

# Starting With One Million Luck Points

## - Chapter 801 - The array to hide the coordinates

### Chapter 801 - The array to hide the coordinates

*Chapter 801: The array to hide the coordinates*

Zhou Hao looked around and clicked on human service. A white robot's head portrait immediately appeared on the top of the screen. "Hello, Sir. What do you need me to help you choose?" The robot asked politely. "I need a defensive magic circle that can hide the coordinates. Do you have any recommendations?" Zhou Hao answered immediately. "Alright, please wait a moment." The robot agreed and immediately pulled up the interface. Four options immediately appeared on the interface. Zhou Hao took a look. The first formation cost 300 million universe dollars, the second one cost 600 million universe dollars, and so on. Zhou Hao didn't have much money at his disposal, only one billion universe dollars. Hence, he chose an array worth 90000 universe dollars and asked the robot, "How do I use this thing? what's its effect? can I test it now?" Zhou Hao asked the robot in front of him. "It can be tested. Please wait a moment. It is currently being processed." Five seconds after the robot finished speaking, a sample fell out of the machine's exit. It was a white, transparent ball. Inside the ball, there was a golden light that was faintly visible. A user manual was immediately called up on the machine's panel. The operation was very simple. He only needed to open the ball box and the array would start on its own. After closing the small ball, the array would be automatically kept away. The ball wasn't big, enough to be placed in a pocket. It was very convenient to carry around. Zhou Hao followed the instructions and immediately operated the ball. The golden light inside the ball instantly surrounded the entire planet. Zhou Hao immediately took out the machine and checked it. As expected, the coordinates of the planet were no longer on the machine. After Zhou Hao closed the transparent box, the yellow light around them disappeared and the formation was retracted back into the small ball. "It's quite convenient." "Let's go," Zhou Hao said, holding the ball. "We'll take this." A price of 90000 universe dollars could be considered an upper-middle grade protective array, enough to deal with it. Zhou Hao placed the trial pack into the recycling box and immediately clicked on the payment button. Soon, a payment interface appeared on the machine interface. After the payment was completed, a white transparent ball fell out of the machine's exit. It looked the same as the trial version, but it was a little newer. Zhou Hao carefully placed the formation ball into his pocket before turning around to head home with Ji yaoyue and Ling Tian. This array was very simple. After Zhou Hao and the rest returned, they immediately used it on Earth Star. After that, Zhou Hao asked Qian Yu to test it out. The effect was pretty good. Although it could not hide the coordinates 100%, at least without sophisticated detection equipment, it would be impossible to find this place! However, Zhou Hao still felt uneasy after doing all this. At that moment, George sent a message, which made

Zhou Hao excited. "Zhou Hao, I've already contacted one of the big shots on planet nether. He can promise to let you become the leader of the Galaxy you want as a resident of planet nether. However, there are conditions for this!" Zhou Hao heaved a sigh of relief when he heard George's words. However, he knew that he had to pay the price for everything he did! "No problem, you can go ahead." Zhou Hao took a deep breath and said. "Actually, this mission is very difficult. Finding the fruit of life sounds easy, but it's actually very difficult." "This fruit of life can awaken the vitality of life in the universe. Of course, powerful people can't do it. This time, you can consider yourself lucky, but at the same time, you're unlucky." "The life fruit is to help a world Overlord's wife. His wife's cultivation isn't high, only sky level. She was ambushed, her soul was in deep sleep, and her body was heavily damaged. But even with his cultivation, he still couldn't save her. Luckily, the world Overlord was supposed to go personally, but for some unknown reason, he couldn't go. So he wanted to offer a reward for this mission. I found out about it, so after communicating with him, he's willing to help you complete this wish." "The unfortunate thing is that the planets that have detected the fruit of life are extremely dangerous. It can be said that there is a 90% chance of death, but many people still managed to obtain the fruit of life." George explained everything in one breath. Zhou Hao took a deep breath and understood. "George, tell me the truth. Will I be able to complete this mission?" Zhou Hao had no idea, but this was the only way. "This ... I don't think you'll have a problem. Although your cultivation isn't very high and you're not in the Dao realm, from my understanding of you, you've always been steady. You should have a chance." Zhou Hao didn't know if George was comforting him or if he was telling the truth. In any case, Zhou Hao had no choice but to agree. "Okay, then please reply to that Big Shot that I agree." George smiled and said, "okay, I'll send you the information." After saying that, George cut off the connection and sent the information over. Looking at the information, Zhou Hao took a deep breath. Ji yaoyue and Ling Tian also looked at him. "This mission should be very dangerous. For safety's sake, I think you guys ..." "No, I want to go with you!" "Me too!" Before Zhou Hao could finish his sentence, Ji yaoyue and Ling Tian interrupted him. Zhou Hao laughed and cried, "No, listen to me. Earth Star can't do without you. Even if I meet with some misfortune, at least you will be there. If all three of us go and something goes wrong, Earth Star will really be finished!" Zhou Hao's words did not have any other meaning, but Ji yaoyue shook her head. Ling Tian looked at Zhou Hao and said in a serious tone. "Zhou Hao, you're now the strongest warrior on earth. If you can't solve it, neither can Ji yaoyue and I. Besides, do you think Earth will be safe if something happens to you? to put it bluntly, this is our only solution, and it's our last resort." "So, if the three of us work together, we might really be able to get the fruit of life. Besides, the heavy burden of saving Earth can't be placed on you alone." While Ling Tian was usually a man of few words, Zhou Hao was unable to refute his words at critical moments. He was right. If they failed this time, the fate of Earth Star was self-evident. "I agree. Zhou Hao, you don't have to say anymore. Let's go together!" Ji yaoyue said with a smile. "The two of us are also Saint level experts. At least we can help you, right?" Seeing the two of them like this, Zhou Hao had no reason to refuse! "Alright, then we'll fight to the death. Victory or defeat will be up to fate!"

## Chapter 802

*Chapter 802:-life fruit*

Early the next morning, Zhou Hao and the others immediately set off to find the precious fruit of life. Ji yaoyue sat in the ship and looked into the distance with a calm expression. Ling Tian, on the other hand, leaned back on his chair and closed his eyes to rest. He was prepared to fight at any moment after landing. "I didn't expect that there would be such a magical fruit in the universe. But I'm afraid it will be difficult for us to find it." The divine soil came out of Zhou Hao's pocket and tilted its head curiously. "Are you stupid? why don't you think about how chaotic our world is right now? what can't happen?" "Ultra Beasts, technology ... It's probably even possible to transmigrate in the future. Why would I be short of this fruit of life of yours?" The frog was wearing a pair of sunglasses and standing on Zhou Hao's shoulder. It glanced at Zhou Hao with disdain and laughed. "Oh, that's hard to say." The divine land looked into the distance with a smile. The spaceship was moving bit by bit toward the planet where the legendary fruit of life was hidden. In less than half an hour, the ship was approaching the planet. However, the moment it got close, Ling Tian immediately felt that something was wrong. He immediately took off the blindfold on his eyes and squinted his eyes to look into the distance. When he saw the light in the distance, he couldn't help but ask, "What's going on? why does this planet look like it's filled with water?" "Could it be that we've arrived on Mercury? but this isn't Mercury. Compared to Mercury, this place is simply too small." Ling Tian looked into the distance suspiciously and asked in confusion. "Did we come to the wrong place? but the spaceship can't make a mistake. The command I entered back then was this Galaxy!" Zhou Hao immediately opened the history record that he had entered earlier and found that there was no error. He stared into the distance. "Forget it, it doesn't matter. Let's find a place to land first. We'll talk about everything after we land smoothly!" Zhou Hao immediately waved his hand and quickly drove to the front. The speed of the Flying Ship was extremely fast. In a short while, they arrived on the planet. They chose a land without water and landed. As soon as the spaceship landed, Zhou Hao could clearly sense that something was wrong. He could not help but look around. Very quickly, he saw that an extremely intense roar was erupting on the surface of the sea in the distance! A moment later! A series of 'Dong Dong Dong, Dong Dong Dong' sounds could be heard from the ground! 'The violent shaking sound! In the next instant, Ling Tian, Zhou Hao, and Ji yaoyue felt the ground beneath their feet begin to shake! Looking around, there was a vast, endless sea! However, the waves on the surface of the sea were extremely strong, and the magnitude of the tremor was also extremely powerful. Countless amounts of sea water on the surface of the sea were trembling continuously because of this violent tremor! It was as if an extremely powerful tsunami would be triggered in the next second! This scene made Zhou Hao's expression suddenly tense up. His breathing was a little hurried as he looked around in panic. After all, this was the first time they had come to this unknown planet. They had just arrived and they had already encountered such a

powerful “appetizer”! It really made him a little nervous! “Oh no, Zhou Hao, let’s run!” When the divine land saw the scene in the distance, it suddenly pointed in front of it and said,”Guys, look over there. What’s that?” “What ... What?” Zhou Hao’s face was filled with shock. He subconsciously looked at the scene that was rapidly approaching from the distance. When he saw it clearly, his heart trembled even more violently. In the distance, there was a sea beast. It seemed to have heard the strange sound of their spaceship, so it was rapidly attacking this side, causing the ground to tremble violently! “What is this ...” “Are you stupid? this is obviously a sea beast!” “I know they’re sea beasts, but aren’t there a little too many of them?” “Get on the ship!” Ling Tian anxiously shouted out. There were at least a few thousand sea beasts in the distance! Although the three of them were the strongest, they couldn’t fight with these thousands of exotic beasts whose auras had reached the Saint level. Zhou Hao was also startled. One had to know that there were too many of these sea beasts, and their attacks were also very fierce. It really wasn’t a wise choice for them to start a conflict with so many exotic beasts the moment they arrived. Right now, they could only escape as soon as possible. Otherwise, they would be facing an extremely fatal threat! However, just as Zhou Hao was about to turn around and escape, he suddenly saw a huge Tiger leap out from the opposite shore! The Tiger’s body was extremely huge. After it jumped out of the coastline, it began to roar at the group of sea beasts that were rapidly attacking the shore! The sound was so intense that even the air trembled! In the next moment, countless sea beasts looked at the Tiger in fear. At that moment, Zhou Hao, who was standing at the side, was dumbfounded. It turned out that the sea beasts ‘target wasn’t them, but the group of Tigers! When they thought of this, everyone understood one thing! That was, these sea beasts were probably fighting for territory with the Tiger-like exotic beast on land. Zhou Hao heaved a sigh of relief as it was all a coincidence that had happened just now. However, he didn’t let his guard down. After all, this group of beasts were all extremely fierce and violent. He could only return to the spaceship as soon as possible and watch from the sidelines. He would wait for their battle to calm down before he went to look for the fruit of life. At that moment, the Tiger suddenly let out a thunderous roar! This voice was like a sudden clap of thunder that exploded in their ears. It was extremely powerful, and everyone could not help but suck in a breath of cold air! ” Many strange beasts at the bottom of the ocean felt as if a huge rock weighing thousands of kilograms was pressing down on their chests! Their faces suddenly became extremely painful, and they kept rolling and roaring in the sea, looking like they were in extreme pain! Many of the low-level exotic beasts were so scared by the Tiger’s voice that they hid under the sea, not daring to show their heads! They knew that if this continued, they would not even know how they died!

## Chapter 803

### *Chapter 803: Super exotic beast*

However, there were still many high-level exotic beasts who didn't think that much. They weren't afraid of the Tiger's threat at all. When they heard the tiger's roar, it was as if they had been injected with chicken blood! All of them were roaring at the Tiger, resisting without restraint. "Boss, this Tiger is indeed very strong!" The leading giant lobster was about two meters long. It waved its whiskers and said to a beautiful flood Dragon. The flood Dragon's expression was also extremely serious. She stared at the Tiger in the distance and said in a low voice, "So what? today, either he dies or I die!" The flood Dragon frowned and looked back. He saw that the soldiers he had brought with him were of a lower rank. They had already spat out a few mouthfuls of Scarlet blood and looked extremely miserable. Their breathing was a little rushed, and they panted heavily. They were so nervous that they didn't dare to look at the flood Dragon. They lowered their heads and dived into the sea, recuperating and conserving their energy, waiting for the battle! The flood Dragon's name was the Child of the Storm, Jasmine. She was the leader of the ocean floor. This time, she had come to fight for territory with the Overlord of the land, the hurricane Tiger King. For a long time, the land and the sea had always been two incompatible directions. The battle had never stopped for such a long time. The battle this time was the result of both sides' long preparation, but Zhou Hao had accidentally caught up to it. It had to be said that the hurricane Tiger King's ability was indeed very powerful. With a single shout, it instantly frightened countless low-level exotic beasts at the bottom of the sea! They didn't even have the courage to walk. They could only hide in the water one by one, not daring to stick their heads out. However, a moment later, a thick cloud suddenly appeared in the sky! Everyone present was instantly shrouded in a large cloud of darkness! After a short moment, the Child of the Storm, Jasmine, rapidly rose into the air, continuously floating in midair, looking down at everyone in the surroundings. Zhou Hao couldn't help but look up in the air in shock. This Child of the Storm, Jasmine, was truly beautiful! She had a human face and looked extremely beautiful! One look at her and one couldn't help but keep looking at her, unable to move their eyes away! Zhou Hao was also dumbfounded. One had to know that the exotic beasts he had seen before all looked extremely fierce, and one look was enough to make people feel nauseated! However, this Child of the Storm, Molly, was completely different. She looked like an absolutely beautiful fairy from a painting, making people unable to shift their gazes away! Zhou Hao couldn't help sighing with emotion at the sight. "As expected of the legendary mermaid princess. He's so beautiful now. If I were his enemy, I wouldn't even be able to lay my hands on him ..." "Mermaid princess? Hahaha, Zhou Hao, I think you're possessed by a pervert. This is a flood Dragon! How is this the mermaid princess?" The frog looked at Zhou Hao as if he was an idiot. A helpless smile appeared on its face, and it shook its head. "If she's the princess, then we'll all be her meal!" "That's right!" The divine land, which had been silent all this time, could not help but start to speak. Her expression was extremely serious as she looked at Zhou Hao with a frown. She said word by word, "Flood Dragons are ferocious by nature, and they are most willing to eat human brains!" "Zhou Hao, why don't you go and fight with this flood Dragon Princess? let's see if you'll have your brain eaten first, or if she'll be conquered by you first." The frog laughed pervertedly, looking particularly wretched. Zhou Hao's face was

filled with helplessness. He really didn't expect that this damned frog would be so wretched! However, he had to admit that the flood Dragon Princess was indeed beautiful. With just one look, it made her heart race. "This is a legendary creature, a flood Dragon. I didn't expect her to be so beautiful. Even the legends can't compare to her ..." Zhou Hao couldn't help but mumble. Ji yaoyue's expression turned serious when she heard Zhou Hao's words. Beautiful? What a joke. Compared to her, she was not just a little inferior. In the distance, all the surrounding underwater exotic beasts became extremely excited when they saw the Child of the Storm, Molly, floating in the air! They immediately raised their heads and burst out in cheers, as if they were building up momentum for their boss! In the distance, Tiger, who was standing on the shore, immediately became alert when he saw this scene. It suddenly knelt down and growled as it looked at the Child of the Storm, Molly, its eyes filled with fear! "The hurricane Tiger King will be afraid one day? Hehe, it's not easy. " After seeing the fear in the Tiger's eyes, a smug expression immediately appeared on Molly's face. This was the huge deterrence that he brought as the Lord of the Ocean! Any ferocious beast that stood in front of him would be afraid of him! Of course, the hurricane Tiger King was not fighting alone. Behind it were countless land beasts. The exotic beasts also let out a low growl, as if declaring their sovereignty. They looked extremely fierce, and their expressions were dark as they burst out with a series of berating sounds! A Dragon and a Tiger, who would win or lose in the battle between the two was really unknown! Zhou Hao was watching with great interest, but the divine land could not help but ask gloomily, "No, Zhou Hao, have you forgotten what you're here for?" "Of course I won't," "Can't you see that the battlefield is in a state of panic?" Zhou Hao laughed helplessly. "If we go over now, we'll be crushed into meat paste." The Child of the Storm, Jasmine, was able to float in the air. She looked down at the Tiger King on land from above and let out a furious roar. If Zhou Hao and the rest were to board the spaceship and leave, it would be extremely dangerous! After all, the Tiger King and the flood Dragon were extremely powerful! There was a flood Dragon blocking in mid-air, and there was a fierce tiger chasing on land. It was indeed difficult to deal with this. The frog couldn't help but knock on the divine land's head and said, "I told you to look at it obediently. Who knows if the fruit of life is in the flood Dragon's stomach?" "At that time, when they cripple each other and both sides suffer heavy losses, we will be able to take advantage of the situation." The frog's words made the divine earth obediently crawl into Zhou Hao's pocket and stop talking.

## Chapter 804

#### *Chapter 804:-battle for the land and sea Overlord*

Zhou Hao had always been a cautious person. Now that he was in an unfamiliar place, he had to consider a lot before making a move. Now that they saw the Overlord of the land and the leader of the sea fighting in full swing, they were naturally unwilling to go and stir up trouble and be treated as cannon fodder. As such, he continued to hide at the side, watching the epic-level battle between the two exotic beasts! A moment later, the Tiger King suddenly let out an extremely fierce roar! Such a powerful and intense pressure made many of the ferocious beasts on the land in the surroundings become fearful! The reason why the Tigers could become the overlords of the continent was because of their powerful domineering aura. That was why they could achieve such a feat! As the pressure came, the intimidating power of the Tiger King instantly spread out! When she saw this scene, the Child of the Storm, Molly, had an ice-cold expression on her face. She furrowed her brows and lowered her head to look at the Tiger King in front of her. She shouted coldly, "Hurricane Tiger King, you will be defeated by me today!" "If you're willing to submit to me, I can still leave your corpse intact. But if you insist on not submitting, then don't blame me for killing all the living creatures on the continent and offering them to the sea!" Although the flood Dragon was not a real Dragon, the Dragon's might that emanated from its body was still not reduced in the slightest! The hurricane Tiger King, who was on land, sneered and said, "You're delusional!" "I will soon bite off your head, peel off your skin, and your blood. I will chew every inch of your bones!" With a loud roar, countless sea beasts on land burst out with crazy roars! All the exotic beasts 'blood boiled when they heard this sound. They immediately sprinted forward at full speed, ready to have a great battle to their hearts' content! "Wait a minute, boss, why do I feel like there's something wrong with the ground?" Just as Molly, the Child of the Storm, was about to rush over, the giant shrimp-like exotic beast standing beside her suddenly noticed the ground in the distance. It was extremely sensitive to danger and could sense at a glance that there seemed to be some kind of extremely fierce danger hidden underground! "Go to hell!" As expected, just as the exotic beasts at the bottom of the sea were frantically attacking the land ... The Tiger King suddenly let out a violent roar. In the next second, countless earthworm-like exotic beasts broke out of the ground. They spat out a thick green liquid from their mouths, catching the group of exotic beasts that had charged at the front of the group by surprise! All the exotic beasts that were stained with the green liquid immediately felt as if their faces and bodies were burning! "Wuahhhhhhhhhhhhh!" Countless exotic beasts let out tragic cries, but in the next moment, they were like snowflakes under the sun. At a speed visible to the naked eye, they quickly transformed into a pool of blood. Not even a piece of bone was left! This scene shocked everyone in the area! Zhou Hao, in particular, looked at the earthworms crawling out of the ground with a stunned expression. He mumbled, "Could it be that these exotic beasts are mutated?" "Why is the juice they spit out so powerful?" Ling Tian, who was by the side, smiled and said, "if we bring some back and turn it into a poison, it might have an unexpected effect .." Ji yaoyue was originally looking at the battlefield calmly, but when she heard Ling Tian's words, she couldn't help but say in disdain, "It's really easy for you to say that. Didn't you see that the strange beast has already reached the Saint tier?" "You'll probably be stomped to death before you can even get close to it. " Ji yaoyue's ridicule left Ling Tian

speechless. In the distance, the battle was still ongoing! A huge sea snake at least twenty meters long suddenly appeared beside Molly, the Child of the Storm! It opened its bloody mouth, and its tongue made a hissing sound. The next moment, he suddenly spat out a mouthful of white smoke! The small cloud of smoke immediately drifted toward the land and soon covered a large area of the land! Soon, he spat out another fireball! The strange thing was that when the smoke in the air came into contact with the fireball, it was like a firecracker being ignited in an instant, giving off a violent explosion! Very quickly, the air currents from the explosion reached the land, instantly detonating all the earthworm beasts on the ground! Many of the land beasts at the forefront of the charge fled in panic! However, the speed at which the mist was spreading out was simply too fast. It was not something they could compare to! No less than a thousand earthworms were unable to escape in time, and were directly devoured by the strange mist! At the same time! The demonic flame Wolf, one of the Tiger King's underlings, looked into the distance in shock. "Tiger King, the black snake beside the flood Dragon seems to have some tricks up its sleeve!" Although he didn't say it directly, he was thinking that although the flood Dragon didn't make a move, it had the upper hand in terms of aura! It gave him a feeling that it was even stronger than the Tiger King! "After all, flood Dragons are the overlords of the ocean floor. They have a domineering aura!" "Perhaps the Tiger King will lose to the Child of the Storm, Jasmine, in this battle ..."

"There are too many limitations on land. Once the battlefield is shifted to the bottom of the sea, Tiger King will lose without a doubt!" "I'd better think of a way to persuade the Tiger King to retreat as soon as possible. Otherwise, we'll all die Here!" The demonic flame hunting wolf bared its sharp teeth, lowered its body slightly, and growled at the black snake with a fierce look. Who knew that the next moment, the Tiger King would suddenly leap up and quickly chase after the black snake! The black snake's expression narrowed slightly. He did not even put the hurricane Tiger King in his eyes! It slowly opened its mouth and shot out a ray of light at the Tiger King! "Impact light!" Who knew that in the next instant, the impact beam would be split apart by the hurricane Tiger King's palm! Very quickly, the hurricane Tiger King appeared in front of the black snake in a flash. It raised its huge and sharp claws and clawed at the black snake's head! "Thunderbolt wind splitting slash!" In the next instant! An extremely violent Hurricane suddenly swept across the entire sea! Ji yaoyue and Zhou Hao couldn't help but cover their faces with their hands, squinting their eyes to see what was going on. As for Ling Tian, he simply turned his back and hugged his shoulders, not looking at them. When the storm gradually subsided, something that shocked the three of them happened! The hurricane Tiger King landed steadily on the ground. Its huge claws were holding onto the black snake's head! The black head was still bleeding, and it looked extremely terrifying! Its eyes were wide open, as if it could not believe that its life had been ended by the hurricane Tiger King just like that!

## Chapter 805

*Chapter 805: The pressure of the king of beasts*

The hurricane Tiger King let out a long roar towards the sky, erupting with an extremely powerful and intimidating roar! This was the pressure of the king of ten thousand beasts! Who can see the direct gaze! The Child of the Storm, Molly, had just returned to her senses when she saw that the remaining half of the black serpent, which had been standing not far away from her, had already smashed into the sea. The sea water was dyed red by the blood, and the blue sea suddenly had a bloodthirsty look. It looked at the Tiger King in shock. A moment later, its pupils suddenly turned blood-red! Damn it! This damned Hurricane Tiger King was clearly provoking him! A Dragon had a reverse scale, and anyone who touched it would die! She, the Child of the Storm, Molly, had never suffered such humiliation before! Boom! Boom! Boom! The originally cloudless sky suddenly began to congeal with dark clouds! At this moment, the whole sky was filled with lightning and thunder. The dark clouds seemed to fall at any time and smash them to death! In the clouds, bolts of lightning flickered with shocking light, and countless thunderclaps rumbled in the sky! Seeing that the rain was about to fall, Zhou Hao and the other two had no choice but to return to the spaceship to take shelter from the rain. However, even on the ship, they could clearly see the battlefield. This was because the land-sea battle was truly magnificent! The tens of thousands of mutant beasts and sea beasts almost dyed the scene in front of them into a mountain of corpses and a sea of blood! "Roar!" Molly, the Child of the Storm, couldn't bear it any longer. She immediately raised her head and let out a long roar, erupting with a deafening Dragon's Roar! It was so shocking that the cups and bowls in the spaceship exploded instantly, turning into pieces of debris! "Damn, this flood Dragon is really powerful." Zhou Hao could not help but exclaim in shock when he saw the cup in front of him turn into powder. "It's a good thing that my spaceship is made of the best materials. Otherwise, we might not be able to return to this planet just because of her roar." At the thought of this, Zhou Hao felt extremely fortunate that he had made the right choice back then. If they were to really come into conflict with the hurricane Tiger King and the Son of the storm, Jasmine, they would probably not be able to get anything good out of it. At the same time, in the distance, the Child of the Storm, Jasmine, had bloodshot eyes, suffused with bloodthirsty killing intent! It stared at the hurricane Tiger King and roared in a hoarse voice, "You're just an ant. How dare you challenge the authority of the Dragon God! You deserve to die!" "Today, I'll chop your bones into pieces and send you to hell!" In the next moment, a Dragon's Roar reverberated through the entire sky like a thunderclap! The hurricane Tiger King raised its head and roared, its sharp gaze sizing up the distant Molly without any restraint. Its eyes were filled with ridicule as it sneered, "You haven't even transformed into a Dragon yet. How dare you be so arrogant and call yourself a Divine Dragon?" "I've never seen such a shameless thing. You've got it all!" Faced with the Tiger King's provocation and disdain, it completely infuriated the hatred in the heart of the child of the Storm, Jasmine! The power of desolation in its body instantly burst out, and then its body actually flickered with an extremely dazzling light, making it impossible to look at it directly! Very quickly, a

sudden change occurred! A violent tremor suddenly erupted from the surface of the sea. In the next moment, a huge wave surged up! In the distance, the rolling waves quickly formed a huge tsunami. The wave was more than a thousand meters high! In the contrast of the huge waves, everything in the surroundings seemed unusually small. “F\*cking hell ... Is he that powerful?” Ling Tian looked at this scene in shock and could not help but sigh,” “As expected of the Overlord of the sea. He actually has such a powerful ability!” “It’s just a small trick, I don’t care about it. ” Ji yaoyue’s tone was extremely calm, as though she did not take the scene before her to heart. In the distance, the tsunami that was more than a thousand meters tall shocked many of the exotic beasts on land. They subconsciously took a few steps back and looked at everything with extreme vigilance. Even their breathing became rapid. “I didn’t expect that the death of a black snake would cause the Child of the Storm, Molly, to be so angry!” “Perhaps his strength has really reached such a terrifying level?” The demonic flame Wolf beside the hurricane Tiger King also widened its eyes in shock. Its eyes flickered with a look of disbelief as it stared at the scene before it! There were also quite a few exotic beasts who wondered if their eyes were playing tricks on them. How could they see such a shocking scene? If the 1000-meter-tall tsunami really hit the shore, it was very likely that they would be smashed into meat paste in an instant! “Tiger King! Why don’t we retreat first?” The demonic flame Wolf was scared out of his wits. He subconsciously took a few steps back and looked warily at the Dragon. The deterrence of the divine Dragon was really not for show! The flood Dragon had yet to evolve into a Divine Dragon, but it was already so powerful. If it really evolved into a Divine Dragon, it would probably only take one look to scare them to death! Countless low-level exotic beasts were so scared that they fell to the ground, their ears drooped, and they whimpered in fear. Their strength was not on the same level at all. If they were to launch an attack by force, they would definitely be dealt with extremely miserably! “All of you, go to hell!” Molly, the Child of the Storm, immediately burst out in a delighted smile. She looked at the exotic beasts on the ground with a cold expression, who were about to pee their pants from the fear of the tsunami she had created. But in the next second, the smile on Molly’s face instantly froze! She looked at the hurricane Tiger King in shock. Suddenly, she stomped on the ground and quickly flew toward her position! “Tiger King!” The demonic flame hunting wolf was utterly shocked by this scene. It subconsciously wanted to call the Tiger King back, but it was already too late! The Tiger King’s entire body was like an arrow that was shot out, rapidly charging forward! Countless Ultra Beasts were also greatly frightened by this scene! Their faces were filled with shock. They had never thought that their boss, the Tiger King, would be so valiant and charge forward without a second word! However, could the hurricane Tiger King really defeat the flood Dragon? many of the exotic beasts calmed down and suddenly felt that there was not much confidence in their hearts. At this moment, the Child of the Storm, Jasmine, who was floating in the air, also saw the hurricane Tiger King rushing towards him. She was startled. She had thought that the hurricane Tiger King and its subordinates would be so frightened by her great deterrence that they would not dare to resist and would obediently surrender! However, he didn’t expect it to take the initiative to attack him!

## Chapter 806

*Chapter 806: The little loli Jasmine*

A hint of ruthlessness flashed in Jasmine, the Child of the Storm. At this moment, she didn't have any chance to retreat. A powerful storm and tsunami condensed. The Tiger King snorted coldly, his eyes filled with ridicule. Everyone else thought that he was being impulsive, but only he knew! "If it wasn't for this treasure, I'd have to avoid Molly's attacks, but ...!" He sneered and spat out a huge ball from his mouth! This ball was condensed with a strange spatial power, and it was very powerful. The moment it appeared, it caused the surrounding space to fluctuate, and a strange power that could control space spread! In an instant, the endless tsunami and storm stopped! Child of the Storm Jasmine's expression changed drastically. Looking at the Pearl in the Tiger king's mouth, she was filled with fear on the spot! "This is ... A telekinetic bead!" "You ... How did you get it!" She cried out in fear, but it was too late! In a battle between experts, an instant was enough to determine victory or defeat. The Tiger King instantly pounced over, and a powerful force of lightning condensed, instantly striking the Child of the Storm, Jasmine. The power of Thunder was the Tiger King's ultimate technique. When it was used, it caused Molly to feel as if she had suffered a heavy blow. She spurted out blood and her huge body was sent flying backward. She could no longer reform her original body and was beaten back to her petite figure. "Hmph, you're still too young to fight me, Molly. I'll give you two choices now. One, tell me about the fruit of life. Two, die!" The moment he finished speaking, Zhou Hao and the others' expressions changed! "Fruit of life!" Zhou Hao, Ji yaoyue, and the others exchanged looks and saw the excitement in each other's eyes! "This Dragon woman actually knows about the fruit of life. What should we do? should we attack?" Zhou Hao hesitated. This was an opportunity! They were unfamiliar with this place, and their information on the fruit of life was not accurate. Now that they had this information, they naturally had to study it! "Attack!" Ling Tian immediately opened his mouth. This was an opportunity! "Right, who cares! At worst, we'll just kill our way out!" Ji yaoyue added. Zhou Hao nodded and assessed his opponent's combat strength. The Tiger King's side had the advantage in numbers, but Jasmine's side was the same. It was only in terms of top-notch combat strength. Jasmine had already been defeated. If they could save Mo Li and escape on the Luo divine boat, it was not impossible! Furthermore, Ji yaoyue and Ling Tian were there as well. With the two of them covering for him, he would definitely be able to succeed in the rescue! With that in mind, Zhou Hao explained the battle plan and then steered the Luo divine boat toward the center of the battle. At this moment, the Child of the Storm, Jasmine, was extremely furious. She had never thought that this Tiger King would actually have such a move. She was extremely furious! "Why is the divine technique Union's telekinesis bead in your hands?" Molly looked at the Tiger King and asked angrily. "Hahaha, isn't this all because you Dragons think you're noble? Molly, since we've been dealing with each other for so many years, I can tell you the truth. The divine Secrets Alliance is already planning to make a move on you. Otherwise, why do

you think I'm here?" The Tiger King finally revealed his fox tail and spoke in a condescending manner. The beasts on both sides had also stopped fighting, because the outcome of the battle had already been decided! "Hmph, you want to get the whereabouts of the life fruit from me? dream on!" Molly's eyes were filled with anger. When the Tiger King heard this, he snorted coldly. "I don't care if you tell me or not. I just want to hand you over to the divine Secrets Alliance!" As he spoke, the Tiger King was about to make his move! However, at this moment, a scorching flame and a sharp spear radiance shot over. Two tiny figures that carried a power that was not on par with their bodies arrived. The Tiger King's expression changed as he turned his head. Three figures were approaching from the distance. One of them was a man and the other a woman. They were attacking him directly! "An outsider! A Saint level expert!" The Tiger King's huge eyes suddenly widened. Then, he snorted coldly and a powerful force exploded. His strength was definitely above Ji yaoyue and Ling Tian 's, but the two of them definitely wouldn't waste time with him. Their goal was simple. They were trying to create an opportunity for Zhou Hao! Zhou Hao's eyes flickered. Taking advantage of the Tiger King's momentary lapse, he directly activated the thousand feather armor's teleportation ability and instantly appeared in front of Molly. He didn't care whether she agreed or not and directly carried her on his shoulder. He then took out a large pile of bombs and casually scattered them before turning around and leaving. As for Ji yaoyue and Ling Tian, after they released their full-power attacks, they also retreated. The three of them returned to the Luo divine boat at the same time, and in the next second, the boat burst out with an unprecedented speed and charged out. Not only that, he even concealed his aura and disappeared from everyone's sight in the blink of an eye! Silence! A deathly silence! Whether it was the Tiger King's subordinates or Molly's subordinates, none of them could react in time. Meanwhile, Zhou Hao and the others had already left! "Roar!" The Tiger King regained his senses at this moment and roared towards the sky. He was extremely furious. "Chase him! Even if you have to dig three feet deep, you have to find him!" He didn't expect that someone would dare to come out and snatch away the fat meat at his mouth in their territory. Wasn't this courting death? Inside the Luo divine boat, Jasmine, who had taken on a human form, looked like a little loli. She had horns on her head and a tail behind her. She was very cute. However, her azure blue eyes were cold and alert as she looked at Zhou Hao and the other two. Her cultivation level had dropped drastically. Although she was still a martial Saint, she would definitely not be able to defeat Zhou Hao and the others if they were to fight. She did not know what the three of them were thinking, so she did not act rashly. "Hello, I'm a human from outer space. My name is Zhou Hao. The Tiger King just said that you know the whereabouts of the fruit of life. I wonder if you can tell me about it?" Zhou Hao directly stated his purpose for coming. Hearing this, Jasmine's eyes were filled with dissatisfaction and ridicule. She instantly understood. "So, you want to abduct me so that I can help you find the fruit of life. Hmph, you're really a bunch of snakes and rats, none of you are good!" She snorted coldly and turned her head away. As a little loli, she was actually extremely cute. She couldn't even get angry with him. "Um ... I admit that we saved you out of selfishness, but we're not trying to abduct you. We just need your help." Zhou Hao did not know what to say. "Help? Are you guys asking for help? You humans are really cunning. Do you think that I will help you find the fruit of life out of gratitude after you save me? You're thinking too much! I'd rather die than submit!"

Jasmine immediately said, leaving Zhou Hao speechless. “Hmph, what a powerful little girl. Do you believe that we will hand you over to the Tiger King?” Ji yaoyue couldn’t stand it anymore and said angrily.

## Chapter 807

*Chapter 807:-dragon essence*

The little loli was even more indignant when she heard Ji yaoyue’s words. She put her hands on her waist. “Then hand me over. If you do that, you will never know the whereabouts of the life fruit!” She wasn’t someone to be trifled with. Even though she was a harmless little loli now, when she returned to her original form, her combat power would be enough to deal with even the three of them! “Sigh, forget it. Since you don’t want to say it, then don’t say it. We’ll find it ourselves.” Zhou Hao was very depressed. He wanted to force a confession out of her, but this little loli looked so cute that Zhou Hao’s human heart couldn’t break through. He couldn’t do it. Even Ling Tian had a bitter expression on his face, clearly not knowing how to deal with this little loli. As for Ji yaoyue, she snorted coldly and ignored her. “What should we do? she won’t say anything and we have no clues. What should we do next?” Ling Tian was still very calm as he spoke. “If you don’t have any clues, we’ll look for it. The divine Secrets Alliance is also looking for the fruit of life. Perhaps they know something. Why don’t we try going to the divine Secrets Alliance?” Zhou Hao suggested. However, after he said that, the little loli snorted coldly. “You’re really not afraid of death. You actually want to go to the divine Secrets Alliance. Hmph, with just the three of you martial Saints, he can kill you with one hand.” Her merciless mockery made Zhou Hao and the others’ faces turn dark. “Even if we die, we have to try. This is our only chance.” Jiang Chen said. Zhou Hao said solemnly. Upon hearing this, the little loli blinked her big eyes, but she didn’t say anything. Instead, she found a comfortable position and sat down. “Little girl, since you’re no longer in danger, you should leave. What are you still staying here for?” Zhou Hao looked at her and was instantly filled with anger. “Who says there’s no danger? the Tiger King and the others will definitely be looking for me all over the world. It’s so safe here, so of course I have to go with you.” The little loli, Molly, rolled her eyes at Zhou Hao. That look of hers made him extremely angry. Zhou Hao felt helpless and depressed. If he had known this would be the result, he would not have saved her. This place was filled with danger. Zhou Hao and the others did not dare to act rashly. Hence, they found a place and hid. Then, they took out the information and started reading. The three of them started to discuss how to proceed with their next step. Then, they headed towards a city. “This place belongs to the divine Secrets Alliance. It shouldn’t be a problem for us to go in and gather information in disguise.” Zhou Hao asked thousand

feather armor to hide outside the city and the three of them got off the spaceship. Molly also jumped out and followed him. "Little girl, we're already here. Why are you still following us?" Zhou Hao was speechless. "I'll follow whoever I want to follow. It's none of your business!" The little loli, Molly, snorted. That look was really infuriating. However, Zhou Hao also blinked his eyes and exchanged glances with Ling Tian. Both of them could tell what the other was thinking. Although she didn't reveal any clues, there were only benefits and no disadvantages to following them. After all, their safety was tied to her. If they were in danger, she would also be in danger. Therefore, she would definitely not let this happen. "Alright, then you can follow us. However, we're not familiar with this place, so we'll need you to lead the way," Zhou Hao said with a smile. "Hmph, Hmph." Molly rolled her eyes at Zhou Hao and did not bother to say anything more. The four of them disguised themselves and entered the city. "Let's split up and carefully search for the whereabouts of the life fruit." Zhou Hao, Ji yaoyue, and the others thought about it for a while before splitting up. However, he didn't expect that the little girl, Jasmine, would follow Zhou Hao. "Where can we get the information about the life fruit?" Zhou Hao tried to ask. "Do you think it's that easy to find the life fruit?" The little loli, Molly, didn't have a good temper at all as she immediately said this. Zhou Hao felt helpless. This little girl was very sneaky. As long as it was about the fruit of life, she would not say a word. Zhou Hao did not know what to do. Helplessly, Zhou Hao could only wander around the area. However, even after going to many places, he did not find any news about the fruit of life. Zhou Hao was getting more and more anxious after a whole afternoon without any leads. As time passed, their time was decreasing. This was not a good thing for them. Just as Zhou Hao was feeling depressed, Jasmine suddenly looked at him and couldn't help but ask. "If you really want to know the whereabouts of the life fruit, why do you need it?" "For my home," Zhou Hao answered without thinking. This sentence stunned Molly. "Homeland? Although the fruit of life is precious, it doesn't have that kind of effect, right?" "Our planet doesn't have any experts to protect us. Now that we're facing a great enemy, that expert will only protect us if we obtain the life fruit. Otherwise, we'll die for sure." After Zhou Hao said this, the little loli was stunned for a moment. She had thought that Zhou Hao and the others were going to make a fortune from this. She did not expect it to be so important! "Although I understand how you feel, I still want to say that the hope is too slim." Jasmine thought for a moment and said. Although they had only known each other for a short time, she could tell that Zhou Hao and the others were not bad people. "What do you mean?" Zhou Hao's heart skipped a beat when he heard this. "You don't understand this place. The fruit of life has a very unique meaning to this place. It could even be said that everyone who comes here wants to get the fruit of life. You're not the first, and you won't be the last." Molly said indifferently. "However, it's very difficult to get the fruit of life. So far, only a dozen of them have been taken out. There are still many legends about them, so it's too unlikely for you to take one away." Jasmine wasn't lying to Zhou Hao. She was telling the truth. "It's up to you whether you believe it or not, because I also want to find the life fruit." Zhou Hao took a deep breath and looked at her. "I want to ask you, do you know anything about the fruit of life?" Molly laughed. "You're crazy. Of course I wouldn't know. If I knew, wouldn't I have gotten it long ago?" "Then why did the Tiger King say that you knew about this?" Zhou Hao was very confused. "That's because we, the dragon clan, were born to guard the fruit of life. Furthermore, the fruit of life's original name is not

this, but ... Dragon essence!" This sentence shocked Zhou Hao, and he could not believe it. "Dragon essence?" He found it hard to understand. He had thought that it was a fruit from a tree, but he never thought that it was related to the Dragon race! "That's right, it's long Yuan. That's all I know. Nothing else." Molly spread out her hands and said in a cute manner.

## Chapter 808

*Chapter 808: The location of the Dragon essence*

When Zhou Hao heard this, he was instantly depressed. All the clues had been cut off! Even Jasmine of the dragon clan, Long Yuan, didn't know, so how could he know? "That's why I said you won't get it. You might as well think of another way." Molly tried to persuade him, but Zhou Hao still shook his head. "No, this is the only way. There is no other way to save my home!" No matter how much this matter had to do with the Dragon Tribe or how difficult it was, Zhou Hao had to give it a try! Since they were on this planet, Zhou Hao would find them even if he had to dig three feet deep! Upon hearing this, a strange color flashed through Molly's eyes! She didn't speak, but her expression showed that this matter wasn't that simple! Soon, Ji yaoyue and the others returned as well. They didn't get any news at all. It had already been a few days, and they had no clue at all. Naturally, they were a little anxious. However, just as Zhou Hao was frowning, the frog suddenly communicated with Zhou Hao using divine thoughts. "Zhou Hao, don't say anything. Listen to me!" "I think I've figured out the long Yuan that the little girl mentioned just now. I don't know much about the fruit of life, but I might know something about it if it's long Yuan!" When Zhou Hao heard this, he became excited. However, he quickly pretended that nothing had happened and used his spiritual power to communicate with the frog. "Since you already know, tell me!" "Don't worry. This Long Yuan is indeed similar to what the little girl said. He's very mysterious and it involves an ancient secret!" The frog's expression was solemn, and its voice was serious, making Zhou Hao extremely nervous. "There are countless races in the starry sky, and the most primitive of them all are the beast races. They were born from the heavens, while you all evolved. To put it bluntly, they were born from nature, while you were chosen by nature. You should be able to understand the relationship between these two." "They have existed for a long time, so they naturally have something different about them. And this place is their bloodline!" The frog solemnly said each word. Zhou Hao held his breath and listened very carefully. "No one has been able to fully explain the mysteries of the universe. Even the Almighty who can control origin power can't explain where we come from, how we can cultivate, and what the vitality we absorb is. These are all secrets!" "However, one thing is clear. Since we can cultivate, it all comes from the laws!" The frog's expression became even more solemn. It was obvious that it was not clear about this profound mystery. "In layman's terms, the

universe we live in is a space where laws interweave. It determines what we can do and what we can't do. Everything is set by these laws." "As for the Dragon race, they were born with the potential to control the laws. Many eras ago, when the universe was still in chaos, the Birth of the Dragon race controlled the entire universe. Although this is a legend, I have always felt that it makes sense." "And this dragon essence made me even more certain of this. The so-called dragon essence is not so much an item, but rather the essence condensed from the power of the dragon clan's law." "Otherwise, why would this item have such a great effect? it can revive dying lives and revive dying souls. These are all laws!" The frog had said so much in one breath that Zhou Hao couldn't digest it. However, he could clearly understand that everything the frog had said was related to the fruit of life, which was also the Dragon essence! "I also know how the Dragon essence was obtained. It was condensed from the birthplace of the dragon clan and the location of their dragon vein. However, the Dragon vein might have collapsed and disappeared or remained dormant in that space. In short, the dragon clan has not mastered it." At this point, Zhou Hao suddenly felt helpless. If that was the case, then he was done for. Where were they going to find it! "You've wasted so much time talking, but in the end, you didn't give me a single solution?" Zhou Hao was a little angry. "Look, what's the hurry? others might not have a way, but maybe we really do!" At this point, Zhou Hao's expression changed. "We have one? What do we do?" Zhou Hao quickly asked. "Your true form is a void beast. Void beasts 'greatest ability is to control space. Perhaps we can find the silent space of the Dragon vein, but only the dragon clan has a way to enter the space where the Dragon vein is. So what you need to do is ask Molly if she knows where the Dragon vein is." After the frog said this, Zhou Hao finally understood. No wonder Molly wanted to find the Dragon essence. In fact, she didn't want to find the Dragon essence, but the Dragon vein! If he could help her find it, she might really be able to bring her to the Dragon essence! Thinking of this, Zhou Hao looked at Molly and smiled. "Little girl, the Dragon essence you're talking about, is it the nomological essence born in the Dragon vein?" As soon as he finished speaking, Jasmine's expression changed. She looked at Zhou Hao in shock, not daring to believe what she had heard. "How did you know?" She had said this subconsciously, but she regretted it immediately and covered her mouth! "That ... What are you talking about? I don't understand." She avoided his gaze, but Zhou Hao could still tell that she was just fooling him. "Hmph, you should know what I'm talking about. You want to find that space and I have a way. If you can help us get the Dragon essence, we can cooperate." Zhou Hao didn't waste any time. He looked at Molly and said directly. Molly looked at Zhou Hao with a hesitant expression. After a long while, she finally spoke. "You ... You're telling the truth?" Her words were filled with disbelief, but Zhou Hao's words filled her heart with hope. No matter if it was true or not, she wanted to find out. "Of course." "Why should I believe you? what ability do you have to help us find the Dragon vein?" Molly immediately said. "With this!" After Zhou Hao finished speaking, he stretched out his hand and a small space was created. Then, one by one, dozens of them were formed. "My control of space is not something you can compare to. Perhaps I have a way to find that space." Zhou Hao's move immediately stunned Molly! "Such powerful spatial comprehension, this ... This level, even God Realm can't reach it! How can you do that with your cultivation level?" She was very shocked. The void beast's original magical power was to grasp the power of space. This might be difficult for

others, but for the void beast, it was as if it was carved by a knife and deeply imprinted in its bones! He could do it easily!

## Chapter 809 - Sneaking in

### *Chapter 809: Sneaking in*

Zhou Hao laughed as he looked at Molly and said indifferently. "You don't have to worry about that. So, do you want to cooperate?" After saying this, Molly took a deep breath, thought for a moment, and nodded without hesitation. "Alright, since you have the ability, of course we'll cooperate. But I'm telling you, the consequences of lying to me are very miserable!" Molly waved her fist. That little loli look was really adorable. Zhou Hao nodded, "don't worry, I'm in the same mood as you. In fact, I'm even more anxious than you to get the Dragon essence." Molly made a sound of agreement and chose to believe Zhou Hao. "That's good. I hope we can work well together. The Dragon vein is at the bottom of the sea, the territory of my dragon clan. You have to follow me to the dragon clan." Jasmine said directly. Zhou Hao and the rest naturally did not hesitate. Even though Ji yaoyue and Ling Tian were worried, they understood after Zhou Hao explained it to them. Molly's desire to find the Dragon vein was no less intense than their desire to find the Dragon essence! After all, dragon veins were extremely precious to the Dragon race! The four of them took the Luo divine boat and went to the bottom of the sea. After descending for tens of thousands of meters, they finally arrived at the dragon clan's territory! Zhou Hao saw countless giant Dragons lying on the bottom of the sea. As far as the eye could see, there was no end to them. Similarly, there were countless Sea Race members in the surroundings. They were all their slaves and vassals to the Dragon race. On the bottom of the ocean, there were countless huge buildings. They were very ancient and were covered with mysterious symbols, revealing the vicissitudes of life. Molly looked at Zhou Hao and the others and took a deep breath. "We still need to inform the elders about this. I'll take you to the Dragon Hall now." As she spoke, Molly brought Zhou Hao and the others to the Dragon Hall. The Child of the Storm, Jasmine, looked at the dragon clan's elder and asked anxiously, "Elder, can you please help me open the forbidden space?" If Zhou Hao and the others wanted to find the specific location of the fruit of life, they had to go through the forbidden space and find the space where the Dragon vein was. However, before he could finish his sentence, he heard countless members of the dragon clan opposing him. "No! They're not from our dragon clan at all. How could they enter the forbidden space and open the Dragon vein?" "That's right! The Dragon vein has been protecting the dragon clan for generations. How can it be invaded by this group of unknown people? what if they want to destroy the Dragon vein?" "This group of people has sullied our Holy Land. They are not qualified to enter the space where the Dragon vein is!" "Get lost! Get out of here immediately!" Everyone from the dragon clan shouted loudly. They held the Tridents in

their hands tightly and threatened Zhou Hao fiercely. It was as if he would be stabbed to death if he didn't leave this place quickly. The dragon clan's elder sitting at the head had a solemn expression. His gaze swept across the surrounding people in an imposing manner, and then slowly landed on Molly's face. "You've heard the opinions of the Dragon Tribe. We can't let a few outsiders come into contact with the Dragon vein and threaten the safety of the Dragon Tribe." After the Dragon elder finished speaking, he looked at Zhou Hao and said coldly, "If you're smart, you should leave as soon as possible. Otherwise, we'll eliminate all intruders who pose a threat to the dragon clan!" These words were clearly meant to drive him away. Molly looked at the dragon clan's elder helplessly. Since he had already spoken, there was no way she could go against his decision. She could only nod and reply respectfully, "I know, elder ..." "But please don't hurt them. They are good people. They saved my life ..." Jasmine, the Child of the Storm, looked at the Dragon elder earnestly and said, "I'll take them away now!" The Dragon elder didn't say anything. Instead, he glanced at Molly indifferently, which could be considered an agreement. Molly turned around to look at Zhou Hao and the others, saying to them, "Alright, I'll send you off." Zhou Hao nodded, then turned around and followed Molly out. Only after they had walked far away did Zhou Hao stop. He looked at Molly sternly and said in a deep voice, "Molly, no matter what, I'll never give up on finding the life fruit." "That's right. The reason why we're here this time is to carry out a mission. If the dragon clan's elder doesn't agree, we'll find another way to enter." Ling Tian also spoke with a firm tone, and the few of them did not have any intention of retreating. "I know," Molly looked at everyone, nodded, and said seriously, "The reason why I said that to the dragon clan's elder was just to deal with him." "Don't worry, you saved my life. I will repay this favor no matter what. Besides ... I also need the life fruit to save someone." Halfway through her sentence, Molly's expression suddenly darkened. Zhou Hao looked at Molly, who seemed to have touched upon some sad past. He didn't ask further, but nodded and said, "Okay, then let's go together." There wasn't actually just one fruit of life. It grew on the Tree of Life, and it bore fruit once every thousand years, with two or three fruits each time. If one was lucky, they might even get four or five. It was precisely because of this that the fruit of life was so precious that everyone wanted to find it. Molly had the three of them follow behind her. They walked along the long corridor, avoiding many dragon guards who were guarding the forbidden area, and finally arrived at the location of the forbidden area! The forbidden land was a huge sinkhole. The sinkhole was five meters deep, and in the middle of it was a round stone tablet. At the very top of the stone tablet, there was a statue of a giant dragon. It was extremely lifelike and magnificent! There was a dragon clan guard standing every one meter around the stone tablet. They held Tridents in their hands and looked into the distance with solemn expressions. They were motionless like statues. The three of them hid behind a stone pillar and looked at the entrance of the forbidden area. There were no less than twenty Dragon Tribe guards guarding this place. Their hearts sank. "Crap, there are so many dragon guards. If we start fighting with them, the Dragon elders will definitely be alerted!" Ling Tian's brows furrowed as his heart sank, thinking to himself that this was definitely not a good sign. Molly muttered to herself for a moment, then suddenly stood up and said sternly, "I'll draw them away. You guys take the opportunity to enter. As long as you're fast enough, it won't be easy for them to find us after entering the space inside!" Molly looked at Zhou Hao and reminded him

again,” “It’s very dangerous inside. You must be careful. I’ll go in and find you after I’ve settled the things outside!” “Alright,” he said. Zhou Hao nodded in agreement. Immediately after, he saw Molly stand up and leap down at lightning speed, arriving before the captain of the dragon clan guards. “Princess Jasmine, why are you here?” The captain of the Dragon guards, Amos, was taken aback. He immediately cupped his fists and saluted, then immediately said in a serious tone,” “The clan leader has instructed that this is the dragon clan’s forbidden land. Without the clan leader’s personal order, no one is allowed to take half a step inside. Princess Jasmine, please leave quickly to avoid unnecessary misunderstandings!”

## Chapter 810

### *Chapter 810: Entering*

The captain of the Dragon guards, Amos, spoke in an extremely serious tone as he looked at Molly. “Oh?” Molly’s brows twitched, and a cold expression flashed across her face. She slowly asked,” “So, you mean that I, as the princess of the dragon clan, can be ordered around by you as you please?” “Although I haven’t completely become the Emperor of the dragon clan, I’m not an existence that you can order around!” Amos’ heart trembled. Such words were obviously meant to blame him! No matter what, Molly was right. She was a Dragon Princess to begin with ... Even if she were to release her Dragon’s might and vent her anger on him, he would have no room to explain or resist ... “I’m sorry! Princess Jasmine, I deserve to die!” Amos knelt on one knee in a panic and saluted with his fists cupped. He lowered his head, but still gritted his teeth and said,” “Princess Jasmine, please understand our work responsibilities and don’t make things difficult for us!” Molly’s expression sank, and she slowly said,” “Since I’ve come here, how can I not have the elder’s personal order?” Molly was about to reach out her hand and say to Amos,” “Come here, I’ll show you.” Amos immediately got up and walked to Molly’s side without any defense. Who would have thought that just as he walked to Molly’s side, she would immediately strike his neck with her palm and let out a breath! The light blue gas sprayed directly on Amos’s face, causing him to widen his eyes. He fell heavily to the ground unwillingly and fainted instantly! “Captain Amos, Captain Amos, what’s wrong?” Molly feigned panic and shouted at Amos. Then, she anxiously said to the Dragon guards,” “Why are you still standing there? didn’t you see that Captain Amos has fainted?” “Hurry up and help him to the Dragon Doctor. Are you going to watch him die Here?” The captain suddenly fell to the ground, and Princess Jasmine was angry. The Dragon Tribe guards, who had been standing quietly on the spot, panicked when they saw this scene! They immediately rushed over and were ready to help Amos. Molly took the opportunity to shoot a meaningful glance at the three people in the distance, hinting that now was the best time! “We can go over now!” Zhou Hao accurately caught Jasmine’s hint to him, so he immediately stood up and said to

the two of them. "Alright!" Ji yaoyue and Ling Tian immediately stood up and followed Zhou Hao to the entrance of the forbidden area! At the same time, Molly also walked to the entrance of the forbidden area while no one was paying attention. She immediately cut her palm with a hand knife, and countless golden blood oozed out and sprinkled on the Dragon! "Oh ..." Molly felt her blood being continuously sucked in by the dragon's eyes. Seeing the dragon's eyes on the sculpture turn redder and redder, she knew that the door to the forbidden land was about to open! "Princess Jasmine! What are you doing!" One of the Dragon guards noticed something amiss, and when he turned to look at Molly, he was instantly alarmed! He rushed over anxiously, wanting to stop her, but it was already too late! The dragon's eyes had already turned blood red, and large areas of golden light appeared all over his body! The surrounding ground was also shaking violently, and the round stone tablet was slowly floating up! "Success! That's great!" Molly was overjoyed. Just as she was about to rush over, she realized that because she had expended too much of her physical energy, it had caused her strength to become unstable, and she couldn't even take a step forward! That's right, the opening of the forbidden land required people with the Dragon bloodline to sacrifice their own blood! Now that too much of Molly's blood had been drawn, her lips had turned pale, and she could feel the strength in her body draining away bit by bit. Seeing that the forbidden area had been successfully opened, Zhou Hao, Ji yaoyue, and Ling Tian looked at each other and made their move! If it was a gang fight, they wouldn't be able to win, but it would be a piece of cake to save Molly! Zhou Hao immediately conjured countless spatial pockets and waved them out, blocking a portion of the Dragon guards. He then teleported to Mo Li's side, the power of his powerful physical body exploding forth. Although the Dragon Guard was powerful, Zhou Hao's all-out attack was something that even he would have to avoid! However, in that instant, Zhou Hao had succeeded! He pulled Molly along as he rapidly headed towards the bottom of the round stone tablet, where the intense light was erupting from the entrance! "Stop them! We can't let them in!" One of the guards roared and took the lead in charging forward. However, they were so fast that the Dragon guards couldn't stop them! He could only use all his strength to grab onto one of Ling Tian's legs, trying to drag him out! "Go to hell!" Ling Tian raised the saber in his hand, but he did not draw it out. Instead, he used the scabbard to strike the Dragon Guard's arm! However, his strength wasn't just for show. With enough strength, the Dragon Guard let out a blood-curdling scream and fell heavily to the ground. The reason he didn't hurt him was because he didn't want to cause any more trouble for Molly. After all, she had helped them so much. If she were to kill another member of the dragon clan, the dragon clan's elders would definitely blame her for this crime! As the four of them rushed into the forbidden area, the entrance to the forbidden area quickly closed. Molly weakly watched as they successfully walked in, before slowly closing her eyes. She had already exhausted her body's functions and had fainted! "Quickly report to the chief that there are intruders in the forbidden area!" The vice-captain looked flustered and quickly ordered. "Yes! Vice-captain!" One of the Dragon guards immediately stood up and rushed toward the Dragon Hall. When Zhou Hao and the others entered the forbidden area, they were instantly shocked by the scene before them! Countless spaces, millions of them, were gathered here, giving Zhou Hao a headache! "No wonder the Dragon Tribe can't find the Dragon vein. The space here changes from time to time. In addition, they don't have a good grasp of the power of

space. It's almost impossible to find the Dragon vein!" Zhou Hao understood and was shocked. Seeing that Mo Li had fainted, Zhou Hao immediately circulated the yuan Qi in his body and sent it into Mo Li's body. She had lost too much of the Dragon tribe's blood essence and was in a critical situation. Zhou Hao took out a rare energy bar and replenished himself while treating Molly's injuries. After a full half an hour, Molly finally woke up. "Thank you," she said. Molly struggled to stand up. Her body was very weak, but she could barely hold on. "We don't have much time. The elders must know that we have barged in. If they open the seal from the outside and barged in, you will all die. So ... We have to find the Dragon vein as soon as possible!"

## Chapter 811 - Entering the Dragon vein

### *Chapter 811: Entering the Dragon vein*

Jasmine was very anxious, and so were Zhou Hao and the others! However, it was too difficult to find the space where the Dragon vein was among the tens of thousands of space fragments! Moreover, time was limited, and it would be difficult to do so! Molly also knew this, so she was even more anxious. She put everything on the line and even took the risk with her identity as the dragon clan's Princess and future dragon clan Emperor! "Leave it to me!" Zhou Hao took a deep breath and closed his eyes. Endless spatial storms gathered around him. He used the life magical power of the void beast to inspect all space! However, it was too slow to check space by space. Moreover, it consumed a lot of Zhou Hao's spiritual energy! "We can't continue like this!" The frog's voice resounded in Zhou Hao's head. He couldn't help but say, "The Dragon vein is the Holy Land of the dragon clan, where dragon essence is cultivated. The people of the dragon clan will definitely be able to sense it. Zhou Hao, use Mo Li's spiritual power to investigate and you will definitely be able to sense it!" Zhou Hao's eyes lit up when he heard that! "That's right. When the void beast probes space, it can also feel the aura in space. Although the aura of the Dragon vein and the Dragon race are not exactly the same, they must be similar!" With that thought in mind, Zhou Hao immediately looked at Molly without any hesitation! "Molly, I need your help. Release your mind power and don't resist. I want to use your perception to explore the Dragon vein!" Although Jasmine didn't know what Zhou Hao's idea was, she had no other choice at the moment. However, he was still a little worried when it came to carrying it out. Everyone's spiritual energy was very fragile. Once Zhou Hao's spiritual energy barged into his spiritual energy, he could kill her with just a little trick. However, she did not hesitate and reached out her hand because she trusted Zhou Hao! Zhou Hao grabbed her hand. At the same time, Jasmine released her spiritual power, and Zhou Hao instantly barged in. In an instant, Zhou Hao could feel Molly's spiritual energy. It was extremely clear and clean, crystal clear like snow. There was also an ancient will in her spiritual power. It was an ancient inheritance that belonged only to the dragon clan.

Zhou Hao didn't have much time to experience it. Instead, he used her perception to investigate! At the same time, the entire dragon clan was in chaos. Their forbidden land was their biggest secret because the Dragon vein was inside! If the Dragon vein was taken away, it would undoubtedly be the same as taking away their Foundation! Although they couldn't find the Dragon vein, it was their hope after all. If it was occupied by others, they would be completely finished! "Damn Molly, she's actually so bold to enter the forbidden area. Outsiders will be killed without mercy. Molly will snatch away the title of Dragon Princess and imprison her in the abyss purgatory!" The elders of the dragon clan unanimously decided to kill their way out of the Forbidden Zone. The few of them worked together and used their dragon blood to summon the forbidden area. Very soon, the forbidden area was slowly opened again! At that moment, Zhou Hao and the others sensed it! "Faster, faster! Dragon vein, where are you!" Zhou Hao was extremely anxious. This was their only chance! If they lost this opportunity, not only would they die, but the entire Earth Star would also become hell! Therefore, Zhou Hao could only succeed. He could not fail! "Ah, Yingluo!" Zhou Hao let out a furious roar as blood flowed out of his eyes, nose, and mouth. He forcefully activated the maximum amount of spiritual energy he could withstand. The super-strong combination had already caused him to feel dizzy and his spiritual energy was injured. Furthermore, the void beast's true body's expression also changed at this moment, and its huge eyes showed signs of deep sleep! If it were to sleep, not only would it fail, it would even become nutrients for the divine beast. Zhou Hao was naturally aware of this, but at this critical moment, he could not care so much. He searched with all his might! At that moment, the seal was opened and the members of the dragon clan rushed in instantly! "Take him down!" They sped over, but at that moment, Zhou Hao's expression suddenly changed. He looked up and found a space that felt extremely familiar and intimate among the endless space fragments! "Dragon vein!" Zhou Hao was incomparably excited. Without a word, he pulled Ji yaoyue, Ling Tian, and Jasmine, connecting to that space, and instantly entered it! After entering, Zhou Hao immediately spat out blood and fell to the ground. Even Jasmine was mostly exhausted, and she staggered and sat on the ground. However, Ji yaoyue and Ling Tian were shocked! Because the scene in front of them was too shocking! It was a huge statue of the Dragon Emperor. Its huge body was so huge that one couldn't see the end of it. Its powerful aura filled the entire space. One could clearly see a continuous stream of essence slowly flowing above it! That was the Dragon vein! Under the Dragon vein, there was countless dragon essence. The Dragon essence was like a life, and one could feel their heartbeats! Zhou haoqiang perked up and was also stunned by the scene in front of him! "Oh my God ..." Zhou Hao had never seen such a Grand scene before! Was this where the Dragon vein of the ancient race of the universe, the Dragon race, was located? Whether it was the huge statue, the endless spiritual essence, or even the endless dragon essence, Zhou Hao was completely stunned! Molly's eyes also widened, and she covered her mouth, her eyes filled with astonishment! "It's true ... It's true that we've found the Dragon vein. My ... My dragon clan is saved!" She was very excited. Their dragon race had been immersed in it for too long. Their bloodline had dried up, and even breeding had become a problem. Without the support of the Dragon veins and dragon essence, their dragon clan was like a dry well that would dry up completely sooner or later. But now, with the Dragon vein and dragon essence, it was only a matter of time before their dragon clan restored its

former prosperity! Zhou Hao laughed and sat down on the ground, looking at Molly. "How is it? I told you I could find it!" Molly was also overjoyed, and she immediately threw herself into Zhou Hao's arms. "Thank you, thank you so much ... You're the benefactor of my dragon clan!" Zhou Hao was embarrassed. He scratched his head and said, "benefactor or not, I didn't think too much about it. I just wanted the life fruit ..." "I know, don't worry!" Molly looked at the huge statue, and as if she had been summoned, she flew up directly. Instantly, the statue released a beam of light that enveloped her. Instantly, an extremely noble bloodline power was transmitted out, shocking Zhou Hao and the others. "Bloodline inheritance? Not bad, not bad. This is the true dragon Emperor bloodline. Zhou Hao, you're not bad. With such a friend, you'll be able to have some face in the future when you travel the universe." The frog's voice resounded, and it was also excited.

## Chapter 812 - The arrival of iron hand

*Chapter 812: The arrival of iron hand*

Molly inherited the power of her bloodline, and her cultivation grew stronger and stronger. An extremely noble bloodline power condensed around her! "This is the noble bloodline of the Dragon race. In the entire universe, it can be considered an ancient existence!" The frog's voice resounded in Zhou Hao's ears. He looked at Molly, who was currently receiving the dragon clan's ancient inheritance, and sighed in his heart. This was the favored child of the heavens, far from what they could compare to. "What, are you envious? Although the dragon clan is good, their bloodline has been dried up for so many years. If you didn't find the Dragon vein, the dragon clan would definitely wither in less than a hundred years." "In comparison, although you humans have inferior bloodlines, you have endless potential. This potential is not something that the dragon clan can compare to, as you can still achieve such achievements without any inheritance." The frog's words gave Zhou Hao a little more confidence. He smiled. Although these words made him very happy, he knew that it was better to be friends with a race like the Dragon race. "Soon. She's going to completely control the inheritance of the Dragon vein. At that time, she'll be the new Dragon Emperor." As the frog had expected, Jasmine, who was above its head and under the statue, suddenly opened her eyes. At that moment, she immediately let out a Dragon's Roar. A powerful force swept across the entire space. In this world, it was extremely powerful! At the same time, the power of laws also quietly condensed! "Oh my, aren't you almost at the Dao realm? He's really powerful!" Zhou Hao felt the pressure and was surprised. At the side, Ji yaoyue and Ling Tian were also shocked. They had never imagined that an inheritance would actually allow Mo Li to be one step away from the Dao realm. This

kind of cultivation was something that could not be achieved without ten years! Molly smiled. With a wave of her hand, the entire space instantly rippled, as if it was connected to her. "Zhou Hao, thank you. I didn't expect my ancestor to have left behind a portion of the Dragon Emperor's bloodline. Now that I've absorbed it, I've already broken through the shackles of the dragon clan!" Molly was very happy. By the time she landed, she was no longer a loli, but a sexy beauty! Blonde hair, long legs, slender figure, and proud curves. She was more devilish than a demon. "You ... You little girl, you've actually grown up?" When he was on top, the light was too bright, so Zhou Hao didn't see this girl clearly. Only when he landed did he see her, and he was extremely shocked. "What? you still can't let me grow up?" Molly rolled her eyes at Zhou Hao and snorted. "Um ..." Zhou Hao felt helpless and didn't say anything. "You've helped me this time. I've already inherited the Dragon Emperor's bloodline. I won't forget your kindness. Keep this dragon essence. " As she spoke, Molly directly took out ten pieces of dragon essence. Of course, it was nothing compared to the hundreds of dragon essences. "Dragon essence isn't very useful, but it has unimaginable benefits for the dragon clan. So, I can't give you too much." Molly smiled, then continued. "However, I will never forget your kindness. The dragon clan will always be your best partner. Next, I will go into seclusion and let all the members of the dragon clan cultivate in the Dragon vein. They will only come out after about a hundred years. At that time, I will look for you!" Molly looked at Zhou Hao and said very sincerely. Zhou Hao also smiled and nodded. "Congratulations!" The dragon clan had always been on the decline. Now that Molly had become the Dragon Emperor, she naturally wanted to regain the dragon clan's former glory. After opening up the space, Molly sent Zhou Hao and the others off. As for what happened after that, Zhou Hao and the others didn't think about it, nor did they care. They boarded the Flying Ship and were very happy. At least, they had obtained the fruit of life, which was the Dragon essence! However, they didn't know that at this moment, a huge Army was already approaching from the Milky Way! The iron-Blood Alliance! Their most powerful commander, a Dao realm expert, had also arrived! Iron hand looked at this place and smiled. "There's no mistake about this place, but why isn't there anything? Hehe, hiding it? It's quite powerful. " "However, such a low-level formation that hides the left side is completely useless Against Me!" Iron hand laughed coldly. He then controlled the warship and began scanning. "Begin scanning and decoding the coordinates." The huge battleship immediately released a green light. After probing, it immediately felt a wave of a Galaxy. "Commander, this is the Milky Way. As you said, the coordinates are hidden. However, we have already cracked it." The Vice Governor laughed. He didn't care at all. "To have an array that can hide the coordinates, this means that this Galaxy isn't that backward. However, it's still not enough." Iron hand shook his head and steered the battleship into the Milky Way. The huge battleship immediately covered the entire area. After entering and seeing the scene of the Milky Way, iron hand was stunned for a moment and shook his head. "It's indeed a trash Galaxy. However, this is easy to deal with. But why can't I contact the few people I sent? I don't care anymore. Let's reorganize this place first." Iron hand smiled. The huge battleship flew directly above the Milky Way. The huge battleship covered the sky and soon arrived on earth. The entire Earth Star was terrified when they saw this giant thing! The five alliances were dumbfounded as well. They had never seen such a powerful warship before and immediately prepared for battle. Countless

experts flew into the air and looked at the warship with vigilance. Iron hand controlled the battleship and entered earth. He smiled when he saw the humans on earth. "Analyze these natives and see if they have any value." Iron hand didn't care at all. He had already scouted out that there wasn't a single martial Saint on this Earth Star. Anyone who wanted to fight him was simply courting death! The Deputy commander immediately scanned it and quickly got a report. "Life level, level five, the lowest level, brain level, low level, bloodline level, low level, basically, no value to be used." Hearing this conclusion, iron hand didn't feel anything. After all, they had come to this kind of planet many times and were used to it. "Here ... Even if you sell them as slaves, they're too weak. But you can still sell women. After all, many customers like special female species." Iron hand laughed as he spoke. "Send a team to wipe out all the elderly, children, and men on this Earth Star, leaving only the women." Hearing this, the Deputy commander led a group of people and slowly walked out of the warship. Green sword Emperor and the others looked at the extraterrestrials slowly walking out of the battleship with grave expressions.

## Chapter 813

*Chapter 813:-race against time*

Green Sword King and the others knew that the people who had come this time were from the iron-Blood Alliance. They were definitely going to invade Earth Star, and they really had no way to deal with this! "Indigenous people, you have two choices. Kill yourself or let us finish you. There are only two choices. Make your choice." The leading deputy commander was an eighth level martial Saint. His powerful cultivation was not something they could compare with. Once they started fighting, they would definitely die! Upon hearing this, green sword monarch and the others' faces turned extremely unsightly. They were filled with hatred! "Aliens, this is our home. Please leave. Otherwise, don't blame us for being impolite!" Green Sword King could only defend to the death. There was no other way. "What a joke. You guys still want to resist us? you don't even have a single Saint level expert, so how can you resist our Army?" The Vice commander of the iron Blood Alliance sneered. He didn't even put them in his eyes. "Forget it, I don't want to talk nonsense with you anymore. Kill him!" The Deputy commander of the iron-blooded troop didn't bother to waste his breath. With a wave of his hand, more than ten martial Saints immediately flew out. Their powerful cultivation condensed on Earth Star, making green Sword King and the others look extremely ugly. Their cultivation base was completely unable to resist. This was a Saint level expert! At this time, Zhou Hao immediately sent a message to George. After the latter knew, he immediately provided the coordinates and let Zhou Hao jump through space to arrive at

the Nairo Galaxy. Not only that, Zhou Hao also contacted Xu Ling immediately. "What's wrong?" Zhou Hao asked hurriedly when he saw the fear on Xu Ling's face. "Xu Ling, what happened on Earth Star?" Zhou Hao had a bad feeling and was a little worried. "The ... The aliens are here. They ... They want to slaughter our planet. I'll send you a live feed." As she spoke, Xu Ling connected to the satellite and directly broadcasted the scene in the sky. Zhou Hao's expression turned ugly when he saw this. "Dammit!" Zhou Hao did not expect that they would still arrive. He hurriedly contacted George and transmitted the information about the fruit of life over. At the same time, he told George about this matter. George also knew the urgency of the matter, so he hurriedly contacted the big boss and got a reply very quickly. "Zhou Hao, I've already contacted the big boss. He's already stepped in to help you mediate. However, Jianli will not interfere if your fruit of life is fake." George said directly. "Don't worry, it's definitely true!" Zhou Hao replied immediately. "Alright!" After George hung up, Ironhand of the iron-Blood Alliance received a message. "Eh? A mercenary group leader from the nailuo star system? Why is he looking for me?" He frowned, but he still hurriedly connected the message. "Respected guild leader, may I know what business you have with me?" On the other end of the message, a huge figure spoke in a deep voice. "Iron hand, you're in the Milky Way, right? let's take a break." The voice was cold and emotionless. It was a voice that was beyond doubt. "Why? Leader, although you are the leader of a mercenary group on planet nailuo, you and I have nothing to do with each other. You can't control me. " "I know. Are you going to give me this face?" The leader of the mercenary group spoke directly, his tone still overbearing. "You ..." Iron hand's face turned dark. He naturally didn't dare to fight head on with the leader. The latter was at the peak of Dao realm and although his background wasn't weak, he didn't dare to offend him. "I need a reason. Why?" Iron hand took a deep breath and asked. "It's very simple. The master of this planet is currently working for me. After this is done, you have to retreat. If you don't leave, my Zhuluo system will not spare you. Similarly, if he doesn't help me with this matter, you can do whatever you want with the Milky Way system. " The voice said indifferently. After saying this, iron hand narrowed his eyes and nodded. "Alright, I'll give you some face, leader. However, just this once!" After saying that, iron hand hung up the message and called the Vice commander back. "Boss, what's the situation?" He was very surprised and didn't understand why the operation was stopped. "The leader of the mercenary group on planet nailuo has already given me an order to wait for a while. In fact, this order might fail." His expression was very unsightly, but he wasn't angry because of the Milky Way. After all, such a Galaxy couldn't be bought at a good price. However, the attitude of the hell star system made him very angry. "Hell Galaxy, it's just a third-tier Galaxy. How dare you control us? boss, your background ..." The Vice commander was just about to say something when iron hand rebuked. "Shut up. Although my identity is different, I can't start a war with the nailuo system. You know, I'm not well-liked in the family. If something like this happens, I'm afraid that if they don't deal with me, the family will take action Against Me!" "After all, there are many people who want to kill me!" Iron hand said gloomily, his expression extremely unsightly. At this time, Zhou Hao had already arrived at the Nairo system. He did not stop and immediately found George. The latter immediately brought him to the mercenary group. "Zhou Hao, you've obtained the life fruit?" On the way, George was also very shocked. After all, this thing was too mysterious. "That's right. " Zhou Hao

immediately nodded. “Hahaha, good boy, you’re amazing.” George laughed. Soon, they arrived at the base camp of the mercenary group. He was shocked to see the mercenary group. “This is a mercenary group from planet nailuo. This ... This is too Grand?” Zhou Hao looked at the huge object and sighed in his heart. “Although the hell star system’s mercenary group isn’t a big organization, they are still very strong. Their entry level is Saint level. Only after passing the fifth level of Saint level can they be considered official mercenaries of an official mercenary group. Although they don’t have many mercenaries, each of them has been through hundreds of battles.” “Also, the hell star system focuses on nurturing mercenaries, which is their main source of income. Their leader, who is your employer, is at the peak of Dao realm. In fact, he is a half-step world Overlord. If it wasn’t for his wife, he would have broken through to the world Overlord realm.” George was very familiar with this place and couldn’t help but introduce it. “Mm ... Take me to the Guild leader.” Zhou Hao immediately said. Then, he brought the fruit of life to the mercenary group’s base camp, all the way to the mercenary group leader’s territory. “We’re here, I won’t be going in.” George smiled and waited outside. Zhou Hao looked at George gratefully before entering the room. As soon as he stepped in, he felt a spatial fluctuation and entered a different world. He saw a beautiful place. There were mountains, strange flowers, and a strong man like an iron tower standing there. In front of him was a bed, and a beautiful elf woman was lying on it.

## Chapter 814

### *Chapter 814: Milky Way horde leader*

Zhou Hao’s arrival caused the burly man to turn around. His skin was as black as steel, and he looked extremely rough. However, one could feel his domineering aura. “Give me the life fruit.” The burly man didn’t waste any words and his voice was overbearing. Zhou Hao took out the life fruit and handed it over. The burly man took a look at it and took it. Then, he felt his endless cultivation. He immediately injected the fruit of life into the woman’s body and a wave of mental energy instantly condensed. “It’s indeed the fruit of life. Zhou Hao, I agree to your conditions. This is the Milky Way horde leader deployment regulations. Take a look and sign if there’s no problem.” The burly man did not waste any more time and a document appeared in front of Zhou Hao. He glanced at it and began to read it carefully. He was stunned. “All the people of Earth Star are from nether star? Reaching the Saint rank, one could enter the minluo system and become an official resident? I can even join a mercenary group?” Zhou Hao was stunned for a moment. This was great news! To put it bluntly, the Suan Luo system accepted all residents of the Earth Star. As long as they reached a certain cultivation level, they could leave the Earth Star. To Zhou Hao, this was simply a joyous occasion. “That’s right. This is the most important rule in the agreement. It is also the only restriction that

allows you to obtain the Lord's qualification. Planet nailuo is not a charity. Even if the life forms on your Earth Star are very low, there is still hope. We are also cultivating a new force, do you understand?" Zhou Hao nodded in agreement. "Understood." "Very good, from now on, you are the leader of the Milky Way galaxy, under the protection of the nailuo star. The map of our nailuo star will also mark the Milky Way galaxy." After the burly man finished speaking, Zhou Hao signed his name. Then, with a wave of his hand, a powerful spatial fluctuation appeared. Zhou Hao left the place and appeared outside the door. "How is it?" George immediately asked. "It's done. Hahaha. George, thank you." Zhou Hao was extremely happy and excited. "Between you and me, do you still need to be so polite?" George didn't seem to care. "You still have to thank me. This is a fruit of life. Keep it well." Zhou Hao took out a life fruit and handed it to George. George had helped him so much, so Zhou Hao naturally had to express his gratitude. "This ... How can I accept this ..." George smiled, but it was obvious that he was just being polite. "Why are you still pretending to be polite with me!" Zhou Hao couldn't help but ask. "Hahaha, you've seen through my little plan. Zhou Hao, I'll take it. To be honest, I'm really curious about this thing!" George said with a smile. Very quickly, the news reached Ironhand. He was very gloomy as he looked at the mercenary group leader on the screen and asked. "Guild leader, this matter ..... Your planet nailuo has already made a decision, right? Do you really want to go against me?" Iron hand was very angry, mainly because he felt embarrassed. He had mobilized so many people to come to such a small galaxy, but he actually didn't have control over it. To him, this was a great humiliation! "Iron hand, I know your background, but this matter has already been decided. If you want to storm the Milky Way, I can guarantee that you will die." The burly leader of the mercenary group immediately spoke with an extremely cold voice! Iron hand's face darkened. He immediately shut off the communication and then shouted angrily. "Let's go, retreat!" He was furious, but he had no choice. He didn't have the guts to go against the mercenary group! The entire Earth Star heaved a sigh of relief when the iron-Blood Alliance retreated. They didn't know what had happened, but green sword Emperor and the others knew that Zhou Hao and the others had succeeded. After leaving Nailuo, Zhou Hao looked at the mercenary group's invitation letter and his heart was filled with emotions! "The mercenary group is the main force of planet nailuo. Their strength is extraordinary, and their main purpose is to train us. Do we want to join?" Zhou Hao and the others also had some ideas. They already had enough to join the mercenary group on planet nailuo, but they were only third grade Saint level and were far from qualified. However, they could join once they reached fifth grade! Most importantly, there was a training camp within the mercenary group. They would definitely be able to receive more systematic training there than on earth! "Of course we have to participate. We've already reached a bottleneck period and need more pressure!" Ling Tian immediately opened his mouth. He was the most excited about joining a mercenary group! Usually, he didn't seem very calm, but at times like this, he was often the one who took the lead to express his opinion. "Yes, I want to join too. Only by becoming stronger can we completely protect Earth Star. Although there is no problem now, we can not guarantee the future!" Ji yaoyue said immediately. This incident had made them deeply understand the helplessness of being weak! "Yes, let's join the training base together!" Zhou Hao laughed. Soon, the Luo divine boat arrived on Earth Star. Green Sword King and the others were very excited. After a short chat, Zhou

Hao rushed home. He had not returned home for such a long time, and he was eager to go home! After returning to the Wargod Battalion's residential area, Zhou Hao knocked on the door of the villa. The door was quickly opened. He saw Xu Ling standing at the door, looking at him in disbelief. In the next second, her tears fell and she asked in a choked voice, "Zhou Hao, is that you? are you really back?" "It's me. " Zhou Hao pulled Xu Ling into his arms, his eyes filled with heartache. "I'm back. I'll never leave you again. " At the same time, Wang shuyun and Zhou xueguo also came out of the house. When they saw Zhou Hao, they were also moved to tears. "Son, you're finally back. That's great." "It's good that you're back, it's good that you're back!" The old couple's mouths were filled with tears, and their tone was a little choked. After the family had a meal, Zhou Hao and Xu Ling sat in the air, looking at the starry sky above them. "Do you know how worried I was when you were gone for so many days ..." He said. "Every day, I've been thinking about whether you've encountered any danger and whether you'll be able to return safely." As Xu Ling spoke, her eyes began to turn red. She threw herself into Zhou Hao's arms and hugged him tightly, as if she was afraid of losing him. Zhou Hao immediately hugged Xu Ling and gently patted her back. He comforted her, "I'm fine. Didn't I come back safely?" "Don't worry, I won't do anything dangerous in the future to make you worry. " Zhou Hao comforted her softly. He lowered his head and saw Xu Ling lying on his lap, fast asleep. He knew that Xu Ling had not had a good night's sleep for a long time. Looking at Xu Ling's sleeping face, Zhou Hao's heart became even more determined. That was, no matter what, he had to protect Xu Ling, protect his parents, and protect the world!

## Chapter 815

### *Chapter 815: Regulations and rewards*

Early the next morning, Zhou Hao arrived at the Wargod Battalion's headquarters. Green Sword King was now in charge of the Wargod Battalion, and Ji yaoyue and the others were happy to see that. All the resources in Huaxia were in the hands of green Sword King and Heavenly King Zhu. These two people had already reached the half-step Saint level, which made them feel more at ease. After all, the people from the other alliances had ulterior motives. If Zhou Hao had not rushed back in time, they would have been reduced to slaves by now! Regarding this matter, Zhou Hao didn't say it out loud, but he had always kept it in mind. Green sword Emperor and the others also knew about it, so on the surface, they didn't control the martial artists of the other alliances. But in the dark, they were all monitoring them! Moreover, green Sword King and Heavenly King Zhu had already become half-step martial Saints. With these two around, Huaxia would be safe! Ji yaoyue and Ling Tian were both training in their own training rooms and had obtained 10 dragon essence. One of them was given to the leader of the mercenary group, and the other to George. Of the remaining eight, Zhou

Hao kept four for himself and gave the rest to Ji yaoyue and Ling Tian. The two of them gave one to green Sword King and Heavenly King Zhu, each getting one. At this very moment, he was absorbing it in his own training room. Zhou Hao also went to his room and opened the gravity room. "Although the fruit of life doesn't have much of an effect on us, it can still increase our cultivation. Most importantly, it's extremely beneficial to our mental energy!" Zhou Hao smiled, took out the Dragon essence, and began to absorb it. He had inherited the void beast's original body, so his spiritual power was unusually strong. It did not take much effort to absorb this dragon essence. "I wonder what's happening inside the divine earth beast." Zhou Hao was very worried. He closed his eyes and connected his spiritual power to the void beast, as if he was in the beast's body. As a special life form of the universe, the godly mulberry tree's aura was something that even the void beasts didn't dare to offend. At this moment, he was only a hundred steps away from the divine mulberry tree. He was slowly moving forward while withstanding the strong pressure. Often, one step would take a day! "As expected of a special universe life form. This kind of life pressure isn't something an ordinary race can bring about!" Zhou Hao was shocked! His heart was filled with even more anticipation. Once he obtained the divine mulberry tree, what kind of transformation would he undergo! "It's almost there. Before long, the godly mulberry tree will be mine. I can form my third clone, so this item will be the most suitable source of my power!" Zhou Hao smiled. At the same time, he also felt the decline of the earth divine beast's life force. Zhou Hao could do nothing about this. It was as if the earth divine beast wanted to use its life to refine the divine mulberry tree into his. At the same time, he was using his own strength to fight against the divine mulberry tree. As long as one of them could not hold on, the other would win! However, at the moment, the Mantis stalks the cicada, unaware of the Oriole behind. Zhou Hao was the Oriole, and could be said to be in an undefeatable position! "I'll be there soon. It'll take at most a year, at least a few months, and I'll be able to imprint my divine sense. At that time, I'll form a third clone, and my life level will increase even more!" Zhou Hao smiled and felt very happy. He then retracted his spiritual power and walked out of his room. He spread out his mental energy and sensed that Ji yaoyue and Ling Tian were cultivating. He chuckled in his heart. Ever since they had returned, the two of them had been cultivating with all their might. They had not stopped for a single moment. They knew that although the crisis on earth had been resolved, the crisis was still present everywhere. Only by becoming stronger could they truly protect Earth. Zhou Hao was not idle either. He turned on the virtual network of planet nailuo. The nether system's network system was far from comparable to Earth Star 's. Their network was more powerful and systematic, and they could basically do anything. Zhou Hao immediately entered the system of nether star and was stunned. He had received a message! 'Nailuo star's resplendent Milky Way horde leader, Zhou Hao. – Zhou Hao was shocked. He didn't expect the system to display it for him. It was really intelligent! 'Respected Milky Way horde leader Zhou Hao, please read the Horde leader notice carefully and receive your horde leader's authority.' At this moment, the system's voice rang out in Zhou Hao's mind. He was even more puzzled. He raised his head and a stream of information entered his brain. Line by line, row by row, it was extremely clear. Zhou Hao roughly read through it to understand a little. "As a Lord, it's not just an identity, it's also a responsibility. At the same time, planet nailuo will protect Earth Star for free. It's not free, but every year, you have to

contribute a certain amount of contribution points or universe dollars.” “It’s not a big number. It’s probably just a formality. After all, they don’t care about such a small amount of money.” Zhou Hao laughed and continued reading. “The Overlord’s identity won’t be announced to the public. However, those who are interested can still look it up. After all, there are more than 100 galaxies on the planet and each of them has an Overlord. The strongest one is a world Overlord while the weaker ones are Dao realm. It is the first time someone with a Saint cultivation like me has become an Overlord.” Zhou Hao was embarrassed. These aliens were more powerful than the last. Compared to them, he was still too far behind. “As a Lord, there are some rewards and privileges. I didn’t think of this.” After reading the detailed rules, Zhou Hao looked at the reward, smiled, and opened it. In an instant, lines of information were also listed. “As an Overlord, you are protected by the nailuo star system. At the same time, you are also one of the members of the nailuo star system assembly. As the level of the star system increases, the level of your membership will also increase.” “The Overlord has a total of three privileges. The first is identity. The identity of a special resident of the nailuo star system. To put it bluntly, he is someone recognized by the nailuo star system.” “Second, the Lord can receive the rewards given by planet nailuo. They are for individuals, guards, magic weapons, or cultivation techniques.” “The third, deploy the AI battle life forms to defend the Galaxy, this is only the foundation, at the same time, connect with the Nairo planet’s security system, the moment they are attacked, immediately send a message to the headquarters, there will be a large team of guards to rescue them.” Zhou Hao looked through the rewards in one breath and was extremely shocked! After becoming the Overlord, his status was completely different! At the same time, he also knew that it was extremely difficult to become the leader of a Galaxy. Someone like him was really lucky. If it were someone else, they would at least need to have sufficient cultivation and a strong background to become the leader. As for himself, he had saved the wife of the mercenary leader, which saved him a lot of trouble. “This is the reward. I naturally have to receive it!” Zhou Hao immediately clicked to receive it. “Your reward has been issued. Please take note to receive it.” Zhou Hao was a little surprised. How was he supposed to check the reward? At this time, they suddenly received a signal from thousand feather armor. A huge interstellar spaceship had entered the Milky Way.

## Chapter 816

*Chapter 816:-secret*

Zhou Hao’s heart trembled. He left the Nairo Galaxy’s virtual space and returned to his body. He instantly felt the fluctuations in space. At the same time, Ji yaoyue and Ling Tian also felt it. Both of them were Saint level cultivators, and their perception was not something that a heaven rank could compare to. At this moment, they were nervous. “Don’t worry, the reward from Nairo is here.” Zhou Hao hurriedly transmitted his voice

over, allowing Ji yaoyue and Ling Tian to heave a sigh of relief. "What kind of reward?" Ji yaoyue asked curiously. "It's the reward for being the Milky Way horde leader." Zhou Hao chuckled and then took Ji yaoyue and Ling Tian to space on the Luo divine boat. Immediately, they saw a huge black battleship. As soon as it appeared, a sound wave spread out. "Milky Way horde leader Zhou Hao's identity confirmed. Identity confirmed. Reward issued." After the voice reached the Luo divine boat, Zhou Hao saw countless robots fly out of the huge battleship. These robots lined up in an orderly manner and scattered in all directions. They were like bodyguards, stationed in the Milky Way. Not only that, but a huge laser cannon-like object poked out of the huge warship. It was obviously an extremely powerful destructive weapon. Ji yaoyue and Ling Tian were also extremely shocked. This was the first time they had seen something like this, and they were dumbfounded by the scene before them. "Oh my God, what is this?" "It's the planet nailuo's protection of the Milky Way," Zhou Hao said. "It's their security system. Once an enemy invades, they'll activate it." After Zhou Hao finished speaking, Ji yaoyue and Ling Tian were both stunned. "This hell star system is really not bad, it's really thoughtful!" Zhou Hao also laughed. He was extremely glad that he had joined the nailuo Galaxy. At this moment, a beam of light shot out from the spaceship. Then, a robot with the same body as Zhou Hao and the others walked out. It was covered in silver-white steel plates and looked very powerful. "The Honorable Milky Way horde leader Zhou Hao, I am your guard, the silver light mech." After the robot walked out, it immediately knelt on one knee on the ground, extremely respectful. Zhou Hao was a little shocked. He opened the cabin door and the silver mech walked in. "You are my guard?" "That's right, Milky Way horde leader. I'm your personal guard. I'll protect you 24 hours a day. This is my information and command authority. Please keep it." As he spoke, the silver mecha took out a small ball of light and handed it to Zhou Hao. Zhou Hao was a little surprised, but he still reached out to take it. The small ball of light disappeared from Zhou Hao's palm. At the same time, he felt a sense of perfect control over it. At the same time, he also learned the information about the silver mecha in his head. "The nailuo star system's Guardian armor, from green light, silver light, gold light, red light, black light, there are a total of five levels. The strongest black light is enough to fight against a sector Lord, even if it's Silver light, it can fight against a warrior below the eighth stage Saint level." When Zhou Hao heard the news, he was extremely shocked! He had never thought that Nailuo star would be so generous. This was undoubtedly giving him a super powerful fighter, and an extremely loyal fighter! Zhou Hao was extremely excited. With him around, Earth Star would be safe and sound! He didn't want to take this thing with him, but wanted him to protect planet Earth. With this thing, ordinary people wouldn't dare to enter planet Earth! "Okay, Silverlight, I'm giving you an order now. From today on, you have to protect Earth Star and the Huaxia Alliance. Do you understand?" After Zhou Hao finished his sentence, the silver mech did not say anything. Instead, two antennas grew out of its head and began to receive all kinds of information from earth. "Earth Star, a low-level planet, the strongest is a third-grade martial Saint ..." "The Huaxia Alliance is currently the strongest Alliance on earth. The other alliances are the United States of America, South Korea, the Europa Alliance, and Africa." "Although the Huaxia Alliance has allowed the other alliances to develop, they still haven't let down their guard. They're always paying attention to their movements ..." The silver light read the information out one by one, which shocked

Zhou Hao, Ji yaoyue, and the others! “Oh my God, this ... This is too awesome!” Ling Tian’s eyes widened. A lot of this information was hidden. For example, they were monitoring the other alliances. However, this silver mecha had managed to obtain it in an instant! It was simply ridiculous! Zhou Hao was also shocked. The technological power of planet nailuo was indeed not something they could compare with! If this silver mech was already so powerful, it was hard to imagine what the blacklight mech could be used for. “The information has been received. Silverlight knows what to do now.” Zhou Hao nodded in satisfaction. However, Zhou Hao did not know that danger was slowly approaching! At this moment, the Army of the iron-Blood Alliance was slowly entering the Milky Way. They looked at the information in their hands and were extremely gloomy. “Damn it, this Zhou Hao actually became Milky Way horde leader. How can someone want such a broken thing?” Iron hand was very angry. Looking at the report sent by Nairo star, he was so angry that his nose was crooked. “Deputy commander, why are you so angry? it’s just a trash Galaxy. There are a lot of such galaxies. What are you afraid of?” The Vice commander said indifferently. Iron hand snorted and couldn’t help but say, “If that’s the case, I wouldn’t be so angry. However, I suddenly thought of something. This Milky Way is very special!” “Special? What do you mean by that?” The Vice commander couldn’t help but ask. “I wouldn’t have come to this kind of godforsaken place, nor would I have paid attention to it. But do you know why I know that there’s a Galaxy here?” Iron hand leaned back on his chair and swirled his wine glass. “Um ... Isn’t this the information we collected? What’s the problem?” The Vice commander was puzzled. “Information? This information wasn’t collected at all. Someone spent a lot of money to let me occupy it!” Iron hand said as he narrowed his eyes. “Ah? Commander, I don’t quite understand. Isn’t it just an ordinary Galaxy? How could anyone spend so much money?” The Vice Governor still didn’t understand. “I don’t understand either, but I suddenly thought of a person, a person called ‘do Huang’. He has the same bloodline as the humans on planet Earth. His identity and cultivation level are a secret. There’s not even a single trace of him.” “I think this planet must be related to desolate. I’ve checked desolate’s information. He used to be wanted by the AO Chuang Empire!” “That’s the Ultron Empire we’re talking about!” When iron hand spoke of the AO Chuang Empire, his expression was solemn and even shocked. “How is that possible, that’s a super universe Empire, how could they want such a low life form warrior? You mean there’s something wrong with desolate or even this Earth Star?”

## Chapter 817

## *Chapter 817: Eighth grade martial Saint*

Iron hand leaned back in his chair, took a deep breath, and slowly nodded. "I think so. There must be something wrong with this matter. You should know that the ruler of the AO Chuang Empire is the absolute ruler, one of the few Giants in the universe. This is obviously not realistic!" "What shocked me the most was that I couldn't find out anything about desolate's identity and information. This was the only piece of information that I found out from my family when I was young. Back then, because of desolate, there was a huge commotion. However, I was young back then and didn't know about it. Now that I want to look it up, I can't find anything." After saying that, iron hand felt that both desolate and earth Star were strange! "Besides, this Big Boss is a guy who can scare you to death. He actually entrusted me to find the Milky Way and even let me occupy it. He's so powerful that he can destroy the Nairo system with a flick of his finger, but he's very careful and doesn't dare to come out personally. What is the purpose of this?" Iron hand thought it was strange. Originally, he didn't think so much about it. Before he came, he was also curious about the Milky Way and just casually flipped through it. That was how he came to such a conclusion. The Deputy commander was shocked when he heard this. "Commander, you're saying that even that Big Shot and the Auland Empire are interested in Earth Star?" Although he didn't want to say it, this was the only conclusion he could come up with after hearing the news from iron hand! "That's right, I suspect it's the same." Iron hand nodded. "Boss, I have an idea. Isn't that Zhou Hao the Milky Way Overlord? we can kill him secretly and no one will know. By then, planet nailuo will not care." The Vice commander said with a cold smile. "Oh? If Nairo sends a second Lord, do we still have to assassinate him?" Iron hand asked in surprise. The Deputy commander smiled mysteriously and shook his head. "They won't. The nether star system won't care. Zhou Hao became the Milky Way horde leader because he did something for the mercenary group leader of the nether star system. This is the first reason." "Second, the Milky Way is too down and out. Even if planet nailuo absorbed them, what can they do? Even if the people on Earth Star were to become slaves, no one would want them. Not to mention, the people on nailuo star are so arrogant that they would never do such a thing." Iron hand was shocked by the Vice commander's words. His guess was almost right! After all, the Milky Way itself was trash. Who would mobilize so many people just because of trash? "I understand. If that's the case, it'll be easy. That Zhou Hao is only a third grade martial Saint. We can just send someone to assassinate him secretly." Iron hand said with a smile. "Boss, let me handle this. I'm an eighth grade martial Saint. It'll be a piece of cake for me to kill him!" The Vice commander said with a smile. "Alright, Klein. I'll be at ease if you go. I'll leave this matter to you." Iron hand nodded. Deputy commander Klein immediately accepted the order. He then took a small spaceship and quickly turned around. .... Of course, Zhou Hao was not aware of any of this. At this moment, other than cultivating, all he could do was accompany his family. Zhou Hao had already signed up for the training camp on planet Nairo, but it would take a few days before he could enter the camp. Ji yaoyue and Ling Tian were also participating. The training camp on planet nailuo was very powerful, and Zhou Hao believed that he would gain a lot if he entered there. On this day, Zhou Hao had just finished his training and was walking out of the training room. As he was flying home, he suddenly felt an extremely dangerous signal! The signal sent

a chill down Zhou Hao's spine! "Killing intent! I've been locked on!" Zhou Hao's scalp went numb. The owner of this aura was far, far stronger than him. If he were to fight, he would die without a doubt! His expression was extremely ugly. He raised his head and saw a huge figure standing on top of his head, sneering at him! "It's him!" Although Zhou Hao did not know the other party's name, he knew that they were from the iron-Blood Alliance! Zhou Hao would not have remembered that outfit wrongly! "Zhou Hao, do you think that you can save Earth Star just because you have become the Milky Way horde leader? What a joke, if you die today, Earth Star will become an ownerless object. Nailuo star will not care about such a trash planet, so prepare to die." Klein smiled slightly. He didn't put a third-grade martial Saint in his eyes at all, so he didn't use a sneak attack! Zhou Hao's expression was extremely ugly. The cultivation of an eighth grade martial Saint was extremely powerful. Even if he used all his cultivation, he would only be a sixth grade martial Saint! And this was under the support of the nine revolutions Saint body technique and deity Vanquisher! However, as Zhou Hao's cultivation base increased, the God Slayer and the nine-revolution Saint body technique had their limits. This was especially so for Luo Yunyang's life system. After he became a third-level universe life form, the improvement was pitifully small! "You want to kill me? Let's see if you have the ability to do so!" Naturally, Zhou Hao would not wait helplessly for his death. Not only that, but he had also quickly contacted the Silverlight mecha. He had sensed Zhou Hao's cry for help and had already flown over. Zhou Hao's goal was not to escape. Although he could not defeat him, he still had a chance to escape! Instead, he wanted to capture this person from the iron-Blood Alliance and even kill him! "Interesting. A mere rank-3 dares to go against me?" Klein sneered as he looked at Zhou Hao and said coldly. "Third-grade? You can take a look again!" BOOM! After saying that, Zhou Hao immediately used the nine revolutions Saint body technique and God Slayer. His powerful physical strength exploded in an instant! Following that, his aura suddenly rose from the third-grade to the sixth-grade! Sixth grade martial Saint! Universe life form Level 3! He possessed the spatial laws of the void beast! He possessed the ancestor of all bodies in the universe! At this moment, even though Zhou Hao was still far from reaching the eighth grade martial Saint realm, he was strong enough to fight! "Huh?!" Klein's expression changed drastically. Every grade of the Saint tier was like heaven and earth. He had jumped from grade three to grade six in an instant. How ... How was this possible?! "This person must have a secret technique. I can't just kill him like this. I'll capture him and get the secret technique!" Although Klein was shocked, he was not worried. Instead, greed rose in his heart! "Rank-6? Today is also the day of death!" As soon as he finished speaking, Klein's powerful cultivation erupted with a loud bang. His life form was at the second level, and he directly suppressed Zhou Hao! BOOM! His body suddenly swelled up, and his firm muscles bulged. His body also burst out with a Swift speed, turning into a stream of light and bombarding Zhou Hao! Hand-to-hand combat! Zhou Hao narrowed his eyes. "Good!"

## Chapter 818

### *Chapter 818:-fight!*

Zhou Hao had never stopped fighting. He was also very confident in his combat power. Although he was an eighth-grade martial Saint, it was impossible for him to kill him in one go! Not to mention, it was a physical contest! His physical body had the cells of the void beast and cultivated his ancestral body. He was extremely powerful and wanted to test the combat power of this alien! Zhou Hao didn't waste any words. He also stepped into the air and shot forward. His powerful physical strength gathered in his fist and he punched out! Klein was stunned for a moment. As a race known for their physical bodies in the universe, they were good at close combat. Their powerful bloodline and strong bodies gave them endless confidence. In close combat, he had never thought that he would lose! Not to mention, it was a piece of trash that was two levels weaker than him! "You're looking for death!" He sneered and increased his strength. Wherever his fist passed, there was a wind-breaking sound, and even the void trembled. It was as if the rule force of planet Earth was about to be broken by his strength! Zhou Hao's momentum did not slow down, and his eyes were also filled with madness! BOOM! Their fists finally collided, and the powerful force caused a storm. The sound of the explosion spread in all directions, and it was as if two atomic bombs had exploded in the sky. The city below was also affected. The glass within a thousand-mile radius instantly shattered. Even the sea in the distance was affected by this power, causing huge waves! After the punch, Zhou Hao's body was pushed back a hundred meters. Klein was also pushed back, but only three steps! The winner and loser could be seen at a glance! However, Klein was not happy because he had won. Instead, his face was extremely gloomy! "How is this possible? how can he take my punch? my body is a second-grade universe life form. With the power of my bloodline, I can even fight with first-grade life forms in the universe!" "And he is just a third life form. He is two levels weaker than me. How can he take my punch?" He was shocked and couldn't understand what was going on. His eyes were filled with bloodlust. Zhou Hao, on the other hand, shook his numb arm and smiled. "He's quite powerful. As expected of an eighth-grade martial Saint and a second-universe lifeform. If it wasn't for my ancestral body's blessing and the integration of the void beast's cells, I wouldn't have been able to defeat him!" "However, that punch just now was not my full combat strength!" Zhou Hao held back, not because he wanted to use it to fill the cup, but because he never liked to expose his full strength to the enemy! He was going to use all of his combat strength to catch them off guard and kill them in one strike! "Haha, again!" Zhou Hao laughed heartily. The feeling of fighting hand-to-hand was simply too exciting. Instead of advancing, he retreated, raising his fist and punching forward! "You're looking for death!" Klein's dignity had been challenged, and his body was now blood-red in color. He activated his spell technique and strengthened it on his body. As for Zhou Hao, he had also activated the full power of his ancestral body. His entire body glowed with a golden light, making him extremely powerful! The two of them were high up in the sky, and the booming sounds continued. One punch after another, neither of them retreated. Zhou Hao's courage mounted as the battle progressed, while Klein's face grew

gloomier! "Damn, I've really encountered a strange thing. I can't kill him! How is this possible?" He was so angry that he didn't want to show mercy. Instead, he took a step back, took out a glove, and put it on. "Zhou Hao, it's your good fortune that I'm able to use this treasure!" As soon as the glove was put on, a destructive power was emitted from it! "This glove has the power of decomposition. Even a hard ore would be decomposed into dregs by my punch, let alone you. So, you must die today!" He snorted coldly. Now that he had wasted too much time, he did not want to waste any more time and directly used his killing move! Zhou Hao narrowed his eyes. Was he going to use his killer move? However, if he had it, Zhou Hao naturally had it too! His killing move was not a physical fight! It was his spiritual power! With the spiritual gem in his body, Zhou Hao's spiritual energy was extremely concentrated. With the 'endless purgatory' spiritual attack on him, as long as he was hit, he would be dragged into his spiritual space. At that time, his life and death would be in his hands! However, there were still some disadvantages to this spell. When it was used against someone with a strong mind power, its effect would be greatly reduced. In fact, if Zhou Hao wanted to capture this person alive, he would not be able to stop him if he chose to commit suicide instead of being captured alive! However, at this moment, Zhou Hao smiled slightly, because he had already sensed the arrival of the silver mech! With its help, he would definitely be able to capture him alive! Thinking of this, Zhou Hao smiled. "Come on, let me see how powerful you are!" Zhou Hao provoked. "You will see!" With that, Klein's speed increased, and he appeared in front of Zhou Hao in an instant. The powerful glove exuded a power that made Zhou Hao's scalp tingle! It was an extremely strange power that seemed to be able to disintegrate everything! Zhou Hao immediately took out his long blade and performed the seven blades of hell. Endless blade light condensed around him. This technique was no longer as lethal as a Saint. Zhou Hao had only used it to stop him for a moment! A moment was enough! It was enough for Zhou Hao to cast endless purgatory! Klein didn't know what Zhou Hao was thinking. He sneered at the endless blade light. With a wave of his hand, the power of disintegration burst out, and the countless blade light was shattered. In the next second, he appeared in front of Zhou Hao and reached out his hand, aiming for Zhou Hao's head! He no longer wanted to capture Zhou Hao alive and obtain his secret technique. He knew that he could not capture him alive with his own abilities. He could only kill him! Therefore, he did not hold back! However, at that moment, Zhou Hao raised his head. His eyes, which were as bright as the stars, were now as black as ink. An intense spiritual storm was instantly launched at him. The two of them looked at each other. At such a close distance, Klein couldn't Dodge at all and was directly hit! In an instant, everything in front of him disappeared. He entered Zhou Hao's spiritual world and saw nothing but darkness. He was in the center of the darkness. "F \* ck, a spiritual attack. Have I entered his illusion?" Klein's expression changed drastically, and he immediately became alert. However, after entering Zhou Hao's spiritual space, how could any precautions be of any use? "I don't want to kill you, but you can't escape either. Seal!" Zhou Hao snorted coldly, and a huge amount of mental power poured out. Klein's expression changed drastically, because he found that he could not move at all! "How is this possible? even if it's an illusion, it can't be so real. You can actually control my movements?" He was terrified, but he didn't know that outside the illusion, his physical

body was firmly locked by the silver mecha. The so-called being unable to move wasn't just limited to the spiritual space, even the outside world was the same!

## Chapter 819

*Chapter 819: Beautiful female warrior*

=

After capturing Klein, Zhou Hao heaved a sigh of relief and directly sealed his cultivation! To others, sealing someone else's cultivation base was a difficult task. But to Zhou Hao, it was a piece of cake! That was because he had the origin lines! The power of the origin mark was truly wondrous. Even Zhou Hao had yet to figure out its limits! Klein only felt that he was slowly losing control of himself, and he couldn't even exert any strength. His expression was ugly as he roared. "Is this an illusion? This was too real. What the hell was going on? How can his spirit be so strong, just like a spirit reader!" He was extremely shocked. At this moment, the darkness disappeared and he returned to his main body. After checking his situation, he was even more terrified! To his horror, he found that his cultivation had disappeared! No, it was sealed! "What ... What kind of power is this?" He couldn't believe it. Although there were many strange races in the universe, this was the first time he had encountered such a situation! "Stop struggling. I've sealed your cultivation. If you don't want to die, then be good." Zhou Hao's voice cut him off. He raised his head and realized that there was a silver mecha beside him. Its cultivation was also at the eighth-grade Saint-tier! "F \* ck, a silver mech. A silver mech from planet Nailuo. How does he have it?" "We're finished, we can't run!" Klein was completely dumbfounded! Zhou Hao didn't want to waste any more time. He tied him up and brought him to the Wargod Battalion for interrogation. Klein was quite stubborn. He didn't say anything at first, but he couldn't stand Zhou Hao's eighty-one torture methods and finally confessed. Hearing Klein's words, Zhou Hao's face turned extremely ugly! "The Iron-Blood Alliance ... Has discovered the secret of Earth Star!" What Zhou Hao was worried about had happened! Desolate had told them that Earth Star was one of the origins of the universe. Although it was desolate, it was still mysterious! Desolate even suspected that the ancient Earth Star had once given birth to real universe experts. Otherwise, where did so many ancient ruins come from? Zhou Hao was unable to investigate these matters, but that did not stop him from being worried! If Iron Hand knew about this matter, he would definitely not let it go. However, it was a good thing that he knew now and could be prepared! He was very worried about Iron Hand, but he was even more worried about the Big Shot who had sent Iron Hand to find Earth Star! Who was this person? From Klein's words, this person must be mysterious and powerful. Even Iron Hand called him a Big Shot! One had to know that Iron Hand was a Dao realm expert, so if he was called a Big Shot, he must be a realm

Lord! Or even above sector Lord! Zhou Hao felt even more pressured. He had not even explored the universe yet, and he had already been targeted by a super big Shot. Was he playing around? "I don't care anymore. Since he asked iron hand to do it, he must have some scruples. As long as I don't die, iron hand can't do anything to Earth Star. He's not stupid enough to let the whole universe know about this." After Zhou Hao analyzed the situation, he calmed down and felt relieved. At the very least, planet Earth would be safe for a short period of time! Although the danger had not disappeared, Zhou Hao still had a chance! After settling this matter, Zhou Hao entered the heavenly Dao software. He had been extremely busy during this period of time and had not opened the heavenly Dao for a long time. They had just entered and were still on the platform, causing a commotion. I'm just an ordinary person's ID, but I'm a big shot in the eyes of countless heavenly Dao software users! Zhou Hao ignored him and opened the store. This time, he did not want to buy any equipment for himself. Instead, he wanted to forge Earth Star. It was true that he was strong enough to protect planet Earth. But at the same time, the Earth Star had to be strong enough! The foundation of planet Earth's strength was that the human race had enough powerhouses! However, due to congenital factors, there were very few martialists on Earth Star. Even if there were martialists who could cultivate, they were very weak. To put it bluntly, it was related to their talent and even bloodline. Zhou Hao wanted to see if there were any treasures in the mall that could benefit the human race! As he continued to look, Zhou Hao's eyes locked onto a treasure called source-increasing liquid! This item could be absorbed by people to improve their bodies and even change their souls! This was what the human race lacked the most! Zhou Hao glanced at the price and immediately grinned. A small bottle of this thing cost 50 million heavenly Dao coins! Oh my God, this is daylight robbery! Zhou Hao was depressed. Fortunately, he had saved up billions of heavenly Dao dollars. Furthermore, Zhou Hao had too much money. All the resources on the entire Earth Star belonged to him. He did not care about such a small amount of money. Furthermore, he still had 10 billion universe dollars. These 10000 universe dollars could be exchanged for 1 billion gold coins from the Earth Star! Therefore, he didn't say anything and directly bought 10000 portions of source-increasing liquid! These 10,000 portions of source-increasing liquid were directly thrown into Huaxia's reservoir. It was not that Zhou Hao had selfish motives, but he still hoped that the Chinese would be the first to become stronger. After that, Zhou Hao smiled. Although it had been diluted many times, the source-increasing liquid was still effective. If an ordinary person took it, it could change their body. After a long time, it could affect the next generation of planet Earth's humans, or even the next generation! This kind of thing couldn't be rushed. No one could eat until they became fat in one go. After putting in so much source-increasing liquid, Zhou Hao returned to the heavenly Dao software and subconsciously went to Fairy Moon Spirit's livestream room. However, Fairy Moon Spirit's live stream had pitifully few viewers! Zhou Hao was surprised. Even if he didn't send any gifts, it shouldn't be just tens of thousands of people, right? Fairy Yue Ling knew of Zhou Hao's arrival as well, so she sent him a private message. "Big Boss, you're done? I'll log into the heavenly Dao software when I'm free." Zhou Hao replied with an 'en' and asked curiously, "Why is your popularity so low?" "There's a new livestream group called 'beautiful female warrior'. They've swept through the entire livestream room, and many people have gone to watch them." Fairy Moon Spirit sighed, feeling extremely lonely.

“Oh? There’s actually such a thing?” Zhou Hao was a little surprised. The livestreaming here was different from the livestreaming outside. Fairy Moon Spirit was an old hand, how could she be defeated by a new streamer in an instant? “Of course, boss, you’ll know why they’re so powerful when you go and take a look.” Fairy Moon Spirit said helplessly. Zhou Hao was really curious. He nodded and replied. “Let me take a look. I’ll be back soon.” As he spoke, Zhou Hao left Fairy Moon Spirit’s live stream room. After opening the live stream room, he quickly saw the ‘beautiful female warrior’ live stream room on the hot topics. Driven by his curiosity, Zhou Hao immediately opened it and entered the livestream room. As soon as he entered, Zhou Hao was stunned!

## Chapter 820

*Chapter 820: The boss of blind boxes*

This beautiful female warrior was indeed a beautiful female warrior! It was indeed beautiful! Moreover, it wasn’t just one person, but six people. They were all streaming at the same time, and each of them was so flirtatious. They had fair skin, long ears, transparent wings on their backs, and beautiful fur on their bodies. They were as beautiful as the elves. However, if it was only because of her beauty, that might not be the case! Most importantly, their livestream style was very unique! Help people open the blind boxes! That’s right, this was the gimmick! Zhou Hao did not know about others opening the blind boxes, but he needed luck to do it himself. The higher one’s luck was, the better the prize for opening the blind box. However, what right did this beautiful girl have to help others open the blind box? “Dear Big Boss of the ‘light of the North Pole’, we’ve received your order to help you open ten Platinum blind boxes for a fee of one billion heavenly Dao dollars. We’ll give you prizes worth at least ten billion.” One of the six beautiful girls in the live broadcast room said with a smile. After that, ten Platinum blind boxes were displayed on the big screen. Zhou Hao had also opened the Platinum box before. The prizes were very rich, and he could choose the type of prize. “I don’t care if it’s worth 10 billion or not. You guys must help me get the ‘myriad flames Prairie’ cultivation technique!” On the heavenly Dao software, the light of the North Pole was a strange Ultra Beast. At least, Zhou Hao had never seen it before. At this moment, he was standing at the front, staring at his ten Platinum blind boxes, full of worry. “Dear ‘light of the North’, don’t worry. We will definitely give you the ‘Prairie-burning myriad flames’ cultivation technique.” “However, we’ll need an additional one billion heavenly Dao coins.” One of the female warriors said with a smile. “You guys can really open it, what if you can’t?” The light of the North Pole snorted coldly. He was a little displeased that the price had been increased without reason. “If you can’t open it, we won’t take a single cent. We’ll compensate you with ten Platinum blind boxes. This is the rule of our

beautiful female warrior.” They laughed as they spoke. Their words were so arrogant that even Zhou Hao was shocked. “Hurry up, beautiful girls, we’re waiting!” “That’s right, let’s go. We want to see the moment of a miracle!” “Myriad flames Prairie Fire is considered a Dao realm cultivation technique. If I can open the Platinum blind box, I’ll eat sh \* t while standing upside down!” The livestream’s viewers were instantly excited. After all, this was a blind box. It was normal to not get such high-level good items! However, looking at the beautiful female warrior and the others, it was as if they had everything planned out. This scene shocked Zhou Hao! Could it be that they also had luck points? That’s not right. Even if he had the luck attribute, there was no way to be sure that he would be able to get what he wanted! Zhou Hao sat there and looked at it carefully, his heart filled with curiosity. At the same time, he also understood why the beautiful girl Warriors had become so popular! First of all, they were a group of beautiful women, and beautiful women were always eye-catching! Secondly, they were really capable and could open good things. Many people had opened them before. It was hard for a beautiful and capable woman to not be popular. Borealis nodded. “Then I’ll have to trouble you, fairies.” After saying that, one of the six beautiful female warriors smiled and pointed at the Platinum blind box with her slender finger. “Start the blind box, ten draws in a row!” As soon as the voice finished speaking, the livestream room immediately emitted a dazzling light. “Congratulations to’ light of the North ‘for obtaining the precious treasure, the Dragon tomb sword!” “Congratulations to’ Borealis ‘for obtaining the Super treasure, the God-class cannon!” “Congratulations to’ the light of the North ‘for obtaining the precious cultivation technique, the soil of the mayfly’s skeleton!” “Congratulations to’ light of the North ‘for obtaining the precious herb, mythical Suan ni!” “Congratulations to’ light of the North ‘for obtaining a precious treasure, a precious energy bar!” “Congratulations to’ light of the North ‘for obtaining the precious treasure: Suan NI’s precious body tempering liquid!” “Congratulations to’ Aurora ‘for obtaining the precious spear of the unparalleled war!” ..... As the Platinum blind boxes were opened one after another, the livestream room instantly became extremely popular. These were all treasures! Every single item was a treasure worth more than a billion. Even Zhou Hao was shocked to see so many of them being opened at once! “Congratulations to’ Borealis ‘for obtaining the Super treasure cultivation technique,’ blazing fields ‘!’ However, when the last Platinum blind box was opened, everyone fell silent, followed by endless cheers. “Heavens!” “Ten thousand flames Prairie, that’s a Dao realm technique!” “It’s out just like that?” “Not only did I get it, the other blind boxes are also good stuff. If I’m lucky, wouldn’t I be a Dragon in the sky?” “Hehe, you? It’s already difficult for you to even pick up a 1 billion processing fee, so don’t embarrass yourself!” The live broadcast room was boiling with excitement, and even Zhou Hao was shocked! This was the first time he had seen such a situation! What was going on? was the Platinum blind box that easy to open? Any one of them was a precious treasure! “I didn’t fail you!” While everyone was exclaiming in shock, the beautiful girl smiled and returned the item to Borealis. “Respected ‘light of the North’, don’t forget to pay.” “Definitely, definitely ... How could I forget, hahaha ...” The light of the North Pole was overjoyed. He immediately transferred four billion heavenly Dao dollars and left in excitement. The live broadcast room was extremely popular and shocking. “Alright, dear guests, that’s all for today’s live stream. We only open it to three platinum-level users and above every day. At the same time, they are also the three big

bosses who topped the list of rewards for that day.” “Dear family members, I’ll see you tomorrow.” [Teenage girl Warriors] smiled and waved at everyone. Then, she went off the live stream. Everyone was still unsatisfied and left the live stream. Zhou Hao was equally shocked as he returned to fairy Yue Ling’s live stream. Fairy Yue Ling had not seen Zhou Hao for a long time. She hurriedly logged out of the livestream and brought Zhou Hao to her own space. The two of them began to chat. “Who is this beautiful female warrior? she’s so powerful!” Zhou Hao asked curiously. “I don’t know either. He’s even better than you, Big Boss. Opening the blind box is like playing house. He can open whatever he wants. It’s ridiculous.” Fairy Moon Spirit had opened quite a few blind boxes before, but she had never seen anything like this! The ten consecutive draws were basically all precious treasures. If it were someone else, they would be lucky to get one out of a hundred! Fairy Yue Ling did not understand, but Zhou Hao might be able to guess! The probability of getting good items from the blind box was related to luck. All of them could tell that a precious item would definitely exceed their luck! Not even the blessing of the Queen of luck! It must be the blessing of the sun god that opened it! However, the luck value was as high as 100 billion!

## Chapter 821 - The mercenary assessment

### *Chapter 821: The mercenary assessment*

Zhou Hao was very confused and did not understand why. Luck was not something that could be obtained so easily. However, if the beautiful female warriors did not use luck to open the blind boxes, how did they do it? Zhou Hao couldn’t figure it out, but no matter what, this beautiful female warrior had attracted his attention. “Ever since beautiful warrior and the others joined the live stream, they’ve entered the top 100 in just a few days. Moreover, their ranking is still rising. Sigh ...” Fairy Moon Spirit was very depressed. The popularity that she had worked so hard to accumulate had dropped sharply in just a few days. Zhou Hao did not know what to say about this. He looked at his own luck. It was only in the hundreds of millions. He had reached the level of the Queen of Luck’s favor. He had obtained this from killing those exotic beasts in the universe. After chatting with fairy Yue Ling for a while, Zhou Hao entered the mall again. Looking at the dazzling array of items, he felt a little depressed. Good things were so expensive, and he didn’t even like the bad ones. “My cultivation has already reached the third grade of the Saint level, and my ancestral body has reached a bottleneck. I don’t know many spells, but my ancestral body and space spells are enough to make up for it. What I need to do now is to improve my physical body and increase my combat power!” Zhou Hao had always had a clear train of thought on how to cultivate. He knew that he should not bite off more than he could chew! Furthermore, be it the ancestral

body, spatial spells, or spiritual power, they would be extremely powerful when they were cultivated to the point of perfection. Therefore, spells were not that important to Zhou Hao anymore. After shopping in the mall for a while, Zhou Hao finally came out. As usual, he used body tempering liquid to temper his body. His ancestral body had already reached the second level, and he was still a long way from the next breakthrough, so he could not rush it. As for spatial spell techniques, he would only be able to obtain more advanced secret techniques after the void behemoth matured. A few days passed, and Zhou Hao spent all his time cultivating. At night, when he returned home, he had dinner with his family and brought Xu Ling to spend some alone time. "I've already advanced to the heaven rank. Hmph, it won't be long before I reach the Saint rank. At that time, I'll definitely follow you to explore the universe!" Xu Ling looked at Zhou Hao and said seriously. "Hehe, good. When the time comes, the two of us as husband and wife will work together. We will definitely become famous in the universe." Zhou Hao laughed as he touched Xu Ling's nose and couldn't help but say. "By the way, when are we getting married?" Zhou Hao said hurriedly. This kind of thing naturally needed a man to say it. Which woman would take the initiative to say this? Moreover, Xu Ling had been with him for so many years. She had been running around all this time. Although she had not stopped, Zhou Hao knew that it was time to make the promise he should have made! It had been a long time since they had been in high school. Zhou Hao could not live without her. When Xu Ling heard this, she was so moved that tears fell from her eyes. She had always known Zhou Hao's feelings, but now that Zhou Hao had said this, she was even more moved. "You ... You really want to marry me?" Xu Ling said uncertainly. "Of course, I'll only marry you in this life!" Xu Ling was very, very happy. She nodded her head heavily and snuggled into Zhou Hao's arms. "Um ... Whatever you say." Xu Ling smiled very sweetly. Actually, she was not a pedantic person. She had never cared about the wedding. As long as Zhou Hao had this intention, she was already very happy! That night, Xu Ling lay in Zhou Hao's arms and became his woman. That feeling made Xu Ling feel very sweet. When she saw Zhou Hao fall asleep, she smiled. "Hmph, stinky fellow ..." She hugged Zhou Hao and slowly fell asleep. Early the next morning, Zhou Hao received a notification from the Nairo Galaxy mercenary training base. Not only did Zhou Hao receive it, even Ji yaoyue and Ling Tian received it. The three of them were the strongest people on earth. They had all signed up for the mercenary group's training base, and it took two weeks before they received a reply. "Exam?" Zhou Hao was stunned. Was there a need to take a test? Ji yaoyue and Ling Tian had received the same notification as Zhou Hao. "You need to pass the test before you can enter the mercenary training base and become a trainee mercenary. Only after a year of internship and your cultivation breaking through to the fifth stage Saint rank can you become an official mercenary. However, you can only become a one star mercenary." Looking at the mercenary regulations, Zhou Hao was a little shocked. A fifth grade Saint was only considered a one star mercenary. This level was really too harsh! "This mercenary group, is not that simple. In the universe, any mercenary, is extremely respected, if they perform well, they can even become a true member of the mercenary Alliance." The frog jumped out at this time and couldn't help but say. "Mercenary Alliance?" Zhou Hao was stunned. "That's a real giant, a super Alliance that occupies the upper universe, and even comparable to some powerful empires. Those things are still far from you, so it's useless even if you know. Find a way

to join the mercenary training base in the Nairo Galaxy.” The frog glanced at Zhou Hao and said indifferently. Zhou Hao’s face trembled. This guy had always been a blow to him. “What are you guys thinking? do you want to take the test?” Zhou Hao asked Ji yaoyue and Ling Tian. “Of course, the mercenary training base is very helpful for our cultivation. Only a fool would not go!” Ji yaoyue said without any hesitation. “Alright then, let’s set off!” Without any hesitation, Zhou Hao brought Ji yaoyue and Ling Tian to the hell star system. The mercenary group’s training base was on planet vast expanse, the planet where the nailuo star system’s mercenary group was located. It was the most powerful planet after Conqueror! In fact, in terms of combat power, the mercenary group’s combat power was the strongest in the Nairo star system! At this moment, the densely packed spaceships landed in the sky. Looking around, there were thousands of them! “Today is the first day of recruitment for the mercenary group training base. Warriors from the thousands of planets in the nailuo Galaxy have all come to participate. This kind of scene is not something that the Earth Star Ares Battalion can compare to.” Looking at the Grand scene outside, Ling Tian was filled with anticipation. The two of them were the two great WarGods of the war god Battalion, but now they had become probationary mercenaries in this universe. He wondered how Ling Tian and Ji yaoyue would feel about this. Of course, the two of them didn’t feel anything at all at this moment. Instead, their blood was boiling. They couldn’t wait to take the test immediately and see where they were lacking! Suddenly, a beam of light shot down from Titanic star and transformed into the figure of an old man. This was a high-definition image. The huge figure was much bigger than the entire Titanic star. “Welcome to planet vast expanse to participate in the trainee mercenary assessment.”

## Chapter 830 - Cloud Mist Island

### *Chapter 830: Cloud Mist Island*

Mokalong smiled when he saw the group of people who had returned. “Welcome back to Zone C, and congratulations on becoming a probationary mercenary in the mercenary group. Although it’s only a probationary, as long as you work hard, you can become an official mercenary in the group.” Mokaron said with a smile. “Next, I’m going to tell you some key things to enter the mercenary training base. The points in your hands are the most important things in the training base. In the training base, points are everything. All your wealth outside doesn’t have much use. Of course, you can also use treasures to exchange for points.” “However, I don’t think anyone would be willing to do that. Moreover, there’s no need to embarrass themselves by taking out a treasure that’s too inferior, right?” After mokaron finished speaking, he waved his hand, and a huge screen appeared. “In the training base, there are many advanced technologies to train you. It’s like a killing field. There’s space for physical training and space for mental training. However, you’ll need points for all of them.” “Oh, by the way, when you enter

the training base, whether it's living or obtaining resources, you'll have to rely on the points in your hands. If you want to live a good life and obtain good resources in the base, you'll have to have enough points." "In the base, trainee mercenaries are not allowed to hurt each other, but they can fight in the virtual space. In short, no one will discipline you in the training base. Everything will be up to your own will." "You also have absolute freedom, and we won't restrict you. However, after one year, you can only have the opportunity to become an official mercenary after breaking through to the fifth grade Saint level. After one year, if you can't become a mercenary, there will be another year. However, if you want to reach the sixth grade Saint level, you have two chances. If you still can't become a mercenary, you will be fired. Do you understand?" Inkaron said indifferently. Everyone heard him clearly, and no one raised any objections. "Alright, before you enter the training base, there's an important mission. It's also your first mission before you become a mercenary trainee." After mokaron said that, a piece of information appeared on each of their cards. "Each mission is different. You can only enter the base after completing the mission. This is your last small test." After mokalong finished speaking, he left. The battlefields were dismissed, and everyone returned to their spaceships. Zhou Hao took a look at his mission. It was not that difficult. "On Cloud Mist Island, ten purple demonic Vine Seeds were harvested. A mercenary was leading the team, and there were five people in total." Zhou Hao was very surprised. What could this thing have? it was so easy. "Tsk, do you think the purple demonic Vine's seed is so easy to obtain? The nailuo star system's purple demonic vine seed is a treasure. It's a rare plant-type warrior. If it's nurtured well, it'll become the most loyal warrior." "A single purple demonic vine seed costs more than a billion universe dollars. It's guarded by a demonic vine beast, so it'll take a lot of effort to get it." The frog jumped out at this time and couldn't help but say. Zhou Hao suddenly felt depressed. If it was really as difficult as the frog said, what could he do? "However, you don't have to worry. You have the power of the void beast. It's enough to deal with it." The frog couldn't help but say when it saw Zhou Hao's worry. Zhou Hao heaved a sigh of relief when he heard that. Not long after, Ji yaoyue and Ling Tian also returned. "What are your missions?" Zhou Hao asked anxiously. "My mission is to escort an important item. There are three old mercenaries leading the team and ten probationary mercenaries accompanying them." Ling Tian said. "Mine is to defeat the bug tribe Army, with ten mercenaries leading the team and a hundred mercenary trainees." Ji yaoyue added. Zhou Hao blinked his eyes. In comparison, his task was much easier. "When are you guys leaving?" On Zhou Hao's token, it showed that they were to gather tomorrow. "I'm going to gather in a while, Al ..." Ling Tian sighed. "Mine is in three days," Ji yaoyue said. "The battle at the front line is over. We're going to clean up the battlefield and the remaining bug tribe Army." Zhou Hao nodded. "Then let's move out. After we're done, we'll meet at the mercenary training base. How about it?" Zhou Hao said directly. "Alright," he said. Ling Tian acknowledged with a "MMM" and brought his equipment to gather. Zhou Hao and Ji yaoyue strolled around the planet for a while before setting off. This mission was led by an old mercenary. Zhou Hao was also very curious about the old mercenary's cultivation. When they arrived at the designated location, it didn't take long before everyone arrived. The five of them looked at each other. As their comrades, they naturally introduced themselves. "I'm mo Lin, from planet Han Lin." "Mu Mulin, Xiao cangxing." "Zhou Yue, Yue Yang star." "Bei Xingchen grew up on the Cang Dao

star.” The four of them introduced themselves to each other. Zhou Hao let out a dry cough. “You guys can just call me Zhou Hao.” Zhou Hao didn’t want to reveal his identity as an Earth Star, so he didn’t introduce himself. They didn’t mind. Even if Zhou Hao told them, they might not know. After all, there were too many galaxies and they couldn’t remember them. “Let’s work together for this mission. We’ll get through it together.” The one who spoke was Zhou Yue. She had a lively personality and was very beautiful. Although she was not a human, with a long tail and a light purple body, one could still tell that she was a beauty. “Mm …” The few of them nodded and did not say anything. “It seems that you are familiar with each other. That’s not bad. Between mercenaries, you must believe in your teammates. As a group, only unity can complete the mission.” At this time, a huge figure as strong as an iron tower walked over. His entire body was covered in armor, and his appearance could not be seen. However, the three stars on his body still meant that his cultivation was extraordinary. Moreover, Zhou Hao could sense that he was a Dao realm expert! Even if he was Dao realm stage one, he was still Dao realm and was extremely strong! “Senior officer.” The few of them said in unison. “You can just call me chief long. I’ll lead the team this time. Our mission isn’t very difficult, but the seeds of the purple demonic vine are guarded by demonic beasts. It’s not that easy to get them. When we reach the place, you have to follow my arrangements. Otherwise, if you’re in danger, even I can’t save you.” Although chief long looked fierce, he was still rather patient. After saying that, he led everyone to his spaceship and directly set off for Yunwu Island. This place was not a planet, but a small island on the Cang Dao planet. This place was always surrounded by clouds and mist, hence the name Cloud Mist Island. After Zhou Hao saw the cloud Mist Island, he was also shocked. The place was a black mass filled with strange plants, which looked a little terrifying.

Tip: You can use left, right keyboard keys to browse between chapters.

## Chapter 831

### *Chapter 831:-crisis*

Chief long stopped the spaceship in mid-air and pointed down as he spoke. “This is Cloud Mist Island. The plants you see are the products of this Island. They are in a deep sleep, but if we make too much noise, they will wake up. So, we must be careful when we move. Although they don’t have much destructive power, it is still very dangerous to be entangled with them.” After chief long said that, he brought them down to the small island. “The purple demon Vine’s seed is in the center of the island. There is a huge vine tree there with many seeds. What you need to do is to go in and get them. I will wait for you here. Remember, you must be careful and not make too big a move. It is best if you don’t attract any demonic beasts. If you do, the five of you will think of a way.” “I will appear at the most critical moment. However, if I appear, your mission will be declared a failure. Not only will you not be able to obtain any points, but you will also

be deducted 10000 points.” Officer long said directly. After he said that, the few of them immediately became depressed. They had thought that with senior officer long leading them, they would be able to retrieve it together. They had never expected senior officer long to make a move at such a crucial moment. In this case, they would have to do it themselves. Zhou Hao and the others nodded and entered the forest. Some of these black plants were as huge as towering trees, while others were withered like broken branches. No matter what, these things all had extraordinary offensive power, so Zhou Hao and the others did not dare to make too much noise. “Let’s go in carefully. The driver has to move. Don’t wake them up.” After some discussion, they slowly entered. Soon, they saw a huge tree with strange fruits growing on it. “This is the seed of the purple demonic vine. This thing is alive. Even if it’s plucked, it can still survive. We need to supply it with our own Yuan Qi. This way, they will be able to communicate with us.” Molin seemed to be very familiar with this thing and directly told everyone this information. Zhou Hao was very interested in this item. After all, he was interested in anything that could help him. “If I can get more of this and cultivate it on Earth Star, it might be able to guard my house.” Zhou Hao began to think. They slowly approached. At this time, mu Mulin suddenly pointed up in horror and gasped. She quickly covered her mouth, worried that she would make a sound. Following her gaze, there was an extremely thick purple Python-like thing on the demonic soaring tree. However, it was even more terrifying than a Python. It had four legs and was like a lion, full of wildness. Most importantly, its aura was extraordinary. It was at the peak stage of the Saint realm! Logically speaking, it should have been easy to collect such a thing. Any Dao realm expert could have picked it. However, the reason why there wasn’t any was because the purple demonic Vine Seeds of the demonic vine tree weren’t endless. Each year, they could only take a hundred. For this kind of thing, they naturally wouldn’t send experts. Every time, they would come to take the mercenary trainee test. In comparison, this mission was extremely simple. “Let’s be careful. We’ll just pick the purple demonic Vine’s seed gently. We mustn’t alert the demonic beasts!” Bei Xingchen said softly at this moment. The few of them had also realized it. This guy was a peak stage martial Saint. Once he woke up, it would not be easy for the five of them to end him! Moreover, once there was a huge commotion, the plants here would wake up. When that happened, it would be difficult to clean up! “How about this? we’ll slowly approach and harvest them. There are at least a hundred purple demonic Vine Seeds on this tree. We’ll each take ten. It’ll be enough to split.” Mo Lin said after a quick glance. The few of them nodded and slowly rose into the air, approaching the demonic vine tree. When they got closer and saw the demonic beast, they became even more nervous. His aura was very powerful. Although he was sleeping, the aura that he casually emitted still made them feel uncomfortable. Zhou Hao secretly activated his ancestral body and rose into the air. He came before a fruit and grabbed it. He twisted it and plucked it. Then, he threw it into his backpack. At this rate, it would be too easy to complete the mission. He just had to be careful. Zhou Hao was on high alert. He slowly approached one fruit after another and picked one after another. In the end, Zhou Hao had picked a total of six or seven. The others were about the same. However, after picking all these, they faced a difficult problem. It was this magic beast that was entrenched on the tree. There were many fruits around it, and if one wanted to pick them, they would be closer to it. There were even a few hanging from its body. “We’ve already harvested the rest. Let’s be

careful. After we've harvested everything near its body, we'll leave quickly!" Mu Mulin said in a low voice. "No, there are so many of us. It's too big of a move. Why don't we send one person to pick it and split it up?" Mo Lin shook his head. After all, the movement of five people was too big, and one person caused little movement. Zhou Hao actually agreed with this point of view, but it was still a little difficult to decide who should get it. "There are five of us, two ladies and three men. Let us men do this." Bei Xingchen was still a gentleman, and Zhou Hao did not have any objections. This suggestion had been made by Molin, and he had no objections. "This is a very important task. If you get close to the demonic beast, you'll be under even more pressure. I saw Zhou Hao just now. You seemed very relaxed, so I'm sure your body must be very strong. Are you willing to do this?" Mo Lin looked at Zhou Hao and said directly. "Of course, we won't let you do it for free. After it's done, we'll each give you 1000 points. How about it?" Mo Lin looked at the others, and they all nodded. After completing the mission, he would get more than 1000 points. He wouldn't feel bad about taking out 1000 points. As for Zhou Hao, he nodded after some thought. His physical body was the strongest, so it was easier for him to resist the demonic beast's pressure. Therefore, it was the best choice for him to go. "Alright!" As Zhou Hao spoke, his body slowly rose into the air, moving closer to the demonic beast. The pressure was so great that even Zhou Hao couldn't help but unleash his ancestral body to the extreme. Otherwise, he wouldn't have been able to get close! "Is a peak stage Saint realm expert that powerful? It's indeed extraordinary!" Zhou Hao squinted his eyes and slowly approached, carefully picking the fruits. Not long after, he had picked more than ten fruits. He was only two away from everyone's ten fruits! And these two were on the head of the demonic beast! Zhou Hao took a deep breath and slowly approached the demonic beast's head. Just as he reached out to take it, his expression changed drastically! It was unknown when the demonic beast had opened its eyes. Its huge eyes were like the full moon in the sky, and it was staring at Zhou Hao!

## Chapter 832 - Mission completed

*Chapter 832: Mission completed*

Zhou Hao's scalp went numb as his expression changed. It was too late. The demonic beast had already opened its eyes and was glaring at Zhou Hao with a ferocious look! The crowd below also saw it. Their eyes widened in horror! With less than three fruits, Zhou Hao didn't want to return empty-handed, so he gritted his teeth and made the first move! "Endless purgatory!" Zhou Hao directly used his spiritual attack. At such a close distance, even a demonic beast would be affected! As expected, after Zhou Hao's spiritual attack, the magical beast trembled and let out a cry. Although his cultivation

base was far beyond Zhou Hao's, at such a close distance, the powerful spiritual attack still hit him hard! Zhou Hao was not in a good state either. The strong backlash caused him to bleed from his nose and mouth. His head felt as if it had been pierced by hundreds of steel nails. It was extremely painful! However, Zhou Hao did not hesitate. He moved his body and picked one fruit in his hand. When he raised his hand, he was ready to pick the second one. However, at that moment, the demonic beast suddenly reacted and whipped its huge tail at Zhou Hao! The powerful wind-breaking sound was incomparably loud. The tail had not yet arrived, but the storm had already arrived. It was extremely tyrannical! "Teleportation!" Zhou Hao gritted his teeth and teleported away to avoid the tail. He landed in front of a seed and plucked it. This scene made the demonic beast roar even more as a terrifying pressure descended! Not only that, the entire devil state was covered in purple light. Bolts of lightning appeared and turned into lightning arcs, striking towards Zhou Hao. The lightning bolts were so powerful that even Zhou Hao did not dare to face them head-on! At this moment, they had already obtained two fruits. There were two more left, which were enough for everyone to get ten! At that moment, Zhou Hao was faced with two choices. One was to retreat immediately, and the other was to fight to the death! Zhou Hao was not one to cower. Even though he should have left after weighing the pros and cons, he was not a coward. He was very bold! At this moment, he gritted his teeth! "Thousand feather armor, gravity domain!" He immediately released his gravity domain to reduce the speed of the tail's attack so that it would cause less force! At the same time, he used his ancestral body and activated the nine revolutions Saint body technique and God Slayer at the same time. His cultivation instantly reached the sixth grade Saint level! "Fist of great destruction!" Zhou Hao clenched his fist and punched out! Although there was a four-level difference between the two and the demonic beast was a half-step Dao realm, Zhou Hao was not afraid! Zhou Hao spurted out a mouthful of blood as the punch landed. However, he used the force of the punch to escape and pick a fruit in his hand! There was only one left! However, the demonic beast had already gone mad. How could it not be furious that Zhou Hao had harvested so many seeds! Therefore, he was furious! A furious roar rang out as a powerful force erupted! Just as Zhou Hao was about to meet his end, a golden light flashed and a huge sword descended like the might of the heavens! "Hmph!" Officer Long arrived. The intense golden longsword struck the magical beast until its scales spurted out blood. As for Zhou Hao, just a second before he was stunned, he grabbed the last seed in his hand. Chief Long was moved. He moved his body and carried Zhou Hao. With a wave of his sleeve, he carried the other four and left. Looking at the unconscious Zhou Hao, Officer Long smiled. "You're a brave little guy. You've all passed this time. However, you have to thank Zhou Hao." Officer Long was very happy. Zhou Hao's performance was undoubtedly the quality that a mercenary should have! After putting Zhou Hao on the Flying Ship, they quickly returned to Cang Dao star. The others had already succeeded and obtained points. They did not forget their promise to Zhou Hao. They transferred the points to him and left. After a full day, Zhou Hao finally woke up. His head was heavy and he had suffered many injuries. However, when Zhou Hao opened his eyes, he realized that he had almost recovered. "You're awake?" In the spaceship, Officer Long looked at Zhou Hao and smiled. "Um ... Officer Long, where am I?" Zhou Hao was stunned. "Your mission is complete. You are in my spaceship." "It's done ... Oh ... Yes ..." Zhou Hao recalled that at the last moment, Officer Long had

arrived and he had kept the last seed. “Young man, you’re not bad. You have heart and courage. You’re a good mercenary. However, your strength is still lacking. Once you enter the mercenary training base, you must train well. When you walk out and become a real mercenary, I might even want to fight with you.” Chief long said it casually, but he was expressing his admiration for Zhou Hao. No matter what Zhou Hao’s cultivation base was, his character and temperament were the most important! In a mercenary group, teammates who were worthy of having their backs turned to were the true life and death teammates, and Zhou Hao was obviously someone who could make people feel at ease leaving their backs to him! “Hehe ... I’ll work hard.” Zhou Hao said directly. “When you enter the mercenary training base, you must go to the killing fields. That place will be very helpful for your advancement. The attributes there are special. After entering, it will form a virtual space, but when you leave, 90% of your memories will be erased. This is so that every time you enter, it will be like your first time, so that it will be more convenient for you to train.” “Therefore, you have to train well in the killing fields. This is the best place to train your combat skills in the training camp, and at the same time train your cultivation!” Chief long suddenly said, and Zhou Hao was stunned. “I will!” Zhou Hao took a deep breath and nodded. “Alright, you can go and report now.” Chief long said directly. Zhou Hao bade farewell to officer long and went to the mercenary training base. It was a huge city with all kinds of things. After Zhou Hao entered, he wandered around for a while, but there was no point. After all, everyone was participating in this mission and the time of their return was uncertain. Zhou Hao decided to wait for Ji yaoyue and the others. “Senior officer long said that the killing fields are very special. Why don’t we make use of this time to take a look around the killing fields?” Zhou Hao smiled and glanced at the map of the city. He then walked toward the huge building in front of him. The killing field was right inside. Zhou Hao took a deep breath and stepped in. After entering, the place suddenly opened up and was extremely vast. The huge virtual training room made Zhou Hao’s eyes light up, and he was very moved. “Is this the killing field? You have less killing intent than I thought. ” Zhou Hao blinked his eyes and looked at them. Then, he looked elsewhere.

## Chapter 833 - Entering the battlefield

### *Chapter 833: Entering the battlefield*

Zhou Hao looked around and all he saw were iron-blooded men. Those who had the courage to come to this place were not ordinary. All of them had their eyes on the top of their heads, and none of them were convinced by the other! The moment he entered this place, he felt a wave of killing intent. They were all people who had experienced life and death. Although they were only probationary mercenaries, many of them were veterans who had carried out many missions and seen many scenes. The aura on their bodies was naturally different from others. If a timid person came in, they would be

scared to the point of peeing. However, who was Zhou Hao? How could this little bit of killing intent scare him away? he had seen bigger scenes than this. Looking at the probationary mercenaries walking around valiantly, waiting for the cruel baptism outside the virtual training room, they were all iron-blooded people who had undergone demonic training. As long as one stayed in the killing battlefield, which one of them wasn't a person who had a 90% chance of dying? Looking at Zhou Hao, who had well-developed limbs but a simple mind, he looked like a person who had never experienced a life-and-death battle. Instantly, a look of disdain appeared on his face. This was because Zhou Hao's face still looked a little immature, unlike them who had experienced war and many life and death situations. "Where did this brat come from? You're not even fully grown yet and you dare to come to this place to court death!" A few old probationary mercenaries stood at the side, waiting for the test. They couldn't help but mock Zhou Hao when they saw him. Not just anyone would dare to step into their place! Zhou Hao was someone who had just come out and was not aware of the cruelty of their place, so they did not have any scruples. They felt that if they said anything overboard, this kid would not dare to talk back. "I think this kid won't last more than half an hour in the virtual training room. He'll definitely come out crying!" "Hahaha ... I think so too!" "This kind of stinky brat who hasn't even grown his hair yet will definitely cry after entering. Father, call mother and say it out!" These probationary mercenaries were all mocking him! In their hearts, people like Zhou Hao would not come here. Only they, who had seen life and death, were qualified to receive such a baptism. Looking at the proud expressions of these probationary mercenaries, Zhou Hao was filled with disdain. They thought that they were the best in the world, that they had seen the dead on the battlefield, so what? Who was a person who had crawled out of a pile of dead bodies? what kind of tragic situation had he not seen? "You really haven't seen the world!" Zhou Hao didn't care about the mockery from these people. A true expert didn't need to care about these people. These probationary mercenaries were furious when they heard Zhou Hao's disdainful voice. No one had ever dared to look down on them. They were people who had climbed out of a pile of corpses, and even those iron-blooded soldiers would be afraid of them. This brat who hadn't even grown his hair yet actually dared to speak sarcastically? If he didn't teach him a lesson, he really wouldn't know the immensity of heaven and earth! Everyone's faces were filled with anger, and they almost wanted to teach this outsider a good lesson on the spot. Of course, they were also very curious. This kid had just entered the mercenary training base and dared to come here. He really didn't know the immensity of heaven and earth! This made them very unhappy. Most of them had been at the training base for a long time before they dared to come for special training. After all, everyone had heard of the killing fields! A young brat who had just entered dared to come. On what basis? They had to go through thousands of trials and tribulations to reach a certain requirement before they could come here to participate in this kind of spiritual baptism. This outsider came as he pleased, and he looked like a weak chicken. "You little brat, you're looking for death. I'll play with you and let you know the true style of the strong!" A burly alien with dark skin and extremely muscular body stood out. He had thick eyebrows and big eyes. He looked like a tiger when he walked, and people couldn't help but feel afraid. He stood up high and mighty, his eyes full of disdain. He thought that Zhou Hao should be crying for his parents and begging for mercy. "Brother Nan, stop fooling around. You are going to

participate in the virtual training soon!" The other trainee mercenary advised. He was already furious when he saw Zhou Hao's arrogant look, but now was not the time to go against him. This group of people had never lost face in front of anyone before. A person who had just arrived actually dared to give them a hard time. Then, they had to be prepared to pay the price. After the burly man heard this, he stopped and immediately entered the virtual training room. That was the place he had been longing for. Although it felt very cruel inside, it was a place that people like them, who lived on the edge of the knife, yearned for. "You're lucky, kid. Otherwise, I'll let you know why flowers are so red." Brother Nan snorted coldly. "So what if there are more people? you said that I can't stay in the virtual training room for half an hour, but I'll go and stay for an hour!" Zhou Hao was also a person who refused to admit defeat. These people were obviously looking down on him, so he had to let them know that there would always be someone better. Not everyone was as weak as they had imagined! He had to admit that these were iron-blooded people who would never back down no matter what happened. This was also not a reason for them to bully others. Since they wanted to bully him, they had to be prepared to pay any price. "I'm already praising you by saying that you won't be able to stay for more than half an hour. Don't come out crying for your mom and dad in two minutes. That'll be embarrassing!" "Haha ... Brother Nan, you are too honest!" "We think so too, but leave him some face and don't say it out loud!" "Haha ... I'm dying of laughter. If this brat comes out crying, we'll give him a bottle of milk to drink!" "Only a child would cry for his mother. Let him go home and find his mother!" These probationary mercenaries laughed so hard that their bodies swayed back and forth, as if they had heard the biggest joke in the world! He looked at Zhou Hao who was standing at the side without saying a word! As he spoke, Zhou Hao was so scared that he peed his pants and ran out. He cried loudly and never dared to step into their killing battlefield again. The more he spoke, the more he laughed, as if he had just seen the biggest joke in the world. "Brother Nan, I think this kid is a clown invited by the monkeys to make us brothers happy!" No one took Zhou Hao seriously at all. Judging by his age, he did not look like someone who had been through a lot. He looked like a greenhouse flower raised by some family's disciples. These people laughed so hard that their backs were bent. Zhou Hao did not know what they were laughing at. Could it be that he was just standing there like a joke, making them laugh so hard? "Is it that funny? Since that's the case, let's make a bet, how about it?" Zhou Hao wanted to teach these people a lesson when he saw how unscrupulous they were. Let them know that you can't judge a book by its cover.

## Chapter 834

### Chapter 834:-bet

After everyone heard this, they felt like they had heard a huge joke. This young man actually dared to make a bet with them. He must have a lot of treasures that he could not use up, so he sent them over for free. Everyone's face was filled with mockery! "Brother Nan, did you hear that? this kid is still not convinced!" "Then let him face the truth. In the future, he shouldn't be so arrogant anywhere!" "Kid, this time, I'll treat it as a tuition fee for you to learn what it means to respect the old and love the young." The trainee mercenary's face was very happy. What kind of treasure did he give them? He felt that this kid wanted to lose a string and dared to say anything. "Alright, don't say 'but'. I won't give you a chance. Then tell me what you want to bet on!" The burly man had an evil smile on his face. In their hearts, Zhou Hao had already lost completely. Since the other party was so enthusiastic and wanted to give them a big gift on their first meeting, he would reluctantly accept it. "If I spend a full hour in the virtual training room, you lose. If I don't, I lose!" "The losing side will give the winner a hundred million universe dollars!" Zhou Hao said with a calm expression. These people's arrogance and the way they wanted to kill them let them know that not all the elites were gathered here. "Hiss!" All the mercenaries couldn't help but gasp. This bet was too big. It was a huge sum of money for them! "Alright, it's decided then. You'll enter the simulation training room after us, so we can monitor you!" "Not to mention that there are so many mercenaries here to witness it!" "It's been a long time since someone sent money over. I'm really looking forward to it ..." The mercenaries laughed out loud, feeling that this was the happiest thing in the world. The other mercenaries looked at Zhou Hao sympathetically. They wanted to step forward to stop him, but they didn't dare to. These mercenaries were not to be trifled with. Each of them had survived through piles of corpses and had experienced countless battles, big and small. It often carried the smell of blood! There were countless knife scars on his body, making people feel intimidated at first glance. "Then I'll wait and see. I'm going to enter the simulation training room now and accept the baptism!" The burly man laughed and walked into the training room. Everyone encountered different things. This training room was very strange, and after coming out, they would forget everything they saw inside. After that, he remembered that there was something terrifying inside. It was harder than ascending to heaven to explain why. Therefore, those who had not experienced the ups and downs and lived a life of iron and blood would not dare to step in. "Little guy, you're too impulsive. These people are not easy to deal with!" A middle-aged man quietly tugged at Zhou Hao's sleeve. A reminder! He had been in the killing fields for a long time, and knew things that others didn't. Looking at the young man in his early twenties, he didn't want Zhou Hao to be at a disadvantage, so he risked his life to give him a slight reminder. "It's not too late for you to back out now. It's not that easy to stay in here for an hour!" The middle-aged man had good intentions. He didn't want Zhou Hao to be scammed the moment he entered. It wasn't like this had never happened before. People like them were afraid of others destroying their faith. Zhou Hao looked at the middle-aged man in surprise. These people had all chosen to sit and watch the battle, so why did he take the initiative to stand up and remind him? This was the first time they had met. He didn't believe that there was such a thing as concern in this world for no reason! If there was love, the world would not be so dark! "Thank you, uncle. Since I've already said it, I

won't back out. If I back out, what's the difference between me and a deserter?" Zhou Hao was definitely an unyielding man. He had never thought of being a deserter. That was the most humiliating thing in his life, and he would definitely look down on others. He would never back down even if he died. The day he stepped on this path, it was his greatest wish to be wrapped in horsehide and die. These people were not fierce Tigers. Even if they were the King of the Mountains, they would knock out his teeth. The middle-aged man looked at the young man in front of him and was deeply touched. A young man should be like Zhou Hao, unafraid of the heavens and earth, only afraid of the obstacles in front of him and not cower. Only by moving forward bravely would he see hope. It was because he was too timid and afraid of trouble that he had gotten to where he was today. "Young man, you're not bad. I have high hopes for you!" "However, you have to be careful of these people!" The middle-aged man glanced at Zhou Hao, reminding him to be careful of the people who had laughed at him. Zhou Hao didn't care what the other party's purpose was, he appreciated the favor. "Okay, thank you. I'll be careful!" Zhou Hao had a faint smile on his face. It made people feel very quiet and unapproachable, but this contradictory thing did not feel out of place on him at all. The two of them had not chatted for long when brother Nan came out. He looked at the time and realized that it had only been half an hour. Looking at his dejected look, he knew that the things inside were not something that ordinary people could bear. A few of them surrounded brother Nan and asked about his well-being. They wanted to know what was scary inside. Brother Nan still had a look of lingering fear, which made people worried! He couldn't recall what had happened, but his body kept shivering as if he had encountered danger that he had never encountered before. The few of them felt helpless. Everyone had a chance to enter. As long as he had a quarter of an hour, he would pass. Obviously, brother Nan had successfully cleared the level. Several people came out one after another, and they were all the same as brother Nan. There were even two who did not succeed in the baptism and did not pass. They sat on the ground in fear and trepidation. The scene was still replaying in their minds, but they could not express it to the people around them. Only those who had been there knew how terrifying it was! Time always passed quickly. Although there was a long queue in front of them, they did not stay for long and soon reached Zhou Hao. He had already prepared for everything that he was about to face! Even if it was an Asura arena inside, he would not even frown.

## Chapter 835

### *Chapter 835: Virtual training begins*

Zhou Hao looked at the dejected people who came out and frowned. He had already expected that the things inside would be extraordinary. However, it wasn't to the extent that everyone looked like they wanted to die immediately. How big of a blow had they suffered to make an iron-blooded person like this? It wasn't that he was looking down on their abilities, but he was just curious about the virtual training. "Hurry up and go in, stinky brat. I want to see if you can successfully clear the stage." Brother Nan felt that he was very embarrassed in this state, so he scolded him unhappily. He just hoped that Zhou Hao would not stay for more than half an hour, so that he would have something to laugh at. Previously, he had said that he would stay in there for an hour, but he didn't expect it to be so terrifying. He couldn't help but want to come out after just clearing the game. Zhou Hao casually walked towards the virtual training room. He didn't know what was inside, but as long as he was determined, he would be invincible. His mind and body had to go through a high or low level of training in order to become stronger. Although this was only a virtual battlefield and not real, so there would be no real danger, he couldn't just ignore it! Looking at Zhou Hao's calm appearance, everyone couldn't help but complain. Only after they really entered, they would not dare to take things lightly. "You're just looking for death. We'll just wait and see you make a fool of yourself!" "I thought he was running a house. Let him experience it." These people ridiculed Zhou Hao. They all thought that Zhou Hao would come out crying for his parents if he went in so casually. The few of them were instantly invigorated. They were no longer as sickly as before, and even their spirits were excited. The main purpose of the virtual training room was to train their bodies and minds, and they felt extremely tired after coming out. "Welcome to the virtual devil training room. It is now officially open!" An ancient and strict voice was heard. Zhou Hao knew that these things would not be simple. He looked calm on the surface, but he was very cautious in his heart. Since he had come, he would take it! As soon as they reached the center of the training room, they were surrounded by a bloody mist. The murderous atmosphere made it difficult for them to breathe. It was as if he had arrived in a Shuraba! In two seconds, the bloody mist and the murderous aura formed a giant that was a few meters tall. Every movement of the tall giant carried a power that could destroy the world. Even a single breath could make people feel like they were dying. "F \* ck, what the hell is this?" Zhou Hao felt a little depressed when he saw the giant. If he wanted to kill it, he would have to use 10% of his strength. "You dare to barge into my forbidden area? you're courting death!" The giant let out a thunderous roar and charged at Zhou Hao. His huge palm came crashing down, not giving Zhou Hao any time to react. Looking at the shocking palm, Zhou Hao felt his scalp go numb. The sound of thunder numbed his spirit for a moment. Looking at the palm that was getting closer and closer, he could only muster his courage and punch it. Zhou Hao used 80% of his strength in this punch, but he felt his fist go numb and his bones hurt. He hadn't felt such a powerful force for a long time, and he was even slightly injured. "It's really a good thing!" Zhou Hao was not discouraged by the giant's strength. Instead, his eyes glowed with a golden light. He had always been looking for this kind of power, only then could he temper his own strength. Zhou Hao's fists were thrown at the giant as if they were free. With every punch, the blood mist and killing intent on the giant dissipated a little. It was just that

Zhou Hao was busy venting his energy and did not notice this slight change! It had been a long time since he had displayed his strength to his heart's content. Those people were no match for him, and only such an abnormal giant could withstand it. The mouths of the people controlling the giant behind the scenes couldn't help but Twitch.

Everyone's first reaction when facing a giant was fear. She didn't know what kind of pervert Zhou Hao was. Not only was his eyes not shining with fear, but it was as if he had seen a toy he liked. His fists felt no pain and landed on the giant's body like rain! BOOM! After an unknown period of time, a loud noise was heard, and the giant in front of them was instantly crushed. Zhou Hao had yet to react to what was happening. He could only feel the power in his body growing stronger and stronger, as if it was endless. Looking at the giant's fragments, he felt a little pity. Such a good thing was actually destroyed in such a short time. He felt that his strength had improved a lot, especially the explosive power of his muscles. It seemed that everything inside was good stuff.

"Roar! Roar!" Before Zhou Hao could finish his happiness, he heard the cries of monsters. When he took a look, he was shocked! He didn't know when there were so many drooling, green-faced, and fanged monsters inside. Every monster's strength had reached the Saint tier or higher, and some were even higher than that. If it was a one-on-one fight, they wouldn't even be bothered by these monsters. The sight of thousands of them was enough to make one's scalp numb. If they hadn't come out of a pile of corpses, they would have been scared crazy. Zhou Hao estimated the strength of these monsters in his heart. The only thing he could do now was to run! These monsters looked as if they had been hungry for a long time. There was stinky saliva hanging from the corners of their mouths, and their eyes were shining as they looked at the muscular human in front of them. "Roar~~" one of the monsters in the lead let out a long roar, as if it was giving an order. In an instant, tens of thousands of monsters whistled towards Zhou Hao, forming a tornado. "This group of damned animals!" Zhou Hao's only option now was to retreat. If he were to fight against the tens of thousands of monsters, he would only end up as meat paste. Each monster's strength was about the same as his, and when they worked together, they were a force that could destroy the world. He could only avoid them for now. Zhou Hao also understood why those people were in such a sorry state when they walked out. It was all because of this group of animals. Some of them were even ruthlessly abused by the giant before they could even reach this stage! After running for a while, Zhou Hao realized that this group of monsters ran in a certain pattern, unlike the other animals that ran in a messy way. With this discovery, Zhou Hao observed that the monsters changed in a certain pattern with each distance they ran. When they were put together, it was like a formation. Zhou Hao had started off running like a madman, but as he ran, he slowly killed off the monsters that were chasing after him. At first, he was scratched by the monsters until he was bleeding. The monsters became even more excited when they smelled the blood, as if they had just seen their delicious dinner. As expected, the truth was only obtained through constant battles. Zhou Hao dodged the monsters' attacks left and right while fighting as he ran. This kind of high-intensity battle wasn't something an ordinary person could handle. It was a huge drain on Zhou Hao. It did not take long for him to feel his speed slowing down. Even the strength of his fist felt less than before, and it also became much slower. He was as exhausted as if he had been fighting on the battlefield for several days and nights.

## Chapter 836

*Chapter 836: Successfully cleared the stage*

“Rip!!!” A gash appeared on Zhou Hao’s back, and blood immediately gushed out, spreading in all directions. These monsters became even more excited, howling and drooling even more than before. His eyes were filled with light, and his greed could not be stopped. Zhou Hao’s body was covered in wounds of various sizes. Each time, he was on the verge of death, because only by doing so could he break through his limits again and again. The pain stimulated every nerve in his body, and it was the only way he could stay awake. Slowly, Zhou Hao had gotten used to this kind of high-intensity chase and biting, and the strength in his hands was stronger than before. “Bastard, you’re looking for death!” Zhou Hao looked at one of the monsters that was charging at them and threw a punch. In an instant, blood and brain matter splattered all over the ground! Even Zhou Hao’s body was covered in the thick smell of blood, but he didn’t care at all. Now, it was either you die or I die. Every time he encountered a battle like this, he could not retreat or be soft-hearted. Only by constantly challenging his limits could he find a new self. When the monsters saw that Zhou Hao had killed their companion with a single punch, they roared in anger. “Roar ... Roar ...” The leading monster roared in anger. As if they had just made an important decision, all of the monsters suddenly stopped in their tracks and looked at the young man with red eyes. With so many monsters on his back staring at him with their green eyes at the same time, he felt as if he had fallen into a cold pool. Time seemed to have stopped! Zhou Hao took out a knife that he always carried with him. It was extremely sharp and was perfect for dealing with these beasts. It was good that these beasts had stopped, but he couldn’t just wait like this. The day they swarmed up would be his death anniversary. They had to take their lives before the monsters could react! Zhou Hao used spatial teleportation to quickly kill a monster. With a swing of his blade, a monster’s corpse fell to the ground. This kind of massacre did not make Zhou Hao uncomfortable at all. Zhou Hao was like a ghost floating around the Horde of monsters, and wherever he went, a monster would fall. The method was clean and neat, without the slightest bit of sloppiness, and he was killed in one strike. Only those who were extremely powerful could do this. In the eyes of these monsters, Zhou Hao was only a weak existence. “Roar!” The leading monster felt that something was wrong and suddenly roared. In an instant, all the monsters became restless. They no longer stayed in their original spots as they stomped on Zhou Hao’s body viciously. Zhou Hao felt that his strength seemed to have broken through a little under this powerful pressure. He quickly dodged the beasts’ iron hooves. He was no longer as passive as before! There would be casualties if they were all squeezed together. Its purpose was to kill Zhou Hao, regardless of the consequences. The monsters in the center were immediately crushed into meat paste. There was no chance of survival at all, and screams rang out continuously. At the same

time, Zhou Hao was also quickly reaping the lives of the monsters that were left behind. As if he was harvesting leeks, he would kill them one after another. It was a sea of black, and he didn't know when it would end. Fortunately, Zhou Hao had never been a fragile person. As long as he was still alive, he had to defeat these monsters. After Zhou Hao's constant killing and the monsters killing each other, only the leader monster was left standing at the side. "Roar!" The leading monster looked at Zhou Hao, who was covered in blood. This kind of killing made it feel frightened. Its strength had already exceeded the realm of Saint level! However, when he felt the killing intent from Zhou Hao, he couldn't help but roar and take a step back. It seemed to be a warning, but it also seemed like a negotiation! Looking at the corpses all over the ground, not only did he not feel tired, but he also felt excited. This was the life he wanted. Only by constantly experiencing the tempering of these powerful opponents could one truly break through oneself and reach a whole new realm. "You're the only one left, so come over and die!" It was just right, not giving him any chance to retreat. He held the short knife in his hand and ran towards the leader monster. Only this kind of level-surpassing battle would be more useful to him. Seeing that there was no way to retreat, the leader kicked Zhou Hao with all its might. At the same time, it did a 360-degree spin and appeared behind Zhou Hao. Zhou Hao's short knife cut through its fur, but it was not hurt at all. In the blink of an eye, the man and the Beast had exchanged more than two hundred moves, more than half of which were positive and negative, but neither of them had gained the slightest advantage. The leading monster was also covered in wounds. The deepest wound was on its spine, from its neck to its tail. It was so deep that its bones could be seen. Zhou Hao did not have it easy either. The clothes on his body had been turned into strips, and his thigh had been bitten by the monster, leaving a large hole so deep that the bone could be seen. If it was an ordinary person, they would definitely be lying on the ground and groaning. The man and beast stopped in tacit understanding, not daring to act rashly again. Both of them had heavy injuries, so it was a matter of whose endurance was better. Zhou Hao's strength was unparalleled. Every punch he threw was able to injure the leading monster. If it wasn't for the thousand feather armor's defense, he really wouldn't be the leader's opponent. Its strength was a full level higher than his. Under such circumstances, the chances of victory were slim. "Spatial force, teleportation!" Zhou Hao didn't want to waste any more time here. Once the monster recovered 80 – 90% of its strength, it would be the time of his death. In a second, he reached the side of the leader monster. The short knife in his hand stabbed down towards its throat. He clenched his hand into a fist and punched the leader monster's head. The leading monster didn't expect Zhou Hao to be so powerful. In an instant, Zhou Hao was right beside it. With two attacks, even if it wanted to Dodge, it couldn't avoid being hit in its vital parts. In the blink of an eye, it chose to avoid the fatal blow to its throat. However, it had overlooked the power of Zhou Hao's fist. BOOM! Bang! The fist landed on its head, and its head instantly exploded. Its eyes were filled with fear, unwillingness, and even a trace of doubt. Even a powerful monster like it had lost all its strength. It did not know what kind of monster Zhou Hao was to be able to move so quickly. He had even blown its head off with a punch of infinite power. Ordinary power was just like scratching an itch on its body. "Congratulations on completing the virtual space devil training!" The ancient voice reached Zhou Hao's ears again.

## Chapter 822 - The assessment begins

*Chapter 822: The assessment begins*

This voice was extremely magnificent. When it appeared, it directly entered the sound system of everyone's warship, connecting everyone. The old man's figure appeared on their computer screens. "For this time's mercenary selection, we will only accept the first one thousand people. There are a total of twelve thousand people participating in the competition. In other words, out of twelve people, at least one will be eliminated." "The test is divided into three stages. After the three stages, those who are ranked within the top 1000 will enter the mercenary group training base. Now, please come to the designated area according to your name." As soon as the elder finished speaking, five giant wormholes appeared outside of planet vast expanse, like black holes. In the air, dense words appeared with the names of the participants. Zhou Hao and Ji yaoyue looked over as well. "Zhou Hao, Zone C." Zhou Hao saw his own name and the huge wormhole that had Section C written on it. "I'm in Zone B. " Ling Tian also found his own name. "Um ... I'm in zone A ..." Ji yaoyue frowned. The three of them had been assigned to different areas. This was a little dangerous! After all, they had never been to such an assessment before. If they were together, they could help each other. Now that the three of them were divided into three districts, how could they help each other if they couldn't see each other? "What do we do now?" Ling Tian immediately said. Zhou Hao looked at the name and took a deep breath. "Perhaps this is what the mercenary group is doing on purpose. As long as they are related, they will be assigned to other areas. This is very fair. Otherwise, if there is a small group of a few hundred people, wouldn't they be invincible?" Zhou Hao's analysis was very reasonable. This was what the mercenary training base was thinking. If they were to let them form their own groups, it would completely lose fairness. This way, they could only rely on themselves. This was the highest value! "There's no other way, we can only go. " Zhou Hao and Ji yaoyue looked at each other helplessly, but there was nothing they could do. "Everyone, your ships will stop at the universe Space Station, you may enter your own areas." After the old man said this, there were waves of fluctuations in the five regions. Many martial artists directly plunged into it and disappeared in an instant, being transported to other places. "The assessment venue is not here yet. Forget it, we'll just have to pray for ourselves! Good luck!" Ling Tian laughed. They had no other choice but to hope that the three of them would be able to pass the test. The three of them split up and entered their respective areas. Zhou Hao, on the other hand, entered Zone C! As soon as he entered, Zhou Hao's eyes suddenly opened up. He saw a huge platform with a dense crowd of martial artists, all of whom had been selected to come to Zone C. "What's he doing? is he messing around?" Zhou Hao was a little confused, but he still stood at the

side and touched it. There were so many people, all alone, and there was a safe enough distance between each other. However, after a long time, some people still couldn't help but strike up a conversation with the people around them. For example, at this moment, a short alien with purple skin was standing next to Zhou Hao. "Brother, where did you get this?" He chuckled as if they were close. They were all equipped with a language converter, so whatever they said could be translated. "You're too embarrassed to say it out loud in this barren land. Where are you from?" Zhou Hao did not want to say that he was from the Milky Way. The alien didn't recommend it either. "I'm Kuta, from Zi mo star. Brother, with so many people, if there's really a chaotic battle later, how about we join hands?" Kuta looked at Zhou Hao and said. Zhou Hao could feel that this person's cultivation was the same as his, third grade martial Saint. If they were to form an alliance, it would not be a bad thing. However, Zhou Hao still asked curiously, "You also think it's a chaotic battle?" Kuta nodded. "I think so, but if so, let's work together, okay?" Zhou Hao thought for a moment and nodded. "Sure." Soon, almost everyone had arrived. At this moment, a man in armor descended from the sky. He had five stars on his body, which made him a 5-star mercenary. His cultivation base was also in the Dao realm, and was extremely terrifying. As soon as he appeared, his cultivation base focused on the platform, causing serious expressions to appear on the faces of everyone present. "Welcome to Zone C. I'm your main examiner, 5-star mercenary mo Karon. You can call me commander mo." Inkarong looked at everyone and said in a low and deep voice. "You've heard the rules just now. There are a total of three rounds, and each of them will be based on their points. The top 1000 will be able to join the mercenary training base." "The test will only get harder and harder, and it will be life-threatening, or even very dangerous. I can tell you a number, every time the test takes place, no less than 3000 people will die. I'm not trying to scare you, this is the real data, so it's not too late to back out now, do you want to back out?" Inkarong said indifferently. After saying this, he didn't say anything else, but waited quietly. "Oh my God, there's still danger. I didn't know before I came. It's just an assessment. How can there be danger to my life?" Kuta's expression changed and he said nervously. Zhou Hao was already used to this. It was unrealistic that no one would die in the assessment. "No, if I die, what will happen to my parents? what will happen to my wives? No... I can't participate!" "But ... If I don't participate, how can I improve my cultivation and status? they're all watching me. If I don't become stronger, how can I be a good family head?" Kuta was like a rattle-drum at this moment, and he began to analyze it for himself. Zhou Hao looked at him and shook his head. This guy was really interesting. After hearing that their lives were in danger, many of the contestants looked a little nervous. Without exception, they were all people who did not trust their own cultivation. In other words, they were all people who were afraid of death. To become a mercenary, one had to first put aside their own life and death. Otherwise, how could they carry out so many dangerous missions? Therefore, Inkarong's words were meant to dissuade many people! His words were effective as dozens of people stood out. "I quit! I'm not playing anymore, why didn't you say that your life was in danger!" "That's right, I came here to be a mercenary for fun. I still have to go back and inherit the family business. How can I die Here?" "That's right, I'm going to quit and risk my life to take part in this stupid assessment. I'm not that stupid!"

## Chapter 823 - Targeted training

### *Chapter 823: Targeted training*

So many people had withdrawn and left area C directly. In response, Inkarong did not say a word. He did not even lift his eyelids. Seeing that they didn't want to leave after leaving, he spoke. "Is there anyone else who wants to quit?" He looked around, his voice cold. No one replied to his words. Not everyone wanted to quit. Most of them still wanted to improve themselves. "Very well, since you all want to become a member of the mercenary group and participate in the assessment, then I won't say much. But remember, if you don't have the awareness of life and death, then don't be a mercenary. In the mercenary group, there is no need for people who just sit around and wait for death. If you want to waste your time in the mercenary group, sorry, but you will lose your life!" Inkarong snorted coldly. His words were full of vigor, and it put pressure on everyone. At the same time, it was as if they were injected with chicken blood, making them all excited! "Alright, I'll cut to the chase. The first stage is to enter the virtual space and kill beasts. In the space, only your physical qualities can be condensed. No weapons or spells can be used. You only have cultivation. It will test your combat skills and your courage." "As a mercenary, danger lurks everywhere. Life and death have long been the norm. If you don't have courage, you can't grow if you don't face danger after death." "Beasts with eyebrows, all of you have points. Alright, you can start now. Just put on the helmets in front of you." After he finished speaking, Mokaron waved his hand, and a helmet appeared on the ground, landing in front of everyone. "Fortunately, it's not a chaotic battle. I don't have to worry about dying in the virtual world." Kuta heaved a sigh of relief. He had been hesitating whether to quit or not. Fortunately, this guy had some courage and didn't choose to quit. Zhou Hao retracted his gaze, picked up the helmet, and put it on. Soon, the scene before his eyes became strange. The platform had disappeared, and everyone had disappeared. What replaced them were countless Ultra Beasts. "The time limit is 60 minutes. Within 60 minutes, do your best to survive and kill the ultra Beasts." The system's voice came from the helmet, and Zhou Hao also felt the physical body that was formed in the virtual space. It was exactly the same as his physical body, and so was his cultivation level. The only difference was that he did not have his own equipment. In fact, he could not even use some of his spells. "In this space, I can only use my physical strength and speed. It's much better for me." Zhou Hao smiled. His body was very strong, and it was not something others could compare to. Even a level two universe life form couldn't compare to Zhou Hao's body! Looking at the dense horde of mutant beasts in the distance, Zhou Hao was still a little shocked. These mutant beasts were all at the peak of the heaven rank, and there were countless of them, as many as the hair on an ox. Although it wasn't difficult to kill them one by one, it was still a little difficult to escape unscathed and even kill them all when they swarmed together! However, the more difficult it was, the more Zhou Hao was eager to try! "I'd like to see what my physical body can do." Zhou Hao smiled and dashed out. The assessment began the moment

Zhou Hao took a step forward! The countless strange beasts charged over in an instant. The powerful tearing force and force were simply outrageous! Zhou Hao's physical body was very strong, but when they attacked him, he was still injured. "Damn it, I underestimated them. They're actually so strong!" Zhou Hao was shocked. If he was outside, he could kill thousands of mutant beasts with a wave of his hand. But here, he could only use his physical strength. He couldn't use any spells. He could only punch them one by one! Zhou Hao was depressed, but he had no choice. After killing for a while, Zhou Hao gradually realized that something was wrong! "That's not right. How can such a test be so simple? is it just about killing exotic beasts?" "No, it's definitely not right!" Zhou Hao furrowed his brows as if he suddenly realized something. If it was just to kill the mutant beasts, why would they seal the spell technique and give you cultivation? This was clearly illogical! If it's only to train your body, then you might as well seal your cultivation. Why did he still grant this authority? Zhou Hao felt that there must be a problem! But he still couldn't figure out where the problem was! He killed the beasts with every punch. A beast would be crushed and killed under his feet. Gradually, Zhou Hao's eyes widened as he came to a realization! "Training! This is also training!" To Zhou Hao's horror, he discovered that although these exotic beasts' attacks seemed to be without any order, they were actually not. They had a goal in mind! For example, Zhou Hao's physical body was very strong, so they did not blindly attack, but instead used guerilla tactics. Furthermore, Zhou Hao's punches were very powerful. They were specifically targeting Zhou Hao's bottom half! "This is also a special training to let myself find my own weakness. My attack method has always been my fist, so they attack my bottom game!" Zhou Hao suddenly understood and was extremely excited! "Hahaha, this training camp really has ulterior motives!" After Zhou Hao felt it, he immediately retracted his fist and used his leg to attack. Although they were all the same physical body, Zhou Hao was used to using his fists, so his leg techniques were naturally inferior. As a result, the speed at which he killed these exotic beasts was much slower! However, Zhou Hao did not care. As he killed them, he trained his leg techniques! "This is amazing! This kind of targeted training is simply too meaningful!" Zhou Hao was very excited. How could there be such a good thing on a normal day? An hour passed by quickly as Zhou Hao slaughtered his way through. Zhou Hao smiled, he had benefited a lot from this! "My leg technique has improved quite a bit. This way of improving is simply too awesome!" Zhou Hao was still unsatisfied. If he could, he would have stayed in there for a few days! Everyone took off their helmets, and a big screen appeared in the air. Everyone's name was on it, and the number of exotic beasts they had killed was also clearly written on it. Zhou Hao looked at his own name and instantly felt embarrassed. There were only 3000 people in Zone C, and he was ranked after 2000. This ranking was a little awkward. Kuta was excited when he saw his name. "971. Hehe, there's hope!" Then, he looked at Zhou Hao's name and frowned. "F \* ck, brother, your standard is too low. No, no, if I'm in the same group as you, I'm definitely done for!" When Kuta saw Zhou Hao's ranking, he didn't say anything and left immediately. Cooperation or Alliance? all of that was nonsense. Zhou Hao was also depressed. He did not expect to be ignored. He only laughed at this.

## Chapter 824 - fist of destruction

### - Chapter 826 - -powerful

*Chapter 824:-fist of destruction*

After the first round ended, mo Kalong didn't pay attention to the points ranking, but looked at everyone. "The first stage has already been passed, and the rankings are out. Everyone, please consider whether you want to continue or not, because the next stage will be life-threatening!" After he said this, many people started to retreat! Having confidence and strength were two different things! They were confident, but their strength didn't allow it. A mere trial to kill exotic beasts was placed at the back. If they really fought to the death, wouldn't it be really dangerous? Therefore, after mokalong said this, a few hundred more people withdrew. Zhou Hao was not surprised at all. It was indeed the wisest choice for them to back out. If Zhou Hao had given his all and still remained in this position, he would have thought of backing out as well. "Alright, the rest of you will enter the second stage. This second stage tests your comprehension. Our mercenary group has countless ancestors, countless experts, and countless inheritances. What you all need to do is enter that space and comprehend the spells and cultivation techniques left behind by the ancestors and learn them!" "The cultivation technique is divided into seven levels. Red, orange, yellow, green, cyan, blue, and purple. Purple is the weakest. After learning it, you will get 1000 points. Red is the strongest, and you will get 7000 points. Alright, you may enter." After mokaron said this, the entire platform suddenly became like a mirror. A spatial teleportation appeared under their feet, and in the next second, everyone arrived at a strange place. There were temples, skyscrapers, and courtyards here. It could be said that this place contained the products of countless eras. "The senior's comprehension is in front of your eyes. You can learn it as much as you want. Of course, if you encounter a good spell technique, it's up to you to decide who can learn it and who can't. Time is limited, only seven days." Mokaron's voice resounded in the area before he slowly left. All the students instantly flew out to take a look. "Eh? Green? You're too weak!" "Orange! Oh my God, I want to try it!" "Damn it, I saw it first. If you want to try, you're looking for death!" "No, I usually learn seven purple points, which is the same as one red point. I want to learn the easy ones!" Everyone was instantly thrown into chaos. Some started fighting for the sake of gaining insights, while others specifically chose to learn those weak cultivation techniques. However, Zhou Hao shook his head. "He's really short-sighted. The first round and the second round are good too. They're both tests to train themselves. If it's only for points, then it's not worth it!" "I don't have any ideas about ordinary spell techniques. My fighting style is physical. I need to choose a cultivation technique or spell technique that specializes in physical combat!" Zhou Hao smiled and immediately looked around. "The divine flood mantra is a high-end Water-type spell technique. Yellow is not my cup of tea." "The sword of slaughter, the sword Qi of

slaughter, and the orange color won't work either!" "Obscure Qi? Ghostly body technique? 100 billion array? No, no, no, none of these will do!" Zhou Hao looked at many different levels, but he couldn't find one that he liked! "This won't do. It's too much of a waste of time if this continues. What should we do?" Zhou Hao was depressed, but there was nothing he could do. He could only look for them one by one! Very quickly, Zhou Hao found a cultivation technique that suited him in an extremely ancient western-styled building. "Great fist of destruction! This old man's knowledge is only incomplete and hasn't reached perfection. Although it's only at the green Level, I'm certain that if it's at perfection before the great apocalypse, it'll be even more powerful than the red Level and comparable to a universe-level fist technique!" Zhou Hao read the message left behind by the owner of the fist of destruction and was shocked! "It's that powerful? I'll take a look!" Zhou Hao instantly comprehended it and was shocked. This destructive fist was indeed powerful. One punch could gather the power from all directions and strike out a power similar to rule force that could destroy all things! In the information, he saw the old man using this fist. He had the cultivation of a world Overlord, and with this fist, he destroyed a small planet! "My God ... This is too amazing!" "The most important thing is that he hasn't perfected this fist technique even though he's a realm Lord. From this, one can imagine how strong the potential and flexibility of this fist technique is!" Zhou Hao was shocked. He immediately picked up the fist technique and started to learn it. It had to be said that this fist technique was really unfamiliar and difficult to understand! If one wanted to learn this fist technique, one would need to open all 100 meridians in one's body. It was an extremely ancient method of exerting force! Zhou Hao knew a little about the 100 meridians. In his body, only 30% of the meridians were open and could condense Yuan Qi. The rest of the meridians were closed and could not be opened! "If you want to learn this technique, you'll have to open 50 meridians to be considered a beginner. 80 meridians will be considered as a higher level, and 100 meridians will be required to be able to control it freely and swallow the heaven and earth. However ... Ordinary meridians can only stop at this level. If you want to obtain greater power, you'll have to open more than 100 meridians!" This was also the introduction to the cultivation technique. Zhou Hao was shocked. He only knew that there were 100 meridians in his body, but he didn't know that there were more! "In ancient times, there was a super mighty figure who opened three hundred meridians in his body, both major and minor. This person breathed in and out vital Qi once, faster than anyone else in a day. The vital Qi He gathered was more abundant and purer! "If I want to master the fist of destruction to the perfection realm, I'll have to open at least 200 meridians!" "This old man has spent my entire life to become a world Overlord and only opened 200 meridians. Therefore, I believe that there is no end to my great destruction fist!" This was the last sentence of the message. There was no end! Zhou Hao was very shocked. He became more and more obsessed with this fist technique and immediately began to practice it! His 30 meridians were still not enough to enter the beginner level. What Zhou Hao needed to do was to expand his 30 meridians to 50 meridians! Fortunately, this cultivation technique had a way to help him break through his meridians. Zhou Hao did not hesitate and immediately started to open his meridians! For three whole days, Zhou Hao exhausted all his energy and finally opened 50 meridians. After opening all 50 meridians, Zhou Hao's cultivation level did not increase, but he could feel that the amount of Yuan Qi He could breathe in and out had increased!

It was like a tube. Zhou Hao's original tube was only as thick as a finger, but now it was as thick as an arm! "Since you've entered the rudiments, let's start cultivating!" Zhou Hao did not hesitate and immediately began to learn. This fist of destruction was very simple. He gathered the power of his physical body, along with the yuan Qi and hidden force in his body, and released them all through his 50 meridians at the same time! The 50 meridians, after being compressed and condensed, gathered the yuan Qi on his fist and struck out! This punch was naturally extremely powerful!

## Chapter 825 - The great battle Royale begins

*Chapter 825: The great battle Royale begins*

Zhou Hao began to practice slowly. Time passed quickly, and in the blink of an eye, it was already seven days! Zhou Hao had already memorized the great destruction fist technique in his heart, and he had also obtained 4000 points! Although the points were not a lot, what surprised Zhou Hao was that his ranking had actually increased to more than 1000! "It seems that many people's perception is still not good enough. The green cultivation method can actually crush many people." Zhou Hao laughed. It wasn't that they couldn't comprehend it, but that most of their time was either wasted on fighting for red cultivation techniques or searching for other cultivation techniques. And to learn a few cultivation techniques in seven days was as difficult as ascending to heaven! Many people didn't learn the red one, and a few people didn't learn the purple one either. In the end, they just chose one and didn't even learn it. For example, Kuta chose an orange cultivation technique and spent six days trying to understand it. On the last day, when time was almost up, he found a purple cultivation technique and wanted to learn it in a short time. It was a fantasy! None of the techniques here were easy to learn. To be able to leave their techniques here, they were at least Dao realm experts. How could their things be so easy to learn? On the other hand, Zhou Hao had been looking for a target from the very beginning. No matter whether it was good or bad, he wanted to learn this close-combat cultivation technique, not for the sake of points, but for his own self-study. Naturally, he was different from them. Mokalong only spoke after seeing everyone come out. "I'm sure everyone has gained something in the second round. This is a small gift from our mercenary group. You are all from our nailuo star system. If you are strong, our nailuo star system will be strong. So, accept this gift with peace of mind." It was the first time mokaron laughed when he said this. After Zhou Hao saw it, he was touched. This was the attitude of an expert. When he was strict, he was more strict than anyone else. He was also so careful when taking care of the younger generation. Be it the hell star system or the mercenary group, it was indeed a good place. "Alright, I won't say anything more. You've passed the second stage and have arrived at the last stage.

This last stage is very special. It's a desperate situation. The real danger is in this desperate situation." "There are no laws here, and no one will protect you. Whether you live or die will depend on your own good fortune!" "The task is simple. Find the point plates. There are countless point plates in the secret realm. You will put your points in them. One month later, the secret realm will be opened. At that time, the ranking of all the people in the five regions will determine whether you stay or leave." "Alright, be careful of everyone in there. Try to get the points." After Mokaron said this, he took out a strange cube that emitted seven-colored light. Then, it shot into the sky. The next second, a huge storm was formed. "Enter the storm and you can enter the secret realm. Go on. Those who don't enter will automatically forfeit." After Mokalong finished speaking, countless participants flew in without any hesitation! Zhou Hao was also among them, and his eyes were filled with solemnity. This stage was the real test, a test of life and death! The points from the first two rounds were basically given for free. This round was the key! There were points in the mystic realm. Similarly, they would also bring their own points in. Zhou Hao's heart sank as he looked at the 10000 points on his token. "Is this trial for us to kill each other? The mercenary group's assessment is indeed not simple!" Zhou Hao's heart was heavy. If all five regions were to enter this region at the same time, he would be able to see Ji Yaoyue and Ling Tian. Zhou Hao believed that the two of them would not voluntarily withdraw. However, everyone could meet each other here, which meant that small groups would appear. If they fought alone, they would be easily taken care of and their points would be stolen. Snatching points was nothing. The most important thing was that it was life-threatening! Zhou Hao took a deep breath, his eyes filled with determination. "After we enter, we must find Ji Yaoyue and Ling Tian!" At the same time, Ji Yaoyue and Ling Tian also entered the storm in their respective areas. "There's danger ... However, only danger can stimulate one's potential. On Earth Star, I haven't encountered any danger for a long time, and the progress of my cultivation is very slow because of this!" Ling Tian's eyes were filled with a sharp glint. He was a person with a strong will and knew how to improve. However, when he was on Earth Star, he was already at the top of the pyramid. No one could threaten him, so he did not feel much sense of danger. Without a sense of danger, it would be very difficult for one's cultivation to advance! This crisis made his blood boil! Ji Yaoyue was even more so. Even though she was a woman, she had a fiery personality, just like a man, and an unyielding personality. "Hmph, I'd like to see what these extraterrestrials can do to me!" She snorted coldly and entered the storm first. Her ranking was even higher than Zhou Hao's. She was in the top 100 of this area! After everyone entered the storm, the strange phenomenon disappeared. In the next second, Zhou Hao and the others arrived at an extremely vast place. This place was like a ruin, full of destruction and deathly silence. "Where is this place?" Zhou Hao furrowed his brows in confusion. At this moment, the frog's voice rang out. "This is an ancient battlefield, a place where a battle had taken place. It was destroyed by spells and no living beings could be born. It has no value anymore. Many galaxies would get a few of such places and use them as secret realms to test their disciples." Zhou Hao nodded and took a deep breath. As soon as he arrived, he immediately kept his distance from the people around him. He knew that although he didn't have many points, he could easily become a piece of fat meat in the eyes of others! "There are points in this Mystic realm as well, but I don't believe that they can have more points

than the candidates!” “So, the free-for-all is about to begin!” Zhou Hao understood this in his heart, so he naturally fled. He did not want to be targeted! Fortunately, this place was big enough. After traveling for a few hundred miles, Zhou Hao found a small hill and hid in it. He then took out his communicator and sent a message to Ji yaoyue and Ling Tian. But here, all signals were blocked and couldn’t be sent out at all. “It seems like I can only rely on brute force to find it!” Zhou Hao sighed. However, at this moment, a wind-breaking sound could be heard. Immediately, an extremely powerful force came crashing down. “Hehehe, Zhou Hao, you can’t run!” Kuta broke through the wind and sneered, causing Zhou Hao’s expression to change! “It’s you!” “That’s right, Zhou Hao. I thought you were strong, but I didn’t expect you to be so weak. That’s even better. I’ll get your 10000 points first!” Kutaha laughed and couldn’t help but say.

Tip: You can use left, right keyboard keys to browse between chapters.

## Chapter 826 - -powerful

### *Chapter 826:-powerful*

Kuta had been watching Zhou Hao the whole time. He had looked for Zhou Hao in the beginning to form an alliance with him. After all, Zhou Hao’s cultivation was also at the third grade of the martial Saint realm, and he did not look weak. However, he had never expected that Zhou Hao would be ranked over 2000 in the first round. This kind of strength was simply trash! Therefore, in the third stage, after mokalong explained the rules, he had his eyes on Zhou Hao and followed him into this place. Similarly, when he saw Zhou Hao running away, he secretly followed him. He only showed himself after Zhou Hao had hidden himself. ” 10000 points isn’t a small amount. I only have 20000 points. With your 10000 points, my ranking will move up quite a bit.” Kuta laughed coldly as he looked at Zhou Hao. After entering this place, everyone’s ranking could be seen on their point card. Excluding those who had forfeited, there were exactly 10000 people participating in the selection. Zhou Hao was ranked 4000, while Kuta was ranked 1000. He was only 10000 points away from the top 1000! Zhou Hao took a look at the first place and was shocked to see that it had more than 50000 points! Zhou Hao couldn’t figure out how the points came about. At least, this person had to get 30000 points in the first round and 20000 points in the second round! In other words, he must have learned at least two red cultivation techniques! This person was indeed a genius! “You want to kill me? Hehe, I’m afraid you’re overthinking it. ” Zhou Hao was not worried at all. Although Kuta’s cultivation was extraordinary, Zhou Hao believed that he was no match for him in a one-on-one fight! In fact, there were not many people who could be Zhou Hao’s opponent in this Mystic realm! Although his cultivation was only at the third grade, with the help of the nine revolutions Saint body technique and the God-killing technique, he could reach the sixth grade! He also had the thousand feather armor, the

ancestral body, mental attacks, and the cells of the void beast. Zhou Hao believed that there were very few who could fight him! He was no match for him in a one-on-one fight. The only thing he was worried about was a group fight! If a group of people were to attack him, it would be difficult for one to defend against four hands, so it was naturally risky. "I'm overthinking? Do you think you can escape from my palm?" Zhou Hao, there's a huge gap between our strength. Hand over your points and I won't kill you. But if you don't, then I'll be impolite!" Kuta was also a decisive person, but he was also an extremely ruthless person. Otherwise, he would not have targeted Zhou Hao! "Since that's the case, I have no choice. I can only use you as practice." Zhou Hao smiled. He wanted to test the power of his fist of destruction! Kuta didn't waste any time and immediately took out a staff-like object. Then, his cultivation surged. "Eh? Is he a warrior who specializes in magic?" Zhou Hao laughed. It was difficult for any martial artist who cultivated spell techniques to defeat a body-tempering martial artist of the same level in a one-on-one fight! Because once a body-tempering martial artist got close, it would be the time of their death! "Abulo's art!" Kuta chanted in a low voice, and the staff in his hand quickly shot out an extremely intense light. In the next second, a fireball that covered the sky and the earth condensed and bombarded Zhou Hao. "Fire attribute cultivation technique? Do you think you can kill me like this?" Zhou Hao snorted coldly and put on the thousand feather armor. He then moved away from the area where the fireball was falling. "You're quite fast!" Kuta squinted his eyes and waved his hand. The staff in his hand released a powerful Yuan Qi power. "Storm, come!" As soon as he finished speaking, a huge storm was formed, forming a wall of storm around Zhou Hao. "This man is a warrior who specializes in spell techniques. That's quite strange." Zhou Hao frowned and dodged. "If I'm not wrong, this person should be from the Warlock race. This race is proficient in five types of elemental energy and can use five-element spells. They are more suitable for large-scale team battles and can not be underestimated." The frog's voice resounded in Zhou Hao's ears, causing him to sneer. "No matter how powerful a Warlock is, it's useless. He's going to die if he meets me today!" Zhou Hao wasn't being arrogant, but he had the courage and confidence to do so! "Spiritual attack!" Zhou Hao knew that this man had protected him so well, using all sorts of methods to prevent him from getting close to him. If this continued, he would be killed sooner or later. It was better to take the initiative to attack! Zhou Hao's origin spiritual stone glowed with a bright light. A spiritual storm was formed and shot towards Kuta! "Although I can't kill him with my spiritual power from such a long distance, I just need to make him lose his mind for a moment. That's enough!" Zhou Hao knew that he had to take advantage of that moment to gather all of his cultivation base power, and then kill him with ease! Kuta's expression changed as he was hit by the powerful spiritual force. He quickly chanted an unknown spell to block the spiritual force. However, how could he resist the attack of Zhou Hao's origin spiritual stone? In the next second, the endless mental energy whizzed to his side and invaded his body, causing his mind to shake. His hand trembled, and a hole appeared in the array. At this moment, he laughed coldly and his powerful cultivation was released. "Nine-revolution Saint body technique, God-killing!" Zhou Hao's aura instantly condensed to a sixth grade martial Saint. In the next second, Zhou Hao took a step forward and activated the thousand feather armor's teleportation, directly closing the distance between the two! He raised his fist and unleashed the destructive fist heroically. A destructive force suddenly

gathered! This punch turned into a magnificent power. Under the compression of Zhou Hao's 50 meridians and his physical body, it condensed into essence Qi and gathered in his hand. He threw a punch in the air, and a huge beam of light shot out from his hand. His target was Kuta! "This is bad!" Kuta regained his senses and felt Zhou Hao's power. His expression changed drastically when he felt the power of Zhou Hao's punch! "How can he be so strong? this dog is pretending to be a pig to eat a Tiger!" He was furious. He knew that he had been tricked. However, it was too late. He could only use all his life-saving methods to block Zhou Hao's deadly punch! However, how could he block this punch? All of his defenses were instantly shattered by the wind from the punch, and he was sent flying back while spurting out blood. Zhou Hao's body moved, and his ancestral body opened up. A bright light fell on his head, and he pointed a finger! "Seal!" The power of the original mark was unleashed, instantly sealing his cultivation. At this moment, Kuta fell heavily to the ground, unable to fight. He looked at Zhou Hao in horror. It was only then that he realized how powerful this man was! Zhou Hao stood with his hands behind his back and smiled as he looked down at Kuta. "Hand over your points and you'll forfeit. I won't kill you."

## Chapter 827 - The demon clan

*Chapter 827: The demon clan*

Kuta's expression was extremely ugly, but he also understood that Zhou Hao was the knife and he was the meat. He had no way to resist. He took out his credit card in anger and handed it to Zhou Hao. Zhou Hao smiled and transferred the points to his own card. He nodded. "Not bad." Zhou Hao returned his points and saw that he had a total of 30000 points on his card. His ranking had also skyrocketed, entering the top 1000! That's right, the top 1000! "You have quite a lot of points, not bad, not bad!" Zhou Hao smiled, he was very happy. Kuta glared at Zhou Hao with hatred. He regretted it a little. If he had known, he would not have provoked this guy! However, this guy was too despicable. He had such powerful strength, but he pretended to be a pig to eat the Tiger! "Give up, or you'll die." In this place, Zhou Hao would not let him go. He would make himself an enemy and drive him away so that he would not have to worry about him taking revenge. Of course, the best way was to kill him. Zhou Hao also wanted to do that, but he did not. As a Warlock, Kuta had some background. If he killed him, he would be in a lot of trouble. For now, he could only keep a low profile and not show off. "I'll remember this!" Kuta snorted, then took out his card and chose to forfeit. His body slowly disappeared, obviously being teleported out. After dealing with him, Zhou Hao smiled. He was already in the top 1000, but Ji yaoyue and Ling Tian were still not. Ling Tian and Ji yaoyue were both in the 1000s, not too far away from the top 1000.

However, in this vast space, it was like searching for the moon in the sea. It was too difficult. However, he didn't have any good ideas at the moment, so he could only slowly search. "I'll go from the East to the North. It's very possible that I can find them!" Zhou Hao took a moment to identify the direction, then sped off. As he walked, he looked at his own point card and the points of the others. Although he was now in the top 1000, it was still not enough. There would be a huge mess here, and the points would change very quickly, changing every minute and every second. Zhou Hao's name quickly fell out of the top 1000. The strong were all eyeing the points of the weak. Once they snatched it, there would naturally be a huge change. It was like 10000 people gathering all their points in the hands of 1000 people. Each person's points would reach at least 100000 points in order to enter the top 1000! "Ah, there's still a long way to go!" At the same time, Ling Tian's body was covered in blood. At this moment, there were already a few people who had fallen at his hands, and his condition wasn't very good either. "I've also accumulated more than 30000 points and entered the top 1000. However, I've consumed too much. I have to find a place to rest!" Ling Tian was a very calm person. Like Zhou Hao, he was very low-key and would only target the weaker extraterrestrials. Of course, he had been caught a few times. Fortunately, Ling Tian's battle prowess was extraordinary, and he managed to kill his way out, snatching quite a few points and surviving. It was the same for Ji yaoyue. She had a fiery personality and was beautiful. Many male aliens were tempted. Many of them wanted not only Ji yaoyue's points but also this woman! However, Ji yaoyue was even stronger than Ling Tian by a hair, and those who had their eyes on her had all been killed. Among the three of them, Ji yaoyue had killed the most. Along the way, she had killed many people! "Hmph, this woman is really powerful. She's obviously a lowly thing, but she still has such combat strength. I'm getting more and more interested. Capture her alive. I want to taste what this woman tastes like." In the distance, a man with scales on his body said coldly. Two men who looked similar to him stood beside him. When they heard this, they immediately agreed. "Yes, young master, we'll do it now!" As the two of them spoke, they moved and chased after Ji yaoyue. He followed behind them quietly. "Such a beautiful woman, it would be a pity to kill her. If she comes back with me to my bedroom and becomes one of my many women, it's not a bad idea!" The man smiled and licked his lips with a devilish smile. This man was the young master of the bata family on planet nailuo. His name was Bataev, and he was also a level 3 martial Saint. However, his Level 3 martial Saint was different from Zhou Hao's, as it was forced by his family! Naturally, his combat strength was still a little lacking. However, the bata family had their own unique cultivation method, and that cultivation method was the power of absorption! They could suck the blood essence of all living beings, be it men or women, old or young. As long as they sucked it, their Origin Energy would be sucked away and become their nutrients. This was also one of the reasons why the bata family was able to rise so quickly. However, in the nailuo star system, the bata family was not well received. Many families and powers hated them. Including the mercenary group! After all, using other people's lives to cultivate, such a vicious cultivation technique was too disgusting! At this moment, Bataev followed behind at a steady pace because he knew that the woman in front of him had extraordinary combat strength. He didn't want to mess with her when she was angry. At the very least, he would wait for her to fight a few more rounds before making a move. In the mercenary training base, mokalon was sitting in a sealed space. There

was a huge screen with countless split screens, and everyone's status could be seen. His gaze swept across everyone and stopped on a few people. "As expected of a reputable family on netherworld star. The disciples they have trained are indeed extraordinary. However, compared to them, this person is more interesting." He looked at Zhou Hao. He had seen the battle just now, especially the sudden rise in Zhou Hao's cultivation base, which surprised him! "He can increase his cultivation in such a short period of time without any side effects. He is truly extraordinary." He squinted his eyes. There was another person of equal status standing beside him. "The selection this time is quite interesting. However, it will be a waste of time if this continues. Turn on the positioning System." The man revealed his face. He was a hideous-looking alien. He had a pair of horns on his head and his white hair fluttered in the wind. He looked like a devil. He was also a member of the demon clan, and he was born with an evil charm. "Oh? Zuo tengcan, you're really full of evil tricks. You actually turned on the positioning System. Then, wouldn't this battle be a massacre?" Inkarong frowned and was a little hesitant. "As a mercenary, how can you be afraid of death? isn't that what you said? Moreover, only then can we see their potential and prevent some weak people from taking advantage of the loopholes. " Zuo tengcan didn't care at all and said indifferently.

## Chapter 828 - -authority granted

### *Chapter 828:-authority granted*

?Mokalong naturally agreed with him. Some lucky people might never encounter those who were strong and powerful. They carefully accumulated points, and they might even be able to enter the top 1000. The most important thing was that even though they all had the chance to enter the top 1000, if they ran into each other and fought, it would affect their results. After all, when two tigers fought, one would definitely be injured. "Alright, we'll do as you say." Mokalong smiled and gave the order. At this moment, a cold voice came from the entire secret plane. "The selection has been upgraded. Everyone's location will be shared. You can see everyone's location on the point map." The voice disappeared after he finished speaking. However, everyone in the mystic realm was stunned! The powerhouses were naturally not worried, but the retards' faces suddenly changed! Naturally, Zhou Hao heard it as well. He quickly took out his contribution point token and frowned. The point token that was originally just a ranking had now become a huge map. Everyone had turned into light spots here. There were points, rankings, and even positions on it! Zhou Hao's expression turned ugly. "This way, won't everyone have nowhere to hide? what should we do?" Of course, Zhou Hao wasn't afraid. Instead, he was worried about Ling Tian and Ji yaoyue! He hurriedly looked for Ji yaoyue and Ling Tian's position, and his expression changed! There wasn't

anyone around Ling Tian as he was currently hiding in a place to recuperate. However, Ji yaoyue had many people by her side! The most important thing was that there were three people following her unhurriedly! And these three people were all experts ranked before the 500th! Zhou Hao's eyes turned cold. He knew that Ji yaoyue was being watched. Without hesitation, he immediately headed in her direction! Ji yaoyue and Ling Tian also found out about this news and quickly searched for their location. "Zhou Hao is in the East, Ji yaoyue is in the South, and I'm in the West. As long as we go to the middle, we'll be able to gather. Ji yaoyue has many followers, so I'm sure Zhou Hao will go to help her. In that case, I'll go to the South too!" After Ling Tian had recovered, he turned into a ray of light and shot off! Ji yaoyue's expression was the ugliest because she was furious when she saw the three people who had been following behind her. "The top 500 powerhouses ... If it's a one-on-one fight, I won't be afraid. But with three of them working together, I'm no match for them!" Although Ji yaoyue was hot-tempered, she wasn't reckless. She knew the difference between the two and naturally wouldn't fight blindly! After looking at the direction, she also headed towards the center of Zhou Hao and Ling Tian. "The two of them will definitely look for me. In that case, I'll go between the two of them and I'll naturally meet them." Ji yaoyue moved without hesitation. However, at this moment, Bataev also knew what was going on. He frowned. "This isn't a good thing. I don't know if this woman has any companions. If they gather, it'll be a bad thing. No, we have to act quickly. Guta, Ruijie, attack!" Bartayev couldn't wait any longer. He immediately ordered his two subordinates to attack! Without any hesitation, the two of them accepted the order and headed toward Ji yaoyue. Ji yaoyue knew it at once because they were very close to each other. The two of them appeared in an instant and roared in front of Ji yaoyue. "Beauty, don't go. My young master has taken a fancy to you. Just surrender obediently." The two of them had strong cultivations, both of which were fourth grade martial Saints. Ji yaoyue's face darkened when she saw them. "Get lost!" Without another word, Ji yaoyue put on her armor and charged out with scorching flames rising from her body. She wasn't stupid enough to fight with them and try to escape. But in the hands of two fourth grade martial Saints, it wouldn't be so easy to escape! Not to mention, Bataev was not far away! The two of them instantly swarmed up and started to fight. Ji yaoyue was instantly defeated and was slightly injured. She forced the two of them to retreat and fled in a hurry. "She's injured, so she can't run far. Chase her!" Bartaev sneered and quickly followed. Zhou Hao, who had been watching Ji yaoyue the whole time, had a terrible expression on his face! "They've still made their move. We have to speed up!" Zhou Hao didn't hold back at all. He spread the wings of the thousand feather armor and teleported again and again. With Zhou Hao running at full speed, he was getting closer and closer. "Don't run, beauty. You are already in my hands. I am a member of the bata family. It's your fortune that I have taken a fancy to you. Furthermore, I have never tried your race. If you don't know what it feels like, don't leave." Batayev chased after her and used powerful spell techniques to stop her. There was blood at the corner of Ji yaoyue's mouth and her aura was weak. The last two or three attempts had left her with severe injuries! After hearing bartayev's words, he was even more furious and snorted. "You want to catch me? then try me!" Ji yaoyue's face was dark and her beautiful eyes were filled with anger. This made batayev even more excited. "I've seen a lot of obedient people. I like strong ones. The more you resist, the stronger I get. Hahaha ..." He

laughed and chased after her. Even Ji yaoyue wouldn't be able to handle the three of them, two fourth-grade martial Saints and batayev. Soon, her breathing became weak and her Yuan Qi was insufficient. Her speed of arrival also slowed down! "Now!" Bartaev squinted his eyes and took out a huge saber. With a wave of his saber, he unleashed a powerful force and charged at Ji yaoyue. Sensing the force behind her, Ji yaoyue tried her best to defend but was still no match. Spurting blood, she fell from the sky and landed on the ground. Although her life was not in danger, she was severely injured! "Stun spear!" Seeing this, batayev took out an exquisite gun from his backpack and shot it at Ji yaoyue. A lightning bolt shot out and landed on her. In an instant, Ji yaoyue lost control of her body as if she had been numbed! "Stop struggling. This stun gun is a high-end electronic product of our bata family. As long as you're hit without any defense, you won't be able to move for half an hour!" "Half an hour is enough to do a lot of things, hahaha!" As he spoke, he landed and looked at Ji yaoyue with excitement and joy. "Beauty, you really have a unique taste. I think your body must be very beautiful. I won't be polite." Just when batayev wanted to kill the man, his two subordinates couldn't help but say, "Young master, there are two people rapidly approaching. They're not far from us!"

## Chapter 829 - The end

### *Chapter 829: The end*

Hearing this, batayev frowned. He took out his token and smiled. "Two third grade martial Saints really dare to come and court death. Looks like they're her companions. It's a pity that they're both men. Are you stupid? don't delay my business." Batayev didn't care. In his eyes, two level 3 martial Saints couldn't cause any trouble. The two men under him were both fourth-grade martial Saints. It would be a piece of cake to kill them! "Received!" The two of them immediately nodded. One of them looked to the East, while the other looked to the North. They knew that these two people would arrive very soon. "I didn't expect you to have a companion. But your companion is too weak. It's a pity that he can't save you. Today, you can only be my underling!" With a smile, batayev slowly walked to Ji yaoyue. He touched her cheek and blinked. "What delicate skin. Not bad, not bad. Creatures like you are really strange. Skin is our first layer of defense, but your skin is so delicate. It seems that your species are born to please other species!" Bartayev was happy and was ready to attack. Ji yaoyue's expression was extremely unsightly. She was also terrified. After all, she was a woman. It was natural for her to be afraid of such a situation! However, she had no other choice. Her face was filled with despair! Just as batayev was about to attack, two figures arrived. They were Zhou Hao and Ling Tian! The two of them saw Ji yaoyue and batayev who was trying to

do something evil. They were furious! "Let her go, or else, she'll die!" Zhou Hao was thoroughly enraged. At that moment, he only wanted to kill! "Hmph, how dare you disturb my young master's happy time, you're looking for death!" One of the fourth grade martial Saints immediately stood up. He instantly condensed his powerful cultivation and was about to attack. However, in the next second, Zhou Hao's aura skyrocketed and directly broke through to the sixth grade Saint level. The powerful force formed a storm! Not only that, but an extremely powerful spiritual energy also swept out, causing the man's body to tremble! At such a close distance, they could not avoid the spiritual power at all and were immediately affected! In the next second, Zhou Hao directly used the great destruction fist! Mixed with the power of the ancestral body, it was very powerful. The moment the fist was thrown out, it directly blasted the man into pieces! Even if he was a fourth grade martial Saint, he was still no match for him! This scene made the other person extremely frightened and he screamed. "Young master, run!" Batayev frowned. He didn't notice this at all. When he turned around and saw this scene, his pupils shrank! "Martial Saint ... Sixth grade martial Saint ... How is that possible?!" He was extremely frightened. The gap between each grade of martial Saint was a huge chasm, and it was not something he could cross even if he wanted to! "Damn it, damn it, damn it, how could I have encountered such a powerful expert!" At that moment, he no longer had any thoughts of touching Ji yaoyue. Instead, he looked at Zhou Hao with fear! "Friend, this is a misunderstanding. I'll give you the points, and you'll let me go. Don't kill me. I ... I definitely won't seek revenge from you!" Of course, batayev didn't want to give up just like that. Even if he gave the points to Zhou Hao, he could still get into the top 1000 with his strength and one of his men! However, he had underestimated Zhou Hao's anger! "You can 't!" "Hmph!" Zhou Hao snorted coldly, and his powerful cultivation swept across the entire world. "Do you really think you can kill me? if I want to leave, you might not be able to stop me!" Batayev was also furious. "This B \* stard! Does he think he's invincible just because he's a sixth-grade martial Saint?" "You can try!" After Zhou Hao finished speaking, he moved and used the thousand feather armor. Without any hesitation, he appeared in front of batayev, and his powerful qi and blood shocked batayev. However, before he could do anything, Zhou Hao pointed a finger at him. The powerful power of the original pattern instantly condensed, and a strange rune appeared behind Zhou Hao and instantly covered batayev's body. At this moment, his cultivation base and movements were instantly restricted! His subordinates were also connected to the imprisonment! They had been hit instantly not because of how powerful Zhou Hao was, but because they had no idea of his combat strength, let alone that he had such a technique! "My ... My cultivation ... You ... What did you do to me?!" Batayev was terrified, but it was too late! In the next second, the two were beheaded, and they couldn't be more dead, leaving behind only three cards. Ji yaoyue was touched by all this. Even though she couldn't move, she still shed tears. Ling Tian was also shocked when he saw Zhou Hao going crazy. "Zhou Hao is really strong!" He had thought that this would be a fierce battle and had been prepared to get injured or even die. He had never expected that Zhou Hao would take care of them all in one move! Zhou Hao took a deep breath and carried Ji yaoyue as he looked at Ling Tian. "Divide the points and let's leave this place quickly. As long as we have enough points, no one will dare to set their eyes on us!" The three of them split the points, and in an instant, each of them reached 50000 points, entering the top 300. After that, Zhou

Hao brought the two of them to a safe place to rest. In the secret realm, the battle continued. After the location was announced, the number of people instantly decreased. Many people held onto the hope that nothing would happen, but they were still targeted by those powerhouses. There were those who died, and there were also those who forfeited. In short, the number of people slowly decreased, and in the end, there were only about a thousand people. Zhou Hao and the others also went out a few times. After accumulating a lot of points, they managed to stabilize their position in the top 1000. "It's almost over. " The three of them sat in front of the fire and started eating the food that Earth Star had brought. "Yes, this mercenary assessment is really difficult. It's just a trainee mercenary and it's so difficult. You can imagine how difficult it will be to enter the mercenary training base!" At this moment, Ling Tian could not help but say. "This is the universe. It's not something our Earth Star can compare to. Fortunately, the three of us managed to survive." Zhou Hao said with a smile. After a few more days, the secret realm finally disappeared, and the quota of one thousand people was instantly decided. When they walked out of the secret realm, they all heaved a sigh of relief, because they knew that they had become probationary mercenaries. After everyone was issued the qualifications to enter the mercenary training camp, they were asked to return to their respective areas and be on standby. Zhou Hao returned to Zone C. Even though Zone C was huge, the number of people saved was only about 200. It looked pitifully small.

## Chapter 837

*Chapter 837:-not admitting*

As the voice fell, the door of the virtual world slowly opened, and a ray of sunlight shone in, returning to the real world. "Hiss!" "This doesn't make sense!" "Impossible!" They watched as Zhou Hao slowly walked out of the door. Other than a little color on his body, he did not look as dispirited as they did. It was as simple as coming back from a trip. He even stayed there for a full hour. Even the other mercenaries were in disbelief. Only the big shots were able to stay in there for an hour. The sunlight shone on Zhou Hao's body, making him look like a god of War sent down by heaven. Not only did his aura not have any power, but he also felt that his strength was even stronger than before. This made the mercenaries feel a little incredulous! "You can give me the money now!" Zhou Hao looked down at brother Nan, who was sitting on the ground. A bet was a bet! As a man, he must keep his word. Everyone's expression changed drastically. They did not expect Zhou Hao to win the bet this time. Furthermore, the first thing he did when he came out was to ask for the universe dollars from the previous bet. That was 100 million. Even if they were people who licked blood on the tip of the blade, it was still not a small amount. Brother Nan's expression changed as he sat on the ground. He thought of the embarrassing bet and now he had to lose all the universe credits he had. He had never suffered such a great loss. "Who bet with you? You must know when to

stop when you're here!" "Don't go too far in some things. " Brother Nan's expression was a little unnatural. After saying this, he stood up and wanted to leave! This wasn't the first time he had done this. Winning and losing were his true colors. "I've never seen such a shameless person like you. " Zhou Hao looked at his back and said. It was embarrassing enough for a man to be like this, so there was no need to stoop to his level. Zhou Hao's words successfully made him stay behind. The other mercenaries were gloating at the silly boy in front of them. He dared to provoke such an existence as soon as he came, so he definitely didn't want to stay in the mercenary base. "I dare you to say that again. What's the big deal with staying for an hour? if you have the ability, then ask for my fist!" Brother Nan waved his powerful fist. The muscles on his body were like small mountains, and one could tell at a glance that he was an expert. Zhou Hao was not too surprised to see this. This kind of person had already become used to bullying others, so it was impossible to ask him to take it out obediently. He felt that brother Nan's aura was two levels stronger than his. If he fought with brother Nan now, both of them would be badly injured. It was even more likely that he was no match for him. No matter from which perspective, it was not the best time for him to make a move. "A man must do what he says. You're a coward!" Even if Zhou Hao was a little uncertain about whether he could win now. As the saying goes, "lose the person but not the face." Since the other party could go back on his words, there was no need to be too modest in this question. At most, both sides would suffer. These mercenaries had always prided themselves on being real men, but now an outsider was saying that they were not. They were howling! He felt as if his personality had been severely insulted. "Say it again. If you have the guts, say it again. If I don't beat you up, I'll find all your teeth on the ground!" Brother Nan now felt that he had suffered the greatest humiliation and challenge in his life. A young man in his twenties actually dared to challenge his dignity so blatantly. "I said I can't do it, what are you if not a coward?" "A hundred million universe dollars, it's not like I'm going to kill you, and there are so many mercenaries as evidence!" Zhou Hao's body exuded a powerful aura. His muscles were also well-developed. Although he looked a little young, he was not someone who could be easily bullied. Otherwise, he wouldn't have been able to stay in the virtual training room for 15 minutes. One had to know that the horror inside was enough to make one tremble in fear. After weighing the pros and cons, brother Nan broke out in a cold sweat. If he attacked rashly like this, he might end up embarrassing himself in the end. Although Zhou Hao's aura was not as strong as his, with his combat experience and various trump cards, he might not necessarily win. Just thinking about it made him feel a little careless! "As long as you can defeat me, I'll give you even a billion, let alone a hundred million!" "Are you sure you can catch it?" Brother Nan gave himself a way out and threatened him. He just hoped that the silly boy in front of him would back off and stop bickering with him. In the entire mercenary group, anyone who met him would give him some face. Things were always unexpected. Others might give him some face, but Zhou Hao did not have such self-awareness. Since he had said something, he had to do it. This was Zhou Hao's life Creed. "What's there for me to be unstable about? this is something that I deserve!" Zhou Hao looked at everyone in the room with a calm expression. They couldn't hold back their gloating expressions. "Brother Nan, teach him a lesson. Otherwise, this kid will not know his place!" "Brother Nan, don't let him think that we are easy to bully." "Since we're going to compete, let's make it bigger. What's a

hundred million universe dollars?” “Yes, yes, yes. Just like what brother Nan said before, as long as you can win one billion universe dollars from him, it’s nothing.” All the mercenaries wanted to see the world in chaos, so they stood by the side and created all kinds of chaos. They couldn’t wait for the two of them to start fighting so that they could watch the show from the side. “That’s right, if you dare to make a bet, then I’ll give you one billion universe dollars if you win half a month later!” “If you lose ...” Now that brother Nan had a way out, he quickly went down. He was only strong on the outside but weak on the inside. Previously, he had been seriously injured when he went in to pass the level. He would need half a month to recover. He hoped that the silly boy in front of him did not notice his abnormality. Otherwise, today’s victory or defeat would really be a little difficult to say. When the other mercenaries heard that it was half a month later, they were disappointed. “It’s up to you, anytime. Just don’t act like you’re here when the time comes!” Zhou Hao turned around and left. The mercenaries only wanted to watch the show. As long as no one died, they could do whatever they wanted. Even if your cultivation resources were stolen by others, no one would stand up for you. No one will stand up for you and seek justice! Looking at Zhou Hao who left in a carefree manner, everyone couldn’t help but clench their teeth. Even an airborne could ride on their heads and act like a tyrant. In particular, brother Nan was even angrier. After being publicly provoked, the other party still left in such a carefree manner. “This kid is really arrogant. He even said that he’ll play with me anytime!” Brother Nan said through gritted teeth.

## Chapter 838

*Chapter 838: Talk with your fists*

No matter how much he hated Zhou Hao, he wouldn’t give him a second glance. “Hi, we meet again!” Zhou Hao had just walked out when he met the middle-aged man who had warned him earlier. She even took the initiative to walk over and greet him! She didn’t know why he was approaching her, and she didn’t want to get to the bottom of it. It was impossible to get anything useful from her. This middle-aged man had a tall nose, blue eyes, and a tall figure. He had a gentle smile on his face. In this place, if you believed that the other party was a harmless person, then you were gravely mistaken. Any one of them grew up to be numbed to killing people, and they had to face different dangers every day. “We meet again!” Zhou Hao was not an arrogant person. With a faint smile on his face, he greeted others in the most harmonious and warm way. This was because the middle-aged man had warned him before! “I’ll send you back. It’s your first time here and you don’t have anyone to guide you. How can you?” The middle-aged man was very enthusiastic and offered to send Zhou Hao to his residence. It was Zhou

Hao's first time here, so it would be great to have someone to lead the way. The two of them didn't know how long they had been walking, but they felt that the more they walked, the more remote it became. This didn't seem like a place where real mercenaries lived. Zhou Hao looked at Zhou 4 warily, afraid that he would not be able to react in time if something happened. Looking at the desolate environment here, he wondered if those wandering ghosts would dislike it. "This doesn't seem like a place for people to live!" Zhou Hao felt that no matter how difficult the conditions were, it was impossible to leave someone in such a desolate place. There were two dilapidated houses that were trying their best not to be blown away by the wind. Along the way, they saw many very luxurious and beautiful houses. From this point of view, he had just arrived here and had been made fun of by others. This kind of unfair treatment could only be vividly reflected in this place. If he wanted to live a good life, he had to solve it with his own fists! Whoever had the bigger fist would be the master of this place. "Little guy, you don't know this. If you want to live in a good room and live a good life, you must have great strength!" "If not, I have to complete missions and obtain a lot of points to exchange for these good conditions!" "No matter who comes here first, the treatment is the same as the one inside!" "Oh, there's one more thing. If you want to obtain cultivation resources, you must have points ..." The middle-aged man jabbered on and on as he introduced the various rules to Zhou Hao, as if he was hoping that Zhou Hao would not take any detours. As expected, there was no deviation from his guess. As long as there were people, there would be competition, and they had to use various means to obtain superior conditions. Since he had such an opportunity, he definitely wouldn't have stayed in these two broken houses and endured the wind and rain. Even if he never cared about these things, he couldn't let others look down on him like that. "F\* ck, what the hell is this place? I don't want to stay here anymore!" Before they reached the place, they heard an arrogant voice coming from the front. Zhou Hao was overjoyed when he heard the voice. It was her companions who had arrived. Ji yaoyue had always been hot-tempered, and the anger in her heart was even more difficult to dispel when she saw such unfair treatment. It exploded in an instant! The smile on the middle-aged man's face became even more brilliant. As long as these newcomers were not convinced, the entire mercenary group would become even more lively. His favorite thing to do was to watch others fight with each other. The person who had brought Ji yaoyue to this place turned and left, leaving her confused in the wind. She didn't know if she should leave now. "Since you're already here, you should be at ease. Think about the time when you were carrying out a mission in the Great Forest ..." Zhou Hao looked at the extremely angry Ji Yao Yue Yue who was standing in the wind and could not help but comfort her. There was no distinction between men and women in a mercenary group, only the strong and the weak. The more he heard Zhou Hao's voice, the more he turned around with a smile on his face. He thought that it would take some time for Zhou Hao and Ling Tian to arrive. Even with the middle-aged man's explanation, Zhou Hao wasn't as angry as Ji yaoyue. All of this was determined by strength, so he couldn't be soft-hearted. After greeting the middle-aged man, he pulled Ji yaoyue to the side and told her all the information he had obtained. No matter how noisy he was, there was no way to change the current situation. The only way out was to constantly break through himself. Only when he had powerful strength would he have the opportunity to seize a better residence. Ji yaoyue also sighed after hearing that! This was a very abnormal

place to begin with. If it was as normal as the outside world, she would find it strange. “Since it’s based on strength, then this old lady will go and meet them. Let them know that outsiders like us aren’t easy to bully!” Ji yaoyue had always had a fiery temperament. She stood up and was about to argue with those people. “Don’t be in such a hurry. We’ll discuss everything after Ling Tian arrives!” Zhou Hao was not an impulsive person. Even if he knew that the other party had done it on purpose, those people were waiting for him to come personally. There was no need to give others the chance to humiliate him. Ji yaoyue couldn’t hold back her anger! She had never suffered such grievances before. Feeling the dilapidation of this place, she suddenly felt a little sad. He had come to this place to improve his strength and not to enjoy life. “How does it feel to go in?” Ji yaoyue felt that he had broken through the level that he usually didn’t dare to step out of during the short-distance virtual training. Sensing it carefully, Zhou Hao had gained quite a lot this time. His strength had substantially increased, but he only felt that his spirit had a breakthrough. “It was pretty good inside. I stayed there for an hour!” Zhou Hao commented. The things inside were really good. They could help people break through themselves and those who had been stuck in a bottleneck for a long time. Whether it was his body or mind, he had been well trained. Ji yaoyue almost cursed. She had a slim chance of survival after entering and had almost died in the mouths of those beasts. Thinking about it now, he still felt a little scared. He didn’t know if the two of them had encountered the same thing. The others couldn’t say what kind of existence they had encountered inside. Only perverts like them could clearly remember everything that happened inside. “It’s really not bad, I almost died!” Ji yaoyue told Zhou Hao everything she had seen and heard inside. Zhou Hao was surprised to hear that Yao Ji and yueran could remember everything that had happened inside. The other mercenaries didn’t know much about it. Even if they had a little impression, they couldn’t remember much.

## Chapter 839

*Chapter 839: Then we’ll beat them until they don’t dare*

“What are you doing?” Ji yaoyue saw Zhou Hao staring at her without blinking. Her face immediately turned red! Although she was a tough woman, she was still a little embarrassed to be sized up by a man. “Let’s see how your brain works. ” “When other people come out, they only remember how terrifying it was inside, but you can remember those scenes clearly!” Zhou Hao himself could clearly remember what had happened inside. This could only mean one thing. These things were only useful to the mercenaries. The three of them from Earth Star were not of much use. This question could only be solved when Ling Tian arrived. “Tsk, have you forgotten everything?” Ji

yaoyue rolled her eyes in an unsightly manner. She didn't believe that Zhou Hao had forgotten everything that had happened inside. If she could remember it, how could this person in front of her forget it? "You two are pretty fast!" Just as the two of them were discussing this issue, Ling Tian suddenly appeared outside the dilapidated house. He had also been in a sorry state for his entire life, and he had not had a good time in the simulation training room. "F \* ck, are you on the run?" Ji yaoyue looked at Ling Tian and laughed. Looking at the woman's heartless smile, the two men immediately covered their foreheads. She did not even look at how embarrassed she was. However, it was still much better than the two of them. The two of them looked at each other and only they could understand each other. It seemed that this time, they were not doing well. "If we want to live in a better place, we have to take on missions to earn points. The other way is to keep challenging people who are stronger than us!" "Right now, our strength is at the bottom of the mercenary base ..." Ling Tian very objectively analyzed the advantages that he had and the advantages that the other party had. Their greatest strength was that they grew up very quickly! The reason why he hadn't come over for so long was to inquire about these things. Every time he went to a place, he had to get a clear picture of the situation. "Also, if we want to train our spiritual power, we'll need points to enter the training room on the second floor!" Ling Tian really did bring back a lot of news. At the very least, Zhou Hao did not get any of these things from the middle-aged man. The three of them looked at each other in the dilapidated house where the cold wind was blowing from all sides. They felt as if they had been abandoned by the world. It wasn't long before they heard someone talking. They looked at each other. Could there be a newcomer like them who had just arrived here? "Young master, how can anyone live in such a desolate place?" "Don't say anything. I saw that beautiful girl coming in this direction with my own eyes!" The few of them continued to talk. Ji yaoyue was the only beautiful one here. Ling Tian and Zhou Hao instantly understood. She must have caught the eye of someone when she was participating in the virtual training. With Ji yaoyue's beauty, she would definitely attract such trouble no matter where she went. "The two of you, don't move. I'll go and take a look. Who is it that dares to have ideas about me?" Ji yaoyue strode out of the running house on her long, slender legs. He looked coldly at the few people standing outside the house! "Little sister, this place is too shabby. Why don't you follow me to a more luxurious place?" It was a young man who was not very handsome and had a gloomy aura all over his body. His eyes were shining. She had blonde hair and green eyes, and looked very different from Ji yaoyue and the other two. However, she also had a kind of exotic beauty. However, it gave off a very feminine feeling! His face was abnormally pale, and he looked like he had overindulged in sex. He wasn't a good person. "Who are you? why don't I know you?" Ji yaoyue had never been afraid of anything! Facing this feminine-looking man in front of her, she didn't have a good expression either. Previously, there had been some unhappiness outside the training room. He had dared to touch her and take advantage of her. If he had not been busy with training, he would have definitely taught him a deep lesson. When the young man saw the slight anger on Ji yaoyue's beautiful face, he felt an indescribable feeling in his heart. He had never met such a challenging woman before. "You're too arrogant. Do you know who this person standing in front of you is?" "It's your honor that our boss thinks highly of you. Many women have cried and begged to follow our boss, but they didn't have the chance!" The mercenaries at the side glared

at Ji yaoyue, not giving her any face at all. He directly stood up and scolded loudly. He also took this opportunity to gain a little favor in front of the young man. Their boss's family was huge, an existence that they could only look up to but not reach. As long as they listened, they would laugh. Perhaps these people were delusional. Did they have to agree just because someone else liked them? "You can get lost now. I've never known the boss inside, and I don't need this honor!" "I'll let you leave safely while I still have some patience!" Ji yaoyue's eyes glowed with a dangerous light. She wasn't a weak woman who needed protection. It was a Mansalva on the road to the netherworld. Although it was beautiful and dazzling, it was also a symbol of death. If they were to provoke him, he would be in trouble! The young man was even more moved by Ji yaoyue's current state. The women he had met before were all helpless and helpless. He liked thorny roses like Ji yaoyue. She made him feel very challenging. "Little sister, don't be angry. My brother doesn't know how to talk!" "As long as you state your conditions, I'm willing to fulfill them!" The young man looked at Ji yaoyue. But he had never seen this kind of beauty before. She was not as rough as they were. He was a little cautious when he spoke, not daring to be as arrogant as before. If he couldn't deal with the strong women, he would deal with the weak. Many women couldn't resist him at all. "You can get lost now. I'm not interested in you!" Ji yaoyue didn't stay any longer after she finished speaking. She turned around and returned to the run-down house. "Little beauty, I like your personality. We will meet again!" The young man had a smile on his face, and his eyes were filled with determination. The things that he had his eyes on had never escaped his grasp. He was determined to have this woman. "Boss, what do we do now?" The mercenary at the side looked at the young man carefully. "Get lost, you good-for-nothing!" The young man turned around and left in a hurry, his mouth still cursing the mercenaries beside him. He had never suffered a loss at the hands of a woman before, and this was the first time in his life. He had an indescribable feeling in his heart when this group of brats finished reading it.

## Chapter 840

*Chapter 840: Being bullied*

The group of people cursed as they left! Ji yaoyue didn't take this matter to heart at all, thinking that it was just some boring matter. "You'd better be careful in the future. This kind of person will appear again after the first time!" Ling Tian worriedly instructed. This place was not their territory, so they had to be careful. However, there was no need to be too afraid. To people like them, only cowards would retreat forever. "What are you afraid of? if there's a next time, I'll beat her until she pees in her pants." Ji yaoyue snorted coldly and clenched her little fist. It was as if she wasn't afraid of anything and those people were only worthy of being beaten up. If a person wanted to do well and gain a foothold in the entire mercenary base, he had to quickly raise his own strength.

Ling Tian and Zhou Hao looked at Ji yaoyue and felt a headache coming on. Other women would seek help when they were in trouble, but this woman would not let anyone know even if she were to poke a hole in the sky. "No matter who goes out, don't get into a conflict with others. We must be careful!" Zhou Hao's face was also filled with caution. After looking around, it was just as Ling Tian had said. While they were quite strong, there was still a gap between them and the mercenaries. The few of them discussed for a while. The most important thing now was to quickly accept missions and get points. With training resources, they could improve at a godly speed. Ji yaoyue and the other two knew about the bet between Zhou Hao and brother Nan. Although Zhou Hao did nothing wrong, they were still worried about him. They had to improve their strength as soon as possible. "These B \* stars, what right do they have to look down on us? this old lady is not afraid of them!" Ji yaoyue had always had a fiery temper and didn't know how to spell modesty and forbearance. Other than the people she cared about, no one else could gain any advantage from him! "I still have some points in my hands. Do you want to use them first?" He didn't even ask how Ji yaoyue had gotten her points. Each of the three of them had their own means. Zhou Hao had a lot of points, but everything here required points, so they didn't dare to use them easily. Ling Tian also had a few points in his hands. Other than the points he had obtained from passing the trials, he also had some points that he had won from the bets made by those people when he had just arrived. "Keep it for yourself. The points here are very precious. We'll try our best to spend them on training!" "The two of you should also quickly improve your strength. I can feel that I'm about to break through!" Zhou Hao felt a slight change in the bottleneck that had not loosened since he came out from inside. As long as he entered it again, he would definitely have a chance to break through. The few of them quickly agreed on how they should proceed from here. They had to quickly gain a firm foothold here. The next day, Ji yaoyue went to the training room on the second floor, just as they had arranged. Looking at the words "virtual essence, Qi, and spirit training base" in front of him, he felt his mind surge, as if it was being shaken by something. Anyone could enter as long as they had enough points. Five points were only for one minute, so one would have to spend 300 points in an hour. Wanting to earn 300 points was simply harder than ascending to the heavens! If it wasn't for the sake of increasing his strength, he wouldn't have paid such a huge price. He had only won 305 points from a bet with someone yesterday. He would have to spend all of them in an hour. Just thinking about it made his heart ache. "Welcome to the spiritual training base. If you want to join, please line up!" The moment Ji yaoyue walked through the gate of the spiritual training base, a receptionist reminded everyone. There was a group of people in front of him, and there were ten rooms in total. It meant that ten people could enter at once for training. Usually, there were not many people in the mercenary base, and most of them were out on missions. Ji yaoyue didn't make any special moves and just stood in line obediently! In order to improve her strength, she had always been patient. Very quickly, he was in front of her! "Ji yaoyue, 300 points for one hour." "Here, this is your room key, please take it!" The receptionist smiled politely and handed a card to Ji yaoyue. His eyes were filled with amazement. He had never seen such a beautiful woman before. She was as cold as ice, making people feel relaxed and happy. "This mercenary trainee, this way please!" Ji yaoyue had just walked out when a guide stood there to receive her. No wonder they had to spend so much to come here. The service

was quite thoughtful. If these people wanted to earn points, they could also use this method. They would spend their own training time and come here to serve others, and they would be able to get a certain reward. Most people would never do this! Soon, he arrived at the place where Ji yaoyue's room card was. Seeing that she had not come out yet, he sat on the chair and waited slowly. Time passed quickly, and the other party didn't seem to have come out. Ji yaoyue glanced at the time. This was her training time. It seemed that the other party wanted to occupy this training room and spend his own points to do his own things. "Thump, thump~" Ji yaoyue could not wait any longer and knocked on the door. Even if he felt that this was a little immoral, the person inside was even more unreasonable. His training time was already up, but he still didn't come out. Since the other party was unkind, then don't blame her for being heartless. There was no way he could take advantage of her. "The person inside, listen up. It's time for your training. Come out quickly!" Ji yaoyue knocked on the door again while shouting. The person inside didn't seem to move at all, as if it was an empty room. However, the door showed that there was someone inside! "This student, if you can't call him out like this, why don't you just ring the doorbell!" The mercenary who had just led Ji yaoyue here gave her a very good suggestion. There were benefits to being pretty. If it was an ordinary person, no one would care. Following the mercenary's instructions, Ji yaoyue successfully called the other party out. "Are you blind? It's immoral for you to disturb other people's training like this. " The man who had just walked out roared in anger. He had already forgotten that his time was up, or perhaps he was deliberately trying to occupy other people's time. Before the door was fully opened, he could already be heard cursing from inside. Hearing this voice, everyone couldn't help but look back! He didn't expect that the one training in this room was this fiend. He wondered if the beauty in front of him would be hurt. Many people were gloating at the side as they watched the scene. Every time someone encountered this fiend, they would not have a good time. His strength was not very high, but he was very fast. Ordinary people were not his match. "Eh ... It's you?" As soon as she opened the door, she saw that it was the land Rascal who had been pestering her yesterday. Enemies were really bound to meet on a narrow road.

## Chapter 841 - How miserable it was

*Chapter 841: How miserable it was*

The world was really too small. He actually met this scoundrel on his first training session. "Little beauty, you can train with me. I won't let you suffer!" He looked at Ji yaoyue, who had a cold expression, with a perverted smile. He had said that they would meet again! He didn't expect Ji yaoyue to come to him so quickly. The world was so

wonderful. "Your training time is up, please leave!" Ji yaoyue didn't give him any face and asked him to leave coldly. He didn't want to waste a single moment. Every minute and second of this kind of training time was precious. She didn't want to waste her time on such a scumbag. The others kept quiet out of fear! He didn't expect this beautiful woman to be so bold as to ask the heir of the Harvard family to leave. How bold was she? After looking at her carefully for a long time, he realized that he had never seen this beautiful woman before. Some of the female mercenaries' eyes were filled with envy and jealousy. They didn't even have the chance to get close to this man. Some of the male mercenaries' eyes were filled with regret. Such a beautiful woman would not have a good life in the hands of this demon. There were also some who stood at the side, gloating and enjoying watching others fight. "Little beauty, it's your honor that I'm willing to train with you. Don't be so ungrateful!" "Not everyone in the Harvard family is worthy of respect." "If you're thinking too highly of me, I'll marry you. If you're so stubborn, then be my bed warmer!" The young man in front of him spoke wildly. Ji yaoyue was infuriated. No one had ever dared to speak without restraint in front of him. Then I'll have to make him shut his stinky mouth. Without a word, Ji yaoyue slapped the young man. Wherever her palm went, there was a sound of wind breaking. The heat waves that rolled over made people feel very uncomfortable. No one had expected Ji yaoyue to start a fight just because of a slight disagreement. Furthermore, she was a rare expert in playing with fire, and she had grasped the essence of the power of fire. The other mercenaries felt their hair stand on end! If it were them, they would definitely be burned to the ground. The young man narrowed his eyes and disappeared from where he was, reappearing not far away from Ji yaoyue. With his speed, even those experts would not be able to catch up. Speed was the only indestructible art in the world! The hafu family had always been known for their speed, and even those hidden masters couldn't do anything to them. "Little beauty, it seems that you're not very satisfied with your brother. Then, I'll let you experience the feeling of ecstasy." The young master of Harvard appeared behind Ji yaoyue in an instant. He extended his demonic claws and touched Ji yaoyue's chest with an evil smile on his face. With his speed, even those experts couldn't do anything to him, let alone Ji yaoyue. The other female mercenaries' eyes were bloodshot, wishing they could take Ji yaoyue's place. It seems that those male mercenaries can't wait to replace my young master in doing this! Everyone held their breath, afraid that they would accidentally anger young master Harvard. Ji yaoyue wanted to Dodge, but the other party was too fast. However, Ji yaoyue still raised her hand subconsciously, and a ball of flames appeared in her hand. She slapped it at young master Harvard. Since she wanted to do something like this, she had to be prepared to pay the price. "Little beauty, I didn't expect you to have such a strong personality. I'll make you kneel in front of me today!" Young master Harvard instantly moved in a different direction. He directly hugged Ji yaoyue's thin waist from behind and kept moving his hands down. He was going to destroy this woman in front of everyone. He had to pay such a price for rejecting his good intentions so many times. Ji yaoyue's anger was hard to conceal! She wished she could die immediately, but the other party's speed and strength were both above her. If he had known this would happen! She shouldn't have provoked such a person. She was too careless and didn't take Ling Tian's words to heart. Crack! Crack! Crack! "Crack!!!" "Boom ..." Before anyone could figure out what was going on, they heard a cracking sound and a black

shadow floated past them. When she came back to her senses, she saw that a young man had appeared beside Ji yaoyue out of nowhere, his face filled with anger. Not far away, the previously awe-inspiring young master Harvard was lying on the ground like a dead dog, groaning non-stop. They looked as if they had seen a ghost, their faces filled with fear. No one could break the speed of the Haffer family! It must be because young master Harve let his guard down that he was ambushed. The mercenaries were angry, feeling that this young man had done something unforgivable. "Ah~~" "I want you to die. Do you know I'm from the Harvard family?" "If my big brother finds out, he'll make sure you die without an intact corpse!" The young man lying on the ground kept cursing. Zhou Hao didn't even look at him. He had seen too many of such rich second generation young masters. "Yao Yue, are you alright?" Zhou Hao looked at Ji yaoyue with concern. He and her were comrades who had fought side by side, and they were brothers who had gone through life and death together. He couldn't let her be bullied by these people for no reason. Ji yaoyue bit her lips and shook her head! For a moment, he felt as if he had lost something. His desire for strength was even stronger, and he had no way to deal with such a small hooligan. He was afraid that it would be even more difficult if he encountered more powerful experts in the future. "They're definitely in trouble this time. I heard that even though the Harvard family isn't a top family, they're still quite well-known!" Ji yaoyue felt guilty when she thought about how she had offended such a big family. "Don't be afraid, you'll have to face it one day!" Zhou Hao was very open-minded and would not easily provoke anyone. Once they provoked the other party, they would not retreat, even if they were to be crushed. "Hmph, it's too late to be afraid now. I'll definitely tear you into pieces!" "I'm going to give this B \* tch a good beating in front of you!" The young man lying on the ground was still talking nonsense. "Pa!" Everyone was shocked! When Zhou Hao made his move earlier, he had thought that he had acted rashly because he did not know the other party's background. If they still attacked now that they knew, they would be provoking the clan. "I've never seen such a Savage person who provoked the Harvard family and waited for death!" "It's been a long time since I've seen such a show. Let's sit down and have a good look!" "This kind of person doesn't even know how he died?" "Hmph, Hmph, you reckless thing!" The mercenaries at the side felt that Zhou Hao's group of three looked different from them, so they wanted to stand up and bully them. Just the thought of what had happened to Zhou Hao and the others was enough to make them excited. This attitude was indeed a group of cold and emotionless people!

## Chapter 842

## *Chapter 842: A slip of the tongue*

None of the mercenaries here dared to mess with young master Harve, even though they knew he wasn't very strong. It was all because his big brother had a certain amount of power in the entire mercenary base. Especially his speed, it could be said that he came and went without a trace, and their strength could only be compared to his back. "Wu, Wu, Wu ... Goose ... Cooking ... I want you to think ..." The young man lay on the ground and hugged his hands in pain. His words were also leaking. No one could understand what he was saying! However, she could roughly guess that he was the one who said that his big brother would definitely make Zhou Hao and the others die without a burial place. Zhou Hao gave him two tight slaps, using all his strength, and knocked out a few of his teeth. To Zhou Hao, who had boundless strength, not killing him was already giving him enough face. The other mercenaries couldn't help but snicker. Usually, this young man would order them around, and he wouldn't give them a good look. Now that she saw him in such a bad situation, other than gloating over his misfortune, she also felt a little excited. As long as it wasn't something he didn't do, and they didn't have to bear the consequences, they were still happy to stand aside and gloat at at young master Harvard's misfortune. Even if there were some who were eager to make a move, they did not dare to step out because of Zhou Hao's ruthlessness! They were afraid that Zhou Hao would give them two tight slaps and send them flying. "I've seen many shameless people like you. Since you want to bully people, then be prepared to be bullied!" Zhou Hao looked at the young man on the ground coldly. His eyes were filled with disdain! Only those who relied on their family to do whatever they wanted would be like this. "Yao Yue, you go in and train. I'll guard the door for you!" Zhou Hao knew that with no one guarding the door for Ji yaoyue, she would not be in the mood to train anymore. After such an incident, no matter how strong the other party's mental state was, it would leave a little shadow. Ji yaoyue bit her lips and shook her head! The main thing now was not to train, but to find a way to get through the current difficulty. "Quick ... Inform my big brother. I will definitely pay for this with my blood today!" The young man on the ground reproached loudly. He had lost many teeth and his hand was broken. He didn't know if he could recover it. He only knew that the pain was stimulating every nerve in his body. Some of the mercenaries wanted to suck up to them, so they ran out in an instant. This was the best time to hug their thighs. "If you don't want to train anymore, then let's go back!" Zhou Hao knew that when a person was in a bad mood, he could not force them to train, especially this kind of spiritual training. It was easy to cause big trouble! The two of them turned around and left. They didn't take another look at young master Harvard, who was lying on the ground like a dead dog. The others saw that there was no good show to watch, so they all wanted to return to their training rooms to continue training. He didn't expect the show to end so hastily! "Little brother, are you alright?" "Who beat you up so badly?" An anxious voice came from outside, and at the same time, a gust of wind blew inside. Everyone was shocked when they heard the sound! The young master of the Harvard family had come here in such a short time. It seemed that the show was not over yet. Everyone's face was filled with mockery as they wanted to see how Zhou Hao and his partner would escape today's punishment. Zhou Hao's expression changed! He could feel that the person who had just entered had already reached the limit of his speed. If he were to

take a step further, he would definitely be able to control the power of space like him. "Big brother, you're finally here. I was beaten up by them so badly ..." "It's all because of this adulterous couple in front of me ..." The young master of the Harvard family explained everything that had happened with exaggerated details. He even said that Ji yaoyue had gone too far, forcefully opening the door while he was training. He had only argued a little, and Zhou Hao had beaten him up like this. As he spoke, his tears and snot flowed out together. His hand was in so much pain that he couldn't move, and even his words were leaking. A lot of the words were said because of his big brother. He had to guess slowly to know what the content was. After all, they had known each other for a long time and he knew what kind of person his brother was. However, his younger brother was not someone who could be bullied by anyone. Since he did not give his family face, he would not have it easy either. His heart ached when he saw his brother lying on the ground and crying miserably. He checked his brother's hand and found that it was broken in a very twisted way. There was no way for it to recover to the state it was before the injury. Even if he used those spirit herbs, it would be useless. In an instant, the aura on his body became even stronger. Without any hesitation, his palm struck towards Zhou Hao. This was the young man in front of him who was so ruthless, not leaving any way for others to live. He had already used some of his spatial power, so his speed was too fast for anyone to keep up with. Zhou Hao pulled Ji yaoyue and teleported a distance away, barely avoiding the slap. If it wasn't for the fact that he had mastered the power of space, he might have been seriously injured! "Eh ... You're quite capable. No wonder you were able to injure my brother so easily!" The middle-aged man who had just arrived was very surprised. There were very few people who could escape from him! Even those who were stronger than him could not escape so easily. "Hmph, don't you know what kind of a bird your brother is?" "He doesn't have much ability. He's greedy and lecherous. He likes to bully people!" "I've already done him a great favor by breaking one of his hands. If he does it again, I'll kill him." Seeing that Zhou Hao had almost lost, Ji yaoyue was so anxious that she spoke without thinking. Her fiery temper was also fully displayed by her, just like a firecracker that could be lit up at any time. Only then did the young master of the Harvard family notice the existence of an unparalleled beauty here. He only needed to think for a moment to know that his younger brother had fallen into such a state because of this woman. The family had been very indulgent towards his younger brother since he was young. Even if he didn't like it, he would at most reprimand it. How could she let him suffer such heavy injuries? When he returned to the family, he would not be able to explain to his parents. Also, his brother, who he had doted on since he was young, was being bullied. As the elder brother, he could not stand by and watch. "It's your fortune that he likes you. You have two choices today!" "The first is to commit suicide. The second is to kneel and apologize to my brother. You can only listen to his orders for the rest of your life!" The middle-aged man announced the outcome of Zhou Hao and his partner. The young man lying on the ground couldn't help but laugh. This was the result he wanted. He wanted this woman to struggle under his feet. His big brother was usually very strict, but he didn't expect him to stand on his side this time.

## Chapter 843

*Chapter 843: I won't choose either*

With this thought in mind, young master Harve's hand didn't hurt as much as before. He even thought of how to torture this woman in front of him. In his eyes, these people were nothing. "Are you guys delusional?" "What right do you have to announce the fate of others?" "I'm not someone you can order around, you're thinking too much!" The so-called 'lose the man but not the array'! Ji yaoyue turned around and left, not giving these people any face. It wasn't that she had already given up, but she had already offended these people. Even if she begged for peace, it would be useless. "Hehe, just because my family is huge, just because my strength in the mercenary base is huge!" The middle-aged man sneered. As the boss of one of the four major forces in the second-tier of the mercenary base, it was a piece of cake for him to deal with a few newcomers. He was indeed not qualified to challenge the first-tier mercenaries. Zhou Hao stood at the side without saying a word. If the middle-aged man really wanted to make a move, he would not have tried to slap him in the first place. It seemed that there was still a little chance of salvaging this matter! If he were to face this person head on, it wasn't as if he didn't have a chance of winning. His speed was very fast, and he wasn't slow either. The slap earlier seemed ordinary, but it was actually a secret contest. He just wanted to see how strong he was. The result of this test had already come out. The fierce look on the middle-aged man's face didn't make him a person to be trifled with. In particular, there was a knife scar on his face, which added a bit of evil to his appearance. "If I don't choose either, what will you do?" Zhou Hao pulled Ji yaoyue behind him. He was afraid that this middle-aged man would suddenly go crazy and hurt Ji yaoyue before he could do anything. "Hiss!" Everyone sucked in a cold breath. These mercenaries did not expect Zhou Hao to be so arrogant. He even dared to be so arrogant in front of the boss of the entire mercenary group. How did this young man get his guts? They could also see that Zhou Hao was not the middle-aged man's match at all. "Big brother, since he's so shameless, let's teach him a lesson!" One of the mercenaries at the side stood up, not convinced. His eyes were filled with anger! It was just like how Zhou Hao's words were an insult to him. "Big brother, we can't let people bully us without retaliating!" "That's right, we can't set such a precedent. Even if it's those first-rank groups, we're not any weaker!" The group of mercenaries beside him cried out, feeling that this was the greatest insult to them. Young master Harvey frowned and pondered for a moment! "Brother, don't tell me you don't care if I live or die?" "If you keep this attitude, I'm going to tell mom and dad when we get back and make you lose the right to be the heir!" Young master Harve, who was lying on the ground, had a smug look on his face. Every time he used this to threaten his big brother, he would achieve his goal. He felt that he would not make a mistake this time! Sure enough, after hearing this, young master Harvey's eyebrows were so tight that they could kill a fly. Every time he heard this, he felt very uncomfortable. However, this matter was indeed on his mind! The younger brother in front of her was doted on by the

family, and many things would change the family's mind as long as she acted coquettishly. She had been threatened by him too many times. As long as she did something wrong, it was all his fault. "Hehe, if you don't choose either, then wait for death!" Young master Harvard sneered. He had already seen too many of such stubborn youths! However, none of them had a good ending. They should never have provoked the young master of the Harvard family. "That's right. I'll return sister Haruko to you after we return." Young master Harvey, who was lying on the ground, was full of smiles. As long as it was something that his big brother had his eyes on, he would snatch it over. This included women! After hearing this, young master Harvey's face became even uglier, as if he had thought of something unpleasant. The rest of the people had very curious expressions on their faces. Every family had this kind of unfair thing, but the Harvard family had always hidden it well, and no one knew the truth. It was this brainless young master who revealed a little. Hearing his words, everyone couldn't help but think of some erotic things. "You're such a failure as a big brother ..."

Zhou Hao looked at the unpredictable young master of Harvard and knew that it was a pain in his heart. If he could make use of it, it was possible that this matter could be resolved. The rest of the people also had a look of understanding on their faces! All of a sudden, young master Harvard seemed to be stripped naked in front of everyone. However, he didn't dare to not stand up for his brother, so he gritted his teeth and immediately said, "How about this, let's make a bet. If you lose, you have to kneel and apologize. If I lose, I'll give you 1000 points. How about it?" "Don't let others say that an old mercenary like me is bullying you newbies!" Young master Harvey's expression changed for a while before he thought of this excellent idea. He was extremely unhappy that he had to use all his strength to help the young man lying on the ground take revenge. If he didn't show any attitude, he wouldn't be able to explain it to his family. Moreover, he could feel that the strength of this young man in front of him was extraordinary. Even if they were to really fight, it was really hard to say who would win. There was no need to risk his life for someone who was a threat to him. He would like to see how a disabled man like Harvard could inherit his family's business now that his hand was broken. "How do we bet?" Zhou Hao was also a little interested. Even if he was being used as a weapon, it was better than two people fighting with their lives. With 1,000 points, he could do a lot of things. "You don't look slow, let's compete in speed!" "If you can take one of my items within three seconds, I'll admit defeat!" The young man lying on the ground was furious when he heard that his big brother didn't want to avenge him. When he heard that they were competing in speed, he couldn't help but feel proud. His big brother's speed was faster than anyone else. Even among those in the family, how many could catch up? At this very moment! He didn't know that he had offended young master Harvard with his words, and that was why he was in this state. "Alright!" "Yes!" Zhou Hao agreed readily. If he couldn't win in what he was good at, he had no chance of winning against this person. Ji yaoyue stood at the side with a worried expression! However, the arrow had already been nocked and had no choice but to be released. When everyone heard that someone dared to compete in speed with the No. 1 master of the Harvard family, they felt like they had heard the funniest joke in the world. Not just anyone could win. And it was within three seconds. They couldn't believe that the bet had ended before it even started.

## Chapter 844

*Chapter 844: Three-second man*

Ji yaoyue was the only one who knew what Zhou Hao was really capable of! If it was a competition of strength, Zhou Hao would definitely be weaker than the young master from Harvard. As for speed ... “See that? How dare someone try to compete with young master Harvey in speed!” “Within three seconds? I think he’s a three-second man~” “Haha ... Why are you telling the truth? others will feel bad if they hear it ...” “I think he’s also a three-second man.” The mercenaries discussed in low voices. They felt that Zhou Hao was looking for death! Moreover, this was a very unfair bet. Zhou Hao didn’t take their mockery to heart. Other people were stupid, but he couldn’t be like them. The more brilliant he smiled now, the more painful it would be when he was slapped in the face. Young master Harvey had a proud look on his face, like a proud peacock, and his tail was almost raised to the sky. He loved the feeling of being surrounded by a myriad of stars! Even Harvey, who was lying on the ground, stopped growling. He felt very comfortable when he thought about Zhou Hao kneeling at his feet and apologizing. Even the hand that had been in excruciating pain before was not as painful as before. It seemed that his big brother was still the same as before. As long as he was threatened, he would listen to his words. Originally, she was already tired of playing with that woman, so it wasn’t a big deal to give him this stupid big brother. The two of them were actually still together in life and death like before. “I knew that big brother would definitely help me vent my anger. After all, you still can’t let go of sister Haruko!” “She calls out big brother’s name every time.” Harvard was still saying these words recklessly. He thought that these were all the weaknesses of the young master of Harvard. He had always relied on his family’s favor and had never put his elder brother in his eyes. As long as there was something he liked, he would mercilessly snatch it away. No matter if it was a person or an object, he had never let them go. Young master Harvey vomited a mouthful of blood, and he couldn’t suppress the taste in his throat. To have such a despicable and shameless brother, he was also reincarnated in the wrong world. Anyone who had experienced it would know what he meant. Although they did not dare to laugh, the expressions on their faces were even weirder than before. Young master Harvey suddenly felt that he had become the biggest joke in the world. Zhou Hao’s strength was a little weaker than his. He was a coward who could not even protect his own woman. “Big brother, as long as you do this well, I’ll definitely keep my promise!” “After all, I’m going to have a new love soon!” Lying on the ground, Harvard was still looking at Ji yaoyue with bright eyes. As long as he saw a woman he liked, he would do everything he could to get her. Even if he had to use the power of his family, he would not hesitate. “Pa!!!” “Do you think I’m someone you can covet?” Ji yaoyue

sensed his malicious gaze and slapped him on the face. A flame even started burning along his hair. He had to pay the price for looking at her with those perverted eyes. It only took a few seconds for all of his hair to be burnt! What was surprising was that the flames did not spread to other places. This kind of control of fire element was not something that ordinary people could do. Even young master Harvey's eyes were filled with disbelief. He didn't know why, but he suddenly felt much better. Perhaps it was because he saw Harvard's bald head. It was as if she had helped him vent his anger. "You're too arrogant! How dare you beat up the young master of the Harvard family in front of me!" Young master Harvey's words didn't even sound as imposing as when he had just arrived. It was obvious that he didn't want to get involved in this matter. Puchi ... "Hahaha!" The other mercenaries couldn't help but laugh. They didn't expect that the day would come when the young master of Harvard would become bald. Moreover, he didn't have any self-awareness at all. His face was still smug, and his eyes were full of evil intent. "Beating is a sign of affection and scolding is a sign of love. Big brother, don't worry. I will definitely conquer her in bed!" Harvard even continued to spread rumors. Zhou Hao's eyes darkened! He was afraid that he wouldn't know how to control his strength and send him to heaven with one punch. Since the Harvard family couldn't control him, he would teach him a good lesson. "Young master, should we add another condition to our bet?" "If I win, I'll beat him up and not take his life!" Zhou Hao was usually a very calm person, but at this time, he couldn't help but want to beat up this brat. His cheap mouth was invincible, and he looked like he was asking for a beating, but he also picked words that made people angry. "If you lose, you'll stay by my side and work for me for three years. How about that?" Young master Harvard and Zhou Hao reached an agreement in an instant. If Zhou Hao was working for him, it would be much easier for him. "Then, let the competition begin ..." As soon as young master Harvey finished speaking, he felt a black shadow flash by him, and nothing else happened. In the eyes of the others, Zhou Hao seemed to have been scared out of his wits, standing in place without moving. "I told you, he just wanted to stay by young master Harvey's side. He didn't want to move at all!" "Three seconds. Who could have done that?" "Wagering with the eldest young master, you're just courting death!" "Wait for an apology!" "This is too much. It's a little too much to deal with a newcomer ..." Some people sympathized with him, some were gloating, and some were just standing by and watching the show. He had to admit that Zhou Hao's strength was weaker than his, but his speed was faster. "This time ..." Before he could finish his sentence, he suddenly felt that something of his had disappeared. His expression changed drastically. He didn't even know that his most intimate thing had been taken away by Zhou Hao. His eyes were filled with fear! It would be a piece of cake for a person with such speed to take a person's life. He couldn't help but break out in cold sweat! It seemed that he had met a strong opponent this time.

## Chapter 845

*Chapter 845: Before one wave settled, another wave rose.*

The other mercenaries saw the change in young master Harvey's expression, and they felt that things were not as they had imagined. They couldn't believe that Zhou Hao could take away anything from young master Harvey in three seconds. Unless the other party was deliberately throwing the game. "Your speed is indeed very fast, I'm impressed!" Young master Harvey instantly put down his thoughts. Facing someone stronger than him would encourage him to work harder, and he would not bully the weak. "Big brother, don't tell me ..." The mercenaries around him were very concerned about this, and they couldn't believe what they had heard. Zhou Hao took out an item that looked like a bracelet. One look and one could tell that it was priceless. Only those from the big families could have it. The people around young master Harvey couldn't help but change their expressions. Their boss always kept that thing with him, and he would only take it out to look at it when he had nothing to do. They had only seen it once by chance! Everyone's pupils couldn't help but contract. This time, they were convinced of their defeat. Even if young master Harvard stood still, they wouldn't be able to take anything in three seconds. Not to mention that this was a personal item! "I lost this time. There are 1000 points in this card!" Young master Harvey took out a black card from his pocket and handed it to Zhou Hao, who was standing not far away. After everything was done, the mercenaries at the side finally realized that it wasn't a dream. It had really happened. The Haffer family's speed was already unparalleled in the world, and they didn't expect a young man who had just emerged to be able to gain an advantage over them. Immediately, the mercenaries' expressions changed! Lying on the ground, Harvard wished he could just faint. "Hafgen, I know you're doing this on purpose. You just hate that I'm more likable than you!" "She hates me even more for occupying sister Haruko for so many years!" "Don't worry, I'll definitely treat her even better after this." Young master Harvey lost the bet, which made him even crazier. He even blurted out things that no one else knew. "He's already your woman. He has nothing to do with me anymore!" Young master Harvey turned around and left without any intention of staying any longer. When a person had no desires, he would become stronger. It was because he couldn't let go of the love in his heart that he had been controlled by his younger brother. Now that he saw Zhou Hao, he suddenly understood one thing. If he was unwilling to do something, he could do his best to resist, even in the face of power. It was probably just his obsession for so many years. All of a sudden, he felt his entire body relax, as if there was nothing holding him back. Young master Harvard's eyes widened. He looked at the back of the person who was walking away and reached out to grab him. He felt that this person was getting further and further away from him. This big brother of his had once treated him sincerely, but he didn't know when it had started to slow down. It might have been the first time he had snatched something from the other party's hands. Perhaps it was the time for him to be valued and doted on by the entire family! He had a feeling that he would never be able to make this person work for him like before. "Brother! Do you have the heart to do that?" Suddenly, he spoke in a coquettish tone, just like when he was young. The figure

that was about to disappear paused for a moment, but in the end, he did not turn back. "Zhou Hao, please show mercy. Just teach him a lesson." Young master Harvey didn't know what he was thinking when he said this. "Hiss!" All the soldiers did not dare to say anything and fled as fast as they could, afraid that they would provoke The Fiend, Zhou Hao. He was afraid that the Harvard family would come after him, but he was also afraid that Zhou Hao would give them both. That would not be worth it. "You~you~are looking for death. My parents will not let you off ..." Young master Harvard was scared out of his wits. He usually acted like a tyrant because of his big brother's existence, but now he had lost his big brother and his arm. Looking at Zhou Hao and Ji yaoyue's cold eyes, he couldn't help but shiver. The more arrogant he was before, the more scared he was now! "I'd like to see how powerful your family is. Since you dare to have ideas about me, you'll have to pay the price!" Ji yaoyue was disgusted by his bald head. This kind of scumbag dared to put his hands on her? With every step that Ji yaoyue took, the young master from Harvard couldn't help but shiver as if she was walking on the tip of his heart. Seeing that the surrounding people had already dispersed, no one took the initiative to stand up for him. He felt that he was the victim of this matter. "Yao Yue, I'll leave it to you!" Zhou Hao knew that Ji yaoyue would fall sick easily if she did not vent her anger. They looked at each other with eyes that only the two of them could understand! The young masters of these large families were always suffering from the young master's disease. To make them unable to see the injury, the method of attack was a bit particular. Moreover, it could make him feel so much pain that he wanted to die. It didn't take long for young master Harvard's wails to ring out in front of the door. He had never experienced such a heart-wrenching pain. It was always him bullying others. It made people cry. How badly was he beaten to make such a miserable sound? The mercenaries who didn't dare to cause any trouble before quietly popped their heads out to watch again, thinking that this was just like an act. Every time Ji yaoyue attacked, it was as if she didn't have any strength, but the screams of the young master from Harvard could be heard from far away, as if he was being dismembered. "I didn't expect this beauty to be so gentle. If it were me, I'd be willing to do it too!" "I'm suddenly so envious of young master Harvard!" "This kind of fighting style can only be ..." "They're clearly flirting!" A group of mercenaries were quietly discussing at the end of the corridor. They didn't know that young master Harvard was in deep trouble. He wished he could die immediately! He didn't want to suffer this kind of pain a second time. The receptionist had wanted to see who had beaten the young master of the Harvard family so badly, but he went back after hearing the mercenaries' voices. The young master of the Harvard family had also left, so it was definitely not a big deal. Therefore, even though young master Harvard was in so much pain that he almost died, no one came out to care about this. "Next time, keep your eyes open. If there's a next time, I'll dig them out for you!" Ji yaoyue was also a ruthless person. Although she was very beautiful and weak, she could make people suffer. Young master Harvard was lying on the ground, panting. He had almost died. "Let's go! It seems like there's something interesting on the second level of the virtual training room!" "I've heard about it too. It seems that it's a newcomer who doesn't know the rules, so he issued a challenge!" All of a sudden, Zhou Hao heard the discussions.

## Chapter 846

### *Chapter 846: Seriously injured*

Today, it seemed that Ling Tian had gone to the second level of the virtual training room, and he was a newbie. “Yao Yue, it seems like something has happened to Ling Tian. Quickly settle it!” Zhou Hao felt uneasy. Ji yaoyue didn’t expect that not only would something happen to her, even Ling Tian would be bullied by others, and the anger in her heart grew. “Then let’s go!” He had vented enough, so there was no need to waste time on this scumbag. The two of them left in a hurry, not caring about young master Harvard who was lying on the ground like a dead dog. “Did you guys hear? that newbie is so reckless that he wants to challenge boss!” “I heard about it. He’s still fighting for a training room. He doesn’t even know what kind of trash he is.” “That’s right! Boss is taking up his time! That’s giving him face!” As soon as Zhou Hao and his partner walked out, they heard these people talking as if they had encountered a group of bandits. He actually said that he was giving face when someone else took up his time. Zhou Hao pulled Ji yaoyue and flew past like a gust of wind. Ling Tian’s current situation was extremely dangerous, and the earlier they arrived, the higher their chances would be. .... “Brat, I’m taking up your time. It’s your ancestors who are giving off green smoke, don’t be ungrateful!” “It’s just a few points. Don’t tell me I can’t afford to give you that?” A dark-skinned middle-aged man looked down at Ling Tian with a cold gaze. The surrounding mercenaries were still cheering. This was the publicly acknowledged boss of their training room. They didn’t know where this reckless kid had come from, but he dared to fight with their boss for the training room. He was simply ignorant. The middle-aged man’s muscles were very well-developed, and it was not an exaggeration to say that he had the strength to pull up a mountain. Ling Tian’s forte wasn’t in close combat, but rather his spear techniques. However, he didn’t have the chance to make a move. “Hmph, how despicable. Are you a group of bandits?” Blood trickled down the corner of Ling Tian’s mouth, and it was obvious that he had suffered a serious injury. He had suffered many losses in his battle with this middle-aged man just to not lose this face. If it was his, he would not back down even if he died! “So what if I’m a bandit?” “Apologize to me, or I’ll cripple you today.” The middle-aged man’s eyes were filled with ferocity. He had been tyrannical in the mercenary base for many years, and no mercenary had ever dared to challenge his authority so publicly. His battle with Ling Tian was as simple as playing with a pet. The surrounding mercenaries all revealed looks of disdain. This reckless young man was still so stubborn. Some of the mercenaries in the corner had eyes full of hatred. Every time they were bullied, they could only swallow their anger and did not dare to resist. Only those who knew how to suck up to others would have a good life! “You want to apologize? dream on!” Ling Tian was also a Man of Steel, and he was also praised by others back on Earth Star. As an expert of his own world, he naturally had his own pride. Even if he was now trapped in a shallow pool and defeated by

others, he would not lose this pride in his heart. As long as he was given some time, these people would not be his match. All of the mercenaries who were gloating over Lingtian's misfortune suddenly felt a tug in their hearts. If they were in Lingtian's shoes, would they have done what Lingtian had done? They had been bullied by others too, so when these newcomers were bullied, they just gloated. It had already become a kind of sickness! They felt that it was natural for newcomers to be bullied by these bosses. That was why no one had stood up to resist! If there was a sudden resistance, they would feel that they were going against the rules and not following the survival rules of their mercenary base. It formed a kind of slave nature. "Hehe, you still have two proud bones. I'll tear them down today." The middle-aged man sneered, and the muscles on his body bulged like small mountains. "Boss, I feel like you're losing your dignity by arguing with this weakling!" A weak-looking mercenary consoled him in a low voice. He was once a newbie who had been bullied, but he suddenly felt that this person in front of him was somewhat different. He took the risk of being seriously injured to say that! As expected. The next second! An extremely powerful fist whistled through the air toward him, and he closed his eyes in despair. "I like to argue with this kind of weakling. If you're not convinced, then take the beating for him!" The middle-aged man's powerful fist landed on the skinny mercenary's chest. In an instant, he was sent flying for more than ten meters before he stopped. Everyone kept quiet out of fear and did not dare to say another word, afraid that they would end up like this weak mercenary. Puchi! The weak mercenary spurted out a mouthful of blood, and his face instantly turned abnormally pale. "It's your turn now!" The middle-aged man's eyes were ferocious, and his aura was like that of a ferocious beast. The other mercenaries closed their eyes, not daring to look at Ling Tian's fate. "Charlie Kuro, aren't you afraid of being punished by the mercenary base?" "You're killing innocent people!" The weak mercenary who was severely injured suddenly shouted. He didn't know what gave him so much courage. He hadn't had the courage to resist for so many years, but this thought broke out in an instant. All the mercenaries were sweating for him! If he were to anger the person in front of him, even if he died, he would have no way to redress his grievances. "Open your dog eyes and look clearly. I'll kill him, and you'll see if I'll be punished?" Charlie Kuro waved his fist towards Ling Tian's head, about to smash it down. Ling Tian stared at the fist that was getting closer and closer to him, and he could still feel the killing intent and the sound of the wind. Only those who had gone through countless trials and tribulations would have this kind of killing intent. At this very moment! Other than those who were gloating over his misfortune, no one else could step forward to help him. Ling Tian felt that he was definitely going to die here, and no one could save him, unless ... However, those were all just his imagination. Even Zhou Hao had no chance of winning against Charlie Kuro. At most, both sides would suffer, and even Zhou Hao would be killed. Feeling the immense pressure from the punch, Ling Tian closed his eyes in despair. Even if he became a cripple, he would not be a burden to Zhou Hao and the others. This was because the three of them had come here to do something very important. "I'll give you one more chance!" Charlie Kuro's cold voice sounded above Ling Tian's head. Just like what the others said, he didn't like to challenge people who didn't have the ability to challenge him. Seeing that Ling Tian wasn't willing to give up, he lost interest. He liked the kind of people who were unyielding and carried on to the end.

## Chapter 847

*Chapter 847: You're not bad*

"You want me to apologize to you? no way!" Ling Tian had a stubborn temper. Even if he was in danger, he would not throw away his pride in order to live well. A man should live with an indomitable spirit. "What's there to be happy about in life, and what's there to fear in death?" Ling Tian immediately closed his eyes and ignored Charlie Kuro. Since he wanted to put on a one-man show, he would let him do so slowly. It was clearly his fault, but he still wanted people to apologize. He would never give such a person a chance! "Alright, I'll fulfill your wish!" Charlie Kuro's fist mercilessly smashed towards Ling Tian's head. The pain he had expected did not come. He only felt a fist wind stop a few centimeters above his head. After a minute, Ling Tian opened his eyes to see what had happened. He saw that Zhou Hao had rushed to his side and caught the punch as if it was very easy. "Brother, you're up!" Zhou Hao could feel that Ling Tian's aura was extremely weak, as though he had suffered a great injury. If he had arrived a minute later, he would have suffered irreversible damage. Zhou Hao's eyes were filled with anger, and they were as cold as the frosty Lake in the depths of the nine Serenities, causing one to shiver. Ji yaoyue quickly helped Ling Tian up and stood at the side. She had just been bullied by others, but she didn't expect Ling Tian to be in danger as well. Her eyes turned red. She didn't know why these people kept looking for trouble with them. Was it because they had just arrived and didn't have any power? Just thinking about it made him feel sad! "You're the one who went too far and almost took my brother's life?" Zhou Hao suppressed the anger in his heart like an angry lion. Even though Charlie Kuro was powerful, he was still a little afraid of Zhou Hao's move. No one had ever dared to take his fist with their bare hands, and they were so fast that no one could figure it out. Only the people of the Harvard family could do it. His expression changed unpredictably! What he didn't see was that Zhou Hao's palm was trembling slightly. He had received a lot of damage from the punch. These aliens were very powerful. If not for the fact that he was busy saving Ling Tian's life, Zhou Hao would not have done such a thing. "You're very strong. There's no one like you in the training base. You must be new here." Although he was asking, his tone was certain. If a person with unbelievable speed appeared here, the news would definitely spread throughout the entire base. The only explanation was that he had just arrived here, and no one had discovered his talent. "Yes, so what?" Zhou Hao was on the verge of exploding. If it wasn't for the fact that he still had a shred of rationality left, he would have attacked without a care. Even if these people were racist, there was no need to kill them all! The other mercenaries widened their eyes in disbelief. It was like a dream. He thought that they were still asleep, but after rubbing his eyes, he realized that everything that had

happened was the truth. "You guys don't know yet, right? this ruthless man just took care of the little young master of the Harvard family ..." The mercenaries who had just rushed over to watch the show saw Zhou Hao again, and it was as if they had seen a ghost. They thought that he had run into a ghost and had not come out. He looked around and realized that Zhou Hao had appeared here again. "What did you say? is this real or fake?" "That's right. The young master of the Harvard family isn't someone that can be easily shaken." These people obviously didn't believe the words of the mercenary who had just arrived. These people were all existences that they did not dare to provoke. How could they be dealt with by an unknown person? "It's fine if you don't believe me, but I'll stay far away from this ruthless man when I see him in the future!" The mercenary who had just arrived turned and ran after saying that. What he was most afraid of was that the bosses would fight and affect his subordinates. All the mercenaries watched the show skeptically. It had been a long time since anyone dared to challenge the authority of these bosses. The people of the Harvard family were indeed powerful, but they were fast and unpredictable. In terms of true strength, Charlie Kuro was the strongest. He was the strongest among the second-rank factions. This was because the bosses of the first-tier group had never made a move in front of others. He had no idea how strong they were. Even the members of the first-Rank Group were all outstanding. They could only watch from a distance and not from a close distance. "Since you've accepted this matter, then you'll have to suffer on his behalf!" Charlie Kuro felt a strong fighting spirit from Zhou Hao. It was not easy to meet a worthy opponent. He could feel that Zhou Hao's strength was much weaker than his. "Alright then, let's see who will win." Zhou Hao had already lost his usual rationality. These people were challenging their limits again and again! He had to use these famous people as an example to suppress those who were ready to make a move. Even if both sides suffered heavy losses this time, no one would dare to provoke them easily in the future. "Hiss!" All the mercenaries felt as if they had seen a monster, and they all gasped. He had never seen such a crazy person. He even shamelessly said such words. The words "who will win the deer" were all said by those with similar strength. They could all see that the difference between the two of them was a Little Big, at least three levels. "Young man, I admire your courage, but I will not show any mercy." Charlie Kuro had a simple and honest smile on his face, but there was no warmth in his eyes. Every time he fought, his opponent would be confused by this smile on his face. Only those who knew him well would know that every time he showed such a smile, he would not show mercy. Moreover, he had already felt a strong threat. He threw a punch at Zhou Hao with 80% of his strength, and the sound of the wind was heard. It had been a long time since they had seen Charlie Kuro make a move. Everyone held their breath in fear, as if this punch would land on their bodies at any moment. Not to mention fighting him, even the spectators felt the pressure. Many of the timid mercenaries closed their eyes, not daring to watch the next scene. The bloody scene that was about to happen would make them tremble in fear. Previously, he had seen Charlie Kuro turn a person into a mist of blood with a single punch, leaving a pile of minced meat on the ground. This time was no exception. Every time he attacked, he had to see blood!

## Chapter 848

### *Chapter 848: Surprising*

Bang! When everyone heard the sound, they thought that Zhou Hao had been knocked to the ground. Before they could open their eyes to look, they were so shocked that they almost sat on the ground. What did they see? The one lying on the ground was not Zhou Hao, but Charlie Kuro, whom they thought would win. No one saw Charlie Kuro's fist smashing towards Zhou Hao. It was only an afterimage. He wanted to stop, but it was too late to pounce forward. Zhou Hao had somehow appeared behind him and gave him another kick, which was why he was now on the ground. It was extremely humiliating to fall down like this! "Boss, are you okay?" His underlings quickly ran over to help him up. He glared at Zhou Hao, feeling as if he was talking about an unfair victory. There was no face to face battle at all. Zhou Hao stood aside nonchalantly. It was not luck, it was also a part of his strength. He had spatial magic, so he could easily control spatial power. There were very few people who could be faster than him. "You ..." The underling mercenary's face was filled with anger. Even so, it couldn't change the fact that their boss had been thrown flat on his face. The only way was to get back at him. As he spoke, he aimed his leg at Zhou Hao and kicked him mercilessly. Zhou Hao didn't put this mercenary in his eyes. Since he was not as strong as he was, he would let him experience the consequences. Zhou Hao disappeared from his spot in an instant. Only the sound of wind breaking could be heard in the air. A fist had arrived in front of the mercenary, and before he could react, he was punched to the ground. Puchi! In an instant, he spat out a mouthful of blood and his face turned pale, just like the weak mercenary from before. He had to be careful when facing Charlie Kuro. These people who were on par with him were simply like scum. "Good, you're not bad. I'll remember you!" Judging from Zhou Hao's two moves, Charlie Kuro knew that it would be difficult for him to win. The worst result would be a lose-lose situation for both sides. He didn't dare to make this bet. Because he had too many enemies, once he was injured, others would take advantage of the situation. "Let's go, you little brat. We'll meet again." Charlie Kuro helped his underlings up from the ground and turned around to leave with a few people. Everything that had happened here was the shame of his life. All he wanted to do now was to leave this place as soon as possible. All the mercenaries looked at each other. They didn't know why things had developed to this point. They thought that this person who didn't know the immensity of heaven and earth was dead for sure, but they didn't expect that there would be a ray of light at the end of the tunnel, and someone actually succeeded in challenging these bosses. Other than shock in his eyes, there were other expressions that flashed past. "You will never resist, and they will take advantage of you. They will even make you live without dignity." "Everyone who can make it here is a well-known figure. No one is a coward!" "If you want freedom and pride, you must be strong and arrogant ..." Zhou Hao looked at these people, his eyes no longer as cold as before, and could not help but say a few more words. It was far from enough to resist this kind of power with only a few people. Only

by uniting would their strength be greater. However, these numb people standing on the side were the targets of all the unity. Hearing Zhou Hao's words, the eyes of the mercenaries in the corner flashed with a trace of spirit. They had also thought of resisting, but they did not have a strong leader. "Let's go back first and talk!" In the end, he felt that this matter could be put on hold for a while. He wanted to plant a seed of resistance in the hearts of these mercenaries. After some time, it would let them grow into a towering tree. Ling Tian's injuries seemed to be getting worse! All the mercenaries watched as the two culprits left. They did not stop them, nor did they send them off. Zhou Hao's words had made them fall into deep thought. They had thought that they were already numb to it. They did not expect to see someone resist, and it even caused a ripple in their hearts. Since when were they also this kind of high-spirited youths! She didn't know how much time had passed, but she had slowly forgotten the frivolousness of her youth. "Yao Yue, take your points and Exchange them for some medicine. I'll bring Ling Tian back to rest!" Zhou Hao was halfway there when he suddenly recalled this matter. Ji yaoyue's eyes were still red. No matter how strong she was, she was still a woman. He took the points that Zhou Hao had given him and hurried to the place where he could exchange for medicine. "Put me down, I'll walk on my own ..." After resting for a period of time, Ling Tian had also recovered quite a bit of his strength. Furthermore, he could feel that Zhou Hao had also suffered quite a few injuries from the two consecutive battles. Although he had never experienced a life-and-death battle, he had always fought with these people in a battle of wits and courage. Previously, Zhou Hao had forcefully received Charlie Kuro's punch, so his internal organs must have been injured. "Puchi!" Zhou Hao wanted to say something, but he suddenly spat out a mouthful of blood. He had been holding back from attacking the mercenary. These were all his tactics. He couldn't let the other party see his weakness! Zhou Hao knew that if the other party were to find out that he was only strong on the outside, the consequences would be unimaginable. "Are you alright, Zhou Hao? you have to hold on!" Now, the two seriously injured people were supporting each other, afraid that the mercenaries would come out and accidentally see the two of them in a sorry state. "Don't worry, it'll be fine. Come on up, I'll carry you back ..." Zhou Hao gritted his teeth and forced himself to be alert. He pressed Ling Tian down on his back and walked towards his own place with large strides. Ling Tian felt extremely uncomfortable in his heart. In order to not let others suspect that they were already heavily injured, Zhou Hao had to add on to his injuries. He swore that if he was given more time, he would definitely make these people pay with their blood. When the other mercenaries saw Zhou Hao carry Ling Tian back to his residence, they felt that Zhou Hao was a ruthless man. He was able to take care of two bosses in a single day. And he wasn't even injured! They felt that it was unbelievable, but it was a fact that really existed. What no one knew was that Zhou Hao had fainted the moment he arrived at his residence. Even if Charlot Kuro had only used 80% of his strength, it was still fatal to them. It was only a little higher, but it could play a critical role in a life-and-death situation. "Zhou Hao, you have to hold on. Ji yaoyue will be back with the medicine soon!" "Don't worry, I'll definitely make them pay you back double for the injuries you've suffered this time!" Ling Tian had already lost his usual rationality, and he was as impulsive as a young boy who had just come out. Zhou Hao was injured because he tried to save him, and he could not repay this kindness. Every minute and every second

was torture to Ling Tian, and there were a few times when he wanted to rush out to see if Ji yaoyue had recovered the medicine.

## Chapter 849

*Chapter 849:-encountering a Tiger on the road*

Ling Tian's heart was filled with anxiety, and coupled with the fact that he had yet to recover from his injuries, the moment he stood up, he immediately fell to the ground in a daze. At this very moment! He hated himself for not being strong enough, and even caused Zhou Hao to be seriously injured like him. Zhou Hao was lying on the bed, breathing very unsteadily. He had been fighting for the past few days, and these probationary mercenaries were indeed extraordinary. Zhou Hao was also seriously injured. Although it was not fatal, he could not take it. However, the thing that Ling Tian was worried about still happened. Ji yaoyue had just walked out of the medicine exchange shop when she bumped into the people from the Harvard family who had a conflict with her earlier! He turned around and left, not willing to waste any more time with these people. Right now, Ling Tian was still waiting for these medicines to save his life, and he couldn't delay Ling Tian's treatment time just for a moment of joy. "Isn't she our boss's little lover?" "That's right. Could it be that they knew that our boss was injured, so they came here to deliver medicine?" These mercenaries' eyes were filled with an abnormal expression! He stepped forward and tried to grab Ji yaoyue's hand. They had seen clearly that Ji yaoyue had mixed a lot of medicine for injuries. It was because of this woman that Harvey had suffered such a serious injury, so it was not too much to take the medicine back from her. Before this, they didn't go to the training room with Harvard. When they heard that their boss was being bullied, they felt very unfair. He only wanted revenge! Now that they had met Ji yaoyue, they would definitely not let go of this great opportunity. They were used to following around with Harvard, and they didn't expect their boss to be dying. "Get lost, I don't have that much time to mess around with you shits!" "If you don't move, I won't show you any mercy." Ji yaoyue was anxious and did not have a good temper. I wonder how Ling Tian is doing? He was still listening to these people's nonsense. The anger in his heart couldn't help but rush up and teach these people a good lesson. However, time didn't allow it! "Oh, you're a natural-born little chili!" "Boss said that she's a rose. It seems that she really has a lot of thorns on her body." "You seriously injured our boss. Do you think you can easily pass this trial?" Not only were these people mercenaries from the mercenary base, but they were also sent by the Harvard family to protect Harvard. Harvey had suffered such a serious injury in front of their eyes, and there was no way he could explain it to his family when he returned. The only thing he could do was to find a scapegoat. Moreover, he heard that their young master was beaten up by this woman in front of him. There was no visible damage on the surface! However, as soon as he moved, he would

scream loudly, as if his bones had been broken. He didn't know who was so smart. Slowly, he learned from Harvard that it was this woman who had been ruthless. They looked at this devastatingly beautiful woman who had not shown any mercy at all. Their young master simply liked Ji yaoyue. They had been following Harvard all year round, and their hearts had been twisted beyond recognition. No matter what you do, it's an honor to others. Even if you raise your hand and give a slap, it's your ancestor's smoke. "What do you guys want?" Ji yaoyue knew that today's matter wouldn't end so easily. However, he was busy sending the medicine back. Everyone knew that Ling Tian was heavily injured. After all, there were countless people who knew that Ling Tian had provoked Charlie nine sons. As he spoke, he looked around at the escape route. If he really couldn't do it, the only thing he could do was to 'run'. He had never been so terrified before! This time, for Ling Tian's sake, she had no choice but to be a deserter. In Ji yaoyue's heart, a life was much higher than her so-called pride. "I don't have time to waste with you guys today. I'll remember this. Just you wait!" As Ji yaoyue said this, she fled toward another path of retreat at the fastest speed possible. The mercenaries were instantly stunned! He wondered what had happened. It was said that the woman in front of him was very tough. No matter how strong the opponent was, she would not retreat. As a mercenary, being a deserter was a very shameful thing. By the time he came back to his senses, Ji yaoyue had already disappeared. Their faces were filled with resentment, and they had an indescribable feeling in their hearts. They had come here to exchange for medicine, but had an idea at the last minute when they saw Ji yaoyue. "The monk can run but the temple can't. Send the medicine back to young master first!" The mercenary leader's face was full of hatred. He had heard the whole story from other people, and every time he thought of the screams of Harvey lying in bed, he felt like his heart was being stabbed by something. The mercenaries didn't chase after him, but quickly finished their business. Ji yaoyue delivered the medicine to the place where the three of them were staying at the fastest speed she had ever done. He really didn't feel good! She had never done such a thing before. Even when her life was in danger, she did not take a step back. "How's Lingtian?" "It's all because of those bastards. Otherwise, I would have come back earlier!" Ji yaoyue grumbled non-stop as she walked into the dilapidated house. Sooner or later, he would personally send these people to see Buddha. While Ling Tian was unconscious, he heard the sound of Ji yaoyue returning and forced himself to look at the door. His eyes were already unfocused. If it wasn't for his strong will, he would have already fainted. "Lingtian, what's wrong?" Seeing that Ling Tian was about to faint at any moment, Ji yaoyue rushed over to support him. In an instant, she saw Zhou Hao lying on the bed, his condition unknown. Ji yaoyue felt as if she had been struck by lightning! Who could tell him what had happened? Before he left, Zhou Hao was still full of life. How did he get so badly injured in such a short time? Fortunately, the medicine at the training base was very good. No matter how serious the injury was, as long as there was medicine, it could be cured without leaving any lingering effects. "What's wrong with you guys?" Ji yaoyue said with a sobbing tone. She couldn't think too much about it now. Fortunately, she had exchanged for an extra set of medicine. He originally wanted to keep it on him in case he needed it. It seemed that he had made the right decision. A person with a plan would never be at a disadvantage. "Give the medicine to Zhou Hao first, I'm fine!" Ling Tian said this sentence before he fainted. In his heart, Zhou Hao's life was more important!

With tears in her eyes, Ji yaoyue told them to take the medicine without a second word. He sat down and looked at the two of them lying on the bed in a daze. He recalled the hardships that the three of them had gone through on the way. People of their age were still sitting in front of the TV and watching TV, living a comfortable college life. However, they had to face different dangers every day.

## Chapter 850

*Chapter 850:-looking for him*

To Ji yaoyue's relief, their breathing had gradually stabilized, unlike before. At this very moment! He was extremely glad that he had deserted before, or else Zhou Hao's injuries would have been even worse than Ling Tian 's. As he slowly recalled, he suddenly recalled that Zhou Hao had received a punch from Charlie Kuro. It was possible that he had already been seriously injured at that time, but he had forcefully concealed it for their safety. "What a big fool. He didn't even let others know that he was injured." Ji yaoyue was like a puppet, mumbling to herself in front of the bed. His two companions were seriously injured at the same time, so the only thing they could do now was to stay and take care of them. Increasing their strength was so that they could quickly take root here, as if the lives of their teammates were not that important. As a girl, she took care of people in every possible way. Even if he was usually carefree and didn't know what gentleness was. .... After an unknown period of time, Ji yaoyue heard a loud call from outside in her daze. She didn't know who was sick enough to disturb her dreams. Taking care of two people, he fell asleep unknowingly. "There's no need to be polite with him, just smash this broken house!" "How much money do you have? this belongs to the base. No matter how broken it is, we won't allow anyone to damage it." "What are you afraid of? after smashing it, we'll just deal with these newbies." "Then why don't we set it on fire!" The few mercenaries kept coming up with all kinds of bad ideas. They had been here for some time, but they had not seen the three of them move. Everyone in the base was saying that the three newcomers were all tough characters. They wanted to see how strong they were. Previously, Ji yaoyue had been a disgraceful deserter in their hands. "Could these people have run away?" "It's not the first time, after all. " The mercenaries laughed out loud as they spoke, looking funny when they thought of how Ji yaoyue had rubbed oil on her feet. Ji yaoyue took a look and realized that the other party had come looking for her. Now, it was no longer as urgent as before. Since the other party had already come to his door, how could he not accept? He would let them experience what it meant to be a devil. Since they wanted to follow others and act like tyrants, they had to be prepared to pay the price. Previously, if he had been a little impulsive, he would have lost the lives of two of his teammates. These people all deserved to die. The hatred in Ji yaoyue's heart would destroy the world in an instant. Even though they had been keeping a low profile ever

since they came here and did not provoke these people easily, they were still bullied in the end. "Run your sister, this old lady only took a short nap!" "Hmph, you still dare to come looking for me?" Ji yaoyue watched as these people stood outside the house in an instant. They were people who would do what they said. If they were to set the house on fire by accident, the consequences would be unimaginable. He wasn't afraid of the punishment from the base, but he was afraid that the two unconscious people on the bed would be in danger. It was only a matter of time before the two of them woke up. Since he had come to find them, he would have a good spar with them. Facing those bosses who were much weaker than them, these mercenaries were not afraid even if they were a little stronger. He could use it for practice! If other people knew what Ji yaoyue was thinking, they might go crazy. Only a person like her would think of using someone who was stronger than her to practice. She was simply courting death. "Be good and go back to kneel and apologize to our young master. Also, make him a bed warmer!" "Why don't we ..." Seeing that Ji yaoyue didn't run away, these mercenaries were shocked and disdainful as they spoke in a charitable tone. To have Ji yaoyue serve their young master, Harvard, was a blessing that she had accumulated over several lifetimes. Right now, Harvard was in a state of unconsciousness. When he woke up, he gritted his teeth in hatred, wishing he could rush out and take revenge on that cruel woman. When she was unconscious, she was filled with all sorts of fear. Ji yaoyue had already become an irreversible wound in his heart. He was afraid that he would fall into her hands and be tortured again. That was why his brothers had thought of such a method to capture Ji yaoyue and torture her. "What else can we do?" "I was in a hurry just now. Do you really think I'm afraid of you punks?" "Hmph, what a joke!" Ji yaoyue's haughty manner stunned the mercenaries. This was different from what they had imagined! They had thought that Ji yaoyue would kneel down and beg for mercy after saying those words and ask to take good care of the Harvard family. After all, the Harvard family was not a family that anyone could offend. Unexpectedly, Ji yaoyue's temper was even worse than theirs. She was really a woman who was not afraid of anything. Then, don't blame them for being merciless. "Since it's like this, do it!" The leading mercenary slapped Ji yaoyue's face as he said that. No one had ever surpassed the speed of the Harvard family. Even though they had heard that Zhou Hao had defeated the young master by luck, they had always thought that it was because he had thrown the game. The leading mercenary's speed was at its maximum. Ji yaoyue's lips curled into a disdainful smile. In terms of speed, Zhou Hao was the ancestor of these people, and they were already used to Zhou Hao's abnormal speed. In Ji yaoyue's eyes, the mercenaries' speed was as slow as a movie. "Wow, hafledi's speed has increased again! I can only see an afterimage!" "His speed has almost caught up with the young master!" "We're so envious!" The other mercenaries had red hearts in their eyes. This speed made them feel proud. Even in the eyes of those experts, this speed was already considered pretty good. Seeing Ji yaoyue standing there in a daze, everyone smiled sarcastically. They couldn't bear to see this Beauty's blood splatter on the spot. Especially when hafleid, who was the one who did it, had a smug look on his face. Their family had never failed before, and their speed was unparalleled in the world. Even the real masters would be afraid of them. When his palm landed on Ji yaoyue's body, his expression changed drastically before he could even feel happy. Only then did he realize that the person standing in the same place was not the real

person, but just an afterimage. “How is that possible?” How could a woman’s speed be comparable to theirs? The fact that he couldn’t catch the other party could only mean that the other party’s speed was faster than his. His strength was even weaker than his by a few points! “What’s impossible? confidence is a good thing. Don’t be too narcissistic!” Ji yaoyue was already behind him. It was like a ghost, and no one could figure out its trajectory. She reached out her fair hand and smacked haffledi on the back.
