

# Starting With One Million Luck Points

## Chapter 301 - Judging the Customers

*Chapter 301: Judging the Customers*

“I got it.”

Zhou Hao did not refuse. Although he did not lack money, he did not want to pressure Xu Ling.

After that, he planned to cut the rare-level Energy Bar into small cubes of 1cm for Xu Ling to use as a colored energy crystal.

The value of a rare-level Energy Bar was not something that a platinum-level Energy Bar could compete with.

“Let’s go.”

Xu Ling’s pretty face was also brimming with a smile.

Because she had bought 15 synthesized crystals for her family this time, her family had given her a huge reward.

Xu Ling, who was originally rich and beautiful, now became even richer.

“Actually, there’s no need for us to go to Star Ring. We can just go to the points area. There’s also something good there.”

Just as he was about to enter Star Ring, Zhang Yi hesitated again.

On the commercial street of the Seventh Elite Base, one could only buy everything with martial artist points.

The commercial street they were currently on did not exactly belong to the Seventh Elite Base. It was only under the supervision and surveillance of the Seventh Elite Base and was not the Seventh Elite Base’s property.

“Let’s go. Since we’re already here, let’s go in and take a look.”

Zhou Hao patted Zhang Yi on the shoulder. Since they were already here, wouldn't it be good to go in and take a look?

"That's true..."

Zhang Yi thought for a moment and nodded.

The few of them immediately entered Star Ring Technology Experience Center.

"Gentlemen, what do you need?"

A very polite and enthusiastic manager quickly welcomed them.

Among these five people, one was the eldest daughter of the Yun family and Xu Ling was even more impressive. She was the eldest daughter of the Xu family and definitely had the ability to spend.

As for Zhou Hao and the other two, the manager directly ignored them. Since he did not know them, it meant that he was just a nobody and not a descendant of an aristocratic family.

"We need some good laser weapons on the battlefield. Do you have any recommendations?"

What surprised the manager was that among the five of them, Zhou Hao was the one who spoke. The remaining four even seemed to take him as their leader.

Seeing this, the female manager directly wiped her eyes. Could it be that she had failed to recognize a big shot? Was this young man even more impressive than Miss Yun and Miss Xu?

"Yes, please follow me."

The female manager brought Zhou Hao and the others to shop first.

As for Zhou Hao's identity, she could slowly figure it out.

"This is a TM-2 sensory grenade, a special kind of mechanical weapon."

"If they're in the center of the explosion, the master-level foreign races will also be severely injured."

"Buy ten and get one free. If you need any, I suggest you buy ten."

With that said, the female manager smiled at Zhou Hao and the others.

She had many objectives. Firstly, she wanted to test the financial strength of Zhou Hao and the others. Secondly, she wanted to see if she could get lucky this time.

“Do you have any test footage?”

After thinking for a moment, Zhou Hao decided to look at the test footage. Of course, he could also test it on the spot.

“Yes, but the price of such a TM-2 sensory grenade is 400,000 yuan per grenade.”

The female manager’s meaning was very obvious. This thing was a little expensive. Two TM-2 sensory grenades was worth an entire house.

“That’s fine.”

Zhou Hao said casually. Currently, money was just a string of numbers to him. Only colored energy crystals were worth anything to him.

“Alright, this is the test footage. You can take a look.”

“If you want to buy it, you can use the simulation testing device to conduct an in-depth test.”

The female manager was already relieved. Zhou Hao’s tone was very calm. It seemed that he did not care about the 400,000 yuan at all.

“400,000 yuan!”

Zhang Yi was secretly speechless. Because of Zhou Hao, he already had 30 million yuan on him.

However, for Zhang Yi, who had been living on the poverty line for a long time, a TM-2 grenade worth 400,000 yuan was still an astronomical luxury item.

“Tsk tsk, can you earn so much from killing a master-level foreign race?”

Yuan Cheng was somewhat curious.

After all, this TM-2 sensory grenade seemed to only be useful for the foreign races at the master level.

“That depends on what kind of foreign race they kill. Moreover, the strength of the TM-2 sensory grenade lies in the superposition of the electric field.”

“If ten TM-2 sensory grenades explode in the same area, the electromagnetic explosion will be very terrifying. Even a grandmaster won’t be able to escape unscathed.”

After all, Wang Yun was the sales manager of Star Ring Technology.. Now that she was promoting products, she naturally could do it easily.

## Chapter 302 - Large Purchase

*Chapter 302: Large Purchase*

“In that case...”

After Zhou Hao heard this, he immediately nodded. If that was the case, such a sensory grenade was not bad.

Of course, Wang Yun had also said that one sensory grenade was useless. One needed at least ten.

“I want ten.”

To their surprise, Zhang Yi was the first to decide to buy the sensory grenades.

Although he felt that it was extremely expensive, he still decided to buy it.

He might not be able to get his money’s worth if he used it on a master-level foreign race being, but if he really killed a grandmaster-level foreign race expert or encountered a heavily injured supernatural race expert, it would definitely be worth it.

“I want ten too.”

Yun Yan pondered for a moment and also decided to buy it.

This kind of sensory grenade was easy to use and the price was also considered appropriate. It could be considered one of the most cost-effective technological weapons.

Soon, Zhou Hao and the others decided to buy it.

“Do you need to test it on the simulator?”

After selling fifty sensory grenades at once, Wang Yun couldn't stop smiling.

"Is there a problem with this sensory grenade?"

Seeing Wang Yun smile so widely, Zhou Hao's heart skipped a beat as he asked with a strange expression.

4 million yuan was nothing to him now.

Although selling goods was worth being happy about, Wang Yun was smiling too happily now, making him feel like he had been cheated.

"This..."

After Zhou Hao asked, Wang Yun immediately felt somewhat embarrassed.

"Actually, there's nothing wrong with this kind of sensory grenade."

"However, to a master-level martial artist, this thing is too expensive. Ordinary master-level martial artists can't afford it at all."

"To grandmasters and even supernatural martial artists, the sensory grenade is basically useless."

"Therefore, after the research and development was completed, the sales of the sensory grenades had always been poor, and the price kept decreasing."

Wang Yun did not hide anything and told the truth in detail.

"Because there are more sensory grenades piled up. If you guys buy twenty each, I can give you an additional four. Including the previous freebie, I'll give you a total of five extra."

Once these martial artists went on the battlefield, it would become a matter of life and death. Her conscience made her decide to tell the truth.

Hearing Wang Yun say this, Zhang Yi and the others looked at each other.

This discount was already quite high.

The original price of 400,000 per Sensing Grenade had been reduced to 320,000 per grenade.

After saying this, Wang Yun looked at Zhou Hao and the others expectantly.

If Zhou Hao and the others were willing to buy, she could actually continue to reduce the price.

“Then... let’s each get twenty.” Zhang Yi looked at Zhou Hao and the others and said uncertainly.

“Sure.”

Yuan Cheng nodded. He was already very satisfied with this price.

“We’re fine with that too.”

Xu Ling and Yun Yan nodded. The sensory grenade was not very useful for grandmasters and supernatural martial artists, but it was very useful for them.

“Are there any other technological weapons recommendations?”

Zhou Hao casually put away the 25 sensory grenades and continued to ask Wang Yun.

“There are many technological weapons in Star Ring Technology that are suitable for you.”

“I have a batch of new laser cannons. Do you want to take a look?”

Wang Yun thought for a moment and said slowly after she assessed the spending power of Zhou Hao and the others.

“Laser cannon? Which one is it?”

Zhou Hao had fought the Machine Race many times. The most common attack method of the Machine Race was the various laser hand cannons.

Zhou Hao was immediately interested when he heard that Wang Yun also had a laser cannon.

Xu Ling and the others also revealed curious expressions.

“Come with me.”

Because they had already reached a deal, Wang Yun was in a very good mood. She immediately brought Zhou Hao and the others into the training hall behind.

As soon as they entered, Zhou Hao and the others saw many other students. Some were elites from the same batch as them, and some were senior students.

“These are the latest batch of laser weapons from Star Ring Technology.”

Wang Yun brought Zhou Hao and the others to a shooting range of an experience hall. There were all kinds of laser weapons there.

“How cool.”

Yuan Cheng looked at these cool and technological weapons in front of him and felt that this trip had not been in vain.

“How expensive!”

Zhang Yi’s personality did not change much. He paid attention to the price as soon as he arrived.

After all, not long ago, the 10 million yuan they had on them seemed to have all been spent.

“What kind of gun is this?”

Tip: You can use left, right keyboard keys to browse between chapters.

## Chapter 303 - You're Good at Shooting

*Chapter 303: You're Good at Shooting*

Zhou Hao picked up a gun, even though most laser weapons here were hand cannons.

But now he was holding a pistol.

“This is an M21 automatic pistol. It can be used to load conventional bullets, as well as laser bullets and other special bullets.”

“This is a mithril bullet. It’s very effective against the Blood Race beings and is very accurate.”

Wang Yun took out a box of mithril bullets and handed it to Zhou Hao.

Zhou Hao’s gaze was also attracted by the bullets in front of him.

This box of bullets was placed in a beautiful silver box.

“So light.”

Zhou Hao immediately said after picking up a mithril bullet.

“Compared to ordinary bullets, this mithril bullet is only a third as heavy.”

“But its toughness and strength are stronger than ordinary bullets.”

Zhou Hao looked at the bullet in his hand that looked like a work of art with a circle of patterns and found it very interesting.

“That’s right. It’s precisely because of this advantage that the mithril bullet has a longer range, higher accuracy, and stronger penetration and lethality.”

Previously, Zhou Hao and the others had all bought the sensory grenades.

This time, when they bought firearms, their preferences were different.

Zhou Hao was very interested in pistols and other firearms. This time, he planned to buy a pistol and a sniper rifle.

“Can I try out the gun?”

After playing with the M21 in his hand for a while, Zhou Hao decided to get one.

“Sure, but this kind of Mithril Bullet costs 10,000 each. You’ll get five for free if you buy a gun. If you don’t buy a gun, you’ll have to pay for them separately.”

Wang Yun placed the Incomplete mithril bullet into the magazine and handed it to Zhou Hao.

Zhou Hao immediately took the M21 automatic pistol and arrived at the shooting range.

A martial artist’s five senses were very heaven-defying and they also had incomparably powerful mental strength. After simple training, they could basically hit the target perfectly.

Of course, ordinary firearms were already very difficult to use against the foreign races and were not very useful.

Only these technological energy weapons had certain effects.

Bang!

With a deep muffled sound, a bullet instantly flew out and killed the model 300 meters away.

“It’s that easy to use?”

Yuan Cheng was happy after seeing this. Although this gun was very expensive, the effect was very good.

“You’re good at shooting.”

Wang Yun looked at Zhou Hao in surprise and praised him sincerely.

When the mithril bullet was fired, the recoil was very strong. However, after Zhou Hao fired just now, his hand did not move at all.

“What other special bullets are there?”

Zhou Hao was very satisfied with this gun and immediately asked about other special bullets.

“There are also sulfur bullets targeted at the Insect Race, as well as flame bullets and ice bullets”

Wang Yun was now very enthusiastic. She had already seen through Zhou Hao’s extraordinariness and had basically confirmed the spending ability of these little guys.

“Give me one of each.”

Zhou Hao did not try them one by one. He just needed to look at the tutorial footage and would directly try them on the battlefield.

Originally, everyone had come here to buy a laser cannon. In the end, only Xu Ling bought a laser cannon while the others bought firearms.

“I’ve spent 20 million of the 30 million just now.”

Yuan Cheng also felt a little heartache. Although he had obtained the 30 million yuan relatively easily, spending two-thirds of it so quickly was still very painful.

Zhang Yi was slightly better than him. Up until now, he had spent 18 million.

“I still have to buy some food. Compared to weapons and equipment, food is very cheap.”

With that said, Yun Yan began to think about where to buy food.

“I don’t need food. I want to buy some cold weapons and other resources.”

Zhang Yi looked at Zhou Hao and the others apologetically. He was used to being frugal. At this moment, he even felt that buying special battlefield food was a waste.

In terms of food, he could completely restrain himself.

“Alright, let’s wander around freely next and see what we need.”

Zhou Hao decided to let the group travel separately. After all, everyone had different needs.

“The commercial streets of the Seventh Elite Base are divided into inner and outer street.”

“We’ve already walked around the outer street. Now, we can go to the inner street to take a look.”

After the others left, Zhou Hao thought for a moment and decided to take a look at the inner street.

Compared to the outer street, the inner street were even more bustling.

“Swipe your card, 100 points.”

Before Zhou Hao could enter the inner street, he was stopped by a young man.

Tip: You can use left, right keyboard keys to browse between chapters.

## Chapter 304 - Bounty Token?

*Chapter 304: Bounty Token?*

“Swipe my card?”

Zhou Hao was stunned. Did one have to spend money to enter the inner street?

“Uh, don’t tell me this is your first time coming to the inner street?”

The young man who stopped Zhou Hao said with a strange expression.

Judging from Zhou Hao's appearance, he shouldn't be a new student who had just arrived. Thus, the young man was quite confused.

"It is."

As he spoke, Zhou Hao also took out his identity card and swiped it on the machine.

He had already seen that the others had to swipe their cards to enter.

Di!

After Zhou Hao swiped his card, the points balance on his identity card also appeared.

"Damn, why do you have 100,000 points?"

This young man who had stopped Zhou Hao was actually a senior student from the Seventh Elite Base.

The Seventh Elite Base was usually built in four years. After four years, many elites would be arranged to different places.

Of course, there were also some elites who chose to stay in the inner street of the Seventh Elite Base.

"Is there a problem?"

Zhou Hao did not have any concept of these points. All along, his points had always been there.

This was the first time he had used points since coming to the inner street.

"Of course there's a problem. You're just a new student who has been in the Seventh Elite Base for less than a year. How could you have so many points?"

As soon as this young man finished speaking, many people around cast shocked gazes.

Zhou Hao's identity card was still a first-year elite's identity card. On his identity card, there was only the pattern of a sharp sword.

"I killed some foreign races and completed some missions. Oh, I think I also got rewarded for always being ranked first in the end-of-month competition."

Zhou Hao did not know where he got so many points from.

After swiping his card, he walked into the mysterious inner street like the others.

Compared to the outer street, this place was very lively.

Not only were there merchants selling all kinds of items here, but there were also students setting up stalls here.

Zhou Hao looked around and did not see what he wanted.

“Eh?”

It was not until they arrived at a shop at the corner that Zhou Hao’s gaze changed.

“What do you want to buy?”

Seeing Zhou Hao come over, a middle-aged man with thin hair said impatiently. He was reading a newspaper in the shop.

“I’m just browsing.”

Zhou Hao did not know whether to laugh or to cry. No wonder this shop was so unpopular on the inner street.

The owner of this shop was really too unenthusiastic.

“Go ahead. Browse as much as you want.”

Although he was not enthusiastic, this strange uncle was still very generous.

“Bounty Token?”

Zhou Hao thought that the uncle was reading the newspaper just now, but now, he saw that the man was actually looking at the bounty token again.

On the bounty token, there were usually only two types of targets.

One was the defected martial artists of Planet Earth, and the other was the foreign races.

Now, the bounty token in this strange uncle’s hand was the bounty for the defected martial artists of the various countries on Planet Earth. Moreover, the price of the bounty was not low.

“Hehe, it’s useless for you to look at this. Hurry up and browse the other things if you want something.” Sensing Zhou Hao’s gaze, Nangong Chen said indifferently.

“What is this?”

Zhou Hao did not argue with Nangong Chen over the bounty token and instead asked him a question.

“This is a book about genesis runes. Genesis runes originate from the spatial rift, and some humans and foreign races know about them. As for the origin of genesis runes, no one knows.”

With that said, Nangong Chen continued to look at his bounty token.

“Did you kill the targets on the bounty to get them back?”

Zhou Hao was now a quasi Heaven Realm expert, so he naturally knew that Nangong Chen, who was sitting beside him, was a peak eighth-grade supernatural martial artist.

“Don’t ask what you shouldn’t ask.”

Among the many supernatural experts, Nangong Chen was the least arrogant.

A peak-level eighth-grade supernatural expert had actually opened such a small shop on the inner street.

“I don’t have 500,000 points. Will you be willing to sell it for 100,000 points?”

Zhou Hao picked up the Genesis Rune Introductory Book. He had been attracted by it when he passed by just now.

“No, but you can buy it on credit or exchange it with something else.”

Nangong Chen refused without thinking. Although he had opened a small shop just to sell some trash that he did not need,

However, he was still unwilling to do a losing transaction.

“Are these enough?”

Zhou Hao thought for a moment and also took out some foreign race materials from his spatial device.

“It’s enough, but the materials here don’t seem to be something you can obtain, right?”

In Nangong Chen’s opinion, Zhou Hao was only a peak-level master. There were some materials here that even grandmasters could not obtain.

“Well, as long as it’s enough. I’ll take this book.”

Zhou Hao took the Genesis Rune Introductory Book on the shelf and left.

“Interesting.”

Watching Zhou Hao leave, Nangong Chen casually said before ignoring him.

## Chapter 305 - You Can Always Escape if You Cant Defeat the Opponent

*Chapter 305: You Can Always Escape if You Can't Defeat the Opponent*

Half a day passed quickly.

When Zhou Hao appeared on the training ground again, some students had already arrived.

“Yuan Cheng, why do you have a smug expression?”

After Yun Yan and Xu Ling walked over holding hands, they immediately teased.

“Hai!”

Zhang Yi also sighed faintly. He was really somewhat convinced by Yuan Cheng.

This guy had previously bought a secondhand transport vehicle on the outer street.

On the battlefield, exoskeletons and mechas were very useful. However, he really did not know what use such a clumsy vehicle had.

“I bought a vehicle. It's a mountain rainforest tank. When we get to the battlefield, we can escape even if we can't defeat them.”

Yuan Cheng was now relieved. It was as if he was already in an invincible position after obtaining this tank.

“It seems like you can always come up with something new.”

Zhou Hao also did not expect Yuan Cheng to get a tank.

“What Ji Yufan is carrying on his back?”

Yun Yan’s gaze looked in the direction of Ji Yufan.

After looking over, she was immediately displeased.

Lu Zhan, who had a good relationship with them not long ago, was actually together with Ji Yufan now.

“It should be some kind of technological weapon.”

Zhou Hao looked at it and said casually, not caring.

“Hmph!”

“Zhou Hao, you better not die on the battlefield this time. Let’s see who gets the most points this time!”

At this moment, Ji Yufan turned around and looked at Zhou Hao.

“Get lost!”

Zhou Hao’s expression did not change at all and even ignored Ji Yufan. However, he still felt that there was something wrong with Ji Yufan.

“Gather around and report your numbers! Get ready to board!”

After everyone arrived one after another, Instructor Yang Hui appeared in front of everyone.

“One!”

“Two!”

“Three!”

...

A moment later, Zhou Hao and the others finished reporting.

However, Instructor Yang Hui did not let them board any vehicles. Instead, he looked at the other two groups of experts that were gathering and said, “Those are your senior brothers and sisters from the first and second years. This time, they will also enter the edge of the battlefield with you.”

Now, Zhou Hao already knew that there were other training areas in the Seventh Elite Base.

People like them belonged to the first year.

Hearing this news, many people's eyes lit up.

In that case, could they work with these seniors?

They looked at the seniors and saw that they were all master-level experts.

However, when everyone looked over, they also saw that most of the seniors also had bitter expressions.

Clearly, these seniors were also reluctant to go to the edge of the battlefield to train.

It was not until the other two groups of experts were also gathered that three defensive military combat vehicles arrived.

Then, Zhou Hao and the others also began to get on the vehicle.

"This doesn't seem like the direction towards the seventh spatial rift." In the car, Zhang Yi said curiously.

Although he could not see the situation outside, he had a good sense of direction. Therefore, he was very sure that the combat vehicle they were riding was not heading towards the seventh spatial rift at all.

"Where are we going?"

Xu Ling also looked puzzled. She really wanted to know where they were going.

"This seems to be heading to the twelfth spatial rift?" Zhou Hao sensed the direction they were heading in and said uncertainly.

The direction they were heading towards now was not the seventh spatial rift. There were only two spatial rifts they could travel to in this direction.

That was the thirteenth spatial rift and the twelfth spatial rift. However, the battle in the thirteenth spatial rift had already ended.

Judging from the time, it was likely that there would be a battle plan in the twelfth spatial rift soon.

"This time, everyone is heading to the twelfth spatial rift. Other than killing as many foreign races as possible, we also have to collect as much information as possible."

At this moment, Instructor Yang Hui's voice sounded in everyone's ears.

Zhang Yi and the others looked at Zhou Hao in surprise.

They did not expect Zhou Hao to be right. This time, they were really going to the twelfth spatial rift!

The twelfth spatial rift was not far from the seventh spatial rift. If they rode the Sky Fighter, they would arrive in at most an hour. Now that they were riding such a clumsy combat vehicle, it was obvious that they would not arrive for half a day.

At this moment, many students had already begun to sleep to conserve their energy.

On the battlefield, they probably will not have much time to sleep for the next thirty days.

Zhou Hao was not idling on the bus either. He had already begun to use his mental strength to check the Genesis Rune Introductory Book he had bought not long ago.

This was the first time he had heard of such a thing.

"Hmm?"

Zhou Hao's expression could not help but turn a little strange when he used his mental strength to check the Genesis Rune Introductory Book.

Tip: You can use left, right keyboard keys to browse between chapters.

## Chapter 306 - Genesis Rune Introductory Book

*Chapter 306: Genesis Rune Introductory Book*

Because the inside of the car was dark and the air was not flowing, at this moment, Xu Ling had already fallen asleep leaning on Zhou Hao's shoulder.

Xu Ling was his girlfriend, so it was very normal for her to fall asleep leaning on his shoulder.

However, it was not just Xu Ling leaning on his shoulder. Yun Yan, who had also fallen asleep, was also leaning her head on his shoulder!

Fortunately, the interior of the car was dark and nothing could be seen clearly. Otherwise, there would have been a huge misunderstanding!

Zhou Hao did not think much of it and continued to use his mental strength to study the Genesis Rune Introductory Book.

The reason why he had discovered this book previously was completely because when he passed by, his dantian jumped and resonated with this book.

All across the seven elite bases, vehicles were departing to the twelfth spatial rift.

This time, although the number of participants from each base was different, everyone was still competing with each other.

“I don’t need to get good results this time. I just want to return alive.”

Yuan Cheng expressed that he was going to be a slacker this time. His greatest hope was that he could return alive.

“I also hope to return alive...”

It was rare for the others to not tease him this time. Even Zhang Yi felt the same way.

The areas with the highest mortality rate among the Huaxia martial artists and even Planet Earth martial artists were the various battlefields at the spatial rifts.

More than 99% of the martial artists died on the frontline battlefield.

“Zhou Hao, you don’t seem afraid at all.”

Yun Yan, who was beside Zhou Hao, had already woken up.

After waking up, her pretty face was red. Although she usually dressed very casually, she was not a casual girl.

However, in such a military transport vehicle, the space was too small and the air was not circulating very well, making people sleepy. Therefore, she had unknowingly fallen asleep just now.

What was even more embarrassing was that she had actually fallen asleep leaning on Zhou Hao!

Although it was sometimes common for friends to steal each other’s boyfriends, she did not have the intention to snatch Zhou Hao from Xu Ling.

“I... I’m alright.” Zhou Hao was very calm.

Just as everyone was feeling very nervous and afraid, he said something so casual. He was really asking for a beating.

It was as if he was forcefully posturing.

However, as the strongest quasi Heaven Realm martial artist in Huaxia, he really did not have any pressure to enter the edge of twelfth spatial rift.

“Don’t speak and rest well. After entering the battlefield, it’s very normal for you to not sleep for a few days and nights!”

Hearing someone whisper, Instructor Yang Hui reminded.

For a moment, the car fell silent again.

“Indeed... I don’t understand it at all.” Zhou Hao smiled bitterly.

The Genesis Rune Introductory Book was simply too mysterious and complicated to understand.

He knew every word in the book, but when he connected them, he was dumbfounded.

Unknowingly, the car finally stopped.

Everyone shook their sleepy heads and looked over. They realized that it was already nighttime.

“We’re here. Get off!”

Instructor Yang Hui got everyone to alight in an orderly manner.

Roar!

Zhou Hao had just gotten off the military transport combat vehicle when he heard a beast roar from the distant battlefield.

Although it was very far, he could still see that the twelfth spatial rift was not simple.

On the city wall of the twelfth defense line, there was actually a Heaven Realm expert holding down the fort.

“Is he nurturing the experts of the Second Team?”

Zhou Hao had participated in the battle in the thirteenth spatial rift before, so he quickly thought that this was the Green Cloud Division nurturing the experts of the Second Team.

"I don't see Ling Shuying or the supernatural experts I'm familiar with. I wonder if the Green Cloud Division is planning to nurture two more teams just to be safe?"

Zhou Hao was a quasi Heaven Realm martial artist and knew the frontline matters. The other students alighted with solemn expressions and observed their surroundings very vigilantly.

"This is already the edge of the battlefield. Dangerous things can happen at any moment."

"Students will not be able to exceed the red line behind you within the next thirty days. Those that do will be considered to have forfeited."

"Your communication bracelet will record your points in real time."

"Be careful. This is a joint competition between the seven elite bases. Once you enter the top twenty, there will be many benefits."

"The exact rules will be sent to your communication bracelet one after another. You can now move freely."

After Instructor Yang Hui finished speaking, his figure flashed and disappeared from the spot.

Tip: You can use left, right keyboard keys to browse between chapters.

## Chapter 307 - Bai Yanrans Cousin

*Chapter 307: Bai Yanran's Cousin*

"Hai, supernatural experts are indeed carefree. They come and go without a trace, appearing and disappearing unpredictably."

Yuan Cheng looked at the direction where Instructor Yang Hui had disappeared in envy. Although they had also gradually become master-level martial artists, they were still far from becoming grandmaster-level martial artists or even supernatural-level martial artists.

"What's the use of being envious of others? We have to take action ourselves and become stronger than them!" Yun Yan puffed her cheeks and said half-jokingly.

"I received news that students from all seven of the elite bases are participating this time."

"Basically all first and second year students have been sent from the various elite bases."

"The First Elite Base is relatively special. There are also ten third-year seniors participating. However, they're a rescue team and won't participate in the rankings."

Xu Ling looked at her communication bracelet as she spoke.

"Eh? Has someone already entered the battlefield to kill the foreign races?" Zhang Yi asked in surprise.

Soon, a name appeared on the ranking list.

First Elite Base, Wang Yingcai, 7 points...

It seemed that this elite named Wang Yingcai was the first to enter the battlefield.

"He's really bold. The others are still observing the environment. He has already entered the battlefield."

Yuan Cheng smiled bitterly, but he quickly figured it out. This guy was clearly trying to win!

After Wang Yingcai, there were indeed more and more names. Now, on the rankings, the top hundred slots in the ranking were instantly filled.

Then, many names began to fluctuate.

"The frontline defense line battlefield is divided into four areas."

"The outer area, the middle area, the inner area, and the core area."

"I suggest that we split up when we're in the outer area. We'll gather when we enter the middle area. How about that?"

With that said, Xu Ling looked at Zhou Hao and the others.

"Sure."

Zhou Hao did not have any objections. He had already sensed it clearly.

This area was a challenge for everyone. It was difficult, but there was no extremely fatal danger.

“Me too.”

Zhang Yi nodded. In the beginning, it was good for them to travel separately to familiarize themselves with the environment.

“I’m fine with that.”

Yuan Cheng and Yun Yan quickly agreed.

Bang!

After the few of them separated, Zhou Hao’s aura shook, and a black beetle was killed by his aura.

Points+100!

After casually killing this beetle, the notification of points+100 appeared on his communication bracelet. It could be seen that the data entry function of this communication bracelet was very good.

“Just nice, let’s try the little thing we bought previously.”

After failing to grasp the knowledge in the Genesis Rune Introductory Book, Zhou Hao felt that it was not bad to try the things he had bought at Star Ring Technology.

“I don’t need the sensory grenades for the time being. These are all weak foreign races that aren’t even at the master level.”

“These foreign races should have been deliberately placed here for us to practice.”

Zhou Hao pondered as he took out the automatic pistol.

“An upgraded version of the M-21 automatic pistol. Not bad.”

When Zhou Hao took out the automatic pistol, a sweet-looking girl with a single ponytail and glasses appeared not far from Zhou Hao.

Zhou Hao had long seen this girl, but he did not care.

He also saw an automatic pistol in the girl’s hand.

It was different from ordinary silver and black. It was also not a rare gold color, but a special rose gold color.

Clearly, this was a custom-made gun.

Although Star Ring Technology was a commercial company, it was still not easy to get customized firearms made in Star Ring Technology.

“My name is Bai Bingbing and I’m Bai Yanran’s cousin. Do you want to get to know me?”

Bai Bingbing had only passed by just now and only decided to linger when she saw Zhou Hao.

Previously, she had heard her cousin Bai Yanran mention Zhou Hao and even heard of Zhou Hao’s Heartless Iron Hand. She found it very interesting.

Now, seeing that Zhou Hao was also a martial artist who liked guns, she became even more interested in him.

If one did not like firearms, they would not spend 10 million yuan to buy such an Energy Gun.

“My name is Zhou Hao.”

Zhou Hao did not care about Bai Bingbing coming over.

At this moment, he had already taken out the secret silver bullets and began to fill them.

## Chapter 308 - Using the Sensory Grenade To Get to the Top Hundred

*Chapter 308: Using the Sensory Grenade To Get to the Top Hundred*

“Uh... that seems sort of wasteful...”

“The foreign races here are all very ordinary foreign races. We can just use ordinary energy bullets.”

As Bai Bingbing spoke, she handed Zhou Hao a magazine.

“Energy bullets?”

Zhou Hao was immediately dumbfounded. It seemed that Manager Wang Yun from Star Ring Technology was indeed a scammer.

Previously, when she introduced this automatic pistol to him, she had only given him the standard bullets, which were bullets used to fill gunpowder, and special bullets that were expensive.

He did not know that there were such energy bullets.

“Those are your resources. I won’t take them.”

Zhou Hao took the magazine and played with it for a while before returning it.

This time, he had to survive on the battlefield for 30 days. He was a quasi Heaven Realm expert hidden among a group of newbies and had nothing to worry about. It was hard to say for the others.

If anything happened to Bai Bingbing because of this magazine, he would be in deep trouble.

“Consider it as a gift. I’ve stored combat resources in my spatial device for half a year.” Bai Bingbing said indifferently.

“Alright, I’ll give you something too then.”

Hearing Bai Bingbing say this, Zhou Hao did not refuse.

“Oh? What do you want to give me?”

Bai Bingbing’s interest was piqued at this moment. This kind of ordinary energy bullet was not expensive.

Bang! Bang! Bang!

At this moment, Zhou Hao suddenly raised his gun and fired nine consecutive shots.

Then, nine fist-sized Golden Lantern Fruits fell from a 50-meter-tall tree.

After the plants on Planet Earth mutated, the originally tall Heaven Ascension Tree became even taller.

There were many types of Heaven Ascension Trees. For example, the Heaven Ascension Tree beside them was called the Golden Lantern Tree.

“Wow.”

Seeing that Zhou Hao had actually used an energy bullet to pick the fruits, Bai Bingbing was convinced.

These energy bullets were used to deal with the foreign races. In the end, Zhou Hao actually used them to pick fruits!

“Speaking of which, your marksmanship is pretty good.”

Although she was complaining, Bai Bingbing still approved of Zhou Hao’s marksmanship.

At this distance, if one did not have good marksmanship, one would not be able to pluck the Golden Lantern Tree’s fruits.

Originally, Zhou Hao was prepared to travel alone, but now, Bai Bingbing was following him.

Bang!

On the way, Zhou Hao kept firing. As he used his gun, he killed many foreign races with a single shot.

“The greatest benefit of a gun is that it doesn’t require blood essence energy. However, there’s also a disadvantage. It’s easy to attract the other foreign races if you cause too much commotion.”

Bai Bingbing looked at Zhou Hao helplessly. Zhou Hao had killed happily along the way, but the commotion he caused was too huge, and it quickly attracted many foreign races around.

Although the strength of these foreign races was not much, there were still a lot of them.

“Let’s run. Stop using your gun.” Bai Bingbing said with a headache.

Although they had entered the battlefield to kill these foreign races,

However, there were too many foreign races here now. It was better to leave first.

“Perfect timing.”

Zhou Hao had no intention of leaving.

“No, we still have to stay here for 30 days. Are you going to use up all your resources in a day?”

Bai Bingbing really did not know if Zhou Hao was really stupid or not. He had actually been using silver bullets along the way.

However, with the high price of the silver bullets, Zhou Hao probably did not have much.

“This is?”

Just as Bai Bingbing was thinking this, she suddenly saw Zhou Hao take out the sensory grenade.

Bai Bingbing’s first reaction was: Damn, someone really bought this thing!

However, seeing more and more low-level foreign races gathering around, Bai Bingbing could not help but be dumbfounded.

Damn! In this situation, the usually useless sensory grenade would actually be very useful!

The biggest problem with the sensory grenade was that after it exploded, it would continually increase its power.

At other times, the foreign races that had been hit would have long fled.

Now that so many foreign races were gathered together and there were more and more of them, there was no need to worry about wasting the effect.

Boom!

Indeed, at this moment, Zhou Hao attacked.

Bang!

Chi! Chi! Chi!

After an explosion, blue electric arcs immediately spread out among the many foreign races.

As the power of the lightning increased, many foreign races were directly burned to ashes.

With this sensory grenade, Zhou Hao directly entered the top hundred.

He was also the first first year student from the Seventh Elite Base to have entered the rankings.

Tip: You can use left, right keyboard keys to browse between chapters.

## Chapter 309 - Isn't This Cheating?

*Chapter 309: Isn't This Cheating?*

Swoosh!

At this moment, Zhou Hao also attacked with the second sensory grenade.

“Wow! Zhou Hao is on the rankings!”

Yun Yan, who was beside Xu Ling, said in surprise.

This time, there were a total of 21 batches from the seven elite bases. There were 40 to 50 students per batch.

Almost a thousand people entered the outer area of the battlefield, meaning that only the top 10% could get into the rankings.

“The rankings this time are really too unfriendly to us. It’s very difficult for Zhou Hao to get on the rankings.”

Xu Ling also smiled bitterly. After all, there were still the second year students.

Their talent was not inferior to theirs and they had cultivated for longer than them. These students were the true protagonists of this training.

It was not just the first year students from the Seventh Elite Base. Not many first-year students from the other six elite bases were on the list either.

“Damn, Zhou Hao’s ranking has increased again!”

Yun Yan spoke again. Zhou Hao’s points were suddenly raised by one.

“Wow, how did he do that?”

Xu Ling was also somewhat curious as to how Zhou Hao did it.

However, they did not know where Zhou Hao was at all. They could only ask him when they gathered again.

...

“Damn it!”

In another direction, Ji Yufan, who was still working hard to get on the rankings, was so furious that his face turned livid.

Zhou Hao’s points had actually soared directly. This was clearly abnormal.

Looks like luck was on Zhou Hao’s side again.

During this period of time, Ji Yufan had already thought carefully. Zhou Hao’s strength was not bad, but more importantly, he was lucky.

Most of the time, it was not that he was inferior to Zhou Hao, but that his luck was not as good as Zhou Hao’s!

Ji Yufan could not help but look at his communication bracelet again and was immediately even more displeased!

Zhou Hao had actually jumped from 99th place to 93rd!

Of course, Ji Yufan was not the only one who was shocked and displeased. Everyone on the battlefield was very focused on the rankings. For a moment, everyone’s gazes were naturally attracted to Zhou Hao.

The current situation was obvious at a glance. The hunting rankings this time were occupied by the seniors in the second year. There were no new students at all.

But now, Zhou Hao had actually killed his way out of the encirclement and reached 93rd place!

“This junior is a little impressive.”

A beautiful girl blinked her beautiful big eyes and became interested in Zhou Hao.

“Hmph! With such a sudden increase in points, it’s obvious that he’s lucky. His true strength might only be so-so.”

The boy beside the girl snorted and was very displeased with Zhou Hao.

“There are more than 300 new students this time. To be able to stand out from these people, he’s still quite impressive.”

The others relied on their guesses on Zhou Hao, and Bai Bingbing had witnessed everything with her own eyes.

Zhou Hao was really too lucky!

The sensory grenade that everyone thought was extremely useless was simply too useful at such an occasion!

Zhou Hao had only used four sensory grenades and had already killed his way into the 93rd place.

If other martial artists on the rankings knew that Zhou Hao had made the rankings like this, they would definitely be furious.

“Looks like I have to get these foreign races to work together next.”

Zhou Hao started to get excited. Although with his strength, he could still easily take first place on the rankings without relying on any special methods.

However, he was here to test his technological weapons.

If there was no need, he naturally did not need to use his strength.

“What are you doing?”

Zhou Hao had just finished processing some of the relatively good materials around him when he looked at Bai Bingbing and asked curiously.

Now, there was an additional work desk in front of Bai Bingbing.

She placed some bombs and some other chemical materials on the work table.

The Bai family behind Bai Bingbing and Bai Yanran was clearly extraordinary. Otherwise, Bai Bingbing would not have brought such a work desk with her.

“I want to modify some stuff and make a few sensory grenades.”

Some martial artists had special physiques, some martial artists had outstanding talent in cultivation techniques, and some martial artists cultivated secret techniques very quickly.

Some martial artists' talent was in weapon manufacturing.

For example, despite being a girl, Bai Bingbing could already be considered a weapon expert.

Hearing Bai Bingbing's words, Zhou Hao was somewhat surprised, but he did not disturb her and just watched quietly.

Not long after, Bai Bingbing really made a few sensory grenades.

Indeed, there were always outstanding people in every field.

"See you later, hehe."

After modifying the sensory grenade, Bai Bingbing immediately prepared to replicate Zhou Hao's success and collect points.

Looking in the direction Bai Bingbing left, Zhou Hao chuckled and did not care.

Not long after, Bai Bingbing indeed began to think of ways to attract the surrounding foreign races.

The strength of these foreign races was ordinary, but there were many of them and their intelligence was not high.

As long as she could attract all of them together, a single sensory grenade would be able to kill a large number of them!

"Shouldn't this be considered cheating?"

On the observation platform, Instructor Yang Hui and the others looked down helplessly.

Tip: You can use left, right keyboard keys to browse between chapters.

## **Chapter 310 - Accidentally, Her Points soared Again**

*Chapter 310: Accidentally, Her Points soared Again*

Because Zhou Hao's points growth was too fast and violent, Yang Hui and the others specially rushed to the nearby observation platform to check.

Only then did he know that Zhou Hao's points were obtained with technological weapons.

"Of course not."

“This is a real battlefield. No matter what technique you use, as long as you can kill the enemy, it can’t be considered cheating.”

“In fact, there is no such thing as cheating on the battlefield!”

After an instructor asked, another female instructor immediately said.

After she finished speaking, everyone nodded.

“Of course, we also didn’t expect someone to use a sensory grenade to kill these ordinary foreign races.”

“The price of the sensory grenade is not cheap. Although the results of the battle are not bad now, without the points reward, it will definitely be a loss.”

As Zhou Hao’s points were still increasing, an older instructor hit the nail on the head.

In the forest, Zhou Hao was still using the sensory grenade.

Zhou Hao had long known that Yang Hui and the instructors from the other elite bases were looking at him, but he couldn’t be bothered.

In this place, other martial artists only received two types of rewards: points and foreign race materials. However, he was different. When he killed these foreign races, his luck points were also constantly increasing.

The rate of growth was not bad!

“Eh?”

Zhou Hao’s figure that was traveling through twelfth spatial rift suddenly stopped.

His communication bracelet vibrated just now and he received the latest news.

“Seems like it’s the reward for this training.”

Zhou Hao took a look and lost interest.

His main goal in coming to the twelfth spatial rift this time was to enter the spatial rift and kill to his heart’s content.

But now, it seemed that he did not have the chance to kill to his heart’s content.

...

“Wow! Heavens, the rewards this time are actually so generous!”

Compared to Zhou Hao's indifference, the other thousand plus elite students were so excited that they were about to go crazy.

The rewards for this training had exceeded everyone's expectations!

"There are so many rewards this time!"

Xu Ling was a martial artist from a cultivation family, but at this moment, she could not help but exclaim. The rewards this time were really too generous.

"This is a joint training organized by the seven elite bases after all. Looks like the seven elite bases have really invested heavily."

Yun Yan smiled bitterly and felt very regretful.

"Sigh..."

"I don't have any hope. I wonder if Zhou Hao can get it."

Yun Yan was rather envious of Zhou Hao. However, Zhou Hao's ranking was also somewhat close to falling out now. He had already reached the 99th place.

"That's right. The martial artists in the top 100 can obtain a master-level cultivation technique and a master-level cultivation gift bag."

"This master-level cultivation gift bag basically contains all the cultivation resources of the master level. A single cultivation gift bag can create a master."

Xu Ling's words were very shocking. A master-level martial artist was very rare anywhere.

However, this master-level cultivation gift bag contained all the cultivation resources of the master level. With these cultivation resources, it meant that it was only a matter of time before one became a master.

"The master-level cultivation techniques and cultivation gift bags are still fine. With our family background, these are not very precious."

"However, if you can enter the top twenty, the rewards will be very terrifyingly powerful. The martial artists in the top twenty can obtain a grandmaster-level cultivation technique and a grandmaster-level cultivation resource gift bag!"

As Yun Yan spoke, her eyes were already shining.

Although she also came from a cultivation family, she was not a direct descendant like Xu Ling. She still had to worry about cultivation resources.

In the Yun family, there were also other descendants.

She did not have many cultivation resources at all. As a result, she yearned for these cultivation resources very much.

“That’s right. If you can get into the top three, you will even be able to obtain a supernatural cultivation technique and a cultivation resource for the lower third-grade supernatural level.”

Xu Ling also said enviously. A cultivation technique at the supernatural level and a cultivation resource gift bag at the supernatural level were also very attractive to her.

Unfortunately, the second-year students in the seven elite bases were all at the grandmaster level or even peak-level grandmasters.

Under such circumstances, Yun Yan and the others naturally did not have the slightest chance.

...

Bai Bingbing circled around Zhou Hao’s location and returned.

“Zhou Hao, let’s discuss something.”

Bai Bingbing was almost depressed to death. Her self-made sensory grenades were not as useful as Star Ring technology’s.

Its lethality was at least five times worse than the sensory grenades of Star Ring Technology.

“What is it?”

Zhou Hao was somewhat curious as to why Bai Bingbing had returned after running around.

“Sell me all the sensory grenades and points you currently have.”

“After I enter the top 100, I can lend you a copy of the master-level cultivation technique. I can also give you a third of the items in the master-level cultivation bag.”

After Bai Bingbing finished speaking, she looked at Zhou Hao expectantly..

## Chapter 311 - Turn of the Situation

*Chapter 311: Turn of the Situation*

Perhaps only Zhou Hao would be willing to buy such a strange technological weapon.

Unexpectedly, sensory grenades were very useful in this place.

“If you want it, I’ll sell it to you at the original price.”

Zhou Hao said casually. He did not need any technological weapons to kill these foreign races.

“Huh?”

Bai Bingbing was stunned. She originally thought that Zhou Hao would take the opportunity to extort her, but she did not expect Zhou Hao to be willing to sell it to her at the original price.

“Take it.”

Zhou Hao did not tease Bai Bingbing. He no longer had much interest in the sensory grenade.

Bai Bingbing was stunned for a moment and stared at Zhou Hao like he was an idiot.

She did not expect Zhou Hao to sell her the sensory grenade at the original price! He had not even extorted her!

For a moment, Bai Bingbing did not know if Zhou Hao was really stupid or not.

Or was there something fishy going on?

Bai Bingbing was suspicious for a long time, but she still could not resist the temptation of points.

No matter what, she would buy it first.

“Thank you, don’t worry. I’ll definitely return the favor. I only want to enter the top 100 because of the special cultivation technique.”

“See you later.”

Bai Bingbing quickly left. She was afraid that Zhou Hao would regret his decision.

With so many sensory grenades, the rest was much easier.

As for Zhou Hao's points, she did not say anything else.

In fact, if she had enough points to enter the top 100, she would even give all the extra points to Zhou Hao for free.

Zhou Hao did not give Bai Bingbing any points. Instead, he was so distracted that he directly forgot about it.

After Bai Bingbing ran far away, he suddenly remembered that Bai Bingbing seemed to have mentioned this just now.

"Hmm?"

Suddenly, Zhou Hao's gaze changed as he looked into the distance.

After thinking for a moment, he headed towards a small mountain in the distance.

"Previously, when they attacked the thirteenth spatial rift, they were experts from the First Team of Huaxia. This time, they have clearly changed to experts from the Second Team."

"I wonder how strong the martial artists of the Second Team are and who's leading them."

Zhou Hao thought curiously. Just a moment ago, he had sensed that a distant battle had completely erupted.

After Zhou Hao arrived at a small mountain peak, he indeed saw that on the distant battlefield, many supernatural experts had already begun to attack the foreign races fiercely.

"It's actually Heavenly King Zhu leading the team."

Zhou Hao quickly saw Zhu Zao from behind.

Now, it seemed that among the twelve heavenly kings, this Heavenly King Zhu was especially good at running errands. No matter what happened, he would be the one to handle it.

When Zhou Hao looked at Heavenly King Zhu, Zhu Zao also seemed to have sensed something and looked around.

Just now, he felt as if an expert was watching him.

However, he did not feel a particularly powerful aura from this gaze. It was really strange.

Fortunately, the battle in the twelfth spatial rift number was much smoother than the battle in the thirteenth spatial rift.

“Not bad. I didn’t encounter any powerful foreign races.”

Zhou Hao looked down with interest from the small mountain peak.

He also had a certain understanding of the strength of the Second Team.

In the Second Team, although there were no very powerful quasi Heaven Realm experts, there were very many experts at Ling Shuying’s level.

Perhaps because they could not obtain victory in quality, they could only obtain victory in numbers.

“Overall, the combat strength of the Second Team and the First Team seems to be similar.”

Zhou Hao observed quietly for a moment and felt somewhat helpless.

The twelfth spatial rift was too calm. There were no changes at all.

Under such circumstances, he naturally did not have the chance to attack.

He just did not know if there would be any changes after entering the spatial rift.

He had come for luck points and did not want to return empty-handed.

On the battlefield, the situation was good.

Many foreign races were forced to retreat by the Huaxia martial artists.

“Not good!”

“Such intense energy fluctuations. More foreign races are about to charge out!”

Suddenly, Zhou Hao frowned.

“Be careful! Many foreign races are about to charge out!”

Behind the battlefield, Zhu Zao immediately reminded.

Although Heavenly King-level experts could not participate, they could still command the battle.

However, when things were going well just now, they chased too far away and were unable to return quickly for a while.

“Ah!”

In an instant, an extremely tragic scene appeared.. The martial artists at the frontline of the battlefield were directly drowned in the beast wave attack.

Tip: You can use left, right keyboard keys to browse between chapters.

## **Chapter 312 - Suspicious Grandmaster-level Martial Artist**

*Chapter 312: Suspicious Grandmaster-level Martial Artist*

After a grandmaster was killed by a foreign race expert, his corpse was quickly stomped to pieces.

The situation just now had turned around.

Many Huaxia martial artists were being chased by the foreign races until they retreated crazily.

This time, the Huaxia martial artists were undoubtedly caught off guard by these foreign races.

“Steady!”

“Everyone, don’t panic!”

“Disperse, disperse!”

For a time, the battlefield became incomparably chaotic. Many foreign races had even broken through the defense line and began to gradually enter the rear.

Among these foreign races, some powerful individuals had been directly killed by the martial artists of the Green Cloud Division. However, there were still some relatively weak individuals that were ignored.

To supernatural experts, these weak individuals were not worth mentioning.

However, to the students who were training behind, this was simply a huge disaster.

Zhou Hao had already returned to the battlefield below and began to kill these foreign races that had broken through the blockade.

These foreign races ranged from masters to grandmasters. Because there were too many of them, it was simply too much for the martial artists to handle.

It seemed that the twelfth spatial rift was not easy to deal with either.

On the battlefield, foreign races that were like mountains and seas rushed out continuously.

After cleaning up the powerful foreign races behind him, Zhou Hao quickly closed his communication bracelet.

“Uh...”

However, just as Zhou Hao was about to close the communication bracelet, he was suddenly dumbfounded.

When he was killing the beasts just now, he did not think of the communication bracelet.

In the end, because he had killed peak-level and late-stage grandmaster foreign races, his points had soared like a rocket.

However, because the changes had happened too suddenly, no experts paid attention to this at all. Everyone was focused on killing the enemies.

However, the students from the seven elite bases were different. At this moment, they were still behind and naturally did not miss the scene of Zhou Hao's points soaring.

Everyone drew a cold breath. If anyone said that Zhou Hao did not cheat, they would not believe it even if they were beaten to death.

Zhou Hao's ranking just now was only at the 99th place. However, for some reason, since half an hour ago, Zhou Hao's ranking began to soar like a rocket.

It had already soared to first place!

Not only that, but the total points of the remaining 99 participants was not as high as Zhou Hao's. They really wanted to know what had happened to Zhou Hao in the past half an hour.

Some people felt that Zhou Hao had cheated, but some students knew that the communication bracelet could not have been faulty.

Therefore, Zhou Hao definitely did not cheat. The current situation was very likely because Zhou Hao had found some unorthodox method!

As the students were discussing Zhou Hao, Zhou Hao had already closed the communication bracelet.

According to the current situation, he definitely had to enter the core battlefield.

If he went all out and entered the core battlefield, his points on the communication bracelet would explode.

Just as Zhou Hao was about to enter the core battlefield, a weak cry for help sounded from afar.

"Save... me..."

The person who asked Zhou Hao for help was a master-level martial artist.

This master-level martial artist was already covered in blood.

Zhou Hao took a look and walked over.

In fact, this martial artist was basically hopeless. He was too heavily injured. Even if a Heaven Realm expert was willing to help, they still wouldn't be able to save him.

If he went over now, he could only help him pass on his last words.

"You're very injured. Do you have anything to say?"

After Zhou Hao walked over, he sighed lightly. It was not that he did not want to help, but that he could not do anything at this point.

"I..."

"I have some... things... help..." The master martial artist said intermittently.

"Sure."

Zhou Hao agreed and continued to listen.

“Who do you want me to transfer your things to? You can directly tell me his martial artist number.”

Zhou Hao was already prepared to record down the other party’s martial artist number.

“This is for you...”

The master martial artist raised his hand as if he was trying very hard to give something to Zhou Hao.

Zhou Hao walked over and helped the martial artist up.

“Just tell me the other party’s martial artist number. I’ll help you transfer all your items...”

Before Zhou Hao could finish speaking, the dying master-level martial artist actually exploded with his last strength.

He grabbed Zhou Hao’s wrist and punched him in the head with his other hand.

## **Chapter 313 - The Incomplete Spirit Body Of A Heaven Realm Expert**

*Chapter 313: The Incomplete Spirit Body Of A Heaven Realm Expert*

Bang!

However, this master martial artist did not expect that the person in front of him was not a newbie at the early-stage master level.

“You?”

After Zhou Hao casually grabbed him by the throat and lifted him up, this master martial artist was also completely dumbfounded.

What was going on? Why was Zhou Hao so powerful?

He was a peak-level master, and Zhou Hao was only a newbie at the early-stage of the master level. The difference in strength between the two was very huge.

“You indeed won’t live long. However, why did you think it was necessary to drag me down?”

This was the first time Zhou Hao had encountered such a situation.

If he was really only a newbie at the early-stage master level, he would be done for this time.

Unfortunately...

“Tsk tsk... Alright!”

Unexpectedly, at this moment, this master martial artist who was about to die actually sneered.

Then, an extremely terrifying mental strength fluctuation exploded from his body.

After sensing this powerful mental strength fluctuation, Zhou Hao was immediately amused.

He could already tell that there was an incomplete Heaven Realm expert’s spirit body inside of the other party.

However, it was unknown how close this Heaven Realm expert was to dying. This spirit body was also already extremely weak.

In such a state, this spirit body could not even handle a late-stage master-level martial artist, let alone take on Zhou Hao...

In the beginning, Murong Xun was very excited. He did not expect that at the moment of life and death, he would actually find an unlucky bastard like Zhou Hao.

For Zhou Hao to be able to cultivate to this level at his age, it meant that his talent was very good.

Therefore, Murong Xun did not hesitate and directly tried to possess Zhou Hao at the critical moment.

“You!”

“Why?!”

However, Murong Xun was soon completely dumbfounded!

Zhou Hao’s sea of consciousness was simply impenetrable.

This meant that Zhou Hao's mental strength was very terrifying. Moreover, this level of mental strength was already not something a master or even a grandmaster could possess.

This was not even the sea of mental strength of a supernatural expert. Although it was not at the Heaven Realm, it was still infinitely close.

Simply speaking, when he, Murong Xun, had no way out, he thought that hope had appeared, but it was actually even more terrifying despair!

"You're a quasi Heaven Realm expert!"

Murong Xun felt despair.

"I think I know who you are."

At this moment, Zhou Hao carefully looked at the spirit body in the sea of consciousness and immediately felt that it was somewhat unbelievable.

He was now the honorary president of the Supernatural Council and was also a direct martial artist of the Green Cloud Division. Therefore, he could read a lot of information.

"Murong Xun, one of the strongest Heaven Realm experts from 50 years ago. Later on, he died in the spatial rift and was shattered into pieces. The exact reason is unknown..."

Zhou Hao explained the general information regarding Murong Xun.

Although the current Murong Xun was ridiculously weak, he was still an all-powerful figure 50 years ago.

"That's all in the past. I didn't expect such a powerful quasi Heaven Realm martial artist to actually like to disguise as an early-stage master newbie."

Murong Xun's tone was filled with ridicule.

"Heh, you don't have to mock me. I don't need you to point fingers at me."

"You were once a direct martial artist of the Green Cloud Division, but before you died, the Green Cloud Division placed a bounty on you."

"The exact reason hasn't been announced, but I believe you're not a good person either. If I kill you now, I'll also be enforcing justice on behalf of the heavens."

Of course, Zhou Hao actually did not want to kill Murong Xun. Instead, he planned to imprison him.

“Hehe...”

“I simply left because our paths were different. Moreover, I’ve never done anything to let down Huaxia or the Green Cloud Division.”

Murong Xun understood that he was completely done for this time.

Not only was this guy who had captured him very powerful, but he was also a martial artist from the Green Cloud Division.

“It’s not that I have to kill you. It just depends on your performance. According to the information, I can tell that you know a lot.”

As soon as Zhou Hao said this, Murong Xun’s gaze changed slightly. He originally thought that Zhou Hao would take him back to claim credit.. Now, it seemed that Zhou Hao’s ambition was even greater than he had imagined.

## Chapter 314 - Fiery Refinement of True Gold

*Chapter 314: Fiery Refinement of True Gold*

“I do know a lot of things, but what does that have to do with you?”

Murong Xun knew that now was not the time to compromise. If he compromised now, Zhou Hao might push his luck.

“We can work together. I’ll spare your life and help you with something else.”

“As a transaction, you need to answer some questions for me.”

After Zhou Hao finished speaking, he used his mental strength to completely seal Murong Xun’s incomplete spirit body.

As long as Murong Xun made any abnormal movements, he could instantly crush him into pieces.

“Deal!”

Murong Xun pondered for a moment and agreed.

Zhou Hao was the last straw he could clutch at.

“No matter what you want to know, I’ll do my best to answer.”

“Moreover, this old man promises that even if I regain my freedom in the future, I will definitely not attack you.”

What Murong Xun needed to do now was to get Zhou Hao to be on his side. As long as he could survive, he would have plenty of opportunities to deal with Zhou Hao in the future.

“Your information says that you are a genesis rune master. Do you know any genesis runes?”

Zhou Hao probed.

This was what he had seen in the Green Cloud Division’s database. He did not know if it was right.

“I am naturally a genesis rune Master. There are almost no other genesis rune masters on Planet Earth that are more powerful than me.”

Murong Xun was extremely proud of this.

In his era, no one could compare to him in the path of genesis runes.

Even after so many years, Murong Xun did not feel that there was anyone on Planet Earth who was more powerful than him in the path of genesis runes.

“Tell me, how do we create genesis runes?”

Zhou Hao felt that he was really lucky to have met this man. A while ago, he was still frustrated about not being able to figure out these things. Now, he had actually met a Heaven Realm old demon.

“If you want to create genesis runes, you have to learn genesis rune symbols first. If you want to learn genesis rune symbols, you have to learn genesis rune engravings first.”

Murong Xun guided Zhou Hao patiently in his sea of consciousness.

He had no choice now and could only work with Zhou Hao.

If he cooperated with Zhou Hao, he still had a chance of survival. If Zhou Hao handed his spirit body to the Green Cloud Division, he would be dead for sure.

Although he did not let down Huaxia or the Green Cloud Division, he still did something he shouldn't have done.

"Keep talking."

As Zhou Hao paid attention to the battle, he used his mental strength to seal Murong Xun's spiritual body.

If Murong Xun dared to play any tricks, with a thought from him, Murong Xun would be annihilated.

The master martial artist said intermittently. "Learning genesis rune engravings is basically like learning the words of a language. Back then, I was also wanted by the Green Cloud Division because of this."

Zhou Hao did not communicate with this Heaven Realm expert's spirit body for long before moving to the frontline of the formation.

At this moment, his expression was also constantly changing.

A moment later, he turned into President Zhou.

"So it's you!"

Murong Xun was now completely dumbfounded. No wonder he had failed this time. So the so-called Senior Zhou was actually Zhou Hao!

Zhou Hao chuckled and did not say anything.

In any case, now, Murong Xun's spiritual body was trapped in his sea of consciousness. He could do whatever he wanted.

"Eh, why are you here?"

Seeing Zhou Hao's figure appear not far away, the worried Heavenly King Zhu finally heaved a sigh of relief.

Although the Green Cloud Division had always advocated for a backup plan. Thus, aside from nurturing Zhou Hao and the other elite experts, they also nurtured a Second Team.

Unfortunately, the Second Team's comprehensive ability was not necessarily inferior to the ability of the First Team.

The biggest problem for the Second Team was that they did not have someone like Zhou Hao. Otherwise, it would not have been like this.

“I was just passing by and saw that the situation had gotten out of control, so I came over.”

Of course, Zhou Hao would not say that he had always been there and just didn’t find an opportunity to participate.

“Should I help stabilize the situation first?”

Zhou Hao looked at Zhu Zao and asked. He did not know if Zhu Zao wanted to train his men or resolve the problem.

“Let’s wait a little longer!”

After thinking for a moment, Zhu Zao still made up his mind.

“After all, true gold needs to go through fiery refinement. Usually, the cultivation conditions are too good and the cultivation environment is too gentle. Over the years, the number of experts born has decreased.”

When Zhu Zao said this, his tone was filled with loneliness and worry.

In the battle between Planet Earth and the foreign races, sacrifices were inevitable. If they cowered because they were afraid of sacrifices, the entire Planet Earth might have been destroyed long ago.

If Zhou Hao took action, he could naturally stabilize the situation. In that case, the operation this time would be meaningless. The sacrifices from before and now would also be in vain!

“Yeah.”

After Zhu Zao made up his mind, Zhou Hao also waited quietly by the side.

“Is this the fate of martial artists?”

Looking at the battlefield in front of him, Zhou Hao could no longer hold back and wanted to attack.. There were martial artists who were severely injured, martial artists who had almost died, and martial artists who had already been killed by the foreign races.

## Chapter 315 - 5: Invincible!

*Chapter 315: Invincible!*

“Let’s wait a while longer. After all, it’s still a fair battle.”

Zhu Zao was somewhat disappointed. Just now, when the situation was good, these martial artists were each more powerful than the last. However, after a small change occurred, the many martial artists on the battlefield were immediately somewhat exhausted. Even the direct martial artists of the Green Cloud Division couldn’t help but feel tired.

“There might be other ways to nurture experts.”

In the beginning, Zhou Hao felt that what Zhu Zao said made sense.

Without life and death training, it was very difficult for a martial artist to become an expert step by step.

However, Zhou Hao now felt that what Zhu Zao proposed was only one of the solutions, but it did not mean that there was no other way.

“What are you going to do?”

At this moment, Zhu Zao was suddenly stunned because Zhou Hao had already walked towards the battlefield.

“I’m going to save them. Life and death training is indeed a very good idea. However, I believe that nurturing experts shouldn’t cost so many lives...”

With that said, Zhou Hao also turned into a green streak of light and rushed towards the battlefield.

“Hmm... This aura?”

After Zhou Hao got off the stage, many martial artists were first stunned before revealing ecstatic expressions.

“That’s right, that’s right. This aura definitely belongs to President Zhou!”

On the twelfth battlefield, the low morale had already begun to gradually rise.

Many martial artists were very excited at this moment. The other martial artists did not know everything about Zhou Hao, but they still knew a little.

Previously, on the thirteenth battlefield, Zhou Hao's performance was very dazzling.

Just now, everyone was still somewhat despairing and pessimistic, feeling that their mission was going to fail this time.

But now, after Zhou Hao personally joined the battle, many martial artists felt that their confidence had increased a lot.

After Zhou Hao joined the battle, he also killed his way into the many foreign races.

Bang!

After he punched out, he immediately shattered a group of foreign races below.

"Damn! Why is he so powerful?"

Many martial artists here had never fought alongside Zhou Hao before. Now, seeing Zhou Hao attack, many martial artists were directly dumbfounded.

"One punch and he already killed a large number of them. Is this the strength of the legendary strongest quasi Heaven Realm martial artist?"

Waves of shock surged in the hearts of some martial artists. Their gazes as they looked at Zhou Hao were very respectful.

When they fought these foreign races, not to mention killing a large group with a single punch, even killing one with a single punch was not easy.

"Demonic Wood Palm!"

Now that he had decided to join the battle, Zhou Hao naturally did not hide anything.

After entering the battlefield, they directly opened fire and began to kill in all directions.

Luck points+125...

Luck points+2,200...

Luck points+3040...

As Zhou Hao killed everyone, he checked his luck points.

This luck points was the foundation of his life. He could choose not to receive any rewards, but he had to have as many luck points as possible.

“President Zhou is mighty!”

“How impressive, President Zhou!”

“President Zhou is mighty and domineering. He’s invincible!”

As Zhou Hao fought left and right on the battlefield, many martial artists behind also shouted continuously.

The reason why the situation here had fallen into chaos just now was firstly because everyone had been caught off guard. Secondly, although there were powerful martial artists among those on the battlefield, there were still no martial artists who were powerful to the extent of being able to change the whole situation.

Rumble!

Bang! Bang! Bang!

At this moment, Zhou Hao’s figure kept flashing on the battlefield. Wherever he passed, many foreign races were naturally easily killed by him.

At this moment, Zhou Hao did not compete with the others for the low-level foreign races. Instead, he focused on finding the powerful foreign races on the battlefield.

“Eh?”

Half an hour later, after some supernatural experts finished off their opponents, they were suddenly dumbfounded.

After the chaos just now, countless terrifying foreign races had disappeared.

Thick smoke surged on the battlefield. Many places were filled with the corpses of foreign races, and they were all scattered.

Bang!

As many supernatural martial artists searched around, they also saw Zhou Hao’s figure in the distance.

At this moment, Zhou Hao was still chasing after the last few powerful foreign races.

Zhou Hao did not hesitate at all. After punching out, the foreign race not far from him was directly shattered into pieces.

Seeing this scene, many supernatural experts naturally knew that the scattered foreign race corpses were destroyed by Zhou Hao.

“President Zhou is so powerful!”

At this moment, everyone had the same thought.

More than half and almost two thirds of the high-level foreign races had all been killed by Zhou Hao alone.

“As expected of President Zhou. Looks like the rumors are true!”

“They all died just like that?”

In the distance, Zhou Hao was immediately dumbfounded after killing the last foreign race expert.

Just now, he felt that there were still many foreign races here. What was going on now?

Tip: You can use left, right keyboard keys to browse between chapters.

## Chapter 316 - Spirit Body Clone!

*Chapter 316: Spirit Body Clone!*

However, Zhou Hao did not think too much about it. All he needed to do was kill all the foreign races here.

“Clear the remaining enemies on the battlefield and save lives!”

After the battle ended, Zhu Zao’s voice was heard.

After hearing this voice, everyone present felt relieved.

This time, a major change occurred in the twelfth spatial rift. This change did not match the previous intelligence at all. Their mission this time might even come to an end.

“How do you feel?”

On the city tower of the twelfth defense line, many medics had already started to treat the injured.

Everyone was very grateful to Zhou Hao for this battle.

If not for Zhou Hao, even if they gave up the mission, there would still be very large casualties.

“This fellow is really ridiculously strong!”

An expert from the Green Cloud Sect looked at Zhou Hao and said as he recovered from his injuries.

In the battle just now, ordinary warriors and ordinary supernatural experts could not afford to pay attention to the battle on Zhou Hao’s side. However, these supernatural experts that were direct subordinates of the Green Cloud Division were all very strong.

Although they were not as powerful as Zhou Hao, they still could pay attention to him when they were fighting the foreign races just now.

As many martial artists and the supernatural experts of the Green Cloud Division were discussing and praising Zhou Hao, Zhou Hao had already appeared beside Zhu Zao.

“Brother Zhu, what do we do next?”

Zhou Hao looked at his luck points with his mental strength as he spoke to Zhu Zao.

Now, his luck points had already reached more than 70 million. If he continued to fight and even killed his way into the twelfth spatial rift, it would not be a problem for him to accumulate 100 million luck points.

“According to our original plan, after half a day of rest, we will continue to attack the entrance of the spatial rift. Then, like in the thirteenth spatial rift, we will move the battlefield into the spatial rift.”

Zhu Zao told Zhou Hao about everything. After all, this information was not confidential.

Zhou Hao nodded when he heard this. There were many benefits to moving the battlefield into the spatial rift.

If they were said to be defending an ocean previously, after moving the battlefield, they basically only needed to defend a narrow river now.

After building a defensive city here, they could immediately achieve the effect of holding back ten thousand enemies with a single man.

“Then should we continue to attack?”

Zhou Hao looked at his 70 million luck points and expressed that he hoped to continue fighting and harvest luck points.

“We have to investigate the situation in the spatial rift. Otherwise, if we enter the spatial rift to fight, it will be very dangerous if anything unexpected happens.”

“After we figure out the situation in the spatial rift, we’ll continue with the next step of the plan.”

Just now, when he was standing on the sidelines to let the troops train, Zhu Zao had been keeping a watchful eye on the entire situation. If there were any moldable geniuses who were close to dying, he would naturally think of a way to help.

However, once he entered the spatial rift, he would be completely helpless.

When a Heaven Realm expert entered and left the spatial rift, because the energy fluctuations they had were too great, the entire spatial rift entrance would tremble violently and even collapse.

Therefore, it was not very easy for a Heaven Realm expert to enter and leave the spatial rift.

Not only did they have to enter and leave through a specific spatial rift, but they also had to pay attention to the time.

“I’ll go in and take a look now.”

After hearing Zhu Zao finish, Zhou Hao immediately decided to go in and take a look.

“No, this is too dangerous. The situation in the twelfth spatial rift is clearly much more complicated according to the information we have.”

Zhu Zao shook his head. At this moment, he did not want Zhou Hao to take the risk.

However, if this operation was canceled, then the sacrifice just now would not be worth it.

Moreover, after this operation was canceled, it would also affect Huaxia’s subsequent plans.

Just now, when Zhou Hao was fighting the foreign races, Zhu Zao had already seen that Zhou Hao’s strength had improved very quickly under the continuous battles.

If this continued, Zhou Hao would definitely be closer and closer to a Heaven Realm expert, reaching the limit of the strongest quasi Heaven Realm.

“In this case, bring this in. If anything happens, crush this spirit body clone.”

After thinking for a moment, Zhu Zao handed something that looked like a miniature crystal statue to Zhou Hao.

“This is...”

Zhou Hao looked at the crystal figurine in his hand and found it very interesting. This crystal figurine looked almost the same as Zhu Zao.

Just now, Zhu Zao had also said that Zhou Hao really did not know what a spirit body clone was.

“This is my spirit body clone. Heaven Realm experts can solidify their spirit bodies and refine them into this special spirit body clone.”

“This spirit body clone can unleash the full strength attack of a quasi Heaven Realm martial artist. As long as you’re not dealing with Heaven Realm experts, it can save your life.”

After Zhu Zao explained, Zhou Hao immediately understood what it was.

“Thank you, Brother Zhu.”

Zhou Hao was very happy at this moment. With this, it was equivalent to having an additional life-saving talisman.

However, Zhu Zao was too stingy. He actually only gave him one spirit body clone. In the previous battle in the thirteenth spatial rift, he did not even give him a single one.

“Do you think this thing is like cabbage?”

“With my strength, I can only refine four such spirit body clones in a year.”

“Compared to you martial artists living outside the spatial rift, the martial artists living in the spatial rift need this spirit body clone even more. Therefore, my spirit body clone will also be sent into the spatial rift first.”

As if seeing through Zhou Hao’s thoughts, Zhu Zao also said speechlessly.

Tip: You can use left, right keyboard keys to browse between chapters.

## Chapter 317 - Junior, Heres Your Chance

*Chapter 317: Junior, Here's Your Chance*

If such a spirit body clone was as common as cabbage, the thirteen spatial rifts would have long been cleared.

After Zhu Zao explained, Zhou Hao naturally did not continue to argue about Zhu Zao being petty.

“Something's not right!”

Soon, Zhou Hao thought of a problem that was even more serious than Zhu Zao's stinginess.

That was, if Zhu Zao could give him this kind of killing weapon, then the foreign race experts could also give something like this to other foreign races.

It had to be known that this thing was equivalent to the full strength attack of a peak-level quasi Heaven Realm expert.

Even the current him would lose a layer of skin if he was hit head-on.

“Brother, can those foreign race experts also condense such a spirit body clone?”

At this moment, Zhou Hao only felt that he was lucky. Previously, when he was weak, he had not encountered any foreign races with such a spirit body clone. Otherwise, he would not have known how he died.

“Didn't I tell you that condensing such a spirit body clone is very difficult?”

“The foreign races that appear on the frontline battlefield are all ordinary foreign races. Their statuses are very low, and they almost don't have any spirit body clones.”

Zhu Zao looked at Zhou Hao speechlessly. Did he really think that such a spirit body clone was so easy to make?

“Should I enter the spatial rift to investigate now?”

Zhou Hao nodded. Although Zhu Zao was a little scammy, what he said now still made sense.

“After you enter the spatial rift, you should focus on investigating. Don’t attack. The sudden appearance of so many foreign races at once means that something must have happened in the spatial rift.”

Zhu Zao had also cultivated step by step back then. Although he could not casually enter the spatial rift now, he was very familiar with everything in the spatial rift.

“Does that mean that something happened in the spatial rift?”

Zhou Hao actually did not know much about the spatial rift. In his opinion, the sudden appearance of so many foreign races was only because many foreign races had gathered in the spatial rift.

“Something must have happened, but there are no very strong Heaven Realm energy fluctuations. If you go in now, you will at most encounter a lower third-grade or intermediate third-grade Heaven Realm expert. You won’t encounter an upper third-grade or super third-grade Heaven Realm expert.”

Zhu Zao’s words were completely to scare Zhou Hao because he realized that Zhou Hao seemed to never know fear.

“Could there really be a Heaven Realm expert?”

Zhou Hao was somewhat dumbfounded at this moment. Although he had never fought a Heaven Realm expert, judging from the various information, the difference between a Heaven Realm expert and a supernatural martial artist was definitely not small.

In the end, the strongest quasi Heaven Realm expert was still an extremely powerful supernatural martial artist and not a true Heaven Realm expert.

“Not usually, but under special circumstances, we will still encounter lower third-grade Heaven Realm experts.”

This time, Zhu Zao was not joking. This was because he had almost died in the hands of a Heaven Realm expert back then.

“Alright, I understand.”

“Can this thing stop a Heaven Realm expert for a while?”

After Zhou Hao nodded, he took out the spirit body clone Zhu Zao had given him.

“Not a while. At most, it will buy you a few breaths’ worth of time. Go on, be careful.”

Zhu Zao was also helpless at this moment. As the saying goes, a slight change will affect the entire situation.

The combat plan of the twelfth spatial rift and the combat plan of the thirteenth spatial rift were completed at almost the same time.

After these two combat plans, there were more related combat plans to come.

Therefore, at this moment, if Zhou Hao did not enter the frontline spatial rift, he could only let other martial artists enter the frontline spatial rift to explore.

Compared to the others, Zhou Hao's strength was superior and he was also unofficially the strongest quasi Heaven Realm expert. Only he was qualified to take on this mission.

When Zhou Hao went to the frontline spatial rift, he restrained his aura. As he walked, no one noticed him at all.

Not only were there no human martial artists, but even the foreign races did not sense anything.

At this moment, under the envelopment of the wood-element energy, Zhou Hao was like a plant that was very difficult to capture with the mental strength of an expert.

"Tsk tsk, junior, here's your chance."

As Zhou Hao approached the twelfth spatial rift, Murong Xun suddenly spoke in his sea of consciousness.

Murong Xun was once a top-notch Heaven Realm expert in Huaxia. As soon as this old fellow spoke, Zhou Hao immediately kept his guard up.

Although Murong Xun was currently very weak and could basically not stir up trouble,

However, facing such an old monster, Zhou Hao had to be extremely cautious. Otherwise, if he was careless, he might easily fall into Murong Xun's trap.

"What chance?"

As Zhou Hao was carefully guarding against Murong Xun, he also asked curiously. He did not want to miss any treasures if Murong Xun happened to know their locations. If he happened to miss it, he would be at a huge loss.

"My spirit body fragment is not far from this spatial rift."

"Find this and fuse it with my current spirit body fragment. I can also provide you with greater help."

Murong Xun said very seriously. His current spirit body fragment was very weak, and he could not even say much.

As for the other matters, there was even less to think about.

“That’s it?”

Zhou Hao originally thought that there would be a huge benefit waiting for him, but he now realized that he was wrong.

This matter might not be beneficial to him at all. Instead, it might even be detrimental!

## Chapter 318 - Reckless

*Chapter 318: Reckless*

“Senior, this doesn’t seem to be good for me. If you fuse with another spirit body fragment, I might not be able to suppress your spirit body fragment.”

Zhou Hao had already entered the twelfth spatial rift. At the same time, he used his mental strength to communicate with Murong Xun.

During this period of time, he had already checked most of Murong Xun’s information and knew how terrifying this guy was.

Murong Xun had almost become the Minister of the Green Cloud Division. In the Green Cloud Division, he was even known as the Martial Dao Encyclopedia.

“Chi! Even if I fuse a hundred of such spirit body fragments, you can still suppress me.”

“In addition, if you can find this fragment of my spirit body, I can guide you to find a treasure.”

Now, Murong Xun already understood that Zhou Hao was also someone who did not act rashly.

If he wanted Zhou Hao’s help, he had to give him some benefits. Moreover, he couldn’t just give him ordinary benefits.

“What treasure?”

Indeed, after Murong Xun said this, Zhou Hao immediately became interested.

“It’s a bow that the Green Eagle King used many years ago. I’m not sure if it’s still there.”

Murong Xun pondered for a moment before speaking.

Although Zhou Hao was a person who was unwilling to help until he got what he wanted, he was not the kind of person to still be unwilling to help after receiving benefits.

If Murong Xun cooperated with Zhou Hao this time, Zhou Hao would be willing to consider his request.

“Where is the Green Eagle Bow? Moreover, how can I be sure that Senior will still be harmless to me after fusing with the second spirit body fragment?”

Zhou Hao was deliberately asking this question. In fact, he knew that at present, Murong Xun merging five to six spirit body fragments was harmless to him.

In addition, Murong Xun was already under his control. After he obtained the other spirit body fragments of Murong Xun, he could completely stop Murong Xun from fusing. Or, he could wait until he reached the Heaven Realm before letting Murong Xun fuse.

“Why do you need to ask such questions? Can’t you tell if it’s harmful to you if I fuse with another spirit body?”

Murong Xun snorted coldly. Zhou Hao was reliable and cautious. No wonder he was able to cultivate to his current level at his age.

“Senior Murong, If you’re going to be a good person, be a good person until the end.”

“Why don’t you teach me how to completely restrict Senior’s mental strength? This will be good for both Senior and me.”

“For example, I don’t want you to be unable to sense the changes in the outside world.”

“I guarantee that after breaking through to the third-grade Heaven Realm, I will immediately let Senior go free and will definitely not go back on my word.”

The so-called upper third-grade Heaven Realm was the level between the seventh level Heaven Realm and the ninth level Heaven Realm.

Zhou Hao's foundation was extremely compact and stable. After he broke through to the upper third-grade Heaven Realm, he would definitely be able to defeat Murong Xun.

"Senior, what do you think?"

Zhou Hao also knew that Murong Xun most likely would not agree. However, he was simply saying this as part of his negotiation tactic.

"Let's discuss this again."

Murong Xun did not agree or refuse.

"Hmph! I don't know how long it will take for this kid to cultivate to the upper third-grade Heaven Realm. I should stabilize him first and make plans in the future."

Murong Xun snorted coldly in his heart. He would definitely not agree to Zhou Hao's suggestion.

He was only doing this to stabilize Zhou Hao.

Zhou Hao did not continue to mention this matter. He knew that it was clearly not the time to talk about this.

"Senior, which direction should we go?"

After retracting his aura and entering the twelfth spatial rift, Zhou Hao immediately asked.

"Let's go to the rightmost spatial rift. We'll resolve it quickly if we encounter any obstacles. Don't cause any trouble."

"Try to get closer first. I'll see if I can sense if the Green Eagle Bow is still there."

"If the Green Eagle Bow is still here, we can spend three to five days the next time we enter the spatial rift to retrieve the Green Eagle Bow."

When he mentioned the Green Eagle Bow, Murong Xun was clearly somewhat excited.

"Can't I just get the Green Eagle Bow this time?"

As Zhou Hao transmitted his voice to Murong Xun, he had already punched out with his fists.

As he attacked with his fists, a muffled bang sounded from a huge Insect Race being.

With this muffled sound, this huge Insect Race expert also fell to the ground and was directly killed by Zhou Hao.

“Chi, you really don’t have any experience surviving in the spatial rift. Without sufficient resources, it is very dangerous for human martial artists to travel around in the spatial rift.”

“This is especially true for those below the Heaven Realm, the pure and overly violent essence energy in the spatial rift can’t be constantly absorbed and used.”

Murong Xun chuckled. Zhou Hao was completely unprepared this time and still wanted to stay in the spatial rift for so long.. He was simply courting death.

Tip: You can use left, right keyboard keys to browse between chapters.

## **Chapter 319 - Where Is The Spirit Body Fragment You Were Talking About?**

*Chapter 319: Where Is The Spirit Body Fragment You Were Talking About?*

“I can’t use the Heaven and Earth essence energy here for long?”

Zhou Hao was stunned. He really did not know about this.

In the beginning, Zhou Hao thought that the cultivation environment in the spatial rift was very good. However, it was relatively dangerous, so he could not casually enter the spatial rift to cultivate.

Only now did he know that the Heaven and Earth essence energy in the spatial rift could not be easily used.

“It’s not that the Heaven and Earth essence energy in this place can’t be easily used. It’s just that the Heaven and Earth essence energy in most areas is too violent and is very corrosive to the meridians.”

“Back then, many supernatural martial artists had their meridians injured and it became very difficult for them to break through to the Heaven Realm.”

“The places in the spatial rift are divided into two categories. One is the cultivation area, and the other is the warning area.”

Murong Xun was once one of the strongest Heaven Realm experts and knew these things very well.

One of the reasons why Zhou Hao had trapped Murong Xun was because he wanted to quickly understand these things through him.

As the saying goes, having an elder at home is like having a treasure. At this moment, Murong Xun's huge value was displayed.

“What is a cultivation area? What is a warning area?”

Zhou Hao followed Murong Xun's guidance and advanced carefully. At the same time, he continued to communicate with Murong Xun via voice transmission.

“The cultivation area is a suitable place for cultivation. Many Heaven Realm experts on Planet Earth are gathered here.”

“All the other areas outside the cultivation area are called warning areas. These places are not suitable for cultivation. Even if you have to stay in these areas for a long time, you absolutely cannot recklessly refine the Heaven and Earth essence energy to replenish your essence energy.”

Murong Xun was somewhat surprised and praised.

Zhou Hao was not old, but his foundation was incomparably firm and his strength was incomparably powerful.

Not only was he powerful, but he was also bold and meticulous. It was impossible for such a martial artist not to be powerful.

What Murong Xun did not know was that Zhou Hao actually had enough cultivation resources on him.

Even if he could not find the suitable cultivation areas here, he could still use his rare-level Energy Bar to recover his losses.

“Wait.”

After Zhou Hao passed through the spatial rift for a while, Murong Xun suddenly stopped him.

“Did you sense the Green Eagle Bow?”

Zhou Hao asked curiously. The Green Eagle Bow was Heavenly King Green Eagle's weapon.

Although this Heavenly King Green Eagle was not a ruthless person like Murong Xun, he was still definitely one of the very powerful experts!

In the Green Cloud Division's dossier, this Heavenly King Green Eagle was also a very important figure.

"I never said that'."

In Zhou Hao's sea of consciousness, the tiny Murong Xun shook his head.

"I sensed another fragment of my spirit body. Help me get it."

"Now, the daily conversation between you and me is extremely draining for me. If you don't get any replenishment for me, I'll soon disappear on my own."

"Quickly get this spirit body fragment for me."

Murong Xun knew that it was absolutely as difficult as ascending to the heavens to get Zhou Hao to do this.

However, he had finally encountered a fragment of his spirit body. If he did not collect it and fuse with it, he would naturally be annoyed.

"Sure. As long as Senior Murong teaches me how to completely control Senior Murong, I will definitely help you get what you want." Zhou Hao thought for a moment and said.

At the same time, he was somewhat surprised. He had not expected that there would be a fragment of Murong Xun's spirit body here.

"I can open my mind and let your mental strength enter my mental body."

"In this way, if I make any abnormal movements, you can instantly injure my spirit body. How about that?"

Murong Xun was also a ruthless person. At this moment, he also felt that he was putting everything on the line.

Without Zhou Hao's help, it would be very difficult for him to recover. Now that he was unable to negotiate with Zhou Hao, he might as well let Zhou Hao gain some benefits.

"Sure."

Zhou Hao was delighted. Indeed, Murong Xun did have such methods.

However, he did not know how long he could control Murong Xun with such a method.

After Murong Xun opened his mind, Zhou Hao also injected his mental strength into Murong Xun's spirit body.

After doing this, he felt like he could do whatever he wanted.

At this point, as long as he was willing, he could kill Murong Xun at any time.

"Senior Murong, where is the spirit body fragment you mentioned?"

At this moment, Zhou Hao was completely relieved. As long as he could control Murong Xun's spirit body, the stronger Murong Xun was, the better it was for him.

Of course, he wouldn't let Murong Xun become too powerful and lose control of him completely.

Tip: You can use left, right keyboard keys to browse between chapters.

## Chapter 320 - Iron Bone Bear King

*Chapter 320: Iron Bone Bear King*

"Senior Murong, Heavenly King Zhu previously said that some kind of mutation has happened here. Can you tell what happened here?"

Zhou Hao had not forgotten the important matter of entering this place. However, after observing for a long time, he did not discover anything wrong with this place.

"There are no abnormalities. It's very normal in the spatial rift."

Murong Xun was experienced and knowledgeable. Now that Zhou Hao asked, his tone was also very disdainful.

"The density of the Heaven and Earth essence energy in the spatial rift is not constant. Instead, it changes regularly."

"Many foreign races will migrate with the Heaven and Earth essence energy."

“If you sense carefully, you will discover that the surrounding Heaven and Earth essence energy is slowly moving in a direction.”

After hearing Murong Xun say this, Zhou Hao indeed began to quietly sense it.

A moment later, Zhou Hao nodded. Murong Xun was really not talking nonsense. It was entirely their bad luck that so many foreign races had appeared in the twelfth spatial rift.

As everyone was prepared to attack the twelfth spatial rift, the rich Heaven and Earth essence energy kept moving towards this area, causing many foreign races that followed the Heaven and Earth essence energy to move over.

Just like on Planet Earth, some birds would migrate with the seasons, these foreign races were clearly the same.

“Senior Murong, how long will such a situation usually last?”

Zhou Hao continued to ask. Since Murong Xun knew about these things, there was no need for him to investigate. After he went out, he just had to tell Zhu Zao everything Murong Xun had told him.

“It’s usually hard to tell. It usually takes three to five months.”

“Most of these foreign races will migrate with the Heaven and Earth essence energy. The Heaven and Earth essence energy will also not stop here. In three to five days, the number of foreign races here will return to normal.”

Murong Xun had also heard the conversation between Zhou Hao and Zhu Zao previously. Therefore, he also told Zhou Hao what he wanted to know.

“Thank you for your guidance, Senior Murong.”

Hearing Murong Xun say this, Zhou Hao’s mood immediately relaxed.

If it was only three to five days, it would not affect Huaxia’s grand strategy.

“We’re here, but...”

After Murong Xun guided Zhou Hao for a while, he also made Zhou Hao stop.

Not far away, there was a huge Iron Bone Bear King. On its neck was a necklace. Murong Xun’s spirit body fragment happened to be an accessory on this necklace.

“What a powerful aura.”

Zhou Hao looked at the Iron Bone Bear King lying on the ground in the distance and felt that this guy was definitely very difficult to deal with.

“This is an Iron Bone Bear King that has half a foot in the Heaven Realm. You’re not its match. Let’s go.”

Although Murong Xun wanted to recover very much, he was also very decisive when he saw the other party.

After discovering that it was an Iron Bone Bear King, he directly let Zhou Hao leave.

The outcome of the battle between Zhou Hao and the Iron Bone Bear King was either Zhou Hao dying at the hands of the Iron Bone Bear King or Zhou Hao escaping with serious injuries. In the latter case, Zhou Hao’s injured aura would be sensed by the other powerful foreign races and he would eventually be besieged and killed by these powerful foreign races.

Now that he had reached an agreement with Zhou Hao, he naturally did not want Zhou Hao to die so easily.

“I think we can try it. After all, it’s on its necklace. And that necklace is only an accessory.”

Zhou Hao did not leave immediately. Instead, he began to think about how to obtain the Iron Bone Bear King’s necklace.

“I advise you not to have such thoughts. Look at its fur color.”

Just as Zhou Hao was thinking about the Iron Bone Bear King, Murong Xun also reminded Zhou Hao to look at its fur color.

“This is...”

On careful look, Zhou Hao immediately discovered that the Iron Bone Bear King’s hair was originally black. However, now, silver hair had appeared in the black.

This meant that the bloodline of this Iron Bone Bear King was very pure. At this moment, this Iron Bone Bear King was in the middle of becoming a Silver Bone Bear King!

“What a pity!”

Seeing this, Zhou Hao immediately felt that it was a pity.

Previously, he had a Beast Control Ring on him. If he had not used the Beast Control Ring at that time and instead used it here, he would have immediately obtained a Silver Bone Bear King.

A demon beast like the Iron Bone Bear King that could become a Silver Bone Bear King would eventually become a Golden Bone Bear King.

If he had a Golden Bone Bear King as a mount, he would definitely be able to sweep through the thirteenth and twelfth spatial rifts!

“This guy likes to collect treasures. I think we can give it a try.”

Thinking of this, Zhou Hao immediately took out many gems from his spatial device.

These things were obtained from opening the mystery box previously. They were not worth much, but now, he could give it a try.

Click!

As the Iron Bone Bear King was still fast asleep, many beautiful gems flew in front of it.

Hearing the sound, the Iron Bone Bear King also slowly opened its eyes.

After seeing the many beautiful gems in front of him, the Iron Bone Bear King was immediately happy.

Under Murong Xun's dumbfounded gaze, this Iron Bone Bear King actually really picked up the gem on the ground and replaced it with the gem on its necklace.

Coincidentally, Murong Xun's spiritual body fragment was also directly given up by the Iron Bone Bear King.
