

Starting With One Million Luck Points

Chapter 351 - Working Together

Chapter 351: Working Together

The seven elite teams charged in directly, and roars immediately filled the sky!

A master-level beast was very powerful. Ordinary masters could not compare to it, let alone their six-man team!

Zhou Hao understood this, so he naturally had to work with everyone. Only in this way could there be a glimmer of hope!

As soon as they entered the battlefield, they arrived at their corresponding positions. Zhou Hao and Xu Ling rushed out directly. Zhang Yi followed closely behind, forming a triangle. Yuan Cheng looked at everyone and hurriedly interfered if he discovered anyone was in danger. Yun Yan led the entire situation and watched all the mutated beasts and their movements.

As for Fang Yu, she held a lethal weapon in her hand and also found the right opportunity to heavily injure the mutated beast.

They did not have much mist, so they had to use it wisely!

Xu Ling's body was very powerful. She circulated her cultivation technique and emitted a threatening cold aura. With a wave of her hand, she directly sprinkled dense white mist to interfere with the vision of these mutated beasts.

Although mutated beasts were powerful, they were still mutated beasts and did not have much intelligence. They also did not know how to fight and only knew how to use brute force.

Xu Ling's Ice Muscle Body happened to interfere with their vision. The white fog she created was also very beneficial for Zhou Hao and the others. They could directly capture the movements of these mutated beasts according to their auras!

At the master level, it was already very easy for them to capture the enemy's aura. Moreover, these mutated beasts did not know how to hide their killing intent at all. Even if they closed their eyes, they could still find it.

Xu Ling took the lead and directly unleashed her powerful cultivation.

Although she had become a master, her lethality was still not enough for her to instantly kill these master-level beasts. Therefore, at this moment, Zhou Hao and Zhang Yi attacked!

Zhou Hao directly took out his long saber and used the Shadow Seven Sabers. Of course, it was impossible for him to use his quasi Heaven Realm cultivation. Instead, he deliberately suppressed his cultivation at the master level.

However, even so, the Shadow Seven Sabers was still very powerful. His compatibility with this cultivation technique was 100%, and his combat strength was outstanding when he used it.

Zhang Yi had already entered the master level during this period of time and his blood essence was also extremely powerful. Although Zhou Hao did not know what cultivation technique Zhang Yi cultivated, he was still extremely shocked to see him being incomparably valiant.

He thought to himself that Zhang Yi had indeed not wasted his time. Among these people, other than him, Zhang Yi had improved the most!

Under Xu Ling's attack, Zhou Hao and Zhang Yi hurriedly followed. Zhou Hao was very agile. With his quasi Heaven Realm cultivation, these masters were just like ants. Not to mention scheming against them, even if Zhou Han stood here and let them fight for a few hours, they still wouldn't be able to break through Zhou Hao's defense.

Zhou Hao's Shadow Seven Sabers drew a cold sharp beam in the air. As soon as it landed, several mutated beasts were immediately killed.

Zhang Yi also shattered two mutated beasts.

As for Xu Ling, under Zhou Hao and Zhang Yi's feints, the lethality she unleashed was even greater. It enveloped more than ten mutated beasts, and the three of them directly exploded with their full combat strength. These dozen or so mutated beasts were directly beheaded and could not be any more dead!

Seeing this, Xu Ling and the others had happy expressions, thinking that Zhou Hao's arrangement was indeed effective.

Bai Linglong also saw this and could not help but nod. The six of them were not the most powerful people in the elite team, but the combat strength they erupted with could not be underestimated!

It was even to the extent that her absolutely most powerful team had only killed five mutated beasts at this moment, and they had already jointly killed more than ten!

“These little guys are quite interesting, especially Zhou Hao. I heard that he’s the disciple of that detestable President Zhou. He sure lives up to President Zhou’s reputation.”

When Bai Linglong mentioned President Zhou, she also gritted her teeth. Fortunately, her relationship with President Zhou was not exposed, and only the two of them knew about what happened.

However, at the thought of the two of them being exposed in front of him that day in the Abyss of Sin, she felt extremely embarrassed!

“That detestable guy even cultivated a dual cultivation technique with me. He’s really... really stupid!”

In particular, when she thought of the dual cultivation technique the two of them cultivated in the end, Bai Linglong was even more furious. Although nothing happened to her physical body, what happened to her mentally was simply indescribable!

Every time she thought of this, her heart would beat faster and her face would turn red!

“I wonder if Zhou Hao can locate his master, President Zhou. Hmph, ever since last time, this guy seems to have become a coward. He doesn’t even dare to appear in the thirteenth spatial rift!”

Bai Linglong was also confused by her own feelings and was very conflicted. Although she said that Zhou Hao was an idiot, for some reason, she still wanted to see him.

Perhaps this was what women were like!

On the battlefield, Zhou Hao and the others were like a hot knife through butter. Although they were somewhat tired, it was a good thing that the few of them were supporting each other. When Xu Ling’s physical strength was lacking, Zhou Hao would help out. When Zhou Hao could not, Zhang Yi intervened. If they still could not handle it, then Fang Yu’s large-scale killing weapon would be unleashed.

Moreover, Yun Yan was also there to help everyone pay attention to the danger!

As for Yuan Cheng, this kid was especially cunning. He had school bags hanging all over his body that contained thrusters. Inside his bags also contained all the other small equipment he had recently bought.

If he pressed it on his body, he could fly for a short period of time. As long as they couldn’t hold on, Yuan Cheng’s thrusters would immediately appear in their hands!

After Zhou Hao waved his saber and killed two more mutated beasts, he pretended to be panting as he looked at Xu Ling and the others.

Zhou Hao realized that they were all extremely tired. After all, there were a hundred mutated beasts here, and they were all from the master realm. It was not easy to deal with them. Therefore, Zhou Hao swept his gaze over this huge territory and found a place to rest!

“Fang Yun, let the smoke out. Let’s head over there to replenish our supplies!”

Zhou Hao said directly. Then, the Shadow Seven Sabers rained down. After Fang Yu threw out the smoke bomb, the few of them held their breaths and hid behind a huge rock more than ten kilometers away. They all sat down.

Zhou Hao stared fixedly at these mutated beasts and was relieved to discover that they did not notice them.

“Everyone, resupply. This is an Energy Bar. Just absorb it directly. At this moment, don’t worry.”

Zhou Hao handed them each a rare-level Energy Bar. To them, one was enough.

They did not refuse and began to absorb it.

Zhou Hao was still carefully observing these mutated beasts at this moment, worried that they would discover this place.

After this battle, the few of them were exhausted. Even if they were not physically tired, they were mentally exhausted. Therefore, they prepared to rest for a few hours.

In any case, it would not take long for them to kill all the beasts.

However, Bai Linglong saw this scene and smiled.

“You want to rest? I want to see how much surprise you guys can give me!”

As soon as she finished speaking, Bai Linglong waved and made a commotion at a place not far from where Zhou Hao and the others were resting.

When the mutated beasts heard this commotion, they were directly attracted over.

This scene caused Zhou Hao to vomit blood!

Chapter 352 - Perfect Cooperation

Chapter 352: Perfect Cooperation

Zhou Hao had never expected Bai Linglong to be so vicious at this moment. She actually drove the enemy here and let these beasts attack them without giving them a chance to rest!

“What’s going on?”

Zhang Yi was absorbing the Energy Bar when he heard a bang. Then, he shouted angrily and was shocked.

“It’s nothing. Those beasts have discovered us!”

Zhou Hao was very angry. They did not sense Bai Linglong’s methods, but how could he not have noticed it?!

However, he couldn’t say anything. He could only sigh and continue to fight these mutated beasts!

“We don’t have any supplies. If we continue to fight head-on, we’ll easily get injured. How about this... I, Xu Ling, Zhang Yi, and Yuan Cheng will cover for us. Fang Yu, Yun Yan, you two will set up traps behind us. The more the better!”

“We’ll stall for time. Tell us when you’re done. We’ll try our best to kill a large number of them even if we can’t kill all of them!”

After Zhou Hao finished speaking, their eyes lit up. The biggest difference between them and the mutated beasts was not that they would fight to the death, but that they had agile heads and could set up traps and use different methods to kill them!

On the other hand, those mutated beasts only had brute strength!

Hearing this, Yun Yan and Fang Yu knew that the matter was urgent. They did not say anything and immediately went to make the arrangements!

“What the four of us need to do is not to kill them but to stall for time. Xu Ling and I are very fast, so it’s not a problem. However, the two of you... Yuan Cheng is good at escaping. Stay with Zhang Yi and run around with him everywhere. Zhang Yi is powerful and can protect you. The two of you will be fine!”

Zhou Hao could only think of this in a short period of time.

“Alright, Zhang Yi, let’s go!”

Hearing this, Yuan Cheng did not say anything and left with Zhang Yi.

Before he left, he handed the thrusters to Zhou Hao and Xu Ling and Zhang Yi to help them increase their speed and avoid the mutated beasts.

Seeing them leave, Zhou Hao stretched out his hand and smiled. “Miss Xu, with the enemy in front of us, I wonder if you can fight the enemy with me?”

Zhou Hao smiled mischievously, making Xu Ling burst into laughter.

“Why are you still joking at a time like this? Also, aren’t you worried that they’ll be injured? Also, Yun Yan and Fang Yu, is it good for you to let them go to the back to set up traps?” Xu Ling asked as she and Zhou Hao rushed out and lured the mutated beasts.

“We’re currently working as a team. Facing a powerful enemy, we can only cooperate. Otherwise, only death awaits us. Yuan Cheng’s escaping ability is top-notch. Moreover, that guy is like a thief. As for Zhang Yi, he’s very fierce and violent. Sometimes, his eyes might turn red from killing. I’m not worried at all when the two of them are together!”

“As for Yun Yan and Fang Yu, they might be from the Yanjing Training Camp, but girls have always been weak. Moreover, the two of them aren’t that powerful and are very useless against these beasts. It’s better for them to set up traps.”

Zhou Hao’s body was like a monkey as he hid in the mountains around the mutated beasts. At the same time, he used the Shadow Seven Sabers to harvest the mutated beasts from time to time.

When Xu Ling heard this, she nodded. She felt that what Zhou Hao said made sense, but she could not help but roll her eyes at him.

“You said that Yun Yan and Fang Yu are girls. Am I not a girl? How could you let me stay here with you?”

Xu Ling pretended to be angry, but Zhou Hao smiled.

“Hehe, my woman is naturally not an ordinary woman. She’s not inferior to men. Moreover, you’re determined to eliminate the mutated beasts. If you don’t charge forward, you’ll probably be furious.”

“You’re the strongest among us now. If you don’t accompany me, aren’t you afraid that I’ll be swallowed by these mutated beasts?”

Zhou Hao knew Xu Ling. She was a proud woman and was naturally not comparable to other women. She was very strong and also hoped to become stronger. Moreover, with him around, she was actually much safer!

However, when Xu Ling heard this, her face immediately turned red and she spat.

“You’re too shameless. Who’s your woman? Hmph!”

Xu Ling snorted and glared at Zhou Hao. Instead of glaring at him, it was more like she was trying to seduce him. Zhou Hao almost couldn’t take it.

“Also, I’ve never understood why Instructor Bai made us take on such a difficult mission. In fact, it’s basically an impossible mission!”

At this moment, Xu Ling could not help but ask.

“Only by experiencing life and death can we grow. Her method is not wrong. Moreover, Instructor Bai is a quasi Heaven Realm expert. If she wants to save us, she can do it easily. I’m sure she won’t let our lives be threatened.”

After Zhou Hao finished speaking, Xu Ling understood.

At this moment, Fang Yu and Yun Yan also sent a message. Their traps had already been prepared!

When Zhou Hao and the others heard this, they immediately attracted these mutated beasts to the trap.

Seeing Yun Yan and Fang Yu, they smiled.

Yun Yan had always been incomparably hot and sexy. Fang Yu was also an ice beauty. However, at this moment, the two of them looked like coal miners, covered in dust and in a sorry state. It made Zhou Hao and the others unable to help but smile the moment they saw each other.

“Hmph, the two of us spent a lot of effort. I don’t even care about my image. If we can’t resolve them, Zhou Hao, Fang Yu, and I won’t let you off!”

Yun Yan and Fang Yu were both furious.

Zhou Hao smiled and watched as the mutated beasts chased over. “Alright, you can start now. When they enter the trap, we’ll find an opportunity to kill them!”

With that said, Fang Yu took out the remote control. Seeing that the mutated beasts had arrived at the trap, she immediately switched it on.

In an instant, the traps were activated. Countless bombs exploded. Even the Paralysis Gun and various heat weapons were being used. Many huge pits even appeared on the ground. They were all dug by Yun Yan and Fang Yu.

Other than bombs, there were also a lot of other traps set up.

It could be said that right after entering this trap, all the mutated beasts were instantly severely injured!

Some of the mutated beasts that had faced the attack traps were instantly killed. Those who were lucky enough to escape were also killed by Zhou Hao and the others in panic.

Bai Linglong saw this and nodded. Although these guys were not very powerful, it had to be said that their teamwork was the most cohesive and the effect was the best.

On the other hand, although the other teams were also fighting bravely, they were far inferior to Zhou Hao's team.

At the same time, outside the thirteenth spatial rift training base, the big screen flashed, and everyone's names fluctuated!

This time, points appeared behind everyone, and even rankings appeared.

There were six people in first place!

Zhou Hao, Xu Ling, Yuan Cheng, Zhang Yi, Yun Yan, and Fang Yu!

The six of them were ranked first together and had 100 points each!

Tip: You can use left, right keyboard keys to browse between chapters.

- Chapter 353 - Teaching

Chapter 353 - Teaching

Chapter 353: Teaching

As soon as the rankings on the screen appeared, everyone was stunned. However, only the people from the Seventh Training Camp instantly cheered!

As everyone was feeling greatly surprised, they also did not dare to believe that the other six teams could not compete against the Seventh Elite Team. Why were the six of them able to tie for first place and get 100 points each!?

On the other hand, the other teams only had 100 points in total!

What was going on?!

Yang Hui smiled with praise in his eyes.

“It’s the power of teamwork. These kids are united. It’s precisely because Instructor Bai’s first lesson was designed to teach them teamwork...”

“That’s right. If humans aren’t united, how can we fight the foreign races?”

“If humans aren’t united, how can they resist the million foreign races?”

“If humans are not united, how can we enjoy peace and resolve the crisis?”

“It’s said that even ten thousand people can’t beat a single expert. But now, it’s not just about individualism, but teamwork!”

Yang Hui muttered to himself and did not say anything else. He knew that the six of them had figured it out!

After killing all the hundred beasts, Zhou Hao and the others returned to Bai Linglong and waited silently. At the same time, they were shocked as they watched the other teams kill the beasts!

“Look, that’s Lu Zimo from the first team. He’s really too ferocious. His cultivation has already entered the grandmaster level, right? It’s as if he’s killing dogs. Most of the mutated beasts in their team were killed by him!”

“There’s also Cao Gongren from the second team. He’s from a family with a domineering cultivation technique. He’s a Heaven Realm expert from the Cao Family and a quasi Heaven Realm expert. He’s indeed very powerful!”

“The people from the third and fourth teams are also very powerful. Compared to them, we’re indeed far inferior...”z

Xu Ling and the others were shocked when they saw the other teams fighting. To be honest, they were still a little hurt.

However, Bai Linglong did not say anything.

Soon, the other teams also finished dealing with the mutated beasts. Although they were in a somewhat sorry state, they still completed the mission.

The special exception was Lu Zimo from the first team. He had killed 60 mutated beasts alone and was powerful and invincible.

However, when they saw that Zhou Hao's team was already standing there, they were all surprised, thinking that they had not completed the mission.

"Very good. All of you have completed the mission. Report the number of beasts you killed so that I can record your points."

Bai Linglong spoke indifferently. Starting from the first team, they reported one by one. The strongest was naturally Lu Zimo, and the second was Cao Gongren. The two of them had killed 60 and 50 each. They were very powerful.

The other teams were not bad either.

"In a while, when it's our turn, we'll just say that we're sharing the points. We'll tell her that we want to split the points evenly."

Zhou Hao whispered. Xu Ling and the others also had no objections.

When it was Zhou Hao and the others' turn to report, the others sneered.

If they worked as a team, it meant that they had either killed 16 or 17 each. With such points, none of them would be able to enter the top 10. It was really laughable.

Bai Linglong nodded after hearing their report.

"Alright, the points are out and will be distributed. You can check it."

After Bai Linglong finished speaking, they could not wait to see their ranking.

However, when they saw that there were six people in the first place, and they were all members of Team Seven, they were dumbfounded!

Lu Zimo was the first to be displeased. He had killed 60 beasts alone and had scored 60 points. On the other hand, everyone in Team Seven should have scored 16 points or 17 points. How could they have scored 100 points each?

Moreover, how could their team get 1000 points in total when there were only 100 mutated beasts. Wasn't that ridiculous?

"Instructor Bai, did you get the points wrong..." Lu Zimo hurriedly said.

They all thought that Instructor Bai had made a mistake, but Bai Linglong shook her head.

“There’s no mistake. Everyone in Team Seven gets 100 points.”

“What? Why? Instructor Bai, there were only 100 mutated beasts in total. Did they kill 100 each?” Cao Gongren said.

“No, every team has 100. They also killed 100 in total,” Bai Linglong replied.

“Ah? Then... then isn’t there a problem with this score? Instructor Bai, we don’t understand.” Lu Zimo was very indignant and immediately said.

“Do you think this score is wrong? Alright, I’ll tell you why you didn’t get 100 points!”

Bai Linglong immediately spoke at this moment. Then, she projected the video recording of Team Seven’s battle.

The screen showed the scene of Zhou Hao and the others fighting the mutated beasts. The six of them had a clear division of labor and fought together with extremely high efficiency. Even Lu Zimo and the others were shocked when they saw this.

It had to be known that among the few of them, they were all masters. There was not even a grandmaster, yet they were still able to deal with these mutated beasts.

However, although they were shocked, they still did not understand what was going on!

“The mission I assigned you is to eliminate the mutated beasts. You’ve all done it. However, other than Team Seven, I’m not satisfied with your results!”

“It’s not because you’re not strong. On the contrary, Team Seven’s overall strength is very weak. But why were they the first to complete the mission?”

“You should have seen it too. The six of them worked together and killed these hundred mutated beasts together. Each of them contributed greatly and played an extremely important role!” After Bai Linglong finished speaking, she looked at the other teams and said indifferently.

“What I want to tell you is that our opponents are not just a hundred mutated beasts, but a million mutated beasts. We humans have always been at a disadvantage. If we don’t work together, we won’t be able to resist the mutated beasts eyeing us covetously from the spatial rift.”

“As for you guys, your individuality is too intense and you all want to be in the limelight. Although you are powerful, haven’t you thought about why you didn’t work together to kill these beasts?”

“In particular, the more mutated beasts you kill, the more furious I get. The battlefield is not a place where a single person can turn the situation around. You need to rely on everyone. On the other hand, you guys work alone and fight alone. How stupid!”

“Do you think that just because you have some strength, you can be arrogant and unleash your heroism? You’re wrong. You’re all wrong. A team will win and lose together. Since you’ve established a six-person team, you should know that you’re all teammates and should support each other to the end!”

“As teammates, you guys should be like companions who can entrust your lives to each other.”

Bai Linglong snorted, her voice surging like thunder, as if it had struck the hearts of everyone in the other teams!

“The mission I gave you guys this time is to work together sincerely. If you want to fight a solo battle, I might as well let you guys enter the training ground alone to kill to your heart’s content.”

“Therefore, Team Seven has met my requirements. They killed a hundred of the mutated beasts together. Every death was obtained by the effort of teamwork. Therefore, each of them gets 100 points.. Do you have any objections?” Bai Linglong questioned.

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 354 - Cannot Know

Chapter 354: Cannot Know

As soon as Bai Linglong finished speaking, everyone was stunned for a moment, and their expressions changed slightly!

Only then did they understand what Bai Linglong meant!

The humans and foreign races had always been at war and were unable to get along. In fact, the recent war situation at the frontline had even made everyone feel a deep sense of danger.

They were all elites nurtured by the human race and they knew a lot of things. Therefore, when they heard Bai Linglong's words, they did not have any objections.

"All of you, remember this. The reason why we humans can fight the foreign races is not because we human martial artists are powerful, but because we humans are united!"

"There are tens of thousands of foreign races. Every race has its own characteristics. They have infinite strength and are agile. All of them have innate advantages. As for us humans, we have always been weak. If we don't work together, how can we resist them?"

Bai Linglong snorted. There was nothing wrong with her words. Even Zhou Hao nodded when he heard her.

This woman was indeed not inferior to men. With such an expert holding down the fort, even if the humans could not eliminate the mutated beasts, they could still live in peace.

After Bai Linglong finished speaking, she looked at Zhou Hao and the others.

"Although you guys have cooperated perfectly and are very united, you guys are still lacking. Although teamwork is important, wouldn't it have been easier for you to kill these hundred mutated beasts if you guys had all been grandmasters?!"

"Therefore, don't start feeling arrogant just because you obtained 100 points. To tell you the truth, I had only given you guys the 100 points to educate the other six teams!"

"Among the seven teams, your team is the weakest. I don't care what methods you use, I want all of you to get your strength up. Otherwise, your team will be relying on the entire elite team!"

Bai Linglong was indeed perfect. After teaching the other six teams a lesson, she was still able to lecture team seven. Zhou Hao could not help but admire her.

No wonder Zhu Zao sent her to be the instructor of the elite team. Bai Linglong really had some methods to teach martial artists!

"Alright, return to the team camp. We'll continue our special training tomorrow!"

With that said, Bai Linglong left, and the other teams also returned to their teams.

Zhou Hao and the others also rushed back.

To be honest, although they were very happy to have obtained 100 points today, the pressure in their hearts also increased.

After all, compared to the other six teams, their strength was truly inferior.

At night, Zhou Hao lay in bed and opened the Heaven Dao software.

Last time, he was a little disappointed that he did not obtain the “God Destroying Art”. However, Zhou Hao also understood that this cultivation technique must be very special. Otherwise, why would it be so difficult to obtain?

Suddenly, he thought of Fairy Yue Ling!

After asking if she wanted the God Destroying Art, she went offline. This time, Zhou Hao had to ask her properly.

Opening the live-stream and discovering that she was indeed online, Zhou Hao did not waste any time and directly entered the live-stream!

In an instant, the netizens in the live-stream exploded!

“Damn, the big shot is old! Welcome @ I’m just an ordinary person.”

“@ I’m just an ordinary big shot. Are you going to dominate the live-stream today?”

“Big shot, without you online these past few days, no one has been dominating the chat. We really miss you a little. @ I’m just an ordinary person.”

Zhou Hao saw the comments of the netizens in the live-stream and ignored them. Instead, he clicked on his private message and sent a message to Fairy Yue Ling.

“Fairy, you didn’t answer me last time.”

Fairy Yue Ling naturally saw Zhou Hao enter the live-stream immediately. A trace of panic flashed across her face, but she still recovered.

At this moment, she saw Zhou Hao send a private message and took a deep breath before replying.

“Big shot, I think it’s best if you don’t know about the God Destroying Art. Also, since you know the God Destroying Art, you must also know the God Slaying Art. I advise you not to cultivate it.”

Zhou Hao was confused on the spot when he heard Fairy Yue Ling’s words.

“Fairy Yue Ling, I don’t quite understand. Can you guys explain it more clearly? Why can’t I cultivate this cultivation technique?”

This cultivation technique was really powerful. Zhou Hao felt that the many cultivation techniques he had on him, including the Wood Spirit Art, the Shadow Seven Sabers,

and the Golden Crow Escape Technique, were all inferior to this Heaven Realm cultivation technique!

“There are many things I can’t tell you. However, big shot, you have to believe that Yue Ling won’t lie to you.”

Fairy Yue Ling did not want to tell him the secret. Zhou Hao also knew that this had to be a big secret!

However, this cultivation technique was really too precious, so Zhou Hao still felt a little reluctant.

Seeing that Fairy Yue Ling did not want to tell him, Zhou Hao shook his head. After buying some gifts in the live-stream and obtaining some rare-level Energy Bars, he left the live-stream under everyone’s cheers.

Counting the time, more than half a month had passed. He should be able to get some of that Essence Energy Ancestral Stone.

As Zhou Hao thought this, he directly changed into his armor. His body moved, and he appeared in the twelfth spatial rift and arrived at the guarding area of the Iron Bone Bear King.

“Brother Bear, I’m here to do business with you again!”

Zhou Hao arrived and shouted. As soon as he finished speaking, a white light flashed. Zhou Hao focused and his expression changed slightly!

At some point, the Iron Bone Bear King’s mane had begun to show signs of turning white. Zhou Hao knew that it meant that it was turning into a Silver Bone Bear King!

In other words, this Iron Bone Bear King was probably about to break through the bloodline shackles and even break through to the Heaven Realm!

Zhou Hao took a deep breath and was a little nervous. He was really worried that he was helping the foreign races obtain another Heaven Realm expert by trading with the bear.

“Little human brother, you’re finally here. I’ve been looking forward to this day and night. Come, let’s cut the crap and go get the Ancestral Stones.”

The Iron Bone Bear King was extremely excited when it saw Zhou Hao.

During this period of time, he had really made a breakthrough after absorbing all the Energy Bars. He believed that he would definitely be able to break through after another ten or eight times!

Not only could he enter the Heaven Realm, but he could also transform into the Silver Bone Bear King!

Once he became a Heaven Realm expert and his bloodline broke through, the Hundred Insect King would be no match for him at all!

He could directly crush that big insect!

“Um... Brother Xiong, wait a moment. Let’s talk first.” Zhou Hao stopped it.

“Oh? Little human brother, what do you want to talk about?” The Iron Bone Bear King was stunned for a moment and could not help but ask.

“It’s very simple. I want to discuss with the Bear King how we should deal with each other if we meet on the battlefield in the future.”

As soon as Zhou Hao said this, the Iron Bone Bear King also became confused.

“When we meet on the battlefield? Of course we’ll stick to our sides. Why, human brother, could it be that you’ve developed feelings for me after all this time? You can’t bear to be my enemy?”

“Or are you worried because you’re afraid that I’ll break through and you won’t be able to defeat me?” The Iron Bone Bear King was not stupid at all and immediately said.

Chapter 355 - Super Molecular Virus

Chapter 355: Super Molecular Virus

When Zhou Hao heard the Iron Bone Bear King, he thought to himself that this guy was really impressive. He immediately thought of something.

Originally, Zhou Hao thought that it was very stupid, but from the two exchanges, he could tell that this bear was really smart!

“Since Brother Xiong is so direct, I won’t waste my breath. You’re right. I am concerned. The foreign races in the thirteenth spatial rift have already given up. I believe the other

spatial rifts will definitely be fighting. If you enter the Heaven Realm now, I'll still be worried."

Zhou Hao did not beat around the bush. After the Iron Bone Bear King heard this, it smiled.

"Little human, you're thinking too far ahead. Do you think our foreign races are like you humans? If I were to become a Heaven Realm expert, I would first deal with other foreign races instead of you humans!"

"Alright, I'm not going to get into it. This is all a secret of the foreign races. Tell me, are you still willing to trade?"

The Iron Bone Bear King waved his hand and did not care at all.

"Sure, but I want to make an agreement with Brother Xiong!"

After thinking about it, Zhou Hao still felt that they should have an agreement. In this way, he could also be at ease.

"An agreement? What do you mean?" the Iron Bone Bear King said directly.

"It's very simple. Our transaction can continue, but the condition is that after you break through to the Heaven Realm, you can't become enemies with our human race for the next three years. Otherwise, even if it means losing the Essence Energy Ancestral Stone, I still won't trade with you!"

Zhou Hao's thoughts were very simple. The battle at the frontline was already very tense. If a Heaven Realm expert suddenly appeared, it would definitely be very dangerous for the frontline. In this way, wouldn't he be putting pressure on the frontline for no reason?

The Iron Bone Bear King laughed when it heard this.

"Do you think I want to go to the frontline? To tell you the truth, little human, even if the gate to our foreign races opens, it will still be difficult for you humans to attack. The reason why we want to fight for the human lands is because the foreign races' land is mostly barren!"

"Moreover, the frontline is filled with danger. What if I die? I don't want to waste the cultivation I worked hard for for so many years. Do you think I'm stupid?"

The Iron Bone Bear King was rather straightforward, and Zhou Hao was certain that it did not seem to be lying. After all, this Bear King was not stupid. On the contrary, it was very smart.

“Alright, with your words, I’m relieved.”

With that said, the two of them went deeper into the spatial rift. This time, there were 50 Essence Energy Ancestral Stones. After Zhou Hao obtained them, he immediately returned to the training camp.

The days in the training camp were peaceful. Although the missions Bai Linglong assigned were getting more and more serious, they were fortunate to have all grown stronger and could pass safely.

Moreover, Zhou Hao was the number one quasi Heaven Realm expert. If an accident really happened, he could easily ensure the safety of the others.

Such days lasted for a month. Zhou Hao was somewhat surprised that the foreign races did not attack.

Zhou Hao was also a little depressed that they did not attack. After all, he was unable to accumulate luck points.

On this day, Zhou Hao took advantage of the time to put on his armor and arrived at the frontline of the twelfth spatial rift.

The thirteenth spatial rift had now become a training base. Zhu Zao and the others also all went to the other spatial rifts.

Zhu Zao, who had taken over the twelfth spatial rift, immediately smiled when he saw Zhou Hao.

“President Zhou, I haven’t seen you in a long time.”

“It’s been relatively peaceful recently. I’m much more free now.” Zhou Hao also smiled.

“Sigh...”

However, Zhu Zao shook his head and sighed.

“Heavenly King Zhu, why are you sighing? What’s the matter?” Zhou Hao frowned and hurriedly asked.

“President Zhou, everything only appears to be calm at this moment. In fact, we have received news that a Heaven Realm expert of the Machine Race has developed a new weapon. Once this weapon enters the battlefield, it will be very destructive. I’m very worried!”

Zhou Hao’s heart tightened when he saw the worry on Zhu Zao’s face.

“What weapon is it?” Zhou Hao hurriedly asked.

“It’s a super molecular virus. This virus is useless to the foreign races, but it’s very harmful to us humans. Once we get infected, it will destroy the vitality in our bodies. You know that the blood essence power of us human cultivators is no match for the foreign races.”

“Once this weapon is thrown in, the combat strength of our human race will immediately decrease!”

After Zhu Zao finished speaking, Zhou Hao was also shocked!

“What? There’s such a weapon?”

This thing was simply a disaster for the human race. As long as it was ineffective against the foreign races, it would be very dangerous for the humans!

“That’s right. The research of the Machine Race is not inferior to that of our human race. During the battle, they captured many of our human warriors. After researching day and night, they finally succeeded!”

Zhu Zao took a deep breath and was very anxious.

“Heavenly King Zhu, is there any way?” Zhou Hao immediately asked.

“The higher-ups are currently discussing it. Although they have developed that weapon, I heard that it’s still very complicated and is a little difficult for it to be put into production. Moreover, the foreign races are lacking in resources to begin with, so it’s very difficult for them to produce it.”

“I heard that a radiation tower has been produced in the seventh spatial rift. When this tower is used, it will activate the super molecular virus. The soldiers of the seventh spatial rift are thinking of ways to attack the seventh spatial rift!”

After Zhu Zao finished speaking, Zhou Hao frowned!

The seventh spatial rift was the stomach of the humans on Planet Earth. If they lost that place, it would really be dangerous for the humans!

At that time, the foreign races would occupy the seventh spatial rift and undoubtedly divide the humans into two. At that time, the human race would be divided and they would be finished!

“There’s no time to lose. I’ll go to the seventh spatial rift now!”

Zhou Hao did not say a word and was about to leave when Zhu Zao hurriedly said.

“President Zhou, since you want to go, bring Bai Linglong with you. Her brother is a Heaven Realm expert and is in charge of the situation in the seventh spatial rift. If the two of you go together, you will definitely be able to help him!” Heavenly King Zhu hurriedly said.

“Hmm? Isn’t Miss Bai training an elite team in the thirteenth spatial rift base?” Zhou Hao asked after a pause.

“That’s right. Therefore, this time, not only will Bai Linglong go, but she will also bring the seven teams with her!”

“Although the thirteenth spatial rift is the best place to train them, Bai Linglong still wants to bring them to the frontline to train. After all, they’re already masters. Some of them have already broken through to the grandmaster level. It’s time for them to train in the frontlines!”

Zhou Hao did not expect Zhu Zao to say this.

“Bai Linglong will contact you after this. When the time comes, will you leave together?” Zhu Zao asked.

“I won’t go with her. She must be very slow with those students.”

Zhou Hao also wanted to go with her, but she was leading seven teams. After all, he was both Zhou Hao and President Zhou and he couldn’t exactly appear as both of them simultaneously.

“That’s fine too. I still have a meeting to attend, so I won’t be accompanying you, President Zhou.”

Zhu Zao nodded and left.

Chapter 356 - Towards the Seventh spatial rift

Chapter 356: Towards the Seventh spatial rift

When Zhou Hao left the twelfth spatial rift, he received a message from Bai Linglong. Her meaning was very simple: she wanted to know when he would leave.

Zhou Hao replied briefly and returned to the training camp.

Bai Linglong looked at Zhou Hao's reply and frowned. She thought to herself that this guy was really avoiding her like she was the plague. She really did not know why this man was so timid!

Back in the Abyss of Sin, he had acted quite boldly. He even cultivated the dual cultivation technique with her. Now, after returning, it was as if the other party had evaporated into thin air. If not for Zhu Zao giving her Zhou Hao's contact information, she wouldn't have been able to contact him at all!

Early the next morning, the news that they were going to the seventh spatial rift spread to the ears of the various teams.

"The war in the seventh spatial rift is critical. Since you are an elite team nurtured by the humans, you should be there in person and train in advance. The flowers raised in greenhouses have always been pleasing to the eye but useless and easily destroyed by real struggles."

"Therefore, I don't care if you're afraid or not. This time, I want all of you to go with me. Do you understand?"

Bai Linglong looked at the seven teams and directly ordered!

This shocked the seven teams.

Of course, Zhou Hao did not know what the other teams were thinking!

On the other hand, Team Seven was a little excited when they heard this news!

"Are we finally going to the real frontline to kill the enemies? That's great. I have been looking forward to this for a long time!"

Zhang Yi was the first to speak. This guy had always been courageous and fearless!

"Sigh... the seventh spatial rift must be very dangerous..."

On the other hand, Yuan Cheng was a little worried. Although he was a little timid, he was not the kind of person who would flee before the battle.

"I think we should prepare something to escape. Last time we went to the weapon shop, I saw a new thruster. Should we buy it?" Yuan Cheng thought for a moment and said.

“Yuan Cheng, we haven’t even started fighting yet and you’re already thinking about escaping . You’re really making me laugh.”

Yun Yan was the first to smile gorgeously.

On the other hand, Fang Yu nodded. “Not only do we have to prepare the items to escape, but we also have to prepare the items to kill the enemies. It’s better to be safe than sorry!”

Zhou Hao nodded. “That’s right. This time, the seventh spatial rift is a real battlefield. It’s not like our usual training. Therefore... we really should make more preparations!”

After discussing, they immediately split up. Yuan Cheng and Zhang Yi went to buy the equipment for escaping, Yun Yan and Fang Yu went to buy the equipment for killing enemies. On the other hand, Zhou Hao and Xu Ling were free.

Zhou Hao was overjoyed that the two of them had the chance to spend time together.

“Xu Ling, do you still remember when we were in school? You always yelled at me for being lazy. Now that I think about it, I really miss those days.”

After Zhou Hao finished speaking, Xu Ling smiled. She directly lifted his ear and scolded jokingly, “Don’t think that just because you’re stronger than before, I won’t scold you. Among the six of us, you’re the one who slacked off the most. Don’t think I don’t know!”

“Yes, yes, yes. Nothing can escape Hero Xu’s eyes. Let go of my ear quickly. I know I was wrong.”

“Hmph...!”

Xu Ling immediately smiled, but she quickly said worriedly.

“Zhou Hao, do you think... we’ll be in danger this time?”

Xu Ling suddenly spoke, making Zhou Hao sigh.

“Of course there’s going to be danger. But I’ll be by your side, so don’t worry. Even if there’s danger, I’ll protect you!” Zhou Hao held Xu Ling’s hand and said firmly.

Xu Ling smiled sweetly but still said, “Hmph, I don’t need you to protect me. I’m not weaker than you!”

As Xu Ling spoke, she waved her fists.

"The few of us went out to buy things, but the two of you are so intimate here!" When Yun Yan and the others returned and saw Zhou Hao and Xu Ling, they immediately rolled their eyes and said angrily.

Hearing this, Xu Ling's pretty face immediately turned red and she was somewhat embarrassed.

"What did you buy?" Zhou Hao coughed dryly and hurriedly changed the topic.

Seeing that Zhou Hao had changed the topic, Yun Yan did not say anything else.

"Fang Yu and I bought some paralysis grenades, high-energy Sonic Guns, and some area bombs. Although we didn't get a lot of them, they're all good stuff!"

After Yun Yan finished speaking, Yuan Cheng hurriedly said, "Zhang Yi and I bought thrusters. In addition, we also bought concealment smoke grenades. These will come in handy when we need to escape."

Seeing that they were sufficiently prepared, Zhou Hao nodded in satisfaction.

Early the next morning, they began to travel. The seven teams took seven planes and headed for the seventh spatial rift.

The journey was not very far, but it took them half a day to arrive.

They were shocked as soon as they arrived at the seventh spatial rift!

The seventh spatial rift was filled with desolation. Clearly, it had experienced many battles. It was even more serious than the thirteenth and twelfth spatial rift!

Zhou Hao took a deep breath. Seeing this, he knew that a huge battle had definitely happened here. Moreover, it was definitely a hard fought battle!

Not only that, but Zhou Hao also saw a tall tower in the depths of the seventh spatial rift!

A defensive line was established around the tower. Looking from afar, it looked like a dense mass. Naturally, this had all been prepared by the mutated beasts!

"Looks like the crisis won't be resolved until this tower is destroyed. I wonder if the foreign races used the tower yet."

Zhou Hao was very worried.

After they arrived at the seventh spatial rift, Bai Linglong also made arrangements for them. Zhou Hao also took this opportunity to put on his armor and contacted Bai Linglong.

Bai Linglong saw Zhou Hao's message and snorted and couldn't help but feel that he was really well-informed. She had just arrived here when he contacted her.

Bai Linglong did not care too much and found Zhou Hao.

"Hmph, you've been quite mysterious recently. Why? Are you afraid that I'll kill you to make sure my secret is safe after we leave the Abyss of Sin?" Bai Linglong could not help but complain when she saw Zhou Hao.

After saying this, Zhou Hao was stunned.

What was wrong with this woman? Why did she sound like a resentful woman? Could it be that she missed him after not appearing for so many days?

"Uh... No, there was something I needed to deal with. Let's go see your brother. I don't know much about the seventh spatial rift yet." Zhou Hao hurriedly changed the topic.

Bai Linglong snorted and could not be bothered to talk nonsense. She directly brought him to the military camp of the seventh spatial rift.

Bai Zhenhai was the overall commander of the seventh spatial rift. He had a Heaven Realm cultivation and was incomparably valiant. This person's appearance was not as good as Bai Linglong's, but he was still handsome and gave off a valiant and tall feeling.

Bai Zhenhai laughed heartily when he saw Zhou Hao.

"President Zhou, I've heard a lot about you.. Senior Zhu has mentioned you to me many times. After meeting you personally, I can tell that you're indeed extraordinary!"

Chapter 357 - Shock

Chapter 357: Shock

"You're too kind, Heaving King Bai."

Zhou Hao smiled.

“President Zhou, you know that Heaven Realm experts can’t attack without permission. Therefore, although I’m anxious about the crisis in the seventh spatial rift, I’m also helpless. There are a total of twenty quasi Heaven Realm beasts guarding the tower. We can’t attack at all!”

“If not for the fact that this tower has not been completely built, our seventh spatial rift would very likely have failed. Heavenly King Zhu said that your combat strength is not inferior to a Heaven Realm expert, and that you are the strongest below the Heaven Realm. I wonder if you have a way?”

Bai Zhenhai did not hide anything and told them everything as soon as they met.

“Heavenly King Bai, will everything be fine once we destroy that tower?” Zhou Hao hurriedly asked.

“That’s indeed the case. However, with twenty quasi Heaven Realm beast experts, the other battlefronts can’t spare too many people at all. Even so, more than ten people have been sent from the various army camps in the spatial rift. Even with the original five quasi Heaven Realm experts stationed in the seventh spatial rift, there are still fewer people than the beasts!”

“Our few attacks have all failed.”

Bai Zhenhai sighed helplessly.

“Heavenly King Bai, if it’s only to deal with quasi Heaven Realm experts, I still have a way. However, I don’t know if that tower can be destroyed. I’ve checked before. The things built by the Machine Race have always been incomparably hard. I’m worried that even if we defeat their mutated beast army, we will still be helpless against this tower!”

This was what Zhou Hao was worried about. With his current combat strength, he was the number one person below the Heaven Realm and was not afraid of any quasi Heaven Realm beast at all!

Moreover, the Ancestral Stones he had exchanged with the Iron Bone Bear King last time had already been fully absorbed. This also meant that the God Slaying Art had already reached a compatibility score of 30% and was even more powerful!

“I’m also very worried about this. However, we have prepared a plasma cannon. This is the strongest weapon we have against the foreign races. If it can’t do anything, then...”

Bai Zhenhai sighed.

“In that case, let’s give it a try!” Zhou Hao did not waste his breath. If they did not give it a try, they would really be done for when the Machine Race finished their preparations and launched the super molecular virus!

Therefore, speed was important. They had to attack immediately!

Bai Zhenhai did not expect Zhou Hao to be so anxious and was touched.

“President Zhou is indeed worthy of being a pillar of the country. Alright, in that case, let’s attack!”

Bai Zhenhai immediately gathered his men and began the battle!

All along, the foreign races had always attacked first and the humans had been forced to defend!

However, it was different this time. The foreign races wanted to stall for time. When the Machine Race finished their preparations, they would release the super molecular virus and conquer the seventh spatial rift in one go!

Therefore, these twenty quasi Heaven Realm beasts were not here to kill the enemies at all. Instead, they were here to ensure that the Machine Race could successfully complete the mission. After all, it would not be too late for them to kill the enemies after they completed the missions!

After the human army was gathered, Bai Zhenhai directly ordered and rushed up.

As soon as the human warriors moved, the ground trembled and cracked. Countless mutated beasts crawled out from the cracks.

“Be careful. This is a Bloodthirsty Demon Ant with extraordinary strength. Moreover, it has armor. Everyone, be careful!”

Seeing these Bloodthirsty Demon Ants, Zhou Hao frowned. These things were all ferocious beasts of the foreign races!

The Bloodthirsty Demon Ants were violent by nature. Once they tasted human blood, they would become bloodthirsty and crazy. Moreover, they were extremely powerful and had firm bodies. It was very difficult for the human warriors to resist them!

However, even though this was the case, the human warriors were not idiots. They had fought the foreign races for a long time and naturally knew how to deal with the Bloodthirsty Demon Ants!

Zhou Hao took a look and did not continue to care. His goal was those quasi Heaven Realm beasts. If he killed them, not only would he increase his luck points, but he would also be able to destroy the tower!

Zhou Hao took the lead and charged out!

He took out the Black Dragon Spear in his hand and thunder roared!

The mutated beasts in the distance also roared incessantly!

Zhou Hao directly charged in, followed by Bai Linglong and more than ten quasi Heaven Realm experts. Their momentum was vast and mighty!

However, against the army of mutated beasts, they were still somewhat insignificant!

“A mere dozen quasi Heaven Realm experts dare to attack the tower? They’re really courting death. Storm Demon Ape, bring ten brothers and tear them apart!”

Under the tall tower stood a huge Alligator Turtle with green fur all over its body. Its cultivation was powerful. At this moment, when it spoke, the more than twenty quasi Heaven Realm beasts below did not dare to say anything!

On its left stood a demon ape covered in black hair. When it heard the Alligator Turtle, it immediately roared and rushed over with the army of more than ten mutated beasts!

“It’s the Storm Demon Ape. It’s fast and agile and has the ability to resist the wind. It’s incomparably powerful. The few quasi Heaven Realm beasts behind it also can’t be underestimated. When our army fought with it, we were almost killed by it every time. Fortunately, they just defend the tower and don’t want to fight us to the death. Otherwise, to kill this Storm Demon Ape, we would have to sacrifice at least three quasi Heaven Realm experts!”

The person who spoke was a quasi Heaven Realm expert from the seventh spatial rift called Wang Wei.

Zhou Hao nodded and looked at them, but his gaze fell on the green-haired turtle on the high platform.

“Is that turtle their commander?” Zhou Hao asked directly.

“That’s right. That’s the Golden Armor Alligator Turtle. It’s the strongest among them. The turtle shell on its body can withstand a Heaven Realm expert’s attack. Moreover, its combat strength is extraordinary and its bite strength is shocking. If you get bit, you’re basically doomed!”

Wang Wei was very afraid of the Golden Armor Alligator Turtle. It was not because he was lacking in drive, but because it was the truth!

Zhou Hao smiled. “It’s covered in green hair and yet it’s called the Golden Armor Alligator Turtle. Interesting!”

When Wang Wei heard this, he was stunned for a moment and could not help but say, "President Zhou, I think you shouldn't underestimate the Golden Armor Alligator Turtle. It's a powerful enemy of our human race's seventh spatial rift!"

Zhou Hao nodded. "Don't worry, I won't underestimate it!"

However, if this Golden Armor Alligator Turtle attacked today, Zhou Hao would definitely kill it!

With the Black Dragon Spear in hand, Zhou Hao rushed over. He did not immediately use the God Slaying Art. Instead, lightning exploded in the sky and swept up the five mutated beasts, including the Storm Demon Ape!

"You guys take on the other mutated beasts. I'll help you after I kill them!"

After Zhou Hao finished speaking, he rushed out. However, Wang Wei and the others were shocked!

A human quasi Heaven Realm expert was originally inferior to the foreign races in a one-on-one battle, but President Zhou actually wanted to fight five of them alone. Wasn't he courting death?!

They were all anxious and thought to themselves that Zhou Hao was really inexperienced and did not fear death. Could it be that the person from the twelfth spatial rift was so brave and stupid?

However, in the next second, a huge head fell from the sky. It was the Storm Demon Ape covered in black fur!

At this moment, everyone was stunned.. Their eyes widened as they saw Zhou Hao bathed in lightning. Everyone's expressions froze when they saw what had just happened!

Chapter 358 - Fight!

Chapter 358: Fight!

This scene immediately stunned everyone!

A second ago, they were still worried that Zhou Hao would not be able to defeat the Storm Demon Ape, but in the next second, Zhou Hao had cut off its head!

This made them turn pale with shock and disbelief!

However, in the next second, they shouted excitedly!

“President Zhou is indeed invincible!”

“President Zhou is too impressive!”

“Let’s kill our way over and create an opportunity for President Zhou to kill the mutated beast experts!”

They roared angrily. Originally, they did not have any confidence, but when they saw Zhou Hao’s strength, confidence immediately surged!

Zhou Hao held his spear and looked at the four mutated beasts opposite him. With an invincible and powerful cultivation, he shook the heavens!

With a wave of his hand, he killed the Storm Demon Ape. This also shocked the other quasi Heaven Realm beasts. They did not expect this human cultivator in front of them to be so powerful!

“President Zhou... Could he be the expert who killed the quasi Heaven Realm beasts in front of the Dark Night King?”

“It’s actually this person... Not good, quickly send reinforcements. We can’t resist at all!”

The four of them were not stupid. After all, the Demon Storm Ape had been killed in a single exchange. In addition, Zhou Hao’s reputation had already spread everywhere. After seeing this scene, they were immediately shocked!

Unfortunately, Zhou Hao would not give them the chance!

With the Black Dragon Spear in hand, endless spear light streaked across. Similarly, the God Slaying Art in his body erupted. In an instant, Zhou Hao’s aura looked down on the world and suppressed this space!

“Heavens, his cultivation... why has his cultivation suddenly soared?!”

“He clearly only has a quasi Heaven Realm cultivation, but... why do I feel that his combat strength has reached the Heaven Realm? How is this possible!”

The scalps of these beasts went numb. At this moment, they were completely dumbfounded!

Zhou Hao sneered and used the Golden Crow Escape Technique to transform into a golden beam!

After killing the Storm Demon Ape, his luck points instantly increased by a few million. At this speed, he would probably be able to get more than 10 million after killing these few!

If he killed all of them, it would directly exceed 100 million!

Zhou Hao was excited. The luck points he obtained from killing this quasi Heaven Realm expert was very high. It was comparable to killing an entire army!

"I can accumulate luck points again today!"

Zhou Hao was very happy and did not hold back at all. The Black Dragon Spear emitted a terrifying light as it directly entered the flock of sheep!

In the distance, the Golden Armor Alligator Turtle that had been paying attention to this scene was immediately stunned!

He had killed the Storm Demon Ape in a single move. This person's combat strength was really off the charts!

"We really encountered a tough nut to crack. No wonder the Dark Night King ordered so many of us to guard this place. It turns out that it was to guard against this person!"

"However, is the Machine Race alright? If they don't get the preparations done soon, we won't be able to take it anymore!"

The Golden Armor Alligator Turtle had lived for many years and was naturally cautious. Although it had an indestructible tough armor, it still could not fight Zhou Hao unless it was a last resort!

After all, this person had killed a quasi Heaven Realm beast easily. This made his scalp tingle. He was really too worried!

Although his golden armor was powerful, he did not dare to guarantee that it could resist him!

"Senior Golden Armor, the Machine Race beings are currently on their way. We probably have to wait a while longer. As long as we delay them, we will have a chance!"

A mutated beast beside him hurriedly spoke. This guy looked extremely like a catfish. His two huge whiskers were like electric poles, and they were shining with phosphorus light. It was very shocking!

“You’re right. As long as we resist for a while, we’ll have a chance when the Machine Race’s virus arrives!”

“Therefore, we just have to resist. All of you, go help. The other quasi Heaven Realm experts are nothing to be afraid of. The main problem is President Zhou. You guys just have to stall him!”

A cunning look flashed in the Golden Armor Alligator Turtle’s eyes as it ordered.

“Alright!”

The catfish immediately nodded. With a wave of his hand, he brought the other seven to eight quasi Heaven Realm experts and directly killed his way out!

This scene shocked the humans. They did not expect the Golden Armor Alligator Turtle to send out so many quasi Heaven Realm warriors!

It seemed that they were determined to protect the tower, and the humans also understood something!

They had to do it in this tower. Otherwise, if the seventh spatial rift was lost, they would be finished!

“President Zhou, be careful. They’ve sent so many quasi Heaven Realm experts again!”

When they saw this, they immediately shouted in surprise. This was because these quasi Heaven Realm experts were not rushing towards them, but flying towards Zhou Hao!

“One, two, three... eleven! You sure think highly of me!”

Zhou Hao’s expression also darkened. Although he was very powerful, he was still somewhat unable to resist these eleven quasi Heaven Realm beasts!

Moreover, they did not want to fight him head-on at all. Instead, they seemed to be focused on delaying him. All of them were slippery and could not be caught at all!

Zhou Hao was very anxious. If this continued, it would be over when the Machine Race’s virus arrived!

Thinking of this, Zhou Hao no longer stayed behind to guard. He fully activated the God Slaying Art in his body. The blood essence in his entire body trembled, and he directly used all his cultivation!

He also took out his saber. He held the saber in his left hand and the spear in his right!

The saber beam in his left hand shone, and countless cold lights flashed. It was the Shadow Seven Sabers!

Zhou Hao's most suitable weapon now was the Shadow Seven Sabers. He had already refined it to perfection!

At the same time, he also used the Wood Spirit Art. His surroundings instantly transformed into a forest sea, and these mutated beasts were directly dispersed!

This was what Zhou Hao wanted to do. He couldn't let them gather together!

Similarly, Zhou Hao did not want to be delayed any longer. He needed to take care of the tower for them to have a chance!

After using his two killing moves, Zhou Hao took the opportunity while they were resisting his Wood Spirit Art to directly flash towards the tower!

"Is President Zhou trying to directly destroy the tower?!"

"That's right. President Zhou is right. We don't have enough time to kill all the quasi Heaven Realm beasts?!"

"Once the super molecular virus appears, our seventh spatial rift will definitely fall!"

They all understood that they had to unleash their full combat strength!

"Everyone, do your best to create a chance for President Zhou!"

At this moment, he had seen how powerful Zhou Hao was and was extremely respectful towards him.

They also knew that the key to victory today was President Zhou. If they failed, they would be finished!

Therefore, they did not hold back either and erupted with unprecedented combat strength!

Bai Linglong was also incomparably anxious. She was also holding a spear in her hand. Countless spear lights were slashed by her as she fought the two quasi Heaven Realm beasts!

It had to be said that Bai Linglong was still very strong. Among quasi Heaven Realm experts, she was definitely ranked highly!

This was not only because Bai Linglong's cultivation was powerful, but also because her spear techniques were superb. In fact, Zhou Hao was far from being her match in a competition of spear technique.

“Kill!”

Seeing Zhou Hao advance courageously, Bai Linglong shouted and her aura roared!

Chapter 359 - Kiss of Lady Luck

Chapter 359: Kiss of Lady Luck

Countless soldiers saw Zhou Hao's heroic figure and were filled with admiration. Even Bai Zhenhai was the same!

He clenched his fists tightly. If not for the fact that he could sense an extremely dark aura staring at him from the seventh spatial rift, he would have attacked long ago!

However, he had no choice. Even if he attacked, he would still be unable to kill the other party's Heaven Realm expert. He could only watch helplessly, feeling extremely aggrieved!

“President Zhou, the safety of the Earth Seventh spatial rift is probably in your hands!”

He could not help but whisper with an incomparably nervous expression!

At this moment, Zhou Hao had already arrived near the tower!

When the Golden Armor Alligator Turtle saw this, it was immediately shocked. The higher-ups had asked it to protect the tower. If it was lost during his command, it would be over for him!

Therefore, even if it did not want to encounter Zhou Hao, it could only roar. Its body turned into a golden light and pounced forward with surging pressure!

Zhou Hao's expression was extremely ugly. He snorted and directly used the Shadow Seven Sabers. Endless saber beams immediately rained down!

Ordinary quasi Heaven Realm experts were unable to resist such an attack at all. However, the Golden Armor Alligator Turtle directly hid in its shell. The saber beam draped over her body, emitting the crisp sound of metal colliding. Other than cutting off a lot of its green long hair, the saber beam did not cause any damage to it!

The Golden Armor Alligator Turtle was shocked. Although it was not injured, it was still shocked. Zhou Hao's strength was indeed powerful. This move had even caused its blood essence to surge!

"I never imagined that there would be someone so powerful in the human race. However, President Zhou, you can't kill me or stop us!!"

After resisting the attack, the Alligator Turtle also became somewhat confident. Although it was a little difficult for it to kill President Zhou, it was also impossible for Zhou Hao to kill it.

Not to mention a quasi Heaven Realm expert, even a high third-grade Heaven Realm expert would find it difficult to kill it.

Zhou Hao's expression immediately darkened, thinking to himself that this Golden Armor Alligator Turtle was really something. It could actually use its golden armor to resist his Shadow Seven Sabers!

He could not help but admit that this Alligator Turtle was indeed worthy of its reputation!

"Hmph, you turtle, what shameless boasting!"

Zhou Hao snorted and directly drew his spear. At the same time, the mutated beasts behind him also struggled free from the Wood Spirit Art and pounced towards Zhou Hao!

Being sandwiched on both sides, the pressure on Zhou Hao immediately multiplied!

However, he still could not give up. After all, he had to destroy this tower no matter what!

As for these mutated beasts, he could only risk his life to deal with them!

Zhou Hao knew that it was impossible for him to ambush the tower. Therefore, at this moment, he was prepared to fight a bloody battle!

He roared angrily and the Black Dragon Spear immediately exploded. He activated the Golden Crow Escape Technique, and the lightning on his body was generous, making him look like a killing god!

There were a total of thirteen quasi Heaven Realm experts on the other side, but Zhou Hao was still not afraid. With thunder filling the sky, he held his spear as he faced them!

Although Zhou Hao was small compared to them and was like a flea beside them, Zhou Hao's aura was enough to resist half the sky!

"President Zhou... What a powerful... aura!"

"This is what a human cultivator should be like. He's resisting an entire army alone with a single spear!"

"Too powerful... too powerful..."

The human warriors were shocked when they saw this, but they also became worried. President Zhou was like a treasure to the humans. And now, he was fighting so many mutated beasts alone!

What were they supposed to do if he ended up dying?

It was not unreasonable for them to be worried. After all, how could a single person resist so many mutated beasts?!

However, Zhou Hao used his actions to show them that there was nothing to worry about!

Although the other party was powerful, he was not to be trifled with!

With a shout, Zhou Hao had already rushed forward!

It was not only him. The human warriors' blood surged at this moment. They knew that once the Machine Race beings arrived with the virus, they would be finished!

Therefore, in this battle, the humans unleashed endless combat strength!

Those Bloodthirsty Demon Ants were immediately eliminated. However, the foreign races were clearly prepared. When the Bloodthirsty Demon Ants disappeared, another large pile of ice peaks surged out. It was also very troublesome!

In fact, many supernatural beasts had even appeared. Although they were not at the ninth-grade supernatural level, they still managed to pester the human experts!

Not only that, but the mutated beasts of the masters and grandmasters also covered the sky and the earth!

The humans understood that once the tower released the super molecular virus, they would be finished!

The foreign races also understood that as long as the tower released the virus, the humans would be able to resist!

Therefore, both sides were fighting with their full strength!

However, the humans were extremely anxious, and the mutated beasts were also cautious. The foreign races knew that as long as they could delay the humans, everything would be fine!

“Damn, everyone, kill them ruthlessly. Don’t let them delay us!”

“That’s right. Even if the tower releases the virus, we still have to kill them all before that!”

Everyone’s eyes were red from killing. They ignored everything and completely fought the foreign races!

Blood covered the ground, and the seventh spatial rift instantly became an incomparably bloody battlefield!

“This battle will definitely be recorded in the history books!”

Bai Zhenhai was also incomparably excited when he saw this scene!

“Prepare the cannons, prepare the laser cannons, and prepare the laser cannons. Kill them ruthlessly!”

Bai Zhenhai commanded in front of the army. Not only did the humans have warriors, but they also had high-tech weapons!

Compared to the Machine Race, it was possible that their high-end technology was inferior. However, the might of these cannons was still enough to threaten them!

The situation ended in a stalemate. As for Zhou Hao, he became more and more courageous. The armor on his body was stained with blood!

However, this blood was not his but the foreign beasts’!

In just a few exchanges, Zhou Hao had directly cut off some of their arms and shattered their weapons. There were even some who ended up with bloody holes on their bodies.

In short, Zhou Hao's eyes were red from killing as he fought back!

Not only that, but even the few quasi Heaven Realm beasts were angered by Zhou Hao's attacks!

Their mutated beasts were bloodthirsty to begin with. Not only were they triggered by their enemies' blood, but their own blood also made them bloodthirsty!

Moreover, they were fighting with so many quasi Heaven Realm beasts. If news of them being injured by a single person spread, wouldn't they lose face?!

"Kill this despicable human!"

They roared angrily and became even crazier!

Zhou Hao felt pressured. He used countless techniques, including the Five Elements Great Yan Record, the Green Wood Art, the Shadow Seven Sabers, and so on.

In addition to his strongest trump card, the God Slaying Art!

At this moment, his combat strength was magnificent as he pressed forward!

"Die!"

Zhou Hao's voice was like thunder. At this moment, they were competing to see who was more unlucky!

They wanted to see who was more ruthless!

Zhou Hao's eyes were bloodshot as he attacked. This time, in a few exchanges, he immediately killed two quasi Heaven Realm beasts!

Including the Storm Demon Ape, he had killed a total of three!

His luck points also instantly exceeded 100 million!

The status had also been changed to "Kiss of Lady Luck"

Chapter 360 - Arrival

Chapter 360: Arrival

Zhou Hao had been paying attention to the luck points on his Heaven Dao software. When he saw that his luck points had changed his status, he was immediately excited!

He did not expect these quasi Heaven Realm beasts to earn him so many luck points.

If he could kill the Golden Armor Alligator Turtle, who knew how many luck points he would get!

Zhou Hao was excited, but he also knew that it was a little difficult for him to kill this cowardly turtle.

However, he had to get this turtle's head!

Zhou Hao was happy and became braver the more he fought. The Black Dragon Spear in his hand could be said to be like a divine weapon. These mutated beasts did not dare to resist at all!

He also used his Five Elements Great Yan Record and the Green Wood Art together, making them flustered!

The Golden Armor Alligator Turtle was incomparably shocked and did not dare to believe it!

"This person's essence energy is actually so abundant. How is this possible? After fighting for so long, I'm already tired, but he doesn't seem to be exhausted at all!"

The gold-priced alligator's eyes widened!

They were not the only ones who thought this way. The human warriors were also stunned when they saw President Zhou becoming more and more valiant!

"President Zhou, so powerful... so powerful!"

"It's not that he's powerful, but he's just too powerful, alright? He fought so many mutated beasts alone and not only did he not lose, but he even killed three to four of them. In fact, President Zhou's aura did not even weaken!"

"President Zhou... How impressive!"

“President Zhou... is invincible!”

The human cultivators roared angrily, becoming even more valiant and fearless!

On the other hand, the foreign races were forced to retreat step by step!

It had to be known that the foreign race originally had twenty quasi Heaven Realm beasts guarding against the humans. In the beginning, the humans did not dare to fight them and could only try to ambush the tower!

However, after President Zhou arrived, the situation was different. Not only could he suppress them, but President Zhou was also powerful enough to kill multiple quasi Heaven Realm beasts!

Such combat strength was really the hope of their human race and the key to victory in the seventh spatial rift!

“Good job!”

Bai Zhenhai was extremely excited and did not dare to believe it!

“Zhu Zao told me that President Zhou is very powerful. I couldn’t really believe him at the time, but now it looks like he was telling the truth. In fact, he’s simply too powerful. He’s only a peak-level supernatural expert and a quasi Heaven Realm expert, but he’s actually able to unleash a Heaven Realm combat strength. He’s really too powerful!”

“He’s a quasi Heaven Realm expert, but he can temper his essence energy. This matter is too shocking. I’m afraid this will end up attracting the attention of the higher-ups. It’s possible for us to win this battle, but I wonder if the higher-ups will target him after that!”

“Sword King Qing said that the human race seems to be united, but with a traitor like the Dark Gods lurking around, the human race has already been infiltrated. If they have any ill intentions towards President Zhou, I’m afraid it won’t end well for him!”

“For so many years, our human race has been unable to destroy the foreign races. It’s not only because the foreign races are powerful, but also because the traitors of our human race have always been secretly working with the foreign races!”

Bai Zhenhai looked like a rough man, but he knew very well that there were traitors among the higher-ups. In fact, the situation was much worse with the higher-ups.

At this moment, the battlefield was already making everyone anxious. Zhou Hao was alone and invincible!

The Golden Armor Alligator Turtle was also beaten until it covered its head and ran like a rat. It had already thought of retiring!

“If this continues, even if I don’t die from his attacks, I’ll still be tortured to death!”

The Golden Armor Alligator Turtle’s intelligence was very high. He had lived for a long time and had seen too many things. His intelligence was not inferior to these humans. He had already discovered that there was something wrong with this human brat in front of him!

Ordinary quasi Heaven Realm experts would have long been exhausted. On the other hand, Zhou Hao only became lively the more he fought for some reason.

“Are the Machine Race beings not here yet? If they still don’t come, I won’t be able to endure it anymore!”

The Golden Armor Alligator Turtle became anxious.

However, at this moment, he suddenly felt a sense of danger. He suddenly looked up and saw that Zhou Hao’s spear was already heading straight for his head!

“Big bastard, you’re actually distracted while fighting me. Are you really not afraid of death?!”

Zhou Hao roared as the Black Dragon Spear emitted endless lightning power. It descended with a bang and directly covered the Golden Armor Alligator Turtle!

It reacted quickly and hid in the turtle shell before being blasted into the ground by Zhou Hao!

The other beasts were shocked when they saw this. The Golden Armor Alligator Turtle had the strongest combat strength here. If even he was killed, they would definitely be slaughtered!

However, they were not as scheming as the turtle. They were not thinking of escaping at all. Instead, they were waiting for the Machine Race’s reinforcements to arrive!

The big catfish swung its huge beard, and the sound of thunder shook the void as it waved fiercely at Zhou Hao. Its strength was great and its speed was as fast as lightning!

“Good timing!”

Zhou Hao shouted and the power of the God Slaying Art erupted. His spear pierced fiercely, directly cutting off one of his whiskers. With his other hand, he waved his saber, drawing countless saber lights that slashed directly onto the catfish’s huge body!

Immediately, countless wounds appeared and blood flowed out. The catfish cried out in grief as his body suddenly fell to the ground, creating a huge pit!

Zhou Hao snorted. "I'll take your life while you're ill." Without any mercy, he exploded with all his strength!

This spear strike carried endless lightning. Even the sky was dyed by this green light!

The big catfish's hair immediately stood on end, and a sense of danger of death exploded in his heart!

However, at this moment, the Golden Armor Alligator Turtle suddenly spat out a mouthful of air that turned into a long stream of water. In an instant, it also turned into ice that bombarded Zhou Hao!

Zhou Hao's expression changed. He waved his saber, and the ice immediately turned to dust. The Gold Alligator also escaped from Zhou Hao's fatal shot as it carried the big catfish away in its mouth!

"This old bastard is really good at resisting attacks! He actually survived after being hit by me!"

Zhou Hao took a deep breath and became a little anxious. Although he was killing happily, he was worried about everyone. He did not know if the Machine Race beings would arrive in the next second!

Would it bring the super molecular virus with them?!

If this virus erupted, would the humans be completely helpless?!

Therefore, he still wanted to resolve the battle as soon as possible.

Amidst his furious roar, Zhou Hao erupted with endless combat strength. Spear light surged and countless saber lights flashed. After directly killing a quasi Heaven Realm beast, his body descended like a god and attacked!

However, at this moment, a strange spatial power directly descended on the tower!

A quasi Heaven Realm aura exploded!

Zhou Hao's expression changed drastically, but the mutated beasts' expressions were filled with excitement!

"They're here, the Machine Race beings are here! They're here with the virus!"

The Golden Armor Alligator Turtle was the first to react and laughed out loud. Its voice shook the forest and spread in all directions!

At this moment, all the humans were dumbfounded. They had never expected the Machine Race to arrive!

The spatial fluctuation became more and more condensed. Finally, under the light, Zhou Hao saw a Machine Race warrior appear!

Dressed in solid armor, he looked like a robot. However, he had four limbs!

At this moment, his four hands were holding a huge metal ball that emitted a disgusting aura!

Zhou Hao's pupils constricted when he saw this!

He knew that the other party had brought the super-molecular virus!

Chapter 361 - Because Were Humans

Chapter 361: Because We're Humans

Their expressions changed drastically when they saw the Machine Race expert arrive!

Similarly, they also saw the round object in the mechanical expert's hand!

This item emitted a rich stench. Even the human warriors could smell it from afar!

"The super molecular virus has arrived..."

"Heavens... how could this be..."

"The humans are finished... the humans are finished!"

All the human experts had frightened expressions. They were dumbfounded and afraid!

It was said that the super molecular virus developed by the Machine Race was an absolute disaster for humans. Now, the appearance of this item had completely sunk their hearts!

"Hahaha, you're finally here. Human ants, you're done for!"

The Golden Armor Alligator Turtle laughed loudly when it saw this. The moment the Machine Race arrived, the seventh spatial rift would completely belong to the foreign races!

When that happened, it would be much easier for them to enter the other human territories!

They knew about this matter, and so did the humans!

Zhou Hao looked at the Machine Race expert and his expression turned ugly. He did not know how powerful this thing was, but the Machine Race had always had powerful technology. Perhaps this thing could really be effective!

The foreign races' morale was greatly improved, but when the humans saw this, they became disheartened!

When Bai Zhenhai saw this, he could no longer sit still. He did not care about breaking the agreement. He took a step forward and appeared in the air, his powerful cultivation instantly erupting!

“Die!”

As soon as Bai Zhenhai appeared, he held a long saber in his hand that was terrifyingly sharp. As soon as he attacked, he instantly tore through the sky and transformed into a flowing light!

As a fifth-grade Heaven Realm expert, he was incomparably powerful. In a situation where the Heaven Realm experts' strength were usually concealed, such combat strength was not something that anyone could see through!

However, the moment Bai Zhenhai appeared, an invisible ripple appeared in the air. A huge hand stretched out from the void and grabbed the towering saber!

“Bai Zhenhai, are you unable to sit still?”

A faint laughter sounded, and then a huge python crawled out from the spatial rift!

Although it was a python, it had horns on its head and a foot below its body. It was clearly showing signs of transforming into a flood dragon!

Seeing this ferocious beast, everyone gasped!

“Wasteland Barbaric Flood Dragon!”

“It's actually the Wasteland Barbaric Flood Dragon...”

“I didn’t expect it to be hidden here. Looks like the foreign races have made thorough preparations this time!”

This huge python coiled in the air. Its huge eyes were dim yellow like the eyes of a dead person, but the coldness it emitted made everyone shudder!

Wasteland Barbaric Flood Dragon!

A true expert of the foreign races!

It was said that the Wasteland Barbaric Flood Dragon was only a huge snake in the desert. However, for some reason, it had found a way to break through its bloodline and was actually showing signs of transforming into a flood dragon!

The Wasteland Barbaric Flood Dragon was different from the Dark Night King. The Dark Night King could only reach the Heaven Realm because of its extraordinary bloodline. It relied on the strength of its race!

However, the Wasteland Barbaric Flood Dragon was different. His strength had all been obtained step by step!

For such an enemy to be able to reach his current state, it was almost guaranteed for it to have a ruthless personality. For the mutated beast alliance to send him here, it could be seen how much importance they placed on the seventh spatial rift!

“Wasteland Barbaric Flood Dragon, it’s actually you!”

Bai Zhenhai’s expression darkened on the spot. He knew the standard of the Wasteland Barbaric Flood Dragon. He was no match for it in a one-on-one battle!

“This time, your seventh spatial rift won’t be able to escape. Bai Zhenhai, if you still don’t leave, don’t blame me for killing you!”

The Wasteland Barbaric Flood Dragon snorted coldly. Energy waves surged and suppressed an area!

Bai Zhenhai’s expression was extremely ugly. At this moment, the Machine Race expert was still holding the iron ball and was prepared to start installing it to release the virus!

Bai Zhenhai had no choice. He was blocked by the Wasteland Barbaric Flood Dragon, and the other quasi Heaven Realm experts were also helpless. The mutated beasts’ bodies were like a solid barrier between them and the tower, unable to be crossed!

This scene made everyone’s hearts turn ashen. They watched as the Machine Race expert slowly walked into the tower, revealing grief!

They knew that they had lost this battle. They had lost without any hope. The Machine Race had arrived, and so had the Heaven Realm experts. At this moment, they had already become irreversible.

Everyone felt that they would definitely lose today!

But at this moment, a spear light streaked past. Lightning filled the sky, and it let out a cry in the air. It turned into a silver beam and rushed over!

That aura advanced courageously and directly killed two quasi Heaven Realm beasts before heading straight for the Machine Race expert!

This person was none other than Zhou Hao!

He would not give up, let alone flee!

As a human of Planet Earth, how could he give up so easily? Moreover, as long as there was a chance, Zhou Hao would not give up!

“Hmm...? It’s... President Zhou...”

“President Zhou hasn’t given up?”

“That’s right. President Zhou hasn’t given up...”

They were all shocked and did not dare to believe that President Zhou was still as valiant and invincible as before. This attitude shocked them!

Even the Machine Race expert was the same. Zhou Hao’s movements were too fast, and the Wasteland Barbaric Flood Dragon was almost busy with Bai Zhenhai. Moreover, when the other mutated beasts saw Zhou Hao’s strength, they were all shocked as Zhou Hao fought his way through them.

However, although the mutated beasts could not stop him in time, the Machine Race expert also did not need their help.

With a bang, the powerful quasi Heaven Realm aura exploded with a bang, and an invisible wave spread out from his body!

He stretched out an arm that emitted cracking sounds and it instantly became a shield. It was covered in runes and had endless resistance!

As for Zhou Hao’s powerful spear, it directly slashed onto the shield. A bang immediately sounded!

The stone slab under the Machine Race expert's feet collapsed with a bang. The ground within three feet of its body trembled, but the expert still raised his arm and blocked Zhou Hao's attack!

"President Zhou, you are indeed worthy of being called the number one among the human quasi Heaven Realm experts."

The Machine Race member let out a stiff and wooden voice. However, its strength shocked everyone!

Even Zhou Hao did not expect his attack to be blocked!

"However, you guys can't handle the seventh spatial rift anymore. There's only death waiting for you. President Zhou, if you decide to serve the mutated beast army, I can spare your life!"

The Machine Race member spoke directly. As soon as he finished speaking, Zhou Hao laughed loudly.

"Hahaha... What a joke. As a mighty human warrior, how can I work together with you mutated beasts? Although we might not be able to handle the seventh spatial rift, what I want to tell you is that you mutated beasts can forget about obtaining the seventh spatial rift so easily!"

"Although we will die, as human warriors, we will never die without putting up a fight. As warriors, how can we be afraid of death?"

"For the sake of the humans of Planet Earth and the citizens of Planet Earth, we will not retreat even if we are beheaded!"

"Because we're humans!"

Chapter 362 - Do You Dare?

Chapter 362: Do You Dare?

“Because we’re humans!”

His words were like a raging fire that instantly lit up everything!

When everyone heard this, they felt a force erupt from their bodies!

That was the pride of humanity!

That was the unruly nature of the human race!

Why would a human warrior fear death?!

Behind them were millions of citizens of the human race. So what if they died if it meant that they could protect the others?

Even if they did not want to die, could they still survive in this situation?

They would definitely die either way!

Since death was inevitable, why did he have to be so cowardly? Why did he have to be afraid?

Moreover, at this moment, President Zhou was fighting so many quasi Heaven Realm beasts alone. As someone so powerful, why should he retreat?

Zhou Hao did not speak for long, but his words contained endless strength!

Bai Zhenhai laughed loudly, and the aura on his body became even more domineering and powerful. He opened his mouth wide!

“Hahaha, that’s right. Why should the warriors of our human race fear death? Come, foreign race brat, I want to see how powerful your virus is!”

Bai Zhenhai waved his arm, and the aura of the human cultivators soared!

“Hahaha, that’s right. Why should the warriors of our human race fear death?!”

“What’s there to be afraid of?!”

“At most, I’ll just suffer a bit. After twenty years, I’ll be fine again!”

“That’s right. Even if we die, we’ll drag a few of them down with us. Charge!”

The human cultivators immediately became excited. Their gloominess from before was swept away. That aura even caused the expression of the Wasteland Barbaric Flood Dragon in the sky to change!

After fighting the human warriors for so many years, this was the first time he had seen them so excited!

Not once did the human race ever act like this. Although they also resisted desperately, the difference was huge!

This time, their auras were especially powerful, and they even had the feeling that they were not afraid of death. It was as if they still wanted to fight despite knowing that they would die!

If they were not afraid of death, was there a need to say anything about how fearsome their strength was? It was definitely not something ordinary beings could resist!

The battlefield instantly lit up again, suppressing the momentum of the foreign races just now.

However, that Machine Race expert was still cold. He was not born with intelligence, but had been nurtured instead. In his dictionary, there was no fear or fear. He was just a killing machine!

Therefore, he was still not afraid even when facing the current aura of the human race!

Even after witnessing the change in the humans, he still placed the black ball on the tower without hesitation!

When Zhou Hao saw this, his expression changed and he was about to stop the other party!

However, the Wasteland Barbaric Flood Dragon also reacted.

“Bastard, what are you guys looking at? Hurry up and stop him! If he disrupts this operation, I’ll throw you guys into purgatory!”

The Wasteland Barbaric Flood Dragon immediately roared. Its voice woke up a few quasi Heaven Realm beasts. They saw Zhou Hao rush over and directly blocked him!

After all, these were quasi Heaven Realm beasts, and Zhou Hao could not turn a blind eye to them!

At this moment, the Machine Race expert had already pressed the black virus directly onto the tower!

Immediately, an invisible wave of light spread out, immediately forming a light barrier in this space!

Inside the light barrier, it was as black as ink, and a rich aura spread out!

With a stench and a disgusting aura, it exploded!

In an instant, it filled the entire spatial rift!

When everyone sensed this black aura, their expressions suddenly changed. They instantly felt the blood essence in their bodies being suppressed. Not only that, but their faces also began to turn green. Clearly, they had been infected!

“Not good!”

Bai Zhenhai’s expression changed drastically. He directly sent essence energy into his body to block this aura.

Although this aura was very powerful, Bai Zhenhai was immediately shocked when he discovered that this thing could actually be resisted by essence energy!

He was just about to get all the cultivators to use their essence energy to resist when he suddenly realized something!

Essence energy could only be used by quasi Heaven Realm and Heaven Realm experts!

Even quasi Heaven Realm experts with slightly weaker strength were unable to use essence energy!

This thing was not targeted at quasi Heaven Realm and above, but was specially targeted at ordinary martial artists!

Zhou Hao also sensed that the gas was instantly consumed by his essence energy when it entered his body. It was unable to cause any damage!

However, the other martial artists were unable to avoid it!

“They want to directly kill the ordinary human martial artists. Even if the high-level experts are still around, it’s useless if all the ordinary martial artists are killed. The seventh spatial rift will still be occupied!”

Zhou Hao understood everything and his expression turned ugly. He was burning with anxiety!

At this moment, the Wasteland Barbaric Flood Dragon also recovered and laughed!

“Bai Zhenhai, you don’t have to try anymore. This thing is useless to you, but it is lethal against ordinary martial artists. Of course, we hope to be able to deal with you. However, since those at your level are protected by essence, it’s really too difficult.”

“But dealing with them is still easy!”

“This time, your seventh spatial rift has been completely defeated!”

As soon as he finished speaking, the Wasteland Barbaric Flood Dragon immediately shouted, “Kill!”

When the mutated beasts saw that the humans had been infected, they directly rushed over!

The humans were already at a disadvantage. Now that they had been infected, they could only counterattack!

In an instant, the mutated beasts took the initiative in the battlefield. They were very powerful!

Not only that, but the spatial rift on the ground opened up, and countless mutated beasts appeared from the ground!

It was obvious that the other party was trying to take advantage of the situation. They did not want to give the humans any chance to resist!

Seeing this, everyone’s expressions darkened!

They were already infected, so the aura in their bodies was instantly suppressed. Their combat strength was directly reduced by half!

Moreover, the mutated beasts had sent out an army. This immediately multiplied the pressure on the humans!

Seeing this, Zhou Hao was completely anxious. Once the human warriors were defeated, the seventh spatial rift would completely fall!

Zhou Hao’s body moved and he directly retreated. This time, he did not continue to fight. Instead, he transformed into an endless saber beam that directly blocked the two armies, forming a barrier!

At the same time, he looked at Bai Zhenhai and immediately transmitted his divine sense.

“Heavenly King Bai, do you have a solution?”

Bai Zhenhai was also incomparably anxious, and his expression was gloomy. The moment this super molecular virus appeared, the combat strength of the human warriors decreased by half. Even he was helpless!

In this situation, unless reinforcements arrived, the seventh spatial rift was basically finished!

However, no one was able to increase their numbers at this moment!

Since the foreign races had put in so much effort, it must mean that the other spatial rifts were definitely also in chaos. They would take the opportunity to implicate all the human warriors and buy time for the seventh spatial rift!

In this way, it was really over!

Seeing that Bai Zhenhai was speechless, Zhou Hao's heart also sank.

However, right at this moment, Murong Xun spoke indifferently.

"Zhou Hao, if you want to save the humans, I have an idea. I wonder if you dare to try it!"

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 363 - Genesis Rune Charms

Chapter 363: Genesis Rune Charms

When Zhou Hao heard this, his expression immediately changed and he could not help but ask.

"What's your solution?"

Murong Xun sneered. "I'm an expert at the Heaven Realm after all. Of course I have a way, but I'm afraid you won't dare to use it!"

Zhou Hao frowned. There was nothing he could do now. At the very least, he couldn't think of anything!

Although Bai Zhenhai was a Heaven Realm expert, with the Wasteland Barbaric Flood Dragon around, he was simply unable to help the human martial artists.

The Wasteland's Barbaric Flood Dragon was already powerful. It was already difficult for Bai Zhenhai to deal with it, let alone help others!

The dozen or so quasi Heaven Realm experts including him were also unable to provide support. Under the lead of the Golden Armor Alligator Turtle, if he were to go ahead and kill a few more mutated beasts, the human race would be finished!

They had made sufficient preparations this time and mobilized the foreign race army. With the existence of the virus, it was only a matter of time before the human martial artists were killed!

Now, what they lacked was time!

Thinking of this, Zhou Hao immediately said, "Tell me, what's the solution?"

Murong Xun smiled lightly, his eyes carrying a strange expression as he slowly spat out three words!

"Genesis Rune charm!"

"Genesis Rune... charm?"

Zhou Hao cried out in surprise. His understanding of Genesis Runes was still limited to the Genesis Rune Introductory Book!

Although this thing was very extraordinary, Murong Xun had said that the Genesis Runes was the reason why he had been pursued by the Green Cloud Division!

At that time, he did not think too much about it or care too much. However, now that he heard Murong Xun say this and thought of what he had said before, Zhou Hao was instantly curious!

Zhou Hao could not help but ask, "You once said that you were pursued because of the Genesis Rune, I didn't ask why. Can you tell me now why?"

"There are too many things for me to say. I don't mind telling you, but do you think these people will survive until then?"

After Murong Xun finished speaking, Zhou Hao's expression had already turned ugly. Now that the battlefield had already begun, there was indeed not much time left for him!

However, although Murong Xun was controlled by him, Zhou Hao still could not be sure if he was friend or foe!

However, he had no other choice!

"Alright, what should I do?" Zhou Hao said directly.

“It’s very simple. You can use the Genesis Rune charm to imprison and strip away the virus to save the human race. To a Genesis Rune Master, it will only take the blink of an eye!”

“This cultivation technique involves the source of the Genesis Rune. With your talent, you will definitely be able to use it after you absorb it!”

Murong Xun smiled and extracted a white crystal ball from his soul before handing it to Zhou Hao!

He said it very casually, but Zhou Hao kept feeling that he was up to no good!

Zhou Hao hesitated as he looked at the Genesis Rune source.

“I know you’re hesitating, but don’t worry. I don’t intend to harm you. After all, I can’t occupy your body now. Secondly, I don’t want to die yet. The situation in the seventh spatial rift is getting more and more intense. I think not to mention you, even Bai Zhenhai might die!”

Murong Xun was right. In order to occupy the seventh spatial rift, the mutated beasts could be said to have put in a lot of effort. They had even used some hidden trump cards!

The ground trembled, and many mutated beasts continued to crawl out of the spatial rift!

The commotion was shocking!

“Let’s go all out!”

Zhou Hao gritted his teeth and directly absorbed the white crystal ball. In an instant, the Genesis Rune cultivation technique was reflected in Zhou Hao’s head!

Without any hesitation, he immediately checked his compatibility score. In an instant, his compatibility score reached 80%!

This scene shocked Murong Xun. He had not expected Zhou Hao to instantly reach such a compatibility level after absorbing his Genesis Rune source!

Zhou Hao also sensed an ancient power through the Genesis Rune. This power was extremely deep and mysterious!

At the same time, Zhou Hao seemed to sense a pair of eyes looking at him!

That feeling was as if he had been targeted by someone. It was cold and carried thoughts that he could not understand. It made his scalp turn numb and his back turned cold!

“Quick, control the runes to imprison the virus!”

Murong Xun immediately spoke, but Zhou Hao did not have the time to think about why he would have such a reaction after the source of the Genesis Rune entered his body. However, the battle was currently intense, so he still directly attacked!

Using the Genesis Rune in his mind was as easy as waving an arm or a finger. The cultivation technique was directly 80% compatible, making it very easy to use!

Zhou Hao stretched out his hand. Immediately, the void trembled, and countless ancient words appeared!

No one recognized these words. They appeared in the void with an ancient strength, as if they belonged to the void and this world!

As the runes appeared, Zhou Hao’s control of this world became even clearer!

He could clearly sense the auras of all the humans in the void. He could even sense this virus!

“The Genesis Rune symbol has appeared. Condense space and seize the virus. You only have a few minutes. After doing this, run. If you’re late... you’ll definitely die!”

Murong Xun’s voice was very anxious and almost shouted out!

Zhou Hao could also sense a danger slowly approaching. He did not know what was going on, but it was more important for him to focus on the task at hand.

Zhou Hao directly attacked. Countless runes were imprisoned in the air, and a strange force erupted, directly condensing around the seventh spatial rift!

Everyone was shocked. Looking at the countless runes above their heads, they were all stunned. The weak martial artists did not understand what this was at all. However, Bai Zhenhai understood, and so did some quasi Heaven Realm martial artists. Their expressions immediately changed drastically as they exclaimed!

“Genesis Rune forbidden technique!”

Zhou Hao naturally heard it too, but he ignored it. Instead, his body soared into the sky, and lotuses bloomed under his feet, transforming into countless runes!

He waved his hand and shouted!

“Strip!”

This word was like an imperial decree. Countless runes burst out from Zhou Hao and the void. In the next second, a huge ancient symbol condensed in the air!

As soon as this symbol appeared, be it the virus particles in the air or the virus particles in the human martial artist's body, they trembled violently. As if they had been ordered, they were directly dispelled and absorbed by the symbol in the sky!

This scene made everyone widen their eyes. Even the Wasteland Barbaric Flood Dragon was stunned!

However, the shock and fear in the enemies' eyes were even greater!

"This... this is... the power of Genesis Runes! The power of sin!"

After Zhou Hao did all of this, the essence energy in his body was instantly exhausted. The sense of danger became even clearer, but he still turned around and clenched his fist!

With a clench, countless runes continued to surge and land on the tower. Even the Machine Race experts and the quasi Heaven Realm beasts guarding the tower were imprisoned!

"Destroy!"

Zhou Hao shouted another word. Blood flowed from his seven apertures as his entire body trembled. However, in the next second, that space, along with the tower and the mutated beasts, was directly obliterated!

It was also at this moment that a huge spatial rift suddenly appeared in the sky, and a large hand grabbed fiercely at Zhou Hao!

However, after doing this, Zhou Hao used all his strength to use the Golden Crow Escape Technique and directly disappeared from his spot!

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 364 - Problem

Chapter 364: Problem

The huge hand landed with a bang, leaving a huge palm print on the ground!

However, the hand still missed. A furious roar sounded in the void before it gradually disappeared!

Everyone was shocked. Not just the humans, but also the mutated beasts!

At this moment, everyone forgot to fight!

The weaker warriors were shocked by the huge hand that stretched out from the sky!

However, those experts were shocked by the Genesis Rune President Zhou had just used!

Their gazes were filled with fear, confusion, and confusion. In short, they were incomparably complicated!

“How could this be... why would President Zhou know how to use... the power of the Genesis Rune...”

The one who asked this question was Bai Linglong. Her pretty face was pale, as if something bad had happened.

Even her delicate figure couldn't help but tremble!

Even Bai Zhenhai muttered to himself, his words revealing an unfathomable meaning.

“Genesis Rune... such a powerful Genesis Rune, could it be... that another traitor is about to appear in our human race...”

The Wasteland Barbaric Flood Dragon snorted coldly.

“Bai Zhenhai, I want an explanation from your human race. If you can't, our foreign races won't let this matter rest!”

After saying this, it immediately disappeared into the void as if it was afraid!

The Golden Armor Alligator Turtle and the others were the same. They fell to the ground and instantly disappeared.

The mutated beasts were the same. It was as if the undispersed Genesis Rune power in the sky was the end of all evil. It made them afraid, made them panic, and made them not dare to stay on this land!

When the human warriors saw this scene, they heaved a sigh of relief. The virus in their bodies had been cut off, and the tower had also been destroyed. Several quasi Heaven Realm beasts had also been destroyed!

They became excited and shouted.

“We won... we won...”

“Haha, that’s great. We won. President Zhou is invincible, President Zhou is invincible!”

“I didn’t expect President Zhou to be so powerful. He shattered the tower in a single move and destroyed several quasi Heaven Realm beasts!”

“Haha, our human race is indeed magnificent. With an expert like President Zhou, we will definitely win!”

Although the human warriors were excited, those quasi Heaven Realm experts could not be happy!

They arrived beside Bai Zhenhai and hurriedly asked.

“Heavenly King Bai, what should we do... what should we do... the power of the Genesis Runes has returned again!”

“That’s right... Heavenly King Bai, that President Zhou actually knows this power. What should we do...”

“He... still saved all of our lives. Will... will the higher-ups blame us?”

They could not help but speak. Their voices were uncertain, puzzled, and even worried.

Bai Zhenhai took a deep breath and slowly exhaled with a bitter smile.

“This matter... is not up to me to decide. It’s true that President Zhou saved us, but anyone who controls that power will become the enemy of the humans...”

As soon as his words fell, these quasi Heaven Realm experts all fell silent. They understood how horrifying and terrifying that power was!

Most importantly, this power should not have belonged to humans or mutated beasts!

It should not have appeared in the world!

“Just wait. Soon, the higher-ups will give the order to capture President Zhou!”

Bai Zhenhai sighed. He blamed himself very much. President Zhou was the one who had saved them, but he had no choice but to give this order!

This was because he knew what the higher-ups would decide!

“Do we really have to capture President Zhou... He... he saved us...” Bai Linglong bit her red lip and said directly.

“I know...” Bai Zhenhai sighed.

“Although I’m not very familiar with President Zhou, I believe that he will definitely not betray our human race... Definitely not!”

Bai Linglong spoke directly with determination in her eyes!

“Yes... everyone thinks so too, but... sigh... Linglong, let’s put this matter aside. You should still bring your students back to the thirteenth training base. Just pretend that you don’t know about this!”

Bai Zhenhai said.

Bai Linglong wanted to say something, but she suddenly thought of someone!

Zhou Hao!

Many people knew that Zhou Hao’s master was President Zhou. Perhaps, this person knew something!

Therefore, thinking of this, she did not hesitate to go to the training camp.

At this moment, Zhou Hao appeared in the training camp and in his room. He changed his clothes and suddenly spat out blood, his aura instantly weakening!

“Damn, the strength of this Genesis Rune is so powerful. Not only did it drain my essence energy, but it even took away a tenth of my blood essence!”

Zhou Hao was extremely depressed. At this moment, he did not have the time to say anything. He hurriedly took out his Energy Bar and Ancestral Stone and began to absorb and heal!

Fortunately, Zhou Hao’s physique was abnormal. Although he was severely injured, he still mostly recovered after absorbing dozens of Energy Bars and more than ten Essence Energy Ancestral Stones!

Zhou Hao slowly opened his eyes. He immediately pulled out Murong Xun's soul. A cold light was placed between his eyebrows. With just a thought, Murong Xun would instantly die and his soul would be destroyed!

"You want to kill me? I helped you save so many human martial artists!" Although Murong Xun said this, he was not worried at all because he knew that Zhou Hao would not kill him!

After all, Zhou Hao still had many questions he wanted answered.

Why was the Genesis Rune so burdensome?!

Why was the Genesis Rune so powerful?!

Why would the Genesis Rune attract the huge hand in the sky?!

He also wanted to know why the humans and mutated beast experts had such expressions when they saw the Genesis Rune!

He knew that Zhou Hao definitely had many questions, and only he could answer them!

"Hmph, Murong Xun, what are you planning? You made me study Genesis Runes and almost killed me!" Zhou Hao snorted. At this moment, he realized that he had probably been tricked!

"Zhou Hao, do you think I lied to you and even manipulated you?" Murong Xun smiled and said directly.

Zhou Hao did not speak, but the meaning in his cold eyes was obvious!

"Hehe, you, I knew you would think this way. Actually, I can tell you the truth. The power of Genesis Runes is a joint agreement between the mutated beasts and humans. Neither party is allowed to cultivate the Genesis Runes, This is a prohibition that no one is allowed to disobey!"

"Any martial artist who learns the Genesis Runes must die!"

"No matter who you are or where you live, as long as you involve yourself with the Genesis Rune, you will be the common enemy of humans and mutated beasts!"

"There's nothing reasonable about this. That's why I asked you if you dare to use it. That's why I also told you that you have to run after using a Genesis Rune!"

"Not only do the mutated beasts and humans want to kill you, but those ancient fellows also want you dead!"

Chapter 365 - Secret

Chapter 365: Secret

Basically, Murong Xun was saying that Zhou Hao would definitely die!

Zhou Hao's expression immediately changed. He was not a narrow-minded person. At this moment, he understood Murong Xun's words and retracted his imprisoning power with a solemn expression.

He also did not regret becoming a human warrior. He was only curious as to why someone who learned the Genesis Runes had to die!

What was the connection?!

"Murong Xun, tell me in detail what happened!" Zhou Hao said directly.

Murong Xun took a deep breath and said.

"Actually, I didn't investigate this matter clearly either. The reason why I was able to obtain the power of the Genesis Rune was because I obtained it in a forbidden area where the source of the Genesis Rune was located. Similarly, I left behind an encrypted document that stored information. After I deciphered it, I learned an extremely ancient story!"

"It's said that there were Genesis Runes at the beginning of the global change. This technique was powerful and was ranked first in the world. At that time, the leader of the human race was a powerful martial artist who had learned Genesis Runes and ruled the entire human race!"

"At that time, the foreign races were still the same as they are now. They wanted to invade the human race's land and there would be endless war. However, with that person around, the foreign races didn't dare to appear in the spatial rifts. The spatial rifts are also under the jurisdiction of the human race."

"But for some reason, the human martial artist who learned the Genesis Rune suddenly had a drastic change in personality. He slaughtered more than half of the martial artists

and even most of the mutated beasts. He wanted to end everything and make the world void of martial artists!"

When Murong Xun said this, Zhou Hao was immediately stunned.

"He wanted to kill all the martial artists? To make the world void of martial artists?"

"That's right. I don't know the exact reason, but this was what was written in the document. The document also stated that the power of the Genesis Rune does not belong to this world and that there is a huge reason behind the global mutation. It also claims that that person wants to kill all the martial artists to save the world!"

Murong Xun's words were very contradictory, and Zhou Hao was even more confused.

"Kill all the martial artists to save the world... Are you joking?" Zhou Hao could not help but ask.

"I'm not joking. That's what was recorded in the information. It also said that those who learn some Genesis Runes will have a chance to learn the truth. When they do, they will make the same decision. Because only then can they save the world!"

Zhou Hao was very surprised when he heard Murong Xun's words. He did not understand what they meant!

"Later on, the powerful martial artist who studied Genesis Runes was ultimately unable to do anything. After slaughtering most of the martial artists, he could not bear to part with them and broke through the void, leaving for three years."

"Three years later, a spatial rift appeared and his corpse fell from the void. No one knew what happened, but he was already dead!"

"From then on, Genesis Runes were classified as a forbidden technique. Mutated beasts and humans also had this agreement. Anyone who studied Genesis Runes would become a public enemy!"

At this point, Murong Xun did not speak anymore. However, Zhou Hao still had more questions to ask.

As a human martial artist, if this person had the ability to kill so many people, why did he have to kill all the martial artists instead of annihilating the foreign races?!

Why would he do such a thing when he said that he wanted to save the world?!

Also, where had he been for the past three years?

Zhou Hao had more questions.

Zhou Hao looked at Murong Xun and asked, "Murong Xun, in that case, why did you cultivate this Genesis Rune? Could it be that you understand this secret?"

"Me? I don't believe this news, but I have to say that Genesis Runes are indeed powerful. Therefore, I naturally have to learn it. It's just that the Green Cloud Division found out about this and I ended up getting hunted down." Murong Xun sighed.

"During this period, I also thought of ways to find the truth, but I still couldn't find anything. However, I know that this strength is indeed powerful. And I've also sensed the huge hand that attacked you today before!"

"I don't know if it's a human, a mutated beast, or if it doesn't belong to this world!"

After Murong Xun finished speaking, Zhou Hao was even more shocked!

"Not from this world? What do you mean?" Zhou Hao immediately asked.

"I'm just guessing. Back then, as an expert of the Heaven Realm, I knew a lot of secrets. Be it us human martial artists or mutated beasts, none of us had that kind of power. Therefore, I suspect that the owner of that huge hand does not belong to this world!"

The words Murong Xun said to Zhou Hao today simply subverted Zhou Hao's values. He did not dare to believe it and after hearing it, his head was even filled with confusion!

"This matter happened a long time ago, so long that it happened before the global mutation even occurred. I even suspect that the history we currently know about is completely false!"

"However, I can confirm one thing. There are no traces of this Genesis Rune Master. There is no news of him in the human race. I suspect that everything about him has been wiped out!"

Zhou Hao still believed Murong Xun's words. After all, there was no need for him to lie to him.

Moreover, as an expert of the Heaven Realm, Murong Xun was probably just curious back then.

As a high-level expert, he had the ability to investigate related secrets. However, since there was still no Genesis Rune Master, he naturally had his suspicions!

"Perhaps it has really been wiped out..."

Zhou Hao sighed. After hearing Murong Xun say so much, he became even more confused.

“Now that I’m President Zhou, I can’t easily show my face because of the Genesis Rune matter. What should I do?!”

Zhou Hao sighed. He still wanted to kill mutated beasts to exchange for luck points and reduce the pressure on the frontline!

“You killed seven to eight quasi Heaven Realm beasts today and relieved a lot of pressure on the human martial artists. However, you might have also caused a lot of trouble.”

Murong Xun smiled and couldn’t help but say.

Zhou Hao knew that as a human, he had cultivated a Genesis Rune. The foreign races would not let this matter rest!

However, at this moment, he couldn’t care less. According to Murong Xun, he was probably being targeted by everyone. Be it humans or mutated beasts, they would all want to take his life!

“You don’t have to worry too much. I’ve experienced these things in the past. You’re smarter than me. Until now, no one has seen your appearance. Therefore, you can still show your current identity to others. Unlike me, back then, I was like a rat that ran across the street, hiding everywhere.”

Murong Xun smiled lightly and was not worried at all.

Zhou Hao rolled his eyes and thought to himself that this Murong Xun really knew how to comfort people!

But at this moment, Zhou Hao felt a powerful aura approach. His expression changed, and he thought that someone had realized that he was President Zhou. Just as he was about to run, Bai Linglong’s voice sounded.

“Zhou Hao, it’s Instructor Bai.. I have something I need to ask you.”

Chapter 366 - Probing

Chapter 366: Probing

Zhou Hao's originally nervous expression finally relaxed.

However, his expression still changed!

It was still problematic for Bai Linglong to come and find him. This was because although the fact that he was President Zhou's disciple was not publicized, many people still knew!

She must have come because of the matter at the seventh spatial rift!

Thinking of this, Zhou Hao took a deep breath and prepared to ask.

Opening the door, Zhou Hao saw Bai Linglong, who was covered in sweat. She was wearing tight armor, showing off her sexy body vividly. At this moment, because she was nervous or some other reason, her pretty face was red.

Seeing her like this, Zhou Hao couldn't help but think of the matter between the two of them in the Abyss of Sin and immediately felt a little awkward.

Bai Linglong did not know about Zhou Hao's thoughts at all. She did not treat Zhou Hao as President Zhou at all and only as her student.

Seeing Zhou Hao open the door, she hurriedly walked into the room and waved her hand. She used her essence energy to set up a barrier and said directly.

"Zhou Hao, where's your master?"

This question made Zhou Hao understand that she was indeed here to ask about that matter!

"My master? Are you talking about... President Zhou?" Zhou Hao began to act.

Bai Linglong immediately nodded and hurriedly said, "Can you contact your master?"

Zhou Hao coughed dryly and shook his head. "My master is elusive. It's not easy for me to find him. He's the one who approaches me every time. Instructor Bai, what happened? Or, is there something you want to tell me?"

After Zhou Hao finished speaking, Bai Linglong immediately revealed a disappointed expression, but she still recovered. "It's nothing much. It's just that I want to ask him to help out in the seventh spatial rift."

"Is that so? My master is very powerful and is especially good. To be honest, Instructor Bai, I admire my master the most. As a human warrior, he saved countless human warriors on the bloody battlefield and slaughtered mutated beasts like a dog. Hehe, if only I were that powerful!"

Zhou Hao said this deliberately because he wanted to see Bai Linglong's reaction!

Indeed, upon hearing this, Bai Linglong's expression changed slightly. Although it was only for a moment, Zhou Hao still sensed it.

Bai Linglong glanced at Zhou Hao and pretended to be relaxed. "Indeed, your master is loved and respected by many martial artists. They all admire your master very much. By the way, Zhou Hao, I want to ask you a question. You have to answer me truthfully and not lie to me. Moreover, you have to promise me that you won't tell anyone about this in the future!"

When Zhou Hao heard this, he knew that the key question was about to be asked. He smiled and said, "Instructor Bai, if there's anything, just ask. I'll definitely tell you everything I know."

Bai Linglong nodded and asked, "Did your master tell you that he knows a Genesis Rune?"

"Genesis Rune? What's that? I've never heard my master mention it." Zhou Hao's expression did not change, nor did he hesitate.

Bai Linglong had been paying attention to Zhou Hao's expression since the beginning. As long as Zhou Hao made any subtle expression changes after hearing about the Genesis Rune, it would not escape her eyes.

However, to her disappointment, Zhou Hao acted very indifferent. He seemed as if he really did not know!

"Oh, oh, never mind then." Bai Linglong was somewhat disappointed. She thought that Zhou Hao would know something.

With that said, Bai Linglong was about to leave, but Zhou Hao stopped her.

"Instructor Bai, what happened? Did something happen to my master?!"

Zhou Hao was still acting and appeared very nervous.

"Instructor Bai, you don't have to lie to me. I can tell from your expression that something must have happened to my master. Tell me, is my master injured?!"

Zhou Hao took the initiative and asked, "Since you're unwilling to tell me, I'll ask!"

Hearing Zhou Hao's words, Bai Linglong's gaze turned evasive as she said indifferently, "No, your master is so powerful. How could he be injured?"

"Instructor Bai, I think you're lying to me. I can sense that you're lying from your eyes. Tell me quickly what's wrong with my master. He's so good to me and even taught me cultivation techniques. I have the right to know what's wrong with him!"

Zhou Hao's attitude was firm. At the same time, he pretended to be very worried and anxious.

Bai Linglong sighed in her heart. In her eyes, Zhou Hao seemed like a good child and was so nervous about President Zhou. However, she couldn't tell him everything.

"President Zhou is missing. We're all looking for him... But you don't have to worry. President Zhou is not dead. We... we can detect that he's still alive."

Bai Linglong did not know what to say and could only say this.

Zhou Hao blinked. He did not expect Bai Linglong to be so good at lying. What did she mean by missing? He was only missing because they wanted to kill him!

"Missing? Could my master have been captured by the mutated beasts? The mutated beasts hate my master to the core. After all, my master has killed too many mutated beast experts for the human race. He's a good person and a heroic warrior of the human race. Instructor Bai, you have to save my master!" Zhou Hao pretended to be very nervous and said directly.

Bai Linglong sighed. "I know. Your master is a good person. Don't worry, we'll try our best to find him."

"Alright, get ready. We'll return to the training base tomorrow."

With that said, Bai Linglong left.

Although Zhou Hao did not ask anything, judging from Bai Linglong's anxious expression, Zhou Hao knew that she definitely did not believe that he was a bad person.

However, it was useless for her to not believe it. After all, none of the higher-ups would believe him.

After all, history had provided enough evidence. They would not allow a second Genesis Rune Master to wipe out all the martial artists!

"Sigh... I didn't get anything from her." Zhou Hao sighed.

"Of course. Although she's a quasi Heaven Realm expert and the Bai family is a respected general and a pillar of the human race, she still doesn't have the authority to know about this," Murong Xun could not help but say.

Zhou Hao naturally knew. He had never expected to learn a huge secret from Bai Linglong. Even if Bai Linglong knew, she wouldn't tell him!

What Zhou Hao wanted to know was her attitude!

If Bai Linglong did not think that she was a bad person, then there would definitely be people among the human warriors who thought the same!

That was enough for him!

Zhou Hao could only let this matter go like this. He sighed and did not have any ideas. Then, he lay on the bed and opened the Heaven Dao software!

Just as he entered, he opened his mouth!

After killing so many quasi Heaven Realm beasts, his luck points had already reached close to a billion!

Behind the luck points was a string of words that made him excited!

The blessing of the Queen of Luck!

This time, it was not Lady Luck!

It was the Queen of Luck!

Zhou Hao was immediately excited. With such luck points, didn't it mean that he could get anything he wanted?

However, this time, his gaze was not only focused on the platinum mystery box, but also the diamond mystery box!

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 367 - Crazy

Chapter 367: Crazy

Zhou Hao stared at the diamond mystery box. It was not only because the reward for the diamond mystery box was high, but because only by becoming a diamond user would one become a high-level user of the Heaven Dao software!

Although there was only a word difference between a high-level and intermediate-level user, it had to be said that there was a world of difference!

However, the number of Heaven Dao coins needed to advance from platinum to diamond was simply an astronomical figure!

This number was not something ordinary people could afford at all. It was really too much!

Zhou Hao looked at the string of numbers he needed and stopped in his tracks!

He needed more than a trillion Heaven Dao coins!

Zhou Hao immediately fell silent. He looked at his bag and realized that he could only exchange for hundreds of billions of Heaven Dao coins. Moreover, he had been crazily buying gifts recently and was still lacking 2 trillion Heaven Dao coins to open the mystery box!

What should he do to get this much money?

The fastest way was naturally to kill beasts and sell them!

Unfortunately, he could no longer use his status as President Zhou.

First of all, the cooperation with Heavenly King Zhu was unable to continue. Moreover, was he supposed to use another identity to kill quasi Heaven Realm beasts and sell the corpses of mutated beasts?

Although this idea was unrealistic, Zhou Hao had no other choice!

But at this moment, his gaze landed on the shop on the Heaven Dao software!

Zhou Hao knew that only by obtaining 100 rare-level treasures would he be able to open the shop. And the rare-level treasures he had obtained only numbered in the dozens!

Should he activate this shop?

Zhou Hao was very curious about what was in this shop. If there was anything that could help him, wouldn't he make a killing?

Moreover, this Heaven Dao software had never disappointed him. He was certain that there must also be something special about this shop!

Thinking of this, Zhou Hao did not say a word and prepared to start bombarding the Heaven Dao software!

And when Zhou Hao appeared in the software, countless people crazily tagged him.

“@ I’m just an ordinary person. Big shot, are you busy today or are you opening mystery boxes?”

“@ I’m just an ordinary person. That’s right, big shot. You haven’t been in the live-stream or the mystery box area recently. We’re all so lonely without you!”

“That’s right. Everyone here misses you. What is the big shot planning to do today? @ I’m just an ordinary person.”

Zhou Hao smiled and replied with two words.

“The shop.”

As soon as he said this, it was like a heavyweight bomb had dropped, raising the spirits of countless users of the Heaven Dao software.

“Damn, the shop!”

“Is the big shot planning to open the mystery box and open the shop? You need 100 rare-level treasures!”

“How ridiculous. Who do you think this is? This is the big shot!”

“That’s right. The big shot is simply unpredictable when it comes to opening the mystery box. @ I’m just an ordinary person. Big shot, let’s begin. Let us be dominated by rare-level treasures!”

Seeing them like this, Zhou Hao also smiled. He directly emptied his wealth and exchanged for billions of Heaven Dao coins before starting the draw!

Countless white mystery boxes landed in Zhou Hao’s backpack. Without hesitation, Zhou Hao began to open the mystery boxes crazily!

“Ding! Congratulations on opening the mystery box and obtaining a high-level item—Dragon Horn Fragment. This item has been placed in your backpack. Please take note!”

“Ding! Congratulations on opening the mystery box and obtaining a high-level item—Parro Blood Essence. This item has been placed in your backpack. Please take note!”

“Ding! Congratulations on opening the mystery box and obtaining a high-level item—King’s Ring. This item has been placed in your backpack. Please take note!”

“Ding! Congratulations on opening the mystery box and obtaining a rare-level item—Angel’s Sigh. This item has been placed in your backpack. Please take note!”

“Ding! Congratulations on opening the mystery box and obtaining a rare-level item—Square World. This item has been placed in your backpack. Please take note!”

“Ding! Congratulations on opening the mystery box and obtaining a rare-level item—Spirit Explosion Sword. This item has been placed in your backpack. Please take note!”

“Ding! Congratulations on opening the mystery box and obtaining a rare-level item—Reincarnation Pill. This item has been placed in your backpack. Please take note!”

...

In an instant, the public chat was occupied by Zhou Hao. Everyone watched this scene and went crazy!

“Damn, one, two, three, four, five... There are a total of 15... rare-level treasures!”

“Heavens, @ I’m just an ordinary big shot. You’re too ruthless. How many mystery boxes are you opening?!”

“He’s getting so many rare-level items. The big shot will definitely be able to unlock the shop today! @ I’m just an ordinary person.”

“That’s right, big shot. I’ve seen that Reincarnation Pill before. What’s its use? Can you really be reincarnated with it?”

They were all extremely shocked and began to tag Zhou Hao crazily, asking many questions.

However, Zhou Hao did not have the time to care about them. Instead, he looked at the shop icon. Although it had lit up a little, he still needed a lot more rare-level items!

He had not finished yet!

Therefore, Zhou Hao did not say a word and directly began the second bombardment!

“Ding! Congratulations on opening the mystery box and obtaining a rare-level item—Machine Arm. This item has been placed in your backpack. Please take note!”

“Ding! Congratulations on opening the mystery box and obtaining a rare-level item—Inheritance Silver Wing. This item has been placed in your backpack. Please take note!”

“Ding! Congratulations on opening the mystery box and obtaining a rare-level item—Triple Essence Energy Art. This item has been placed in your backpack. Please take note!”

“Ding! Congratulations on opening the mystery box and obtaining a rare-level item—Million Space Fragment. This item has been placed in your backpack. Please take note!”

“Ding! Congratulations on opening the mystery box and obtaining a rare-level item—Regeneration Art. This item has been placed in your backpack. Please take note!”

...

Zhou Hao bombarded the Heaven Dao software again, making them even more dumbfounded!

Rare treasures appeared one after another on the public chat, making them cry from envy.

It could be said that 20 to 30 rare-level treasures had appeared at once today. Perhaps in the history of the Heaven Dao software, this was the first time someone got so many treasures in a single day!

Even those diamond users jumped out!

“Damn, @ I’m just an ordinary person. This is what a real big shot should be like. Could it be that you’ll become the first person to unlock the shop today?”

“First... Heavens, @ I’m just an ordinary person. All the best. We believe in you!”

“@ I’m just an ordinary person. Big shot, go ahead. We want to witness this historical scene. We want to see you unlock the shop!”

“Big shot, invincible, powerful big shot!”

Zhou Hao did not have the time to care about them. Looking at the shop and the luck points he had spent, Zhou Hao knew that the outcome would be decided this time!

Zhou Hao did not hesitate and opened all the remaining mystery boxes!

With a bang, the entire Heaven Dao software continued to go crazy!

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 368 - Becoming a Host

Chapter 368: Becoming a Host

“Ding! Congratulations on opening the mystery box and obtaining a rare-level item—Three Primordial Pill. This item has been placed in your backpack. Please take note!”

“Ding! Congratulations on opening the mystery box and obtaining a rare-level item—Fuxi Bow Fragment. This item has been placed in your backpack. Please take note!”

“Ding! Congratulations on opening the mystery box and obtaining a rare-level item—Earth Fragment. This item has been placed in your backpack. Please take note!”

“Ding! Congratulations on opening the mystery box and obtaining a rare-level item—Spirit Meridian. This item has been placed in your backpack. Please take note!”

“Ding! Congratulations on opening the mystery box and obtaining the legendary item—Tyrant Dragon Spear Technique. This item has been placed in your backpack. Please take note!”

The mystery box continued to be opened, and the public chat continued to go crazy!

The people from the Heaven Dao software were shocked. They were all looking at this scene. Perhaps they could really witness him unlock the shop today.

Zhou Hao was very crazy. He watched as the shop icon lit up and crazily clicked on the mystery box!

He had too many treasures on him, so much that Zhou Hao did not have the time to care about them. Instead, he directly threw them into his bag and continued to open the mystery boxes!

Fairy Yue Ling was also frightened. Seeing the scene on the public chat, she did not have the time to live-stream and went to the front page to watch this scene in shock!

Zhou Hao's hand did not tremble and his expression was calm. He looked at these treasures and suddenly his gaze fell on the legendary cultivation technique!

“Tyrant Dragon Spear Technique!”

Zhou Hao was immediately very excited when he saw this cultivation technique. This was because he already had the Black Dragon Spear. If he had the support of the Tyrant Dragon Spear Technique, it would definitely be like adding wings to a tiger!

However, Zhou Hao still did not have the time to care about it. He continued to open the mystery box. He wanted to unlock the shop today and see what was inside!

“Ding! Congratulations on opening the mystery box and obtaining a rare-level item—Ancient Origin Formation. This item has been placed in your backpack. Please take note!”

“Ding! Congratulations on opening the mystery box and obtaining a rare-level item—Ling Dong Cultivation Technique. This item has been placed in your backpack. Please take note!”

...

The spam messages continued. Everyone fell silent at this moment. They were dumbfounded as they looked at the constantly flashing notification on the public chat!

“Congratulations, ‘I’m just an ordinary person’, for obtaining a rare-level item...”

“Congratulations, ‘I’m just an ordinary person’...”

“Congratulations...”

In the end, the speed of the text couldn’t even catch up to the speed of the rare-level items appearing in the mystery box!

Zhou Hao ignored the treasures and stared at the shop!

After an unknown period of time, Zhou Hao was already numb!

However, at this moment, the entire Heaven Dao software lit up with a golden light. Everyone saw this scene.

Then, a line of large words appeared on the public chat!

“Congratulations to the user ‘I’m an ordinary person’ for opening the hidden function of the Heaven Dao software—The Shop!”

“Congratulations to the user ‘I’m just an ordinary person’ for receiving the reward—Heaven Dao coins, 5 trillion!”

“Congratulations to all users. The shop function has been updated. All users need to unlock it themselves.”

Three lines of notifications quickly appeared. As the Heaven Dao software lit up, everyone was shocked!

“Heavens... it’s been unlocked?”

“The Heaven Dao software has already appeared on the public chat. It must be...”

“The first... the first... How impressive! @ I’m just an ordinary person. Big shot, you’re too powerful!”

Although they were shocked, everyone kept sending messages at this moment.

“Big shot, why don’t you open a live-stream and let us see what’s in this shop! @ I’m just an ordinary person.”

“That’s right. @ I’m just an ordinary person. Big shot, if you want to start the broadcast, I’ll definitely send you gifts!”

“@ I’m just an ordinary person. That’s right, that’s right. Big shot, I hope you can satisfy us. You have to do a live broadcast!”

When Zhou Hao saw this, he did not expect these people to let him do a live broadcast.

To be honest, he did have some ideas. After all, his source of Heaven Dao coins had already been cut off. If he started a live broadcast, these people would give him gifts. It would be a good harvest!

Thinking of this, Zhou Hao typed a single word on the public chat.

“Sure.”

This word made everyone cheer!

“@ I’m just an ordinary person. The big shot is mighty. The big shot is great!”

“A big shot is a big shot. He doesn’t care either way. @ I’m just an ordinary person.”

“The big shot is willing to share the shop with us. It really makes me excited. If not for the big shot’s live-stream, I might never be able to see what’s in the shop in my life!”

They were extremely excited. Zhou Hao was also prepared to start a live broadcast at this moment, but at this moment, Fairy Yue Ling’s private message arrived.

“Big shot, are you really going to start a live stream?”

Zhou Hao was stunned for a moment and could not help but ask, "What's wrong, Fairy Yue Ling?"

"Big shot, I advise you not to start a live stream. As long as you start a live stream, you have to satisfy the time limit. Otherwise, you might violate the rules and get your account banned!"

Hearing this, Zhou Hao was immediately dumbfounded. He did not have that much time to keep doing live broadcasts!

"What should I do then? Is there no other way?" Zhou Hao could not help but ask.

Fairy Yue Ling quickly typed on the chat box.

"There's other ways. As long as the big shot doesn't sign the contract, you'll be fine. As a free streamer, you can broadcast whenever you want to. If you don't want to broadcast, you can do so as well and no one will restrict you. However, I'm afraid that if you don't sign a contract with the Heaven Dao software, it will very likely restrict your popularity!"

Fairy Yue Ling was a streamer after all and knew these things very well. Therefore, Zhou Hao still believed her.

Moreover, hearing Fairy Yue Ling say this, he was really a little tempted.

"Then can I still receive gifts?" Zhou Hao asked.

"Of course. However, you have to split it 50-50 with the Heaven Dao software because you didn't sign a contract. If you do sign a contract, you will get 70% instead."

That's quite a large difference. No wonder so many streamers signed contracts!

However, Zhou Hao did not really want to become a streamer as he still wanted his freedom. He was just trying to share this Heaven Dao software shop feature with everyone!

"Then I'll be a free streamer. How can I become one?" Zhou Hao asked.

"It's very simple. Open the host page. There's a self-stream button in the upper left corner. After tapping on it, there are two choices. One is to sign a contract, and the other is to be a free streamer. Whether it's the price or the requirements, there will be a detailed introduction. Big shot, you can take a closer look."

Fairy Yue Ling spoke at this moment, and Zhou Hao did as she said!

Soon, it was time for Zhou Hao to choose to sign the contract or not. Without hesitation, Zhou Hao clicked on “No”.

Then, a notification arrived.

“Congratulations, ‘I’m just an ordinary person’, for becoming an amateur streamer.”

Chapter 369 - Opening the Shop

Chapter 369: Opening the Shop

The moment this news appeared, all the users in the Heaven Dao software exploded!

“@ I’m just an ordinary big shot. You’re too awesome!”

“@ I’m just an ordinary big shot. Quickly start the live-stream. We want to go in and take a look at the mall!”

“Yeah, @ I’m just an ordinary big shot. Hurry up and start the live-stream. We want to take a look!”

These people crazily tagged Zhou Hao. Zhou Hao also smiled and directly opened the live-stream room. Then, he made a live-stream room.

Although Zhou Hao had been to some live-stream rooms, this was the first time he had made one himself. He was a little curious and looked at the page of the live-stream.

Similarly, it was very simple and did not have many complicated things.

There were several functions in the live-stream room. One of them was a gift bag. The bag must be used to receive the gifts given by the users.

Secondly, there were many live-stream options available, such as video broadcast or audio broadcast.

The last option was a screen broadcast, which would only share the contents on the screen.

This was the choice Zhou Hao wanted the most at this moment.

Other than these, there was also the ranking. Zhou Hao's current ranking did not have a number at all. It should be below one billion.

Only when one's popularity reached a certain level would they have the chance to enter the range of 1 billion, just like Fairy Yue Ling.

However, this ranking took into account two factors. One was popularity, and the other was the value of gifts.

In other words, only after summarizing the popularity and gifts would the rankings on the entire Heaven Dao software live-stream be calculated.

However, there was one word in the upper left corner of Zhou Hao's live-stream.

Amateur.

In other words, Zhou Hao had not signed the contract with the software. Although he could enter the rankings, without signing a contract, he lacked a lot of privileges,

Zhou Hao did not care about these privileges. In comparison, he preferred not to be restricted!

However, Zhou Hao did not think much of this. He also did not care about his ranking.

Other than that, he still did have some streaming privileges.

For example, he could kick anyone from the room if he wanted to. He could also join PK fights.

Zhou Hao swept his gaze over and did not care. He closed these and opened the screen to share the live-stream.

Immediately, the image of his Heaven Dao software appeared on the screen very smoothly.

This Heaven Dao software was rather strange.

The live-stream had already opened, and the people in the public chat were still crazily tagging Zhou Hao. Seeing this, Zhou Hao directly typed out his room number in a fair manner. In an instant, more than a hundred million users surged into the live-stream.

In an instant, the popularity of the live-stream exploded. Although it did not show how many people had entered, the live-stream instantly began to flood with messages.

“Haha, the big shot has finally started his live-stream!”

“Big shot, I’ll give you 100 Energy Bars first!”

“And me, big shot, we can’t watch for nothing. I’ll buy you gifts now!”

As they flooded the screen, the gifts also instantly started flooding crazily.

Zhou Hao’s notification number instantly maxed out. Then, he saw the notifications.

“Congratulations streamer, I’m just an ordinary person, for receiving 50 Energy Bars from the ‘Eagle of the Mountains’.”

“Congratulations streamer, I’m just an ordinary person. I received 30 Energy Bars from ‘a primary school student’.”

“Congratulations streamer, I’m just an ordinary person. I received 30 rare-level Energy Bars from ‘The Old Man Is Not Old’.”

“Congratulations streamer, I’m just an ordinary person. I received a hundred platinum-level Energy Bars from ‘Coca-Cola Not Delicious’.”

“Congratulations streamer, I’m just an ordinary person, for receiving 50 Energy Bars from ‘Fierce Dragon Descends the Mountain’.”

...

These messages were simply coming one after another. Zhou Hao’s eyes were dazzled as his backpack was instantly filled.

His ranking also instantly went from being non-existent to 900 million. Immediately after, it increased to 800 million!

What shocked Zhou Hao was that it kept reducing. It turned into 700 million, 600 million, 500 million...

This speed was simply like riding a rocket!

“Congratulations streamer, I’m just an ordinary person, for receiving 500 rare-level Energy Bars from Fairy Yue Ling.”

At this moment, Zhou Hao saw Fairy Yue Ling give him a gift and immediately smiled.

Five hundred at once. This Fairy Yue Ling was really generous!

“Haha, Fairy Yue Ling is also here. She actually gifted so many Energy Bars to the big shot!”

“Of course. Do you know how many Energy Bars he gifted Fairy Yue Ling in her live-stream?! He probably gave her a total of five hundred batches of five hundred Energy Bars.”

“Big shot, you’re awesome!”

“Big shot, shouldn’t you show us the mall now?!”

“That’s right. We’re all looking forward to it!”

Since they were in a hurry to watch, Zhou Hao was naturally in a hurry as well. Therefore, he did not waste his breath and opened the mall excitedly!

The moment he opened the shop, four sections appeared. One was the “selling area”, one was the “buying area”, the other was the “synthesis area”, and the last was the “trading area”.

Zhou Hao immediately smiled. It was really simple!

Zhou Hao was very concerned about what he could sell now, so he directly opened the selling area.

After entering, a menu appeared. There were many categories on this menu.

“Mutated beasts, cultivation techniques, fragments, medicinal pills, weapons.”

There were a total of five categories. Although there were only five, it could be said to include everything!

Zhou Hao did not hesitate and directly opened the mutated beast column!

Immediately, countless beast names appeared here. From the weak to the powerful, there was everything!

Zhou Hao even saw some familiar names.

“Territory—Universe Seven, Name: Storm Demon Ape, Strength: Quasi Heaven Realm, Price: 50 billion Heaven Dao coins.”

Zhou Hao was immediately stunned. Heavens, this Storm Demon Ape was actually worth so much money. However, he had not remembered to collect the corpse after killing it!

Zhou Hao continued to browse.

“Territory—Universe Seven, Name: Golden Armor Alligator Turtle, Strength: Quasi Heaven Realm, Price: 80 billion Heaven Dao coins.”

“Territory—Universe Seven. Name: Wasteland Barbaric Flood Dragon. Strength: Heaven Realm fifth-grade. Price: 300 billion Heaven Dao coins.”

Zhou Hao took a deep breath and was extremely happy. It was as if these mutated beasts were tailor-made for him. If he killed them, not only would he gain luck points, but he would also be able to sell them for such a high price!

Of course, Zhou Hao also saw the problem!

Universe Seven!

He frowned and his expression changed!

He seemed to have a guess and continued to browse.

“Territory—Universe Six, Name: Metal Man, Strength: Quasi Heaven Realm, Price: 60 billion Heaven Dao coins.”

“Territory—Universe Three, Name: Biological Warrior, Strength: Quasi Heaven Realm, Price: 40 billion Heaven Dao coins.”

When Zhou Hao saw this, he drew a cold breath. A ridiculous thought instantly filled his mind!

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 370 - Including All the Shops

Chapter 370: Including All the Shops

Zhou Hao had always thought that there was only one world—Planet Earth. He also believed that the Heaven Dao software only served the people of Planet Earth !

However, at this moment, he realized that this Heaven Dao software was probably not limited to Planet Earth!

Zhou Hao took a deep breath and was shocked. He had never thought about what the Heaven Dao software was!

Although he had not observed it before, many people around him did not have the Heaven Dao software. How did he obtain the invitation of the Heaven Dao software then?

As a user of the Heaven Dao software, Zhou Hao knew that this software could not only bring him equipment, but also many extraordinary functions!

Originally, Zhou Hao had only thought that it was a simple software that could bring him wealth. But now, it seemed that this thing was probably not that simple!

Also, what did all these universes mean? Could there really be aliens outside of Planet Earth?!

Thinking of this, Zhou Hao suddenly felt very strange. These science fiction plots had always appeared in novels and movies. But now, he suddenly felt that it was becoming real.

Of course, Zhou Hao could understand why. After all, he had been in this post-mutation era since he was born. The previous civilizations were incomparably unfamiliar to him.

Zhou Hao was never really affected by the existence of aliens. However, today, he was somewhat shocked!

What did the Heaven Dao software wanted to accomplish by gathering so many universes together?

What was the motive?

Zhou Hao took a deep breath. Although he did not understand, at this point, it was useless to think any further!

When Zhou Hao opened the mall, everyone in the live-stream was shocked. Their messages all flooded the screen!

“Heavens, it feels so good. Looks like if I unlock the shop in the future, I can sell things!”

“Unlocking the shop? Do you think you’re all big shots?”

“There are so many users in the Heaven Dao software. Naturally, only a select few will be able to unlock the shop. You sure know how to dream!”

They continued to send their messages and Zhou Hao kept browsing, but they did not mention anything about the various universes. Could it be that they all knew?

Zhou Hao took a deep breath and did not say anything. Instead, he continued to click on other things.

There were many things sold here. Zhou Hao looked at them and even sold the useless treasures he had just opened.

The system would evaluate things and grade reports would appear. According to the materials, destructive power, plastic strength, and so on, the final comprehensive assessment would be carried out!

Zhou Hao did not look carefully and sold them all. Not long after, his Heaven Dao coins broke through to 100 billion!

Zhou Hao was still depressed about how to become a diamond user just now. But now, he did not expect to be able to become one so quickly!

While Zhou Hao was shocked, he directly opened the “buying area”.

This place was similar to the selling area and was also divided into so many categories. Moreover, there was a dazzling lineup of items inside that Zhou Hao was impressed by.

There was even a ranking system for weapons. From level 1 to level 10, there were special-level weapons, earth-level weapons, and universe-level weapons!

Zhou Hao did not study it carefully. After all, there were so many people watching. At the same time, since he had money, he was not in a hurry to buy it. He decided he would buy it when he had more time to think about his choices. Moreover, it was a live broadcast now, so Zhou Hao did not want to expose the cultivation technique he cultivated.

After closing the purchase area, Zhou Hao opened the trading area!

This area was interesting. There was nothing inside, but he could list things here to sell.

To put it bluntly, the trading area here was for users to sell things themselves. It was even possible to exchange items. As long as both parties were satisfied, it was fine!

This trading area was still interesting. Although there were not many users who opened the shop now, as long as there were more, Zhou Hao felt that he could definitely get something he liked here!

The last panel was the synthesis area!

Zhou Hao had many pieces in his backpack that needed to be synthesized here.

This synthesis also had a chance factor and would also require luck points. The higher the level of the synthesis, the more luck points it would cost!

Zhou Hao nodded and understood. The things in the shop were similar to some game software and were relatively simple. He quickly figured it out.

At this point, his tour of the shop section in the Heaven Dao software had basically come to an end. Everyone in the live-stream shouted in satisfaction, and the gifts never stopped. They kept flooding the screen, and the number of people kept increasing!

Zhou Hao smiled and typed a few words on the public chat.

“Everyone, I still have something to do. I’ll go offline first.”

Although they couldn’t bear to see him leave, they had already seen the shop. When they heard Zhou Hao’s announcement, everyone sent him off on the public chat.

Zhou Hao smiled and closed the live-stream.

He had a lot of Heaven Dao coins now and had a lot of luck points. With the shop, he could be considered to be doing well.

Just now, many people had been watching, so Zhou Hao did not dare to study it carefully. At this moment, he closed the live-stream and began to study it carefully!

Now that he had the Black Dragon Spear, he still needed good armor. Therefore, Zhou Hao felt that he should get good armor!

In addition, many of his cultivation techniques were not easy to use now. He indeed needed new cultivation techniques.

In fact, in his eyes, it was not appropriate for him to take out his spear casually. After all, the entire human race was looking for him.

If they caught him, it would be over!

Therefore, Zhou Hao thought for a moment and focused on weapons.

It had to be said that the things inside were too expensive. A mere treasure that was not especially valuable was worth more than 100 million Heaven Dao coins.

The armor Zhou Hao wanted was also worth tens of billions.

Zhou Hao was still a little unwilling. Moreover, it was simply not worth it at all!

However, suddenly, Zhou Hao saw a shocking armor in the synthesis area!

Its name was Thousand Feathered Armor!

Its defense was extraordinary and could be upgraded!

It was divided into eight modules and each module had reached level ten!

It had to be known that his Black Dragon Spear was only at the tenth level. He learned about this after testing it simply.

However, each of the modules of this armor was already at level ten. How could he not be tempted?!

Zhou Hao immediately opened the introduction of this item and read it carefully. The more he read, the more shocked he became!

This item was cast in a different universe and was indestructible. It was a universe-level treasure with an artifact spirit. Unfortunately, it was destroyed in the battle and split into eight modules!

Every module had different functions. Although they were all armor modules, every additional module would increase one's level until the armor reached the universe-level.

However, this was only a simple introduction and not a comprehensive one. Despite this, Zhou Hao was still tempted!

He immediately checked how to obtain this item and realized that he couldn't buy it. He could only obtain it by opening the mystery box!

Moreover, one could only obtain four of the modules by opening the mystery box.. The remaining four modules were still missing!

Chapter 371 - Little Yu

Chapter 371: Little Yu

Zhou Hao frowned. He was a little depressed that he had not found all of them!

However, no matter what, Zhou Hao still felt that the Thousand Feather Armor was too heaven-defying. He should take advantage of the fact that he had just unlocked the shop to get this item!

After all, the Thousand Feather Armor was a combination of offense and defense. The armor could both defend and attack. Moreover, it could resist the strength of 5,000 kilograms.

Its Thousand Feathers Saber could also kill enemies!

It could be said that it was a very comprehensive treasure!

Most importantly, this Thousand Feather had a pair of wings. When used, it could make its user extremely fast. Zhou Hao looked at it and realized that it was even faster than his Golden Crow Escape Technique!

What kind of concept was this?

Zhou Hao could not imagine it!

Thinking of this, Zhou Hao directly exchanged 100 billion Heaven Dao coins for 10,000 mystery boxes and prepared to draw.

Although the drop rate of this diamond mystery box was very low, it was more certain than the platinum mystery box!

Opening the mystery box, he entered the cultivation technique, weapons, and so on, just like the platinum mystery box!

Moreover, this time, he was directly filling in the name. If he wanted something, he could directly enter it. After entering it, there would be a certain probability for it to drop!

Even if it did not drop, there would still be many other rewards!

Zhou Hao did not say a word and directly entered the Thousand Feather Armor and the God Destroying Art into the box. Then, he began to open the mystery box!

Compared to the platinum mystery box, the diamond mystery box was more private. Only users above gold could see it. No one else could see Zhou Hao's reward!

"Di! Congratulations on opening the mystery box and obtaining a rare-level item—Violent Dragon Armor. This item has been placed in your backpack. Please take note!"

"Di! Congratulations on opening the mystery box and obtaining a rare-level item—Blood Paint Cultivation Technique. This item has been placed in your backpack. Please take note!"

“Di! Congratulations on opening the mystery box and obtaining a rare-level item—Silver Dragon Armor. This item has been placed in your backpack. Please take note!”

“Di! Congratulations on opening the mystery box and obtaining a rare-level item—Seven Star Armor. This item has been placed in your backpack. Please take note!”

“Di! Congratulations on opening the mystery box and obtaining a rare-level item—Flame Armor. This item has been placed in your backpack. Please take note!”

...

Zhou Hao crazily opened the diamond mystery box, but there were not many things that he wanted. Most of them were other armor and cultivation techniques!

There was no God Destroying Art or Thousand Feather Armor he wanted!

“Di! Congratulations on opening the mystery box and obtaining the legendary item—Ice Emperor Armor. This item has been placed in your backpack. Please take note!”

At this moment, Zhou Hao’s expression changed as he saw the Ice Emperor Armor!

This armor was a legendary-level treasure. It had actually reached the tenth level!

Moreover, this armor had a 100% compatibility with the Ice Muscle Body. This made Zhou Hao extremely happy!

Xu Ling had the Ice Muscle Body. This was perfect for her!

Zhou Hao hurriedly put it away, prepared to find an opportunity to give this treasure to Xu Ling. Without hesitation, he continued to open the mystery box!

The diamond mystery box was indeed extraordinary, and it also consumed a lot of luck points. In just a few minutes, he had lost half of his luck points, but he had yet to obtain the Thousand Feather Armor!

Zhou Hao took a deep breath. He was really unwilling to give up at this moment!

Although Zhou Hao was unwilling, the public chat was still flooded!

The gold users saw Zhou Hao and the others on the screen and immediately cheered.

“@ I’m just an ordinary big shot. I’m too powerful. You just opened the mall and now you’re opening the mystery box again!”

“Moreover... There are so many rare-level treasures. @ I’m just an ordinary person. I worship the big shot!”

“Hahaha, the big shot is indeed extraordinary. He will definitely be recorded in the history books today!”

They kept flooding the screen crazily, but Zhou Hao ignored them and began to open the mystery box crazily!

Zhou Hao was determined to get the Thousand Feather Armor. He did not care even if he had to spend all his money and luck points!

However, since Zhou Hao had opened so many rare-level treasures, he would not lack money. The only thing he needed was luck points!

However, as long as he could obtain the Thousand Feather Armor, Zhou Hao would immediately step into the Heaven Realm!

He already had the cultivation technique God Slaying Art and had also learned Genesis Runes. With the Thousand Feather Armor, killing a quasi Heaven Realm expert would be as easy as slaughtering a dog!

As long as he was careful, what harm was there in killing a few?

With this in mind, Zhou Hao crazily opened the mystery box!

Finally, with a beep, Zhou Hao’s expression changed!

“Di! Congratulations on opening the mystery box and obtaining the king-level item—Thousand Feather Armor Fragment. This item has been placed in your backpack. Please take note!”

Seeing this, Zhou Hao was incomparably excited!

Without hesitation, he opened his backpack and investigated!

However, Zhou Hao’s face twitched when he saw it. How was this the Thousand Feather Armor?

In his eyes, wasn’t this just a pile of trash?

Not only was it covered in blood, but it also looked rusty!

Zhou Hao felt like he had been tricked, but Zhou Hao couldn’t just throw it away. After all, he had spent a lot of luck points and Heaven Dao coins to obtain this!

Therefore, he gritted his teeth and opened it.

Di! Thousand Feather Armor activated. Host, please drop your blood onto it.

Just as he opened it, an ethereal voice without any emotions sounded.

Zhou Hao blinked. He knew that this was the artifact spirit of the Thousand Feather Armor. He did not expect it to still be alive after being turned into such trash!

Thinking of this, Zhou Hao did not hesitate to drip blood and leave his imprint!

In an instant, Zhou Hao felt as if he was waving his finger at this Thousand Feather Armor. At the same time, he could sense how serious the armor's injuries were.

"Hello, Master. I'm Little Yu."

After successfully recognizing its master, the artifact spirit of the Thousand Feather Armor actually opened its mouth to speak. From the looks of it, it still had some intelligence.

"Little Yu, you're so severely injured now. How can I help you recover?" Zhou Hao asked.

"Master, I need to absorb the Heaven and Earth essence energy to repair myself."

"You can repair yourself?" Zhou Hao was immediately shocked when he heard this.

"Yes, Master. I am able to repair myself." the weapon spirit said immediately.

Zhou Hao was somewhat surprised. He thought for a moment and asked, "Little Yu, did the Thousand Feather Armor really get divided into eight parts? What are they? And what are you? Which part do you belong to?"

Zhou Hao asked this because he wanted to understand the situation with the Thousand Feather Armor.

"Master, there are a total of eight parts to the Thousand Feather Armor. The other seven parts of the Thousand Feather Armor are all mobilized by me."

"However, Little Yu is severely injured and has already forgotten the functions of the other seven parts. Only by finding the other parts and completing the fusion can Little Yu recover to its original state."

Hearing this, Zhou Hao took a deep breath and was somewhat depressed. He did not expect it to be like this!

"Alright, I'll help you recover first.. Tell me, what should I do to get you to recover?" Zhou Hao asked.

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 372 - Discussion

Chapter 372: Discussion

“Master, I need a large amount of pure essence energy to recover.”

Zhou Hao nodded and took out the platinum-level Energy Bar.

“Can this thing help you?”

With that said, Zhou Hao saw the Thousand Feathered Armor in his backpack sweep past a light and shine on the platinum-level Energy Bar.

“Sorry, Master. This thing’s energy is too low and can’t help me.”

When Zhou Hao saw this, he was immediately depressed. After all, the platinum-level Energy Bar was a precious item in his eyes.

Thinking of this, Zhou Hao took out a rare-level Energy Bar.

“What about this thing?”

The light swept past before Little Yu said.

“This is fine, but I’ll need... 99.9 million of them...”

“Damn!”

Even with Zhou Hao’s calm temper, he still cursed!

With so many, it would be useless even if Zhou Hao sold his kidney!

Zhou Hao gritted his teeth and could only take out the Essence Energy Ancestral Stone.

“This is the most precious resource I have. Take a look and see if this works.”

After Zhou Hao finished speaking, a light swept past and Little Yu said.

“This is fine. I will need 33,000 of them.”

Zhou Hao was still freaking depressed. 33,000 Ancestral Stones was not a small amount. The Iron Bone Bear King had many, but he did not have that many Energy Bars. Could it be that... he needed to get them by force?

Zhou Hao blinked and realized that he had no other choice.

“By the way, what can you do before you recover?” Zhou Hao felt a little regretful now.

If the armor could not use anything now, wouldn't it be a huge scam?

“Master, Little Yu needs to recover 30% of its function before it can be used.”

“30%... Alright, I'll think of a way for you!”

As Zhou Hao spoke, he left his backpack and the Heaven Dao software.

Although he had lost the identity of President Zhou, Zhou Hao was still relatively content to have obtained the Heaven Dao software's shop feature and the Thousand Feather Armor!

Now, he only had two goals. First, he wanted to recover the Thousand Feather Armor and second, break through to the Heaven Realm!

His strength was still not enough. If it was enough, he would not need any Genesis Runes to help him. If he could kill the Wasteland Barbaric Flood Dragon with a single slash, he could have avoided becoming a wanted man.

Even so, it was too late for regrets!

With such an unforeseen event happening in the seventh spatial rift, the elite teams were sent back to the capital without training. On the way, they had also asked Bai Linglong many questions.

However, Zhou Hao knew that Bai Linglong was in a bad mood. He could see that she constantly had a worried expression. This made him feel a little uncomfortable.

Unexpectedly, Bai Linglong seemed to be feeling sad. Could it be that this woman had fallen for him?

Zhou Hao coughed dryly and hurriedly threw this thought to the back of his mind.

Not many people knew that President Zhou was wanted. This news was only circulated above the quasi Heaven Realm. Even the majority of the supernatural experts did not know!

At this moment, in a grand hall in the first spatial rift, seven armored warriors were sitting at seven round tables.

Their auras were extraordinary and incomparably powerful. There were a total of seven flags behind each of them!

If Zhou Hao were here, he would definitely be able to recognize one of them!

Among the flags, there was a green flag with a picture of floating clouds!

This was the Green Cloud Division!

The person who represented the Green Cloud Division to participate in the meeting this time was Zhu Zao!

However, at this moment, Zhu Zao's expression was somewhat anxious and worried!

The seven people represented the seven factions. Sitting at the easternmost side was the flag of these seven leaders. There was a picture of red flames on it.

This was the leader of the seven factions, the Red Flame Division!

It was also the largest faction of the human race on Planet Earth and played an important role in the entire human race!

At this moment, an old man in red was sitting there with a bamboo hat. His expression was indifferent as he spoke after a long time.

"We haven't had a meeting in a long time. Although this meeting was a little rushed today, we still have to hold it!"

"Heavenly King Zhu, explain the situation."

The old man said simply and looked at Zhu Zao.

Zhu Zao took a deep breath and looked at everyone as they stood up. He bowed from afar and said.

"Everyone, everyone should know about the incident at the seventh spatial rift. The Machine Race created a virus and built a tower. On that day, the war in our other spatial rifts was in a stalemate. What happened only happened for the sake of the seventh spatial rift."

"The situation is very bad. This is what everyone saw in the video. We have suffered many casualties. However, compared to the mutated beasts, the casualties are still minimal."

“They lost a total of six quasi Heaven Realm experts, and each of them was a powerful general. However, they were killed by a single human martial artist. This person is President Zhou.”

After saying this, Zhou Hao appeared on the screen. However, his armor covered his face, preventing others from seeing him clearly.

“This person is President Zhou. He killed six quasi Heaven Realm mutated beasts and contributed greatly. However, this person... cultivated the power of the Genesis Runes prohibited by us humans and mutated beasts!”

“At the critical moment, President Zhou used the power of the Genesis Runes to destroy the tower and save all the human cultivators who were infected by the virus. After doing so, he also attracted the big shot to make a move. In the end, however, President Zhou managed to escape.”

“This is the purpose of today’s meeting. We also need to discuss whether we should give President Zhou a wanted status.”

With that said, Zhu Zao sat down. However, anyone could tell that Zhu Zao was still very protective of President Zhou!

This was only natural. After all, President Zhou had helped Zhu Zao a lot. Moreover, simply based on his battle results, President Zhou had indeed contributed a lot to the human race.

However, he had cultivated a forbidden technique and learned the Genesis Runes!

This was not an orthodox power. Anyone who cultivated this power would be seen as betraying the human race and all the martial artists in the world!

This was understandable!

Zhu Zao was very worried. He did not want Zhou Hao to become a wanted man at all, but he did not dare to say it out loud. He could only put Zhou Hao’s contributions in front of them and hope that they would be touched.

However, he was still thinking too much.

“If you cultivate a forbidden technique like a Genesis Rune, you will become the enemy of our human race. My suggestion is that we kill him!”

After saying this, many people nodded. Others might not know about the incident that happened before, but they knew.

“Back then, a Heaven Realm expert known as Murong Xun secretly learned Genesis Runes. We had already killed him, but now, another one has appeared!”

“If we don’t get rid of the Genesis Runes, we won’t be able to rest assured at all. I suggest that we immediately capture President Zhou and destroy all his cultivation to completely end the Genesis Rune inheritance!”

They spoke at once, but most of them still wanted to kill President Zhou. When Zhu Zao heard this, he became even more anxious.

“Everyone, don’t forget that President Zhou saved the seventh spatial rift. Without him, the territory of the humans on Planet Earth might have been divided into two from today onwards!”

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 373 - Dark Tide

Chapter 373: Dark Tide

Although Zhu Zao was also worried about the power of the Genesis Rune, he was more worried about President Zhou’s safety!

How many times had President Zhou fought in the frontlines? How could such a person attack humans?

He could not agree to it. Not only him, but all the soldiers in the thirteenth spatial rift, the twelfth spatial rift, and the seventh spatial rift would also not agree!

President Zhou, who was fighting for them, was about to be targeted by the higher-ups and even arrested and eliminated. No one would accept such a thing!

“Heavenly King Zhu, have you forgotten the common agreement? This is not something that only concerns our human race. There are also the foreign races. Do you think the foreign races will agree to us nurturing Genesis Rune warriors?!”

Not far from Heavenly King Zhu, the representative of another division spoke directly with a hint of blame!

They were aware that President Zhou was extraordinary, but everyone present also knew about the secret that had been hidden. Naturally, they did not want something like that to happen again!

“However, I still believe that President Zhou is definitely not that kind of person. Moreover, we only have the documents stating that the expert who cultivated the Genesis Rune back then wanted to destroy the world, but that might not have anything to do with the Genesis Rune. It could have been his own intentions!”

“We can’t solely make our decision based on what happened back then and treat everyone who cultivates Genesis Runes as villains!”

Zhu Zao still could not help but speak up. He was very grateful to Zhou Hao. Without Zhou Hao, many crises would not have been resolved. Not to mention the seventh spatial rift this time, even the crisis of twelfth and thirteenth was the same!

He was not going to kick Zhou Hao to the curb simply because he had outlived his usefulness.

Moreover, Zhu Zao felt that there was something wrong with jumping to conclusions without understanding anything!

“Heavenly King Zhu, you’re being a little extreme in this matter. Our intention is only to capture President Zhou. If there’s no problem, we naturally won’t hurt him. However, at present, this is not something that we humans can confirm. After the foreign races learned of this news, they will also want to negotiate with our higher-ups.”

“After all, that previous mighty figure has almost destroyed 70% of the foreign races’ citizens. The foreign races are very afraid that history will repeat itself!”

“What we need to do now is to find President Zhou. We can discuss the rest later. How about that?”

The representatives of the various divisions also had this thought. The leader of the divisions also nodded.

“Since that’s the case, let’s vote and decide if we should arrest him or not.”

As he spoke, he looked at everyone.

Other than Zhu Zao, everyone raised their hands. Their meaning was obvious. They all wanted to arrest Zhou Hao!

Zhu Zao’s expression was very ugly. He represented the Green Cloud Division. Most of their Green Cloud Division were experts who resisted the spatial rift. Others might not

know, but he knew that President Zhou would fight to the death with them. But now, he was actually unable to even protect President Zhou's safety. He was furious!

"Hmph!"

Zhu Zao's expression was very ugly. He slammed the table and left.

As soon as he walked out, Bai Zhenhai hurriedly welcomed him.

"Senior Zhu, how did it go?" Bai Zhenhai was also very anxious.

However, Zhu Zao's expression was incomparably ugly, making Bai Zhenhai understand immediately!

"What? They still want to arrest President Zhou? But he... he didn't do anything wrong to the human race!" Bai Zhenhai was very indignant. If not for President Zhou, the seventh spatial rift would have definitely been occupied. Even he, Bai Zhenhai, might not have survived!

However, at this moment, President Zhou, who had saved the seventh spatial rift, was actually wanted. Bai Zhenhai was also very sad.

"Hmph, a bunch of pedantic people. I really can't get them to understand!"

Zhu Zao was furious, but what could he do? Now that the showdown had ended, there was nothing he could do no matter how indignant he was!

"Zhenhai, we have to find President Zhou first. As long as we find him, everything will be fine. He has helped us so much. We definitely can't hand him over to the higher-ups!"

When Bai Zhenhai heard this, he was stunned. "But... won't we be disobeying their order by doing this?"

"Of course I know we will be disobeying orders, but... if President Zhou is handed over to the higher-ups, there are only two choices. Either he will be imprisoned for life or his dantian will be destroyed. Other than that, I don't know how the higher-ups will deal with President Zhou!" Zhu Zao said with an ugly expression.

"No way... President Zhou didn't do anything to harm the humans. Why would the higher-ups..." Bai Zhenhai drew a cold breath. He originally thought that even if he captured President Zhou, they would only arrest him to understand the situation.

The worst that could happen was to strip and seal the power of the Genesis Rune. That was all!

However, he did not expect such a situation!

“Hmph, do you think humans are united? I can tell you that someone has already targeted President Zhou!”

After saying this, Zhu Zao did not say anything and directly left the first spatial rift.

Bai Zhenhai followed behind, feeling shocked and unable to calm down for a long time!

Zhou Hao did not know about this. He changed into other equipment and secretly arrived at the twelfth spatial rift!

The Thousand Feather Armor needed to be repaired, and there was only one place that could repair it!

He needed the Essence Energy Ancestral Stones!

Zhou Hao did not look for the Iron Bone Bear King this time and secretly slipped in.

On the way, Zhou Hao asked Little Yu.

“I can bring you to a place with sufficient essence energy, but do you have a way to repair yourself?”

The Essence Energy Ancestral Stone mine was inside the spatial rift. With Zhou Hao’s ability, he couldn’t enter and couldn’t withstand the pressure!

“Master, if you can find such a place, I can recover by myself.”

Zhou Hao heaved a sigh of relief when he heard this.

Soon, they arrived. Zhou Hao looked at the chaotic spatial aura here and did not continue forward. Instead, he took out the Thousand Feather Armor.

“It’s right in front. See if there’s any way. If not, we’ll discuss it at length.”

Zhou Hao said directly. After all, he had spent countless Heaven Dao coins and more than 100 million luck points to obtain this Thousand Feather Armor. If it got stuck in the spatial rift, wouldn’t he lose a lot?

However, what shocked Zhou Hao was that after the Thousand Feather Armor saw the Essence Energy Ancestral Stone mine, it directly entered with a whoosh. That speed was so fast that even Zhou Hao was shocked!

Moreover, its resistance to pressure was also extremely strong. Despite being torn by so many spatial rifts, it was still not injured at all!

It clearly looked like scrap metal, but it was actually so powerful. This made Zhou Hao extremely excited!

“It’s clearly still in a ruined state.. If it recovers, won’t it be even more powerful? Moreover, it’s only one-eighth of its original state. If it completely recovers... the ability of this Thousand Feather Armor... is unbelievable!”

Chapter 374 - Greedy Zhou

Chapter 374: Greedy Zhou

The moment the Thousand Feather Armor entered, Zhou Hao did not stand there foolishly. Instead, he found a place to hide.

The Iron Bone Bear King had said that someone was paying attention to this place. If they discovered that the Essence Energy Ancestral Stones had disappeared too quickly, someone would definitely notice it!

There was no doubt that the person who could make the Iron Bone Bear King tremble in fear was a Heaven Realm expert!

“Little Yu, absorb as much as you can. If anyone comes, we’ll run away immediately!”

Zhou Hao did not forget to remind Little Yu before waiting quietly.

After the Thousand Feather Armor entered, its entire body immediately emitted this silver-white light, covering the Essence Energy Ancestral Stone in a radius of five kilometers.

At this moment, Little Yu was like a bottomless pit as it absorbed crazily. Endless essence energy surged out, and many essence energy ancestral stones directly exploded, turning into pure energy that was absorbed by Little Yu!

“Repair rate... 1 %...”

“Repair rate... 3 %...”

“Repair rate... 7 %...”

At this moment, Zhou Hao also sensed the state of the Thousand Feather Armor.

As long as it reached 30%, it would be activated, and it would no longer be in a cooling down state!

Zhou Hao was filled with anticipation, but at the same time, he also became nervous.

Not long after, the repair speed had already reached 15%. It was already halfway to 30%.

Zhou Hao was feeling nervous. At the same time, in the deepest part of the twelfth spatial rift, in a palace under the ground, a long insect that stretched as far as the eye could see was lying on the ground. It seemed to be resting, and its panting sounded like rolling thunder with a mighty momentum.

Its aura was incomparably powerful, condensing endless essence energy around it. As it breathed, space shattered!

Heaven Realm!

This demon beast was a Heaven Realm expert and a famous Hundred Insect King!

The fifth-grade Heaven Realm Hundred Insect King was guarding the twelfth spatial rift. Although it rarely attacked, its reputation was not only known by the foreign races, but even the humans had heard of it!

At this moment, it was resting. However, at this moment, a light suddenly flashed, making the Hundred Insect King open its eyes.

It lowered its head and took out an instrument from its hundred feet. The numbers on it were actually slowing down visibly!

“Oh? Why did the energy feedback from the eighteenth Essence Energy Ancestral Stone mine decrease so much? Could it be that the humans have invaded?”

The Hundred Insect King could not help but think to itself. Its huge body trembled as it stretched its head out from the ground!

“This Essence Energy Ancestral Stone mine is guarded by the Iron Bone Bear King. What is it doing? Its energy decreased so quickly, but it didn’t even notice. What a fool!”

He was very angry. With a roar, his huge body directly flew into the sky, covering the sky and sun as he headed towards the Essence Energy Ancestral Stone mine where the twelfth spatial rift was!

As it flew, it contacted the Iron Bone Bear King!

Unfortunately, the Iron Bone Bear King was resting at this moment. It also threw its communication device to the side and ignored it.

“What an idiot!”

The Hundred Insect King was furious as it sped through the air. The huge energy obliterated space, and with a bang, it was already less than 50 kilometers away!

Zhou Hao’s mind stirred as he immediately sensed a powerful aura coming. This aura belonged to a Heaven Realm expert!

“Indeed...”

Zhou Hao’s expression changed. He could sense that the recovery rate had already reached 20%. He wanted to leave, but he felt that he would be missing a good opportunity!

If he could not absorb 30% this time, it would be a little difficult next time!

“Heaven Realm... with my current combat strength, I’m unable to deal with a Heaven Realm expert. However, what if I use my Genesis Runes? Can I delay it?”

Zhou Hao took a deep breath and thought for a moment before reaching out his hand!

Zhou Hao waved his fingers like an arm. Although it was not the full strength of a Genesis Rune, Zhou Hao was still able to unleash quite a bit!

If he did something with the Genesis Runes, he might be able to stop it!

With this in mind, Zhou Hao was about to do it when Murong Xun spoke.

“You sure are bold to want to use a Genesis Rune to deal with the Hundred Insect King. Do you think Genesis Runes are invincible? The Hundred Insect King is a fifth-grade Heaven Realm expert. With your mere Genesis Rune strength, there is nothing you can do to it!”

Murong Xun’s words made Zhou Hao’s expression turn somewhat ugly. However, he either had to stall for time or immediately retreat. There was no other way!

“Then tell me, what should we do?” Zhou Hao couldn’t help but ask.

“Tch, that’s easy. Isn’t your goal to let the Thousand Feather Armor recover? Wouldn’t it be over as long as you take away all the Essence Energy Ancestral Stones here?” Murong Xun said angrily.

“But... I can’t enter at all. How can I obtain the Essence Energy Ancestral Stones?!”

Zhou Hao was telling the truth. Since he did not dare to approach, he naturally did not dare to do anything!

“With the Genesis Runes, this will not be difficult!”

After Murong Xun finished speaking, Zhou Hao’s eyes lit up. Indeed, he could use Genesis Runes!

“As long as you don’t use that much energy, you’ll be fine!”

After Murong Xun finished speaking, Zhou Hao did not hesitate and directly activated the Genesis Rune. A strange symbol appeared in his hand!

The runic seal expanded in the wind and landed in the mine. With a strange force, Zhou Hao could sense that the endless spatial fluctuations seemed to have been stopped by him!

“Right now!”

As Murong Xun’s voice resounded in Zhou Hao’s heart, Zhou Hao also moved. He activated the Golden Crow Escape Technique under his feet and appeared in the Essence Energy Ancestral Stone mine. With a wave of his hand, he immediately put away a large number of Essence Energy Ancestral Stones. There were more than 10,000!

In fact, Zhou Hao did not even feel satisfied. He directly punched the ground, causing the entire ground to shatter. Zhou Hao did not care about the Essence Energy Ancestral Stone or the broken ores. He kept them all!

This scene made Murong Xun really have a helpless expression when he saw it. He thought to himself that this brat sure was greedy. Not only did he take the Essence Energy Ancestral Stone, but he also did not even leave behind the ores and moved them all away!

“Let’s go quickly. That aura is getting closer and closer. If we don’t leave now, it’ll be too late!”

Murong Xun was somewhat anxious. That was a fifth-grade Heaven Realm expert. With Zhou Hao’s current level, he was simply unable to resist!

Zhou Hao naturally knew this. After taking away most of the items here, he put away the Thousand Feather Armor and disappeared!

Just as he left, space shattered, and a towering huge figure appeared in the sky!

When it saw the mess, its eyes widened and its expression was extremely ugly!

“Damn it!”

It roared angrily and shattered the forest, causing the twelfth spatial rift to tremble!

Zhou Hao, who had just left, felt his heart race. He hurriedly took off his clothes and landed in his room, blocking all his aura!

The arrival of the Hundred Insect King also made the entire twelfth spatial rift seem as if it was facing a formidable enemy. Just as Zhu Zao returned, he sensed the aura of the Hundred Insect King.. His expression changed, and he also appeared in the sky above the twelfth spatial rift. He looked at the Hundred Insect King in shock!

Chapter 375 - Seven Days Training

Chapter 375: Seven Days Training

Zhou Hao naturally ignored this. After all, he had already obtained the item. He did not care!

At this moment, he appeared in his room and directly took out the Thousand Feather Armor to let it continue absorbing the Essence Energy Ancestral Stone!

Soon, the recovery rate of 30% ended. In Zhou Hao's eyes, the tattered Thousand Feather Armor instantly became brand new, turning into an armor with an extraordinary aura that emitted waves of powerful aura!

Zhou Hao was very shocked. At this moment, Little Yu's voice also appeared in Zhou Hao's mind.

“Master, Little Yu has recovered 30%. Do you want to continue repairing it?”

Zhou Hao was very excited. He coughed dryly and looked at the remaining 10,000 Essence Energy Ancestral Stones and the large piece of earth meridian. He was in a good mood!

“Go ahead.” Zhou Hao chuckled. The aura of this Thousand Feather Armor was really extraordinary. Zhou Hao was very excited to see what would happen if it was fully repaired!

At this moment, the horn of the training camp sounded. Zhou Hao hurriedly walked out of the room and arrived at the square with Xu Ling and the others.

At this moment, the members of the seven teams gathered. Chief Instructor Bai Linglong looked at them coldly.

“There have been some changes in the past few days. From now on, cultivation will continue. The second mission is to enter the thirteenth spatial rift for seven days!”

“However, there’s something I want to say first. I won’t be following you on this mission. I don’t want to lie to you either. Your lives will be in danger. However, for your safety, everyone will have a spatial teleportation device. If you can’t take it anymore, press the switch and you will be teleported here.”

“However, in that case, it can also be considered as quitting the mission. The assessment this time is mainly about training. However, since it’s training, there are rewards. And the rewards are naturally based on points!”

After Bai Linglong finished speaking, she directly handed everyone a small device. This item was connected to the spatial array here. As long as one pressed the switch, they would be quickly sent here.

Moreover, this small device could also record everyone’s points!

The points obtained were not only limited to killing mutated beasts, but also the time spent inside. After a comprehensive comparison, there would be an assessment.

It seemed very fair. After all, if the assessment was only based on time, couldn’t they just find a place to hide and survive for seven days?

Therefore, to prevent anyone from being sly, Bai Linglong set this points rule.

Although it was still not perfect, there was nothing wrong with it.

“The points this time will be a one-on-one battle. Whether or not you guys work together will depend on how your team chooses. However, the final evaluation will be based on each person’s points. This rule will be fixed and the scoring will be different from last time. Do you understand?”

Bai Linglong finished speaking in one breath, making the people of the seven teams somewhat nervous!

Among them, the one with the highest cultivation level was only a grandmaster. Compared to supernatural experts, he was still lacking!

The humans were no match for the mutated beasts to begin with as they couldn't compete with the mutated beasts at the same level as them at all. There were still many high level mutated beasts in the spatial rift, so they were really somewhat worried.

"True growth is experiencing life and death. Without experiencing life and death, how can you talk about growth? A greenhouse flower is not suitable for us or this era. Therefore, since you have chosen this path, you don't have to worry."

After Bai Linglong finished speaking, she looked at everyone and said directly.

"Alright, the teleportation array is activated. Go in."

Bai Linglong waved her hand, and the fluctuations of teleportation immediately appeared in the square. In the next second, before they could react, the light scattered, and their figures directly disappeared from this platform!

When they reappeared, they had already arrived at the thirteenth spatial rift!

However...

All of them had been teleported alone. In other words, everyone from the seven teams was alone at this moment!

Bai Linglong failed to mention that the test did not only test their strength, but also their temperament!

After all, they were all fighting for themselves and were from different teams. In this chaotic world, no one knew if they would support each other or if they would try to trick each other!

This was a decision each one of them would have to make on their own. It would also reflect their characters.

However, Zhou Hao and the others did not know about this. At this moment, when they appeared in the thirteenth spatial rift alone, everyone except for Zhou Hao became nervous!

Even the grandmasters of the other teams were the same!

Xu Ling looked at the barren surroundings and the dangerous aura. Her pretty face changed at first, but then she immediately hid her aura and found a relatively safe place to hide.

It was not only her. The others were the same!

Zhang Yi, Yuan Cheng, Yun Yan, Fang Yu, and the others were all the same!

Only Zhou Hao's expression did not change when he appeared. All his attention was focused on the Thousand Feather Armor!

However, in order to look more convincing, Zhou Hao immediately put on his armor, took out his saber, and hid.

"Everyone should have been teleported separately. Although everyone has a teleportation device, I still have to find Xu Ling and the others as soon as possible!"

Zhou Hao frowned. He did not know if anyone was watching this place, so he did not dare to use his true cultivation. Instead, he controlled his aura to that of a master and carefully advanced!

Zhou Hao had been to the thirteenth spatial rift several times and knew a little about the terrain here. However, the thirteenth spatial rift was too huge, and even Zhou Hao did not know everything.

He identified his location and could only start searching.

"The thirteenth spatial rift is very large. It probably won't be easy for me to find them aimlessly. Instead of finding them alone, I might as well think of a way to get someone to help me!"

An idea flashed in Zhou Hao's eyes. As long as he captured some mutated beasts and got their help, he might be able to find Xu Ling and the others quickly!

With this in mind, Zhou Hao took action!

At this moment, Bai Linglong was sitting cross-legged on the square. She connected her mental awareness to the device and instantly covered the thirteenth spatial rift with her divine sense!

In an instant, a huge map appeared in front of her. There were more than forty small green dots on it, representing Zhou Hao and the others!

The countless red dots around them were mutated beasts!

The higher-ups attached great importance to the thirteenth spatial rift. Basically, the most advanced detectors were also used here.

Bai Linglong looked at these small green dots. With a thought, she could tell their current situation and identity through the teleportation device on their bodies. Although

she had said that she wouldn't intervene, she still wouldn't really ignore them when it was a matter of life and death!

These rising stars of the human race were the strength they could rely on in the future. Every grandmaster they nurtured cost a lot of money, not to mention talent!

Therefore, unless it was absolutely necessary, Bai Linglong naturally would not let them fall into danger.

However, at this moment, she suddenly blinked and opened a small green dot. She was stunned for a moment.

“Zhou Hao? What is he trying to do? Instead of familiarizing himself with the terrain and finding his other companions, he decided to kill the mutated beasts?”

Chapter 376 - The Temperament Of A General

Chapter 376: The Temperament Of A General

Bai Linglong had a surprised expression. Moreover, she frowned when she saw the group of mutated beasts.

“This brat actually dared to provoke a grandmaster-level flying Gu worm? Does he have a death wish?”

Zhou Hao's strength was only at the master level, and the combat strength of those flying Gu worms was at the grandmaster level. Moreover, the most important thing was that these flying Gu worms were insect kings. They had many master-level flying Gu worms under them and countless flying Gu worms that had just hatched from the ordinary martial artist level. If Zhou Hao fought them alone, he would definitely die!

Bai Linglong's expression was not very good. She still had expectations for Zhou Hao. After all, this little guy's master was President Zhou!

But now, it seemed that although this boy had talent, he did not seem to have a brain!

At this moment, Zhou Hao was holding a long saber and had already found the flying Gu worm!

The reason why Zhou Hao found the flying Gu worm was because he was interested in the flying Gu worm king's many underlings!

Moreover, the Flying Gu Insect King had absolute control over its other underlings. In other words, if Zhou Hao controlled the Flying Gu Insect King, it would be equivalent to having a good group of pawns that could help him find Xu Ling and the others!

Although the Flying Gu Insect King's intelligence was not high, seeing a mere human dare to come in front of them with such fanfare, it naturally would not tolerate it. It directly controlled its underling to tear Zhou Hao apart!

Zhou Hao snorted. Although he did not want to use too much combat strength, with his master-level cultivation and the strength of a grandmaster, it was still acceptable!

Therefore, Zhou Hao did not hesitate at all. As his saber swept out, countless flying Gu worms were directly cut off, and Zhou Hao also went straight for the Flying Gu Insect King!

The Flying Gu Insect King screamed when it saw this scene. It did not expect this human to be so arrogant and even dare to kill its underling in front of it!

Most importantly, he even dared to challenge him. Did he not want his life?

Accompanied by a sharp cry, the Flying Gu Insect King directly flapped its wings and released a powerful strength as it slashed towards Zhou Hao.

Zhou Hao's figure was strange, and his footsteps were elusive. In addition to the long saber in his hand, his combat strength was very high. He instantly fought back!

"What a powerful combat talent. Moreover, this saber technique... has definitely received President Zhou's true teachings!"

Bai Linglong was immediately surprised when she saw this.

It had to be said that this saber technique was used to perfection. Even Bai Linglong had not used any cultivation technique to such an extreme when she was a master.

"As expected of a disciple taught by President Zhou. Sigh..."

Bai Linglong sighed. Thinking of President Zhou, she felt as if a huge rock was pressing down on her heart!

Of course, she knew what the higher-ups intended to do and was very indignant. However, like Heavenly King Zhu and the others, she had no choice but to pray that President Zhou was safe and sound.

At this moment, under Zhou Hao's Shadow Seven Sabers, even the grandmaster Flying Gu Insect King was suppressed to the point of being unable to fight back!

This scene was really shocking. He clearly only had a master-level cultivation, but the combat strength he erupted with was comparable to a grandmaster!

"Flying Gu Insect King, you should be able to understand what I mean. Submit or die, choose for yourself!"

Zhou Hao held the long saber in his hand and was in high spirits. If not for his hidden cultivation, the Flying Gu Insect King would have definitely disappeared with a single slash!

Although the Flying Gu Insect King did not have high intelligence, it still knew what Zhou Hao meant. It flapped its wings and revealed hostility.

Zhou Hao knew that if he used brute force, although he could subdue it, it would still be ineffective. He had to use both force and grace!

The intelligence of mutated beasts was very low. They would instinctively go against humans. They didn't mind dying.

After all, it did not have the high intelligence of the Iron Bone Bear King.

However, if Zhou Hao took out something it liked, it would naturally be tempted.

Zhou Hao knew very well that this was the nature of mutated beasts.

"I can kill you, but I need you to help me do something now. This item is a rare-level Energy Bar and is very useful to you mutated beasts. If you help me, I can give you more of this. However, if you don't help me, I can only kill you!"

As Zhou Hao spoke, he threw the rare-level Energy Bar over. When the Flying Gu Insect King received it, it immediately revealed a covetous gaze, making it look like a human. It flapped its wings and greedily absorbed it, feeling very happy!

Zhou Hao just watched and did not disturb it. As long as the other party liked the Energy Bars, they could discuss anything. However, if it was greedy, Zhou Hao naturally would not let it off!

After the Flying Gu Insect King absorbed it, it looked at Zhou Hao greedily. After absorbing it, it knew how useful this item was to it and naturally wanted more!

However, it also understood that this human in front of it was not someone it could resist at all. Therefore, it was not in a hurry to attack.

Zhou Hao smiled and took out a few rare-level Energy Bars.

"I still have more. However, you have to submit to me. Otherwise, I won't give it to you. I'll even... kill you!"

Zhou Hao's killing intent and saber intent made the Flying Gu Insect King instinctively reveal a trace of fear!

Perhaps it was because of Zhou Hao's pressure, or perhaps it was because of the temptation of that thing, a change occurred. The Flying Gu Insect King pondered for a moment and directly prostrated on the ground, revealing its intention to submit.

Zhou Hao immediately smiled when he saw this.

"Very good..."

Zhou Hao's body moved directly as he stood on the Flying Gu Insect King's huge head and directly threw it another Energy Bar.

"I need to find some humans in the thirteenth spatial rift. If you find one, I'll give you one!"

After Zhou Hao finished speaking, the Flying Gu Insect King immediately screamed. The dense flying Gu worms immediately received the order and scattered.

Seeing this scene, Bai Linglong finally reacted. It turned out that this was actually Zhou Hao's plan!

"How smart. Flying Gu worms have always respected their insect king's orders and obeyed them without resistance. Moreover, flying Gu worms have a strong reproductive ability and can be said to be pervasive. This is indeed a creative solution!"

Bai Linglong revealed a look of praise.

She did not feel that Zhou Hao's methods were unrepresentable. Instead, she felt that Zhou Hao's actions had greatly reduced his danger. At the same time, he could also achieve his goal!

After all, any situation could happen in a battle between humans and mutated beasts. Sometimes, combat strength could not decide everything and creative solutions were also very important.

At this moment, the others were either hiding or killing mutated beasts to exchange for points. Even the grandmasters of the other teams relied on brute force to find their other companions.

However, at this moment, not only was Zhou Hao the most effective, but he was also the fastest to find the others!

“No wonder President Zhou took him in as a disciple. He’s bright and even has the temperament of a general!”

Chapter 377 - Accept the Challenge

Chapter 377: Accept the Challenge

Bai Linglong was shocked. She naturally had her reasons. Compared to the others, Zhou Hao’s performance was indeed remarkable!

The training in the thirteenth spatial rift was still ongoing. At this moment, after Xu Ling pulled her sword out of the grandmaster-level beast’s body, she heaved a sigh of relief and sat on the ground.

Although Xu Ling was in a lot of danger when she entered, danger was still everywhere in the thirteenth spatial rift. Moreover, she did not want to hide forever. She had her pride. Therefore, after adjusting her state, Xu Ling began hunting the beasts!

Xu Ling had her own plans when she did things. Usually, she would only take action after figuring out the mutated beasts’ weaknesses. Therefore, she had also dealt with a few other grandmaster-level mutated beasts safely.

Glancing at her points, Xu Ling took a deep breath. She was not excited at all. Instead, she was a little anxious.

“I wonder how they’re doing...”

Xu Ling was still most worried about Zhou Hao and the others. Although Zhou Hao was very powerful, he was still only a master.

She was even more worried about Yun Yan and Fang Yu!

However, the thirteenth spatial rift was still too vast. It was easier said than done to find Zhou Hao and the others!

As she was thinking, her expression suddenly changed. She felt a powerful fluctuation sweep over, and her expression immediately turned ugly!

Without saying a word, Xu Ling directly activated her Ice Muscle Body. The surrounding temperature instantly fell. Without hesitation, she waved her longsword and released an ice aura!

At this moment, a furry paw stretched out from the ground and slapped fiercely at Xu Ling!

Xu Ling snorted coldly and her longsword danced in the air. Waves of cold energy exploded. The Ice Muscle Body was a special trait and was extremely extraordinary. In addition, Xu Ling's cultivation was already at the grandmaster level, so she was incomparably powerful!

With a single slash, the furry paw was directly cut off. However, no blood surged out. The wound was neat and there was not a drop of blood!

Roar!

An angry roar sounded directly as a huge white bear crawled out from the ground. Its blood-red eyes and burly body looked incomparably mighty!

Xu Ling frowned when she saw this mutated beast, and her expression was solemn!

"White Ice Fur Bear... peak-level grandmaster. Why is it here?!"

Xu Ling's body retreated directly. She had just been ambushed by it. Fortunately, Xu Ling was skilled and her Ice Muscle Body was powerful, allowing her to cut off its arm.

However, this did not mean that this White Ice Fur Bear was trash!

On the contrary, it had ambushed her just now. However, its true ability was also to control the ice and snow storm. This was the talent of this mutated beast!

Xu Ling took a deep breath. She did not know if her Ice Muscle Body was stronger or if this White Ice Fur Bear's talent was stronger. However, at this moment, she was targeted by it and it would not be easy for her to escape.

"A match up between the Ice Muscle Body and the White Ice Fur Bear with intermediate-level bloodline is quite interesting. Although Xu Ling's Ice Muscle Body has been awakened for a long time, the Ice Muscle Body is originally precious. Since

ancient times, there have not been many martial artists who have awakened this bloodline. Therefore, she will need to figure out her combat style herself.”

“Now that she’s fighting this White Ice Fur Bear, perhaps it will bring her a lot of growth!”

“However... the danger is just...”

Bai Linglong narrowed her eyes and looked at the battle between Xu Ling and the White Ice Fur Bear. Her expression became slightly worried.

The White Ice Fur Bear with its paw cut off was very furious. It originally wanted to sneak up and kill this human, but it did not expect this human to be so powerful. The sword in its hand was also incomparably sharp, directly cutting off its paw!

It was extremely furious, and its eyes were scarlet as it roared.

As it spoke, its body directly shot up. Cold air spread from its huge body. With a wave of its hand, a large ice crystal appeared in the air and was hurled fiercely at Xu Ling!

Xu Ling did not hesitate. She suddenly swung the longsword in her hand and a ripple slashed over, condensing into an ice cube in the air.

Amidst the rumbling, be it ice or ice crystals, they were all shattered. A large amount of cold air spread out.

Surrounded by the white fog, Xu Ling did not lower her guard. She held her longsword in her hand and paid attention to the aura around her.

It was also at this moment that she raised her sword and stabbed forward fiercely. With a bang, a huge piece of ice was directly pierced by her. In the next second, the huge White Ice Fur Bear appeared behind her, raised its huge fist, and punched fiercely.

Xu Ling snorted. She had long sensed that this White Ice Fur Bear had some intelligence and knew to feign attacks to surprise her from behind.

However, this bit of intelligence was still too trivial in front of humans!

The ice aura on Xu Ling’s body was generous. With a bang, a huge aura exploded. The sword in her hand split into two, then into three, and finally divided into countless pieces!

“Ice Art—Ice Rain Descends!”

She shouted and used the cultivation technique she had practiced for a long time!

This cultivation technique was bought by his family with a huge sum of money. It was very compatible with the Ice Muscle Body. Xu Ling had a very high compatibility with it.

In addition, she had been training hard. The moment she used this cultivation technique, she was incomparably powerful!

Countless ice swords turned into raindrops and smashed fiercely!

From afar, it looked like a downpour. It was very extraordinary!

The White Ice Fur Bear immediately roared repeatedly. As it roared, it was struck by the countless sword rain, causing wounds to appear and blood to flow out.

The physique of the mutated beasts was powerful, but no matter how powerful they were, they would probably be severely injured if they encountered such a technique!

Xu Ling snorted and did not show any mercy. Her sword hung high above her head with a majestic aura, as if a queen had arrived.

“Ice Art—Icefall Sword!”

As soon as she finished speaking, a huge sword condensed and the surrounding ice aura attached to it instantly became a huge ice sword!

This was Xu Ling’s strongest trump card. Although it was powerful, it also consumed a lot of energy. However, at this moment, the White Ice Fur Bear was in an opening. She wanted to take this opportunity to end the battle!

The huge ice sword fell directly with a bang and slashed fiercely at the White Ice Fur Bear. A bang sounded, and it turned into an invisible storm that swept in all directions!

The White Ice Fur Bear roared repeatedly. Half of its body was slashed by the longsword, revealing its white bones. Blood flowed down like a waterfall!

It probably wouldn’t be able to live like this!

Death was only a matter of time!

Xu Ling landed on the ground and panted heavily. She was somewhat unable to handle this huge consumption. Fortunately, after dealing with this troublesome guy, she should be able to recover if she moved carefully after this.

However, things did not go according to her wishes. At this moment, an aura that made Xu Ling’s heart palpitate spread over.

In the next second, before she could react, an incomparably thick tail wrapped around the White Ice Fur Bear. Then, a huge python appeared and bit the White Ice Fur Bear's neck, sucking blood in large mouthfuls!

The python's aura also suddenly increased.

"This... this is... the Bloodthirsty Berserk Python!"

Xu Ling's expression finally changed!

Chapter 378 - Saving the Day

Chapter 378: Saving the Day

While Xu Ling was fighting, Zhou Hao was squatting on the Flying Gu Insect King with his eyes closed.

The Flying Gu Insect King below did not dare to move rashly, not only because it was afraid of Zhou Hao, but also because it wanted to obtain the Energy Bar from Zhou Hao!

Not long after, many weak Flying Gu Insect Kings returned and transmitted the information.

The Flying Gu Insect King also told Zhou Hao the information. It even released its mental strength for Zhou Hao to check.

Zhou Hao closed his eyes. He did see a few members from other teams, but he did not see a single member of his team. He became somewhat anxious.

"Continue searching. Keep an eye on these people for me. If you find anything, tell me immediately!"

Zhou Hao also gave the Flying Gu Insect King information about Xu Ling and the others. The latter immediately understood and screamed for the many small flying insects to search.

Zhou Hao did not move. He was waiting here. As long as he found traces of Xu Ling and the others, he would not hesitate to go!

As time passed, Zhou Hao became more and more anxious. Unfortunately, the thirteenth spatial rift was too big, and some of them were even hiding. It was not easy to find them.

Zhou Hao could only endure his temper and slowly search.

The more anxious he was, the more uneasy he became. Perhaps because it could sense Zhou Hao's current mood, the Flying Gu Insect King prostrated itself on the ground and did not dare to move!

Soon, another hour passed, and a large number of flying Gu worms returned. The news made Zhou Hao's expression change!

"Bloodthirsty Berserk Python!"

Zhou Hao's heart sank when he saw the scene transmitted to him by the small flying insect. After learning that Xu Ling was fighting a bloody battle, he immediately made the Flying Gu Insect King fly towards the Bloodthirsty Berserk Python without any hesitation!

At this moment, Xu Ling's heart trembled as she looked at the huge Bloodthirsty Berserk Python.

This mutated beast was the most vicious and sinister. It did not care if it was dealing with humans or mutated beasts. As long as it could increase its cultivation, it would swallow the other party!

It had probably noticed Xu Ling when she was fighting the White Ice Fur Bear just now. The reason why it did not appear was because it was waiting for an opportunity!

It wanted to take advantage of the situation!

It had to be said that it had seized the perfect opportunity. The White Ice Fur Bear had already been exhausted after it was destroyed by its sword.

Clearly, in its exhausted state, it was unable to resist this Bloodthirsty Berserk Python!

Without saying a word, Xu Ling prepared to escape. However, how could the Bloodthirsty Berserk Python give Xu Ling any chance to escape? It used its tail to support the corpse of the White Ice Fur Bear. At this moment, the White Ice Fur Bear had already lost most of its blood essence. It was basically dead, and its body had become thin.

The python held the bear with its tail and did not forget to suck its blood essence.

At the same time, it grabbed at Xu Ling fiercely.

Xu Ling had just exhausted herself and did not expect a second mutated beast to arrive. This made her unable to guard against it at all!

“If I had known earlier, I wouldn’t have been so greedy to kill the White Ice Fur Bear. Now that I’ve consumed a lot of energy, I’m simply not its match. Moreover, this python will only be even more difficult to deal with than the White Ice Fur Bear!”

Xu Ling’s face was pale, not only because she had just consumed too much energy, but also because she was afraid!

The threat of death made her nervous!

In the end, she was still only a girl. Although she was not inferior to men, she still needed time!

The Bloodthirsty Python behind her was not in a hurry. In the thirteenth spatial rift, there were mutated beasts everywhere. As a grandmaster, its combat strength was top-notch. Ordinary mutated beasts were simply not its match!

They would even hide when they smelled its aura.

It was chasing after Xu Ling with a teasing look in its eyes and was in no hurry to eat her.

It was taking its time!

The White Ice Fur Bear was already on the verge of death. Its life force quickly melted. Not long after, the blood in its body was completely absorbed. The Bloodthirsty Berserk Python directly threw it to the ground and roared.

Its aura suddenly soared. It was only half a step away from becoming a supernatural expert!

The evolution of mutated beasts was very simple. As long as one devoured the bloodlines of other powerful mutated beasts, they would break through.

Of course, there were also mutated beasts that relied on cultivation and absorbing the Heaven and Earth Spirit Treasures. However, there were also many brutal mutated beasts that directly devoured other mutated beasts.

The Bloodthirsty Python was such a mutated beast!

It was already ferocious to begin with and its bloodline was already extraordinary. As long as it carefully matured, breaking through to the supernatural level was not a problem!

This was also one of the reasons why it did not leave the thirteenth spatial rift!

It wanted to devour most of the powerful mutated beasts in the thirteenth spatial rift and become a supernatural expert.

However, it did not expect to encounter humans!

Moreover, it was a human who was capable of fighting a grandmaster-level beast!

This made it extremely happy. Just now, it almost couldn't help but attack.

Now that it had absorbed the essence blood of the White Ice Fur Bear, it was even stronger. However, it also knew that this human in front of it was the true delicacy!

Not only was her flesh delicious, but it was also because the energy contained in her bloodline was much richer than the White Ice Fur Bear!

After absorbing the White Ice Fur Bear, the Bloodthirsty Berserk Python was no longer playful. Its body rushed forward, opened its bloody mouth, and directly pounced to swallow Xu Ling!

Xu Ling circulated her cultivation and her Ice Muscle Body exploded, condensing into ice crystals around her as she tried to block the Bloodthirsty Berserk Python's figure.

The Bloodthirsty Python's body was originally incomparably agile. In addition to the scales on its body, its defense was even more shocking than the White Ice Fur Bear!

It dodged most of the ice crystals. Although many of them landed on its body, they did not cause any damage!

Its huge tail swung directly, raising an explosive sound in the air. Its speed was even surprisingly fast, directly blocking behind Xu Ling.

Xu Ling condensed an ice wall behind her, but she was still hit firmly.

The ice wall shattered, and she suddenly spat out a mouthful of blood and fell to the ground.

The battle just now had already left her exhausted. Now, she had suffered a direct hit, making it impossible for her to fight!

Her face was pale as she looked at the Bloodthirsty Berserk Python, her face filled with grief. Could it be that she really had to die here today?

Or should she really quit this assessment?

Xu Ling was somewhat unwilling to give up, but she still took out the teleportation device and was prepared to press it at any moment.

However, at this moment, a black shadow fell and covered the sky. She suddenly looked up and saw a huge Flying Gu Insect King circling in the air.

At the same time, a sharp saber aura shot out from the Flying Gu Insect King's head and directly attacked the Bloodthirsty Berserk Python.

This scene stunned her for a moment, but in the next second, her pretty face was immediately filled with joy.

This was because she saw a thin figure above the Flying Gu Insect King!

Chapter 379 - Insta-kill

Chapter 379: Insta-kill

Zhou Hao stood on the Flying Gu Insect King as a powerful saber aura whistled from the sky, slashing at the Bloodthirsty Berserk Python.

Taking advantage of this opportunity, Zhou Hao soared into the air and landed in front of Xu Ling. Seeing that she was fine, he felt a lingering fear!

The Bloodthirsty Berserk Python was originally powerful and had a violent personality. Moreover, Xu Ling was clearly exhausted. If he did not arrive in time, the situation would definitely be very bad!

Fortunately, he arrived in time. Zhou Hao heaved a sigh of relief and hurriedly said, "Are you alright? Are you injured?"

“A little, but it’s nothing serious.” Xu Ling smiled sweetly. The moment she saw Zhou Hao, she was no longer afraid. It was as if this man in front of her could lift up the sky!

“Alright, give me a second to handle this.”

As Zhou Hao spoke, he took out a rare-level Energy Bar and handed it to Xu Ling. Then, he held a long saber and slashed at the Bloodthirsty Berserk Python.

“Saving a damsel in distress... Interesting.”

Bai Linglong had been paying attention to this area. Seeing that Xu Ling was no longer in danger, she also relaxed. However, she was still curious as to how Zhou Hao could deal with the Bloodthirsty Berserk Python.

This mutated beast was not like the Flying Gu Insect King. In the thirteenth spatial rift, its strength was top-notch and was already halfway to becoming a supernatural expert!

As for Zhou Hao, he was only a peak-level master!

It was easy to tell who was stronger at a glance.

Zhou Hao naturally knew this as well. Although his Shadow Seven Sabers was very powerful, it was still not enough for him to kill the other party with his master-level cultivation. Therefore, Zhou Hao took a deep breath and prepared to use the God Slaying Art!

Since they all knew that his master was President Zhou, there was nothing to be afraid of, right?

Moreover, they might not necessarily know the God Slaying Art!

Thinking of this, Zhou Hao secretly circulated the God Slaying Art. His aura immediately became stronger, directly jumping levels to the level of a grandmaster!

The God Slaying Art could increase one’s cultivation level. Although there was a price to pay, it was almost negligible for Zhou Hao!

Zhou Hao’s instantaneous increase in aura stunned Bai Linglong. She carefully looked at Zhou Hao’s aura and could not help but be surprised.

“Is this... President Zhou’s God Slaying Art? I heard that the God Slaying Art can increase one’s combat strength. I didn’t expect President Zhou to give this cultivation technique to Zhou Hao!”

“Moreover, this Zhou Hao’s talent is too good. He actually learned the God Slaying Art. He’s simply... a monster!”

Not everyone could cultivate the God Slaying Art. If that was the case, this cultivation technique would have long been a necessary cultivation technique for humans!

It was precisely because it was extremely difficult to cultivate that very few people used it. The price was very high, and under normal circumstances, no one would cultivate it!

However, be it Zhou Hao or President Zhou, they had both successfully cultivated it. This was something Bai Linglong did not expect!

“President Zhou takes such good care of this Zhou Hao. Could it be that the two of them are not just master and disciple? President Zhou’s surname is also Zhou like Zhou Hao. Could they be relatives?”

Of course, Bai Linglong knew Zhou Hao’s background. When Zhou Hao and the others entered the school, their identities had been verified countless times. Moreover, they had been verified an extra time after they arrived at the training camp.

Even his three generations of ancestors had been investigated thoroughly.

This was the rule of the human race. Only in this way could they investigate everyone’s background and prevent them from being spies sent by the foreign races to endanger the human race!

“President Zhou’s identity has always been a mystery. No one has seen what he looks like, and no one knows who he is. Even I... don’t know much...”

“However, judging from his situation with Zhou Hao, this Zhou Hao is definitely not an ordinary person. Otherwise, he wouldn’t have taught everything he learned to Zhou Hao!”

Bai Linglong took a deep breath and felt that something was wrong!

“We can’t let the higher-ups know about this. Otherwise, they might pay a visit to Zhou Hao!”

As Bai Linglong spoke, she directly opened the system interface and erased the scene of Zhou Hao using the God Slaying Art.

Her goal was to protect Zhou Hao and President Zhou!

Zhou Hao’s aura instantly stepped into the grandmaster level. This scene stunned Xu Ling. Immediately after, Zhou Hao used the Shadow Seven Sabers, and a powerful saber aura instantly erupted.

Without any hesitation, the Bloodthirsty Berserk Python was instantly killed!

Blood instantly spread out. Under the blood rain, Zhou Hao's figure appeared incomparably cold and domineering!

Xu Ling also did not expect Zhou Hao to be so powerful that he could instantly kill the Bloodthirsty Berserk Python with a single slash!

At this moment, Zhou Hao had also dissipated the God Slaying Art, and his aura had returned to the master level.

"What... secret technique is this? It can actually increase your cultivation instantly!"

Xu Ling was shocked and couldn't help but cover her mouth.

The Xu family was also a large family. Xu Ling still knew about such secret techniques. All of them were precious items!

She had never expected Zhou Hao to have such a precious cultivation technique!

"My master taught it to me." Zhou Hao chuckled.

Hearing this, Xu Ling naturally understood. That was President Zhou, known to be the number one person under the Heaven Realm. It was nothing for him to give Zhou Hao such a cultivation technique.

"How was it? Did I impress you just now? Did I capture Miss Xu's heart?"

Zhou Hao was overjoyed. Seeing that Xu Ling was fine, he was in a good mood and could not help but joke.

"Can you be more serious!"

Although Xu Ling said this, her pretty face was red. In her heart, she could not forget the god-like figure of Zhou Hao from just now.

At this moment, the Flying Gu Insect King landed on the ground with a bang. Xu Ling jumped and subconsciously entered a combat prepared state.

"Don't be nervous. This Flying Gu Insect King can already be considered as my mount. If not for it, I wouldn't have been able to find you," Zhou Hao immediately said.

"Ah?" Xu Ling's eyes widened in disbelief.

"I tamed it. The Flying Gu Insect King can command all its underlings. Therefore, I got them to help find you."

Zhou Hao smiled and threw a rare-level Energy Bar to the Flying Gu Insect King. The latter was now completely frightened by Zhou Hao's strength. Moreover, it really needed a rare-level Energy Bar, so it was exceptionally obedient and prostrated on the ground without moving.

"Let's go. I've also found Yun Yan and the others. Let's gather them first."

Zhou Hao held Xu Ling's hand, and the latter said worriedly, "Are we... going to ride this?"

Xu Ling was a little worried.

"With me around, what is there to worry about? Don't worry, it's very intelligent. It should know that going against us will not only not be beneficial to it, but it will also lose its life. Only by helping us can it obtain the Energy Bar it wants."

"What does that mean? Anything that can be resolved with money is not a problem."

Zhou Hao smiled and Xu Ling was speechless.

However, it had to be said that Zhou Hao's method shocked Xu Ling.. She would have never thought of such a thing.

Chapter 380 - Breaking Out Of The Encirclement

Chapter 380: Breaking Out Of The Encirclement

Zhou Hao looked at Xu Ling's surprised expression and smiled. "Alright, let's make the best use of our time and find them all. After all, you're the only grandmaster in our team. You're the one with the best cultivation."

Xu Ling looked at him angrily. "You're so humble. Remind me again, who was the one that killed the Bloodthirsty Berserk Python?"

Zhou Hao chuckled and did not say anything else. He hugged her waist and directly jumped onto the Flying Gu Insect King, speeding away.

“The Flying Gu Insect King sent me a message. It found Yun Yan and Fang Yu. I’m somewhat surprised that they’re together.”

Zhou Hao had also just learned about it. Not only did he know about Yun Yan and Fang Yu’s location, he had also learned where Yuan Cheng and Zhang Yi were through the Flying Gu Insect King!

Yuan Cheng’s escaping ability was not bad and he was still safe. Although Zhang Yi had lost some weight and was injured, he had still hidden himself.

On the other hand, Fang Yu and Yun Yan were not in a good state. If they did not rush over now, there would probably be problems later!

“Then let’s go quickly. To be honest, I’m most worried about Yun Yan and Fang Yu!” Xu Ling said nervously.

Zhou Hao could not help but ask, “What? Aren’t you worried about me?”

Xu Ling rolled her eyes at him. “Of the few of us, you have the highest combat strength. Why should I worry about you? Hmph!”

Zhou Hao sighed and did not say anything. The two of them sat on the Flying Gu Insect King and sped in the same direction!

At that moment, Yun Yan and Fang Yu were hiding in a valley. In this valley, there was a cave. The two of them were hiding there, and the valley was densely filled with mutated beasts.

Although these mutated beasts were not very powerful, not far from them lay a gray wolf beast the size of an elephant.

This was the leader of the wolf beast group, and this was also their hideout.

Fang Yun and Yun Yan were actually separated when they arrived at the thirteenth spatial rift, but they were very close.

As soon as Yun Yan entered, she encountered a group of mutated beasts. She used all her strength to escape and encountered Fang Yu, who was also in a sorry state.

The two of them traveled together and were in an even more sorry state. They hid everywhere and found a place to hide. They originally thought they could heave a sigh of relief after finding shelter in a cave, but who knew that they would discover that this was actually the hideout of the wolf beasts!

This made them extremely depressed!

They originally wanted to find a safe place to resupply and find the others, but they were directly trapped here!

“What should we do? What should we do? We can’t get out of here. Do we have to endure for seven days like this?”

Yun Yan was wearing close-fitting armor, revealing her perfect figure.

Fang Yu also sighed and said helplessly, “It’s all your fault for insisting on coming to this cave. Great, now we’re trapped!”

“I don’t think you’re allowed to blame me! If not for me dragging you here just now, you would have been eaten by the anteater beast!” Yun Yan said angrily.

“That’s not true. I still have a lot of powerful equipment I haven’t used yet!” Fang Yu snorted.

“What should we do now? Do we really have to stay here for seven days?” Yun Yan sighed and could not be bothered to argue with Fang Yu.

“It can’t be helped. If we go out, we’ll definitely be torn to pieces. That Ash Wolf King is at the grandmaster level!” Fang Yu said gloomily.

Yun Yan leaned against the stone wall of the cave and couldn’t help but say, “If only Zhou Hao and Xu Ling were here. The two of them would definitely be able to deal with this mutated beast.”

Hearing this, Fang Yu nodded, but she also said worriedly, “This place is filled with danger. I wonder how Zhou Hao, Xu Ling, and the others are doing. Moreover, the thirteenth spatial rift is so huge, so how are they supposed to find us...”

“Even if it’s not them, it’s fine with the other teams. After coming in for so long, I only saw you. I didn’t see anyone else.” Yun Yan sighed.

“Instructor Bai must be paying attention to this place. Moreover, we have the teleportation device. Our safety is not a problem. However, won’t we be laughed at if we stay here for seven days without doing anything?”

Fang Yu’s words also struck a chord with Yun Yan.

They were from the Yanjing Training Camp and were originally elites.

However, after such a long time, they realized that they had unknowingly been caught up by Xu Ling and Zhou Hao.

In fact, the difference between them was increasing.

“No, I can’t just stay here. Even if I have to take a gamble, I have to try!”

Yun Yan snorted. Her pride did not allow her to do this. It was not only because she wanted to embarrass herself, but because she wanted to become stronger!

“That’s right. At most, we’ll lose. What are we afraid of?!” Fang Yuzhong nodded heavily.

The two of them did not hesitate at all!

“I have a few laser missiles and a few paralyzing missiles here. If we use them together, we should have a chance to kill our way out!” As Fang Yu spoke, she took out the weapon from her backpack and handed it to Yun Yan.

“The main problem here is that Ash Wolf King. The paralyzing missiles and the laser bullets shouldn’t be able to cause much damage to it. However, after killing these wolf beasts, there’s no need for us to fight it head-on. Let’s just run and leave this place. How about that?”

Yun Yan pointed at the distant valley exit.

Fang Yu nodded in agreement. The two of them made a simple plan and began to take action!

This group of wolf beasts was resting. Fang Yu and Yun Yan rushed out directly. Without a word, they threw the paralysis missile.

In an instant, a loud bang sounded, directly blasting these wolf beasts into the clouds and mist. Under the effect of the paralyzing missile, their limbs were affected!

As for the two of them, they were not affected at all. The two of them moved forward together and used their cultivation techniques.

Fang Yu’s entire body was bathed in flames. This was Fang Yu’s strongest cultivation technique, the Starfire Burning Plains. Although it was not a powerful cultivation technique, it was still considered very impressive at the master level.

Yun Yan retracted her blood essence into her body. She replenished her limbs and meridians and was extremely powerful like a violent dragon!

If Zhou Hao were here, he would definitely be shocked!

He had long suspected that Yun Yan had used all her cultivation to shape her body. The facts had proven that it was true!

Yun Yan cultivated the Overlord Body Art!

This technique focused on cultivating one's body and enhancing one's physical strength to a certain extent. It was like a treasure and was extremely powerful!

The commotion between the two of them instantly alerted the Ash Wolf King. It roared angrily, its voice surging. However, Fang Yu was already prepared. As it roared, a few laser missiles and paralysis missiles were hurled at it!

After doing this, the two of them did not hesitate at all and directly began to kill these wolf beasts. They were determined to kill their way out!

Fang Yu was covered in flames. Wherever she went, the wolf beasts that were already affected were instantly burned to ashes.

As for Yun Yan, she was even more violent.. She shattered a wolf beast with a single punch. Her entire body was covered in blood, and she was like a valiant war god!

Chapter 381 - Fight to the Death

Chapter 381: Fight to the Death

Although the two of them were relying mostly on their courage to break out of the encirclement, they still had a plan.

The two of them had some chemistry and were efficient when they fought.

The Ash Wolf King was blasted until it saw stars. Not only was it hit by the laser missile, but its entire body was also numb from the paralysis missile.

When it turned around, it realized that most of its underlings had been killed.

Immediately, the Ash Wolf King roared in anger!

Blue flames rose from its body like a ghost in the night, even terrifying!

This was the bloodline power of the Ash Wolf King. Once it stepped into the grandmaster level, it would awaken this talent and become extremely fast. Moreover, with the support of this blue nether flame, its destructive power was also very shocking!

Although it was only the size of an elephant and was far inferior to the size of the White Ice Fur Bear and the Bloodthirsty Berserk Python, its destructive power far surpassed these two mutated beasts!

The only drawback was that it did not have much strength and its resistance to attacks was weak. In a competition of strength, it would naturally be inferior to the White Ice Fur Bear and the Bloodthirsty Berserk Python!

However, in terms of speed and destructive power, the two of them were simply no match for the Ash Wolf King!

At this moment, its entire body surged with blue flames as it roared repeatedly. The muscles on its body also became corporeal. It ignored the effects of the paralyzing missiles and the laser missiles. Instead, its body turned into a blue light that directly pounced towards Fang Yu and Yun Yan!

Fang Yu and Yun Yan had long sensed it when it moved. The two of them thought to themselves that something was wrong. They also knew that they were far from being its match!

However, the two of them quickly calmed down. Fang Yu shouted and the flames on her body immediately erupted. A sea of flames instantly appeared within ten meters of Fang Yun!

The might of this sea of flames was very powerful, and the surrounding beasts were instantly burned to death!

It had to be known that these were all master-level beasts. Although their movements had been affected, they were still superior to ordinary human masters!

Moreover, she had used her strongest spell technique and actually managed to burn so many mutated beasts at once. It was very impressive!

Yun Yan did not show any weakness. Her physical strength exploded, and her armor even condensed a faint white color. This was the unique aura of the Overlord Body.

Under this force, Yun Yan's speed was very fast and her destructive power was also extremely powerful. With a punch, she directly turned the wolf beasts into a bloody mist. She was very cruel!

The two of them knew that the valley was not far away. As long as they got out, they would have a chance!

Therefore, they risked their lives and used their full strength!

Bai Linglong, who had been paying attention here, also nodded secretly.

Although their strength was very weak compared to the other teams, it had to be said that the two of them had some tacit understanding. Moreover, their cultivation levels were not bad. Since they were fighting so desperately, their potential naturally exploded!

“Fang Yu’s Starfire Burning Plains cultivation technique is not considered authentic. However, with her talent, she might be able to cultivate the Red Lotus Karmic Flame!”

“Yun Yan’s Overlord Body is indeed a good cultivation technique. Although it’s suitable for girls, for her to be able to cultivate this cultivation technique to this extent shows how much effort she has put in. However, the Overlord Body cultivation technique is still not considered a supernatural cultivation technique. That Purgatory Body Art is indeed more suitable for her!”

Looking at the battle between the two of them, Bai Linglong had even thought of their future path!

“However, whether or not you can get out of here depends on your ability.”

Bai Linglong smiled and paid close attention.

On the other side, Zhou Hao and Xu Ling were flying quickly on the Flying Gu Insect King.

The Flying Gu Insect King was a grandmaster-level existence and could be considered to be quite impressive in the thirteenth spatial rift. With it leading the way, it would be much less troublesome.

At the very least, the other grandmaster-level beasts did not jump out to stop it.

This saved Zhou Hao and Xu Ling a lot of trouble. Otherwise, even if they knew the whereabouts of Fang Yu and Yun Yan, the two of them would probably have to overcome many obstacles to arrive in front of Fang Yu and Yun Yan!

The two of them were fine with fighting, but they did not know if Fang Yu and Yun Yan could afford to wait.

Just as Zhou Hao and the others were hurrying along, only Yuan Cheng was living the most carefree life!

He was wearing a thruster and holding a laser gun. In addition, he had a master-level cultivation and adhered to the strategy of not provoking the strong and running if he could not defeat them. He was not in any danger!

Instead, he was the safest among them!

In comparison, Zhang Yi was in a much more sorry state!

Dozens of master-level beasts were lying in front of him, and he was leaning on the side, breathing heavily. Blood and sweat were mixed together, and he could no longer tell what was real!

“Damn, luckily, I have a tough life. Otherwise, I would have really been killed by these bastards!”

Zhang Yi revealed a tenacious expression. Although he was very tired at this moment, his eyes revealed excitement!

After all, with his talent, it was not easy for him to become a master!

He did not have a background or heaven-defying luck like Zhou Hao. All he had was hard work.

He did not have any profound cultivation techniques and only cultivated day after day!

However, the heavens rewarded the diligent. Not a single drop of sweat was wasted. At this moment, his cultivation level was not the strongest, but his combat strength was the highest among the six of them. Other than Zhou Hao and Xu Ling, he was the strongest!

Zhang Yi was holding a battle axe in his hand and even his blade had been broken. It could be seen how heroic the battle just now was!

“Although it was difficult, I still accumulated a lot of points!”

Zhang Yi looked at the points and saw that there were already hundreds of them. He was very happy.

“I wonder how they are doing. I’ll replenish my supplies and then go look for them. With Zhou Hao leading the way, the few of us will definitely be able to last until the end!”

Zhang Yi took a deep breath, took out his supply equipment, and began to treat his injuries.

On the other side, Yun Yan and Fang Yu were in a sorry state. The two of them had already escaped from the valley, but the Ash Wolf King was chasing closely. It was so fast that it was about to catch up!

Fang Yu and Yun Yan were very anxious and were prepared to use the teleportation device. Once they were in danger, they would definitely not hesitate to turn on the switch and leave.

However, they still did not want to do so until the last moment!

“If we run like this, we definitely won’t be able to escape. Let’s give it our all. If we still can’t deal with them, we’ll leave!”

“Alright!”

The two girls reached an agreement and stopped escaping. Fang Yu’s body was covered in flames as a huge fireball condensed in her hands.

“Starfire Burning Plains!”

She shouted and used her strongest technique.

As for Yun Yan, she directly took a deep breath. The domineering power around her condensed, forming a huge fist in front of her!

“Overlord Body Fist!”

This was also Yun Yan’s strongest technique. Whether or not she could deal with the Ash Wolf King would be decided at this moment!

The two of them did not hesitate and directly attacked that Ash Wolf King!

A teasing look flashed in the Ash Wolf King’s eyes, and it did not care at all.

However, in the next second, its eyes were filled with fear.. It looked up and saw a sharp saber beam coming from the sky. Immediately, it was filled with despair!

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 382 - Sparring

Chapter 382: Sparring

After Yun Yan and Fang Yu used their ultimate techniques, they were also nervous. The two of them knew very well where their limits were. Therefore, they also knew that with this ability, they were simply unable to kill the Ash Wolf King!

The two of them did not immediately trigger the teleportation formation because they hoped for a miracle to happen!

Although it was not logical to hope for a miracle, humans were still like this. They would not give up until all hope was lost!

A loud bang sounded directly, and a storm made the two of them retreat involuntarily.

They had expected their ultimate techniques to have such destructive power. Unfortunately, this was still not enough to kill the Ash Wolf King!

However, in the next second, the explosion stopped. The two of them could no longer sense the movement of the Ash Wolf King.

“What happened? Did it escape? Or is it dead?” Yun Yan asked uncertainly.

“It’s definitely not dead. Our attacks only injured it a little. If I had to guess, it probably ran away after not moving for so long!” Fang Yu still knew her limits and analyzed.

The smoke slowly dissipated. The two of them stared at the huge shadow in the smoke.

Seeing the Ash Wolf King’s shadow, the two of them subconsciously took a step back, worried that this bastard would suddenly attack.

However, as the smoke also decreased, the scene in front of them became clearer and clearer. Finally, after seeing the Ash Wolf King’s lifeless body, they immediately became shocked!

“Dead... dead?”

“Ah...? It’s really dead?”

Yun Yan and Fang Yu were shocked. The two of them looked at each other in disbelief!

“How did it die? Did our strength increase?” Fang Yu said uncertainly.

“Of course. My Overlord Body is very powerful. It probably has nothing to do with you. I was the one who killed him!” Yun Yan said shamelessly.

“You really have no shame. If it was killed by one of us, then it would have been because of my Starfire Burning Plains. Stop being smug!”

Fang Yu snorted as she retorted.

“It’s definitely me. Your Starfire Burning Plains is no match for my Overlord Body!” Yun Yan was also unconvinced.

“Nonsense. Why don’t we spar?” Fang Yu was immediately furious.

“Fine, let’s spar. I’m not afraid of you!”

Yun Yan also rolled up her sleeves.

In the sky, Zhou Hao and Xu Ling, the Flying Gu Insect King, immediately had helpless expressions when they saw this!

In the last moment just now, Zhou Hao had used his Shadow Seven Sabers to directly kill this Ash Wolf King. Yun Yan and Fang Yu’s techniques contributed slightly, but they were basically insignificant.

However, these two shameless people actually fought because of this matter. Zhou Hao really did not expect this.

“Hey, don’t you two have any shame? I was clearly the one who killed this Ash Wolf King, but you two are actually fighting for credit.”

At this moment, Zhou Hao could not help but speak. His voice was not loud, but it landed in the ears of the two people below who were rubbing their fists!

The two of them were about to fight and exchange blows when they heard this voice. They were shocked and subconsciously looked up.

Immediately, they saw that another grandmaster-level beast had appeared in the sky. They immediately cried out.

“Another... another grandmaster-level beast...”

“No... that’s not right. I clearly heard Zhou Hao’s voice...”

Yun Yan and Fang Yu blurted out as their faces turned pale!

Seeing them like this, Zhou Hao looked at Xu Ling and immediately smiled. He waved his hand.

“Hey, we’re over here!”

Zhou Hao waved his hand and got the Flying Gu Insect King to land. After the two of them saw Zhou Hao and Xu Ling, their eyes widened even more. They looked at the Flying Gu Insect King in disbelief and were very shocked.

“You... you...”

The two of them did not know what to say.

“Seeing your shocked expression, I know what you want to ask. This mutated beast was tamed by us. Just now, I was also the one who killed the Ash Wolf King with a single slash. Misses, are there any more questions this time?”

Zhou Hao looked at their shocked expressions and found it somewhat funny.

Xu Ling rolled her eyes at her and hurriedly got off the Flying Gu Insect King and ran over.

“How are the two of you? Are you seriously injured?” Xu Ling asked anxiously.

Only then did Yun Yan and Fang Yu return to their senses. After seeing Xu Ling and Zhou Hao, they were completely relieved.

“So it’s really you guys. Hah... you really scared me. Don’t worry, we’re fine. However, you have to answer us first. Did you really tame this beast?” Yun Yan hurriedly waved her hand, still not believing Zhou Hao.

“It wasn’t us. He tamed it himself and also used the Flying Gu Insect King. Zhou Hao found me before he found you guys,” Xu Ling explained.

Hearing this, Yun Yan and Fang Yu finally believed it, but they were still somewhat shocked.

“Zhou Hao, I didn’t expect you to be so powerful all of a sudden. You can even control mutated beasts. Teach me. How did you do it?” Fang Yu blinked her eyes curiously.

The main reason was that this mount was too flashy. Just its size alone made it very impressive to look at.

“It’s very simple. You can tame it as long as you can defeat it.” Zhou Hao chuckled. Fang Yu and Yun Yan immediately rolled their eyes at him!

This guy was making them more and more speechless!

“Alright, since you’re not injured, let’s go find Zhang Yi. He’s injured.”

Zhou Hao hurriedly said. This was not the time to joke. Zhou Hao had just learned from the flying Gu worms that Zhang Yi had undergone an especially tragic battle. Although his life was not in danger, he was still severely injured.

If he encountered another grandmaster-level beast, he would definitely die!

Of course, it was still impossible for him to die. After all, with the spatial transfer device, it was still extremely easy for him to teleport out!

Hearing this, Yun Yan and Fang Yu also stopped fooling around. The four of them hurriedly rode the Flying Gu Insect King towards Zhang Yi.

Bai Linglong had seen all of this and was rather shocked.

“This Zhou Hao is really impressive. He killed the Ash Wolf King in one move. Although the Ash Wolf King’s defense is very low, it’s still not something an ordinary grandmaster can instantly kill!”

“I really don’t know how President Zhou raised such a small monster. Oh, right, President Zhou is also a monster himself!”

Bai Linglong shook her head and stopped looking at Zhou Hao and the others. Instead, she looked at the other teams and frowned slightly!

“The other teams don’t seem to be as relaxed as Zhou Hao and the others. Although Lu Zimo and the other grandmasters are very powerful and can kill grandmaster-level beasts independently, the others won’t have it easy!”

Bai Linglong saw that many members of the other teams were already injured and sighed.

Chapter 383 - Training

Chapter 383: Training

Bai Linglong was naturally worried. After all, many of them did not have the ability to survive independently in the thirteenth spatial rift!

Even those grandmasters were the same. To be honest, their combat strength was really inferior to Zhou Hao!

They were only as strong as Xu Ling and were not much stronger!

This also shocked Bai Linglong. She thought to herself that Zhou Hao was really a genius!

However, she still wanted to give the credit to President Zhou!

This made her even more curious about President Zhou!

“This person... What is his background? And why does he have a Genesis Rune? Did he really destroy all the martial artist demons like what the records described?”

Bai Linglong did not believe it. After all, she had not interacted with him much, but she was still aware of what kind of person President Zhou was!

If such a person was a threat to humans, then how could there be good people left in the world?

“I hope President Zhou won’t...”

Bai Linglong sighed and looked at the communication device. President Zhou’s equipment had long been offline, and the message she sent had also disappeared. This made her even more worried!

“Where will he go...?”

On the other side, Zhou Hao, Xu Ling, and the others rode the Flying Gu Insect King and quickly found Zhang Yi. This guy was just as shocked as they were. However, although he was shocked, he quickly understood!

After all, he knew how powerful Zhou Hao was!

Zhou Hao hurriedly took out a rare-level Energy Bar and got Zhang Yi to replenish his energy. After that, they also looked for Yuan Cheng!

This guy was really cunning. With the help of the thruster, he hid on a big tree and made Zhou Hao and the others search for him for a long time!

“Damn, Zhou Hao, you guys are too impressive. This mount is simply too flashy. Wouldn’t it be very easy to escape if we had this to help us?!”

These were Yuan Cheng’s first words after meeting up with the group.

This guy was really willing to do anything to escape. His every thought was about escaping!

It was also because of this thought that he could remain unscathed all this time.

Although Zhou Hao was the same, he was still far inferior to Yuan Cheng in this aspect!

"We've already gathered. What should we do next?" At this moment, Yuan Cheng couldn't help but ask.

Zhou Hao had also thought of this problem. Now, the six of them had already gathered together. In the thirteenth spatial rift, they would undoubtedly survive. Next, they would have to accumulate points!

"We can use our advantage to kill those mutated beasts in exchange for points. I think our team will still be ranked at the top this time!"

Zhou Hao immediately suggested, as did the others.

Zhou Hao got them to adjust their states while he checked his backpack alone.

With a look, he was shocked. Most of the densely-packed Essence Energy Ancestral Stones had been consumed at this moment, and the Thousand Feather Armor had also been completely repaired!

"Reporting to Master, Little Yu has already been repaired." Little Yu's child-like voice sounded in Zhou Hao's mind.

"Very good!"

Zhou Hao was very excited, but in order to prevent himself from being exposed, he suppressed the urge to immediately give it a try!

Although he said this, Zhou Hao was still anxious. However, he could only wait for a few days and leave when the time was up!

At this moment, Lu Zimo of the first team was panting. He had also done his best to kill a grandmaster-level beast.

"Damn it, this is too difficult. If not for my grandmaster-level cultivation, I would have been eliminated long ago!"

Lu Zimo took a deep breath and hid in a place.

"The first place this time will definitely be mine. This thirteenth spatial rift is so huge. It'll probably be very difficult for the people of Team Seven to work together. Perhaps someone from Team Seven will have been eliminated long ago!"

Lu Zimo smiled. It was his shame that he did not get first place last time. This time, he had to wash away his humiliation!

Other than him, Cao Gongren and Wu Dong from Team Two, Dong Ran and Han Bing from Team Three, Zhou Gongjin and Lu Ziming from Team Four, Feng Xiaotian and Chen Yan from Team Five, and Li Tianyi from Team Six all thought the same!

What they wanted to do was to get first place!

However, they did not know that Zhou Hao and the others had long gathered!

The six of them split up and began to kill the mutated beasts!

“Instructor Bai brought us to the thirteenth spatial rift to train, so we can’t come for nothing. Last time, we worked together as a team. Although this time, we will still be working together as a team, what we have to do this time is train ourselves!”

“There are many mutated beasts in the thirteenth spatial rift. After we see them, don’t be greedy and challenge what you can’t resolve by yourself, understand?”

At this moment, Zhou Hao was really like a team leader as he began to command the team!

The others also believed Zhou Hao and his words.

“Since there’s no problem, it’s time for us to hunt!”

Zhou Hao smiled and directly got the Flying Gu Insect King to start searching for those mutated beasts.

It was best if there were no more than two grandmaster-level beast groups. Although he was not afraid, he could not expose his strength. If they were surrounded by them, wouldn’t it mean that Zhou Hao would need to save them?

If he attacked, Bai Linglong would definitely know. However, what if he didn’t save them? Although their lives were not in danger, they would still be eliminated. This was something Zhou Hao did not want to see!

Soon, the Flying Gu Insect King sent a message. It had to be said that with this Flying Gu Insect King in the thirteenth spatial rift, everything had become much easier!

They directly flew past a valley and saw a group of Poison Scorpion Beasts!

The Poison Scorpion Beast’s poison was very strong, and their tails were very sharp. Even a master-level Poison Scorpion Beast’s tails could cause danger to a grandmaster-level beast!

Zhou Hao nodded when he saw this group of Poison Scorpion Beasts.

“They don’t have a grandmaster-level beast. They’re quite suitable for us to train!”

Zhou Hao was very satisfied. He looked at everyone and said directly.

“Then let’s do it!” Zhang Yi immediately rubbed his fists.

“Yes, but we still have to take care of each other at all times. Our goal is to train, not to fight to the death. Thus, we need to first ensure our safety. Do you understand?”

“Understood!”

“Then let’s begin!”

As soon as he finished speaking, the six of them got off the Flying Gu Insect King and charged towards the Poison Scorpion Beast group.

These Poison Scorpion Beasts did not have a grandmaster holding down the fort. Moreover, Xu Ling and the others’ combat strength had also improved rapidly over the past few days. With a hidden big shot like Zhou Hao holding down the fort, there were no problems at all. They directly dealt with these Poison Scorpion Beasts!

Bai Linglong smiled and thought to herself that this Team Seven was really interesting. She was the one who had sent them into the thirteenth spatial rift to let them experience the battlefield. In the end, however, they were able to control the situation and even pick their own enemies to fight.. Moreover, Their training also seemed to be going well.

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 384 - Disgust

Chapter 384: Disgust

This group of Poison Scorpion Beasts was quickly dealt with. Their points also increased by a lot, making them very satisfied.

They continued to search for the next target.

But at this moment, Zhou Hao and the others heard the sound of fighting not far away. The noise was loud, and they were immediately stunned.

Zhou Hao hurriedly got the Flying Gu Insect King to check. Only then did he know that it was Cao Gongren from the second team and Dong Ran from the third team!

The two grandmaster-level experts had encountered two equally powerful mutated beasts here.

A Tiger Head Crocodile and a Lightning Cheetah!

These two mutated beasts were both at the grandmaster level, and they were both at the peak grandmaster level!

Cao Gongren and Dong Ran were fighting one each. It was a heated battle!

It had to be said that these two were really extraordinary. Although they were grandmasters, Zhou Hao felt that their combat strength was close to that of a first-grade supernatural expert!

The two mutated beasts were evenly matched with them!

“The strength of our Team Seven is still far inferior to theirs.”

Xu Ling couldn't help but say when she saw this.

“That's true. Cao Gongren and Dong Ran are both rare geniuses. I heard about them when I was in Yanjing. One of them is from the Central Plains and the other is from the Ancient City. They're both descendants of martial arts families and have outstanding talent. They're really impressive!”

At this moment, Yun Yan also spoke.

However, when she looked at Cao Gongren, her eyes indeed flashed with coldness and disgust.

Zhou Hao noticed this expression immediately and could not help but smile. “What? Is your family in conflict with his family?”

Other than this reason, Zhou Hao couldn't think of any other reason why Yun Yan hated them.

“I've only heard of Dong Ran's name, but I know too much about Cao Gongren. This Cao Gongren is a hypocrite!” Yun Yan snorted coldly, feeling very disdainful.

Zhou Hao blinked and sensed something strange.

“Alright, stop asking around. Let's go. I can't be bothered to look at him!” Yun Yan seemed to hate Cao Gongren.

However, Zhou Hao did not want to leave like this. Although he was not familiar with them and they did not think much of Team Seven, Zhou Hao was still worried that something would happen to the two of them!

Although the battlefield seemed to be in a stalemate, Zhou Hao knew that the physical strength of the mutated beasts was extraordinary, and the physical strength of the humans was not that endless.

They were evenly matched right now, but soon, the scales of victory would tip over and the mutated beasts would gain the upper hand!

This was undoubtedly their innate advantage!

Indeed, as Zhou Hao expected, these two people began to show signs of exhaustion and were also suppressed by the two mutated beasts.

In fact, Cao Gongren even seemed a little discouraged. He could only resist with all his might and was unable to counterattack!

If they were to just leave, the two of them would definitely end up having to use the teleportation formation and leave!

However, Zhou Hao felt that since he had come here, the points were not important at all. What was important was training!

Bai Linglong did this to encourage them and set goals for them. After all, only with goals would there be motivation!

If not for the points system, they would have stayed hidden the entire time. After all, they would still be able to receive the rewards!

The main reason why Bai Linglong added the points system was because she hoped that they could really fight the mutated beasts and seek a breakthrough.

Seeing that they were no match, Zhou Hao took a deep breath.

"If we don't help them, the two of them will be eliminated at the very least. It's not easy for them to come this time. Forget it, let's help them!"

As he spoke, Zhou Hao led the others and rushed down!

This scene was immediately seen by Cao Gongren and Dong Ran.

They were still very shocked. Why had the six of them gathered again? However, in the next second, Zhou Hao, Xu Ling, and the others directly attacked.

With the six of them joining the battle, the result was naturally obvious. In addition, Xu Ling and Zhou Hao's combat strength was not inferior to theirs. The mutated beasts were instantly at a disadvantage.

Zhou Hao used the Shadow Seven Sabers and directly killed one of the mutated beasts!

On the other side, Xu Ling also activated her Ice Muscle and cooperated with Dong Ran to kill the other one!

Seeing the two mutated beasts die, everyone's points increased a little!

This points system was considered intelligent. As long as one participated in the killing, they would obtain points!

"Thank you. If not for you, I probably would have activated the teleportation."

Dong Ran hurriedly smiled and looked at Zhou Hao, Xu Ling, and the others.

"Your team is really very united. You can even find each other in the thirteenth spatial rift. It's really enviable. Instructor Bai said that he wanted us to learn from your team's cooperative spirit. Unfortunately... Sigh..."

Dong Ran sighed. Team Three was not united at all. All of them came from large family clans. Although Dong Ran was the same, it was impossible for him to command them!

Even if he was a grandmaster!

"Dong Ran, you're also very powerful. You're actually not at a disadvantage when fighting the Lightning Cheetah alone. If not for the lack of blood essence in your body, I'm afraid it wouldn't be your match," Zhou Hao said with a smile.

"The lack of blood essence in its body is really our human race's weakness. In the end, the human race is still relatively weak. Only by working as a team can we resolve this problem. Zhou Hao, I really envy your team," Dong Ran said with a smile.

"What's there to be envious about? Tch, they're just a group of people who came to take advantage of us. I say, your Team Seven is really shameless. You actually killed my mutated beast without my permission. Aren't you guys being too shameless by doing this?!"

At this moment, Cao Gongren could not help but say with disdain.

With that said, Zhou Hao and the others' expressions changed, especially Yun Yan.

“Cao Gongren, you really have no shame, do you? If not for us, you would have long been defeated. Now, you’re boasting shamelessly. How laughable!”

“Yo, isn’t this the self-respecting Miss Yun? You haven’t been eliminated yet?” Cao Gongren’s eyes lit up when he saw Yun Yan and immediately said.

“Hmph, do you think I’m a pushover?!” Yun Yan snorted.

“Miss Yun, the beloved daughter of the Yun family. Unfortunately, in order to treat your grandfather’s injuries, your Yun family wanted to marry you to our Cao family but was refused. This matter also made it difficult for your Yun family to continue staying in the Central Plains, so you went to Yanjing.”

“Miss Yun, I thought that you would be very powerful after going to Yanjing. After all, that’s what you claimed back then. I didn’t expect you to still be so weak now. You haven’t even reached the master level. You’re really embarrassing your Yun family!”

Cao Gongren had a despicable face, and his words immediately made Yun Yan’s pretty face turn dark.

Only then did Zhou Hao understand why Yun Yan hated this person. It was really because this person was too disgusting!

“Cao Gongren, watch your attitude. If you continue to slander the people of our Team Seven, don’t blame me for being impolite!”

Zhou Hao stepped forward and said coldly.

- Chapter 385 - Duel

Chapter 385 - Duel

Chapter 385: Duel

Zhou Hao’s expression was very ugly. This Cao Gongren’s was really distasteful. He naturally could not stand such slander to Yun Yan, so he directly stood up and said coldly.

“Yo, a hero saving a beauty? Your Team Seven is disgusting. I was talking about Yun Yan just now. What does that have to do with you? Could it be that this woman has something to do with you?” Cao Gongren sneered and said directly.

Zhou Hao frowned and thought to himself that this person was actually fearless when he spoke. He was simply shameless!

“Cao Gongren, I dare you to say that again. Do you believe that I’ll kill you?!”

Yun Yan was completely furious and shouted delicately.

Xu Ling, Fang Yu, and the others’ expressions were also very ugly. This person was really too detestable!

“Kill me? I don’t think you have the guts to. My Cao Family is a large family clan in the human race. You guys are just martial artists without any background. What can you do? Don’t think that just because you guys became elites of the elite team, you can be fearless. Let me tell you, if our Cao Family wants to kill you, it will be as easy as lifting a finger!” Cao Gongren was not afraid at all. Instead, he crossed his arms and looked at them.

“Also, you guys have to give me the points you got for killing this mutated beast just now. I was the one who was killing it, but you guys suddenly jumped out to take a share. You guys are too shameless. Give it to me immediately, or I won’t be polite!” Cao Gongren swept his gaze over them and couldn’t be bothered to waste his breath as he said directly.

In fact, he knew very well that if not for Zhou Hao and the others suddenly appearing, he would definitely not have been able to defeat this mutated beast and might have even been injured and eliminated in the end!

However, he knew he could also twist the story with his words.

“You... you’re really shameless. If not for us, do you really think you could stand here and talk to us? You would have been eliminated long ago!” Yun Yan immediately said.

These words were true, but unfortunately, Cao Gongren would not admit it at all!

“Bullsh*t. I’m a grandmaster. Which one of you can defeat me? How laughable. Stop talking nonsense and quickly hand over your points. Otherwise, I won’t be polite to you!”

Cao Gongren looked fearless.

Zhou Hao narrowed his eyes and looked at Cao Gongren. He said indifferently, “Alright, if you want these points, so be it. However, let’s make a bet. If you win, I’ll give it to you with no objections. Not only that, but I’ll also give you all the points we’ve accumulated.

However, if you lose, you have to apologize to Yun Yan. Do you dare to accept my bet?"

After Zhou Hao finished speaking, Dong Ran was stunned for a moment. Wasn't it courting death for a master to challenge a grandmaster?!

Moreover, he was betting on the points of everyone in their team. Wasn't this asking for trouble?!

He wanted to say something to dissuade Zhou Hao, but he realized that the other members of Team Seven did not have any objections. They even had indifferent expressions as if their points were not on the line!

"This... this... I've long known that Team Seven is good at cooperating, but I didn't expect them to be so united. They actually trust Zhou Hao so much. Their teamwork and team spirit is really admirable!"

Dong Ran was shocked. If the team was facing a common enemy, he would understand. But now, things were different!

This was clearly Zhou Hao and Cao Gongren's private battle, but they still supported it without holding back. This really shocked him!

Cao Gongren was stunned for a moment before he smiled. "I want to bet with you, but I don't know if you will be true to your words. Do you think they'll just let you bet with their points?"

"That's right."

Zhou Hao nodded and turned to look at the others.

"We agree. Zhou Hao, teach this bastard a lesson!" Yun Yan was the first to speak.

"Zhou Hao, just do it. We'll definitely support you!" Fang Yu also said.

"It's just points. It's fine. Go ahead and use them for your bet," Yuan Cheng waved his hand and said indifferently.

"Zhou Hao, just do it!" Zhang Yi was the same.

Xu Ling did not speak. She only nodded lightly, but there was no need to say anything.

"Did you see that? I am free to use the points of everyone in our team," Zhou Hao said indifferently.

Cao Gongren narrowed his eyes and looked at Zhou Hao. This person had a master-level cultivation. Although he could tell that Zhou Hao had some tricks up his sleeve, they were all useless in front of a grandmaster!

As for losing, he had never even considered it. After all, he was a grandmaster and had the cultivation techniques and treasures of his family. It was too difficult for him to lose.

“Alright, I’ll accept your bet. If you lose, don’t go back on your word!” Cao Gongren said directly.

“If I go back on my word, you can punish me as you please. If you lose and you go back on your word, you’re not allowed to blame me as well. At that time, it won’t be as simple as a simple apology!” Zhou Hao said indifferently.

“Do you think I’ll lose? Stop talking nonsense. Let’s begin!” Cao Gongren was already impatient. Although in his eyes, this team might not necessarily be able to kill many mutated beasts, he was still very excited.

After all, no matter what, he would still be getting more points.

The others moved aside, leaving a huge area in the middle. Zhou Hao and Cao Gongren stood facing each other.

“Don’t blame me for not giving you a chance. Zhou Hao, attack first. I can give you a chance!” Cao Gongren said directly.

Zhou Hao immediately smiled. “Very well.”

With that said, Zhou Hao directly took out his saber. With a bang, his body suddenly flew away!

His saber technique was superb. Although his cultivation was only at the master level, even ordinary supernatural experts could not handle it so easily!

It was just that Zhou Hao’s destructive power was inferior!

Cao Gongren’s expression immediately changed when he saw Zhou Hao’s saber move. He did not expect a small elite to have such a saber technique!

Although he had always known that Zhou Hao from Team Seven had some ability, he did not care at all. After all, Team Seven was so weak. This Zhou Hao must be slightly stronger than the others!

However, when he saw Zhou Hao’s saber technique, he was shocked!

“Your saber technique is not bad, but you’re too weak. It’s too wasteful for you to use this saber technique!”

Cao Gongren retracted his gaze and immediately sneered. His aura rumbled, vaguely accompanying the power of lightning!

“I’ll let you see my Cao Family’s lightning technique and let you see what a supernatural cultivation technique is like!”

After Cao Gongren finished speaking, lightning immediately spread out. The aura was powerful and the surrounding was filled with the power of lightning. It was green and white, instantly turning the hundred meters around him into a land of lightning!

He stomped his foot fiercely and immediately shot forward. A lightning spear condensed in his hand and he attacked Zhou Hao fiercely!

Seeing this, the expressions of everyone present changed, and their hearts instantly rose to their throats!

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 386 - Too Weak

Chapter 386: Too Weak

The two of them instantly fought. Although Cao Gongren was a despicable person, it had to be said that he still had some ability!

The Cao Family’s lightning cultivation technique indeed had its unique points!

The lightning cultivation technique increased both his destructive power as well as his speed. It was an extremely special cultivation technique that required a special physique!

Of course, it was not that Cao Gongren had activated this physique like how Xu Ling activated the Ice Muscle Body. Instead, in order to be compatible with this cultivation technique, the martial artists of the Cao Family had been tempered with lightning since they were young!

This also led to their physiques being changed by lightning since they were young. After doing this, they were able to improve by leaps and bounds when cultivating the Cao Family's cultivation technique!

However, he was still no match for Zhou Hao!

Zhou Hao also knew how to use the power of lightning. However, in order to prevent others from recognizing that he was President Zhou, Zhou Hao decided not to use it.

However, Zhou Hao could still use it if he wanted to.

"Although Cao Gongren is not a good person, I have to admit that he's still quite impressive. The strongest person in Team Two is definitely not weak!"

At this moment, Yuan Cheng couldn't help but say.

"Hmph, do you think Zhou Hao will lose?" Yun Yan immediately said angrily.

"That's not what I meant. Zhou Hao's combat talent is second to none, and his saber technique is even perfect. However, I'm just worried that Cao Gongren is too powerful. It will also be different from fighting a mutated beast. After all, mutated beasts don't have any intelligence while Cao Gongren does!"

Yuan Cheng hurriedly said. What he said was not unreasonable. Although humans had inferior cultivation levels compared to mutated beasts, their intelligence was still superior.

However, a duel between humans was different. In a duel, they could only rely on their true strength. If they used their wits, they probably wouldn't be able to achieve much!

"I believe in Zhou Hao. He will definitely win. He's just a grandmaster!" Zhang Yi trusted Zhou Hao completely.

"Although I also want to think so, judging from the current situation, although Zhou Hao's combat talent is impressive, his destructive power seems to be inferior to Cao Gongren's. Moreover, as you can see, Cao Gongren's cultivation technique is very compatible with his physique, making it seem effortless!"

At this moment, Fang Yu spoke and emphasized the main point.

Xu Ling also nodded. However, she did not believe that Zhou Hao would lose. The reason was not because she trusted him blindly, but because she knew that Zhou Hao had a cultivation technique that could forcefully increase his cultivation!

Once Zhou Hao forcefully increased his cultivation to be the same as Cao Gongren's, Cao Gongren would not be his match.

Zhou Hao's combat talent was very high. In addition, his Dao techniques were superb. He was not someone Cao Gongren could compare to!

Cao Gongren's current advantage was that his cultivation level was higher than Zhou Hao's. Other than that, there was nothing else!

Dong Ran watched this battle from the side. In the beginning, he did not think much of Zhou Hao, but now, he was very shocked to see the two of them fighting back and forth!

"A master actually fought a grandmaster to a draw. This is too... shocking. If Zhou Hao becomes a grandmaster, won't he be invincible against grandmasters?" Dong Ran finally understood why the people of Team Seven trusted Zhou Hao so much!

It was not only because of their team spirit, but also because Zhou Hao really had the strength to back it up!

At this moment, even he could not guarantee that he could defeat Zhou Hao!

While they were shocked, Zhou Hao and Cao Gongren had already completely entered a white-hot stalemate!

Zhou Hao's Shadow Seven Sabers was very powerful and tricky, but Cao Gongren's lightning cultivation technique was also extraordinary. Under the powerful explosive force and destructive power, no matter how powerful Zhou Hao's Shadow Seven Sabers was, he would not be able to gain the upper hand!

However, Cao Gongren was a grandmaster. How could he be willing to fight Zhou Hao to a stalemate?

In his eyes, even if he did not instantly kill Zhou Hao, he should at least be able to suppress him!

But now, seeing this, he felt that Zhou Hao was really a little troublesome!

"I was wondering why he dared to challenge me. It seems that he does have some ability after all. However, this is still not enough!"

Cao Gongren snorted and was also furious. He immediately shouted, and the lightning power around him became even stronger. The green-white lightning on his body also instantly turned dark purple!

This dark purple color had a deep and heavy feeling, making Zhou Hao frown slightly!

"You actually forced me to use my purple lightning. I've underestimated you. However, since I've unleashed my purple lightning now, it also means that this battle is coming to an end!"

Cao Gongren immediately sneered and looked down at Zhou Hao with a domineering aura!

“It’s... the Cao Family’s lightning cultivation technique’s purple lightning!”

“I’ve long heard that the Cao Family’s lightning cultivation technique is very extraordinary. The Green and White Lightning is the most ordinary lightning. Above that is the purple lightning. The combat strength of this lightning is twice that of the Green and White Lightning!”

“Above them is the Black Lightning. This Black Lightning is even more extraordinary. It’s said that it was the lightning that fell from the Heavenly Tribulation and was refined by their Cao Family to become a part of their cultivation technique!”

“However, this Black Lightning can only be used above the supernatural level. Although Cao Gongren is a peak-level grandmaster, he probably still doesn’t know how to use it. However, this Purple Lightning is probably not easy to deal with either!”

At this moment, Yuan Cheng spoke. His words immediately made the expressions of the others turn ugly and somewhat worried.

“This Cao Gongren is really impressive. He even knows how to use Purple Lightning. Things won’t be easy now!” Zhang Yi couldn’t help but say.

However, Xu Ling still did not care and had a calm expression.

On the other hand, Dong Ran took a deep breath. He knew that since Cao Gongren had used the purple lightning, this battle should be over soon!

The battle did indeed seem as if it was progressing according to Dong Ran’s thoughts!

Purple lightning filled Cao Gongren’s body as a meter-long spear condensed in his hand. It was awe-inspiring and its speed soared, leaving behind afterimages in the air as it bombarded Zhou Hao!

“You’re unable to resist this attack at all. Zhou Hao, admit defeat. Otherwise, don’t blame me for injuring you!”

Although Cao Gongren said this, he did not hesitate at all. Instead, he became even more ruthless!

Zhou Hao had repeatedly contradicted him and even dared to challenge him. How could he not teach this person a lesson?!

Therefore, he did not stop!

Zhou Hao stood there without moving. It was unknown if he was scared silly or something, but when Cao Gongren saw this, he laughed!

“You ignorant thing, are you afraid? Unfortunately, it’s too late. Zhou Hao, you’ve lost!”

He roared angrily and stabbed out with his spear. This thunderous sound was very powerful!

In his opinion, Zhou Hao would definitely be severely injured from this attack. However, he soon discovered that Zhou Hao’s hand had grabbed onto his lightning spear!

“Hehe, I wonder where you got your confidence from. You’re too weak!”

This scene instantly caused an uproar!

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 387 - Victory

Chapter 387: Victory

No one expected that Zhou Hao would be able to block Cao Gongren’s full-power attack with a single hand!

Even if Xu Ling knew that Zhou Hao was powerful, she did not expect him to be so powerful!

Dong Ran’s mouth widened as he was dumbfounded!

That was Grandmaster Cao Gongren’s attack, but it was actually... actually grabbed by Zhou Hao using only a single hand?

Not to mention them, even Bai Linglong, who had been paying attention to this duel, was stunned!

Bai Linglong knew what was going on here, but she did not interfere. After all, this was also a part of their training!

The entire human race seemed to be united, but there were still many conflicts inside. It was very normal for such things to occur between martial artists. Therefore, she did not care at all and allowed them to fight.

However, seeing Cao Gongren's powerful attack, she knew that even if Zhou Hao was not injured, he would still need to resist with his full strength!

But now, Zhou Hao had only used a single hand. This was too shocking!

She could understand if Zhou Hao was a supernatural expert, but Zhou Hao was only a master after all!

Cao Gongren was even more shocked. He was completely dumbfounded. This spear attack could be said to be his full strength attack, but it actually stopped in Zhou Hao's hand. Even he did not understand what was going on!

"This is your full strength attack. Is this the Cao Family's purple lightning? It's only so-so!"

Zhou Hao looked up indifferently at Cao Gongren!

At this moment, Zhou Hao's aura suddenly erupted. In an instant, he had reached the level of a grandmaster and perhaps even the level of a supernatural!

God Slaying Art!

Zhou Hao directly used the God Slaying Art. Actually, he did not even need to use the God Slaying Art. However, in order to fool everyone, he still used it!

His cultivation level rose steadily and instantly reached the peak of the grandmaster level. He even came close to reaching the supernatural level and had a trace of supernatural strength!

Therefore, it was completely normal for him to grab the lightning spear with one hand just now!

"The genius of the Cao Family and the leader of Team Two... you're really too weak!"

Zhou Hao sneered and exerted strength in his palm. The lightning spear directly shattered in Zhou Hao's hand!

Cao Gongren's expression changed drastically. He looked at this scene in disbelief. Zhou Hao was clearly only a master. How did he suddenly become a grandmaster?!

Moreover, he was a grandmaster who had already taken half a step into the supernatural level. How was this possible?!

Although he did not dare to believe it, this was what reality was!

Zhou Hao casually crushed the purple lightning and looked at Cao Gongren with a faint smile.

“If this is the so-called cultivation technique of a genius and the strongest ultimate technique, then sorry, you’ve lost!”

Zhou Hao spoke slowly and raised his saber!

At this moment, the saber neighed, and a powerful fluctuation that was like a suppressed wild beast exploded with a bang!

In the next second, countless saber shadows filled the sky!

Shadow Seven Sabers!

It was still the Shadow Seven Sabers!

However, this time, the Shadow Seven Sabers was no ordinary Shadow Seven Sabers. Instead, it carried the cultivation of a grandmaster!

If this was unleashed onto Cao Gongren, Cao Gongren knew that he wouldn’t be able to get away with it!

Looking at the dense saber shadows, he was instantly stunned!

Zhou Hao looked at him and said indifferently, “It’s not too late to admit defeat now. Otherwise, although this saber technique can’t kill you, it’s still easy for you to be severely injured!”

As soon as he finished speaking, Cao Gongren’s expression was extremely ugly. He was a member of the Cao Family and the leader of Team Two. He was a true elite of the human race!

He was definitely not something a small figure like Zhou Hao could compare to!

“I, Cao Gongren, am a martial artist of the Cao Family and a genius of the Cao Family. I’ve been practicing martial arts since I was three years old. Ever since I was young, I’ve been tempering of the power of lightning, I was only able to cultivate the Purple Lightning because of my talent!”

“As for you, you’re just a country bumpkin who came from a small place. You don’t have any background or resources, but you actually won against me. I’m unwilling to believe this!”

Cao Gongren immediately roared, but his roar was useless!

This was because the saber shadow's aura surged with a sharp intent. Without any hesitation, it slashed down at Cao Gongren!

"If you don't admit defeat, I'll have to finish you myself!"

Zhou Hao snorted. Those saber shadows were endless, and every one of them carried the aura of a grandmaster. Cao Gongren's heart skipped a beat, and he immediately felt a sense of danger!

He knew that he was unable to resolve the situation with this attack!

Therefore, he gritted his teeth and shouted even if he was unwilling.

"Alright, stop. I admit defeat!"

This scene surprised the others. They thought to themselves that this Cao Gongren was really gutless. Seeing that he couldn't win, he instantly admitted defeat!

However, now that he had admitted defeat, things were also easier. Everyone also heaved a sigh of relief.

Zhou Hao smiled and put away his saber aura. He landed on the ground and looked at Cao Gongren. He said indifferently, "Since Mr. Cao has admitted defeat, then fulfill your promise and apologize to our Yun Yan!"

Zhou Hao's words made Cao Gongren's expression turn extremely ugly. It was as ugly as it could get!

However, he had already agreed. If he went back on his word, he would probably be perceived poorly for the rest of his life. Therefore, he gritted his teeth and took a deep breath!

"Alright, I apologize. Yun Yan, I'm sorry. I take back what I just said!" Cao Gongren could only bite the bullet and say.

"Hmph, I can't be bothered to argue with you. Since you've admitted defeat, then it's fine!"

Yun Yan waved her hand. It was not that she was magnanimous, but she really did not have anything to say to this person.

Even if he apologized, it was definitely not sincere. However, Zhou Hao still made him apologize. That was enough!

Zhou Hao glanced at Cao Gongren and did not say anything. He watched as Xu Ling and the others left on the Flying Gu Insect King.

Cao Gongren's expression was ugly. Dong Ran also sighed helplessly!

"Alright, Brother Cao, let's continue to look for our other companions."

Dong Ran did not expect Cao Gongren to lose so easily. Of course, he was also shocked by Zhou Hao's strength!

This brat had suddenly erupted with such powerful combat strength in the end. He must have activated some secret technique!

It seemed that they had all underestimated this person. If this person really became a grandmaster, they probably wouldn't be able to defeat him!

Cao Gongren's expression was dark and ugly!

"Damn, what a good Zhou Hao. I guess I've made a mistake this time. When I return, I'll definitely make you suffer!" Cao Gongren said fiercely.

Hearing this, Dong Ran became anxious. "Brother Cao, you won't use your family's strength against Zhou Hao, right? He's from the elite team which is under Heavenly King Zhu's supervision. If you attack him, I'm afraid you'll provoke Heavenly King Zhu!"

"Hmph, what can Heavenly King Zhu do? My grandfather is an upper third-grade Heaven Realm expert, a truly influential figure.. For him to deal with Zhou Hao, it's as easy as crushing an ant!" Cao Gongren did not care at all and said indifferently.

Chapter 388 - The Power of the Thousand Feather Armor

Chapter 388: The Power of the Thousand Feather Armor

Zhou Hao naturally did not know what Cao Gongren was thinking. At this moment, they were killing mutated beasts and accumulating points!

With all the members of Team Seven here, it was naturally even easier for them than it was for the other teams to kill the mutated beasts.

In this situation, the points accumulated very quickly, especially Zhou Hao. He had already accumulated a total of 1,000 points!

Xu Ling had more than 800 points, and the others also had more than 600 points!

This efficiency could be said to be very high!

The seven days passed quickly. The moment the training ended, they were sent back. The entire square flashed with light as their figures walked out.

Bai Linglong looked at them and nodded slightly.

“Not bad. Among you, a total of 28 people lasted for seven days, but there were also 24 who couldn’t last for seven days. However, don’t be discouraged. There will be many opportunities like this in the future. You still have a chance.”

Bai Linglong looked at them and waved her hand, causing a huge scoreboard to appear.

“Your points have been calculated. Take a look at yourself.”

With that said, everyone present looked at the scoreboard impatiently!

Especially Lu Zimo from Team One, Cao Gongren from Team Two, and the grandmaster-level martial artists from the other teams!

They were all confident in themselves. After all, they had killed many mutated beasts.

However, when they saw the points, they were immediately dumbfounded!

This time, there was still no sign of them in the top six. The top six places were still all occupied by members of Team Seven!

Zhou Hao had more than 1,500 points, and Xu Ling had more than 1,300 points. The one with the least points was Yuan Cheng. This was because before he joined the team, he had not killed a single mutated beast!

However, it was still more than 900 points!

However, Lu Zimo, who was ranked seventh, only had more than 800 points!

This made them unable to sit still!

“Instructor Bai, did you calculate incorrectly? I only got 800 points from killing the mutated beasts. How could they get 1,500 points?!”

Lu Zimo was the first to disagree, and the others were also unconvinced!

“Oh? Lu Zimo, you killed three grandmaster-level beasts and seventy master-level beasts. You have more than 800 points in total. That’s right. What’s wrong? What’s your question?” Bai Linglong could not help but ask.

“I killed three grandmasters and 70 grandmaster-level beasts and yet I still only have 800 points. Zhou Hao has more than 1,500 points. Doesn’t that mean he has to kill six grandmaster-level beasts and 140 grandmaster-level beasts? How is this possible? How can he kill a grandmaster-level beast with his strength?!”

Lu Zimo had an indignant expression. Although he said this, Cao Gongren frowned and did not speak because he knew Zhou Hao’s cultivation level!

It was the same for Dong Ran!

“Alright, I’ll tell you how many grandmaster-level beasts Zhou Hao and the others have killed. According to statistics, they have killed a total of 40 grandmaster-level beasts and 1,000 master-level beasts. Therefore, these 1,500 points shouldn’t be much, right?” Bai Linglong said indifferently.

“What?! 40? How is that possible?!” Lu Zimo did not believe it at all.

“I know you don’t believe me, but that’s the truth. By the way, I forgot to tell you that Zhou Hao didn’t kill the beast alone. Their team killed it together. Therefore, the points were divided between them.”

Bai Linglong’s words made them even more puzzled.

“How did they gather? This is the thirteenth spatial rift. The space inside is incomparably vast...”

“That’s right... What did they do? Did they cheat?”

“I don’t believe you, Instructor Bai. We request to watch the video!”

There would be comprehensive videos recorded for any training as evidence. This had always been kept just in case, and it was also for the purpose of providing materials for future teaching.

Therefore, there was naturally a video. However, whether one wanted to watch or not depended on the other party’s personal wishes. After all, this was personal privacy.

"If you want to watch, fine. Zhou Hao, will your team allow them to watch?" Bai Linglong asked directly.

Zhou Hao did not think much of it and nodded. "It's fine, you can let them watch it. Instructor Bai, can we go back and rest now?"

Bai Linglong nodded and said, "Alright, you guys can go back first. Otherwise, if the others question Team Seven, they can stay behind to watch the recording."

Hearing this, everyone from Team Seven returned to the dormitory.

On the other hand, the others were watching the recording intently. They did not think much of it at first, but when they saw Zhou Hao use the Flying Gu Insect King to find his other teammates and finally gather them, their mouths gaped open. They did not expect such a thing to happen!

After that, they also saw the battle between Cao Gongren and Zhou Hao. When they saw Zhou Hao defeat Cao Gongren, they couldn't believe it!

Especially Lu Zimo, whose eyes widened!

He originally thought that Cao Gongren was his strong rival, but he did not expect Zhou Hao to finish him off. This person was too powerful!

"Alright, that should answer all your questions, right? Although Zhou Hao seems to be weaker than you guys, he's actually very smart and knows how to adapt to the environment. Therefore, you guys have to learn from him. Alright, disperse. Rest for a day and continue training tomorrow!"

Bai Linglong shook her head, and her figure flashed and disappeared, leaving the other teams looking at each other in shock!

Zhou Hao returned to his room and could not wait to take out the Thousand Feather Armor. The armor had already recovered to 100%. However, he was currently in the thirteenth spatial rift and was unable to try it.

At this moment, he took out the Thousand Feather Armor and did not immediately put it on. Instead, he used the Golden Crow Escape Technique and directly arrived in the twelfth spatial rift!

The thirteenth spatial rift had already become a human training base with surveillance equipment installed everywhere. Zhou Hao did not dare to do this in public!

However, the twelfth spatial rift was different. The interior of the spatial rift was still filled with mutated beasts!

When Zhou Hao appeared here, he found a secret place and directly put on the Thousand Feather Armor!

In an instant, countless feather-like scales condensed on the Thousand Feather Armor, covering Zhou Hao's body and sticking close to him!

This feeling was even more comfortable than ordinary armor. Moreover, he did not feel anything when he wore it. It was very light!

Zhou Hao looked at himself. He was completely covered from head to toe. His entire body emitted a silver glow, making him look a little high-profile.

"Little Yu, you've already recovered. Can you introduce your current state and abilities?" Zhou Hao asked.

Little Yu immediately sent a large pile of information into Zhou Hao's mind. Zhou Hao was also shocked when he saw this information!

"It can resist a full-power attack from a third-grade Heaven Realm expert..."

"Without being affected by the spatial rift, it can allow one to travel through space..."

"It even has its own Gravity Domain that covers an area of ten meters around it..."

Zhou Hao looked at the introductions and was stunned. He revealed an ecstatic expression!

Chapter 389 - Experiment

Chapter 389: Experiment

Zhou Hao was shocked when he saw this information!

This was too damn powerful!

"Resisting the full strength attack of a third-grade Heaven Realm cultivator... Not being affected by the spatial rift... and even has a Gravity Domain..."

“This is just too powerful!”

Zhou Hao was very excited. With a treasure in hand, wouldn't he be invincible!

“Reporting to Master, there are three core functions to the Thousand Feather Armor. The first function is a super powerful spatial travel ability. It can ignore the effects of spatial travel and resist 99% of the resistance. It can increase speed by several times or even dozens of times!”

“The second function is the Gravity Domain. The stronger the cultivation level of the martial artist who uses the Thousand Feather Armor, the stronger the Gravitational Domain becomes. With Master's current quasi Heaven Realm cultivation, your gravitational effects are only multiplied by five. Your range will also be limited to ten meters. If you can reach the Heaven Realm, you will be able to increase the gravity multiplication from five times to ten times. The range will also be increased to a twenty-meter range!”

“The third function is an increase in strength. Due to the gravity of Planet Earth and your cultivation, you will be able to release 100,000 kilograms of weight, which is equivalent to 10,000 cosmic strength.”

Little Yu's voice sounded in Zhou Hao's mind, making him incomparably shocked!

He did not expect that there was also an increase in strength. This Thousand Feather Armor was simply a divine artifact!

“However, the Thousand Feather Armor currently only has its core and the other modules are still missing. Therefore, the spatial travel abilities will be limited. Currently, the armor will only defend you against the tearing force of spatial rifts and your speed will not be increased. Since the third function which increases your strength is mainly supported by the other modules, it also can't be used right now.”

After Little Yu finished speaking, Zhou Hao finally understood. It was already very heaven-defying. Although the spatial travel ability could only resist the tearing force of spatial travel, it was still somewhat useful.

As for the Gravity Domain, it was really a divine technique!

It had to be known during a fight, the Gravity Domain could immediately mess up the other party's defense. And the opportunity would be given in an instant to decide victory and defeat!

In a life and death battle, this could completely turn the situation around!

“At this moment, this is good enough for me. After all, if I obtain other modules, I'm afraid I'll become invincible!”

Zhou Hao was very excited. He was no longer a newbie and was quite knowledgeable about the various weapons and armors. In his senses, there were not many weapons and armor that could do this!

This meant that the Thousand Feathered Armor was definitely a divine artifact among divine artifacts!

If he did not try on the Thousand Feathered Armor, wouldn't it be a waste? Thinking of this, Zhou Hao thought of a powerful opponent!

The Iron Bone Bear King!

Although it was a quasi Heaven Realm expert, its bloodline was special. Even if Zhou Hao fought with his full strength, he probably wouldn't be able to kill it!

It was not that Zhou Hao was too weak, but that the Iron Bone Bear King's bloodline had already awakened and it was about to turn into the Silver Bone Bear King!

Ordinary quasi Heaven Realm experts were not its match at all. This was also the reason why Zhou Hao could only work with it back then and could not fight it head-on!

Although Zhou Hao had killed many quasi Heaven Realm beasts, the Iron Bone Bear King was still guarding the Essence Energy Ancestral Stones. This was a problem!

Thinking of this, Zhou Hao's body moved and he directly headed towards the place where the Iron Bone Bear King was guarding the twelfth spatial rift.

Although Zhou Hao did not use the Golden Crow Escape Technique, his speed had indeed increased by a lot. It was like he was a fish entering the ocean.

In the blink of an eye, Zhou Hao arrived at the Iron Bone Bear King's guarding area!

Ever since the last Essence Energy Ancestral Stone disappeared, the Iron Bone Bear King had been severely taught a lesson by the Hundred Insect King. If not for the Iron Bone Bear King being strong enough, it would probably have been killed by the Hundred Insect King!

This also made the Iron Bone Bear King completely resent the Hundred Insect King. On the surface, it did not say anything, but it was already secretly plotting. No matter what, it wanted to break through to the Heaven Realm and kill the Hundred Insect King!

"Damn it, the Essence Energy Ancestral Stone mine has been robbed. If that brat comes, what am I supposed to use to exchange with him? If I cultivate like this, I'll probably need decades to break through to the Heaven Realm. I... I can't wait. I wish I could immediately kill the Hundred Insect King!"

The Iron Bone Bear King lay on its ground, feeling very depressed.

However, at this moment, a strong wind directly transmitted over. The Iron Bone Bear King's expression changed and it immediately looked up.

In front of him, a man in silver armor stood in the air with cold killing intent!

"Heaven Realm? Hmm...? Not much. Quasi Heaven Realm? A quasi Heaven Realm human dares to challenge me?"

The Iron Bone Bear King immediately snorted coldly and looked at Zhou Hao in disdain!

"Little human, you dare to challenge me? Do you think I, Grandpa Xiong, am an ordinary quasi Heaven Realm martial artist? You're really courting death!"

The Iron Bone Bear King could not be bothered to attack. It was currently focused on breaking through to the Heaven Realm and had no interest in human experts.

He was not interested in killing or fighting the humans at all.

However, despite his lack of interest, Zhou Hao was still interested. He had come to test how powerful his Thousand Feather Armor was. Therefore, he could not be bothered to waste his breath and directly attacked!

His quasi Heaven Realm cultivation exploded with a bang, and he was incomparably valiant as he slapped towards the Iron Bone Bear King.

The Iron Bone Bear King did not expect this human brat to be so bold to challenge it. It was immediately furious!

"You're courting death!"

It roared as a huge force surged out towards Zhou Hao!

"Gravity Domain!"

Zhou Hao shouted in his heart. Immediately, the Thousand Feather Armor emitted an invisible wave of light that instantly condensed around ten meters, enveloping the Iron Bone Bear King!

Just as the Iron Bone Bear King was about to slap this human little guy to death, a strange fluctuation suddenly enveloped it, causing its body to sink and almost lose its balance. The speed of this palm also decreased, and its strength was also mostly negated by this Gravity Domain!

Zhou Hao's palm landed directly on his body, sending the huge Iron Bone Bear King flying!

This scene shocked Zhou Hao greatly!

"How powerful. When this Gravity Domain is used, it can reduce his speed and even resist a portion of his strength. It's simply a divine technique!"

Zhou Hao was overjoyed. He was simply excited!

The Iron Bone Bear King was beaten to the ground. Although it did not receive any injuries, it was still depressed!

"You brat, what are you doing? How did you affect my movements?!"

The Iron Bone Bear King's expression also became solemn. It was not stupid at all. This human was very powerful, so powerful that even it wanted to retreat!

However, Zhou Hao ignored him and pounced forward again. He wanted to test this Thousand Feather Armor!

The Iron Bone Bear King roared angrily. Seeing that Zhou Hao was unwilling to give up, it was furious. The hair on its entire body instantly turned white, and its strength instantly exploded. It punched out fiercely!

Zhou Hao did not dodge at all and allowed the bear's fist to hit his body!

Chapter 390 - Powerful

Chapter 390: Powerful

Boom!

A huge explosion sounded. Zhou Hao's body exploded and he fell to the ground.

A huge pit was created in the ground!

The Iron Bone Bear King sneered. It originally thought that this brat had some ability, but it did not expect that it would be able to get a direct hit on this brat!

His strength was not a joke. The defense of humans was low to begin with, and it was also impossible for them to resist external forces with their armor. However, when their attacks landed on their bodies, it was impossible for them to resist!

To put it bluntly, the armor could only resist a superficial external force. However, under the pouring strength, most of the strength would still pass through the armor and land on the body!

And this strength was not something humans could resist at all!

However, Zhou Hao patted the dust off his body and stood up!

His eyes were filled with shock. The punch just now was to test the defensive strength of the Thousand Feather Armor, and the effect just now was simply unbelievable!

Although the Iron Bone Bear King's full strength attack was used on Zhou Hao, 99% of the strength was absorbed by the Thousand Feather Armor!

Although Zhou Hao had been thrown into the deep pit, it did not affect him at all. Not a single bit of strength seeped through the Thousand Feather Armor!

"How powerful. This defense can definitely resist a third-grade Heaven Realm expert!"

Zhou Hao was extremely shocked and incomparably excited!

"With this Thousand Feather Armor, won't I be invincible? Other people won't be able to beat me, but I can still affect their combat strength. This is simply a divine technique!"

Zhou Hao could not help but praise again. He was not just praising the armor for the sake of it, but this Thousand Feather Armor was really powerful!

Zhou Hao stood up and his body immediately soared into the sky again. This scene stunned the Iron Bone Bear King.

"If my attack landed directly, even a Heaven Realm expert would be injured, right? Why is he... acting as if nothing happened!"

The Iron Bone Bear King had just used its bloodline power. His attack just now would even be able to injure an ordinary Heaven Realm expert!

However, Zhou Hao still resisted it!

Zhou Hao laughed and was too lazy to say anything else.

“Iron Bone Bear King, you’re very powerful, but today, you’ll die in my hands!”

The Iron Bone Bear King was so powerful that Zhou Hao would definitely obtain a lot of points by killing it. Moreover, the corpse of the Iron Bone Bear King could also be sold for a lot of Heaven Dao coins!

When the Iron Bone Bear King heard this, it snorted coldly. It did not believe that a quasi Heaven Realm human martial artist could defeat it!

Therefore, without any hesitation, its mountain-sized body moved. That huge palm carried endless power as it ruthlessly punched in Zhou Hao’s direction!

Zhou Hao sneered and directly used the Gravity Domain. Under this domain, the Iron Bone Bear King’s speed directly became slower. Not only that, but its strength was also restricted.

As for Zhou Hao, while his defense was already shocking, his strength was also much stronger than ordinary quasi Heaven Realm experts. It could be said that he had suppressed the Iron Bone Bear King once again!

The Iron Bone Bear King was beaten until it covered its head and ran like a rat. It was instantly in a sorry state!

“Big Brother... Big Brother... Stop fighting, stop fighting. You win, alright?!”

The Iron Bone Bear King instantly cowered. It did not want to die. It had yet to become a Heaven Realm expert and had yet to kill the Hundred Insect King. How could it die?!

Zhou Hao immediately found it funny. This Iron Bone Bear King was so big, but it actually began to beg for mercy like a child.

For a moment, Zhou Hao found it a little difficult to kill it.

“Iron Bone Bear King, as a quasi Heaven Realm expert of the foreign races, you actually begged me for mercy. Aren’t you embarrassing your foreign races?!” Zhou Hao could not help but ridicule.

“So what if I lose face? It’s better than losing my life!”

The Iron Bone Bear King did not feel ashamed at all. Instead, it felt that it would be fine even if it lost its underpants, let alone losing its face!

“But I want to kill you in exchange for military credit,” Zhou Hao couldn’t help but say.

“What’s so good about military credit? What benefits are the humans giving you?” The Iron Bone Bear King could not help but ask.

"If I kill you, I'll get a lot of money. I can buy anything," Zhou Hao said with interest, not in a hurry to kill it!

The Iron Bone Bear King immediately said, "You can get those things after you kill me, but is it going to be useful in the long run? You're not even a real Heaven Realm martial artist yet. If you let me live, I can show you a way to break through!"

The Iron Bone Bear King could only throw out important information in hopes that Zhou Hao would spare its life!

Zhou Hao was a little surprised. This Bear King was a little smart. He did not know if it was talking nonsense with him!

"Really? Can you really help me break through? You're still a quasi Heaven Realm expert yourself. If you know how to break through, why haven't you broken through yet?" Zhou Hao's face was filled with disbelief!

"Don't doubt me. Although I'm a quasi Heaven Realm expert, I'm not a human. I know something that's very useful to your human race!"

The Iron Bone Bear King hurriedly spoke. Zhou Hao immediately understood that it was talking about the Essence Energy Ancestral Stone!

However, since he had already obtained the Essence Energy Ancestral Stone, could it still have more?

"Oh? Is that so? I want to hear what you have in mind!" Zhou Hao asked.

The Iron Bone Bear King could not be bothered to waste its breath. Without saying a word, it directly threw Zhou Hao a few Essence Energy Ancestral Stones!

"This is called an Essence Energy Ancestral Stone. It can only be cultivated by humans, but us mutated beasts can't do anything with it. Why don't you take a look at this and see if it can help you!"

The Iron Bone Bear King vowed solemnly. It felt that all humans would be interested in this!

It had to be known that there were no such high-level Essence Energy Ancestral Stones in the human race. Only mutated beasts had them!

Zhou Hao naturally knew the value of this thing, but the Essence Energy Ancestral Stone mine it was guarding had already been emptied by him. How could he give him any more?

“Do you even have such a valuable treasure?” Zhou Hao pretended not to know and probed.

“Yes, of course I do. I have all this. As long as you let me go, I’ll give it to you!”

The Iron Bone Bear King immediately nodded and said.

“Alright, if you give me enough, I can spare your life!” Zhou Hao also said directly. After all, what if the bar was speaking the truth? Wouldn’t he earn a killing then?

“I... I don’t have it now, but I know where this Essence Energy Ancestral Stone gets produced. If you want it, I can help you get it,” the Iron Bone Bear King said.

Hearing this, Zhou Hao understood that this Iron Bone Bear King was definitely lying to him. After all, the Essence Energy Ancestral Stone mine had long been emptied by him. How was it supposed to get more?

“Iron Bone Bear King, stop teasing me. Don’t think I don’t know that the Essence Energy Ancestral Stone mine you were guarding has long been emptied. There’s probably not a single Essence Energy Ancestral Stone left. Do you still want to use this to trick me?” Zhou Hao said without hesitation.

These words immediately stunned the Iron Bone Bear King.

“How... how did you know...? Could it be you!”

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 391 - Killing and Stealing Treasures

Chapter 391: Killing and Stealing Treasures

The Iron Bone Bear King was very puzzled. How could others know such a thing? Moreover, not only did this person in silver armor know, but he also knew very clearly!

Therefore, he naturally believed that Zhou Hao was the one who had emptied the Essence Energy Ancestral Stone mine!

Of course, he was right, but Zhou Hao would not admit it.

“Hmph, you don’t have to know how I know. Tell me, do you know any other Essence Energy Ancestral Stone mines other than that one?”

Zhou Hao asked directly. After all, this Essence Energy Ancestral Stone was really useful to Zhou Hao!

Even if he could not use it now, he could still use it in the future. If he obtained the other modules of the Thousand Feather Armor again, repairing it would also be a huge consumption!

“I know, of course I know. I can tell you the location of more than ten mines!” The Iron Bone Bear King immediately said.

Zhou Hao nodded. “Very good. Then mark these ten spots and tell me, and I’ll spare your life!” Zhou Hao did not say anything else and immediately said.

“Alright, alright. However, do you keep your word? You’re not lying to me, are you?!”

The Iron Bone Bear King was not stupid and asked instead.

Zhou Hao frowned. “Do you think there’s anything else you can do other than choosing to believe me? It’s fine if you don’t tell me. I’ll just cut off your arm first. You can tell me then.”

As Zhou Hao spoke, he directly took out a long saber and was about to use it. The scene shocked the Iron Bone Bear King silly.

“No, no, no. I believe you. You humans are the most trustworthy. You definitely won’t lie to me. I’ll mark them for you right now!”

The Iron Bone Bear King did not want to test its luck. If it really lost an arm, it could forget about advancing to the Heaven Realm for the rest of its life!

Therefore, it did not hesitate and immediately marked the locations before handing it to Zhou Hao.

“Inside the twelve spatial rift, there are two more. There’s one in the eleventh spatial rift, three in the tenth spatial rift, two in the ninth spatial rift, and three in the seventh spatial rift. The ones left are all in the core area. They’re all huge Essence Energy Ancestral Stone mines and are guarded by quasi Heaven Realm experts. You won’t be able to get inside.”

The Iron Bone Bear King was rather reliable. Not only did it take out the map, but it also emphasized that the mutated beasts guarding it were not Heaven Realm, but quasi Heaven Realm!

This made Zhou Hao very happy. After all, killing a quasi Heaven Realm beast was very easy for Zhou Hao. However, killing Heaven Realm beasts was a different story!

Therefore, at that time, not only could he obtain the Essence Energy Ancestral Stone, but he could also kill mutated beasts to accumulate points and also sell their corpses for Heaven Dao coins. It was simply killing three birds with one stone!

“Very good, I’ll verify them one by one. If you lie to me, I’ll kill you even if I have to chase you to the ends of the earth!” Zhou Hao threatened directly.

“Don’t worry, don’t worry. I won’t lie to you. Why would I lie to you...”

The Iron Bone Bear King chuckled. It naturally had its reasons for doing this!

If this brat really went, he would definitely obtain the Essence Energy Ancestral Stone and even kill those mutated beasts!

As for the bar, it could directly rob them of their resources!

Zhou Hao did not know that they were guarding the Essence Energy Ancestral Stone not because they were ordered to, but because of the good fortune here!

The Essence Energy Ancestral Stone mine was located in places where essence energy was condensed. Although the essence energy Ancestral Stone there could not be cultivated, the surrounding essence energy was still rich!

Moreover, it would lose many opponents after Zhou Hao was done killing these mutated beasts!

In the end, there was no harm in telling.

The Iron Bone Bear King was not worried at all that the foreign races would be invaded by the humans simply because of the deaths of a few quasi Heaven Realm mutated beasts.

Because this was impossible. The reason why the humans and foreign races could coexist peacefully was not because of the quasi Heaven Realm experts, but because of those true big shots!

Only when the true big shots had equal strength could this balance be maintained. As for those with lower cultivation, they were all insignificant!

Zhou Hao swept his gaze over the Iron Bone Bear King and naturally did not know what it was thinking. His body moved, and he left to head towards the nearest Essence Energy Ancestral Stone mine!

The one guarding this place was still a quasi Heaven Realm beast, a Six-Tailed Demon Fox.

This race was a noble bloodline among the mutated beasts!

Although six tails were neither considered high nor low in the demon fox race, they were still very powerful!

Once they broke through to the Heaven Realm, they would acquire a seventh tail and their bloodlines would also increase in preparation for their stronger cultivation in the future.

Of course, although the bloodline of the seven tails had evolved, it was still impossible for them to reach the peak. Only the nine tails with the highest bloodline could have the chance to break through the limit of the mutated beasts!

Among the big shots of the foreign races today, one of them was a Nine-Tailed Demon Fox.

At this moment, the Six-Tailed Demon Fox was resting. Although guarding the Essence Energy Ancestral Stone was boring, cultivating here was still relatively comfortable.

But at this moment, a strong wind came, making its expression change!

It looked up and saw a human figure appear.

“A human? Hehe, you’re really courting death. I was just feeling bored when a human came to die. Interesting.”

The Six-Tailed Demon Fox’s voice was very pleasant to the ear and carried a charming tone. If not for the fact that it was the figure of a fox, Zhou Hao would have thought that it was a young woman!

“Die? You will be the one that dies today!”

Zhou Hao smiled and couldn’t be bothered to waste his breath. He directly used his God Slaying Art, and his cultivation immediately exploded, vaguely reaching the point where he was about to break through to the Heaven Realm!

In addition, his Gravity Domain could be said to be incomparably powerful!

The Six-Tailed Demon Fox was not a pushover. It waved its six tails and tore through the void, raising strange flames!

This was the powerful talent of the demon fox foreign races. They could control strange flames and had incomparably powerful destructive power!

However, under Zhou Hao's absolute strength and the Gravity Domain, it was no match for him at all. It was defeated in a few rounds!

Zhou Hao could not be bothered to waste his breath. The Thousand Feather Armor resisted its flames as he took out the Black Dragon Spear. Lightning filled the sky as it pierced out!

In the next second, the Six-Tailed Demon Fox was instantly killed!

Even in death, it did not know how this person in front of it was so powerful!

After Zhou Hao killed it, he passed by its guarding area and saw an Essence Energy Ancestral Stone mine. He smiled.

"Looks like the Iron Bone Bear King really did not lie to me. Damn, I've made a killing this time!"

Zhou Hao was very happy. He controlled the Thousand Feathered Armor and directly entered. This armor was indeed extraordinary. The spatial tearing power was useless against the armor. It was as if he had come to his own backyard as he leisurely strolled into the mine!

Zhou Hao did not waste his breath and directly put these Essence Energy Ancestral Stones into his bag. His body moved and he directly left!

However, just as he left, the Hundred Insect King's figure instantly appeared!

Its expression was extremely ugly and furious!

"The Six-Tailed Demon Fox is actually dead...? The Essence Energy Ancestral Stones were also taken away? Could it be that the humans have sent a Heaven Realm expert to snatch the Essence Energy Ancestral Stones?"

The Hundred Insect King was very furious. It had a total of three Essence Energy Ancestral Stone mines in the twelfth spatial rift under its control, but it had already lost two!

These two Essence Energy Ancestral Stone mines could definitely create a large number of supernatural experts. They could even create one or two Heaven Realm experts!

This was not good news for the mutated beasts!

Once the number of human Heaven Realm experts increased, their ability to compete for the spatial rift would decrease!

In this way, their invasion against the human race on Planet Earth would be stopped.. This was something it did not want to see happen!

Chapter 392 - Nine Revolutions Overlord Body Art

Chapter 392: Nine Revolutions Overlord Body Art

The Hundred Insect King was very furious. This Essence Energy Ancestral Stone was very important. It was even the reason why the foreign races persisted in staying in the spatial rift. No matter how much manpower and resources they wasted, they still had to defend this place!

This was because if the humans obtained the Essence Energy Ancestral Stone, they would quickly grow. This was not a good thing for the foreign races!

“This... can’t continue!”

As the Hundred Insect King spoke, its huge figure disappeared!

After it left, Zhou Hao stuck his head out. He had not gone far just now. After sensing the aura of the Hundred Insect King, he had deliberately stopped to observe its reaction.

Zhou Hao did not notice its reaction, but he knew that the foreign races would definitely not let this matter rest!

“Looks like I have to increase my strength soon!”

Zhou Hao took a deep breath and returned to his training camp. He took off his Thousand Feather Armor and returned to his room!

His gains this time were huge. Not only did he obtain the mineral resources of three Essence Energy Ancestral Stones, but they also killed three quasi Heaven Realm beasts!

This was all worth a lot of money and luck points!

Zhou Hao did not say anything else and directly went to the shop of the Heaven Dao software to sell it!

Zhou Hao had just entered the Heaven Dao software when many netizens began to suck up to him.

“@ I’m just an ordinary person. Big shot, you’re here again!”

“The big shot is here, hahaha!”

“Every time the big shot enters the software, it will cause a commotion. Looks like it’s the same this time. Is the big shot going to spam the screen or is he going to get the mystery box?!”

They all tagged Zhou Hao, but Zhou Hao ignored them. He clicked on his luck points and looked at the hundreds of millions of luck points. He was extremely happy!

This killing of quasi Heaven Realm beasts had indeed brought him a lot of benefits.

After selling these three quasi Heaven Realm beasts, Zhou Hao obtained tens of billions of Heaven Dao coins. This was simply a lot of money!

He was currently a platinum user. For him to advance to a diamond user, he would need hundreds of billions of Heaven Dao coins!

With this money, he had to kill at least a hundred quasi Heaven Realm beasts!

“Sigh, I’m afraid I still have a long way to go before I become a diamond user!”

As Zhou Hao spoke, he felt depressed. Seeing so much money, Zhou Hao was in no hurry to use it. He did not lack anything now. All he needed was the other Thousand Feather Armor modules!

He also couldn’t upgrade his God Slaying Art to the God Destroying Art. As for movement techniques, he was already satisfied with the Golden Crow Escape Technique. Moreover, he also had the Shadow Seven Sabers, which was his best technique!

“However, this cultivation technique of mine is too eye-catching. I still need to change my cultivation technique!”

Zhou Hao’s cultivation techniques, such as the Great Yan Record and the Green Wood Art, were all associated with his identity as President Zhou. If he used them, it would be easy for others to discover his identity!

Therefore, Zhou Hao planned to cultivate a different cultivation technique!

Thinking of this, Zhou Hao went to the shop and opened the cultivation technique. He searched carefully and saw a powerful cultivation technique!

“Nine Revolutions Overlord Body Art”

Zhou Hao hurriedly looked at the introduction of this cultivation technique and was shocked!

This Nine Revolutions Overlord Body Art’s level was very high, even higher than the Black Dragon Spear. The introduction also stated that it was an earth-level cultivation technique!

Moreover, the price was tens of billions. With his current financial strength, Zhou Hao had to spend everything he had just to buy this cultivation technique!

However, this cultivation technique was indeed powerful. This cultivation technique mainly refined the body. There were a total of nine revolutions. Under the nine revolutions, it was like the body could become a divine artifact of the universe. This made Zhou Hao extremely tempted, so he bought it without hesitation!

This Nine Revolutions Overlord Body Art had a total of nine revolutions!

Every revolution required endless essence energy to succeed. It was not like those cultivation techniques that could be easily used as long as the compatibility was high enough!

After all, this cultivation technique was used for modifying and could not be learned.

It was used to modify one’s body, just like how one would use essence energy to temper one’s body!

Zhou Hao also had quite a bit of Essence Energy Ancestral Stones now. Therefore, without saying a word, he directly activated the Nine Revolutions Overlord Body Art. After he finished cultivating, he was stunned!

He had immediately consumed 30% of his Essence Energy Ancestral Stone and had only reached the third revolution!

“This is too... difficult!”

“It has to be known that this was enough to fully repair the Thousand Feather Armor. And yet, I’ve only reached the third revolution and I’ve already spent so much essence energy...”

Zhou Hao was dumbfounded. However, since he had already decided on this cultivation technique, he had to give up on his Essence Energy Ancestral Stones!

After the third revolution, Zhou Hao clearly felt that his body was already different. Zhou Hao did not know what was different, but he could sense that his perception of his surroundings had increased. Moreover, he felt that his body was filled with strength!

In order to verify, Zhou Hao directly let Little Yu test his combat strength!

Zhou Hao had memorized the more powerful functions of the Thousand Feather Armor. However, Zhou Hao did not care much about these small functions, such as testing combat strength or virtual combat.

At this moment, he wanted Little Yu to test his combat strength.

“Reporting to Master, with your original physique, you could unleash 10,000 tons of strength. In other words, your cosmic strength only used to be 100 tons. However, your current strength has reached 1,000 tons of cosmic strength!”

Hearing this, Zhou Hao was dumbfounded!

“What... 1,000 tons of cosmic strength? Isn't... isn't that 100,000 tons of strength? I... Is this the effect of the enhancement of the Nine Revolutions Overlord Body Art?”

Zhou Hao did not dare to believe it.

“Yes, Master. Your strength has already reached the third-grade Heaven Realm...”

Little Yu's words shocked Zhou Hao even more. He was not even a Heaven Realm expert, yet he could actually erupt with a third-grade Heaven Realm strength. What kind of concept was this?!

If he could resist a third-grade Heaven Realm attack and also release a third-grade Heaven Realm combat strength, wouldn't that mean that he could take on a Heaven Realm expert with his current quasi Heaven Realm cultivation?

This was something that Zhou Hao did not dare to believe!

After all, a Heaven Realm expert was different from a quasi Heaven Realm expert!

Quasi Heaven Realm experts could only be called martial artists, but Heaven Realm experts were true big shots!

The reason why there was such a powerful difference between the Heaven Realm and the quasi Heaven Realm was that the quasi Heaven Realm were only able to extend the limit of the human physique.

On the other hand, Heaven Realm experts have already broken through this limit and reached perfection in their various attributes. Only when one reached this level could he or she become a Heaven Realm expert.

To put it bluntly, everyone below the Heaven Realm were still ordinary people. However, experts above the Heaven Realm were all superhumans!

Their will, bodies, and even mental strength had all reached the limit of humanity, rising to a completely new level!

Therefore, if a Heaven Realm expert wanted to kill a quasi Heaven Realm expert, they only needed to move their fingers!

This was the difference!

Zhou Hao did not know if the end of cultivation was above the Heaven Realm!

If it was, then it would be the limit on Planet Earth. It would also mean that Heaven Realm experts were the strongest experts and could affect the entire world!

Now, Zhou Hao, who only had an ordinary mortal body, was actually able to resist the strongest force in this land. It really shocked Zhou Hao!

Chapter 393 - Dark Night Group

Chapter 393: Dark Night Group

While Zhou Hao was shocked, he also did not dare to believe that his strength had really reached this level!

However, now that he had reached this level, it also meant that he could now maintain his calm. After all, Zhou Hao was to be able to resist a Heaven Realm expert with a quasi Heaven Realm cultivation!

However, at this moment, a huge matter happened in the entire Human Alliance!

The entire foreign races denounced the humans for breaking the rules!

At this moment, in the meeting room of the human Heaven Realm Alliance, the leaders of the various divisions were sitting there.

The expressions of the seven divisions were solemn!

The leader of the First Division took a deep breath and could not help but say.

“The foreign races claim that we broke the rules and sent Heaven Realm experts into the spatial rift to kill their quasi Heaven Realm experts and snatch the Essence Energy Ancestral Stones. According to what I know, all the Heaven Realm experts of our human race have not been mobilized!”

The representative of the First Division spoke with an ugly expression.

The others were the same. There was an agreement between the mutated beasts and the humans that Heaven Realm experts were not allowed to be casually dispatched. After all, experts with such cultivation were no longer ordinary martial artists. If they entered the battlefield and secretly killed the other experts, it would affect the absolute balance!

If the humans could do this, the foreign races could also do the same. When that happened, things would really become chaotic!

In fact, the foreign races could even send secret experts to kill their ordinary humans!

This was what the Alliance did not want to see!

In comparison, it was very difficult for their Heaven Realm experts to enter the foreign race space. It was even possible that they might not be able to come out after entering!

The foreign races' territory was very barren and dangerous. The conditions were terrible, but the territory of the humans was different.

The lands occupied by the humans were all fertile and relatively safe. After all, humans' land was also suitable for the foreign races.

However, the opposite wasn't true.

“This matter is highly valued by the higher-ups. The establishment of this treaty was only possible because we humans are powerful. However, we still can't compare to the foreign races. They have many races and don't care about life and death. It's very easy for them to send a few suicide teams.”

“But we humans are different. Our warriors were nurtured. Every death is a loss for us humans!”

“But now, a mysterious expert has killed three of their foreign race’s quasi Heaven Realm experts and one of them is a member of the Demon Fox Race. This has angered the foreign races, especially since they had just lost three Essence Energy Ancestral Stone mines.”

“The foreign races are very furious and have already exerted pressure. If they break the agreement unilaterally and war breaks out, many human lives will be sacrificed. This is not something the higher-ups want to see.”

“Our human race has invested a lot of blood, sweat, and tears to get where we are today. We definitely can’t let this happen.”

The representative of the First Division had an ugly expression as he looked at everyone and continued.

“Tell me, who is this mysterious Heaven Realm expert?”

They looked at each other, unable to figure it out at all. A strange thought flashed through Zhu Zao’s mind!

Could this person be President Zhou?

President Zhou’s combat strength was very strong. If he attacked, it would be very easy for him to kill a few quasi Heaven Realm beasts!

If it was really him, things would be difficult. The humans had originally put out an order to apprehend him because he had cultivated a Genesis Rune. If he were to do something like this now, it would definitely affect the balance between the mutated beasts and the humans!

Since Zhu Zao thought this way, the others were naturally the same.

“At this moment, the only person in our human race who can kill a quasi Heaven Realm beast without leaving any traces is President Zhou!”

When the others heard this, their expressions immediately turned ugly!

“If it’s President Zhou, then it means things are bad. He’s definitely doing this on purpose. He wants to start a war between the humans and the foreign races. In this way, he will be one step closer to destroying all the martial artists!”

Someone analyzed it again. After saying this, Zhu Zao’s expression immediately changed!

This was a heavy accusation. If President Zhou really had such thoughts, then it would really be a disaster for the humans!

“Hmph, I knew it. Those who cultivate Genesis Runes are definitely not good people. Do you guys see it now? This person actually wants to break the balance between the humans and the foreign races. If the balance is really destroyed, it will definitely be a huge disaster for us!”

“That’s right. I’ve decided that we should immediately arrest President Zhou and issue a global wanted order. Be it a supernatural expert, a master, or even a Heaven Realm expert, we have to order everyone to arrest President Zhou if they see him. We can’t do this secretly anymore!”

Their attitude was very firm. For the sake of the humans, they had to do this!

Moreover, President Zhou’s behavior had already made a lot of people dissatisfied and afraid!

Last time, the person who had learned some Genesis Runes had almost destroyed the entire world. This time, they definitely could not let go of the person who was learning Genesis Runes. They wanted to nip this matter in the bud!

“In that case, let’s put out a high level bounty and mobilize the Dark Night Group to arrest them!”

The representative of the First Division took a deep breath and said directly. After saying this, Zhu Zao’s expression turned ugly, and he thought to himself that Zhou Hao was done for!

The Dark Night Group was the Alliance Association’s strongest attacking force, a weapon that could kill any enemy!

The identities of the people in this group were all classified. No one knew how many members they had or how powerful they were!

However, Zhu Zao did in fact know about this one incident. In the past, the strongest martial artist of a large family had already reached the eighth-grade Heaven Realm and stood at the peak!

However, his secret cooperation with the foreign races ended up being discovered by the alliance, causing the Dark Night Group to be mobilized!

That was the first time the Dark Night Group had been mobilized. It took only one day for that Heaven Realm expert’s head to be separated from his body. After that, his entire family also vanished into thin air, as if they had never existed in this world!

The Dark Night Group represented absolute death. If they were allowed to kill President Zhou, President Zhou would definitely have no chance of survival!

Zhu Zao wanted to say something, but he couldn't say anything. So what if he objected alone?

Six out of the seven divisions had agreed. If he jumped out at this moment, he would probably provoke many people and even cause trouble!

He could only sigh and hope that President Zhou was safe and sound!

The moment the news was sent, the entire alliance was stunned, especially the martial artists who had fought alongside President Zhou in the past!

They did not understand why the higher-ups wanted to arrest President Zhou!

This arrest order also reached the elite training camp and Xu Ling!

When they saw this information, they were shocked and in disbelief!

Chapter 394 - Joining Green Cloud

Chapter 394: Joining Green Cloud

"What's going on? President Zhou is going to be arrested? Why?!"

"That's right. Isn't President Zhou our hero warrior? How could this be?!"

"There must be a problem, there must be a problem. Look, they said that President Zhou violated the alliance's decision and is in extreme danger. How is that possible?!"

Be it Yuan Cheng, Zhang Yi, or even Yun Yan, Fang Yu, or Xu Ling, none of them dared to believe it!

Not long ago, President Zhou had even resolved the matter of the thirteenth spatial rift. If not for President Zhou, the thirteenth spatial rift would not have become a training base!

However, it had only been a few months since this incident happened. However, now President Zhou had become a wanted man!

This was too funny!

“Zhou Hao, do you know about this?”

Xu Ling asked Zhou Hao at this moment. Others might not know, but she knew that Zhou Hao’s master was President Zhou. If something happened to President Zhou at this moment, Zhou Hao should know something.

“Sorry, I just learned about it. Moreover, it was always Master who contacted me first. I rarely contact him. I really don’t know what happened!”

Of course, Zhou Hao could not tell them the truth, let alone tell them that he was President Zhou. Otherwise, it would be a little strange!

“If even you don’t know, then I don’t think there’s anybody who knows...” Xu Ling frowned and couldn’t help but say.

“Instructor Bai, yes... Instructor Bai must know. Instructor Bai is also a quasi Heaven Realm expert. She must know something!”

At this moment, Yuan Cheng suddenly said, This brat sure was smart during critical moments.

“That’s right. Instructor Bai must know something. Let’s go and ask her!”

Yun Yan and Fang Yu were also anxious. Without another word, the six of them found Instructor Bai.

After Bai Linglong learned of this, she was also very furious!

Although she did not know whether President Zhou was the one who had killed the foreign race’s quasi Heaven Realm beast or not, it did not matter at this moment. After all, did it matter?

President Zhou was a quasi Heaven Realm expert, so it was reasonable for him to kill a quasi Heaven Realm beast. It was not against the rules at all, so why should they arrest him?!

Moreover, why would cultivating a Genesis Rune make him a bad guy? Bai Linglong did not understand!

Most of the credit for successfully taking back the thirteenth spatial rift belonged to President Zhou. Because of this, Sword King Qing had even bestowed the Black Dragon Spear to President Zhou!

There was also the matter of the seventh spatial rift. If not for President Zhou's Genesis Rune, they would have been done for and the seventh spatial rift would have fallen. But now...

Because of President Zhou, the seventh spatial rift was safe and sound. He had even killed a few quasi Heaven Realm beast experts, relieving the pressure on the frontline!

However, what did the humans do for President Zhou in return? They actually wanted to arrest President Zhou. Weren't they basically biting the hand that fed them?!

Bai Linglong was very mad. At this moment, Zhou Hao and the others found her and asked about this.

Bai Linglong saw the confusion in Xu Ling, Yun Yan, and the others' eyes, as well as disbelief and even a little anger. She also sighed in her heart.

Bai Linglong could tell that they were thinking the same thoughts as her. She also realized that since Zhou Hao was President Zhou's disciple, he must be very disappointed at this moment.

Despite thinking like this, Bai Linglong still spoke.

"I don't know what's going on either, but like you guys, I believe in President Zhou. There might be a misunderstanding here. We can only explain it clearly after meeting President Zhou. Therefore, don't worry."

Bai Linglong could only comfort everyone like this. Otherwise, there was nothing else she could do!

However, these words were clearly not enough to convince them. Moreover, Xu Ling and the others were not like naive little kids who had just entered the Martial Dao World. They could still sense the problem from Bai Ling's subtle changes!

However, Bai Linglong did not want to tell them. At the same time, they also could not expose her and could not ask!

After all, this was not something students like them could know about!

After returning from Bai Linglong's place, they were all very depressed. Ever since they were in school, they had known President Zhou. It could be said that President Zhou was very important to them.

It was the same for Yun Yan. When they had just arrived from the Yanjing Training Camp, they had been attacked by mutated beasts. If not for President Zhou, they would have all died!

But now, that martial artist who had once fought at the frontline and saved many of their lives was actually wanted. Moreover, the reason given was vague.

The reason was that Preisdan Zhou had gone against the Alliance's decision!

They did not understand. Even if they asked, they would not be able to obtain any answers!

This was a secret of the human race and was not something they could know about. Only after they stepped into the supernatural level or even became quasi Heaven Realm experts would they have a chance!

This matter had a huge impact on humans. Zhou Hao also knew that the sudden pressure was probably related to him killing the three mutated beasts and robbing the three Essence Energy Ancestral Stone mines!

Zhou Hao took a deep breath. It seemed that he had to lie low for a while before doing something like this again!

The days of the training camp continued to pass, but they still thought about President Zhou!

Moreover, the foreign races' advancement became more and more violent, and the war continued. As a quasi Heaven Realm expert, Bai Linglong also occasionally rushed to the frontline.

Time passed slowly. In the blink of an eye, a year had passed!

In this year, Xu Ling's cultivation had already reached the peak of the grandmaster level. The others had also stepped into the grandmaster level and become true experts!

Although the elite team was not disbanded after they became grandmasters, in order to nurture more experts, the members of the few teams present still had to start their training!

Naturally, the training would not just be carried in the training camp.

Although they had gone into the thirteenth spatial rift to kill mutated beasts before, they had always done so under the supervision of Bai Linglong.

"Starting from tomorrow, you will all have to completely integrate into the seven teams on the frontline and join one of the seven divisions. This was already decided when you

joined the elite teams. In a while, your respective divisions will come to pick you up and give you missions. From now on, you can be considered to have graduated!”

Bai Linglong smiled for the first time. After she finished speaking, they were all stunned.

“What, graduated? So soon? We’ve only trained for less than two years...”

“That’s right... how did it go by so fast...”

They were all puzzled, but Bai Linglong said,

“The thirteenth spatial rift has always been a valuable training base, and you, as an elite team, are even more valuable. However, we can’t place all of our hopes on you guys. We still have to nurture new blood. At the same time, you can’t always study in school. You should really integrate what you learned here into the battlefield. There’s still more to learn in the real world.”

Although Bai Linglong said this, she knew that she was only saying this to motivate the students.

Soon, their respective teams picked them all up.. As for Zhou Hao and the others from the seventh team, they arrived at the Green Cloud Division. The person who received them was not anyone else but Yang Hui!

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 395 - Hundred City

Chapter 395: Hundred City

Zhou Hao and the others were extremely excited to see Yang Hui again. They had rarely seen Yang Hui during this period of training.

Although they had not been together with Yang Hui for long, their relationship was very good. They were still very happy that Yang Hui was in charge of leading them into the Green Cloud Division this time.

“Congratulations, all of you have already become grandmasters. I believe it won’t be long before you all can step into the supernatural level. The Green Cloud Division will be different from school. In school, you are the future of the entire human race, but in the Green Cloud Division, you are the warriors of the Green Cloud Division. You are only loyal to the Green Cloud Division, understand?”

Yang Hui looked at these six little guys and sighed with emotion. Who would have thought that the little guys who had just reached the master level back then would actually become grandmasters and advance to the supernatural level one day!

However, they were still a little surprised by Yang Hui’s words.

They had cultivated in the academy for the sake of the entire human race. But now, why did it seem like Yang Hui was implying that the humans were divided.

“Instructor Yang, what’s the meaning of this?” Xu Ling could not help but ask. Yun Yan, Fang Yu, and the others were the same.

“Hehe, I knew you guys would ask this. Actually... how should I put it? Although the human race is united, there are still conflicts in certain hidden areas. After all, the resources of the human race are limited. The seven large divisions naturally want to have more. Therefore, some conflicts are very normal.”

“Isn’t it the same for you guys? Don’t fights occur between classmates occasionally? Actually, it’s not much different.”

Yang Hui’s words made sense, but he still felt very helpless. As long as there were multiple humans living together, they would be scheming. This was something that no one could change.

“Alright, you don’t have to think too much. From now on, you guys will become a part of the Green Cloud Division. I’ll bring you to the distribution department now.”

Yang Hui did not want to say anything else. They were all innocent children who had just walked out of school. He did not want his words to affect them. As for how much they would know in the future, he did not care.

Yang Hui brought them to the distribution department and left. Just as they walked in, they saw a middle-aged man sitting in the office with a furious expression.

“Are you the students of the Seventh Elite Division?”

The middle-aged man looked at Zhou Hao and the others. His expression was still cold and expressionless.

“Yes, sir.”

The middle-aged man nodded. "You can just call me Liu Suo. Now, you're already members of the Green Cloud Division. However, the Green Cloud Division is different from your school. If you join the Green Cloud Division, you have to work for the Green Cloud Division. Of course, you also have to work for the humans of Planet Earth."

As he spoke, the middle-aged man gave Zhou Hao and the others a sign each that looked like a chip.

"This is your identity. You are still grandmasters, and your security clearance in the Green Cloud Division will be limited. However, you don't have to be anxious. After you become supernatural experts or even quasi Heaven Realm experts, your security clearance level will also increase."

Zhou Hao and the others did not think much of the middle-aged man's words. This had always been a normal phenomenon. It was only fair for the stronger ones to know more.

"You guys are already grandmasters and came from an elite team. Therefore, the Green Cloud Division naturally arranged a good place for you guys."

With that said, the middle-aged man waved his hand and built a virtual map.

"Our Green Cloud Division is mainly responsible for the security of the seventh to thirteenth spatial rift and some important cities."

After he finished speaking, the few of them were stunned. If they were in charge of the seventh to thirteenth spatial rifts, didn't that mean that they were responsible for seven spatial rifts? Liu Su had also said just now that they had a total of seven divisions and the Green Cloud Division only had seven spatial rifts. In that case, wouldn't that mean that the other divisions were each only responsible for one?

Superintendent Liu seemed to have seen through their thoughts and smiled slightly. "I know what you guys are thinking. However, you guys have yet to come into contact with that level. Do you think that the only danger we face is these thirteen spatial rifts? Planet Earth is boundlessly vast, and the responsibilities of the various divisions are different. Comparatively speaking, the mission of our Green Cloud Division is not too difficult."

Superintendent Liu's words shocked Zhou Hao and the others even more!

Zhou Hao had never known what the other divisions were responsible for. He only thought that the humans were only guarding the thirteen spatial rifts!

"Alright, it's useless to tell you all these things. Let's take a look at the city you're guarding first. Originally, I wanted you to return to Qu City and guard your hometown. However, some people think that you're an elite team and the future intermediate

strength of the human race. If you continue to relax like this, it will be detrimental to your future development. Therefore, I arranged for you to go here. Hundred City!"

At this point, the virtual screen changed and an extremely barren city appeared. This place looked tattered and extremely backward, making Zhou Hao and the others stunned.

"This place has once received radiation, causing the Hundred City to become completely barren. For so many years, our human race has worked hard to develop this place, but we didn't get far. It's not only because the quality of the land here is poor, but also because this place is adjacent to the Red Cliff Abyss. That place... is extremely dangerous. It's a place with no laws."

"There are all kinds of ferocious mutated beasts and traitors of our human race lurking in this land. Because of this, it's also very difficult for the Hundred City to develop. Therefore, I'll send you guys to guard that place. In three years, try your best to take back the Red Cliff Abyss. This is the mission the Green Cloud Division has assigned for you!"

When Superintendent Liu said this, he was also a little worried. After all, that place was too chaotic. Even ordinary supernatural experts were unwilling to go there.

Although it would be fine to send Heaven Realm experts to directly raze that place to the ground, the problems there were still too complicated. It was not the best solution to just raze that place to the ground. Moreover, even if they razed that place to the ground, it was still useless if they couldn't resolve the problems they were interested in.

"You will naturally know the exact details when you arrive."

With that said, Liu Suo clapped his hands and the virtual image disappeared.

"Although the mission is somewhat difficult, I believe you can complete it. In addition, after becoming a member of the Green Cloud Division, you naturally have the authority to enter the regional network of the Green Cloud Division. You will find many things you need there. As for how to obtain them, you will also be able to find out yourselves. I won't say much."

"Alright, if there's no problem, you can go on your way."

After Superintendent Liu finished speaking, a few uniformed men walked in and prepared the fighter planes.

Zhou Hao and the others did not hesitate to board the fighter plane and head to Hundred City.

Chapter 396 - Challenge the Tower

Chapter 396: Challenge the Tower

On the plane, Zhou Hao and the others were not idling either. They also had a rough understanding of the Hundred City and the Green Cloud Division.

“This Hundred City is really a chaotic place. There are several armed forces belonging to both humans and mutated beasts. It’s simply a forgotten corner. I really don’t understand how such a place even exists.”

Yuan Cheng did not dare to believe it. Now that the humans and the foreign races were on opposite sides, they felt that the humans and the foreign races would definitely fight each other the moment they met. How could such a city even exist?

The Red Cliff Abyss was even more terrifying. Some of the armed forces were actually jointly organized by the humans and the mutated beasts. It was simply unbelievable!

Could mutated beasts and humans really get along peacefully?

“I think the Green Cloud Division sent us there to train us. The danger level there is definitely much higher than in Qu City. Therefore, if we go there to train, we will definitely be able to obtain outstanding results in a short period of time.”

Fang Yu was very calm and her analysis made sense.

“Who cares? If any of the armed forces are unconvinced, we’ll beat them until they submit!”

Zhang Yi was fearless and did not care at all.

“Alright, we’ll decide on the Hundred City matter when we arrive. Did you see the virtual space of the Green Cloud Division? It’s similar to our virtual combat cabin in school. It’s really interesting inside.”

Yun Yan was currently checking out the regional network of the Green Cloud Division. She was really surprised to see the Green Cloud Division’s virtual world.

“Indeed. I’ve long heard that there are many things you can do in the virtual world of the Green Cloud Division. You can train, shop and even the missions are assigned there. I didn’t expect there to be so many functions!”

Xu Ling also spoke at this moment, inevitably feeling somewhat shocked.

“The training in this virtual world is 90% as effective as the training outside. Here, we can undergo special training. However, it costs a lot of gold coins every time. It’s very costly!”

Zhang Yi was frowning. He was the classic example of someone who wanted to cultivate but did not want to spend any money.

On the other hand, Zhou Hao was also very curious about this virtual world. He clicked on it and was immediately stunned. The scene in front of him directly changed, as if he had entered personally!

However, Zhou Hao could still sense that this was a virtual world. Everything they could see was virtual. Even their bodies were virtual.

Their current bodies had 90% of the strength and abilities from their original bodies. However, this was only the strength and abilities they had displayed publicly to the outside world.

“It seems that the system of the Green Cloud Division is not able to completely restore everything. Instead, they probably determined our strength based on the data they collected. For example, I currently only have the Shadow Seven Sabers and the God Slaying Art.”

“They must have collected my data and analyzed it to build my virtual body!”

Zhou Hao figured all of this out and was relieved. He was really worried that all his abilities would be detected by the system. That would be terrible!

The Green Cloud Division’s system was rather interesting. It was like a city. Zhou Hao could see many virtual figures enter and leave. Presumably, everyone was connected together virtually. In this way, it was also more convenient!

At this moment, Xu Ling and the others also entered the virtual world. The few of them saw each other and prepared to investigate.

The virtual world of the Green Cloud Division had the same effect as the Heaven Dao software. There were also shops, exchange zones, and so on.

Of course, there were also special training areas, challenge areas, and some arena areas!

Zhou Hao did not know why they had not given this to him when he was President Zhou. Could it be that he had forgotten or did not want to give it to him at all?

Zhou Hao was very puzzled, but he could understand the reasoning. After all, President Zhou was very mysterious. Zhu Zao and the others did not know his true identity, so they were unable to condense his true body. Moreover, there were many secrets in the Green Cloud Division's regional network. If they were not 100% confident that they could control President Zhou, they naturally would not dare to open the regional network for him.

Thinking of this, Zhou Hao felt relieved.

They looked at many places and finally stopped at the challenge area!

In front of him was a huge tower. It was very tall and had an introduction beside it.

"There are a total of thirteen levels in the challenge tower. If you succeed in every level, you will be rewarded. Each level will cost you 1 million gold coins."

This introduction was really simple and straightforward. One million gold coins for one challenge was not a small sum!

However, Zhou Hao did not care about this bit of money. He had tens of billions of Heaven Dao coins on him. He could easily exchange for hundreds of millions!

However, this challenge made Zhou Hao a little curious.

They continued to look at the introduction, feeling even more shocked.

"This challenge tower is really extraordinary. There are a total of thirteen levels. If you get to the third floor, it means you're a grandmaster. If you get to the sixth floor, you're a supernatural expert. If you get to the ninth floor, you're a quasi Heaven Realm expert. If you go any higher than that, it means you have reached the Heaven Realm!"

Yuan Cheng was somewhat excited. They were all grandmasters now. In other words, they had the ability to reach the third floor!

"There will be rewards for the challenge. I'll give it a try first!"

Yuan Cheng was very anxious. Without saying anything, he directly spent 1 million gold coins and entered the challenge tower!

Zhou Hao and the others were also curious about how to challenge this thing. They also wanted to see what reward Yuan Cheng could obtain, so they planned to stay here and take a look.

However, who knew that after Yuan Cheng entered, he disappeared directly in less than ten seconds. Then, a new Yuan Cheng condensed beside them.

“Hmm? What’s going on? Yuan Cheng, did you already get to the third floor?”

Zhang Yi saw Yuan Cheng and could not help but ask curiously.

Yuan Cheng’s face turned bitter and he almost cried.

“I... worked so hard to get 1 million, but it’s all gone just like that... What a freaking scam! How could they claim that grandmasters can reach the third level? I was insta-killed by a monster the moment I entered!”

“What?!”

Hearing this, they were shocked!

Although Yuan Cheng’s cultivation level was only that of a grandmaster and was not the strongest among them, they still knew that Yuan Cheng had some ability. It was a little unreasonable for him to be insta-killed!

“What happened? Tell me in detail!” Zhou Hao was very curious and asked directly.

“After... After I entered, I saw a monster appear. It was also at the grandmaster level. In the outside world, I would be able to kill it easily. However... when I was about to attack, I realized that for some reason, I could only unleash 60% of my strength.. 40% of my strength was suppressed and I was unable to unleash it. Therefore... I was insta-killed!”

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 397 - Commander Residence

Chapter 397: Commander Residence

They were all shocked. They did not expect that after entering this challenge tower, their strength would actually be restricted!

However, this was also normal. Zhou Hao had just sensed that his strength had been restricted according to the Green Cloud Division’s intel. Therefore, Yuan Cheng’s situation was similar to his.

Moreover, this place was virtual after all. It was already not bad for them to recreate 90% of their original strength. Naturally, their combat strength here could not be compared to their combat strength in the outside world.

“I was careless, too careless... If I had known, I wouldn't have challenged this tower. This is too scammy!”

Yuan Cheng was very depressed, but even so, it was useless for him to think too much now that the matter had passed.

At this moment, they received a message through their communication channel. The plane had landed!

The few of them immediately left the virtual world. When they opened their eyes, they were immediately shocked!

This Hundred City was really desolate. There were tattered places everywhere. The only place that resembled a city was the area within a radius of 50 kilometers where their plane landed. The rest of the city was filled with fortresses and defensive iron walls.

It could be seen that this place was very chaotic.

“We have already arrived at the Hundred City. You have already accepted your fate. As the guardians of the Hundred City, the seven of you will be responsible for the security here together. However... as for whether you can properly take over the entire Hundred City here, that will depend on you!”

The supernatural expert in charge of sending Zhou Hao and the others to the Hundred City smiled and left.

Zhou Hao and the others blinked. They did not understand, but Zhou Hao smiled and understood!

After all, this place was relatively desolate and there was no law here. To put it bluntly, there was no law here and people didn't really have to listen to the Green Cloud Division!

Zhou Hao even suspected that this place might have been deliberately left behind by the Green Cloud Division!

It was all for the sake of training these newbies who had just left the school!

Although they were grandmasters, there were simply too many grandmasters in the human race. There were at least a few million of them. In such a huge number, the few of them were not that important!

“Since we’re here, let’s fulfill our duty. We should also think of a way to take over the Hundred City’s city team.”

Zhou Hao said as the group walked towards the city’s commander department.

This place was very dilapidated, and the department of the commander was not much better. The few broken rock houses were also quite old.

What made Zhou Hao and the others’ expressions turn ugly was that there were many martial artists in the commander’s department courtyard. There were more than a hundred of them, but most of them were staggering around in a carefree manner. There were even many people who immediately began drinking and singing!

“These are martial artist soldiers? They look just like local hoodlums!”

Seeing this, Yuan Cheng couldn’t help but say.

Their reaction was natural. After all, this was the first time the group had seen such lazy soldiers.

“Hmph, looks like they don’t know the rules. If we don’t teach them a lesson, they won’t know what their responsibility is!” Zhang Yi was immediately furious and snorted.

“Don’t be anxious first. They’re just some small soldiers. From their performance, we can tell what kind of person the Hundred City’s commander is. We have to deal with him first. Otherwise, these people won’t be so polite,” Zhou Hao said indifferently.

“Then what should we do?” Zhang Yi could not help but ask.

“Let’s ask their commander to come out first and hand over the control of the city. Since we’ve been assigned here, we are the commanders now.” Zhou Hao narrowed his eyes.

The moment he arrived, he understood that this place did not rely on connections but on fists!

Therefore, to make them submit, he had to have a powerful status and strength!

Zhang Yi nodded and immediately shouted.

“Hundred City Commander, we are from the seventh team. We have come to take over the commander department. Please, relevant personnel, come out to meet us.”

Zhang Yi shouted. As soon as he finished speaking, the others were stunned and could not help but look over.

However, in the next second, they retracted their gazes and acted as if nothing had happened. They continued playing and drinking. They felt very uncomfortable!

Zhang Yi was furious!

“Are you guys deaf? Get your commander out. We want to take over the commander department!”

Unfortunately, the response to Zhang Yi was still the same.

Zhou Hao narrowed his eyes and smiled. He looked at them and said, “Looks like it’s not easy for us to take over this place.”

As he spoke, Zhou Hao looked at the martial artists who were playing cards with a few martial artists not far away and walked over.

“Please inform your commander that Team Seven is here to take over the department.”

As soon as he finished speaking, that person raised his head to look at Zhou Hao and smiled. “Team Seven? Who the hell are you guys? If I were you, I would get lost quickly. Otherwise, the commander is going to come out and kick you out of the Commander Residence personally!”

That person was very arrogant and sounded even more impatient.

When Zhou Hao heard this, he sneered and did not say anything else. He raised his hand, and his grandmaster-level cultivation directly exploded as he slapped over fiercely.

That person was only a master and was immediately shocked by Zhou Hao’s aura. This slap also sent him flying hundreds of meters away, causing him to vomit blood.

“To begin with, you’re not supposed to be resting and playing cards in broad daylight. And you even dare to disobey your superior’s order. You’re simply courting death.”

As soon as Zhou Hao spoke, the martial artists present were shocked. They did not expect this young man to attack!

However, they still did not care. He was just a rookie. What could he do? They figured that it wouldn’t be a problem if they just continued idling around.

“These people are really fearless. As human martial artists, how could they be like this!”

Xu Ling and the others also walked over. She was very puzzled and even a little angry!

“This place was originally a lawless place. The Green Cloud Division did not want to manage this place and they also did not want to be managed by the Green Cloud Division. Therefore, it became what it is now.”

Zhou Hao smiled and did not care. This was more interesting.

After Zhou Hao finished speaking, his expression suddenly changed. He suddenly looked not far ahead. The door to the Commander Residence suddenly creaked open, and a lazy man walked out.

“Yo, aren’t you guys from Team Seven? I believe you guys are here to take over, right? Sorry, the commanders have gone to Beast Mountain to kill the mutated beasts. You guys can wait outside.”

As he spoke, the person was about to close the door and enter the building.

However, Zhou Hao snorted coldly and the Shadow Seven Sabers exploded, directly shattering the already tattered building.

“I don’t like this building at all. Since we’re here, let’s rebuild a better one. It’s useless to keep this one. Let’s destroy it.”

Zhou Hao said indifferently. When the lazy man saw this, his expression turned ugly!

Chapter 398 - Secret Competition

Chapter 398: Secret Competition

Zhou Hao did not care. He looked at Xu Ling and the others and said.

“Let’s go. It’s useless even if the commanders are around. This Commander Residence is now ours.”

Xu Ling and the others were stunned for a moment. The handover procedures had not been completed yet, but Zhou Hao was already going in. Wasn’t this a little unorthodox?!

“There are no rules here. Didn’t you guys see that the people here are too lazy? There are no military orders in their eyes. Therefore, we don’t have to follow these rules.”

Zhou Hao did not care and walked into the Commander Residence first.

XZhou Hao had just destroyed the tattered building, but the Commander Residence in the center had not been destroyed. Zhou Hao directly walked in.

“How dare you guys enter the Commander Residence? You’re simply courting death!”

As he spoke, that person directly exploded with his aura. He was actually also a grandmaster!

“This person is offending his superiors. Zhang Yi, Yuan Cheng, tie him up.”

Zhou Hao said directly. Zhang Yi had long wanted to attack, and Yuan Cheng was the same. They attacked directly. How could a grandmaster resist two grandmasters at once?!

Moreover, they were all from the elite team and were much stronger than ordinary grandmasters!

The battle did not last long before that person vomited blood from being beaten by Yuan Cheng and Zhang Yi.

Zhou Hao and the others directly entered the Commander Residence. It had to be said that other places were tattered, but this place was dazzling and decorated well.

These few commanders were indeed capable!

Zhou Hao and the others entered directly and immediately sat on the main seat. That person was tied up and casually thrown to the ground.

However, this person was still ruthless.

“You guys are really courting death. You guys want to occupy the Commander Residence before the transaction is completed. You guys are really courting death. Wait for the commanders to return. They will definitely not let you off!”

At this moment, that person also began to reason. However, Zhou Hao did not care about his words at all. Instead, he directly took out the order for him to take a look.

“It doesn’t matter if the procedures happen, we’ve already been appointed the commanders of the Hundred City. This handover is just a process. The Green Cloud Division sent us here to control the Hundred City. It doesn’t matter if you are convinced or not. From now on, we are the commanders of the Hundred City.”

"I've already taught you a lesson for offending your superior just now, but it looks like you still haven't learned your lesson. Hang him outside the Commander Residence for the others to see."

Zhou Hao said directly. Zhang Yi and Yuan Cheng did not hesitate and immediately let him hang a hundred meters from the ground outside!

"You... How dare you. I'm the commander's personal guard, Chen Tenglong. If you dare to treat me like this, just wait for the commanders to come back and teach you a lesson!"

He was still arrogant, but Zhou Hao did not care.

However, Xu Ling and the others were a little worried.

"Zhou Hao, aren't we going a little overboard by doing this? After all... he's also a human warrior!"

Although Yun Yan, Fang Yu, and the others were also certain that this person was very infuriating, wasn't doing this a little too excessive?!

"Zhou Hao, we're new here and don't know the identity and strength of the commanders. Will we be targeted by them if we deal with his personal guards like this?!"

Zhou Hao shook his head. "They must be targeting us. This is not the outside world, but a place without laws. If we don't act stronger, they will ride on our necks and poop on us!"

"Moreover, we are the commanders sent by the Green Cloud Division. They wouldn't dare to do anything. Even if they are dissatisfied with us, they wouldn't dare to do anything blatantly!"

"As for those commanders who want to deal with us, there's no need for us to worry. Even if we didn't do what we did, do you think they would have treated us nicely?"

"Don't forget that the order had already been passed down today. At this moment, those few commanders are actually not here. Instead, they went out to kill some mutated beasts. They're clearly targeting us. No matter how polite we are to them, it's useless. Why don't we be more domineering and show them who's boss!"

Zhou Hao's analysis was very reasonable. After receiving the order, those commanders actually left the Hundred City. It was obvious that they were doing so to suppress Zhou Hao and the others!

At this moment, these three commanders were in the Red Cliff Abyss. In comparison, this place was much more luxurious than the Hundred City.

In a huge clubhouse here, three commanders were eating, drinking, and playing. Sitting opposite them were a few humans and a few foreign races who looked similar to humans.

They were all holding a few graceful women. There were humans and demons.

The Demon Race and the Human Race had very similar appearances. It was rumored that the Demon Race was descended from humans who had conspired with the foreign races. The women of the demon race were very beautiful and had a graceful figure. Other than having long ears and a tail, they did not look any different from humans.

“Big Brother, it’s really interesting for those juniors to come here to take over the Hundred City. Tell me, what does the Green Cloud Division want to do? Are they going to attack us?”

A bearded man among the three commanders could not help but say.

“Third Brother, you don’t understand. The Green Cloud Division will not attack us. This is the Red Cliff Abyss and is originally a lawless place. There’s no need for them to develop this place. However, ignoring us is not a viable solution either. Therefore, they sent those kids here.”

“They claim to be here to manage the Hundred City, but they’re actually here to train. They’re using us as free training. I have to say, the Green Cloud Division is quite interesting!”

A somewhat monstrous-looking man with long ears was clearly a member of the demon race!

“Second Brother is right. Those children are from some elite division and are important seedlings. It’s very appropriate for them to train here. After all, a grandmaster’s cultivation is enough for them to protect themselves.”

The burly man in the lead said indifferently with disdain.

“Then we don’t have to care about them. If they try to act tough with us, we’ll teach them a lesson,” the bearded man said with a laugh.

“We can’t attack them. After all, they are here on a mission. If we attack, the Green Cloud Division will not let the matter rest. Just because they decided to leave us alone now... doesn’t mean they’ll still leave us alone if we attack them. ”

“The best way is to pretend to be obedient and not do anything. We’ll listen to everything but not do anything!”

“In any case, the armed forces are in our hands. What are we afraid of?”

The demon smiled as a teasing look flashed in his eyes.

But at this moment, someone suddenly barged in from outside.

“Commanders, not good... not good. Bodyguard Chen has been... has been beaten by the newbie and is being hung in the Commander Residence!”

Chapter 399 - The Purpose Of Training

Chapter 399: The Purpose Of Training

As soon as he finished speaking, the three people in the room were shocked!

The burly man in the lead’s expression instantly turned cold, and the bearded man was even more so. He slammed the table and immediately shattered it!

“Damn, they dare to ride on our heads on the first day. They’re simply courting death. They’re only at the grandmaster level, but I’m a first-grade supernatural expert. It’s easy for me to kill them. I’ll go and kill them now!”

As he spoke, the bearded man immediately stood up and was about to leave.

However, the feminine demon man called out, “Third Brother, what are you doing? Why are you so angry?!”

“Damn, they even dared to attack our personal guards. That’s equivalent to slapping our faces. Aren’t we going to kill them?”

The bearded man immediately roared.

“Third Brother, you need to learn to hold it in. Aren’t we also slapping their faces by coming to the Red Cliff Abyss to pass the time today? It’s normal for them to hit back. You don’t have to care. Moreover, Bodyguard Chen only suffered a little. It’s nothing.”

The feminine man smiled and picked up his glass to take a sip, not caring at all.

The middle-aged man in the lead did not say a word and only looked at him. However, the bearded man could not sit still.

“How could you say that? By attacking Bodyguard Chen, they’ve humiliated us. Are we supposed to just endure it?”

The bearded man said unhappily.

“Of course we can’t just endure it. It’s not unexpected for them to attack like this. After all, they’re from the Seventh Elite Division. It’s very normal for them to be a little arrogant. However, arrogance is all they have.”

“What we need to do is to chase them away. If we kill them, the three of us won’t be able to continue living like this. Therefore, we can’t fall out with them yet. At least not now.”

The feminine man had a smile on his demon-like face.

The middle-aged man in the lead said indifferently, “Second Brother, what do you want to do?”

He knew that although his second brother was from a foreign race, he was indeed smart and intelligent. Perhaps he had a way to resolve the matter without bloodshed. Since they could not offend the Green Cloud Division, they could only chase them out!

“Big Brother, actually, they only came here to train. The living conditions in the Hundred City are difficult, and the Red Cliff Abyss is filled with all kinds of bad people. They won’t be able to stay here for long. If there’s nothing interesting, they will leave. It’s fine for us to let them be the commanders first.”

“After all, all these martial artists belong to us. Moreover, although this Hundred City seems to be in ruins, danger is everywhere. As commanders, they naturally have to guard this place. Therefore, perhaps tomorrow, their corpses will show up on the streets without us having to do anything. There are many people who have fallen into the Red Cliff Abyss because of the Green Cloud Division. Even if we are able to endure it, I’m afraid the others won’t be able to. Wouldn’t it be better if they were killed by others instead of us?”

The demon-like man smiled. After saying this, the middle-aged man smiled.

“That’s right. Instead of dealing with them and leaving traces, we might as well rely on others to get rid of them.”

The middle-aged man nodded and looked at the bearded man.

“Third Brother, when we return later, don’t show your dissatisfaction. We’ll listen to whatever they say. What can a few mere grandmasters do?!”

Hearing his brother speak, the bearded man did not dare to say anything and could only nod.

The three of them left the clubhouse and headed straight for the Hundred City.

As for Zhou Hao and the others who were sitting in the Commander Residence, they were not idling either.

This Commander Residence was not small. Moreover, it was obvious that the three commanders were people who knew how to enjoy themselves. The building outside was tattered, but the interior was very luxurious. The few of them found their own accommodations and settled down.

After all, they would stay here for the next period of time.

“Zhou Hao, what should we do when the three commanders return? If they don’t obey us, can we defeat them?” At this moment, Yuan Cheng said worriedly.

After all, they were all supernatural experts!

Among Zhou Hao’s group, the most powerful Xu Ling was also only at the peak of the grandmaster level. Although she had the strength to fight a first-grade supernatural expert, she was still unable to resist three supernatural experts!

“It’s fine. They won’t attack. Don’t worry, we were sent by the Green Cloud Division. As long as the three of them are not stupid, they won’t find trouble with us!”

Zhou Hao was well aware of this and smiled faintly. Ever since he knew that they had directly disappeared after receiving the order, Zhou Hao knew that these people did not want to fight them head-on. They were only doing this to show their strength!

Similarly, it was also a test. If they did not have any reaction and just waited obediently, they would naturally have the final say in the Hundred City!

However, if they showed their domineeringness, the three commanders would change their methods. The best way was to comply on the surface and disobey secretly. They would play nice in the meantime and wait for the few of them to have no interest in the Hundred City!

Since Zhou Hao knew what they were thinking, he naturally had a countermeasure!

“You said that they won’t deal with us? Really? Then what will they do?” At this moment, Xu Ling was also curious.

“The reason why they won’t deal with us is that they’re afraid of the Green Cloud Division’s influence. After all, we’re from the Seventh Elite Squad. They can’t afford to offend us!”

“As for what they will do, they will naturally try to flatter us on the surface and find an opportunity to attack us behind our backs.”

Zhou Hao said indifferently, not caring at all.

“Ah? Attack us behind our backs? Then... then what should we do? After all, we’re grandmasters and they’re supernatural experts!”

Yuan Cheng said anxiously. After all, he was afraid of death. It was fine for him to think that way.

Zhou Hao swept his gaze over and shook his head. “This is the purpose of our training. The first is to increase our strength and reach the supernatural level as soon as possible. In that case, these three people are nothing to worry about.”

“Now that we haven’t reached the supernatural level, we can only play their mind games and deal with them. This is also a part of strength, after all. Therefore, the Green Cloud Division’s intention is very simple. They want us to survive here and give them orders despite having lower cultivation. This is to give us pressure and let us break through as soon as possible. At the same time, it’s also to train our character and methods!”

Zhou Hao analyzed it very clearly. This was why they were sent to Hundred City!

It was a place to train the human elites!

Although they were only a few supernatural experts and were nothing, in this lawless place, it was impossible for weak people to survive without brains!

“Therefore, instead of being frightened, why don’t you turn this anxiety into strength and break through as soon as possible. When we break through to the supernatural level, this Hundred City will completely belong to us.. Only then will we have the ability to resolve the Red Cliff Abyss. Do you understand?”

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 400 - First Confrontation

Chapter 400: First Confrontation

Zhou Hao's analysis was very thorough. All of them understood what he meant. At the same time, they were somewhat surprised, thinking to themselves that Zhou Hao was really smart!

"Zhou Hao, you're so smart. With you around, we can rest assured." Yuan Cheng chuckled when he heard this.

Xu Ling did not speak, but the way she looked at Zhou Hao was filled with admiration. It was very obvious!

Zhou Hao smiled. However, at this moment, he frowned and looked outside. He said indifferently, "The owners are back."

As soon as he finished speaking, the expressions of the other five people in the room changed slightly. After sensing it, they indeed sensed three powerful auras landing outside the Hundred City Commander Residence!

This aura was already at the supernatural level. The weakest was a first-grade, and the strongest was a third-grade. He could already be considered as a top-notch expert!

However, in Zhou Hao's eyes, this strength was simply trash. It was nothing!

"What a powerful cultivation. As expected, supernatural experts are indeed different!" Zhang Yi's eyes were deep as he was also shocked by this aura!

"They're only doing this to show us that they're supernatural experts and we're grandmasters!"

"How interesting. Let's go out and meet them."

Zhou Hao smiled indifferently and walked out first. The other five hurriedly followed behind.

Just as he walked out, he saw three figures descend. Zhou Hao looked at the three of them, and his gaze paused on the demon-level man!

This man was really handsome. His fair skin was probably something that women would be envious of. However, his long ears still showed that he was from a foreign race!

Moreover, he was an expert from the demon race!

Zhou Hao was naturally not unfamiliar with the demon race. Although the others had never seen them before, they still knew!

Therefore, he was not too surprised to see the supernatural expert of the demon race!

The three commanders also sized up Zhou Hao and the others. Seeing that they were all grandmasters, they were not worried at all. After all, they could kill a mere grandmaster with a single slap!

“Grand Commander, you guys are finally back. They... they seized the Commander Residence and... they even injured me. Grand Commander, please take revenge for me!”

When Bodyguard Chen saw his bosses return, he immediately wailed.

Zhou Hao smiled indifferently and said directly, “I believe the three of you are the commanders of the Hundred City. Grand Commander Yin Feng, Second Commander Hua Manlou, and Third Commander Tu Shan, right?”

Zhou Hao and the others had already learned about their information before coming. Although the information was not very detailed, it still included basic information like their names and respective strength!

“That’s right. I believe you must be members of the Green Cloud Division’s Seventh Elite Squad. As expected, all of you are valiant and extraordinary!”

Grand Commander Yin Feng smiled and said directly.

Second Commander, Hua Manlou, said in a magnetic voice, “Everyone, I’m really sorry. We just went to kill the mutated beasts that were causing trouble. That’s why we weren’t home. It’s really our fault. However, since the few of you have come, we can rest assured. There’s no need to be so particular about the formalities. Since we approve of it, you guys can officially take over. The three of us will also be able to relax a little.”

Hearing this, Zhou Hao smiled and immediately said, “Thank you. However, I’m afraid it won’t be easy for the three of you to become commanders. We’re new here and don’t know anything. We still have to rely on you guys.”

“We’re all from the Green Cloud Division, so we’re naturally on the same side. We won’t use our status as commanders to pressure you. Don’t worry about this. The few of us have always been easygoing.”

As Zhou Hao spoke, he looked at Xu Ling and the others and said indifferently, “The few commanders have worked hard. It’s really unreasonable for us to take their place

now that we're here. How about this? The six of us will be the main commanders and the three of you will be the vice commanders. We still have to work together to help the Hundred City!"

Zhou Hao quickly made a decision for the rest of the. After all, he didn't want the other party to relax and stop working. Moreover, he made it sound like he was doing them a favor.

Although this vice-commander position was not small, Zhou Hao's meaning was very clear. In the future, the six of them will be the leaders, and the three of them will be the subordinates!

The bearded man could not understand Zhou Hao's meaning, but Yin Feng and Hua Manlou still understood!

Yin Feng's expression was extremely ugly. Just as he was about to speak, Hua Manlou smiled.

"Hehe, then we'll listen to Commander Zhou Hao's instructions. We'll do as you say."

Hua Manlou's words made Yin Feng's expression turn ugly. However, he also knew that his second brother had many ideas. Perhaps he had already thought of a plan.

"Commander Zhou, see if you can release our personal guard. He has also been punished. Please give us some face and let this matter go, alright?"

Zhou Hao naturally did not care. After all, that person only did as he was told.

"Since Vice Commander Hua has spoken, I will naturally give you face."

As Zhou Hao spoke, he waved the saber in his hand and helped Bodyguard Chen down.

When Yin Feng saw this scene, he didn't say anything. He calmly said, "Since the Commander Residence has already been occupied and we don't have a place to stay, I believe Commander Zhou wouldn't mind building another Vice Commander Residence in the abandoned land of the Hundred City, right?"

Zhou Hao naturally did not mind and nodded. "Of course."

As soon as he finished speaking, Yin Feng looked at all the martial artists in the Commander Residence and said indifferently, "All of you, build the Vice Commander Residence as soon as possible. Do you understand?"

This group of martial artists naturally did not dare to go against Yin Feng's intentions and hurriedly left the Commander Residence.

When Zhou Hao saw this scene, he sneered in his heart. This Yin Feng was indeed something. He had already gotten rid of all the martial artists.

“Commander Zhou, look. We’re establishing a Vice Commander Residence and are lacking in manpower. You won’t refuse, right?” At this moment, Hua Manlou smiled and said.

“Of course not. Since you need them to help with the construction, go ahead.”

Zhou Hao smiled and did not care at all. These people were not on the same side as them to begin with. It was useless for them to stay here. He didn’t mind for them to leave.

Moreover, they were vice commanders and he was the main commander. As long as he could order the vice commanders, didn’t it also mean that he could order those martial artists? Otherwise, the martial artists would feel unconvinced if he passed the order directly!

Seeing Zhou Hao’s reaction, Yin Feng and the other two smiled and left.

In an instant, there were only the six of them in the Commander Residence.

“They took everyone away. What’s the meaning of this? Could it be that they want to keep the martial artists to themselves?”

Yuan Cheng hurriedly said angrily.

Zhou Hao replied indifferently, “What’s the use of keeping a bunch of motley crew? If they want to take them away, they can take them away!”
