

# The Luckiest man in the world CHAPTER 391-400

One is the ocean-going lavie in the capital, the second is the hilltop villa on Hong Kong Island, and the third is the Dan Palace in the magic capital.

At this time, in the hilltop villa on Hong Kong Island.

Many people gathered together, and their faces were full of sorrow.

They... are mostly from the Tang family.

Some people say that Li Chaoren is the richest person on Hong Kong Island.

In fact, this statement is not accurate. At best, Li Chaoren can only be regarded as the richest person on Hong Kong Island.

Secretly, there is another rich man, that is Tang Mingyuan.

Tang Mingyuan is very low-key.

However, he has no less power and funds than Li Chaoren.

Today, this old man with endless wealth has suddenly fallen ill! The situation is very crisis.

"I don't know what's going on."

"I hope the old man is okay."

"Hey."

.....

In the hall, the sounds of discussions and sighs were endless.

"Tatata!"

At this time, there was a rush of footsteps outside.

Two men strode in.

After seeing them, everyone present respectfully cried out, "Hello, Master Zhou."

"I have seen Mr. Zhou."

This old man was Zhou Guotao, the elder of the Zhou family in the capital.

The middle-aged man next to him is Zhou Shihong, the second son of the Zhou family.

Elder Zhou didn't pay attention to the greetings from everyone, and asked straightforwardly: "How is Lao Tang's health?"

A man named Tang Hua, wearing a white shirt, sighed and said: "After 2 o'clock in the morning, he became seriously ill and he never woke up again. The doctor is still trying to rescue him."

Elder Zhou stared at the ward in front of him like this, and didn't say much.

However, his whole person is very worried.

Otherwise, in his capacity, he would not travel all the way to Hong Kong Island deliberately.

After about half an hour, the wards opened slowly.

The three doctors walked out tiredly.

The people waiting in the hall hurriedly gathered around.

Tang Hua asked anxiously: "How is the old man?"

The three doctors looked at each other, but all were afraid to speak.

Tang Hua said again: "Say it!"

The doctor standing in the middle finally said: "My father's situation...is terrible. You must be mentally prepared at any time."

As soon as this statement was made, there was a wailing sound at the scene.

"Master..."

"Do not!"

Father Zhou Guotao's old eyes are also slightly red.

Someone shouted: "There must be other ways, there must be more!"

"Yes!"

"I have hired a famous American doctor~ ~ when he comes to Hong Kong Island, he will definitely be able to save the father."

.....

As a result, Tang Mingyuan was very kind to the Tang family, and they were reluctant to bear it.

Secondly, to the Tang family, Tang Mingyuan was just a needle of Dinghai. If he were to be lost, the entire Tang family might face a terrible crisis.

Zhou Guotao didn't have so many ideas.

He was really reluctant to leave this old friend.

See a doctor?

Zhou Guotao's eyes moved slightly.

After a while...

Zhou Guotao finally took out his mobile phone and found Omi's name.

He first opened his mouth and shouted: "Be quiet, I'll contact the genius doctor to see if he has time to come over!"

Because the person who said this was Zhou Guotao, the elder of the Zhou family.

Since he said to find a genius doctor.

Then it must be a very amazing doctor!

Perhaps, the other party might really save the old man!

Thinking of this, everyone looked forward to Zhou Guotao with extremely expectant eyes.

And Zhou Guotao finally made a call.

After a while, the phone was connected, and Omi's clear voice came from inside.

"Master Zhou, why did you think about calling me today?"

Zhou Guotao didn't have any unnecessary nonsense, and said: "Omi, don't you know if you have time to come to Hong Kong Island to rescue someone?"

Omi said weirdly: "Go to Hong Kong Island?"

Zhou Guotao said: "I know, this request is a bit embarrassing."

"But, I can't help it."

"He is a very good old friend of mine. In addition, the reason why Hong Kong Island was able to return smoothly in the first place was also due to him."

"I really don't want him to leave like this."

Omi said, "Master, you have misunderstood. I'll come over now, where are you guys?"

Omi is a person who must repay his kindness, and Zhou Guotao has helped him several times.

Now that Zhou Guotao has something to ask for, Omi will naturally not refuse.

What's more, the person to be saved also has credit to China!

Zhou Guotao could not help showing a touch of joy when he heard this.

Omi is willing to come over!

Old Tang is saved!

To know.....

Zhou Guotao himself was rescued by Omi.

Even, not only was he saved, but Omi's other problems were also cured.

Over the past few months, he even felt that his whole person was several years younger.

Otherwise, even if the relationship between Zhou Guotao and Tang Mingyuan is good, it is impossible for him to travel all the way because he is seriously ill.

Zhou Guotao can say... he has personally experienced Omi's magical medical skills.

In addition, Zhou Guotao was one of the few people in China who knew of Omi's other identities.

The leader of the 10th team of the Dragon Group, solved several mathematical problems, saved the life of Qin Weiming's grandson, and invented an earthquake predictor.

All of this shows that Omi is very good.

It is precisely because of this that Zhou Guotao would speak so politely to Omi.

Zhou Guotao hurriedly said, "I'll let someone order a ticket for you, and then I will pick you up at the airport."

Omi said, "No, I'm on Hong Kong Island. If you tell me the location, I can just come over directly."

Zhou Guotao was stunned for a moment.

Soon, he was overjoyed and said: "Great! We are in a villa on the top of the mountain!"

In fact, when Omi agreed to come, Zhou Guotao still had some worries in his heart.

Of course, he didn't doubt Omi's medical skills.

But he was worried that Tang Mingyuan was already dead when Omi arrived.

After all, Jiangbei is still a certain distance from Hong Kong Island.

However, Zhou Guotao did not expect Omi to be on Hong Kong Island.

This is definitely good news, great news!

After hanging up the phone, Omi said to Ling Juu: "A friend is seriously ill, I need to go and see..."

Ling Rou hurriedly said, "Then you go quickly."

Then, she hesitated again: "Can I go there together?"

Because Ling Rou knows that Omiqi is a woman.

What if this friend knew another woman?

Therefore, Ling Rou seemed a little cautious.

Omi smiled and said, "Of course!"

Then, he called the driver of the Peninsula Hotel.

After a while, the Rolls-Royce Phantom stopped in front of him smoothly.

Omi put all the big and small bags he had bought in the trunk.

Then, said to the driver: "1 Hilltop Villa."

The driver was stunned.

Many ordinary people just take the hilltop villa as a landscape, stand in the distance and take a few glances, and exude a moment of admiration.

However, the driver knew that the people living in the villa on the top of the mountain were all great people.

Especially Villa No. 1 is the residence of the Tang family, one of the two superpowers on Hong Kong Island.

Now, where is this guest going?

The driver repeated: "1 Hilltop Villa?"

"Yes." Omi said.

After the driver got Omi's affirmation, he couldn't help being more respectful to him.

The Rolls-Royce Phantom started slowly, like a boat in the water, very smoothly.

About half an hour later, a very elegant villa on the top of the mountain appeared in front.

At this moment, two physically strong security guards strode over and asked vigilantly: "Excuse me, who are you? Is there anything going on here?"

If it is a security guard in another place, seeing the other person walking out of the Rolls-Royce Phantom, he will definitely be very polite, even, it can be said that he is trying his best to please.

However, in Hilltop Villa No. 1, Rolls-Royce Phantom is nothing at all.

Security guards will only be wary of each other before confirming their identity.

Just as Omi was about to answer, a large group of people came not far away.

The leader is Zhou Guotao, the old man of the Zhou family.

"Omi, I didn't expect you to come here so soon. Old Tang can be saved now!" Zhou Guotao said happily.

Everyone in the Tang family who stood behind heard the words, and was slightly stunned.

Because they could easily understand from Zhou Guotao's words that this young man was the genius doctor in Zhou Guotao's mouth.

Such a young genius doctor?

This is also Zhou Guotao's recommendation. If another person recommends it, everyone in the Tang family will definitely yell at the other person to mess around.

Zhou Guotao ignored that much, and said directly: "Omi, time is urgent, so I'm not polite, let's go in quickly."

Omi said: "Okay."

Soon, everyone came to the hall.

Omi said to Ling Juu: "I will go first to see the patient. You and Mr. Zhou will wait outside for a while."

Ling Rou nodded and said: "Okay."

A tall and thin middle-aged man named Tang Kai was about to walk into the ward when he saw Omi, he couldn't help but said, "Mr. Lin, we also have some doctors here. Do you need them to follow up and help?"

While speaking, he pointed to the three doctors next to him.

Although ~ ~ Omi is the genius doctor called by Zhou Guotao, the elder of the Zhou family.

He also knew that Zhou Guotao would never harm his father.

However, Omi is too young.

He was worried that Omi would go in and treat the old man, but he would make the old man even more dangerous.

If a doctor followed up, obviously, the risk would be much reduced.

Why doesn't Omi understand his thoughts?

Calmly said: "No, I treat the disease, and don't like others to be around. I'm alone, that's enough."

Tang Kai seemed to want to say something more, but was stopped by Tang Hua, the contemporary Patriarch of the Tang family.

Then, Tang Hua bent down slightly and said in an imploring tone: "Mr. Lin, my father is pleased to you."

His tone was very sincere, Omi nodded slightly and said, "Don't worry."

After speaking, under the gaze of everyone in the hall, he strolled towards the ward.

Crack!”

With a soft noise, the door of the ward was firmly shut.

but.....

The people in the hall were still staring at the door closely, as if in this way they could see the situation in the ward clearly through the door.

.....

This ward is about 100 square meters and is extremely spacious.

There was a smell of potion in the air.

On the soft big bed lay an old man with a thin, sallow face.

Obviously, he is Tang Mingyuan.

Tang Mingyuan was wearing an oxygen mask on his nose, and the electrocardiogram beside him was slowly fluctuating.

All of it showed that Tang Mingyuan’s situation was very bad.

Omi observed in silence for a while, then put his finger on Tang Mingyuan’s skinny wrist.

About a minute later, Omi retracted his finger.

Muttered: “With normal treatment, it will take at least two months to get better.”

You know, Omi has the experience of Medicine King Sun Simiao.

Even so, it will take two months to get better. It is not an exaggeration to say that Tang Mingyuan is dying.

Omi said again: “That’s too much trouble, so let’s use medical water.”

After that, Omi directly spent 10 million yuan to purchase a bottle of medical water from the system.

Then, he took off Tang Mingyuan’s oxygen mask and poured medical water into his mouth.

After medical treatment...

It turned out that the ECG, which was still very faintly fluctuating, began to increase and increase in amplitude.

Then, there was a touch of blood on Tang Mingyuan's sallow face.

Immediately afterwards, the motionless body twitched slightly.

Finally, Tang Mingyuan slowly opened his slightly cloudy eyes.

He looked at the ceiling first.

Then, his gaze fell on Omi.

"Are you?" Tang Mingyuan asked in a hoarse voice.

"My name is Omi, and the old man of the Zhou family asked me to save you." Omi said.

"Lao Zhou is really interested, thank you for saving me." Tang Mingyuan said in a radiant manner.

"You're welcome, the people outside should be waiting anxiously, I'll let them in first." Omi said.

When the words fell, he turned around and opened the door of the room.

"Crack!"

Seeing that the door was opened, everyone couldn't help looking into the ward.

Zhou Guotao asked: "How is Lao Tang?"

Omi said: "It's okay, I'm already awake, you can go in and see him."

never mind?

Already awake?

In fact, it took only a few minutes since Omi entered the ward until now...

Can a seriously ill person be cured in just a few minutes?

How can this be? !

The faces of many people present were full of suspicion.

Then, walked slowly inside.

When they saw Tang Mingyuan who was lying on the bed, his complexion improved, and he was sober, they all became extremely excited.

Woke up!

Really woke up!

“Father, it’s great for you to wake up!”

“Very good!”

“Master...”

.....

Tang Hua hurriedly stepped forward and said, “Dad, do you feel uncomfortable in any way?”

Tang Mingyuan shook his head and said, “I feel pretty good.”

Clear thoughts, steady and powerful voice!

Tang Kai said to the doctor next to him: “Hurry up and check my father’s physical condition.”

The three doctors responded, and stepped forward to listen to the sound, take the pulse, look at the pupils, check the tongue coating...

Soon, their eyes widened, and their faces were full of incredible color.

Tang Kai asked anxiously, “How is the old man? Talk to you!”

Only then did the bald doctor react and squatted: “The condition... is in good condition! But, most... it’s best to do a more detailed examination...”

With the doctor’s affirmation, everyone in the Tang family became more happy.

At the same time, everyone looked at Omi’s gaze, becoming more surprised.

Tang Mingyuan said, “Lao Zhou, you rushed over from the capital specially for my old bones. It really makes me feel bad.”

Zhou Guotao said, “What are you doing so politely among us?”

“That’s right...” Tang Mingyuan nodded.

The crowd did not stay in the ward for a long time.

As a result, the doctor also needed to conduct further examinations on Tang Mingyuan.

Secondly, Tang Mingyuan just woke up and needed a rest.

That night.....

Omi, Ling Rou, Zhou Guotao and others, at the invitation of the Tang family, lived in the villa on the top of the mountain.

It's not like the Peninsula Hotel in the middle of the city, which is extremely noisy.

The hilltop villa is located on the top of a secluded hill, and you can see the dazzling stars when you look up.

In a blink of an eye, it was the next day.

When Omi and Ling Rou went downstairs, the two old men, Tang Mingyuan and Zhou Guotao, were sitting in the yard, chatting funny things, and laughed from time to time.

After seeing Omi, Tang Mingyuan asked with concern: "Is you still used to sleeping?"

Omi said, "The air is fresh, the scenery is good, and it's very comfortable. The old man is very good at choosing a place."

"Really? Since you like it, there is another one on the opposite mountain, so I will give it to you." Tang Mingyuan said.

Get it... directly give a hilltop villa!

You know, the price of a hilltop villa is several billion yuan!

Even, there is still a price but no market!

This is not something you can buy if you have money.

Omi waved his hand and said, "Forget it, I rarely come to Hong Kong Island."

"I rarely come, I will come! It's better than putting it in my hands and staying empty." Tang Mingyuan said.

Zhou Guotao next to him smiled and said, " Omi, just accept it. It's just a villa. It doesn't matter to Old Tang or to you."

When Omi heard this, he didn't refuse it anymore.

Because it was really comfortable to fall asleep yesterday.

In addition, Ling Rou seems to like it very much.

"Okay, then it's better for me to respect my fate." Omi said.

Suddenly, the atmosphere on the scene became more relaxed.

"Tatata!"

Tang Hua walked over slowly with a graceful figure who looked very dignified and beautiful.

Tang Mingyuan said: "Tang Hua, you came just right, and I will be anxious to transfer Villa 6 to Omi later."

"Okay." Tang Hua said.

Although, Villa No. 6 is very valuable.

However, compared with Tang Mingyuan's fate, it is completely insignificant.

You know, Tang Mingyuan's inspection report has come out.

His body fully recovered.

Even ~ ~ the body value is better than before the illness!

These... are all Omi's reasons!

Therefore, Tang Hua did not hesitate.

"Are you Sister Ni Min?" Ling Rou, who had not spoken while standing next to her, suddenly exclaimed in surprise.

The dignified and beautiful woman smiled and said, "It's me."

Ling Rou heard this and said excitedly: "It turned out to be Sister Ni Min, I am your fan! I like your "Spring" and "Four Seasons" albums the most!"

This sentence is definitely from Ling Rou's heart.

Even, a large part of the reason why she wanted to become a singer in the bar was because she was influenced by Ni Min.

She is eager to sing wantonly in a grand concert like Ni Min, and win the applause of countless people.

Later, Ni Min suddenly withdrew from the entertainment circle, and there were rumors that she joined the rich.

It now appears that he was married into the Tang family.

Ling Rou instantly turned into Xiao Mimei, and her words became excited.

Then, she was a little embarrassed and said, "Sister Ni Min, can you sign me?"

Ni Min smiled and said, "Of course it can."

Ling Rou said that she wanted to find a pen and paper, but found that she didn't bring it at all.

Zhou Guotao, who was sitting next to him, said, "I have paper and pen here."

While speaking, he handed out a Parker pen and small notebook.

Ling Juu said, "Thank you, old man."

"Wow!"

Ni Min picked up the pen and signed quickly, handwriting is free and easy!

Ling Rou held the signature book tightly in her hand like a baby.

Omi smiled and said, "Have you fulfilled your wish now?"

Ling Rou nodded vigorously and said, "Hmm!"

With this episode of fan chasing stars.

The atmosphere on site is more relaxed.

"Did you deliberately bring Ling Rou to Hong Kong Island this time?" Zhou Guotao asked.

Omi said: "Ling and Sister Ni Min are just as singers. This time she was nominated for the Golden Melody Award and the Golden Melody Best Newcomer Award. I came here with her."

Zhou Guotao showed a daze.

Ni Min next to him, his eyes lit up slightly, and said, "I was still thinking that the name Ling Rou is a bit familiar. It turns out that you are the singer of "Galaxy"."

"The song "Star River" is light-paced and very nice. I have been listening to this song a while ago."

When Ling Rou heard this, she became even more happy.

After all, being able to make your idol like your work is definitely something to be very proud of.

"Thank you Ni Min for the compliment. This song was composed by Omi, and he sings much better than me." Ling Judo said.

"Really?" Ni Min immediately became interested.

She likes music very much.

If Omi was not the one who saved Tang Mingyuan, and Tang Mingyuan was beside him.

She even... wanted to ask Omi to sing it to her.

Omi smiled and said, "Ling Rou, you are too humble, you already sing very well."

Ni Min said: "It is indeed very good, at least, in my opinion, in the past two years, there has been no better singing than you."

When Ling Rou heard this, her pretty face immediately burst into laughter: "Really?"

"Yes." Ni Min said.

Tang Hua next to him smiled and said: "Ni Min rarely praises people like this. It seems that this year's Golden Melody Award and Newcomer Award are all yours."

"By the way, Ling Rou, you may not know yet, Ni Min is the guest of honor this year."

Ni Min glanced at Tang Hua calmly.

In fact, the Golden Melody Awards did invite Ni Min to be the guest of honor this year.

In other words, not just this year, but almost every year.

However, every year Ni Min directly refused.

This year is no exception.

However, since Tang Hua said so, then Ling Rou's award and Ni Min's award-giving guests are naturally not a problem.

Ni Min nodded and said, "Yes."

"Great!" Ling Rou said happily.

After eating lunch, Ling and Omi left the mountain villa.

Because, the evening is the Golden Melody Awards ceremony.

She needs to get makeup early and make some preparations.

When they arrived at the Peninsula Hotel, Li Fei, the agent, was already in a hurry.

After seeing Ling Rou, she hurriedly asked the makeup artist to do her styling.

This is a few hours.

However, I have to say that the effect is also very good.

Ling Rou's black hair was curled up high, and she wore a dazzling diamond necklace under her snow-white neck. She was wearing a white glass dress and a pair of exquisite crystal shoes.

The whole thing gives people a feeling of a fairy falling from the sky, it is so dazzling!

"You are so beautiful." Omi couldn't help but said.

Ling Rou's words were as sweet as if she had eaten honey.

This year's Golden Melody Awards ceremony was chosen to be held in Time Hotel.

At this time, a fiery red carpet was spread in front of the entrance of Times Hotel.

A woman with a hot body and a gray dress slowly stepped onto the carpet.

The reporters who were stopped in the distance yelled one after another.

"It's Dai Jiexi!"

"What a nice view!"

Then, the reporters picked up the camera and pressed the shutter continuously, flashing continuously.

Dai Jiexi really enjoyed this feeling of being watched and being photographed, and deliberately slowed down her steps.

“laugh!”

At this time, a Rolls-Royce Phantom stopped in front of the Times Hotel.

Then Ling Rou walked down slowly.

In an instant, the reporters uttered bursts of uncontrollable screams.

“Oh my God! This is too beautiful, isn’t it?”

“This is definitely the most beautiful woman I have ever seen!”

“Woman? No! This is a fairy!”

“Take a picture!”

Suddenly, the shots that originally focused on Dai Jiexi fell on Ling Rou.

“Crack, click!”

The flash will illuminate Ling Rou’s entire pretty face, as bright as a beautiful jade.

Ling Rou felt that it was too harsh, so she couldn’t help speeding up on the red carpet, and soon passed by Dai Jiexi.

Dai Jiexi’s face was slightly cold, but to outsiders, she kept smiling all the time.

And when she signed her name on the signature board and strolled to the backstage, the smile on her face disappeared instantly.

Instead, there is endless coolness.

Dai Jiexi directly fixed her gaze on Ling Rou, then walked quickly towards her and slammed into her.

“thump!”

Ling Rou accidentally fell to the ground.

Dai Jiexi said in an afterthought, “Sorry, I accidentally bumped into you. I’ll help you up.”

While talking, she stretched out her hand to pull Ling Rou.

However, only halfway through, Dai Jiexi deliberately let go of her hand.

“thump!”

Ling Rou fell to the ground again.

Dai Jiexi slowly bent over and said coldly in Ling Rou’s ear: “Next time, remember not to surpass the predecessors casually.”

Then, Dai Jiexi straightened up and said, “Oh, I am so weak that I can’t pull you up...”

While she was speaking, she shook her arm and looked a little weak.

I have to say that Dai Jiexi really has some acting skills.

This scene, even if it is seen, I am afraid it is difficult to say anything.

After falling twice in a row ~ ~ Ling Rou’s body was very painful, her aggrieved eyes were a little red, and crystal tears fell.

It took her a lot of effort to slowly get up from the ground.

“Tatata!”

At this time, Omi and Li Fei came over from a distance.

They are not nominated persons and are not allowed to walk on the red carpet.

However, as Ling Rou’s agent and boss, it is natural to come backstage.

Omi soon noticed that Ling Rou’s eyes were a little red, and asked, “Ling Rou, what’s the matter with you?”

The grievance in Ling Rou’s heart broke out again, and her whole person directly fell into Omi’s embrace, tears constantly rolling down like raindrops.

Omi’s heart ached, so he lightly patted Ling Rou’s shoulder and said, “It’s okay, it’s okay, I’m here...”

After he was comforted, Omi said again: “Ling Rou, what happened on earth? Did someone bully you?”

Ling Rou hugged Omi, feeling his warm and broad chest, very at ease.

So, I told the general story again.

Omi's entire face sank immediately, and a pair of eyes burst out with two cold glows, like a sharp blade, shooting towards Dai Jiexi who was not far away.

Dai Jiexi's heart trembled inexplicably, and she couldn't help taking two steps back.

but.....

This is just in vain.

Omi strode forward, raising his hand to take away Dai Jiexi's face covered with heavy makeup.

"Snapped!"

"Snapped!"

Two sounds like whiplashes rippling back and forth on the scene.

Two bright slap prints appeared on Dai Jiexi's face, and it gradually swelled up.

Omi said indifferently, "Go and apologize to Ling Rou."

These two slaps directly blinded Dai Jiexi.

Now after hearing what Omi said, she finally reacted and yelled: "You dare to hit me!"

When the words fell, she stretched out her palms like nine-yin white claws, and was about to grab Omi's face.

Omi sternly said: "It seems you didn't understand what I said!"

While speaking, he once again raised his hand to draw Dai Jiexi's face.

"Snapped!"

"Snapped!"

Come later!

Dai Jiexi's red and swollen face gradually developed in the direction of the pig's head, but tears involuntarily flowed down, looking at Omi, full of horror.

She was scared of being beaten!

"Tatata!"

At this time, a man in a white shirt walked over quickly.

He asked, "Jiexi, what's wrong with you?"

After seeing the person, Dai Jiexi seemed to have found a savior, and said in a panic: "Zheng Lei, you are finally here, he... Look at him, what he has beaten me into, you should give me revenge."

Zheng Lei is Dai Jiexi's agent, and like Omi and Li Fei, he cannot walk on the red carpet.

So, only come here now.

At this time, Zheng Lei saw Dai Jiexi's face, red and swollen like a pig's head, and his heart was very angry.

Because Dai Jiexi was able to become popular, a large part of the reason was to rely on her face.

Nowadays, being beaten like this by people definitely affects popularity.

Influencing popularity means that it affects his income.

Zheng Lei just started to shout.

"Tatata!"

At this time, there was another sound of footsteps not far away.

It is Wang Haohua, chairman of Xinmei Entertainment.

Although, the Golden Melody Award is a larger award.

However, generally speaking, a chairman like Wang Haohua would not come in person.

However, this time is different...

This time it's the boss's woman... Ling Rou was nominated for the first time, and maybe she will win the prize again.

In addition, he got news that the boss Omi had also come in person.

Then, Wang Haohua will naturally not be absent.

After seeing Omi and Ling Rou from a distance, he hurried over in three steps in two steps, bent over slightly, and respectfully said, "Mr. Lin is good, Ms. Ling is good."

Omi just glanced at him lightly, and didn't say much.

However, Zheng Lei, who was about to scold him, closed his mouth alive.

To know.....

New American Entertainment is the top three giants in the entertainment industry.

As a result, even Wang Haohua, chairman of Xinmei Entertainment, must be so respectful to the young man in front of him.

Then, the identity of this young man is worth thinking about.

Zheng Lei said: "It turned out to be Dong Wang, what happened just now, there should be some misunderstanding..."

After speaking, he took Dai Jiexi and prepared to leave.

Dai Jiexi was very upset in her heart.

However, she was not stupid either, she had to pouting her lips and following to leave.

Omi said abruptly, "I haven't apologized yet, who allowed you to go?"

Dai Jiexi felt uncomfortable. Hearing Omi's words like this, he saw that many people had gradually surrounded him.

She also got bolder and shouted: "I'll leave, if you have the ability, you continue to beat me!"

After speaking, Dai Jiexi continued to walk forward.

Omi stepped forward and raised his hand again.

"Snapped!"

"Snapped!"

Two slaps hit Dai Jiexi's face again.

Suddenly, a stream of bright red blood slowly flowed from the corner of her mouth.

Not only did Omi take a shot, but he was even more vigorous than before!

Dai Jiexi's face was completely filled with horror and disbelief.

With so many people standing around, she never thought that Omi would dare to beat herself.

Zheng Lei opened his mouth, wanting to say something.

However, seeing Omi's cold eyes, he held the words back into his stomach.

"Apologize, I don't want to say it again." Omi said indifferently.

Dai Jiexi's body trembled, her mouth seemed to be out of control, and she squatted: "Yes... I'm sorry..."

Omi said coldly: "It's not to me, I'm sorry to Ling Rou!"

Dai Jiexi said again: "I'm sorry..."

Then, ran forward as if fleeing.

See here...

The crowd onlookers also dispersed.

They understand that some things are not necessarily good if they know too much.

Omi gently embraced Ling Rou's waist and said, "Is it better now?"

"Yeah!" Ling Rou nodded vigorously, her heart sweet.

And Li Fei and Wang Haohua next to them, a look of worry flashed across their faces.

.....

In the dressing room.

Dai Jiexi put ice cubes on her red and swollen face and shouted, "I was beaten just now, what are you doing there? You don't let a fart, are you still a man after all!"

Zheng Lei looked for a reason and said: "I...I am also worried, the more you speak, the worse it will be for you..."

"Don't you see that even the chairman of Xinmei Entertainment, Wang Haohua... is so respectful to that young man? He is definitely a great man!"

In fact, this is only one reason.

The more important reason is that he is afraid.

He was frightened by Omi's tall figure and strong power.

What if you were beaten if you spoke up?

Dai Jiexi thinks what Zheng Lei said has some truth~ ~ But she still angrily said: "Then you can't just say nothing, just stand on the side!"

Zheng Lei said, "If I don't speak, I can completely paralyze him, making him feel that we are confessing. But we can make trouble for him afterwards!"

After a pause, Zheng Lei said again: "Jiexi, aren't you familiar with Sister Ni Min? I just got the news that this time the award-giving guest has changed to Sister Ni Min."

"She will come here later, and later, you just have to talk to Sister Ni Min, do you think Sister Ni Min will make them have good fruit?"

"No matter how big his background is, is it comparable to Sister Ni Min? Is it comparable to the Tang family?"

When Dai Jiexi heard this, a pair of eyes lit up immediately, and said, "Really? Sister Ni Min is the guest of honor?"

"That's still fake? I heard it from the chief director." Zheng Lei said.

"Okay! I will meet Sister Ni Min later, I see how arrogant he and the \*\*\*\* Lingrou!" Dai Jiexi grinned.

It looked like he had already seen the scene where Omi and Ling Rou were ravaged by himself.

What happened in the background was just a few whispered discussions in a small area.

After all, this matter involves the popular star Dai Jiexi and the mysterious young man...

Obviously, these two are not easy to mess with.

Everyone didn't dare to chew their tongues.

.....

Dressing room.

Ling Rou was sitting in front of the mirror, applying final touch-ups.

In fact, this party is too important.

“Crack!”

The door of the dressing room was slowly opened.

Dai Jiexi, whose entire face was still red and swollen, walked in and sneered: “I’m still applying makeup.”

Ling Rou stood up in a panic after seeing her.

Men are not allowed in the women’s dressing room.

Therefore, Omi is not around.

Dai Jiexi continued: “Don’t you think you can get any prizes? It’s ridiculous!”

“I tell you, in this life, you don’t want to win any prizes on this stage!”

She said these words very firmly.

Because Dai Jiexi knows very well how much influence the Tang family has in the Golden Melody Awards.

As long as you meet Ni Min later, talk about the matter.

Not to mention the Golden Melody Awards, the entire entertainment industry has no place for Lingrou!

“Ling Rou, are you ready?”

Li Fei’s crisp voice sounded outside, and while she was talking, she slowly pushed open the door of the dressing room.

When she saw Dai Jiexi, Li Fei’s expression changed, and she asked, “Ling Rou, are you okay? Would you like to call Mr. Lin over?”

When Dai Jiexi heard Mr. Lin’s three words, her face paled in fright, and she didn’t dare to stop at all, turning around and walking away quickly.

After coming to the backstage, it was only a sigh of relief.

At this time, a rush of footsteps sounded not far away.

Zheng Lei ran over quickly and shouted: “Jiexi, get ready, Sister Ni Min and Mr. Tang Hua Tang are coming over soon!”

As Zheng Lei’s voice fell.

A luxuriously dressed and refined lady, holding a suit and leather shoes, a middle-aged man with extraordinary momentum, slowly walked over.

They are not others, but Ni Min and Tang Hua!

coming!

It's really coming!

Dai Jiexi ignored Zheng Lei at all, so excited, she ran all the way and shouted, "Sister Ni Min!"

After Ni Min heard the sound, he turned and looked over.

Although, Ni Min and Dai Jiexi are cousins.

But, in fact, is a cousin who is very far away.

Even before Ni Min became a star, the two hadn't met each other.

After becoming a star, I have only seen it a few times.

Today, Dai Jiexi's face is still red and swollen.

Ni Min couldn't recognize it at all for a while.

Seeing Ni Min's doubts, Dai Jiexi spoke again, "Sister Ni Min, it's me, I'm my cousin Jiexi!"

She deliberately said the title of cousin, thus further closer the relationship between the two.

Sure enough, after Ni Min heard this, he immediately remembered and asked: "Jiexi, what's wrong with your face? Is it bullied?"

Dai Jiexi was overjoyed.

Ni Min really cares about himself.

Ling Rou, Omi, you will have something nice later!

Dai Jiexi deliberately sobbed a few times and said, "I...I accidentally bumped into a newcomer when I was backstage."

"As a result, she felt that I was deliberate, and then let her boyfriend hit me..."

At this point, Dai Jiexi squeezed out a few tears.

Then, he hurriedly said: "I saw that the chairman of Xinmei Entertainment was very friendly to her boyfriend... Anyway, the matter has passed, she can just calm down."

I have to say that Dai Jiexi really has some acting skills.

Just a few words, both true and false, easily disguised himself as a sheep-like little pitiful.

At the same time, Ling and Omi turned into a brutal and vicious wolf.

Ni Min hates this kind of unreasonable and bullying people.

Because, when she was a singer, she also experienced this kind of pitiful and helpless time.

Immediately empathetic said: "I can't just leave it like this!"

Tang Hua followed: "Jiexi, don't be afraid, we will call the shots for you."

Dai Jiexi bit her lip lightly, and she seemed to be struggling fiercely in her heart.

In fact?

She was dancing with joy in her heart.

Ni Min and Tang Hua have all spoken!

Omi, Ling Rou, soon... soon, you're done!

At this time, Omi, Ling Rou, Li Fei and Wang Haohua just came out.

Dai Jiexi's expression moved slightly, making a look of horror, pointing at Omi and Ling Juu and said, "They...they are them!"

Tang Hua and Ni Min looked in the direction that Dai Jiexi pointed.

next moment.....

The expressions of the two of them all changed.

Suddenly, they looked at Dai Jiexi's gaze, and there was no trace of pity anymore, and it turned directly into disgust, deep disgust!

To know.....

Omi was the one who saved the life of the Tang family.

In addition, they also learned something about Omi from Mr. Zhou Guotao, solved several unanswered questions in mathematics, and invented earthquake predictors, insulin rehabilitation medicines, super batteries, and so on.

This is definitely a great scientist, a national treasure class figure!

Could such a character be a tyrannical and reckless person?

What a joke!

Is this playing like a monkey?

When Tang Hua and Ni Min saw Omi, Omi also noticed them.

His face is always calm as usual.

The faces of Wang Haohua and Li Fei who were next to them turned pale.

They know Ni Min and Tang Hua.

Before, they also heard that Dai Jiexi seemed to have something to do with Ni Min.

Now, seeing that Dai Jiexi is really with Ni Min, I can't help but panic.

To know.....

Ni Min's husband is the current owner of the Tang family!

The Tang family is one of the two strongest forces on Hong Kong Island!

That's it!

This is over!

Omi ignored the panic and walked towards the location of Ni Min and Tang Hua.

After all, they are also acquaintances.

.....

When Dai Jiexi saw Omi walking towards him, she even sneered in her heart.

I was just thinking about how to teach you.

Unexpectedly, it was delivered directly to the door.

Tang Hua asked with a sullen face, "What you just said, is the pair of young men and women on the left?"

Dai Jiexi's heart was filled with happiness, and he didn't notice the changes in Tang Hua and Ni Min at all.

She looked terrified and trembled: "Yes, yes... they are here, no, don't..."

"Snapped!"

At this time ~ ~ Tang Hua suddenly raised his hand and slapped it directly on Dai Jiexi's already extremely red and swollen face.

He couldn't bear it, a woman coaxed herself like a stupid pig.

This slap directly slapped Dai Jiexi.

She covered her face, her face full of disbelief.

this.....

this.....

what happened?

Why was he beaten again?

Moreover, it seems to be... or Tang Hua?

When Dai Jiexi was dazed, Omi and Ling Rou had already walked over.

Tang Hua said with a slightly flattering tone, "Mr. Lin, Ms. Ling...Hello."

PS: " and " " .

quiet.

The whole scene was silent.

Dai Jiexi, Zheng Lei, and Li Fei and Wang Haohua walking behind were all stunned.

Tang Hua took the initiative to say hello to Omi and Ling Rou.

Moreover, with a hint of flattering tone.

Please?

The current Patriarch of the Tang family pleases Omi and Ling Rou?

this.....

this.....

What's going on? !

Omichao, Tang Hua and Ni Min nodded, and said, "Are you here?"

After a pause, he pointed to Dai Jiexi and said, "Do you know this sinister woman?"

Dai Jiexi's heart jumped, and she hurriedly said, "Sister Ni Min, Mr. Tang, don't listen to his nonsense..."

"Nonsense?" Omi said, "Just because Ling Rou was on the red carpet and walked in front of you, you deliberately knocked Ling Rou to the ground, and then pretended to help Ling Rou in an unintentional appearance. Threatening in the ear..."

"Sister Ni Min, I am your cousin, you have to believe me!" Dai Jiexi said in a panic.

While talking, she was about to step forward and hug Ni Min's arm.

"Snapped!"

Ni Min pushed Dai Jiexi away and said coldly, "Do I look like a fool?"

"In addition, I warn you, from now on, don't slap my cousin or bluff and deceive outside in the name of being familiar with me!"

"Otherwise, at your own risk!"

Ni Min hates this kind of scheming and wantonly use of people.

As for the cousin relationship, it was directly thrown aside by Ni Min.

Because, she and Dai Jiexi are just barely considered cousins.

In fact, they are not relatives at all.

Even before Ni Min became a big star, the two never met.

Ni Min knew very well that Dai Jiexi just wanted to use her own power.

However, she didn't care too much.

For Ni Min, helping Dai Jiexi was just a trivial matter.

It's okay to help someone who can barely be considered an acquaintance.

However, now, this person who borrowed his own power is using himself to deal with the savior and national treasure of the old man...

Simply \*\*\*\* it!

Damn it!

After Ni Min's voice fell, Dai Jiexi's heart suddenly stagnated, desperate!

That's it!

She knew that she was completely finished!

Compared to Dai Jiexi's despair.

Li Fei and Wang Haohua were full of joy and excitement.

Even Tang Hua and Ni Min and his wife have to please their boss like this!

it is good!

That's great!

Omi, Ling Rou, Tang Hua, and Ni Min ignored several people with different thoughts.

They walked to the front and talked, very relaxed.

As Omi and others walked away, Dai Jiexi trembled: "Zheng Lei, I...what should we do now?"

Zheng Lei annoyed: "You ask me, who am I asking!"

After speaking, he turned straight and left.

As an agent, Zheng Lei knows more about the entertainment industry than Dai Jiexi, and at the same time, he also knows more about the influence of the Tang family.

Dai Jiexi's singing and acting skills are average, but because of his relationship with the Tang family.

Therefore, they can obtain a lot of resources and become a popular star.

Today, she has lost the Tang family, and even offended the Tang family.

So how did she get these things before, and how she will soon lose them!

“Zheng Lei, Zheng Lei!”

Dai Jiexi yelled a few times and chased him.

A careless one fell to the ground and came a dog to eat sh\*t.

This scene was all seen in the eyes of the onlookers not far away. They whispered and took out their mobile phones to send out messages.

.....

“Jingle Bell!”

After the brisk music sounded, two well-dressed hosts walked onto the stage.

They talk about the development, influence, significance and so on of music.

Their voices were impassioned, but at the same time witty, they couldn't help attracting cheers from the crowd.

In addition, some singing and dancing performances interspersed in the middle made the atmosphere of the whole scene extremely warm.

At this time, the male host wearing a black suit said: “Next, we enter the most exciting awards session!”

In the audience, the nominated singers were in a stern figure, extremely nervous and expectant.

some of.....

Including Ling Rou, but also Dai Jiexi, whose entire face is still red and swollen.

Omi gently patted the back of Ling Rou's white jade hand, and said, “Don't worry, it's okay!”

“Hmm!” Ling Rou nodded vigorously.

The male host shouted: “It is...Ling Rou!”

In the stereo, exciting music immediately rang.

At the same time, everyone applauded warmly.

Ling Rou's happy whole person was stunned.

Awarded!

I really won the Golden Melody Newcomer Award!

Omi smiled and said, "Fool, what are you doing in a daze? Come on stage."

After Ling Rou heard the sound, she recovered, nodded vigorously and walked towards the stage.

"call out!"

On a dazzling stage, the lights fell on Ling Rou.

Ling Rou was already very beautiful, but today she has been carefully dressed up.

Now, under the shining of the stage lights, the whole person has become crystal clear, plump, slender, and beautiful, making everyone obsessed.

The male host couldn't help but said: "Oh my god, it's so beautiful!"

The hostess next to him said: "This is definitely the most beautiful woman I have ever seen!"

After a pause, the hostess said again: "Of course, Ling Rou is not only beautiful, her songs are even more beautiful!"

"I will never forget the grand concert in Jiangbei a few months ago. I will never forget the elegant "Sword Dance" and the long and crisp "Human World" ...Of course, there is also the most beautiful " Galaxy"!"

"Although only a few months have passed this year, I can say that Ling Rou is the most popular singer this year!"

"Congratulations, Ling Rou!"

After the hostess's voice fell, there was a warm applause on the scene again.

At this time, the male host said: "Next, please invite our queen singer Ni Min to present the award to the Golden Melody Newcomer Award winner Ling Rou!"

"f\*ck!"

The applause at the scene became more enthusiastic.

Some people applauded because of Ni Min's identity.

And more people are because of Ni Min's songs.

## The Luckiest man in the world CHAPTER 396-400

Although, Ni Min hasn't released a new song for several years.

However, the songs she previously released are still sung by many people and liked by many people.

It can be said that most of the people present are Ni Min fans.

Ni Min came to the stage and handed out a shiny trophy.

Ling Rou happily said, "Thank you, Sister Ni Min."

What else is more urgent and happy than your idol awarding yourself a trophy?

Ni Min smiled and said, "This is what you deserve."

The two were standing together, whispering, with smiles on their faces.

"Crack, click!"

Countless flashes, all gathered on the two of them, made them shine brightly.

The hostess handed out the microphone and said, "Sister Ni Min, do you have anything to say to Ling Rou?"

Ni Min said: "A few months ago, when I accidentally heard songs like "Galaxy", "Three Lives", "Human World", etc., I was immediately attracted by Ling Rou's singing."

"At that time, I was sighing that there has not been a good singer with such superb singing skills and singing skills in the music industry for a long time!"

"Now, seeing her win the Golden Melody Newcomer Award, I have no surprises, because she deserves it!"

"f\*ck!"

At the scene, there was warm applause again.

They have never heard Ni Min praise a singer so much.

Those who like Ni Min also started to like Ling Rou!

And those who liked Ling Rou in the first place became more proud of her!

Ling Rou excitedly said, "Thank you, Sister Ni Min."

When Ni Min and Ling Rou were about to walk down the stage, the two hosts stopped them.

"Sister Ni Min, Ling Rou, please wait a moment." The male host smiled.

The hostess followed: "Yes, you have to delay you a little more time."

The hostess cleared her throat and said: "Next, we will present today's most important award! The person who won the Golden Melody Award is...Ling Rou's "Star River"!"

"f\*ck!"

One person won two awards.

Moreover, they are the two most important awards.

There was a warm applause on the scene again.

The male host said: "Sister Ni Min, give Ling Rou an award."

Ni Min picked up another transparent trophy and handed it to Ling Rou, and took the microphone and said, "I just want to say that it is reasonable to win any prize with Ling Rou's singing!"

"In addition, these two awards are definitely not Ling Rou's end, but her starting point!"

"Thank you Sister Ni Min." Ling Rou said in a trembling voice.

Holding two trophies in her hands, a pair of faintly shining starlight eyes fell directly on Omi.

She understood that the reason why she was able to win these awards was all due to Omi.

.....

In the auditorium.

Dai Jiexi, who was blushing and swollen, looked at Ling Rou on the stage and shed tears in despair.

These awards were originally their own!

Now, no more, everything is gone!

“Ding!”

At this time, Dai Jiexi’s phone shook slightly.

It turned out that a piece of news came out.

“Dai Jiexi’s love affair is exposed, and he is dating three people at the same time! 》

Photos of Dai Jiexi entering the hotel arm in arm, and intimacy actions, appeared on the Internet.

“Patter!”

See here...

Dai Jiexi’s phone fell directly to the ground.

That’s it!

I’m really over!

.....

After the Golden Melody Awards, Omi and Ling Rou continued to stay on Hong Kong Island for a few days before returning to Jiangbei by special plane.

The next day, the sky was clear.

Omi slowly opened his eyes.

He glanced at the phone, and a text message appeared on the screen early as usual.

“0:00: China Merchants Bank remits 7,542,900 yuan.”

Then, he turned his attention to the sign-in system.

“Sign in!”

【 Ding! Congratulations, you have obtained 20% of the shares of Yadi Auto. 】

“Yadi Auto 20% shares?” Omi couldn’t help but move slightly.

A few years ago, Yadi Auto could only be regarded as a relatively low-end car company.

However, with the vigorous development of new energy vehicles in recent years, Yadi Motors has gradually become the domestic and even the world's top automotive company, with a market value of nearly 800 billion yuan!

20% of the shares, which is about 150 billion yuan!

Omi nodded lightly and murmured, "Today's sign-in is not bad."

He yawned and slowly got up from the bed.

After washing for a while, I ate a delicious breakfast leisurely.

He was at ease, but Wang Fugui, chairman of Yadi Auto, was uneasy.

Because, today Wang Fugui impressively discovered that Yadi Automobile had been acquired 20% of the shares!

To know.....

As the chairman and founder, he has only 24% of the shares.

As long as the other party buys some more, it can surpass itself!

At that time, will Yadi Auto still belong to itself?

Sitting on the soft boss chair, Wang Fugui sighed for a long time, "Omi, so young...Who is he?"

Wang Fugui turned up a pile of information, and after hesitating for a long time, he finally made a call based on the shareholder information.

"Toot!"

After a while, the call was connected.

Wang Fugui said in a slightly disturbed voice, "Excuse me, is it Mr. Omlin?"

.....

At this time, Omi had just finished breakfast, wiped the oil stains from the corners of his mouth, and said, "It's me, who are you?"

"Mr. Lin, hello, I am Wang Fugui, Chairman of Yadi Auto." Wang Fugui said.

"Oh, Dong Wang, hello." Omi said.

Omi has received many calls from the chairman of the board.

So, it was not too unexpected.

Wang Fugui said: "I learned that you have purchased 20% of our Yadi Auto. First of all, thank you very much for your trust in our Yadi Auto!"

"Thank you!"

"In addition, I will now give a simple statement on the future development direction of our Yadi Auto. If you have any suggestions or comments, you can tell me all. In the future, Yadi Auto will firmly develop battery new energy vehicles, and ..."

However, Omi didn't wait for him to finish, he said directly: "You don't need to tell me this. The reason why I bought your shares is because I trust you, you..."

When Omi said this, he suddenly got stuck.

Because, a clear reminder sounded in his mind.

【 Ding! Task: Watch a battery experiment, read "Electric Vehicle Power Battery System Safety Analysis", "Battery System Engineering", "Electric Vehicle Vehicle Technology Fundamentals", "Electric Vehicle Powertrain", "Car Battery Theory". Reward for speeding batteries, as well as their detailed research and development data, principles, etc., and their chemical level is improved. 】

When Wang Fugui on the phone heard the first half of Omi's words, he was so happy that he couldn't be himself.

Omi didn't listen to his talk about the development direction of Yadi Automobile ~ ~ just because he trusted himself.

That said, he will not intervene and manage the company!

This is definitely good news!

Because, in this case, Omi is no different from ordinary minority shareholders, just taking regular dividends.

Just when Wang Fugui was very happy, Omi said again: "Regarding the development of new energy vehicles, I will call you later."

After speaking, Omi hung up the phone directly.

Only Wang Fugui was holding his mobile phone, dumbfounded for a while.

what's the situation?

Believe in yourself?

So... do you have to intervene in the company's new energy development?

Wang Fugui sighed, got up and looked at the vast scenery outside the window, and muttered, "This is...what should I do?"

PS: !

Omi didn't know the thoughts of Wang Fugui, chairman of Yadi Auto.

at this time.....

Omi drove Cullinan to the long-awaited Jiangbei University.

He did not choose to go to the classroom, but went through the basketball court and went straight to the training building.

Although, Omi only came here once.

However, relying on his unforgettable ability, the entire training building can be said to be as familiar as going home.

Soon, Omi came to the door of the chemistry training room and slowly opened the door.

Professor Zhao Xueqin and Professor Li Rongfa are taking three doctoral students to study carefully.

After a long period of research, Zhao Xueqin's mouth became dry, so he turned around and picked up the thermos to drink a sip of wolfberry water.

next moment.....

Zhao Xueqin suddenly exclaimed with excitement, "Student Omi!"

This statement came out.

Li Rongfa and the three doctoral students all stopped their research, and Qi Qi set their eyes on Omi.

Omi couldn't help but coughed, and said, "This...Isn't it bothering you?"

Zhao Xueqin said, "No, no."

Li Rongfa immediately followed: "Why bother? You came here to guide the experiment, we are too happy to have time."

Zhao Xueqin said: "Yes!"

The words of the two are extremely sincere.

They still remember clearly that Omi came to the laboratory and strolled around.

Immediately after...

He wrote a paper "Principles and Applications of Super Batteries" and successfully published it in "Science"!

This paper changed the mobile phone industry.

At the same time, the world battery has taken a big step forward!

And what makes Zhao Xueqin and Li Rongfa more happy is...

Omi actually wrote their names on the second work!

It is precisely because of this.

Zhao Xueqin and Li Rongfa have recently become famous in school and even in the chemical industry as a whole!

This is a highlight moment they have never had in their lives!

Now, Omi is back in the laboratory.

If he invented something, or even wrote a paper...

Thinking of this, Zhao Xueqin and Li Rongfa felt excited.

Omi asked, "What are Professor Zhao and Professor Li researching recently?"

Zhao Xueqin hurriedly said: "The chemistry community agrees that your super battery, Lin, has made small batteries reach the limit of this century."

"Therefore, we have not recently studied small-sized batteries and changed them to batteries for new energy vehicles."

Li Rongfa immediately followed: "Yes, but because we only started this project, everything is only in its infancy."

The two of them rushed to answer.

It looked like it was rushing to answer.

After speaking...

Both of them looked at Omi with very expectant eyes.

They are looking forward to Omi giving them some guidance and help.

Doctors in the laboratory, have you ever seen two professors look like this?

It's almost like a conversation between a student and a teacher.

However, none of them have any different colors.

Because Omi is now recognized as the first person in chemical batteries!

Compared to everyone's expectations, Omi was full of weird colors.

I just have to do a new energy vehicle battery task.

As a result, they just happened to be studying new energy vehicle batteries?

this.....

This is also a coincidence!

After a while, Omi said, "Have you done any experiments?"

Zhao Xueqin said hurriedly: "We have done material experiments and high temperature experiments."

Li Rongfa added: "Next, we are also going to do different kinds of efficiency experiments, polymer experiments, etc."

Omi ignored Li Rongfa's words, as long as he has done experiments, that's fine!

Because, his task only needs to watch an experiment!

Omi said, "Then you can experiment with the materials and show it to me."

Zhao Xueqin and Li Rongfa said in unison: "Okay!"

"You quickly prepare experimental materials!" Zhao Xueqin turned to the doctors.

Li Rongfa said: "Everyone cheered up and took this experiment as a graduation assessment!"

"Yes!" the doctors shouted.

In fact, there is no need for the two to remind them like this.

The doctors also know that the opportunity is very rare.

After all, Omi is the first person in chemical batteries.

The big cow among the big cows!

Doing experiments in front of him, if you get a few points, it is definitely a very rare opportunity!

Soon, the doctors sorted several different materials in order, heating, compressing, electrolyzing and so on.

Only seeing these materials, they bloomed with different colors of light.

Immediately afterwards, a constantly twisting curve appeared on the computer screen.

After half an hour, the experiment slowly ended.

Li Rongfa looked forward to asking: "Student Lin, what kind of material do you think is most suitable?"

After he finished speaking, Zhao Xueqin and the doctors also looked forward to Omi.

Omi did not answer immediately, but instead focused on the task.

[Task: Watch a battery experiment (1/1), read "Safety Analysis of Electric Vehicle Power Battery System", "Battery System Engineering", "Electric Vehicle Technology Fundamentals", "Electric Vehicle Powertrain", "Automobiles" Battery Theory" (0/5). Reward for speeding batteries, as well as their detailed research and development data, principles, etc., and their chemical level is improved. ]

See here...

Omi's mouth twitched slightly.

The mission is half done!

Then, Omicai said, "I need to think about what material to choose."

After speaking, he turned around and left the laboratory.

Zhao Xueqin said, "Okay, goodbye, classmate Lin."

Li Rongfa also said, "Goodbye Lin."

The doctors followed: "Goodbye."

Omi didn't turn around, but waved his hand towards the back.

Soon, he came to the library.

As always, the library is still overcrowded.

Omi passed through the crowds, through the historical bookshelves, language bookshelves... and went straight to the battery and new energy bookshelves.

"Safety Analysis of Electric Vehicle Power Battery System", "Battery System Engineering" ...

Ordinary people may have to look for it slowly.

However, Omi looked at it at a glance, and easily found the books he needed one by one.

Then, Omi looked up and looked far away.

I saw...

A female student in a gray dress with her hair hanging naturally on her shoulders was sitting there reading a book seriously.

She... is exactly the Lu Ling that Omi often meets.

On the table next to Lu Ling, many books were piled up, indicating that there was someone in this position.

Omi didn't care, and strode over.

Lu Ling seemed to be aware of something and slowly raised her head.

When he saw that the person here was Omi, he frowned slightly because he was answering the problem, and he immediately stretched out and said happily: "Are you here? Sit down quickly."

Omi was not polite, and sat down directly.

Then, open the first "Safety Analysis of Electric Vehicle Power Battery System" ...

"Wow!"

Suddenly, there was a rush of flipping books.

In three minutes, a book with hundreds of pages was turned over.

Immediately afterwards, there was the second "Battery System Engineering"...

The third book "Electric Vehicle Technology Fundamentals" .....

Omi read all five books in just ten minutes.

At this time, a clear reminder sounded in Omi's mind.

【Ding! mission accomplished. Watch a battery experiment (1/1), read "Electric Vehicle Power Battery System Safety Analysis", "Battery System Engineering", "Electric Vehicle Vehicle Technology Fundamentals", "Electric Vehicle Powertrain", "Car Battery Theory" (5/5). Obtained over-speed battery, as well as its detailed research and development data, principles, etc., and the chemical level is improved. 】

【Ding! Upgraded professor of chemistry, bachelor of chemistry! 】

Suddenly, countless complicated chemical knowledge, as well as complicated battery structures, principles, etc., crazily flooded Omi's mind like a tide.

Omi recalled what the knowledge would bring, and the corner of his mouth slightly twitched, revealing a shallow smile.

Lu Ling next to him saw that Omi had finished reading all the books.

She couldn't help asking: "Omi, have you finished reading the book?"

Omi nodded and said, "Yes."

"You really don't know how to read quantum?" Lu Ling asked again.

Omi smiled and said, "That's just a lie."

Lu Ling said, "Okay."

After a pause, he asked: "You seem to be reading battery books again this time?"

"Yes, but this time it is a new energy battery for cars." Omi said.

Then, Omi pointed to the questions written in the notebook in front of Lu Ling, and asked: "Are these questions that I can't do?"

Speaking of these questions, Lu Ling couldn't help but nodded shyly.

Omi glanced at random, almost without any thought, and wrote quickly.

“Da da da!”

Only heard a burst of pen nib hitting the desktop, making a rapid sound.

Soon, a list of very detailed calculations appeared on the notebook.

After a while, Omi got up and said: “Let’s take a look.”

Although, Lu Ling had seen Omi quickly answer difficult questions many times.

But again, when he saw that he didn’t need any thinking, and he wrote an extremely detailed answer directly, he was still surprised.

After a while, she squatted and said, “Okay...Okay.”

Omi didn’t hear this voice.

Because, at this time, he has already walked out of the library and came to the parking lot.

Omi sat on Cullinan, stepped on the accelerator, and shot forward.

In just twenty minutes, he returned to Panlong Villa.

Then, Omi turned his attention to the system.

[Super battery, whether to extract it? ]

“Yes!”

At the next moment, a battery pack that resembled a desktop computer mainframe appeared in front of him.

Omi looked at it a little, and murmured, “Is this a super battery? It’s not big in size.”

Then, he lifted it up with both hands, and said: “About 20 kilograms, which is not too heavy.”

Then, Omi said to the black super smart watch on his wrist, “Xiao Bai.”

“Master, I am here.”

The super smart watch flickers slightly and emits a crisp sound.

“Help me apply for the patent for this super battery.” Omi pointed to the super battery in front of him.

“Okay, Master.” Xiaobai said.

When the words were over, the super smart watch burst out a red scanning line.

After a few minutes...

Xiaobai said: “Master, the global patent application has been completed.”

Immediately after...

Electronic patent documents appeared on the screen of the super smart watch.

Omi nodded with satisfaction, and said, “By the way, Xiaobai, can you write a paper about super battery?”

Every time I watch an experiment, I write a paper.

This has almost become a habit of Omi.

“Master, I have already written it.” Xiaobai said.

Xiaobai seemed to have anticipated that Omi would need such a paper.

Almost the moment it fell, an email popped up in Omi’s phone.

It is “Principle and Application of Super Battery”!

Even Xiaobai was still in the first position and wrote Omi’s name.

Li Rongfa and Zhao Xueqing are written in the second work.

Omi said with satisfaction: “Good job!”

“Last time I sent it to “Science”, this time... “Nature”!”

“Xiaobai, let the editor of Nature review it as soon as possible.”

Xiaobai said: “Yes, master!”

.....

It’s early morning in the United States.

In the house of “Nature” editor Esmond Bevin, there were sudden noises of various electrical appliances.

However, he was not afraid and annoyed.

Instead, the whole person became extremely excited, and he quickly turned on the computer.

Sure enough, an email appeared on the screen.

“Principle and Application of Super Battery”!

Esmond Bevan didn't read the content immediately, but flipped directly to the signature.

“One work, Omi of Jiangbei University!”

“Sure enough, it is him, haha! Great!”

After Esmond Bevan finished speaking, he looked at the content carefully from beginning to end.

As the content deepened, Esmond Bevan became more excited.

“New energy vehicles, this is a new energy vehicle!”

“If all the above data are accurate...”

“If it is accurate, it will completely overturn the entire automotive industry!”

Having said that, Esmond Bevan hurriedly took out his cell phone and dialed the number of the editor-in-chief.

Before long, the MIT Chemistry Laboratory began to light up.

Even in the early morning.

The gray-haired chemists also drove to the laboratory one after another, and couldn't wait to start complex experiments one by one.

.....

Omi didn't know this at all.

Originally, he wanted to go to school today.

After all, I haven't been to work for several days, but I happened to have a task.

Now, he has returned home.

He didn't bother to go to school anymore.

After arriving at school the next day, he realized that it was Saturday.

After Omi hesitated, he drove Cullinan to Yike City.

At this time ~ ~ Qiu Ziqian is like Huang Ling, and she is sitting on the sofa watching a movie.

When they saw Omi, the two pretty faces were filled with smiles, and they quickly stepped forward, holding Omi's arms one left and the other right.

Omi looked at them happy, as if infected, and also very happy.

Then, he took out his cell phone, transferred 10 million yuan to each of them, and said: "I've transferred some money to you to buy some clothes or something."

"Ding!"

Huang inspired the phone in his pocket to vibrate and picked it up habitually.

The next moment, she immediately opened her small mouth and said: "One...ten million!"

Qiu Ziqian was also surprised, and happily put her head on Omi.

Then, whispered in Omi's ear: "Actually, we have bought a lot of clothes, nurses, teachers, babysitters, white-collar workers, cats, dogs..."

PS: .

United States, MIT Chemistry Laboratory.

A person with gray hair, reading glasses, and full of wisdom chemical battery big cows quickly wrote reaction equations, and made noises from time to time.

In the end, they all focused on the computer screen.

One hour, two hours...

Gradually, pages of extremely complex graphics and calculations appeared on the screen.

Suddenly, there was a warm admiration on the scene.

"Oh, my God! The power can reach this level!"

"I can't believe my eyes!"

"If this kind of battery is manufactured and calculated in terms of energy consumption, the endurance of the new energy vehicle can reach... up to 2500 kilometers or more, my God!"

“Traditional cars will be completely eliminated!”

“The person who studied it is a genius, absolutely a genius!”

.....

The editorial department of “Nature” quickly received feedback from MIT.

The editors are very clear about what this study represents.

It is definitely a sensation in the world!

Therefore, the entire editorial department seized all the time to make a full-page supplement to the “Principles and Application of Super Battery”.

.....

Tongyong Automobile Group.

Chairman Aix slowly poured a cup of steaming coffee into his mouth.

“Gurulu!”

Aix enjoyed it very much: “It’s delicious.”

“Crack!”

At this time, the door of the chairman’s office was suddenly pushed open.

A white man walked in hastily.

Aix frowned slightly and said, “Jell, I have told you many times, no matter what happens, as long as the sky doesn’t fall, you must be calm!”

Jell took a deep breath and said, “Yes.”

Aix nodded in satisfaction and said: “Let’s talk, what happened?”

Jieer said: “Professor Mary Witt, Professor Justus, Brewer and other battery experts were invited by Nature to review a paper entitled “The Principle and Application of Super Battery”. “

“After their repeated verification, the data in this paper is completely correct.”

“This super battery is used in new energy vehicles and has a cruising range of more than 2500 kilometers.”

“Patter!”

Axe heard that the coffee cup in his hand fell directly to the ground.

"The sky has fallen!"

.....

The headquarters of Shuangtian Motors in the island country.

"Wow!"

"Wow!"

Chairman Taro Yamamoto stared at the report in front of him without blinking, and a layer of sweat gradually oozes from his forehead.

The next moment, he stood up abruptly.

"The endurance is 2500 kilometers, 2500 kilometers!"

"Bigga!"

.....

In fact, it's not just the automotive industry.

Petroleum, energy and other industries, when I saw this paper, they also stirred up waves with a single stone, which was completely shaken!

.....

As the initiator of this incident, Omi stayed in Yike City for two days at the weekend and lived a life of incomparable s\*x.

Monday morning.

After Omi ate the breakfast prepared by Qiu Ziqian and Huang Ling, he drove Cullinan to Jiangbei University.

"Student Omi!"

Omi just got out of the car.

Not far away, two extremely excited voices came.

Omi followed the voice and saw that it was Professor Li Rongfa and Zhao Xueqin.

They seem to have been waiting for Omi here, and when Omi appeared, they called out.

Omi said, "Professor Li, Professor Zhao, early!"

"Morning, early..." Li Rongfa and Zhao Xueqin said hurriedly.

Then, Li Rongfa said in a solemn and excited tone: "Student Omi, thank you."

Zhao Xueqin bent down slightly and said, "Thank you!"

While talking, they took out the latest "Nature" journal, and on the cover was the paper "Principles and Application of Super Battery".

See here...

Omi nodded clearly, and said indifferently, "Thank you? I saw your experiment. That's why you have this paper. The second work is what you deserve."

When Zhao Xueqin and Li Rongfa heard this, their hearts became more excited and grateful.

What made this paper after reading their experiment?

Their experiment that day was just a very basic new energy experiment.

The "Principles and Application of Super Battery" thesis directly shows the ultimate results of new energy far beyond the era.

If there is a relationship between the two, it is probably the relationship between the dust and the earth!

Zhao Xueqin and Li Rongfa had no doubt that Omi had already written the paper.

The reason why he came to the laboratory was to find a reason to take care of himself.

even.....

The original super battery paper, I am afraid it is a similar situation!

Thinking of this, Zhao Xueqin and Li Rongfa looked at Omi and became more excited and grateful.

They all bent over and said sincerely: " Omi, we all know, thank you!"

The corners of Omi's mouth twitched slightly.

all know?

But, judging by your appearance, it doesn't seem to be the way you know it.

Forget it, anyway, he is also telling the truth, whatever they think.

At this time, there was another excited shout behind him.

" Omi!"

Omi followed the voice to see that it was Feng Zhixiang, the director of the Academy of Sciences.

Feng Zhixiang's eyes were bloodshot, as if he hadn't slept all night.

In fact, Feng Zhixiang did not sleep all night.

Last night, he suddenly learned that Omi had published an article "The Principle and Application of Super Battery", and took the earliest flight directly to Jiangbei overnight.

Feng Zhixiang quickly ran towards Omi, and he almost fell to the ground without being accidentally tripped by the threshold.

However, he didn't care at all, and hurriedly said, " Omi, how far has your super battery research been? When will it be possible to produce it?"

Zhao Xueqin and Li Rongfa next to them couldn't help but \*\*\*\* their ears.

They are also very curious about this.

Omi yawned and said, "When? I have invented it."

"Invented?!" Feng Zhixiang directly widened his eyes and said hurriedly, "What are you saying is true?"

"Yes~ ~ Omidao.

"Good, good, hahaha! Great!" Feng Zhixiang yelled up to the sky.

No wonder, he would be like this.

To know.....

Since foreign countries developed automobiles decades earlier than China, all kinds of technologies and patents are in their hands.

If China wants to develop automobiles, it must find another way!

After careful study and discussion, Huaxia finally set its goal on electric new energy vehicles.

The super battery developed by Omi can be perfectly used in electric new energy vehicles, directly allowing Huaxia Motors to truly overtake in corners!

Zhao Xueqin and Li Rongfa next to them, listening to the conversation between the two, opened their mouths directly into an 'O' shape, completely stunned.

Feng Zhixiang laughed for a while.

He slowly came over and said, "Where is the super battery? Can you take me to see it?"

Omi glanced at the students coming and going, and said, "But, I'm going to class soon."

Feng Zhixiang said: "What's the use of class?"

Zhao Xueqin, who was next to him, couldn't help but said, "You don't need to go to class."

Li Rongfa also said, "Yes."

The corners of Omi's mouth twitched slightly.

One of your directors of the Academy of Sciences and professors from two schools said to a student that it's useless to take classes and don't need to take classes?

Are you sure there is nothing wrong?

Omi looked at them seriously and impatiently, and had to say: "Okay, then I'll take you over and have a look."

In my heart: It seems that I will skip class again today.

Zhao Xueqin and Li Rongfa hurriedly said, "Can we also go and watch?"

They are professors of chemistry, mainly studying chemical batteries.

For the super battery, naturally I am looking forward to it.

In their hearts, taking a look at the past is to witness a historic moment!

They don't want to miss it!

Feng Zhixiang frowned involuntarily.

He did not know Zhao Xueqin and Li Rongfa.

In addition, the super battery can be said to be related to the future of China New Energy Vehicles! Definitely cannot be easily approached!

Once the secret is leaked, it is definitely something that will be regretted.

Omi also understood Feng Zhixiang's thoughts and introduced: "This is Professor Zhao Xueqin and Professor Li Rongfa. They are the second work of the thesis "Principles and Application of Super Battery". In my invention of super battery, it gave me a lot of money. help."

In this sentence, Omi absolutely didn't mean to lie.

To know.....

If not they show the battery experiment.

Then, Omi could not complete the task at all.

In other words... there is no such thing as inventing super batteries and writing papers.

However, hearing this in the ears of Zhao Xueqin and Li Rongfa, it felt different.

Their old faces were flushed with shame.

Omi speaks for himself all the time.

Even, I want to give myself some credit completely.

"Actually, we didn't help Omi." Zhao Xueqin said.

"Yes." Li Rongfa said.

The second game has their names on it.

They are already very satisfied.

As for, I really give myself part of the credit.

That's a bit of a shame.

Feng Zhixiang heard Omi say this, so he nodded and said, "Since this is the case, let's go together."

Then, Omi opened the door of Cullinan and sat directly on it.

Feng Zhixiang, Zhao Xueqin and Li Rongfa also sat there.

Although, one of them is the chief director, and the other two are professors.

But, really never sat in Cullinan.

Most people, for the first time in a luxury car like Cullinan, will definitely be very curious.

But they don't have any curiosity.

They only have expectations in their hearts, their boundless expectations for super batteries!

"laugh!"

About 20 minutes later, Cullinan steadily stopped at Panlong Villa.

Omi pointed to the black cuboid randomly placed on the ground, and said, "That's it."

"This is the super battery?" Feng Zhixiang said in surprise, "only the size of a computer host..."

While speaking, he also bent over to mention it.

"Weight...approximately 20 kilograms."

Then Feng Zhixiang said: " Omi, if this super battery is used in a new energy vehicle, how many kilometers can it last?"

Omi said: "Regardless of electrical consumption, the vehicle will last for 3000 kilometers."

"3000 kilometers!" Feng Zhixiang, Zhao Xueqin and Li Rongfa shouted in horror together.

A battery the size of a computer host weighs only about 20 kilograms, allowing the vehicle to last 3000 kilometers!

What a terrible number this is? !

"Boom boom boom!"

The hearts of the three of them throbbed like a drum.

After a long time, Feng Zhixiang came to his senses and asked, " Omi, can I take this super battery back to study it?"

“Yes.” Omi said, “By the way, I am going to commercialize the battery, and I should cooperate with Yadi Automobile Company.”

Feng Zhixiang said solemnly: “ Omi, I thank you for Huaxia!”

In fact, Omi brought too much help to China.

Omi waved his hand and said, “It’s just a little gadget, don’t care so much.”

Gadgets?

The invention completely subverts the traditional automobile industry, and at the same time, enables China Motors to realize the super battery for overtaking in corners.

Just a little gadget?

Feng Zhixiang, Zhao Xueqin and Li Rongfa opened their mouths, some of them didn’t know what to say.

However, in Omi’s view, this may indeed be a gadget.

Because he has a system!

Feng Zhixiang made a call.

In about half an hour, a helicopter landed slowly.

Several soldiers walked down with their heads high.

The soldier in the front shouted: “Hello, Director Feng!”

Feng Zhixiang nodded, then, personally picked up the super battery and said: “That’s it, trouble you.”

The soldier said: “This is what we should do!”

The plane has arrived, and Feng Zhixiang’s heart has also reached the capital.

He first asked Omi if he wanted to go to the capital, but he was directly rejected.

However, Zhao Xueqin and Li Rongfa wanted to follow.

To know.....

This is a great opportunity to go to the Academy of Sciences to study super-energy batteries with many academicians and big cows.

Feng Zhixiang explained some confidentiality, which Zhao Xueqin and Li Rongfa all readily accepted.

“Wow!”

Following the roar of the helicopter, the group all left the Panlong Villa.

Omi was alone, lying on the soft sofa, his face was full of comfort.

Omi took out his mobile phone and swiped it at random for a while, and found that the news was all about super batteries.

For a while, he couldn't help feeling a little bored.

So Omi dialed the phone number of Yadi Group Chairman Wang Fugui.

.....

Yadi Group.

Yesterday, Wang Fugui had learned from the technical director that a new energy battery appeared in the latest edition of Nature, whose power far exceeded all current new energy batteries.

According to calculations, if the development is successful, the battery life of electric vehicles can reach more than 2500 kilometers!

What a terrifying number is this? !

For all the existing new energy batteries, it is no exaggeration to say that it is a dimensionality reduction blow!

After Wang Fugui learned the news ~~, he was not only unhappy.

On the contrary, he was very sad.

Because a large part of the Yadi Group's focus is on the research and development of new energy batteries.

Years of research has finally made Yadi Group have achieved great success and invented the blade battery that is now a world leader.

It is precisely because of this that Yadi Auto's sales can rise steadily.

In order to develop, many new energy vehicle companies directly choose to spend a lot of money to buy blade batteries.

Everything... Finally, it is developing towards the good side of Yadi Group.

And with the emergence of super batteries, perhaps, everything will soon come to nothing!

Chairman Wang Fugui, how can he not worry about it?

“Jingle Bell!”

At this time, Wang Fugui’s cell phone rang a brisk ring.

Wang Fugui sighed.

After a while, he slowly picked up the phone.

When he saw that the caller was Omi, his face didn’t change much.

some days ago.....

Wang Fugui is also very worried because Omi owns 20% of the shares of Yadi Group.

Now, this matter has been left behind for the time being.

Compared to shares, Super Battery makes him even more annoying.

After a while, Wang Fugui pressed the answer button.

“Mr. Lin, hello, is there anything wrong?” Wang Fugui said in a tired tone.

Omi said: “You should know the super battery, right?”

When Wang Fugui heard this, he couldn’t help getting more headaches.

Is this major shareholder going to attack the company because of the super battery matter?

This is really a wave of unrest, one wave after another!

Wang Fugui sighed again in his heart.

He cheered up and said: “Judging from the data, the super battery is indeed very remarkable, even, it can be said that it is epoch-making.”

“If it is used in new energy vehicles, it can reduce the dimensionality of all cars on the market today!”

“However, the super battery has not yet been invented.”

“All employees of the Yadi Group are actively preparing a response plan.”

“Mr. Lin, you can rest assured that our Yadi Group will be able to meet the troubles that will arise.”

Omiyan could not help showing a strange look on his face.

Response plan?

trouble?

Co-author...Wang Fugui didn't know that the paper on Super Battery was written by himself?

After a while, Omicai said, “The super battery has been invented.”

“Huh?” Wang Fugui stagnated slightly, and even his heart stopped for a while at this moment.

The invention of the super battery has appeared!

What should Yadi Auto do?

Wang Fugui hurriedly said, “Mr. Lin, did you get any news? Could you please tell me, where did you know it?”

After all, Omi is not an ordinary young man.

It is a super boss who can buy 20% of the shares of Yadi Group.

He knows some news, which is also normal!

Omi said: “The news? What news? I wrote the “Principles and Application of Super Battery” in Nature. I invented the super battery. You can visit Jiangbei. I will come to Super Battery and Yadi. Sign some contracts for group cooperation.”

“Patter!”

Wang Fugui's mobile phone fell to the ground, and there was a crisp sound.

Then, he hurriedly picked up the phone and 'hello' to the phone several times, but no one responded at all.

Only then found out that the phone had been hung up.

Wang Fugui couldn't help muttering: “He wrote “The Principle and Application of Super Battery” and invented the super battery...this, this...”

“Boom boom boom!”

At this time, there was a rapid knock on the door outside.

"Come in!" Wang Fugui said.

Several directors walked in hurriedly, holding a pile of documents.

They said as they walked, "We asked the technicians to re-simulate the data in "Principles and Application of Super Battery", and the data inside is still prepared correctly, Wang Dong..."

Wang Fugui didn't wait for them to finish, but interrupted directly: "Who is the author of "The Principle and Application of Super Battery"?"

The directors turned over the information in their hands and said, " Omi."

" Omi, Omi, hahahaha!" Wang Fugui looked up to the sky and laughed. He was extremely happy, and instantly wiped out the previous troubles.

The directors next to him were puzzled.

"Wang...Wang Dong, what's wrong with you?"

Wang Fugui did not answer, but picked up his mobile phone and said, "Secretary, help me buy a ticket to Jiangbei, yes, the nearest flight!"

.....

afternoon.

After Wang Fugui arrived at the airport, he went to Panlong Villa non-stop.

He settled his mind, and then pressed the doorbell.

"Crack!"

Omi slowly opened the door and said, "Come in."

Although, Wang Fugui had seen Omi's photos and knew that he was very young.

However, after seeing him in person, he was still surprised.

However, he quickly put this idea behind his head and hurriedly asked: "Mr. Lin, you just said on the phone that you invented the super battery?"

When this sentence was said, Wang Fugui's whole heart began to madly chaotic.

This matter is too important to him and to the entire Yadi Group.

Omi nodded and said, "Yes, the patent has already been applied."

After speaking, he turned on the tablet computer, which showed the patent documents in electronic version.

See here...

Wang Fugui's excited whole person trembled.

real!

Super battery is really invented!

Yadi Group is about to rise completely!

Omi said: "How?"

Wang Fugui took a deep breath, and then suppressed his excitement, and said: "If the super battery is the general agent of our Yadi Group."

"We, Yadi Group, can give you another 35% of the shares. In addition, 40% of the profits generated from the sale of super batteries belong to you."

"Mr. Lin, what do you think?"

Omi originally owns 20% of the shares of Yadi Group, plus 35% of the shares, which makes a total of 55% of the shares, more than half of the shares, and became the largest shareholder of Yadi Group in one fell swoop.

Even, it has the power of a veto!

Plus the 40% profit of Super Battery!

I have to say that Wang Fugui is really sincere.

Omi nodded casually and said: "Yes."

As long as he is not allowed to manage, everything actually doesn't matter.

Wang Fugui said and heard, the whole person immediately bloomed.

His biggest dream is like developing Yadi Group into the world's top automobile company.

Now, this dream may soon be realized!

Then, he borrowed the computer to hold a shareholder and executive meeting.

Although, Wang Fugui is the chairman of Yadi Group.

However, the signing of such a major contract still requires the approval of the senior management and shareholders.

A fierce debate and explanation.

Two hours later, a contract exuding warmth appeared in Omi's hands.

"Wow!"

Omi turned around as usual ~ ~.

In just ten seconds, all the thick contracts were clearly seen.

Then, Omi signed the name directly.

Without any hesitation, Wang Fugui quickly affixed his official seal and signed his name.

He held the contract that was still warm, and the blood all over his body seemed to boil.

After a while, Wang Fugui said, "Mr. Lin, then I will go back to the company first."

Although, the sky is completely dark.

However, he also wants to rush back to the company as soon as possible, so that Yadi Group will be fully prepared for the next super battery new energy vehicle.

Omi yawned and said, "Okay."
