Chapter 601 - Heaven Realm!

Chapter 601: Heaven Realm!

The method to break through to the Heaven Realm was not very complicated. One had to condense all the essence energy in their body and compress it to a certain size and purity before they could successfully break through!

Zhou Hao thought that his body was very powerful, so it was very easy for him to break through. However, it was the opposite. The stronger a quasi Heaven Realm expert was, the more difficult it was for them to break through to the Heaven Realm. This was the law!

Zhou Hao sighed and was very helpless. However, he already had the strength to break through to the Heaven Realm. Therefore, he had to break through as soon as possible!

Zhou Hao did not go anywhere else and went to Thousand Feather Armor's place. No one was allowed to disturb him during his breakthrough. Moreover, he had to be absolutely safe.

There was no place more suitable than Thousand Feather Armor's place.

Although it was still fusing with that warship, some of its basic functions could still be used!

At this moment, Zhou Hao arrived at a small cabin of the warship. He did not know what material it was made with, but it was very firm!

The frog and the divine soil crawled out and looked at Zhou Hao's spaceship in shock.

"Damn, isn't this another cosmic warship? I didn't expect such a thing to exist on this barren Planet Earth. Zhou Hao, where did you get it?"

The frog was wearing a black leather coat and the same black sunglasses as before as it looked over in shock.

"It should have been left behind by the invaders," Zhou Hao said indifferently.

"Not bad, not bad. This thing is not bad. It's good enough to leave Planet Earth."

The frog liked it very much and directly pulled the divine soil to browse the rest of the ship.

Zhou Hao could not be bothered. Instead, he sat cross-legged on the ground and began to break through to the Heaven Realm!

Updates by . com

He could clearly sense the huge essence energy in his body begin to condense!

Immediately, resistance was transmitted. Zhou Hao knew that this was because his cultivation was powerful. His essence energy was originally very abundant, and it was not easy to compress it!

“The harder it is to break through, the stronger I’ll become!”

Zhou Hao narrowed his eyes and began to compress his essence energy without saying a word.

He was not only compressing his essence energy, but also his mental strength!

At this moment, he could sense that his essence energy and mental strength were like a huge river. They were very magnificent.

As Zhou Hao compressed, a vortex suddenly appeared in the endless river. It suddenly surged, and the river water instantly became thin, as if an invisible hand was squeezing the river dry!

There were many impurities in the water. As it was compressed and the river decreased rapidly, many black water drops dripped down and flowed out through Zhou Hao’s skin.

These were all the impurities stuck in Zhou Hao’s body!

Zhou Hao took a deep breath. After sensing this change, he used his full strength!

He could clearly sense that half of the river had instantly evaporated. However, although the water had decreased, the quality of the water had not decreased. In fact, it had even become stronger than before!

Ten drops of water became a single drop.

Then, ten drops of the water that had been compressed once again became one!

Just like this, the cycle continued indefinitely!

Finally, this huge river became a single sphere of water with a diameter of ten meters!

And now, it was still compressing!

Zhou Hao's entire body was covered in black dirt, but he could already sense that he had reached 80%!

"I've already succeeded by more than half. There's still one fifth left before I can succeed!"

Zhou Hao was very excited!

At this moment, after the essence energy river condensed to this point, Zhou Hao could also sense his mental river begin to condense. Finally, it also became a sphere with a diameter of ten meters!

However, one was in his dantian, and the other was in his mind!

Rumble!

Other than Zhou Hao, no one else could hear the rumbling as it constantly sounded in Zhou Hao's body. The water sphere shook and black liquid kept falling. Be it Zhou Hao's mental strength or essence energy, they were all crazily condensing and becoming stronger and stronger!

Zhou Hao's heart skipped a beat. He was very happy and gritted his teeth as he continued to compress!

Time ticked by. After an unknown period of time, Zhou Hao looked again. The ten-meter-tall water sphere had already become a fist-sized ball. The fluctuations it emitted simply shocked Zhou Hao!

Zhou Hao smiled!

"I'm about to succeed!"

Zhou Hao gritted his teeth and continued to compress!

At this moment, a bang sounded in Zhou Hao's heart.

A huge force directly spread out. At this moment, cracking sounds sounded. Zhou Hao hurriedly sensed it.

The fist-sized ball suddenly condensed and cracked. Immediately after, a clear crystal appeared!

One was emitting golden light, and the other was emitting white light!

At this moment, Zhou Hao felt a powerful force instantly transmitted over!

The golden crystal became replenished in Zhou Hao's mind. On the other hand, the white crystal transmitted a force to Zhou Hao's entire body. This force made Zhou Hao feel comfortable throughout his body. All his muscles, bones, cells, and meridians seemed to have undergone a tremendous change!

This was a true transformation!

"This feeling... is really not bad... Is this what it feels like to be a Heaven Realm expert?"

Zhou Hao shook his hand and felt an unprecedented strength condense in his body. This feeling was like a child becoming an adult!

"No wonder Heaven Realm experts are so powerful. It turns out that there's such a huge difference. I'm actually really lucky to be able to defeat a Heaven Realm expert with a quasi Heaven Realm cultivation!"

Zhou Hao took a deep breath. After becoming a Heaven Realm expert, he finally understood how big the difference was between him and a supernatural expert!

The strength brought about by this breakthrough was something Zhou Hao had not expected at all. Although he knew that he would be very powerful after breaking through to the Heaven Realm, he had never expected himself to become this powerful!

At this moment, the frog and the divine soil walked over. They looked at Zhou Hao and smiled.

"Not bad. You're already at the Heaven Realm. At least you have some self-protection ability now." The frog swept its gaze over Zhou Hao and nodded.

Zhou Hao was already used to seeing the frog act like this.

"Little Yu, how long until the fusion can be completed?"

Zhou Hao looked at the warship and immediately said.

"Master, it's already close to 80%. We still need three months."

A pleasant voice sounded as Zhou Hao nodded.

"I've found the other parts of the Thousand Feather Armor. When the time comes, do you have a way to fuse it?"

Zhou Hao asked directly.

“Master, I can control the other components. If I can sense them, I can recall them and fuse them within a certain range.”

Zhou Hao had long expected this.

There was only one Thousand Feather Armor intelligent entity, and this intelligent entity had absolute control over all the other parts. Therefore, when he really fought the Hundred Feet Worm King, he could instantly snatch its part if it dared to take out the Thousand Feather Armor!

Zhou Hao smiled and nodded.

“Alright, I’ll inform you when the time comes.”

“Master, my main intelligent entity is currently at a critical moment in its fusion. I’m still unable to leave this place. At the very least, the part needs to be within a radius of 50 kilometers from here.”

Chapter 602 - Battle General

Chapter 602: Battle General

When Zhou Hao heard this, he was stunned for a moment.

“A radius of 50 kilometers?”

Zhou Hao took a deep breath. This place was far from the twelfth spatial rift. How could he get the Hundred Feet Worm King here?

“Do you have any way to teleport a Heaven Realm expert here?” Zhou Hao asked directly.

“Sorry, Master, I don’t have such an ability.”

Thousand Feather Armor’s response made Zhou Hao a little depressed.

At this moment, the frog spoke.

“You need to teleport a Heaven Realm expert? That’s so easy. I just have to connect to the teleportation array.”

When Zhou Hao heard this, he was immediately happy. “Do you have a solution?”

“Of course. Who am I? I’m invincible!”

The frog adjusted its glasses and said smugly.

When Zhou Hao heard this, he was a little shocked. “What do you need?”

“Some energy-rich crystals will do,” the frog said indifferently.

“Will this do?”

Updates by . com

Zhou Hao directly took out the Supreme Energy Bar. As soon as he took it out, the frog was stunned.

“This thing... why is it so familiar?”

It looked at the Supreme Energy Bar and narrowed its eyes. However, after thinking carefully, it still could not remember why it felt familiar.

“You know this?” Zhou Hao was stunned for a moment. This thing was given by the Heaven Dao software. Could it be that the frog knew about the Heaven Dao software?

“I’ve seen it before, but I forgot the exact details. However, this thing of yours has ordinary energy. If you want to activate it, you need at least 10,000 of them.”

The frog immediately said.

It was only 10,000. Zhou Hao was not afraid at all. He had millions in his backpack!

“No problem, I can even give you 100,000!”

“That makes things easier!”

As the frog spoke, it arrived on the ground with Zhou Hao and the others. It was unknown what it was engraving on the ground, but he could tell that it was an ancient array formation.

This array formation was filled with strange symbols that Zhou Hao could not recognize.

“This is a small teleportation array. It’s very common in the universe. A teleportation array that has a transportation range of tens of thousands of kilometers long is simply child’s play. In the universe, a single spatial jump can allow one to cross a hundred thousand light years!”

The frog said indifferently and arrogantly.

“A hundred thousand light years... That is... just too powerful!”

After all, that was a whole light year! And not just one light year... It was a hundred thousand light years!

Could a teleportation range of such a distance really be possible?

“Trash, your Planet Earth’s technology level is too outdated. I can’t believe you haven’t even seen such a thing.”

As it spoke, the frog took out a sign from somewhere and handed it to Zhou Hao.

“This is the way to activate it. As long as you find the right opportunity, you will be able to teleport. However, remember, this teleportation array has no protection. In other words, you can only teleport when no one is resisting.”

The frog immediately said.

Zhou Hao narrowed his eyes. He did not expect there to be such a problem with this thing. However, it was fine. As long as the other party could be transmitted, all he needed to do was to find an opportunity!

After breaking through to the Heaven Realm, Zhou Hao’s strength and combat strength naturally improved. He now felt that he could fight a third-grade Heaven Realm expert without using the Ancestral Physique and the God Destroying Art. If he used them, he could even fight a fifth-grade Heaven Realm expert!

“With this combat strength, even if I can’t defeat them, I can still escape!”

Zhou Hao nodded in satisfaction.

Zhou Hao had just broken through when he received a message from Shengwu Battle God Ji Yaoyue.

Zhou Hao was stunned for a moment and hurriedly opened it. He saw Ji Yaoyue’s beautiful face!

“Good brat, you broke through to the Heaven Realm? Not bad!”

After saying this, Zhou Hao was stunned for a moment.

“Senior Ji, how... how did you know?”

Zhou Hao really did not understand how she knew he had broken through. Could it be that she was monitoring him?

“There is data about everyone in the Battle God Battalion’s library. Moreover, it’s updated in real time. The token of the Battle God Battalion on you has something that can monitor life signs. Although this thing won’t monitor your every move, it will still monitor the state of your body.”

“Be it during times of danger or when you’re safe, your information will be updated in the system warehouse. Just now, I sensed a powerful fluctuation coming from your body and the data was fixed to the Heaven Realm. Therefore, I sent you a message. Congratulations.”

Ji Yaoyue smiled. After saying this, Zhou Hao was a little surprised, thinking to himself that the Battle God Battalion was really impressive!

“Since you have already broken through to the Heaven Realm, you have also officially become an official member of the Battle God Battalion. You have also officially become my Heaven Realm subordinate. The announcement of this newfound identity of yours will be passed down. Your identity will be that of a general-level expert, the same as the elders of the seven divisions. This announcement will also be passed to all the higher-ups of the seven divisions.”

After Ji Yaoyue finished speaking, Zhou Hao blinked.

“Why announce all of this publicly? Can’t we keep a low profile?” Zhou Hao did not want to be in the limelight.

“We also know that we’re being high-profile. However, the identity of every Heaven Realm expert of every organization needs to be made known to the Eastern Martial Artist Union. This is because there will be danger at any moment. This way, even if you’re not currently being given any orders, you will still be kept as backup. After all, each has his own task and there’s nobody to spare. Do you understand?”

“Before danger occurs, we have to arrange the counter measures first. This is the only way to devise a strategy. Under this premise, we need to know how many supernatural martial artists and Heaven Realm martial artists our Eastern martial artists have. Therefore, this number can’t be hidden. Since your martial cultivation has been sent out, there’s also no need for you to hide your identity, right?”

Ji Yaoyue’s words made Zhou Hao nod and understand.

“Oh, right, now that you’ve become a Heaven Realm martial artist, your parents can also move into the living base of the Battle God Battalion. That place is even safer and the resources there are better. I’ve already gotten Sun Shan to arrange it.”

Ji Yaoyue added, making Zhou Hao nod in a daze.

These benefits were not bad.

“Don’t be excited. As a Heaven Realm martial artist of our Battle God Battalion, you deserve to enjoy these benefits. It’s not only our Battle God Battalion. The other organizations are the same. Experts are respected no matter where they go.”

Ji Yaoyue smiled and waved her hand.

“Oh, right, after your break, there’s a place you have to go with me. Get ready and don’t slack off. See you later.”

After Ji Yaoyue finished speaking, she directly cut off the communication. This woman really made Zhou Hao speechless. She was so rushed with her words that he did not even have the chance to interject.

However, Zhou Hao did not care. At this moment, he returned home and was immediately shocked.

This was because he saw that the chief inspector, inspector, and special envoy of Jiangnan Base were all here!

Xu Ling was among them!

Zhou Hao had a confused expression. Before he could speak, Chief Inspector Ling Zitao hurriedly walked over.

“Jiangnan District’s chief inspector, Lin Zitao, greets the general!”

The other special envoys were the same. Even Xu Ling saluted Zhou Hao.

Chapter 603 - Spirit Gem

Chapter 603: Spirit Gem

Zhou Hao felt a headache coming on. He was in a daze and could not help but look at them.

“Uh... Senior Lin, what are you doing?”

Ling Zitao hurriedly said, “Senior general, don’t say that. You’re now a Heaven Realm expert and a general of the Battle God Battalion. Your status is noble.”

As Lin Zitao was filled with reverence and respect, Zhou Hao asked curiously.

“You don’t have to... Um... What’s the reason for Senior Lin’s arrival...?”

Zhou Hao asked curiously.

“The higher-ups have already given the order. Senior Zhou, I came to arrange your residence with your family.”

Not far away, Xu Ling also smiled at Zhou Hao with pride in her eyes.

“I see... Did Mr. Sun arrange it?” Zhou Hao asked.

“That’s right. It was officially arranged by General Sun.”

At this moment, Zhou Xueguo and Wang Shuyun walked out. There were also a large group of neighbors and friends. They were all looking at Zhou Hao with joy.

“Son... you... have already become a general...”

Zhou Xueguo did not know what to say. In the beginning, he did not know what a general was. Fortunately, someone knew and explained. Only then did he understand that his son was actually so promising.

“Uh... I just became one today.” Zhou Hao scratched his head, feeling a little embarrassed.

Updates by . com

“Uncle, auntie, we have already prepared a new residence for you. In the future, you will live in the Star River International Residence. That is the residence built for the families of the Battle God Battalion experts. It is protected by master-level martial artists and supernatural experts for four hours a day. It is very safe and the organization has sent me to pick you up.”

Lin Zitao hurriedly said.

“Ah... Star River International...!”

When the old couple heard this, they were shocked. What kind of place was that? It was fine if Zhou Hao did not know, but they knew!

That was a super luxurious residential area. Ordinary people were not allowed to live there at all. Even the president of the Qu City's Martial Artist Association was not qualified to live there.

"Ya, Star River International, this is a good place. Old Wang, you're different now. You have a good son!"

"This is no ordinary place. Old Wang, I'm so envious!"

When the other neighbors heard this, they were moved and looked at Zhou Hao enviously.

Zhou Hao did not know what to do either. He looked at his parents and said, "Dad, Mom, should we pack our things and go there?"

"Good, good, good..."

Of course, he was happy to be able to live in a good place. Zhou Xueguo hurriedly packed with his wife. Seeing this, Xu Ling immediately followed and helped them pack.

When Zhou Hao saw this, he immediately smiled. He could not help but lean closer to Xu Ling's ear and smile. "Ah... you're already helping your in-laws do housework?"

When Xu Ling heard this, her ears turned red as she glared at him. "Go, you're not needed here. Don't get in the way!"

Zhou Hao immediately smiled.

"Zhou Hao's room has been messy ever since he was young. He doesn't even clean his room properly. I'll have to trouble you in the future. However, if he bullies you, tell me. I'll definitely beat him up."

Wang Shuyun also smiled and walked over to Xu Ling.

Seeing this, Zhou Hao was very happy. Xu Ling's face was red, but her eyes were indeed brimming with happiness.

Zhou Hao was a little surprised when he arrived at their residence in the Star River International Residence.

The house they were given was a huge villa, very, very large. There was an independent courtyard and even a swimming pool in the courtyard. It was simply luxurious!

However, these were nothing to a Heaven Realm expert. In fact, such a house was not even as valuable as the few Supreme Energy Bars Zhou Hao had.

However, for his parents, this was already very valuable.

Seeing that his parents were very happy, Zhou Hao also felt that what he had done was worth it.

At night, Zhou Hao and Xu Ling were still strolling on the street. Zhou Hao took out a small backpack that contained a million Supreme Energy Bars.

“Don’t let anyone know about this. Keep it for cultivation. I still have more. I think it’s enough for you to cultivate to the quasi Heaven Realm.”

Xu Ling took it and looked at it. She was immediately shocked. She hurriedly said, “No... I can’t take it. You’re working very hard in the Battle God Battalion. These resources must be very precious. You should keep them for yourself.”

Zhou Hao smiled. “These things are not very useful to me. They’re even insignificant.”

Zhou Hao was telling the truth. He was now a Heaven Realm expert, and this Supreme Energy Bar was indeed not very useful to him. Absorbing 10,000 of them could only help him recover a little essence energy. With only 10,000 of these, he was simply unable to condense an essence energy crystal.

When Xu Ling heard this, she hesitated for a moment and accepted it.

“The difference between you and me is getting greater and greater now, but hehe, I won’t be discouraged. Back in school, you were ranked at the bottom and I was ranked first in my class. I’m very displeased that you surpassed me. Just you wait, I’ll surpass you sooner or later!”

Xu Ling pouted cutely. She looked very cute.

“Yes, yes, yes, my little grandaunt.”

After fooling around with Xu Ling for a while, he sent her back. After that, Zhou Hao also returned home.

Half of his break had already passed. Although Zhou Hao had been relatively happy these days, his cultivation had not fallen behind. He insisted on cultivating the Ancestral Physique every day.

The strength of the Ancestral Physique lay in the fact that it could constantly change one’s physique. It had to be known that a person’s physique was very difficult to change. No matter how powerful a technique was, it could not be constantly improved.

However, the Ancestral Physique could do this.

“The Ancestral Physique is indeed extraordinary. It’s very difficult to imagine who created it!”

Zhou Hao was very shocked. He could sense that after he broke through to the Heaven Realm, his Ancestral Physique had become even stronger!

It was not only his destructive ability that had improved, but also his defense and recovery ability!

Zhou Hao still had the Universe Origin Wood in his body that constantly provided essence energy, so he also did not need to worry about essence energy.

“Mental strength is very difficult to cultivate, but I have the spirit gem. At this moment, I’ve already broken through to the Heaven Realm. I can now use the spirit gem!”

As Zhou Hao spoke, he closed his eyes and felt the spirit gem in his mind. Zhou Hao took a deep breath and tried to use his mental strength to communicate.

The spirit gem originally did not have any reaction when Zhou Hao was at the quasi Heaven Realm and was like an ordinary stone. However, after breaking through to the Heaven Realm, Zhou Hao could sense the strength it constantly emitted!

Perhaps it had always been releasing this strength. However, because his cultivation was not high enough, he was unable to sense it!

Zhou Hao’s mental strength slowly approached it. Suddenly, a suction force came from the spirit gem. Zhou Hao’s expression changed. Before he could react, this thing absorbed his mental strength.

In the next second, Zhou Hao appeared in a strange space!

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 604 - A Fraud

Chapter 604: A Fraud

In this strange space, Zhou Hao was immediately stunned when he arrived.

This place was like an endless sea. In this sea, there were strange symbols everywhere!

These symbols were all Genesis Rune symbols with strange power.

Zhou Hao looked at these runes and had a feeling that he could use the power of Genesis Runes at will!

“This spirit gem can give birth to the power of Genesis Runes!”

Zhou Hao took a deep breath and was shocked. At this moment, he released his mental strength and connected with the spirit gem. He immediately felt an intimate smell transmitted from the spirit gem!

In the next second, Zhou Hao felt a strange power emit from the gem.

Zhou Hao suddenly opened his eyes and retracted his mental strength from the spirit gem. Then, he stretched out his hand, and his mental strength suddenly erupted. Although he could not see it with the naked eye, Zhou Hao could clearly sense how powerful this strength was!

“Too powerful...”

Zhou Hao drew a cold breath!

“As long as you have the spirit gem, you will be able to unleash any mental strength move. This thing is like a cheat. Even if you couldn't do something at first, with it around, you will be able to do it!”

Zhou Hao smiled and hurriedly took out the eighty-one Saint Realm cultivation techniques he had obtained from the mental world!

One of them was a mental strength technique!

This cultivation technique was called the Endless Cage!

Updates by . com

It was an illusionary technique, but it was different from other illusionary techniques. The other illusions were all fake and focused on tormenting the mind.

However, the Endless Cage was not fake. It was real!

That was a dimensional space. By learning this technique, one could obtain a domain in the dimensional space!

In this domain, the caster was the master!

Through the introduction, Zhou Hao learned that the cultivation technique Endless Cage was not a foundational technique of the large sects. Instead, it was a technique refined by the Ancient Imperial City's prison director!

This technique was specially used to torture criminals. In the endless purgatory, no one could persist!

Zhou Hao smiled. This thing was really suitable for him!

"My physical body is invincible, and my mental strength is also invincible. I'm perfect for this both inside and out!"

Zhou Hao was very happy. Then, he began to cultivate the technique of the Endless Cage.

With Zhou Hao's mental strength, it was still a little difficult for him to learn this technique. Fortunately, with the spirit gem and the support of his mental strength, Zhou Hao could learn this technique easily!

"Endless Cage!"

Zhou Hao waved his hand and a strange power immediately erupted. Then, Zhou Hao could clearly sense a space that was within his control appearing in his mental strength!

Zhou Hao closed his eyes and entered the dark cage in the next second.

Zhou Hao waved his hand, and a flame rose and lit up the place. Here, Zhou Hao was the heavens. As long as the other party's mental strength was not powerful enough, Zhou Hao could torture them as he pleased!

"It's a good spell technique, but it's a little... cruel!"

Zhou Hao curled his lips, but he still liked it!

With this technique around, he could use this technique if he couldn't defeat the other party. With the support of the spirit gem, he really did not believe that many martial artists could defeat him!

Zhou Hao put it away in satisfaction. Then, he thought for a moment and entered the Heaven Dao software.

Just as he entered, Zhou Hao received a private message.

This private message was sent by Fairy Yue Ling. She had sent him a video of her dancing beautifully.

It had to be said that Fairy Yue Ling was indeed beautiful. Her dance was graceful, her figure was hot, and her appearance was devastatingly beautiful.

After taking a look, Zhou Hao closed the chat box and entered the shop.

During the time that he was not around, many people had also unlocked the shop. Zhou Hao was also a little shocked. It seemed that he was not the only lucky person!

Zhou Hao entered the shop and looked at it briefly. Just like last time, the things inside were the same as before. However, this time, there were a lot of people selling items in the trading area.

Zhou Hao swept his gaze over and was suddenly attracted by a message.

“Fortune Telling! Do you wish to learn your marriage fortune? Luck? Destiny?”

Zhou Hao was immediately dumbfounded. Wasn't this a freaking trading area? How did it become a place where advertisements were distributed? Also, who was this fortune teller?

Wasn't this a freaking fraud?

Zhou Hao was confused. Just as he walked out of the shop, he received a private message from a stranger.

“Do you want to understand the mystery of the universe? Do you want to know the huge secret? Do you want to know the origins of life? As long as you pay 100 million gold coins, I can tell you everything you want to know!”

This was a person called ‘number one rod in the world’.

Zhou Hao looked at this name and was speechless. Wasn't this a scam?

How could this guy still contact him? Could it be because he had seen his transaction order?

Zhou Hao was speechless and depressed. Without saying a word, he closed the chat box.

However, at this moment, the chat box popped up with a message from ‘number one rod in the world’.

“Friend, let me read your fortune. I guarantee you’ll be satisfied. Otherwise, how about this? If it’s not accurate, you can ask for your money back.”

Zhou Hao frowned. This person was really annoying. Just as he was about to close the chat box, the other party sent another message. Zhou Hao looked over and his expression changed.

“Friend, you have the gem and have cultivated the Ancestral Physique. Your talent is extraordinary. I can tell at a glance that you’re not lacking in money. It’s just 100 million. Isn’t that nothing to you?”

“Moreover, I’ve said it before. If it’s not accurate, It’s free!”

Zhou Hao was not interested in what the other party was saying. Instead, he was surprised that the other party knew that he had a gem to help him cultivate the Ancestral Physique!

Even his own parents did not know about this. How did this guy know?!

Could the other party be monitoring him?

As Zhou Hao was shocked, he thought for a moment and replied.

“Come to my private space. I’ve given you permission to enter.”

Zhou Hao wanted to see what this guy was like!

“Alright!”

Soon, he received a reply.

Zhou Hao also returned to his private space. Not long after, a light flashed and he saw a person in fancy clothes walk in.

This person was wearing a mask and was smiling. He looked quite pleasing.

“Hehe, sir, look at you. What do you want to know?”

As soon as that person entered, he chuckled and hurriedly said.

Zhou Hao looked at him and narrowed his eyes as he asked directly.

“I want to know why you know my secret. Who are you?”

Zhou Hao went straight to the point and immediately asked.

The person smiled when he heard this.

“Sir, this is a secret. However, don’t worry. Even if I know this, I won’t tell anyone. After all, it won’t be beneficial for me to tell anyone.”

“Not beneficial? Hmph, the spirit gem is incomparably precious. If you leak this news, I’m afraid countless people will come to kill me for the treasure!!” Zhou Hao immediately snorted.

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 605 - Secret

Chapter 605: Secret

Zhou Hao was not lying. If others really knew, they might attack him. The preciousness of the spirit gem was beyond one’s imagination!

In fact, even Ji Yaoyue and the others on Planet Earth might not know what the use of this spirit gem was!

After all, the secret Huang had left behind had only been passed on to the Genesis Rune Master!

It could even be said that he was the only one who knew.

They only knew that this spirit gem was very powerful and they only treated it as a powerful treasure!

That person smiled even more happily.

“Friend, don’t be nervous. I don’t have any ill intentions. I know that you cultivated the Ancestral Physique and that you have a spirit gem. I didn’t learn about this through my fortune telling. I learned it through other channels!”

“You have to know that the myriad universes are beyond your imagination. Countless organizations, countless corporations, and countless sects have the ability to monitor the extraordinary strength in this universe.”

“For example, in our Heaven Secret Sect, there is a compass that shows this information. It revealed to me that the spirit gem and the Ancestral Physique are owned by the same person.”

The person’s words stunned Zhou Hao completely. He did not expect someone to be monitoring this matter.

Moreover, how were they supposed to monitor him?

Could he have installed surveillance equipment on him?

Clearly, this was impossible!

“Sir, although no one knows where you are or who you are, I can guess from your recent actions that you have obtained the Ancestral Physique.”

Updates by . com

“Moreover, since the Ancestral Physique and the spirit gem are controlled by the same person. Needless to say, the spirit gem is also with you. I wonder if you can believe me when I say this.”

This person said it very sincerely, but Zhou Hao was really a little shocked and could not accept it!

How many powerful figures were there in this universe that could actually monitor all of this?

“I don’t believe you. You’re only doing this to earn money. 100 million is nothing to me, but it’s probably nothing to you. I want to know what you’re planning!”

Zhou Hao narrowed his eyes, somewhat suspicious of the other party’s motive!

Was he deliberately trying to get close to him? For the sake of the gem?

Or did he just want to earn money?

Between the two, Zhou Hao was more leaning towards the former!

“Haha, sir, I indeed want to earn money. At the same time, I also want to befriend you. It has to be known that once a person with a spirit gem and an Ancestral Physique matures, he will at least be a star-level overlord. Although you’re far from reaching that level now, I believe you will eventually.”

“Therefore, for my sake, for the sake of the Heaven Secret Sect, why shouldn’t I befriend someone like you?”

Zhou Hao was somewhat convinced by that person's straightforwardness.

However, Zhou Hao was not a fool. He could not tell if this person was really as he said or was just trying to get close to him to find him and snatch the spirit gem.

"Although what you said is very pleasant to the ear, I still don't believe you. Didn't you say that you could tell my fortune? Then tell me where I am."

Zhou Hao said directly.

That person sighed and naturally understood that Zhou Hao was still wary of him. Therefore, he did not think much of it and said indifferently.

"Alright, let me give it a try then. However, my calculations might not be accurate. I'll tell you the results in three days. Goodbye."

After saying this, the person left.

Zhou Hao watched him leave with a heavy heart.

He did not stay in the Heaven Dao software and returned to the real world.

His heart was heavy. There were actually other people in the universe that knew about his matter!

How were they able to monitor these things?

Zhou Hao did not know, but he believed that someone knew!

"Frog, I want to know what kind of organization the Heaven Secret Sect is in the universe!"

Zhou Hao called the frog out and immediately asked.

"Heaven Secret Sect? You actually know about it?"

When the frog heard this, it was stunned for a moment.

"Yes, what do you know? Can you tell me?" Zhou Hao said.

The frog did not care and said casually, "The Heaven Secret Sect is an extremely ancient sect in the universe. They can be considered a special race and are born with the ability to sense the will of the universe. They also know some fortune telling techniques."

“The Heaven Secret Sect can be considered a supernatural organization. They don’t like war and only like to spy on others’ secrets. However, they have some principles and won’t spread rumors. However, many people are still worried about them. Therefore, many factions in the universe want to uproot them.”

“For thousands of years, the Heaven Secret Sect has been hiding everywhere. Now... it’s probably difficult for it to survive. Why are you suddenly asking this?”

The frog’s words immediately made Zhou Hao understand what it meant!

It was true that the other party had intentionally approached him, but it did not seem as if the other party wanted to steal his spirit gem. Although Zhou Hao did not know who the other party was, based on what the frog said, the other party probably did not care about the spirit gem. Instead, the other party probably wanted to keep his home from getting destroyed.

Zhou Hao was a person who had just obtained the spirit gem and the Ancestral Physique. His future was limitless. The other party wanted to befriend him when he was weak. In the future, when he was stronger, the other party could also rely on him.

His thoughts were not bad, but Zhou Hao was also a little disgusted by such people who tried to pry into other people’s secrets!

“By the way, are there any ways to spy on the spirit gem in the universe?” Zhou Hao immediately asked.

“Of course. It’s not like the spirit gem has never appeared before. It’s not just the spirit gem. In fact, the other gems can be monitored too. They’ve long been able to capture the fluctuations of the gems and analyze them. That’s why they knew that the gem had appeared.”

“Therefore, almost everyone knows that you have the gem now. However, you don’t have to worry. They only know that you have it and don’t know where you are at all. If any faction really had the ability, they would have long come for you.”

The frog’s words made Zhou Hao heave a sigh of relief. It was fine if they knew. It was fine as long as they did not know it was him!

The reason why that fraud was able to guess this was probably because of the things Zhou Hao had recently bought. Be it the gifts in the live-stream, the main things he bought were used to temper one’s body.

In fact, when he cultivated the God Slaying Art and the Nine Revolutions Overlord Body Art, he wasn’t sure if those tempering fluids could properly temper his body. He was really lucky to have guessed correctly.

The other reason was that he had been too careless and panicked after being exposed.

Of course, this did not matter. Even if the other party knew that it was him, he would not be able to find him.

Zhou Hao was no longer worried about this matter. However, at this moment, the communication device the Silver Bone Bear King gave him lit up, making Zhou Hao smile.

“Has the other party finally been successfully lured out? How awesome!”

Chapter 606 - Battle

Chapter 606: Battle

Zhou Hao smiled and was very happy. As long as the Hundred Feet Worm King was lured out, things would be easy!

Now that he had broken through to the Heaven Realm, he still did not care about a mere Hundred Feet Worm King. The only thing he cared about was the Thousand Feather Armor!

This item was very powerful and could block a Heaven Realm attack. In addition, the Hundred Feet Worm King's cultivation was extraordinary, so it was definitely significantly more powerful!

Zhou Hao's body moved and had already disappeared from the room. He looked at his location and directly arrived in the twelfth spatial rift.

At this moment, several large wounds had been opened on the Silver Bone Bear King's body. Blood flowed down, and even its bones were visible!

“Damn, why haven't you come over yet? If you don't come soon, I'll be dead!”

The Silver Bone Bear King grinned. This time, in order to completely lure out the Hundred Feet Worm King, it had sacrificed a lot!

Otherwise, it wouldn't have been beaten to such a state. If it couldn't defeat the other party, it would have long admitted defeat and fled. Unlike now, it still wanted to fight despite knowing that it couldn't defeat the other party. It had completely angered the Hundred Feet Worm King and made it chase after him!

"Hmph, Silver Bone Bear King, I originally thought that your newly-advanced Heaven Realm cultivation would be a huge help to my foreign races, but I didn't expect you to actually want to kill me. Do you really think I, the Hundred Feet Worm King, am easy to bully? Today, I'll kill you. I'll use your flesh to let everyone know the outcome of provoking me!"

Behind the Silver Bone Bear King, a huge hundred-meter-long insect wandered over. Its body emitted a green light. Its body was covered in a hard carapace that looked very hard!

Its huge head had more than a hundred hard teeth that emitted a terrifying cold light!

It followed behind the Silver Bone Bear King. Its monstrous cultivation was extremely powerful!

What was most eye-catching was a pair of silver wings that were dozens of meters long on its back. They were extremely sharp and emitted a sharp aura that seemed to be able to pierce through everything!

The injuries on the Silver Bone Bear King were caused by the Thousand Feather Armor!

Updates by

"Hmph, let's see if you can kill me first. Damn, Hundred Feet Worm King, I'll kill you sooner or later and roast you on the fire!"

The Silver Bone Bear King also knew that it had completely fallen out with the Hundred Feet Worm King at this moment. Therefore, it also dared to say what it did not dare to say in the past!

"Good... very good. This is the first time I've heard someone dare to speak to me like this since I was put in charge of these spatial rifts. You won't be able to leave today. Prepare to die!"

The Hundred Feet Worm King's iron-like huge tail swept out directly, sweeping fiercely towards the Silver Bone Bear King not far away.

The huge force seemed to cause a storm. Amid the rushing wind, it directly arrived in front of the Silver Bone Bear King!

The Silver Bone Bear King cursed in a low voice. Immediately, the silver hair on its body flashed, and it punched out fiercely!

However, it had only just advanced to the Heaven Realm and was still far from the Hundred Feet Worm King's level!

"Hmph, you're courting death!"

The Hundred Feet Worm King snorted with disdain. Its huge tail seemed to be able to shatter the mountains and rivers. With a bang, it whistled over!

Boom!

A huge bang sounded. The Silver Bone Bear King was no match for it at all. It spat out blood and was directly sent flying!

"Damn, if you don't come soon, I'll really die!"

The Iron Bone Bear King fell heavily to the ground. It bared its teeth and hurriedly stood up to continue escaping.

The Hundred Feet Worm King did not think much of it and chased after it.

At this moment, Zhou Hao had already arrived. From afar, he could see the Hundred Feet Worm chasing and trampling the Iron Bone Bear King.

Zhou Hao narrowed his eyes and could not help but say, "This Hundred Feet Worm King is indeed worthy of being an expert that Heavenly King Zhu is afraid of. Even without the Thousand Feather Armor, Heavenly King Zhu probably still wouldn't be able to break open such a hard carapace!"

Zhou Hao's gaze paused on the cold armor on its body and saw the Thousand Feather Armor on its back.

Seeing this, Zhou Hao immediately smiled.

"It's indeed the Thousand Feather Armor!"

Zhou Hao smiled and left.

The Silver Bone Bear King was immediately excited when it saw Zhou Hao's figure. It hurriedly waved its hand. This scene made the Hundred Feet Worm King's expression change drastically!

"Bastard, you actually dare to work with the humans to deal with me?"

The Hundred Feet Worm King's expression was extremely ugly. It had never expected the situation to be like this.

"That's right. I teamed up with the humans to deal with you. Damn, what's the big deal if I kill you?"

The Silver Bone Bear King had been suffering. However, with Zhou Hao arriving, it became confident!

"Do you guys think you can deal with me on your own?"

The Hundred Feet Worm King was very arrogant. It naturally had the right to be arrogant. As a third-grade Heaven Realm expert, it could fight a fifth-grade human expert.

Zhou Hao had just broken through to the Heaven Realm, and the Silver Bone Bear King was the same. Even if the two of them worked together, they were definitely not its match!

"Is that so? Brother Bear, leave the rest to me. Go rest."

Zhou Hao said indifferently. He wanted to test his strength!

"You want to fight alone? Hmm? Your aura... Damn, did you break through?"

The Silver Bone Bear King was stunned for a moment before its eyes immediately widened in disbelief!

"What? Are you very surprised?" Zhou Hao smiled.

"Hahaha, that's great. Our chances will be even greater now that you've broken through to the Heaven Realm. Hahaha!"

The Silver Bone Bear King was extremely happy. This brat Zhou Hao could already fight itself to a stalemate at the quasi Heaven Realm. If he broke through, wouldn't he be even more powerful? Perhaps he could really resolve the Hundred Feet Worm King!

Zhou Hao looked at the Hundred Feet Worm King and smiled.

"How about we fight one-on-one?"

The Hundred Feet Worm King looked at Zhou Hao disdainfully. "Lowly human, you dare to challenge me?"

"You sure talk a lot of nonsense. So what if I challenge you?"

Zhou Hao sneered. His body moved, and he punched out.

In this punch, he activated the Ancestral Physique and did not use the God Destroying Art or the Nine Revolutions Overlord Body Art!

He wanted to see what combat strength his punch could erupt with!

The Hundred Feet Worm King smiled disdainfully and waved its tail, roaring over.

In his eyes, even a fifth-grade Heaven Realm expert would not dare to receive this attack. A mere Heaven Realm expert who had just advanced wouldn't even think of doing something like this.

Boom!

After a huge bang, the Hundred Feet Worm King's expression changed!

This was because he realized that the strength of its full strength attack did not injure this person at all. Instead, its tail felt numb!

"Is... is this the body of a human? How could it resist my tail?"

The Hundred Feet Worm King was incomparably shocked, its eyes widened.

Zhou Hao rubbed his numb fist and smiled.

"Indeed, it's as I thought!"

With that said, Zhou Hao looked up at the Hundred Feet Worm King. "Hundred Feet Worm King, you're done for today."

"I'm done for? Human brat, I admit that you're very powerful, but if you think you can kill me, then you're wrong. Our combat strengths are similar. At most, we'll be evenly matched. You can't kill me!"

"Moreover, I still have a treasure with me. No matter what, you will die today!"

The Hundred Feet Worm King smiled faintly. Although it was shocked by Zhou Hao's strength, it still did not panic at all.

After all, the pair of wings on its body was so powerful that even the Hundred Feet Worm King was extremely afraid of it!

However, in the next second, its eyes widened and its scalp went numb!

Chapter 607 - Illusion

Chapter 607: Illusion

Zhou Hao looked at the Hundred Feet Worm King and waved his hand, his powerful cultivation directly erupting!

He used the God Destroying Art and the Nine Revolutions Overlord Body Art. As his aura rumbled, the Hundred Feet Worm King also gasped!

Not only that, but Zhou Hao waved his hand, and the same silver armor slowly appeared, enveloping his entire body. Compared to the Hundred Feet Worm King's wings, Zhou Hao's silver armor was even stronger!

"Hundred Feet Worm King, my combat strength is higher than yours. I also have the same treasure. Tell me, do you still think that it's not easy for me to kill you?"

After Zhou Hao finished speaking, the Hundred Feet Worm King's expression changed drastically, and its heart turned cold.

Zhou Hao was right. His combat strength had been multiplied by at least three times. Moreover, he had been able to fight the other party to a draw just now. Now that he had exploded with three times his strength, the other party would not be able to defeat him even if it sacrificed its life!

At this moment, it immediately fell into despair.

On the other hand, the Silver Bone Bear King laughed.

"It's over, you're done for. Hundred Feet Worm King, today is your death anniversary!"

The Hundred Feet Worm King's expression was extremely ugly. It did not expect a human martial artist who had just stepped into the Heaven Realm to be so powerful!

Moreover, he also had the same white armor!

It knew how powerful this thing was. Be it combat strength or defense, they were both shocking!

And now, not only did this human martial artist have the same armor, but the armor he had was also at a higher level than him. Moreover, its own combat strength was far inferior to Zhou Hao's. It knew that it would definitely lose this battle!

Therefore, at this moment, it had already begun to think of a way to escape!

Updates by

"Hundred Feet Worm King, don't even think about it. You can't escape today. In front of absolute strength, all schemes are useless!"

Zhou Hao smiled. His current combat strength was already extraordinary. Moreover, he still had a trump card, the power of Genesis Runes!

The Hundred Feet Worm King was simply unable to resist Zhou Hao's Genesis Rune power through the spirit gem. Its physical body was powerful, but its mental strength was pitifully weak!

As Zhou Hao spoke, his mental strength instantly exploded, and he directly used the Endless Cage!

In an instant, a huge black screen enveloped the Hundred Feet Worm King's nerves, causing it to instantly fall into the cage and enter the illusion!

"What... what powerful mental strength... Not only is his body powerful, but his mental strength is also so powerful. It's over... it's completely over!"

The Hundred Feet Worm King was extremely shocked. At this moment, Zhou Hao's figure slowly appeared in the Endless Cage. With a wave of Zhou Hao's hand, countless chains the size of trees appeared in the darkness and instantly tied the Hundred Feet Worm King up.

"Hundred Feet Worm King, you have to die today, but there are different ways to die. In my world, I can decide how you want to die. Therefore, if you want to die faster and suffer less, answer my question properly. Otherwise, I'll torture you."

Zhou Hao did not have any mercy on it. The two of them were enemies to begin with. Moreover, it was the core figure sent by the foreign races to deal with these spatial rifts. Therefore, killing it would only be beneficial to him!

"Hmph, human brat, you underestimate me. Do you think you can trap me in such an illusion? Although I can't escape, I know that all illusions are fake. You want to use fake illusions to scare me? What a joke!"

The Hundred Feet Worm King was not easy to deal with. It knew illusions very well, so it did not hesitate at all and directly closed its eyes to focus.

Zhou Hao smiled. This technique was a Saint Realm cultivation technique. The other party was only a Heaven Realm expert, so how could it escape the destruction of this cultivation technique?

Moreover, with the support of the spirit gem, it would be unable to resist this illusion no matter what.

“Looks like you won’t act nice until I make you suffer a little!”

Zhou Hao smiled and waved his hand. Immediately, endless wind and frost arrived. This wind and frost was extremely cold, and it directly landed on the Hundred Feet Worm King. In an instant, an absolute cold aura instantly fell. The Hundred Feet Worm King’s body trembled, and its expression instantly turned ugly!

“This illusion is really freaking realistic. However, it’s really laughable that you think that mere ice can make me submit!”

The Hundred Feet Worm King was unmoved. At this moment, although the pain was unbearable, it still endured.

Zhou Hao smiled. He had actually done so much to test whether this Endless Cage was useful or not.

Otherwise, Zhou Hao could have easily killed it with a punch.

Zhou Hao did not care. Then, he waved his hand, and a huge hand condensed in the air. This hand was very powerful. With a finger, Zhou Hao directly grabbed the Hundred Feet Worm King.

Compared to that huge hand, the Hundred Feet Worm King no longer seemed that huge!

Zhou Hao moved lightly, and the hand grabbed one of its legs and instantly tore it off. The huge pain made the Hundred Feet Worm King’s body tremble. It roared, but it still did not care.

Zhou Hao smiled and ignored it. With a wave of his fingers, legs were torn off one after another.

Every leg represented a heart-piercing pain.

In the end, Zhou Hao was shocked. This Hundred Feet Worm King was indeed worthy of being a big shot. It was so tolerant of pain.

However, Zhou Hao was not in a hurry. After breaking its legs, Zhou Hao began to use the big hand to trample its body.

The huge hand was very powerful as it grabbed its skin and pulled it up fiercely.

The Hundred Feet Worm King's skin was its strongest weapon, but under the tearing of this huge hand, the skin was instantly torn apart.

The Hundred Feet Worm King was covered in sweat. The huge pain made it absent-minded, but it still gritted its teeth and did not say a word!

Zhou Hao could not be bothered. In any case, he had plenty of time to torture it.

After removing its entire skin, this Hundred Feet Worm King still persisted. Zhou Hao gradually lost his patience and was very helpless.

"Looks like you really have some ability. However, Hundred Feet Worm King, do you think that everything that happened in this illusion will disappear once you return to the real world?"

"Alright, I'll bring you out of the illusion."

As Zhou Hao spoke, he unlocked the Endless Cage. The Hundred Feet Worm King's mental strength instantly returned to its main body.

It checked its body and did not discover anything abnormal. However, it was shocked to discover that although its limbs were not broken, they were all severely injured. Especially its legs. Every one of them had a fracture. And although its skin was not ripped off, countless wounds still appeared!

"This..."

It gasped in shock.

"Half of my illusion is real and the other half is fake. As long as I want, I can make all of it real. I can easily break your legs and cut your skin. However, it's still a little difficult for me to tear off all of your skin. However... Hundred Feet Worm King, even so, it's still easy for me to deal with you."

Zhou Hao stood with his hands behind his back and looked at the other party indifferently. He was very relaxed, but this expression shocked the Hundred Feet Worm King!

Chapter 608 - Control

Chapter 608: Control

The Hundred Feet Worm King organized its thoughts. Be it the mental strength or combat strength of the person in front of it, they were not something it could compare to. At this moment, it was already severely injured in the illusion. It was extremely frightened. If this continued, it would definitely die!

“Human, I can agree to all your conditions, but you have to let me live. Moreover, I can guarantee that I will never go against the humans in my life!”

The Hundred Feet Worm King was really afraid at this moment. Nothing was more important than its life!

“Hehe, wouldn’t it have been fine if you had said so earlier?”

Zhou Hao smiled and said, “I want to know how many Heaven Realm beasts you’ve planted in the spatial rift? How’s the combat strength of the foreign race compared to the human race? Also, do you have any trump cards?”

In fact, Zhou Hao did not ask much. This was because he did not know much about the foreign races to begin with. Much of the information was classified information. Or rather, the humans really did not know much about the foreign races. They were only defending passively.

Therefore, after thinking for a long time, Zhou Hao only had these questions.

“Every three spatial rifts has a Heaven Realm expert holding down the fort. There are many foreign races in our Foreign Race Alliance. Even I don’t know how many there are. Our strength should be comparable to yours. Otherwise, we would have long unified Planet Earth. As for the trump card you’re talking about, I don’t know yet. My status is not that high and I haven’t come into contact with the core secrets.”

Zhou Hao did not speculate too much about this answer. After all, the other party’s identity was not that high and there was a limit to what it knew.

“Alright, let me ask you. How many Saint Realm experts are there in your Foreign Race Alliance? Are there any above the Saint Realm?” Zhou Hao immediately said.

“There are a total of three Saint Realm experts that I know of. Other than these three, there doesn’t seem to be anyone else. These three manage the foreign races together. One of them is the commander of the Machine Race. No one has ever seen its true

appearance. It has always showed itself virtually, but everyone knows that it's a Saint Realm expert."

"The second Saint Realm expert is from the Heaven Demon Race. This race has lived for a long time and was not born from mutation at all. Instead, they were left behind from the ancient times. They are very similar to humans and have very strong talent. Their commander is a Saint Realm expert."

"The last one... seems to be a human cultivator. We all call him High Priest. He wears a mask and a black robe. No one has seen what he looks like, but his Saint Realm cultivation is definitely not bad. As for why I said he's a human, that's only hearsay. I naturally can't verify this."

The Hundred Feet Worm King cooperated and revealed everything.

Updates by

Zhou Hao was very satisfied. "I see..."

The three Saint Realm experts were very powerful, but the humans definitely had at least three Saint Realm experts.

In fact, they even had experts that were far above the Saint Realm!

Other than the spatial rift, there was also the Underground World, the Sky City, and the Endless Sea Region. There were powerful mutated beasts there.

Therefore, the mutated beasts behind the spatial rifts alone were not enough to destroy the humans.

Zhou Hao nodded. "Give me your wings."

As he spoke, Zhou Hao stretched out his hand.

The Hundred Feet Worm King did not hesitate and immediately took off its wings and threw them to Zhou Hao.

When Zhou Hao received this item, he immediately felt a sense of compatibility. However, he had no way of fusing it. He still had to rely on Thousand Feather Armor.

"I'll spare your life, but I still don't believe you. In order for me to believe you, I will give you the Beast Control Ring. If you agree, then, it will be a happy ending. If you don't agree, I'll cripple all your cultivation. Choose!"

Zhou Hao immediately said, making the Hundred Feet Worm King stunned.

“Beast Control Ring?”

It did not understand this thing at all, but it could tell that this thing could control it?

It wanted to refuse, but when it heard Zhou Hao’s second sentence, its expression immediately turned ugly.

If it did not cooperate, its cultivation would be seized!

How could it tolerate this?

“Although the Beast Control Ring this guy is talking about sounds terrifying, I’ve never heard of it. I don’t believe this thing can control a Heaven Realm expert like me. Moreover, the technology of our foreign races is not inferior to that of humans. When the time comes, I’ll let the Machine Race experts think of a solution. We should be able to get it off!”

The Hundred Feet Worm King instantly thought of this. It looked at Zhou Hao and nodded.

“Alright, I’ll wear the Beast Control Ring.”

Zhou Hao nodded. He could buy this in the shop. He had bought more than ten at once, just to keep them for backup.

At this moment, he took out one and put it on.

“Don’t resist, or you’ll die.”

After Zhou Hao said this, he imprisoned it in the other party’s body.

In an instant, Zhou Hao gained absolute control.

It was not only the Hundred Feet Worm King. The Lion King was the same.

However, that Lion King’s cultivation level was too low and it was already dead. Zhou Hao could not be bothered with it. Instead, he was filled with anticipation for the Hundred Feet Worm King.

This was a Heaven Realm expert. With it around, he would have some methods to explore the territory of the foreign races in the future.

“Don’t try to get this thing down because you can’t. Also, I have absolute control over you and you can’t resist. Now, kneel.”

Zhou Hao smiled and immediately spoke. Immediately, when the strange fluctuation emitted, the Hundred Feet Worm King's body froze. Its bloodline and spirit suddenly forced it to obey Zhou Hao. It was shocked.

It did not hesitate and immediately knelt down. This scene shocked not only the Hundred Feet Worm King, but also the Silver Bone Bear King.

"Damn, my goodness, this brat is too ferocious. He took down the Hundred Feet Worm King just like that?"

It was shocked and looked at Zhou Hao with endless reverence and fear.

This brat's combat strength was extraordinary and he even had such an ability. If it really fought him, what could it do other than die?

The Hundred Feet Worm King was shocked. At this moment, although it was a little unwilling, it was shocked to discover that its body was actually uncontrollable. In fact, even if its spirit was unwilling to obey, it did not show too much resistance!

This feeling frightened it!

"This Beast Control Ring controls not only my body, but also my spirit. Although I can still maintain a trace of rationality and willpower, as time passes, it will definitely control me!"

It was extremely frightened, but Zhou Hao also smiled.

"I already said that I'll control you. Don't think of going against me. Otherwise, it'll be easy for me to kill you!"

As Zhou Hao spoke, with a thought, the Beast Control Ring immediately emitted a powerful force that directly attacked its mental strength. In just a moment, the Hundred Feet Worm King spat out blood!

It looked at Zhou Hao in fear. At this moment, all of its malicious thoughts were burned!
