

# Starting With One Million Luck Points

## Chapter 751 - Becoming Stronger

*Chapter 751: Becoming Stronger*

If such technology was controlled by those extremely evil people, they would quickly finish all kinds of murders and then destroy the corpses silently.

This thing was like a double-edged sword. There were pros and cons. For example, with this technology, he could now quickly deal with the corpses of these mutated insects.

However, as long as he had the chance to learn, he would definitely bring this technology back to Planet Earth. That place needed such a powerful technological civilization even more.

After a short moment of surprise, George slowly returned to normal. In this place, he could not act like a country bumpkin.

After the insect leader died, the other small insects were simply unable to withstand a single blow. Dozens of harvesters quickly took their lives.

It was as if they had never come to the city.

The entire street was as clean as before and did not have the bloody killing from before. Zhou Hao looked at this scene and became even more determined to become stronger.

"It's over. I wonder what these damn insects did!" A middle-aged man said regretfully.

It was as if he had never seen this scene before.

That's right. In their hearts, this was like a battle of wits between humans and these beasts.

Clearly, humans had led this era to become more civilized. No matter how fast those beasts evolved, they were still no match for humans.

They would always be a weak existence in front of humans and could be killed at any time.

"What a pity. I wonder what will happen next time?" Another young girl felt that it was a pity.

It was as if everyone wanted to see this scene.

After Zhou Hao heard this, he felt that the world was starting to turn dark. With their powerful technological civilization, these people were not afraid at all.

It had to be known that countless experts and unarmed ordinary people had died in the attack on Planet Earth.

As long as they heard about these mutated things, they wished they could leave. They did not look like humans on this planet at all. They stood at the side excitedly and commented.

Indeed, the existence of a stronger civilization gave people a sense of security.

If such a mutated insect appeared on Planet Earth, who knew how panicked humans would be.

“We might have to wait for a while. After all, these beasts need a certain amount of time and conditions to evolve!” These people had never felt the feeling of surviving a disaster.

They were still discussing calmly. What would be the next creature that appeared?

Seeing that the battle here was already over, he decided to find a place to slowly rest.

Rumble! Rumble!

Zhou Hao was about to turn around when he heard an extremely loud sound. At the same time, the ground kept shaking, as if a magnitude 9 earthquake had happened.

This intense shock immediately surprised the people who had been discussing enthusiastically.

They also felt that something was wrong this time.

“Damn, what the hell is this?”

“An earthquake? Why wasn’t there a warning?”

“I don’t think this is an earthquake!”

Everyone was discussing non-stop. They quickly reacted. Now that the ground was constantly shaking, they had to stand in a safe place.

Fortunately, all the buildings here were in the form of a sky garden. There was very little space on the real land.

Step by step, they had completed such a great technological civilization. Even if an earthquake happened, there was nothing to be afraid of.

"It's a mutated python!" The frog's tone was also solemn.

The commotion caused by this python was too huge. Moreover, it had also reached a certain danger level in his perception. It was directly comparable to the strength of a human world overlord.

It was unknown why an ordinary snake suddenly became such a powerful existence.

It seemed that it was very related to the environment they lived in. Even the mutated insect from before could become the size of a mountain.

If not for the rapid development of human civilization, they would have long been killed by these creatures.

When Zhou Hao heard the frog's words, he realized that this was not an earthquake. Instead, it was because they had killed that huge insect previously that they had provoked this python.

It was said that its size would definitely not be small in the commotion. It was a mess everywhere. Fortunately, they were outside the city now and not in the center.

As the python approached, the entire land was almost flipped over. The ground caved in, making the people standing on it fall directly.

An unbelievable scene appeared. Even if an extremely huge pit appeared on the ground, the soil would instantly slowly recover.

Moreover, there seemed to be an extremely powerful force below that gently lifted these people without causing any casualties. All the land on this planet had definitely been modified.

Looking at such a powerful and mysterious technological civilization, Zhou Hao felt even more envious.

If this had happened on Planet Earth previously, it would definitely have caused countless casualties. Those who fell into the deep pit would definitely have no chance of survival.

Not to mention ordinary people, even those with strength might not be able to avoid death.

“Requesting for the higher-ups to send out peak-level bombs. We have recently encountered an indescribably powerful enemy!” The city’s assessment device could no longer evaluate the ability of the python.

Because it had already exceeded their scope, it could only be said to have an indescribable strength.

Zhou Hao suddenly remembered that the frog had told him that this was a huge python. It had also said that its strength seemed to be equivalent to a human Realm Master.

Although Zhou Hao envied these civilizations, he still had the frog, a perfect guide who was always by his side.

Only now did the people in the entire city discover that the other party had an indescribable power. Only then did a trace of panic appear on their faces.

They did not completely panic because they knew that with their technology, they did not have to be afraid of this unknown power at all.

Even though their hearts were thumping, they did not turn around and escape.

“Wow, there’s finally something exciting!”

“Kawaii, we can finally see an epic battle!”

...

After a short panic, these people actually became very excited.

They finally felt something that could make them feel fear. They had not felt this way for a long time and wanted to find excitement.

These people were simply like a group of lunatics!

Zhou Hao’s eyes widened as he watched these people almost raise their hands and cheer in this crazy commotion.

## Chapter 752

## *Chapter 752: Urgent City*

It was unknown what these people were thinking. They were cheering here instead of escaping at such a critical moment.

It was as if their lives were not worth anything.

The corners of Zhou Hao's mouth twitched!

He pressed his temples helplessly. Indeed, these people's thoughts were very different from his. They did not seem to be afraid of death at all.

Roar!!!

Suddenly, a python that was like a dragon crawled out from the ground. It was thousands of meters long and very thick. It had already exceeded the dimensions of a python.

As soon as it crawled out from the ground, it opened its bloody mouth and bit fiercely at the humans below. Its two lantern-sized eyes were cold.

There was still very smelly saliva hanging from its mouth, making people unable to help but feel disgusted. No matter what planet they were on, snakes were still cold-blooded animals.

There was also a disgusting smell coming from its body. It was like an animal that lived in the sewers all year round. The size of the snake was terrifying.

Even the people who had cheered previously were deeply shocked by this snake.

They watched as the bloody mouth tried to bite their heads, and their bodies could not help but tremble. This excitement filled their every nerve.

They had never experienced such a thing before, and their eyes were filled with madness.

The snake's bloody mouth seemed to have reached a spot not far from these people's heads. Suddenly, it stopped, and the saliva in its mouth fell to the ground.

A pool of saliva slowly spread on the ground, and the stench was even more obvious. Zhou Hao almost vomited.

He had never seen such a huge creature before. The insects from before had already exceeded his imagination. He did not expect such a python to appear at this time.

“The invisible isolation belt can prevent all dangers from approaching!” The frog was afraid that Zhou Hao did not know why the python suddenly stopped at this moment.

Therefore, it also began to explain. These things were all protective functions that would only be activated when one encountered such a huge danger.

Unless they encountered a danger that exceeded the scope, they rarely displayed their value.

Zhou Hao knew that something must have stopped this python. Its eyes were filled with anger, and it could not help but drool.

It turned out that these isolation tapes were protecting them. Zhou Hao did not expect them to be so useful in such a place. He was already prepared to escape at any moment.

The destructive power of this ferocious beast was simply crazy. However, looking at the places it had rushed over from, those places had already returned to its previous appearance.

It had to be said that these technologies were really unimaginable. Their technology allowed the land to recover automatically. Zhou Hao wondered if he'd be able to survive on Planet Earth if he got accustomed to life here.

Roar! Roar! The python roared continuously, its huge tail whipping fiercely at the air.

It was as if it wanted to destroy something.

Bang!!

Seeing that there was nothing in the air, its tail instantly emitted a powerful sound as if it had struck something.

In an instant, its huge tail seemed to have been ruthlessly cut off by a sharp weapon. Its blood fell from the sky, and the entire air was filled with the smell of blood that was even stronger than before.

The blood on this python had already mutated and was pale gold instead of bright red. Without a doubt, it would definitely become the king of snakes soon.

Unfortunately, it was too anxious. Previously, it had received an emergency call from the mutated insect, so it hurriedly came to provide support.

Unexpectedly, the insect was already gone when he arrived. Therefore, it tried to bite these people.

These animals had telepathy with each other and had audio that they could use to communicate. As long as they sent different audio messages, they would send different messages.

It was in so much pain that it fought in the air. It did not expect that something that looked like a sharp weapon in the air would make it lose its precious tail.

The more excited it was, the faster its blood flowed!

Powerful blood fell to the ground and slowly formed a small lake. This bloody smell filled everyone's nerves.

The python widened its red eyes and looked fiercely at the people in front of it.

Suddenly, flames spewed out of its mouth and it spat it into the city in front of it. Even if it couldn't go in and cause trouble personally, it definitely wouldn't let these people stand rooted to the ground and watch it suffer.

Sensing the high temperature of this flame, the entire city began to distort.

"Request for a top-grade cooling agent!" Another line of words appeared on the big screen!

No matter what kind of attack this city suffered, it would react accordingly. The high temperature was not terrifying now. The most terrifying thing was the trace of poisonous gas that could make people hallucinate.

"Poisonous gas, requesting for a sharp disinfectant!" Another thing was detected on the big screen.

It quickly activated the anti-poison function, afraid that everyone inside would be poisoned to death.

Soon, the flames and poison gas spat out by the python disappeared silently into the air.

It was as if they had never appeared before. Such a powerful cleansing function was very unbelievable.

In particular, the powerful poison gas could also be easily resolved. These systems were no different from the ancient bodies that were immune to poison. The more Zhou Hao looked at it, the brighter his eyes became.

These were all things that he wanted to pursue in his life. After obtaining powerful strength, he needed an extremely advanced scientific civilization to support him.

He could not be considered powerful by becoming stronger alone. He still had to lead those weak people to slowly become stronger. Only then could the development of the planet be faster.

“This super air purification is very good. If there’s a chance, I’ll definitely want to communicate with these scientists!” George stood at the side with a very solemn expression.

This was the demeanor of a disciple of a large family. No matter what happened, they could not easily back down.

It was not because he was afraid of being criticized, but because he had a responsibility. Once he gave up on his ambition, thousands of lives would be sacrificed.

Zhou Hao naturally had the same thoughts. He felt that it would already be pretty good if he could think of a way to bring these powerful civilizations back.

Indeed, if they did not come out, they would not know how big the sky was. If the humans on every planet remained stagnant and did not pursue progress, they would never develop.

Zhou Hao felt that he had to travel to all the planets in his life and learn from those powerful civilizations.

Tip: You can use left, right keyboard keys to browse between chapters.

## Chapter 753

*Chapter 753: Arrogant Python*

He would learn until he was old. There was no limit to learning.

Zhou Hao had never thought that he had already become very powerful. Only by constantly working hard could he discover a wider world.

No matter how the python struggled, it was impossible for it to fall to the ground. It could only roll crazily in midair.

Roar!! It looked at this group of humans as if they were its food. However, the food here could only be seen and not eaten.

Saliva kept falling from its mouth, but it was unable to come down and attack these humans.

Slowly, these humans also discovered this matter. Therefore, they glared at the python. No matter how furious the python was, it was impossible for it to kill these humans.

Even George had a gloating expression.

However, Zhou Hao looked at everything in front of him solemnly. The frog told him that this python was not the strongest existence at all. It was still in its growth period. If it reached its peak, the city would not be able to withstand its strength.

Although it was still a python now, it already had the requirements of a powerful creature from the Dragon Race in certain aspects. Thus, it was only a matter of time before it would successfully ascend.

By then, this cutting-edge technology would probably not be its match. Therefore, humans needed to constantly improve. Only in this way would they not be bullied by these small animals.

“I wonder if this python’s meat will be very fresh?”

“I don’t think so, because the smell emanating from its body is really too unpleasant!”

“Do you want to bet? I bet that this ferocious snake will definitely return in a flash this time...”

These people began to make bets and celebrate again.

They had never seen such a powerful creature. A snake could actually mutate into such a state. It already had two horns on its head.

Some people with good eyesight even discovered that it had four feet. This was a very strange creature that they had never seen before.

“I really want to capture it and study it properly!” A twelve or thirteen-year-old girl stood on the ground and looked up at the python that was rolling in the sky.

Her thoughts were really a little different from the others. At this moment, she was not afraid. Instead, she wanted to capture this mysterious and powerful creature and study it properly.

Therefore, everyone on this planet could invent one or two very rare things. They would be considered as adults once they finished researching two new technologies.

Not only were the adults very capable, but the children were also very impressive.

“This python has extremely mysterious blood. That’s why it became so ferocious!”

“Before its mutation, it was only a small serpent that was about a meter long!” The frog came to this conclusion after a comprehensive analysis.

Now, it all depended on whether there was a better way to destroy this incomparably powerful python. This was a fight between humans and animals.

There were many rare-level items in the Mengkala Mountain Range, including all kinds of ferocious beasts. They all slowly evolved from docile beasts.

For example, in the past, this python and the insects were not a threat to humans to begin with. They would only become very ferocious once they evolved and mutated.

“It’s really too terrifying. If it were on another planet, it would definitely destroy the entire human race!” Zhou Hao sighed in his heart.

He wondered if he would turn around and run if he encountered this extremely powerful and mysterious python alone.

Its strength was above his. If it really wanted to, it would definitely have a chance to directly devour it. Most importantly, he did not know if mental attacks were useful against it.

“You’re really too superficial. Do you think this is your territory? It has to be known that this is a place where civilization is very far ahead!”

“It’s not on a planet with very backward technology. Therefore, everything you imagined would not happen!”

“Moreover, these creatures also need certain conditions to mutate. The timing, location, and people are all perfect. None of them can be lacking!”

“Only after the humans in this environment make the entire world stronger will they be qualified to mutate!”

The frog finally stopped complaining and told Zhou Hao the truth.

If he encountered such a powerful creature in the future, he would run if he could. Otherwise, he would die miserably after being caught.

Moreover, these creatures could not evolve and mutate on every planet. Only after their environment reached a certain condition would mutations occur.

It was just like how everything in the world complemented and countered each other.

Zhou Hao was finally relieved. He was afraid that before civilization on Earth could advance to this level, they would encounter an evolved species that made people feel very desperate.

When that happened, what awaited them was the destruction of the entire human race.

With the frog's explanation, he was no longer as narrow-minded as before. He understood that everything in the world lived together.

The reason why these species had mutated was because their previous living environment had changed and they were not allowed to live in their original way.

That was why it had become like this.

Roar!! Suddenly, a sharp nuclear bomb was fired from somewhere in the city and headed straight for the python.

The python widened its red eyes. Finally, something came to greet it. Moreover, it was round and looked very delicious. It opened its bloody mouth and swallowed it in one gulp.

Zhou Hao felt second-hand pain after seeing this. This weapon was very powerful. If it was placed on the entire planet, it would definitely be directly destroyed.

However, Zhou Hao knew that this planet's energy control was precise and would definitely not harm the other species. After all, many people still lived here.

It was impossible for the python to easily kill these people.

Bang! This sound was not very loud. Even though he was so close, he did not feel his eardrums tingle.

Not only could they control the fluctuations of energy, but they could also control the magnitude of this sound wave. This technology was indeed admirable.

Judging from this sound, Zhou Hao felt that it was simply not powerful enough. In his opinion, not to mention the python, even the mutated small insects would not be killed by this.

However, Zhou Hao was still surprised. Soon after, A huge hole appeared in the python's stomach from a nuclear bomb.

Its skin and flesh could be said to be invulnerable. Even ordinary weapons were unable to do anything to it. Unexpectedly, it was actually severely injured by this seemingly weak nuclear bomb. Its aura had become much weaker than before.

Even its ferocious gaze was much gentler than before. This was because it was currently severely injured and no longer had the awe-inspiring feeling from before.

## Chapter 754

*Chapter 754: Pass By?*

Everyone looked at the python's dispirited aura and returned to their previous gloating appearance.

Every time humans competed with these animals, the victor would always be the humans.

Their animals were low-level animals, so they just needed to do their job well. Otherwise, if the humans slipped up, these animals would find a way to invade the human world after suddenly obtaining stronger strength.

The python's eyes revealed human-like regret. If it had known that this would be the outcome, it would definitely not have come rashly.

As its body mutated, its intelligence also increased by a lot. Now, its intelligence had already reached the level of a ten-year-old child.

It would avoid such danger without hesitation in the future.

Everything had its own intelligence. Not to mention this python, who had already slowly evolved its intelligence, even those small insects that did not know how to avoid danger knew to escape when death approached.

Therefore, the python felt that what it regretted the most was rushing here.

It did not know what ultimate weapon the humans had prepared for it. Even if it regretted it, it was useless. The only thing it could do was to quickly deal with these people.

It could also sense that these people's strength was definitely not bad. With those powerful civilization technologies, it was simply impossible for it to win.

“Zhou Hao, this python...” Before George could finish speaking, he felt that the aura of a child in front of him was very familiar.

Just as he was about to go up and take a look, the child instantly disappeared like a loach.

It was as if that child had never appeared. Everything else was still the same. George even suspected that he was hallucinating.

After all, why would a child-like person with a very familiar aura suddenly appear?

Moreover, that aura was the same aura emitted from the treasure that had been stolen from their family. In order to complete the mission for their family again, he had even specially brought an instrument that could sense that aura.

Otherwise, with his sense of smell, how could he have recognized it so clearly?

“You brushed past that person again this time!” The frog’s leisurely voice suddenly sounded.

The moment the godly thief appeared, he had disappeared again. No one noticed how he disappeared. At this moment, everyone was admiring the tragic state of the python.

Who would pay attention to a child who suddenly appeared and suddenly disappeared?

Such elusiveness made one feel that they might be hallucinating.

“Is it that child from before?” Zhou Hao also noticed the difference.

How could an ordinary child do something like this? He appeared in front of everyone without anyone noticing and disappeared in less than a minute.

This speed was indeed worthy of being called the number one godly thief in the universe.

This time, he was probably in his true appearance. It could be seen that he did not have any makeup or mask on.

No wonder those people were unable to capture his traces previously. It was because everyone had preconceived notions and thought that since he was an adult and should be as tall as an ordinary adult.

No one expected him to be like a child.

Humans instinctively did not guard against children much. Thus, it allowed him to succeed easily.

“Zhou Hao, did you see where that child went?” George believed that with Zhou Hao’s strength, he could definitely tell that the child was different.

Zhou Hao indeed did not see clearly, but he had an incomparably powerful frog on him.

No matter how fast the other party was or how powerful his invisibility was, he was unable to avoid the frog’s pursuit.

However, now was not the best time to catch that thief. Since they were here, they should properly study the technology of these cutting-edge civilizations.

It was impossible to capture him for a while.

“I saw it, but it disappeared too quickly and I didn’t see the direction it disappeared in!” Zhou Hao said truthfully and did not share anything.

Most importantly, he did not mention anything about finding the whereabouts of the thief.

As long as the other party was still active in this area, there would be plenty of opportunities. Comparatively speaking, the management here was still a little lax and was not as strict as before.

At the very least, they could enter and leave this city freely without any restrictions. Even though they were residents from Planet Zhengluo, they were not restricted at all.

George looked a little disappointed, but then he thought of something and smiled again.

He just needed to be on guard and discover the other party’s existence immediately. After all, the other party would definitely appear again in the future. If they wanted to capture him, they had to find the right opportunity.

Clearly, the python in the sky had not completely died. If he ran out of the city now, it would be equivalent to courting death.

George was not a stupid person. After figuring this out, the smile appeared on his face again and he was not as solemn as before.

Nothing could be forced. When the time came, everything would go according to plan.

They had discovered the other party’s traces as soon as they arrived. This also meant that the other party had been moving around here for a long time.

These people did not notice him at all. Perhaps they were already used to his lifestyle. He looked like a child and did not look like a heinous person.

After all, most people made judgments based on appearance.

“Don’t be too disappointed. Since he already appeared once, I believe it won’t be long before he appears again!” Zhou Hao did not want George to feel regretful.

After all, he did not have the time to approach the godly thief. The only way to capture the other party was to quietly approach and give him a thunderous attack.

George smiled and told Zhou Hao that there was no need to comfort him. He had actually long imagined this outcome. Since the other party was a wanted criminal in the entire universe, how could he be captured so easily?

He was already mentally prepared the moment he arrived. However, he couldn’t help but feel a little regretful.

George’s thoughts were very simple. He just needed to take back the treasure of their family. Zhou Hao would resolve the other matters.

“It’s fine. I won’t let him escape again!” George was confident.

As the two of them discussed the godly thief for two minutes, another extremely powerful nuclear bomb was fired from the city, directly blasting the python into pieces.

It was a tragic sight. Those who had wanted to eat snake meat previously no longer had any appetite.

Indeed, this kind of thing would make people lose their appetite. Even if it was made into a delicacy, these people would no longer be interested.

Zhou Hao felt that it was the same. The next time he saw the godly thief, he would definitely not let him escape again.

He just wanted to see how different a wanted criminal of this level was from the others.

Tip: You can use left, right keyboard keys to browse between chapters.

## Chapter 755

### *Chapter 755: Preparations Before Entering the Mountain*

The ground that was covered in the meat of the python quickly returned to its previous clean state under the cleaning of the ultrasound. This could almost exempt humans from all labor.

“The direction that person escaped to previously was the Mengkara Mountain Range. He seems to have discovered George’s existence!” The frog’s voice sounded softly in Zhou Hao’s mind.

Zhou Hao knew that even if he did not know the whereabouts of the thief, as long as the thief appeared in front of him, the frog would be able to accurately point out the direction he was escaping in.

Since he had already arrived at the mountain range, he would also go in and see what was inside.

It was said that this place was incomparably mysterious and was the paradise of these animals. Humans did not dare to easily step foot in this place.

Those who could step into the Mengkala Mountain Range were all extremely ferocious evil people. If they were outside, they would have nowhere to hide. The only way for them to hide was to run into the deep mountains.

There was also the cosmic wanted criminal, Toslitan. Most planets were pursuing him and there was no place for him to go. He could only hide in a place that others did not dare to step foot in.

If one wanted to enter, they had to be very powerful and have a destructive peak-level weapon.

Zhou Hao saw that everything here was already about to end and there was no need to stay any longer. He still had a lot of time to learn this cutting-edge science.

“Zhou Hao, our target is nearby. Should we go and check?” George asked for Zhou Hao’s opinion.

It was not that he could not travel alone, but he would rather travel together. If he traveled alone, he was afraid that he would cause trouble.

Zhou Hao nodded. He found it very strange that George had suddenly contacted him again before discovering the direction in which the other party had escaped.

It seemed that he definitely had something powerful to guide him!

“Gentlemen, please wait. After this is the mountain range. Inside...” A gentle-looking woman with a gentle tone appeared in front of the two of them.

This time, Zhou Hao and Zhou Hao did not look at her. Only robots could manage the checkpoints in such a place.

The robots here were no different from real people. Even their hearts were identical to real people. Zhou Hao even had the urge to bring back a robot to study it.

What kind of cutting-edge technology could make a robot’s heart look identical to a real person’s? There was even blood flowing in its body.

Everything these robots saw here could be reported to the powerful families and even the humans on all the planets.

They were a moving and high-definition surveillance device that could contribute more to humanity. The only thing they could not do was carry on the family line.

“We want to enter this forest, but we don’t know what to prepare!” Zhou Hao was also very humble. After all, these robots were invented by smart humans.

They knew a lot about this mountain range.

Therefore, before entering the mountain range, their programming had accounted for everything. These robots improved time and time again, and they slowly developed their own thoughts.

They also learned as they experienced more.

“If you want to enter the mountain range, it’s very dangerous. You have to at least reach the strength of a realm master and have an ultimate weapon on you...” The robot pondered for a moment and said everything that one needed to prepare in order to enter the mountain range.

This was because the people who entered were all explorers who carried unknown ultimate weapons.

What were ultimate weapons? The ultimate weapons mentioned by the robot people were the highest-level weapons on the planet. What had appeared in front of Zhou Hao and the others before was only the tip.

It could be imagined how terrifying this mountain range was.

It was unknown what method Toslitan used to avoid this powerful technology and the eyes of the robots as they freely entered and left the mountain range.

“I want to enter the mountain!” Another anxious voice sounded.

That person brought the five of them here in a hurry. As soon as they entered, they yelled at the robot and asked it to handle the procedures quickly. They were in a hurry to enter the mountain range.

It was as if they had an important mission.

The robot looked at these people in surprise. For some reason, these humans were all very anxious today and wanted to enter this dangerous land.

“Sir, hello. Please line up behind!” The robot smiled very politely. It did not display any emotions just because these people were shouting.

The person who rushed over had an anxious expression, as if he had something urgent to deal with.

Hearing the robot’s words, he put away his anxious expression and stood in line at the back, slowly revealing an extremely elegant aura.

This change surprised Zhou Hao. It was as if he was suddenly a new person.

“We can’t wait any longer. It wasn’t easy for us to capture a little of his aura!” Another young man reminded.

Everyone looked very anxious. They had rushed here this time to chase after that mysterious person.

This scene would happen every once in a while on their planet.

They had failed every time. Otherwise, the other party wouldn’t have been able to get away with it for so many years.

What was even more infuriating was that something that had just happened shocked all of them. Under the surveillance of countless cutting-edge technological products, that detestable thief had actually stolen their treasures again.

Fortunately, there was still a trace of the other party’s aura left.

“Even if we go over now, it’s impossible for us to catch him. We might as well relax!” The young man who had been in a hurry was no longer as anxious as before.

He even persuaded the others in a gentle voice. Three of them were men and two were women. All of them looked extraordinary.

Clearly, they were all led by this anxious young man.

“Charlie De, we can still continue to track them in the past. I’m just afraid...” A beautiful woman also suggested.

Zhou Hao was surprised for a moment. He did not expect to encounter someone from such a large family in such a place. He had heard from Jack John that the Charlie family was a family that controlled the entire planet.

Almost everyone in their family could invent cutting-edge technology. It was unprecedented.

He wondered who these people were chasing.

Hearing their tone, Zhou Hao could not help but think of the face of the child from before.

It was possible that the child had rushed here after stealing something and happened to encounter the python causing trouble.

This made Zhou Hao frown as he understood.

Tip: You can use left, right keyboard keys to browse between chapters.

## Chapter 756

*Chapter 756: Indeed Angry*

Zhou Hao finally knew why the child was in such a hurry.

That child was probably afraid that if he was any slower, he would be chased by the people from such a large family. Indeed, not long after he left, these people had already arrived here in at most half an hour.

This speed could be considered to be quite fast!

They were even more powerful than a tracking device. They were indeed very capable!

The Charlie family was located in the center of this place. The territory was still very far away from this mountain range, and no one could compare to them.

“No matter how anxious you are, don’t lose your basic manners!” An impatient expression appeared on Charlie De’s face.

The people around him were becoming more and more unruly. No matter how anxious he was to leave, he still had to have basic manners outside. He still understood the principle of first come, first served.

Seeing that there was still a person lined up in front of them, they decided to go through the procedures first.

At a glance, Zhou Hao did not look like an ordinary person. The strength fluctuations on his body made one's heart palpitate. How could an ordinary family nurture such a genius?

The few people beside him instantly fell silent. They were really worried.

They quietly followed beside Charlie, afraid that if they said another word, they would never have the chance to work with this young man again.

Zhou Hao could now tell that these people were this young man's subordinates. No matter what, he was the leader. "These people have very powerful destructive weapons. Stay away from them!"

"When they encounter any danger, they will automatically activate the explosion mode!"

The frog had to remind Zhou Hao that if he stood with these people, he would not even know when he was killed.

Even if one died, they had to die clearly. It would not be worth it for one to die like this.

Zhou Hao was not surprised. Since these people wanted to enter this mountain range, they must have made thorough preparations. Otherwise, why would the family be at ease with a few young people entering?

However, after hearing the frog's reminder, Zhou Hao realized that he still had to pay more attention.

He shouldn't get too close to these people. Once the ultimate weapons on their bodies activated their self-destruction mode, it was still possible for Zhou Hao to be injured no matter how fast he ran.

"The aura of the altar has already disappeared, as if it was covered by something powerful!" The frog's voice sounded.

Even he could not sense the exact location of the altar, let alone the others.

Indeed, he heard the beautiful woman beside him mutter softly, "Look, I can't sense his existence anymore!"

The others also had bad expressions. It was not easy for them to lock onto this information. They did not expect it to suddenly disappear after chasing the other party to this place.

There was no anger on Charlie's face. Since he had already chased the other party here, he had to enter the mountain to take a look.

It was impossible for them to complain to each other here. Moreover, he was already mentally prepared.

Previously, those people who were stronger than them had not succeeded in chasing after that thief. Therefore, it did not matter even if they did not succeed this time.

He would treat it as a trip to this mountain.

Soon, Zhou Hao and the others finished the procedures for the gold mountain. The robot looked at their backs with an expression that others could not understand.

It was unknown what the robot was thinking. There was pity, surprise, and shock. It felt that the young people in this world were becoming crazier and crazier.

It could sense that Zhou Hao did not have any ultimate weapons like Charlie from before.

Now, seeing the two of them walk into the mountain in high spirits, the robot wondered if they would return in a sorry state not long after. They might not even have the chance to come out again.

It seemed that they needed to evolve again. They were becoming less and less aware of the true thoughts of humans.

"I wonder if these two can return alive!" the robot shouted softly.

Charlie De also sensed that Zhou Hao did not have an ultimate weapon!

However, George had a lot of escape equipment on him, so it was not a problem for the two of them to escape together.

It was unknown if they would always be together after entering such a deep mountain. There were still many uncertain factors.

He knew that these two people were definitely not simple. It seemed that he had to get to know them well when he had the chance. After all, there were two things he liked to do the most in his life.

The first was to go to various dangerous places to adventure and see things that they had never seen before.

Secondly, he wanted to befriend all kinds of geniuses. Therefore, it could be said that he had friends everywhere.

Because they all knew what to prepare for entering the mountain, they quickly completed the procedures to enter the mountain. The five of them rushed into the depths of the mountain.

On the way, they also encountered many people who had entered the mountain together. They did not know why these people went inside.

Usually, very few people dared to step into this mountain.

"That damn thief actually stole my wife's undergarment!" A middle-aged man said angrily.

The others could not help but laugh. What was so valuable about a woman's underwear?

The middle-aged man was so furious that his face turned green. That was not an ordinary undergarment. It was a top-notch weapon that he had spent an unknown amount of money and effort to obtain.

Every time he thought of this, his heart could not help but bleed. However, the weapon's design was very strange and was made to look like a woman's undergarment.

"You don't understand. How infuriating!" the middle-aged man cursed.

Fortunately, his most important item was not placed with the peak-level weapon. Otherwise, it would have been even more tragic if that thief had stolen it.

"Stop laughing. One of my shoes was stolen!" Another woman's sharp voice sounded.

She almost stomped her foot in anxiety. Although she said that it was a shoe, the item she was looking for was actually an amulet she had spent a lot of money to buy. It was said to be able to prevent many diseases. She did not expect it to disappear in the blink of an eye.

They all had top-notch tracking devices. As long as there was a trace of aura, they would know where the other party was.

That was why they had chased them here without hesitation. Moreover, their identities were not simple.

Although they said that there was a shoe and a bra, they were actually hiding something. Otherwise, it would not have been taken away by Toslitan.

On the way, people kept complaining about the items they had lost.

...

Charlie felt that this thief was really too annoying. It was as if he had returned to a few years ago where everyone was talking about his various crimes.

This thief was always stealing.

## Chapter 757

*Chapter 757: Encountering a Roadblock*

The thief had never committed any other crimes. He only liked to steal from the various families.

Ever since he arrived on this planet a few years ago, he had become famous overnight. This was because the royal family had lost an extremely rare treasure that day, making the entire royal family furious.

The royal family swore to kill this thief. The Charlie family had just mocked the royal family for being incompetent. They did not expect that in just half a month, their own family would also lose a precious item.

It was so precious that the family relied on it to survive. Without it, the entire family would fall back by 10 years. Therefore, even after so long, they had to get it back.

What was most infuriating was that this thief had appeared again a few days ago and stolen another treasure of the Charlie family, making them incomparably furious.

That was why they had sent the strongest few people of their younger generation to these mountains to capture that thief.

Since the other party was a wanted criminal in the universe, Zhou Hao had to make sure that he never had the chance to come out again.

“They’ve indeed angered the heavens!” Zhou Hao had been listening along the way as these people complained incessantly.

Moreover, they were all people with noble statutes on this planet. These people must have some ability to dare to enter.

They did not know what was going on in Toslitan’s mind. Why was he targeting these powerful families? He had just arrived and was already targeting the royal family.

He was really impressed. Ordinary people did not dare to play such an exciting game. If they were careless, they would fall into a bottomless abyss.

While these people were furious, they did not know where Toslitan was sleeping comfortably.

“He likes to steal from large families. Ordinary families don’t have anything he thinks highly of. He stole our family’s heirloom!” George was still very depressed.

However, looking at these people, he unknowingly felt much better.

There was no need to be angry with that thief anymore. After catching him, Zhou Hao had to send him to the prison of Planet Zhengluo to enjoy the rest of his life.

No matter how powerful a person was, they would never be able to come out again.

The corner of Zhou Hao’s mouth could not help but twitch. After all, this thief would only steal important things. If he found the other party on his own, he would definitely be rich.

He wondered if that thief had stolen those advanced technologies?

Zhou Hao thought to himself that he could become rich after obtaining those things. He even thought about how humans on Planet Earth would improve a lot after he took those things back to Planet Earth.

As he thought about all the possibilities happily, the frog’s heartless voice sounded again. “Dream on. Do you think this cutting-edge technology was invented by your family?!”

“Even if he stole those things, he would only be able to steal one or two. Moreover, even if such advanced technology was given to the humans on Planet Earth to be studied, it might be impossible for them to figure it out in their entire lives!”

Zhou Hao’s heart immediately turned cold. He thought that if he could obtain the products of these civilizations, he would still have a chance to study them.

He did not expect such an outcome!

“However, it’s not entirely impossible. Toslitan has a powerful weapon that can conceal his aura!” The frog could sense Zhou Hao’s depression.

It was not exactly comforting them. What it said was the truth. Everyone would flock to such things.

As long as he obtained it, no one would be able to trace him even if he did something outrageous.

No wonder his concealment was so exquisite. Even if he was standing in front of you now, you wouldn’t know that it was him at all. The aura on his body would be completely concealed.

Toslitan’s appearance was also constantly changing, so the people on these planets had never been able to do anything to him.

“As long as I obtain these powerful technologies and bring them back to study them slowly, I’ll definitely be able to figure it out one day!” Zhou Hao definitely did not believe that humans were so stupid.

Sometimes, what they needed was an opportunity. Without a leader, those people did not have a sense of direction.

As long as there was someone leading the way, humans would soon enter a more civilized era. Even if they could not catch up to these planets, they would still improve a lot.

“There’s danger ahead. Don’t think about this nonsense. Our priority now is to stay alive and find his traces!” The frog reminded Zhou Hao not to be distracted too much in this mountain range.

Even the frog felt that it was extremely dangerous inside. It did not feel as relaxed as he did outside and felt as if it was naked.

There were only scanning machines constantly. There was true danger inside. These mutated animals were comparable to those extreme weapons.

“No, no, please don’t eat her!” a crying voice begged.

Zhou Hao took a glance. There was a ferocious tiger the size of a small hill. It opened its bloody mouth and bit fiercely at the person who had fallen to the ground.

This tiger’s body was colorful and had white, red, and black fur. It was very ferocious and once glance at it would make one freeze up. Most importantly, it had already exceeded the scope of a regular feline animal.

They had never seen a tiger of this size. It stood in front like a small hill.

No matter how these people prayed, the ferocious tiger did not reduce its speed at biting the humans at all. The humans and these animals had long decided to fight to the death.

Just as everyone thought that this person was dead meat!

Suddenly, the person's body emitted the self-destruction mode of the ultimate weapon.

In an instant, the ferocious tiger felt an unprecedented danger and quickly retreated, hoping to leave this dangerous range.

The eyes of the people lying on the ground were filled with madness and despair. If they were eaten by this beast, they might as well die together with it. At the very least, they could let the other humans leave alive.

Bang!!

The surrounding people watched as the ferocious tiger retreated. The ultimate weapon on the person's body smashed towards the ferocious tiger desperately.

Despite its powerful body, which was the size of a mountain, the tiger was still injured. There were even large holes in some places. These weapons made it feel unprecedented danger.

The mutated ferocious tiger was very sensitive to these dangers. It turned around and ran into the depths of the forest.

Zhou Hao finally saw the sorrow of not having an ultimate weapon. If not for that powerful thing, that person would have died long ago.

The ferocious tiger had escaped with injuries and would definitely not live for long. These animals all had natural enemies. Such a rich bloody smell would definitely attract an even stronger existence.

"Let's go!" George clearly thought of this and did not dare to stay any longer.

Even if he had life-saving methods on him, he could not use them as soon as he entered. Unless it was a last resort, he definitely would not waste them easily.

After all, such a life-saving method was very precious!

## Chapter 758 - Meeting Again

### *Chapter 758: Meeting Again*

Zhou Hao also had the same thoughts. The two of them did not stop for long and turned to walk deeper into the mountain range. The danger level inside was even higher than the outside.

The places they had passed before were only in the periphery of the mountain range. Not to mention the center, even the inner area had powerful mutated beasts.

They wondered if they would encounter an unprecedented mutated beast that even powerful weapons could not handle once they stepped into the center of this mountain range.

The surrounding trees were even darker than before, and the surrounding air seemed to be more depleted than outside. There were powerful animals drooling around.

As time passed, the number of people in the depths decreased. Most of the people only dared to move around in the periphery. They were only here to try their luck and see if they could catch that damn thief.

Everyone was afraid after coming to this place. Zhou Hao had also only come here to train and complete that mission.

"This place is a little creepy, as if there's something extraordinary here!" Zhou Hao felt as if his surroundings had suddenly fallen silent.

George felt goosebumps all over his body, as if he was being stared at by something cold.

As he spoke, he subconsciously trembled, as if he had suddenly fallen into a world of thousand-year ice.

Without George saying anything, Zhou Hao also sensed the abnormality around him. It was as if he had fallen into a thieves' nest.

"Take note, there's an extremely ferocious and powerful water snake in the south. In front of it is a cold and deep pool!" The frog accurately determined what was around it.

No wonder although there were cold gazes around and none of them dared to act rashly. In the animal world, the strong were respected.

They could not even approach this place. It seemed that this water snake was very powerful.

“It has at least reached the strength of a human ruler!” The frog’s next words almost made Zhou Hao faint on the spot.

He did not expect to encounter such a powerful existence as soon as he entered. He did not know if he could escape from the other party. After all, there was a difference of two levels between their strength.

When one encountered those who were slightly stronger than him, one would have the opportunity to train. When one encountered those who were very powerful, it would be called courting death. Zhou Hao did not want to give away his life for free.

After all, others would definitely not thank you for your generosity!

“Be careful. There’s an extremely powerful water snake here!” Zhou Hao thought for a moment and reminded George!

Now that the two of them were comrades who had fought together, it was not surprising for Zhou Hao to remind George. He would have done the same even if the other party was a stranger.

Just as Zhou Hao finished speaking, he heard a huge sound not far away, like a storm in the sea.

Roar!! A loud voice sounded faintly.

Hearing that there was still a certain distance, George and Zhou Hao could not help but swallow their saliva. Such a powerful existence usually did not appear in front of humans.

It was even more powerful than the previous python. At this moment, they could only advance and not retreat. As the saying goes, there are tigers in front and wolves behind.

Behind them, many powerful animals were staring at the two of them covetously. The closer they got, the more they felt that something was wrong. The huge water snake seemed to be fighting a human.

Previously, he was still curious as to why he could discover the other party as soon as he arrived. It turned out that this water snake was not targeting the two of them. It seemed that someone else had provoked it.

It was unknown who was courting death like this. Against such a powerful existence, this person might not be able to survive even if he had an ultimate weapon.

Zhou Hao was a little anxious for the other party. If the two of them wanted to enter the depths of the mountain range, they had to pass through this place. Otherwise, they would have definitely taken a detour if they could.

He wanted to avoid trouble as much as possible.

“Who’s so courting death to provoke such a powerful existence?!” George complained softly as he walked.

If they could avoid trouble in this mountain range, they would try their best. These usually gentle animals would become very ferocious ferocious beasts after mutation.

Moreover, these ferocious beasts would usually become even more ferocious after their mutation. As long as they saw other foreign races, they wanted to pounce on them and bite them to pieces.

As he approached, he felt a huge pressure. Cold sweat covered George’s face. This snake was too powerful.

He had never known that a water snake could reach such strength after mutating.

Because Zhou Hao had the frog and was not weak, he only felt a little pressured and did not feel as pressured as George.

“How infuriating!” George could only complain in a low voice to reduce his fear of this water snake.

Someone was actually fighting this water snake. He decided to go over and take a look. If there was a chance, he would sneak away. If there was no chance, he would have to bite the bullet.

He also had a few items that could deal with such an evil and ferocious beast. However, it was better if he could avoid it. After all, it was filled with a mysterious and dangerous smell.

He was afraid that after using all his trump cards, he would only be able to wait for death if he encountered a huge danger.

“Yo! Damn!” After the two of them walked in, they saw a water snake the size of the python from before standing in the cold pool. Its green eyes glared fiercely at the few people on the shore.

That gaze made people feel incomparably terrifying, like a venomous snake was staring at them. It was very cold.

This water snake was even more ferocious than the previous python. The water it spat out could instantly freeze. No wonder he felt very cold as soon as he entered.

Seeing the few of them in a sorry state, the two of them cursed even more.

They were the five people he had seen at the registration counter. The young man in the lead was still fine. The others were all injured.

It was unknown what weapon was used to temporarily calm this ferocious water snake.

It seemed that the few of them were simply tired of living! Why did they have to provoke this incomparably huge water snake?

“Charlie De, you go first. This beast is too powerful!”

“Why don’t we use our ultimate weapon to destroy it?!” A young man with a flat nose looked vaguely at the water snake in the pool.

As long as they did not move, the water snake would not move!

As long as they moved slightly, the water snake would instantly pounce on them.

If it made Charlie feel very depressed again. He did not expect to disturb such a powerful expert just by passing by.

Charlie De shook his head indifferently. He had never made a habit of escaping before the battle, especially not in front of his comrades who had fought alongside him.

Since everyone had come here, they would fight to the death!

Moreover, everyone still had that destructive weapon on them, but they wouldn’t use it unless they had no other choice.

## Chapter 759

*Chapter 759: Fate*

They had not reached the point of exhaustion yet.

The few of them looked fiercely at the water snake that was constantly paying attention to its surroundings. It was as if nothing could hide from it after entering its range.

“Hi, we meet again. What a coincidence!” Charlie looked at Zhou Hao as the two of them walked closer from afar.

He greeted them enthusiastically, as if he was afraid that others would not see him here.

Now, with two more people, he had two more forces. With his senses, he felt that Zhou Hao and George were not simple figures.

The main reason why they needed to take down this incomparably ferocious water snake together was because this water snake did not go ashore at all. If they wanted to pass through this path, they had to pass through the pool.

The corner of George’s mouth couldn’t help but twitch at this so-called fate.

It was not like there was anything good going on. They all had to face this incomparably ferocious snake together. Just thinking about it made his scalp tingle.

In particular, when they felt his green eyes, their hearts subconsciously turned cold.

“We’re indeed quite fated. Then, we’ll go together after you guys resolve this!” Zhou Hao sat down leisurely.

They did not have the slightest intention of participating in the battle. Seeing this, the others could not help but be stunned.

Unexpectedly, this man with extraordinary strength in front of them did not plan to fight alongside them. He actually wanted to take advantage of them later.

Even George did not know what Zhou Hao meant.

However, he was definitely willing to go along if it was beneficial and would save them effort.

The two of them sat side by side and did not seem like they were about to do anything. At this moment, the snake’s eyes were also fixed on the few people who had disturbed its sleep.

What it hated the most was these people disturbing his sleep.

Roar... Therefore, seeing that these people were not moving at all, it directly roared and spat out a mouthful of mist.

It directly turned into an ice needle in midair and shot towards the five of them. The strength of the ice needle was not weak.

“This strength is terrifying, but I can definitely handle it!”

“This python’s weakest point is its mental strength!” The frog made a judgment after sensing the python’s strength.

Although it was ferocious now, it was actually as weak as tofu. Its life could be taken at any moment.

Zhou Hao could not help but touch his forehead. Every time he fought, this ugly frog would become narcissistic. Every time it appeared, all kinds of flirtatious words would fill the sky.

It was unknown where it had learned this bad temper from.

It was also possible that it was born like this and did not learn these skills from anyone else.

George looked at Zhou Hao’s very helpless appearance and thought that it was because he felt very helpless after seeing the strength of this water snake.

If he knew that Zhou Hao was helpless because the frog was too narcissistic, it was unknown what he would think.

However, Zhou Hao did not have any objections to the frog’s words. Without absolute confidence, he would argue with the frog.

“Got it. Let’s see if these people are a match for this python later!” Zhou Hao did not want to join the battle immediately.

He had to properly understand the strength of these planets and the ultimate weapon they had.

They were all very curious!

However, since there was no one around to tell him the answers, he could only sit at the side and observe how far these people could go. He estimated that they would probably be able to deal with the snake.

The two of them sat at the side and watched the battle, making the other four grit their teeth. They had never seen such shamelessness.

“Can’t you guys come and help? Do you want to die in the pool later?!” One of the girls with a mean appearance blamed loudly.

The few of them had almost died here. Zhou Hao and George sat at the side and even took out delicious food to slowly eat, making them feel even more tortured.

It was as if there was an audience that was admiring their slow deaths.

They were all displeased, but there was nothing they could do!

After all, they had rashly stepped into the lightning area of the water snake. They could only endure the anger of this ferocious and huge water snake. Just thinking about it made them feel very aggrieved.

The two of them acted as if they did not hear their sarcastic words. After all, their deaths were not up to the small woman.

The huge water snake twisted its huge body as the water in the pool slowly filled up.

Its huge tail whipped fiercely at the few of them like a powerful whip. The weaker ones were instantly whipped until their skin and flesh were torn.

One person's arm had been instantly cut off, and even the skin was detached. Looking at the arm that had fallen to the ground, everyone was dumbfounded.

"Damn, how fierce!" George could not help but explode. His eyes widened as if he had seen a ghost.

It had only whipped out its tail and one of their arms was already cut off. It was unknown what this water snake was made of.

Zhou Hao's eyes darkened when he saw the combat strength of this water snake. Previously, he had wanted to slack off and see their strength. It seemed that he had to take action now.

Even if they had powerful ultimate weapons, they still couldn't do anything to this water snake for a while.

"You guys stall him. I'll use my mental strength. You guys, use the ultimate weapon on you to give him a fatal blow!" After Zhou Hao finished the last mouthful of food in his hand.

He stood up very elegantly, and his faint voice reached everyone's ears. The others were very unconvinced and felt as if they were being bossed around.

Charlie nodded and felt that this was for the best. Among all humans, it was an extremely powerful tactic to use a mental attack. Moreover, it required a huge amount of mental strength.

Thousand Feather Armor! Zhou Hao called out in his heart. Without Thousand Feather Armor protecting him, he was like a warrior without armor.

Facing such strength, he had to be absolutely safe.

Otherwise, if he failed, he wouldn't even be able to escape!

"Master, don't worry. I've always been here!" Thousand Feather Armor finally spoke in its own voice.

Usually, no matter what the frog said, the Thousand Feather Armor did not dare to make any noise. It was afraid of being caught in the crossfire.

With Thousand Feather Armor's response, Zhou Hao was relieved. The other four looked at each other and nodded, as if they had reached an agreement.

Only Charlie shook his head, feeling that it was too immoral. Moreover, they had come here with a goal.

The person who had lost an arm previously gritted his teeth in pain.

This person hated them to death. If these two had attacked earlier, he wouldn't have been injured.

## Chapter 760

*Chapter 760: Finally Destroyed*

His hatred for Zhou Hao and George had already reached a new level.

On the other hand, he did not think that the water snake was the culprit.

This was the nature of the human heart. They would feel as though the bystanders had done something heinous and expect them to take action.

Now, the few of them were secretly communicating, wanting to take advantage of Zhou Hao's attack to quickly retreat. They wanted to escape from this demon-like snake.

From the beginning to now, they had not stopped at all. As long as they made any movements, the huge snake would pounce over mercilessly.

After all, a person's arm had been cut off. If not for the powerful medical treatment and weapons, he would have definitely died in the mouth of the huge snake.

They were even more unconvinced now that they were being bossed around by Zhou Hao. They could not forget how Zhou Hao had eaten all kinds of delicious food and watched them fight a bloody battle.

They wanted Zhou Hao and George to experience this feeling.

Zhou Hao took a step and stood under the python's bloody mouth. The defense on his body reached the limit as he punched fiercely at the python.

The snake's defense had reached its peak. A thin layer of scales had already grown on its body, and sparks flew when Zhou Hao's fist hit its body.

This degree of hardness was unbelievable. How terrifying was it that the ordinary strength could not injure this snake at all?

Zhou Hao took a step into the air and looked at the water snake. Instantly, it fell silent and was no longer as frustrated and furious as before.

"If we don't leave now, how long do we have to wait?!" Two men and two women quickly arrived at the other side of the pool.

Only George was left standing rooted to the ground with a dumbfounded expression. He watched as Charlie struggled for a moment, as if he had made a huge decision.

He could not do such a treacherous thing. He had a very strong feeling that he would definitely be the one to die in the next second.

No matter how powerful this water snake was, its greatest weakness would not change.

He took out a golden needle from his pocket. This was also an extreme weapon. It could turn big or small and was very powerful. Most importantly, it would explode after being shot into the other party's body.

Previously, he had never had the chance to use this weapon because no one was keeping this water snake busy. Its huge body was constantly rolling and twisting.

"Charlie De, come over quickly now. Don't care about others..." The slightly mean-looking woman kept shouting from the other side.

They had always kept Charlie at the center of the group. Unexpectedly, after the four of them successfully arrived at the other side, they realized that Charlie was still on the other side.

No matter how anxious they were, they did not dare to take the risk to return.

It was useless even if they went back now. This mental control would only last for a minute. Most of the time had already passed as they watched the water snake slowly move again.

Roar... After a short moment of absent-mindedness, the water snake realized that something was wrong. It roared and swung its big tail at Zhou Hao, immediately wanting to kill him.

It was no longer teasing them like before!

The person in front of it gave it a very intimidating feeling. If it was careless, it would die in the other party's hands. While it still had the strength, it had to kill this young man in front of it first.

The snake and the human fought non-stop in the air. Zhou Hao very simply punched the seven-inch water snake one punch after another at its weakest spot.

With every punch, the water snake would become more furious. It did not expect this cunning human to be able to firmly grasp its weakness. This was a place that had remained the same even after its mutation.

Bang!!

Another punch landed fiercely on its 7-inch spine. The scales here were the weakest and were not even soft.

With a punch, a hole was directly blasted open. Because of the endless support of the frog, fear appeared in the water snake's eyes.

Even though they were ferocious beasts that had undergone countless changes, they were still very sensitive to danger.

The young man in front of him gave him a sense of threat.

Zhou Hao did not care what it was thinking and directly punched its weak spot fiercely. He punched it again and again, not worried that he would not be able to withstand the other party's attack.

With the Thousand Feather Armor on his body, these attacks could not hurt him.

The others were stunned. They did not expect a gentle young man to be such a ferocious man. He did not show any mercy to this water snake.

If they could resolve the matter with weapons, they would definitely not do it themselves.

They did not understand that Zhou Hao was actually doing this to increase his strength.

This way, he could kill the other party without restraint. If the other party was a human, Zhou Hao would be classified as a murderer and a wanted order would be issued. When that happened, he would have to hide around like a rat.

The four people opposite felt a chill run down their spines, afraid that Zhou Hao would settle the score with them later.

Facing such a ferocious man, they were a little overwhelmed.

The huge water snake twisted its huge body and kept surging, as if this pool could no longer accommodate its huge body.

Usually, it was at the bottom of this pool. Today, these people had unintentionally disturbed its peaceful sleep before it suddenly appeared in front of them.

Back then, it only felt very displeased. It did not expect to feel a trace of fear now.

Charlie took this opportunity to shoot the golden needle in his hand directly at the weak spot of the snake, not worried that they would be affected by the aftermath of the energy.

The control of energy was very precise. No matter how close they were to the python, they would not be injured. This was the brilliance of the golden needle.

The python did not feel anything at all when the golden needle entered. After all, it was busy focusing on the pain caused by Zhou Hao's repeated punches.

It was furious and wished it could immediately destroy this damn human.

Roar! Roar! The huge voice roared continuously.

The surrounding mutated beasts lay on the ground trembling. They did not even dare to escape. The pressure emitted by this water snake made them submit.

Bang! Bang! Bang!

"Move back!" Charlie shouted.

An extremely powerful explosion was heard. After this golden needle was shot into the ferocious beast's body, there would be a three-minute buffer period, just in case he accidentally shot it into a teammate's body.

The python's weak spot was directly shattered by this powerful explosive force. Indeed, the strength of cutting-edge technology was even stronger than the strength of Zhou Hao's fist.

Zhou Hao had to admit this, but he had already obtained what he wanted.

He did not expect the young master of this big family to be so loyal at the critical moment, unlike those four disloyal couples.

Seeing their smug expressions on the other side, he could not help but want to teach them a lesson.

## Chapter 761

### *Chapter 761: Apologize*

Zhou Hao's face was dark, and he did not give them a good look. Those people were a little scared and took a few steps back. They had seen Zhou Hao's ruthlessness with their own eyes. "I'm Charlie, and you are ..." Charlie asked with a friendly smile. He knew that his men had thoroughly offended the God in front of him. From the battle, he could tell that without his help, Zhou Hao would have been able to deal with the water snake. He had to build a good relationship with such a powerful person. At this time, those who could come to this mountain range must be because of the matter of the thief God. In this way, everyone could be considered as people on the same boat. Zhou Hao looked at the smiling charade and felt very upset. However, this man did not leave quickly at this critical moment. He was a very loyal guy who chose to stay and face the powerful water snake with him. "I'm Zhou Hao. I'll never see you again!" Zhou Hao did not have a good impression of this group. Even if he had just watched the fire from the other side of the river, he was much better than these people who had fled halfway. Not to mention, it was because he had restrained the Python that these people had taken the opportunity to escape. There was an inexplicable fire in his heart, and he wanted to teach these people a good lesson. Charlie was stunned for a moment. He knew that the man in front of him was angry. These people had indeed gone too far. The others came out to help out of kindness, but they suddenly ran away, even to the other side. He didn't know how these people usually went out to do things. He couldn't help but feel a little disappointed in his heart. Would they also carry him on their backs when it came to a life and death situation? There were also traces of doubt in his heart. If these people could treat a stranger like this without any grudges or grievances, they would definitely send the other party to his death in a life-and-death crisis. "Zhou Hao, I'm sorry. This matter ..." Before Charlie could finish his sentence, he was ruthlessly interrupted by Zhou Hao. Charlie had not done anything wrong in this matter."Thank you, Charlie, for

not leaving at the most critical moment!" "However, I don't have a good impression of those people. I don't want to see them again!" Zhou Hao would definitely not forgive them for what they had done just because of Charlie's apology. They were all adults, and they should pay a certain price for their mistakes. No matter what planet it was, this was an eternal principle. Since these people wanted him to die, why should he have any interaction with them? Seeing that Zhou Hao wasn't a mean person, Charade also felt bad in his heart. He didn't want to bring these people along to complete this mission. It was just that they wanted to gain some experience, so they shamelessly followed. Soon, they crossed the other side, and the four of them looked at Charade unnaturally, their eyes flickering. They were not the servants of the Charlie family. They were only related to the Charlie family, so they would often stay in the Charlie family. They had always been on good terms, but he did not expect such an accident to happen this time. He could tell that the young master must be angry when he saw the terrible expression on Charade's face. However, until now, they didn't think they did anything wrong. At the most critical moment, he would definitely protect his own life. "Apologize!" Without Charade around, there was no need for a false pretense. These people were not members of Charlie clan to begin with. They used all sorts of pretense to freeload food and drink in Charlie clan every day. On the account that they were relatives, they didn't say anything. This time, he had actually gotten himself into such trouble! The few of them were stunned for a moment as they felt that they were hallucinating. Since when did the people of the Charlie family need to apologize to a person of unknown origin? Even the address of those major families was not worth mentioning in front of the Charlie family, let alone a disciple who might be from a major family. They had never apologized to anyone before. The only thing they did was to humiliate each other. "Who does he think he is? we need to apologize! Where will the face of the Charlie family be!! The young man with the flat nose had a disdainful look in his eyes. They were relatives of Charlie's family and had always been tyrannical outside. No one dared to show them any attitude. There was no way they were going to apologize to a young kid. "That's right, he was the one who did it first. That's why we're giving him an eye for an eye. On what basis ..." The mean-looking woman looked at Zhou Hao with an arrogant and unruly look. In her heart, she felt that Zhou Hao was the most ungentlemanly man. Earlier, he had actually watched them being seriously injured and had even been eating delicious food at the side very elegantly. The other young man, who had lost an arm earlier, did not say anything. He only stood silently beside the others, supporting them in silence. It was harder to not apologize than to ascend to heaven. "It seems like ..." "Bang!" Before Charlie could finish his sentence, he heard a loud noise. He turned around and saw the mean-looking woman. His eyes widened in surprise as he looked at Zhou Hao. His hand was still covering her face tightly, as if he had been hit. "Bang!" The young man with the flat nose was punched to the ground again. If these two people wanted to stand out, they would only be taught a lesson. Zhou Hao was definitely not a Saint. How could someone complain about something like this and just laugh it off? Everyone was stunned. They didn't expect this refined man to attack without any warning. Even George's eyes were wide open. He had always thought that Zhou Hao had a mild temper and had never been angry with him. All of a sudden, he seemed to have changed into a different person! However, he liked her personality. Facing these bastards, he should teach them a good lesson and let them know who the young prince

and young prince were. When the others were willing to attack, he actually left the threat to the others and quickly escaped. "I'm a member of the Charlie family, how dare you ..." Before the man could finish his sentence, he was interrupted by another punch. It had been a long time since Zhou Hao had been so violent. Since these people wanted to see his true self, he would let them have a taste of it. As a man, not only did he run away, but he also dared to make a scene here. The other people's eyes were wide open, unable to believe what they had just seen. Other people had always been very respectful when they saw them, not to mention fighting, even speaking politely. What was even more unbelievable was that Charade, who was standing at the side, did not stand up to speak for them. All this while, no matter how big of a mistake they made, Charlie would always be the first to speak up for them. He actually treated them like this this time! They were naturally very dissatisfied, but they were even more furious!

## Chapter 762

*Chapter 762: Thrown into the snake cave*

All of a sudden, they felt that Charade had changed into someone they could not recognize. They had actually joined forces with outsiders to bully them. Previously, when the five of them were fighting a bloody battle together, Zhou Hao and George were sitting at the side, eating delicious food and watching the battle. They could not swallow this kind of hatred. "Charade, do you really have the heart to see us being bullied like this?" "Don't forget, the reason we're here is because we came with you ..." The mean-looking woman's face was very ugly. It wasn't like she liked this man's wealth, so why would she come all the way here to suffer? The man in front of them was the heir of the entire Charlie family. The only way they could get a place was to please this heir. There was no such thing as pure love between men and women in large families like theirs. It was more of mutual use. At this moment, he felt extremely wronged. There were tears in her eyes. Most people would be heartbroken to see her like this, but this woman was petite and had good looks, apart from her harsh appearance. It was easy to arouse a man's desire to protect her. When Charade heard her threat, his face turned cold. "These people are still not repenting. It's your own fault!" He thought. "As for why you're here, I know your purpose without saying it!" Charlie usually gave these people face, thinking that since they were all relatives, they did not count things too clearly. There was no need to give them any face at all now. Their purpose was not simple in the first place. The two men and two women's faces changed when they heard Charade's words. Their purpose for picking up Charade was not pure, and they had always thought that they had disguised themselves well. They did not expect their goal to be seen through by the other party. They thought that Charade had always been a nerd who only knew how to research cutting-edge technology. Since he already knew, there was no need to pretend anymore. "Charade, I love your heart ..."

Before she could finish her sentence, she was stopped by a cold look from the factory. They didn't want her to say such disgusting words. This kind of person was not worthy of mentioning love. Love was a sacred and pure word. In the eyes of this kind of woman, there were only benefits. "Zhou Hao, you can do whatever you want. From now on, I have nothing to do with them!" Charade had wanted to get rid of these people from the start. He just hadn't found the right opportunity, but he didn't expect that coming here would be an opportunity. He was very clear about the purpose of these people approaching him. They usually used his name to intimidate others. He could only turn a blind eye. It was because the relationships in the family were too complicated. No matter which planet it was, as long as one lived in a large family, it would not be a simple matter. "Alright, then throw them into the snake cave!" Zhou Hao was a ruthless man. He would not give any face to such a thieving person. "I really did the right thing. What I like the most is to see these people struggle non-stop!" The frog's smiling voice was transmitted into Zhou Hao's mind. It was as if he was very satisfied with this matter. Just listening to his voice made her feel very happy. Zhou Hao looked at the sky helplessly. He didn't know when the frog had become so Savage. It was just a suggestion. This matter still needed to be carried out by Charade personally. He would definitely not dirty his hands by doing it himself. "Shut up! Why are you everywhere? why don't you go and do it?" Zhou Hao retorted. This damn frog was getting more and more difficult to deal with, and its combat power was extremely strong. It was just too gossipy to be able to give him directions. Before this, she didn't realize that he liked this kind of cruel thing the most. Now, she finally revealed his true nature. "..." The frog was speechless. It was Zhou Hao himself who had made the suggestion. Why did he suddenly become so brutal? He felt that it was so wronged, even more so than Dou E. She could not stop crying in her heart. She realized that Zhou Hao was getting fiercer and fiercer. Sometimes, she felt a little scared. No one knew that Zhou Hao was now fighting with the heavens, fighting with the stinky frog. Hearing Zhou Hao's words, they couldn't help but tremble, especially the two women, who had goosebumps all over their bodies. Although they had made a mistake, they were not so brutal. "What qualifications do you have, and what ability do you have to make us go to the snake cave!" The man with the flat nose struggled to sit up from the ground. He looked down on Zhou Hao. Not only was he not gentlemanly, but he was also extremely brutal. He was not worthy of being a human. Those who didn't know better would think that he was a ferocious beast, and one that had mutated for countless years. Zhou Hao would definitely use his actions to show these people what right he had to let them enter the snake cave to enjoy themselves. Some people wouldn't even understand a word you said to him. Bang! Bang! Bang! Bang! Bang! Bang! With the sound of punches and the man's screams, everyone couldn't help but shiver, feeling as if the fists were landing on their bodies. They were in so much pain that they couldn't breathe. The two women were so scared that their faces turned pale and they sat on the ground, trembling. The mean-looking woman's face was now raised high, and the slap was very obvious. She had wanted to take revenge before, but now, she just wanted to get out of here alive. When she returned, she would definitely go back to the Charlie family and tell the others that Charlie had colluded with others to kill them. At that time, it would depend on whether the entire Charlie family was willing to hand the family over to the heartless Charlie. His eyes were full of resentment. He hated the three people in front of him! Especially

Chalid, who looked on coldly from the side, without the slightest intention of stepping forward to help. They were childhood sweethearts who had grown up together. However, the one at fault was always someone else, not her. The man was beaten up and lying on the ground, barely breathing. Even if he wanted to use a powerful weapon to attack, Zhou Hao would not give him any chance. How could these people have the opportunity to attack when they were best at it? Since they wanted to die, there was no need to give them any face. "Do I have the right?" When he heard Zhou Hao's voice, it was as if he had heard a demon. They couldn't help but tremble as if they had seen something terrifying. This young man was too scary. He definitely wouldn't take your life. Every punch would make him suffer. He had thought that he would lose his life in the next second, but he had come back to life. That kind of pain was something he could not forget. He could not forget the pain that had seeped deep into his bones. It was worse than death!

## Chapter 763

*Chapter 763: Getting closer*

He had never met such a terrifying person. Even though he was not the true young master of the Chary family, he had been pampered by everyone since he was young. When had she ever suffered such humiliation and hurt? However, he could do nothing after suffering such an injury. As he thought about it, he made up his mind. Since he couldn't get out of here alive, he would make sure these people died with him. His hand reached into a very well-hidden pocket. There were a few ultimate weapons in it. They were originally meant to be used to save lives at critical moments, but he did not expect to use them against this young man in front of him. He was extremely unwilling to give up. The only thought he had now was to kill the three of them in front of him. When he got out, he could say that charade had been killed by the murderers in the mountains. "I advise you not to act rashly. Otherwise, your men will be gone in a second!" Looking at his little actions, Zhou Hao felt that it was a little too tragic to look at. She did it sloppily and still looked very secretive. Since he dared to do it, he was not afraid of the ultimate weapons that he had hidden. He knew very well what he had on him. It was those miniature bombs, which were simply unsightly compared to the ones on charade. The man with the flat nose was shocked. He didn't expect that his movements would be caught clearly by the other party even though he was already very secretive. He could only pretend to be lying on the ground! Now that Zhou Hao was almost done venting his anger, it was time to see how charade would deal with these people. He could tell that charade had already wanted to kill these people, but he had not found the opportunity. "This is your family matter, it has nothing to do with me!" Zhou Hao was very direct when he threw the blame, not even considering the other party's feelings. Previously, when he wanted to go out, no matter which family he was from, even if he was the King

of Heaven, he would still beat him up. And now, he was letting charade handle the matter himself. Charlie's mouth twitched. He thought that someone had helped him to complete the task. He did not expect that he would have to do it himself. It seemed like he was the only one who could save him. He couldn't even make a move even if he wanted to. He had just developed a type of ultrasonic wave that could kill people without them noticing. It was just that he had never tested it before, so it would be good if these people could be his test subjects. He would take it as a repayment for all the wealth he had given them over the years. Every time he went out to do something bad, he would have to report his name. It had caused his reputation to plummet for a period of time, and he had almost been condemned by his family. He had not forgotten about this matter even now. "That's good. From now on, they will be the heroes of the Charlie family, because they were sacrificed in the mengkhala mountains while chasing after thieves!" He had already thought of the cause of death for these people. The few of them looked at Charlie in horror. They never thought that he would be so cruel as to sentence them to death. She had always been by his side, and even if she didn't have any credit, she had worked hard. He was extremely unwilling! Only now did they understand that if they insisted on following them, they would only be courting death. The few of them had already made plans. As long as they entered the mountain range, they would think of ways to get the factory to promise them great benefits in the future. You'll lose a handful of rice if you go for wool and come home shorn! What they lost was not just rice but their lives. "Chalid, you can't do this to me!" A sweet-looking, weak-looking woman knelt on the ground powerlessly, looking at Chalid with tears in her eyes. In the beginning, he had other motives for getting close to charade, but as time passed, he slowly fell in love with this man. She had already forgotten the mission her family had given her. This man's every move, every frown, and every smile could make her dream about him. Every time he smiled at her, he could smile for a few days. She didn't expect that he would be so heartless as to take her life. Charide looked at the woman in front of me and felt a pain in his heart. It flashed past his mind. Those who do great things don't care about the trifles. If you hurt yourself, you hurt yourself. If he was soft-hearted and let this woman go, this matter would be exposed at any time. He would cut the weeds and eliminate the roots, and he would definitely not leave any future trouble. "You can only blame your own bad luck for living in that kind of family!" 'Chalid, you feel sorry for this beautiful woman. They had known each other since they were young, and this woman had always been unhappy. However, it was no longer a reason for her to do all sorts of bad things. The woman sat on the ground helplessly, resigned to her fate. Even if they had powerful weapons, they were no match for charade. Those weapons were invented by Charlie and given to them. "Charlie, I'm your best friend. Don't forget when we were young ..." The one-armed man pulled Charlie with his remaining hand excitedly! He hoped that he could arouse charade's sympathy. The things that these people did not know, every bad thing they did, were clearly recorded in a small notebook by Charlie. When these small things were done too many times, they would slowly become big things. Just like the book of life and death in the king Yama's Palace, it recorded everyone's good and evil deeds every day. Charade threw the small book in his hand at their faces. Even if he was going to die, he wanted them to die in a convincing way. He casually read a page and his heart instantly turned to ashes. He didn't expect that all the evil things they had done would be recorded by this gentle,

refined, and gentle man in front of him. They felt the hair on their bodies stand on end. With all the evil things they had done, even if they died 100 times, it was still reasonable. "Good brother? I've never had any brothers, you're all just using me!" Chalid's eyes were cold, no longer as gentle and refined as before. He had to be an elegant and warm man in front of others. As long as he was human, he had to suppress his emotions. He was tired of taking the blame for these people! In the future, when they disappeared from his world, everything would be better. Other people saw him as the next heir of the Charlie family and had boundless glory for a while, but no one knew how hard his life was as if he was walking on thin ice. These people only knew how to exploit his value. No one had ever truly cared about him. No one had ever asked if he was Dead or Alive when he was on the brink of death. "Brothers, we are brothers. We will live and die together, and we will fight together!" The flat-nosed man, who was lying on the ground, had a pained expression on his face. He felt as if this had broken his heart. He spoke with tears streaming down his face, as if he had suffered a great grievance. Those who did not know would think that he was a heartless man. The others also pleaded for charade to let them go and promised that they would never do those bad things again. They had been blinded by greed.

## Chapter 764

*Chapter 764: Directly capture him and return to luoxing*

No matter how much these people begged for mercy, charade was not a soft-hearted person. Even if he felt a little guilty in his heart, as a person who grew up in a big family, he would definitely not leave behind any future trouble. He could see the crazy revenge in their eyes after the incident. "Alright then, you guys can go back!" Chalid had a helpless expression. The few of them were instantly overjoyed. After all, charade was still a little inexperienced. As long as they begged a few times, he would not hesitate to let them go. After this, they would make sure that charade died a horrible death when they returned. Their eyes were filled with coldness, without a trace of gratitude. They felt that it was only natural for them to do so. The few of them stood up ecstatically and walked back. What they did not know was that Chalid had installed the destructive ultrasonic waves that he had just developed on them. This was a high-end technology that could kill people without leaving a trace. Currently, only the heir of the Charlie family had developed it on this planet, and it had yet to be widely used. The few people in front of them had no idea that they were walking further and further on the road of death. "Three, two, one, down ..." Zhou Hao looked at the people who were leaving and counted in his heart. Others might not have seen what Charles had done, but he had seen it very clearly. Only a person who grew up in a big family would do such a thing. In front of people, they looked like modest gentlemen, but behind the scenes, they could be demons who ate people without spitting out their bones. They didn't even pass

through the cold pond, and all fell into the cold pond. Their eyes were wide open as they looked in Charade's direction, feeling as if they had died with grievances. This wasn't the first time anyone had seen such a scene. This was just an accidental death. Charade used the most advanced camera on him to record the death of these people so that they could report back to their parents and let them know that their children had died in the mouth of the water snake. He even saved the video of them fighting the water snake together. Zhou Hao could not help but admire the meticulous mind of this heir, so that the other families could rest assured. He had convinced everyone with reason and evidence. Otherwise, if they all died suddenly and he was the only one left, it would be difficult to explain to his family, let alone the others. They didn't stay for long. With the frog's hint, the presence of Tuo Si Li Tan appeared again, and it was not far from them. He didn't expect this thief God to be so bold to find such a place to take refuge. Even if those big families could find this place, they would be powerless. Even if he had to deal with these mutated wild beasts, he would definitely die. He didn't know how he had easily arrived at this place. Fortunately, he didn't enter the depths of the mountain range. Perhaps it was because they were afraid that there was an even more powerful existence inside. Originally, there were two teams. After the four of them died, Charade naturally joined Zhou Hao's team of two. Now, they were two? He finally realized that all of them had the same target. However, they wanted their family heirlooms, while Zhou Hao wanted to bring this person back to the Mission Pavilion. He had seen a lot during this trip and had grown very quickly. He felt that it wouldn't be long before his strength reached the next level. "Toslytan is just up ahead, eating with great relish!" Even a frog wouldn't have the risk of getting lost in such a huge forest. With his precise guidance, he soon found a very thin man sitting by a fire eating barbecue. He didn't seem to have any appetite, and the barbecue was as black as charcoal. He didn't know how good his appetite was to be able to eat with such relish. "Hello, do you want to invite us to join you?" The three of them were now standing in three different directions, blocking all his escape routes. Moreover, the moment they met again, Charade had locked onto Toslytan with the ultrasonic waves in his hand, so no matter how far he ran, he would be able to quickly locate him. This was the cutting-edge technology that he had thought about for a long time. No one could do anything against this thief God unless they didn't meet him. Even if he had the ability to escape now, he would find out no matter where he ran to. Toslytan looked at the few people who had suddenly appeared. He knew Charlie, and he also had some impression of George. However, he had no impression of Zhou Hao, who was extremely mysterious and a great threat to him. He didn't know when another young talent had appeared, but he was actually able to chase him all the way here. "Alright, let's eat together. I'm just afraid you guys won't dare to eat it!" Toslytan had seen all kinds of storms, and he didn't care about these young boys. It was only a matter of time before he escaped. He suddenly had an idea to play with these three young people. Even the most powerful people in the universe couldn't catch him. The three young men dared to stand in front of him. They sat in three different directions. As long as he made the slightest move, he would be taken down immediately. He looked around, and after determining the escape route, the author continued to eat the meat in his hand, which was already very burnt. "Don't eat meat naked, drink some wine!" Zhou Hao had somehow appeared beside him and easily grabbed his hand. He was shocked. When did a person appear beside him? This was the biggest taboo. His hand falling into

someone else's hand was the same as handing it over to the other party. Even if he wanted to escape now, he had no way. Love-hate had been too careless. However, it would be easy for him to escape. "You've been keeping the treasures of the Charlie family for us for some time. Now, it's time to return them to the Zhao in one piece!" Seeing him fall into Zhou Hao's hands, Charlie did not hold back. It directly stated the purpose of coming here again. On the other hand, it also showed that they didn't want his life and only wanted to take back the treasure in their family. Toslytan was also a person who knew how to adapt to the situation. He quickly took out the treasure of the Charlie family and returned it to George. "Then why are you doing this? I've never seen you before!" He looked at Zhou Hao, who was holding him in his hand, with a blank face. He felt as if he was tightly locked by something, and even if he wanted to escape, he couldn't break free. "I have no choice. I accepted the mission from the Luo Xing mission Pavilion. You know that you're already on the list!" Although Zhou Hao said this helplessly, he did not show any mercy. After trying a few times, he was sure that he could not escape from Zhou Hao. After settling everyone else's matters, Zhou Hao took out the Luo divine boat and brought him back to the star Mission Pavilion to prove that he had completed the mission.

## Chapter 765

*Chapter 765: Never seen such a pervert*

When he saw the divine river boat in Zhou Hao's hands, Tung Si Altar's eyes lit up. He had never seen such a Grand object before. Even though he had stolen everything on these planets, he had never seen a fighter jet like the one in Zhou Hao's hand. Just thinking about it made him feel very excited. He had even planned to take the divine river boat with him when he escaped. His eyes kept turning, and others could tell at a glance that he was definitely up to something. "Zhou Hao, thank you. This is my reward for you!" Chalid was the heir to a large family and was not a petty person. He had given Zhou Hao a few of the ultimate weapons that he had upgraded. Among them were destructive ultrasonic waves, as well as the ultrasonic waves that could amputate all the corpses. Zhou Hao felt that if it was something else, he would not have wanted it. However, the thing that the other party had offered was too tempting. The thing that he had just wanted had actually taken the initiative to deliver itself to him. When I'm sleepy, I meet a pillow! This was such a good thing! He broke into a smile and felt that his luck had always been good. "Thank you very much. The mountains will never change, and the rivers will flow forever. We'll meet again!" Zhou Hao wanted to quickly finish this matter and then go to other places to take a look. The great civilizations on these planets made him forget about returning, so he could only slowly become stronger and

send these high-tech things back. Only then could they possibly save the entire Earth Star. After the few of them said their goodbyes, Zhou Hao and George returned to Luo Xing together. On their way here, they were delayed by the storm. "I've already returned the treasure to you. Do you want to consider letting me out for some fresh air?"

"Besides, I'm flying in space, I can't run away!" Toslytan looked at George speechlessly. He had never seen such a brainless person before. He would do whatever Zhou Hao asked him to do. Did he even have his own thoughts? George didn't care what he said. He had heard a lot about this thief's skills. He had the ability to escape when he found an opportunity in a fish pond. He had been caught once before, but he had been caught in a storm and escaped with some unknown ability. Therefore, he would definitely not be careless this time. He would just stay in the cabin and wait for the judgment of the royal family. He could not let such a person out to harm others. "Did you not hear what I said?" "Those who don't know would think that he's dead. He hasn't said a word!" He had been traveling in the universe for more than ten days, but no one had spoken to him. Zhou Hao was busy with something and did not show up. George, on the other hand, was like a Living Dead man who did not say a word, which almost suffocated him. Previously, no one could bear it in the great mountain Forest. After all, there was no one alive around him, only those mutated beasts. But at least they could come and go freely and steal the treasures. Stealing other people's things was his life's pleasure. He didn't have much desire for these treasures either. Otherwise, these things wouldn't have existed for such a long time. "He won't care about you. If you want to come out, it's fine. But just leave your escape to us!" She did not know when Zhou Hao had arrived. The smile on his face looked sneaky, and one could tell that he was a bad person at first glance. Instantly, a strange expression appeared on Toslitan's face, as if he was saying, "believe my a \* s, you're a bad old man." If not for Zhou Hao, he would not have fallen into the hands of others so easily. No one had locked it up for so many years. No one would casually approach him and hold him in their hands. Every time they thought of this, they couldn't help but feel frightened. He did not know Zhou Hao's background, but he was able to give him a full sense of threat. It was as if he had an endless amount of power, and his explosive power made him feel like there was no hope in life. "How is this possible? this is my self-defense technique!" Toslitan couldn't help but feel proud at the mention of his ability to escape. As long as he wanted to escape, no one could catch up to him. Even if he encountered a destructive storm, he would have a way to escape. Now, he was praying for a cosmic storm to make the two of them neglect his management, so that he would have a chance to escape. It was as if the heavens were not on his side this time. The journey was calm and peaceful, and there were no accidents even after they had covered half the distance. "Then just stay inside. You don't know how to live a good life!" Zhou Hao took the food and shared it with George. The two of them ate with great relish outside, leaving Toslitan, who was sitting inside, in despair. He had never seen such a torturous person before. He was really a pervert. He was simply infuriated to death! "You're not my disciple, so why would I teach you? this kind of ultimate skill can only be taught to disciples!" Thilitan found a good reason. He was not a brainless person. If Zhou Hao became his disciple, everything would be fine. He would be free to go wherever he wanted. If he had a powerful disciple, he would definitely have many benefits. "You're not qualified to be my master yet. If you're teaching me, I'll reluctantly learn it!" Zhou Hao said arrogantly, 10 points was

speechless. Even George, who was listening at the side, was tempted. As long as he could learn this technique, he could do anything in the world. Unfortunately, the other party didn't take a fancy to him. His eyes were full of disdain, as if he was looking at a person without ability. However, it was normal when he thought about it. Who asked so many of them to be unable to do anything to tuo Si Li Tan, and then fall into Zhou Hao's hands? Hearing Zhou Hao's words, tuo Si Li Tan's eyes widened in disbelief. No one had ever dared to speak to him like this, to actually say that he had no right to be Zhou Hao's master. How proud must he be to say such words? "Little brat, quickly let me out!" "I can teach you if I'm in a good mood!" Toslitan looked at Zhou Hao arrogantly, feeling as if he was teaching techniques was an incredible thing. However, Zhou Hao didn't give him any face. If he wanted to leave, he could be like tuo Si Li Tan, coming and going without a trace. Even these people couldn't catch him. If he wanted to capture him, it would be easy. Now that he had fallen into his hands, he could not die if he was asked to live. If he was asked to die, he definitely could not live for another moment. What's there to be angry about? with the frog in my hand, I will walk the world. "Tsk, do I need you to teach me? I still caught your lousy skills!" Zhou Hao didn't want to waste any more time talking to him. In the hands of others, he was very powerful, and he could run very well.

## Chapter 766

### *Chapter 766: Failed to escape*

Zhou Hao's attitude almost angered him to death. He refused to accept the fact that others were begging him to teach them. I didn't expect that these Little Rascals would be so ungrateful! "This old man is so angry!" He glared at Zhou Hao and felt that he had never seen such an ungrateful brat. He still found George, who was sitting at the side, pleasing to the eye. Not only did they look similar, but their temper was also much gentler than Zhou Hao's. At the very least, they looked down on his skills. Even if he hated Zhou Hao to death, he would not dare to provoke him. Now that his life was in the hands of others, even if he was not afraid, he still had to talk to Zhou Hao nicely. "Don't be so angry. I'm going to take you back to collect your bounty!" Zhou Hao looked sternly at the infuriated toslitan. Now, toslitan felt like he had met the most difficult person to deal with in his life. Not only was he extremely powerful, but even his words could anger him to death. If he was still outside, he would have thrown away all of Zhou Hao's treasures. This was the only way he could resolve the hatred in his heart. "If you have the ability, let me out. If you catch me again, I will definitely go back with you!" He felt that it was a coincidence that he had been captured. These people had appeared in his field of vision unexpectedly. He didn't know why, but his thoughts had become very slow

at that time. He only reacted when Zhou Hao was right beside him and grabbed him! The more he thought about it, the more he felt that something was wrong. He must have fallen into the trap of these little brats. "Open this door. I want to see what ability he has to fly!" Zhou Hao didn't say much to him. He just wanted to see how he escaped. This kind of person wouldn't shed tears until he saw the coffin. When you asked him to talk nicely, he would refuse and give you all kinds of reasons. George and Toslytan's eyes were wide open, and they looked at the serious Zhou Hao in front of them. Were they hearing things? They had been on guard before, afraid that he would escape, but now they actually took the initiative to open the door to let him out. He thought that he was so angry that he was hallucinating! "Say that again!" Even Toslitan's voice was trembling. He had a feeling that if he didn't escape this time, he wouldn't have another chance. As long as he was sent to Luo Xing for the mission, he would never step out again. Because he no longer had the chance! Zhou Hao turned around and walked away. He did not want to talk to the two of them. It was as if his ears were not working. He had already made it very clear, but he still had to question it. Then, he would just let the two of them stare at each other. "Did you hear that? let me out, quickly ..." Toslitan acted like he was in a hurry, and his loud voice reached Zhou Hao's ears. For a thief God, freedom was the most important thing. Half a month's time had almost worn out his patience. He could survive without food and water, but he couldn't stand the lack of freedom. "I didn't hear what he said just now. Say it again. My ears haven't been working well recently!" George learned it slowly from Zhou Hao. Besides, no matter how mild-tempered he was, he was still a child who grew up in a big family. How could he not have any schemes at all? It was just that Zhou Hao had blocked off the light that he should have, and Tuo Si Tan suddenly realized that Zhou Hao wasn't the only bad person. Even this little brat in front of him was a bad person. Sure enough, birds of a feather flock together. Two people who could get along were Birds of a Feather. He was so angry. One agreed, but the other didn't let him out. It was simply torture. It tickled his heart, and he wanted to run out and beat George up right now, but his hand could not reach George's side no matter how hard he tried. He was so angry that he was running in circles inside, stomping his feet and cursing. These two bad guys were worse than the last, giving him unprecedented pressure. If he stayed with Zhou Hao and George for a long time, his heart would definitely act up. One moment in heaven, the other in hell, he felt the peak of happiness and the lowest point. He was very unhappy, but there was nothing he could do. "Little guy, let me out. Maybe I'll teach you some skills when I'm happy!" "You can't imagine the speed at which I'm running away!" Tuo Si Li Tan felt that he could not use force. This seemingly gentle kid in front of him was actually a ruthless character. Only soft martial arts would work! "Didn't you look down on me before? Why do I have to care about your life?" George still remembered how the thief God had looked down on him. Now that he had the opportunity, he had to punish him. He had to let him know that he shouldn't easily look down on others. Even an unremarkable character could make him fail in an easy task. Since Zhou Hao had let him out, he must have had a plan in mind. 'As long as you follow him and don't let him escape, it'll be fine. This time, you, Zhou Hao, have made a great contribution to the George family.' It wasn't because of Zhou Hao's help. Not to mention finding the thief, even after entering the mountain, they would have been eaten by the mutated beasts. Zhou Hao was like a friend to him, but also like a teacher. This feeling made him very comfortable. Although

she was usually a little fierce, she always rushed to the front line when there was danger. The two of them would even sit together and eat delicious food, watching others fight bloody battles. These memories were the most precious in his life. He had also heard Zhou Hao's words. Before he turned around, he silently unlocked the door. George knew that even if he didn't open the door, he would still be able to escape. Even tungsletan had the ability to come out. However, he had been guarding the place day and night, afraid that Zhou Hao would give him a good beating again. That was why he did not dare to come out. He had been beaten up by Zhou Hao because he had tried to run away. He had learned that there were such fierce people in the world. Since then, he had never stepped out of the door again. Now that Zhou Hao had taken the initiative to let him out, he was overjoyed. As he got closer and closer to Luo Xing, he became more and more anxious. After leaving, he finally found a chance to slip away. Before this, he wanted to test out George and Zhou Hao's extraordinary abilities. Now, he finally knew that they were not people he could provoke. However, it was too late when he realized it. His favorite trick was to let others catch him on purpose and then escape in front of them. This feeling was the most exciting. It felt great to see someone who hated me but couldn't get rid of me. He had only pursued excitement in his life, which was why he had stolen everywhere. If he offended the people on these planets, they would hunt him down. Speaking of which, he had not done anything unforgivable. He had not even committed murder or arson. The only thing he liked to do was steal.

## Chapter 767

*Chapter 767: Can't you speak like a human*

However, a wanted order had been issued during the emergency treatment, so he had to hide all day long. This was because he had made a bet with someone to seek excitement and stole a Royal item. He didn't expect that person to trick him into stealing it and embezzling it alone. Even if he wanted to return it, he wouldn't have the chance! Every time he thought of this, it was hard for him to clench his teeth. From then on, he fell in love with this kind of exciting life. After repeated experiences, he was able to enter and exit freely, just like those things guarded by cutting-edge technology. He also had a great disguising technique. No one would be able to recognize him as long as he was in his hands, so no one could do anything to him. In fact, even he himself had already forgotten what he looked like. Every time he was alone, he would change his face a little. As time passed, he seemed to have changed into another person. The only thing that could describe the feeling on his face was his nose. He didn't move much in this place! "Let me out, don't regret it, little guys!" Tositan was as happy as a wild horse. He was originally like a free-flying Eagle, but he did not expect that someone would pull on his wings and lock him up in a cage for half a month. He felt like he was about to collapse. "Zhou Hao, you have your own plans. I didn't want to ask about it, but I don't

know why you let it out." George had never been a talkative person. This time, he was very puzzled, so he asked so easily. Zhou Hao smiled slightly. He must have his own plans for this matter. He wanted to see what kind of method the famous thief God would use to escape. How fast was he when he was running? He was sure that he didn't have any other accomplices. If he did, they would have come to pick him up a long time ago, so he was very curious about what made him so capable. "You'll know in a while. He can go his own way. We'll just ignore him!" Zhou Hao's words almost scared George to death. It had not been easy to cross a few planets to catch this wanted criminal, and now Zhou Hao was deliberately letting him go. When he went again, he almost died in the storm. He still hadn't forgotten the fear. However, he had already achieved his goal. The only thing he had not completed was the mission. It was understandable that Zhou Hao wanted to let him go. "Actually, even though he is a godly thief, he has never done anything outrageous. He has never embezzled the treasures of your big families." "He didn't spend it just because I comprehended it. Didn't you notice that his life was still very simple? even if he had countless treasures around him, he didn't have any ideas about them!" ..... Zhou Hao explained everything he had observed to George. It was not that he was a kind person, but that was the truth. This kind of godly thief was much better than those unpardonable people. He only stole some treasures, while others directly took their lives. It was easy to tell which was more important. George had actually thought about this problem before. Those people who hated those who dragged slytan to the point of gritting their teeth were all because they had lost their treasures. There was also one person who couldn't find a reason to take revenge after making a difference, so whether he was a good person or a bad person, it was the same stealing to toslitan. Tuoslitan walked behind the two of them while rubbing his hands and feet. He happened to hear them talking about him, but he didn't expect their analysis to be so accurate. He didn't really like the treasures and money, but he liked the thrill of stealing. He didn't expect that after a long time, his reputation would be ruined by these people. In the beginning, he still helped the poor people. Later on, some people were too greedy and needed more money to let him go. In a fit of anger, they didn't care about the lives of those greedy people, which was why they said that they had dragged silitan to steal their treasures. He did have a treasure map on him, but he had obtained it many years ago. A farmer had seen it and insisted that it was his after failing to ask for it. Later on, for some unknown reason, he became the top of the Luo Xing mission Pavilion. Since things had already come to this, he might as well make this reputation a reality. He recalled the past. In the short few decades of his life, he had experienced too many hardships. Sometimes, he felt both mentally and physically exhausted. "Let him go, don't bother about him!" After receiving the notification from the frog, Zhou Hao said this on purpose. Zhou Hao had never mentioned the treasure map because he wanted him to hand it over willingly. Toslitan was also a genius, or else he would not have been able to escape from so many people and still be alive. The two of them chatted slowly. In the dark, toslitan stood there in a daze. He felt that even if he escaped now, there was not much point. Even if he used to think that stealing was a happy thing, he no longer felt that way. Why not just live a peaceful life like this? his mother was in a prison in the universe. He was willing to be sent in. These people only knew that he had stolen the technique, but no one knew how hard it had been for him. Every time he arrived at a new environment, he would be on tenterhooks, afraid that he would lose his life if he

was not careful. Slowly, he became a loner. There were many people who came to him, wanting to work together, but they just wanted to use him. No matter who it was, no one agreed. "If you let him go, what about your mission in the mission Pavilion?" George knew that as long as he accepted the mission, he had to do it. If he failed, he would have to pay double the compensation. This mission was very difficult, so no one had tried it. Fortunately, the reward for this mission was not high. After one failed, no one took it, even though it was an impossible mission. He might as well do other quests to earn some money. Not only would he fail to complete this quest, but he would also have to pay a sum of money. This made him feel extremely speechless. "What are you afraid of? the compensation isn't much. Besides, the mission Pavilion has already canceled the compensation for this mission!" Zhou Hao was lying through his teeth with a straight face. In fact, it was just that he had put a tracker on him. No matter where he ran to, he would be able to catch him. She knew that he was standing right behind them, and she was saying this for him to hear. He had to make him run away willingly and not be like those people before him, who had to let him escape in the end. She just wanted to see where he had kept the treasure map. That was what he was most concerned about.

## Chapter 768 - I believe in your abilities

*Chapter 768: I believe in your abilities*

He wasn't looking at those treasures, but he wanted to gain some experience and quickly improve his strength. Because he felt that someone needed to guard the Earth's core, he had been wandering outside for a long time. He didn't even know what the situation was with those red packets. When the void beasts first attacked the Earth's core, all the experts were almost wiped out. "Alright, I won't monitor him anymore!" George thought that since Zhou Hao had his own plans, there was no need to intervene. He did not have any deep enmity with toslitan. He just wanted to take back his clan's treasure, and now that he had gotten his wish, he would show mercy whenever possible. George didn't know that toslitan was standing not far away from the two of them and eavesdropping on their conversation. He spoke his true thoughts. "Do you have wine? give this old man a cup!" Toslitan felt that he didn't want to run anymore. These two people weren't the kind of evil people who were blinded by fame and fortune. Those people who wanted to capture him before were only trying to get rich rewards from those big families and to gain a high reputation. That's why he ran away in front of those people. Zhou Hao was a little surprised. He thought that he would take advantage of the dark and windy night to go into hiding. He did not expect him to take the initiative to stand up. He even took the initiative to ask for a drink. It seemed like he had already given up on the idea of being a thief. A thief had to keep a clear head no matter when and where he was, in case he was harmed by those people. She didn't know if he felt that the two young people couldn't do anything to him, or if he had really

let go of his previous life. No matter what, he wouldn't change his original intention. The only reason he had completed this mission was because of the treasure map on toslitan's body. Now that the mission was already half completed, he scanned his body from head to toe and did not find anything on him. This was the answer the frog gave Zhou Hao! Zhou Hao wasn't surprised to get this answer. A true master would never easily carry such an important thing with him. He would find an absolutely safe place to store it and only take it out when he needed it. Even if he were to die, no one would be able to get it. "Yes, do you want to drink?" Zhou Hao looked at the man in front of him teasingly. He thought that this man who was almost 50 years old was quite cute. He actually dared to come back, walking right into the trap! You gave him a chance but he didn't run away. You don't know what he is. "Aren't you afraid that I'll bring you back to the mission Pavilion?" Zhou Hao was very curious, was this toslitan no longer afraid of being restricted? He didn't run away when he had the chance, but came to ask for wine. In the past, if he had this awareness, he would definitely not have been wanted by so many planets. The only place he had a good life was where he did not have the opportunity to go. There was a look of relief in toslitan's eyes. Even if he fled to the ends of the earth, he believed that this young man would definitely be able to capture him again. At that time, it would be a waste of energy and effort, but they would just stay where they were and have wine and meat to eat. He had never gotten along so harmoniously with anyone else before. Most of the time, it was just mutual deception and exploitation. Pure friendships like Zhou Hao and George were rare. He Cheng had never pursued such a life. "I'm not escaping. Even if I escape, I can't escape. Why don't you do me a favor and just don't send me in?" Toslitan felt that Zhou Hao was a little awkward. He was very enthusiastic! Otherwise, he wouldn't have said those words just now. Every sentence hit his heart. If it was in the past, even if he knew that he couldn't escape, he would still try his best to escape. While he worked hard, he also didn't let others have an easy time. Sometimes, they were lucky enough to escape. It had happened several times. "Why don't I send you in? with your ability, you'll be out soon!" Zhou Hao was spouting nonsense with a straight face. Who would believe such words? Toslitan's eyes were wide open, and he couldn't stop cursing in his heart. Holy shit! F \* ck! 'F \* ck ...' What kind of words were these? he actually took him to receive his bounty and then asked him to come out without relying on his abilities. Is this F \* cking human language? Who would believe that? In his heart, he was cursing and complaining. He felt that Zhou Hao was a black-hearted man who would not let him have an easy time. "I'm telling the truth. I believe in your ability!" Zhou Hao looked at the toslitan in front of him with a serious expression. As long as he wanted to go to a place and live in a place, there was no place that could keep him. Unless it was to prevent slytan himself from coming out, then that was another matter. "Besides, there's good food and drinks inside. With your ability, you'll definitely be able to make it in!" Zhou Hao was not exaggerating at all. He had personally witnessed toslitan's abilities. If he didn't have the strength of a frog, he really wouldn't be able to do anything to him. Just his ability to appear and disappear like a ghost made many people shrink back. "Tsk ... You're really a good friend. You're really considerate of me. You know that I've been living in the wild for so many years, so let me go to a good place to enjoy my life!" Toslitan rolled his eyes helplessly. In the past, those people had always been on guard against him. This time, even if Zhou Hao let him escape, he would not have the courage to do so. He couldn't

help but curse in his heart. She didn't know if it was because she had grown older, but she had become even more timid. In the face of two young boys, he actually did not have the ability to brave the world like before. "George almost laughed out loud. I didn't expect Zhou Hao to have such an idea!" "The most important thing is that once you're in the mission Pavilion's spatial prison, it's impossible to come out. No matter how powerful you are, unless you can turn into a fly!" It seemed that Zhou Hao had the upper hand in the battle of wits and courage. "Come and drink, I won't fall if the snowflakes don't fall, I won't fall if Qingdao doesn't fall!" Toslitan had also been a wine lover before. However, after he became a thief, he didn't dare to drink anymore, for fear that he would wake up in prison after getting drunk. Zhou Hao immediately asked the robot to send a bottle of good wine over, so that he could get toslitan drunk. He had never enjoyed a normal life. The three of them were originally unrelated, but because of the mysterious fate, they were now sitting together drinking wine and eating all kinds of delicious food. These were all the local specialties that Zhou Hao brought up from Earth Star. Looking at the two of them eating with relish, they couldn't help but feel heartache. These were all bought with money, and after he finished them all at once, he wouldn't have any to eat. Just thinking about it was as painful as cutting his flesh! "Are you not feeling well? then don't drink anymore. I'll drink for you. If you don't eat it, give it to me!" Toslitan felt that the new food and wine were more delicious than ever. Seeing Zhou Hao's expression, he immediately assumed that he was sick and uncomfortable.

## **- Chapter 769 - -getting drunk**

### **Chapter 769 - -getting drunk**

*Chapter 769:-getting drunk*

George almost laughed like a pig. Looking at Zhou Hao's heartbroken expression, he knew that these were Zhou Hao's favorite foods after spending some time with him. It was just that toslitan ate too much, so Zhou Hao looked on with a pained expression. He didn't know better and instead thought that other people would look uncomfortable because they were uncomfortable. She really didn't know how he had lived for decades. However, looking at the battle of wits and courage between the two, Zhou Hao always had the upper hand. This was also a kind of pleasure. It was impossible for such a situation to happen in their family. Enemies were enemies, and it was impossible to get along like this. The main reason was that Zhou Hao and toslitan didn't have any deep grudges, so they could sit down and chat calmly. "Who told you I can't eat it? give it back to me!" Zhou Hao immediately snatched it from his hands. She had already eaten,

and she didn't even think that it was disgusting. How could two grown men be like this? "True love is the same gender!" The frog could feel Zhou Hao's constant complaints in his heart, so it explained it to him. When Zhou Hao heard this, he almost wanted to pull him out and strangle him to death. How dare he say such words? he was simply courting death. The two grown men were already disgusted, and one of them could even be a father. They actually snatched all the food in their hands and stuffed it into their mouths without any disdain. "Get lost, saying such words!" Zhou Hao mercilessly told the frog to get lost. This stinky frog's temper was getting weirder and weirder as time went on. The words he said were simply unbelievable. She wanted to strangle him to death and walk the path in the future, and she even wanted him to slowly accompany her. "You're so angry even when you're telling the truth!" The frog was helpless. He had only said what was on his mind, but he did not expect to suffer such a ruthless blow. She realized that Zhou Hao was becoming more and more indifferent and unromantic, just like those stinky men. "Why are you in a daze? I've only eaten a mouthful of your food, yet my heart aches so much!" "You should know that I'm the one who's at a disadvantage. I'll soon be sent to the prison of the universe by you!" Toslitan was already half-drunk and half-awake, and he looked at the two young men in front of him with hazy eyes. It was as if he had returned to his youth, where he would get drunk every day with a group of scoundrels. In the end, he would achieve nothing, but he would inadvertently learn the skill of stealing. This scene had been deeply engraved in his mind countless times after he had woken up from his dreams. He also remembered the person who had betrayed him clearly. "You have to remember that you betrayed me once. Our friendship is over from now on!" Toslitan's mouth kept saying all sorts of things that Zhou Hao and the other man could not understand. After a long time, he realized that they were probably talking about the things he had experienced when he was young. The two of them rolled their eyes helplessly. He was the one who said he wanted to drink, and he was also the first one to get drunk in the end. It must have been a long time since he touched wine. He would get drunk quickly if he drank a little. "You betrayed me for that little bit of profit. Don't touch these treasures. They're all temporarily with us!" He spoke of many things from the past intermittently. These words had been hidden in his heart and had never been spoken to anyone for decades. The two of them looked at each other as they listened. They had stolen someone else's things, but shamelessly said that they were only storing them. However, the most admirable thing was that although he didn't touch those things easily, he didn't sell them for money by unscrupulous means like others. No wonder the George family's heirloom was still in his possession after so long. As expected, she was used to carrying such precious treasures with her. No matter where she went, she was covered in jewels and pearls. His food and clothes were very ordinary, which made many people very confused. He had so much wealth, but he ate like an ordinary person. Others thought that he was just a miser who was unwilling to use the money he had. In fact, he just knew that these things didn't belong to him. Even if these people didn't come earlier, he would return them personally one day. He just wanted to experience the thrill of stealing, and didn't really want to embezzle these treasures. From their intermittent conversation, he found out that he had been betrayed by his friends and family when he was young. The most serious time was when he had been arrested. The main reason was that he had obtained an unknown map. Those people made him think that the map

was obtained by chance and did not want to share it with these people. In addition, he had obtained a very magical piece of jewelry. He didn't allow those people to exchange it for money, so he had joined forces with those big families to catch him. For so many years, his reputation had been ruined by these people. However, thinking about how many years had passed, none of those people who had framed him had a good ending. "You will be punished by the heavens for doing this!" Toslitan lay on the ground, his heart in his mouth. He hadn't felt drunk for many years. This time, the shrewdness filled all his nerves, like a person going crazy again before death. If he went to prison this time, he might not be able to come out for the rest of his life. He was going to go completely crazy for once. Zhou Hao and the other man were to his liking, at least not like those other people. He laughed, cried, went crazy, and then jolted, making the two of them speechless. "If you're drunk, go back and rest. You can leave even if you want to!" Zhou Hao looked at the man who was crying like a child. He thought of how this person had been homeless and miserable all his life, never living a normal life. Even if he wanted to leave, he didn't want to catch him. Not to mention now, even before, he just wanted to see the demeanor of the number one godly thief. "I'm tired. I don't want to live a homeless life anymore. I'll live a good life in prison!" Toslitan lay on the ground, his heart in pain as he looked at the stars flashing in the universe. It was like a dream. He felt that everything was a little unreal. He had always pursued an ordinary and real life. He did not expect that God would play such a big joke on him. In the end, he had to spend his stable life in prison. In an instant, he felt as if he had aged ten years and was no longer as energetic as before. "Up to you, this is your choice!" Zhou Hao didn't want to persuade him to do anything. He just followed his heart and slowly walked down the path. Everyone was a kind person, but with the vicissitudes of life, they had slowly become greedy. At the beginning of life, people were good by nature. Not everyone was born to be a vicious and evil person.

## Chapter 770 - The whereabouts of the map

*Chapter 770: The whereabouts of the map*

The two of them stayed by his side silently, as if they had seen all the heartache and bitterness in his life. Everyone seemed to be on cloud nine, but they had actually gone through a lot of hardships. Previously, he had thought that the Toth girl group was an unpardonable group of evil people, and that every person who did all kinds of bad things was someone who had been hurt by others, so they had formed a self-protection function. It was obvious that even if toslytan had been betrayed by others, he would not choose to be someone he hated before. "All the bitterness and pain in a person's life can not be suddenly erased. Choosing to be a positive person is your own choice," Zhou Hao said as he looked at the toslitan in front of him. He wasn't a Saint who repaid evil with good! "You guys are really despicable and shameless. Even if I lose it, I won't

give it to you!" Toslitan was dead drunk and talked about many unknown past events. For many years, he had suffered this loneliness and suffering alone. He did not expect that he would be able to vent it out by the side of two strange young people. He had lived like a beast for many years. "Do you two know? That map is actually a treasure map. I won't let them have it!" Toslitan suddenly sat up and pulled Zhou Hao and George over. It was as if he had seen a close friend of many years. Zhou Hao's eyes darkened. He had finally said this. It seemed that this matter had a great impact on him. He had not found anyone to talk to for a long time. He was determined to get the treasure map. Even if he couldn't complete the quest, he had to get it. Right now, he urgently needed to train. There must be a lot of danger in a place like that where treasures were hidden. George looked at the toslitan in front of him in a daze, thinking that he had been talking drunk. How could a drunk person believe everything he said? Even if there was a real treasure map, he would not be moved. There were many things that could not be forced even if one wanted to. "If you have the treasure map, why are you still so poor?" George obviously didn't believe him. Zhou Hao sometimes had to admire George for being his godly assistant. If he said it, it would be very suspicious, and George would not be too guarded against it. He was less guarded against George, and he did not know if it was because his character was slowly deteriorating. Toslytan could feel George's disdainful tone, and he was very displeased. Coupled with the stimulation of alcohol, he felt that if he didn't let these two people know about the treasure map, he would be in trouble. She still thought that he was a liar, so she had to prove that it was true no matter what. "Hmph, you brat, you actually dare to doubt me like this!" "I have to prove to the two of you that I really have a treasure map. It's just that it's too dangerous inside, so I haven't been able to go in!" Toslytan stroked his small beard. He looked at George with anger. The two brats were looking at him with suspicion, and he couldn't stand it. Zhou Hao almost laughed out loud. It was really an unintentional turn of events. He could get whatever he wanted. "I find that your stinky brat is getting more and more Black-bellied. If you don't say it directly, you'll use this method to get all the words out of his heart!" "It seems that I must be more careful in the future!" The frog's teasing voice sounded. This was because he realized that if one day he was betrayed by Zhou Hao, he wouldn't even know, just like how he was stupidly dragging silitan into a trap set up by someone else. Humans were indeed complicated creatures. They could treat you well with all their heart, but they could also scheme without any scruples. Just like the previous conversation between George and Zhou Hao, it was actually meant for toslitan to hear. Perhaps George did not mean it, but Zhou Hao had deliberately planned it. This was because toslitan had something that Zhou Hao wanted, and only through this method could he get Zhou Hao to give it to him willingly. This was also considered the gentlest method, even if it was a little bit of use, at least it would not be like those people who would kill endlessly for gains. Zhou Hao had never been an evil person, but he was not a kind person who could not tell right from wrong. He was able to distinguish right from wrong in the face of great things. He would definitely do his best to help his friends and family. Otherwise, he wouldn't have risked his life to come to various planets in search of greater power. Now, his hometown was being massacred by various creatures. "I don't believe it!" George had also drunk a lot and was a little tipsy. He and toslitan were chiming in. "You don't believe me? Then I'll go and show you!" "Oh, not now, because I'm about to be sent to the universe

prison!” As he stood up shakily and was about to leave, he suddenly thought of this crucial question. A person who was about to go to prison would never be free. He would probably spend the rest of his life in prison. Sometimes, when he thought about it, this kind of peaceful life was also a kind of happiness. Zhou Hao almost cursed out loud. They had agreed to go together to retrieve the treasure map, but he suddenly went back on his word. How could there be such a fickle and shameless person in this world? it seemed that she had to negotiate with him. His greatest desire was freedom and no restrictions. “It’s still early. Don’t you still have many chances to leave? you can leave now!” George looked at the man in front of him, puzzled. Zhou Hao had told him to leave, but he had been drinking and eating here. Now, he was saying that he was going to be sent to prison. No one would force him. No matter how he thought about it, he felt a little confused. Most importantly, George was almost drunk, and he was talking non-stop with toslitan. Zhou Hao was regretting his decision to bring out such a high alcohol content. Previously, he had wanted to take the opportunity to get the secret of the treasure map from toslitan, but he did not expect George to be as drunk as him. He had even wasted so much of his fine wine and delicious food. However, he finally got some good news. “Stinky brat, I couldn’t tell that you’re more scheming than Lotus slices!” George lay on the ground drunk, feeling the world spinning. Zhou Hao was surprised that the person who was so drunk just a moment ago had suddenly woken up. From what he said, he could tell that he was not drunk at all. He must have pretended to be drunk to test me. Fortunately, I didn’t ask George about the whereabouts of the treasure map. Toslitan’s eyes were clear, and there was no sign of drunkenness on his body. “What kind of conditions do you want?” Zhou Hao felt that it was much easier to communicate with a normal person than a crazy alcoholic. Previously, he was the only one talking about his past. Now, he finally knew that when he started to talk about conditions, he sobered up quickly and got drunk quickly.

## Chapter 771 - Discussing the conditions

*Chapter 771: Discussing the conditions*

When toslitan saw that Zhou Hao did not seem surprised at all, he knew that this young man was not as simple as he seemed. It was just like how he had been talking so much before, but now he suddenly woke up. “I want freedom, I don’t want to go to jail!” “I also want to live a normal life. I don’t want to live a life of hiding here and there anymore!” You were once an ordinary person in toslitan. The more capable a person was, the more envious they would be, and the more desperate they would be. He had also seen the prosperity and coldness of the human world. His heart had already turned cold towards all of this. He was no longer that innocent young man. I hope you’ll come back many years later and still be that young man. It was impossible for everyone to have the same mentality as before after going through so much. Even if they looked as young as

before, their hearts were already riddled with holes. They no longer believed in everyone naively like before. Zhou Hao was not surprised by this request. If a person did not want their most basic freedom, they would not want to live in this world. The most important thing for humans was to be able to live freely in this world. If not for the so-called freedom, he would not have been able to risk his life every day to improve his strength. "I can promise you that, but you have to listen to my arrangements!" Zhou Hao said after thinking for a while. He didn't ask for much when he felt that this matter was feasible. He just wanted a little freedom, so he would satisfy him. He wasn't an unpardonable person to begin with. If he was the kind of person who did all kinds of bad things, he would never give him the opportunity to hurt others. Toslitan looked at Zhou Hao in surprise. His intuition told him that Zhou Hao would definitely fulfill his promise, which was why he had made this request. Zhou Hao gave him a very mysterious and powerful feeling. If he was not wrong, he must be a young master from a big family who came out to gain experience. They were even more powerful than George, and the George family was a well-known family in the entire Luo Xing. The children of the family were all outstanding. Zhou Hao was the only one who gave him a mysterious feeling! No matter how she looked at him, she just couldn't see through him. That was why she could easily catch him again and again. Now, he was the one who didn't want to run anymore. Moreover, he firmly believed that since Zhou Hao dared to let him run, he must have had a backup plan. Why didn't he run to the ends of the earth? he saw hope but also despair. It was not difficult to deal with smart people, and Zhou Hao was not as stupid as he had been. He was clearly here to capture him for the treasure map, but he had never taken the initiative to say it. It was only natural for him to say it when he was drunk. He was a little surprised by this kind of heart of a young man who was only about 20 years old. When dealing with people who were too smart, although you didn't have to be so obvious, you still had to think carefully about what you should say and what you shouldn't say. For example, George was so drunk that he would not even know if he was thrown out. "Each one is better than the other. As expected, none of them are easy to deal with!" The frog ridiculed. With his powerful perception, he knew that the seemingly drunk George was actually awake and lying on the ground, listening to the two of them discussing the conditions. However, this matter was not something he could interfere with, so he had been pretending not to hear it. Zhou Hao and him were already friends who had gone through life and death together. If he could bring him along to train, it would be fine. If he did not come, he would return to his family and pretend that this had never happened. Zhou Hao was also speechless at the frog's ridicule. Everyone he met was smart, and it really took a lot of effort to get along with them. He clearly knew everything, but he pretended not to know anything! All of them were black-hearted, and each of them was better at acting than the other. Only toslitan thought that he was sleeping like a pig and did not know that he had an extremely important treasure map in his hands. Most importantly, he had said it before because he wanted to test George. He had already seen many brothers who would turn against each other for a little bit of benefit, and he didn't quite believe everything in the world. He wanted to see how far George and Zhou Hao could go. If it was an ordinary person who wanted to obtain this precious treasure map, they would definitely take the opportunity to throw George out of the Luo divine boat and let the turbulent storms in the sky devour him mercilessly. It seemed to be a small matter, but it was a test. In an instant, Zhou Hao

had figured out everything and sighed quietly. As expected, no one from such a big family was a simple character. However, this trip was fraught with danger, and he didn't know if George would dare to follow him. There were some places where the disciples of the big families didn't need to take risks. He only had a heavy task on his shoulders. He had to grow up quickly to be able to truly carry that heavy burden. "What do we do now?" Toslytan winked at George, who was lying on the ground. His meaning was obvious. He wanted to see how Zhou Hao would handle this matter. Now was the best time to make a move. Not to mention Toraltar, even George was nervously waiting for Zhou Hao's attitude toward him. They could see how long this fragile friendship would last in the face of such huge benefits. He had always only had a superficial relationship with his friends, and he had never truly made friends with everyone. Now, he just wanted to see how sincere he was. He had already made all the necessary preparations. Even if he was thrown out, he could instantly take out his airship. He would not die like this. "What do we do? George, get up and tell Threstan, what are you going to do?" Zhou Hao didn't want to answer such a challenging question. Since they wanted to pretend for him, he would make them unable to continue pretending. What's the point of being a man without sincerity? George's face turned red when he heard Zhou Hao's words. He knew that he could not hide anything from Zhou Hao. He had failed even in such a way. He still felt a little guilty when he had to face such a friend. Just because someone treated you with sincerity, but you kept testing him, this feeling made him very unhappy. "I don't have any objections either. If the two of you agree, I'll go and gain some experience. I don't need any treasures!" George knew that it would not work if he tried to be nice to Zhou Hao in a tactful way. He could only say all his thoughts. Zhou Hao looked at George's bewildered expression and did not pursue the matter of him pretending to be drunk. Everyone grew up in a different environment.

## Chapter 772 - Finally got the treasure map

*Chapter 772: Finally got the treasure map*

The children raised by such a big family lacked a sense of security. They needed to be tested and confirmed before they dared to make a decision. This was because they had been living in different environments since they were young. Just like charade, the people around him seemed to be good friends, but they all had a purpose in mind. "Since you're not afraid of danger, let's go together. It doesn't matter if we have one more person!" Zhou Hao's tone was even more distant than before. No matter how much he understood, it was still uncomfortable to be doubted by others. He treated others with sincerity, but they repaid him in such a way. George also felt Zhou Hao's uneasiness and felt very guilty. He felt that Zhou Hao's endless probing would one day ruin their friendship. Sometimes, there were things that couldn't be touched, but they would slowly be lost when they weren't paying attention. "Zhou Hao, I'm sorry. I'm in the

wrong!" George could feel Zhou Hao's emotional fluctuation and quickly apologized. Ever since he was young, he had never been so submissive. Every time, it was those people who flattered him. The only time he met Zhou Hao was the first time he felt like he had met a long-lost friend. "Tsk, now you know you're in the wrong. You were still a scheming man before!" The frog retorted ruthlessly. Nothing could be hidden in front of him, but to actually dare to pretend to be drunk in front of him was simply like sprinkling pepper in front of a grave. This kind of young man was too inexperienced in front of him. However, he was a good person to be able to correct his mistakes in time. At the very least, this kind of test was harmless. Even if Zhou Hao did not want him to go with him, he would never hurt his only friend. It was because of this that the frog didn't attack him. "This is also human nature, but I'm just a little unhappy!" For the first time, Zhou Hao didn't argue with the frog and just went along with it. He was a little surprised! However, the two of them had always worked together tacitly, which was why they were able to win every time. "This isn't a big deal. Where is the tusletan treasure map? Do you need to re-plan the navigation?" Zhou Hao had no intention of dragging things out. Toslytan had thought that he would be able to witness a great battle. A battle between friends was the scariest, because they knew each other's fatal weakness. However, it didn't seem like tusletan had any intention of starting a war, and one of them immediately apologized, while the other was willing to take him to a place with treasure. This way, he wouldn't have the chance to watch a good show even if he wanted to. Thinking about it, he felt a little regretful. He was already prepared to watch the fire from the other side, but unfortunately, it did not go as he wished. "You look very disappointed?" He did not know when Zhou Hao had appeared behind him. Only a thief God like him would have such an ability. He did not expect Zhou Hao to be so fast, as if he had suddenly emerged from the ground. "Don't you know that people can be scared to death!" Toslitan was so angry that his eyes were wide open, and his beard was already perking up. The two young people would always give way to each other, but they were very harsh to an old man like him. He was so angry that smoke almost came out of his seven orifices! "Oh, I forgot that you're a human!" Zhou Hao retorted. If he wasn't a human, could he be a ghost? With his ability to appear and disappear unpredictably, he was no different from those ghosts. Zhou Hao's words made sense. Tosh almost fainted from anger. What did he mean by "forget who I am"? ++!!!! F \* ck your sister! You're not human. Your entire family is not human. All eighteen generations of your ancestors are not human. Tositan cursed in his heart. He felt that this Zhou Hao was too outrageous. He had never felt so shocked before when Zhou Hao said that he was not human. He kept cursing in his heart, and his eyes were spitting fire as if he wanted to run up to Zhou Hao and tear him apart. He thought about the gap in strength between the two of them. He could only bear with it. He believed that one day, Zhou Hao would be at a disadvantage in his hands. "The youngsters nowadays don't care about martial virtue. They don't even know what it means to respect the old and cherish the young. This old man is so angry!" "You ..." Toslitan gritted his teeth as he looked at the two young men. Don't think that George was honest and didn't talk much usually, but when he made a move at a critical moment, he was simply a deadly existence. He was number 1 in the last hit! Previously, George had made him suffer a lot, but now, he felt that there was no hope in life. He didn't know if it was right or wrong to follow these two brats. He would definitely not have a good life in the future. He could only slowly

endure it and leave them after getting the treasure map. At that time, birds would be free to fly in the sky, and fish would be free to jump in the sea! His imagination was very good, and his mouth could not stop complaining that the young people these days did not know how to respect and take care of the elderly. Had the world changed? "Let's set off for papaya spirit planet. That's where the treasure map is. It's also where the treasure is!" He had actually been to that place a few times. However, every time he went there, he felt that the back was gloomy, as if he was being watched by something dirty. That place was too mysterious and dangerous. He was afraid that he would not be able to come out if he went in alone. Moreover, there were many people who knew that there was treasure there. Everyone who could go there had the support of a powerful force. Their strength was not weak. Every time he went there, he would be alone. It would be very dangerous to encounter those powerful beasts and humans, but he would always escape very quickly. Even if those powerful people went in, they wouldn't find the real treasure. The treasure map was with him, and the others were just trying their luck. Some people had only heard rumors about the treasure there, so everyone hoped to have a windfall and would try every means possible to go there and take a look, regardless of their safety. He planned a new route. It seemed like papaya spirit planet was still a little far from here. It would take half a month's journey, and he didn't know what would happen during this time. He hoped that he wouldn't encounter a huge space storm like the last time. The Luo divine boat couldn't withstand the destruction of such a huge storm. "You're really capable to hide that thing in that place!" George could not help but give him a thumbs up. Most people would never have such wisdom. The safest place was actually the most dangerous place. Who would have thought that the real treasure map would be hidden in a place with treasure? that was why the word "cunning" was used to describe this kind of old man. "You're indeed a cunning old fox ..." George looked at toslitan with a smile on his face. Toslitan's eyes widened, and he felt that the two young men were indeed more inarticulate than the other.

## Chapter 773

*Chapter 773:-arrogant drinking contest*

Both of them were black-hearted, and neither of them was a pure and kind child. I don't know if all the young people nowadays are like this. In the past, I knew how to respect the old and cherish the young. Thinking about it, I feel that their upbringing is good. The two of them didn't stay long after receiving the news. They had drunk enough wine and eaten their fill, so they lay on the deck of the divine river boat and looked at everything in the universe. "Give me another bottle of wine. This amount of wine is just for me to brush my teeth!" After toslitan had handed over all his secrets, he didn't feel too

burdened. The words that he had said before could only be said under the influence of alcohol. Now that he wants to drink, I'm really addicted to alcohol. It's been many years since I've had such a good drink. The two of them looked at his arrogant face and felt worried for him. They were afraid that he would provoke someone and be beaten to a pulp! "In the future, let's stay away from him, lest we get beaten to death by others!" George looked at his arrogant look and could not help but want to stay away from him. His alcohol tolerance wasn't high, but he was very bold. His brain must have been damaged after living in the mountains for so many years. He didn't dare to drink any of the wine on Zhou Hao's Luo divine boat, for fear that he would get drunk and be thrown out to live and die. He felt that Zhou Hao would definitely do it. But now, Toslitan actually dared to be so arrogant, loudly asking for another bottle of wine. He couldn't help but shiver. He wasn't drunk before. But it was almost there. If he had more, he would definitely be lying on the ground. "You two continue, I'm going back to rest!" George didn't want to stay any longer, afraid that Zhou Hao would tell him that he was pretending to be drunk. He had thought it through very well, that no one would spare him! "What are you so anxious about? it's such a beautiful night, and there's such good wine and food. Don't go!" Thales grabbed George with one hand, who wanted to leave first. No matter how he struggled, it was useless. Zhou Hao wasn't too stingy. He directly ordered two bottles of the strongest wine. He must let these two people have a good taste of the strong wine on Earth Star. Looking at Tosley's arrogant expression, he wanted to let him have a good experience of what real strong wine was. Looking at the two bottles of white wine and all kinds of special snacks, the two of them knew that the two bottles of wine would not be as mild as before. He had never seen these snacks before. They all looked delicious, and he almost drooled. "I'm not leaving, I want to have a good meal!" George had thought he was fine, but the moment he saw the food, he felt that his energy had been depleted. His stomach seemed to be growling from hunger! Zhou Hao couldn't help but Twitch. He had been quite generous during the time they had spent together, and he had tried all kinds of special snacks. He didn't expect that the snacks were still the same. He couldn't move just like before. "Didn't you say you were leaving? then you should go to sleep!" Toslitan couldn't help but tease George when he saw that he couldn't move. He was also a person who liked to eat and drink. He had tasted almost all the good wine and food, and he couldn't help drooling when he looked at the strange snacks in front of him. George couldn't help but roll his eyes. He didn't know who was the one who kept pulling him to stay and drink with them, but now that there was good food, they actually wanted him to go back first. As expected, he was a man without humanity. No wonder so many planets had issued universe arrest warrants for him previously. They had felt that he was a little wronged, but now they felt that he deserved it. "No wonder you're hated by so many people. No one will like someone like you!" George was also a sharp-tongued person. He had learned quite a few tricks from Li Xiang, and he knew that he had to be more shameless than a shameless person like Toslytan, or else he wouldn't be able to survive. When Toslytan heard George's words, he couldn't help but widen his eyes in a deeply wounded manner, making it look rather pitiful. It was as if George had done something so outrageous that he couldn't accept it. He had had a hard time all these years, but he didn't expect George to rub salt in his wound. It was all his fault for having a cheap mouth and asking George to leave first, wanting to have all the delicacies for himself.

Zhou Hao did not pay attention to the interaction between the two. Now, he felt that the two of them were like two jokers, adding a touch of happiness to his life. When he was with him, George was not so active. "They're all greedy people. Let's make them see what happens when they get drunk!" The frog kept complaining. Those delicacies were all from the Luo God boat that he and Li Xiang had brought together. Now that they were in someone else's mouth, he felt that something was wrong. The more he thought about it, the sadder he felt. He wished he could throw the two of them into space and let the storm crush them. However, now that he had a request for tussetan, he had to treat him well. For example, if he wanted to drink, then he would make him drink the strongest wine in the world until he was half drunk. That kind of feeling, just thinking about it made him feel very sour! "Drink, drink, it's better if you drink to death!" The frog kept cursing the two people's cowardly looks. They had never seen these things before. Zhou Hao was becoming more and more mysterious in their hearts. Perhaps only those very developed places could have such things. The two of them ate snacks and drank. They felt that the wine was strong enough. When they drank it, it was like a fire slowly flowing from their throats to their stomachs. "Good wine, good wine. I've never had wine with such a taste. Where did you bring it from?" They had never asked Zhou Hao this question before. It would be impolite to ask directly. Everyone had their own little secrets. Now that the alcohol was slowly building up, he didn't know what he was talking about. He asked without any hesitation! Toslytan and Li Xiang were no longer as distant as they were at the beginning. No matter what they wanted to say, he dared to say a few words, because he slowly realized that Zhou Hao was not the kind of person who liked to kill. He was also a kind, upright, and bright boy. At the beginning, he didn't understand his temper and was a little cautious, not daring to say or ask anything. "Godly thief, this wine is too comfortable!" George was also looking at everything in front of him in a daze. He had never drunk such a strong wine before. After two glasses, he felt dizzy, as if the world was spinning and the stars in the sky were about to collapse.

## Chapter 774

*Chapter 774: Arriving at the destination*

He felt that the more he drank, the stronger the wine became. It was as if he had endless strength all over his body, and he even enthusiastically pulled the tosley jar to drink with him. For a moment, the two of them were like old friends who hadn't seen each other for many years. They said all kinds of words of blessings and had unprecedented smiles on their faces. "It's really good. George, your family is too stingy. I only took one of your treasures!" "You've used a wanted order to make me unable to find a place to stay for so many years. You're really not loyal to justice!" Tuo Si Li Tan pulled on George's hand, and continuously spoke of all the suffering he had suffered over the years, and how it was all because of the George family that he had fallen into

such a state. He had been hiding here and there all day. If it wasn't for these wanted orders, how could he have run to another planet to live? it was really dangerous there. "Godly thief, do you know that it's our George family's heirloom?" "If it was some other treasure, the family might not have paid so much attention to it. Moreover, it wasn't our George family who issued the arrest warrant!" George felt very wronged! This matter had been done by someone else, and it had nothing to do with the George family. Even the bounty was very little. If a behemoth like the George family made a move, how could there be only a small bounty? this kind of thing had never happened before. Over the years, the other families didn't disclose anything even if their things were stolen, for fear that those who went to do the task would raise the price. Now, the godly thief was actually saying that it was the George family who had caused him to wander outside for so many years. These words made him feel very uncomfortable. "Godly thief, our George family has never done such a thing before. It's all because of a very ordinary person who used a very small bounty to let you climb to the top of the mission Pavilion!" George explained the entire matter to tussletan in detail. From the beginning to the end, the George family only wanted to take back their family heirloom. As for what would happen to the godly thief, it had nothing to do with them. .... After George explained everything, thilitan looked at each other. He didn't expect the truth to be like this. He originally thought that he would have the opportunity to go to the George family again. Otherwise, he would have to apologize for taking care of him for so many years. It seemed that he had misunderstood everything. "I know who it is. That despicable bastard. I won't let him off so easily if I have the chance!" Toslitan was already seventy to eighty percent drunk. He was pretending to be drunk before, but he was really drunk now. Sometimes, the wine was intoxicating! He wouldn't let off anyone who had framed him before. He wanted them to experience what it was like to be hunted down all over the world. He had already been framed by others to the point where he couldn't fight back. However, he had now slowly walked out of his previous decadence. He had had enough of these good days over the years. The next part was the most exciting part, and he must make those people receive the corresponding punishment. It was too lonely to be alone. It was really exciting to have a few people running away together, especially during the time in the mengkhala mountains where life was hopeless. "Zhou Hao has promised to let you go. He also has the ability to make you no longer carry the name of a thief God and live in front of everyone!" "This is such a happy thing!" George's words reminded the impulsive toslitan. Originally, he had wanted to drag all of them into the water, just like how those people had dragged him into the water before, only to give him a fatal blow in the end. If he didn't have some ability, he would have been dragged from heaven to hell by those people. Those people were scarier than demons. Men weren't scary. The scariest thing was people who didn't know how to satisfy themselves. They would do anything to get benefits. Some things were daunting. "We really need to give this matter further thought. I'm a little unwilling to let those people live a carefree and happy life!" Toslytan didn't try to hide it like he usually did, and directly said what he was thinking. Zhou Hao watched the two of them drink one glass after another, almost finishing the two bottles of wine. He didn't know if they would have reached their destination by the time they woke up. George had always been a self-disciplined and principled person, and he would not get drunk so easily. They each took a bottle of hard liquor and felt like they had not had enough, so they kept asking

Zhou Hao to add two more bottles. The two of them were having a hard time talking. If he added two more bottles, the two of them would definitely die on his divine boat. He would definitely have to collect their bodies. "You're so stingy. You can't even bear to part with a little wine. I have plenty of treasures on me. I'll give them all to you!" Toslitan threw all the treasures on him on the ground in a very rich and imposing manner. These treasures were ownerless. Previously, in order to steal these things, he couldn't even tell whose they belonged to. Besides, some families were suddenly exterminated, but he didn't have the luxury to keep it as an ornament. However, his clothes were a little tattered, and the treasures were very strange. He threw them on the ground and bought two bottles of wine for Zhou Hao. He was usually a very thrifty person. Be it food, use, or clothing, they would save as much as possible and would not spend a single cent more. "That's right, Zhou Hao. Don't be so stingy. Just take those things and send two bottles of wine over. I want to drink with the thief God until we're drunk!" George's tongue was already loose when he spoke. He thought that he was not drunk yet, so he asked Zhou Hao to quickly bring out the wine and get drunk. "Two crazy alcoholic. They're already drunk and they still dare to ask for wine. They don't know what's good for them!" The frog ruthlessly complained about the two people's current miserable state. He just almost got drunk and couldn't get up! They were still asking for more wine. Zhou Hao was so annoyed that he almost wanted to throw them out. Both of them were famous people. He didn't know why he became like this after drinking. "You two are good enough. Don't challenge my limits here!" Zhou Hao looked at the two of them, who were making a scene. Fortunately, you're in space. If they were anywhere else, they would definitely be reported for disturbing people. The two of them had sat on the ground, singing and crying after getting drunk. They had never experienced such a feeling before. Zhou Hao didn't get them a room. The most important thing was to get some rest. There was still a tough battle to fight when they reached the destination.

## Chapter 775 - A thousand emotions

*Chapter 775: A thousand emotions*

The two of them lay in the Luo divine boat. They woke up and drank, and they got drunk again. During this period of time, they had been completely dispirited. They didn't go online and lived a life of luxury. Zhou Hao did not force them to do anything else. There were only a few days left before they arrived at their destination. The two of them gathered their emotions and faced everything that they had to face. George appeared in front of them in high spirits. He was no longer as dispirited as before, which made people want to give him a few kicks. Now, he had the appearance of an elegant young master, but his figure was too tall and his eyes had a light blue color. He wasn't like Zhou Hao, who had delicate features and a gentlemanly appearance! "There's only half a day left, these good days are getting shorter and shorter!" George had completely let

himself loose during this period of time. He had already forgotten that he was the kind of young master from an aristocratic family! He only knew how to use the sky as his blanket and the deck as his bed, to look at the vast Galaxy, drink wine that he had never drunk before, and eat delicacies that he had never eaten before. "That's right, good days are always short. I haven't lived so freely in many years!" Toslitan also stood by George's side with a sad look on his face. He wanted this kind of dull life every time, but life always gave him a loud slap in the face, making him a little unprepared. After spending some time with Li Xiang and the others, he felt that this was the life of a normal person. Before this, he didn't live like a human, but like a mutated beast. He had had enough of hiding all these years, and he had to constantly seek that thrill. It was because he had no way to live like a normal person that he had to live an extreme life. Only then could he find the meaning of his existence in this world. Only in this way could he feel that he was a living person and not a beast that only knew how to kill. Many times, he had mistakenly thought that he had become a beast. "I want to live a life like this in the future. No matter where Zhou Hao goes, I'll follow him!" Tosletan had already decided that he would be following Zhou Hao in the future. Even if he had to go to heaven or hell, he had to follow them. He could eat and drink every day, unlike the boring and dull life he had before. George's eyes couldn't help but darken when he heard what toslytan said. He was a man with heavy responsibilities on his shoulders, and he couldn't just follow Zhou Hao around so easily. Moreover, he could sense that Zhou Hao was not an ordinary person. To be by his side, one had to be strong, and the place they were going to was something they had never seen or imagined. Of course, all of this was just his conjecture. There was no real evidence. However, he was not as free and easy as toslitan, who could freely roam the world alone. People like him, who had families and heavy responsibilities, could only live and slowly experience life. Thinking that they would part ways after this, Zhou Hao also had things to do. He also had his own heavy responsibilities. Every separation was to pave the way for the next reunion. As long as they cherished every minute and second now, they would have no regrets even when they were old. "I'm so envious of you. You're all alone and free, unlike me ..." George would never admit that he was a little disappointed at this moment. He had liked to wander around the world since he was young. It was just that no one could decide his birth, so he could only watch as others went about their free and unfettered lives, while he had to face countless family affairs every day. He was able to come out for so long this time because his family had asked him to bring back the family heirloom. If he succeeded, he would be the successor. If he didn't succeed, he wouldn't have any fate with the heir. Previously, he had wanted to inherit the position of a character, but he suddenly felt that the position was not very good. It was a great pleasure to be free and happy every day. However, he knew very well that these things would only make people gradually depressed. To be a positive person, he had to work hard. It was just like how Zhou Hao could influence many people! "What's there to be envious of? she's like a rootless duckweed, floating everywhere and not knowing where her home is!" This was Zhou Hao's reply on behalf of Tosh altar. This was also what he really thought now. It would be warm to have A Place Called Home. He had already lost his warmest home. He wondered how those people were doing. Whether he was injured or not, whether he was attacked by those powerful and vulnerable people, all these questions were weighing on Zhou Hao's heart, so he did not dare to relax easily. It was

a pity to see the two of them drunk on the Luo divine boat every day. Such a good time had been wasted, but it was rare for them to have an easy time. Everyone who came to this world had a certain amount of responsibility. No one had an easy life. George had never thought about this problem. He only knew that the matters of the family were like a burden on his body, and sometimes he couldn't even breathe. They had never considered that these people who wandered outside were like rootless duckweed. They, the young masters of the aristocratic families, could return to their families to be comforted when they were tired. However, the competition within the family was also very intense. If one was not careful, they would be taken advantage of by those with ill intentions. They had to keep a clear mind at all times. He didn't even dare to think about living a drunken life for half a month. This was the best memory of his life, and also the most presumptuous days. "It's not easy to live in a big family. It's not just one person's home. It's not a home, but a place to live!" That was what George thought. The warmth there only belonged to those who were capable. As long as you were useful, the family would be respectful to you. Once you lost all your value, you would be like a weed. Sometimes, they were even worse than wild grass. The young masters of the aristocratic families who no longer had the protection of their families were like stray dogs. No matter where they went, others would step on them. He had known this principle since he was young, so he had always tried his best to rush forward and become more outstanding. He didn't know when! He was slowly getting tired of the life of a big family, but he liked the pleasure of travelling in the sky. This kind of life also required a certain amount of strength. Therefore, he only thought about it and didn't dare to take action. Once he lost the protection of the George family, his enemies would slowly emerge, and just thinking about it made his scalp numb. The only way to have a chance of victory was to charge forward. There were still others in the family who were eyeing them covetously.

## Chapter 776

*Chapter 776:-arrogant*

The competition between the big families was as cruel as the competition between the planets. History was written by the victors, and no one would remember how hard you worked to reach the height you have today. Those who failed would abandon their armor and leave the battlefield dejectedly. Sometimes, they would even abandon their armor and leave the battlefield without a chance to save their lives. They would be trampled by others as they wished. After seeing the fickleness of human nature, he knew that hard work and progress were the most fundamental things. Zhou Hao understood what George was saying. No matter if it was an ordinary person or those who were in the upper echelons of the aristocratic families, they were all the same. Each had their own hardships and difficulties. People from big families like them didn't

dare to get drunk even if they wanted to. They were afraid that others would take advantage of the opportunity here and make others lose everything they had before. Therefore, Zhou Hao did not stop the two of them during this period of time. One of them had endured for decades, while the other had lived in a big family for more than 20 years. Both of them were very depressed. Now, he finally had a chance to relieve the depression in his heart. If he didn't grasp it, he would feel like he had become a robot. Those robots still had their own emotions, thoughts, and feelings. On the other hand, humans were the ones who slowly lost these things. "It's not easy for everyone. They all have their missions and heavy responsibilities!" "Don't be envious of other people's good lives. Actually, you're not bad yourself!" Zhou Hao suddenly felt a little emotional. If it wasn't for the fact that such a powerful crisis had appeared on Earth ... At his age, he must still be in college, listening to those sad love songs every day, looking at the campus Belle he liked, and walking leisurely on the country roads. There was no need to travel between major planets like now. Sometimes, when faced with a 10-point crisis, one had to clench their teeth and survive. Some things would not happen just because of one's age. Age didn't determine a person's achievements. It was a person's living environment. What kind of person would they grow into? "Don't be sad anymore. The most important thing now is to make yourself stronger!" The frog could feel Zhou Hao's emotional fluctuations and also knew what he was thinking. He had no choice but to say something to wake Zhou Hao up. There were some things that ordinary people would never be able to catch up to in their entire lives, and there were also some things that those with ability would never be able to have. Sometimes, being dull was also a kind of happiness! The days of licking blood on the tip of the blade every day were already very annoying. "I don't know when this will end. I don't even know what the situation on earth is like now!" What Zhou Hao wanted to know the most was whether there was any irreversible damage to earth. If that was really the case, what was the point of working so hard? "Don't worry, there aren't any major battles on earth. Those humans are still alive and well!" Frogs had super-strong sensing abilities. No matter how far away he was, as long as he tried to sense it seriously, he could basically know what the situation was. Zhou Hao also believed the frog's words. He had never lied to comfort himself. It was the same now. No matter what the situation was, he had to answer truthfully. After hearing the frog's answer, Zhou Hao was relieved. As long as there was no major battle in the Earth's core, they would have a certain ability to adapt. When he became more powerful, he would definitely wipe out those invaders when he returned. After hearing Zhou Hao's words, George and Toslitan deeply believed that this was the truth. As long as they led their own lives well, everything else didn't matter. Everyone had a certain goal in life, but it was different for everyone. The things they pursued were different at every age. George now knew that he had to work harder to control the entire George family. At that time, no matter what he wanted to do, he would be able to succeed. They believed that one day, they would stand at the peak of the planet and wait for Zhou Hao's return. Good friends would be able to reach out to help when they were at their lowest. He also didn't want to be the kind of person who stayed by his side every day and couldn't do anything when something happened. He couldn't even help. Toslitan was full of skills, and any treasure he took out was worth a city. Almost all the treasures of many families had already been secretly sent back. It was just that they hadn't discovered it yet. Even if they did, they wouldn't be able to take back the news. ....

"This is our territory. You can get lost now!" The few of them had just landed on the ground and put away the Luo divine boat when they heard an arrogant voice coming from not far away. It was best not to provoke such unruly, willful, arrogant, and domineering women. They must be the unacceptable daughters of those big families. Zhou Hao had just arrived on this planet, so he did not know if he could understand the language on this planet. He was still wearing headphones, so the words spoken by these people were naturally translated into the language he was proficient in. "F \* ck, it's better to stay away from this Shrew. I didn't go around here!" George was most afraid of this kind of woman. Therefore, he quickly suggested that they take a slow detour from the other side. If they met this kind of person, half a day would pass, or a lot of their journey would be delayed. Normally, they wouldn't want to get involved in such trouble. Zhou Hao and the other two didn't have any objections, and they took a detour. It wasn't too far away, and they also had to follow silitan to retrieve the treasure map. "Walk closer from here. Don't go against those unruly and willful women!" Although toslitan was old, he was most afraid of this kind of unreasonable woman. The three of them didn't say much and walked in the other direction in tacit understanding! "Stop! This territory already belongs to the Jiro family. You're not allowed to come any closer!" The arrogant woman's voice was not only contagious, but the people who came by also ran over quickly. After taking a look at her, they realized that the woman who had just run over was only a little over 20 years old, which was supposed to be the most beautiful age. However, her mean face made her look like a woman in her 40s. "This woman didn't do evil things in the name of her clan; instead, she bullied others to such an extent. This place is not planned to be the private property of a clan." This was especially true for a land of treasures. Every family wanted it to be their private property, but the other families would join forces to make them fail.

## Chapter 777

*Chapter 777: Who are you?*

Therefore, no one would believe this woman's nonsense when she said it was their territory. Even their Jiro family, a well-known family on papaya spirit planet, or even a second-rate family, did not have such power. She dared to be so arrogant because she felt that the people from the big families had not arrived yet, so she could only bully the small families, even the rootless duckweed. As he looked at Zhou Hao and the others, he felt that as long as they were from the family, they would definitely come in groups. It was impossible for them to come to such a dangerous place with only three people. This kind of place was full of strangeness, and no one dared to set foot in it easily. Only if there were experts from the clan who came here with ultimate weapons would there be a slight chance of survival. She only dared to be a little arrogant in the outer regions. Even if these people wanted to enter, they had to pay a toll fee of 10000 universe

dollars per person. Sometimes, she wanted to praise her own intelligence. It was her greatest opportunity to rely on her family to make these people hand over their money obediently. "Who are you? what does it have to do with you whether we enter or not?" George looked down on this kind of dog who bullied others. However, their family had a little power, and they were arrogant and despotic outside. When they met those stronger existences, they could only bow their heads and admit their mistakes, groveling on the ground. The arrogant and despotic woman saw that these people didn't take her seriously, and her heart burned with anger. She wanted to throw these people out right now. On this entire planet, if anyone dared to not give the Jiro family face, that was simply eunuch Shou hanging himself and courting death. Even though her father had warned her many times at home to keep a low profile outside and not to provoke those big families easily. Every time he came out, he was a fearless existence. No matter what the other party's background was, he would definitely not let them off. Even some people from the big families were bullied to death. This was what she had to show off! Sometimes, when she encountered such a hard problem, she could only be bullied. Every time, she needed her family to come out and clean up the mess for her. If it wasn't for the fact that it was still of some use to the family, they would definitely leave it to its own fate and wouldn't meddle in her business. This kind of trouble-maker didn't even look at the other party's background. They would rush up stupidly and sometimes only admit defeat when their heads were broken and bleeding. "How dare you look down on me? I'm the second miss of the red wolf family, jilang Lala!" The way he was dressed made it seem like he was very impressive. Those who didn't know her would think that she was a high and mighty Princess of the royal family. She was just a young lady of a family, yet she was so arrogant that no one else dared to say a word. He could only silently take out the universe dollars he had and hand them over to this arrogant woman in front of him, afraid that they would be lucky and get something valuable. Even spending 10000 universe dollars would be worth it. She felt much more balanced when she thought of it this way, and she wouldn't feel as aggrieved as before. "What's so great about the Jiro family? get lost, don't make me do it!" George was very fierce in front of outsiders. He no longer looked like a gentleman, but more like a demon. His faint blue eyes gave people a very dangerous and mysterious feeling. Ordinary people would not dare to say this to him. He had grown up in a large family, and George's aura was many times stronger than this reckless woman's. For a moment, the arrogant and domineering woman was frightened. She didn't expect that there would be such a man who didn't care about his manners, and she was instantly embarrassed. "You, you, what do you want to do?" Jiro Lala stammered so much that she couldn't even speak smoothly. She was used to being arrogant and despotic, and no one dared to provoke her. She felt an unprecedented pressure from George, and a sense of fear arose spontaneously. She had no doubt that if she dared to continue being so arrogant, George would definitely not let her off just because she was a woman. "There are many experts in my family here. Be careful, your head will be blown off by me!" Jiro Lala waved the small black pistol in his hand. This was one of the weapons she was most proud of. Whether it was power or speed, it could be described as the king of guns. As long as he wanted the lives of these three people, he could take them at any time. However, she didn't dare to use it rashly, as it represented her family's honor. There was once a very outstanding junior in the family who secretly took this gun out to play,

but for some reason, it was thrown away. Moreover, he was thrown in a place full of fierce beasts. Since then, he had never seen the young man in the family again. It was obvious what his end was. This time, in order to ensure that nothing would go wrong, he was afraid that he would bring out this incredibly powerful pistol and blow up these people's heads. She proudly waved the small pistol in her hand, thinking that this was all she had. As long as anyone saw her take out this weapon, they would be scared out of their wits. As long as this gun was brought out, someone's life would definitely be taken. He didn't expect that this strange gun would also appear here. "F \* ck, the quality of this gun is not bad. The most important thing is its speed!" The frog couldn't help but exclaim in admiration when it felt the small black gun. If possible, he would definitely let Zhou Hao snatch it. These powerful things came from the capable. Even if those who were weak were lucky enough to get them, they would not be able to guard them, so they did not dare to have such an idea. Without a matching strength, these things were like hot potatoes, which would definitely burn others no matter who held them. "This is the right time to take it for ourselves!" The frog loved these powerful weapons the most. This speed could be called lightning. Before anyone could notice it, they would have been killed, and they couldn't figure out its trajectory. This was the rarest part about it, but it was a pity that it only had a pistol and no engine. Otherwise, no matter where those people were, they would be easily shot in the head. Everyone who saw this gun was scared of moving the trigger lightly and taking their lives. "This gun's power is not bad, it's fast, it can kill a sector Lord!" "There are very few weapons with this kind of power. Even those cutting-edge technology can't compare!" The frog was extremely excited when it saw the gun, as if it was already in its hands. With the gun, everyone's safety would be guaranteed. Zhou Hao didn't give the frog a timely response.

## Chapter 778

### *Chapter 778: Robbed*

He didn't want to care about these things at all, but he definitely wouldn't let this woman be proud of the treasure that was in his hands. So, he would let her be proud for a while. She would be crying later! Seeing the three of them dazed, Jilang Lala's face showed a smug expression. He knew that these people would surrender when they saw the weapon in her hand. This was the reaction of most people, so he stood quietly in the distance to see when these people would bow and apologize in front of her. Zhou Hao could also sense a few extremely powerful auras nearby. At least, they were stronger than him. If he provoked them easily, he would not have much chance of winning. The next second! The smile on her face slowly froze as she finally realized what was wrong. The gun in his hand had suddenly disappeared, and he was dumbfounded as he

watched everything happen, but he was powerless to stop it. In front of a godly thief, he actually dared to take out such a good thing to threaten others. It was like he was rushing to give the treasure to others. This wasn't stealing, but robbing. This type of pistol was a very precious existence even in the Jiro family. There were only two in the entire family, and everyone valued it very much. Looking at her empty hands, she wanted to cry but had no tears. She widened her eyes to see if she was hallucinating, but it suddenly disappeared. She had never encountered such a strange thing before, and her face turned pale in fear. She had always been arrogant and domineering. Thinking about how her family would treat her, her heart could not help but tremble. "What do you want? return my things!" Jiro Lala's face was extremely cold as he looked down at Zhou Hao and the other two people. Even if he didn't see one of the three take her gun away right in front of his eyes, there were only a few people who were going against her. Therefore, regardless of whether these people in front of her had taken it or not, she had to find a scapegoat. Otherwise, she would be the next one to die. From now on, she would be like an ordinary person in the family. Zhou Hao's face was filled with surprise. Not to mention this woman, even he himself didn't clearly see how two Si Li Tan had attacked. He actually knew that it was toslitan. This made people doubt whether it was true or not, but looking at his confident expression for the past year, it didn't seem to be fake. "Does this woman have any talent besides being arrogant and despotic?" their hearts pounded as they thought that they had been seen through by others. However, so what if she had seen through him? she would still do what she had to do and would definitely not return the things to him so easily. This kind of high-tech thing needed to be taken back and studied carefully. He didn't know when the small pistol was in his pocket. This time, Zhou Hao felt that the word 'godly thief' really lived up to its name when it came to toslitan. He did not notice anything even after he had completed these actions. If the other side wanted to retreat, then they would be finished. Damn, they actually dared to treat him like this. He quickly threw the gun into the Luo divine boat. With Qian Yu's help, no matter how powerful the scanner was, it would be impossible to find the gun's existence. "You're crazy. You were holding it in your hand just now. None of us touched it!" George couldn't bear to see this woman. He clearly knew that he had to drag silitan into this, and he would never admit to this even if he was beaten to death. There must be someone else around this B \* tch. It was not that he was afraid of the strength of others, but that he did not want to cause trouble before getting the treasure map. He only wanted to enter the treasure land as soon as possible. Hearing George's words, Jiro Lala was suddenly at a loss for words. There was indeed no real proof, and these people had brazenly stolen her things. However, for some reason, he knew that something was wrong just by looking at their expressions. How could they suddenly see a black shadow flash past the gun in their hands and then disappear for no reason? He was very puzzled, and his eyes kept rolling. The strength of these people gave him a mysterious feeling, unlike the others who were submissive. If he wanted to take back his things, he had to see if there were any on these people. He didn't dare to mention it rashly, for fear of being beaten up by these people. There were also many people who had just been bullied, gloating at their misfortune. They didn't expect the curse in their hearts to come true so quickly. It had only been a few minutes, and someone had already taken care of them. "Second uncle, third uncle, these thieves have stolen our treasures!" The woman's words made

everyone want to beat her up. What did he mean by the thief had stolen his treasure? He had obviously taken it away in a brazen manner. Don't insult the word 'steal'. This woman really knew how to put gold on his face. "Tsk, this woman's face is really big. She actually used this word to describe her brain!" Toslitan muttered in a low voice. She felt that he was obviously taking it openly. Even the word 'steal' was a little too narrow-minded to describe it. As expected, a woman didn't have much knowledge. Zhou Hao couldn't help but hold his forehead. Was this the time to discuss such things? He had already placed the gun in Zhou Hao's pocket, so that even if those people asked for a body search, they wouldn't be able to find him. "It's okay to let these people search me," he thought to himself. "I don't even respect walls, but I respect you, you old thing!" Zhou Hao gritted his teeth when he said this, wishing he could throw Toslitan out right now. Unfortunately, without this guy, he would not be able to find the treasure map at all. The things he had hidden could not be found by anyone. Just thinking about it gave him a headache. As long as this guy saw something good, he couldn't help but want to make a move, whether it was by stealing, snatching, or other means. It seemed that he couldn't let him follow him around in the future. He was afraid that he would ruin his reputation and become the second thief God. Toslitan couldn't help but laugh at Zhou Hao's words, as if he was sincerely praising him. He also felt that Zhou Hao was also very impressed with him. Some people would never reach his level in their entire lives, and they could only watch helplessly as he took other people's treasures. Just thinking about it made him happy! "Lala, what's wrong? weren't you fine here before?" Two burly men in their forties or fifties walked over from nearby. Their strength was not weak, and they were almost as strong as Zhou Hao. They also had many powerful weapons on them. At a glance, people could tell that these two middle-aged men were not to be trifled with.

## Chapter 779

*Chapter 779: Children can't lie*

The weapons they carried made everyone feel despair. Any one of them could take their lives. So even if Jiro Lala had made unreasonable demands, they didn't dare to say anything. In the face of absolute power, no schemes or tricks could be used. Some of the people around him sympathized with him, some were indifferent, and some were gloating. This was because they had already paid the universe dollars to enter the mountain range with treasures. Looking at the three people's arrogant and insufferably arrogant appearance, they felt like they were watching a good show. To dare to challenge such a large family, he was simply courting death. Jiro Lala whispered something into the ears of the two middle-aged men. Suddenly, their faces changed as

if something incredible had happened. They looked at the woman in front of them in horror. They didn't know why she was so bold. Even they didn't dare to take it out easily, and they didn't dare to wipe it even if they went to see it, for fear of being punished if they damaged it. Jilang Lala, the woman who didn't know her place, had brought it out directly. Now, it was under the eyes of everyone, and no one knew who had taken the pistol from her hand. Just thinking about it made him extremely frightened. There were only a few people who had such abilities. He suddenly thought of a possibility, and his eyes were filled with disbelief. Only that person could take away their treasure in this situation. And it was very much in line with that person's style. "Could it be that the godly thief has already arrived at our location?" The other middle-aged man also thought of this possibility. This was because the godly thief had come to this place several times before and had also taken their family's treasures. However, for some reason, he had not taken away their things. Perhaps it was because he hadn't taken a fancy to their things. He was still rejoicing before, but now he couldn't help but break out in a cold sweat. They might have already gone far away, and even if they wanted to chase after them, they were powerless. "You're just a jinx. What can you not touch? You're already so old, don't you know?" The middle-aged man pointed at Jiro Lala's forehead. He looked as if he hated iron for not meeting steel. This kind of pampering was boundless. No wonder he dared to be arrogant and overbearing outside, bullying those weak. "Second brother, this matter might be a little tricky. What should we do?" The younger middle-aged man was anxious. He knew that this was no small matter and he had to deal with it as soon as possible. Otherwise, it would be too late by the time the family found out. It was already a serious crime to take the pistol out without permission. Furthermore, now that he had lost it, how was he going to explain it to his family? "Third brother, don't be too nervous. Look at these three people in front of you. Aren't they just the scapegoats?" "It doesn't matter if they took it or not. Anyone who dares to provoke our family must pay the price!" The middle-aged man called second uncle had a cold look in his eyes. His idea was exactly the same as jilang Lala's. They were both cunning people, and the others watched it all happen in horror. They had seen with their own eyes how these people had gotten to the point of ignoring others and taking me away just because they hadn't taught me cosmic dollars. Now, these few people definitely wouldn't be able to survive. Just thinking about it made him feel that it was a pity. "What a pity. I thought that there were a few people who could fight against these people!" A young man who was watching the show from the side. "That's right. I thought they were some capable people, but now ... Sigh ..." Another person who was slightly older could not help but sigh. .... Everyone was discussing spiritedly. Some felt that it was a pity, while the majority were gloating. They felt that it was unfair in their hearts. These three people deserved to end up like this. Zhou Hao couldn't help but laugh. These people were really arrogant. He hadn't even said anything, but everyone had already decided their future. Then, he would let them experience what it meant to be better off dead than alive. When the others saw Zhou Hao's smile, they thought that he was scared out of his wits. At this moment, he was still able to smile. "You see, these people are simply insane. A good person has been scared crazy by them!" An old man was very regretful. He looked at the smiling Zhou Hao with a face full of regret. What he said made Zhou Hao want to turn around and leave. What did he mean by 'I've been scared crazy by others'?" Just these few people

were enough to scare him crazy. The ones who would go crazy later would be the Jiro family. He had to let them experience what despair was. He kept thinking about this matter in his heart. The strength of the two middle-aged men was about the same as his, and with George's help, there would be no suspense. He didn't know who gave these people the courage to do as they pleased in this place. "Hurry up and admit your mistake. We'll take you back to the family and we'll give you a lighter punishment as long as you take out that thing!" The younger middle-aged man looked at the three people in front of him in high spirits. He just knew that after finding a few scapegoats, they would no longer have the responsibility to bear the sins. Just thinking about it made him happy. Looking at these scapegoats, they couldn't help but want to laugh. They had always loved to do such things. No matter what the truth was, it was enough as long as they could achieve their goals. "Apologize? What mistake?" Zhou Hao looked at the brain-dead middle-aged man in confusion. Everything was just what they thought in their hearts. He was not a weak person who could be bullied. He must let them know that he had been wronged. Even if they had a gun on him, he couldn't admit it. What these people didn't know was that their false accusations were true. Their pistol was indeed with Zhou Hao, but whether they had the ability to get it back was another matter. The others thought that Zhou Hao was crazy. He was asked to admit his mistake, but he actually asked what he was doing. "Children shouldn't lie. You brought my family's treasure, you can't deny it like this!" The younger middle-aged man tried to tempt Zhou Hao. In his heart, Zhou Hao was indeed a child of his age. He was much younger than him and looked about the same age as his niece. He had used such a moral kidnapping method to make Zhou Hao admit to this matter. He had really planned and used all sorts of methods. Only people like them could use such a despicable and shameless method. Holy shit! F \* ck you, little kid. Zhou Hao kept cursing in his heart. Could it be that this episode was so easily deceived by others? She had seen shameless people before, but she had never seen such a shameless person.

## Chapter 780 - You're really thick-skinned

*Chapter 780: You're really thick-skinned*

Everyone was already used to the shamelessness of these people, as if there was nothing strange about it. Zhou Hao laughed mockingly. "F \* ck him up, he actually dared to treat you like this!" The angry voice of the frog was transmitted to Zhou Hao's mind. He hated such shameless people the most. He would beat them up every time he saw them. If it wasn't for the fact that it wasn't time to make a move yet, he definitely wouldn't be able to hold back and would want to punish the two middle-aged men in front of him. This level of shamelessness had already reached the level of number one

in the world. "Are you going to go back with us or ..." "You want us to personally escort you back?" The young man's eyes instantly turned as cold as ice, causing people to shiver. Even the people at the side couldn't help but shiver. This feeling made them very uncomfortable, as if they had suddenly been thrown into a World of Ice and snow. However, Zhou Hao, who was in the center, didn't have any reaction at all. No matter how powerful his gaze was on the Ice Man, no matter how many weapons he had, it didn't matter. It would be great if his strength was as thick-skinned as his face. They would only dare to show off in front of ordinary families and these weak humans. "You're really thick-skinned!" Zhou Hao had a faint smile on his face, as if he didn't take this matter to heart. After everyone heard him say this, they all looked at him with strange eyes. They felt that this young man had not only been scared crazy, but had also been scared silly. He actually said such words! These people from Jiro's family would definitely not let them off so easily. These people had never been kind to anyone, and it was even more likely that they would punish these people on the spot. Their race had been known for being arrogant, despotic, and extremely cruel for a long time. "Very good, you're really a good kid. Uncle will teach you how to be a qualified junior later!" The younger middle-aged man said gently, but his eyes were frighteningly cold. Many people who dared to talk to him like that had died under their powerful weapons. The Jilang family was brave and good at fighting. No matter if they were male or female, their combat power was 10 points strong. That was why they dared to be arrogant in front of these people. He approached Zhou Hao as he spoke, hoping to catch him off guard and teach him a lesson. No one would dare to say that he was thick-skinned. Moreover, there was no one in his family who was not thick-skinned, so these words were not a derogatory term to him, but a true compliment. Zhou Hao looked at him with a smile on his face, as if he was looking at an old friend. Those who did not know the truth would think that they knew each other. Since he wanted to come to his door and be abused, then he would reluctantly accept it. It would be best if there was a welcome ceremony and he could enjoy life. "George, take out the fireworks and welcome this person who doesn't know anything!" At some point, Toslitan had suddenly appeared behind the middle-aged man. His speed was so fast that no one could easily catch his trajectory. Even the middle-aged man was shocked. It seemed that these people were not useless. The others were on the verge of a mental breakdown. It was obvious that the third uncle of the Jilang family was going to clean up these people, but he actually asked them to bring out fireworks to welcome them. This was the first time they had seen people like this, who remained calm in the face of the Jiro family. Now they could finally see that these people were not scared silly, but really not afraid. He did not know what kind of family would not be afraid of the Jiro family's existence. Even those first-class families had to give their Jiro family some face. "Crazy ..." The third uncle of the Jiro family's expression changed drastically, as if he had been greatly humiliated. The others didn't know why he had suddenly become angry. Only the person in question knew that Toslitan's words were extremely insulting. They laughed at him for coming to die, and even said that they would welcome him with fireworks. These people in front of them were even more arrogant than them. He took out a pistol that was exactly the same as the one before. Each of them was a sharpshooter, and they had a hundred percent accuracy. He had to blow up their heads one by one. "Be careful, this is a venomous snake. If you're not careful, you'll be injured by him!" The frog's worried words were like

a wisp of smoke. Even the others heard it. Zhou Hao knew that he had to remind George and Toraltar. No matter who among the three was injured, they wouldn't be able to achieve their goal this time. The frog was also thinking about the overall situation. He had never appeared in the eyes of others. Everyone thought that it was an expert hiding in the dark, and they were all very shocked. They were even more afraid of the gun of the Lang family's third uncle, afraid that they would be killed if they missed. Everyone scattered and ran far away. When Immortals fought, mortals suffered. They didn't want to die in vain. Zhou Hao looked at these people and couldn't help but sigh. No matter where they were, these people didn't have much humanity. When they had been bullied for a long time, they had never thought of standing up to resist. They could only silently bear all this unfair treatment. This was the slave nature of human nature. No matter which planet they were on, it would be fully reflected by these people. Just thinking about it made him feel sad for them! If they didn't die out under the long-term oppression, they would explode under the long-term oppression. It seemed that these people had slowly gotten used to being oppressed. Even if these people put forward some unreasonable conditions, they would still be able to fulfill them. Looking at these people, they couldn't help but sigh. "These people don't know how to resist. One day, they will directly die in this world!" It was the same no matter where he was. Zhou Hao couldn't help but sigh. These people were too pitiful. George also suddenly realized this important problem. If everyone stood up together to resist these arrogant people, there was nothing they could do. Toslytan once again played a very important role, instantly grabbing the pistol in the hands of the third uncle of the Jilang family. This kind of speed was like a ghost, making it impossible to guard against. No one knew what had happened, and even the person involved didn't know why the pistol in his hand had disappeared. "Did you see that? I knew it was these people who did it!" Jiro Lala screamed. This was the case previously. He had accidentally lost the treasure in his hand, and he didn't even know who had taken it away under the watchful eyes of the crowd. Now, her third uncle was the same. Just thinking about it made him feel like he was a ghost. He was so scared that he didn't dare to act rashly.

## Chapter 781

*Chapter 781: I'm begging you, have mercy*

"Third uncle, is this a human?" Jiro Lala's voice trembled slightly. This time, he didn't see clearly who did it even when he was standing at the side. It was as if no one had moved, which made her feel extremely terrified. She had experienced this feeling of helplessness before, but she didn't expect her third uncle to feel the same way. They didn't even see who had done it. Zhou Hao looked at their dumbfounded expressions and couldn't help but smile. They didn't even know who did it, yet they dared to say that they were the scapegoats. His imagination was really running wild! Now, not only Jiro

Lala was afraid, but even her third uncle couldn't help but break out in a cold sweat. Fortunately, the other party only snatched the gun from his hand. If he were to casually give him a fatal blow, he would only be waiting for death. "I don't know who this expert is, but I beg you to be magnanimous. My jilang family will definitely reward you handsomely!" The second uncle of the jilang family knew that there must be other experts on the side. To be able to do this, in addition to his superb strength, he also had some kind of weapon that they could not imagine. Otherwise, how could they not have caught a trace of him? Toslitan secretly lowered his head and couldn't help but laugh. He didn't expect that just by showing off a few moves, he would scare these people out of their wits. He originally didn't want to argue with them, but they actually dared to provoke him. "Don't you know that it's easy to invite a God, but hard to send one away?" Toslitan muttered softly. This kind of thing was at his fingertips, and there was not much difficulty. Not to mention these few people, even those who had powerful weapons could easily succeed. It was just like the time with the Charlie family. Their technology was more advanced than here, and they could also get their treasures. "If you have the ability to steal it, then don't leave it on me!" Zhou Hao was speechless. Every time he successfully got it, he would put it in his pocket. This was to let others take advantage of the opportunity to catch him in the act. What else could he say when he was caught red-handed? "This is a gift for you. Don't be ungrateful and repay you for the good wine and food you gave me before!" Toslitan said it matter-of-factly, as if these things were his. George looked at the two of them whispering to each other. He didn't know what they were discussing, but his intuition told him that what had just happened was definitely related to the thief God in front of him. However, now wasn't the time to expose the thief God's identity. Even if the thief God had made a move, he would still cheer for him. If it weren't for these people's constant provocation, he wouldn't have done such a thing. No matter what, these people deserved it. "Sir, please return our treasure. No matter what conditions you have, we will agree to them!" Even the second uncle of the Jiro family could not believe what he had just said. Once he found out who did it, he would not let the other party off easily. Even if he had to go to the ends of the earth, he would hunt him down. Challenging their dignity in front of liangzhong's eyes, if they didn't show the other party some strength, they would see if they knew how high the sky was and how deep the earth was. "He thinks everyone is an idiot and believes his nonsense. Who doesn't know the darkness in his eyes?" "This kind of person is like a venomous snake. If he gets the chance, he will not hesitate to take the other party's life." Toslitan said to Zhou Hao in a low voice. Since he had the ability to snatch a powerful weapon from their hands, how could he walk into a trap and stand up? did he like his quick and small gains? Only an idiot would throw away a watermelon to pick up a sesame seed. "I'm afraid you're that kind of person. " Zhou Hao's serious words almost made him faint. He finally understood what it meant to be better off dead than alive. With the Demon King Zhou Hao by his side, he could forget about having a good day. It was a good sentence, but when it came out of Zhou Hao's mouth, it had a different meaning. He rolled his eyes helplessly and was infuriated to death. Zhou Hao had not given him any benefits since their first meeting. In a battle of wits and courage, he was not Zhou Hao's opponent. He wondered when he would be able to take the upper hand. However, Zhou Hao could never match up to his superb stealing skills. He was very proud of this. George looked at the angry toslitan and knew that he must have suffered a loss again

under Zhou Hao's words, otherwise he wouldn't be in such a state. After spending some time together, they had developed a tacit understanding. If it wasn't for the fact that it wasn't the right time, George would have gone over to discuss it with the two of them and let toslytan show it again so that he could see how he did it. Previously, it felt as if the weapon in his hand had disappeared after a gust of wind. "Take them back and do a thorough check!" The eyes of the second uncle of the jilang family were filled with a storm, so cold that it made people feel uncomfortable. He wanted to capture a few people without distinguishing right from wrong. This style of doing things was exactly the same as his family's style. There was no doubt that he was not from the jilang family. Some of the people around them were worried, while others folded their arms and watched the show. "You're so thick-skinned! You can do it as you wish and search my body as you wish!" Zhou Hao did not give him any face. Since he wanted this, then it didn't matter. He had to let him know who he shouldn't provoke. He had to take full responsibility for what he had done today. The Jiro family was already used to being high and mighty. Not to mention this place, even on the entire planet, their family had a certain status. No one dared to speak to them so brazenly. He didn't expect to meet three poor losers today who dared to speak to him so brazenly. The powerful scanner on his body had already indicated that the three of them did not have any powerful weapons on them, which was the reason why he dared to be so unscrupulous. In the beginning, he was a little jealous. Seeing that everyone's aura was extraordinary, he was afraid that they were people from the big families who had come out to train. Moreover, people from the big families often came to this place. He was relieved when he found that they didn't have any powerful weapons on them. The most unique feature of their planet's weapons was their speed. No matter how strong a person was, they would not be able to catch the trajectory of such speed. It could also turn, unlike the weapons on other planets that could only come and go. Most of these weapons came from their families. He wanted to see how capable these three people were to avoid their ultimate weapons. The spear earlier was just one of his proudest works! They had to let these people see how powerful they were.

## Chapter 782

*Chapter 782:-framed*

He took out a very delicate bow and arrow from his arms, which looked like a child's toy at first glance. Everyone present knew that they were going to the ultimate weapon that their family had just invented. This weapon was so fast that even lightning couldn't keep up with it. It had always been an instant weapon, and it was powerful enough to raze an entire mountain to the ground in an instant. Everyone's expression changed drastically.

They didn't expect that these people would actually bring this weapon in with the intention of taking everyone's lives. "This is strange. This weapon 4 doesn't look like it. However, I'm afraid that even a thief God can't match its speed!" The frog was very surprised. Such a powerful weapon had never appeared before, and it was actually discovered on this planet. Not only was it fast, but it was also powerful. It was no wonder that these people were so afraid of the Red Wolves clan. They did have the right to be proud. Even the ultimate weapon in their hands was something they were proud of, let alone the small pistol just now. "Oh, I know. This is called the ultimate speed bomb!" The frog was no longer as surprised as before, as if it had seen it before. As the name suggested, their speed was comparable to light and electricity. It was just one of the bombs, and its power was more than ten times stronger than normal bombs. If he exploded, no one present would have a chance of survival. Compared to this kind of energy control, they were far behind and even had no confidence. Even their own lives were in danger. Under normal circumstances, they would not easily take it out and use it, unless they thought it was a very important moment. Now, he had taken it out of his own accord in order to intimidate the expert hiding in the dark. The person who could snatch something from their hands was definitely not simple. He had to do this to have a chance of victory. This was a battle of wits and courage. Zhou Hao wasn't surprised that the frog could recognize him. No matter where the frog was, it could recognize those things. Sometimes, Zhou Hao wanted to pry open the frog's head to see what was inside. Otherwise, how could it recognize everything? "Second brother, isn't this a bit too risky?" Jiro's third uncle looked on with a face full of worry, because he was also afraid of death. He was well aware of the power of this thing. If it was used for a period of time, none of these people would have a chance of survival. "Jiro pudding, no matter what happens, you have to face it calmly!" Looking at his brother who was as timid as a mouse, he was speechless. The enemy was not afraid, but his own people were. He didn't know how his brother usually dealt with those people. At this time, he had to stay calm and act as if nothing had happened. He didn't dare to use it easily, and he didn't want to die. He just wanted to blow up the expert in the dark. He didn't even know where he was now, so he used this method to make the other party Panic. "We don't need your scrap metal. I have more treasures than you!" Tositan looked at the arrogant second master of the jilang family. She didn't know who gave him the courage. Even though the weapon in his hand was a little stronger, he was so poor that he had nothing valuable on him. Yet, he still dared to shout here. When everyone heard this, they took a closer look at the various treasures hanging on this unremarkable man, as if he was in an exhibition hall. Many people didn't know if this person was brainless or too rich. Such a blatant show of wealth was only giving others an opportunity to take advantage of. The eyes of the jilang family turned red. They could tell that anything that toslytan took out was worth a fortune. Their eyes were filled with envy, jealousy, and hatred. Previously, he had wanted them to take the blame, but now, he couldn't let them go. He had to get all these treasures. Only the jilang family had the right to own these treasures, and everyone's eyes were filled with greed. As long as they could capture these people, they would not have to worry about not having money. Even if they lost the treasures in the family, they would be given a way out because of the treasures, and they would even be given corresponding rewards. The second and third uncles of the lecherous family couldn't help but feel excited when they thought about this. It was as if

they had found a way to make a fortune. "You see, these treasures on me are still very popular. You think everyone is like you, not even looking at them!" Toslitan grumbled. He had wanted to give the treasures he had to Zhou Hao, but Zhou Hao had coldly said that they belonged to someone else and then threw them back. For a moment, he felt that these were not treasures but a pile of broken bricks and tiles. He felt extremely depressed in his heart. Now, he finally knew that these things were the real treasures. Indeed, a wise eye recognizes a hero. A fool like Zhou Hao had no idea how valuable these things were. He only knew how to hold his broken things and study them all day. George couldn't help but want to give him a punch when he heard what Toslitan said. Before they came back, they had been at odds with others, and now they were the target of public criticism. He was simply infuriated to death. Now that they had all become everyone's enemies, it might not be easy for them to leave. Four weeks looked at the gazes of those people, and sure enough, a strange expression flashed on everyone's face. If there was a lot of wealth in front of them, they would be fools to not want it. Otherwise, how could he travel thousands of miles to this place and be bullied by such a large family to enter to find the treasure? Those were all unknown things, but the treasures on Torsnetan's body really existed. As long as they had the ability to get their hands on them, they would be theirs. "Come and take it. If you have the ability, these things are all yours!" "I wanted to share these things with all of you before, but the Jiro family didn't allow it, so I had no choice!" Tuo Si Li Tan said as he looked at these people with a wronged expression. Even if these people weren't very strong, there were too many of them, and the Lang family was still a bit apprehensive. Otherwise, he wouldn't have asked them to enter the mountain to steal the treasure for such a small fee. This trick of dragging Toslitan was really too brilliant. "W-what did you just say?" The second uncle of the Jiro family looked at Toslitan in disbelief. He finally understood why he had exposed his wealth so naturally. It was to frame them in the opposite direction, and Tuo Si Li Tan was actually on the same side as them. He felt the unfriendly gazes from all around him, and his scalp went numb. "Stop pretending, these treasures all belong to your Jiro family!" As he said this, he felt very wronged.

## Chapter 783

*Chapter 783:-attacking as a group*

They thought that they were all in the same group, so they teamed up to deceive them. These things all belonged to the Jiro family, and now they actually did such a thing to make them take the bait. Everyone glared at the middle-aged man in front of them with anger. They felt that he had gone too far. He actually wanted to use this method to capture all of them in one fell swoop. He had thought that they were only after some

money, but now he suddenly realized that the Jiro family wanted all their abilities. Even if their strength was not high, and the weapons they had were not too good, they would not be afraid if they had to fight to the death. "Now that you've been found out, you actually want to silence us. We've had a good deal when we worked for you!" Not only was he a thief God, but he was also a very good actor. With endless grievances on his face, everyone could tell at a glance that he must have suffered a great grievance. Everyone's eyes turned from anger to sympathy. It turned out that these people had also been used. Before this, they had thought that they were not in the same group, and yet they dared to challenge the dignity of the natural family so easily. In the end, it had all been a show. They had seen with their own eyes everything the wolf Clan had paid for this matter, and they had even placed so many treasures on one person. This kind of thought was extremely vicious. If he had met a powerful person, he would definitely have killed them and stolen their goods. It was just that no one had been interested in the things on toslitan's body before. It was the other party's people who had unspeakable grievances. They were still in the clouds and didn't know what had happened. Suddenly, everyone's hatred was directed at them. The three of them were playing a good game, so even if they wanted to explain, they had no evidence. Besides, the jilang family had always done whatever they wanted, so there was no need to explain. "You ... You ... You really ..." The second uncle of the Jiro family stammered. Even his words were not very smooth. He had never met such shameless people before. He was so angry. Now, they couldn't shut these people's mouths rashly. They had coveted other people's treasures before, but now they had to kill them to silence them. In the previous situation, they could just split the benefits. Now, in the eyes of others, they had become self-directed and self-acting people. Even if they were to give those people benefits, they would not dare to take it. "What am I doing? you can do this kind of thing, but you can't say it?" Toslitan was older to begin with, and the aggrieved look on his face was even more pitiful. "He's really too pitiful. At such an old age, he's still risking his life for this kind of cruel and unscrupulous person. He's really blind!" "That's right, that person doesn't have a heart at all. " ..... Everyone was criticizing the heartless jilang family. When they were working for them, they promised all kinds of benefits, and when they saw that the matter had been exposed, they wanted to kill them to silence them. It was really shameful. George almost laughed his head off. He finally understood why tussletan had revealed all of his treasures. At first, he thought that the girl group must be out of their minds to show all their treasures to others, and they would be hunted down countless times in the future. They had been grumbling in their hearts, but they didn't expect him to pull this trick so smoothly. Now, the three of them had become victims, and they looked at the ordinary clothes on tu Litan's body. He was not like someone who had so many treasures, so when he said it, everyone subconsciously chose to believe him. No one would believe the Jiro family. He couldn't help but want to give a thumbs up to this Hall. No wonder such a smart person could get away with it for so many years. These people only knew his name, but they had never seen his real face. "He's also a black-hearted King. To be able to do such a thing!" Zhou Hao knew that this guy wasn't a simple character. He always had a motive for everything he did. There was also a certain purpose in doing this. He wanted to let the Jiro family have a good time. Otherwise, they would not be able to live up to their arrogant and domineering appearance before. He even gave all his treasures to Wolf

eater's second uncle. He had to put on a show, and he could take them back whenever he wanted. Under everyone's watchful eyes, he turned around and left after handing over all his things to the red wolf Clan as if those things didn't belong to him. Even George and Zhou Hao felt that the world was a little messy. They knew that he didn't really like those treasures, but he wouldn't throw them away like garbage. That was something that was worth cities. "Al ... Al ..." The people from the intelligent family clan felt as if a pie had fallen from the sky and landed on them. Even if these people knew that they had these treasures on them, it would be fine. Who asked them to have weapons so powerful that these people were afraid of them? any one of them could kill all of them, and they were indescribably happy. Looking at the backs of the three people, they felt like they were in a dream. It was not until the three people disappeared that they slowly came back to their senses. All the treasures were in the hands of the second uncle of the Jiro family. This was because he was the oldest, most qualified, and most powerful person! Even if the others wanted to take a look, they didn't have the qualifications. When the others saw that there was no hope, they dispersed. From this moment on, their families were in a huge crisis. The other big families had also heard about this matter. If they had the opportunity, they would definitely try to get their hands on those treasures. They had only come here for those priceless treasures. They didn't expect the wolf Clan to be so lucky and obtain so many good things. Even if others said that it was their own, only ordinary people would believe such an excuse. People from large families like them would not believe it at all. No family was stupid enough to put all their treasures out in the open and let everyone know that those things would bring endless trouble to people. "Godly thief, are you really willing to give all those things to those people?" George was very curious as he looked at the high-spirited middle-aged man in front of him. Although he usually showed that he didn't like these things, he really wanted to give them to others. It really made one's heart ache a little, especially those ungrateful people from the Jiro family. In the face of George's doubts, toraltar didn't explain much. Since they dared to bully them, they had to let them know how strong they were. Don't think that a big family like theirs can bully others as they please. On the entire planet, their Jiro family is not the only dominant family. Zhou Hao didn't ask any more questions, because this was all within his expectations. If he didn't have the ability, he wouldn't have been able to escape for so many years.

## Chapter 784 - Shocking news

*Chapter 784: Shocking news*

Many years ago, toslitan had possessed extraordinary intelligence, and it was not as if no one had been able to capture him, but his intelligence was too high. Even if those

people caught him, they couldn't hold him back. They just watched him escape, so they slowly became the most important wanted man in the universe. Every time they thought of this person, they would have a headache. Some families wanted to catch him personally, but they couldn't bring themselves to do so. They were afraid of being laughed at if they failed. "After this incident, you will know that they will not let this matter of them bullying us go!" Tositan had his own plans. Those people were too arrogant, and they had to be taught a good lesson. They were not existences that they could easily provoke. George didn't ask further. He just hadn't thought it through yet, but there must be a certain effect. Otherwise, why would someone like you, who would only get up early if there was no benefit to be gained, take the initiative to give out those things? Zhou Hao was the only one who didn't ask anything along the way. It was as if all of this had nothing to do with him. He didn't have any questions, nor did he have any opinions. Along the way, they didn't ask where they were going. Not long after they got to the garage, suritan pulled out a map from somewhere. It was the treasure map they were looking for. The two of them didn't notice anything before this fresh and Rustic Map was in their hands. The speed of the map surprised them. He had really underestimated him. The two of them had not left the place at all along the way, but he did not know how this traitor had done it. "Take a look, what do you think?" Like a child who loved to show off, toslitan placed the map in Zhou Hao's hand. He knew that no matter how fast he was, he would not be able to escape from Zhou Hao. The only way was to make Zhou Hao let him go willingly. Now, he had an even bolder idea. He did not want to leave Zhou Hao and wanted to follow him forever. "It really is a treasure map, and it's not far from here!" The frog was very surprised. Although he had known about the existence of the treasure map, he was still a little shocked to see it with his own eyes. If it weren't for the frog, Zhou Hao wouldn't have understood what the hell was on the map. There were only a few simple lines on it, and there were no symbolic objects around it. There were mountains and rivers, which looked like a simple painting. If the military counselor frog was by his side, he would know everything clearly with this map. "What the hell is this drawing? why can't I understand it?" George was ridiculing from the side. He also admired this thief God's ability to be able to find this place with just this simple map. No wonder such a person could be a wanted criminal in this space. Not many people could achieve this kind of ability. Even he, who had seen all kinds of maps since he was a child, was a little helpless when facing this map. Toslitan had only understood the position of the center of the outer area, but he had not understood it at all, so he had failed several times. However, he believed that the treasure map must be real. Otherwise, why would so many people come to their deaths? "You keep this map. From now on, it has nothing to do with me!" It was as if toslitan had thrown away a hot potato. This treasure map had caused him to feel uneasy for so many years. Now that he had given it to Zhou Hao, he felt a lot more relaxed. He no longer had to worry about the treasure map falling into the hands of those with ill intentions. In fact, he had never been a big villain. It was just that he had a certain misunderstanding with those people and had a conflict of interest, so he had gone all over the world to catch it. Zhou Hao didn't delay and threw the treasure map into the Luo divine boat. Unless he died, no one would be able to find it. "I'm hungry!" Tuo Si Li Tan sat on the ground and did not leave. He felt like he missed the good food and wine again. His half a month on the divine boat was much better, and he was drunk every day. It was impossible to eat outside now

even if they wanted to. They could only eat a little dry food when they looked around. "I'll make do with barbecuing meat tonight!" Zhou Hao looked around and saw that there were still some small wild beasts around. He did not want to expose the fact that he had landed on the ship unless it was necessary. Toslitan's eyes turned. He seemed to have thought of something, but he said that he was going out to catch some Beastie. Looking at his back in a hurry, he knew that this guy was definitely going out to do something. Perhaps he wanted to take the opportunity to escape, but Zhou Hao did not care. He had already gotten what he wanted. If he went out alone, he would definitely be hunted down by those people. As long as one wasn't an idiot, they would definitely not do such a losing business. "No matter how cunning you are, you're afraid of doing things here!" George didn't say much and looked around, preparing everything that needed to be prepared. They no longer placed any hope on him, afraid that he would make a mistake and run off on his own. There was nothing they could do, and they could not possibly wait for him to return on an empty stomach. With the existence of the frog, it would be a piece of cake for Zhou Hao to capture these things. He caught a few rabbits in one go. The two of them drooled as they sat by the fire. It was a funny sight, especially for George, who had never tasted such delicious food before. The barbecue ingredients were brought up by Zhou Hao from Earth Star. There were many things that didn't exist on other planets. This fragrance spread far and wide, arousing the appetite of many people. "What is this?" George held the powder-like thing in his hand, and he smelled a strange smell. "Chili powder!" Zhou Hao didn't even raise his head as he spoke. These things could be seen everywhere on Earth Star, and everyone liked them. However, they were very rare in this place, and he didn't even exist. George's tears flowed down after eating a little spiciness. He had also truly seen how powerful the red powder was, and there was a little fear in his eyes. Seeing how Zhou Hao kept applying this substance on the rabbit, he felt that he would definitely not be able to eat this meal. He had just tried a little, but it was too spicy. "Have you two eaten yet? I went out to do something!" Just as the rabbit was about to be cooked, the voice of silitan came from far away. He could smell this alluring smell from a long distance away. He knew that these two brats must have not had dinner yet and were waiting for him. He sat down on the ground and looked at the rabbits on the shelf with bright eyes. They were all golden now, unlike the ones he had taken before. The meat he had roasted before was all burnt, and it felt strange when he took a bite.

## Chapter 785 - Everyone was stunned

*Chapter 785: Everyone was stunned*

He drooled as he looked at the rabbit, which was still oozing with oil. He looked like a hungry wolf that had not eaten for a long time. The two of them didn't ask him what he was doing, but it was obvious that he was going back to his old profession. No wonder

he had been so bold to throw all these things to others. "You really can take back these things whenever you want!" George also noticed the change in this detail. He really didn't know how fast the godly thief was, to be able to return so quickly. "There might be a shocking piece of news coming out soon, that is, the jilang family has lost a lot of treasures!" George had a faint smile on his face. It was as if the news had not surprised him at all, and he had said it very calmly. Now, he finally understood what toraltar's purpose was for doing this. It was to throw all the treasures in his hands to the people of the red wolf Clan in front of everyone and take them back secretly. Those people only saw the treasures being thrown, not the treasures being stolen. Based on their previous style of doing things, they were definitely sticking to their own principles and stealing. It was just like how they claimed that their treasures belonged to someone else. No one would believe their excuses. The fact that toslitan was actually a thief God was something that people couldn't help but admire. "Can we eat now?" When toslytan saw food, he couldn't move. Looking at these rabbits, his saliva was about to fall out. He couldn't wait to reach out and take it. This fragrance was something he had never eaten before. Seeing Zhou Hao applying all sorts of strange things to the rabbit, he was very curious. Just like George, he was like a curious baby, applying everything. Looking at these strange bottles and jars, he felt that they were much more valuable than the treasures hanging on his body. He might as well throw them all away. "Can you give me a little bit of your ingredients? I'll take all these treasures!" "Besides, if others see that these treasures are on me, wouldn't it be a waste of effort?" I've already thought of all these excuses for toslytan. What he wanted the most was these ingredients. Those treasures were just worldly possessions to him, and only food could tempt him. Zhou Hao looked at the way he threw the treasures on the ground and wanted to give him a good beating. Since he didn't like these things, he had to put in so much effort to get them. This was simply asking for a beating. Now, it was thrown on the ground like useless garbage. The most important thing was that there were a few ultimate weapons inside that could kill people invisibly. Once these things were taken out, it would definitely cause a great sensation. He even got it from charade, and he didn't even know when he stole it. Seeing how eager he was, she didn't say anything. It would be better if she had some wine to go with him, but now was not a good time to drink. After Zhou Hao nodded his head, the two of them eagerly took a bite of the rabbit's leg. The feeling surprised them. The meat was crispy on the outside and tender on the inside. The fresh meat was unforgettable, and there was a fragrance that they couldn't describe. George had tasted the power of the chili powder before. Now, he didn't feel any spiciness. He only felt that the fragrance that refreshed his heart made him unable to stop. "It's so delicious. Why did you come back at this time? if you want to take the treasures, then take them for a while longer!" George felt that the other rabbits were being eyed by others. These were all his favorite things, and he was very unhappy that they were given away for no reason, especially when he had to drag slytan somewhere to fool around while he was having a hard time dealing with these rabbits. But now, he had come back as soon as he started eating, and he even wanted to pick the biggest and fattest ones to eat. This made George feel threatened like he had never felt before. Zhou Hao took a rabbit and sat at the side, eating slowly. He looked like a gentleman from a big family. Even if it was just a rabbit in his hand, he felt as elegant as if he was eating a delicacy. It was a sharp contrast to the two people in front of him. The two

people were wolfing down their food, not paying attention to their image and had forgotten what was what. Only when they were full would they know what elegance was. One of them was afraid that the other would finish it, so they looked at the rabbit meat on the fire rack with stars in their eyes. "Zhou Hao, you should hurry up and eat too. Otherwise, this old fart will finish it all!" George wiped the grease off his mouth while beckoning Zhou Hao to eat quickly. He was afraid that he would drag silitan down too quickly and Zhou Hao would not have anything to eat. "This leg meat is for you, it's fat and fragrant!" It wasn't you who watched Zhou Hao take a rabbit and hand him the rabbit leg that he had just torn off. Although he felt very reluctant in his heart, since he had decided to follow Zhou Hao in the future, he had to be willing to part with it. There were countless delicious meat like chicken. With that thought in mind, he did not feel as pained as before. He handed it over very generously. Even Zhou Hao felt very strange. The godly thief had always been a miser before. When did he become so generous? he actually took the initiative to share the rabbit meat. He looked at the horizon and saw that the sun had indeed risen from the West. The godly thief was good at everything, but he didn't like treasures or money. The only thing was that he was too protective of his food. It was harder than ascending to heaven to take out the food that was in his hands! Therefore, now that he was actually willing to give her such a big piece of meat, she was a little suspicious that he must have ulterior motives and must have done something outrageous. "Just tell me what you want. I'm a little scared of you!" Zhou Hao looked at the rabbit leg in front of him with a confused expression. It seemed to taste pretty good, but the thief God was a little suspicious! "I don't have any purpose. It's just that you worked too hard, so I'll share some with you!" Tuo Si Li Tan would rather die than say it out loud. In order to be able to live a good life with Zhou Hao in the future, he was willing to part with this treasure. He couldn't get rid of the delicious food and fine wine in Zhou Hao's Luo divine boat. His liquor worm was aroused, but now was not the time to drink. Zhou Hao saw his sincere look and accepted the gift. However, he saw a glint in his eyes. It was fine as long as he did not have any bad intentions. The few of them had a very Happy Meal, but the territory of the Jiro family was not so happy. They suddenly discovered that the treasures on them were gone. Everyone had placed their treasures on their second uncle's body. Later on, they thought that it wasn't safe, so everyone put a little on their body. They didn't expect that everyone would come back and say that their treasures were gone.

## Chapter 786

*Chapter 786:-full investigation*

In the beginning, the others thought that the person who said the treasure was missing had secretly collected the treasure. Later, they realized that theirs were also missing. Everyone was shocked. This kind of thing had never happened before. They were afraid

that there was something unsafe, so they separated the treasures. They did not expect that an accident would happen again. It was like a bolt out of the blue for everyone. If they could not find it, what awaited them when they returned to their families would be severe punishment. These treasures were already theirs, but they didn't know who had the ability to steal them from their hands. "Second uncle, I think this matter is too strange!" Jilang Lala stood below with a pale face, looking at the middle-aged man with a storm-like face standing on top as if he was going to eat them. They didn't want such a thing to happen either. However, after they woke up from their sleep, they found that all the things on their bodies were gone. When they came out to ask, they found that everyone's belongings were gone. Even if they were punished, it would not be too serious. That was why they quickly came to inform their second uncle. Looking at the gloomy middle-aged man and the others, no one dared to speak, afraid that they would disappear from this world the next second. The power of this second uncle in front of them and the weapon that could make people disappear made them tremble with fear, so they had to pay attention every time they saw his cold eyes. "We only took a nap and realized that all our things were gone!" A young man from the Jiro family muttered softly. Originally, those things wouldn't have been given to them. It was this second uncle in front of them who asked each of them to manage one. At that time, they felt that they had been chosen, but now they realized that it was a gift. Second uncle and third uncle kept walking around in circles. Not only did they lose the family's treasure, but they also lost all the treasures they had obtained. It was unbelievable. At the same time, they were extremely afraid. The punishment from the family would be unforgettable. They were afraid of the elders of the family, just like how the juniors were afraid of them. They could disappear if they were not careful. They were all a little scared now. The only thing he could do was to quickly find the whereabouts of these things, even if he had to turn the entire mountain over. Thinking of this, a figure appeared in second uncle's mind. It was the man in his forties who had been standing next to Zhou Hao. At first glance, he looked very inconspicuous and a little thin. He didn't know why he suddenly thought of him. It was because he took the initiative to stand up and throw all these treasures on the ground, which led to this problem now. Those treasures did not belong to the Jiro family in the first place, and the most important thing now was to get back the two pistols, which were the family's most precious treasures. Otherwise, they would not be able to escape the blame. Looking at the anxious faces of these young people, his heart was even more confused. "Go and find it, even if you have to turn the entire mountain upside down!" In fact, these young people knew that what they were looking for were those treasures, but what Jiro's second uncle was looking for was one of their family's treasures, the pistol. They were all treasures. Even if they found the Otaku who stole the treasure, they could blame everything on him. It was not the first time they had done this. After everyone received the order, they hurriedly went out to look for it. They didn't care if they had eaten or if it was night. As long as they could stay alive, it was good enough. They were afraid that they would die without a sound if they were not careful. Everyone fought to find those people, not because they were eager, but because they were afraid of death. "The descendants of the family are really capable. No matter when and where, they're always so positive!" Jiro's third uncle looked at these young people who were fighting to be the first with a gratified expression. He didn't see clearly why these young people were so enthusiastic, but Jiro's second uncle

knew very well that they were all afraid of death, so they were fighting to be the first to go out. He would never think positively about anything. No matter how outstanding these young people were, it had little to do with him. When it was necessary, even if it was his own son, he still had to make use of the young people in the family. "Lala, what are you still doing here? don't you think you're responsible?" Jiro's second uncle looked at Jiro Lala with a cold expression. It was because she had the guts to take out the family's treasure that caused all this. Now, he could see through it. There was definitely something strange about those three people. Jilang Lala had always been an arrogant and despotic existence. If she had not easily provoked those three people, how could she have lost the other treasure of the family? When she thought of this, she didn't have a good expression. Even if she was her own niece, she felt very angry. This kind of child had to be taught a harsh lesson. Previously, he had been grinning from ear to ear when he had gotten all the benefits. Now that there was a problem, he would find all kinds of reasons to push all the mistakes onto the other party. This was what they had always done! "I, I don't dare to do it in such a dark night!" Although Jiro Lala was usually arrogant and domineering, he was still very afraid when he had to face the dark night alone. Moreover, the two people in front of her were his uncles. How could he let her search for the person in the dark like others? it was like looking for a needle in a haystack. With such superb strength, even if they were discovered, they would definitely be killed. After hearing Jiro Lala's words, his expression became even uglier. He had caused a disaster, and he still had the right to say that he was afraid. If he didn't teach him a lesson, he really didn't know his place. "Scared? Do you still know how to write fear?" "I thought you were no longer afraid of anything. You're so bold that you even dared to steal the family's treasure!" Without anyone else, Jiro's second uncle also spoke without any reservations. Now, they were actually acting pitiful in front of him. This kind of child was of no use. He was already very tired of them only knowing how to cause trouble. "Big brother, Lala is still a child, don't be too harsh, big brother is still waiting for us at home!" Jiro's third uncle reminded him. No matter how angry they were, they couldn't go too far, because their big brother was still at home safe and sound. They had brought this niece out because they wanted to make good use of her. It wasn't because he liked this arrogant and domineering niece who had no good points at all, but because she could be of some use. After hearing this, Jiro's second uncle's expression became a little better. He felt that this matter was really not easy to deal with.

## **Chapter 787 - Disappeared from sight**

## *Chapter 787: Disappeared from sight*

Only then did he suddenly remember the purpose of their visit. It was to see how much trouble this niece of his had caused, and his father was still there to hold her back. These things shouldn't be made by the two of them! Now, they weren't as anxious as before. As long as there was someone to take the blame for them, it would be fine. Just thinking about it made them happy. "Lala, it's second uncle who was too impatient and lost his sense of propriety!" Jiro's second uncle's expression immediately changed, as if he was a loving elder. Jiro Lala had felt like she had fallen into an ice cellar for a moment, but after third uncle spoke, her mood changed. Seeing that second uncle seemed to have returned to his usual self, she also felt relieved. All along, she felt that these two uncles treated her better than her own father. Sometimes, he felt that she was their biological daughter and her father was just a stepfather. This thought had appeared in her heart more than once. No matter how big of a trouble she caused, his two uncles would do their best to bear it for her. Her father would only beat her half to death and make her think about why she had made a mistake so that she would not make such a mistake in the future. It was because of her two uncles' endless love that she had developed an arrogant and domineering character that was not afraid of anything. Now, she had finally caused such a big disaster. They both thought that her two uncles would definitely settle things for her, so he was not in a worried mood. He still ate and drank as usual, and he still wanted to sleep when he should. He didn't even look worried! However, what she didn't know was that these two uncles were actually two people with a human face and a beast heart. They were using her to control her father. The bigger the trouble she caused, the better. She would definitely give her father a fatal blow. "Second uncle, I knew you loved me the most!" Jiro Lala hugged Jiro's second uncle's arm coyly, like an innocent child. Her big-breasted but brainless personality was also cultivated by the two of them since young. Her father was busy with family matters and by the time he found out, it was already too late. Until now, he had allowed her to develop as she pleased. As long as she didn't do anything unforgivable, she didn't stop her. So, she indulged him infinitely and indulged him to do those things. She didn't see the sinister look in Jiro's eyes. The two of them exchanged a glance and knew what to do next. Even if they couldn't find any trace of that person, they had to put on an act, and also spread the news that Jilang Lala had lost the treasure. The two of us have already planned everything out. The only thing I can do is wait. .... A night passed, and no one received any news. They didn't even encounter a wild beast, let alone a living person. It also made them feel at ease. When everyone went out together, they would form groups, afraid that they would fall into the hands of the other party. When uncle Wolf two heard that there was no news about these people, he was so angry that he almost killed them. A night had passed, and these useless people had not found any useful information. "Did you guys go slacking off? tell me, did you go to sleep?" Jiro's second uncle looked at the people in front of him very sternly. There was an unspeakable anger in his heart. These people were too useless. Even if he couldn't catch them, he should at least find some clues. These people were scared out of their wits. They had been out running for the whole night, and when they came back, they had to face Jiro's second uncle's fierce look. They regretted coming out with these two people this time. They had thought that this was an opportunity to dig out

some treasures here, and they would definitely get a share. What he didn't expect was that before he entered the center of the mountain range, this kind of thing would happen. Moreover, it was stolen by an unknown master. They were almost scared out of their wits. This kind of thing made them feel afraid. Now that they were back, they were even more terrified and uneasy to face Jiro's second uncle, who was like a demon. They had not noticed such a fierce side of him before. Jiro's second uncle had always treated these people with a very gentle expression, so no matter where he went, a large group of people would follow him. This time, his attitude had changed the three views of these people. He was no longer gentle and elegant, but rather like those demons when facing them. "Second uncle, we didn't slack off. We've been searching for those people's tracks all night!" A slightly older young man stood out and explained. They had worked hard the whole night, and they couldn't let their brothers be wronged like this, not even Jilang's second uncle. They searched every corner but did not find anyone suspicious, except for Zhou Hao and the other two, who were sitting by the fire and eating the delicious rabbit meat. They were drooling and almost couldn't help but rush out to ask for a bite of food. They didn't eat for an entire night and were forced to go out to find the hateful person who stole the treasure. Others, on the other hand, could sit in place and enjoy such a delicious meal. Now, they had to suffer such inhumane treatment when they returned exhausted. Not only was there no comfort, but it was also making things worse, making them not in a good mood at all. They even regretted what they had done for the Jiro family for so many years. Even if they didn't have any credit, they had worked hard. This was not a mistake they had made in the first place. He had a faint feeling that they were not looking for the thief God because of their stolen treasures. Otherwise, why would they be so anxious? However, he didn't dare to say it without any evidence. "It's been hard on everyone. Quickly go back and rest. Your second uncle is only like this because he's anxious!" Jiro's third uncle saw the unhappy expressions on the young people's faces and quickly stepped forward to explain. It was not a wise move to disappoint these people. Even if they succeeded, they would need the support of these people. Otherwise, it would not be a good thing to become a commander. That was why he quickly stood up to calm these people down. After all, these people had been with them for many years and had been raised by them since they were young. These people only felt a little better after hearing Jiro's third uncle's words. They had been mentally and physically exhausted the entire night. They were tired and hungry, and what they wanted most now was a full meal. Last night, they had seen other people eating and drinking well, so they could only starve in the dark. Now, they had to face Jiro's second uncle's cold face when they came back. Looking at the group of people leaving, Jiro's second uncle's face turned cold, his eyes filled with gloominess. If these people weren't of any use to him, he wouldn't have shown them any mercy. "Second brother, you're too impulsive. These people are still useful!" Jiro's third uncle had a serious expression on his face. The two of them had always wanted to achieve great things.

## Chapter 788 - Hello, we meet again

*Chapter 788: Hello, we meet again*

Jiro's second uncle suddenly thought of the great things they were going to do. It was not the time to be willful yet. These people were the backbone of the group that they had raised since they were young. He had brought them here this time to let them grow even more. He did not expect that he would almost lose his sense of propriety because of this matter. In the face of these hot-blooded young men, if they went too far, they would definitely resist collectively, which would definitely not be worth it. "Third brother, it's a good thing you're by my side, otherwise ..." Suddenly seeing Jilang Lala walk out from inside, she didn't dare to finish her unfinished words. If this news were to reach the family, they would definitely fail, so Lala felt an unspeakable anger when she looked at Jiro in front of her. If it wasn't for the sake of achieving their great goals, how could he possibly have pampered this woman so much since she was young? he just wanted to spoil her. Up until now, he felt very uncomfortable. He was the one who had caused such a big mess this time. Fortunately, the news had spread that it was Jilang Lala who had lost the family's treasure. "Second brother, no matter if it's your family or your subordinates, you must be magnanimous. Otherwise, they'll be disappointed!" Jiro's third uncle knew that his niece was still inside. Besides, he had always been a good talker. No matter what bad things he did, no one could tell. To put it simply, he was a Smiling Tiger. Moreover, he was even more ruthless than his second brother. It was just that he was better at pretending. He would be a good person if his second brother, who always made him lose his temper, showed it. Every time, he would gain the favor of those people, and over time, everyone would be used to his behavior. They would even seek his protection when they were in danger. He felt that he was a safe haven for everyone, and there was nothing he couldn't handle, no matter big or small. "Second uncle, they're really tired. Why don't we let them rest for a while ..." Although Jiro Lala was usually arrogant and domineering, she was really good to these people. Because everyone had grown up with him, they were not blood-related siblings, but they were like blood-related siblings, so he felt a little heartache when he saw these people working hard to run around. Especially when she had to bear the wrath of her second uncle. Just thinking about it made her feel very guilty, because this matter was caused by her. "Lala, 2nd uncle knows. He's just a bit impatient!" Before Lala could finish, Jiro's second uncle hurriedly explained what he had just said. It proved that he didn't do it on purpose. He was just too anxious. The coldness on his face could no longer be seen. He looked like a kind elder. All the gloominess and coldness were instantly cleaned up, making Jiro's third uncle, who was standing at the side, unable to help but be surprised. He had always thought that his second brother was a straightforward person with no mind. He didn't expect her to be able to control her emotions so easily. He even suspected that she had done it on purpose for him to see. He was a suspicious person to begin with. If his second brother became more reserved, he would have to be careful. He would be as difficult to deal with as his big brother. He kept thinking about these things. "That's right, Lala, you know that second uncle is a bit short-tempered!" Jiro's third uncle put these things aside. The most important thing now was to not let others

become suspicious. What they were doing was not something that could be seen in the light. As long as they succeeded, they would have the right to speak. It was just that they had reached a critical moment! After this trip to the treasure, they would have to take action. Since they had obtained this treasure map from a mysterious person, it could be said that they were 100% sure that they would be able to obtain the items. They didn't want to hand over the things they had obtained to their families because they had spent a lot of money to get them. How could those people get them without putting in any effort? Therefore, even if they came here in secret, they had also secretly brought the secret weapons of the family. They must catch those people off guard. "Second uncle, we can't find the whereabouts of those people now. Should we ask the family to send more people?" Jiro Lala's words were also out of consideration for everyone. They felt that they would be able to get the job done easily if they sent their family members to participate. She did not expect her second uncle's expression to suddenly turn extremely dark, as if he had said something he should not have. The coldness in his eyes made her feel unprecedented panic. He had never seen such a cold person before. It was as if he had been thrown into a Cold Lake. She couldn't help but shiver, feeling as if she was about to freeze. She suddenly realized that the second uncle in front of her was very unfamiliar, as if she had never seen him before. The second uncle who had doted on him since he was a child no longer existed. He had already experienced this feeling twice. "If you dare to disclose this to the family, you're dead!" Jiro's second uncle's tone was cold. He gritted his teeth and said those words as if he was going to eat Jiro up the next second. They were all dumbfounded and didn't know what to do. They looked at the strange middle-aged man in front of them in horror as if they had never known him. Jiro's third uncle also felt the strange atmosphere. If he didn't stand up, his pig-like children would also notice the abnormality. "Lala, come here. You can't mention this to the family. You know we want to give them a surprise!" "No matter what difficulties we face now, we have to overcome them ourselves. Otherwise, not only will the surprise turn into a shock, but you also don't want your father to worry about this!" Jiro's third uncle slowly explained the situation to his niece. He was afraid that his second brother's expression would scare the child and make her call back to the family. If the family knew about this, their plan would be completely destroyed. Jiro Lala nodded, his expression dazed, as if he had not recovered from the shock. He felt that everything was too unfamiliar, even if his third uncle had explained it all. Even someone as innocent as her could sense that something was amiss! However, even if she found out that she was facing the two people who had doted on her since she was young, she would believe them unconditionally. She could suspect her father but not the two people in front of her. Her face was the size of a palm, and there was no trace of blood on it, as if she had been frightened by something. The village Secretary was very heartbroken and held her in her arms to comfort her. It was still the same as when he was young! ..... This time, everyone had a treasure map. Without any delay, they set off for the center of the mountain range. He wondered who had the ability to publicize all these treasure maps.

## Chapter 789 - The problem of distribution

*Chapter 789: The problem of distribution*

Almost all the big families that could come here had a treasure map, and their treasure maps were more clear. Under the guidance of the frog, Zhou Hao and the other two walked to the center of the treasure. Along the way, they met many people from different families, but they just passed by without stopping. "Hello, we meet again!" George couldn't help but feel happy when he saw the Jiro family walking over. Previously, he had been set up by Toslitan once, causing him to be unable to sleep for most of the night. Furthermore, he had been questioned by those people one by one about where the treasures had gone. Many people chose to follow them and take advantage of the opportunity to make a move. Everyone thought that this was a self-directed act. It was simply a joke to say that the treasure had been stolen by someone else. Therefore, no matter where they went, there would always be a group of small tails following behind them. They wanted to take advantage of the situation and snatch all the treasures on them. The Jiro family's faces turned ugly when they saw Zhou Hao and the other two. They did not expect the three of them to have the ability to come to such a place, unless they also had a treasure map. Although there was a lot of treasure in this place, they were all defective. The treasure map in Zhou Hao's hand was the real place where the treasure was buried. However, they had to pass by this place. Seeing these people gathered here so noisily, they were curious that they could find these defective products. "Hmph, you're not qualified to talk to me, you nameless junior!" Jiro's second uncle looked at Zhou Hao and the other two in front of him arrogantly, feeling like they were gods high above. Unless he was in front of those big families, he would only be a little pleasant. Otherwise, he felt that these people were not qualified to have any interaction with him. It was an insult to him that George greeted him. George saw that he was like a proud peacock and didn't say anything. There was only one word to say when facing such a person. He would find an opportunity to beat him up and see if he would still dare to be so arrogant in the future. "This place isn't the real treasure land. The real treasure land will give you the center, but there is great danger there!" The frog immediately sensed it. Zhou Hao didn't want to stay any longer with these people. He had more important things to do. These people were just a way to spice up life. When he was bored, he wanted to see them perform one-man shows. "Tsk, we're not qualified to talk to him. His family is so great that they're still diligently studying all kinds of powerful civilizations in the middle of the night!" "You're courting death!" Toslitan said. The Jilang family hadn't slept a wink last night, searching for the mysterious thief. He didn't expect that there would be no progress after a night. He had to hurry to this place today because many families had arrived at their destination one after another. Now, they knew that they were not the only ones who had come to the treasure map. They had lost the opportunity to be the first. The only thing they could do was to discuss with the big families about the distribution of the treasure. Looking at the three people without any background who also wanted a share of the loot, his anger

could not help but erupt. He wanted to throw the three people out of the mountain range immediately. Now, they were even more furious when they heard toslitan's words, as if he was humiliating them. "Are you trying to humiliate our family?" Jiro Jiro's second uncle's eyes were almost spewing fire. His entire body was filled with a cold aura, making him look like a fierce beast at first glance. "George, you see, he's really smart. I only said one sentence, and he already knows what I want to express!" And toslitan had even directly admitted to it. The people from the jilang family were so angry that they almost died on the spot. Even if many people were scolding them, they could only do it in their hearts. This fellow was better off just saying it directly. No one had ever dared to face their family so brazenly. For a moment, they were so angry that they didn't know how to answer. There was no need to rush up and fight them. The people behind them were still watching them like tigers watching their prey. Once they used up their ultimate weapons, they would be killed. Those people would directly rush up and dismember their bodies. Previously, they had seen with their own eyes that they had a batch of treasures on them, so it was impossible for them to believe that they had thrown them away. Even if the Jiro family had already said that their miss had lost it, they had done the same thing before. It was clearly their own treasure, but they denied it. How could they believe the words of such a person? "As expected of someone from a big family. You got it with just one hint. You're much smarter than us!" Toslitan was still sighing with emotion, thinking that these people really seemed to be that kind of smart. These words, which were not very harmful but extremely insulting, almost made these people vomit blood three times. He was obviously insulting them, but his words were better than anyone else's, making them feel extremely humiliated. "You damn old man, how dare you go against my family like this? I'll make you pay!" Jiro Lala was used to being arrogant and domineering, and he looked at toslitan who actually dared to insult them like this. He couldn't help but stand up. The first time he met Zhou Hao and the others, he had already looked down on these poor losers. Now, they actually dared to provoke him. Even she couldn't take it anymore. "Look, we're complimenting them. They even let a child come out and curse at them!" "Come, come. Everyone, be reasonable. Isn't the Jiro family being arrogant?" Toslitan put on an extremely aggrieved expression, making others feel as if he had suffered a great grievance. The words he had said earlier seemed to be genuine praise for the other party. It made people feel that he was a drama queen! At least, that was what Zhou Hao thought. A man in his teens was not serious at all, and he still had to argue with these villains. She wasn't like those little girls who could have everything just by acting cute. In the adult world, if one wanted something, they could only fight for it with their fists. "Don't do such a childish thing. Don't you see how desperate the others are?" Zhou Hao said slowly with a smile on his face. It was as if the entire incident had been started by the jilang family. Even so, no one else dared to say it out loud like Zhou Hao and the others. Perhaps it was because the Jiro family had used Zhou Hao and the other two before, so they were now enemies who were jealous of each other. That was why they were so unforgiving. "You poor loser, what right do you have to say that? do you believe that I won't shoot you down with one shot?" Jilang Lala's arrogant and domineering voice spread through the entire world. Taking other people's lives at the drop of a hat, their jilang family really had a good upbringing! There was nothing gentle and virtuous that a girl should have. All that was left was arrogance, despotic, and mean.

## Chapter 790 - reckless

### *Chapter 790:-reckless*

Zhou Hao's face was cold as he looked at Jilang Lala and said with a smile, "As a girl, who would dare to marry you in the future if you shoot someone at the drop of a hat?" Zhou Hao's words were unscrupulous, causing Jilang Lala's face to turn green and white. She gritted her teeth, almost unable to contain her anger. She wanted to kill this Zhou Hao right now! However, when Toslitan and George saw this scene, they didn't show any fear or worry on their faces. Instead, they looked at Jiro Lala with smiles. They didn't believe that this little girl would really dare to make a move on them. They weren't weak, so how could they be threatened by such a little girl? What a joke. When Jiro's second uncle saw this scene, he immediately stepped forward and pulled Jiro Lala back to prevent her from doing anything rash in her rashness. He even began to suspect that this group of people had come here on purpose to find trouble with them and provoke them. His goal was to snatch away the treasures on their bodies. But now, they no longer had any treasures on them. Even if he told this group of people directly, they would not believe him. Therefore, the most important thing now was to not get into a conflict with anyone. Otherwise, they would not have a good ending. When they realized this, their expressions only became extremely calm. Jilang Lala glared at Toslitan and George, as if he wanted to crush their bones! However, Jiro's second uncle held her arm tightly and refused to let her go. Helplessly, she could only suppress the anger and dissatisfaction in her heart and coldly said, "Get lost, immediately get lost!" "Don't let me see you again. Otherwise, things won't be this simple. Do you understand?" His words were full of threat! When Toslitan heard this, he only shook his head indifferently and chuckled. He slowly opened his mouth and said with a chuckle, "Hehe, this matter is no longer as simple as it seems!" "This road doesn't belong to your family. Why should we listen to a little girl like you?" Toslitan's words were said extremely calmly, as if he didn't care about what Jilang Lala said at all. This time, it once again angered Jiro Lala! Just as she was about to go up and ruthlessly clean up Toslitan, her second uncle pulled her arm again. "Let go of me, second uncle. I must take care of this brat today. Otherwise, I won't be able to vent the hatred in my heart!" Lala, who was in front of him, was already furious to the extreme. If he didn't deal with this bastard now, he wouldn't be able to take this lying down! But very quickly, Jiro's second uncle lowered his voice and whispered into Jiro Lala's ear, "Lala, now isn't the time to act on impulse!" "You also know that we're not the only ones who have obtained the treasure map of this batch of treasures. These few people also have the map!" "Although the treasure map has the rough location of the treasure, we still don't know the exact location!" "So, I think we can make use of this group of people to find the specific location of the treasure map first. Where exactly is it? then, we can get rid of these three pieces of trash!" "Right now, we must be patient. Otherwise, it will be even

more difficult for us to find the treasure!" After hearing what his second uncle said to him, Jiro Lala's expression finally calmed down a little. She glared at toslitan with extreme hatred, and then said viciously, "Just wait and see!" As soon as he finished speaking, Jiro Lala turned around and left, not intending to continue talking to them. Zhou Hao and toslitan, who was in front of him, only shook their heads indifferently. This jilang Lala was a little too unreasonable. However, they didn't intend to waste any time here. They were ready to set off to find a more accurate location on the treasure map. Zhou Hao, toraltar, and George discussed for a while, then immediately strode forward. Seeing this, Jiro Lala couldn't help but say to his two uncles, "Second uncle, third uncle, these kids have left. I think they must know the exact location of the treasure!" After listening to Jiro Lala's words, a look of understanding appeared on the faces of several people. They nodded and then said seriously, "You're right, but we can't follow them openly for the time being. There are too many people in the vicinity!" After thinking for a moment, Jiro Lala suddenly looked at his second and third uncles seriously and said in a serious tone, "Second uncle, third uncle, I have a good idea!" When they heard this, Jiro's second and third uncles were shocked. They looked at the two with confusion in their eyes and couldn't help but ask hesitantly, "Good idea? What good idea?" It must be known that they had yet to come up with a feasible solution, so no one dared to act rashly at this time! Everyone was waiting for an opportunity to accurately find out where the treasure was hidden. This way, it would be much easier to find it in the future! When they realized this, second uncle and third uncle immediately fell into hesitation! They couldn't help but look worriedly at Jiro Lala in front of them, and hesitantly said, "No, no, Lala, this is too dangerous for you!" Although the treasure was important, Jiro's second and third uncles didn't want Jiro Lala to be in danger because of this! However, Jiro Lala looked extremely determined. His eyes were filled with determination. Then, he chuckled and said, "Alright, second uncle, third uncle, you don't have to worry about me!" "I'm already so old, it's time for me to shoulder this mission. If I don't do anything, wouldn't I be too lacking in ambition?" "Don't worry, those three people won't dare to do anything to me. Leave this treasure-hunting mission to me. Just treat it as an experience. How about it?" Jiro's second uncle and third uncle looked at each other. After a glance, they couldn't help but feel helpless. But now, they couldn't say anything. They could only nod and agree.

## Chapter 791 - The treasure hunt begins

*Chapter 791: The treasure hunt begins*

"Alright, since you're so insistent, then I'll leave this matter to you!" "Well, it's good that Jiro Lala has this intention, but the premise is that you must pay attention to your own safety, understand?" Hearing his second and third uncle's instructions, a smile appeared on Jiro Lala's face. They nodded to each other and said with a smile, "I must

take good care of my defenses!" At the same time, Zhou Hao, toslitan, and George had already started to walk away. He didn't know how long he had walked, but suddenly, a vast desert appeared in front of him. As far as the eye could see, there was a vast wasteland everywhere, without even a blade of grass. When Zhou Hao saw this scene, he could not help but think to himself, 'I'm not sure what to do. "This place is really strange. I don't know how long I have to walk to get out!" Zhou Hao could no longer sit still. He decided to take out his aircraft and fly across the vast desert! But before he could take out the flying device, he heard the frog whispering to him, ""Zhou Hao, I know what you're thinking. You're planning to use an aircraft to pass through here, right?" "Ah? How do you know?" Zhou Hao was stunned for a moment, and then asked in confusion. This frog was really like a worm in his stomach. It knew everything he was thinking! Zhou Hao immediately asked with a smile. "In this place, all the most advanced equipment will not work. The only way to walk is through your feet and the compass!" The frog's words immediately shocked Zhou Hao. He couldn't help but be shocked and asked in confusion, ""Why? why is this happening?" "It's because the magnetic field here is very strange," the frog explained helplessly. "It can shield all the advanced electronic equipment in the surroundings." "Moreover, the most primitive beasts will attack. It is said that there are many beasts guarding the location of the treasure!" "What? There's actually a beast in this place?" Zhou Hao's expression immediately turned into one of shock. He didn't expect that after so many twists and turns, he would actually feel as if he had returned to the time when he was fighting against the exotic beasts! However, it was nothing more than a group of ferocious beasts. If he wanted to deal with these things, he actually didn't put them in his eyes. Therefore, Zhou Hao did not really care about the existence of these beasts. However, it was a barren land in front of them. If they really walked in, they didn't know how long it would take to walk out of this damn place. Zhou Hao strode forward, step by step. Toslitan and George followed behind him, looking around curiously from time to time. After walking for quite a distance, the water in the tosley jar was almost finished. "Oh no, I'm almost out of water," he said worriedly. "This is such a godforsaken place. When can we get back to a normal environment?" When George heard this, he could only comfort her and say, ""Don't worry. If we continue walking, we might see a place with water and an oasis. " George's voice had barely faded when the distant toslitan excitedly pointed to a spot in the distance. He said to Zhou Hao and George, ""George, you're really a Lucky Star!" "What's that in the distance?" Zhou Hao and George were taken aback as they looked into the distance. As expected, they saw a scene that shocked them! Not far away, there was a small oasis and a huge tree! When Zhou Hao saw the Oasis, he was both surprised and happy. He immediately said to George and toslitan, ""Let's go. We'll go there now. Maybe we can find some useful materials!" Just as Zhou Hao and the rest were quickly making their way towards the Oasis, they suddenly heard a puzzled voice. "Zhou Hao, I feel like there's something wrong with this oasis, but I can't tell what it is." The frog was the one who spoke. It was hiding in Zhou Hao's sleeve and saw the Oasis. The closer it got to the Oasis, the more it felt a strange feeling in its heart. However, even the frog couldn't explain the exact reason. It didn't know what was going on. Zhou Hao's face was filled with confusion, and he could not help but ask hesitantly, ""Why do I have such a feeling?" The frog looked a little flustered, and it couldn't help but hesitantly say, ""I suspect there's a problem. You'd better be careful, right?" Zhou Hao's

expression became extremely nervous after he said this. Toslitan and George both looked a little flustered. Their breathing was a little rushed as they looked around vigilantly. They couldn't help but slowly speak again," "Zhou Hao, why do I feel like something is off?" "Yeah, I have the same feeling. It's like there's a potential danger that's staring at me from a distance!" When they realized this, everyone's faces turned extremely anxious. Zhou Hao's eyes were filled with anxiety, but at the moment, they had no other choice but to walk over. At that time, if they really used up all their resources, they would starve to death before they could even find the treasure, let alone find the place where it was hidden! Now, they could only take firm steps forward and prepare to take a risk! Soon, the group of people quickly headed towards the Oasis. The closer they got to the towering tree, the more they could clearly feel an invisible pressure pressing down on them rapidly! When they realized this, everyone's breathing became nervous and uneasy, especially George. He had already taken out the dagger that he always carried with him and was ready to use it for self-defense! However, even if there was a potential danger, all high-tech means had been blocked, but to Zhou Hao, it still could not cause much of an impact. This was because Zhou Hao had always relied on his own strength. His martial arts were extremely powerful, and he was good at using blades, so he was not afraid even if he did not have any weapons.

## Chapter 792

*Chapter 792:-cramped*

The closer they got to the giant tree, the faster George and toslitan's breathing became. They suddenly realized that it was getting harder and harder for them to move forward. Zhou Hao also pulled out his knife from his waist and looked at the tree vigilantly. A gentle breeze blew over from the surroundings, and the huge tree immediately emitted a 'rustle' sound. The three of them were silent for a moment. They felt that the murderous aura around them was gradually increasing, but they could not find any clues! Toraltar couldn't take it anymore. He immediately walked over with the kettle and said anxiously," "No, I must go get water!" "If we don't have water for the rest of the journey, we won't be able to do it!" After toslitan finished speaking, he immediately looked at the Oasis in front of him and said excitedly," "Let's go. If we do everything in fear, I'm afraid we won't have any development!" At this thought, the few of them unanimously decided to go over and get the most basic living supplies first. Soon, the three of them quickly walked toward the location in the distance. After walking to the side of the Oasis, the group finally realized something! The lake water here was extremely clear! At first, they were worried that the water here was not good and that they would not be able to drink it. Now that they saw this scene, all of them were relieved! Their eyes were filled with excitement as they looked at this scene. They couldn't help but say with emotion," "It seems like even the heavens are helping us!"

"Alright, quickly pack the water. Once you're done, we'll continue on our way." After Zhou Hao finished speaking, he immediately went to prepare the water. When George and toslitan saw this, they also went to the pool where the Oasis was located, ready to get some water. Whoever knew that just as they were approaching the Oasis, they heard a whistling sound from above. It was an instant explosion! This voice instantly frightened everyone present! They raised their heads in unison and took a look. When they saw what was happening in front of them, they were so shocked that they couldn't say a word! The giant green tree above them suddenly waved its branches, and as if it had a soul of its own, it whistled toward them and suddenly smashed down! "Who dares to trespass the forbidden area? are you tired of living?" A loud shout instantly frightened many people on the scene, and their faces changed drastically! Their breathing began to Quicken, and their faces became extremely frightened and uneasy! Zhou Hao looked at the giant tree vigilantly. He was shocked to find that the giant tree seemed to be the transformation of the beast that the frog had mentioned earlier! "Dodge!" Zhou Hao let out a loud roar, and just as he was about to leave with toslitan and George, it was already too late! The giant tree's thick branches had already brazenly smashed down, smashing down towards toraltar's head! "Not good!" Zhou Hao let out a loud roar and immediately clenched the long blade in his hand. He leaped and arrived in front of toraltar. He raised the long blade in his hand and slashed down! With a loud 'Kacha' sound, the branches of the giant tree were cut off by Zhou Hao's sword! "Hiss ..."

Seeing this, George gasped in shock. He couldn't help but be so shocked that he didn't recover for a long time! Zhou Hao's ability was a little too bold! After a short while, the huge tree branch fell to the ground like a broken arm, unable to move anymore! If only the tree beast only had two arms. Unfortunately, it had a lot of willow branches. After one was cut off, there were still countless willow branches dancing in the air! "Bang Bang Bang!" With a few loud bangs, the giant tree's willow branches continuously smashed into the ground, erupting with a series of extremely violent sounds. A moment later, several huge pits were suddenly formed on the ground by the Willow branches! When everyone saw this scene, they were so shocked that they couldn't speak! Their faces were filled with shock as they looked up at the giant tree in shock! "The power of this giant tree is a little too formidable!" Toraltar immediately got up from the ground. Just as he was about to turn around and escape, he was shocked by the ground and fell heavily to the ground again. George did not care so much. He grabbed toslitan's arm and helped him up, then ran forward with all his might! "Zhou Hao! Run, don't fight it head on. We should be able to escape its attack range!" As soon as they finished speaking, the three of them stopped fighting. They turned around and quickly ran toward the position in front of them! But soon, everyone around them realized a very serious problem! The further they ran, the more the sound behind them remained. It didn't seem like it was going to disappear! Zhou Hao immediately turned around to take a look. When he saw what was happening in front of him, his face instantly turned extremely shocked! They had already run far away, but the Willow branches of the giant tree, which were also far away from them, were still very long! It was as if these willow branches could grow so long on their own as they rapidly chased after the position in front of them! It was at this moment that Zhou Hao realized that something was wrong! He immediately said to toslitan and George, "Oh no, the beast we've encountered should be a mutated beast. It can extend its willow branches infinitely. I'm afraid we

can't escape so easily!" When they realized this, the group's expressions immediately became extremely nervous. This was especially so when the willow branch behind him was gradually chasing after him! "Die!" Zhou Hao immediately roared. He raised the long blade in his hand and quickly slashed at the willow branch in front of him! Zhou Hao's speed was very fast. With a raise of his hand and a fall of his blade, he cut the willow branch in half in an instant. The giant tree suddenly let out a roar, and then suddenly grew several times larger. It looked as if it was angry, which was extremely terrifying!

## Chapter 793

*Chapter 793:-divine earth beast*

This gigantic willow tree mutated beast was incomparably powerful. Its huge vines rose up once again and covered the surroundings. Zhou Hao's expression was extremely ugly. He used the seven blades of hell, which turned into endless blade shadows and directly slashed up! Toslytan and George were dumbfounded. They knew that Zhou Hao's combat power was off the charts, but they did not expect it to be this off the charts! "Zhou Hao, good job! You're too strong! Kill him!" George immediately shouted, as if he wasn't afraid of the consequences. This made Zhou Hao very angry. This bastard, can't he see that I'm also putting up a strong front? Although he had a Saint level cultivation, this willow tree was not weak either. It was at least a few levels stronger than him. In addition, it had endless branches. Zhou Hao knew that if this dragged on, he would definitely lose. He glared at George gloomily! "Good my ass! Hurry up and think of a way to escape, or it'll be too late!" Zhou Hao said directly. If he was caught by this willow tree monster, he would definitely die without a burial place! When George and Toslytan heard this, they were shocked that even someone as strong as Zhou Hao couldn't deal with him. They were done for. So, without saying anything, the two of them immediately started to think of a way. "This place is a desert. If we want to escape, we have to leave this place. However, the map shows that the treasure is nearby. If we leave like this, won't we be wasting our efforts?" George said at this time. Toslytan also thought the same. "Why don't we go all out?" Toslytan was a typical example of not moving when he saw something good, so he suggested. "Alright, let's go all out then. Damn it, my dad just gave me some equipment. I haven't had the chance to use it yet, so I'll try it now!" George was also a straightforward person. He immediately took out a strange item from his backpack. Zhou Hao, who was busy fighting with the Wickers, was stunned when he saw George take out a strange item. "What did you take out this time?" "Hehe, this is a good thing. It's called the magnetic storm energy cabin. Once it's used, it can release a powerful magnetic storm. With this destructive power,

even a fifth stage martial Saint would have to temporarily avoid the light!" "Zhou Hao, get out of the way. Let me do it!" George chuckled and jumped over immediately. Then, he opened the strange thing. In an instant, an extremely terrifying force burst out. It was accompanied by purple and blue magnetic storms! This thing was extremely terrifying. Zhou Hao's hair stood on end when he saw it. If he was struck by it, he would be seriously injured even if he had the ancestor body and the thousand feather armor!

"Good stuff. I didn't expect George to have so many good things!" The frog couldn't help but exclaim, which surprised Zhou Hao even more. "Do you recognize this?" "Of course, I know everything. This is an Energy Chamber that can release magnetic storms. It can store and process magnetic storms, and the power it releases is comparable to that of a Heavenly Tribulation. With this thing, this Willow monster will definitely die!" The frog was very calm, and Zhou Hao was also full of confidence. When he saw the endless purple and blue magnetic storms erupting and enveloping the willow tree monster, Zhou Hao knew that he would definitely succeed! The truth was as such. The monster Willow was instantly pulled out, and black smoke rose from its body. From a distance, the smoke was billowing, and it was as dead as it could be. "Hahaha, you're amazing, George!" Zhou Hao heaved a sigh of relief. He was also a little excited. "That's right, I don't make a move easily, but when I do, I will hurt people!" George started to blow his own trumpet, and Toslitan was also shocked, not daring to believe it. Not far away, Jiro Lala was also stunned when he saw this scene! "These people are indeed powerful. They can even defeat a monster of this level. Most importantly, they clearly had a chance to escape, but they didn't. They just had to kill this monster. There's an 80% chance that the treasure is here!" Jilang Lala wasn't stupid and immediately analyzed the situation. He had to admit that this little girl's analysis was quite correct! "Hmph, they're actually not injured. If only they were half-crippled, then wouldn't that thing be mine?" Jilang Lala felt a little regretful. What she wanted to see the most was Zhou Hao and the others fighting with the exotic beasts until both sides were injured. In that case, wouldn't she be able to sit back and reap the benefits? Zhou Hao and the others did not notice Jiro Lala, and were currently immersed in joy. "According to this map, it should be around here. I suspect that it's in the depths of the earth. Let's go and find it." Toslitan said at this time. Their map was the most accurate and accurate. The other people's maps were either fuzzy or completely wrong, so they naturally didn't find this place.

"Yes." Zhou Hao also nodded excitedly. However, at this moment, the ground suddenly trembled. Then, they saw the black willow branch move. In the next second, an exuberant green color emerged from the black willow branch, revealing a crystal-like meaning. "I ... F \* ck!" Zhou Hao and the others naturally saw such a huge commotion. They stared in disbelief at the willow tree monster that seemed to have been born in their hearts. All of them were f \* cking stunned! "He's still F \* cking alive! Zhou Hao, we can't take this anymore. Let's run. We can't beat him!" George immediately said. Zhou Hao had already thought of this even without him saying it. However, it was too late. The gigantic willow tree monster had already drilled out countless willow branches from the ground. It was as if it had been completely enraged by George's weapon, and it roared! Zhou Hao's face suddenly changed. At this time, it was already too late to resist. Everything within a dozen kilometers was enveloped. At this time, Zhou Hao could finally see the true body of the willow tree monster! It wasn't a willow tree, but a huge monster. Its eyes were as big as an elephant! Those endless willow branches were not

its arms, but his ... Hair! Seeing this scene, Zhou Hao's scalp went numb and his face turned extremely ugly. The frog was also completely dumbfounded! "My ... My God ... This ... This is an adult divine earth beast! It ... It's not extinct, and it's still here!" The frog's fear made Zhou Hao dumbfounded. Although he didn't know what an earth divine beast was, he could understand what he was facing when he heard the frog's frightened expression! "The earth divine beast is here ... Then ... The earth God spirit is here too. Divine earth, wake up!" The frog seemed to have thought of something at this moment. Its expression changed from horror to ecstasy as it immediately said! At this moment, under the cover of the endless fur, Zhou Hao looked as if he had seen the end of the world. He opened his huge mouth and tried to swallow it. Then, everything in front of him disappeared ...

## Chapter 794

*Chapter 794: Divine mulberry tree*

Everything before their eyes disappeared, and they entered a strange space. There was no one around Zhou Hao. The moment he was sucked in, Zhou Hao and the others were separated. No one knew where they had gone. At that moment, Zhou Hao's body was emitting a strange white light. This white light was not Zhou Hao's, but the divine soil! It had transformed into a tiny human, sitting on Zhou Hao's head and rubbing its eyes. Its face was filled with confusion and confusion. The frog also came out and looked at the scene in shock. "Where ... Where are we?" Zhou Hao looked around. It was empty. It was strange. They were floating in this space like specks of dust. "This is the body of the divine earth beast. It has the ability to open up its own space. This strange beast must have broken through to the Saint level. It has reached adulthood. Oh, no, it has already reached the age of old. Otherwise, the divine earth beast in its Prime would be above the realm Lord!" The frog took a deep breath and couldn't help but say. Zhou Hao couldn't believe it. He had never imagined that there would be such a God in the desert. "Oh, right, what is this earth God you mentioned?" Zhou Hao asked curiously. "This ... Is related to the divine land." At this moment, the frog looked at the divine land. The latter was still looking around in confusion, as if everything was very familiar. "It's related to the divine land?" Zhou Hao was stunned for a moment. Recently, the divine land had been eating, drinking, and sleeping in his backpack. It could not help with anything. However, the way it was now made Zhou Hao a little worried. "That's right. This divine earth beast ... In the end, it's just a small beast created by the divine land. It inherited one-tenth of the divine land's abilities and grew up until now. The earth God I'm talking about is the original spirit of the divine land." Hearing this, Zhou Hao was terrified. What the hell? A little beast created by the divine land? How ... How powerful was the divine land when it was powerful? "Hmph, are you very shocked? To tell you the truth, I still don't know the origin of the divine land, just like how it doesn't

know my origin. Even he and I don't know our own origin. In the countless eras, we have seen countless deaths, but only the two of us have survived. You should understand now, right?" The frog spoke indifferently. After it finished speaking, Zhou Hao naturally understood. However, Zhou Hao thought that they would know why they were like this. He never expected that they would not know either! "Then let's find the earth God and give him the divine soil." Zhou Hao said directly. "I'm afraid it won't be that simple." The frog shook its head, looked around, and took a deep breath. "There's something wrong with this space. The genes of this earth divine beast have been taken away, and even more than half of the earth God spirit has been absorbed. I think it's either man-made or something happened to this earth divine beast in its early years." The frog's words were like a bucket of cold water poured on Zhou Hao, causing him to feel extremely depressed. "Then what should we do? are we just going to be trapped here?" Zhou Hao couldn't help but say. "That's not the case. It's very easy for us to leave with the divine land, but it's impossible for us to leave just like that. I'm guessing that the loss of the divine earth beast's Origin Energy is a bit strange. If it was a living being that attacked, it wouldn't have the chance to live. Since it could absorb so much Origin Energy, it wouldn't be merciful enough to leave some for it." "Therefore, I suspect that something must have happened to it. In fact, something must have absorbed its Origin Energy!" After saying this, the frog looked at the divine land and couldn't help but say, "Alright, stop daydreaming. What should we do?" Only then did the divine land come back to its senses. It blinked its eyes and couldn't help but say, "We've entered the space he created temporarily. This space will slowly collapse, and we'll be annihilated in the space fragments." "F \* ck, what should we do then?" Zhou Hao was stunned. "It doesn't matter. I can break through this space. I can now feel that there is something in his body's space that is constantly absorbing his Origin Energy!" After the divine earth finished speaking, its body emitted a strange light. Then, the entire space seemed to be melting and slowly became faint. They also saw the main space. The divine earth did not seem to move, but when the light shone down, it had already brought Zhou Hao and the others into the space of the earth divine beast's body. At that moment, Zhou Hao finally saw what it was! A blade of grass! That's right, it was a very simple blade of grass. It looked ordinary, but it exuded endless vitality! Not only that, but Zhou Hao could also feel a powerful life force and strength from the grass. Most importantly, it was a kind of suppression on life! Zhou Hao was now considered the second or third-ranked cosmos body. Even though he died an ordinary death, it was still not bad. However, it gave Zhou Hao a feeling that Xiao Cao was even stronger than the first universe body! At this moment, the frog and the divine earth were also shocked when they saw this little grass! "This thing ... Is ... Is the divine mulberry tree! Oh my God, it's a newly born divine mulberry tree. No wonder, no wonder!" The frog immediately became excited and looked at this scene in disbelief! "Divine mulberry tree ... What the hell is this?" Zhou Hao couldn't help but say. "This is a good thing. There are only a few of them in the entire universe. It can be said to be a gift from the heavens and a product of nature's divine work. This thing is a special cosmic lifeform, known as the first plant in the universe. It has an endless supply of cosmic essence energy. If you refine this thing, you can even condense your third avatar. Once it grows, it will break through the shackles of life and benefit you endlessly!" The frog said excitedly. After it finished speaking, Zhou Hao was also shocked. Although this was the first time he had

heard of the divine mulberry tree, the frog's description still made Zhou Hao understand that this thing was extremely precious! "Then how are we going to get it?" Zhou Hao asked immediately. The divine mulberry tree was absorbing the earth divine beast's power of origin, and it did not seem easy to deal with. "Hehe, I must say that you have a good idea, Zhou Hao. This divine mulberry tree has obviously not developed its own intelligence yet. Furthermore, the divine earth beast did not hesitate to use its own Origin Energy to water it. It must be thinking of picking it when it matures." "It has no owner now. As long as you brand it with your own spiritual imprint, you can take it as your own. However, the godly mulberry tree is the first plant born in the chaos, after all. It is very extraordinary, so I'm afraid it will be extremely difficult to brand it with your spiritual imprint."

## Chapter 795

*Chapter 795: Departure, home!*

Although Zhou Hao didn't understand, he trusted the frog and nodded. "What do I need to do?" "It's very simple. Use your spiritual power and try to brand it. However, although the divine mulberry tree has not developed sentience, its instincts are still there. As an ancient race, it is still very powerful. You must be careful when dealing with it!" After the frog finished speaking, Zhou Hao nodded. He had long known that there would be danger. Any fortune came from danger. The greater the risk, the greater the harvest. This was a principle that had been passed down since ancient times! "Alright, the more dangerous it is, the greater the reward!" Zhou Hao nodded and looked at the frog, saying, "What should I do next?" "Find the heart of the tree and brand it with my mind power. Then, I can put it into my pocket!" After the frog finished speaking, Zhou Hao looked at the divine mulberry tree. Even from far away, he could feel an extremely powerful force spreading out. He took a deep breath. "Alright, I'll go now." After Zhou Hao finished speaking, he was about to walk forward, but the frog stopped him. "I'm afraid it'll be difficult for you to resist it with your current body. Summon the true body of the void beast. Only it can resist the power of the God mulberry tree." The frog's words made Zhou Hao even more surprised and confused. "What do you mean? The void behemoth's true body is on the moon, how can it be summoned?" Zhou Hao was a little confused, but the frog smiled. "The void beast has a void territory. Your original body has one too. Back then, I asked you to place the void Beast on the Moon because I was worried that it would cause a disturbance. But now, that won't happen. Letting the void beast fight against the divine mulberry tree is the best way!" After the frog finished speaking, Zhou Hao understood and nodded. He closed his eyes immediately. At the same time, the void Beast on the Moon opened its huge eyes. Zhou Hao extended his palm and a world appeared in his hand. It was the void beast's life spell, the void world! The void beast also opened its mouth and spat out a palm-sized world, which was also

the void world! In the next second, a wave of teleportation fluctuations came and the void beast entered the void world. Following that, a huge life aura condensed in this space and gradually walked out! BOOM! It was a hundred meters long, and its pitch-black body gave off a mysterious and cold aura. The huge eye exuded an Overlord's will. As one of the twelve noble life forms, although its bloodline was not as powerful as the divine mulberry tree's, it was still extremely noble. It was one of the top life forms in the entire universe! Zhou Hao looked at the void beast, and the void beast looked back at him. Speaking of his true body, the void beast was actually Zhou Hao's true body. His current human body was condensed! The void beast's true body appeared and took a step forward. Its powerful physical strength erupted into a powerful storm. "The current void beast has already broken through to the fifth grade Saint level. It's really fast. It doesn't need to cultivate and can break through just by absorbing mineral essence. Such a strange beast is definitely the darling of the world!" The frog nodded in agreement. The void beast, on the other hand, immediately felt an extremely strong resistance when it was a hundred meters away from the divine mulberry tree! The resistance force was formed by vital Qi and was extremely powerful. It was very difficult to break through it. But even so, the void behemoth's body still emitted a black light as it strode over step by step! Zhou Hao could feel it clearly, and he was shocked. "It's fortunate that I've used my void beast body to come here. If it were my human body, I wouldn't be able to withstand it at all. Although I've cultivated an ancestral body, it's still far inferior to the physical body of a void beast!" Zhou Hao took a deep breath, and his huge eyes looked at the divine mulberry tree as he slowly approached it! Step after step, the powerful resistance made every step the void beast took extremely strenuous! "Alright, let's go. It'll take at least a few years for the void beast to leave its mark. Otherwise, it'll be impossible." The frog suddenly said, and Zhou Hao was stunned. "My God, how many years?" Zhou Hao had thought that it would only take a few months, but it turned out to be a few years! "What do you think? You're only able to break through the barrier because you have the void beast, a high-level special life form. Didn't you see that the divine earth beast is using its Origin Energy to feed this thing? If he could rely on his life force to resist the divine mulberry tree, do you think we would have a chance?" The frog rolled its eyes at Zhou Hao in annoyance. "Um ... I really don't know about that. Shall we leave this place now?" Zhou Hao said worriedly. "Of course, you won't be of any help even if you stay here," As it spoke, the frog jumped onto Zhou Hao's shoulder. At this moment, the divine land suddenly glowed brightly, and they walked out of it. With a single step, they appeared in a desert. At this moment, they were extremely shocked when they saw the place where they had just been! It was like the end of the world. Black smoke billowed and the earth caved in. It was so deep that one couldn't see the bottom, and an extremely terrifying aura was condensed here. There were martial artists all around, and they were densely packed. They must have been alarmed by this. "Let's go. We can only deal with the divine earth beast if the world Overlord doesn't come. Besides, ordinary world overlords wouldn't do this. After all, it's just an old divine earth beast. None of them would take the risk to kill it. It's better to wait for it to die slowly. " Perhaps it saw Zhou Hao's worry, the frog said with a smile. "Although the divine earth beast is dead, its value is still very high. I don't think any star field would want this news to be released." Zhou Hao said directly. "You're right, not only will he not, the realm Lord will be secretly happy!" The frog laughed and couldn't

help but say. "What about the others? where did George and toslitan go?" Zhou Hao could not help but ask. "They've also entered the dimension, but you don't need to worry. The George family is very powerful, so he'll definitely be able to come out. As for toslitan, you don't need to worry about him. He's been able to escape for so many years, so he definitely has some skill. " The frog said indifferently. Zhou Hao nodded. He took out his communicator and left them a message before looking into the distance. "We've been out for so long, we should be back on Earth Star now. Ji yaoyue and Ling Tian are waiting for me. " Zhou Hao had seen a lot during his trip to the starry sky. He had also learned a lot about the universe. At the same time, he knew how small he was. Therefore, he knew that if he wanted to keep the Earth Star safe, he had to become stronger! "Let's go home!" Zhou Hao laughed as he returned to the Luo divine boat and said to Qian Yu. "Yes, master!" Qian Yu immediately gave the order and the Luo divine boat entered the space, heading towards the Milky Way! However, Zhou Hao did not know that a huge battleship was slowly approaching the Milky Way ...

## Chapter 796 - Alien invasion

### *Chapter 796: Alien invasion*

The huge battleship was terrifying. At this moment, it was slowly moving towards the Milky Way. On the battleship, a few blue-skinned men were drinking wine and enjoying themselves. "Boss, our mission this time is so satisfying. What else can there be in the Milky Way? it's a completely backward Galaxy. We can destroy it in minutes." One of the blue brawny men said, his eyes filled with disdain. "Hehe, don't let your guard down too much. This Milky Way has been in exile for thousands of years. Maybe it has developed some intelligence and has some strong people." The leader, who was sitting at the head of the table, smiled slightly. However, his words still showed that he looked down on the Milky Way. "This Milky Way is really strange. I'm as small as a speck of dust. I really don't know why the higher-ups sent us here. They even sent you, big brother, a fifth grade martial Saint." Another blue brawny man said with a frown. He clearly didn't understand. "I've also thought about this. No one would be willing to buy such a Galaxy even if they were to sell it. Firstly, there are no top-notch minerals. Secondly, there are no high-level life forms. It's just a pile of rubble. Perhaps there will be a pile of garbage low-level life forms, but to our iron-Blood Alliance, they're nothing." This question also puzzled leader labudo. Although this mission wasn't very difficult and could even be said to be extremely simple compared to the missions he had done before, the reward wasn't bad. Otherwise, he wouldn't have come to such a trash planet. "That's right. Could it be that there's really something good in the Milky Way?" They were all very confused. At this time, they had already arrived at the Milky Way

universe. "Prepare to enter the Milky Way, detect the Galaxy's texture, adjust the gravity of the battleship, and be on guard. Although there may not be anything here, we still have to be careful." The leader, rabdo, immediately stood up and commanded the battleship to enter the Milky Way. As soon as he entered, he saw the fiery sun and other planets, and he frowned. "See, I told you, this is definitely a trash planet. It doesn't even have a spaceship. It's too trashy!" Seeing the empty Milky Way, they shook their heads in disappointment. "No, look over there!" The leader's expression changed. He looked into the distance and saw many satellites. He was a little surprised. "This is ... Something like an exploration machine? It seems that this place is not as trashy as we thought!" Labudo smiled and said. At the same time, Zhou Hao's Luo divine boat had landed on earth, the Wargod Battalion's headquarters. Ji yaoyue and Ling Tian were both waiting for Zhou Hao. They were very happy to see him come down from the spaceship. "You brat, you still know to come back. You've been gone for two months and we've been worried to death!" Ji yaoyue and Ling Tian were naturally worried. Zhou Hao represented the entire Earth Star. If he was in danger, they would be finished! Zhou Hao laughed and scratched his head. "I was delayed by some matters." Zhou Hao said as he entered the war god Battalion with Ji yaoyue and Ling Tian. Other than them, Heavenly King Zhu and Azure Sword King were also present. This was the strongest force in Huaxia. Although it was small, it was the strongest among the five alliances! Zhou Hao took a deep breath and looked at them. He took out a USB flash drive and plugged it into the computer, showing the things recorded by the Luo divine boat. The Luo divine boat had a recording function, so Zhou Hao deliberately converted it into a video format that Earth Star Technology could read and played it. "These are the places I've been to in the past two months. Everyone, please take a look at how vast the universe is!" As Zhou Hao spoke, the video started to play. The four of them were stunned when they saw it! "My God ... There's ... There's such a vast sky outside!" "Is this the universe ... So many aliens ... This is really ..." They were all shocked. Zhou Hao was the same as them in the beginning, but he had gotten used to it. "Our Earth Star is located in the Milky Way galaxy, which is at the edge of the universe. It is very backward, and no empire is willing to incorporate this Galaxy. As a result, our Milky Way galaxy is a Galaxy without an owner." "It's precisely because we don't have a master that anyone can invade us. We're not protected by anyone, so we can only protect ourselves!" "Fortunately, the coordinates of the Milky Way and earth Star are hidden. Without the coordinates, we can't come here. From now on, we are much safer. But even so, it's not a long-term plan." As Zhou Hao spoke, Ji yaoyue, Ling Tian, and the others nodded their heads. Only with sufficient strength could one protect themselves. Any other means would not be able to last long. Thus, they understood this. "Zhou Hao, I understand what you mean. We should also enter the universe early!" While Ling Tian was a man of few words, every time he opened his mouth, he was speaking the truth! "Yes, but we still have to wait. We'll set off in a few months!" Zhou Hao did not dare to leave Earth Star. At the very least, he should wait until the void beast had subdued the divine mulberry tree and returned to the moon to defend. That way, even if someone were to invade, Zhou Hao would be able to return instantly. "Wait for a few months? Why is that so?" Ji yaoyue was taken aback. They couldn't wait to leave Earth Star! Ji yaoyue and Ling Tian had already broken through to the Saint level thanks to the battle with the void beast. Even though they were only first grade Saint level, they had the

ability to be independent in the universe. Zhou Hao was naturally not surprised by this. Ji yaoyue and Ling Tian's talents were the best in the entire Earth Star. Of course, he was the only exception. If not for the heavenly Dao software, Zhou Hao knew that he would not have the strength he had now! "Of course it's for the safety of the Earth Star. If we leave, there will be no experts on the Earth Star. How can we do that?" Zhou Hao said directly. "A few months later?" Ji yaoyue was stunned for a moment and asked in confusion. "That's right. " Zhou Hao smiled without saying anything. His expression made Ji yaoyue and Ling Tian feel helpless. Since he didn't say anything, the two of them couldn't ask either, so they could only nod their heads. After the meeting ended, Zhou Hao returned home. He had been away for so long that Xu Ling and his parents had been worried sick. Fortunately, Zhou Hao kept sending them messages, so they were not so worried. "You little brat, you're finally back!" When Wang shuyun saw her son return, she was elated. She immediately prepared a table full of good dishes that night. Zhou Hao enjoyed the joy and harmony at home. He also secretly vowed in his heart that no matter what, he would become stronger to protect his family and planet!

## Chapter 797

### *Chapter 797:-crisis*

At that moment, the huge battleship had entered the Milky Way and was approaching Earth Star. "It's impossible to detect our planet with such a simple detector. Start the hidden mode and hack into the planet's network at the same time!" After that, the aliens got busy. They tapped on the huge screen and soon, a message was sent to their battleship. They were quite shocked when they saw the information. "Hehe, the information age is quite advanced. They have their own local area network system. Not bad, not bad. However, it's too backward." The leader, rabdo, smiled and couldn't help but say. After that, they began to invade the internet and found out everything about Earth Star! "Earth Star, a planet with a sea coverage of 70%. There are no martial artists. 90% of the people are ordinary people, the lowest life form in the universe. They can't sense the universe's elemental energy." "The air here is thin, and all the residents of Earth Star rely on oxygen to survive. There are many people, divided into three races, black, white, and yellow." "Black people are strong and well-developed. White people have good physical fitness, but they are too heavy. Although yellow people have a weaker physique, they are indeed the smartest race." "Most of the powerhouses on Earth Star are heaven rank powerhouses. Hahaha, they are really weak!" They started to analyze everything about earth and knew everything about it. "The most powerful being on earth is a Saint-tier being, but he died in the fight against the void behemoth? Currently, the strongest people on earth are two first stage martial Saints. Hahaha ... They're too weak!" "Only a first grade martial Saint. This level of skill is simply trash!" When they saw the news, they were instantly excited. "There are many inheritances on

Earth Star, ancient inheritances. This Sky Tower is one of them!" They were all shocked. They were all very surprised by this. "However, void beasts are good stuff. It's rumored that they're one of the 12 most powerful races!" While the leader was shocked, he immediately began to search for information on the void beasts. When he saw the confidence of the void beasts in their battle with the human race, he was dumbfounded. "Dead? The void beast was dead? It should be an infant void beast, but even though it's dead, its body is still extremely precious. Its fur, blood, core, and so on are all priceless treasures!" Rabdo was very excited. He looked at the age and jumped up in excitement. "It's only been a year. Haha, that's great. Although the void beast is dead and its power has collapsed, it will take at least a few decades to disintegrate. Besides, the other strange beasts don't dare to approach the void beast. Although it's dead, the remaining bloodline pressure is not something they can resist. We're rich, rich!" Rabdo was extremely excited and happy. If this thing was really as he thought, it would be a great thing for him! "Eh? It disappeared?" He continued to read through the information on the void beast and was shocked to discover that the void beast had sunk into the sea. Half a year later, it had melted away, and no country could find it! "How is this possible?!" "Someone must have stolen the void beast's corpse. Could it be these few experts?" "Hmph!" Rabdo snorted. "Boss, it seems like we can complete our mission this time. This Milky Way is extremely backward. If we rule this place and sell it, we can get a good price, right?" The group of followers couldn't help but say. "This kind of trash planet has no value. The life forms on this terrain are too weak and can't do hard work. It's too slow to train them into soldiers. The lowest life forms in the universe are not even comparable to the fleas on my body. I can only kill all these people and give this planet to the commander as a pendant. It'll be a collection." He shook his head. They definitely wouldn't be interested in such a planet! Although the iron-Blood Alliance was a small organization with no power and could only hang out on these weak planets, burn, kill, and plunder some resources to maintain their strength, they still didn't care about such a planet! "You're right. In that case, let's kill all of them. However, we'll keep a few races as collectibles and gift them to the commander. Oh, no, I should kill all the men and the old, leaving only the young women." The leader Rabdo smiled. After these words, they understood. In the universe, useless male creatures were not even worth as much as female creatures. At the very least, female creatures had their own value of existence. As for men, if they couldn't have the strength, they couldn't be used as thugs. They were simply things that lost money. "Do you still remember the ice orchid clan? The women there are all beautiful, but they were enslaved in the end. Now, the women of the ice orchid clan have been sold for a lot of money, enough for us to fight for half a year. If the women of Earth Star can have such an honor, we might be able to make a profit this time!" The leader Rabdo laughed, then controlled the spaceship and headed toward Earth Star. This ship was huge, more than ten times bigger than the Luo divine boat. "Oh, right, you guys control the spaceship and enter earth. I'll contact the great commander." As he spoke, he returned to his control cabin and immediately contacted the commander of the iron-Blood Alliance. "Rabdo, you've arrived? How is it?" A cold figure appeared on the screen. His face couldn't be seen clearly, but his cold voice was overbearing! "Dear commander, we have arrived. This planet is too barren. The life forms that are born are all the lowest level life forms in the universe. I have already given the order to kill all the men and leave all the women behind. The women here are

very beautiful. If they are like the ice orchid clan, we will be able to earn quite a lot.” Rabdo said directly, and the commander nodded in agreement. “Okay, then you can make the arrangements. When it’s over, let me know. I’ll come and take a look personally.” After the commander finished speaking, he turned off the communication. At this time, they had already arrived on Earth Star! Such a huge battleship naturally attracted everyone’s attention and the entire five alliances were shocked! Zhou Hao, who was at home, was also the first to hear the news. His heart trembled as he felt a sense of danger. When he looked up and saw the huge cold warship, his face turned extremely ugly! “Zhou Hao, quickly prepare for battle!” Ji yaoyue’s message was immediately sent back. The entire human race was ready for battle. The experts of the five alliances were all sent out. Zhou Hao also rushed to the battlefield and stood with Ji yaoyue and the others, watching the battleship nervously!

## Chapter 798

*Chapter 798:-crisis*

“Zhou Hao, are these the creatures from outer space? why have they come to our Earth Star?” “What’s going on?” Ji yaoyue asked hurriedly. Zhou Hao was the only one who knew the most about outer space creatures, so it was only natural for her to ask him. Zhou Hao was also dumbfounded. He had no idea what was going on. Frog, what’s going on? how did they find Earth Star?” The frog took a look and was also a little surprised. “It shouldn’t be. Desolate has already covered the coordinates of the Milky Way. If they could come here, it must be because of the Milky Way. I think they must have the coordinates of the Milky Way!” The frog analyzed the situation in its heart, feeling shocked. “It seems like we can only fight!” Zhou Hao understood that only by getting rid of them would he be able to figure out where they had come from. Therefore, he prepared for battle with all his might. At this moment, the door of the battleship opened, and four blue aliens walked out. They were three meters tall, huge, and wore black armor. They looked extremely powerful. “Analyze their combat strength.” Even though he knew that this Aboriginal planet wouldn’t have any powerful people, he still ordered them to start analyzing. “Leader, the strongest are the three people in front. Two of them are first grade martial Saints, and one is a ... Third grade martial Saint!” “Oh? There’s also a third-grade martial Saint, but a third-grade martial Saint from an Aboriginal planet is definitely trash. I’m afraid his combat power is only at the peak of our heaven rank. ” Rabdo didn’t care at all and just looked at them. “Activate the translator, I want to talk to them.” After that, a man behind him took out a transparent device and tapped it. Then, rabdo spoke. “Natives, I am a leader of the iron-Blood Alliance. It is your honor to be here on earth. From now on, earth belongs to the iron-Blood Alliance. All the men on earth must die, but the women must stay. I will give you one day to do this and I will let you die a peaceful death. Otherwise, I will make you

wish you were dead!" As soon as he said this, all the powerhouses on Earth Star were shocked. Whether it was the European Union, North America, South Korea, Africa, or China, everyone had an ugly look on their faces! "Is the end of our planet Earth ..." They could feel the powerful pressure from the four people in front of them. The aura made them feel suffocated! Even Ji yaoyue and Ling Tian were the same. "This person is at least a fifth grade martial Saint. What should we do, Zhou Hao?" Ji yaoyue looked at Zhou Hao and said. "Only a fifth stage martial Saint?" Zhou Hao narrowed his eyes. If it was only a fifth grade martial Saint, it would not be a threat to him! "Lord Ji, Lord Ling Tian, you two hold off two of those people. Green sword Emperor, you lead the Warriors of the various alliances to hold off one of them. I'll deal with their leader. Remember, just hold them off. Once I've dealt with that person, I'll come to help you!" Zhou Hao took a deep breath. She still had the power to fight a fifth-grade martial Saint. With her ancestral body, the void beast's life-bound spell technique, and some of Zhou Hao's life-saving measures, it was enough to deal with all of this! "Alright!" Ji yaoyue and the others nodded. At a time of life and death for Earth Star, even if there were disputes between the various alliances, at this time, they could all get rid of everything! This was because they knew that if they failed, Earth Star would fall. All the men would be killed, and the women would be left as slaves! "Oh? Do you want to fight us?" Feeling the change in their auras, rabdo immediately sneered. "It seems like they don't know the difference between us. Since that's the case, let's kill them." With a wave of his hand, the three people behind him were sent flying. Ji yaoyue and Ling Tian also rushed to fight, while green Sword King led more than ten heaven rank experts to confront a Saint-tier alien. Zhou Hao didn't hesitate. He put on the thousand feather armor and took the lead, charging toward labuduo! "Haha, you're bold. You actually dare to fight me. You're only a third grade martial Saint. How can you fight me?" He laughed coldly, not taking Zhou Hao seriously at all! Zhou Hao also sneered. This labuduo was too careless. Although he was a third grade martial Saint, Zhou Hao's combat strength was definitely not just a third grade martial Saint! He, who had the ancestor body, had already advanced to the second universe body and was not far from the first. Although he couldn't reach the level of the void beast's special life form, he was, after all, a clone cultivated by the void beast. He had the void beast's cells in his body, so his body was strong! With the addition of the thousand feather armor, Zhou Hao was not afraid of such a powerful weapon! "Hmph, underestimating your enemy is the price of your failure!" As Zhou Hao spoke, he activated his ancestral body. Not only that, but he also used the nine revolutions tyrant body art and God Slayer, which increased his combat power by six times! A powerful aura instantly spread out, reaching the aura of a sixth grade martial Saint! This caused rabudo's expression to change greatly! "What ... What kind of secret technique is this? it can actually increase my combat strength by so much!" Although he was shocked, he was still a martial Saint after all. He naturally understood that if he didn't resist now, he would definitely be destroyed. Therefore, without saying a word, he immediately attacked, and a powerful aura burst out. However, he was still not Zhou Hao's match! This was a suppression of strength, and even more so, a suppression of life! "You ... You ... Your body ... How could you ... Do this?!" He was extremely shocked. He was only the second Life form in the universe, and this was the benefit he had gained after breaking through to the Saint level. However, at this moment, Zhou Hao was the same life form as him, but his combat

strength was one grade higher. How could he fight? “And ... Your armor ... Why does it have such an ancient aura? this ... This is definitely a top-tier armor!” He was terrified, but it was too late. Zhou Hao had already arrived in front of him. The powerful thousand feather armor teleported and fell into the gravity domain! Labuduo suddenly felt his body sink, and then he saw Zhou Hao’s unstoppable fist coming at him! Before he could even defend himself, the fist had already pierced through his chest. His heart was instantly shattered by Zhou Hao, and all traces of his life disappeared! This scene stunned everyone, especially the few extraterrestrials who followed rabdo. They were all dumbfounded! “Leader ... This ...” “We ... We surrender!” “We surrender!” These people were not fools. Even their most powerful leader had been killed in an instant, let alone them! They had no room to resist, and surrender was the only way out! Zhou Hao laughed and used the power of the original mark to seal them. This scene made them even more terrified. “God ... Source line power. These natives can actually use source line power. What’s going on?”

## Chapter 799

*Chapter 799: Earth Star in danger*

They were all shocked when they saw this scene. They had thought that this was an Aboriginal planet, but they had never expected that there would be a peerless expert here! Not to mention Zhou Hao’s tyrannical combat power, just the two Saint level experts they had fought with were extraordinary. Not only were their combat powers extraordinary, but their own realms were also much more solid than theirs! “This is a F \* cking native, a F \* cking native ... He’s simply a genius. To be able to grow into a Saint level expert in such a barren place, he must be extraordinary. The commander wants us to rule this place. This is simply a big joke!” The three of them looked at each other in regret. However, it was useless to regret now. With their cultivation sealed, Zhou Hao brought them to the palace of WarGods. On the entire Earth Star, the highest governing body was the palace of WarGods. The original temple had also been banned. Huaxia had three martial Saints, which was more than enough to rule Earth Star. They didn’t care about the other alliances at all. Furthermore, after that incident, Ji yaoyue and Ling Tian had both thought it through. Rather than following orders from others, it was better to grasp all the power. Furthermore, these few alliances weren’t even worth their respect! Therefore, the entire Earth Star was now organized by the Wargod Battalion, which was also the newly established Palace of WarGods! Zhou Hao and the others immediately began the interrogation. In order to prevent the three of them from saying the same thing, Zhou Hao interrogated them alone. “Tell me how you came to earth Star. Don’t miss a single word. Otherwise, die.” “Hmph!” Zhou Hao snorted coldly. His powerful mental energy turned into a cage and unleashed endless purgatory, causing the alien to be terrified. “I’ll say it ... I’ll say it ... I’ll say it all!” “We’re an extremely weak

organization in the universe called the iron-Blood Alliance. We can only hunt down some weak races and sell them.” “Whether it’s those powerful galaxies or organizations, we can’t compete with them. So, we search everywhere for the edge of the universe, like the undeveloped galaxies like the Milky Way, to plunder and sell, and make a living.” Zhou Hao and Ji yaoyue’s faces darkened when they heard that. They had never expected that they would be such a group of people! “How did you know the location of Earth Star?” Zhou Hao said coldly. The man didn’t dare to hesitate and immediately said, “We ... We have always been wandering at the edge of the universe, and we have always known the location of the Milky Way. This location was obtained a long time ago. There are records that the Milky Way is very barren. We haven’t come here for so many years. This time, we came here because we suddenly had a rise.” His words made Zhou Hao and the others heave a sigh of relief. If they were really here on a mission, it was obvious that Earth Star was being targeted. However, they were not like that. Instead, they came over on a whim! However, this was still a dangerous signal! After all, to Zhou Hao and the others, as long as they could find the Earth Star, they would be in great danger! “Other than you guys, does anyone else in the iron-Blood Alliance know the location of the Milky Way?” Zhou Hao suddenly asked. “Yes, one of the commanders in our iron-Blood Alliance knows!” As soon as he finished speaking, Zhou Hao and the others’ faces changed! “What!” Be it Ji yaoyue or Ling Tian, both of them had shock on their faces! They were all martial Saints, and the one who was known as the commander was even more powerful! “Have you reported this to the iron-Blood Alliance?” Zhou Hao immediately thought of this and asked. “Yes, the commander told us to take control of the Milky Way, and then he came in person ...” When they heard this, Zhou Hao and the others’ faces turned extremely ugly! Although the iron-Blood Alliance was only a small Alliance in the universe, it was still not something that they could deal with! Since that was the case, then they were in danger! “How many people are there in the iron-Blood Alliance? what’s the strongest cultivation base?” Zhou Hao quickly asked. If it was beyond the Saint level, then their Earth Star would definitely not be able to fight against it! “We have three commanders and one alliance leader. I only know that the commander is at the Dao realm. As for the alliance leader, I’m definitely at the peak of the Dao realm ...” As soon as this person finished speaking, the room fell into a dead silence! Zhou Hao and the others interrogated a few more people, but the answer they got was the same! Earth Star ... He was in danger! They couldn’t fight against any of the Alliance Masters in the iron Blood Alliance. Dao realm ... They had never seen this realm before, so how could they deal with it? This news instantly spread throughout the five alliances, causing the entire Earth star to fall into depression! The aliens were about to attack. Zhou Hao did not want to tell the other alliances about this. However, now that Earth Star was in a critical situation, they naturally had to be informed! “It’ll take at least a few months for the iron-Blood Alliance to arrive. What should we do in these few months?” Zhou Hao’s face was full of worry. The frog saw this and said directly. “Now, the only way is to use your identity as a resident of the Zhuluo system to buy the Milky Way. When the time comes, as the leader of the Milky Way, you have the right to interfere with any alien life form that enters Earth Star!” This was the only way. Zhou Hao knew about this method, but it was too expensive to buy Earth Star! “I know, but ... How can we buy the Milky Way galaxy? although the nailuo star system looks down on Earth Star, it’s only a matter of money to get them to protect

it!” Zhou Hao was depressed, and Ji yaoyue and the others were helpless. “If we really can’t do it, we should just move the people of Earth Star away. At least this way, we can continue the family line. Otherwise, when the iron-Blood Alliance comes, Earth Star will become hell and everyone will become slaves!” Zhou Hao pondered for a long time and finally came up with this solution! “Although the method is correct, how do we find a habitat? “The xuanluo system does sell a living base, but there are six billion people on earth. With so many people, I’m afraid it’ll take a lot of space. Furthermore, the survival of ordinary people is already a problem. How are you going to solve the problem of food, drink, and sh \* t?” The frog sighed and couldn’t help but say. Zhou Hao also knew that this method would not work. Even though the problem of the habitat could be solved, how could the survival of ordinary people be solved? The simplest question was, what would they eat? Did he have to buy everything he wanted to eat? In that case, even if Zhou Hao was rich, he would become poor in an instant. Furthermore, even if he was willing, they might not be willing. After all, this was their home! Zhou Hao’s face was full of worry. He really didn’t know how to solve this. At this moment, the Luo divine boat received a message from George! “Brother Zhou Hao, I’m out! Hahaha, I’ve received a great fortune. This time, I have the ability to get my father to confer me a territory!”

## Chapter 800

### *Chapter 800:-buying slaves*

Zhou Hao’s expression changed when he saw the message! Although Zhou Hao did not know about George’s background, he could imagine that he was born into an extraordinary family. To be able to confer a territory upon an adult, he was definitely not an ordinary family. If he were to ask for his protection, he did not know if it would work! Without a word, Zhou Hao immediately contacted George and sent a message across the galaxy through the Luo divine boat. Very quickly, the communication was connected. “Haha, brother Zhou Hao, how are you? did you get any treasures?” As soon as the communication was connected, George laughed heartily. Zhou Hao hurriedly said, “George, I have something that I would like to ask for your help with.” When George heard this, he was stunned for a moment. However, he didn’t hesitate and immediately replied. “No problem, just say it. As long as I, George, can help, I’ll naturally be happy to help.” Zhou Hao took a deep breath. At this point, he had no other choice. “I want to become the leader of an ownerless Galaxy, do you have any ideas?” After hearing this, George was stunned. “An Overlord of an ownerless Galaxy? Zhou Hao, what Galaxy is it? area, population, resources, level?” George naturally did not know what place Zhou Hao was referring to, so he could not help but ask. “The Galaxy

at the edge of the universe, extremely barren.” Zhou Hao answered honestly. “I see, that should be fine. But, Zhou Hao, what’s the point of being the Overlord of a place like this? you have to know that you have to pay a very high management fee every year before you can become the owner of a Galaxy. Moreover, this kind of place must be protected. Otherwise, even if you’re the Overlord, it’s useless.” “Actually, everything else is fine. As for money, that’s not too bad. It’s just that it’s not easy to get protection. I can tell you the truth, not everyone will be willing to protect you.” “Think about it. Your strength is low and you can’t bring any benefits to the Alliance. That’s why very few people are willing to protect you directly. At least, they want to bring some benefits to the Alliance!” At this point, Zhou Hao naturally understood that any exchange of equivalent value had to be of equivalent value! What you bring to others, others will bring you the same! This was a theory that had been passed down since ancient times. There were no shortcuts! “I know, so do you have any solution?” Zhou Hao asked directly. George took a deep breath and nodded. “Zhou Hao, although we’re on good terms and you’ve saved my life before, I still have to say that I’ll try my best. After all, I’m the leader of a Galaxy. You know that I don’t have that much power, so I can only ask for help from a Big Shot. But don’t worry, I’ll do my best. Just wait for my news.” George hung up the phone and immediately made arrangements. Zhou Hao was also nervous. “This universe friend of yours isn’t bad. From his words, this matter should be almost over.” Ji yaoyue said with a smile. “Let’s hope so,” Zhou Hao sighed. He was very worried, but it would take at least two to three months before they could come. In these two to three months, it was impossible for him to break through to the Dao realm. However, he still had to make two preparations! “To Conqueror planet!” Zhou Hao immediately brought Ji yaoyue and Ling Tian to Conqueror star. This time, they left very quickly and did not stop at all. They came directly to this place. Seeing the difference between the mysteries of this universe and the earth Star, Ji yaoyue and Ling Tian were both shocked! Ji yaoyue, who was usually carefree, was looking around excitedly like a little girl! “Wow, such a huge spaceship!” “And that ... What kind of race is that? they actually have wings. They’re so beautiful!” “And, and ... Look at what they’re eating. Why does it feel so delicious?” “That woman is so beautiful. She actually has feathers on her body. She’s so beautiful ...” Ji yaoyue started to ramble on, causing Ling Tian and Zhou Hao to look at each other helplessly! Lord Ji, who was supposed to be carefree, turned out to be such a womanly woman. Zhou Hao shook his head and brought Ji yaoyue and the others to the slave market on planet Conqueror. There were people there to serve them. “Dear Customer, how may I help you?” This was an alien with a big head and a small body. He was very polite, and his eyes were bright. He was a typical businessman. “I want to buy slaves.” Zhou Hao stated his intention. “Alright, we have slaves of different levels. What cultivation level do you want?” The man said with a smile. “How much is a Saint-tier item?” Zhou Hao asked after some thought. “The price of a Saint level slave ranges from 500 million universe dollars to one billion universe dollars. According to their strength, the higher the price, the higher the cultivation level.” Zhou Hao almost fainted when he heard that. That was 500 million! There was only 10 billion on the Luo divine boat! Moreover, he could not use that much of it! Zhou Hao had wanted to buy a Dao realm slave, but that solved the problem. However, if even Saint-level ones were so expensive, then Dao realm ones would cost at least a few billion or even tens of billions! Thinking of this, Zhou Hao decided to back out. After all, such a

high price was really too much for Zhou Hao to afford. "It's so expensive ..." Zhou Hao was depressed and sighed. With no other choice, Zhou Hao and the rest could only leave the slave market. Since they could not buy slaves, they had to find another way. Zhou Hao brought Ji yaoyue and Ling Tian to the interstellar trading platform. Zhou Hao went to the vending machine and opened the interface, ready to choose a suitable array. There were many items on the machine. There were weapons and formations. Zhou Hao looked at Ji yaoyue and Ling Tian and asked, "What kind of array should we buy to protect our planet?" Ji yaoyue glanced at the formation on it. After a moment of thought, she said seriously, "Our planet is currently being invaded by powerhouses. I'm afraid it's not enough to rely on just resistance." "I see that there is a protective array on it. If we buy a suitable protective array, it may be able to protect our planet." When Ling Tian heard this, he could not help but nod his head in agreement, "She's right, but if we have to choose a protective array, what should we choose?" "I see that there are many types on the list. We have to choose a more powerful one." Ji yaoyue raised her hand and pointed at one of the formations. "We just need to choose a location where we can hide our coordinates." "As long as we hide the coordinates, the enemy won't be able to find us. At that time, we can avoid the invasion of our planet to the greatest extent." "Okay, then I'll ask them what's their most powerful magic circle that can hide their defensive coordinates."
