-level Energy Bars. After all, he had spent 30 million luck points. He had to earn back his money, or he would suffer a huge loss.

“Ding! Congratulations ‘I am only an ordinary person’ for giving away the platinum-level Energy Bar and obtaining the reward multiplied by 10 times!”

“Ding! Congratulations ‘I am only an ordinary person’ for giving away the platinum-level Energy Bar and obtaining the reward multiplied by 20 times!”

“Ding! Congratulations ‘I am only an ordinary person’ for giving away the platinum-level Energy Bar and obtaining the reward multiplied by 20 times!”

Zhou Hao kept sending gifts like a storm, and then the news of him winning kept popping up.

Because many users in the live-stream were giving away platinum-level Energy Bars, Zhou Hao did not win every time.

However, since he could see the exact number, he naturally had a huge advantage.

The other users were all guessing blindly, but he knew that the outcome still depended on one’s hand speed and luck.

Those situations where he did not win the prize happened when other users matched the numbers the moment they appeared. That was why he would sometimes lose the prize.

If he had chosen a more expensive gift, this wouldn’t have happened.

However, it couldn’t be helped. What he needed now was a rare-level Energy Bar.

If he could choose another gift to give away, he would also not have to compete with such a group of users for the rare-level Energy Bars.

“Ding! Congratulations ‘I am only an ordinary person’. You have received a rare-level Energy Bar x10 for giving away the platinum-level Energy Bar!”

As soon as this news was out, Fairy Yue Ling’s live-stream erupted again.

This was the first time in the entire day a rare-level Energy Bar had appeared in all the live-stream rooms.

Such a rare-level Energy Bar was very difficult to obtain. After the rare-level Energy Bar dropped in Fairy Yue Ling’s live-stream, the various users and big shots also came over to make a move forcefully.

At the same time, the female streamer who was competing with Fairy Yue Ling through the PK match was completely dumbfounded.

In a PK match between streamers, if the difference in points between the two sides was too great, the killing effect would be activated.

The greater the difference in points, the faster one could achieve the killing effect. If one's points were incomparably large, the other party would only have three seconds to struggle.

Now that Zhou Hao was focused on obtaining the rare-level Energy Bar, he naturally did not give the other party any chance to struggle.

Therefore, the female streamer did not have any room to struggle and lost directly!

"Damn! The big shot is awesome. He killed a streamer in three seconds! @ I'm just an ordinary person!"

"Carry the streamer away. Let's welcome the next victim!"

"Hahaha!"

"That's right. What's Fairy Yue Ling waiting for? Hurry up and continue."

"Yes, yes, yes, continue the PK!"

Under everyone's reminder, Fairy Yue Ling immediately continued the PK.

When the streamer opposite had just matched Fairy Yue Ling, she saw that it was an unfamiliar name and did not care at all.

However, a moment later, she was completely dumbfounded.

She had only read Fairy Yue Ling's name for a moment when the other party instantly activated the killing effect, leaving her only three seconds.

This was simply inhumane!

As expected, this streamer also lost directly.

## Chapter 255 - Winning Twenty Battles

*Chapter 255: Winning Twenty Battles*

In Fairy Yue Ling's live-stream, more and more users came to watch the fun.

Zhou Hao also discovered that after consuming 30 million luck points, the probability of obtaining a rare-level Energy Bar had increased a little. However, it had not increased by 3 times. At most, it had increased by 1.5 times.

In such a situation, it was simply impossible for him to spend 30 million luck points to give away gifts.

He now had the support of the Green Cloud Division. With Heavenly King Zhu around, he had even become Planet Earth's global trading partner.

Therefore, he did not lack Heaven Dao coins at all. What he lacked was luck points.

In Fairy Yue Ling's live-stream, many users were now completely dumbfounded.

When Zhou Hao sent the gifts crazily, their eyes widened and they subconsciously swallowed their saliva.

They also wanted to become rich and give away gifts crazily like Zhou Hao!

Now, all the live-stream rooms were being bombarded by notifications about Zhou Hao.

Almost all the notifications that popped up were news of Zhou Hao winning.

Under such circumstances, more and more users were attracted over.

It was not just the users. Many streamers also came to watch.

After these streamers saw Zhou Hao violently giving away gifts, they all cried from greed.

They even felt like they were about to suffocate.

Zhou Hao was also very tense during the 60 seconds.

No one knew how many gifts Zhou Hao had received in such a short period of time.

After this operation, Zhou Hao also experienced what it meant to lose.

Previously, when he spent 10 million luck points, he had even gotten 100 rare-level Energy Bars.

However, this time, after spending 10 million luck points, he only got 30 rare-level Energy Bars.

He could not let this continue!

After thinking for a moment, Zhou Hao decided to spend 10 million at a time. In this way, the probability of him obtaining a rare-level Energy Bar was naturally higher!

On Fairy Yue Ling's side, she had already achieved ten consecutive victories from the PK match and did not intend to stop!

She once again experienced the feeling of success thanks to Zhou Hao.

"The big shot is awesome. He directly sent Fairy Yue Ling onto the top of the rankings! @ I'm just an ordinary person." As Zhou Hao was spending violently, many users also said with admiration.

"She got onto the top of the rankings after ten consecutive victories. The longer she can keep this up, the higher her ranking will be. With the big shot around, Fairy Yue Ling will probably break the record today!"

After this user said this, the other users became even more excited.

Previously, because Fairy Yue Ling's star level was too low, the level of the streamer matched by the system was naturally not too high.

Therefore, under Zhou Hao's terrifying barrage, the female streamers who were matched with Fairy Yue Ling were unable to fight back at all.

However, things were different now. As Fairy Yue Ling's consecutive victories increased, the streamers she encountered also became more and more powerful.

In other words, everyone might be able to witness a true battle soon.

On the Heaven Dao software, Zhou Hao was undoubtedly a super big shot.

Although Zhou Hao's level was not high, his spending ability and luck definitely suppressed most users.

However, although Zhou Hao was a super big shot, he was only one of them.

In some other live-stream rooms, there were still very powerful big shots.

Moreover, in some live-stream rooms, there was even more than one big shot senior supporting them.

Therefore, it was certain that Fairy Yue Ling would soar into the sky, but it seemed impossible for her to reach the top.

“Thirteen consecutive wins!”

While Zhou Hao was still crazily buying gifts like a storm, many users were also enjoying the show. They didn’t dare to blink at all.

It had to be known that Fairy Yue Ling had already reached the top hundred of the daily rankings. At this moment, she might not necessarily be matched with the streamers on the daily rankings, but all the streamers who were matched were undoubtedly very powerful.

At this moment, the users wanted to see Zhou Hao defeat the entire crowd and also wanted to see if there were any big shots who were able to compete with Zhou Hao.

In the live-stream opposite Fairy Yue Ling, a diamond user even shouted that he wanted to team up with Zhou Hao after losing to him.

However, the PK rules were very interesting. As long as a gift was dropped, the points would multiply according to a ratio of 10 to 1.

If Zhou Hao got the reward multiplied by 10 times, his points would only be multiplied by 1. If Zhou Hao got the reward multiplied by 30 times, his points would instantly multiply by 3 times.

If Zhou Hao obtained a rare-level Energy Bar, his points would increase by 10 times or even higher.

Under such circumstances, there was naturally no streamer who was a match for Fairy Yue Ling.

This was because in the other live-stream rooms, everyone could only grind blindly. On Zhou Hao’s side, he could easily win and double or triple his points.

Even after Fairy Yue Ling won twenty consecutive matches, she did not encounter any opponents that could compete against her.

However, the subsequent advancement to the rankings was destined to not be easy.

## Chapter 256 - PK with a Big Broadcast Host!!!

*Chapter 256: PK with a Big Broadcast Host!!!*

Streamers would get rewarded as long as they could enter the top 50 of the daily PK leaderboard. The streamers and big shots in the other live-stream rooms also worked very hard for this reward.

In order to maintain their winning streak, many big shots even spared no effort.

After all, after achieving a certain level of successive victories, they either stopped fighting or weighed their own conditions and continued to charge.

When it came to twenty consecutive victories, Fairy Yue Ling was also somewhat conflicted. She did not know if she should continue fighting.

Although her current winning streak momentum was good, most of the points were obtained thanks to Zhou Hao.

Without Zhou Hao, she was nothing.

I'm just an ordinary person. "Continue the PK." Seeing that Fairy Yue Ling did not continue the PK, Zhou Hao immediately said casually.

At this moment, Zhou Hao had sufficient luck points and Heaven Dao coins, it was not a problem for him to defeat everyone.

Most importantly, in order to obtain rare-level Energy Bars, he still had to keep giving gifts. In that case, it wouldn't hurt for him to also help out Fairy Yue Ling.

"Did you hear that, Fairy Yue Ling? The big shot told you to continue the PK."

"That's right, Fairy Yue Ling, why are you still hesitating? With the big shot senior around, what are you afraid of?!"

"Hurry up and continue it!"

As Fairy Yue Ling was very touched, the other users in the live-stream were all feeling anxious to death.

At a time like this, how could she dawdle?

According to Zhou Hao's speed at buying gifts, she could beat many streamers.

"Ding! Congratulations 'I am only an ordinary person' for giving away the platinum-level Energy Bar and obtaining the reward multiplied by 10 times!"

"Ding! Congratulations 'I am only an ordinary person' for giving away the platinum-level Energy Bar and obtaining the reward multiplied by 30 times!"

"Ding! Congratulations 'I am only an ordinary person' for giving away the platinum-level Energy Bar and obtaining the reward multiplied by 20 times!"

...

While Fairy Yue Ling was busy with the PK, Zhou Hao also kept winning.

However, the rare-level Energy Bars were really difficult to obtain.

Now, Zhou Hao already had a lot of platinum-level Energy Bars, but the number of rare-level Energy Bars had not exceeded 100.

From this, it could be seen how difficult it was to obtain rare-level Energy Bars.

Because Zhou Hao's momentum was too fierce, Fairy Yue Ling had already beaten too many streamers. At this moment, some other streamers who were preparing for PK were afraid that they would be the next unlucky person to be insta-killed. Therefore, they simply stopped PKing.

Once he encountered Fairy Yue Ling, not only would they not be able to defeat her, but they would also end their winning streak.

They would basically suffer a double loss.

"Eh?"

At a certain moment, the users in the live-stream suddenly shouted.

"It's actually Bing Yingying. Fairy Yue Ling is matched with a big streamer."

Because Fairy Yue Ling's consecutive victories were too high, she had finally matched up to a very high-level and qualified streamer.

The score between Fairy Yue Ling and Bing Yingying was 200 to 500,000 from the start of the battle!

Hiss...

“As expected of Bing Yingying. In her live-stream, there are three to four super big shots and more than a hundred diamond big shots. She is indeed very capable.”

Seeing this incomparably cruel score, many of Fairy Yue Ling’s fans were speechless.

In everyone’s opinion, Fairy Yue Ling’s 29 consecutive wins was going to end here.

“Brothers, lend us a hand. Don’t you all know the strength of the big shot senior? As long as the other party doesn’t activate the killing effect, the big shot senior will definitely be able to turn the situation around!”

“That’s right, that’s right. Lend a hand.”

In the beginning, everyone felt that Fairy Yue Ling’s winning streak was about to end here.

However, thinking of Zhou Hao’s heaven-defying drop rate and luck, as well as his various generous spending, everyone felt that Fairy Yue Ling still had some hope.

As long as she could survive the start and let Zhou Hao perform, there was hope for her to win.

Fairy Yue Ling did not have big shot-level fans, but she still had a lot of hardcore fans.

It was not realistic for everyone to pay her daily, but it was not a problem for them to spend money forcefully occasionally.

At this moment, many users attacked, and even some passersby fans began to join in the fun.

A moment later, Fairy Yue Ling and Bing Yingying’s score had already turned into 300,000 to 500,000.

At this moment, the killing effect had already been dispelled. However, soon, the big shot and the super big shots in Bing Yingying’s live-stream let everyone know what despair was.

In the blink of an eye, the score between the two sides changed to 300,000 to 5 million.

In other words, at this moment, the fans in Bing Yingying’s live-stream also began to go bankrupt and spend money violently. At this moment, they gave away gifts that were worth a total of 450,000 points.

Zhou Hao did not care at all.

“Ding! Congratulations ‘I am only an ordinary person’ for giving away the platinum-level Energy Bar and obtaining the reward multiplied by 50 times!”

An extremely exciting news popped up.

Platinum-level gifts usually only had multiplications of 10 times, 20 times, or 30 times. It was not that it would never be multiplied by 50 times, but it was very rare.

After Zhou Hao got the 50 times reward, Fairy Yue Ling’s score instantly increased fivefold.

Unfortunately, this multiplication rule was based on the highest multiplier.

In other words, even if Zhou Hao got another reward multiplied by 20 times or more points, her points multiplier wouldn’t increase.

Unless Zhou Hao’s luck exploded and he directly obtained a rare-level Energy Bar.

“Ding! Congratulations ‘I am only an ordinary person’ for giving away the platinum-level Energy Bar and obtaining the reward multiplied by 50 times!”

A notification appeared again, shocking many people.

Unfortunately, the reward this time was still 50 times higher. If Zhou Hao did not get a rare-level Energy Bar, he would not be able to increase the multiplier again.

At the same time, in Bing Yingying’s live-stream, many diamond big shots and higher-level big shots were also giving gifts crazily.

Clearly, Zhou Hao had always been too outstanding.. This time, they were also prepared to compete with him.

## **- Chapter 257 - Victory**

### **Chapter 257 - Victory**

*Chapter 257: Victory*

Tonight, Fairy Yue Ling and Bing Yingying's live-stream was destined to not be peaceful!

After Zhou Hao consecutively dropped gifts, the score between Fairy Yue Ling and Bing Yingying also changed.

Now, the score between Fairy Yue Ling and Bing Yingying was already 2 million to 5.5 million.

It could only be said that the Bing Yingying that Fairy Yue Ling matched this time was very powerful.

On Zhou Hao's side, Energy Bars multiplied by 10 times, 20 times, and 30 times kept dropping. Even Energy Bars that were multiplied by 50 times dropped.

As for Bing Yingying, because there were too many users drawing, she quickly got the 20 times multiplier.

Therefore, Bing Yingying's points also doubled. Immediately, it became 11 million points that suffocated countless users!

This was the first time many of the users had seen such a situation where one's points exceeded 10 million.

From this, it could be seen how rich the users on Bing Yingying's side were.

However, the PK continued.

Zhou Hao did not have the time to pay attention to the changes in the points.

Every time he spent 10 million luck points, he could only see the 60 second luck number. In this situation, he naturally did not want to waste time.

After all, to him, PK was just an effortless favor.

"Big shot, you're awesome. You haven't stopped at all! @ I'm just an ordinary person."

"As expected of a big shot!"

"Is the big shot going to get a rare-level Energy Bar? @ I'm just an ordinary person."

...

As Zhou Hao was grinding crazily with the Energy Bar, the discussion of the surrounding users in Fairy Yue Ling's live-stream had not stopped.

Zhou Hao's spending ability was indisputable.

However, judging from Zhou Hao's spending, he was clearly prepared to get another rare-level Energy Bar.

"Ding! Congratulations, I'm just an ordinary person. You have received 100 rare-level Energy Bars!"

"Damn! It's out!"

"Impressive, impressive. Big shot, impressive! @ I'm just an ordinary person!"

"Ten times the total points!"

In an instant, Fairy Yue Ling's points also reached more than 8 million. Clearly, her points before the multiplier had already reached 800,000.

However, even so, she was still quite a distance away from Bing Yingying.

After the multiplier appeared, many users ran to Fairy Yue Ling's live-stream to join in the fun.

After all, the points on Bing Yingying's side had not increased after doubling.

The many users in Bing Yingying's live-stream were naturally very depressed at this moment.

Many big shots and rich users complained incessantly. They were also crazily buying gifts like Zhou Hao.

In the end, Bing Yingying's points had only doubled.

Everyone's initial thought was naturally to clash with Zhou Hao and destroy his prestige.

To their surprise, the other party was actually so ferocious and did not give them a chance to catch their breath.

Now, Fairy Yue Ling's points were multiplied by ten, and theirs was only multiplied by two. How were they supposed to continue?

If this continued, it was only a matter of time before they were surpassed.

Even Bing Yingying was very depressed. Today, her live-stream seemed to have been cursed.

Up until now, she had only gotten more than 20 times the reward.

What was even more depressing was that this was only her second consecutive victory.

Previously, she had also encountered a very impressive streamer and ended the stream.

Originally, she thought that the person she encountered this time was only a rising star like Fairy Yue Ling and that she would have nothing to be worried about. In the end, it seemed that she needed to be worried.

Zhou Hao and the big shot in Bing Yingying's live-stream were at odds.

If the difference was only a multiplier of two to a multiplier of five, it was not necessarily impossible for them to take down the big shots in Bing Yingying's live-stream.

But now, the difference was a multiplier of two and a multiplier of ten/

Therefore, at this moment, there was no suspense at all. After all, she had a multiplier of ten.

Not long after, Fairy Yue Ling's points also broke through the 10 million mark.

Previously, because Zhou Hao had always gifted platinum-level Energy Bars, Fairy Yue Ling's live-stream strength was inferior to Bing Yingying's.

However, the outcome was obvious now that Zhou Hao had obtained several rare-level Energy Bars in a row.

After all, up until now, users have only gotten the reward multiplied by 20 times in Bing Yingying's live-stream.

Finally, the score between the two sides stopped at 12.4 million to 12..3 million.

## **Chapter 258 - Please Invite the Next Victim**

*Chapter 258: Please Invite the Next Victim*

Bing Yingying lost again with a very small difference.

Seeing this result, Bing Yingying almost died from depression.

Not only was she depressed, but all the users in her live-stream also felt that it was ridiculous.

According to the points before the multiplier, Bing Yingying had more than 6 million, and Fairy Yue Ling only had 1.24 million.

However, what could they do? In Fairy Yue Ling's live-stream, rare-level Energy Bars were directly sent out one after another. As for Bing Yingying's live-stream, it was considered extremely shady today. At most, the users could only get the reward multiplied by 20 times.

"Hai, there's nothing we can do about that. We can only try again next time." After the consecutive victories were stopped, a big shot in Bing Yingying's live-stream said helplessly.

They knew Zhou Hao's strength very well. In a situation where the points were multiplied by ten times, even if they went all out, they were definitely not Zhou Hao's match.

On the other side, Fairy Yue Ling's live-stream was filled with cheers.

In the live-stream, Bing Yingying was a frequent guest in the top 100 of the daily rankings. She was often seen in the top 100 of the daily rankings. Zhou Hao's strength and luck were really the reason why Fairy Yue Ling was able to win this PK battle.

Of course, luck was also a type of strength. Therefore, even if they won by luck, others could not say anything.

"Big shot, you're awesome!"

"Big shot, you're mighty and domineering! @ I'm just an ordinary person."

"Awesome, awesome. He won despite the odds being against him!"

"Many big shots in Bing Yingying's live-stream might vomit, hahaha."

Fairy Yue Ling's live-stream was simply bustling to the limit.

Because Fairy Yue Ling had obtained thirty consecutive victories, many users and streamers were now attracted.

I'm just an ordinary person. "Continue the PK."

As everyone was excited, Zhou Hao casually typed three words and began to crazily buy gifts.

“The big shot is invincible!”

“Let’s welcome the next victim, hahaha.”

“They’re going to break the record today!”

Seeing Zhou Hao’s carefree attitude, everyone kept booing.

Fairy Yue Ling hesitated for a moment and chose to continue.

Although she knew that the road ahead would become more and more difficult, she still planned to give it a try.

Indeed, because Fairy Yue Ling had advanced proudly today, after she chose to continue fighting, she encountered an extremely high-level streamer.

“It’s actually the Azure Sword Saint. There are many female big shots supporting this pretty boy!”

After thirty consecutive wins, the streamers that were matched each time were indeed not ordinary people.

The Azure Sword Saint that she had matched up with now was even stronger than Bing Yingying.

Perhaps because of the defeat in Bing Yingying’s live-stream, many female big shots in the Azure Sword Saint’s live-stream had also seen how powerful Zhou Hao was. They immediately attacked crazily.

In an instant, the Azure Sword Saint’s points directly exceeded 10 million!

Moreover, it had not even doubled. It was obvious that the Azure Sword Saint’s live-stream was very shady.

In Bing Yingying’s live-stream room, her score was so high because she had relied on a multiplier of two. In the Azure Sword Saint’s live-stream room, there was not even a multiplier yet.

Of course, with his strength, even if it was not multiplied, it was still difficult to beat him.

Zhou Hao was still calm and composed. He did not focus on the points at all and only kept giving away Energy Bars.

Because the Energy Bar itself was the cheapest among the platinum gifts, Fairy Yue Ling's points were still far behind despite Zhou Hao's grinding.

After seeing Zhou Hao create miracles, everyone could not help but feel anticipation.

If Zhou Hao could still draw the rare-level Energy Bar like before, it would definitely be fun.

Of course, it was not easy to get this rare-level Energy Bar.

"Ding! Congratulations 'I am only an ordinary person' for giving away the platinum-level Energy Bar and obtaining the reward multiplied by 20 times!"

"Ding! Congratulations 'I am only an ordinary person' for giving away the platinum-level Energy Bar and obtaining the reward multiplied by 10 times!"

"Ding! Congratulations 'I am only an ordinary person' for giving away the platinum-level Energy Bar and obtaining the reward multiplied by 50 times!"

After Zhou Hao gifted for a long time, the rare-level Energy Bar appeared again.

The users once again saw what it meant to have overwhelming luck. It was indeed infuriating!

Obtaining the reward multiplied by 50 times meant that the multiplier would grow to a five.

After Fairy Yue Ling's points were multiplied by five, the users in the Green Cloud Sword Saint's live-stream immediately felt a strong sense of danger.

Immediately, the users continued to grind.

## **Chapter 259 - Encountering a Tough Opponent**

*Chapter 259: Encountering a Tough Opponent*

In Fairy Yue Ling's live-stream, many users chimed in.

With Zhou Hao charging at the front, they could only hide behind and watch.

After all, if even Zhou Hao couldn't make a difference, then there was even less of a need for them.

"Hai, it's going to be difficult this time. The Azure Sword Saint's live-stream is filled with rich women."

"Let's see if the big shot can get the rare-level Energy Bar. After getting the rare-level Energy Bar, Fairy Yue Ling's score would be multiplied by ten."

"That thing won't come out so easily. Look at all the live-stream rooms. It rarely comes out in an entire day."

In everyone's opinion, Fairy Yue Ling was in danger this time.

After all, the most impressive thing about Zhou Hao was the mystery box.

In the live-stream, Zhou Hao was also one of the big shots.

However, other than him, there was no other fixed diamond big shot in Fairy Yue Ling's live-stream, let alone a top-notch big shot.

This also meant that Zhou Hao had to beat the big shots opposite him alone.

Fairy Yue Ling: "Thank you very much, big shot. Thank you very much, everyone. After this round is over, let me dance for everyone. @ I'm just an ordinary person."

Fairy Yue Ling was already very satisfied to have reached this point.

Even when she met Bing Yingying just now, she felt that she would definitely lose.

She really did not expect to have won.

The Azure Sword Saint he encountered this time was much more powerful than Bing Yingying. He was one of the top streamers and had countless fans in the live-stream. There were also many diamond female big shots and top-notch big shots helping him.

Zhou Hao was definitely not their match alone.

"Ding! Congratulations on being an ordinary person. You have received 500 rare-level Energy Bars!"

Just as Fairy Yue Ling accepted the reality and the other users also felt that there was no chance for this PK, an accident happened!

This time, Zhou Hao had actually gotten 500 rare-level Energy Bars. 500 rare-level Energy Bars meant that the points would be multiplied by 50.

When this notification appeared on the screen, almost all the streamers and users in the live-stream were dumbfounded.

It was not that they had never seen so many rare-level Energy Bars before. However, it was really somewhat bullying for this to appear at such a special time.

Because Zhou Hao's notification kept flooding the screen, most streamers and users now knew that Zhou Hao was displaying his might in Fairy Yue Ling's live-stream.

Some streamers who had been paying attention to this matter even knew that Fairy Yue Ling and the Azure Sword Saint were currently fighting.

However, no one expected Zhou Hao to obtain such a top prize at this critical moment.

Getting 500 rare-level Energy Bars at once was the current limit.

Although some users guessed that the true limit should be 1000 at a time. However, up until now, there had been no situations where users got 1000 rare-level Energy Bars..

Although the number of times users had gotten 500 Energy Bars was small, it had still happened a few times.

"Heavens, 500 rare-level Energy Bars. That's 50 times the total points!"

"Damn, this big shot is awesome!"

"Awesome!"

"Big shot, you're mighty and domineering! @ I'm just an ordinary person!"

"This is going to be exciting!"

...

Fairy Yue Ling's little heart was thumping non-stop. She really did not expect such a change to occur at such a time.

A multiplier of fifty was definitely an incomparably huge advantage.

In particular, the reward users obtained Azure Sword Saint's live-stream had always been multiplied by 10 times.

In other words, their multiplier was still stuck at one.

Indeed, after increasing her multiplier to fifty, Fairy Yue Ling surpassed the Azure Sword Saint.

In the Azure Sword Saint's live-stream, the Azure Sword Saint was already on the verge of vomiting blood.

No matter how shady his live-stream was, it was still unreasonable for his multiplier to be stuck at one. After all, under usual circumstances, the users should be able to at least obtain the reward multiplied by 20 times.

However, even if users got the reward multiplied by 20 times, or even 50 times, it would still be useless.

This was because the reward multiplied by 50 times would only give a multiplier of 5. Fairy Yue Ling's multiplier would still be 10 times bigger.

Previously, he only knew that Zhou Hao was very impressive when it came to opening the mystery box. Now, he realized that Zhou Hao's luck was also so heaven-defying when he gave away gifts in the live-stream.

Under such a huge difference, the Azure Sword Saint directly chose to give up.

It was simply impossible for him to win!

After defeating the Azure Sword Saint, Fairy Yue Ling also entered the top 50 of the daily rankings with 31 consecutive victories.

## **Chapter 260 - Big shot, Do You Want to Break a Record?**

*Chapter 260: Big shot, Do You Want to Break a Record?*

Looking at this list, one would discover that every name on it was famous.

"The big shot is invincible. He directly obtained 31 consecutive wins and sent Fairy Yue Ling to the top 50 of the daily rankings!"

The top 50 of the daily rankings was the goal of many streamers.

In the past, Fairy Yue Ling did not even dare to think about it. In her small live-stream room, let alone being ranked in the top 50 of the daily rankings, as long as she did not drop out of 100,000, she would be thanking the heavens.

However, how could she have imagined that Zhou Hao would directly lead her to a consecutive victory and allow her to successfully enter the top 50 of the daily rankings?

Even now, Fairy Yue Ling still felt that everything was like a dream.

In Fairy Yue Ling's live-stream, the other users were also in an uproar.

The other streamers were able to enter the top 50 of the daily rankings because they had relied on their long-standing foundation to advance.

Fairy Yue Ling, on the other hand, had succeeded by relying completely on Zhou Hao.

"Big shot, help me out too! @ I'm just an ordinary person."

"Big shot, big shot, can you add me as a friend? @ I'm just an ordinary person."

"Big shot, you're awesome. You helped Fairy Yue Ling obtain 31 consecutive wins and brought her to the top 50 of the daily rankings. Fairy Yue Ling is probably going to marry you!"

"Hahaha, that's right, that's right. Fairy Yue Ling, marry him."

"Big shot, is there a pattern to the platinum-level Energy Bar? @ I'm just an ordinary person."

"Big shot, you're so impressive! @ I'm just an ordinary person."

Be it the previous Bing Yingying or the Azure Sword Saint, they were both powerful streamers.

Usually, when a rising star like Fairy Yue Ling encountered them, she would basically be destined to lose. However, this time, they had witnessed the rise of the underdog.

After Zhou Hao made a move, Bing Yingying and the Azure Sword Saint, these two big streamers with deep foundations, were actually defeated.

"Is the big shot going to break the record? He's already helped Fairy Yue Ling get 31 consecutive rounds. If he can break the record with 35 consecutive rounds, both the streamer and big shot will be rewarded. @ I'm just an ordinary person."

“That’s right. Big shot, you should try to break the record! @ I’m just an ordinary person.”

“Big shot, just do it! @ I’m just an ordinary person.”

...

Zhou Hao still had 50 million luck points left. He originally planned to stop when he used all of it.

The situation on Planet Earth was somewhat complicated now and he needed more rare-level Energy Bars.

The only problem was that the drop rate of rare-level Energy Bars was too low.

If not for his explosive luck just now and directly getting the rare-level Energy Bars multiplied by 500 times, he would have completely lost this time.

I’m just an ordinary person. “What’s the reward?”

Zhou Hao was more interested in this question and immediately asked on the public chat.

“Big shot, if you can win 35 consecutive matches, you will completely break the record.”

“After breaking the record, you can obtain around 2,000 rare-level Energy Bars, and Fairy Yue Ling will be able to stay on the recommendation spot for a week and receive customized gifts. It’s a very rare opportunity.”

“Big shot, how about it? @ I’m just an ordinary person.”

“Big shot, let’s do it!”

...

A large number of users here clearly wished for the world to be in chaos.

All of them were encouraging Zhou Hao to break the record. In other words, they wanted him to get 35 consecutive wins.

Fairy Yue Ling: “Everyone, don’t let the big shot spend more money. The big shot has already given me a lot of help today!”

While many users were egging Zhou Hao on, Fairy Yue Ling was somewhat embarrassed.

After all, Zhou Hao had already helped her too much.

“Hahaha, Fairy Yue Ling is starting to protect the big shot.”

“Tsk tsk tsk, there's a problem. There's definitely a problem.”

“Actually, judging from the big shot's performance when he opened the mystery boxes, he hasn't lost anything!”

“Awesome, awesome!”

Zhou Hao naturally did not care about what these users said. What he needed the most now was the rare-level Energy Bars.

Since he could obtain 2,000 rare-level Energy Bars after breaking the record, why would he still wait around?

## Chapter 261 - Slaying the Rankings

*Chapter 261: Slaying the Rankings*

I'm just an ordinary person: “What are you waiting for? Just do it!”

As Fairy Yue Ling was hesitating, Zhou Hao said firmly.

“The big shot is right. Just do it!”

“Just do it. Fairy Yue Ling, Continue the PK!”

“The following opponents are all getting more ruthless than the last. I wonder how far Fairy Yue Ling can go.”

Everyone was not doubting Zhou Hao's spending ability. However, because all the streamers ranked in the top 50 of the daily rankings had incomparably deep foundations, they could not help but be concerned.

Gold users and diamond users were everywhere in their live-stream room. Even the top-level big shots often appeared in their live-stream room.

Without a doubt, at this moment, no matter who Fairy Yue Ling matched, it would be a fierce battle.

After Fairy Yue Ling matched up, another PK battle quickly began.

After seeing Fairy Yue Ling's PK target clearly, many of Fairy Yue Ling's fans directly vomited blood.

Damn, Fairy Yue Ling's luck was too terrible. Now, she was actually matched with one of the top twenty of the daily rankings, Fairy Qing Hu!

Fairy Qing Hu had a pair of beautiful fox ears. She was beautiful but also very agile and cute.

Moreover, Fairy Qing Hu was good at singing and dancing. A group of diamond big shots and peak-level big shots watched her live-stream almost every day.

Under such circumstances, Fairy Yue Ling's side seemed to have no chance of winning.

Compared to everyone else, Zhou Hao was still calm.

Judging from the others in the live-stream, this Fairy Qing Hu seemed to be very impressive.

In that case, Zhou Hao also had to get more serious.

After spending 10 million luck points, Zhou Hao directly gifted all six gifts.

After Fairy Yue Ling and Fairy Qing Hu's PK began, the points on both sides kept jumping crazily, dazzling everyone as their hearts pounded.

Fairy Qing Hu had many diamond big shots protecting her. As soon as the PK began, her points kept increasing.

It was as if she wanted to instantly widen the gap between them and directly activate the killing effect to defeat Fairy Yue Ling.

However, at this moment, Zhou Hao's performance began again.

Although platinum-level Energy Bars were not cheap, platinum-level Energy Bars were the cheapest among platinum-level gifts.

Therefore, there were also a lot of martial artists who gifted platinum-level Energy Bars.

However, very few people gifted the more expensive gifts after the Energy Bars.

Everyone usually came to the live-stream with two goals.

One was to relax and relax, and the other was for the sake of the lucky draw.

However, the lucky draw had always been a relatively mysterious matter. For example, the users of the Azure Sword Saint's live stream room had gifted so much just now, but they were still unable to get the reward multiplied by 10 times.

"Ding! Congratulations on being an ordinary person. You have received 200 rare-level Energy Bars!"

On Fairy Qing Hu's side, when this notification floated on the screen, she felt as if she had been struck in the head!

"Fairy Yue Ling has soared. She's already in the top 30 of the daily rankings!"

In Fairy Yue Ling's live-stream, many fans were very excited.

In the live-stream, the PK daily rankings were definitely the most valuable rankings. It was also because of this that so many streamers were eager to get on the rankings.

Fairy Yue Ling had broadcasted for so long that she was ranked in the top 30 of the PK daily rankings. This was something she did not even dare to imagine.

Unlike the other streamers, Fairy Yue Ling did not slowly advance to the top 30 of the PK daily rankings. Instead, with Zhou Hao's help, she directly won consecutively and soared to the top.

One could imagine the impact this rocket-like speed would have on the live-stream. Of course, many users and streamers were very surprised.

Most of the streamers were extremely envious.

Of course, what everyone was focused on now was not Fairy Yue Ling, but Zhou Hao, the man who had single-handedly built Fairy Yue Ling's glory!

Now, almost most of the live-streams were talking about Zhou Hao.

...

"Let me tell you something. The big shot who was spamming in the mystery box area has now gone to the live-stream area to dominate!" A user said excitedly.

“There are many big shots in the mystery box area. Which big shot are you talking about?”

“It’s that ‘I’m just an ordinary person’.”

“Let me tell you this. Have you heard of Fairy Yue Ling?”

“I seem to remember him.”

“In the past, Fairy Yue Ling was a streamer ranked between 80,000 and 90,000. Now, she’s directly ranked within the 50,000!”

“Not only that, Fairy Yue Ling even won consecutively on today’s PK rankings and advanced to the top 30!”

Such conversations were taking place all over the live-stream rooms.

Zhou Hao had already become the hot topic of discussion.

## **Chapter 262 - Soaring To The Top**

*Chapter 262: Soaring To The Top*

Many streamers and users also ran to Fairy Yue Ling’s live-stream to admire Zhou Hao.

They wanted to see what kind of man had sent Fairy Yue Ling to the top of the rankings!

After more and more users and streamers surged into Fairy Yue Ling’s live-stream, the popularity of Fairy Yue Ling’s live-stream completely exploded.

Fairy Yue Ling was already so excited that she was at a loss.

The surprise Zhou Hao had brought her this time was too big and she had yet to recover from it.

“The big shot is too powerful. He directly sent Fairy Yue Ling to the top of the rankings! @ I’m just an ordinary person.”

“Does the big shot still need a lackey? @ I’m just an ordinary person.”

“Big shot, please teach me how to open boxes and get rewards! @ I’m just an ordinary person.”

“Big shot is awesome! The big shot’s world is indeed not something we can understand. @ I’m just an ordinary person.”

Almost all the users who kept flooding into Fairy Yue Ling’s live-stream were here to see Zhou Hao.

However, Fairy Yue Ling did not care at all. Here, Zhou Hao was the true protagonist.

I’m just an ordinary person. “That’s all for today.”

After spending 90 million luck points, Zhou Hao did not continue.

Without his luck points, he was also unable to show off his strength. Fortunately, he had already replenished a lot of his rare-level Energy Bars.

After that, be it fighting the various frontline defense lines, daily cultivation, or even exploring the spatial rift, everything would be fine.

Fairy Yue Ling: “Alright. Thank you very much for your support, big shot. I’m extremely grateful! @ I’m just an ordinary person.”

Fairy Yue Ling was very happy. To her, being able to enter the PK leaderboard was simply unthinkable before this.

What Fairy Yue Ling did not know was that Zhou Hao actually wanted to help her advance to the top ten.

However, the difficulty of clearing the PK Rankings was even higher than Zhou Hao had imagined. Therefore, he could only temporarily stop here.

While the people in the live-stream were still discussing Zhou Hao, Zhou Hao had already left.

...

When Zhou Hao quit the live-stream, it was already midnight.

At this moment, the Seventh Elite Base was completely silent. There was only the sound of cicadas.

Zhou Hao released his perception and discovered that many students were actually sitting cross-legged and cultivating the entire night.

In fact, at their current cultivation level, they could replace some of their sleep by sitting cross-legged and cultivating.

In fact, if one could enter a deep cultivation state, they could even replace their sleep completely.

In the other elite bases, there were already students who could do this.

In the Seventh Elite Base, even Ji Yufan, Xu Ling, and Lu Zhan weren't able to do this, let alone the other students.

Of course, while others could not, Zhou Hao could.

He took out some gold rare-level Energy Bars and placed them around him.

After placing these gold rare-level Energy Bars around, Zhou Hao began to circulate his cultivation technique, absorb the essence energy from the rare-level Energy Bars, and begin cultivating.

The effect of using this rare-level Energy Bar to cultivate was very good. With every breath, he could clearly sense the improvement in his strength.

Half an hour later, Zhou Hao's body had already gained a lot of essence energy.

Zhou Hao did not hesitate and took out some more rare-level Energy Bars.

This time, he had accumulated a total of 2,000 rare-level Energy Bars.

With so many rare-level Energy Bars, it was already enough for him to cultivate for a long time.

Time undoubtedly passed very quickly in cultivation. The night passed almost instantly.

...

The next morning, familiar footsteps sounded from the balcony again.

"Zhou Hao, when did you return?"

Seeing Zhou Hao sitting cross-legged on the bed, Xu Ling asked with her hands on her small waist.

For some reason, Zhou Hao had suddenly disappeared.

From Instructor Yang Hui and the others, they only knew that Zhou Hao had applied for leave.

However, no one knew why Zhou Hao had applied for leave.

“Hehe, Xu Ling, you’re here.”

Zhou Hao got up very naturally. Even though he had not slept the entire night, Zhou Hao was feeling refreshed because he had been in a deep cultivation state the entire night.

“Hmph, I was asking you a question. You disappeared without saying a word.”

Xu Ling walked to Zhou Hao’s side and pinched his waist.

“I left with my master. I didn’t have time to tell you.”

Zhou Hao had long thought of this excuse.

Moreover, his other identity was Senior Zhou, so this excuse would also not be exposed.

Moreover, no one would bother to ask him about it.

“I see, no wonder!”

Xu Ling nodded. If that was the case, it was still acceptable.

“Hurry up and wash up. You have to communicate with the elites of Sixth Elite Base today.”

Because Zhou Hao had not been around for the past few days, Xu Ling seized the opportunity to tell Zhou Hao about the past few days.

There were currently six training bases like the Seventh Elite Fortress in the entire Huaxia.

This time, they were going to spar with the students of the Sixth Elite Base.

In the various elite bases, such interaction was very common.

Of course, the only difference was that this exchange was actually still a battle for resources between the two bases..

## Chapter 263 - The Start of the Resource Battle

*Chapter 263: The Start of the Resource Battle*

As soon as Zhou Hao arrived at the field, he realized that the students from the Sixth Elite Base were already waiting in a square formation not far away.

“Let’s go to the training hall.”

The sparring this time was not held outdoors, but in the indoor arena.

The training hall of the Seventh Elite Base was very spacious and had all kinds of facilities. However, it had not been used much before.

“Zhou Hao, where have you been these past few days?”

After seeing Zhou Hao, Yun Yan, Zhang Yi, and the others immediately walked over.

“I followed Master out to cultivate for the past few days.”

It was no longer a secret that Zhou Hao had a mysterious master.

However, for Zhou Hao’s master to be able to easily bring him out of the Seventh Elite Base to train, it could be seen that the other party was not only an expert, but also an official expert.

“Let’s not talk about this anymore. Let’s talk about sparring this time. Looks like they don’t have good intentions.”

This was not because Zhou Hao wanted to change the topic. Instead, not far away, the elites of the Sixth Elite Base all had arrogant expressions.

As human elites, not only did they not feel any sympathy for each other, but they also felt some hostility.

“Of course, in the past, the cultivation resources were always split into thirds. Two thirds would go to the Sixth Elite Base and one third would go to the Seventh Elite Base.”

“But as our strength continues to increase, it’s naturally not enough for us to only get one third.”

“Therefore, the resources of the Sixth Elite Base and the resources of the Seventh Elite Base became equal.”

“This is good for the Seventh Elite Base, but the students of the Sixth Elite Base were willing to agree to this.”

“It’s also because of this that this sparring competition began.”

“The winner of this competition will have the right to decide how the resources will be distributed.”

After hearing Zhang Yi say this, Zhou Hao completely understood.

No wonder they came with ill intentions. It turned out that an irreconcilable conflict had happened during the distribution of cultivation resources.

“I won’t hide it anymore. The cultivation resources outside the spatial rift are relatively scarce now.”

“Although there are many cultivation resources in the spatial rift, the difficulty of mining and the risk are too high.”

“Therefore, in the end, the competition for the resource allocation plan will be held.”

“Of course, this plan is only temporary.”

“After a while, whether it’s the Seventh Elite Base or the Sixth Elite Base, as long as we can defeat all the elites of the other party, we can decide on the distribution plan again.”

A white-haired lecturer from the Sixth Elite Base stepped onto the podium.

He did not speak generously and only transmitted the truth to everyone.

“Does everyone have to participate in this exchange?” In the audience, Zhou Hao asked curiously.

“Theoretically, no. As long as a student can stand up and defeat all the other elites, the others naturally won’t have to fight anymore.”

As he spoke, Zhang Yi could only smile bitterly. This idea was too unrealistic.

It was basically a waste of his breath to mention this.

Hearing Zhang Yi’s words, Xu Ling, Yun Yan, and the others naturally rolled their eyes at him.

They were all top-notch elites and the only difference was that they were from different elite bases. There was definitely not much difference in their strength.

“Let’s begin.”

In the arena, a white-haired lecturer from the Sixth Elite Base explained the rules before leaving the arena and officially entering the main topic of the day.

“Sixth Elite Base, Tuoba Hai, please enlighten me!”

After the white-haired old man left, an expert from the Sixth Elite Base went on stage and looked around.

“Let me do it!”

After Tuoba Hai finished speaking, a student from the Seventh Elite Base stood up.

As elites of the elites, they were definitely not afraid to retreat.

In everyone’s opinion, although the students of the Sixth Elite Base were stronger, they were not that powerful.

“You’re not my match.”

As soon as a student from the Seventh Elite Base stood up, Tuoba Hai said indifferently, his eyes filled with deep disappointment.

“Hmph! How would you know if you don’t try?”

Ever since Zhou Hao provoked them last time, the students of the Seventh Elite Base had been cultivating diligently.

In such a state, their improvements were naturally very fast.

In particular, this Tuoba Hai was about the same age as them and was probably just as strong. Therefore, the students from the Seventh Elite Base thought nothing of Tuoba Hai's words.

However, what happened next exceeded everyone's expectations.

## Chapter 264 - Being Pressed On The Ground

*Chapter 264: Being Pressed On The Ground*

Especially the students from the Seventh Elite Base. They almost stood up in an instant.

Bang!

The classmate who had gone on stage to spar with Tuoba Hai was actually sent flying with a single kick in front of Tuoba Hai.

At this moment, losing face was still secondary. What was really important was that no one expected the students of the Sixth Elite Base to be so terrifying!

However, the students from the Seventh Elite Base were not discouraged. They quickly recovered from their shock and adjusted their mentality, treating this resource competition more seriously.

"Let me test you!"

At this moment, Yuan Cheng also attacked.

"Hey, why did Yuan Cheng go up?"

Xu Ling and the others were somewhat dumbfounded. They did not expect Yuan Cheng to be so impatient.

"Sigh..."

Zhou Hao shook his head.

Yuan Cheng was too anxious and had underestimated Tuoba Hai's strength.

"Do you also think that Yuan Cheng is no match for him?"

Xu Ling was beside Zhou Hao and could naturally sense his faint sigh.

"Yuan Cheng is still far from being able to compete with him."

Zhou Hao told the truth. In fact, not to mention Yuan Cheng, even Zhang Yi and Yun Yan were no match for Tuoba Hai.

Thinking of this, Zhou Hao could not help but be puzzled.

The cultivation time of the students of the Sixth Elite Base was not much longer than theirs, but the difference between the two sides was really too big.

He wondered how these guys cultivated.

Bang!

Yuan Cheng went up before quickly coming back down.

After a muffled sound, Yuan Cheng directly followed in the footsteps of the previous student.

With a kick from Tuoba Hai, Yuan Cheng was sent flying.

Yuan Cheng, who was lying on the ground, did not seem to have reacted to what had happened. His face was filled with disbelief.

"Damn! What's going on?"

The students of the Seventh Elite Base were already dumbfounded. Some even subconsciously shrank their necks and swallowed their saliva.

It had to be known that there were ten experts among the students of the Sixth Elite Base.

These ten experts were the strongest ten students of the Sixth Elite Base.

Although Tuoba Hai was not weak, he was not among the top ten experts of the Sixth Elite Base.

If that was the case, how terrifying would the strength of the top ten experts of the Sixth Elite Base be?

For a moment, everyone in the Seventh Elite Base, who were originally full of confidence, felt a chill run down their spines, and their confidence was halved.

On the other side, the ten experts of the Sixth Elite Base were still sitting in the audience seats with their eyes closed. Clearly, they were not interested in today's battle.

Because before coming, many people had already known that they might not even need to take action this time.

The students of the Sixth Elite Base had always cultivated in a hellish manner.

On the other hand, the students of the Seventh Elite Base were all like precious children. The most difficult training they had experienced only led them to the outermost edge of the frontline defense line where they almost lost their lives.

In comparison, the difference between the two sides was self-evident.

"This guy is so powerful!"

Beside Zhou Hao, Zhang Yi could not help but exclaim.

Now, his gaze was filled with fear as he looked at Tuoba Hai.

They originally thought that since this Tuoba Hai was the first to go on stage, his strength would definitely not be good.

In the end, it was very awkward now. Even Yuan Cheng had been defeated, which meant that there were very few people in the Seventh Elite Base who could defeat Tuoba Hai.

"Xu Ling, can you beat this guy?"

Yun Yan was also somewhat shocked.

Tuoba Hai could not even enter the top ten in the Sixth Elite Base. If he came to their place, he could probably sweep through the entire competition.

Was their Seventh Elite Base really that trashy?

Yun Yan was deeply suspicious.

"Sure, but..."

Xu Ling nodded. Although Tuoba Hai was powerful, he was not so powerful that even she was unable to deal with him.

However...

Xu Ling could not help but look at the square formation of the Sixth Elite Base.

There were also ten male and female students resting with their eyes closed. These ten people were the true elites of the Sixth Elite Base!

Now, even Tuoba Hai was so terrifying. How powerful were the remaining fellows?

Judging from this, even Zhou Hao was not their match, right?

“Lu Zhan has joined the battle!”

After Yuan Cheng was defeated, many students in the Seventh Elite Base became timid.

After all, no one wanted to be the next person to be sent flying.

When Lu Zhan saw this scene, he directly went on stage.

This was because he knew that only Ji Yufan, Xu Ling, and Zhou Hao were capable of participating in the Seventh Elite Base. The other students had basically already been eliminated.

“Which of them will win?”

Yun Yan couldn't help but ask.

“Lu Zhan.”

Zhou Hao said casually, although Lu Zhan was not much stronger than Tuoba Hai.

However, Lu Zhan suppressed Tuoba Hai in terms of attributes and physique.

## Chapter 265 - Eggs Against Stone

## *Chapter 265: Eggs Against Stone*

Although Tuoba Hai was very powerful, he did not have a special physique. The reason why he was so powerful was entirely because his foundation was compact.

After Lu Zhan ascended the stage, he indeed fought Tuoba Hai. The two sides were evenly matched and it was difficult to determine the victor for a while.

At this moment, the ten young men and women in the front of the Sixth Elite Base finally opened their eyes.

However, they only looked at it for a while before losing interest.

Lu Zhan's strength was not bad, but he was only on par with Tuoba Hai.

Now, the reason why Lu Zhan kept obtaining an advantage was because he suppressed Tuoba Hai in terms of physique and attributes.

After the two of them fought for a long time, Lu Zhan finally won with difficulty.

As for Tuoba Hai, he fell to the ground exhausted and was directly carried away.

Although Lu Zhan was leaning on the edge of the arena, he was also unable to move. In the end, he was also carried by the other students.

Up until now, the remaining half of the people from the Seventh Elite Base had also left home.

The top ten big shots of the other party were still sitting calmly, but one of their experts had already lost his combat strength.

The following battles were no different from eggs hitting a rock. The outcome was obvious.

However, it was impossible for them to admit defeat directly. The competition still had to continue.

After Tuoba Hai left, a fatty with a big belly appeared on the ring with a smile on his face.

"Who is that guy?"

Zhang Yi and the others frowned.

Now that they knew that the Sixth Elite Base was powerful, they naturally wouldn't underestimate anyone.

"This is Chen Lei from a cultivation family. His parents are supernatural experts."

As the others were puzzled, Xu Ling spoke.

Many people drew a cold breath when they heard that little fatty's parents were actually supernatural experts.

Other people had supernatural experts for parents while they did not. How could they compete?

"Ji Yufan has joined the battle."

The students of the Seventh Elite Base could not help but feel somewhat helpless.

The other nine experts did not even move. On their side, the student that was ranked third was about to go down.

The students from the Seventh Elite Base only hoped that Ji Yufan's strength was as arrogant as his temper. They hoped that Ji Yufan would suddenly erupt so that the other party's pride could be diminished.

After all, he had a special physique.

However, half an hour later, the students of the Seventh Elite Base fell into despair.

Although Ji Yufan had won this battle, he had also been severely injured. Even now, his hands were still trembling slightly, and the blood essence power in his body had been greatly exhausted.

Clearly, they were no longer capable of fighting.

The other party still had nine experts who had not gone down. On their side, there was only Xu Ling and Zhou Hao.

If he had known this would happen, he wouldn't have agreed to spar at all. They would have kept the status quo for a period of time first.

"The most powerful people here are called Zhou Hao and Xu Ling, right?"

"Let's not waste any more time. The two of them should just attack together."

In the Sixth Elite Base, a short and dark-skinned young man appeared in the arena with an arrogant tone.

However, he did have the right to be arrogant. His entire body was filled with explosive strength, making him look very powerful and terrifying.

“Hmph!”

Hearing this, Xu Ling could not help but be a little angry.

However, before Xu Ling could go on stage, Zhou Hao had already stood up.

“Wait, I’ll go first.” Xu Ling did not plan to let Zhou Hao get on the stage directly.

It could be said that there was still hope for the Seventh Elite Base.

As long as she took down a few more experts from the Sixth Elite Base, with Zhou Hao’s strength, he might have a chance of winning.

Zhou Hao actually wanted to directly attack, but now that Xu Ling had made up her mind, he naturally did not try to persuade her.

After Xu Ling appeared in the arena, the cold aura around her immediately dissipated continuously. Then, she attacked this short young man crazily.

Xu Ling was not weak, but since Lin Shuai could become one of the top ten experts of the Sixth Elite Base, how could he be ordinary?

For a moment, the dark-skinned Lin Shuai and Xu Ling fought for a hundred rounds and were actually evenly matched!

“These guys are too powerful!”

Yun Yan was in despair. Any one of them could actually fight Xu Ling evenly!

Now, Yun Yan simply could not imagine how powerful the other party’s strongest martial artist was.

“Zhou Hao, where are you going?” Seeing Zhou Hao get up, Zhang Yi could not help but ask curiously.

“To help her down, of course.”

Zhou Hao smiled bitterly.. The battle between Xu Ling and Lin Shuai was about to end.

## Chapter 266 - Instructor Bai Shas Surprise

*Chapter 266: Instructor Bai Sha's Surprise*

Zhou Hao was completely right. The battle between Xu Ling and Lin Shuai quickly came to an end.

Although Xu Ling was powerful, as one of the top ten experts of the Sixth Elite Base, Lin Shuai was not weak at all.

When Zhou Hao arrived at the edge of the arena, Xu Ling finally seized the opportunity and pushed Lin Shuai out of the arena with a palm.

"Hehe, I didn't use my full strength this time, beautiful."

After Lin Shuai was thrown off the stage by Xu Ling, he did not have any unwillingness or anger.

Xu Ling did not refute because Lin Shuai was right.

She could sense that Lin Shuai had indeed not revealed all his trump cards.

However, she too did not reveal her full strength.

Although her current state was not bad and she was not injured, she had consumed a lot of energy. It was also impossible for her to continue fighting.

Although she was helpless, Xu Ling still walked down from the ring.

"There's nothing we can do..."

Xu Ling shook her head. She really wanted to defeat a few more people to reduce the pressure on Zhou Hao.

If she could defeat a few more, Zhou Hao might have a chance.

"Instructor Yang Hui, do you still need to continue sparring?"

Instructor Bai Sha from the Sixth Elite Base looked at Yang Hui calmly, not hiding the smugness in his heart.

"Let's continue."

Yang Hui's expression was somewhat ugly.

However, he knew that it was not because the students from the Seventh Elite Base were weak, but because the people from the Sixth Elite Base were too powerful.

"Fine."

White Shark shook his head. This Yang Hui was really stubborn.

He wanted to give the Seventh Elite Base an easy way out.

However, since Yang Hui did not want to give up, he could only pretend that he did not say anything.

In the training hall, the atmosphere was abnormally depressed.

The students of the Seventh Elite Base were all looking tired.

They were both genius elites from the elite bases, but the difference between them and the students from the Sixth Elite Base was actually so huge.

At this moment, all their pride was shattered.

"It's over. Our cultivation resources will be greatly reduced in the future." A student said dejectedly.

"It can't be helped. The difference is too great." Another person also spoke weakly.

As they discussed, they also looked at Zhou Hao.

The current Zhou Hao had directly become the hope of the entire Seventh Elite Base.

However, there were still eight geniuses who had not participated in the Sixth Elite Training Camp. No matter how impressive Zhou Hao was, he could not fight eight of them alone.

Thinking of this, everyone immediately sighed with emotion.

"How about this, Instructor Yang Hui? Next, our Sixth Elite Base will send out three more people."

"As long as you can defeat these three students, I'll consider it your win this time. How about that?"

Seeing the many students of the Seventh Elite Base stop fighting, White Shark also smiled and said.

Indeed, when they heard White Shark's words, many people's spirits were lifted.

Even Zhang Yi, Yuan Cheng, Yun Yan, and the others looked up.

The students of the Sixth Elite Base were too powerful. They were not on the same level at all.

Now, if he only needed to defeat the three of them...

Because Zhou Hao only needed to defeat the three of them now, everyone was starting to feel hopeful again.

However, after thinking about how terrifying the students of Sixth Elite Base were, everyone fell into despair.

According to the situation just now, the people in the Sixth Elite Base were simply too strong. Each one was stronger than the last.

No matter how heaven-defying Zhou Hao was, he could at most defeat one or two.

This was not easy to say. If the other party directly brought out the three strongest people, Zhou Hao might not be able to defeat any of them.

"Alright, let's give it a try!"

Yang Hui agreed immediately. It was better to have hope than nothing.

After Yang Hui agreed, three students quickly stood up from the Sixth Elite Base.

Soon, a tall and burly young man appeared in the arena.

His gaze passed everyone and landed on Zhou Hao. His gaze was scrutinizing, sizing, and somewhat interested.

He heard that Zhou Hao was also nurtured by a peak-level supernatural expert, so he expected something from their battle.

Zhou Hao did not hesitate and walked onto the stage slowly.

"Fists and kicks have no eyes. If you can't beat me later, jump down yourself."

Wu Xiao seemed to be reminding him out of goodwill, but his words revealed disdain and contempt for Zhou Hao.

Disturbing the opponent's emotions before battle was also a type of strategy.

What martial artists wanted was survival and victory. As for methods, as long as they did not violate justice, it was fine!

However, facing Wu Xiao's provocation, Zhou Hao's reaction was that he did not react at all.

He completely treated the other party as non-existent.

Seeing that Zhou Hao did not say a word, Wu Xiao felt as if he had punched cotton. He felt as powerless as he could.

An embarrassment from being ignored surged into his heart.. Wu Xiao felt that he had to teach this kid a lesson later.

## **Chapter 267 - Secret Technique Stone Armor**

*Chapter 267: Secret Technique Stone Armor*

Compared to Zhou Hao's calmness, Xu Ling and the others in the audience were somewhat worried.

This Wu Xiao was not the strongest in the Sixth Elite Base.

The three people who attacked this time were only ranked sixth or seventh in the Sixth Elite Base.

The Sixth Elite Base did not bully anyone. However, the difference between the two elite bases was too great. It seemed that they really did not have the qualifications to share resources with the Sixth Elite Base.

Bang!

After his provocation was useless, Wu Xiao directly attacked.

As a martial artist, there was nothing to complain about.

Now, as he punched through the air, the air in the air completely exploded under his punch.

When Wu Xiao's fist attacked, Zhou Hao only took half a step to the left.

This half step was neither too much nor too little, but it was perfect!

After taking this half a step, he actually dodged Wu Xiao's punch completely.

"Hah!"

After missing his punch, Wu Xiao shouted and swung his palm.

After entering the Sixth Elite Base, he had spent most of his time fighting and training at the frontline defense line. He had rich combat experience.

Even if Zhou Hao's cultivation level was similar to his, he was definitely not his match.

"Hmm?"

As Wu Xiao was thinking this, he was suddenly stunned.

Zhou Hao's change of move just now was completely unexpected.

Because no matter how stupid Zhou Hao was, he would still take advantage of that opportunity to attack him at that moment.

As long as Zhou Hao attacked him, Zhou Hao would definitely be unable to dodge his attack.

His resistance to attacks was very strong. In his eyes, Zhou Hao's punch was insignificant and harmless.

However, if he slapped Zhou Hao, Zhou Hao would definitely be lying on the stage.

Wu Xiao's methods made Instructor Bai Sha nod.

However, after seeing Zhou Hao's performance, Instructor Bai Sha's eyes also revealed surprise.

"This little guy is interesting. Looks like every elite base has a few very good seedlings."

Instructor Bai Sha nodded in praise. After Wu Xiao deliberately exposed his flaws, Zhou Hao did not fall for it. Instead, he retreated without hesitation.

"Damn!"

Suddenly, Instructor Bai Sha was shocked.

This was because Zhou Hao's retreating figure was like a spring as he returned at an even faster speed.

Bang!

As a muffled bang sounded, Wu Xiao immediately felt a little dizzy.

Zhou Hao had kicked him in the head just now.

Before Wu Xiao could react, Zhou Hao had already chased after him again.

"Nice!"

The students, instructors, and lecturers of the Seventh Elite Base couldn't help but cheer when they saw this scene.

In the previous battle, even if their Seventh Elite Base won, it would still be very difficult for them to win. Basically, they had to sacrifice themselves to kill the enemy.

This time, it was different. At the very least, Zhou Hao had the advantage in his battle against Wu Xiao!

Hu...

In the arena, Wu Xiao shook his dizzy head. Before he could completely recover, Zhou Hao's ferocious punch landed on his body.

Wu Xiao was immediately blasted back.

This time, even though he was in a bad state, Wu Xiao still quickly reacted.

If this continued, he would not be far from losing.

Although there were two other guys behind him and they were both stronger than him, Wu Xiao still felt that he could take on Zhou Hao.

Now, he was in a passive situation because he did not understand Zhou Hao's methods and had underestimated his opponent.

After forcefully stabilizing his body, Wu Xiao's body emitted a bang.

Then, his skin and bones were covered in a gray luster. His entire body seemed to have an additional layer of natural armor.

Bang!

This time, when Zhou Hao punched again, his eyes could not help but reveal interest.

The secret technique stone armor on Wu Xiao's body not only increased his defense to a large extent, but it also weakened Zhou Hao's attacks.

However, before Wu Xiao could even be smug, Zhou Hao's second and third punches rained down continuously.

At this moment, Wu Xiao was completely dumbfounded.

When Wu Xiao saw Zhou Hao escaping just now, his first impression was that Zhou Hao's movement technique was only very impressive and his strength was definitely not impressive.

After Zhou Hao used the secret technique, Zhou Hao would definitely have no chance of winning.

Although he had revealed a trump card, it was fine as long as he could win.

However, he did not expect that Zhou Hao seemed to have become a different person at this moment.

At this moment, his attacks directly became like a flowing river, powerful and ferocious without stopping.

In the end, after Zhou Hao punched out nine times in a row, Wu Xiao finally could not hold on any longer and was blasted off the arena with incomparable grievance.

## Chapter 268 - Shameful Behavior

*Chapter 268: Shameful Behavior*

"This!"

This scene made the students of the Sixth Elite Base get up instantly.

It was not that Zhou Hao was too powerful, but that Zhou Hao clearly had an unfair advantage. After snatching the initiative, he did not give Wu Xiao the chance to attack again.

Otherwise, with Wu Xiao's strength, Zhou Hao would definitely not have been able to defeat him so easily.

At this moment, Wu Xiao was also extremely depressed.

However, his defeat also reminded everyone behind him that they should not underestimate any martial artist.

Even a lion would use its full strength to catch a rabbit!

Swoosh!

After Wu Xiao was defeated, a young man in a blue trench coat appeared on the ring.

After he got on the stage, traces of water-element energy dissipated from his palm.

A moment later, everyone saw an extremely shocking scene.

This guy had actually used his water-elemental energy to condense a spear.

Transforming blood essence energy was something that could only be done after one's blood essence energy was extremely pure and one had perfect control of their blood essence energy.

"My name is Jiang Xuan. You're not my match. Admit defeat."

After Jiang Xuan got on the stage, he was in no hurry to attack.

In fact, he did not really want to fight Zhou Hao.

Zhou Hao needed to use tricks to win in a battle with Wu Xiao. Clearly, Zhou Hao was no match for him.

After all, in all the battles he had fought with Wu Xiao, Wu Xiao had never won against him.

Even though Wu Xiao had used some secret techniques, he was still unable to win against Jiang Xuan. This was the difference between the two of them.

Zhou Hao's strength was similar to Wu Xiao's. Under such circumstances, Zhou Hao was definitely not his match.

“You overestimate yourself.”

Zhou Hao shook his head and did not say anything. If he really attacked freely, he could kill Jiang Xuan with a single punch.

“Since you’re so stubborn, let’s see how you handle this!”

Not only had Jiang Xuan’s spear formed its shape, but it had also condensed the charm and tenacity of the spear.

Each move was swift, domineering, and shockingly powerful.

Swoosh! Swoosh! Swoosh!

Beams of cold light kept blooming on Jiang Xuan’s spear.

The spear in his hand was like a cold silver snake, extremely sharp and terrifying.

If not for the fact that it was inappropriate, many girls in the Seventh Elite Base would have screamed and swoon over his spear technique.

Jiang Xuan was already very handsome. Now that he was waving his spear, he looked even more handsome.

Even though they were still a distance away from Jiang Xuan, many students could still sense how terrifying his current strength was.

If it were anyone else on the stage, Jiang Xuan might very well be able to insta-kill his opponent.

It was also because of this that everyone felt that it was somewhat unbelievable.

This was because in front of Jiang Xuan, Zhou Hao was still as calm as ever, not panicking or nervous at all.

Apart from being calm, Zhou Hao was also strolling leisurely.

His figure was very elegant and graceful, as if he was not fighting but strolling leisurely.

“What an exquisite movement technique!”

A lecturer from the Sixth Elite Base could not help but exclaim.

“Hmph, this guy doesn’t dare to fight head-on and only knows how to dodge!”

“What Shameful Behavior!”

The students of the Sixth Elite Base hated Zhou Hao to the core.

Originally, their Sixth Elite Base had always had an absolute advantage in the battle. However, things had undoubtedly changed when it came to Zhou Hao.

“It’s fine. No matter how exquisite his movement technique is, his strength is obvious. He’s no match for Jiang Xuan at all.”

“That’s right. As soon as Jiang Xuan got on the stage, the outcome has already been decided. No matter what, Zhou Hao will definitely lose!”

Although everyone was somewhat depressed that Jiang Xuan was unable to quickly defeat Zhou Hao, they still trusted Jiang Xuan’s strength very much.

Although Jiang Xuan and Zhou Hao’s battle did not have many head-on clashes, it was still very enjoyable to watch.

This was because Jiang Xuan’s spear technique was very exquisite. Every move was very beautiful, and Zhou Hao’s figure was very elegant like a fleeting shadow.

The feeling these two gave everyone was that the two of them were not fighting a life and death battle at all but were instead putting on a performance.

However, after the time for an incense stick to burn, Zhou Hao still stood calmly behind Jiang Xuan, but the spear in Jiang Xuan’s hand had completely shattered.

His blood essence energy strength was limited, and it had already reached the limit!

“Get down!”

After Zhou Hao said this, he swept his leg and sent Jiang Xuan flying..

## **Chapter 269 - Admit Defeat**

*Chapter 269: Admit Defeat*

“You!”

Compared to Wu Xiao, Jiang Xuan was extremely depressed.

In the beginning, Zhou Hao had been using his movement technique to drag him down.

Although the long spear condensed from water-element energy was very eye-catching, every breath it took consumed a lot of his blood essence energy.

He originally thought that he could quickly resolve Zhou Hao, so he did not care. Otherwise, he would not have used such a method.

“He won?”

“Did we win again?”

“Zhou Hao!”

In the Seventh Elite Base, everyone suddenly felt that it was unreal.

In the previous battle, the students of the Sixth Elite Base were too powerful, so powerful that they felt despair.

In such a situation, they did not have any hope that Zhou Hao could win.

Although Zhou Hao was very powerful, the strength of the people from the Sixth Elite Base was really terrifying.

However, Zhou Hao’s two consecutive victories still made the people from the Seventh Elite Base cheer.

“Zhou Hao is so shameless... but I like it!”

A girl looked at Zhou Hao in admiration.

Zhou Hao’s two battles just now were mostly due to trickery.

In the first battle, Zhou Hao’s opponent had underestimated him. In the second battle, he relied on exhausting his opponent’s strength to win.

Although Zhou Hao did not meet the opponent head-on, he still won.

“There’s only one more round left!”

At this moment, Xu Ling, Yun Yan, and the other students could not help but feel some anticipation.

Just now, Zhou Hao might not have had much of a chance of winning against the three of them.

However, things were different now. Up until now, Zhou Hao had already won two consecutive rounds. Next, as long as he won the last round, he would succeed.

The increase in cultivation strength could not do without cultivation resources. To obtain more cultivation resources, one needed to have powerful strength.

If Zhou Hao lost this time, the Seventh Elite Base might fall into a vicious cycle.

“Eh, did they swap for someone else?”

In the Sixth Elite Base, the boy who was originally ranked sixth took the initiative to sit back.

A valiant girl in a white sportswear stood up at this moment.

“Bai Yanran, the second strongest expert of the Sixth Elite Base!”

When Bai Yanran got up, everyone from the Seventh Elite Base had ashen expressions.

Although the Sixth Elite Base was clearly cheating now, they couldn't say anything.

After all, just now, the other students only stood forward. No one said anything about them participating.

As long as Bai Yanran was a student of the Sixth Elite Base, she could participate. Even the strongest student of the Sixth Elite Base could participate at this moment.

At this moment, everyone naturally felt very desperate.

The most terrifying thing was not that there was no hope, but that after there was a little hope, they fell into deep despair!

Unlike Wu Xiao and Jiang Xuan, Bai Yanran did not say anything when she appeared in front of Zhou Hao.

Bai Yanran quickly took out an extremely sharp saber.

“Anyone who fights me will die. Either surrender or be mentally prepared.”

Bai Yanran's voice was like an ethereal and eternal ice mountain.

When he saw her, Zhou Hao could not help but think of a saying: if some women could smile, they might lose their colors the entire spring...

However, such a woman would definitely not smile.

Bai Yanran was like this. Ever since she was young, no one had ever seen her smile.

It was not that she did not smile, but her heart was filled with too much grief.

“Admit defeat. I can’t be bothered to fight you.”

Bai Yanran did not expect him to say this.

Hearing Zhou Hao’s words, Bai Yanran could not help but look at him again, but her gaze was as if she was looking at a fool.

It had to be known that the two people Zhou Hao had defeated previously could not even last three to five rounds against her.

Despite having defeated Wu Xiao and Jiang Xuan previously, he was still only considered as ordinary in her eyes.

Swoosh!

With a flash of the saber, Bai Yanran had already attacked.

“So fast!”

“Be careful!”

Seeing Bai Yanran’s figure flash and appear beside Zhou Hao as if she had teleported, many people exclaimed.

Some students who were very engrossed in watching felt their necks turn cold, as if they were the ones being attacked by Bai Yanran.

“Hmm?”

“Eh?”

“Ah, this?”

However, the following scene dumbfounded everyone.

This was because when Bai Yanran slashed over, Zhou Hao did not pull away and instead instantly closed in.

## Chapter 270 - Heartless Iron Hand

*Chapter 270: Heartless Iron Hand*

The current Zhou Hao was almost stuck to Bai Yanran.

Bai Yanran had originally slashed Zhou Hao's throat, but now, her saber was directly behind his head.

Because they were too close, the two of them could even feel each other's breathing.

"Bastard!"

"Kill him! How dare he take advantage of Sister Bai!"

"Kill him!"

Zhou Hao's actions instantly incited public anger.

Many boys from the Sixth Elite Base stood up as if they wanted to tear Zhou Hao apart.

"You're already dead!"

Sensing the abnormality of the two peaks in front of her, Bai Yanran only wanted to cut Zhou Hao into pieces!

She had always been unapproachable and annoyed when she saw men.

But just now, that bastard Zhou Hao had directly stuck to her!

Swoosh!

Silver saber beams kept blooming in Bai Yanran's hand.

Her attacks were very sharp and ruthless.

It could be said that as long as Zhou Hao was careless, he would be severely injured even if he did not die.

Such a scene made Yang Hui feel like stopping the competition.

However, Yang Hui quickly realized that Zhou Hao was really good at hiding his strength.

In such a battle, Zhou Hao was actually not at a disadvantage at all.

Ding!

Half an hour later, because she had been attacking continuously, Bai Yanran had already consumed a lot of energy.

When her saber slashed over, Zhou Hao directly clamped the saber with two fingers.

Bai Yanran struggled for a moment and found that Zhou Hao's fingers were like the most firm pincers.

No matter how hard she tried, her saber did not budge!

Without a choice, Bai Yanran directly gave up on the saber and began to fight Zhou Hao in close combat.

When Bai Yanran's fist arrived, Zhou Hao reached out and grabbed her slender wrist.

"You!"

Bai Yanran was completely speechless at this moment. Zhou Hao's methods were very strange.

Whether it was the two fingers just now or the current Heartless Iron Hand, she was directly unable to break free after he got a hold of her.

In embarrassment and anger, Bai Yanran punched again. Zhou Hao casually threw the saber to the side and grabbed her left hand again.

"Ah? This..."

At this moment, let alone the people from the Sixth Elite Base, even the people from the Seventh Elite Base were dumbfounded.

The battle between Zhou Hao and Bai Yanran was indeed a little strange.

What they knew was that the two of them were fighting. Those who did not know would just think that the two of them were behaving like couples.

In the audience, Xu Ling's face was dark. Even though she knew that this was a difficult battle between Zhou Hao and Bai Yanran, she still could not help but feel this way.

Seeing Zhou Hao and Bai Yanran hug each other in a special posture, Xu Ling still felt an indescribable sourness in her heart.

"Let go!"

Bai Yanran was both ashamed and furious at this moment. She was completely speechless. Ever since she started cultivating, she had never experienced such a strange battle.

"I'm afraid that's not possible."

Zhou Hao shook his head. This Bai Yanran opposite him was very beautiful, but her attacks were very ferocious.

It was also because of the huge difference in strength between him and Bai Yanran. Otherwise, he would definitely be at a disadvantage in Bai Yanran's hands.

"Men and women shouldn't touch each other so casually. Let go of me!"

Bai Yanran struggled for a moment, and her usually calm face turned red.

She simply wanted to skin this Zhou Hao alive. Even if Zhou Hao fought her head-on, it would not be as awkward as it was now.

"Then you have to admit defeat." Zhou Hao nodded and said casually.

As long as Bai Yanran admitted defeat, the Sixth Elite Base would be considered to have lost. According to the agreement, the cultivation resources of the two elite bases would be divided equally in the future.

"Dream on."

Bai Yanran snorted. How could she admit defeat?

If she had known that Zhou Hao cultivated the secret technique "Heartless Iron Hand", she would have used a guerrilla tactic in her battle with Zhou Hao and would not have given him the slightest chance to approach her.

But now, it was too late.

Zhou Hao's hands were like the most firm iron pincers in the world.. He held her hands tightly, preventing her from escaping at all.

## Chapter 271 - Deadlock

*Chapter 271: Deadlock*

“Why do I feel like he’s doing this on purpose?”

In the spectator stands, Yuan Cheng curled his lips and muttered.

It was not that he was disloyal, but Bai Yanran was simply too beautiful. If he were Zhou Hao, he would definitely do the same.

Of course, Xu Ling was also very beautiful. In fact, Xu Ling and Bai Yanran were even on par.

However, their auras were completely different.

Xu Ling was a light and agile orchid in the empty valley, and Bai Yanran was an Ice Mountain Snow Lotus.

Especially Bai Yanran’s cold and arrogant personality, it made people have a desire to conquer her.

“No way...”

Zhang Yi and Zhou Hao had a good relationship. At this moment, although he also felt that Yuan Cheng was right, he still had to help his good brother stabilize the situation.

After all, the smile on Xu Ling’s face had already disappeared. Her small face was gloomy, and she looked at Zhou Hao as if he was a dead person.

This meant that the problem was very serious.

In the arena, Instructor Yang Hui and Instructor Bai Sha were also stunned when they saw Zhou Hao and Bai Yanran in a deadlock.

In this situation, who would win?

Would Zhou Hao win? No, Bai Yanran was not injured. She clearly still had the strength to fight.

However, could they consider it as Bai Yanran's victory? That was even more unacceptable. At this moment, Bai Yanran was unable to move at all.

However, after Zhou Hao reached this step, he did not take a step closer. Instead, he chose to be at a stalemate with Bai Yanran.

Otherwise, if he took it a step further, he could have won. Unfortunately, Zhou Hao did not do so.

"Hmph!"

Bai Yanran exerted strength in her arms and tried to struggle free, but she naturally failed.

However, she was not to be trifled with either. Soon, traces of cold aura spread out from her body.

The temperature around her instantly fell crazily.

If other martial artists came in contact with her, they would gradually be frozen into ice by the cold aura she emitted.

However, Bai Yanran's cold aura originated from blood essence energy. This was a relatively low-level energy and was nothing.

In front of essence energy, blood essence energy was simply too weak.

Just as Bai Yanran's cold aura entered Zhou Hao's body, it was immediately refined by the essence energy in Zhou Hao's body and turned into nourishment.

In Bai Yanran's opinion, as Zhou Hao gradually felt the cold aura, this guy would definitely pull away from her.

Because Zhou Hao would rather die than let go, Zhou Hao might really be frozen to death by her.

Bai Yanran believed that no matter how stupid Zhou Hao was, he wouldn't be stupid enough to joke with his life.

"You?"

However, after emitting a lot of cold air, Bai Yanran was dumbfounded again.

Zhou Hao was simply too strange.

Her ever-present cold aura was useless against Zhou Hao. The current her was like cooling Zhou Hao down on a hot summer day.

Bai Yanran was simply speechless. What kind of weirdo was the top expert in the Seventh Elite Base?

At this moment, in the Sixth Elite Base, an extremely unkind and gloomy gaze landed on Zhou Hao, as if it wanted to bore a hole in him.

The gaze belonged to the top expert in the Sixth Elite Base, Ouyang Jing.

He had been trying to advance his relationship with Bai Yanran, but even after so long, he still did not have the chance to hold her hand.

But now, Zhou Hao and Bai Yanran were in an ambiguous stalemate.

If not for the agreement between Instructor Bai Sha and Instructor Yang Hui, he really wanted to persuade Bai Yanran to admit defeat and teach Zhou Hao a lesson.

Of course, even now, he could still take action.

His cultivation technique focused on mental strength!

Mental strength had always been a martial artist's detection method. In the understanding of most martial artists, mental strength did not have any attack power.

Actually, that was not the case. The effect of mental strength attacks was actually rather shocking.

After condensing his mental strength to a certain extent, he could even kill people without other people finding out.

This time, Ouyang Jing naturally did not plan to kill Zhou Hao. He only planned to ambush Zhou Hao and create an opportunity for Bai Yanran to win.

After Ouyang Jing completely focused, everything around him seemed to have become illusionary at this moment. Everything around him was disappearing crazily.

A moment later, only Zhou Hao and him were left in the entire world.

After locking onto Zhou Hao's sea of consciousness, he instantly used a secret technique..

## Chapter 272 - Mind Your Own Business!

*Chapter 272: Mind Your Own Business!*

Under normal circumstances, after he used the secret technique, the other party would definitely hug his head and scream.

However, when his secret technique blasted into Zhou Hao's sea of consciousness, Ouyang Jing directly spat out a mouthful of blood. His entire body instantly became dispirited to the limit.

"You!"

Ouyang Jing had no idea what had just happened.

The surrounding students were also puzzled. Why did the top expert in their Sixth Elite Base suddenly become like this?

Only Instructor Yang Hui and Instructor Bai Sha had ugly expressions.

Ouyang Jing had violated the rules!

"In this match, Zhou Hao won, and Bai Yanran lost!"

At this moment, Instructor Bai Sha was also very decisive and said the result directly.

Bai Yanran was not stupid and knew Ouyang Jing's methods.

Now that she saw Ouyang Jing's current appearance, she naturally knew what Ouyang Jing had done just now.

"Mind your own business!"

If Ouyang Jing did not interfere, although she did not have a way to escape, she also wouldn't lose so easily.

Now, Ouyang Jing could be considered to have helped Zhou Hao.

This guy was too stupid.

Instructor Bai Sha and Instructor Yang Hui were both outstanding supernatural martial artists. Naturally, they noticed Ouyang Jing's methods.

However, Bai Yanran had really underestimated Ouyang Jing. In fact, Ouyang Jing knew his limits very well. If Zhou Hao was a martial artist on the same level as them, Zhou Hao would at most be stunned after being hit. Instructor Yang Hui and Instructor Bai Sha might not be able to say anything.

At this moment, Bai Yanran could completely seize the opportunity to counterattack.

However, Ouyang Jing still did not understand why he suffered a backlash when he attacked Zhou Hao with his mental strength just now.

Ouyang Jing did not understand this question, but it was actually very normal.

No matter how heaven-defying he was, he was still only a master-level martial artist. However, Zhou Hao was different. The current Zhou Hao was not even a peak-level supernatural expert, but a quasi Heaven Realm expert!

If not for Zhou Hao holding back, the backlash from Ouyang Jing's mental strength would have instantly exploded Ouyang Jing's sea of consciousness and turned him into a fool.

"Let go of me!"

After Instructor Bai Sha announced the results of the match, Bai Yanran was not unconvinced.

She did not know Zhou Hao well enough this time. Although she might not lose, it was likely that she would not be able to win.

In any case, such sparring would happen every few days. It did not matter if they lost this time. It was fine as long as they won the next time.

Now that she had some understanding of Zhou Hao, she believed that she would definitely win next time!

Zhou Hao immediately let go of Bai Yanran.

After letting go of Bai Yanran, he casually picked up the saver that had been thrown behind him.

The saber's blade was long and thin, and there were exquisite and detailed patterns engraved on it. Upon closer inspection, one could sense waves of energy fluctuations. It was obvious that it was very extraordinary.

Seeing Zhou Hao holding her saber, Bai Yanran's eyes revealed a strange expression.

She was really somewhat afraid of Zhou Hao's Heartless Iron Hand.

After hesitating for a moment, she stretched out her hand cautiously to receive the saber from Zhou Hao.

Clearly, the battle just now had made Bai Yanran have lingering fear towards Zhou Hao's Heartless Iron Hand.

Fortunately, Zhou Hao did not do anything to her this time. He only returned the saber to her very naturally.

At this point, the competition between the two elite bases had finally come to an end.

Regarding the final outcome, the elites of the Sixth Elite Base were naturally dissatisfied and indignant. However, at this point, there was no point in saying anything. They could only secretly restrain themselves, thinking that they would come back to take back the resources that belonged to them next time.

The people from the Seventh Elite Base felt dizzy, as if they were in a dream. They had actually won!!

Finally, amidst the cheers of the people from the Seventh Elite Base, the resource battle came to an end.

Some of the combat footage this time also began to circulate in the seven elite bases.

Therefore, Zhou Hao became famous.

Most of the students did not have a very clear understanding of his strength. They only knew that he was not weak.

However, almost everyone already knew Zhou Hao's two divine techniques.

One of these two divine techniques was a mysterious movement technique that allowed him to move like a fleeting shadow. Zhou Hao's movement technique was very powerful, and he could use it to create endless mysteries in a small arena.

If Zhou Hao was placed in an unrestrained place, he would basically be invincible with this movement technique.

Other than this miraculous movement technique, his other secret technique was also very powerful.

No one knew the name of this secret technique, but because it almost made Bai Yanran vomit blood from anger, it was called Heartless Iron Hand.

## Chapter 273 - Green Cloud Divisions Battle Plan

*Chapter 273: Green Cloud Division's Battle Plan*

After seeing Zhou Hao's strength, everyone became even more respectful towards him.

Even Ji Yufan, who usually thought of himself as extraordinary, could not help but look at Zhou Hao in a different light.

Xu Ling was very unhappy at first, but after thinking that Zhou Hao did this to win, she could only try to forget the jealousy in her heart.

After the exchange this time ended, many students in the Seventh Elite Base had undoubtedly been greatly stimulated. In the following cultivation, they became even crazier.

Not long after, the benefits of this sparring competition were displayed.

This was because the cultivation resources distributed by the Green Cloud Division had already arrived at the various elite bases according to the ratio.

Because they had won the competition with the Sixth Elite Base this time, the two sides had decided to divide the cultivation resources evenly for nearly three months.

Therefore, the cultivation resources Zhou Hao and the other students obtained were simply much more than usual. It was at least four times more than before.

With so many cultivation resources, it was naturally impossible for the students of the Sixth Elite Base to not be strong.

In the next few days, the spatial rifts in Huaxia were relatively stable. Zhou Hao did not leave the Seventh Elite Base to help out.

During the day, he accompanied Xu Ling to cultivate in the Seventh Elite Base. At night, he continued to cultivate the Five Elements Grand Yan Record in his villa.

Now, his body had already been completely tempered by essence energy. After using essence energy to temper his body eighty-one times, he could completely complete the transformation.

By then, he would be able to advance from a peak-level supernatural expert to a Heaven Realm martial artist.

Now, he had sufficient cultivation resources, but his luck points had been consumed.

Although he could enter the Heaven Dao software at this time, it was still difficult for him to do anything without luck points.

Zhou Hao could only cultivate and wait for the opportunity to harvest his luck points.

However, the spatial rifts all over Planet Earth were gradually stabilizing, so there shouldn't be any sudden changes for the time being.

Zhou Hao did not wait for any new changes in the spatial rift. Instead, he waited for the Green Cloud Division's combat plan.

Seeing this battle opportunity, Zhou Hao could not help but be excited.

What a waste of time.

"It's finally time!"

When the various spatial rifts underwent changes, he could harvest luck points and wealth.

If not, he could only create opportunities himself.

The Green Cloud Division's combat plan was targeted at the thirteenth spatial rift.

The thirteenth spatial rift had already appeared for a long time. However, there had not been any powerful foreign races before this, so it was relatively stable.

However, after the last great change, the foreign races around the thirteenth spatial rift began to increase continuously, and many of them were powerful.

Currently, more than fifty foreign races with supernatural-level strength had appeared around the thirteenth spatial rift.

Of course, compared to the supernatural-level foreign races living in the other spatial rifts, there were not many foreign races in the thirteenth spatial rift.

Therefore, the Green Cloud Division was prepared to start off with the thirteenth spatial rift. They were prepared to compress the battlefield into the spatial rift and build a defensive city at the entrance of the spatial rift.

In this way, the future battles between humans and foreign races could be resolved in the spatial rift.

The safety of humans would be greatly increased.

Zhou Hao naturally wouldn't refuse such a good opportunity.

When he arrived at the thirteenth spatial rift, Zhou Hao discovered that many experts had already arrived.

He did not know most of the martial artists. After looking around, he only recognized Ling Shuying.

Zhou Hao immediately walked to Ling Shuying's side without thinking.

"Isn't this the Green Cloud Division's combat plan? Why are there so many martial artists participating?" Zhou Hao walked to Ling Shuying's side and asked curiously.

"There are a lot of foreign races to deal with this time. Moreover, we still have to enter the spatial rift and build the defensive walls and energy barriers at the frontline."

"To ensure that nothing goes wrong, almost all the combat strength that can be mobilized has been gathered."

After all, Ling Shuying was a direct martial artist of the Green Cloud Division. She indeed knew more information than the other martial artists.

"I see."

Zhou Hao nodded.

However, there were too many experts who came this time. On average, everyone was only given one powerful beast.

If the situation in the spatial rift was the same, Zhou Hao felt that he had made a wasted trip.

## Chapter 274 - First Battle of the Compressed Defense Line

*Chapter 274: First Battle of the Compressed Defense Line*

As Zhou Hao and Ling Shuying were talking, many martial artists around recognized him and turned the topic to him.

The previous battle in the first spatial rift had made Zhou Hao famous.

Many martial artists looked at Zhou Hao with admiration. Of course, there were also some martial artists who were eager to find out the truth themselves.

It was obvious that they wanted to know if Zhou Hao was really as powerful as the rumors said.

A few martial artists were somewhat jealous.

In the Huaxia Martial Dao World, Ling Shuying was the moon in the hearts of many martial artists.

But all along, Ling Shuying had always been very cold. Very few male martial artists could approach her.

Now, it seemed that the two of them had a good relationship. How could they not be envious?

“Is everyone here?”

A familiar voice sounded.

Then, Zhou Hao saw Zhu Zao, who he had interacted with before, appear not far away.

“Heavenly King Zhu.”

After seeing Zhu Zao, everyone greeted him.

Although there was only a fine line between a peak-level supernatural expert and a Heaven Realm expert, this fine line was simply the difference between the heavens and the earth.

Most supernatural martial artists could probably cultivate to the peak of the supernatural level as long as they did not die.

However, for a long time, many peak-level supernatural martial artists had never been able to break through to the Heaven Realm.

Therefore, Heaven Realm experts were so rare. Only after breaking through to the Heaven Realm would they be so respected.

“Yes.” A martial artist with a ramrod straight body quickly replied.

This time, a total of 49 martial artists had gathered outside the thirteenth spatial rift. Including Zhu Zao, there were exactly 50 martial artists.

However, the main reason why Zhu Zao came here was to oversee the situation and prevent any uncontrollable accidents.

After that, be it clearing the foreign races outside the spatial rift or killing their way into the spatial rift, it would be up to Zhou Hao and the others. They also had to work hard to set up the energy barrier.

“Alright, since everyone is here, I’ll briefly explain.”

“According to reliable intelligence, we can completely take down the thirteenth spatial rift.”

“After compressing the frontline defense line to the entrance of the spatial rift, we will be able to hold the fort more easily. That way, we will also be able to defend even more effectively.”

“After strengthening the energy barrier, it can also greatly reduce the pressure of the outside world, giving the martial artists on Planet Earth more time and space to grow.”

“This outcome of this battle will benefit future generations.”

“I hope I can still see everyone when we gather in the spatial rift later.”

Zhu Zao’s words were not sad. After all, this was the fate of martial artists.

When the darkest moment arrived, someone would always release the light.

This time, Zhu Zao did not try to take advantage of anyone. Instead, he generously gave everyone ten platinum-level Energy Bars, the “synthesized crystal” Zhou Hao mentioned.

“What is this?”

Ling Shuying and the others naturally knew.

However, there were still some martial artists who did not know.

However, after receiving it, they felt that this item was very extraordinary.

“This is a synthesized crystal produced by President Zhou of the Supernatural Council. It’s not used before. You can try it now.”

“This thing is not expensive, but it’s not cheap either. The key is that there are very few of them. In the battle later, if the energy consumption is too high, you can use the synthesized crystal to help recover.”

Many martial artists could not help but look at the Energy Crystal curiously before looking at Zhou Hao.

They also wanted to know what it was that made Heavenly King Zhu think so highly of it.

...

“This!”

After using it, the supernatural martial artists revealed inconceivable expressions.

This thing was much more useful than a colored energy stone. Its energy purity was at least ten times that of a colored energy stone!

Thinking that Zhou Hao was the one who produced these synthesized crystals, the supernatural experts looked at Zhou Hao warmly.

“Alright, don’t think too much about it. This is something that even the Green Cloud Research Institute can’t produce. Don’t even think about it.”

“Kill more foreign races and accumulate more battle merits. You will naturally be able to get more after contributing to Huaxia and humanity.”

Zhu Zao naturally understood what these people were thinking.

In fact, during this period of time, he had also been studying the method to condense this synthesized crystal.

Then, he realized that the lower his cultivation level was, the better his compatibility with the cultivation technique was.

In other words, the lower one's cultivation level was, it would be easier for him to control the blood essence energy as there wouldn't be much of it.

In such a situation, the purity of his blood essence energy would also be very high. Coupled with his high compatibility with the cultivation technique, the effects were even greater.

Therefore, he could easily extract this synthesized crystal.

Up until now, only Zhou Hao had been able to do something like this.

## **Chapter 275 - An Strange Familiar Feeling**

*Chapter 275: An Strange Familiar Feeling*

If other martial artists did this, it would be completely unpromising.

For example, in the past few days, he had also tried to condense some synthesized crystals. He had even gotten the Green Cloud Research Institute to specially come up with many plans.

However, after many attempts, the results were not ideal.

After Zhu Zao finished speaking, a portion of the martial artists became listless and dejected.

Indeed, good things were not easy to obtain.

There were also some martial artists who were skeptical. They might be willing to believe it if it was some other Heaven Realm expert that told them this. However, the person who shared this information was none other than Heavenly King Zhu.

It had to be known that this Heavenly King Zhu had used his mouth to trick countless people. Even their grandfathers had been tricked by him.

Although Zhu Zao looked young and seemed to be in his forties or fifties, his true age was already around 90 years old.

However, after a martial artist cultivated to the Heaven Realm, their appearance would subtly change to their peak state. That was why Zhu Zao looked like this.

“Let’s rest for another 15 minutes before we begin.”

Zhu Zao casually grabbed a rattan chair from the spatial device and sat down.

Zhou Hao naturally had no objections. In fact, he had long wanted to attack.

Fifteen minutes passed in the blink of an eye, and many supernatural experts flew out of the spatial rift.

The human martial artists and foreign races had been fighting at the frontline defense line for many years.

However, this was the first time a battle plan like this had appeared.

After the battle began, Zhu Zao disappeared.

According to the agreement between the human experts and the foreign race experts, Heaven Realm experts on both sides were not allowed to appear on the frontline defense line.

Although Zhou Hao could not see Zhu Zao now, he knew that Zhu Zao must be watching their every move.

Bang!

As he pondered, Zhou Hao punched out and killed a Rotten Blood Worm on the spot.

Among the many foreign races, these Insect Race beings were the most disgusting and hideous.

Not only were they disgusting and hideous, but they were also very difficult to deal with. Most of the time, some Insect Race beings would only appear to be dead after being “killed”.

Swoosh!

In Zhou Hao's hand was a high-level axe he had obtained from opening the mystery box.

With a swing of his axe, a gray insect suddenly emerged from the ground and was directly cut into two.

Although there were many foreign races outside the thirteenth spatial rift, they had yet to discover any powerful individuals.

Swoosh! Swoosh! Swoosh!

The silver axe swept up axe beams in Zhou Hao's hand. Every axe beam that flashed indicated that a foreign race expert was about to be sliced into two.

Compared to the battles of the other supernatural experts, Zhou Hao's battle was simply too smooth and easy.

Up until now, there had been almost no demon beasts, Insect Race, or Machine Race that could fight him.

Most of the foreign races were killed in three to five rounds.

On the frontline defense line of the thirteenth spatial rift, many soldiers with advanced weapons were waiting solemnly. Many Green Cloud Division researchers in white research clothes were also waiting here.

Their battle this time was no longer limited to the exterior of the spatial rift. Instead, they wanted to push the frontline defense line into the spatial rift. This was definitely a very risky and bold attempt.

"President Zhou's strength is indeed extraordinary. The foreign races here are just an appetizer for him."

A female researcher looked at Zhou Hao in admiration.

Compared to the other supernatural experts, Zhou Hao was undoubtedly enveloped in a mysterious halo.

Almost no martial artist knew about Zhou Hao's past. After he appeared out of nowhere, he soared into the sky.

"Of course. After all, he's the honorary president of the Supernatural Council and can even be said to be a president with actual power. Moreover, President Zhou is also a

straightforward martial artist of the Green Cloud Division. His strength is naturally rather powerful and domineering.”

Another male researcher looked at Zhou Hao with worshipful eyes. Seeing Zhou Hao kill everyone on the battlefield, his heart surged with passion.

If not for the fact that he was not a combat-type martial artist but a research-type martial artist, he would also want to personally go and kill the foreign races with him.

“I wonder what Heavenly King Zhu is thinking. Why did he bring these students here?”

A researcher from the Green Cloud Division looked behind everyone and said unhappily.

There were already many students standing there.

Some students were tongue-tied as they watched the battle between Zhou Hao and the others in the distance. Some students even gathered their blood essence energy into their eyes to increase their vision as they stared at everything in front of them.

Gulp!

The elite student Wu Xiao, who had fought with Zhou Hao in the Seventh Elite Base, could not help but swallow a mouthful of saliva.

This was the first time he had seen so many supernatural experts fight!

Not far from Wu Xiao, Bai Yanran was standing alone like a snow lotus on an ice mountain.

She only knew a small portion of the supernatural experts who were fighting in the distance.

However, her gaze was quickly locked by a figure, and Bai Yanran felt an inexplicable sense of familiarity.

## Chapter 276 - I See!

*Chapter 276: I See!*

“Fourth Uncle, who is that?”

Because they were not in the elite training base now, Bai Yanran directly called Instructor Bai Sha Fourth Uncle.

“That’s President Zhou from the Supernatural Council.”

After Bai Sha arrived, he had been paying attention to Zhou Hao’s battle. After Bai Yanran asked, he immediately replied.

“Is this President Zhou of the Supernatural Council? Why does he feel familiar?”

Bai Yanran looked at Zhou Hao thoughtfully.

However, President Zhou of the Supernatural Council was a ninth-grade supernatural expert and a peak-level supernatural expert.

In the Huaxia Martial Dao World, they even respected him as the strongest quasi Heaven Realm expert!

She was born in the Bai family, a cultivation family. Her parents were supernatural martial artists and had extremely high statuses.

However, with her current level, she did not have the chance to come into contact with this strongest quasi Heaven Realm martial artist at all.

Therefore, she and President Zhou would not have any interaction.

However, her sixth sense was extremely accurate. At this moment, she felt that this President Zhou gave her a familiar feeling.

“This movement technique...”

After looking at it for a moment, an unbelievable expression flashed in Bai Yanran’s beautiful eyes.

Seeing this, she finally remembered why she felt that President Zhou was familiar.

Didn’t that damn Zhou Hao use the same movement technique as President Zhou in the Seventh Elite Base?

“I see.”

After figuring this out, Bai Yanran suddenly felt relieved.

In that case, Zhou Hao seemed to be the disciple of this strongest quasi Heaven Realm expert. No wonder he was so powerful.

Now, it seemed that it was already not easy for her to fight Zhou Hao to a draw.

...

“President Zhou, watch your back!”

At this moment, a martial artist suddenly roared.

Behind Zhou Hao, a huge Earth Gate Beetle suddenly jumped out from the ground.

Its huge pincers seemed to want to cut off Zhou Hao’s head.

This sudden scene shocked many people.

Although the battlefield was very chaotic now, as a supernatural expert, especially a peak-level supernatural expert like Zhou Hao, he could still maintain a safe distance from the surrounding foreign races under any circumstances.

But now, this powerful Insect Race expert had appeared very suddenly and strangely. Zhou Hao had instantly fallen into danger.

Not far away, Ling Shuying was also shocked when she saw this.

No matter who it was, martial artists on the battlefield could always easily die. The current Zhou Hao could be said to be in extreme danger.

However, no one expected what happened next.

As this insect Race being attacked, Zhou Hao suddenly swung his axe.

A silver axe flash flashed, and then the Earth Gate Beetle with the strength of a seventh-grade supernatural expert was directly blasted into pieces.

“How powerful!”

Amidst the bloody mist flying everywhere, a martial artist said in shock.

Killing a seventh-grade supernatural insect was naturally nothing.

However, Zhou Hao was caught off guard and was ambushed by a seventh-grade supernatural insect. In the end, not only was he safe and sound, but he was also able to escape unscathed.

Hu...

After killing this Earth Gate Beetle with an axe, his figure flashed and appeared at the side.

A rare-level Energy Bar also appeared in his hand.

“In the beginning, I thought that the number of foreign races outside the spatial rift was relatively small, but after the battle began, the situation actually became so difficult.” As Zhou Hao used the rare-level Energy Bar to recover his essence energy, he pondered.

“These foreign races are very good at hiding. Many of them will suddenly appear in battle and launch sneak attacks.”

“I wonder what’s going on in the spatial rift?”

The rare-level Energy Bar was constantly absorbed and refined in Zhou Hao’s hand, its size shrinking.

At the same time, the essence energy in his body was constantly replenished.

With his combat experience from the previous few battles, Zhou Hao had already learned to replenish his essence energy in between battles to maintain his peak state.

After Zhou Hao had almost recovered the essence energy he had consumed in the previous battle, he did not use the silver axe again.

This time, he took out a bright silver spear.

This bright silver spear was on a completely different level from the axe just now.

The silver axe was only a high-level item, but this Silver Lightning Spear was a rare-level treasure!

## **Chapter 277 - The Genius Expert Of The Foreign Race**

*Chapter 277: The Genius Expert Of The Foreign Race*

Last time, when he was browsing through the Heaven Dao software, he had obtained a total of seven rare-level mystery boxes. This Silver Lightning Spear was one of the seven treasures.

Zhou Hao had never cultivated any spear techniques. However, with his powerful and domineering strength, even if he had never cultivated any spear techniques, just his ordinary moves still had shocking lethality.

Another thing was that there was a spear technique section in his Five Elements Grand Yan Record.

Now that the foreign races could not keep up with the Huaxia supernatural experts, he could cultivate his spear techniques while he fought.

The longer the spear, the stronger it is.

Especially in such a violent collision, this was undoubtedly vividly displayed.

“What kind of treasure is that?”

Seeing Zhou Hao put away the axe and take out the Silver Lightning Spear, many martial artists became interested.

Zhou Hao was previously famous in Huaxia and had also become the center of attention on this battlefield.

Seeing him abandon his axe and spear, many martial artists were somewhat surprised.

Chi!

However, everyone's surprise did not last long before they gradually relaxed.

Zhou Hao was too powerful.

Although he only used ordinary attacks every time he used his spear, these very ordinary attacks could still unleash huge might.

In such a battlefield, the strength and advantages of long weapons were fully displayed.

Zhou Hao rushed around the battlefield like a war god.

Bang!

Bang!

Bang!

One foreign race expert after another was killed by the spear in Zhou Hao's hand.

The power of the Silver Lightning Spear was very powerful. Every time it attacked, silver lightning flashed.

It was extremely dazzling.

As he killed everyone, Zhou Hao also crazily harvested his luck points.

There were not many foreign races here, but most of them were powerful high-level foreign races. After killing these powerful high-level foreign races, Zhou Hao obtained relatively more luck points.

Boom!

Chi! Chi! Chi!

In the beginning, Zhou Hao did not use any spear techniques. Instead, he kept practicing some basic moves.

However, as time passed, the Silver Lightning Spear in his hand became more and more exquisite.

Chi!

It was only when a Demon Race Tiger Demon that was covered in armor appeared in front of him that he was stopped.

"Human ant, you deserve to die!"

The Tiger Demon had a huge body. When it appeared in front of Zhou Hao, it was like a huge black iron tower.

Zhou Hao was not surprised that this Tiger Demon would use a mental strength transmission to communicate with him.

Although these foreign races were mortal enemies with humans, there was a special rule among the foreign races.

The more similar the foreign races were to the humans, the stronger they were.

For example, the Tiger Demon in front of him was a humanoid demon beast.

Zhou Hao could even sense essence energy fluctuations from its body. In other words, this Tiger Demon had also surpassed the peak-level supernatural expert and had become a quasi Heaven Realm combatant.

“Be careful. Several supernatural experts have been killed by it just now!”

When Zhou Hao and the tiger demon foreign race experts faced each other, Ling Shuying also sent a voice transmission from afar.

Many supernatural experts even wanted to rush over to help.

The strength of this Tiger Demon definitely exceeded the understanding of most martial artists.

Up until now, nine human supernatural experts had already died in its hands. It could be seen how terrifying and domineering this guy's strength was.

However, as the battle continued, more and more foreign races came out of the thirteenth spatial rift.

At this moment, even if they wanted to help Zhou Hao, they were unable to do so.

Boom!

Zhou Hao did not respond to the Tiger Demon at all.

If not for the Huaxia supernatural experts, no one would have been able to stop this Tiger Demon. In fact, Zhou Hao still wanted to harvest the other foreign races and accumulate luck points.

With luck points, Zhou Hao could go anywhere and do anything. Without luck points, his every move was restrained.

Previously, he had spent all his luck points and obtained a large number of rare-level Energy Bars. It was all because he wanted to use them to help him kill everyone on the battlefield and harvest more luck points.

After killing this powerful foreign race, he could also obtain a lot of luck points, but it was very not worth it.

Behind them, the previously calm Zhu Zao suddenly stood up.

Those who had fought with Zhou Hao just now were all small fries, but Huben was different.

Among the foreign races, most of them did not have names. They only had aliases or some simple names.

Huben was the same as Zhou Hao.. Zhou Hao was a genius expert of the human race, and Huben was a genius expert of the foreign races.

## Chapter 278 - Powerful Opponent

*Chapter 278: Powerful Opponent*

A Ghost Head Saber also appeared in Huben's hand.

Previously, many human supernatural experts had already died under its Ghost Head Saber.

Ding!

Before Huben could attack, Zhou Hao had already attacked.

A cold light shot out like a dragon.

Huben's movements were not slow at all. When Zhou Hao attacked with his spear, it also instantly slashed down.

A crisp sound of metal colliding sounded, and then a powerful force directly exploded in midair.

The terrifying force instantly forced Zhou Hao and Huben to take a few steps back in midair!

"What happened?"

"This foreign race is so powerful!"

"How terrifying. This guy is actually able to fight President Zhou head-on without being at a disadvantage!"

The surrounding martial artists were all discussing spiritedly at this moment. They were already used to seeing Zhou Hao's magnificent battles where he vanquished his opponents.

Now, seeing that the foreign race was comparable to Zhou Hao, everyone was somewhat worried.

The fact that Zhou Hao could kill the foreign races without any hindrance meant that this foreign race expert could also kill the supernatural experts of humanity in cold blood.

Boom!

After a fierce battle, Zhou Hao and Huben were already fighting again.

Huben's physique and bloodline were very special. In the beginning, its hands were still a pair of huge tiger claws, but now, they had turned into rough human hands.

Its strength was very terrifying. Ever since Zhou Hao started cultivating, he had fought many foreign races. Until now, this Huben was definitely the strongest among all the foreign races he had fought.

When he fought Huben, every violent collision made his hand feel numb.

During this period of time, he had constantly used his essence energy to wash and refine his body. Because of this, his body had been greatly nourished and improved.

Otherwise, Zhou Hao estimated that during the battle with Huben, before he could be killed by Huben, he would fall apart from the violent collisions.

Swoosh!

Huben missed again.

Focusing on one's strength and avoiding one's weakness was one of the simplest and most effective combat techniques.

Huben's strength was very powerful, but he was still lacking in agility.

There was no need for Zhou Hao to fight head-on with the Huben Fists. He had 2,000 rare-level Energy Bars on him, so he only needed to use a guerrilla method to exhaust this guy to death.

Roar!

Deafening roars sounded from the forest.

Huben was very furious. Not only were human martial artists tenacious, but they were also very cunning!

At this moment, Zhou Hao was constantly dodging and did not collide head-on with it.

Its strength was very powerful, but in terms of speed and agility, it was not as agile as Zhou Hao.

Now, Zhou Hao was like a mosquito, occasionally giving it a sting. After attacking, Zhou Hao did not care if his attack hit or not and instantly retreated.

“Ant, do you only know how to dodge?”

“A coward like you really shouldn’t appear on the battlefield!”

Although Huben looked silly, its intelligence was considered very good among the foreign races.

At this moment, he actually knew how to use words to anger Zhou Hao.

However, it did not know that Zhou Hao had already succeeded in making it angry.

In his anger, Huben’s attacks gradually lost their pattern and became somewhat anxious.

This was because while Zhou Hao was fighting it, he was also killing the surrounding foreign races wantonly.

Every time Zhou Hao attacked, almost all the foreign races were severely injured or even killed.

Seeing this, Huben was furious. He even gave up on fighting Zhou Hao and prepared to kill other human experts.

However, when it wanted to leave, Zhou Hao did not give it a chance.

Chi!

As Zhou Hao’s shocking spear pierced out, a rain of blood immediately swept up on Huben’s arm.

Seeing Huben injured, everyone could not help but clap and cheer, revealing a relaxed expression.

By chasing after him, Zhou Hao would definitely be able to heavily injure this Huben.

However, to their surprise, Zhou Hao actually escaped!

He fled without hesitation or hesitation, throwing away his Silver Lightning Spear!

Everyone could not help but sigh as they watched, sighing that Zhou Hao had missed a good opportunity.

## Chapter 279 - Massacre

*Chapter 279: Massacre*

However, the moment Zhou Hao gave up on the Silver Lightning Spear and retreated, this Huben actually cunningly grabbed the Silver Lightning Spear and pulled back, biting out at the same time.

All of this might sound complicated, but in fact, it all happened in a flash!

Everyone came to a realization.

Huben had indeed used a trick just now. He pretended to attack the other supernatural experts to trick Zhou Hao.

It even did not hesitate to allow Zhou Hao to injure itself slightly to cause this outcome.

Originally, Huben thought that Zhou Hao would definitely be unable to react in time when it suddenly retracted the Silver Lightning Spear. If things had gone according to plan, Huben would have instantly closed the distance between them before biting Zhou Hao to death.

But now, Huben had directly taken a bite of air. Zhou Hao, who should have been bitten to death by it, had already appeared somewhere else with a teasing expression.

Zhou Hao had long known that this guy was dishonest. He had also held back greatly when he attacked just now.

Boom!

Before Huben could understand what was going on, Zhou Hao suddenly shouted.

Then, his Silver Lightning Spear sensed something and a powerful and terrifying strength instantly bloomed from it.

It turned out that in combat, every time Zhou Hao waved the Silver Lightning Spear, it would contain a lightning spear aura.

This lightning spear attack could be condensed with mental strength, allowing it to condense until it reached an extremely shocking and terrifying level before suddenly erupting.

“Not good!”

At this moment, Huben suddenly let go as if he had grabbed a venomous snake.

Its reaction was already very fast, but the sudden eruption of the lightning power still instantly made its palm bleed.

“Nice!”

Seeing this, Zhu Zao could not help but praise.

Zhou Hao had now created the greatest result at the minimum price.

However, soon, Zhu Zao’s eyes could not help but reveal a trace of pity.

Although Zhou Hao’s current strength was already very powerful, his combat experience and some killing techniques still needed to be improved.

Otherwise, with such a perfect opportunity just now, there was a high chance that he could kill Huben.

Although there were many foreign races, there were still very few geniuses like Huben among the foreign races.

After being injured, Huben did not hesitate and escaped crazily into the spatial rift.

Along the way, although there were other human experts obstructing it, they were unable to stop it at all.

Zhou Hao stretched out his hand and waved. When he took back the Silver Thunder Spear, he could only watch as Huben escaped.

“Sigh...”

Seeing Huben escape back to the spatial rift, he was also helpless.

Just like how the human race had top-notch genius experts, such an existence was also born in the foreign races.

With Zhou Hao's current strength, it was really very difficult for him to kill Huben.

However, with his growth speed, if he encountered Huben again, he would definitely kill it given that Huben did not have any trump cards.

After Huben escaped, Zhou Hao continued to kill.

Although the shocking collision just now was no longer there, the current satisfying massacre made everyone's blood boil.

At the same time, Zhou Hao's luck points were increasing crazily.

After fighting for a while, his luck points had already soared to more than 10 million.

In the past battles, although Zhou Hao had killed countless foreign races, the final luck points were only 20 to 30 million.

Therefore, while pursuing numbers, he also had to kill high-level foreign races to quickly increase his luck points.

Bang!

The Silver Lightning Spear in Zhou Hao's hand suddenly pierced out. A seventh-grade supernatural being's head was immediately blown away.

Then, he suddenly slashed down with his spear, blasting another Insect Race expert into a bloody mist.

Without the powerful foreign race experts stopping Zhou Hao, Zhou Hao was like a ferocious tiger that had killed his way into a flock of sheep.

Wherever he passed, the surrounding foreign races fell one after another like they were cutting wheat.

"Hiss! President Zhou is actually so powerful!"

On the city gate tower behind, many martial artists could not help but sigh when they saw Zhou Hao's heroic appearance.

"Too powerful!"

Now, Zhou Hao was charging left and right in the foreign race wave, as if he had entered an uninhabited place!

## Chapter 280 - One Against Ten Thousand

*Chapter 280: One Against Ten Thousand*

In the distance, the students from the various elite bases looked at Zhou Hao with worshipful gazes.

This time, many powerful martial artists were transferred from all over Huaxia. Especially after Zhou Hao killed many powerful foreign races, the speed at which everyone cleaned up the remaining foreign races also became faster and faster.

Seeing the scene in front of them, many martial artists in the distance were very excited.

Since the war between Planet Earth and the foreign races, humans had always been at a disadvantage.

A situation like this had never happened before in the various regions of Planet Earth.

Gradually, the surrounding foreign race beings became fewer and fewer. Because of the previous battle, many supernatural experts had almost exhausted all their blood essence energy. They gradually stopped and looked in the same direction.

This was naturally the area where Zhou Hao and the other foreign races were fighting.

The current scene could be said to be very magnificent.

Because there were too many casualties, many foreign races had already approached the spatial rift crazily and retreated into it.

However, at this moment, Zhou Hao was chasing after the foreign races with the Silver Lightning Spear alone.

As he moved, many foreign race beings were already being killed by him.

Wherever Zhou Hao went, these foreign race beings were already frightened by his incomparably ferociousness. They did not want to fight him at all and instead fled at an even faster speed.

In the eyes of the elite students in the fortress forbidden area behind, this scene was even more shocking.

In their opinion, Zhou Hao was simply chasing after the foreign races alone!

Zhou Hao was still somewhat unsatisfied after chasing all these foreign races into the spatial rift.

In order to completely suppress the thirteenth spatial rift, many experts had been transferred from all over Huaxia.

Although Zhou Hao had killed the most foreign races, the other supernatural experts had also done a lot of the work.

After chasing the foreign races back to the spatial rift, Zhou Hao did not continue to kill his way into the spatial rift.

Now, he had consumed a lot of essence energy and needed to regulate his breathing to recover.

When Zhou Hao returned to the city tower, he discovered that the other martial artists were all paying attention to him. Their burning gazes seemed to want to bore a hole in him.

After all, in their opinion, Zhou Hao was simply as powerful as an anomaly. It had really exceeded their understanding.

“President Zhou, you’re strong!”

“As expected of President Zhou!”

“How impressive, President Zhou!”

Seeing Zhou Hao come over, many martial artists even spoke from the bottom of their hearts.

They were only speaking the truth, after all. Zhou Hao’s strength and the contributions he had made on the battlefield were definitely obvious.

“Well done!”

It was not only the ordinary martial artists who were in awe of Zhou Hao. Even Zhu Zao appeared beside Zhou Hao.

Zhu Zao's face was also red. The surprise Zhou Hao gave him was really too big.

In order to quickly take down the battle outside the spatial rift, Zhu Zao felt that as long as no more than twenty supernatural experts died, it was all worth it.

However, because Zhou Hao was here this time, most of the powerful foreign race beings had been killed by him alone.

Without the danger of these powerful foreign races, the injuries of the other supernatural experts naturally decreased drastically.

"This is everyone's joint effort." Zhou Hao replied calmly.

His contribution in this battle was indeed not small, but it was definitely thanks to all the martial artists present that he was able to kill all the foreign races and retreat into the spatial rift.

"Well, this is no time for modesty."

"Compared to the other spatial rifts, the number of foreign race beings in this spatial rift is relatively stable. There are also no very powerful foreign race lairs around."

"Now that you've killed many foreign races outside the spatial rift, the strength of the foreign races in the spatial rift should also be unprecedentedly weak."

"Therefore, everyone, make the best use of your time to regulate your breathing and recover. After you recover, we'll take down the thirteenth spatial rift in one go!"

As he spoke, even Zhu Zao was somewhat excited.

If they could really push the battlefield into the spatial rift this time, this would undoubtedly be a very important step in the history of the battle between humans and the foreign races!

"Understood!"

After Zhu Zao finished speaking, the surrounding martial artists also nodded.

Their small step today was definitely a huge step for the entire human race..

## Chapter 281 - Bold

*Chapter 281: Bold*

Zhou Hao did not say anything. He had already grabbed a rare-level Energy Bar and began to recover.

His strength was very powerful, and the consumption of essence energy was naturally very large.

He was also looking forward to the following battle.

This was also the first time he was going to the spatial rift. He had to be prepared!

Thinking of the upcoming battle in the spatial rift, many martial artists gradually calmed down and began to feel somewhat nervous.

This was the first time they were going into the spatial rift. There were definitely many unknown dangers inside. No one knew what the final outcome would be.

“Are you afraid?”

At some point in time, Ling Shuying had already appeared beside Zhou Hao.

Although Heavenly King Zhu was holding down the fort here, according to the agreement between the human experts and the foreign race experts, Zhu Zao was not allowed to attack.

If the human Heaven Realm experts were to kill the foreign race experts in the foreign race's training grounds, then the many foreign race Heaven Realm experts would also rush out of the spatial rift to begin killing the humans.

At that time, the situation would become even more serious.

“No.”

Zhou Hao told the truth. It was not as if he was unaware of the situation in the spatial rift.

In addition, although he had not stepped into the Heaven Realm yet, he was still a quasi Heaven Realm martial artist above the peak of the supernatural level.

It was even to the extent that among the many quasi Heaven Realm martial artists, he was a powerful existence ranked at the top.

Without a doubt, the spatial rift was definitely very dangerous, but that was only the depths of the spatial rift.

Under normal circumstances, supernatural experts could already move freely at the edge of the spatial rift and the outer area.

“You sure are bold.” Ling Shuying curled her lips and said.

In fact, she had never entered the spatial rift before.

Many martial artists would enter the spatial rift to continue cultivating when they cultivated to the eighth-grade or ninth-grade supernatural level. However, she was not such a martial artist.

Because she was born in the Ling family, she relied on the cultivation resources of the Ling family all the way to cultivate to the quasi Heaven Realm outside the spatial rift.

Thinking of this, Ling Shuying could not help but look at Zhou Hao in admiration.

She was the direct daughter of the Ling family and was doted on and protected. Since she started cultivating, she did not lack cultivation resources at all.

But according to her knowledge, Zhou Hao was only an itinerant cultivator. It was already very heaven-defying for an itinerant cultivator to cultivate to the quasi Heaven Realm.

Moreover, Zhou Hao was an expert among many quasi Heaven Realm martial artists.

Hearing Ling Shuying’s words, Zhou Hao stopped what he was doing.

“Does that mean you’re afraid?” Zhou Hao smiled and asked Ling Shuying.

He had already known Ling Shuying for a while, but their meetings were always sudden and short.

After all, on the battlefield, no one had the mood to chat when their lives were at stake.

“Me?” Ling Shuying rolled her eyes at Zhou Hao and continued, “Do you think someone like me would be afraid?”

Although she said that, Ling Shuying was still a little afraid.

Outside the spatial rift, the quasi Heaven Realm was already the ceiling of combat strength. Generally speaking, it was impossible for foreign race Heaven Realm experts to appear outside the spatial rift.

However, it was hard to say after they entered the spatial rift.

The spatial rift was the territory of the foreign races. Anything could happen there.

Once they encountered a foreign race Heaven Realm expert, they wouldn't even have the chance to escape before being directly killed.

"You don't have to be afraid. Just stay close to me."

Zhou Hao had actually already seen through Ling Shuying's bluff, but he did not expose her.

Even quasi-Heaven Realm experts were still humans and humans would naturally feel fear. This was all very normal.

The situation in the spatial rift was constantly changing. No one knew what they would encounter after entering.

However, if they could set up an energy barrier at the entrance of the spatial rift, then the subsequent defense would be very easy.

After all, the entrance to the spatial rift was only so big. If an energy barrier was set up at the entrance of the spatial rift, it would undoubtedly completely cut off the foreign races' throats.

It could have the effect of holding back ten thousand enemies alone.

Zhou Hao and Ling Shuying did not chat much before the time for everyone to enter the spatial rift quietly arrived.

Some supernatural martial artists had very calm expressions. To them, entering the spatial rift had long been fate's arrangement.

Of course, there were also some supernatural martial artists who had worried expressions.

After all, they were only supernatural experts, and some of them were even supernatural martial artists at the fifth-grade.

With their strength, they were definitely an expert outside the spatial rift. However, after entering the spatial rift, their strength might prove to be insufficient.

There were also some martial artists like Zhou Hao who were somewhat expectant and wanted to explore the differences in the spatial rifts.

Zhu Zao naturally saw everyone's expressions.

## **Chapter 282 - Quasi Heaven Realm Foreign Race Being**

*Chapter 282: Quasi Heaven Realm Foreign Race Being*

Looking at the people in front of him, Zhu Zao could not help but come to a realization. He seemed to be thinking of the past when he first entered the spatial rift.

"Salute!" At this moment, a guard officer shouted.

Immediately, all the guards saluted Zhou Hao and the other martial artists who were about to enter the spatial rift.

They were about to enter the spatial rift.

As the other martial artists were still hesitating, Zhou Hao was the first to leave.

He did not want to show off or anything. He just wanted to enter and experience this spatial rift properly and kill as many foreign races as possible to obtain luck points.

"As expected of President Zhou!"

"President Zhou is peerless and bold!"

Seeing Zhou Hao take the lead and charge towards the spatial rift, the martial artists behind seemed to have been given a boost in confidence.

If they succeeded this time, the pressure on Huaxia's defense would be greatly reduced.

Under the gazes of the martial artists and students, Zhou Hao had already approached the edge of the spatial rift.

Zhou Hao had also entered this spatial rift before. Compared to the previous seventh spatial rift, this thirteenth spatial rift seemed to be much calmer.

He did not sense any powerful aura or danger here.

After stopping for a moment, Zhou Hao entered the mysterious spatial rift under everyone's gazes.

At this moment, the soldiers saluted Zhou Hao again!

No one knew what would happen after Zhou Hao went in.

Zhou Hao was definitely qualified to be the president of the Supernatural Council. He would always take the lead in times of danger.

Of course, they did not know that the reason why Zhou Hao was in such a hurry to enter was because he wanted to kill more foreign races to earn luck points.

Otherwise, if these foreign races were killed by other supernatural experts, his losses would be really not small.

After entering the spatial rift, a desolate and silent aura surged towards them.

In an instant, countless foreign races pounced over.

"Get lost!"

As the foreign races pounced over, Zhou Hao snorted and the Silver Lightning Spear in his hand emitted countless cold killing intent.

These foreign races were like moths to a flame as they were constantly killed by him. It could be said that he alone could hold back ten thousand enemies!

This time, Zhou Hao killed to his heart's content. With every breath, his luck points soared.

When they were outside the spatial rift, the foreign races were too dispersed. However, because most of the foreign races wanted to leave the spatial rift, the foreign races were all gathered together at this moment.

It was precisely because there were too many foreign races gathered around that Zhou Hao was able to kill a large number of foreign races with a single move. Therefore, his luck points kept increasing.

Zhou Hao did not delay at the entrance. He directly held his spear and kept charging forward. He directly killed his way into the thirteenth spatial rift.

Although everyone had long known that Zhou Hao was very powerful, they were still very shocked when they saw Zhou Hao forcefully kill a way out of the foreign races.

It was as if Zhou Hao could constantly change their understanding and surprise them.

After Zhou Hao, Ling Shuying and the others, as well as the other supernatural experts, entered the spatial rift one after another to fight the foreign races in the spatial rift.

After the two sides fought, many martial artists felt that the situation was not good.

The same foreign races were actually stronger in the spatial rift.

Therefore, Zhou Hao's invincible figure shocked everyone even more.

As the supernatural martial artists killed their way into the spatial rift and forced back the foreign races, the researchers from the Green Cloud Division also entered the spatial rift and began to set up an energy barrier.

Zhou Hao had been very valiant in the outside world previously, so he naturally did not disappoint everyone now.

At this moment, Zhou Hao was still charging at the front, forcing the foreign races to retreat step by step.

Until at a certain moment, a deafening roar sounded. All the martial artists' hearts trembled.

Roar!

When this roar sounded, the few supernatural experts closest to it felt their heads buzz before they fell to the ground.

"Heaven Realm?"

Sensing the incomparably oppressive and terrifying aura, the surrounding supernatural experts revealed extremely fearful gazes.

No matter what, a Heaven Realm expert should not have participated in a battle of this level.

"Not Heaven Realm, but it's already incomparably close to Heaven Realm!"

Some experienced supernatural experts revealed bitter expressions.

It seemed that it was indeed not easy to move the battlefield to the other side of the spatial rift.

## Chapter 283 - Looks Like We Can Only Fight

*Chapter 283: Looks Like We Can Only Fight*

“Not good!”

The supernatural experts of the younger generation had never fought with such a powerful quasi Heaven Realm expert before and did not know just how powerful it was. However, the supernatural experts of the older generation had indeed experienced it deeply.

Every time they fought with such a powerful quasi Heaven Realm foreign race, it meant huge casualties!

As expected, after the beast roar sounded, a Red Gold Flame Lion the size of a small mountain jumped over from afar.

Several supernatural experts who were still fighting the foreign races in midair were sent flying like birds with broken wings under its slap.

“Let’s attack together!”

After seeing that the foreign race expert this time was the Red Gold Flame Lion, most of the martial artists did not completely despair.

Although the Red Gold Flame Lion was powerful, the humans still had a lot of supernatural experts and were definitely not to be trifled with.

In an instant, many martial artists attacked the Red Gold Flame Lion.

However, facing everyone’s attacks, there was only deep ridicule and ridicule in the Red Gold Flame Lion’s eyes.

Their attacks could only be used to deal with ordinary supernatural-level foreign races. Facing a quasi Heaven Realm foreign race, such an attack was simply laughable.

Countless attacks exploded on the Red Gold Flame Lion's body, but they were like tickles and did not injure it at all.

This fellow's powerful and domineering aura was vividly displayed at this moment.

Bang!

After the Red Gold Flame Lion suddenly attacked with its claw, a few lower fifth-grade supernatural experts who were unable to dodge in time were directly blasted into a bloody mist and died miserably on the spot!

"Retreat! Retreat!"

"I should stay as far away from this guy as possible!"

Seeing their companions who had been fighting side by side previously turn into bloody mist, many martial artists' eyes widened!

Everyone looked at the Red Gold Flame Lion with eyes filled with anger and hatred.

However, after sensing the powerful and terrifying aura of the Red Gold Flame Lion, everyone still felt more despair.

The Red Gold Flame Lion was simply too powerful. Although there had yet to be an all-out battle, many martial artists could already sense how powerful and terrifying the Red Gold Flame Lion was.

Among the people present, even Zhou Hao was still far inferior to this Red Golden Flame Lion.

With this Red Gold Flame Lion holding down the fort, their operation this time would probably end in failure!

Bang!

As everyone retreated crazily, the Red Gold Flame Lion did not hesitate and directly chased after them.

Fortunately, the Red Gold Flame Lion did not manage to chase for long before it was stopped by Zhou Hao.

"You're courting death!"

Seeing that Zhou Hao actually dared to attack it alone, the Red Gold Flame Lion was furious. Then, it directly started fighting Zhou Hao.

The Red Gold Flame Lion's technique was very powerful and domineering. The moment its aura exploded, endless might spread in all directions.

"Be careful!"

"President Zhou, be careful!" Many supernatural experts shouted.

It was not that they did not believe in Zhou Hao's strength, but it was entirely because this Red Gold Flame Lion was too terrifying.

As the Red Gold Flame Lion's claw slammed down, Zhou Hao also punched out.

Boom!

Suddenly, an extremely terrifying force exploded.

Even with Zhou Hao's strength, he was still forced to take three steps back.

However, this scene was extremely shocking in the eyes of the surrounding martial artists.

This Red Gold Flame Lion was too powerful. In the previous few attacks, all the martial artists that were attacked by it had died.

Among the many martial artists here, no one dared to guarantee that they could withstand a punch from the Red Gold Flame Lion.

Therefore, when Zhou Hao chose to face the Red Gold Flame Lion head-on, many martial artists were shocked.

However, to everyone's surprise, Zhou Hao actually received the other party's punch.

Although he retreated three steps, he was not injured at all.

In the distant battle, Ling Shuying and the other martial artists who were more familiar with Zhou Hao heaved a sigh of relief.

"This mutated beast is too powerful. Even I might not be able to defeat it head-on."

"Looks like I can only struggle and find an opportunity to injure him!"

After thinking for a moment, Zhou Hao made a decision.

Immediately, his figure moved quickly and stopped colliding with the Red Gold Flame Lion.

## Chapter 284 - Saving People

*Chapter 284: Saving People*

Bang!

An explosion sounded and a huge rock was instantly shattered.

“This guy is so fast!”

Zhou Hao kept flying in the air as he pondered how to deal with this Red Gold Flame Lion.

This Red Gold Flame Lion’s entire body was shining with golden light and raging flames. It looked majestic and domineering.

Suddenly, Zhou Hao had a bold idea.

Last time, he had opened seven rare-level mystery boxes in a row.

One of the rare items was called the Beast Control Ring.

“I wonder if this Beast Control Ring can subdue this guy and make him my mount?”

Zhou Hao thought as he dodged in the air.

“Quickly go and help President Zhou!”

“Everyone, be careful. This beast is too powerful!”

“Let’s gather our strength and finish this beast first!”

“Let’s attack together!”

As Zhou Hao was thinking to himself, the other peak-level supernatural experts had already decided to gather all their strength and kill this powerful quasi Heaven Realm demon beast first!

“Alright!”

Hearing the other supernatural martial artists’ words, Zhou Hao nodded.

His strength was not weak, but it was about the same as this Red Gold Flame Lion.

However, usually, this quasi Heaven Realm demon beast had already activated a portion of its bloodline power. When the Red Gold Flame Lion used its bloodline power, he might not be its match.

Therefore, he would be more confident with help.

“Martial artists below the fifth-grade of the supernatural level, retreat!”

Although they needed to gather their strength and take down this Red Gold Flame Lion, its strength was still too powerful. In front of it, supernatural experts and low-level fifth-grade martial artists were simply like vegetables.

“I’ll restrain it head-on. You guys find an opportunity to attack!”

A martial artist from the Green Cloud Division roared and took the initiative.

It was undoubtedly very dangerous to restrain the Red Gold Flame Lion head-on.

“No need, I’ll do it.”

Zhou Hao did not agree to this suggestion.

After beating the Red Gold Flame Lion to death, he was prepared to take it as his underling.

At its peak, the Red Gold Flame Lion might not be able to control its Beast Control Ring. However, it would be much easier when the Red Gold Flame Lion was half-dead.

“Yes, President Zhou!”

The other martial artists naturally would not disobey Zhou Hao’s words. Moreover, among them, Zhou Hao was probably the most qualified to make decisions here!

“Hah!”

Zhou Hao roared as the essence energy in his body surged. His blood essence surged like a rainbow like a furnace!

Crack! Crack!

Waves of explosive sounds sounded out as his physical strength was constantly activated.

"If I can take this big guy as my mount this time, I'll be able to walk freely in the spatial rift in the future."

Zhou Hao thought to himself.

Generally speaking, outside the various spatial rifts, most of the foreign races' strength was at most at the peak of the supernatural level, which was the level of a ninth-grade supernatural expert.

Now, not to mention an elementary-level spatial rift like the spatial rift in the thirteenth spatial rift, such a foreign race expert was even uncommon in high-level spatial rifts.

They really did not know if they were unlucky or if something had happened in the spatial rift. They originally wanted to attack from a weak spot, but they ended up encountering a tough nut to crack.

However, it was too late for regrets now. Zhou Hao could only grit his teeth and endure.

On this side, Zhou Hao was still thinking about how to take this quasi Heaven Realm Red Gold Flame Lion as his mount.

On the other side, Zhu Zao felt a headache coming up.

"Heavenly King Zhu, how's the situation inside?" A burly man with three crisscrossed scars on his face asked anxiously.

This burly man was called Situ Lei and was the junior brother of Minister Zhang of the Green Cloud Division.

Situ Lei was the same as Zhou Hao. They were both quasi-Heaven Realm martial artists. However, approximately 16 years ago, after Situ Lei was severely injured, his strength had suffered a huge loss. Even now, he had yet to recover.

Situ Lei was like an ant on a hot pan, unable to sit still. He wished he could directly rush in and contribute his strength.

Unfortunately, he had been too severely injured back then. Even now, he had only recovered to the strength of a fifth-grade supernatural expert.

If he went in now, the chances of him getting killed were the highest.

## Chapter 285 - Joining Forces to Defeat the Enemy

*Chapter 285: Joining Forces to Defeat the Enemy*

He used to have the greatest hope of breaking through to the Heaven Realm and becoming a Heaven Realm expert. However, after all that had happened, he had fallen behind by quite a lot.

“Hai! How unlucky.”

Zhu Zao kept him in suspense. Perhaps he was used to it.

“Heavenly King Zhu, why are you still keeping us in suspense at a time like this?”

Situ Lei was speechless. If not for his serious injuries, he would have entered long ago.

“It’s useless to be anxious. A Red Gold Flame Lion appeared in the spatial rift. Its strength has almost reached the peak of the quasi Heaven Realm. I’m afraid this operation will be done for.”

Although Zhu Zao said this, he did not give the order to retreat.

It was not the time to retreat yet.

However, if Zhou Hao and the others wanted to deal with this Red Gold Flame Lion, they could only rely on luck.

Hiss...

“What?”

“A peak-level quasi Heaven Realm Red Gold Flame Lion?”

The eyes of Situ Lei and the others revealed shock and bitterness.

He had long expected that this operation would not be easy. Now, it seemed that this operation was not only not easy, but it was even more difficult than he had imagined.

...

In the spatial rift, the battle between Zhou Hao and the others and the Red Gold Flame Lion had already reached a climax.

Pfft!

Not far away, Ling Shuying felt a weird taste in her throat and spat out a mouthful of blood.

After Ling Shuying spat out blood, the Red Gold Flame Lion's claw covered the sky and the earth as it slapped down with countless winds.

It was over!

At this moment, Ling Shuying no longer had any hope.

Just now, she had been ambushed by another powerful foreign race expert and was now facing the terrifying attack of the Red Gold Flame Lion.

At this moment, the spirit energy in her body was already very chaotic.

Under such circumstances, how could she have the energy to dodge the Red Gold Flame Lion's full-power slap?

Most terrifying of all, there were no supernatural experts around her. By the time the others arrived, she would probably have been slapped into pieces.

Swoosh!

Just as Ling Shuying did not do anything, Zhou Hao's figure flashed and instantly arrived from afar.

Before Ling Shuying could react, she felt her body lighten and was carried far away.

"Are you that careless on the battlefield?"

Although it was extremely dangerous at this moment, Zhou Hao still joked after saving Ling Shuying.

"It's not like you didn't get any benefits. Let go of me!"

Ling Shuying felt lucky to have survived the disaster, but she still rolled her eyes at Zhou Hao.

Although she had been anxious to save him just now, she still felt that Zhou Hao was doing it on purpose. Why did he have to grab her there?!

“Cough cough...”

Zhou Hao was also stunned. He was clearly prepared to grab Ling Shuying’s slender waist with one hand and save her.

However, at the critical moment, Ling Shuying was also crazily struggling. Her struggle caused him to directly put one arm around Ling Shuying’s shoulder. However, the slender hand that stretched out from Ling Shuying’s other shoulder touched a soft spot.

“Cough cough, I was just anxious to save you.”

Zhou Hao retracted his hand awkwardly. Previously, he had thought that Ling Shuying wasn’t too competent.

After today, he finally realized that he had completely underestimated Ling Shuying. This girl was truly talented and had hidden her strength well.

“Hmph, pervert.”

Ling Shuying also felt that Zhou Hao was probably just anxious to save her.

But no matter what, Zhou Hao still harassed her.

“I’m innocent.”

Zhou Hao felt very wronged. If not for Ling Shuying moving around, he would not have grabbed the wrong place.

“Stop talking nonsense. Let’s kill this Red Gold Flame Lion first!”

Ling Shuying was not prepared to say anything else about this matter. She decided to either kill Zhou Hao directly or to ignore this matter.

After taking out a medicinal pill and consuming it, Ling Shuying joined the battle again.

“Hai... women don’t know how to take care of themselves.”

Zhou Hao sighed and immediately attacked. At the same time, the rare-level Energy Bar in his hand turned to ashes.

After bringing Ling Shuying here just now, he did not waste any time and instead seized the opportunity to recover his essence energy.

“Fortunately, I have enough rare-level Energy Bars this time. Otherwise, I would be in big trouble.”

After recovering his essence energy, Zhou Hao also joined the battle again.

Previously, he had been suppressing the Red Gold Flame Lion head-on, creating many opportunities for the other martial artists.

Under the siege of many people, the Red Gold Flame Lion had already suffered many injuries.

“If this continues, it shouldn’t be a problem for me to capture this guy.”

Zhou Hao thought to himself.

## Chapter 286 - Luring the Enemy

*Chapter 286: Luring the Enemy*

On the human martial artists’ side, everyone had platinum-level Energy Bars. After their blood essence energy was exhausted, they could quickly rely on the platinum-level Energy Bars to recover their blood essence energy.

Although the Red Gold Flame Lion was powerful, it did not have any treasures to recover its essence energy.

In this way, Zhou Hao felt that the probability of him subduing the other party was already very high.

“Ant, get lost!”

In the battle, the Red Gold Flame Lion gradually became very irritable.

In the beginning, its goal was very clear: to kill Zhou Hao.

However, later on, Zhou Hao did not cause any damage to it. Instead, many supernatural martial artists around it had left many injuries on it that were neither light nor heavy.

Just as the Red Gold Flame Lion was incomparably furious, Zhou Hao appeared again.

The moment it saw Zhou Hao, the already furious Red Gold Flame Lion immediately became even more furious.

“Beast, why aren’t you kneeling and begging for mercy? If you dare to show off here, I’ll skin you alive later.”

Zhou Hao continued to provoke this guy.

Such demon beasts that could understand human language still had some benefits.

Just like now, Zhou Hao could use seemingly harmless but extremely insulting words to anger the Red Gold Flame Lion.

The more furious this guy was, the easier it was for it to die.

“Ant, do you think you can anger me?”

Even though it was already extremely furious, the Red Gold Flame Lion still pretended to be calm as it spoke.

It could be seen that although this guy was a demon beast, it was also a little scheming demon beast.

“President Zhou, try your best to attract this Red Gold Flame Lion over.”

As Zhou Hao and the Red Gold Flame Lion fought head-on, a crisp and pleasant voice sounded in his mind.

‘Why?’

Zhou Hao looked at the entrance of the spatial rift. Standing there was a beautiful woman with grayish-blue long hair in a Green Cloud Division research suit.

The person who had sent a mental message to Zhou Hao just now was this graceful beauty.

“In the past few battles, you destroyed many machine siege machines of the Machine Race on the battlefield. We cracked and improved some of their technology and developed a type of invincible laser cannon.”

“You guys just need to attract this Red Gold Flame Lion so we can have a good shot. As long as it is hit by the Divine Might Laser Cannon, even the Red Gold Flame Lion will be injured.” Lan Que explained patiently to Zhou Hao.

She had never been interested in men and had no patience.

However, the mysterious Zhou Hao was an exception.

‘Alright.’

Hearing Lan Que’s words, Zhou Hao was happy. He really did not expect the Green Cloud Research Institute to be so awesome.

He still remembered the might of the Machine Race siege machines.

Although the Red Gold Flame Lion was currently being crazily attacked by many martial artists, the one it was most interested in was still Zhou Hao.

When Zhou Hao pulled the Red Gold Flame Lion towards the entrance of the spatial rift, the Red Gold Flame Lion did not notice at all.

It knew that there was a human Heaven Realm expert outside the spatial rift.

However, it also knew that the human expert did not have the qualifications to participate at all. As for the other humans, they were only ants in his eyes and were nothing to be afraid of.

Therefore, the Red Gold Flame Lion was not at all alerted by the fact that Zhou Hao was escaping towards the entrance of the spatial rift.

“Let them retreat gradually. We will find the best opportunity to open fire.”

Lan Que had always known that Zhou Hao was not simple, but she did not expect him to do it so easily.

‘Understood.’

Zhou Hao nodded. As he continued to attract the Red Gold Flame Lion, he began to send voice transmissions to the surrounding martial artists, making them gradually retreat.

“All of you, step back gradually. Don’t let it notice you.”

Since the people in the battlefield were all supernatural experts, it was naturally very easy for them to communicate.

After Zhou Hao sent a mental message to everyone, although the supernatural experts did not understand what Zhou Hao was planning to do, they still gradually retreated without leaving any traces.

Although the Red Gold Flame Lion's attention was on Zhou Hao, it still sensed something abnormal.

However, before it could figure it out, it suddenly realized that Zhou Hao, who had been fighting it, had also suddenly retreated.

"Hmm?"

Seeing this, the Red Gold Flame Lion immediately realized that something was wrong.

Boom!

As expected, a ball of blue flames suddenly attacked from afar, like a huge fireball.

The speed of this blue laser was extremely fast. Before the Red Gold Flame Lion could even know what was happening, a bloody hole had been blasted open on its huge body.

At the same time, because the energy was too powerful, the Divine Might Laser Cannon exploded into pieces after the explosion, injuring several researchers.

Zhou Hao ignored Lan Que and the others and hurriedly rushed towards the Red Gold Flame Lion.

This was definitely a rare opportunity..

## Chapter 287 - Siege

*Chapter 287: Siege*

Roar!

After being injured by the Divine Might Laser Cannon, the Red Gold Flame Lion immediately roared angrily. It looked at Zhou Hao, Lan Que, and the others with extreme hatred before escaping.

The blast just now was really too terrifying. Its heart was almost shattered into pieces!

“Stop it!”

It was not only Zhou Hao. The other martial artists also knew that this was definitely a golden opportunity to kill the Red Gold Flame Lion.

There were definitely not many powerful foreign races like this even in the foreign race camp.

Now that they could kill it today, it would undoubtedly be a huge loss to the foreign races' combat strength.

However, a starving camel was still bigger than a horse.

Even though the Red Gold Flame Lion was currently severely injured, it was still not something these martial artists could stop.

Seeing the Red Gold Flame Lion on the verge of escaping, everyone felt incomparably regretful.

If he killed this powerful demon beast this time, the thirteenth spatial rift would really be much safer in the future.

“President Zhou, no!”

While everyone was feeling regretful, they did not expect Zhou Hao to take the lead and chase after them.

Seeing this, everyone shook their heads and sighed.

“President Zhou is being silly!”

Some of the supernatural martial artists felt helpless. After all, this was a spatial rift. No one knew what was in the depths of the spatial rift.

It was definitely not a wise decision for Zhou Hao to chase after the demon beast now.

“Come back quickly!”

Ling Shuying stomped her foot anxiously. Although she had long known that Zhou Hao was bold, she still felt that it was wrong for him to chase after the opponent.

“Don’t worry, I’ll be back soon.”

Zhou Hao had already chased far away, and his words reached everyone’s ears from afar.

Although Zhou Hao was the only one chasing after it, the Red Gold Flame Lion still did not plan to stop and fight Zhou Hao.

It was currently severely injured. If it was careless, it would lose to the cunning human ants.

However, Zhou Hao was simply too fast. Even in the spatial rift, he was not affected at all.

“Where do you think you’re going?!”

With a furious roar, Zhou Hao suddenly sped up and blocked in front of the Red Gold Flame Lion.

At this moment, his iron fist suddenly punched out.

Bang!

A terrifying explosion sounded, and the Red Gold Flame Lion was forced back by Zhou Hao.

Then, Zhou Hao’s storm-like attacks rained down.

The might of the Divine Might Laser Cannon was really too terrifying.

This was a powerful technology that originated from the Machine Race used to attack cities. Even the Red Gold Flame Lion was unable to withstand it.

This time, the Red Gold Flame Lion was no longer as valiant as before. It was directly beaten to the point of being unable to fight back!

Not long after, its huge body fell down.

The Red Gold Flame Lion’s gaze as it looked at Zhou Hao was still filled with hatred.

Although it was very injured now, it still had the means to bite Zhou Hao to death if Zhou Hao dared to approach it!

Seeing the Red Gold Flame Lion descend from the sky, Zhou Hao directly flew towards it.

“This guy probably has some tricks up his sleeve...”

Seeing that the Red Gold Flame Lion was not panicking at all, Zhou Hao naturally understood that it still had some hidden moves.

However, he was not in a hurry at all because he was already holding a Beast Control Ring in his hand.

After getting closer to the Red Gold Flame Lion, it indeed suddenly attacked, prepared to bite off Zhou Hao's neck.

In this short moment, Zhou Hao was even somewhat unable to dodge.

Fortunately, the Beast Control Ring in Zhou Hao's hand had already been unleashed.

The Red Gold Flame Lion originally wanted to bite Zhou Hao to death when he was not prepared. It did not expect Zhou Hao to also have special methods.

“Ah!”

As a ball of golden light flashed, a mysterious and endless Beast Control Ring immediately appeared in the Red Gold Flame Lion's sea of consciousness.

The Red Gold Flame Lion was furious and kept trying to force the Beast Control Ring out of its sea of consciousness.

This was because it knew that once this item stabilized, it would probably be unable to take it out again.

However, its current injuries were too serious, and it was unable to focus all its mental strength.

All its efforts seemed to be in vain.

“Ant, you're courting death!”

The Red Gold Flame Lion began to fight with Zhou Hao in terms of mental strength.

Zhou Hao gritted his teeth, wanting to completely imprint the Beast Control Ring in the Red Gold Flame Lion's mind.

The Red Gold Flame Lion resisted with all its might. However, its current state was becoming weaker and weaker, so its resistance naturally retreated step by step.

The Red Gold Flame Lion did not want to die, but it also did not want to be controlled by Zhou Hao.

“If you continue to resist stubbornly and don’t treat your injuries in time, you will probably lose your life today.”

Although Zhou Hao’s voice was calm, it was filled with deterrence.

In a battle of wits, one had to be crafty.. When attacking a city, one had to first deal with its core.

## Chapter 288 - The Red Gold Flame Lions Memory

*Chapter 288: The Red Gold Flame Lion’s Memory*

After all, this was the depths of the spatial rift. Zhou Hao did not want to stay here for too long.

Otherwise, it would be troublesome if the other powerful foreign races were attracted over.

Therefore, he had to end the battle quickly.

“Stop. I can make a deal with you.”

The Red Gold Flame Lion also thought of what Zhou Hao had thought of.

However, their thoughts were still somewhat different.

The Red Gold Flame Lion thought that once the news of its serious injuries spread, there would definitely be many powerful foreign races that would come to take advantage of it.

In the foreign races, the law of the jungle had always been vividly displayed.

“You don’t have the right to make a deal with me now. There are only two choices before you. You either submit or die.”

Zhou Hao did not plan to give the Red Golden Flame Lion any hope. He would either completely subdue it or kill it.

“Ant, if I choose to sacrifice my life, you will also have to die today!”

A powerful foreign race being like the Red Gold Flame Lion was also not willing to compromise so easily.

In this place, it was worried that the other powerful foreign races would come. It believed that Zhou Hao would definitely think of this.

It did not dare to delay, and neither did Zhou Hao.

“Red Gold Flame Lion, you’re too stupid.”

“We spent so much effort just to kill you.”

“I’ll count to three. If you don’t submit, then you shall die.”

Zhou Hao really wanted to take the Red Gold Flame Lion as a mount, but subduing such a powerful demon beast was clearly not easy.

At this moment, their personalities would determine the outcome.

“One!”

“Two!”

By the time Zhou Hao counted to two and the Red Gold Flame Lion was still indifferent, Zhou Hao was already somewhat disappointed.

Since he wasn’t able to use it, he might as well get rid of it completely.

“Wait, if you have any requests, you can make them right now!”

The Red Gold Flame Lion wished it could bite Zhou Hao to death, but it was not capable of doing that at this moment. It could only choose to swallow its anger.

“Do you not understand what I just said?”

As soon as Zhou Hao finished speaking, the suppression of the Beast Control Ring on the Red Gold Flame Lion began to increase.

The Red Gold Flame Lion wanted to say something else, but its injuries were too serious and it had consumed too much energy. Due to its mental and physical exhaustion, it directly collapsed to the ground.

After the Red Gold Flame Lion fainted, Zhou Hao naturally easily left the mark of the Beast Control Ring in the depths of its sea of consciousness.

In the future, it would be very easy for Zhou Hao to deal with the Red Gold Flame Lion. As long as he triggered with his mind, the Beast Control Ring would explode and the Red Gold Flame Lion would die miserably on the spot.

Hu...

In the spatial rift, Zhou Hao shook his somewhat dizzy head.

“As expected of a quasi Heaven Realm demon beast. Even in a heavily injured situation, it still has such powerful mental strength.”

However, Zhou Hao was even more pleasantly surprised.

Under the control of the Beast Control Ring, he now had a telepathic connection with the Red Gold Flame Lion.

“However, what should I do with this guy?”

After subduing the Red-Gold Flame Lion, Zhou Hao felt a little awkward.

The strength of this mount was indisputable, but because it was too powerful and its body was too huge, he was unable to bring the Red Gold Flame Lion out of the spatial rift at all.

“Eh?”

Soon, Zhou Hao’s gaze moved because at this moment, an endless stream of information was transmitted from the Beast Control Ring.

“Is this information the memories of the Red Gold Flame Lion?”

Zhou Hao could not help but feel happy.

This Red Gold Flame Lion was not a small fish or prawn, but a powerful quasi Heaven Realm demon beast. It definitely had a very deep understanding of the spatial rift.

Perhaps he could learn a lot from it.

“These are?”

Soon, Zhou Hao learned a lot from the Red Gold Flame Lion’s memories.

“So this Red Gold Flame Lion is actually still a cub...”

Seeing this guy’s arrogant and cunning personality, he thought that the Red Gold Flame Lion was an old fellow. He did not expect it to be just a cub.

“Based on the lifespan of humans, this Red Gold Flame Lion should be around eight to nine years old.”

Zhou Hao did not know whether to laugh or to cry. At the same time, he could not help but worry.

If a young beast was already so powerful, how terrifying would the strength of an adult Red Gold Flame Lion be?!

## **- Chapter 289 - Unlocking the New Skill of the Beast Control Ring**

### **Chapter 289 - Unlocking the New Skill of the Beast Control Ring**

*Chapter 289: Unlocking the New Skill of the Beast Control Ring*

Retracting his thoughts, Zhou Hao continued to check other information. After checking, he could not help but feel somewhat helpless.

It turned out that this Red Gold Flame Lion was born with a poor bloodline and was directly abandoned.

Therefore, this thing was an abandoned baby and did not know much about the foreign races.

After it gradually grew up, its bloodline also gradually awakened. Then, it became the king of this place.

Roar!

The Red Gold Flame Lion did not sleep for long before waking up again.

After waking up, it immediately roared in incomparable anger, and then its huge body gradually became smaller.

The Red Gold Flame Lion's injuries were too serious. At this moment, it was even unable to maintain its huge figure.

“Eh? You can even turn small?”

Looking at the Red Gold Flame Lion that had become the size of a kitten, Zhou Hao's gaze changed. He did not expect it to become so small.

Roar!

Although its figure had become much smaller, the Red Gold Flame Lion was still very fierce.

After its figure became smaller, its injuries actually began to slowly heal.

However, as its body shrank, its strength also decreased by a lot.

“What powerful recovery speed!”

Zhou Hao knew that many demon beasts and Insect Race beings had good recovery abilities. However, generally speaking, foreign races with powerful self-healing abilities had very ordinary strength.

“I have some Jade Dew Pills here that can help you recover faster.”

The Jade Dew Pill was a high-level item that Zhou Hao had obtained from the mystery box. As soon as he finished speaking, he took out a Jade Dew Pill.

The appearance of the Jade Dew Pill was very beautiful, looking like a Night Pearl.

Roar! Roar!

When Zhou Hao approached it, the Red Gold Flame Lion continued to roar.

Unfortunately, it was only the size of a kitten now and looked cute and fierce at the same time.

With a move of Zhou Hao's mental strength, the Beast Control Ring in the Red Gold Flame Lion's sea of consciousness kept releasing fluctuations.

Then, the Red Gold Flame Lion was suppressed to the point of being unable to move.

“Eh? I can even use the Beast Control Ring to treat your injuries?”

Zhou Hao had also unlocked the new technique of the Beast Control Ring. That was, he could even treat the Red Gold Flame Lion with the Beast Control Ring.

To put it simply, the Beast Control Ring was like a medium between him and the Red Gold Flame Lion.

Soon, he received a response from the Red Gold Flame Lion. It was a sound-type secret technique called the Violent Lion Gold Shattering Roar.

Crack!

After suppressing the Red Gold Flame Lion, the Jade Dew Pill also turned into pieces in Zhou Hao's hand.

Immediately after, these fragments turned to dust and were sprinkled on the Red Gold Flame Lion's wound.

Traces of cool aura quickly filled the Red Gold Flame Lion's entire body.

With its self-healing ability, the recovery ability of the Beast Control Ring, and the effects of the Jade Dew Pill, the Red Gold Flame Lion recovered very quickly.

However, the Red Gold Flame Lion's gaze was still filled with hatred as it looked at Zhou Hao. It was the same even though Zhou Hao was treating its injuries.

After ten minutes, Zhou Hao got up.

"From your memories, it looks like there are a total of six quasi Heaven Realm foreign races in the thirteenth spatial rift. As long as we kill the remaining five quasi Heaven Realm foreign races, the thirteenth spatial rift will be peaceful." Zhou Hao spoke slowly as he pondered.

Chi!

Hearing Zhou Hao's words, the Red Gold Flame Lion sneered in disdain.

It was the weakest of the six quasi Heaven Realm foreign races in this spatial rift. The reason why Zhou Hao and the others were able to injure it was because of the technology of the Machine Race.

Otherwise, as long as a Heaven Realm expert did not participate in the battle, the other humans were simply not its match.

Click.

A hundred platinum-level Energy Bars also appeared in front of the Red Gold Flame Lion.

"What's this?"

The Red Gold Flame Lion spoke directly this time.

“You know how to speak?”

Zhou Hao was somewhat surprised. He thought that this guy was too stupid and only knew how to use mental strength to communicate.

Now, it seemed that he was pretending to be cold.

“What’s so hard about learning a mere human language...”

The Red Gold Flame Lion curled its lips in disdain, but it still looked at the rare-level Energy Bars in front of it in surprise.

“What pure energy. Although the quantity is relatively small, the purity is very high. It almost doesn’t need to be refined and can be directly used. What is this?”

As a quasi-Heaven Realm foreign race being in the spatial rift, the Red Gold Flame Lion could be said to be experienced and knowledgeable.

However, it really did not know anything about the things in front of it..

## Chapter 290 - Deal with the Red Gold Flame Lion

*Chapter 290: Deal with the Red Gold Flame Lion*

“These are the resources I use during my daily cultivation. In the outside world, they are called synthesized crystals. I call them platinum-level Energy Bars.”

“And this is a rare-level Energy Bar,” Zhou Hao said as he placed a rare-level Energy Bar in front of the Red Gold Flame Lion.

Hiss...

“I didn’t know humans had such treasures.”

The Red Gold Flame Lion’s eyes widened. Together with its small body, it gave off a cute and stupid feeling.

The platinum-level Energy Bar was actually only one or two grades higher than the colored energy stone.

However, the rare-level Energy Bar Zhou Hao took out now was very powerful.

The rare-level Energy Bar actually contained rich essence energy.

“As long as you cooperate well, these cultivation resources will be yours.”

Zhou Hao now knew everything about the Red Gold Flame Lion.

The Red Gold Flame Lion was a powerful race of demon beasts within the foreign races. However, this Red Gold Flame Lion had been abandoned when it was young.

For a long time, it had lived a wandering life and had obtained all of its cultivation resources by working hard. It had never enjoyed any high-level resources in the foreign race world.

That was why it was so surprised to see a rare-level Energy Bar.

“However, humans are too weak. It’s simply impossible for you guys to be a match for those five.”

“In front of them, your energy barrier and city defense is no different from a joke.”

The Red Gold Flame Lion also hoped that Zhou Hao could kill the other five.

“I’ve investigated a portion of your memories through the Beast Control Ring. I only know that there are five other powerful quasi Heaven Realm foreign races in the thirteenth spatial rift. However, I don’t know the exact information. I need your cooperation.”

Zhou Hao looked at the Red Gold Flame Lion.

These foreign races were actually not united. While they fought the humans, the foreign races also fought constantly.

After all, the foreign races pursued the survival of the fittest.

For the sake of cultivation resources, not only would beings of different foreign races fight, but even beings belonging to the same foreign race would also fight.

For example, the Red Gold Flame Lion had previously had a half crippled lion group following it. But now, its lion group had been killed by a quasi Heaven Realm Insect Race expert, so the Red Gold Flame Lion had directly become a general without an army.

“Why should I cooperate with you?”

The Red Gold Flame Lion was very disdainful. Because Zhou Hao’s strength was similar to its, and the Beast Control Ring had not formed an absolute suppression on it, there were many things in its memories that Zhou Hao still did not know about.

It could even attempt to escape Zhou Hao’s control if necessary.

Of course, that would be very dangerous. It would even have a risk of dying.

Unless it was absolutely necessary, it would not try to escape

“Of course it’s beneficial for you to work with me. I’ll give you 30% of the resources we obtain every time we work together. Moreover, I can also provide you with additional platinum-level Energy Bars and some rare-level Energy Bars.”

Zhou Hao knew that if he wanted to work with this guy, he had to show his sincerity.

There were also many benefits to cooperating with the Red Gold Flame Lion. In this way, they did not have to explore the thirteenth spatial rift by themselves. Moreover, with its help, they could also learn what they would need to do to completely take down the thirteenth spatial rift.

“I don’t need 30% of the resources. I just want the Energy Bar. Every cooperation will cost you at least 1,000 platinum-level Energy Bars!”

The Red Gold Flame Lion was very greedy. It had to know that although it was very easy for Zhou Hao to obtain such platinum-level Energy Bars, in the outside world, they were still sold for 3 million each.

Of course, be it human martial artists or foreign races, after cultivating to the quasi Heaven Realm, the price of everything could no longer be measured with a small amount of money.

“Sure.”

Zhou Hao immediately nodded. Although the Red Gold Flame Lion was very greedy, greed had its benefits.

It had asked for a lot this time. This meant that it needed the platinum-level Energy Bar and was willing to cooperate.

“I don’t just want platinum-level Energy Bars, I also want rare-level Energy Bars...”

The Red Gold Flame Lion wanted to continue asking for more, but Zhou Hao interrupted it this time.

“You don’t have to think about the rare-level Energy Bars for the time being. It’s basically impossible to find it in the outside world. I don’t even have enough for myself.”

“Now, you can tell me about the quasi Heaven Realm foreign race being closest to the entrance of the spatial rift and its attitude towards the energy barrier at the entrance.”

After Zhou Hao finished speaking, he looked at the Red Gold Flame Lion.

He had already expressed his sincerity just now.. Now, he naturally had to see how sincere the Red Gold Flame Lion was.

## Chapter 291 - Calculated Separately

*Chapter 291: Calculated Separately*

“It’s the Hundred-Eyed Heavenly King of the insect group.”

The Red Gold Flame Lion was silent for a moment before speaking slowly.

“Hundred-Eyed Heavenly King? He dares to call himself a Heavenly King before reaching the Heaven Realm. How arrogant.”

Zhou Hao now knew about the situation from the frontline defense line to the depths of the spatial rift.

This area belonged to the training grounds of humans and foreign races.

In this place, the Heaven Realm experts of both sides could not participate in the battle. Therefore, this Hundred-Eyed Heavenly King of the Insect Race was only a quasi Heaven Realm foreign race and was definitely not a true Heaven Realm foreign race.

Next, Zhou Hao and the Red Gold Flame Lion chatted for another half an hour.

After letting the Red Gold Flame Lion leave, Zhou Hao quickly returned to the entrance of the spatial rift.

At this moment, the battle here had basically ended. Most of the martial artists were cleaning up the battlefield.

At this moment, they were feeling incomparably depressed.

Just now, they had repeatedly advised Zhou Hao not to pursue the Red Gold Flame Lion. Even if he did not die, he would probably be severely injured.

If he was unlucky and encountered other quasi Heaven Realm foreign races, he would even directly lose his life.

As time passed, everyone's mood became gloomier and gloomier.

Ling Shuying even looked in the direction Zhou Hao was chasing the Red Gold Flame Lion countless times.

Suddenly, someone shouted, "President Zhou is back!"

Seeing that not only did Zhou Hao return alive, but he was also unharmed, everyone was overjoyed.

"President Zhou, are you alright?"

"Senior Zhou, Heavenly King Zhu is looking for you."

All the martial artists gathered around. They all wanted to know if the Red Gold Flame Lion had been killed.

Of course, it was also a good thing that Zhou Hao could return alive.

"Everyone, don't worry. The problem with the Red Golden Flame Lion has been resolved. In the future, the Red Golden Flame Lion will not come and find trouble with us again."

After satisfying everyone's curiosity, Zhou Hao immediately went to see Zhu Zao.

It was time for him to have a good talk with Zhu Zao.

In the city at the frontline defense line, Zhu Zao finally relaxed when he saw Zhou Hao walk over casually. The smile on his face was about to overflow.

Their mission could finally be considered to have been completed.

The battlefield outside the spatial rift had been compressed into inside the spatial rift. At this moment, a spacious city had already appeared at the entrance of the spatial rift.

Soon, this city would also be completely developed.

"How's the situation?" After seeing Zhou Hao, Zhu Zao directly asked.

"It's done. I have a Beast Control Ring in my hand. I've used the Beast Control Ring on the Red Gold Flame Lion."

Although he knew that Zhou Hao was very heaven-defying, Zhu Zao still felt uncomfortable.

"You even have a treasure like the Beast Control Ring on you?"

"You even attacked the Red Gold Flame Lion with the Beast Control Ring?"

"Did you analyze its memories?"

Zhu Zao asked three questions in a row this time. In fact, he still had hundreds or thousands of questions he wanted to ask.

"That's right. I've already inserted the Beast Control Ring into the Red Gold Flame Lion's body."

"I saw from its memories that there were five other quasi Heaven Realm foreign races in the surroundings."

"These five quasi-Heaven Realm foreign races have dominated this area for a while now. The Red Gold Flame Lion, on the other hand, traveled here from another place."

Zhou Hao did not hide anything and told Zhu Zao most of what he knew.

"Alright, you've done a meritorious deed!"

After hearing Zhou Hao finish, Zhu Zao was very excited.

Zhou Hao's information was an unexpected gain for them.

"I'll report it to Minister Zhang now and see what the situation is like."

"After the defensive cities and energy barriers in the thirteenth spatial rift are set up, you will be able to move freely."

After saying this, Zhu Zao thought that Zhou Hao would probably leave.

However, he realized that Zhou Hao was still looking at him in confusion.

"Why are you looking at me?" Zhu Zao asked curiously.

"I've made such a huge contribution. Shouldn't the Green Cloud Division express their gratitude?"

Now that he had accumulated a lot of luck points, it also meant that he had killed a lot of foreign race beings and could also obtain a lot of money when they counted the spoils of war later.

After all, the two should be calculated differently.

“Express their gratitude?”

Zhu Zao felt that he had misheard. Zhou Hao was now the only supplier of synthesized crystals. Did he still lack money?

“Do you still lack money?”

Zhu Zao spoke in confusion. Although he had swindled Zhou Hao severely previously, he was still doing it for the sake of the Huaxia martial artists and the world martial artists.

Moreover, that price should not have been low for Zhou Hao.

## Chapter 292 - How About We Get a Big Job Done

*Chapter 292: How About We Get a Big Job Done*

“Brother Zhu, what are you talking about?”

Zhou Hao was immediately displeased. It was only natural for him to make money from selling synthesized crystals.

He had made a huge contribution this time and wanted to be rewarded. Otherwise, why would he be willing to fight to the death next time?

“Hahaha, Brother Zhou, what are you saying?”

“I was just joking with you just now. It’s like this. I’m only in charge of the combat plan. The rest, especially the reward distribution, is handled by Vice Minister Chen Wei.”

“The reward distribution for Brother Zhou is not up to me. It depends on Vice Minister Chen Wei.”

Zhu Zao patted Zhou Hao's shoulder and tossed the responsibility to Vice Minister Chen Wei.

Minister Zhang, Vice Minister Zhu Zao, and this Vice Minister Chen Wei were the three big shots who were permanently stationed in the Green Cloud Division.

The other Heaven Realm experts were not fixed and usually went wherever they needed to go.

Minister Zhang Gongming, Zhu Zao, and Chen Wei were all able to make decisions in the Green Cloud Division.

"Old fox..."

Zhou Hao couldn't help but curse as he watched Zhu Zao leave.

Zhu Zao and Chen Wei were Minister Zhang's right-hand men.

Zhu Zao was like a smiling Maitreya Buddha that gave people the feeling that everything would go smoothly. However, things usually wouldn't go smoothly.

As for Vice Minister Chen Wei, he was quite cold. He did not allow strangers to get close to him. There was basically no way to make negotiations with him.

"Hai!"

After shaking his head, Zhou Hao still left the meeting room and entered the spatial rift again.

After entering the spatial rift, he did not stop in the energy barrier and continued to enter the spatial rift to explore deeper.

Because of the Beast Control Ring, Zhou Hao quickly learned about the Red Gold Flame Lion that was strolling around the spatial rift.

"Little Yan, why don't you get your own territory?" Zhou Hao appeared beside the Red Gold Flame Lion and asked casually.

"There's no suitable territory here at all. The place with the underground ores has already been occupied by other guys."

The Red Gold Flame Lion was still somewhat unfriendly to Zhou Hao. However, its injuries had not completely recovered. Thus, it would be more safe by following Zhou Hao around for now.

"What's an underground ore?"

Zhou Hao looked at the Red Gold Flame Lion curiously. After all, the Red Gold Flame Lion was a demon beast from the spatial rift. There were many things that Zhou Hao did not know about.

“energy crystal ores.”

“The energy crystal you saw in the outside world is a poor-grade energy crystal. It’s the worst quality.”

“Above the poor-grade energy crystals are low-grade, intermediate-grade, high-grade, and top-grade energy crystals.”

“These energy crystals are much better than those colored energy crystals.”

When the Red Gold Flame Lion said this, it was very envious. If it wanted to reach the Heaven Realm, it had to have at least ten low-grade energy crystal ores. But now, it still did not have a single one.

“By the way, the platinum-level Energy Bar on you is almost comparable to a low-grade energy crystal. As for the rare-level Energy Bar, its quality has exceeded that of a high-grade energy crystal, but it has not reached the level of a top-grade energy crystal.”

As the Red Gold Flame Lion spoke, it slowly paced around.

“How about we go and do something big? We’ll see where there are low-grade energy crystal ores and see if we can get a few.”

After Zhou Hao entered the spatial rift this time, he naturally wanted to focus on investigating. However, he also didn’t mind getting those ores.

“You really dare to go?”

The Red Gold Flame Lion could not afford to offend the five big shots, but it didn’t mind provoking the other foreign races.

“Isn’t that obvious?”

Zhou Hao was already eager to get some low-grade energy crystal ores.

This way, after implanting energy crystal ores in some special areas, it could increase the cultivation effect of the martial artists in that area.

“Then, why don’t you come back in a few days. I want to recover and investigate the situation.”

“As for this time, I can bring you to a place. However, whether or not you obtain the treasure will depend on your skill. After you obtain the treasure, you have to give me at least 30%.” The Red Gold Flame Lion thought for a moment and immediately said.

“Deal. What treasure is it?”

Zhou Hao did not really want to directly collide with the other powerful foreign races either. At this moment, he should still try his best to understand the thirteenth spatial rift.

“Follow me. It’s a kind of thought crystal.”

After the Red Gold Flame Lion finished speaking, it began to lead the way.

Not long after, Zhou Hao arrived outside a small lake. There were many transparent thought crystals under the small lake.

These thought crystals could constantly temper a martial artist’s mental strength.

“This place feels really dangerous.”

This small lake gave him a very dangerous feeling. Zhou Hao did not rashly approach it.

At this moment, the Red Gold Flame Lion casually threw a pheasant over.

When the pheasant approached the lake, Zhou Hao realized that there was an invisible flame burning on its body.

Soon, the pheasant was burned to ashes before it even sank into the lake.

## Chapter 293 - Vine Demon

*Chapter 293: Vine Demon*

“Does that mean that we won’t be able to get all the thought crystals in this small lake?”

Zhou Hao looked at the thought crystals in the small lake and felt that it was a pity.

“Not necessarily.”

This time, the Red Gold Flame Lion grabbed a willow branch and suddenly pulled it out of the lake.

After the willow branch left the lake for a long time, it began to burn and finally turned to ashes.

“I can sense an extremely powerful wood-elemental essence energy from your body.”

“If you master a powerful wood-element secret technique, you might be able to obtain the crystals.”

“There are many small lakes like this in this spatial rift, and not all of them are thought crystals.”

After the Red Gold Flame Lion finished speaking, it looked at Zhou Hao.

If Zhou Hao couldn't even take out the thought crystal here, then everything else would be useless.

“I'll try.”

Zhou Hao was also not sure if his Green Wood Spring Autumn Art and the Five Elements Grand Yan Record would be effective here.

“The foreign races are coming!” Just as Zhou Hao was about to make a move, the Red Gold Flame Lion suddenly said.

Zhou Hao nodded and immediately hid with the Red Gold Flame Lion.

Most of the foreign races were very hostile towards humans. Even the Red Gold Flame Lion felt that humans were its enemies.

However, it now had a good relationship with Zhou Hao. Firstly, it was because it was trapped by the Beast Control Ring. Secondly, Zhou Hao could give it benefits.

After Zhou Hao and the Red Gold Flame Lion hid, a group of foreign races indeed approached from afar.

“I can't find any information about these foreign races in the database.”

Zhou Hao looked at a group of green-skinned foreign races with pointed ears and a cow tail in the distance. They would occasionally switch from moving on all fours to walking upright. He was somewhat surprised.

“This is a vine demon.” The Red Gold Flame Lion seemed to know that Zhou Hao was somewhat surprised and explained.

“Vine Demon? Does that mean that this is not a demon beast but some kind of demon plant?”

Thinking of this, Zhou Hao felt that he had no chance.

The cultivation technique he cultivated was not bad, but the vine demon was a wood-attribute demon plant. His wood-attribute cultivation technique definitely could not compete with the vine demon.

“These vine demons are courting death. I wonder if there are any powerful fellows following them.”

Zhou Hao was surprised by the Red Gold Flame Lion’s words.

Zhou Hao originally thought that with the appearance of the vine demon, they would have no chance. Who would have thought that the Red Gold Flame Lion would actually say such a thing?

Hearing the Red Gold Flame Lion’s words, Zhou Hao’s interest was piqued. He changed into a relaxed posture and waited for the show to start.

These vine demons swayed as they walked to the side of the small lake. However, their goal did not seem to be the crystal.

“These guys seem to be here to catch fish.”

Zhou Hao was somewhat speechless, but he quickly came to an understanding. This was because these vines seemed to be useless even if they took the thought crystal.

In comparison, these special small fish were more helpful.

A demon plant like the Vine Demon could already be considered a special demon beast or a plant-type demon beast.

Other than being relatively clumsy, these demon plants basically had all the behavior of demon beasts.

Chi!

With a sizzling sound, Zhou Hao saw a vine demon transform into a long vine that began to catch fish.

The lake water in this small lake was very hostile to other things, but it seemed to be very friendly to wood-element things.

This vine demon stirred in the lake for a long time before catching a small fish.

Of course, these fish were not simple either. After all, this small lake was clearly extraordinary.

“What’s so special about these fish?”

Zhou Hao kicked the Red Gold Flame Lion. This guy was actually resting with its eyes closed, as if it was not interested in these vine demons at all.

“These fish are all good stuff. After eating them, you can also increase your mental strength.”

“However, although these demon plants look silly, they’re actually very difficult to deal with.”

“If they don’t provoke us, we shouldn’t provoke them either.”

The Red Gold Flame Lion seemed to have seen through Zhou Hao’s thoughts and immediately advised patiently.

“Are these demon plants really that powerful?”

Zhou Hao looked at the walking idiots and did not feel that these demon plants were anything impressive.

## **Chapter 294 - When the Sandpiper and the Clam Fight, the Fisherman Benefits**

*Chapter 294: When the Sandpiper and the Clam Fight, the Fisherman Benefits*

“Of course. Moreover, there are usually demon kings nearby.”

“We have to be careful hiding here to prevent any unnecessary misunderstandings.”

The Red Gold Flame Lion clearly knew how to survive. At this moment, it still spoke leisurely.

Hearing this, Zhou Hao could only wait patiently.

Zhou Hao even discovered that these vine demons could easily bring out some thought crystals.

However, the thought crystals were useless to these vines. Therefore, the thought crystals brought out by these vine demons were directly thrown to the side.

“Can you communicate with these vine demons?”

Zhou Hao suddenly thought of a good way to collect the thought crystals. If only he could use these vine demons to help.

However, his thoughts quickly disappeared.

“Of course not. They only have some instincts and don’t have any intelligence. Unless the Vine Demon King comes personally to control these vines, we won’t be able to communicate with them. However, if the Vine Demon King comes personally, we might be dead.”

The Vine Demon King was a powerful existence at the Heaven Realm. Even the Red Gold Flame Lion was very afraid of the Vine Demon King.

Hearing the Red Gold Flame Lion say this, Zhou Hao temporarily suppressed this thought.

He really wanted to have another Beast Control Ring now. If he had another Beast Control Ring, he could control a wood-attribute demon plant or demon beast to help him collect the thought crystals in this strange small lake.

Zhou Hao decided to stop thinking about it. After all, the Beast Control Ring was a rare-level treasure. It’s much more difficult to obtain than the thought crystal.

After smiling bitterly, Zhou Hao could only continue to wait. At the same time, he was wondering if he should kill these vine demons later.

According to the Red Gold Flame Lion, the fish caught by these vines were also very good.

“Hmm?”

Just as Zhou Hao was thinking this, his gaze suddenly moved.

Because at this moment, some very special humanoid foreign races appeared not far away.

“Are those members of the Blood Race?”

Among the many foreign races, the Blood Race was a very common foreign race. However, most of the Blood Race beings had very strange appearances.

A Blood Race being that looked like a human was usually a higher-level Blood Race being.

The Blood Race not far away undoubtedly had the intention to kill these vine demons.

Suddenly, the battle between the foreign races erupted.

‘We’d better get out of here.’

Seeing that the Blood Race beings and the vine demons were fighting, the Red Golden Flame Lion was already prepared to leave.

“When the sandpiper and the clam fight, the fisherman benefits. Why should we leave at this time?”

Zhou Hao was very puzzled. After the Blood Race beings and the vine demons were almost done fighting, wouldn’t it be better for him to rush out and reap the rewards?

“In a while, before they can decide the victor, the powerful guys from the Blood Race and the vine demon’s group will arrive.”

After the Red Gold Flame Lion was injured, it became incomparably cautious. Of course, it was also because of this personality that it was able to survive in the spatial rift.

“Let’s wait a while longer.”

Zhou Hao’s opinion was different from the Red Gold Flame Lion. He did not believe that a battle of this level would attract any powerful existence.

Otherwise, these foreign race experts would be too bored.

His judgment was naturally correct.

Blood exploded below as the figures of the vine demons and the Blood Race fell one after another.

Although the Blood Race beings were strange, they were not immortal.

In the end, other than a single Blood Race being who escaped, the other Blood Race being and the vine demons basically died together.

“Let’s quickly get the treasures and leave.”

“Uh...”

Seeing its appearance, Zhou Hao was very speechless.

After all, it had just suggested leaving a moment earlier. Now that it saw the benefits, its eyes lit up.

Of course, Zhou Hao did not hesitate. After all, a Blood Race being had escaped just now. No one knew what would happen here later.

Zhou Hao quickly arrived beside these vine demons and the Blood Race being. He found some special materials on the Blood Race being and some demon plant seeds on them.

The seeds of these demon plants could nurture some demon plants.

Although he did not know what use it was, it would definitely be useful if he brought it back and handed it to the Green Cloud Research Institute.

“Let’s get out of here quickly so that we don’t encounter any other Blood Race beings.”

The Red Gold Flame Lion had gained a lot this time. After obtaining many benefits, it advised Zhou Hao to leave this place quickly.

“Perhaps there’s no need to leave in a hurry. Perhaps that Blood Race being won’t dare to return at all.” Zhou Hao looked at the surroundings and said casually.

Zhou Hao had already seen the battle between the Blood Race being and the vine demons just now. Now, he already knew the methods of the vine demons and the Blood Race.

“There are many small lakes like this elsewhere. We can go there instead.”

The Red Gold Flame Lion insisted on leaving.

It was better to be safe than sorry.. Regardless of whether the other Blood Race beings arrived here, it would no longer concern them if they just left right now.

## Chapter 295 - Something Big Happened!

*Chapter 295: Something Big Happened!*

“Why don’t we stay here and continue to ambush the vine demons and the other Blood Race beings?”

After observing just now, Zhou Hao already wanted to take the initiative to attack instead of just reaping the benefits.

Of course, it was still as he had said just now. After these Blood Race beings suffered a huge loss, they might not return.

As for the vines, they did not have any intelligence. No one knew what these vines were thinking.

The Red Gold Flame Lion originally wanted to leave, but after hearing Zhou Hao’s words, it could not help but give up on the idea of leaving.

There was nothing wrong with staying here.

As long as the Heaven Realm and quasi Heaven Realm foreign races did not participate, the other foreign races could do nothing to them.

“Stay here and watch. If any other foreign races come, remind me. I’ll think of a way to take out the thought crystal.”

With that said, Zhou Hao walked straight towards this strange small lake.

“The lake water here has a very special corrosive effect. Only wood-element energy can resist it. I’ll try using the Green Wood Spring Autumn Art first.”

After thinking for a moment, Zhou Hao began to use the Green Wood Capturing Hand in the Green Wood Spring Autumn Art. Immediately, an illusory green palm print was condensed by him.

After condensing this illusory green palm print, he controlled the green palm print to slowly fall into the lake.

“This lake water is indeed very corrosive.” After the handprint condensed by the Green Wood Capturing Hand landed in the lake, Zhou Hao said slowly.

After his Green Wood Capturing Hand fell into the lake, it constantly disintegrated. When it fell to the bottom of the lake, it was directly divided into half.

By the time he grabbed the crystal and brought it out, most of his Green Wood Capturing Hand had already been broken down. The crystal that he had grabbed kept scattering.

In the end, he grabbed pitifully few thought crystals from the lake.

“Not bad, not bad. This crystal will be very useful in the spatial rift.”

“The foreign races are different from the humans. The foreign races usually don’t have any techniques to cultivate their mental strength. They rely on thought crystals and other treasures to replenish their strength.”

“Thought crystals are usually only born in these types of water lakes. You can even use them to trade with some foreign races.”

The Red Gold Flame Lion did not think very highly of Zhou Hao at first, but now, it also became excited.

Zhou Hao’s efficiency in collecting the thought crystals was even higher than the vine demon.

Of course, it would be another story if Zhou Hao could control many vines to collect the thought crystals.

“This is too slow. I still have to think of a way to control a group of vine demons.”

“Let’s stop here for today. I’ll come again in a while.”

“In the meantime, you have to work well with Heavenly King Zhu and the others. You are not allowed to attack humans again, understand?”

Zhou Hao planned to leave for a while and see if he could get another Beast Control Ring.

Of course, this could only depend on luck. After all, he couldn’t just get what he wanted.

With luck points on him, he would definitely be able to get rare-level treasures. However, there were too many types of rare-level treasures, so he might not be able to get the Beast Control Ring.

Chi!

The Red Gold Flame Lion sneered. It naturally understood Zhou Hao's words, but it was disdainful to answer.

After separating from the Red Gold Flame Lion, Zhou Hao was really worried that it had been killed.

After all, it was not easy to control such a demon beast.

He did not want to spend more effort to control another powerful foreign race being.

When Zhou Hao returned to the entrance of the spatial rift, he saw that a city wall had been built here. An azure transparent energy barrier enveloped the entire entrance.

The battlefield of the thirteenth spatial rift had finally moved forward. After killing the five big shots, the thirteenth spatial rift would be completely safe.

"President Zhou."

"President Zhou, you're back?"

"President Zhou, did you gain anything from this trip?"

After seeing Zhou Hao, the martial artists in the city hurriedly went forward and asked.

"I got some loot. Is Heavenly King Zhu still around?"

Zhou Hao did not say that he had found the crystal. This thing was indeed a treasure, but it was very difficult to obtain.

It was really possible that ordinary wood-attribute martial artists or martial artists who cultivated wood-attribute cultivation techniques would not even be able to take out a single crystal.

"Heavenly King Zhu has already left." A martial artist immediately replied.

After hearing that Zhu Zao had left, Zhou Hao could only temporarily put this matter aside.

Originally, he was prepared to talk to Zhu Zao about the crystals. He did not expect Heavenly King Zhu to be a busy person. At this moment, Zhou Hao did not even know where Zhu Zao had gone.

Zhou Hao did not continue to stay in the thirteenth spatial rift and returned to the Seventh Elite Base.

Not long after he returned to his villa, Zhang Yi knocked on the door excitedly.

“What’s wrong, Zhang Yi?”

“Did you hear? Something big happened these past few days!” Zhang Yi said impatiently.

## Chapter 296 - Special Training

*Chapter 296: Special Training*

“Why are you so happy after something big happened?”

Zhou Hao did not know whether to laugh or to cry. Looking at Zhang Yi’s excited expression, he did not seem to be worried at all.

“It’s a good thing!”

“Have you heard of the thirteenth spatial rift?”

Zhang Yi could not hide the smile on his face.

“I know. In the beginning, there were only a few spatial rifts like Huazhong and Huadong. However, after a major change, the number of spatial rifts increased to thirteen. This spatial rift is the last one.”

Zhou Hao already roughly knew what Zhang Yi was talking about.

“Zhang Yi, Zhou Hao, you’re both here?” Yuan Cheng walked over from afar.

Soon, Yun Yan and Xu Ling arrived.

“This is really great news. Also, President Zhou of the Supernatural Council is too powerful.”

During this period of time, everyone was discussing this matter. Yun Yan started to speak as soon as she arrived.

“Is that so?”

Zhou Hao's expression was a little unnatural and vaguely smug.

His battle in the thirteenth spatial rift seemed to have spread throughout Huaxia.

In the Seventh Elite Base, everyone was discussing this matter heatedly. All of them spoke of it as if they had seen it with their own eyes.

"Of course! President Zhou of the Supernatural Council is almost the strongest expert on Planet Earth. Excluding Heaven Realm experts, of course!" Xu Ling added.

However, although there was excitement on her face, she was still very rational. It could be seen that she was simply convinced by his strength.

"What's Heaven Realm?" Yuan Cheng asked curiously.

Hearing Yuan Cheng's words, Zhou Hao finally felt a little normal.

He had spent a lot of effort finding out about the Heaven Realm previously so it was only normal for Yuan Cheng to not know about it.

"Heaven Realm experts are above the supernatural level. After cultivating to the peak of the ninth-grade supernatural level, there's a possibility for one to advance to the Heaven Realm."

"A Heaven Realm expert is also known as a Heavenly King. For example, Zhu Zao, who came to the base not long ago, is also known as Heavenly King Zhu."

This time, the person who explained was Zhang Yi. He was more diligent and studious. He knew a lot of things that others did not.

"I wonder when we will be able to see President Zhou. I watched the video and President Zhou is simply too powerful!"

Yun Yan had clearly become a fan of "President Zhou". Unfortunately, she did not know that President Zhou was actually right in front of her!

"Zhou Hao, you don't seem very excited."

Not only was Yun Yan excited, but she also felt the need to make Zhou Hao and the others just as excited.

Zhou Hao thought to himself, "What's there to be excited about? Those are all just rumors, and President Zhou is none other than me!"

"It's time to gather!"

The few of them had just chatted for a while when Yang Hui's voice sounded from afar.

"Ah? We're gathering again? Didn't you say that we could rest for half a day?"

Yuan Cheng and the others complained in low voices, but they still immediately went to gather.

Zhou Hao was no exception. Seeing that Instructor Yang Hui had made arrangements, he treated it as entertainment and an opportunity to relax.

"In a month, the seven elite bases will have a joint competition."

"After the exchange with the Sixth Elite Base last time, I believe you should have a clearer understanding of your strength. Although you won last time, it was purely luck. Therefore, if you don't want to lose too badly this time, you'll have to start the special training for a month."

"Only on the battlefield can your strength increase to the greatest extent."

As soon as Yang Hui said this, many students had ugly expressions and complained incessantly.

"No way, he wants special training again!"

Now, many students had already understood that the daily training in the Seventh Elite Base was done in the base.

However, if they were to undergo any special training, they would have to go to the frontline defense line or even directly train at the edge of the battlefield.

It was still fine when they arrived at the frontline defense line. Although it was dangerous, the danger was still manageable.

"I do hope to undergo special training. After all, we were too weak when we fought the students from the Sixth Elite Base."

Zhang Yi was the one who said this.

Although they had all improved to different degrees during this period of time, when Zhang Yi thought of their battle with the students from the Sixth Elite Base, he still felt very helpless.

In the past few days, they had been improving. There was no reason that they would just stay stagnant.

“For this special training, you will not be heading to the outer area of the frontline defense line. Instead, you will be entering the edge of the battlefield.”

Yang Hui’s words were like a nuclear bomb thrown into the crowd.. It instantly caused an uproar.

## Chapter 297 - Bad Situation

*Chapter 297: Bad Situation*

How could they arrange for these students to train at the edge of the battlefield without any prior preparation?!

Fortunately, after this period of cultivation, everyone’s progress was not bad. At the edge of the battlefield, as long as there were no problems, they could still survive.

However, even though it was only at the edge of the battlefield, it was still a true battlefield.

“Are you afraid?” Beside Zhou Hao, Xu Ling asked nervously.

“I’m not that afraid.”

Zhou Hao said this completely to take care of Xu Ling and the surrounding people.

Why would he be afraid? Not to mention the battlefield at the frontline defense line, he had even been to the battlefield in the spatial rift.

Indeed, after hearing Zhou Hao’s words, the surrounding people immediately felt much better.

They were not the only ones who were afraid. Even Zhou Hao was a little afraid.

“Instructor Yang Hui, isn’t it a little too early for us to enter the edge of the battlefield? We’re not ready yet.”

At this moment of life and death, some students had no choice but to speak up.

“That’s right, Instructor. We’ve only been here a few months.”

“I think we should wait until we all cultivate to the grandmaster level before entering the battlefield.”

Some students were well aware of the danger of the frontline battlefield. Now, they had even proposed to cultivate to the grandmaster level before entering the battlefield.

All of them had very good talent. It was only a matter of time before they cultivated to the grandmaster level.

“I also want you to cultivate for a while longer. Unfortunately, we don’t have much time left.”

“Today, go down and prepare well for the day. Starting from tomorrow, I’ll bring you to the edge of the battlefield to undergo special training for thirty days.”

“You can quit now. However, those who quit will never be recruited again.”

“Dismissed!”

Yang Hui spoke quickly and did not give everyone a chance to ask.

Although it was very dangerous to enter the edge of the battlefield, no students chose to quit.

If they chose to quit now, all of their previous efforts would have been in vain.

However, if they did not choose to quit at this moment, their parents would have raised them in vain if they died on the frontline defense line.

“We’re in big trouble now.”

Yuan Cheng’s face was filled with a bitter smile. Previously, they were only in the outermost training area. They all wanted to die.

Now that they were directly entering the edge of the battlefield, they did not know if they could last until the end of the special training and return alive.

“I wonder if we can work together?”

“Since we’ll be on the battlefield, we can do anything, right?”

“After all, martial artists only have two rules on the battlefield. One is to stay alive and the other is to kill enemies.”

“No one should care about how we save our lives or kill our enemies.” Xu Ling thought for a moment and said.

If they were alone at the edge of the battlefield, accidents would inevitably occur due to their lack of experience.

However, if everyone worked together, then surviving at the edge of the battlefield for 30 days should not be a problem.

“Let’s go and buy some resources first. Shall we go together?”

Zhang Yi thought for a moment and felt that the priority now was to prepare various resources and items that he might need. After all, he had to survive on the battlefield for 30 days!

“We’ve gone too far this time. We’ve only just entered the master level and we’re actually going to the frontline battlefield.” Yuan Cheng complained helplessly.

“That’s right. I wonder how many people will return alive in the end.”

Zhang Yi was not optimistic either. Although the training grounds and the other areas were dangerous, they were still not too dangerous. In those areas, their safety was still guaranteed.

“Don’t worry. The frontline battlefield, especially the periphery, is not that dangerous.”

“Most of the time, a battle won’t break out for half a month or even several months.”

“Moreover, with the experts at the frontline, the defense forces, and the protection of the energy barrier, the threat that the foreign races pose won’t really be that high.”

Zhou Hao had already visited the frontline many times, so he was naturally more familiar with that place.

The frontline sounded terrifying, but it was actually not that bad.

After all, there were still many soldiers at the frontline who were fine despite not even having a master-level cultivation.

“I almost believed you. You make it sound like you’ve been to the frontline!”

Yun Yan stuck out her tongue, thinking that Zhou Hao was pretending to be relaxed.

After all, in her opinion, Zhou Hao was just like them and had never been to the frontline.

“Ahem... what are the two of you doing?”

Xu Ling’s face was dark. Yun Yan had always been dressed very casually, and this time was no exception.

Her snow-white long legs and charming curves made it difficult for one to look away.

The way she stuck out her tongue just now was even more seductive.

If this continued, Zhou Hao might make a mistake one day!

## **Chapter 298 - Is His Identity Going To Be Revealed?**

*Chapter 298: Is His Identity Going To Be Revealed?*

“Cough cough...”

Zhou Hao immediately moved his gaze away. Xu Ling was just a jealous girl. He better not provoke her.

“Hehehe...”

Yun Yan smiled indifferently. After all, she didn’t mind showing off her good figure.

It was not like she was completely naked. Why did she have to hide it?

She even stretched deliberately, revealing all her curves.

“Xu Ling, you have a good figure too. Why do you hide it?”

Yun Yan leaned over to Xu Ling and whispered.

“I really want to beat you to death. Why are you talking about this in front of so many people?!”

Xu Ling pinched Yun Yan lightly. She was still relatively gentle towards girls.

“What do you guys think of Bai Yanran from the Sixth Elite Base?” Yun Yan said indifferently.

Hearing her mention Bai Yanran, Yuan Cheng and the others immediately became spirited.

Bai Yanran was a beauty. She had a perfect figure, a perfect face, and even had the aura of an ice queen.

The only drawback was that they could only watch her from afar.

“Mm...”

Zhou Hao chose to be silent at this moment. Instead of chatting here, he might as well go to the Sixth Elite Base to take a look.

After all, he was now the president of the Supernatural Council and could go to any of the seven elite bases.

“She’s my type, but there’s no hope...”

Yuan Cheng sighed. Compared to Xu Ling and Yun Yan, he actually preferred Bai Yanran.

Zhang Yi also nodded lightly and inadvertently revealed his true thoughts.

In fact, Zhang Yi felt that Yun Yan and Xu Ling were both very perfect beauties, but an ice queen like Bai Yanran made him want to conquer her even more.

Of course, Zhang Yi had even met a senior sister from the Green Cloud Division not long ago. Her name was Ling Shuying, and her beauty was really breathtaking.

“I wonder if you guys know about a beautiful woman in the Green Jade Division called Ling Shuying!”

Yun Yan was clearly very gossipy. What was even more terrifying was that she had actually taken out a photo!

“This is?”

This time, even Xu Ling’s gaze was attracted. Zhou Hao also looked over.

“Damn!”

After taking a look, Zhou Hao was dumbfounded.

Yun Yan's photo had three photos attached to it.

The first photo was naturally of Ling Shuying standing alone on a city tower with a depressed expression.

However, the second photo was of him holding Ling Shuying in his arms after saving her as President Zhou.

The third photo showed him and Ling Shuying standing side by side.

Fortunately, they could only see his back.

Otherwise, he would have been skinned alive by Xu Ling.

"Is this President Zhou? How handsome!"

"What a perfect match!"

"But this Sister Ling is really something! Hehe!"

After arriving at the Seventh Elite Base, Yuan Cheng's personality had gradually become relaxed.

Of course, what he said was actually the consensus of many people.

While Zhang Yi, Yuan Cheng, and the others were staring at the screen, Xu Ling was staring at the photo thoughtfully.

She kept feeling that this back view was strangely familiar.

Hmm... It looked a little like Zhou Hao's back.

For a moment, Xu Ling's gaze alternated between the photo and Zhou Hao.

Zhou Hao naturally saw Xu Ling's gaze clearly and his heart tightened.

What a joke. After all, he was the person standing beside Ling Shuying in the picture. At this moment, he couldn't help but feel concerned as he stood beside Xu Ling.

A woman's sixth sense had always been very terrifying. If Xu Ling sensed anything, he would be done for.

Immediately, he acted as if nothing had happened and deliberately leaned towards Xu Ling's ear to tease, "What? Did you notice that I've become more and more handsome recently? Haha..."

These narcissistic words made Xu Ling shudder instantly, and her doubts from before instantly disappeared.

She knew it. How could Zhou Hao be President Zhou? She must be thinking too much.

“Are we going to buy laser weapons?”

Zhou Hao relaxed and immediately changed the topic.

If they continued to talk, he was afraid that Xu Ling might catch on.

“Laser weapon?”

Hearing Zhou Hao’s words, Yuan Cheng was stunned. Did they need laser weapons?

“Laser weapons shouldn’t be the best choice.”

Zhang Yi also shook his head at this moment, but then he quickly added, “Zhou Hao is right. On the battlefield, there might not be a chance to recover blood essence energy.”

“If our blood essence is exhausted and we have to participate in the battle again, laser weapons will be very useful. Brother Hao indeed is far-sighted.”

Zhang Yi initially thought that the laser weapon was not good. However, on second thought, he felt that Zhou Hao was indeed worthy of being the strongest in the Seventh Elite Base. He was indeed far-sighted!

“Pfft! Zhang Yi, you’re such a dog. You’re on good terms with Zhou Hao, so there’s no need for you to praise each other like this, right?”

Yun Yan giggled.

“Uh...”

Zhang Yi did not know whether to laugh or to cry. He really was not just praising Zhou Hao for the sake of it. On the battlefield, such a situation was also possible.

“Now that you mention it, I remember something good..”

## Chapter 299 - Good Things Have To Be Shared By Everyone

*Chapter 299: Good Things Have To Be Shared By Everyone*

As Zhou Hao spoke, he took out many platinum-level Energy Bars.

“Damn! You even have this!”

Yun Yan was dumbfounded, and Xu Ling also looked at Zhou Hao in surprise.

Looking at the two of them, they clearly knew what it was.

“What’s this?”

Yuan Cheng displayed the expression that a normal person should have. The platinum-level Energy Bar was still being circulated among supernatural experts.

Under normal circumstances, martial artists below the supernatural level should not know anything about platinum-level Energy Bars.

“What a pure energy fluctuation. What kind of treasure is this?”

Zhang Yi was stunned. If he did not see it with his own eyes, he would not dare to believe it.

“This is a synthesized crystal. My master gave it to me.”

Zhou Hao said casually. He had already hinted many times that he had a master who was a supernatural expert.

Of course, this was not to show off, but to explain something that seemed unreasonable.

This reason was good enough to explain why he was able to take out the platinum-level Energy Bars. Moreover, he could also use this reason to give Xu Ling more good stuff in the future.

“Synthesized crystal? What is that?”

Yuan Cheng and Zhang Yi both expressed that they were only ordinary folk and did not know such a high-end item.

"I actually don't know. Xu Ling, tell me."

Yun Yan did not explain this time because she did not know much either. Xu Ling probably knew more than she did.

"I don't know much either, but this treasure is called a synthesized crystal. At present, it should still be popular among supernatural experts..."

At this point, Xu Ling's expression suddenly brightened.

At present, many people already knew that Zhou Hao had a master who was a supernatural expert. It was even very likely that he was President Zhou of the legendary Supernatural Council.

If that was the case, it was not surprising for Zhou Hao to have a synthesized crystal.

Of course, the matter of a supernatural expert was not something casual.

"Huh?"

"What?"

"This..."

For a moment, Zhang Yi, Yuan Cheng, and the others were all shocked.

Damn, these were actually items from the supernatural experts' circle. What was even more terrifying was that Zhou Hao had actually taken out so many!

"Brother Hao, is this really a synthesized crystal?"

Yuan Cheng looked at Zhou Hao expectantly, his eyes filled with admiration.

He was simply impressed by the fact that Zhou Hao could even get something that circulated among supernatural experts.

He suddenly felt that Zhou Hao was not simple at all!

"Is this used to recover blood essence energy?" Zhang Yi asked curiously.

"Each of you will get ten. On the battlefield, the speed at which you use this synthesized crystal to recover your blood essence is very fast."

Zhou Hao nodded. His words shocked Yun Yan and the others to the point their hearts almost jumped out.

She had already heard from the elders in her family that the market price for synthesized crystals was more than 3 million yuan. Due to high demand and short supply, it was basically priceless.

Yun Yan knew that after martial artists cultivated to the supernatural level, they gradually no longer needed to use money to measure prices. Instead, they used colored energy crystals.

But even so, these synthesized crystals were still freaking expensive!

“Why do you have so many synthesized crystals?” Xu Ling asked curiously.

The price of this synthesized crystal was almost 5 million. How could Zhou Hao have the ability to buy so many?!

“My master gave it to me.” Zhou Hao had long thought of an excuse.

“This thing is worth at least 3.5 million yuan each, and the average price is 5 million yuan. There’s even a low supply of it right now. Be careful not to get robbed!”

Although Yun Yan was somewhat embarrassed, she still could not refuse this powerful temptation. She stretched out her hand and received the Energy Bar.

“This...”

Zhang Yi retracted his hand with a struggling expression.

Xu Ling was Zhou Hao’s girlfriend. Zhou Hao’s things naturally also belonged to Xu Ling.

Moreover, Yun Yan also seemed to be interested in Zhou Hao. In a martial world, it was very normal for some powerful martial artists to have multiple partners.

After all, after one’s cultivation level increased, their lifespan would also increase. In such a situation, it was naturally very normal to have multiple partners.

Based on Zhou Hao’s current situation, it was not impossible for him to take Yun Yan in as a second wife in the future.

Therefore, Zhou Hao and Yun Yan could also be considered as family.

However, he wasn’t planning on marrying Yuan Cheng. Although he was Zhou Hao’s good friend, how could he just take something worth 35 million?

“Actually, at my master’s level, three to five million yuan is no different from our three to five yuan. Take it.”

Zhou Hao naturally saw Zhang Yi and Yuan Cheng's concerns and was afraid that they would feel guilty.

"How about this? Consider it a loan from me." Zhang Yi was a very principled person. Even though Zhou Hao had already said so, he did not plan to take it for free.

Soon, Yuan Cheng also followed suit.

At this moment, it would be too awkward for them to refuse Zhou Hao. For Zhou Hao to take out such a good item meant that he treated the four of them as friends.

"Let's go in and buy some laser weapons."

After carefully putting away the platinum-level Energy Bar, Zhang Yi continued.

"Sure."

Yun Yan nodded. Although they now had platinum-level Energy Bars, they were still entering the true frontline battlefield this time.. They needed as much help as they could get.

## Chapter 300 - Star Ring Technology

*Chapter 300: Star Ring Technology*

Zhou Hao naturally had no objections. In fact, he had never visited a laser weapon shop before and did not know what was inside.

For a moment, he was somewhat curious.

"Wait, I think we should go somewhere else..."

Xu Ling stopped everyone and pointed at a shop sign.

"Star Ring Technology Experience Center..."

Star Ring Technology was the leader of the global technology and weapons industry!

Even the Green Cloud Research Institute was weaker than Star Ring Technology.

“What’s wrong?”

Zhou Hao really did not know much about technology weapons. After all, he did not care about technology weapons at all.

His weapons were all rare-level treasures and he was already extremely powerful. He did not need them at all.

“Brother Hao, you really don’t know?” Seeing Zhou Hao’s blank expression, Yuan Cheng was stunned for a moment before explaining, “Star Ring Technology is the number one technology company on Planet Earth. It mainly develops various technological weapons, including armor exoskeletons, firearms, laser weapons, nanoweapons, and various carriers.”

“The Sky Fighter we used before was a product of Star Ring Technology.”

“Star Ring Technology is shared by five large countries and many directors...”

Everyone had their own strengths. Yuan Cheng was quite knowledgeable about this stuff.

In terms of knowledge, Zhou Hao, Yun Yan, and the others knew nothing about this. Although some of them knew a little, they still couldn’t be compared to Yuan Cheng. Therefore, they quietly listened.

“Then let’s go there. What’s there to hesitate about?”

After listening for a long time, Zhou Hao finally understood. To put it simply, that place was very impressive. In all the technological shops, there was nothing more impressive than Star Ring Technology.

“Uh... the things there are also very expensive, alright...”

Xu Ling was somewhat speechless. Even a rich woman like her felt that the things in Star Ring Technology were expensive, so it was natural that others could not afford it.

“Can we sell things there?” Zhou Hao thought for a moment and asked.

After all, they all had platinum-level Energy Bars.

Although he did not lack money at all, Zhang Yi and the others could still sell some of their platinum-level Energy Bars.

“You can’t sell things in Star Ring Technology... but...”

Xu Ling hesitated as she spoke.

“What’s wrong?”

Of course, Zhou Hao knew that Xu Ling had something else to say.

“However, I have many uncles and aunties at home who are fighting on the frontline.”

“If you’re really willing to sell synthesized crystals, I can buy them at a higher price...”

“Of course, they won’t be for me. I will only be buying them in the name of my family.”

After Xu Ling finished speaking, she was still a little embarrassed.

Now, Zhou Hao’s synthesized crystal had already spread in the supernatural martial artist circle.

All the supernatural martial artists wanted the synthesized crystals!

Synthetic crystals were priceless.

“There’s something I have to tell everyone. I can only do my best to give you guys the best price. Although it’s true that synthesized crystals are currently priceless, our family probably still won’t purchase it at the highest price...”

Xu Ling was not a thin-skinned girl, but she did not like to take advantage of others.

Since she was buying the synthesized crystals at a lower price, her family might be able to earn a lot if they resold them.

In this situation, she was really embarrassed, as if she had taken advantage of Zhang Yi and the others.

“Xu Ling, if you say that, you’re not treating us as friends.”

“How about this? I’ll sell you five synthesized crystals.”

Zhang Yi thought for a moment and felt that the initial investment was necessary.

If he died on the battlefield, it would be useless even if he had ten synthesized crystals.

Not only that, but he was also unable to repay Zhou Hao’s friendship.

“I’ll also sell five...”

Yuan Cheng was also prepared to sell five. He was thinking the same thing as Zhang Yi, but his mood was even more complicated.

Although this synthesized crystal was something he borrowed from Zhou Hao, it felt a little strange to sell it now.

“I’ll just sell it to my own family...”

Yun Yan smiled sweetly. The Yun family might not have the ability to purchase many, but it was still not a problem for them to purchase the five synthesized crystals in her hands.

Xu Ling quickly contacted her family and came to an agreement.

Although the Xu family had gained some benefits, the price was still relatively fair.

Her family bought the synthesized crystals for 6 million yuan each, which was 1 million yuan higher than the average.

“Did you receive the transfer?”

Xu Ling looked at Zhang Yi and Zhou Hao.

She had already explained the situation to her family, so the Xu family transferred 30 million yuan to Yuan Cheng and Zhang Yi each and 60 million yuan to Zhou Hao.

The money for the ten synthesized crystals Xu Ling sold to her family were all given to Zhou Hao.

“This is the first time I’ve seen so much money...”

Zhang Yi sighed. After cultivating for so long, he had gradually become a master.

However, among all the master-level martial artists, a master-level martial artist like him who came from a humble background was still relatively poor.

“Me too...”

Yuan Cheng’s family was only a small family and could only be considered to be average.

This was the first time he had seen so much money.
