Chapter 701 - Devour

Chapter 701: Devour

Zhou Hao slowly opened his eyes and realized that he was in a gray world. His surroundings seemed to be empty and he could not see anything else.

“Where... is this?”

Zhou Hao had a puzzled expression. He looked around and saw that there was still a gray fog. It was so thick that he could not see any light around.

“This is the mental world of the void beast.”

The frog took off its sunglasses and wiped them before putting them back on.

It flicked its sleeve and reminded carefully, “You have to be careful. Since this is the mental world of the void beast, it can control everything!”

“You might not be his match. In my opinion, we should think of a way to quickly escape!”

As soon as the frog finished speaking, before it could say another word!

Zhou Hao felt a violent trembling sound under his feet!

In the next moment, a ten-meter-long tentacle instantly rose from the ground!

The power of this tentacle was very powerful, and it immediately shook the entire space!

Zhou Hao could not stand steadily, but he still tried his best to straighten his body and looked around vigilantly.

Soon, Zhou Hao saw that this huge tentacle was actually smashing fiercely towards him!

you are reading on our content copy site. Please copy and search this link "
<https://bit.ly/3NSnQtR> " to support us

Zhou Hao flew up and quickly dodged. However, the void beast's tentacles were long and fast, so a large portion of Zhou Hao's clothes was still shattered!

Perhaps the void beast felt that its attack level was a little slow, so its huge tentacles retracted. This time, countless vines quickly crawled on the ground and arrived at Zhou Hao's feet!

Seeing this, Zhou Hao immediately frowned!

Indeed, in the mental world of the void beast, everything was ruled by it!

It could casually change into any shape to deal with him, but he was helpless against it!

Countless vines had already arrived at Zhou Hao's feet.

Zhou Hao quickly flew up and shook off the attacks of these vines.

The few vines did not give up. Instead, they quickly coiled together and rose from the ground, quickly chasing after Zhou Hao!

"Damn it!"

Zhou Hao was imprisoned here and could not use anything at all. In addition, his own strength was not as great as the void beast, so it was very difficult for him to compete with it!

As Zhou Hao quickly dodged forward, he was quickly thinking about what he should do to defeat this damn void beast!

Seeing that the vines were growing at a visible speed, Zhou Hao's expression also became extremely anxious.

Before he could speed up, he felt his feet being wrapped by the vines!

Indeed, in the mental world of the void beast, the void beast was the strongest entity in this world. No one could compare to its strength!

Zhou Hao's reaction was not bad either. The moment he was wrapped by the vines, he immediately took out the dagger at his waist and was about to slash at the vines!

However, even when the dagger pierced the vines, these vines did not have the intention to retreat at all. Instead, they grew faster and faster!

At this rate, it seemed that this vine wanted to wrap him into a cocoon!

If he was really wrapped by the vines, he would be crippled!

He would either explode from the vines, bleed from his seven apertures, or suffocate to death!

He did not want any of these things to happen/

In a hurry, Zhou Hao took out a lighter from his pocket and burned the vines.

After the branches of the vines were lit, countless raging flames spread over and directly burned the entire vine!

The vine suddenly let out a strange roar before quickly shrinking back.

Seeing that this method was effective, Zhou Hao suddenly heaved a sigh of relief.

However, before he could relax, he saw countless mechanical arms that were like pincers attack again!

When Zhou Hao saw this, he was immediately stunned!

His eyes were filled with disbelief as he looked at the mechanical arms. He did not expect the head of this void beast to react so quickly.

It actually knew how to deal with situations like this?

The vine just now had probably been frightened away by his needles and fire. Therefore, the void beast now used a new set of “equipment” to continue fighting him!

Zhou Hao looked at these mechanical arms vigilantly. These mechanical arms were the most difficult to deal with.

They were invulnerable, but their attack power was also extremely powerful!

It would be terrible if he was accidentally injured by them!

The cold sweat on Zhou Hao’s forehead fell drop by drop. He held his breath and immediately got up to charge at the void beast again!

Unexpectedly, before he could approach the void beast, Zhou Hao’s throat was instantly grabbed by the mechanical arm in the void beast’s hand!

“Wu, cough cough...”

Zhou Hao coughed with difficulty and struggled with all his might, but it was useless!

He felt that his breathing was about to become weaker and weaker. He could clearly sense that the void beast seemed to want to devour him!

Seeing that his body was gradually becoming transparent, Zhou Hao was anxious and uneasy!

At this critical moment, Zhou Hao's body suddenly emitted a dazzling light!

This light slowly surrounded his body.

Zhou Hao instantly felt a warm feeling envelop his body.

He tried his best to calm down before closing his eyes tightly and activating the power of the Genesis Rune!

The moment the power of the Genesis Rune erupted, light instantly enveloped the surroundings!

The void beast suddenly looked up and roared. It subconsciously stretched out its claw, wanting to SMASH Zhou Hao to death!

At this critical moment, a huge force quickly spread out from Zhou Hao's body!

That was the power of the spirit gem!

Before the void beast could react, it was instantly blasted into pieces!

At the same time, the void beast whose mental strength had been defeated finally could not withstand the huge pressure. It roared and fell asleep!

Because Zhou Hao had consumed too much Genesis Rune power, he had also fallen asleep!

At this moment, the world returned to calm.

Chapter 702 - Recovery

Chapter 702: Recovery

No one knew what had happened. Everyone looked at the points of light on the device and fell silent. This was because all the points of light had disappeared!

"No signs of life? Is he dead?"

“The void beast is gone, and so is Captain Zhou. Could it be that... they’re all dead?”

They looked at the screen in disbelief!

They looked at the screen nervously because they knew that the void beast was very powerful. Even ten half-step Saint Realm experts were unable to kill it. And now, Zhou Hao and the others were actually able to die together with it?

They did not dare to think about this.

Slowly, ten minutes passed, and everyone began to tremble.

“Is he really dead?”

“Quickly send experts to take a look!”

Be it all the martial artists or the military troops, they directly dived into the bottom of the sea. In the abyss, they saw the huge void beast’s body. It was motionless and did not have any life force!

“Dead, is it really dead?”

They were all shocked!

When the news spread, everyone was shocked!

you are reading on our content copy site. Please copy and search this link "
<https://bit.ly/3NSnQtR> " to support us

“We won, we won!”

“Zhou Hao, the ten Heaven Realm experts, Ji Yaoyue, and the other nine half-step Saint Realm experts are all heroes! The twenty-one of them are all heroes of Planet Earth!”

“That’s right. It’s all thanks to them that our Planet Earth is safe and sound!”

“They’re heroes, our true heroes!”

Everyone was extremely excited. Now that the crisis had been resolved, they had completely experienced what it felt like to be alive after death!

Of course, some were happy and some were sad.

At this moment, in the Battle God Battalion of Qu City, everyone looked at the huge stone statue in front of them and revealed sad expressions. At the front was an old couple, and beside them was a young girl.

The old couple was Zhou Xueguo and Wang Shuyun. Zhou Xueguo's eyes were red as he tried his best not to cry. On the other hand, Wang Shuyun had long been sobbing.

Although her son had sacrificed his life for Planet Earth and was a hero, she still could not accept it.

"Son, why have you left us just like that? You're not married yet... I haven't even had a grandchild..."

Wang Shuyun cried very sadly, and so did Xu Ling. Her tears had long dried up. She looked at Zhou Hao's statue and tried her best not to cry.

"Zhou Hao, you said that you wanted me to be your wife. You haven't fulfilled your promise..."

Xu Ling thought to herself, but her eyes were filled with pride because Zhou Hao was her man!

Yun Yan, Zhang Yi, and the others were here. The four Su sisters were here. Sun Yue was also here. It was the same for Luo Li and the others.

They were also very sad when they saw Zhou Hao's statue. Their former comrades and friends had died in the deep sea, so they were naturally sad.

"Little brat, why did you leave just like that?!"

Zhang Yi was the most touched. Zhou Hao and he were the best brothers. The two of them had been together since high school. In the past, they were two friends who could talk about anything.

"In the beginning, I was the one who protected you. Later on, when you stepped into the world of martial artists, you protected me. However, you have only recently become powerful. I had yet to rely on your reputation to show off... But you're already gone!" Zhang Yi looked at Zhou Hao's statue and cried.

Yuan Cheng, Yun Yan, and the others were the same. They were all from the elite team and were all comrades. The scenes from the past appeared in front of them. What happened back then had become their most precious memories!

Everyone thought that Zhou Hao was dead, but at this moment, in the mental world of the void beast, Zhou Hao slowly opened his eyes.

“I... I’m not dead yet?”

He clearly remembered that he was about to be absorbed. Then, after the spirit gem emitted a dazzling light, he fell asleep.

“You’re awake?”

At this moment, the frog’s consciousness appeared in Zhou Hao’s mind.

“Frog? What’s wrong with me? I’m not dead. Where’s the void beast?”

Zhou Hao hurriedly said!

He was still most worried about the void beast. After all, if this guy was still alive, it would be an extremely dangerous matter for Planet Earth.

“Hai, you brat, you’re really blessed. This spirit gem actually has a protective function. I really didn’t know!”

The frog’s sudden words stunned Zhou Hao.

“What’s going on?” Zhou Hao hurriedly said.

“It’s actually very complicated, but let me tell you briefly. At the critical moment, the spirit gem protected its master and devoured the void beast’s mental strength, turning it into a part of your mental strength. And now, you’re the void beast. The void beast is you. Do you understand?”

The frog’s sudden words made Zhou Hao’s head buzz. He did not understand.

“What did you say? I’ve become a void beast. What... what should I do? I don’t want this big body. I don’t want to be treated as an anomaly!”

If he jumped out, they would think that the void beast had revived. Wouldn’t they want to kill him?

“You’re really stupid. You’re now a void beast and can control your size. You can leave at any time. However, I advise you not to do this because the people on Planet Earth have long sealed this place. You can sense it.”

After the frog finished speaking, Zhou Hao felt a huge magnetic field around him. Clearly, this place had been sealed.

“Then what should we do?” Zhou Hao did not want to scare the others.

“It’s very simple. Leave a fake body behind. Moreover, this planet is not suitable for the void beast at all. It’s still unable to cross the starry sky now, but you’re different. You have the Luo God Warship. Let’s go to the moon first and settle down. After that, you can completely control this body on the moon and condense your original human clone. Then, you can return to Planet Earth.”

The frog spoke at this moment, making Zhou Hao nod.

“You’re right. I haven’t adapted to this body yet. On this Earth, I indeed can’t fluctuate too much. Otherwise, if I’m discovered, I’ll be destroyed.”

Zhou Hao said directly. Then, he slowly controlled this body, leaving behind a useless shell. His original body shrank into a speck of dust and floated out.

“Let’s go to the moon first and summon the Luo God Warship. Remember, let it activate the hidden function. Otherwise, if the Luo God Warship is seen to be moving around after you die, it will also attract the attention of others.”

The frog smiled and said. It was simply overjoyed to see Zhou Hao return from the dead and even occupy such a good body!

In the future, with the true body of the void beast, wouldn’t he be able to rule the universe?

Zhou Hao naturally did not know much about all of this, but he still did as he was told. He immediately slowly appeared from the depths of the sea. Then, he hid his aura and soared into the sky. At the same time, he communicated with Thousand Feather Armor and went to a height of 3,000 meters and waited for it.

Chapter 703 - Evolution of the Void Beast

Chapter 703: Evolution of the Void Beast

In the sky, when Zhou Hao reached 3,000 meters, his body slowly became larger. He quickly rushed through the clouds with sparks and lightning and kept flying higher. The sunlight above the clouds was even more dazzling.

“Little Yu, let the Luo God Warship out. Remember to activate the hidden function. Don’t let it be discovered by the satellite. Otherwise, they will think that I’m a zombie,” Zhou Hao said directly. The feeling of resurrection made Zhou Hao very satisfied.

What he was most anxious about now was to go to the moon to completely fuse with the void beast. At that time, he could condense his original clone and return to see his family!

“Master, if you want to activate the invisibility system, just say so. Why do you have to be so weird about it? Moreover, the Luo God Warship is not that weak. It will only be discovered by your Planet Earth tens of thousands of years later,” Thousand Feather Armor said helplessly.

Thousand Feather Armor had always been very respectful to Zhou Hao, but Zhou Hao could still sense that Thousand Feather Armor was an intelligent entity with feelings. Therefore, it could not help but joke.

“What do you mean by weird? That’s called humor, understand?” Zhou Hao said disdainfully.

“By the way, you should still call me Big Brother in the future. The title ‘Master’ is too stiff.”

“Alright, Master!” Thousand Feather Armor smiled.

“Hahaha, you’re getting more and more naughty!” Zhou Hao laughed.

As Zhou Hao laughed helplessly, Zhou Hao stepped on the flying device and entered the laser tunnel to the control room. The Luo God Warship also began to slowly raise the inner gate.

“I’ve never been to outer space before. I’m still a little excited!” Zhou Hao could not help but say.

“What? Are you a little excited? Are you eager?” A mocking voice sounded in the entire control room, and the wretched faces of Thousand Feather Armor and the frog appeared.

Of course, there was also the cute appearance of the divine soil.

“Little Yu, I guarantee that if you still dare to talk to me like this in the future, I’ll tear off a few parts from your body and make you shut up. If you still want to keep your voice system, hurry up and leave!” Zhou Hao said seriously.

“And the frog, if you don’t want me to throw you on Planet Earth, be obedient.”

“Hmph! Fine, I won’t say anything! Do you have to be so mean? You’re so mean and not gentle at all,” the frog said aggrievedly.

Buzz!

With a bang, the spacecraft began to slowly speed up. Even an expert like Zhou Hao could sense a faint vibration. This was as comfortable as a Rolls-Royce.

“Little Yu, open the exterior simulation system to 100%. I want to see the beautiful scenery outside.”

Zhou Hao looked at the control room that was empty just now in surprise. A control panel seat actually opened from the floor. Zhou Hao knew that the technology of the Luo God Warship was very advanced, but he did not expect it to be so advanced.

“Big Brother, the exterior illusion of the Luo God Warship is very extraordinary. Our exterior simulation system is definitely better than your 3D projector,” Thousand Feather Armor said humorously.

With the exterior simulation system, they were surrounded by snow-white clouds. The Luo God Warship was currently breaking through the atmosphere and would arrive in outer space in about twenty seconds.

Zhou Hao looked at the scenery outside the window, making him intoxicated. The surroundings of the spacecraft were like an endless black sea, and those planets were like guiding lights in the black sea that lit up the direction he was heading towards. When he turned around, he saw an azure planet that appeared in his vision.

“Heavens! It’s Planet Earth! Frog! Did you see that?! It’s really too beautiful!” Zhou Hao said with a sigh.

“Haha.” The frog looked at Zhou Hao as if he was an idiot.

Although the video of humans leaving Earth space had long spread throughout the entire Internet, when one really left Earth on a spacecraft similar to a rocket, the feeling of seeing it with their own eyes... was something others could not experience their entire lives.

This simulation system even simulated the interior of the Luo God Warship, making it seem as if the entire Luo God Warship was in outer space. If not for the fact that Zhou Hao was sitting on the control panel of the spacecraft, he probably wouldn’t have believed it himself. “If there’s a spacecraft competition with a perfect score of 10, I’ll definitely give the Luo God Warship 10 points!” Zhou Hao said in surprise.

“Of course. Our spacecraft is the core warship of the extremely ancient Luo God Race. It’s very high-level. Not everyone has it,” the frog said proudly and happily.

“What? Spaceships are actually divided into levels? What’s going on?” Zhou Hao asked curiously.

“Hmm... this is just like the equipment you humans use to play games. Isn’t the equipment in your human game divided into White, Green, Purple, Blue, Orange, Red, and so on? Since you understand that so well, you’ll probably understand this very easily. An A-level spacecraft is equivalent to a Green-level spacecraft, and a B-level spacecraft is equivalent to an Orange-level spacecraft. It’s just a little bit away from being a Red-level spacecraft.”

“There are also some special ores that use this system. The higher the level of the ore, the purer it is, so it’s naturally more rare and precious,” the frog explained patiently.

Zhou Hao only somewhat understood but he still nodded.

“Then can the list of materials I gave you previously also be clearly divided into many levels? Is it also divided into a-level, b-level, and c-level?” Zhou Hao asked in surprise.

The growth of the void beasts mainly relied on the iron element of the opposite sex space in their bodies. Because of the shocking defense of their armor, they needed to devour a large amount of iron!

There were currently two ways to devour and absorb iron elements to improve themselves:

The first method was to quickly devour pure metals or ores. This method could increase the speed of evolution by more than three times. However, at the same time, this method was also very dangerous. If one was careless, they would either die or be crippled from the backlash.

The second method was energy balancing. By devouring several metal or ore combinations at the same time, the speed of evolution would also increase by at least ten times. However, this method was rather difficult. Some might not even succeed in their entire lives.

“Therefore, Zhou Hao, have you thought about which method you want to choose? This matter concerns your life. I suggest you choose carefully,” the frog asked solemnly.

Zhou Hao thought to himself that although cultivation was important, these two methods did not tempt Zhou Hao too much. One had extremely fast cultivation speed, but the prerequisite was that he had to risk his life. This was a little against his principles. The other had a firm foundation but was too slow. Zhou Hao said helplessly.

“Although both methods have their own strengths, they also have their weaknesses. In your words, this matter concerns my life and is indeed very tempting. How about this? Give me some time to think about it.” With that said, Zhou Hao returned to his room.

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 704 - Moon

Chapter 704: Moon

Zhou Hao, who was lying in bed, kept thinking.

“How does the evolution of the void beast protect me? If I wear the Thousand Feather Armor, I wonder if I can withstand the pressure of the devouring.”

“When a void beast evolves, even the most ordinary metal can be cultivated. However... I wonder if I can absorb it with my Ancestral Physique? Or will my body become like a void beast? Will my body be indestructible like an iron wall.”

Zhou Hao frowned, but when he thought about it carefully, he realized that the void beast had only reached the third-stage Saint Realm after devouring minerals. As for his “Ancestral Physique”, he had to rely on continuous comprehension and evolution to constantly become stronger. Although the two were different, they were still similar.

However, on the other hand, the void beast had evolved to rely on devouring ores. In other words, they were devouring beasts that would devour iron ore mines or iron refineries. These void beasts would even devour all kinds of metal factories.

However, when it was on Planet Earth, it did not do this first. Instead, it wanted to destroy the entire Planet Earth and directly devour it! Just devouring the minerals alone was not enough for it

Zhou Hao was very shocked. This void beast was really powerful. This was the first time he had heard of a planet-devouring void beast. Would he have to do the same in the future?

Just as Zhou Hao was thinking and having a headache, he suddenly had an idea!

“That’s right! Didn’t the frog say just now that ores are also divided into levels? If that’s the case, there’s no need to devour planets. As long as the mineral level is high, there won’t be a problem!”

Just as Zhou Hao was thinking about it repeatedly, the Luo God Warship had already begun to slow down. The frog's voice sounded, "Zhou Hao, we've already arrived at the moon."

Zhou Hao saw the moon through the outdoor simulation. It felt like a snow-white planet that made him shudder. It looked much inferior to Earth.

"Little Yu, prepare to close the spacecraft's engine and open the cabin door," Zhou Hao said calmly.

The Luo God Warship shuttled through the atmosphere of the Moon. The atmosphere of the Moon was as thin as paper compared to the atmosphere of Earth. It could be seen that the atmosphere of the Moon was clearly much thinner than the atmosphere of Earth.

you are reading on our content copy site. Please copy and search this link "<https://bit.ly/3NSnQtR>" to support us

When Zhou Hao was changing into the Thousand Feather Armor on the control panel, mechanical hands quickly appeared from below the control panel. Moreover, Zhou Hao's entire body was completely covered from head to toe. The mechanical hands slowly appeared one after another and carefully and seriously helped Zhou Hao put on every part of his armor. After helping Zhou Hao put on the armor, they slowly returned to the bottom of the control panel as if nothing had happened. Under the light, the silver-white helmet on Zhou Hao's head made him look like a general.

The moment the cabin door of the spacecraft opened, Zhou Hao's figure immediately flew out! The silver-white Thousand Feather Armor on his entire body and the icy helmet made it seem like there were many mysteries on Zhou Hao's body. It was as if he had a glorious past that no one knew about.

Zhou Hao vaguely felt that the gravity of the moon and the gravity of the earth were worlds apart, but the gravitational fields produced were more suitable for the moon.

Zhou Hao slowly descended and began to walk slowly step by step. Suddenly, he jumped up! Looking down from the sky, he realized that not far in front of him, there were huge terrifying pits!

Zhou Hao counted. There were a total of six huge pits. Each huge pit seemed to have a tunnel connecting them together, as if these huge pits were indispensable to each other.

Looking carefully at it up close, Zhou Hao realized that there were actually some dilapidated buildings under the huge pit. Zhou Hao looked at the ruins seriously. "It seems that a very advanced civilization once existed here, but... what caused this place to become ruins?" While Zhou Hao was shocked, he could not help but think of these questions.

“Look at how worn-down the buildings here are. There hasn’t been anyone here for a long time,” Zhou Hao said regretfully.

“Why are you so shocked? In my opinion, this is very normal,” the frog said.

“Before this star system was ruled by others, the planets nearby belonged to the Blue Star Empire,” the frog said indifferently. “As for Planet Earth... As one of the planets with a level not much higher from a low-level planet, and given its current backward technology, it will take at least another thousand years for it to catch up with half the technology here.”

“Originally, Earth was only treated as an ordinary life planet, but no one expected you humans to have already begun to evolve and even started so many civilizations.”

“What about the other planets?” Zhou Hao could not help but ask curiously.

“This... It mainly depends on the situation of the planet. For example, a planet with a large number of forests and green plants like Planet Earth is known as a foresting planet. In fact, some families in the universe will also modify the planet into a large factory. Planet Earth is actually a rare occurrence, but the environment on Earth has also caused many demon beasts to treat it as the best habitat.”

“Back then, there were also many factions that coveted the ores and the energy essence of the moon and began to collect the energy essence of the moon continuously. Later on, someone discovered that the energy essence of the moon had been depleted way more than before, so they destroyed it when passing by it. It’s similar to the behavior of a parasite. By relying on the endless energy provided by the host, the parasite only needs to find a place on the host’s body to absorb the energy in the host body. Uh, of course, this is only an example. You don’t have to take it too seriously.”

“However, even without the interference of the other races, they still won’t be able to do this for long. Without the interstellar-level transport ships, those miners won’t be able to move freely under the gravity of the moon. As time passes, they will gradually exhaust their oxygen supply,” the frog said.

Zhou Hao immediately felt a headache coming on. He had originally thought that this was a country, but he did not expect it to be a mining base.

“The technology you’re looking at now is actually the technology used by the humans here to imitate the Machine Race. The huge pits you’re looking at are the energy collection fields. However, this collection method is modeled after the lowest-level low-level method of the Machine Race. Although it’s more cost-effective, the collection speed is relatively slow. In terms of ‘energy collection’, no matter which race it is, they can’t compare to the Machine Race.”

Tip: You can use left, right keyboard keys to browse between chapters.

- Chapter 705 - Underground City

Chapter 705 - Underground City

Chapter 705: Underground City

“The Machine Race is stronger than any other race in terms of technology.” The frog hurriedly added, “Humans can’t compare to them either. Humans can only rely on evolution to survive until now. The Machine Race is an intelligent life form. Although they don’t have a soul or human emotions, they still have invincible combat strength.”

Zhou Hao pondered carefully and seriously. “It’s just like Thousand Feather Armor. Although it has emotions similar to humans, it’s still only an intelligent life form and does not have a soul. However, despite this, the Machine Race can still create immortal experts. In terms of technology, the Machine Race is indeed very powerful.”

Hu! Hu! Hu!

A violent wind whistled past, sweeping up sand that was like sharp blades that slapped fiercely onto Zhou Hao’s body. “Frog, do you know? Although the Machine Race is very powerful, we humans also have very powerful strength. We have ‘emotions’, something that the Machine Race can’t understand no matter how hard they try.”

From Zhou Hao’s firm gaze, it could be seen that he loved his mother planet, Earth. Suddenly, there was a light not far away.

“Activate the detection system. Probe about 100 to 400 meters ahead and see what that is,” Zhou Hao said cautiously as he looked over.

After the sizzling sound, the frog said in surprise, “Meteorite discovered! That’s what you humans call iron essence!”

Zhou Hao immediately had mixed feelings. Now that he was also considered a planet-devouring entity, it should be easy for him to devour B-level essence iron. However, there was a lot of essence iron in this essence iron mine.

It was already considered lucky for such a large essence iron mine to have even one ten-thousandth of an iron crystal.

From this, it could be seen how precious this essence iron was. The price could be imagined! Just a small piece of essence iron fragment could already make countless overlords fight like crazy.

The frog added, "The buildings in these huge pits had a certain isolation detection effect. The area they enveloped could not be detected or known. However, below their intersection, I was able to detect faint traces of a city."

"What the hell? An underground city? An underground city built inside the moon?" Zhou Hao did not dare to believe it.

Zhou Hao looked around as he walked. He estimated that there were no living beings within a hundred meters. He entered the cave under the ground and found the Underground City. This place seemed to have suffered an attack.

you are reading on our content copy site. Please copy and search this link "<https://bit.ly/3NSnQtR>" to support us

In a dark corner of the underground alley, a pair of red mechanical eyes stared deeply at Zhou Hao.

With a cracking sound as if something had been activated, Zhou Hao noticed that someone was in the dark. He immediately soared into the sky and erupted with the bloodline of the Ancestral Physique. Just as Zhou Hao landed, two black robots appeared out of thin air in front of him and punched him heavily!

Zhou Hao hurriedly blocked and was almost unable to withstand the force. "This strength... cough! cough! cough! I definitely can't beat either of them. In the current situation, I can only retreat first!" As he escaped, he discovered a tunnel that led him deeper into the depths of the moon. Zhou Hao directly jumped up and adjusted his posture in the air. He then slid down into the entrance of the tunnel.

"Zhou Hao! Are you alright?! Hold on first! I've already sent the flying device out! It's heading towards you!" the frog said worriedly.

"Hu! Hu! Hu! Ahem! Ahem! I'm fine. Fortunately, they're too big and can't enter for the time being. Otherwise, I would be done for." After Zhou Hao rested for a moment, he was shocked to discover his current location.

There were mechanical factories everywhere here. On careful look, these factories were assembling the very same robots that had just attacked him! "Damn! What's going on?! Isn't the outside in ruins?! Why is this Underground City still operating?"

Zhou Hao hurriedly used his "mental detection" to see if someone was doing this on purpose, but there was no one here at all.

Zhou Hao calmly analyzed and guessed that since there was no one here, it meant that the factory here had been automated. Looking at the surrounding environment of the factory carefully, it indeed seemed like the defense here had been ruined because no one had repaired it for years. However, at the very least, it could defend against a planetary attack.

“Phew... Fortunately, these robots aren’t like the guys outside just now. They weren’t injected with chips. Otherwise, I would really be sending myself to the wolves.”

With a bang, the two black robots rushed over one after another. Because Zhou Hao was wearing the Thousand Feather Armor, he forcefully resisted this sudden collision!

“You’re... pretty ruthless!” Zhou Hao cursed.

“Zhou Hao, run! Listen to me! There’s an endless supply of robots in this underground city. But you probably already saw them, right?” the frog said anxiously.

“Nonsense! Do I need you to tell me this?! Let me ask you, what should I do to get rid of this robot?!”

“Follow the route I sent you and go to the energy point to destroy the energy supply there!” the frog said.

Zhou Hao ran back and forth along the route map in the Underground City and quickly discovered some places with thick metal pipes.

“I’ve already found their energy supply. Tell me quickly, what should I do?” Zhou Hao asked anxiously.

“Calm down. First, wave your right hand and take out the laser saber. Then, gather the power of your Ancestral Physique in your right hand. You know what to do next!” the frog said.

Just as the two mechas were about to smash Zhou Hao into meat paste, there was a whoosh! Clang! The incomparably ferocious mechas just now were instantly cut off by Zhou Hao’s right hand.

The two mechas instantly exploded in the air. Zhou Hao jumped up angrily and wielded the laser saber as he slashed fiercely at the energy supply! With a loud bang, the energy supply was completely destroyed! In just a few minutes, the energy supply of the entire Underground Base fell short.

The moment the energy exploded, Zhou Hao stepped on the flying device and flew out of the range of the explosion.

“There must be something important left behind by the miners here to allow the energy supply here to operate normally. Not to mention, these robots must have done this to prevent others from discovering the treasures here.”

Zhou Hao stepped on the flying device and kept flying around. “If I’m not wrong, with the conditions of the collection equipment around here, those miners should have dug up the ‘essence iron’ and stored it carefully. Coincidentally, these robots had forced me to come here. If I don’t compensate myself, I would have been beaten for nothing!”

Then, Zhou Hao increased his search. He immediately began to search the sky above the Underground Base!

Chapter 706 - Great Harvest

Chapter 706: Great Harvest

In the sky above the Underground City, Zhou Hao, who was wearing silver armor, flew for about half an hour before discovering a strong reaction from the “essence iron mine”! Zhou Hao followed the detector and arrived in a dilapidated house.

As the detector extended to a range of 9,000 meters, Zhou Hao discovered a lot of text and some armor made of “essence iron”. In just ten minutes, Zhou Hao had stored all the precious materials and the ancient text in a special backpack. He also recorded all the ancient texts. He had also sent them to the frog.

Suddenly, the detector emitted an ear-piercing alarm! It trembled. “From the reaction of the detector, there must be something valuable in this room,” Zhou Hao said in surprise.

Zhou Hao gently pushed open the door and entered the room to look around. Finally, the detector pointed at the floor under his feet. “Hai!” With a loud bang, a bottomless hole was suddenly torn in the floor. Zhou Hao’s helmet automatically opened for him to check. “My goodness, this... this... this is actually... Heavens, I’m going to be rich!” Mountains of ‘super essence iron’ appeared in front of Zhou Hao.

“With those miners, it seems that even if they have a large number of ‘super essence iron’, they still won’t be able to transport it away. Hehe, it just so happens that I got a huge bargain,” Zhou Hao said with a smile.

“Zhou Hao, I know you’re very happy, but calm down first. Look carefully and see if you can find ‘essence iron crystals’ here. Compared to ‘essence iron crystals’, ‘essence iron’ and ‘super essence iron’ are basically mud!” the frog reminded.

After Zhou Hao heard this, he calmed down a lot. What the frog said was indeed very reasonable. If he could find “essence iron crystals”, it would be best. After all, even a third-stage Saint Realm martial artist would find it very difficult to damage essence iron crystal. It was very easy for Zhou Hao to drill into the soil, but it was still more or less a little difficult for him to drill into this small mountain of essence iron. It was just like how ordinary people would have a hard time trying to build walls with their bare hands. Sigh... it was as difficult as ascending to the heavens!!

On second thought, why not shrink this small mountain and put it in his backpack? If so, it would be his to do as he pleased! Zhou Hao turned around and took out a small gun from his backpack and fired at the small mountain. With two gunshots, the countless iron mountains were instantly put into Zhou Hao’s backpack.

As the “iron” mountains in front of him disappeared, Zhou Hao discovered that there was actually an extremely huge and firm iron gate built with iron behind the “iron” mountain. Looking at the thick iron gate, Zhou Hao waved his laser saber and slashed at the iron gate. The iron gate was actually slashed apart like tofu and a hot saber mark was left on it. Then, the iron gate beside him fell to the ground.

Under the light, a pile of metal in the distance revealed a silver-blue light, making it appear incompatible with the surrounding environment. This piqued Zhou Hao’s interest. Zhou Hao quickly went forward to check. After scanning with the device, he found that this was an “iron crystal”. In the instant that Zhou Hao entered the slumbering memories of the Ancestral Physique, he quickly found all the information regarding iron essence.

He said with certainty, “Iron crystal! Heavens! I finally found it!” Zhou Hao shouted excitedly.

The frog controlled the flying device under Zhou Hao’s feet to go forward and check. “These ‘essence iron crystals’ are about 50 cubic meters and weigh a total of about 14,000 tons.” The frog added, “If you subtract the more than 12,000 tons that the void beast needs to devour, you will only be able to keep about 2,000 tons.”

“The peak bloodlines of the giant beasts in this universe are really too freaking abnormal! I’m really impressed by the Void Beasts’ appetite! Isn’t 1,200 tons a day too much?” Zhou Hao said with a bitter smile.

you are reading on our content copy site. Please copy and search this link "
<https://bit.ly/3NSnQtR> " to support us

“Although this void beast doesn’t devour stars, it is still very demanding. It devours a lot every day... To put it bluntly, even your superior, Ji Yaoyue, is not enough for it to eat its fill!” the frog said with a smile.

Zhou Hao blushed in embarrassment.

If Zhou Hao was willing to grow at the slowest speed, it would help him reduce a lot of expenses. However, if he wanted to grow quickly, just buying those pure metals, ores, and crystals was a huge sum.

Zhou Hao felt a headache when he thought of the problem of money. Although he also had a small sum, it was still not enough compared to the price of the crystals. Helpless, he could only continue to search and see if he could get the heavens to take care of him.

He also discovered some “metallic iron crystals” of different sizes in some decaying houses. Clearly, these had been deliberately kept at home by the miners. Although the gains were very small every time, he still accumulated a lot. In total, there were at least 20 million tons!

There was actually a basement in one of the decaying houses. When Zhou Hao went to the basement, his eyes widened. A huge door that was made of “essence iron crystals” and weighed several tons appeared in front of him! Zhou Hao immediately pounced over like a wolf or a tiger.

“A door made of ‘essence iron crystals’? Does this family have no place to spend their money? It’s fine, baby! Come to my backpack and let me unleash your greatest value!” Zhou Hao directly put the several tons of ‘essence iron crystals’ into his backpack and said with a guilty conscience.

Then, Zhou Hao quickly stepped forward and said loudly, “Wahahaha!!! This family is so rich!!! They must have a lot of treasures!!! I feel that I have an obligation to not let them waste their treasures!!!”

“You... why do I feel like you’re planning to rob their ancestral grave...” the green frog complained.

“Not true! I’m clearly cherishing their resources! This is proof of my high EQ! Tch! What do you know? Forget it, I’m going to continue exploring!” After Zhou Hao finished speaking, a burst of laughter gradually disappeared into the basement.

“Wow!”

Ten minutes later, Zhou Hao discovered a large number of weapons that had gradually decayed as time passed! The number of weapons he found here had already far surpassed the number of weapons Luo Feng found that time in the warehouse!

Moreover, in the center of the dark blue metal, there was a pure blue metal ore! Around it was a large amount of dark blue metal that occupied the largest space.

The frog immediately became restless when it saw the pure blue metal ore. Because of the magnetic field of the huge pit and the fact that the ground was not suitable for the frog to control the Luo God Warship, the frog could only control Zhou Hao's flying device to make judgments through the mechanical eyes of the flying device and collect a large amount of information.

"This is actually! It's 'essence iron mother'! It's an existence that's even higher than 'essence iron crystal'! 'essence iron mother'!!!" the frog said in surprise.

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 707 - Still Poor

Chapter 707: Still Poor

"Frog, quick... quick, count how many there are." Zhou Hao was clearly stunned.

"Let's not talk about essence iron for the time being. Just the amount of essence iron crystals needed to be devoured by the void beast is already 22,000 tons. We will need at least 430 kilograms of essence iron mother," the frog said slowly.

"Zhou Hao, I strongly suggest that you go to the director's control room in the Underground City and connect to the intelligent system here. I suspect that there are definitely more treasures in this Underground City. The fact that those miners have been trapped here for a long time means that the internal system has changed drastically. If you want to know what happened here, you have to check the historical information."

"Roger that." Zhou Hao agreed with the frog very much.

Ten minutes later, the black mecha attacked. Because of the support of the remaining energy core around the huge pit, it could operate normally. Before Zhou Hao destroyed the energy supply, he had already activated the hidden backup energy core supply. In other words, the intelligent system had always been intact.

Di di! Invasion successful! Searching for information! Please wait! Di di! Information has been found!

"It turns out that back then, the foreign races destroyed the Star Fleet and directly caused a total of 4.3 million miners to be unable to leave the moon. They had once requested help through the 'cosmic network' and even sent out a distress signal in the form of a bounty. However, with the magnetic field and gravity of the moon, they were forced to retreat underground and were abandoned for a long time. This also caused some miners to suffer depression, panic, bullying, and so on, causing them to kill each other."

"These more than four million people also began to fight among themselves. Resources were limited, women were limited, and beautiful women were even more limited. Some precious iron crystals and even more precious essence iron mothers were also gradually collected by the various factions here and hidden in their lairs. Some of them were also used to make weapons and defensive gates."

"Because they did not have the information to build a spacecraft and the blueprints for the various design components, after 1,000 years, they realized that if they did not work together, everyone would die. Therefore, the miners decided not to compete with each other and thought of a way to resolve the problem together until the resources were gradually exhausted. Only then did they barely manage to build three miniature spacecraft that could accommodate more than 20 people. They sent the younger generation and a small number of children out of the moon to snatch a glimmer of hope for survival. At that time, the others all died in their homes. This underground city lasted for more than 1,200 years before dying," the frog said.

"Zhou Hao, let's put everything we found together. I have the map of the various large factions at that time. I know the locations of all the lairs. Now, let's go to every lair and search. After all, the families of the factions definitely have some stock," the frog said firmly.

Zhou Hao had searched a total of 18 places in the entire Underground Base. 7 of them were empty. Clearly, they had been broken into by other factions at that time and all the resources there were robbed. Although the other 11 places were similar, Zhou Hao still obtained more gains from these places combined than he did from the warehouse.

In the entire Underground City, Zhou Hao had found about 45,800 tons of "essence iron crystals"! And he also found about 6.79 tons of "essence iron mothers" .

Looking at the dark city, Zhou Hao was more or less somewhat annoyed. The price of letting the void beast grow quickly was really too high. When it became a cosmic-level void beast, the amount of food it needed to devour would be even more ridiculous. At that time, these "essence iron crystals" and "essence iron mothers" would not even be enough for it to devour in a day!

“Zhou Hao, do you think you’re considered poor?” the frog asked.

“Poor? Are you joking with me again? I don’t dare to say anything else, but even if I’m not the richest person in the world, I’m still considered an existence that’s as rich as a country,” Zhou Hao said smugly.

“Are you a fool? That’s right. On Earth, you’re indeed one of the richest people and are indeed an existence that’s comparable to a country. But what about in the universe? The currency on Earth can’t be used in the universe. To put it bluntly, there are special cosmic currencies in the universe, and your property on Earth is just a piece of waste paper in the universe,” the frog said indifferently.

Zhou Hao was stunned. He was indeed one of the richest people on Earth, but in the entire universe, he was definitely a pauper.

“Zhou Hao, the Luo God Warship did leave you three bank accounts, but that was only if you reached the Saint Realm, Dao Realm, and Realm Lord level.”

“Before the Luo God Race died, they passed on the cosmic network and left it to their descendants to build these three bank account numbers. However, for you to use these three bank accounts, you have to meet the requirements to be qualified to receive them. That’s right, your void beast has reached the Saint Realm. Could it be that you want it to help you go to the bank? I reckon that before you can even receive it, you will already be attacked by the bank. You can’t use your void beast to withdraw, and as a human, you’re not strong enough. Therefore, it’s not an exaggeration to say that you’re poor.”

“You do have many rare and precious treasures. Any one of them is a priceless treasure. Without a doubt, many experts stronger than you will definitely come to snatch them! You’re simply courting death!”

“We still have to use the Luo God Warship for a long time in the future. Whether or not we have enough energy reserves is another matter. We will definitely need more energy crystals in the future. And we also need the Evolution Crystals for the void beast to grow. There aren’t many things that we can sell for money,” the frog said indifferently.

Hearing this, Zhou Hao was immediately dumbfounded. What was going on? What was going on?! He was the descendant of the Luo God Race, but he actually did not have any money? As for his items, the Luo God Warship, the Evolution Crystal, the Thousand Feather Armor, and the Energy Crystal were all necessities.

Even if Zhou Hao sold himself, he would not be worth much.

Zhou Hao knew very well that he would inevitably have to enter the universe in the future. If he encountered the materials he wanted and couldn’t buy them, was he supposed to go out and find them? Wouldn’t it be like finding a needle in a haystack? How long would he have to fish for? Even super experts valued money and currency

very much. Of course, they were talking about the currency in the universe! It was not the currency used on Planet Earth.

“Zhou Hao, let me tell you the truth. If you use the Luo God Warship frequently, the shortest amount of time you can have before you use up all the energy crystals in my storage space will be 30 years. And the Evolution Crystals I have here are enough for you to become a second-grade Saint Realm existence. It will also allow the void beast to grow to an existence around the sixth-grade Saint Realm. As for the energy crystals, you probably already know what to do with them. You can decide how you want to use them,” the frog said.

Chapter 708 - Hidden Turbulence

Chapter 708: Hidden Turbulence

Zhou Hao pondered seriously. Just as the frog had said, any one of these treasures was an existence that would invite death. However, all of them were his favorite. “I can’t bear to part with them.” Zhou Hao hurriedly shook his head.

“There are clearly some very profitable ways of earning money, but you just can’t see them. In the words of you humans, they’re so close yet so far.” the frog said.

“You’re saying... could it be? That’s impossible, right...” Zhou Hao replied in surprise.

“That’s right, I’m talking about the Underground City in front of you! Look carefully at these houses made of essence iron! These are even more valuable than the alloy remains of the spacecraft outside. In fact, those alloy remains are useless compared to these essence iron. After all, essence iron is a raw material that can be used to make tools, guns, ammunition, defense, and other heavy industry fortifications.”

“Although there are many places to dig for metal raw materials, digging and collecting them still requires cost! Although iron is made of an A8 level metal ore and is very cheap, there are still a lot of it here. Don’t forget that back then, an interstellar transport ship transported millions of miners here to dig. The production of iron here is countless times higher.”

“Looks like Lady Luck is on my side. I can’t believe I came across such a good opportunity. This will be my first huge gain.” Zhou Hao looked at the Underground City with a burning gaze.

“Zhou Hao, what are you waiting for? Open it. Abandon those rotten materials. Our goal is to collect essence iron and its raw materials,” the frog urged.

“Then I’ll be in charge of disassembling it and you’ll be in charge of storing it in the storage space,” Zhou Hao said.

With a loud bang, a large number of iron materials were stored in Zhou Hao and the frog’s storage space. Some of the underground cities that were almost 15 kilometers long were torn apart by Zhou Hao. For an entire 12 hours, the underground cities disappeared, leaving only the rotting corpses and tattered materials.

“Hahaha, we collected a total of 10.35 billion tons of essence iron and raw materials. Just this alone can be considered a small sum of money,” the frog said excitedly.

Zhou Hao stepped on the flying device and flew out of the huge pit. He returned to the control panel of the Luo God Warship and looked at the surface of the moon from the sky.

“Unfortunately, there are still many iron ores under the moon, but the difficulty of mining is very high. No matter how powerful a person is, it’s impossible for them to mine the entire mineral vein... Unless it’s a pure metal mineral vein,” the frog sighed helplessly.

“It’s fine. After all, I can’t be too greedy.” Zhou Hao knew very well that the ‘essence iron’ in his hand was the result of the labor of more than four million miners.

you are reading on our content copy site. Please copy and search this link "<https://bit.ly/3NSnQtR>" to support us

After obtaining so many treasures, Zhou Hao did not stay idle. He directly summoned the huge body of the void beast and hid it in the Underground Base. Then, an endless stream of essence ores was directly dumped into the void beast’s stomach!

Although it was called a stomach, it was actually just a void space. It was an independent space that the void beast could use to place things and facilitate absorption.

“Zhou Hao, our energy is almost ready. You have to hurry up with your fusion. After all, it’s been a month since you fell asleep. Your family is also very worried about you.”

Zhou Hao nodded heavily and began to fuse with the void beast.

Although he had controlled the void beast, he had not fully fused it. Moreover, he did not know much about the void beast’s inherited memories.

Time passed day by day, and Zhou Hao’s fusion level also increased bit by bit, slowly reaching 30%!

At the same time, on Planet Earth, a few months had passed since that incident.

Many people still returned to their former lives, but the world of martial artists had still changed!

The five alliances were still united. However, as long as there was light in this world, there would be darkness. At this moment, the light disappeared, and many guys hidden in the darkness crawled out!

In particular, most of the Huaxia experts on Planet Earth had died. The strongest remaining were only two twelfth-grade Heaven Realm experts. Although there were many other Heaven Realm experts, they were really not enough to deal with peak combat strength!

This also caused many people with ulterior motives to be tempted!

Especially the European Union!

Last time, although they had suffered heavy losses, they were still inferior to Huaxia. Huaxia had a rich geographical location and resources, making the European Union have ulterior motives!

“The resources of a half-step Saint Realm expert in Huaxia are far from what we can compare to. Moreover, there’s still that Zhou Hao. It’s said that this brat is also very rich. However, after he died, his warship also mysteriously disappeared!”

“Hmph, not only that, I heard that that brat has all the Evolution Crystals obtained from Huaxia. Now that the void beast is dead, all the Evolution Crystals of our alliance have been consumed. Only Huaxia has them. If they give birth to a few half-step Saint Realm experts through that magnetic field, won’t our entire Planet Earth be ruled by Huaxia?”

“No, this won’t do. We have to report it immediately and get Huaxia to hand them over!”

The three twelfth-grade Heaven Realm experts of the European Union immediately said. Among them, the ones who were the most radical were Paul’s lineage and the Itanli lineage in Africa!

The two of them had an insurmountable grudge with Zhou Hao. Originally, when Zhou Hao was like the sun in the sky, they did not dare to say anything. But now, Zhou Hao was dead and Huaxia’s half-step Saint Realm experts were asleep. They naturally had evil intentions!

This matter was carried out in secret. The people of the four alliances worked together and directly appealed to the Holy Temple. Regarding this, the Holy Temple could do nothing!

What they said was true. The five alliances needed to be balanced, and if Huaxia was allowed to dominate, it would not be beneficial to anyone!

Therefore, the Holy Temple immediately informed Huaxia!

Hearing this notification, Sword King Qing and Zhu Zao's expressions instantly turned ugly!

The last two twelfth-grade Heaven Realm experts in Huaxia were Sword King Qing Feng and Heavenly King Zhu Zao.

When they heard this, they were furious!

"This is too much, simply too much. Our Huaxia has suffered heavy losses because of this, but look at them. It's only been a few months and we haven't even found our Hero Zhou Hao's corpse, but they're already eyeing our Evolution Crystal!"

Zhu Zao immediately said angrily, and Sword King Qing was the same. He had never expected the people from the European Union to be so shameless!

Moreover, they even formed alliances with the other alliances!

"Hmph, let's not talk about the fact that we don't know where Council Member Zhou hid the Evolution Crystal. Even if we did know, we definitely would not hand it over!"

Sword King Qing immediately said angrily.

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 709 - Treacherous and Cunning

Chapter 709: Treacherous and Cunning

Sword King Qing was a hot-tempered person to begin with. He had never been weak when facing mutated beasts. Naturally, he would not be weak when facing the European Union!

Heavenly King Zhu was the same. The European Union's current actions simply made them furious!

Soon, the Holy Temple sent a notice. They were anxious for the only two twelfth-grade Heaven Realm experts of the Huaxia Alliance to participate in Planet Earth's supreme meeting!

In the meeting room, the five alliances were sitting in five directions. The Huaxia Alliance only had two twelfth-grade Heaven Realm experts.

On the other hand, there were a total of four twelfth-grade Heaven Realm experts in the European Union. There were two in Africa, four in the North American Alliance, and three in South Korea. There were only two in Huaxia!

Back then, Huaxia was the strongest among the five alliances. Now, Huaxia had contributed the most to the matter of the void beast. But now, only a few months had passed, and they had already changed their attitudes toward Huaxia!

How could Sword King Qing and Heavenly King Zhu not be furious?!

At this moment, the meeting began. The person in charge of the Holy Temple was also a citizen of the EU. His name was Paul Ricca. As a member of the Paul Family, although he was not a martial artist, he had still relied on his own ability to enter the Holy Temple. This time, it was their Paul Family who had instigated this matter!

At this moment, Paul, who was one of the five elders, looked at the Huaxia side and smiled. He said, "It's really an honor to have Sword King Qing and Heavenly King Zhu here today. Let's cut to the chase and get straight to the point."

"I believe the two of you know about the Evolution Crystals. The aura released by this thing can allow martial artists to break through. Although this thing used to have a drawback and will cause martial artists to be devoured by the void beast, this is no longer the case. Now that the void beast is already dead, our human race still needs to become stronger. The Evolution Crystals of the other alliances have already been exhausted. Only the ones from Huaxia haven't been touched. A total of ten of them are stored with Hero Zhou Hao."

"Although we have resolved the doomsday crisis, I still think that Planet Earth will always be in danger as long as it is in the universe. This time, it's an outer space void beast. In the future, it might be some other mutated beast. To ensure our safety, we humans still need to improve."

"And the fastest way is to get those Evolution Crystals. Our Holy Temple and the four alliances all think that since Huaxia still has ten more that haven't been used, we should split them evenly and give each alliance two. In this way, we humans will at least have a guarantee."

"Not only that, but the strength of the various alliances will also be the same. Everyone will also be at ease. How about that?"

you are reading on our content copy site. Please copy and search this link "<https://bit.ly/3NSnQtR>" to support us

Paul Ricca smiled. He seemed to be very fair, but to be honest, his words were still very shameless and scheming!

They were clearly afraid that the Huaxia side would use these ten Evolution Crystals to nurture warriors. Even if Huaxia only had one, they would still be able to nurture a single half-step Saint Realm expert. It was not something the other alliances could resist!

In order to prevent Huaxia from dominating, they could only use this method!

Although it sounded good, Sword King Qing and Heavenly King Zhu still knew what their true motives were.

In fact, it was understandable for them to have such thoughts. However, Sword King Qing and Heavenly King Zhu did not know where the Evolution Crystals were at all.

"Elder Paul, I'm really sorry. There's nothing we can do about this. The Evolution Crystal is with Hero Zhou Hao. After he died, everything he owned disappeared with his warship. We don't know either."

This was their answer and what they currently knew.

There was also a limit to what they could do.

However, the people from the other four alliances did not believe them!

"Heavenly King Zhu, aren't you being a little too casual with this? Hero Zhou Hao is from Huaxia. You monitor your martial artists so well, so how could you not know about his warship?"

At this moment, another twelfth-grade Heaven Realm expert from the European Union, Martinson, said.

Hearing this, Sword King Qing said angrily, "What do you mean? Is there a need for our Huaxia to lie to you? You all know that Hero Zhou Hao entered the deep sea on his own warship. It's very normal for it to be damaged during the battle."

This was true. However, the European Union and the others had indeed secretly investigated the deep sea. They had found everyone's warship remains, but they had not found Zhou Hao's!

No remains or even fragments could be found!

This matter was very strange. They did not believe it at all. Therefore, they all thought that Zhou Hao's warship had been taken back by Huaxia!

This was why the situation was like this now!

At this point, the European Union could no longer hold back. As a twelfth-grade Heaven Realm expert, Paul Ricca immediately said angrily.

"Sword King Qing, you're a twelfth-grade Heaven Realm expert. Do we really have to listen to your childish lies? We've already investigated the deep sea domain for a long time. Other than Hero Zhou Hao's warship, we've found everyone else's. However, we haven't found any remains of Hero Zhou Hao's warship. We've even checked and there are no more fluctuations of his warship."

"Tell me, how could this thing disappear for no reason? Sword King Qing, don't tell me your Huaxia side wants to use these Evolution Crystals to nurture half-step Saint Realm experts and rule Planet Earth?!"

Paul Ricca's words were very unpleasant to hear. His words immediately made Heavenly King Zhu and Sword King Qing completely furious!

He did not expect their European Union to be so shameless and even secretly investigated the deep sea long ago. Heavenly King Zhu and Sword King Qing did not know about this at all!

Since they couldn't find anything in their investigations, they must have concluded that Huaxia had hidden the warship and the Evolution Crystals. That was why they could not help but want to interrogate them!

Thinking of this, Sword King Qing and Heavenly King Zhu were furious. They clearly wanted to take everything for themselves, but they had failed to succeed. That was why they jumped out and teamed up with the other three families to force the Huaxia side!

How sinister and cunning!

"Hehe, I've long known that the European Union has always had brilliant methods. Looking at it today, it seems that it's true. Paul Ricca, can you answer me first? Why did you investigate our Heavenly King Zhou Hao's warship without our Huaxia's permission?"

"Without our Huaxia's permission, you guys came to our Huaxia's deep sea territory to investigate?"

Sword King Qing's consecutive questions made Paul Ricca's expression change on the spot. He knew that at this point, there was no need to hide anything!

“Hmph, you’re right. We did secretly investigate, but we’re doing this for all of humanity and all the humans on Planet Earth. We’re selfless, unlike you Huaxia people who hide treasures!”

Chapter 710 - Family

Chapter 710: Family

After saying this, Sword King Qing and Heavenly King Zhu were even more furious.

Heavenly King Zhu wanted to say something, but Sword King Qing snorted and immediately stood up.

“I understand. Today is the day for us to be whipped and judged. Alright, very good. Then, I’ll also tell you that regardless of whether our Huaxia has the Evolution Crystals or not, we won’t hand it over. This is our Huaxia’s treasure and our foundation. Don’t even think about taking it from us!”

After Sword King Qing finished speaking, he left with Heavenly King Zhu. What kind of meeting was this? They were basically berating Huaxia. How could they tolerate this?

Therefore, the two of them did not give them face and immediately left!

Seeing Sword King Qing, Heavenly King Zhu, and the others leave, the expressions of the four alliances and the Holy Temple turned ugly!

If Huaxia really had ten Evolution Crystals that they had not used, once they nurtured a half-step Saint Realm expert or two, all of them would be unable to resist at all!

Sometimes, it was just like this. When there was a mutual enemy, everyone could resist the enemy with all their might. However, in times of peace, chaos would begin!

And now, they were at this stage!

Moreover, they were already afraid of Huaxia and were even more afraid of its potential!

Therefore, if they could really split Huaxia’s Evolution Crystals, they would naturally do so!

“What a waste of time!”

Paul Ricca snorted coldly, and killing intent flashed in his eyes!

you are reading on our content copy site. Please copy and search this link "
<https://bit.ly/3NSnQtR> " to support us

Since they were unwilling to hand it over, they could not blame Paul Ricca for using other methods!

After returning to Huaxia, Sword King Qing and Heavenly King Zhu immediately held a meeting. The remaining 200 Heaven Realm experts in Huaxia all participated in the meeting!

This meeting was very short. They were all focused on preparing for battle!

This was because they knew that the European Union would not let this matter rest. Therefore, in the future, there would probably be endless chaos!

The Huaxia experts all had the right to know about this, so Sword King Qing also told them. Hearing this, the Huaxia experts were naturally furious and naturally felt the same way.

After making the arrangements, Sword King Qing took a deep breath and looked at Heavenly King Zhu. He said directly, "I think the European Union will definitely not let the matter rest. The most important thing now is Zhou Hao's family!"

"They will definitely start with Zhou Hao's family. Therefore, we have to protect Zhou Hao's family well. Zhou Hao is the hero of our human race and also the hero of our Huaxia. Regardless of whether the people from the other alliances remember this favor, in our Huaxia, Zhou Hao is just like Senior Ji and the others. He's a true hero!"

Sword King Qing admired Zhou Hao very much, and so did Heavenly King Zhu!

"Don't worry, I've already arranged it. I've sent a total of eight Heaven Realm experts," Heavenly King Zhu immediately said.

"In addition, we have to pay attention to the movements of those twelfth-grade Heaven Realm experts from the European Union. If they attack, not many people on Planet Earth can stop them!"

Sword King Qing rubbed his temples and said gloomily.

"Oh, right, how are Senior Ji and the others?"

After asking this, Heavenly King Zhu shook his head. "The situation is very bad. Other than Senior Ji and Senior Lingtian with relatively stable mental strength, the mental

strength of the leader of Peijing has already decreased rapidly. It can basically be determined that he won't wake up."

Heavenly King Zhu sighed. After saying this, Sword King Qing was also very anxious.

Ever since that fight, the ten half-step Saint Realm experts had fallen asleep and were later picked up by the various alliances. They were all thinking of various ways to wake them up.

However, mental trauma was a medical problem to begin with, let alone a martial artist's mental strength!

"If either Senior Ji or Senior Lingtian woke up, we wouldn't have been bullied by them like this!" Zhu Zao could not help but say.

"I understand, but it's useless to say this now. We have to do our best to protect them."

With that said, Sword King Qing took his sword and continued to train. His cultivation had already stopped at the peak of the twelfth-grade Heaven Realm for many years. If he could break through, it would also be extremely beneficial for their Huaxia.

Heavenly King Zhu sighed. With his current cultivation, it was even harder for him to advance. It was not easy to break through to the half-step Saint Realm. Some people would never be able to take that small step in their lives!

Regarding this, he could only sigh with emotion and place his hopes on Sword King Qing!

At the same time, in the Qu City Battle God Battalion International Residence, Zhou Xueguo and Wang Shuyun had not been doing well these past few months.

Although their son was a hero, he was already gone. Their mental world seemed to have collapsed.

Fortunately, Xu Ling came often. Not only that, but Zhang Yi, Yuan Cheng, Yun Yan, and Fang Yu also came every two to three days.

"Godparents, what are you guys preparing? There's no need to prepare. We'll just have a casual bite. You guys make delicious food for us every time we come. Look at me, I've already gained weight!"

Yuan Cheng's small mouth seemed to have been smeared with honey as he called Zhou Hao's parents godparents in a sweet manner.

Zhang Yi was the same. The two of them were Zhou Hao's good friends. Now that their friend was no longer around, they naturally had to shoulder Zhou Hao's parents' future!

Therefore, they directly recognized Zhou Xueguo and Wang Shuyun as their godparents.

Zhou Xueguo and Wang Shuyun understood that they were also very happy.

“Hehe, eat more. It’s fine. Otherwise, we won’t know what to do.”

In the past few months, Wang Shuyun’s hair had turned much grayer because of Zhou Hao.

Zhou Xueguo was even more so. Although Zhou Xueguo was usually very open-hearted, the matter of his son had changed him. He became quiet.

Other than when Xu Ling and the others came to visit, Zhou Xueguo rarely smiled.

“Dad, Mom, let’s eat.” Xu Ling was wearing an apron. After she was done, she got the two of them to sit down. A large group of people surrounded the dining table.

Seeing Xu Ling call them that, be it Zhou Xueguo or Wang Shuyun, they were both touched.

They had decided on this daughter-in-law, but the two of them were not married yet. Now that their son was gone, they really could not bear to let her delay things any longer!

The old couple looked at each other and sighed.

The meal passed quickly. Yuan Cheng and Zhang Yi kept finding topics to talk about, making the old couple laugh.

Although they were smiling, their eyes always revealed grief.

After dinner, Xu Ling called. It was none other than her brother, Xu Chang!

Xu Ling frowned, walked outside, and met up with him.

“Brother, are you looking for me?”

Chapter 711 - Request

Chapter 711: Request

Ever since Zhou Hao died, Xu Ling had always come to the Zhou family. Be it in public or in private, she always called Zhou Xueguo and Wang Shuyun her parents. This made the Xu family very helpless when they heard this.

To be honest, it was their Xu family's fortune to have a son-in-law like Zhou Hao.

Under normal circumstances, they would love for Xu Ling to marry Zhou Hao.

However, things were different now. In the end, Zhou Hao was already dead and could not be revived. However, Xu Ling was still alive and beautiful. Be it her cultivation, family matters, or even her appearance, they were all top-notch.

Moreover, she was already at the age where she should start a family. Therefore, the Xu family could not let Xu Ling continue like this.

Moreover, the Xu family could tell what Xu Ling was thinking. This girl was very affectionate and probably had long treated Zhou Hao as her husband and Zhou Xueguo and Wang Shuyun as her in-laws.

After Zhou Hao died, she even treated herself as a widow!

As Xu Ling's cousin, Xu Chang was actually very helpless. He really admired Zhou Hao and was very willing to congratulate his sister.

However, things did not go according to plan!

"Sister, are you in Qu City? When will you be back?" Xu Chang's tone was very good as he asked with a smile.

"In two days. I want to accompany Dad and Mom for a walk," Xu Ling said naturally.

Hearing this, Xu Chang sighed and thought for a moment before saying.

"Sister, actually, it's really inhumane for me to say this, but I still have to say it. Zhou Hao is dead, but you're still alive. You two aren't married and haven't registered your marriage. At most, you two are boyfriend and girlfriend. Now that he's dead, you can't just throw your life away like this. You still have a long life ahead of you."

Xu Chang was speaking from a brother's perspective. There was actually nothing wrong with what he said.

No brother would allow his sister to delay his marriage because of a boyfriend.

However, Xu Ling said, "Brother, I know, but... this is my choice. I don't think I can love anyone else in my life."

"I know, Sister, but... if you were alone, I wouldn't say anything. However... you also know that our Xu family is filled with helplessness. For example, I, your brother, haven't married the woman I like."

Xu Chang wanted to persuade his sister through his matter.

However, Xu Ling said directly, "Brother, I'm not you."

"I... I know... Sister, Grandpa wants to see you tomorrow, so... you should come back."

Xu Chang took a deep breath and immediately said.

Xu Ling ignored him and hung up.

Tears welled up in her eyes, but she still wiped them away lightly and pretended to be fine as she returned to the dining table.

Wang Shuyun could tell at a glance that the Xu family had naturally heard of Xu Ling's matter. Therefore, she understood.

After eating and cleaning up, Wang Shuyun looked at Xu Ling and said, "Lingling, your uncle and I are going to visit our cousin's house tomorrow. We won't be at home for the next two days. You should go back. Oh, right, I'll get Zhang Yi to send us there. You're busy with work. Come and visit us when we return."

After Wang Shuyun finished speaking, Xu Ling was stunned for a moment.

"Didn't we agree to go sightseeing tomorrow?"

"Yes, but Cousin is sick." Wang Shuyun looked at Zhou Xueguo, who immediately understood.

"I see. Then I'll accompany you guys. What if you need any help?" Xu Ling smiled.

"There isn't much for you to help. We're all ordinary people. Moreover, you're an inspector. Since you're busy with work, don't waste your time here. Go do your work. We'll also pack our things and leave."

Wang Shuyun said directly. Xu Ling took a deep breath and did not say anything before turning to leave.

Xu Ling had just left when Wang Shuyun cried. This scene stunned Zhang Yi, Yuan Cheng, Yun Yan, and Fang Yu.

“Godmother, what’s wrong?” Yuan Chengma said.

Wang Shuyun wiped her tears and looked at Yun Yan, Fang Yu, Zhang Yi, and Yuan Cheng.

“I want you to do me a favor.”

After saying this, they were stunned for a moment and nodded.

“What? Tell us, how can we help you?”

Wang Shuyun took a deep breath. “We want to move to another place. We don’t want to live here anymore. Moreover, we don’t want Ling Ling to know.”

With just one sentence, they understood!

“Godmother, you...”

Yuan Cheng and Zhang Yi wanted to say something, but they did not open their mouths.

On the other hand, Yun Yan and Fang Yun sighed.

Wang Shuyun looked at them and said happily, “You’re all good children. We’re really happy to have you around. You’re Zhou Hao’s good friend and Xu Ling’s good friend. You... need to help me persuade Xu Ling. No matter what, my son is already...”

At this point, Wang Shuyun was already sobbing. Yuan Cheng and the others’ eyes were red and they were very sad.

“Xu Ling is a good girl. I can’t bear to see such a good girl lose her life for my son. We’ve never treated her as an outsider and treat her as our own daughter. Tell me, if you had a child, would you let your daughter be a widow for the rest of her life for the sake of a dead person?”

“We’ve talked to Xu Ling about this many times. Every time, she would change the topic. If we sounded too serious, she would cry, and our hearts would soften. However, I know that what we’re doing is wrong. That’s why... I want to move to somewhere else.”

Wang Shuyun had put in a lot of effort. Yun Yan, Fang Yu, and the others also knew and understood.

“Auntie, don’t worry. We understand. We’ll help you with this.”

Yun Yan and Fang Yu looked at each other and understood.

Xu Ling was their friend, and so was Zhou Hao. Although it was indeed unfair to Zhou Hao, it was the truth.

The dead could not be revived.

At night, they packed their bags and left overnight.

They had arrived at the Hundred City, the former Red Cliff Abyss!

Although this place used to be filled with martial artists and bad guys from all over, under the lead of Zhou Hao and the others, as well as the pressure of Yuan Cheng and Zhang Yi, this place had long become a comfortable place.

Moreover, the people here all treated Zhou Hao as their idol. Knowing that Zhou Xueguo and Wang Shuyun were Zhou Hao's parents, they naturally took good care of them!

In particular, the current commander of the Hundred City Commander Residence was even more polite.

Zhou Xueguo and Wang Shuyun also sighed with emotion when they arrived.

However, Xu Ling did not know any of this.

At the same time, the experts of the European Union also secretly arrived at Qu City!

They even arrived at the Battle God Battalion residential area!

However, when they secretly sneaked into Zhou Hao's house at night, they realized that the place was already empty!

Chapter 712 - Change

Chapter 712: Change

Zhou Hao did not know any of this. At this moment, he was on the moon and devouring the ores on the moon. Suddenly, he heard a series of cracking sounds in the distance.

Zhou Hao's expression changed. Then, he looked into the distance and suddenly saw a shocking scene!

A surging feeling suddenly came from the ground in the distance!

A moment later, the surging feeling became more and more intense. Even the surrounding ground trembled continuously!

Zhou Hao narrowed his eyes and looked into the distance with an incomparably vigilant expression. Suddenly, he discovered that the ground in the distance had suddenly exploded. Then, a huge tentacle suddenly crawled out. Its entire body was covered in needle-sized spikes!

It looked like a huge centipede, but its body was especially huge. It looked very fat and powerful!

Zhou Hao was immediately stunned. He clearly remembered the frog saying that there were no creatures on the moon!

"This is a monster from the universe that is known as a Gesgard! I didn't expect it to be here!" the frog immediately said.

"Damn, didn't you say that there were no monsters?" Zhou Hao could not help but say.

"Uh... I just thought that since the moon is so big, we wouldn't be able to investigate completely..." The frog became embarrassed and could not help but say.

"What trash dares to barge into our moon, invade our territory, and steal our things?"

At this moment, the Gesgard suddenly roared angrily, followed by an angry growl. Its eyes flickered with violent killing intent as it stared at Zhou Hao with blood-red eyes.

The aura on its entire body was very violent, and the ferocious aura in its body was completely activated!

the Gesgard waved its two long tentacles and exploded with a sharp sonic boom!

Many of the surrounding boulders were overturned by the Gesgard. Countless boulders were mixed in the thick smoke and exploded!

The huge rock was sent flying by a huge force. Then, it quickly rushed towards Zhou Hao like a cannonball!

Bang! Bang! Bang!

An explosive sound suddenly sounded. Then, it quickly attacked Zhou Hao!

Zhou Hao acutely sensed the Gesgard's movements, so he quickly reacted!

Although Zhou Hao had now fused with the void beast, his senses and reaction speed did not decrease at all. Instead, they became stronger and stronger!

Zhou Hao's speed and reaction were so fast that he dodged the attack almost instantly!

When the other party saw that his move was actually unable to do anything to Zhou Hao, it immediately became very furious!

It suddenly roared at the sky and opened its bloody mouth in incomparable anger. It spat out a mouthful of flames fiercely in Zhou Hao's direction!

"Damn, it actually has such an ability?"

When Zhou Hao saw this, he was slightly shocked. Then, he quickly dodged to the left!

Bang.

An explosive sound instantly exploded, and then an incomparably huge pit instantly appeared on the ground!

Zhou Hao looked at the incomparably huge pit that was a meter deep from the fireball not far in front of him and was immediately shocked!

He did not expect this the Gesgard to be so powerful!

Black smoke was still billowing from the deep pit. The remains of the flame ball were still burning the ground inside. Zhou Hao even felt that the air within a radius of half a meter was burning!

Roar!!!

In the distance, a roar suddenly sounded!

Zhou Hao raised his head and roared, erupting with a roar. The originally panting Gesgard suddenly stopped!

It did not expect Zhou Hao's roar to erupt with such powerful strength!

Such a scene immediately made the Gesgard not dare to underestimate Zhou Hao. Perhaps in the beginning, when it saw Zhou Hao barge in, it still felt that he could definitely resolve this matter.

But now, when it saw Zhou Hao's roar, it was immediately frightened to the point of not daring to take another step forward.

"This guy's ability shouldn't be above mine. It should be very easy for me to deal with it."

Zhou Hao narrowed his eyes and chuckled as he watched this scene. Then, he smiled proudly.

“Since your strength is not bad, rather than being killed, it’s better for you to be eaten by me. It can also increase my strength.”

Zhou Hao smiled and narrowed his eyes. He stared fixedly at the Gesgard, who was standing not far from him, his face filled with calmness.

It was as if he had seen an extremely delicious meal!

While Zhou Hao was staring at the Gesgard in front of him, the Gesgard was also staring at Zhou Hao intently and observing.

According to the Gesgard’s senses, he could tell at a glance that this void beast was actually quite a threat to it.

But now, the other party was standing in front of its territory. If it cowered, wouldn’t it be looked down on?

Roar!!!

The Gesgard suddenly exploded with a violent roar. Then, it opened its bloody mouth and roared at Zhou Hao in a threatening manner!

“Flame fireball!”

The Gesgard opened its mouth again and roared into the distance. Then, its mouth kept growing, condensing an incomparably huge fireball!

This fireball seemed to have its own consciousness and was quickly shooting towards Zhou Hao!

Boom! Boom! Boom!

The moment the fireball was spat out, an incomparably hot feeling erupted in the surrounding sky!

This flame even burned the surrounding air. Even the sky burned with a distorted feeling!

This time, the fireballs spat out by the Gesgard kept spraying towards Zhou Hao in the distance without stopping!

Zhou Hao was very fast and easily dodged the attacks of these fireballs.

In the next moment, something unexpected happened. Before the Gesgard could react, Zhou Hao quickly rushed towards him.

He suddenly smashed heavily towards the Gesgard's head and body!

With a loud bang, the Gesgard was immediately hit in the abdomen, and its entire body quickly retreated!

Rip!

A furious roar instantly exploded. Although the Gesgard's reaction was also fast, because of its incomparably huge body, its movements instantly decreased by a lot!

A series of marks were left on its skin because of the attack!

"I didn't expect the skin of this monster to be so hard."

Seeing this, Zhou Hao could not help but think to himself.

Chapter 713 - Strength

Chapter 713: Strength

His current strength and level had already improved greatly. According to his current strength, if this beast did not have such hard skin...

Zhou Hao could easily tear the other party's skin and flesh apart with his claw!

The Gesgard also suffered from Zhou Hao's attack, especially its face, which was its weakest area.

The corner of its eye was mutilated by Zhou Hao's huge claw, and large amounts of blood flowed out. It looked tragic.

Hu...

At this moment, the beast finally felt the threat. A hint of fear flowed in its eyes before it looked at Zhou Hao in fear!

The stinging pain in the corner of its eyes was like an iron pincer that was burning, making the beast's breathing gradually become heavy.

Originally, the beast had thought that it was determined to deal with Zhou Hao. But now, when it was really injured by Zhou Hao, it realized that it had been too naive!

The attack Zhou Hao had struck on it just now had directly made it not dare to continue resisting Zhou Hao.

The beast sensed danger from Zhou Hao's move!

If this continued, it would very likely lose its life because of Zhou Hao!

If it really died here, it would be completely done for!

Thinking of this, the beast immediately turned around and wanted to escape without hesitation.

"Hehe, it's probably too late for you to run now!"

Zhou Hao sneered. A moment later, he quickly chased after the other party.

Today, no matter what, Zhou Hao had to swallow this beast!

Zhou Hao had yet to completely fuse with the void beast, so he did not know any tactics for the time being. However, if he continued fighting, the beast would be directly killed sooner or later!

When it realized this, the beast's eyes were immediately filled with incomparable panic!

It strode forward and quickly rushed forward!

Zhou Hao's expression suddenly became very gloomy. Then, he quickly chased after the other party angrily!

Although Zhou Hao had yet to complete the fusion, his physical strength and endurance had already reached a certain level. If his strength erupted, he would not be underestimated!

The beast also acutely sensed the danger this time. Its breathing began to become hurried. Then, it attacked Zhou Hao before running into the distance crazily!

However, Zhou Hao's speed was not that simple.

Moreover, he could easily dodge this attack. A moment later, he quickly chased after the beast and grabbed its back!

Although the skin of the beast was very rough and especially hard!

However, with Zhou Hao's current body, his strength could not be underestimated. Zhou Hao easily tore open the skin and flesh on the back of the beast!

The Gesgard suddenly roared. It stood up angrily and turned around, prepared to fight Zhou Hao to the death!

Zhou Hao did not care. He jumped and was extremely fast. He was like a bolt of lightning as he quickly flew over the head of the beast!

Zhou Hao's two claws directly grabbed the shoulders of the Gesgard, and a valiant strength suddenly erupted!

With a bang, blood-red rain immediately spread out in the sky!

The beast screamed in pain. Before it could react, it was directly torn to pieces by Zhou Hao!

Zhou Hao stood rooted to the ground and slowly lowered his head. He looked at the beast he had torn apart and revealed a satisfied smile.

"So what if it's your territory? Didn't I still kill you in the end?"

Zhou Hao picked up the fragmented Gesgard on the ground and opened his mouth to devour it.

The moment he finished devouring the monster, Zhou Hao immediately felt that his physical strength, endurance, and strength had increased greatly!

However, just as Zhou Hao was about to use this power to continue the fusion, a sudden change happened!

The surrounding ground exploded with even more intense trembling!

It seemed that several monsters were itching to break out of the ground!

Seeing this, Zhou Hao's expression immediately became vigilant. He swept his gaze around solemnly and subconsciously took a few steps back, trying to pull away from them.

However, in the next second, something shocking happened!

Not only did a group of huge and ferocious beasts appear in front of him, but even the space behind him had undergone such a change!

In an instant, an extremely intense vibration spread out for several kilometers!

After sensing the change, the surrounding aura exploded with a bang. Immediately after, countless different-shaped monsters quickly chased after them!

Seeing this, Zhou Hao was shocked to discover that these monsters were all hidden underground!

It seemed that what he had seen previously was only the tip of the iceberg. It was still unknown how many monsters there were here!

Perhaps coming here was not a good thing!

A moment later, Zhou Hao immediately made up his mind. No matter what, he had to escape first!

Soon, a huge void beast rushed into the distance at an extremely fast speed!

Zhou Hao had sensed danger. If there were one or two monsters hiding here, he was confident that he could easily kill them.

But now, if thirty to forty or even a hundred such monsters appeared, Zhou Hao might not have any chance of winning.

When he realized this, Zhou Hao quickly turned around and ran forward crazily!

Unexpectedly, these monsters behind him were not to be trifled with!

When they realized that Zhou Hao was planning to escape, they quickly chased after him, trying to stop him!

Zhou Hao was shocked and immediately sped forward. Unexpectedly, these monsters were even faster and caught up to him in a few steps!

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 714 - Fusion

Chapter 714: Fusion

Seeing that the speed of these monsters was getting closer and closer to him, Zhou Hao felt a valiant pressure quickly roar towards him!

After sensing this feeling, Zhou Hao immediately jumped and tried to rely on his flying speed to shake off these monsters.

However, their speed did not seem to decrease at all. Instead, it became faster and faster!

They were even about to catch up to him. There were also a few monsters that quickly ran forward as they jumped up, as if they wanted to bite him!

This made Zhou Hao immediately feel that something was wrong!

More and more monsters gathered. There were already hundreds or even thousands of them!

Zhou Hao's entire body was covered in cold sweat.

His expression was somewhat panicked and helpless. As more and more monsters gathered, the surrounding aura was also filled with pressure!

Zhou Hao, who was in a desperate situation, suddenly erupted with unprecedented strength!

After this strength erupted, it immediately sped up the fusion between Zhou Hao and the void beast. He immediately felt as if his entire body was being burned by flames. It was very painful!

The monsters seemed to have sensed danger and immediately stopped in front of Zhou Hao.

Zhou Hao's entire body suddenly emitted a yellow light!

After such a yellow light exploded, Zhou Hao had completely fused with the void beast!

Zhou Hao was shocked. He looked at his incomparably huge body in surprise and became much more energetic!

He did not expect to complete the fusion with the void beast in a desperate situation. Such a matter was really shocking!

In the next moment, Zhou Hao swept his fierce gaze over the hundreds of thousands of monsters in the distance.

The eyes of this group of monsters were filled with ferocity. They licked their lips and stared at Zhou Hao with red eyes.

They seemed to be preparing to immediately chase after Zhou Hao after finding the right opportunity to tear him apart!

At this moment, Zhou Hao could also understand what these monsters were thinking. His expression was dark. Suddenly, he opened his abyss mouth and roared at these monsters!

In the next moment, the monsters seemed to have gone crazy as they quickly ran in the opposite direction!

Seeing this, a cold smile appeared on Zhou Hao's face. He sneered and said word by word, "Hehe, do you think you can come and go as you please? Aren't you thinking too simply?"

At this moment, the frog's face was also filled with excitement. It clapped its hands excitedly and shouted excitedly, "Quick, quick!"

"Quickly devour these monsters. Eat their cores and your ability will increase rapidly!"

Zhou Hao nodded and immediately followed the frog's instructions!

Zhou Hao opened his mouth and faced the hundreds of thousands of ferocious beasts in the distance!

The moment Zhou Hao opened his mouth, countless monsters immediately soared into the sky!

Their legs and feet were constantly flapping, but it was still useless. All of them quickly flew towards Zhou Hao's bloody mouth!

In the next moment, something shocking happened. Zhou Hao opened his bloody mouth, and countless monsters rushed into his stomach as if they had gone crazy.

In less than five minutes, all the monsters were swallowed by Zhou Hao!

Seeing this, the frog's face was filled with excitement!

It clapped its hands excitedly, its eyes filled with excitement. It chuckled and said, "Hehe, your current strength and level has indeed exceeded my imagination!"

"If this continues, your strength will definitely increase greatly. The monsters here should be enough for you to improve for a long time!"

Zhou Hao felt his body constantly digesting and smiled in satisfaction.

“Hehe, actually, this is nothing. This is because most of the monsters I devour now are low-level monsters.”

“It’s equivalent to an adult fighting a group of primary school students. Therefore, the difference in strength is naturally huge. I’m afraid that there will be even more powerful monsters waiting for us...”

After Zhou Hao said this, the frog’s expression also became a little anxious.

It pondered for a moment and suppressed the nervousness and unease in its heart. It slowly said softly, “That’s for sure.”

“After all, we just arrived here. We still don’t know what the surrounding environment is like. We need to investigate carefully.”

The frog smiled and said calmly, “Therefore, it’s still too early to jump to conclusions.”

Zhou Hao did not speak. He closed his eyes and carefully sensed this aura. The aura gradually melted in his body.

Zhou Hao’s expression gradually revealed a vigilant expression. He suddenly looked into the distance, and his expression became very vigilant.

“What’s wrong?”

After seeing Zhou Hao’s reaction, the frog’s expression revealed surprise as it asked in confusion.

“In the distance, a different aura spread out. It’s about three kilometers away.”

These words made the frog reveal a surprised expression.

It could not help but look at Zhou Hao hesitantly and ask in confusion, “You can even sense auras that are three kilometers away now?”

“Mm.”

Zhou Hao nodded, his face filled with determination. He slowly said again, “The aura of a monster is very different from that of a mutated beast.”

“Although both auras are very powerful, they’re very different and can’t be mixed up. If not for the fact that I’ve already fused with the void beast, I wouldn’t have been able to sense the existence of this aura at all.”

With that said, Zhou Hao suddenly raised his eyebrows and licked his lips. He chuckled and said, “Looks like we should go and see what’s waiting for us.”

Swallowing monsters to obtain energy. How could Zhou Hao miss such a thing?

The current him had to become even more powerful to protect himself and become the strongest!

Chapter 715 - Inherited Memory

Chapter 715: Inherited Memory

Zhou Hao naturally would not let go of this opportunity. He originally thought that there was nothing special on this moon, but now, it seemed that there were really many secrets on this moon!

Zhou Hao's body moved and he headed there.

"The closer I get, the more I can sense that aura."

After Zhou Hao approached, as a void beast, his nerves were very developed at this moment. If he was a human, he would not be able to sense it at all. But now, he could clearly sense it.

"This aura... Heavens, you can even sense it? If I'm not wrong, this should be... a growth fruit!"

The frog said excitedly. They saw a small sapling in an abyss. It was very small, but the strange fluctuation was emitted from here.

"Growth fruit? What's that?" Zhou Hao could not help but ask.

"It's an extremely ancient holy item. Once this thing matures, it can help one break through their bloodline. Originally, it was already extinct. I didn't expect to see one here!"

The frog immediately smiled.

"Zhou Hao, since it has taken root here, don't touch it rashly. The survival rate of this thing is very, very low. In any case, this is the moon. Nothing will come here. You have already fused with the void beast. Open its memory inheritance now!"

Although Zhou Hao could already control this divine body freely and had completely fused with it, it was still only a physical fusion and not a mental one.

The intrinsic inheritance of the void beast was in its bloodline. Therefore, if he wanted to activate it, he had to fuse with mental strength!

Zhou Hao nodded and burrowed his huge body into the ground. He found a safe place and directly immersed himself.

Then, Zhou Hao felt an extremely huge piece of information directly appear. All kinds of memories were completely fused into Zhou Hao's soul.

There simply was too much memory. It lasted for seven days!

After seven days, Zhou Hao rubbed his swollen head and took a deep breath to recover.

"Heavens, so many. How impressive. As expected of a noble race in the universe!"

Zhou Hao was shocked. His soul was probably unable to withstand so many memories. Fortunately, Zhou Hao had the spirit gem. Otherwise, he would definitely be crushed by this huge mental strength.

"Zhou Hao, that's great. Have you received your memories?" the frog immediately asked.

"Yes, there's simply too much. There are too many cultivation techniques here. There are more than ten thousand types. There are also many other techniques, beast taming, alchemy, and so on. Heavens, there are so many things. How am I supposed to learn them?"

Zhou Hao said gloomily.

"You're really stupid. Why are you learning these things? It's not too late to learn when you need them. Just because you've gotten lucky doesn't mean you have to learn all of them to show off! I'm afraid even the Luo God Race doesn't have so many cultivation techniques. You can now be said to be rich enough to rival a country. No, you're so rich that you're comparable to a star!"

The frog rolled its eyes at Zhou Hao angrily.

"Although there are many cultivation techniques, this void beast must have an intrinsic technique. Take a look."

The frog immediately urged.

Zhou Hao nodded and directly checked.

“Natal cultivation techniques, ‘Devour’, ‘Void’, and a special cultivation technique, ‘Crossbow Cultivation Technique’.”

Zhou Hao explained the three cultivation techniques, and the frog immediately nodded.

“What are their uses?”

Zhou Hao read on and was even more shocked.

“This Devour cultivation technique can allow the void beast to devour everything and store things in its special space, turning them into essence energy that can then be absorbed by the body.”

“The void beast’s body is very powerful and requires a lot of nutrients. It needs to constantly eat to break through. Although it’s currently at the Saint Realm, it’s only been born for three years. It’s because of this devouring cultivation technique that it can accumulate huge amounts of energy to break through.”

“As for the Void cultivation technique, it’s even more powerful. It’s the void beast’s life domain cultivation technique. This cultivation technique is also the famous ultimate technique of the void beast. It can connect to the void and allow it to travel in the universe at a very fast speed. Moreover, most importantly, once this domain is used, it can isolate all spatial fluctuations. It’s a trump card and an escape technique of the void beast!”

“The last crossbow cultivation technique is a mental strength attack. According to my understanding, mental strength can be used to control other foreign races. Basically, the void beast can condense its mental strength into the Evolution Crystal. Otherwise, it could also use the essence crystal, which is also another method of the crossbow cultivation technique. By condensing its blood into the Evolution Crystal, it can emit strange fluctuations and control the mental strength of other mutated beasts. It pretty much acts like a mind-controlling crossbow!”

After Zhou Hao finished speaking, he was somewhat shocked. This was simply invincible!

“No wonder the void beast is so powerful. With a cultivation technique, what’s there to worry about?!”

The frog was also shocked.

“These are only its intrinsic cultivation techniques. Their void lineage still has many powerful attack techniques. However... there are too many. I have to slowly sort them

out. Sigh... as expected of the highest bloodline in the universe. Their memory is really impressive!"

Zhou Hao could not help but say, feeling shocked.

"Hehe, of course. By the way, this void beast is currently at the third-grade Saint Realm. Does it only need to devour to break through?"

The frog did not know much about the void beast, so it could not help but ask.

"That's right, it just needs to devour. It can devour minerals and even laws. As long as it exists, it can devour it. This devouring power is the innate ability of the void beasts and the reason why they became a powerful lineage in the universe!"

Zhou Hao could not help but say. After he finished speaking, the frog drew a cold breath.

"How impressive!" The frog was also shocked.

"Also, the Void Beasts are not the only lineage... There are a total of six lineages. Other than the Void Beast, there are also the Diamond Beast, the Lightning Beast, the Explosive Beast, and so on. The six of them have the noblest bloodlines in the universe, and their ancestor is... the Star Beast!"

After Zhou Hao finished speaking, the frog was immediately stunned!

"What? Do you mean they're the descendants of a Star Beast?"

"This Star Beast is an absolute overlord in the universe. It can even devour a small universe. I didn't expect it to actually have six bloodlines, including the Void Beast. No wonder this Void Beast is so powerful. It turns out that its ancestor was a Star Beast!"

The frog had some understanding of the Star Beast, so it was extremely shocked.

However, Zhou Hao did not know much. There was not much about the Star Beast in their memories. Therefore, Zhou Hao also asked curiously, "Is this Star Beast very powerful?"

Chapter 716 - The Shameless European Union

Chapter 716: The Shameless European Union

The frog immediately nodded.

“Nonsense, they’re not just powerful. They’re a big shot who can break through the shackles of the universe and reach eternity. Do you know what eternity is? That’s immortality!”

Zhou Hao blinked, still a little confused.

“But in my memories, why is the Star Beast already dead? Isn’t it immortal?”

Zhou Hao’s question immediately made the frog embarrassed.

“Uh... I don’t know either. It’s supposed to be immortal, but I really don’t know why the Star Beast died. Perhaps... it doesn’t want to live anymore?”

This answer was really a little perfunctory. Zhou Hao looked at him angrily.

“Alright, I’m going to condense my human clone. If this continues, I won’t be able to return to Planet Earth.”

As Zhou Hao spoke, he ignored the frog and began to condense.

At this moment, a storm was brewing on Planet Earth.

In the European Union, Paul was very shocked when he learned that Zhou Hao’s family had disappeared.

“What did you say? Zhou Hao’s family actually disappeared? Moreover, we don’t know where the Battle God Battalion went? How is that possible?”

Paul did not believe it. Zhou Hao was a hero. They would definitely treat his family well. How could they not be able to find him?

“That’s indeed the case. I used many methods and even checked the precious information of the Battle God Battalion, but I couldn’t find their whereabouts. I even secretly captured a few Heaven Realm experts in their residential area and interrogated them with my mental strength, but I couldn’t find their whereabouts. I think it must be Zhou Hao’s backup plan!”

That person could not help but say with a solemn expression.

“Hmph, how cunning. This Zhou Hao is still so troublesome even after he died. As expected of a half-step Saint Realm expert. Interesting!”

“This makes me believe that Zhou Hao’s inheritance must be in the hands of the Zhou family!”

Paul snorted and said directly.

“Looks like if we don’t teach them a lesson, they won’t understand that our anger is not something they can withstand at all!”

As he spoke, Paul smiled and whispered into the person’s ear. When the person heard this, he immediately smiled.

In the Huaxia territory, after this battle, the situation had also changed.

Because of the void beast, the Mutated Beast Alliance had suffered a lot of losses. Therefore, they directly retreated and did not dare to face the humans.

Many factions in the Nine Provinces belonged to the Battle God Battalion, including the seven large divisions.

Although they had always been restricted by the Battle God Battalion, after this, they would have to rely on the Battle God Battalion even more.

Many cities in the Nine Provinces that had been destroyed were also being repaired. The various factions in the Nine Provinces had organized an alliance and were based in the Battle God Battalion.

Other than Sword King Qing, their Alliance President was Heavenly King Zhu. The two of them had replaced Senior Ji and Senior Lingtian and were busy with the construction and recovery of the Nine Provinces.

Of course, there was also the matter of nurturing future martial artists.

Many peak-level experts of the Alliance had died, and the impact was very serious. However, it did not affect the others much, so they were still able to quickly get on the right track.

Sword King Qing and Heavenly King Zhu were in the office, listening to the report from the people below. They frowned.

“Although we have a lot of resources now, the European Union is really shameless. Although they don’t come over openly to demand for resources, they’re still secretly stealing our resources, especially the raw stones in the deep sea. They have already stolen the resources of two bases.”

“There are also the figures of their people in the ancient ruins. In fact, they even sneaked in. After Senior Ji fell asleep, the security measures of the ancient ruins were basically suspended. Especially Senior Ji’s warship, which is the main hub. Now that Senior Ji is also asleep, the ancient ruins can no longer be hidden with the energy barriers. It’s very easy for them to detect it.”

Sword King Qing and Heavenly King Zhu were so furious that they did not say anything. However, what could they do? Even if they confronted the European Union, they would not admit it.

Since they could do such a thing, they definitely could argue their way out of it!

Just as Sword King Qing and Heavenly King Zhu were feeling depressed, footsteps suddenly sounded from outside the door. Then, they saw a few figures rush into the meeting room.

“Sword King Qing, Heavenly King Zhu is in trouble. A fight broke out outside the thirteenth ancient ruin. The other party sent six Heaven Realm experts and injured one of our people. The Fire God Team’s Veteran has a leg broken and is severely injured. Scholar and the others are also injured!”

After saying this, Sword King Qing and the others’ expressions suddenly changed.

“Damn, these bastards!”

As he spoke, Sword King Qing and Heavenly King Zhu immediately rushed over.

Soon, they arrived at the thirteenth ancient ruin. From afar, they saw the two sides facing each other. Scholar and the others were all injured. Opposite them stood a few Heaven Realm experts from the European Union, looking at them coldly.

“Hmph, we can be considered old acquaintances. Although you were the ones who discovered this thirteenth ancient ruin, it’s still our Planet Earth’s property. We have the right to enter and train. On what basis are you not letting us in?”

“That’s right. All the alliances on Planet Earth are united now and have to deal with the future danger. What if another void beast appears? Therefore, we have to become stronger as soon as possible. What’s the meaning of this? Why are you guarding such a good thing and not letting us use it? On what basis?”

These words could be said to be very shameless.

They themselves had holy water and ruins but had never shared them.

“Mike, cut the crap. Who can’t tell what you’re thinking? This ruin has already been signed as our property. We’re the ones holding it. You have no right to interfere!”

“Even if you want to enter, you still have to report and go through our review. Now that you’ve directly come over, are you going to barge in and embarrass us?”

Xue San immediately said. He was also injured. The three of them were naturally unable to defeat the six Heaven Realm experts opposite them. The weakest, Veteran, was even severely injured and had a leg broken.

“You still care about being embarrassed? Why are you guys so hypocritical? We’re also only doing this for the sake of Planet Earth. Aren’t you residents of Planet Earth? Is it just because you can’t stand it when you see our European Union becoming more powerful? I think you guys are the ones who’s hypocritical!”

Mike snorted and said directly.

“Bullsh*t!”

Veteran was furious. He struggled and was about to attack when the sound of rushing wind sounded from the distance. Sword King Qing, Heavenly King Zhu, and the others had already rushed over and were looking at the people from the European Union with cold expressions!

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 717 - Threat

Chapter 717: Threat

Sword King Qing was even more furious when he saw Veteran and the others being beaten miserably.

“The people of the European Union are really bold to dare to invade our Huaxia’s assets. Do you really think our Huaxia is a pushover?”

As he spoke, Sword King Qing immediately drew his sword, and his powerful twelfth-grade Heaven Realm combat strength directly erupted.

At that moment, Mike’s expression immediately changed.

“Honorable Sword King Qing, we don’t have any other intentions. We just want to increase our strength for Planet Earth. Is it wrong for us to do this?” They were still quibbling.

“Hmph, how dare you try to use such words to fool me. You’re really shameless to the limit. Since you people from the European Union are shameless, I’ll teach you a lesson on behalf of your European Union!”

As he spoke, Sword King Qing was about to attack.

However, at this moment, three twelfth-grade Heaven Realm auras exploded, and then a cold snort sounded.

“Sword King Qing, are you declaring war on our European Union?”

Paul and the other two appeared in the air and looked down at Sword King Qing and the others coldly.

Sword King Qing had long known that the Heaven Realm experts of the European Union must have received the decree of the European Union for them to dare to do this. Otherwise, how could they have such courage?

“I was wondering why your people were so fearless. It turns out that you guys are supporting them from behind. Paul, don’t you know that you’ve crossed the line and broken the alliance law?”

Sword King Qing immediately said.

“Sword King Qing, times have changed. We can’t look at the problem with old eyes now. Our Planet Earth has suffered serious losses and the experts are all asleep. Now, we urgently need experts to grow. As a large country, shouldn’t your Huaxia be more generous? Could it be that you only care about yourself and don’t care about others?”

Paul was also shameless and directly revealed his true colors.

“Paul, you should know very well who’s shameless. If you want to snatch it, just say so. Why do you have to make it sound so magnificent? How laughable!”

Sword King Qing did not have a good expression and immediately said.

“Hehe, Sword King Qing, you’re making a big deal out of this. Our European Union also contributed to the war against the void beasts on Planet Earth. Our half-step Saint Realm experts are also asleep. Many of our twelfth-grade Heaven Realm experts have also chosen to sacrifice their lives. If you say this, you’re profaning the dead.”

“I’m doing this completely for Planet Earth. After all, we need to grow now. You can’t deny that, right?”

“Also, your Huaxia has so many resources. Shouldn’t you share them? At this moment, do we still need to differentiate between each other?”

Paul smiled. His shameless appearance was disgusting!

“Paul, you’re dreaming. Don’t even think about touching our Huaxia’s resources!”

Sword King Qing and Heavenly King Zhu’s attitudes were also very firm.

“Is that so? In that case, I’m sorry!”

Paul snorted and the three of them walked over. Their powerful twelfth-grade Heaven Realm combat strength erupted!

At this moment, Planet Earth’s twelfth-grade Heaven Realm strength had already reached the limit.

“Since you’re unwilling to share, we can only offend you. Everything is for the sake of the humans!”

As they spoke, the three of them were about to attack when a powerful force condensed.

Sword King Qing and Heavenly King Zhu’s expressions were extremely ugly. They were very furious, but there was nothing they could do. After all, the European Union was currently the strongest. They had always been so shameless and unscrupulous!

“You want to snatch it? Alright, I’ll see if you have the ability!”

Sword King Qing immediately took out his huge sword. It was a divine sword he had brought from the ruins. The material was very extraordinary and powerful.

Paul narrowed his eyes and sneered. The three of them were twelfth-grade experts and were not afraid of the two of them at all.

Moreover, they did not come alone today.

“North America, South Korea, and Africa, are you guys just going to watch?”

As soon as he finished speaking, Sword King Qing and the others’ expressions suddenly changed. At the same time, six powerful twelfth-grade Heaven Realm auras erupted. Then, six people appeared and stood beside Paul and the others. There were a total of nine people!

Nine twelfth-grade Heaven Realm experts were not something Sword King Qing and the others could resist at all!

This also made Sword King Qing's expression turn ugly.

He did not expect Paul to be so shameless. It turned out that the other party was even working with the other alliances.

Originally, he thought that with the restriction of the alliance law, they would not dare to act rashly. But now, it seemed that he had underestimated their ambition!

"Are you planning to attack my Huaxia Alliance?" Sword King Qing gripped his sword tightly, filled with anger.

"Sword King Qing, don't say that. We just want to receive your Huaxia resources. At most, we'll pay."

"That's right. We're just borrowing it. Moreover, we're all humans from Planet Earth. We should be united against a common enemy. Don't let this affect our harmony!"

"That's right. We're all doing this for Planet Earth now. I know you must be feeling upset, but time and tide wait for no man. We have to grow quickly. Otherwise, how are we supposed to resist the foreign races from outer space?!"

They were all benevolent and virtuous, but their eyes were filled with greed!

"Pay? Borrow? How laughable!"

"Do you even believe it yourselves after saying this?"

Sword King Qing was not stupid. If he lent the resources out, there would really be no turning back!

"Sword King Qing, if you say so, we're also very helpless. We can only offend you."

After the nine of them finished speaking, they also looked coldly at Sword King Qing and Heavenly King Zhu!

Their current intention was very simple. They wanted to occupy the thirteenth ancient ruin because this ancient ruin was a training ground that could quickly increase their combat strength!

Moreover, this could also increase their future chances of gaining more resources. Once they succeeded this time, they would have a way to make Huaxia vomit more!

Sword King Qing and Heavenly King Zhu understood this. They clenched their fists tightly, their expressions extremely ugly.

“Sword King Qing, let me give you a suggestion. If you take the initiative to hand it over, we’ll still be good allies. If you’re really stubborn and we really fight, I’m afraid no matter how powerful you are, you won’t be able to stop the nine of us!”

“Think about it. If the Huaxia Alliance didn’t have you and Heavenly King Zhu, what would have happened to you guys?”

“I don’t have to say anything else, right? Therefore, let’s not go overboard, right?”

Paul smiled. His words were not a discussion, but a blatant threat!

They wanted to threaten Sword King Qing to hand over this thing and also tell him that if he did not hand it over and really attacked, their Huaxia would definitely be destroyed!

Without Sword King Qing and Heavenly King Zhu, the Huaxia Alliance could not withstand a single blow!

Chapter 718 - Helpless

Chapter 718 - Helpless

"Youâ€¦"

After Sword King Qing and Heavenly King Zhu heard their threat, their expressions suddenly became extremely ugly!

It had to be known that they were currently facing the threat of nine twelfth-grade Heaven Realm experts!

If they continued to resist, who knew what these people would do to them!

In order to ensure their safety, they had no other choice but to compromise.

Now, the strongest and most powerful experts on Planet Earth were already standing here.

There were a total of eleven people, but now, nine of them had stood up to threaten the two of them!

If they continued to resist, the nine of them would work together and kill them. At that time, they would be in danger!

Now, they had no other choice. There was only one way, and that was to compromise!

Sword King Qing and Heavenly King Zhu's expressions darkened. Then, they looked at the group of people in front of them with solemn expressions. Their lips moved. After hesitating for a moment, they said coldly, word for word, "Alright, we can agree to you, but we have our conditions!"

/

"conditions?"

After Paul heard Sword King Qing's words, a sneer and ridicule appeared on his face. They looked at the two of them in unison, their mouths filled with disdain.

"I hope you guys can figure something out. You don't have the right to reason with us now!"

"If we kill you and directly snatch the thirteenth ancient ruin, what can you do?"

Sword King Qing and Heavenly King Zhu's expressions instantly turned ugly.

However, facing such a threat, the two of them did not have the slightest intention of compromising. A mocking expression appeared on their faces before they said coldly, "Hehe, is that so?"

"In that case, let's just destroy everything together. Even if we directly destroy the thirteenth ancient ruin, we definitely won't let you succeed!"

Heavenly King Zhu's face was filled with seriousness. He frowned and looked at the group of people in front of him with a gloomy expression. He simply did not care about the other party at all!

Since they wanted to push their limits, everyone should just die together!

In the beginning, Paul was still confident and smug. But now, after hearing such words, he had no choice but to become solemn and prepare to re-evaluate this scene!

Paul's expression was solemn. He frowned and looked coldly at Heavenly King Zhu and Sword King Qing in front of him. After pondering for a moment, he said coldly, "Alright!"

"I can agree to it. Tell me first, what are your conditions?"

Paul narrowed his eyes, his expression filled with danger, as if he was thinking about something. After hesitating for a moment, he nodded and looked at Heavenly King Zhu.

Heavenly King Zhu and Sword King Qing looked at each other and pondered for a moment before slowly saying, word for word, "You have to sign a rental agreement and pay annually!"

Paul was stunned for a moment before a smile of understanding appeared on his face.

He turned around and looked at his companions behind him. When he saw that their faces were also filled with smug smiles, he immediately nodded and agreed.

"Alright, let's do as you say and sign the agreement!"

After saying this, the group immediately began to sign the contract.

Sword King Qing and Heavenly King Zhu watched as the agreement was signed. Although their faces were filled with helplessness, they had no choice!

After all, even if they signed this rental agreement, no one could do anything if they still decided not to pay!

It was just a contract. It was easy for them to violate it!

Soon, the agreement was signed.

Paul narrowed his eyes and looked at Heavenly King Zhu and Sword King Qing dangerously. He smiled and said proudly, "Here, the contract has been signed. Our deal has been reached!"

After Sword King Qing and Heavenly King Zhu left, the nine twelfth-grade Heaven Realm experts of the four alliances immediately gathered together.

"We've already obtained the thirteenth ancient ruin. What should we do next?"

Facing this group of people's questions, a smug smile appeared on Paul's face.

He slowly clenched the contract in his hand tightly and smiled calmly. He snapped his fingers and said, "Planet Earth is huge and rich in resources. How can there only be one thirteenth ruin?"

After saying this, everyone present immediately held their breaths!

They looked at Paul in front of them in unison. After hesitating for a moment, they could not help but ask anxiously, "So, you meanâ€¦!"

"That's right!"

Paul's eyes were filled with danger.

He smiled and slowly said, "I remember there's a sea area that contains extremely rich black iron."

"If we take the black iron for ourselves, the weapon quality we forge can be said to be the highest in the world!"

After saying this, the eyes of many people present immediately lit up!

Paul was right!

In this world, the hardest material was black iron!

Even the most basic weapon forged from black iron would be invincible and could cut iron like mud.

With this thought in mind, they agreed immediately and decided to send the strongest person to snatch the black iron contained in the sea area!

"This time, we only need to send some martial artists over to easily deal with them. Our apprentices, Mike, Celine, and Jonathan, will go together. Now, I'm afraid there's no one in the world who can defeat us."

A confident smile appeared on Paul's face. Then, he slowly said calmly, "The three of them will be enough!"

"Alright!"

In the blink of an eye, the three of them immediately prepared to snatch the resources!

At the same time, a group of warriors in mechas and weapons was patrolling the surroundings of the coastline.

,m Now that the mutated beasts were rampant and the entire world was facing danger, no one knew when they would be attacked!

The most important thing now was to become stronger as soon as possible. Otherwise, it would be a fantasy for them to resist foreign enemies or mutated beasts in the future!

At this moment, a rumbling sound suddenly sounded in the sky.

The warriors who were originally patrolling looked up in unison, but they did not discover anything abnormal.

However, in order to prevent any mistakes, the group still rushed to the combat command center!

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 719 - Battle Invasion

Chapter 719: Battle Invasion

After arriving at the combat command center, everyone discovered that the leader of the combat command room, Zhang Kaixuan, was staring at the screen on the table with a solemn expression, constantly controlling the device in his hand.

Seeing this, the group looked at each other and immediately had a bad feeling.

“Captain, we found something suspicious!”

One of them had a very solemn expression. He quickly walked to Zhang Kaixuan’s side and said anxiously.

“Speak!”

Zhang Kaixuan said without looking up. At this moment, he had also discovered that something was wrong and was doing his best to investigate the problem.

The few of them looked at each other and immediately said, “When we were patrolling the coastline, we heard a sonic boom!”

“However, we didn’t see any abnormalities. In order to ensure the safety of our coast, we decided to immediately report this news to you!”

Their voices were especially solemn!

Because this was a special period, everything had to be treated specially.

They could not let go of any clues. Otherwise, the matter they had to face would be troublesome!

Soon, Zhang Kaixuan suddenly looked up and asked in surprise, "What did you say? Did you say that you heard a strange sound?"

The few of them nodded in unison and said with a solemn expression, "Captain, although we know that this might be our imagination, but..."

"We suspect that the enemy has sent invisible fighter planes to investigate our defense system and plan to invade!"

Boom!

These short words immediately exploded in everyone's hearts!

Especially Zhang Kaixuan. His expression instantly turned extremely ugly!

He subconsciously clenched the handle on the machine and said solemnly, "Actually, I've also discovered what you're talking about."

"Half an hour ago, the radar detected a small fluctuation, but this fluctuation was extremely subtle. Our equipment is unable to capture it!"

"There's definitely no mistake with the machine. Unless there's an extremely advanced high-tech device, it's impossible for us to not be able to detect any news!"

Zhang Kaixuan's expression immediately became extremely solemn. He looked at the screen in surprise, and even his breathing quickened.

It had to be known that if the explosion they heard this time was really a high-tech combat weapon, they would be in danger!

At that time, what they would face would not be simple!

This concerned the safety of the entire country!

If they were unable to sense the potential danger, they would be in real danger!

Zhang Kaixuan clenched his fists tightly. After pondering for a moment, he suddenly ordered, "Pass down my order. Secure our defense and increase our vigilance. Once you discover the enemy, you don't need my permission. All deployed teams can directly order an attack!"

After saying this, the few people standing around instantly understood what Zhang Kaixuan meant!

His meaning was obvious. He was clearly planning to cause a bloody storm!

Many people instantly reacted. The danger they were about to face in the future might be incalculable!

Otherwise, Zhang Kaixuan would not have given the order to kill!

The expressions of the group instantly became extremely solemn. They looked into the distance in unison and subconsciously nodded, their faces filled with determination to die!

“Understood, Captain!”

At the same time, at the border area, a small invisible fighter plane was quickly flying over through the clouds!

The three people sitting in the fighter plane, Mike, Celine, and Jonathan, were wearing combat armor. Their faces were filled with determination to win. They sat in chairs and looked at the distant sky.

“We’re almost there. Are you guys ready?”

Jonathan turned around and looked at Mike and Celine. He smiled and slowly asked.

“We’re always prepared. If there’s any abnormality, we’ll definitely kill them quickly and snatch the black iron!”

Mike’s expression was firm. He had already packed his weapons and was 120% prepared. He planned to immediately attack!

“Hehe, Mike, you’re too nervous.”

On the side, Celine looked extremely calm. A smug smile appeared on her beautiful face. She looked indifferently into the distance and said word by word, “If we wanted to deal with those trash, why did we have to make such a big fuss?”

“In the end, we will still be able to easily kill these trash ants with a single move.”

“Their experts are already asleep. When they wake up again, we might have already taken this place for ourselves!”

After Jonathan heard this, his face was filled with smugness and pride.

He smiled and slowly said, “Hehe, Celine is right. When the time comes, those experts will only be worthy of cleaning our shoes!”

In the invisible fighter plane, the three of them chatted and laughed. The atmosphere was relaxed.

The three of them easily crossed the border and arrived above the coastline. Before they could approach, the invisible fighter plane sounded a beeping alarm.

“They actually increased their vigilance?”

Mike’s expression instantly became solemn. He looked into the distance with a dark expression and subconsciously sat up straight.

“Don’t be nervous. So what if they increase their defenses?”

“Their radar can’t detect our invisible fighter planes!”

“By the time they discover our fighter planes, our missiles will have long blasted their base into pieces!”

Celine and Jonathan’s faces were filled with confident smiles. They did not care about this at all and looked calm.

Jonathan had always looked down on this group of people. Seeing this group of people being aggressive and resisting the foreign enemies, his face was filled with ridicule and contempt.

“Hehe, these ants want to be compared to me? How laughable!”

Jonathan swept his gaze over the panel of the invisible fighter plane, his face filled with gloom. He suddenly pressed the firing button, and then countless missiles were quickly fired!

At the same time, in the combat command room.

Zhang Kaixuan’s expression was extremely solemn. His eyes were fixed on the detector board in front of him. As long as there was the slightest movement, he would be the first to discover it!

“Reporting! We have discovered a huge potential threat in our territory. We request to engage in battle!”

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 720 - Battle Deployment

Chapter 720: Battle Deployment

Just as Zhang Kaixuan was looking into the distance vigilantly, a solemn-looking man in a combat uniform with a gloomy expression suddenly walked in from outside.

Before Zhang Kaixuan could look up, he saw an anxious alarm suddenly explode on the radar!

In the next second, dozens of red dots appeared on the radar detector!

These red lights represented extremely threatening missiles. Once they arrived at the territory, they would cause huge casualties!

“Not good! There’s danger. Immediately activate the first-level defense system and intercept as much as possible!”

The combat staff walked in together from the door. They had solemn expressions and were wearing the uniform of the combat division, waiting for orders!

At the same time, Zhang Kaixuan also said solemnly, “Listen to my order!”

“Team One, immediately lead ten combatants and fly into the sky to shoot down the enemy!”

“Yes!”

In the blink of an eye, the group immediately walked out and prepared to drive the fighter plane to begin the battle!

Zhang Kaixuan returned to the combat command center and activated the first-level defense system. He would send projectiles to intercept the incoming missiles

Boom! Boom! Boom!

Ten thousand meters in the sky, countless missiles smashed down like raindrops!

However, the special combat missiles of the European Union could actually prevent radar detection. Even if the first-level intercept system was activated, it was still unable to stop the bombardment!

Zhang Kaixuan’s temples throbbed violently as he watched countless missiles rain down. Their expressions instantly changed drastically!

In the coastal city...

Seeing that he was about to be blasted into ruins by these missiles, Zhang Kaixuan could only watch helplessly. There was nothing he could do!

Zhang Kaixuan's face was filled with fear. He tried his best to activate his defensive measures, but he was still helpless!

Seeing that in the distance, the land was constantly bombarded by missiles and was burning with large amounts of flames, Zhang Kaixuan's suddenly became extremely shocked!

He looked into the distance in shock, and his entire body began to tremble violently. He gritted his teeth tightly, not daring to believe what he was seeing. Even his breathing quickened!

The painful cries of countless citizens sounded like a curse that entered his ears, making him unable to breathe!

All of this was caused by the despicable European Union. If he could not stop this disaster as soon as possible, what they would face in the future would be destruction!

Just as Zhang Kaixuan was feeling worried, the dozen or so fighter pilots he had sent out just now had already flown 10,000 meters into the sky!

Their faces were filled with determination and determination!

The group of people formed a ten-person suicide team in order to protect peace and reignite hope!

In the next second, countless fighter planes roared and flew 10,000 meters into the sky. Their faces were filled with incomparable determination, as if they were about to start this battle in the next second!

Bang! Bang! Bang!

The sound of missiles falling from the sky instantly exploded around them. Zhang Kaixuan picked up the walkie-talkie and began to command the battle!

At the same time, after seeing this group of people counterattack, a cold smile appeared on the corners of Jonathan and the others!

"Hehe, this group of people actually dares to counterattack. Do you think our missiles didn't hit their heads hard enough?"

A dark expression appeared on Jonathan's face. He suppressed the anger in his heart and immediately said coldly, his eyes filled with displeasure, "Harder!"

“No matter what, we have to snatch the black iron today!”

“Yes, Captain!”

Mike and Celine immediately controlled their attacks. They increased the strength of their attacks, looking as if they wanted to bomb the entire place into pieces!

Of course, Zhang Kaixuan was not to be trifled with. He immediately ordered his men to use their strongest defensive measures to stop these missiles!

In the next moment, countless missiles roared and rushed into the sky 10,000 meters high. Immediately after, countless missiles exploded 10,000 meters in the sky!

Bang!

A huge explosion instantly sounded in the entire sky. In the next moment, the airflow that exploded in the entire sky kept trembling!

The violent airflow caused the invisible fighter plane the three of them were riding to tremble violently!

The three of them finally stabilized their minds. In anger, Jonathan suddenly controlled the plane and increased his attack!

Under the bombardment of countless missiles, more than half of the original combat defense team was immediately destroyed!

“Now!”

Jonathan looked at the burning ground, and an incomparably excited expression suddenly appeared on his face!

He immediately clapped his hands, his face filled with excitement. Then, he stood up and said to the two of them, “Let’s go and snatch the black iron now. After we succeed, we’ll immediately fly back!”

With an order, the two of them immediately began to prepare!

Seeing the invisible fighter plane fly over and arrive above the sea, Zhang Kaixuan’s heart immediately skipped a beat when he saw where the invisible fighter plane was flying towards!

Their goal was actually black iron!

If this group of people snatched the most precious treasure of the black iron, there would be extreme danger!

At that time, if these black iron were made into weapons that were used to attack their land, the situation they faced would become dangerous!

When they realized this, their expressions immediately became incomparably frightened!

They wanted to stop them, but it was already too late. Their current combat level was not as powerful as this group of people. Seeing that the other party was about to steal the black iron, Zhang Kaixuan was helpless!

“Continue chasing!”

Zhang Kaixuan slammed the table angrily. Just as he was about to give the order, he realized that their combat deployment team had suffered heavy losses!

Now, they could not even send a group of people to pursue and provide support!

This group of people could only watch helplessly as the European Union's invisible fighter plane quickly left this place!

“Damn it!”

Zhang Kaixuan's head was buzzing!

But now, there was nothing he could do. He could only stare in the direction of the combat strength leaving with hatred as tears fell from his eyes!

Chapter 721 - Going Too Far

Chapter 721: Going Too Far

This matter directly spread to the Battle God Battalion. After Sword King Qing and Heavenly King Zhu heard this, they were furious!

“This European Union is simply too shameless. Not only are they robbing us martial artists of our resources, but they're even robbing us of ordinary resources!”

Sword King Qing was furious. At this moment, two more reports were made.

“We received an urgent report that our military base in the desert has also been robbed. Our underground oil resources are gone.”

“There’s also a base in the primitive forest where a large number of military armor is stored. It has also been robbed!”

“Also, a few gold mines and diamond mines have been robbed...”

Looking at the information reported everywhere, Sword King Qing was simply furious!

The European Union was simply like a hungry dog. They did not let go of anything. Be it cultivation resources or mineral resources, they would snatch them if they could!

“They did it very secretly. Moreover, we were unable to react in time when they suddenly attacked. After that, they also directly retreated. We didn’t even leave behind any evidence!”

Hearing their report, Sword King Qing closed his eyes in pain.

“Even if we confront them, they won’t admit it. The European Union is now a thief and a bandit!”

“This is too much, too much!”

Sword King Qing and Heavenly King Zhu could not suppress their anger. They really wanted to go to the European Union and teach them a lesson, but they could not.

Ignoring the fact that the various alliances were monitoring all the experts of their level, even if they went, they would not be able to gain any benefits!

It was even to the extent that the European Union was doing this to start a war. As long as a war broke out, they could fight openly!

“What a good method, what a good method!”

Sword King Qing said angrily.

“By the way, is Zhou Hao’s family safe now?”

At this moment, Sword King Qing suddenly thought of something and could not help but ask.

“They’re very safe. They were secretly sent to the Hundred City in the Red Cliff Abyss. No one will suspect that they are there. We’ll also pretend not to know and continue to monitor them secretly.”

Hearing the report, Sword King Qing heaved a sigh of relief.

“That’s good. If I can’t protect Zhou Hao’s family, then I really won’t be able to face him.”

Sword King Qing sighed and could not help but say.

At this moment, Heavenly King Zhu could not help but say, “Our current situation is really too difficult. If this continues, I’m afraid we’ll be devoured before the war even begins.”

It was fine for them to be so worried. After all, the methods of the European Union were simply shameless!

They even used such shameless methods.

“There’s nothing we can do about it. Now, we have to secretly transport the resources of our human race to the bottom of the Battle God Battalion. That place is our last stand. Looks like we have to use the tunnel battle left behind by our ancestor again.”

Sword King Qing sighed and said helplessly.

Heavenly King Zhu was the same. He sighed and nodded.

Soon, many important resources were secretly sent to the base of the Battle God Battalion headquarters. That place was a thousand meters underground and could prevent any detection.

Even the strongest detective machine on Planet Earth was unable to detect it.

However, this news was quickly spread to the European Union!

“Hahaha, Sword King Qing and Heavenly King Zhu are really idiots. Originally, we didn’t know where their important resources were. Great, now that we know they’re all hidden under the Battle God Battalion, we can kill them all!”

Paul was excited when he received the news.

“Call the Heaven Realm experts of the other alliances. Tonight is the best opportunity for us to snatch it.”

After Paul gave this order, the other Heaven Realm experts quickly arrived. They directly crossed thousands of kilometers and arrived above the Battle God Battalion.

A twelfth-grade Heaven Realm expert was currently the strongest combat strength. The nine of them stood in the void and hid.

Although they had come secretly, Sword King Qing and the others had already received a message the moment those experts disappeared!

After seeing this message, Sword King Qing and Heavenly King Zhu were directly dumbfounded.

"It's over... they must have come to the Battle God Battalion. We... we... we've made a stupid mistake!"

Sword King Qing was immediately annoyed.

"Hahaha, Sword King Qing, Heavenly King Zhu, thank you."

At this moment, a sudden voice sounded in the Battle God Battalion. Then, nine twelfth-grade Heaven Realm experts walked in.

All the security personnel outside had fainted.

The nine of them felt very relaxed as if they were walking in their own backyard.

"You... you guys..."

Sword King Qing and Heavenly King Zhu's expressions were extremely ugly. However, before they could do anything, six people rushed over and instantly condensed a powerful array formation, directly imprisoning the two of them.

"We won't kill you, or we'll cause trouble. However, we'll take the items. Sword King Qing, Heavenly King Zhu, you're welcome to take revenge."

Paul laughed and punched open the underground door. Then, the nine of them jumped in and came out not long after.

The nine of them had smiles on their faces. Clearly, they were very happy about the treasures underground.

When they left, they removed the imprisoning array formation. However, everything was over. Be it Sword King Qing or Heavenly King Zhu, they could only endure their anger.

This was because they knew that if they really attacked, they would definitely die!

They did not have enough peak Heaven Realm experts, so they could only be annexed!

"Damn it! Bastard!"

Sword King Qing spat out a mouthful of blood in anger. He was very regretful and regretted being useless!

Heavenly King Zhu also aged a lot in an instant and sat on the ground dispiritedly, his eyes empty.

At the same time, on the moon, Zhou Hao was condensing his human clone.

Once it was condensed, he could use this body to unleash the strength of the void beast.

“This technique is really not bad. I can condense an essence clone and switch between the two bodies freely,” Zhou Hao could not help but say.

“This still can’t be considered a good technique. It’s still child’s play. A true clone doesn’t require you to switch back and forth. Instead, it’s a clone identical to you that you can control simultaneously. At that time, your combat strength will be multiplied by two!”

The frog sneered. These words surprised Zhou Hao. He had never known that there was such a method.

“I’m almost done with condensing my clones. I’ll be able to return to Planet Earth soon!”

Zhou Hao smiled. At this moment, Thousand Feather Armor’s voice sounded.

“Master, Planet Earth has undergone a huge change. Take a look.”

As he spoke, a long string of information directly entered Zhou Hao’s mind. When he saw this information, his expression changed on the spot!

“The European Union! Damn the European Union, they’re too much!”

Chapter 722 - Not Dead?

Chapter 722: Not Dead?

Zhou Hao was really furious when he saw so many things happen in the few months he had been gone!

“The European Union abused the Evolution Crystals last time and woke up the void beast, bringing us a huge crisis. If not for them, the seals would have been able to persist. At that time, perhaps Senior Ji and the others would have broken through to the Saint Realm and our Planet Earth wouldn’t have taken that drastic measure!”

“They did something wrong and caused Planet Earth to suffer so much damage. Yet, they actually targeted our Huaxia. They’re really courting death!”

Zhou Hao was very furious. This anger made him want to rush back immediately.

However, he still calmed down and asked, “Where’s my family? How are they?”

“Master, your family is currently in the Red Cliff Abyss and is secretly protected by the three Heaven Realm experts of the Battle God Battalion. There’s also your good friends, Yuan Cheng, Zhang Yi, Yun Yan, and the others there. There’s no problem.”

“However, Miss Xu Ling doesn’t know about this. She’s currently searching for your parents.”

Hearing this, Zhou Hao understood that his parents must have asked Zhang Yi and the others to do this.

Xu Ling was a good girl. After he died, she would definitely not leave him alone. This made his parents very sad when they saw her, which was why they chose to hide.

Although it was a little ruthless to do this, Zhou Hao still knew what his parents were thinking.

“Soon. In a few days, I’ll be able to condense a clone. At that time, I’ll make the European Union pay the price!”

As Zhou Hao spoke, he closed his eyes and focused on condensing his clone.

At the same time, in the Qu City Battle God Battalion International Residence, Xu Ling was very anxious.

“Where can Uncle and Auntie go? Where can they go?”

She took a deep breath and was extremely anxious. She had contacted everything she could, but she did not see Zhou Xueguo or Wang Shuyun.

Xu Chang sighed. As a smart person, he naturally understood.

“Zhou Hao is a very righteous person. His parents are the same. Sigh... Zhou Hao, if only you were still alive. I would definitely acknowledge you as my brother-in-law. Unfortunately... heroes have always been unlucky...”

Xu Chang thought to himself. Yun Yan and Fang Yu were also extremely worried when they saw Xu Ling like this.

“Xu Ling, don’t worry. Uncle and Auntie are protected by the Battle God Battalion, so they’re definitely safe. Although they said that they don’t know, they probably just don’t want you to know. After all... after all...”

“After all, what...?”

After Yun Yan finished speaking, Xu Ling hurriedly asked.

“After all... Uncle and Auntie like you very much. Zhou Hao... Zhou Hao is dead after all. They don’t want to delay your future because of him... You have to understand their painstaking efforts...” Yun Yan could not help but say.

Tears streamed down Xu Ling’s face. She naturally knew why Zhou Hao’s parents were doing this!

However, Xu Ling only had Zhou Hao in her heart. She could not love anyone else at all. Therefore, she also knew that these people were doing this for her own good, but she really could not accept it.

“Got it...”

Xu Ling turned around silently and left. Her heart ached. She put on her armor and arrived at the thirteenth spatial rift.

This place had long been turned into ruins. Without the foreign races’ attacking, this place had also been abandoned.

She sat alone on the mountain, feeling very painful.

“Zhou Hao, you’re gone. Although I’m not dead, my heart has still died... I really want to go with you... but... I can’t. I have to take care of your parents...”

Tears streamed down Xu Ling’s face, but at this moment, she suddenly felt an extremely powerful aura. She turned around and saw the Hundred Feet Worm King and the Silver Bone Bear King.

Xu Ling’s expression immediately changed because she could sense that these two guys were Heaven Realm experts.

On the other hand, she was only a quasi Heaven Realm expert and was still far from reaching the Heaven Realm!

Xu Ling immediately entered combat preparation, but the Hundred Feet Worm King and the Silver Bone Bear King did not attack. Instead, they looked at Xu Ling.

“May I ask if you’re Miss Xu?”

The Hundred Feet Worm King sensed a familiar aura from her. It was controlled by Zhou Hao's Beast Control Ring and naturally knew some information about Zhou Hao. Therefore, it knew very well that the woman in front of it was Zhou Hao's lover.

"That's right. What... what do you guys want?"

Xu Ling was very nervous. She put on the silver-white armor Zhou Hao had given her and was on guard.

"Miss Xu, you don't have to be afraid or worry. We won't attack you. Not only that, but I'm also Senior Zhou Hao's servant."

The Hundred Feet Worm King prostrated itself on the ground extremely respectfully. Even the Silver Bone Bear King lowered its body.

"Beauty, you don't have to be surprised. It's true. Back then, Brother Zhou and I worked together to enslave this Hundred Feet Worm King. Now, it has been controlled by Brother Zhou's Beast Control Ring, so it listens to Brother Zhou's orders."

The Silver Bone Bear King spoke in a rich and natural manner, making Xu Ling stunned for a moment.

"Are you serious?" Xu Ling asked worriedly.

"Of course. Look."

As it spoke, the Hundred Feet Worm King directly manifested the Beast Control Ring. That thing was imprisoned in the depths of its soul. Although it could not break it, it could still manifest it.

"This Beast Control Ring is in the depths of my soul."

Xu Ling was very surprised when she saw this. "But... but Zhou Hao is already dead. Is the Beast Control Ring still effective?"

"Dead?"

The Silver Bone Bear King was stunned for a moment and looked at the Hundred Feet Worm King.

However, the Hundred Feet Worm King shook its head. "No, Miss Xu, Senior Zhou Hao is not dead. If he dies, the Beast Control Ring will be automatically destroyed, and I will also die. Moreover, look, the Beast Control Ring is still connected to my spirit body and is still functioning. There is also Mr. Zhou Hao's spirit seal on it. I am proof that Mr. Zhou Hao is not dead."

The Hundred Feet Worm King shook its head. There was no doubt about this!

“What?!”

Xu Ling stood up and tears instantly flowed down.

“But... but... he’s not dead. Where did he go?”

Xu Ling asked directly. She did not care about anything now. What she cared about the most was Zhou Hao’s safety.

“This... I don’t know either, but I can sense that Master is very far from here, but our connection hasn’t been broken. Moreover, I can also sense that Master has become very powerful, stronger than ever!”

The Hundred Feet Worm King’s words instantly gave Xu Ling hope.

“Not dead... not dead... that’s great... that’s great... Wuwuwu...”

Xu Ling directly cried, but she was indeed crying tears of joy.

Seeing Xu Ling like this, the Hundred Feet Worm King and the Silver Bone Bear King blinked and did not say anything.

At this moment, Zhou Hao, who was far away on the moon, had already condensed his clone!

Chapter 723

Chapter 723: Return

Zhou Hao opened his eyes and walked out of the void beast’s void barrier.

Zhou Hao stretched his body and narrowed his eyes. He felt that this body was extraordinary and was very shocked.

“This body is not bad. It’s much stronger than my original body,” Zhou Hao could not help but say.

“Of course, these are the genes of a void beast. Although the cells in your body are human, they’re all composed of the genes of a void beast. You’re naturally powerful!”

The frog could not help but say.

“But there’s something I don’t understand. I cultivated the Ancestral Physique, so why isn’t my body not as powerful as the void beast’s?” Zhou Hao had always wanted to ask this.

“Hahaha, you’re really a hothead. I can tell you this. There’s no limit to the cultivation of the Ancestral Physique. However, there’s also a starting point. You started as the lowest-level life form in the universe. As long as you’re in the universe, those with a little reputation have stronger bodies than you. You have to at least cultivate the Ancestral Physique a few times before you can catch up to them.”

The frog smiled and continued, “However, the others are different. They’re born with a halo. Their genes have been improved countless times in the universe. After countless eras, even I don’t know the origins of their genes.”

“Their bodies are naturally powerful, but now that you have the body of a void beast, you will be even stronger after cultivating the Ancestral Physique. After all, their starting point is very high. Let me give you an example. After cultivating the Ancestral Physique for at least four times, you will be able to reach the body of a birth-level void beast. However, it’s also not that simple. A void beast cultivating it for four times is not the same as you cultivating it for eight times. Do you understand?”

The frog’s explanation was easy to understand. After saying this, Zhou Hao immediately understood that they had a high starting point. If he wanted to catch up to them, he naturally had to cross this gap.

On Planet Earth, his body was much stronger than the other human cultivators because they were all on the same level. However, compared to the universe, his body was too weak.

“I understand...”

Zhou Hao smiled and looked at the huge body of the void beast. He looked at his body and smiled.

“Change!”

As Zhou Hao spoke, he closed his eyes. Then, when he opened them, his eyes flashed. The crystal core of the void beast instantly appeared in his body. It was the essence power of the void beast, and it contained the domain space of the void beast.

Zhou Hao had transformed everything about the void beast into his body. At this moment, the void beast only had its body left!

“Now, I’m a humanoid void beast...”

Zhou Hao smiled and controlled the void beast to enter the ground to continue absorbing the ores on the moon to increase its cultivation.

His current cultivation had also reached the half-step Saint Realm. This was the benefit of condensing his body again.

However, the strongest combat strength was still the void beast’s main body. It was only a true third-grade Saint Realm expert!

“Although I’m only a half-step Saint Realm expert, I’m still the strongest existence on Planet Earth. It’s time for me to go back and settle the score!”

Zhou Hao narrowed his eyes as ruthlessness flashed in them. Zhou Hao would not let them off so easily!

The Luo God Warship was already prepared. Zhou Hao directly took it and returned to Planet Earth.

When he left, he hid the Luo God Warship. It was naturally the same when he returned this time.

Zhou Hao’s first stop was the Hundred City in the Red Cliff Abyss. He directly went to see his parents in the City Lord Residence.

The moment Zhou Xueguo and Wang Shuyun saw Zhou Hao, they were stunned on the spot. They had never expected to see their son again.

“Dad, Mom, I’ve been an unfilial son.”

Zhou Hao knelt on the ground, feeling emotional. If not for the spirit gem triggering the protective measures in the end, he would probably have been separated from his parents long ago.

“It’s good that you’re fine, it’s good that you’re fine... Son, I thought you were dead...”

Wang Shuyun hugged Zhou Hao and cried in pain. Zhou Xueguo could not help but wipe his tears.

“Dad, Mom, I’m back. This time, I promise you that I won’t be in danger again!”

Zhou Hao said directly. Of course, there was no danger on Planet Earth, but in the vast universe, Zhou Hao did not dare to say this.

“Alright, alright, alright... Son, did you see Xu Ling when you returned? She’s been waiting for you.”

Wang Shuyun immediately thought of her daughter-in-law. Originally, if Zhou Hao died, they naturally wouldn’t delay Xu Ling.

However, her son was back. Wang Shuyun would not forget such a good daughter-in-law.

“I’ll bring you home now. After we go back, we’ll go see Xu Ling.” Zhou Hao smiled, picked up his parents, and directly returned to his residence in the Battle God Battalion.

Just as he returned, Zhou Hao was stunned because he saw Xu Ling in the room. She had been waiting here.

Ever since Xu Ling learned that Zhou Hao was not dead, she had been waiting in the international residential area of the Battle God Battalion. This was because she knew that Zhou Hao would definitely come here when he returned!

Seeing that Zhou Hao had returned unscathed, Xu Ling immediately pounced into his arms, her tears flowing down.

“I’m back...”

These simple words made Xu Ling wait for several months. She cried very sadly, but she was very happy!

The family ate happily. On the way, Zhang Yi and the others learned that Zhou Hao had returned and hurriedly came.

The brothers were extremely happy. Not only were they happy that Zhou Hao had revived, but they were also happy for Zhou Hao and Xu Ling.

After the matter at home was resolved, Zhou Hao’s gaze landed on the European Union. When he arrived at the Battle God Battalion, everyone who saw Zhou Hao was shocked. They did not expect Zhou Hao to still be alive.

Especially Sword King Qing and Heavenly King Zhu.

“Seniors, there’s no need to say anything else. I know what happened. I’ll bring you guys and we’ll... get all of it back!”

Zhou Hao smiled. His words made Sword King Qing and Heavenly King Zhu extremely excited.

Zhou Hao did not waste any time and directly took the Luo God Warship to the European Union. The moment Zhou Hao walked out of the spacecraft, a terrifying half-step Saint Realm pressure enveloped the entire highest clubhouse of the European Union.

Paul and the others naturally sensed Zhou Hao's aura immediately and hurriedly ran out. When they saw Zhou Hao in the sky, they were all frightened.

"Zhou... Zhou Hao... he... he's actually still alive..."

Paul felt as if he had been struck by lightning. His head buzzed and went blank!

Zhou Hao looked at them and smiled.

"Mr. Paul, are you very surprised to see me?"

Zhou Hao looked at him. Although he was smiling, everyone could see the coldness in his eyes.

After all the powerful martial artists on Planet Earth died, these trash took advantage of the situation. Back then, when experts were volunteering to sacrifice themselves to complete the seal, none of them came out. Instead, they came out at this moment to reap the benefits. Zhou Hao naturally could not tolerate this!

Chapter 724 - Method

Chapter 724: Method

Zhou Hao's eyes were cold. Zhou Hao already knew what the European Union had done, so he naturally would not let them continue to be arrogant.

At this moment, the few twelfth-grade Heaven Realm experts of the European Union also saw the killing intent in Zhou Hao's eyes and were extremely frightened.

“Zhou Hao, are you really going to kill us? We... we’re experts of the European Union. We’re experts of Planet Earth. You can’t kill all of us!”

Paul was very frightened that Zhou Hao would blame him for everything. After all, as long as Zhou Hao asked, these experts would not defend him. They would definitely blame him in order to save their lives!

Paul was indeed right. This was what these people were thinking. They were originally afraid of the European Union and naturally treated Paul as their leader. However, now that Zhou Hao had returned, the situation naturally changed.

“Kill all of you? Hehe, why would I kill you? Aren’t you the mastermind behind all of this?”

Zhou Hao naturally would not kill all of them. That would fit with Zhou Hao’s personality. Moreover, he would definitely be criticized by the world.

However, he still had to do something. Therefore, Paul had to die!

“What... what did you say...”

Paul’s expression instantly changed and was extremely frightened. He instantly understood what Zhou Hao meant!

“You want to kill me... you want me to bear all the consequences?”

Zhou Hao did not deny it and smiled. “Help me get the experts of the various alliances to rush over. Let’s have a meeting.”

After Zhou Hao finished speaking, Sword King Qing and Heavenly King Zhu understood. They directly gathered the experts of the various alliances in the Holy Temple in Zhou Hao’s name.

They were all frightened to see that Zhou Hao was still alive.

They knew Zhou Hao’s strength the best. Although he was not a half-step Saint Realm expert, he had the combat strength of a half-step Saint Realm expert.

In this world, a half-step Saint Realm expert was a peak combat strength. How could they fight Zhou Hao?

“Everyone, the reason why I gathered you here today is actually very simple. It’s to convict a person. I received a report that Paul secretly stole the resources of another alliance, illegally occupied them, and even destroyed world peace. Do you know about this?”

After Zhou Hao finished speaking, these people were not stupid and immediately understood.

“Mr. Zhou, you’re right. Paul is a despicable person. He... he attacked your Huaxia alliance and secretly snatched all your resources.”

“Not only did they snatch your resources, but he also forcefully seized them. He even... instigated us to go against you.”

“That’s right, Mr. Zhou. Such a person must be brought to justice!”

They all spoke and piled the sins on Paul alone.

At this moment, they all blamed it on Paul. In any case, they could tell Zhou Hao’s intentions and naturally followed his instructions.

Zhou Hao smiled and looked at the person in charge of the Holy Temple.

“Superintendent, what do you think of this matter?”

This person in charge was from the European Union. The Holy Temple was a group of elders formed by the representatives of the five alliances. Originally, there were five people, but the European Union was the only one that held power. Naturally, only the Holy Temple elder of the European Union had the greatest authority.

When Zhou Hao asked him this, his expression immediately changed drastically, and cold sweat fell.

“Mr. Zhou, please allow the five of us to discuss this matter together. I can’t make the decision alone. This is the rule of our Holy Temple.”

That person said respectfully. He did not dare to say otherwise. After all, Zhou Hao could easily change his identity.

“In that case, discuss it.”

Zhou Hao was happy and relaxed. He sat there with his legs crossed and could not be bothered.

The five of them quickly reached a consensus. Actually, they did not really reach a consensus. Instead, they just did as Zhou Hao said.

“Mr. Zhou, the five of us have already decided that according to everyone’s feedback, we have a judgment on Mr. Paul’s sins. Such a person has destroyed the peace and the relationship between the various alliances on Planet Earth. He is really sinful. Therefore... we have decided to execute him!”

The elder of the European Union immediately said, making Zhou Hao smile.

The experts of the other alliances immediately chimed in and immediately sentenced Paul to death.

“Alright, then host a global press conference for this matter. We have to tell the entire human race on Planet Earth about this.”

Zhou Hao smiled.

Paul’s expression was ugly as he listened from the side. He was also frightened to death and immediately shouted angrily.

“You bunch of dogs. Back then, when you were fighting for the inheritance, you were all so eager. Now that Zhou Hao is back, you actually betrayed me to wash your own sins clean. You’re really too shameless!”

Paul roared silently.

“If you hadn’t mentioned this, we would have forgotten. Do you think we really took what you asked us to take? Mr. Zhou, we have to clarify this matter. Because of the strength of the European Union, we could only listen to him. Therefore, we had no choice but to take your things. However, we didn’t dare to touch them at all. We took them all here today.”

“That’s right, Mr. Zhou. This is what we took. We’ll return it to its owner today.”

As they spoke, they took out their backpacks and handed them to Zhou Hao.

Zhou Hao smiled and let Sword King Qing and the others take it away. Then, he said, “I naturally know about this. You all love peace. Why would you do something that harms the peace of the various alliances?”

“Take me for example. I have Saint Realm combat strength now, but I definitely won’t threaten you like Paul. After all, we care about equality. Everyone, don’t worry. This matter has its perpetrator and its debtor. I won’t find trouble with you.”

Zhou Hao smiled, but after he finished speaking, they were all dumbfounded!

This was all nonsense. There was only one sentence that was the most important.

To be precise, there were two words!

Saint Realm!

Zhou Hao had Saint Realm combat strength. This was simply a nightmare for them!

However, they did not dare to say anything. They knew that Zhou Hao was just a little smarter than Paul. However, it could not be denied that if they were in his shoes, they would definitely do the same!

After all, only by becoming stronger could one be considered to be truly powerful. Alliances were based on equality. If the balance was tilted, there was basically no fairness in this world!

The Holy Temple quickly held a meeting. Paul had affected world peace and embezzled the resources of other countries. He had been sentenced to death. This matter was broadcasted worldwide for everyone to see.

The execution was carried out by the experts of the European Union. With the injection of the death potion, Paul's life aura quietly flowed away before he finally closed his eyes completely.

Zhou Hao, the person who was responsible for this, was currently in the Battle God Battalion.

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 725 - Resolved

Chapter 725: Resolved

Sword King Qing and Heavenly King Zhu were shocked when they saw all of this!

Zhou Hao did it flawlessly and did not leave anything unresolved. He also did it directly. Such methods really made them admire him.

"Mr. Zhou, you're too impressive. You made the four alliances submit to you without wasting a single soldier or using force. You even calmed the hearts of the people and resolved the matter. You even recovered our things. You're really too impressive!"

Heavenly King Zhu immediately could not help but say with incomparable admiration.

"Uncle Zhu, you don't have to be polite with me. Actually, this matter is very simple. The alliance wasn't strong to begin with. After all, putting aside the other alliances, just their European Union alone has many people who want Paul to die."

“Paul’s death means safety for the European Union. Some people have also successfully ascended the throne. Of course, all of this is still a matter of strength. They’re afraid of my cultivation and are naturally afraid of offending me. After figuring out my intentions, they learned that I wanted Paul to die and resolved this matter. At the same time, I can also use Paul’s death to establish an imposing air. In the end, it’s only natural for all of them to cooperate.”

“Also, have you checked the things they handed over? I’m guessing that there’s definitely more than what they plundered, right?”

After saying this, Sword King Qing immediately smiled.

“Zhou Hao, you’re really right. Especially the North American Alliance, who gave us twice the amount of resources.

Zhou Hao smiled. He had long guessed this.

“Zhou Hao, you’re really cunning. You even used such a method. Hehe, indeed, you’re not a good person!”

The frog’s voice sounded in Zhou Hao’s mind, making him feel helpless.

“Am I not a good person? Don’t you know what they’re like? I’ve already given them face. After all, I could just kill them all and completely unify Planet Earth.”

Zhou Hao could not help but retort.

“Tsk tsk, although this is very normal, I have to say that your method is still a little interesting. Everyone kicks a man who’s down. How realistic.” The frog smiled.

“This is the world of martial artists. Whoever has the strongest fist has the final say. If I were a supernatural expert, I probably wouldn’t even have the chance to speak to them, right?” Zhou Hao smiled.

The frog agreed very much.

“By the way, Zhou Hao, in your last battle with the void beast, your life aura was clearly gone. Why could you still...”

Sword King Qing asked curiously.

Zhou Hao naturally could not say that he had possessed the void beast. He could only lie. “In the end, I entered a strange space and fought with him for a long time before I destroyed its soul. As for me, I also slept for a long time before waking up.”

Although Zhou Hao’s explanation was a little far-fetched, they probably couldn’t tell.

“I see...”

Sword King Qing nodded and asked, “Then... do you really have Saint Realm combat strength?”

This was the key. They were very worried about Zhou Hao’s cultivation. If his strength was fake, the other alliances would definitely not let the matter rest!

“Don’t worry, I have a little good fortune. Although I’m not at the half-step Saint Realm and am still at the Heaven Realm, my combat strength is definitely comparable to a Saint Realm expert.”

Zhou Hao smiled. This made Sword King Qing and the others relieved. As long as Zhou Hao was around, the other party would definitely not dare to say anything!

“By the way, how’s Senior Ji, Senior Lingtian, and Elder Jin?”

Zhou Hao hurriedly asked. Elder Jin was the half-step Saint Realm expert from Peijing. There were a total of three half-step Saint Realm experts in the entire Huaxia, and they were all sleeping.

“Elder Jin can’t take it anymore. His soul was extinguished the day before yesterday and he’s completely dead. As for Senior Ji and Senior Lingtian, they’re still sleeping.”

Sword King Qing took a deep breath and could not help but say.

Zhou Hao nodded, feeling emotional.

“Bring me to them.”

Zhou Hao had the spirit gem and might be able to help Senior Ji and Senior Lingtian. If the two of them woke up, the combat strength of the entire Huaxia would still be at its peak.

Sword King Qing brought Zhou Hao to the intensive care cabin. Zhou Hao saw Senior Ji and Senior Lingtian lying inside.

“Frog, is there a chance to save them?”

Zhou Hao hurriedly asked.

“Of course, although their souls are sleeping, they are still active. As expected of the two people with the best talent on Planet Earth, their genes are not bad.”

The frog’s words made Zhou Hao nod. He knew from the old man that Senior Lingtian and Senior Ji were both nurtured by him with special genes and had supernatural talent.

“Although their talent is not bad, they’re still worlds apart from you. You have the body of a void beast, the Ancestral Physique, and the spirit gem. At this level, you can be considered to be quite lucky, even in the universe.”

“Alright, you can bootlick later when we have time. Why don’t you tell me how to save them first?” Zhou Hao asked directly.

“Simple. Use the spirit gem to condense their mental strength. It won’t be long before they wake up.”

After the frog finished speaking, Zhou Hao did not hesitate and immediately did as he was told. Soon, their mental strength was condensed.

Sword King Qing and Heavenly King Zhu were shocked.

“Zhou Hao, what did you do? Why have Senior Ji and Senior Lingtian’s mental fluctuations become even more active?”

They were very shocked because their mental strength research level had yet to reach that level.

As for Sword King Qing and Heavenly King Zhu, their cultivation levels were only at the twelfth-grade Heaven Realm and were still far from reaching the half-step Saint Realm.

Therefore, they could not help out at all. However, they were somewhat puzzled when they saw Zhou Hao easily increase their mental strength.

“I just helped them condense their mental strength. It’s nothing,” Zhou Hao said with a smile.

“That’s great. In this way, the chances of Senior Ji and Senior Lingtian waking up are even higher!”

Sword King Qing and Heavenly King Zhu said happily.

Zhou Hao smiled and nodded. After this matter was resolved, Zhou Hao returned home. He had not seen his family for so long and immediately went to the Battle God Battalion to resolve these matters after returning. He had not even spent a lot of time accompanying his family.

But now, Zhou Hao had a lot of time to accompany his family. On Planet Earth, the mutated beasts were already completely done for. Many of them had been devoured by the void beasts, and the ones left behind were all small fries.

Zhou Hao planned to completely unroot the Mutated Beast Alliance on Planet Earth after Senior Ji and Senior Lingtian woke up.

In this way, there were no longer any threats left on Planet Earth. Zhou Hao's void beast was growing on the moon every day. Zhou Hao himself also did not relax his body and continued to seize the opportunity to break through!

After eating with his family and staying for two days, Zhou Hao arrived at the moon again. Only here could Zhou Hao cultivate more conveniently.

After all, his current body also needed to absorb high-quality minerals!

Chapter 726 - Awakening

Chapter 726: Awakening

Zhou Hao cultivated on the moon for two days before taking the Luo God Warship back to Planet Earth.

No one noticed Zhou Hao's arrival to the moon. After all, the Luo God Warship was too fast. Even if he went to the furthest planet in the galaxy, it would still take him a day to travel back and forth from that planet with the Luo God Warship.

When he returned home, Wang Shuyun was cooking and Xu Ling was busy. Zhou Hao smiled and hugged Xu Ling. He could not help but say, "Shouldn't we prepare for our marriage?"

After experiencing this life and death situation, Zhou Hao cherished his family even more, especially Xu Ling. Zhou Hao really could not let her go.

Other than reverence, the Xu family also respected Zhou Hao. They no longer had any other thoughts.

"Hehe, Brother-in-law, isn't it a bit inappropriate for you to be intimate with my sister in front of me?"

After Xu Chang finished speaking, Xu Ling struggled free from Zhou Hao with a red face and could not help but say, "W-Whatever you say... brat!"

With that said, she ran away.

Seeing this, Wang Shuyun was extremely happy. Her son was finally going to resolve a lifelong matter. As a mother, how could she not be happy?!

“Son, let me tell you, if you bully Xu Ling, I won’t let you off!”

Zhou Hao had a depressed expression, but Xu Chang said shamelessly, “Auntie, you’re absolutely right. I agree!”

“You... you’re everywhere. Tell me, why are you here today?”

Zhou Hao did not like Xu Chang at first, but slowly, he understood that he was doing this for his sister’s sake.

After all, if Xu Ling really married a powerful disciple, she wouldn’t be in too much danger.

As her brother, the only thing he could do was to ensure his sister’s safety. Other than that, he really did not know what else he could do.

“Hai, what can I do? Of course I’m freeloading. However, I actually have something important to tell you today. It’s just that... my grandfather wants to visit you.”

Xu Chang blinked and said.

“Visit me? I’m a junior. We can’t mess up the seniority,” Zhou Hao could not help but say.

“You’re the number one person on Planet Earth, so of course he has to be the one to visit you. I heard that if the leaders of the various alliances want to see you, they have to make an appointment. In fact, I heard that they can’t even visit you when you’re not in the mood,” Xu Chang teased.

“That’s only natural. After all, they just come to suck up to me. I can’t help but be annoyed. However, the head of the Xu family visiting me is a different matter. I think it’s better for me to visit him. To outsiders, I’m the strongest expert on Planet Earth, but to the Xu family, I’m Xu Ling’s boyfriend, right?”

Zhou Hao’s words made Xu Chang sigh with emotion.

“Alright, do as you please. Let me know when you’re free. I’ll get them to prepare.” Xu Chang smiled and left.

At the same time

In the headquarters of the Battle God Battalion, in an incomparably spacious room, there was a large number of medical equipment and equipment. There were also two beds in the room. On the bed on the left was a woman in a black cheongsam, and on the bed on the right was a man in a white suit. Everything that was done here had the sole purpose of maintaining the lives of these two experts.

Outside the room, two people were standing and looking into the room through the glass. Their eyes were mixed with faint sadness...

"Tie Ta, when will Senior Ji wake up?" Aisha could not help but sob as she asked.

"I... I don't know, but I'll keep waiting," the man beside her said with a worried expression.

Beep! Beep! Beep! An ear-piercing alarm suddenly sounded outside! Boom! A group of doctors immediately rushed in from outside. Aisha and Tie Ta, the two personal guards, also hurriedly looked into the room. As the door immediately opened, the three old doctors entered one after another. The others were all locked outside.

The peak-level experts of Planet Earth were lying on the beds on both sides of the room. After the doctors entered the room, they began to divide the work clearly and were doing their best to save these two peak-level experts.

"Brain waves! We've detected brain waves!" a white-haired old doctor shouted excitedly.

"The two experts have brain waves! Moreover, the signal is gradually becoming stronger!" another doctor shouted excitedly.

"Unbelievable! It's really too unbelievable! To be alive after suffering such a serious and fatal injury is simply a miracle in the history of medicine!" another doctor said in surprise.

The brain waves of the two experts seemed to be struggling and were becoming stronger and stronger! Suddenly, the eyelids of one of the experts twitched slightly, and then the expert's eyes slowly opened.

The expert who woke up was actually Ji Yaoyue!

Ji Yaoyue opened her eyes. Her eyes were still somewhat empty. After all, she had been asleep for so long and had just woken up. She was still a little uncomfortable!

"Quick, check Senior Ji's body!"

Seeing that Ji Yaoyue had woken up, a large group of doctors hurriedly rushed over and began to measure various data for her. After discovering that there was nothing wrong with the data, they were all relieved.

"Senior Ji is fine. Other than the fact that she just woke up and is in a daze, there's also the fact that she hasn't moved for such a long time. Her body is a little wretched, but there's nothing else wrong with her. Senior Ji is a martial artist. As long as essence energy is injected, she will recover!"

They were very excited.

At this moment, the alarm sounded again.

“Heavens... Senior Lingtian is also waking up!”

At this moment, in another intensive care cabin, Lingtian also opened his eyes. Like Ji Yaoyue, he had a surprised and confused expression.

“Heavens, quick, quick, check for Senior Lingtian. Today is a good day for our Huaxia. Quickly inform Sword King Qing, Heavenly King Zhu, and... Heavenly King Zhou!”

They hurriedly said. Then, Sword King Qing and Heavenly King Zhu rushed over. When they saw the awakened Ji Yaoyue and Lingtian, they were extremely excited.

Zhou Hao also rushed over and was also excited!

“Zhou Hao, they really woke up. Hahaha! I’m so happy today!”

Sword King Qing was so happy that his mouth could not close, and Zhu Zao was the same.

Zhou Hao smiled and quickly watched as the doctor pushed Ji Yaoyue and Lingtian into the high-level ward of the Battle God Battalion.

As time passed slowly, Ji Yaoyue and Lingtian’s mental strength also completely stabilized and they fully regained consciousness.

“We... we’re not dead?”

Ji Yaoyue saw Zhou Hao, Sword King Qing, and the others and could not help but ask.

“Not dead, not dead...”

However, when this group of men saw this scene, they could not help but cry. Aisha even cried and pounced on Tie Ta.

“By the way, where’s the void beast?!”

At this moment, Ji Yaoyue seemed to have thought of something and immediately said anxiously.

Zhou Hao smiled and looked at Ji Yaoyue.

“Senior Ji, everything has ended. Senior Ji, don’t worry. Our Planet Earth is no longer in danger.”

As he spoke, Zhou Hao got someone to report everything that happened after Ji Yaoyue and the others fell asleep. After hearing the end, Ji Yaoyue heaved a sigh of relief.

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 727 - Mysterious Person

Chapter 727: Mysterious Person

After Ji Yaoyue and Lingtian saw all the reports, they were very shocked. They did not expect such a huge matter to have happened during this period of time!

What was most unbelievable was that Zhou Hao had actually dealt with the void beast, making them very surprised.

“Zhou Hao, how did it happen? I can’t believe that you actually dealt with the void beast!”

Ji Yaoyue could not help but ask, making Zhou Hao take a deep breath. To be honest, he did not know how to answer.

“Actually, I don’t know either. I originally wanted to sacrifice my life and use the sealing cultivation technique you two taught me to seal it. However, at the critical moment, my efforts were in vain. In the end, I was lucky to survive because of the spirit gem.”

Zhou Hao could only avoid the main topic and say this. After hearing this, Ji Yaoyue and Lingtian also did not suspect anything. After all, they trusted Zhou Hao incomparably and knew that he would not lie to them.

The two of them had just woken up and still had many tests to do. Moreover, there were also many things to do, so Zhou Hao left.

After returning home, Zhou Hao lay in bed and opened the Heaven Dao software.

It had been a long time since he entered the Heaven Dao software. Today, he still caused a huge commotion.

“The big shot is finally here!”

“It’s been a long time. Big shot, where have you been?”

“Big shot! Mighty!”

Seeing Zhou Hao enter the Heaven Dao software, these people immediately surrounded him. Ever since he obtained the virtual simulation system, Zhou Hao had been very helpless. Every time he appeared, he would be surrounded tightly.

Helpless, Zhou Hao could only enter his private territory.

“Sigh... there’s always trouble when you’re popular!”

Zhou Hao said smugly. At this moment, Fairy Yue Ling sent a private message.

“Big shot, you’re finally here. Not good, someone’s looking for you everywhere!”

Seeing this news, Zhou Hao was immediately stunned. He was very confused and hurriedly opened the application to enter the other party’s territory.

Soon, Fairy Yue Ling agreed. Zhou Hao was directly brought into Fairy Yue Ling’s space. The surroundings in her private space were still ancient and very beautiful.

Fairy Yue Ling had a light veil on her face and was wearing a white dress. She was beautiful.

“Fairy Yue Ling, what’s going on?”

Zhou Hao did not have the time to admire the beautiful scenery and asked hurriedly.

“I don’t know either, but recently, a big shot appeared. He’s a user called ‘I’m Rich’. He often enters my live-stream and asks about you on the bullet screen.”

“In the beginning, I thought that he was your friend and even added him as a friend to ask about you. However, that person didn’t reply to me at all. I didn’t care at first, but later on, I observed him. Not only did this person flood my live-stream, but he also flooded the public chat. I didn’t know what this person wanted to do so I started to pay attention to him.”

Fairy Yue Ling’s words made Zhou Hao very puzzled. He was not familiar with this person at all. Why did this person suddenly want to find him?

Zhou Hao felt that this matter was definitely not that simple!

“I understand. Thank you, Fairy Yue Ling.”

Zhou Hao smiled and said gratefully.

“Why are you so polite to me? By the way, did you go on a date with a young lady?”

After being with Zhou Hao for a long time in the virtual world, Fairy Yue Ling still could not help but joke!

When Zhou Hao heard this, he immediately smiled.

“Hahaha, I did have something to do recently.”

“Alright, my live-stream just ended today. Otherwise, I would have definitely gotten a big shot like you to send me gifts.”

Fairy Yue Ling could not help but smile.

Zhou Hao smiled. He had never lost anything by buying gifts from Fairy Yue Ling. After all, it was not as if he had spent any money on her. Instead, he had been earning money with her livestream.

“Alright, then I’ll definitely make up for it next time!”

Zhou Hao looked at his luck points. There was a total of 500 million and his luck status had already reached the level of Queen of Luck. Zhou Hao also knew where he had gotten so many luck points.

He must have obtained so many luck points after killing the void beast!

“With so many luck points, hmph, I have to make good use of them!”

Zhou Hao thought to himself.

After leaving Fairy Yue Ling’s place, Zhou Hao went to the shop. There were still many things sold here, and Zhou Hao’s main goal was those rare ores.

The void beast absorbed all matter to increase its cultivation. Ordinary things were not worth Zhou Hao’s attention at all.

Moreover, Zhou Hao also needed these high-quality things to cultivate the Ancestral Physique. With the void beast around, it was even easier for Zhou Hao to increase the level of his current clone!

“My true body is the body of a void beast and I cultivate the Ancestral Physique. This human clone of mine also cultivates the Ancestral Physique. Although it will become more and more difficult, no matter what, when my body is the same level as the void beast’s, I will definitely be invincible!”

Zhou Hao was very happy. Although this would make cultivation even more difficult, it was undeniable that this could completely bring about strong combat strength to a certain extent!

After browsing for a while in the shop and choosing a few items, Zhou Hao left.

After returning home and having dinner with his family, Zhou Hao took his Luo God Warship to the Battle God Battalion headquarters.

Ever since the matter of the void beast, the number of peak-level martial artists in the world had decreased drastically. With Ji Yaoyue and Lingtian around, the Battle God Battalion had become the strongest organization.

The entire Nine Provinces operated according to the rules under the commander of the Battle God Battalion.

Zhou Hao returned to his room and the frog and the divine soil jumped out.

“Zhou Hao, we have time. Let’s talk.”

Hearing the frog being so serious, Zhou Hao was a little uncomfortable, but he still could not help but ask.

“What’s wrong?”

“We should conquer the universe!”

The frog’s words stunned Zhou Hao.

“Conquer the universe?”

“That’s right, Zhou Hao. Don’t tell me you’re satisfied with the current situation?” the frog asked.

Zhou Hao shook his head. He was naturally not satisfied with the current situation. After all, the void beast incident had alarmed Zhou Hao!

Planet Earth was really too weak!

“I can tell from your expression that you’re definitely not satisfied with the current situation. In that case, it’s clear what we need to do. Let’s go to the universe to adventure. There are countless opportunities and good fortune waiting for you there. As for you, you can also become stronger, truly stronger.”

“Otherwise, your concerns will still not be resolved. After all, your Planet Earth is now facing the entire universe. The threats are no longer restricted to the ones on Planet Earth. Only by becoming stronger will you have a chance to protect your home. You don’t want to push your luck again when the next crisis occurs, do you?”

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 728 - Decision

Chapter 728: Decision

The frog was right. Zhou Hao had also thought of this. Planet Earth was still in an extremely dangerous situation.

After all, they were facing the entire universe. Moreover, the enemies they faced would not be that easy to deal with. After all, he had gotten lucky with the void beast.

This time, they had faced the void beast, but what if an entity ten times stronger than the void beast came next time?

Wouldn't the entire Planet Earth be destroyed?

The frog smiled when it saw Zhou Hao like this.

"Zhou Hao, perhaps you don't know how dangerous the universe is at all. Let me give you an example. If there are really experts who know about Planet Earth, there will be three outcomes!"

"The first outcome is very simple. Just like the void beast, they use Planet Earth as nourishment and directly devour and absorb it. In this way, it's still relatively simple. The residents of Planet Earth won't suffer much, so it can be considered acceptable."

When Zhou Hao heard this, he was immediately speechless. How was this acceptable?

"You don't have to put on such an expression. This is because you still don't know how cruel the universe is. Like I said, that's only the first outcome. The second outcome is also considered acceptable for Planet Earth. It's possible for this powerful martial artist to not think much of Planet Earth at all and casually sell Planet Earth as an item. Or, Planet Earth might encounter an expert who likes to live comfortably and be ruled by that expert. If that expert has good temperaments, it might not affect Planet Earth too much. However, if that expert has bad temperaments, there are bound to be casualties."

The frog could not help but say. After Zhou Hao heard this, he frowned and found it somewhat difficult to accept.

"You can't even accept this? Then the third outcome will be even harder for you to accept. The third outcome is that your Planet Earth will be completely enslaved. All the

humans will be sold to various places as coolies, toys, and pets. It's even possible for women to become the toys of those licentious races."

"In fact, it's even possible that your Planet Earth will be used as an experimental base and you humans will all become lab rats."

"You can't accept any of the three, right? Therefore, you should also understand why I asked you to travel the universe."

When Zhou Hao heard this, he took a deep breath and completely understood. He became somewhat worried.

If it was really as the frog said, if that happened, it would definitely be the end of Planet Earth!

Comparatively speaking, the first outcome was still the simplest. After all, there would be no suffering if they all died. Zhou Hao could not accept the second or third outcome at all.

"I understand. Don't worry, I have decided," Zhou Hao immediately said.

"Hmm... However, I don't think it's a good idea for you to travel alone. It's best if you bring Ji Yaoyue and Lingtian along. I've seen the width of their brains. They're not bad. They have some ability and are also promising geniuses."

"As for the people from the other planets, they're much worse. Be it talent, comprehension ability, or even the width of their brains, they're all the lowest in the universe. You don't have to waste your energy."

Zhou Hao nodded. It would be better for him to travel with them than to travel alone. In that case, it was not a bad choice.

"Alright, I'll talk to Ji Yaoyue and Lingtian now."

As Zhou Hao spoke, he directly contacted Ji Yaoyue and Lingtian.

The two of them had just recovered and could be considered to have returned to the right track to deal with various things.

"Zhou Hao, why are you looking for us?"

In Ji Yaoyue's office in the Battle God Battalion headquarters, the red-clothed Ji Yaoyue yawned. Beside her, Lingtian was also somewhat sleepy.

After dealing with so many things these past two days, he was really somewhat tired.

“There’s indeed something big I want to discuss with you guys,” Zhou Hao said with a smile.

“Oh? There’s also something you can’t resolve. You’re now the strongest person on Planet Earth. I heard that your strength is comparable to a Saint Realm expert. The two of us are very envious.”

Lingtian smiled.

Zhou Hao also smiled and bowed. “There was a small opportunity, so it’s not worth mentioning. What I’m going to say next is extremely important.”

After Zhou Hao finished speaking, the two of them were immediately stunned for a moment. They also stopped smiling and became very solemn.

“Actually, it’s nothing. I just want to ask if we should go explore the universe. With our current strength, we’re simply unable to protect Planet Earth.”

Zhou Hao’s words immediately made Lingtian and Ji Yaoyue’s expressions change. The two of them naturally understood.

“We’re already the strongest people on Planet Earth, but it’s still far from enough. The void beast was only an infant back then but we were still unable to resist it. What if a person who’s ten or a hundred times stronger than the void beast comes? Wouldn’t our Planet Earth be finished?”

“It’s fine if they destroy our Planet Earth at once. At the very least, we won’t suffer. However, what if they enslave our Planet Earth? When that happens, our families and friends will become slaves and toys of the other races. How can we accept this?”

Zhou Hao’s words completely made Ji Yaoyue and Lingtian’s expressions turn solemn.

He was right. If that was the case, then it would be a disaster for Planet Earth!

“Therefore, I think we should still go to the universe to adventure. Don’t worry, we have a way to travel. I have the Luo God Warship. This spacecraft was left behind on Planet Earth from outer space. It will be enough.”

Zhou Hao said at this moment. Lingtian and Ji Yaoyue looked at each other, their eyes filled with determination!

“Zhou Hao, you’re right. We should indeed increase our strength. This time, we survived, either from luck or from our own strength. However, who can guarantee that we will have the luck and strength to protect Planet Earth next time?”

“This is our home. Since we have the ability, we have to shoulder this responsibility. Otherwise, it will be a waste of our identity and ability!”

At this moment, Lingtian spoke. Although Zhou Hao did not know much about the two Battle Gods, he still knew that Lingtian was a quiet person.

Ji Yaoyue also nodded.

“In that case, it’s very simple. Let’s do it. How about that?!”

Ji Yaoyue had a carefree personality that was comparable to the personality of men. Therefore, Zhou Hao had long known that the two of them would agree.

“In that case, let’s prepare. We’ll leave secretly and not let the other alliances know. How about that?”

Zhou Hao was still worried that something like this would happen.

After all, no one dared to cause trouble in the forest with the lion around. However, if the lion was no longer around, the situation would be different!

“That’s right. We have to warn them about the European Union. Moreover, we have to leave some methods behind!”

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 729 - Siam System

Chapter 729: Siam System

Zhou Hao thought for a moment and had an idea. This matter was actually very simple. As long as there was a half-step Saint Realm expert holding down the fort, they would not dare to act rashly!

Zhou Hao also had a candidate, the Hundred Feet Worm King!

Last time, Xu Ling had told him that she had seen the Hundred Feet Worm King in the thirteenth spatial rift. This guy had been very loyal and had always been guarding the thirteenth spatial rift.

Zhou Hao's method was very simple. He wanted to use the Evolution Crystal to evolve the Hundred Feet Worm King into a half-step Saint Realm expert. After all, it was absolutely obedient and obeyed his every order.

That kind of mental obedience was not something that could be satisfied with an ordinary contract!

It could be said that in this world, Zhou Hao would suspect everyone else before he suspected the Hundred Feet Worm King of betraying him!

"Leave this to me. I'll leave a backup plan on Planet Earth!"

Zhou Hao smiled and said directly.

Hearing Zhou Hao's words, Ji Yaoyue and Lingtian relaxed.

Of course, in order for this matter to continue smoothly, Zhou Hao still planned to go out and scout first!

"Hehe, let's go. You'll definitely benefit greatly from this outer space trip!"

The frog smiled and said, "Moreover, I've already made a plan for you. Our first stop is to rush out of the galaxy and go to the galaxy next to us. It's called the Siam System. It's ten times stronger than your galaxy and can even be considered a relatively weak galaxy. After all, the strongest expert in this galaxy is only a realm master. They mainly produce minerals to satisfy the needs of other galaxies."

When Zhou Hao heard this, he was very curious. After all, as someone from Planet Earth, although he knew that there were aliens in outer space, he had never seen one before, let alone other cosmic civilizations!

"The place we're going to is the number one star in the Siam System. That's the largest star in the Siam System. There are many cosmic races coming and going there, and it's a hundred thousand light years away from here. However, with the Luo God Warship, it's still very easy for us to jump through space."

The frog introduced methodically. Zhou Hao was puzzled by this and completely listened to the arrangements.

"Alright, let's not talk anymore. Let's go!"

The frog was very excited. Although Thousand Feather Armor was an intelligent entity, it also had a certain level of emotions. Therefore, at this moment, it was also very excited to explore the universe.

The Luo God Warship turned into a meteor and rushed out of Planet Earth, arriving in outer space.

“Little Yu, let’s go!”

Zhou Hao directly opened the exterior panoramic display. Zhou Hao seemed to be sitting in outer space. The surrounding space was dark, and Planet Earth in the distance was still incomparably beautiful.

“Roger, Master!”

Thousand Feather Armor cried out excitedly. Then, the Luo God Warship began to exert strength. Zhou Hao felt a bang as the Luo God Warship directly fired and shuttled through space at a fixed spatial jump point.

The surroundings were colorful and dreamlike. Zhou Hao looked at the scene in front of him. If not for the fact that he was immersed in the experience, Zhou Ha would definitely think that he was dreaming.

“This feeling... is really strange...”

Zhou Hao scratched his nose and could not help but say.

“Hehe, it feels like when Grandma Liu entered the grand garden, right?” The frog suddenly spoke, making Zhou Hao immediately surprised.

“Aiya, I didn’t expect you to know about that. Have you seen the Red House?” Zhou Hao smiled and said.

“Of course ! After all, isn’t that one of your four famous books?” The frog chuckled and said directly.

After about ten minutes, the surrounding light began to decrease. Then, they heard Thousand Feather Armor’s voice.

“Master, we’ve arrived. The spatial jump has been completed.”

Zhou Hao’s eyes lit up.

The surrounding scenery had changed. They were still in outer space, but this time, it was completely different from Planet Earth!

In the space of the galaxy, nothing could be seen except darkness and planets.

However, here, Zhou Hao saw countless spacecraft floating in outer space. One after another, they were simply shocking.

This was the first time Zhou Hao had seen such a scene and was very surprised.

“Hehe, I knew it. This isn’t even that impressive. Some extremely rich galaxies even have to be booked in advance before entering. It’s not up to you. There’s a fixed limit.”

“The Siam System is not that prosperous, so everyone can directly activate spatial jump and come here. However, it won’t be the same when we enter Planet Zhengluo One. There are rules there. If we don’t obey them, we will die very ugly deaths.”

The frog could not help but say, making Zhou Hao a little shocked.

“Oh, right, I’ve always wanted to ask. Why is it called Planet Zhengluo One? Could there be a Planet Zhengluo Two?”

Zhou Hao was very curious about this name.

“Of course, although this Siam System is not a very powerful star system, it still has a few subsidiary star systems. However, they are all stronger than the Milky Way. As the capital planet, there are naturally a few more planets named after it. To put it bluntly, these planets were all planets they snatched and took it for themselves. If Planet Earth is invaded, it’s very likely to become Zhengluo Four or Five...”

The frog teased, and Zhou Hao understood.

“Let’s go to Planet Zhengluo.”

As it spoke, the frog pointed at the huge star in front of it. It looked more than ten times larger than the sun and was surrounded by countless satellites.

“That thing that’s similar to your Planet Earth’s satellite is called a receiving device. It will guide you to Planet Zhengluo. You can’t just enter casually. You’ll understand in a while.”

Zhou Hao got Thousand Feather Armor to slowly approach. Soon, a receiving device approached and a string of electric waves was transmitted.

“Respected guests, please stop the engine and receive the guidance to land on Planet Zhengluo.”

This electric wave was translated by Thousand Feather Armor into a language that Zhou Hao could understand.

“Just do as it says,” the frog said directly.

Zhou Hao ordered Thousand Feather Armor to directly turn off the power. Then, he saw the device release a suction force that directly pulled the Luo God Warship slowly towards Planet Zhengluo.

Then, he entered the atmosphere-like protective layer. Slowly, Zhou Hao saw an extremely powerful silver-white city.

In the sky, countless harbors were floating there. Then, the device found an empty space and released the Luo God Warship.

“Respected guests, please pay the entrance fee.”

The electric wave transmitted and turned into words. Zhou Hao was immediately stunned.

“Damn, I even have to pay to come here?” Zhou Hao said in disbelief.

“Nonsense. Do you think this is your home? When you come here, you have to pay an entrance fee. The price is not expensive, only ten cosmic coins.”

The frog smiled.

“Cosmic coins... I... I don't have any,” Zhou Hao immediately said helplessly.

“You don't, but the Luo God Warship does. As the last member of the Luo God Race, it still has all of the Luo God Race's wealth.”

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 730 - Alien

Chapter 730: Alien

Zhou Hao was stunned for a moment before saying to Thousand Feather Armor, “Do you have cosmic coins, Thousand Feather Armor?”

“Yes, Master.”

After Thousand Feather Armor finished speaking, an arm immediately stretched out from the spacecraft. On the arm was a shining card.

Zhou Hao looked at the card and realized that it was transparent, but it emitted a yellow light.

At first glance, he found it very novel. He did not expect cosmic coins to look like this.

“Is this what cosmic coins are like?”

Zhou Hao received the card and observed it carefully for a moment before asking in surprise.

“Damn! Zhou Hao! These are not cosmic coins. This is something similar to the bank card on Planet Earth. There are many cosmic coins stored inside!”

The frog beside him suddenly jumped onto Zhou Hao’s shoulder. Then, it looked at the card in his hand in shock and said, “How rare!”

“Moreover, this gold card is the highest-level card in the universe. It even symbolizes the status of the card holder!”

Hearing the frog’s words, Zhou Hao also had a surprised expression and could not help but ask, “Then how many cosmic coins are in this card?”

“One billion, Master.”

Thousand Feather Armor immediately replied.

“Damn!”

The frog adjusted its sunglasses in shock and said in incomparable shock, “1 billion. Heavens, Zhou Hao, you’re rich!”

Zhou Hao was also a little shocked. He did not expect to suddenly become a rich second-generation heir in the universe.

Soon, Zhou Hao paid with this card.

A two-meter-tall robot walked out of the traction device in front of him.

Because it was a robot with a working nature, its appearance was very ordinary. It had a square head, a long body, and two arms that were like two ropes, but they were very hard and sturdy.

It arrived beside Zhou Hao’s machine step by step and received the card.

The robot worker who had swiped the card was immediately shocked when it saw Zhou Hao use such a card to pay for the parking fee of ten cosmic coins!

Could it be that this brat had nowhere to spend his money? He actually used such a card to pay...

The world of the rich was really confusing!

After paying the cosmic coins, Zhou Hao put the card away. Just as he was about to walk forward, he saw a huge spacecraft fly over from afar and land beside him.

A moment later, the cabin door of the spacecraft opened, and three figures walked out.

Zhou Hao focused and realized that the three of them were staring at him as he walked over. Their faces were filled with excitement as they stared at his spacecraft anxiously.

Seeing this, a surprised expression appeared on Zhou Hao's face. He could not help but look at them in confusion and mutter to himself hesitantly.

"These people seem to be coming for our spacecraft. What's going on? What are they trying to do?"

Although Zhou Hao was suspicious, he realized that they probably did not have any ill intentions towards him.

Otherwise, they wouldn't have gotten off the spacecraft and walked towards him.

Soon, the three of them walked to Zhou Hao's spacecraft and looked around.

"Don't tell me these people want to abduct you and your spacecraft?"

The frog could not help but look at these people curiously and ask in confusion.

"I'll go down and see what's going on."

As Zhou Hao spoke, he suddenly realized a serious problem.

He did not even know which star system these people were from. He might not be able to understand what they were saying, right?

At that time, even if they met, they probably wouldn't be able to communicate.

Thinking of this, Zhou Hao immediately looked at Thousand Feather Armor and asked, "Thousand Feather Armor, what if I can't understand them?"

"Master, don't worry. I have a cosmic communication translation device here. As long as you put it on your ear, you can understand what they're saying."

As soon as it finished speaking, a mechanical arm stretched out from the spacecraft again. In the mechanical hand was a pair of square boxes that looked like Bluetooth earphones.

After opening the square box, Zhou Hao found two earphones-like things inside. However, they were indeed transparent and flashed. They looked extremely unique.

Zhou Hao immediately took out the cosmic communication translation device and put it on his ear. Then, he quickly got up and walked to the cabin door. After opening it, he walked down.

As soon as he walked down, he heard a tall man say excitedly, "Hello, sir!"

"This spacecraft of yours is really cool. Is it the 19th generation Luo God Warship, the X-1200 series spacecraft?"

When Zhou Hao heard this, he was surprised. He did not expect this group of people to know the origins of his spacecraft. Therefore, he nodded and smiled. "That's right. I didn't expect anyone to know about my spacecraft on this planet. It's indeed very rare!"

After the few of them heard this, a smile appeared on their faces. Then, they slowly said again, "Of course!"

"This Luo God Warship's 19th generation, the X-1200 series, was the latest top-notch spacecraft when it was first manufactured!"

"That's right!"

After hearing this, a man beside him could not help but nod. He said excitedly, "I also know this spacecraft. I wanted to buy it back then because it was too cool!"

"But I don't have that much money because the price at that time was very expensive. It was almost the most expensive spaceship!"

"This spacecraft not only symbolizes wealth, but also status. It can be said to be a very unique existence!"

"If I had obtained this spacecraft, I would have definitely been an extremely eye-catching existence back then!"

Hearing these people praise his spacecraft, Zhou Hao only smiled and did not say anything.

Seeing Zhou Hao's indifferent expression, the few people beside him immediately discussed in low voices for a moment.

Immediately after, the man in the lead rubbed his hands. His eyes were filled with hope as he asked anxiously, “Handsome, can we exchange contact information?”

“If you ever decide to give up on your 19th-generation Luo God Warship, sell it to me!”

“Back then, when I just left the factory, I indeed couldn’t afford it. However, it’s been hundreds of years. It’s not like I can’t afford it now, right?”

The tall man was extremely excited. He impatiently took out a transparent card and handed it to Zhou Hao.

Chapter 731 - Buying Your Spaceship

Chapter 731: Buying Your Spaceship

Immediately after, the tall man chuckled and said, “By the way, I haven’t introduced myself after talking to you for so long.”

“My name is Vicente George. You can just call me George. That’s what my friends call me!”

George sounded very anxious, as if he could not wait to buy Zhou Hao’s spacecraft.

From the beginning to the end, his gaze had never left Zhou Hao’s spacecraft. His eyes were filled with urgency as he chuckled and said again, “Little brother, this spacecraft is really too cool!”

Seeing the enthusiastic George, Zhou Hao only smiled and received the card politely. However, he shook his head and rejected, “I’m very happy to be able to make friends with you.”

“However, I don’t have any intention of selling this spacecraft for the time being. After all, I only got to where I am today after modifying this spacecraft and installing a lot of equipment and facilities.”

“This spacecraft is also my treasure. I’m still a bit unwilling to part with it. There’s just no spacecraft that can compare to my spacecraft.”

As Zhou Hao spoke, his face was filled with pride.

This spacecraft was his treasure. If he planned on selling it so easily, why would he spend so much effort to modify these things?

After George heard this, a disappointed expression appeared on his face. He could not help but shake his head and sigh. "I thought that I might have a chance to experience the feeling of owning such a spacecraft."

"Looks like this gentleman is also a person who cherishes treasures."

George smiled and looked at Zhou Hao.

Zhou Hao did not speak and only smiled faintly. A moment later, George suddenly asked, "By the way, I still don't know your name."

"Even if the transaction doesn't work out, we've still made each other's acquaintances. Why don't we get to know each other? At that time, we might even be able to travel together."

George's words made a faint smile appear on Zhou Hao's face.

Since he had arrived on an unfamiliar planet, it was better for him to make friends than enemies. Moreover, judging from the looks of it, these people should not be hostile towards him.

Therefore, Zhou Hao smiled and introduced himself. "My name is Zhou Hao."

"Mr. Zhou Hao, hello. Since we know each other, why don't we travel together? After all, we've arrived at an unfamiliar place. It's hard to say if there will be any danger ahead."

George smiled and looked at Zhou Hao. The slightly shorter fatty beside him could not help but nod and echo, "Yes, yes!"

"On an unfamiliar planet, the most important thing is to protect yourself as much as possible. If this place is too unfamiliar, the potential danger will also increase."

After Zhou Hao heard what these people said, he instantly realized that they were indeed right.

If he could not realize the potential danger in such an unfamiliar environment and did not have the help of his companions, then the danger he would encounter in the future would become much greater.

Thinking of this, Zhou Hao immediately nodded and smiled. "Alright, I understand. Let's go together!"

Actually, it was not bad to have such a friend.

“Alright, let’s go now!”

George chuckled and got up. He quickly soared into the sky and floated in the air.

After the others saw this, they immediately got up and floated up with George.

Zhou Hao also quickly floated up and followed this group of people forward!

The four of them walked forward side by side.

George’s expression still revealed his curiosity towards Zhou Hao’s+s spacecraft.

Zhou Hao also did not hide anything. He answered whatever the other party asked.

George’s face was filled with curiosity. He could not help but ask hesitantly, “By the way, Zhou Hao, did you also spend a lot of money to buy this spacecraft?”

Even now, George seemed to be still thinking of the spacecraft. He could not help but look at Zhou Hao anxiously and take the initiative to ask.

Zhou Hao thought for a moment and immediately said, “Back then, I spent almost 5 billion cosmic coins to buy this spacecraft.”

“After maintenance and modification, I probably spent an additional 3 billion cosmic coins.”

Zhou Hao’s words immediately shocked George. His eyes were filled with shock as he looked at this scene. He could not help but ask hesitantly, “You mean to say that the money you spent on this spacecraft has already reached 8 billion cosmic coins?”

George’s mouth instantly widened, so shocked that it could fit a bun.

His eyes were filled with shock. He could not help but ask in surprise, “If I had so much money, I might not have been willing to spend it on a spacecraft at all, although I do like spacecraft.”

“I’m really envious of you. Although this spacecraft is very old now, it still can’t hide the fact that it’s the most powerful and impressive spacecraft!”

“But we can’t afford it. We can only take a look at your spacecraft to satisfy our cravings.”

George chuckled as he recalled how cool Zhou Hao’s spacecraft was!

Soon, the group arrived in the distance.

Zhou Hao could not help but look at the sky and discover that there was a huge galaxy in the distance. It flickered with purple light and was surrounded by green and pink intertwined. It looked like an extremely dazzling painting!

These dazzling colors actually gradually became even more dazzling as they approached!

“Heavens, the sky here is simply too beautiful. This is the first time I’ve seen such a beautiful sky. How blissful must the people living here be?!”

The short man beside him could not help but pout and say excitedly.

George also chuckled and nodded. He sighed and said, “You’re right. The scenery of this galaxy is indeed much better and more beautiful than the galaxies we’ve been to before.”

“Because this place has pleasant scenery and an extremely clean environment. Many people are willing to live here.”

“The level of civilization in this star system is also higher as it becomes more and more prosperous and dazzling because of the entry of many experts. This is the reason why this star system is so dazzling now!”

George looked into the distance and could not help but praise.

Chapter 732 - Brilliant Star River

Chapter 732: Brilliant Star River

When George looked at the sky, his eyes were filled with yearning. He could not help but fantasize that he could also stay here one day.

George’s flying device was not as fast as the others. Moreover, he had always been admiring the surrounding scenery, so his speed was almost slower than theirs.

In order to not pull apart from George, Zhou Hao deliberately lowered his flying speed and tried his best to maintain a certain speed with him to prevent them from being separated.

Soon, the group saw a bustling street scene in the distance!

In the distance, a huge city suddenly appeared. Countless tall buildings stood tall. On careful look, they were actually very luxurious and dazzling villas!

All kinds of neon lights flashed on it, making it look especially gorgeous!

Seeing this, Zhou Hao was instantly stunned. He could not help but look into the distance. He felt that the scenery here was especially beautiful, giving him an unrealistic sense of beauty.

Seeing that Zhou Hao was staring fixedly into the distance, George could not help but smile and ask, "Does Mr. Zhou Hao also like the living environment here?"

"This is the most luxurious place in this star system. It's a symbol of status. Many people have worked hard here their entire lives."

"If I can live here, my status and identity will definitely be extraordinary. If only I could afford a house here."

Hearing such envious words, Zhou Hao could not help but look at George in surprise. He did not expect there to be luxurious villas similar to Planet Earth here!

Wasn't that obvious?!

Zhou Hao could not help but look around and discover that there seemed to be many villas here. Moreover, the concept of villas here was completely different from the villas on Planet Earth!

The villas on Planet Earth only occupied a few thousand square meters.

However, the villas in this star system were at least five to six kilometers large. Not only were there all kinds of entertainment facilities in the villas, but the scenery was also beautiful!

How was this a villa? Wasn't this the same as the castle where the princess and the prince lived on Planet Earth?

If he could own such a property here, his life would be very beautiful. He felt good just by thinking about it.

Soon, the group flew past the most luxurious and magnificent area and arrived at a relatively ordinary area.

However, even the ordinary area surprised Zhou Hao!

The property here was at least a kilometer long!

Such a place was simply the greatest dream of his life!

After George saw this, he could not help but shake his head and say helplessly, "The property on this star system is really too expensive!"

"The money that I can use to buy an entire planet within a different system can only get me such a small villa here. It's really depressing!"

George's complaints made Zhou Hao feel very curious.

Wasn't this the same as Planet Earth? There were areas to sell houses. The better the area, the more expensive it was.

Relatively speaking, the houses in an area were not good and smaller would also have cheaper prices.

At the same time, the frog hidden in Zhou Hao's sleeve could not help but sigh.

"If you have money, you have to invest in a property on this planet!"

"After all, if you have a house here, others will all be envious of you even if you go to another star system, understand?!"

The frog's words also made Zhou Hao feel very curious. He did not expect this star system to be so powerful.

If he really bought a property here, wouldn't he be able to become rich in the future?

George's expression suddenly became incomparably helpless. He could not help but shake his head gloomily and say, "Actually, I've always wanted to buy a property here."

"However, my father is very strict with me. He said that he can't give me too much money. Otherwise, I'll form bad habits!"

"Please, what kind of old-timer nonsense is this? As an adult, do I not even have the right to buy a property that belongs to me?"

"I really don't know what my father was thinking to actually treat me like this. Sigh."

"If I had known, I would have thought of a way to earn this money myself. However, I don't have that much time to earn money, so I don't have much savings.

Looking at the incomparably disappointed George, Zhou Hao could not help but wonder if he could also buy a house here.

After all, the property on this planet did look good. If he really invested in it, perhaps it could help him earn a lot of money in the future.

However, Zhou Hao did not say what he was thinking. He only smiled and said softly, "You're right. This place is indeed very good."

"Right? I'm right, right?!"

George's expression suddenly became extremely excited. He smiled and said excitedly, "Therefore, if I really own a house here, it'll also be something to be proud of in the future!"

"Moreover, since I have a house here, it's also a good opportunity for me to come here and build a family in the future!"

The more George spoke, the more excited he became. He spoke excitedly and looked like a salesman.

Zhou Hao also knew that if he had a house here, his future treatment would definitely be good!

However, Zhou Hao's current economic strength was far from reaching the ability to buy a property here.

After all, the houses here were probably worth tens of billions.

Most of the people who could afford it should come from rich families or even descendants of large royal families from some special star systems.

People like them did not have many opportunities to buy a house here.

Soon, the group continued to fly forward.

This time, they saw an incomparably huge city again.

The city here looked much more low-key than the previous expensive city. Looking around, the city was dark and vaguely filled with an extremely strange aura.

Such an aura immediately made the three of them unable to help but feel a chill run down their backs. For some reason, the closer they got to these cities, the stronger this feeling became. They even felt like they were about to be devoured by these cities!

Chapter 733 - Getting an Identity Card

Chapter 733: Getting an Identity Card

This city was really too big. This was the first time Zhou Hao had seen such a huge city!

“How is it? Are you shocked? This is the first time I’ve seen something like this!”

George smiled at this moment. Zhou Hao nodded and finally understood what it meant to be powerful!

This city was dark and cold, but it had to be said that Zhou Hao had never seen anything like the technology here before. He could not even imagine it!

“Zhou Hao, I still have something to do. Let’s exchange contact information. After I’m done, I’ll treat you to a meal.”

Zhou Hao did not refuse and handed Thousand Feather Armor’s communication information to George before leaving.

“What should we do now?”

Without George, Zhou Hao did not know what to do. After all, this was his first time going out on an adventure. He could only broaden his horizons.

“It’s very simple. First of all, you have to obtain an identity in the universe!”

“To put it simply, you need to obtain a resident identity card!”

The frog’s words stunned Zhou Hao for a moment. He could not help but ask, “What do you mean?”

“What’s so hard to understand? Just like how you need an identity card for Planet Earth, you also need one for the universe. At the very least, you should obtain the identity card of an organization or an alliance. In this way, it will be easier for you to travel around.”

“Moreover, the various alliances need to use their identities to prove themselves. We have to get one!”

“Alright, let’s go now!”

Zhou Hao nodded and agreed. Then, he immediately jumped and flew up!

In the sky, many people also floated here and quickly flew into the distance!

Soon, Zhou Hao saw tall black walls appear in the distance.

On the high wall were countless sculpted ferocious dragons. They looked very shocking!

This was the administrative base of Planet Zhengluo!

Everyone needed to come here if they wanted to get anything done.

This work base was very grand and powerful. From afar, it gave people a very oppressive feeling!

At the entrance stood very tall robot guards that held weapons in both their hands. It was as if they were prepared to mercilessly beat down anyone who dared to barge in here!

Soon, Zhou Hao arrived at the door.

After the robots saw Zhou Hao, they immediately asked solemnly, “Stop, what are you guys here for?”

Zhou Hao smiled and said politely, “We’re here to get our identification documents.”

After thinking for a moment, the guard immediately gave up the spot in front of him. Then, he said in a mechanical voice, “Please enter!”

Soon, Zhou Hao walked in.

As soon as he walked into the Siam System’s headquarters, Zhou Hao was shocked by the scene in front of him. He could not help but look around and immediately felt that the scene in front of him was too shocking!

There were very grand decorations everywhere, and they were all mechanical. Many shining machines floated in the air, and it was impossible to tell what their functions were.

There was also a panel with his name written on it. On it was the data analysis of his journey!

Soon, Zhou Hao arrived at a circular sealed space under the guidance of the robot.

As soon as he walked into space, the machine quickly detected Zhou Hao's goal and emitted a white light before quickly soaring into the sky!

Swoosh!

A moment later, the sealed ball of light stopped steadily. During this time, Zhou Hao did not sense any shaking. After the door was opened, he instantly arrived at the 58th floor.

"Hello, sir!"

Just as he walked down this confined space, Zhou Hao saw a hot short-haired beauty standing in front of him. She smiled and walked in front of him, calling him politely.

She was wearing round-framed glasses and had long hair that was like seaweed. She looked especially beautiful.

"Hello, sir. What can I do for you?"

The woman smiled politely and looked at Zhou Hao.

"Hello, I want to apply for an identification card for the Zhengluo Planet of the Siam SysTEM."

After all, he indeed needed an identification card, so it was better for him to get one as soon as possible.

Fortunately, Thousand Feather Armor and the frog had told him everything. Otherwise, he really wouldn't know what to do when he arrived at this unfamiliar place.

"Oh? You want to apply for identification?"

A shocked expression appeared on the woman's face as she looked at Zhou Hao in shock and asked hesitantly.

It had to be known that it was necessary for everyone to have an identification!

However, judging from the man's words, it was obvious that he did not have an identification.

"Alright, sir. Please walk to the right and go to room 23. That's the room to register your identity."

The curly-haired beauty smiled and said politely.

“Alright, I understand. Thank you!”

Zhou Hao thanked her and walked towards the room the woman mentioned.

Hearing Zhou Hao thank her, the woman was stunned for a moment before she sighed and said, “This man is really polite. He actually thanked me!”

Zhou Hao did not think too much about it. Instead, he followed the woman’s instructions and walked towards room 23.

After walking to the door of room 23, Zhou Hao immediately knocked. Immediately after, he heard a voice from inside.

“Hello, please come in!!”

Zhou Hao walked in and saw several robots with pale blue eyes in the huge room.

They looked no different from humans and looked extremely serious.

After seeing Zhou Hao walk in, he immediately looked up at him and chuckled. “Hello, sir. May I ask what you need to do?”

“Hello, I’m here to register my identity as a member of Planet Zhengluo of the Siam System.”

Zhou Hao chuckled.

After the robot heard this, it swept its gaze over Zhou Hao from head to toe and slowly asked, “Hello, sir. May I ask if you’ve registered an identification before?”

“No.”

Zhou Hao shook his head and said truthfully.

“Oh? No identification?” After hearing Zhou Hao’s words, a surprised expression appeared on their faces.

They could not help but size up Zhou Hao hesitantly and look at him curiously.

They did not expect that this was actually Zhou Hao’s first time applying for an identity card!

Chapter 734 - Information

Chapter 734: Information

Although the robots were very shocked, they still had to go through the necessary procedures.

“Sir, please come with me to register your resident identity!” A strict robot stood up and walked to the side.

It was a transparent space with nothing inside.

At the very least, it was empty in Zhou Hao’s eyes.

It was as if nothing was placed in the room, and the surrounding materials were a little different.

Zhou Hao followed behind the robot. Although he was puzzled, he did not ask.

After watching the robot operate in its hand, an extremely huge machine suddenly appeared in that space.

He had never seen such a machine before.

After coming here, Zhou Hao slowly got used to being surprised and no longer acted like before.

“Sir, please stand on it. We have to confirm if you’re fine before we apply for your residential identification card!”

The robot made an inviting gesture.

Zhou Hao only wanted to end things quickly.

He obediently stood on the big machine.

This machine was no longer using infrared. As long as light reached the human body, everything could be seen.

“Damn!!!”

“Damn it!!”

It even revealed especially private information and could tell whether or not someone was a virgin!

Not only could this machine reveal whether one’s body was healthy, but it could also tell such a secret. He really regretted doing this.

“Wow! Sir, it shows that you’ve done it before!” The robot had a polite smile on its face as it filled in the blank space on the paper.

Seeing this robot’s movements, Zhou Hao almost couldn’t resist his urge to throw the other party out.

Did he have to fill such a thing into the form on the residents’ identity cards?

“Sir, please don’t be angry. You need to remain calm when we do the test!” The robot recorded all the information as it spoke with a solemn expression.

Tch?!

Damn it!!

Zhou Hao kept complaining in his heart. There was even a machine he had never seen before scanning above his head.

“Unknown creature! Unknown creature!” The machine kept shouting.

The robot looked at Zhou Hao from head to toe and did not find anything suspicious.

Zhou Hao was shocked. The technology here was even more advanced than on Earth.

The machine could even detect the Thousand Feather Armor and the frog on his body.

These two things were heaven-defying existences that even cutting-edge technology could not detect.

“Ignore him!” The robots were not very strict with this check.

“This person is 1.89 meters tall and weighs 90 kilograms. There are no signs of injuries inside or out. He has done it twice...” After being scanned, the system reported carefully.

Zhou Hao almost fainted. He thought that the other party would only repeat the information to him on the device. He did not expect the other party to read the results out loud after the scan was completed.

“Damn, what the hell is wrong with this machine?” Zhou Hao wanted to curse, his face as red as a monkey’s butt.

In this world, machines were really scammy.

The hot beauty at the side could not help but smile.

Seeing the hot beauty’s smile, Zhou Hao felt even more furious. He wished he could immediately find a hole to hide in.

“Master, this scanner is really too powerful. It’s even stronger than some of the cutting-edge technology on Earth!” The frog’s voice sounded in Zhou Hao’s ear.

“I wonder when Master lost his virginity. Aiya, why didn’t I know?” The frog’s resentful voice sounded again.

The frog liked such gossip the most.

It had never known this big secret. Fortunately, the technology on this planet was relatively advanced and could clearly detect it.

Zhou Hao’s face darkened. He was not afraid of a god-like opponent, but a pig-like teammate.

“Shut up!” Zhou Hao was furious.

He wished he could find a needle and sew the frog’s mouth shut. This matter was already very awkward, and now, the other robots and humans knew about it.

He did not know how to face others in the future.

“Master, don’t be shy. Tell us how you felt back then.” The Thousand Feather Armor’s voice sounded again.

They had never known that Zhou Hao had such a history.

They were very curious!

“Get lost, get lost!” Zhou Hao wished he could throw these two things out immediately.

They actually dared to tease him.

The robots and the beauty widened their eyes in disbelief.

The machine had only detected that he had done it twice. Why did he have to get so furious and embarrassed?

Could it be because the machine's results were not accurate?

"Sir, please don't be angry. Our human scanner is 100% accurate. Do you perhaps think that you've done it more than twice?"

"I can explain this to you. This scanner either displays 'done it twice' or 'not even once'! Those are the only two options!"

"Therefore, please don't question the authenticity of our scanner!"

A beautiful robot walked over and explained to Zhou Hao.

It was fine if they did not explain, but once they did, it made Zhou Hao feel like he was struck by lightning.

He did not expect this robot to be so human-like.

This place was simply worlds apart from Earth.

"I'm fine. Can I register as a resident now?" Zhou Hao's only thought now was to leave this damn place as soon as possible.

There were no secrets here.

The robot smiled and nodded, bringing Zhou Hao back to his desk.

Soon, he handed a chip-like item to Zhou Hao.

Zhou Hao took a look and found it very strange.

He secretly heaved a sigh of relief. Fortunately, he did not know anyone here.

However, Zhou Hao heaved a sigh of relief too early. When he saw that there was no information on the residents' identity cards, he almost fainted.

What a scam!

"Sir, all your information has been recorded on your resident identity card. Actually, as a young master from an aristocratic family, someone like you wouldn't really need to apply for an identity card!"

This robot had thought that Zhou Hao was a young master from a large family.

"I can't see anything!" Zhou Hao could not see anything on the card.

“Sir, you need to use your mental strength to look!” The robot saw Zhou Hao’s confusion and took the initiative to explain.

After Zhou Hao received the tip from the robot, he used his mental strength to look at this card. The result he saw directly made him furious. “Damn, you even added that information?! Are you still human?”

The words “done it twice” had been filled in.

He was almost angered to death. Now, wouldn’t the fact that he wasn’t a virgin be displayed no matter where he went?

Seeing Zhou Hao’s angry appearance, everyone was stunned. Why had he suddenly lost his temper? Wasn’t he fine just now?

“Sir, your identity has been settled. You can go to the Mission Pavilion to receive missions now!” The robot had a faint smile on its face.

Chapter 735 - Discovery of the New World

Chapter 735: Discovery of the New World

Looking at the furious Zhou Hao, everyone was silent. They did not know why he had suddenly become so furious.

“Can I get rid of this?” Zhou Hao gritted his teeth and pointed at the message on the chip, feeling like he was going dizzy.

He had never done such a thing before.

The feeling of being wronged made him very uncomfortable. What kind of lousy scanner was this? It must have not been cleared after the previous scan.

He kept feeling wronged.

After all, with such a card, wouldn’t one be done for if their lover found out?

Just thinking about it made him shudder.

Sometimes, it was impossible for women to be reasonable. The more one tried to reason with them, the worse it would get.

The robot was very puzzled as to why Zhou Hao had been struggling with this question.

After taking a look at the machine, it suddenly reacted. Previously, the number had not been reset after the last person used it. It was the wrong data.

“Sir, I’m sorry. This is our mistake!” The robot stood in front of Zhou Hao very politely and apologized sincerely.

It invited Zhou Hao to do the scan again. This time, it would definitely remember to clean up all the data before using it.

The results shocked them again.

His height and weight had not changed. The only thing that had changed was that the machine indicated that Zhou Hao was still a virgin. This was important. After all, his future happiness was at stake here.

Under Zhou Hao’s strong request, they did not put this information on his residents’ identity cards.

These robots also felt very helpless. This was someone else’s privacy and they could not force it.

The frog and the Thousand Feather Armor heaved a sigh of relief when they heard this result. They did not expect the scanner of such cutting-edge technology to have such an error.

Originally, they were even wondering if their Master would be done for. Fortunately, things turned out like this.

In their impression, a man had to be indomitable. Only by working hard could he increase his strength and obtain everything he wanted.

After obtaining the resident identity card this time, Zhou Hao no longer looked at the contents, afraid that he would see something he could not accept.

Looking at the fleeing figure, the robots could not help but smile.

Although they had made a mistake, it could still be seen that this man was very thin-skinned.

It did not understand why Zhou Hao had to be so shy even though he was a man.

...

After obtaining the residents' identity number, one could go to many places. For example, those very hidden virtual worlds required one to have a resident's identity card in order for them to visit.

Otherwise, one wouldn't have the qualifications to visit.

"Now, we can go to the virtual world. That's a good place. I'm very excited!" The frog's voice sounded in Zhou Hao's ear again.

Zhou Hao did not know how he was supposed to enter the virtual world in this world.

Under the frog's reminder, Zhou Hao learned that he could enter that world at any time as long as he put on his helmet. He was still a little unwilling to part with everything here.

"What's so good about going there?" Zhou Hao did not know what was so good about it that the frog kept urging him.

He was unfamiliar with this place and had yet to take a good look at how impressive it was before he was urged by the frog.

He wished he could just throw the frog away.

However, Zhou Hao still needed the frog's guidance to live safely.

"You just don't know yet. There are many fun things there. Since you're here, you should go and accept missions to train!"

"You didn't come here to enjoy life. You have to remember your mission!" The frog's chattering voice kept buzzing like a fly.

The frog even made Zhou Hao start to doubt his life.

He even wondered if his ears would become deaf because of this noise. The frog was simply a classic example of someone who would not stop until the goal was achieved.

He recalled that he had indeed come here to become stronger.

Without hesitation, he took out his helmet. He had obtained it from the office after becoming an official resident.

There was even such a benefit.

Everything on this planet was very welcoming, unlike Planet Earth that was very cold.

After putting on his helmet, he instantly went to a very unfamiliar space. There were mountains, rivers, and powerful creatures inside. They did not lack anything at all.

The world here was filled with mystery. Not far away, waves of light were flashing. This was something he had never seen in other worlds.

“Damn, the world here is much more exciting than the outside world!” Zhou Hao could not help but mutter.

This place had indeed surprised him. It was even more mysterious and powerful than the outside world. The technology here was simply dazzling. The people here were much stronger than the people outside.

Even the cutting-edge technology on Planet Earth was like trash when compared with the stuff here.

It made Zhou Hao sigh.

The atomic bombs on Planet Earth were already very powerful. In this place, no one cared about them. Even if they wanted to use them, they were unable to.

That was because they were no different from a pile of scrap iron!

“Damn, it’s indeed incomparable. This thing makes my heart palpitate!” Zhou Hao saw an antenna-like thing not far away.

He thought that it was the thing that was used on Planet Earth a long time ago. He did not expect to be pushed away by a powerful force before he could even enter. There was even a reminder on it: “Don’t approach.”

It looked very ordinary, but he could not approach it.

There was an empty space there. It was just like in the shop previously. There was clearly nothing in the shop, but after the robots operated it, a huge scanner appeared.

“This is their detector. It has a very high voltage. Once you approach it, you will be turned to ashes!” The frog looked at the idiotic Zhou Hao and could not help but remind him.

Not to mention Zhou Hao, even the frog could barely recognize such cutting-edge technology. The things on these planets were too advanced, at least 10,000 years ahead of Planet Earth.

If Zhou Hao had not come here, he would never know how powerful these things were.

Zhou Hao rolled his eyes. If a detector could be so powerful, he wondered how powerful those cutting-edge technology would be.

He wanted to witness the strength of this world.

In the future, when he had the chance to return to Planet Earth, he would bring these technologies back and improve humanity.

Everyone here was very obedient and could not enter dangerous places at all. This was the benefit of advanced technology.

“I’ll definitely get Planet Earth to improve as well in the future!” Zhou Hao muttered.

Chapter 736 - Underestimated

Chapter 736: Underestimated

No matter when or where, one had to remember the place he lived in. Only by becoming stronger would one not be bullied by foreign invaders.

These invaders were never kind.

“Master, no matter what you do, Little Yu will support you!” Thousand Feather Armor began to suck up.

Previously, it had been told to get lost by its master because it had said the wrong thing. Even now, it still had some lingering fear. Usually, Zhou Hao would not lose his temper easily. Later on, Little Yu learned that it was because Zhou Hao had been wronged.

Now, it had to quickly stand up and express his loyalty. It definitely could not be like this rotten frog and argue back at his master no matter what.

It wanted to be an obedient baby.

The frog rolled its eyes helplessly. It did not expect Thousand Feather Armor to be getting more and more good at bootlicking. Now, its behavior was even starting to affect the frog.

If the frog did not teach it a lesson, it really would not know what was good for it.

“You can go to the Planet Zhengluo Mission Pavilion to accept missions!” The frog directly revealed its purpose in coming here.

He had not asked Zhou Hao to come here to see how powerful the virtual world was. There was everything in here. No matter what kind of high-tech technology it was, this virtual world had it.

There was everything one could think of.

“Walk forward for 300 miles and turn right before walking another 1,000 miles!” The frog accurately told Zhou Hao the exact location of the Mission Pavilion.

One could obtain rewards from the missions. Those rewards could be exchanged for everything here.

Hearing this, Zhou Hao almost lay on the ground and played dead.

It was simply too far.

He could not help but think of the song, “a thousand miles”.

What was very surprising was that in this world, one did not have to walk on solid ground. One could easily fly around.

This made Zhou Hao very relieved.

Fortunately, this rotten frog did not scam him. Otherwise, he would definitely teach it a lesson.

Not long after, he saw an extremely ancient house appear in front of him. It was as if he had returned to the ancient times.

On careful look, the Mission Pavilion looked very grand and there were countless treasures on it. These treasures had been here for countless years, but no one dared to have any ideas about them.

From this, it could be seen that the Mission Pavilion also had the support of a powerful backer.

The more Zhou Hao looked, the more shocked he became. His thought of robbing the other party instantly disappeared from his heart.

Who would dare to have any ideas about such a powerful thing unless they wanted to die?

There were pocket-sized missiles all around the mission. This power was even more terrifying than the atomic bombs on Planet Earth. It could even be said that they had perfect accuracy and could be shot out at any time.

There were also high-definition surveillance cameras. As long as one reached the scope of the Mission Pavilion and touched something inside, they would emit an invisible fluctuation.

Be it masks, makeup, or even those masks from the ancient times, they were all useless. This surveillance device was like a scanner.

No matter what one looked like, the scanner could still detect the other party clearly.

No wonder these people dared to use such precious things to decorate the place.

Zhou Hao thought to himself, What a waste!

Instead of sharing these good things with others, they were left here to endure the wind and sun. How could the poor tolerate this?

“Hello, what brings you to the Mission Pavilion?” Just as Zhou Hao stepped into the Mission Pavilion, a robot with light blue eyes walked out and asked.

Zhou Hao was shocked. Previously, he had clearly seen that there was nothing here. However, a tall and burly robot had suddenly appeared in an empty space.

He had already slowly gotten used to invisible things appearing out of nowhere.

“You’ll scare me to death, understand?” Zhou Hao looked at the robot in front of him angrily.

Every time these things appeared, they would appear silent. He was so frightened that his heart attack almost relapsed.

“Sorry, I’m a robot. I can’t empathize.” the robot replied matter-of-factly.

Damn!!!

It was really too much.

Every time these robots frightened others, they would pretend to be aggrieved. He felt too speechless.

“You’re indeed not human. I’m here to receive a mission. Make way!” Zhou Hao looked at the robot in front of him angrily.

If he were to argue with it, he would definitely be furious. He might even directly die from anger.

The other party already said that it was not human, so why would Zhou Hao still lower himself to the other party's level?

"Sir, please come in!" The robot's attitude suddenly changed drastically.

They were polite to anyone who came here to accept missions.

This meant that the Mission Pavilion would earn money again.

Why did the robot even ask him for his purpose previously?

Of course he came to the Mission Pavilion to accept missions! Why else would he be here? To date?

The robot started to run some operations, and a door suddenly appeared in the empty space in front.

Zhou Hao was shocked after seeing it.

He finally understood why those extraordinary people did not dare to target the Mission Pavilion.

Not only was the cutting-edge technology here powerful, but it was also impossible to enter without a guide.

Thinking of this, cold sweat broke out on his back.

"It's impressive to have cutting-edge technology. Just you wait! I'll be able to create it one day!" Zhou Hao muttered to himself as he walked behind the robot.

With such a powerful existence around, one would not have to worry about those thieves at all. No matter how powerful the thieves were, they would not be able to pose a threat.

Moreover, Planet Earth also lacked these fatal weapons. Zhou Hao's thoughts were very simple. One day, he would equip Planet Earth with these weapons. At that time, no one would dare to invade Planet Earth!

The robot walked in front as if it did not hear him.

"Could it be that the robots here are not intelligent enough and don't know how to communicate with humans?" Zhou Hao was very puzzled. Those robots from before were very intelligent and were like real humans with seven emotions and six desires.

However, this robot was like a block of wood and did not say anything.

“You should abide by the rules in someone else’s territory. If you talk too much nonsense, you might get thrown out!” The robot suddenly turned around and looked at Zhou Hao.

The robot was very helpless. It was not that this robot did not hear Zhou Hao, but it did not want to waste its breath on this low-intelligence human. After all, Zhou Hao had acted like a country bumpkin after arriving here.

He was surprised by everything he saw.

“Damn, damn, you actually dare to say that to me!” Zhou Hao snorted and could not help but explode.

This robot was really not polite at all.

There was no enmity between them, so there was no need was no need for the robot to be so mean. Even if he was surprised by everything after coming here, there was no need for the robot to deal such a ruthless blow to him.

Zhou Hao decided to give him a thumbs down for this behavior.

If not for the fact that he was in the Mission Pavilion, he would definitely drag the robot out and beat it up to let it know how powerful he was.

The robot would also instantly cower when it saw the thing that was more powerful than the atomic bomb.

- Chapter 737 - Accepting a Mission For No Reason

Chapter 737 - Accepting a Mission For No Reason

Chapter 737: Accepting a Mission For No Reason

On account of such cutting-edge technology, he would temporarily spare its dog life.

He really wanted to pull it over and tear off all the parts on its body. He kept cursing this robot in her heart.

He wanted to smash it into a retard.

The robot in front suddenly felt an extremely cold aura, as if it was aware that someone wanted to take its life.

In this place, although it was only a robot, it had the same seven emotions and six desires as humans. It could also feel pain.

Its sixth sense for danger was also very powerful.

...

"Sir, here are all the missions in the Mission Pavilion. What do you want to choose?" After the robot brought Zhou Hao into the door, it turned around and left.

The person who came to entertain Zhou Hao was a female robot. She was very good-looking and had a gentle attitude. She was worlds apart from the previous robot.

Anyone who could come here were their customers.

They had to treat their customers like gods for them to come again. This concept was deeply imprinted in their minds.

Zhou Hao looked at these missions in a daze. The higher the reward, the higher the difficulty. He looked at them casually and could not find any missions that he was interested in.

Since he was already here, he would just pick one.

"Pick the mission in the corner!" The frog's voice reminded Zhou Hao what mission to choose.

Hearing the frog's words, Zhou Hao looked at the mission and was directly shocked. Was it deliberately trying to scam him?

The bounty was the lowest, but this mission was very troublesome. If he was careless, he might even lose his life. Indeed, the things he carried with him were all scammy.

None of them had good intentions.

"Damn, do you want me to die?" Zhou Hao ignored the robot beside him and directly cursed at the frog, wishing he could drag the frog out and beat it up.

It actually dared to harm him like this. It must be tired of living. It seemed that this frog really wanted to find another host.

That was why it thought of such a dirty move. If it no longer wanted to follow Zhou Hao, couldn't it have said so directly? If Zhou Hao was killed because of this, this frog would definitely be punished by the heavens.

Zhou Hao kept complaining in his heart.

"It's for your own good. Do you think I'm trying to harm you?"

"Tch, you're not at the level where I need to scheme in order to kill you!" The frog said angrily.

It did not want to explain to Zhou Hao why it had picked this mission for Zhou Hao.

Its meaning was clear. It wanted Zhou Hao to pick the mission but did not want to provide an explanation.

This extremely domineering method made Zhou Hao feel like he was about to collapse. He felt as if he had boarded a pirate ship. It was too late for him to turn back now.

"You want me to choose a wanted criminal mission? If these people can't do anything, can I?"

"And take a good look! The bounty is so low!"

"You're scamming me!" Zhou Hao stomped his foot angrily.

He questioned the frog loudly.

No matter what he did, there should always be a reason for it. If the frog wanted Zhou Hao to do this for no reason, could it be that this wanted criminal was a really heinous person?

If he did not have enough strength, he would simply be sacrificing his life for nothing.

The frog did not give Li Xiang any explanation. After accepting this mission, there would definitely be even greater benefits waiting for him. It was precisely because the others did not have any foresight that they gave up on this mission.

If there were people who knew their stuff, this mission would have long been taken by others.

Facing the frog's silence, Zhou Hao thought that it was admitting defeat.

He could not give it a good attitude. Otherwise, it would be even more ridiculous.

“No matter what, you have to accept this mission. Otherwise, I’ll make sure you won’t be able to leave this Mission Pavilion!” The frog was silent for two minutes before suddenly speaking.

As soon as it opened its mouth, Zhou Hao almost fell to the ground. It actually dared to threaten him. This frog really did not know the immensity of the heavens and earth.

It was just like how he could not survive without it. However, after thinking about it, he realized that it was true. He really could not survive without it.

He could not even find the basic direction.

He could only admit defeat and take note of this mission to see what the frog was up to.

“Alright, alright. If there are no benefits to this mission, I’ll drag you down with me even if I don’t return to Planet Earth!” This time, Zhou Hao was also ruthless.

This damn frog was always tempting him to do something he was unwilling to do.

He had to teach it a lesson this time!

“I’ll take this wanted criminal mission!” Zhou Hao pointed at the dusty corner where the mission was and said loudly to the female robot.

He also did this because he wanted to gather his courage. Otherwise, if he went to do the mission expecting death, it would be likely for him to actually die in this stupid mission.

The robot was stunned for a minute.

The robot widened its beautiful light blue eyes and looked at Zhou Hao in front of her in confusion, as if she was looking at a fool.

The robot’s first reaction was to think that Zhou Hao was a fool.

Otherwise, why would he accept a mission that no one had taken on for many years?

Not only was there a small reward for this mission, but it was also very difficult. Even those with the ability to do the mission would not take a look.

This mission was only a backup plan to them.

Since someone had sent the mission here, the robots here were obligated to post it. As for whether those people accepted it or not, that was their decision.

“Sir, no one has asked for this mission for more than a decade. Are you sure you want to accept it?” The robot wanted to confirm again.

They thought that Zhou Hao did not know about the difficulty of this mission.

Many people thought that the lesser the bounty, the easier the mission. In fact, it was not like that. Some missions were very difficult, but the bounty was very small.

Some of the rewards were very generous, but the mission was very simple.

It depended on everyone’s luck. The missions left behind by the Mission Pavilion were all impossible for ordinary people to complete. This was why they were posted at the Mission Pavilion.

Zhou Hao almost shook his head. This was because accepting this mission was not his original intention. He had only been threatened by the dead frog and was currently cursing in his heart.

If he could kill with his gaze, this frog would have died countless times.

However, the frog was not a human to begin with and was also a mysterious object in the universe.

The robot widened its blue eyes and looked at the stunned Zhou Hao in front of it in confusion.

It also wondered if this fool could complete the mission.

Now, Zhou Hao had become a fool in the hearts of the robots.

Chapter 738 - Secret Should Not Be Easily Revealed

Chapter 738: Secret Should Not Be Easily Revealed

As long as the other party accepted this mission that no one had even asked about, he would be deemed a fool.

These robots almost canceled this mission because no one had bothered to complete it for so many years. It was useless even if it was hung up.

“Definitely, definitely, definitely. I like this mission. I’m not here for the bounty!” Zhou Hao said very generously.

Unexpectedly, his heart was bleeding non-stop now. If not for the fact that there was no other way, who would do such a stupid thing? He began to curse the frog silently in his heart.

If possible, he would definitely press this frog to the ground and rub it.

However, he was not powerful enough now, so he could only compromise.

“Alright, this is all the information about this wanted criminal. He’s a wanted criminal in space and has done many unforgivable things!” The robot took out a stack of information.

These were all the introductions of the wanted man and what he had done in his life. Zhou Hao almost fainted when he saw them.

He did not expect a wanted criminal to be so powerful. These spatial police were unable to do anything to him.

Not only did this criminal know how to fly over roofs and walk on walls, but he also knew how to use an invisibility technique. What was even more terrifying was that he could transform into anyone. Not everyone had such powerful strength.

He was really a genius. Unfortunately, he had chosen the evil path.

After leaving the Mission Pavilion, Zhou Hao was still confused, not knowing what he just did.

“Wanted criminal’s real name is Toslitan. 39 years old. Male. Strength. Dao Master. Proficient in invisibility, illusion, and traveling thousands of miles in a day!” Zhou Hao looked at these helplessly.

Such a genius had actually become such a bandit. The reason why he was wanted was because this guy did not do anything good and instead went to scam others.

He even dared to touch the things of some large families. He had even stolen from the imperial treasury a few times. Such a person could be considered a hero.

Even Zhou Hao admired him very much. After all, not only was this person powerful, but others were also unable to do anything to him.

It was said that he had escaped to a small planet furthest from Planet Zhengluo, Planet Huiming. He was probably also calling the shots there on that planet right now. Just thinking about it made Zhou Hao feel very unbalanced.

The reward here was only a few dozen gold coins, but he had to travel thousands of miles to Planet Huiming. His strength was even lower than the other party's.

Perhaps he would not be able to return alive this time!

As long as Zhou Hao took back the other party's head, it meant that he had completed the mission.

Zhou Hao felt very troubled. He had to bring back a living head from afar. Weren't they afraid that it would rot after coming here?

...

"If the others aren't afraid, what are you afraid of? Moreover, that person was wanted by these people and wasn't killed. Didn't you think that he might have something valuable on him?"

The frog's merciless words sounded again, directly shattering Zhou Hao's previous thoughts.

He had never thought of this before and thought that this was a trap set up by the frog.

Although he felt that he could be trained from this mission, he still felt that this mission was meaningless as he needed to travel such a long distance.

Now that he had been reminded, he felt that it was true. How could a person who could escape unscathed and was living an incomparably comfortable life be simple?

Just thinking about it made him excited. The other party must have some unspeakable secret.

Thinking of this, Zhou Hao did not ask the frog why it wanted him to accept this mission.

It was also a good thing to be able to go out and train. Otherwise, in an era where technology was very advanced and everyone was very powerful, it would be impossible for him to survive.

After figuring this out, Zhou Hao was no longer as pessimistic as before.

No matter where he went, the most important thing was to train himself well.

"You're right. You're still the one with the foresight. I won't complain about you in the future!"

"I also won't curse your ancestors secretly!" Zhou Hao was a good child who knew his mistake and corrected it.

He even told the frog everything he was thinking previously. He had deeply realized this mistake and that he would not make the same mistake a second time.

The frog almost wanted to strangle him to death. Previously, Zhou Hao had actually cursed its ancestors in its heart. How despicable was this?

In the future, it had to find an opportunity to scam this brat.

It needed to teach him a lesson.

Not only was Zhou Hao cursing openly, but he was even cursing in his heart. The frog could tolerate it, but it knew that its aunt could not.

Zhou Hao suddenly felt a cold atmosphere and was so frightened that he almost fell to the ground. He had just left the Mission Pavilion and did not know what kind of powerful person had locked onto him.

After observing the surroundings for a long time, he did not discover any suspicious creatures.

This cold aura came from his body. It seemed that this rotten frog was thinking of harming him again after he had just admitted its mistake seriously.

“Don’t be ungrateful. Do you believe that the two of us will die together?!” Zhou Hao also grasped the frog’s weakness.

It was unknown how long this thing had existed for, but it was abnormally cowardly. Zhou Hao knew this well and could easily take advantage of the frog’s weakness.

In an instant, the powerful force disappeared. Even the air was filled with a faint fragrance, making the entire virtual world seem dreamlike.

It was also a lifelong wish for the frog to live here for a long time.

Not to mention others, even Zhou Hao yearned for this place. As long as he had enough resources, he could have a small world here.

“Tch, so be it. I’m not afraid of you!” the frog muttered stubbornly.

If it was not afraid of death, how could it quickly retract that powerful force? If the two powerful forces died together, this space would definitely be destroyed into nothingness.

When the two of them lost their temper, the Thousand Feather Armor did not dare to say a word. As long as it dared to speak rashly, it would definitely be the one injured in the end.

This was not the first time something like this had happened.

Therefore, it had already become very smart and would not easily make the same mistake as before.

“If you’re not afraid of death, then don’t take back that power!” Zhou Hao also pretended to be fearless, as if he had never been afraid of death.

He looked down on this ugly frog very much. It was clearly afraid of death, but it still pretended to be strong.

He would be generous for once and not expose the frog. Only by doing so could he be a true gentleman.

Zhou Hao began to feel narcissistic again and felt that he was the most perfect man in the world. It was all because of this smelly frog beside him.

Chapter 739 - Departure to Planet Huiming

Chapter 739: Departure to Planet Huiming

“How shameless. If you’re the most handsome in the world, I wonder how ugly everyone else is!”

“It’s also possible for you to be the most handsome if the entire Planet Earth exploded, all the humans died, leaving only those... bastards!”

The frog said mercilessly.

If not for the fact that Zgiy Gai still had a trace of rationality, it would definitely not hesitate to throw it out of the entire universe.

Its words were becoming more and more vicious.

The man and frog bickered as they walked. This place was not far from the Mission Pavilion. The two of them had to leave the virtual world and return to Planet Zhengluo before they could set off for Planet Huiming.

After preparing everything that needed to be prepared, Zhou Hao wondered what kind of environment Planet Huiming would have.

The environment should not be too bad. In Zhou Hao's memories, among all the cosmic systems, Planet Earth was the only one that developed the slowest and was the most backward.

Now that it was already 10,000 years later, no matter what they were, they would definitely be unique existences compared to Planet Earth.

If not for the fact that they still had a mission, he would have brought the powerful technology of these civilizations to the scientists on Planet Earth to study.

"Planet Huiming is in the southeast direction of Planet Zhengluo. It's about ten light years away and we'll need to pass through a cosmic system. It will take about two months for the Luo God Warship to travel there!" The frog immediately walked out of the distance and direction.

In this way, they could take fewer detours. Otherwise, Zhou Hao might not be able to get there in his entire life if they just wandered randomly.

Its existence was to guide Zhou Hao in participating in various powerful battles with his devouring power.

Although they usually argued fiercely, they both relied on each other.

"Hmph, don't act like you're the only one who knows what to do. The Luo God Warship has its own navigation system. How could it get lost?" Zhou Hao stubbornly refused the green frog's kind intentions.

Even though he was still very grateful to this smelly frog, he never said anything. Otherwise, this frog would be even more smug.

Along the way, because of its company, he took fewer detours and had more fun. At the very least, he did not travel alone.

The frog did not say anything else. No matter what it said, this brat in front of it always had something to retort. Sometimes, silence was the greatest resistance. It wanted Zhou Hao to know the pain of the cold shoulder.

"Hey, Zhou Hao, where are you going?" Just as Zhou Hao got on the Luo God Warship, a very familiar voice stopped him.

Zhou Hao saw George standing not far away, the other party's blue eyes looked at him in confusion, as if the other party did not understand why he had left.

After all, he had just arrived on Planet Zhengluo not long ago. It was normal for others to not understand.

“Hi, George, why are you here?” This was the place where they had parted.

The two of them talked about everything and were very good friends. Zhou Hao did not hide the fact that they were going to Planet Huiming.

As long as the other party investigated, he would know about this matter. As a friend, there was no need for Zhou Hao to hide this. After all, it was not some top secret information. Moreover, it was also impossible for George to leak the news from so far away.

“I’m planning to travel to Planet Huiming. I heard that the scenery there is beautiful and people are very enthusiastic!” Zhou Hao looked at George in front of him with a smile.

It was as if he was really going on a trip this time. However, he had just arrived and had yet to appreciate the beautiful mountains and rivers here and the cutting-edge technology.

How could he leave just like that?

After completing this mission, he would definitely return.

“Uh... I see. There’s a mission in the family. Otherwise, I would have gone with you!” George had always envied Zhou Hao for having the Luo God Warship.

He had long wanted to go up and experience it. Now that he had this opportunity, he naturally wanted to experience it. However, his family had assigned him another mission. He did not know when he would be able to board the spacecraft.

“Are you going to Planet Huiming?” George suddenly thought of the mission his family had assigned him.

Previously, he had not paid attention to this address and thought that it would be very lonely this time.

After seeing Zhou Hao nod in confirmation, he was overjoyed.

Unexpectedly, the two of them were quite fated again and were actually going to the same place.

No matter what the mission was, it was fine as long as both parties could achieve their goal.

“Then do you want to go together?” George widened his light blue eyes and almost ran into Zhou Hao’s Luo God Warship.

He asked this to seek Zhou Hao’s permission.

If the other party was unwilling to travel together, there was nothing they could do.

Although the two of them were already friends, they still had to respect each other. George couldn't just force Zhou Hao to do something he didn't want to do just because they were friends.

"Sure, it would be nice to have a companion!" Zhou Hao still did not know what mission George would be assigned to when he went to Planet Huiming. He wondered if it would conflict with his mission?

Even if there was a conflict, it would still be dependent on their respective strength.

They would deal with whatever came their way.

After all, even if he guarded against George now, they would still encounter each other in the end.

The two of them chatted along the way. George was clearly very interested in everything about Zhou Hao.

After boarding the spacecraft, Zhou Hao directly set the location. He did not have to worry about anything else. Thousand Feather Armor controlled the entire Luo God Warship by itself.

George and Zhou Hao also became familiar with each other and began to gossip. Zhou Hao was also incomparably depressed as he asked some strange questions.

"Zhou Hao, tell me... what race are you from? This is the first time I've seen a race like yours."

"Your body... I can sense that it's very powerful, but why does it also seem to be very weak?"

"Also, there are many things about your body that don't conform to the laws of survival. For example, this nose of yours seems useful, but what if it's broken in a fight? Look at me, I don't have it."

"And your hearts are actually in your chests. Our hearts are in our brains. In this way, we only have one fatal spot, and you have two..."

Under George's puzzled eyes, Zhou Hao did not know if he should answer the other party's stupid questions.

Zhou Hao even regretted inviting this guy to his spacecraft.

George only wanted to travel with him because he liked his spacecraft. Sigh...

Zhou Hao regretted it a little!

“Zhou Hao, am I asking too many questions? Hahaha, sorry, sorry. I’m indeed very curious about you!” George looked at Zhou Hao’s displeased expression and thought that he was angry at him.

Of course, George was indeed very interested in Zhou Hao. After all, Zhou Hao was very mysterious!

As a descendant of a large family, although George himself was quite mysterious, he felt that he was far inferior to Zhou Hao!

After all, Zhou Hao owned such an expensive Luo God Warship. Moreover, he actually came here to register his identity. All kinds of signs indicated that this person definitely had a story!

“George, we’re friends. How could I be annoyed? I was just thinking that my mission this time is going to be a little difficult!” After accepting this mission, Zhou Hao had not relaxed for a moment.

However, he also understood that only by facing stronger existences could he temper his strength.

Chapter 740 - Cosmic Storm

Chapter 740: Cosmic Storm

Seeing that the Shenluo Warship was getting closer and closer to Planet Huiming, Zhou Hao felt a little worried for some reason. His gaze seemed to be able to travel thousands of miles, and he felt indignant for a long time.

After all, this was outer space. Zhou Hao was very unfamiliar with all of this, and the frog was the one who had given him the mission.

George looked at Zhou Hao looking into the distance worriedly and did not say anything.

He still did not know that Zhou Hao had already labeled him as a gossip maniac.

If he knew, he would definitely complain.

This was because he had never been so interested in anyone. He was only interested in Zhou Hao!

“There’s a huge cosmic storm not far from here!” Just as Zhou Hao was worried, the frog’s voice sounded again.

Zhou Hao was shocked, but he had never asked the frog why it knew about something that had yet to happen.

This was because everything it said had been true. Therefore, Zhou Hao also believed that there was definitely a huge cosmic storm not far away. In the Luo God Warship, Thousand Feather Armor also made a corresponding report.

“Master, there’s an extremely huge cosmic storm two light years ahead that’s enough to destroy everything in the world. Should we take a detour?” Thousand Feather Armor asked for Zhou Hao’s opinion.

If they insisted on rushing forward, the Luo God Warship might suffer certain damage in the huge storm. It was very difficult to estimate how powerful this storm was.

Sometimes, the storms that looked very terrifying would be harmless. On the other hand, the harmless-looking ones would carry powerful strength that was enough to destroy everything!

In outer space, the most dangerous thing was the latter. The journey and destruction of such a cosmic storm were unpredictable!

Zhou Hao did not even think about it. At this moment, even if he had to delay his travel, he had to avoid this storm.

He was afraid that the storm’s AOE would be too wide and he wouldn’t be able to circle around it. It was still not too late to reschedule the navigation.

“Let’s reroute the navigation to Planet Huiming!” Zhou Hao did not dare to hesitate too much. After all, such a huge storm could spread thousands of kilometers in a second.

Although it was still two light years away, it might spread to his current location in half an hour.

“Activate the navigation!” Thousand Feather Armor’s voice sounded from the Luo God Warship.

The Luo God Warship was a high-end warship and a top-notch fighter plane. No matter how difficult the situation was, it could think of ways to avoid danger. Moreover, under the control of Thousand Feather Armor, the Luo God Warship was even more agile than a human.

Looking at the system of this universe displayed on the monitor, they were not far from Planet Huiming. This storm was around Planet Huiming. It was unknown why such a huge storm had appeared.

The Luo God Warship could predict the danger thousands of kilometers away and could even take the initiative to avoid the unknown danger. Most importantly, it would take the initiative to attack and directly bombard those unknown creatures.

George was stunned as he looked at the Luo God Warship operating without Zhou Hao's control. This was indeed the warship he had dreamed of. It was grand and made him unable to take his eyes off everything.

Even he did not dare to say that he could own such a warship!

Of course, their cutting-edge technology had also reached this level, but he himself did not have such a warship.

Thinking of this, George became depressed. His father was really stingy!

The stars were dazzling, and the planets were flashing. It was the stars one could see on Planet Earth.

Zhou Hao suddenly missed that life.

This spatial storm was comparable to the arrival of the end of the world.

Just thinking about it made him a little afraid. If he was swept into such a storm, not even his ashes would be left. This kind of death was really terrifying.

"Damn storm, why didn't it come sooner? Or even later?" Zhou Hao complained in a low voice.

Should he blame himself for being too unlucky or should he blame the storm for being too lucky? He had just accepted this mission when such a crisis happened.

George looked at the anxious Zhou Hao and knew that something must have happened.

However, Thousand Feather Armor quickly came to a conclusion. "Master, the storm has enveloped the entire Planet Huming. We can't avoid it and can only forcefully barge in!"

Hearing this, Zhou Hao immediately frowned and his expression turned ugly!

"George, there's a huge storm ahead. Do you have a way to deal with it?" Zhou Hao could not help but ask.

Not only that, but Zhou Hao also used the Luo God Warship to detect the size of the storm this time.

Unexpectedly, the storm this time was terrifyingly huge and had a wide area. After confirming again, the conclusion was still the same. It was impossible to take a detour. The only way was to directly pass through the center of the storm.

Of course, there was also the option of returning the same way, which was to declare the failure of this mission.

Zhou Hao did not want to choose either option.

If possible, he would rather take a detour. He did not want to take such a risk.

He had already passed the age of taking risks. Moreover, even the strongest fighter plane in such a storm would be like a leaf boat in the sea and could be destroyed at any moment.

The Luo God Warship was very powerful, but it was also very dangerous for it to face such a powerful storm. It was also possible that one would be swept away with the warship.

“Why is there a storm? Not good!” George’s expression also turned somewhat ugly.

Unless they returned the way they came from, it was impossible for them to avoid such a spatial storm.

This time, he had no choice but to go to Planet Huiming. He did not expect to encounter this storm but it seemed that the heavens had already decided for the storm to appear here.

He suddenly felt very desperate. Even the strongest cutting-edge technological product would be broken in such a powerful storm or even be completely destroyed.

He did not dare to imagine what would happen to them.

He sat there in silence for a long time before his eyes suddenly lit up. Only then did he remember that his father had given him a treasure before coming out, saying that he could avoid it if he encountered danger.

This was because traveling through the entire universe meant that one could encounter all kinds of danger at any moment.

It was the same this time. This danger followed closely behind.

At some point, the storm had arrived beside them. George had previously thought that his father was worrying for nothing. He did not expect to encounter such a powerful danger not long after coming out.

He wondered if this thing was useful.

If only the Luo God Warship could pass through the entire center of the storm, the danger factor would decrease to 80%. If George used the treasure on him, the danger factor would be reduced to 50%.

This was a rough assessment he made in his heart.

“We can only charge forward. It’s useless even if we want to retreat now!” The frog’s solemn voice sounded.

This was because the huge storm had already swept through most of the space and was getting closer and closer to their Luo God Warship. Once again, it was unavoidable.

Zhou Hao was shocked. He did not expect danger to arrive so quickly.

Chapter 741 - Powerful Wind Avoidance Divine Artifact

Chapter 741: Powerful Wind Avoidance Divine Artifact

Previously, when they were still two light years away, they had already slowed down the speed of the Luo God Warship and tried to go past it. However, now it had directly rushed up to them.

The only thing Zhou Hao could do now was to take a gamble and see if his luck would be as good as before.

Otherwise, only death awaited him. There was no hope for him to survive under such a storm.

“Zhou Hao, I have a wind-proof divine artifact on me. Try using it with the Luo God Warship!” George carefully took out a needle-sized item.

Seeing this, Zhou Hao almost cursed.

Damn it!!!

Was this guy messing with him??

Damn...

It was clearly just an ordinary embroidery needle, but the other party made it sound so high and mighty. Moreover, Zhou Hao had placed his hopes on him. This was simply asking for death.

He shouldn't have placed his hopes on this idiot.

"Eh! This thing is good. By placing it on the Luo God Warship, it can allow it to safely pass through this storm!" The frog's surprised voice sounded.

It felt that with such an existence, there was still a certain hope for him to break through the storm again.

This time, it was Zhou Hao who was stunned. He could not help but feel that it was extremely ridiculous to rely on a insignificant needle to break through this storm?

However, what Zhou Hao did not know was that the Embroidery Needle could be enlarged and shrunk at any time. There were all kinds of cutting-edge technological products on it that were specially made for such spatial storms.

"Then let's give it a try!" Zhou Hao did not dare to delay any longer. He could only try his best and immediately took the small embroidery needle from George.

There was actually an empty space on the Luo God Warship that was specially used to store such a wind-proof divine artifact. Unexpectedly, after putting the Embroidery Needle on there, it instantly became a huge pillar.

There were countless cutting-edge technological products on it that could stabilize the entire spacecraft. This change stunned even Zhou Hao.

That seemingly insignificant needle was actually so useful.

Moreover, it was something he had never thought of before. He had never dared to think that other people actually possessed something like this.

Indeed, the technology on these planets had been ahead of others for countless years.

When the powerful storm arrived, the Luo God Warship was a little shaky. However, Zhou Hao already felt fortunate that he was not swept away by the huge storm.

They were actually able to fly steadily in such a powerful storm. Even Zhou Hao did not dare to stand outside the Luo God Warship and sat nervously in the cabin.

He was afraid that if he was careless, he would be blown to an unknown place and might even be directly dismembered by the fragments in the storm.

“This thing of yours is really a little good. As expected of a wind-proof divine artifact!” Now, Zhou Hao had learned how useful this inconspicuous embroidery needle was.

Fortunately, he did not curse rashly previously. Otherwise, the feeling of being slapped in the face would have been too satisfying for George.

George’s eyes widened as he looked at the huge pillar on the spacecraft in disbelief. He did not expect the needle to be so useful.

When his father gave it to him, he even complained secretly.

Originally, he felt that his father must have given him such an inconspicuous item because they did not want him to be happy.

When true danger arrived, this small embroidery needle could not even help him commit suicide.

Only now did he know that there was something else in this small embroidery needle. It contained so much cutting-edge technology. Even in their world, it was still a cutting-edge existence.

Those storms directly avoided the entire spacecraft and the warship quickly rushed into the center of the storm. This place was dark like the end of the world.

At the center, the entire spacecraft shook even more violently. There were even faint cracks appearing on the warship. It could be imagined how great the pressure at the center of the storm was.

If an ordinary fighter plane accidentally barged in, it would be instantly turned to ashes. Fortunately, the Luo God Warship was not an ordinary fighter plane and had the support of a wind-proof divine artifact.

The two of them were very nervous, afraid that they would be accidentally swept into the center of this storm.

“The storm is too big and the pressure is too high. There’s an unknown object in front!” The Luo God Warship kept reminding Zhou Hao of the current environment. The situation suddenly became dangerous, and Zhou Hao’s expression immediately changed.

If there was an unknown object in front of them, then it must be the dust fragments condensed in the center of the storm. However, since the Luo God Warship failed to detect what it was, it ended up being classified as an unknown object.

It seemed that this storm had already reached the limit of the Luo God Warship's tolerance. If it was any stronger, the warship would definitely be destroyed.

"There's a huge unknown object in front that needs to be circled!"

"We have to circle around. If we collide with it, the entire spacecraft will be destroyed!" the frog immediately reminded.

That unknown object was very large. Now that the spacecraft had already reached the limit of its tolerance, if it was hit by such a powerful external force, it would definitely explode.

Zhou Hao immediately got Thousand Feather Armor to plan the next route and bypass this huge unknown object. Otherwise, they would all die here.

"60 degrees north, 30 degrees east. This unknown object is moving quickly without any pattern!"

"It's 35 degrees now, 35 degrees north!" The frog's voice kept sounding.

Now, the frog was the only one who could guide the way. Otherwise, the entire spacecraft would only be flying blindly. The navigation functions that came with it were already useless.

It had already been destroyed in the huge storm.

Even Thousand Feather Armor was unable to clearly determine what was in front of it and what angle it was at.

The frog was the only one who could accurately and clearly determine where the thing was. Hearing the frog's anxious voice, Thousand Feather Armor accurately controlled the direction of the entire spacecraft.

Their cooperation was flawless. Zhou Hao was only anxious at the side and was unable to participate. His control of the spacecraft was not as accurate as Thousand Feather Armor.

"Northwest, 25 degrees northwest, quick..." The frog was very anxious.

Thousand Feather Armor had just moved the spacecraft when a huge monster that covered the sky brushed past the spacecraft. If it unfortunately hit the spacecraft, they would instantly explode.

Not to mention Zhou Hao and George, even the frog felt a little afraid.

It did not expect the unknown object to be so fast and charge forward without any rules. If it had been careless, they would have been hit. This feeling was as if death could descend at any moment.

Fortunately, with the frog personally commanding this time, Zhou Hao sat on the ground. That moment just now was really too dangerous.

This time, the spacecraft had also suffered considerable damage. It seemed that they had to start repairing it again.

Thinking of that money, Zhou Hao's heart ached. After all, it was not ordinary paper money, but cosmic coins.

Using money was easy, but earning money was difficult!

Chapter 742 - Extremely Destructive

Chapter 742: Extremely Destructive

"Did we finally survive this time?" George sat on the ground for a long time before finding his voice.

Thinking that he was dead for sure this time, Zhou Hao felt unprecedented despair from the creature in the sky.

Fortunately, the Luo God Warship actually dodged it cleverly.

Even now, he still felt a little in disbelief. If there had been any slight errors, they would be destroyed.

He knew that the storm had already reached the limit of what the spacecraft could handle.

If not for the wind-proof divine artifact, the two of them would definitely be finished today.

Therefore, his entire body was still trembling. He might not be able to forget the scene just now for the rest of his life.

They still had lingering fear!

Zhou Hao felt a little better seeing that the other party was even more cowardly than him. The scene just now was indeed soul-stirring. He thought that he would almost not be able to see the sun tomorrow.

“Of course we’ve survived! Don’t tell me you want to die?” Zhou Hao rolled his eyes and forced himself to calm down.

It was not that George was timid, but this situation was really freaking terrifying!

He still had to face what he needed to face. Now that the spacecraft was flying in the storm, there was the danger of an explosion at any moment. The only thing he could do was pray to pass through this storm quickly.

“This storm is estimated to complete in two days. This process is even more stable than before. There are no powerful unknown creatures!”

Hearing the frog’s reminder, Zhou Hao finally heaved a sigh of relief. Although he was still in the storm, he was still a little more relieved than before.

The feeling of being on tenterhooks previously seemed to have made him feel as if a few years had passed.

If he had heart disease, it would definitely relapse on the spot.

“Why didn’t you say so earlier? You made me anxious. Look, my mouth is dry!” Now that he was temporarily out of danger, he was arguing with the frog again.

No one could have expected this.

If not for the frog’s reminder previously, he would not have had the chance to speak again.

“Do you think this is your territory? Do you think you know everything? This is space. Do you understand the entire universe?”

The frog’s merciless voice sounded again. Every time he was safe, Zhou Hao would complain.

Zhou Hao even berated the frog for not reminding him earlier. If not for the frog’s reminder, they would have all turned to ashes by now.

Zhou Hao also chuckled and was in a good mood. After all, it felt good to have survived a disaster!

The shocking scene just now had not disappeared from his heart. He had not even experienced such danger back when he was attacked by the void beast on Planet Earth.

After all, back then, he still had a chance to counterattack. However, this encounter was a one-sided massacre. Just thinking about it made him feel extremely tragic.

Zhou Hao finally understood that the universe was really terrifying!

Zhou Hao chatted with the frog. This was the only way to reduce the tense atmosphere. As long as they did not leave the spatial storm, they would still be in great danger.

George sat at the side in a daze. The previous scene had frightened him.

He was also a knowledgeable person and had long felt that he had seen through life and death. However, when the moment of death arrived, he still felt the urge to live.

“Little Yu, pay attention to the small unknown object in front. We need to make sure we can go around it and that it’s not moving!” The frog’s voice reminded again.

Thousand Feather Armor controlled the spacecraft accurately. It had zero errors. Its accurate control of the spacecraft was also a big help.

After being overly nervous, one would feel powerless for a period of time. One would feel as if they had done a huge thing and were lying weakly on the deck of the spacecraft.

At this moment, Zhou Hao felt sleepy and felt the most tired he had ever been.

The frog did not disturb Zhou Hao when it saw him like this. It could only silently work with Thousand Feather Armor to safely bring Zhou Hao out of this storm.

It had forced Zhou Hao to accept this mission. If anything happened, it would also feel guilty.

Moreover, it did not expect the situation to be so dangerous this time.

...

After sleeping for two days and two nights, Zhou Hao opened his eyes and felt that the surrounding environment had already changed. The feeling of the sun being covered by clouds was no longer there.

It was as if they had returned to peace. Not far away, bright stars were flashing. However, looking at everything around him, Zhou Hao still realized that the destructive power of the universe was really too powerful.

The entire universe seemed to be something that had been molded forcefully. Zhou Hao felt that the reason for this was probably the same as the reason why the sun would be covered by clouds.

Some small planets were even destroyed to the point of being unsightly.

Zhou Hao was very glad that his Luo God Warship was very firm. Otherwise, he would have ended up like those planets.

“Zhou Hao, look, there’s a meteor there!” George woke up and shouted in surprise.

The previous storm had frightened him to his core. However, he seemed to have forgotten that feeling now that some time had passed.

Now, looking at the dazzling stars, the entire universe was so quiet that it made people feel at peace. There was not a single storm. This feeling was as comfortable as the wind and sun on Planet Earth.

Then, they saw meteors fly past them.

“Quickly, make a wish. There’s a legend that says that when you see a meteor flying past, any wish you make will come true.” Zhou Hao suddenly thought of this legend on Planet Earth.

In the past, he also believed in this legend. Every time a meteor streaked past, he would quickly make a wish, hoping to live the life of a rich person.

After every experience, he would feel incomparable despair and feel even poorer.

It was not until later that they learned that it was only a legend that only gave people hope.

“Really? Then I’ll quickly make a wish. I hope we can quickly arrive at our destination and successfully complete the mission!” George’s thoughts were very simple. He wanted to quickly complete the mission so that he could return to where he belonged.

Outside, it was as if the ship was dancing on the tip of a saber.

Sometimes, it was too difficult.

Now, George felt that the spacecraft was not that exciting. The food on it was not as delicious as before, and the robots were not as good-looking as before.

After Zhou Hao heard his words, he could not help but smile. George had been frightened the first time. As time passed, he would definitely get used to it.

He still had to go out and train more. Otherwise, if he encountered a small matter, he would make a fuss.

Zhou Hao would definitely not admit that he was afraid. No matter how afraid he was, he still forced himself to face all of this bravely. He had to be strong. After all, no one else could take his place.

“Your wish will definitely be fulfilled!” Zhou Hao also wanted to quickly complete this mission.

He looked at the GPS. He was getting closer and closer to Planet Huiming. There were only two days left at most. It was still safest for them to take it slowly. After all, they had just begun to travel in the star system.

As time passed, Zhou Hao got used to it.

Chapter 743 - Coincidentally

Chapter 743: Coincidentally

“George, why did you suddenly think of going to Planet Huiming?” Zhou Hao looked at George, who was sitting in a daze, and felt a little pitiful.

As a rich second-generation heir, George could originally sleep comfortably at home. However, for some reason, he decided to travel around and experience things that ordinary people did not experience.

The greater the sense of superiority, the greater the responsibility.

The entire journey was very dangerous and they did not sit down to talk about this. George also did not try to hide this matter.

“A thief stole my family’s heirloom. We’ve put up a bounty for the thief a long time ago, but he’s still not captured yet!” If it was not something very important, there was no need for George to make a trip personally.

Zhou Hao was surprised. He could count the number of people who could enter such a large family to steal treasures with one hand.

It would be a pity if he did not visit such a godly thief.

This thief could actually escape unscathed after stealing something.

“Tsk, tsk, tsk, how impressive!” Zhou Hao did not mean to be derogatory at all.

He was really praising that godly thief for being able to escape unscathed after stealing from such a well-guarded place. He wondered if this thief could escape unscathed after stealing those treasures from the Mission Pavilion.

Zhou Hao suddenly thought of the top-notch technology in the Mission Pavilion.

“Our family’s heirloom is placed in a place guarded by powerful figures and technology. That thief is indeed powerful. He was only discovered after the item was stolen for a while!”

George also felt very helpless about this matter. If not for the need, he also did not want to go to such an unfamiliar place.

He was only going there to gather information.

It was said that the thief was very powerful. He was no match for the other party. He wondered if it would be dangerous for him to go this time.

When his family gave him this mission, everyone’s faces were very solemn. It was good that he could succeed. Even if he couldn’t, it was more important for him to stay alive.

Now, Zhou Hao admired that thief even more. He wondered what kind of big shot could do this.

“It’s a pity not to visit such an influential figure!” Zhou Hao liked to compete with powerful people the most.

After all, the thief must have been very impressive to be able to do it without anyone noticing.

“Visit? I haven’t even seen his shadow. Now that the universe has issued a cosmic wanted order, there hasn’t been any news of him at all!”

“Moreover, the bounty is getting lower and lower. He’s too unpredictable and no one can catch him!”

“No one knows what he looks like. Every time he appears, he has a different face!”

George was not 100% confident that he could encounter this godly thief. This time, he had only heard rumors that the godly thief had arrived on Planet Huiming.

“His name is Toslitan. He’s wanted on many planets in the universe!” George did not notice Zhou Hao’s strange expression at all and continued to talk about this matter.

Tch!!!

Zhou Hao even said that he wanted to visit this thief. It turned out that the person George wanted to find was the same person he was looking for.

It was unknown how stingy their family was to actually offer such a low price.

Perhaps they felt that there was no hope and wanted to try his luck.

“Damn, this thief is really powerful!” Zhou Hao finally knew why these people were unable to capture Toslitan. This was because he was best at hiding.

Even if many people brushed past him, they would not be able to discover his existence at all.

He could disguise himself as a child or an old person. As long as he wanted to, he could disguise himself as any life form.

Therefore, even though so many planets had wanted to capture him, none of them had succeeded.

George nodded repeatedly as if he had found a close friend. After all, the others all felt that the godly thief was just a scoundrel and did not have much ability.

They felt that he had relied on luck to escape every time.

Some people even felt that Toslitan had an accomplice, which was why he was able to escape by luck every time.

George had often argued with those people over this matter.

“What a coincidence. I just so happened to have accepted the low bounty!”

“I was also curious as to why your family is so stingy. They actually want to get the job done with so little money!” Zhou Hao complained as he ate the food in his hand.

George’s eyes widened. He knew that Zhou Hao had come to Planet Huiming because he had accepted a mission from the Mission Pavilion. He did not expect the two of them to be after the same person.

Originally, he thought that it would be very boring to be alone. However, just now, he felt that this mission was not as boring as he had thought before.

Two people were better than one.

He immediately had a happy smile on his face. He had finally found a partner to work with.

“Hehe! I didn’t expect us to have the same goal!” Zhou Hao smiled foolishly.

Zhou Hao looked at George’s silly appearance and could not help but snort.

He did not know what would happen if he worked with him. It was better for him to work alone. After all, there would always be some restraints if they worked together.

However, he did not know what George’s family heirloom was.

As long as it did not conflict with his interests, he could also help him.

“You don’t know that this mission was not assigned by our family. Instead, it was assigned by a very ordinary resident, who had an important piece of paper stolen!”

“However, he’s not that rich either. That’s why he only offered a few gold coins as the bounty!”

“Our family also did not post an extra mission!”

After hearing George’s explanation, he finally understood why this mission was so difficult but had the lowest reward.

It turned out that those people were all greedy and did not want to post the mission for the second time.

It was also possible that he felt that there was no hope at all and that there was no need to spend a lot of money on this mission.

Many large families actually chose to avoid the topic after their families were robbed.

It was just like how the royal family would not tell others after being robbed.

They would only secretly send people to search!

This was because they were afraid of losing face and letting others laugh at them. By the time the world knew, the matter would have already reached a point of no return.

Therefore, as long as someone posted a bounty for them, they would not repeat it a second time. Also, if anyone accepted this mission, the price would increase.

Usually, as long as the mission appeared on the mission list, no matter how much the reward was, they would not care.

“You big families sure know how to take advantage of others. No wonder you guys were able to develop so quickly and well!”

Zhou Hao did not stand on ceremony. Previously, he was unwilling to accept the bounty because it was too little.

It seemed that it was all a misunderstanding. He wondered if he would have other income after completing this mission.

Moreover, that ordinary person had also lost an important piece of paper. It seemed that this matter was not as simple as he had imagined.

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 744 - Finally Arrived

Chapter 744: Finally Arrived

“That’s not an important piece of paper, but a treasure map!” The frog’s disdainful voice shocked Zhou Hao.

He was puzzled. Why did this frog know so much?

For example, even those large families did not know that this was a treasure map.

If they knew that it was a treasure map, all the large families would definitely not hide their strength. They would definitely capture him no matter what.

It was also because of these people’s concealment that he had escaped time and time again. The person who had offered the reward previously had offered too little and the others thought that this person had only lost a piece of paper that was only important to him.

Therefore, no one really thought about these questions.

If not for the frog's reminder, he would have thought that it was just an ordinary piece of paper.

It seemed that he had made the right choice in accepting this mission.

"How did you know it was a treasure map? Are you making up stories to trick me into completing this mission properly?" Zhou Hao couldn't help but voice his thoughts after thinking of how the frog had forced him to accept this mission previously.

"I just know. I'm not going to explain it to you in detail. It's up to you whether you believe it or not. If you're such a hot shot, why don't you turn back right now?!"

"You accepted this mission yourself. If you can't complete the mission next, you will definitely be punished!" The frog's gloating tone was very annoying.

Zhou Hao gritted his teeth in hatred. This frog was really too shameless.

Previously, in order to get him to accept the mission, it had threatened and used him.

Now, just when he had learned that there were benefits, this frog actually asked him to turn back. Just thinking about it made his heart ache.

He looked at the other people's friends and felt that they were all very considerate.

Why did this frog have to hurt his little heart like this?

"There's a punishment? Why didn't you say so earlier? Will you only be satisfied after getting me killed?!" Zhou Hao felt that he was about to lose it every time he talked to the frog.

He wished he could drag it out and beat him up.

He actually stopped halfway through his sentence.

If the frog had told him that he would be punished if he failed the mission, he would have chosen a simpler mission.

"If only I could kill a scourge like you. How many times have you failed to die?!" The frog did not admit defeat at all and retorted.

He did not believe that Zhou Hao, who had never won in a quarrel, would somehow win this time.

Zhou Hao's expression was very ugly. He could not believe that the frog actually dared to treat him like this. If there was a chance, he would definitely let it have a taste of his strength.

He didn't want the frog to think that just because it was his talisman, it could do whatever it wanted.

George looked at Zhou Hao, who was sitting at the side, and his expression was very ugly. He thought that it was because of the low bounty they had mentioned previously.

"Zhou Hao, after this mission is completed, our family will give you a generous reward!" George said carefully.

Although he had been high and mighty since he was young, he could still accurately analyze the expressions on everyone's faces.

Now, Zhou Hao's face was filled with anger. There must be something he is unhappy about.

Zhou Hao was stunned for a moment!

His anger had nothing to do with the bounty. However, it was still fine if he could obtain more benefits.

He had never complained about having too much money.

It was impossible for him to tell George that he was not angry at all because of what he had said to him.

"Tch, others can tell at a glance that you're greedy for money. Sometimes, you're so stubborn!" The frog could not help but complain when it saw Zhou Hao's face slowly become happy.

The frog's courting death made Zhou Hao feel unprecedented pressure.

It had challenged his limit time and time again.

With the existence of the frog, his good temper had improved again and again.

"Shut up!" He forgot that he was communicating with the frog with his divine sense and directly shouted.

George was so frightened that his eyes widened as he looked at Zhou Hao innocently and aggrievedly. He had not done anything out of line, so why should he be told to shut up?

Seeing such an innocent George, Zhou Hao almost fainted on the ground.

He was originally meant to scold the frog, but he unknowingly shouted at George.

How was he supposed to explain it to him?

“George, do you believe me if I say I didn’t do it on purpose?” Zhou Hao looked at the innocent George in front of him apologetically.

He clearly did not do anything wrong, but he was berated like this.

George nodded skeptically.

So what if he did not believe it?

“I think you’re doing this on purpose. You’re trying to find fault with him. He didn’t do anything wrong!” The frog fanned the flame and gloated.

It liked to see Zhou Hao hopping around anxiously.

Only then would he have a sense of accomplishment.

Every time the two of them bickered, it would gain the upper hand. Just thinking about this result made it feel proud.

Thousand Feather Armor was like a silent gourd. No matter what happened, it would not participate or say anything.

The frog simply felt hopeless being with him.

It still preferred Zhou Hao, who would talk back. Only by speaking to such a person would life be interesting.

“We’re finally about to arrive at our destination! There’s only half a day left before we arrive!” The frog looked at the distance and estimated.

Its days on the spacecraft were also very boring. It liked to look at the cutting-edge technology on those planets the most. It was too difficult for it to live like this on the spacecraft.

Its tone was also filled with joy.

After flying in the universe for nearly two months, who would have expected an extremely huge storm to suddenly appear? Because of the storm, they were delayed for another month.

They had almost been wiped out.

If not for their powerful defense, they might have said goodbye to this world.

“Zhou Hao, what’s that?” George pointed excitedly into the distance. There was an extremely eye-catching sign there, like a pillar that connected to the sky.

The pillar between the heavens and the earth made Zhou Hao think of the Heaven Pillar of the Buzhou Mountain.

“There’s an unknown fluctuation, an unknown fluctuation!” Just as Zhou Hao saw the eye-catching sign, the Luo God Warship reminded.

If one wanted to board a planet, they had to undergo its scanning.

They had to pass the safety checks.

It could also be seen that Planet Huiming was probably very well-developed.

“Little Yu, close all defenses and accept this mysterious scan!” The more one resisted this scan, the stronger it became.

It was better to close this defensive system and let it scan everything before logging in smoothly.

Most importantly, there was no need for them to resist.

After all, they still needed to go through the scanning lights when they were about to land. The main reason why one would be afraid was that these planets could sense one’s malice. If they sensed any, they could directly bomb the ship with their most advanced atomic bombs.

The cutting-edge technology on these planets was unimaginable. Not to mention a fighter plane, even an entire universe could be instantly destroyed.

Zhou Hao did not dare to take this risk and obediently accepted the inspection.

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 745 - Overwhelmed

Chapter 745: Overwhelmed

“Don’t you know what’s good for you? It’s not like this is the first time you’ve come to such a planet!” the frog complained.

Just now, when it felt that it was being scanned by a force, it had already closed all the defense systems. Thousand Feather Armor was also used to the feeling of being naked.

Fortunately, no matter how powerful these scanners were, they still could not scan where they came from. Those people even thought that Zhou Hao was a descendant of a large family.

This powerful scan only lasted for about a minute. The scan was only to see if there was anything dangerous on the Luo God Warship. After it verified that everything was normal, it did not care anymore.

The powerful scan came from the huge pillar.

It could scan all living beings from other planets. As long as there was a threat to them, they would return on the spot.

In the beginning, it would try to dissuade the other party. If they did not listen and directly used their most cutting-edge technological products again and again, they would be instantly destroyed.

After sensing that the scan had disappeared, George relaxed. He also knew that this was a necessary process.

It was the same as going overseas. One needed a pass and all other documents. They also needed to undergo all inspections.

This was only the preliminary scanning. As long as one entered the territory of Planet Huiming, such scanning would occur many times and could happen at any time.

However, after stepping onto that planet, this scan had already ended. All that was needed was to handle all the relevant procedures.

Previously, Zhou Hao had already applied for a resident identity card on Planet Zhengluo. This time, he only needed to scan it. He had nothing to fear, as he was not a wanted criminal in the universe.

“Actually, you’re wrong. This is my first time coming here.” Zhou Hao heard the frog’s ridicule and retorted mercilessly.

This damn frog had never let him have the upper hand. This time, he had to teach the frog a lesson.

“Even if you’ve never visited, try not to act so ignorant. Otherwise, others will think that you’re a country bumpkin!” The frog always found something to say.

Zhou Hao was furious. This damn frog had never said anything good except when it was in danger.

Zhou Hao was always the one to shut up.

Since he already knew the outcome, there was no need for him to talk to the frog about this anymore.

Zhou Hao was still a little unaccustomed to suddenly shutting up. In the past, his dream was to argue for three days and three nights.

This time, he actually chose to shut up after only two sentences.

It seemed that he really knew his limits this time. He knew that he was no match for the frog, so he chose not to say anything.

The frog was in a very good mood.

This time, it could finally hold his head high and obtain victory. Previously, even though it had the upper hand, it was still furious.

If Zhou Hao knew what it was thinking, he would definitely not be able to help but roll his eyes. He just wanted to seriously accept all the inspections.

He was afraid that if he interacted with the frog too much, this cutting-edge technology would accidentally detect the existence of unknown creatures. That would be unpleasant.

However, this ultimately led to the frog feeling smug.

“Don’t be smug too early. Be careful not to be laughed at to death!” Zhou Hao’s leisurely voice sounded.

The smile on the frog’s face froze!

“Start landing. Be careful!” The frog’s tone was a little nervous.

They were afraid that something powerful would smash down from this planet.

It was not like this had never happened before. Therefore, during landing, one needed to let the other party know that he did not have any ill intentions towards the planet.

“Zhou Hao, look. The technology here is advanced and even more powerful than the technology on Planet Zhengluo!” George pointed at the unknown objects in front of him and shouted excitedly.

This feeling was a little similar to when he had just gone to the first planet.

He kept feeling like Grandma Liu from the Red House. He was overwhelmed by the cutting-edge technology.

The communication tools here were not like on Planet Earth. As long as he called out casually, he could contact the person he wanted to contact.

Zhou Hao looked over and saw a very ordinary circle with an unknown use. Then, the huge spacecraft landed on a large land.

Immediately, a few scanning sensations surged over.

Zhou Hao had just alighted from the spacecraft when he felt a mysterious force pounce towards him from the ordinary circle. At this moment, he could not resist.

This was the first time he had seen such a machine that could scan the body.

Even when he was on Planet Zhengluo, the scans needed to be controlled by the robots. However, here, it did not need to be controlled at all.

This intelligence was even stronger than that of Planet Zhengluo.

“Height and weight qualified, strength qualified. No dangerous items on you. You are allowed to enter this planet!” The round circle scanned the ancient voice.

This surprised Zhou Hao even more. He did not expect to be completely scanned as soon as he got off the spacecraft.

Fortunately, he was allowed to live in this space. Perhaps those overly powerful creatures would be rejected if they came here.

There were also some criminals who would come with dangerous items. They would be stopped before they could even step into this land.

This technology was even superior to the technology on Planet Zhengluo.

“Height qualified, weight qualified, strength weak, barely allowed to enter!” This was the result when George was scanned.

There were no fluctuations, but it could scan automatically.

Such cutting-edge technology was not something that could be obtained anywhere.

It seemed that the technology here was ahead of everyone else for a long time. Such technology was not something that could be easily obtained. It required a period of cooperation and development in order for a civilization to reach such technology.

“Damn, luckily I didn’t do anything wrong!” George couldn’t help but complain.

His strength was actually not weak. However, in front of this testing device, his strength was relatively weaker.

He wondered how strong these creatures in this world were.

“The technology here seems to be even more advanced than the technology on Planet Zhengluo!” Zhou Hao looked around and came to this conclusion.

The two of them nodded in unison. They had to admit this.

After all, it was obvious. There were many places that did not have such an intelligent and useful scanner. With this scanner, they would even be able to find out what someone had eaten and drunk today.

It was even more mysterious than the first scanner from planet Zhengluo

“There’s a group of people coming from ahead!” the frog reminded warmly.

On this planet, there was only this cold technology and no real humans.

Hearing that humans had arrived in front of him, Zhou Hao wanted to understand more about the technologies of this world. There were some things that he couldn’t help but be interested in.

Chapter 746 - Jack’s Family

Chapter 746: Jack’s Family

At a glance, Zhou hao could tell that this place was deserted. Very few people came here except for the staff, who came to check these machines regularly.

“How strange. Didn’t a spacecraft land here previously? Why did it disappear?” A very pleasant voice sounded from afar.

Every time a foreign creature arrived, the inhabitants of this planet had to personally check.

Only after confirming that it was absolutely safe would they be relieved. These technologies could scan, but they could not detect anything fatal.

For example, if these creatures carried a very powerful virus, these devices would not be able to scan them.

Such cutting-edge technology had both pros and cons.

They were all technologies invented by humans over the years. After all, they could not rely on these machines for everything.

“It must be nearby. Take a closer look!” A middle-aged man’s powerful voice sounded.

Technology was too advanced now. Even those incomparably huge spacecraft could shrink to the size of a fly or even a speck of dust.

Therefore, they had to search carefully.

Fortunately, they had a detector and could detect where the invisible spacecraft was.

“Hello, sir. We’re members of the Jack family on Planet Huiming. We’re here to check as usual!” Just as the few of them were searching carefully, Zhou Hao and George suddenly saw two living people standing not far away.

The middle-aged man spoke very politely.

They had not acted arrogantly just because Zhou Hao and George were visitors to this planet. Instead, this man was very polite.

Zhou Hao took a look and confirmed that this was a real living being on the planet and not a robot. After that, he directly let the other party to scan him. He did not mind doing it again.

Previously, it was always the robots that performed the tasks on Planet Zhengluo. Now that these machines had all replaced the robots, there was no need for those robots anymore.

These people were only there as a precaution. They had to strictly watch over the living beings that arrived from other planets. After confirming their identities, they would return to their residence and continue to study technology.

The middle-aged man was holding a very ordinary iron-like item in his hand. He swept it back and forth on Zhou Hao's body and did not discover anything abnormal.

With their scanner, there would not be any mistakes at all.

"Where's your spacecraft?" The middle-aged man was very puzzled.

Something that even their high-level mini scanner could not detect was definitely stronger than them.

He spoke carefully with a trace of reverence.

After all, everyone would always show respect to those powerful technologies because they were too powerful.

This was because with the Thousand Feather Armor and the frog hiding together, even such a sharp scanner would not be able to discover them.

"Here!" Zhou Hao took out a fly-sized spacecraft from his pocket and got them to scan it. There was nothing forbidden on his spacecraft.

"Everything looks fine, everything looks fine!" A pleasant voice sounded from the scanner.

Only then did the middle-aged man and the others relax. They were afraid that those criminals and cosmic wanted criminals had arrived on their planet.

Even if they were cautious, there would still be some who escaped.

Even though they had scanners of cutting-edge technology, there would still be devices invented by those criminals that could avoid such scanning.

Such a case had happened many years ago.

Therefore, they would be even more careful now. Even if they had these devices that could scan manually, they still had to be very careful to make sure that the guests from the other planets were not problematic.

"Hello, my name is Zhou Hao. His name is George. We're all from the Siam Star System!" Zhou Hao thought that since he was new here, he could politely ask these people about the situation in this star system.

If he did not know the direction, he would have to take many detours.

The more he asked, the less detours he would take.

“Hello, I’m Jack John!” The middle-aged man smiled and pointed at the little girl standing at the side. “This is my daughter, Jack Vela. She came here with me on a mission!”

From their conversation, it could be seen that the middle-aged man and the little girl had received a very high-level education. Their revealed good qualities. The rest of them were all staff members of Jack’s family.

After the two teams greeted each other politely, they were about to part.

“Jack, John, we just arrived. May I ask where we can get a map of the star system?” Zhou Hao felt that if he did not speak, he would lose another good opportunity.

Even if he had the frog, he still needed to familiarize himself with the terrain since he was here on a mission.

Otherwise, he wouldn’t have known even if the famous thief brushed past him.

Instead, it was more likely for the other party to hide from him since the other party knew the terrain well.

“I see. Then after you walk out of this mountain range with me, there will be a free place to look at the star system!” Jack John invited Zhou Hao and John to go with them politely.

Zhou Hao had no intention of refusing and immediately agreed to thank him.

On the way, after hearing Jack John’s introduction, they learned that they were currently in a mountain range in the extreme north.

Perhaps because foreign beings were not allowed to stay in other places, the Luo God Warship’s navigation had brought them to this place.

This place was similar to the environment of Planet Earth. However, the technology here was more advanced and humans were stronger.

The little girl in front of him had already reached the Heaven Realm and looked to be only 15 or 16 years old.

Their most prosperous place was the center of the entire star system. That place was called Vegas. There was an extremely huge family there that was the lifeline of the entire planet.

“That family is called the Charlie family. Everyone in their family is a scientist. In that family, even a child a few years old can develop something new!” When Jack John mentioned this big family, his eyes were filled with reverence.

Zhou Hao had also obtained some information about Toslitan from him. After coming to this planet, Toslitan continued to be a thief.

However, the people on this planet could not do anything to him. Even the cutting-edge technology was unable to capture his traces.

“Toslitan arrived on our planet a few years ago. Because of our carelessness, he caused huge damage to the entire planet. We mobilized a lot of forces, but it was useless!”

“It’s precisely because of that incident that the entire planet was strictly controlled. We’re afraid that another such person will come to this planet!”

“I only found out later that he’s a wanted criminal in the universe. I don’t know where he is now, but I think he appeared near the Mengkala Mountain Range!”

Jack John also felt a headache when he mentioned this person.

Chapter 747 - Really Lucky

Chapter 747: Really Lucky

Their Jack family also sent many experts, but they returned disappointed every time. Even the Charlie family could not do anything to this person and could only find some traces of him.

Now, they finally had a direction. The Mengkara Mountain Range was at the southernmost tip of the planet. As long as they were facing this direction, they would definitely be able to get there.

“I didn’t expect my luck to be so good. What perfect timing!” Zhou Hao finally felt that the heavens were on his side.

In the past, he had always been as unlucky as he could be. It had always been the frog giving him all kinds of hints.

After walking out of this mountain range, he saw the continuous buildings in the distance. These people’s residences and buildings were not ordinary but transparent.

Only people who knew cutting-edge technology could use it. Moreover, one had to have a lot of money. Looking at these things, Zhou Hao's eyes widened. He felt that his horizons had widened again.

He actually did not know that these buildings could be built like this.

Moreover, if one wanted to enter, they had to first understand their technology.

"My luck is not bad. The technology here is really too advanced. I even have the urge to live here for a long time!" George looked at these buildings and felt his blood boil.

He wished he could immediately settle down here, but he was lacking in money.

Not to mention George, even Zhou Hao could not help but be tempted after seeing it. After watching Jack John operate the technology, a grand path appeared in front of him.

Previously, he had only vaguely seen these buildings. Now, he saw that these buildings were all products of their cutting-edge technology. Every brick and tile had a hidden use.

Without these people, entering was simply harder than ascending to the heavens. Only those who often came here or had houses here could enter.

Seeing Jack John and the others walk in, Zhou Hao also followed.

Bang!!

Suddenly, it was as if he had encountered an obstacle and was unable to take a step forward.

"Damn!! What the hell is this?" Zhou Hao could not help but explode. He did not even have the chance to enter.

"Sorry, I didn't notice before. You can only enter if you have your information verified!"

"It doesn't just depend on appearance. Instead, after everyone gets a house here, they have to record their aura and information. This way, it's more convenient for them to enter and leave!"

"My daughter invented it!" Jack John looked at the people in front of him proudly.

Because this was a very great invention, there have been less people taking advantage of the situation.

Damn it!!!

What a great invention!

If the thief ran into such a place while they were tracking him down there was really nothing the thief could do.

However, since he was also wanted on this planet, he did not dare to appear rashly. He finally knew why the thief had appeared near the Mengkara Mountain Range.

This was because he could not survive in such a place.

In such a place, he could be discovered at any moment. Only by going deep into the mountains could he have a chance of survival.

As long as one became a cosmic wanted criminal on these planets, they would be sent to the most primitive planet after being captured. In that case, they would have no chance of survival when they returned.

He had done too many bad things. Be it stealing or robbing, he had done all of them.

Most importantly, he had even stolen from the royal family. He was courting death.

"Your daughter is really too smart. Is your family full of scientists?" Zhou Hao kept cursing in his heart. He had to perform well.

Now that he still had a favor to ask, he could not be too willful.

Hearing this young man praise his daughter, Jack John was very happy. He liked other people's praise.

They were definitely not humble.

"My daughter is very smart. In the future, she will be a great inventor!" Jack John's face was filled with pride.

It was as if his daughter was the person he was proudest of in his life.

The corner of Zhou Hao's mouth could not help but twitch. He finally met someone that was even more shameless than him.

This person probably never learned what modesty was.

"How shameless. His skin is much thicker than yours!" The frog could not stand it anymore. This person was actually so narcissistic.

The daughter of the middle-aged man in front of him was indeed a rare genius. She had invented such a high-tech thing at such a young age.

After the little girl worked for a while, Zhou Hao and George walked into the building together. The two of them were like country bumpkins who had never seen the world.

Every place was mysterious. Even the street lamp by the side of the road was a high-definition surveillance camera, identical to the surveillance camera in the Mission Pavilion on Planet Zhengluo.

It could even be said that these cameras could directly scan through one's body. One's original appearance could also be seen clearly.

This high definition was terrifying.

If not for the fact that he still had something to do, Zhou Hao would have wanted to run away. After all, it was too difficult to live in such a world.

All of his actions would be seen.

"Tch, I'm also quite thick-skinned. Otherwise, would I have been able to get the information so quickly?" Zhou Hao had never denied this.

It was also a good thing that he was thick-skinned. Otherwise, who knew how many detours he would have to take.

The frog was directly speechless this time. It suddenly felt that Zhou Hao was even more shameless than before.

...

"Gentlemen, how can I help you?" A blond woman with green eyes and a hot figure walked out of the shop.

If the host did not come out, these guests would not be able to enter.

These shops had already been set up like this, and they were even multi-purpose.

"This gentleman needs a map of Planet Huiming!" Jack John pointed at Zhou Hao.

This was the reason why he came here this time. He did not have the mood to look at such top-notch beauty.

"Alright, a total of 120 cosmic coins!" The blond beauty smiled and handed over a map in her hand with a very gentle attitude.

"Stop looking. Is a robot worth being infatuated with?!" The frog's teasing voice sounded.

Others might not be able to tell, but the frog could tell that this woman who looked like a real person was a high-level robot. She was even more realistic than before.

Even he was almost fooled. The technology on this planet was stronger than the previous planets.

The robots here had become so lifelike that they could almost completely replace a true human. It could be imagined how terrifying this was.

Previously, the robots on Planet Zhengluo were already high-end enough. He did not expect to encounter such a high-end thing as soon as he arrived.

However, these robots did not have normal life force like humans.

Zhou Hao looked at the beauty in front of him. She was simply identical to a real person.

Chapter 748 - Departure, the Mengkala Mountains

Chapter 748: Departure, the Mengkala Mountains

If not for the frog's reminder, he would really think that the golden-haired green-eyed woman in front of him was a real human.

Zhou Hao's expression suddenly turned very ugly.

He did not expect to be mistaken like this.

He actually could not tell that this beauty was a robot. Most importantly, she was too realistic and could almost pass off as a real human.

Jack John smiled secretly. Many people would be confused by these robots when they first arrived.

Some even invited the robots to dinner and promised to only love these robots in their lives. This was not the first time this had happened.

He did not expect this gentle-looking boy to discover the clues so quickly.

George did not even realize that the beauty in front of him was a robot. He even took the initiative to chat her up. She had a sweet face and a hot figure.

This was what all men liked!

Zhou Hao looked at George's infatuated expression and could not help but smile.

It seemed that he was not the only one who had made such a low-level mistake.

"I like robots. What's wrong with that?" No matter what Zhou Hao thought, he still retorted stubbornly.

If he admitted defeat this time, he would be constantly criticized by this ugly frog.

As long as he failed once, the frog would be able to laugh at him every time.

"..." The frog was actually speechless.

If Zhou Hao had such tastes, what could he do?

It was not as if it could force Zhou Hao to dislike robots. There were many people who liked robots, and Zhou Hao was not the only one.

"Let's go, love-struck fool. You even like a robot!" Zhou Hao looked at George's licentious expression and could not help but complain.

He finally understood the joy of seeing others being kept in the dark while knowing the truth.

He also understood why the frog usually treated him like that.

It clearly knew the truth, but it was unwilling to tell him immediately. It wanted to make a fool of him before revealing the truth.

Now, he had finally experienced such joy.

George's light blue eyes widened as he looked at the robot in front of him in disbelief. This robot already had seven emotions and six desires. It even had the ability to reproduce.

Although the robots on Planet Zhengluo also had emotions, they were much more stiff compared to the robots here. Even the smile on their faces seemed too formal.

Unlike the robot in front of him, whose eyes were very bright and charming.

He observed carefully with a calm expression and came to the same conclusion as before.

This was no different from a real person. He did not know why Zhou Hao said that the other party was a robot.

"I'm so envious. She's clearly an extremely beautiful woman, but she's actually a robot!" George muttered non-stop.

He could be considered to be experienced and knowledgeable. He had seen a lot of cutting-edge technology. No matter how he looked at it, he felt that this was a real person.

Zhou Hao could not be bothered to explain to him. He even suspected that the heart of this robot had been dug out from a living person. Otherwise, how could it have a normal heartbeat?

And a normal heart!

Thinking of this, he felt a little afraid. Those crazy people with cutting-edge technology were capable of doing anything.

If they wanted realistic robots, they would constantly study humans, let alone transplant a small heart.

"Sir, please pay!" The golden-haired green-eyed robot smiled politely.

Even though Zhou Hao and the others had been in a daze, he was not displeased at all. The smile on his face seemed to always be like this.

Zhou Hao took out a chip and swiped it, directly taking out 128 cosmic coins.

"If you don't leave, I'll leave. Although beautiful women are good-looking, missions are even more important!" Zhou Hao turned around and left, not having the intention to stop and wait for George.

He was ashamed to travel with a love-struck fool.

George looked at the distant Zhou Hao and hurriedly chased after him. It was not that he was lecherous, but he was curious how it was possible for this woman in front of him to be a robot.

Moreover, what was even more surprising was that the technology on this planet was even more advanced than on Planet Zhengluo. No matter where he went, it was as if there was an invisible person following him.

There were no secrets at all.

“Zhou Hao, look at that place. I don’t know what it is, but it can actually emit waves of fluctuations!” George pointed at a very large ball standing in an empty space 10,000 meters away.

There was nothing below that withstood its weight. It was as if it was floating in the air.

“This seems a little like a space garden. Looks like it has already been realized on this planet!” Zhou Hao muttered softly.

The space garden had always been the dream of everyone on Planet Earth. They did not expect to see it with their own eyes here. They looked at the incomparably huge ball as if it did not weigh anything.

The two of them were like bumpkins entering the city. As they walked, they pointed at each other and exclaimed from time to time. The humans on this planet looked at the two of them curiously.

These things were very ordinary in their eyes and could be seen everywhere. There was nothing strange about them at all.

They watched as Zhou Hao and George walked down the street. From time to time, the two of them would be very surprised, as if they had never seen these things before.

The two of them seemed to be dressed differently from them, especially Zhou Hao. His black hair and yellow skin were so different. His appearance was simply worlds apart from theirs.

All of them had yellow hair and green eyes. George beside them was somewhat similar to them. They were all tall and had faint blue eyes.

They looked at Zhou Hao in surprise as if they were looking at an alien.

Only those from large family clans would look like Zhou Hao. Some people from large family clans were very handsome and looked very different from them.

“This person must be a rich second-generation heir from a big family!” Some women discussed.

Zhou Hao increased his speed. He was already very fast on this planet, so he instantly left those people behind.

After leaving this world, Zhou Hao directly took out the Luo God Warship and set a location to head straight for the Mengkara Mountain Range.

...

"Looks like this is also a primitive forest!" They were forced to land when they were about to approach the mountain range.

The two of them had no choice but to land in a nearby city. If they entered rashly, they would definitely be punished.

The two of them could not take their eyes off everything here and almost drooled.

These things were really too novel. They even saw a powerful insect that was the size of a car. If one was bitten by it, it might die.

Tip: You can use left, right keyboard keys to browse between chapters.

Chapter 749 - Mutated Insect

Chapter 749: Mutated Insect

As soon as he arrived, he saw a group of people standing outside the city and shouting.

Powerful weapons were constantly attacking a monster the size of a mountain in this city. Behind this monster was a group of mutated insects.

Every insect was the size of a large truck. The monster in the lead was directly the size of a mountain. Every step it took made the ground tremble.

"Damn, what the hell is this? Moreover, the bullets that hit the insects are like stray bullets. They don't make a sound!" Zhou Hao looked at the bloody holes left on the insects the size of mountains.

He did not expect to encounter such an exciting matter as soon as he arrived.

These bullets did not make a sound and were even quieter than the bullets shot from a silencer.

It was as if the other party was just throwing rocks.

"Damn, look at that machine. It can turn into a beetle and harvest gold coins from these insect armies!" George was directly stunned.

The cutting-edge technology made their eyes light up. Compared to these weapons, the weapons they had seen before now seemed especially clumsy. Those weapons did not have such advantages.

In an instant, a third of the insect army was gone. These beetle-like harvesters quickly harvested the lives of these mutated insects.

Such a powerful existence was actually so weak in front of a peak-level harvester.

With such a powerful thing, humans did not need to have much strength at all. They only needed to invent these powerful peak-level weapons every day.

“How ignorant. This is called a cutting-edge harvester. It can shrink and enlarge and can even be used underwater!” The frog’s voice sounded in Zhou Hao’s mind.

If one did not see these things with their own eyes, they would not dare to believe their existence at all. It was as if there was nothing in the world that was impossible.

An ordinary harvester here could already make these powerful mutated insects lose their lives. On Planet Earth, harvesters were only used to harvest food.

They were not very useful at all.

“All the best, kill these mutated monsters!” The surrounding people did not seem afraid at all.

As they approached this mountain range, they could see this powerful and mysterious mutated beast at any moment.

They relied on powerful technological weapons to win every time.

Their faces were still filled with excitement, as if wars were no longer fought by humans but by the products of these technologies. It was as if humans only needed to watch from the side.

“I didn’t expect the technological civilization here to be so advanced! It’s even more advanced than Planet Zhengluo”

“The harvesters there definitely aren’t as powerful!” George sighed sincerely.

He also lived in a place with a very advanced technological civilization. Looking at the technology here, he could not help but sigh. These cutting-edge weapons were no longer cold and lifeless like the ones before.

They had become like humans and had flesh and blood.

For example, the previous robots had hearts that beat like humans.

They might look ordinary, but these things were actually top-notch weapons that were impossible to guard against.

The strength of this world's civilization could be seen from all aspects. Even in an inconspicuous corner, one could see their extraordinary technology.

"Look, these mutated insects have become even larger than before. It's as if they've suddenly eaten something that causes growth!" Someone could not help but exclaim.

It was not as if they had never seen such a mutated insect before.

However, it became stronger and stronger. Even these cutting-edge weapons were almost unable to shake it.

"Wow, they actually directly used a peak-level atomic bomb!" The frog sensed danger and could not help but exclaim.

The explosion of this atomic bomb was controlled to a certain extent. Even the surrounding people were not affected at all. This kind of energy control could only be found here.

Zhou Hao's eyes widened as he watched the mutated insects die. However, the people beside him were cheering. Not to mention being injured, even their hair did not fall off.

Such an atomic bomb did not even exist on other planets, let alone Planet Earth.

An atomic bomb explosion could cause the ground to be barren for many years. That kind of explosion could kill everyone. However, watching this atomic bomb explode in front of him, Zhou Hao was surprised to see that the atomic bomb's might was actually being controlled.

"George, pinch me. Am I dreaming?" Zhou Hao felt that all of this was like a dream.

Such powerful control could only exist in legends.

George grabbed Zhou Hao's body and shouted in pain. Only then did he realize that he was not dreaming.

"How ignorant. You're like a groundhog. There's no need to be surprised no matter what you see here!" The frog's ruthless criticism sounded again.

This was because these things were too shocking and he had never experienced them before.

Zhou Hao did not want to admit his loss of composure. However, if he had not seen this firsthand, he would not have believed it.

Even George looked at what was happening in front of him in disbelief for a year, even though the world he lived in was not that backward.

They also did not dare to believe that these technological civilizations could actually control such powerful energy.

“So what if I’m ignorant? Aren’t you also experiencing these things for the first time as well?” Zhou Hao directly cowered.

The annoying frog that was getting more and more overboard. It was clearly complaining even though it had never seen it before as well. It was unknown how much control this world had over such cutting-edge things.

No matter which planet it was, the frog knew these unknown things very well. Zhou Hao had to admit this.

Every time, it would show off in front of Zhou Hao. If not for the fact that Zhou Hao had helped it so much, he would have already dragged it out to beat it up. Zhou Hao wondered if the frog would still dare to be smug in the future if he did this.

The frog now felt that Zhou Hao was becoming more and more difficult to deal with. Even if it wanted to complain, it would be mercilessly rejected. It immediately felt that its life was hopeless.

However, not to mention Zhou Hao, even the frog felt a little unbelievable.

It had never seen a technique that could control such an extremely powerful energy in other places. It had also learned a lot here.

“I’m only accompanying you, understand? How old are you? I’ve lived for countless years, little brat!” Even though the frog was very interested in this energy control, it could not admit it itself.

It was an omnipotent unknown creature, so how could it admit that he had never seen such an explosive method before? Moreover, after seeing it this time, it would never feel like a country bumpkin again.

“...” Zhou Hao felt very speechless. It did make sense. He had always been the one to slowly become stronger.

Sometimes, Zhou Hao would say something overboard when he was caught in the moment.

Chapter 750 - Sharp Ultrasonic Wave

Chapter 750: Sharp Ultrasonic Wave

Looking at these powerful weapons, Zhou Hao forgot where he was!

This army of mutated insects made one's scalp tingle. If they fell into it, they would definitely be eaten until nothing was left.

Fortunately, there was such high-end technology on this planet. Otherwise, these people might have been eaten long ago. It was just that insects were so powerful.

He wondered if the other species would become even more heaven-defying.

Perhaps it was also because these cutting-edge technologies on this planet had changed their original rules.

These animals were just like humans. They all thought of ways to survive in such an environment. Only by becoming stronger could they survive.

These insects usually looked very docile and usually did not take the initiative to attack humans.

Squeak! Squeak! Squeak!

The insect the size of a mountain in front was constantly chirping, as if it was summoning more of its kind, making one's scalp tingle.

The thousands of mutated insects behind him had already become food for the cutting-edge harvesters. It was even more furious when it saw this, so it shouted crazily.

"Request to activate the Destruction Bullet!" A huge screen appeared in front of everyone.

This line of words appeared on it. Previously, Zhou Hao had not realized that there was actually a huge screen in the sky. He looked at the empty space in the sky.

This kind of building in the sky was no longer surprising.

Most importantly, this request was not made by humans, but by the entire city.

In the end, the city still decided to report to their superiors and request for a stronger weapon.

The entire city had a danger assessment system. Once they encountered too much danger, this system would automatically activate. This was also something they had never seen before.

“I should also bring these things back to study!” Zhou Hao looked at it and finally decided.

Zhou Hao wanted to bring these new things and advanced scientific technology back and popularize them to lead everyone to improve together.

The Planet Earth he lived on was too backward, which was why he was bullied by these invaders. When he became stronger, he would definitely get these things back.

Strangely, the frog did not immediately stand up to tease him.

This was because the goal of coming here was to become stronger. If one fell behind, they would be beaten. This truth had never changed. Only by becoming stronger and stronger would those covetous people not dare to easily enter.

George was already shocked. He had never seen these things before. However, since it was the address of a large family, he did not show it on the surface.

The two of them stood there in a daze as they watched everything that happened in the city.

“Looks like I have to bring the technology of this civilization back and study them properly!” George also said the same thing as Zhou Hao.

They were both people that sought progress and also deeply understood the truth that they would be beaten if they fell behind. They were unwilling to be weak and be at the mercy of others.

The two of them thought of the same thing at the same time. They still had to consider this matter at length. Otherwise, they wouldn't be able to take away these powerful technologies

“It's a good thing to bring them back. It's even better if they can be researched!” Zhou Hao looked at these powerful technologies and wished he could bring all the scientists here to study these things together.

However, he also knew that this was impossible!

The only way was to think of a way to bring back some finished products. Perhaps he had the ability to crack these powerful technologies and he could teach all the technology to those scientists with comprehension ability when he returned.

George nodded. He had the same thought. He knew that no civilization on every planet could easily give their technology to others to study.

This was their foundation and they could not give it to others easily. In the future, when others became stronger, they would turn around and bully them.

The two of them looked at these technological civilizations and did not think of anything else.

Bang! Bang! With two light sounds, a powerful force exploded on the mutated insect the size of a mountain range.

It was blasted until it was on the verge of collapse. The other places were not affected by this energy. In terms of control of this energy, it was already comparable to the peak-level atomic bombs from before.

After seeing it once, Zhou Hao was not as shocked the second time.

However, the more they looked at it, the more they liked it. They couldn't wait to bring these things back and study them.

The destructive power of this powerful energy was very high. If one wanted to develop it, they had to undergo thousands of experiments and have very powerful scientists.

On this planet, capable scientists could be seen everywhere. It was not an exaggeration to say that everyone was a scientist.

Not to mention adults, even those children were the same.

Almost everyone could study new things. It was really a little difficult for people to survive in this environment without being smart.

The mutated insect was directly destroyed by the powerful destructive bullet, leaving only a pool of blood. Its body had already become bright red like a human.

Its eyes were wide open as if it was unwilling to die like this.

Soon, its flesh disappeared. It was as if something had quickly reduced the number of enemies on the battlefield with the touch of the air. Not even the smell of blood was left.

They only saw some fluctuations and did not see how it moved.

Zhou Hao looked at it and widened his eyes. He thought that his eyes were playing tricks on him, so he did not know whether or not the person cleaning up the battlefield was a robot.

“Ignorant fools. This is a cutting-edge ultrasound operation. They will soon be able to clean up the smell of blood in the air!” The frog explained impatiently.

The frog was very speechless when they saw the two of them acting like they had never seen the world. The others did not look as surprised and shocked as the two of them.

The others watched all of this happen calmly, as if it was something normal.

“I haven’t seen it before. Looks like I have to learn more!” Zhou Hao said seriously.

Learning the technology of these civilizations was his responsibility. It could allow human civilization to improve even more.

Not only did he have to increase his strength quickly, but he also had to study these more advanced technologies. His learning mission was becoming more and more important.

In particular, this sharp ultrasound function made him drool.
