

Lucky Bride 153

Chapter 153: Wrong From The Start (Part 2)

Miao Zhen looked at Liu Sanniang with a stern expression. "So, you'd better stop immediately."

Liu Sanniang smiled coldly. "You've done what you think is right, and I'm doing what I think is right. What right do you have to ask me to stop?"

Miao Zhen's eyes widened in anger.

Her body and lips were trembling. She did not expect Liu Sanniang to say this. This was something Miao Zhen could not accept. Her voice was sharp as she responded. "No, you can't do this. You can't destroy me."

Liu Sanniang looked at Miao Zhen coldly. "The mountain range where you absorb spiritual energy has been barren for decades. The plants have all withered. The array formation you set up absorbs the lives of the people in the entire fishing village to protect your grandson. You even want to exchange the lives of hundreds of people for your grandson's health. Do you think this is right? If you can do this, why can't I stop you?"

Miao Zhen's eyes widened, her turbid eyes filled with hatred.

No matter how vicious and terrifying Miao Zhen's expression was, Liu Sanniang was not afraid. She curled her lips and sneered. "What right do you have? You poisoned Xu Xue with love poison and forced her father to agree to your request. You used the power you have to bully others. What authority do you have to ask me not to stop you? You tried to kill me several times. Why should I stop?"

"You told me this world is very big, and human abilities are insignificant." Liu Sanniang looked at Miao Zhen's resentful eyes and said coldly, "Then let me tell you, no matter what you do, you will lose the things you tried to get by force. Whether it's your fellow cultivator, your son, or Zhang Tianyou, they will never belong to you."

After saying that, Liu Sanniang closed her eyes and began to fuse with Miao Zhen's power.

Liu Sanniang didn't know how to remove the love poison for Xu Xue. If she wanted to, Liu Sanniang had to learn what Miao Zhen knew.

She could learn it by fusing with Miao Zhen's power, but Miao Zhen's power was so great that it would take a long time to absorb.

Liu Sanniang felt like she had walked into a different space.

She could see Miao Zhen growing old from a little girl.

Her jealousy and resentment.

All of this seemed to be happening right in front of her.

Liu Sanniang saw that Miao Zhen always showed off in front of her fellow cultivator, but her fellow cultivator liked someone else.

As time passed, everyone had grown up. She could not suppress her emotions anymore. She could not accept her fellow cultivator marrying another girl. She was the only one who could stand shoulder to shoulder with him. That girl didn't deserve him.

Miao Zhen refined love poison and fed it to him. Her wish was fulfilled.

She had stolen all of this. It had never belonged to her.

Therefore, when her fellow cultivator came to realization twenty years later, he committed suicide and left her without even saying a word. Miao Zhen would never know the pain a person suffered after knowing that he had been fooled for twenty years.

He had never loved Miao Zhen. He did not love Miao Zhen. He was just Miao Zhen's puppet. When he was done being a puppet, his lover would have long passed away. What was the point of living? Therefore, he committed suicide.

Liu Sanniang struggled to absorb Miao Zhen's power. All of Miao Zhen's emotions were roaring in her mind.

Liu Sanniang closed her eyes and did not know how much time had passed.

Mr. Xu was a little anxious. Every time he wanted to speak, Chu Yan would stare at him coldly. His voice seemed to be blocked and he couldn't speak.

Xu Xue seemed to have lost her soul, looking like she was in a trance.

Miao Zhen's hair was dry, and she seemed to have lost all her vitality, leaving only one last breath. Her sinister gaze never left Liu Sanniang, as if she wanted to remember her face even after she died.

The dark sky gradually began to brighten. The night had passed. The people woke up in the morning and began their day's labor.

The sun rose on the horizon, and it began to get hot.

Liu Sanniang still did not open her eyes, whereas Miao Zhen was on her last breath.

Chu Yan did not move. Mr. Xu was anxious and went to pour tea. "Mr. Chu, have some tea."

It had been a night.

Chu Yan said coldly, "No need."

Mr. Xu sighed and handed the tea to Xu Xue. "Xue, drink some."

Xu Xue drank it like a child.

Mr. Xu went to cook porridge and fed it to Xu Xue.

Chu Yan stood guard beside Liu Sanniang. His face was cold, as if he would kill anyone who touched Liu Sanniang.

The sun was setting, and the sky was dark again.

Mr. Xu had already fed Xu Xue water and porridge several times.

Mr. Xu looked at Liu Sanniang. He only hoped that she could cure his daughter of this love poison.

Mr. Xu looked at Miao Zhen fiercely again. He did not expect Miao Zhen to be such a person. She was really terrifying. She actually wanted to exchange the lives of the villagers for Zhang Tianyou's healthy body.

Miao Zhen's hair was completely white. At this moment, she was on her last breath and looked a little pathetic. When he thought of what she had done, Mr. Xu could not pity her at all.

He did not dare to imagine what would have happened to them without Liu Sanniang.

Although Xu Xue looked dazed, she was obedient. Mr. Xu told her to sleep well, so she went to sleep. But Mr. Xu couldn't fall asleep. Chu Yan was young and could go without eating or sleeping for a day, but Mr. Xu was old and was already on the verge of fainting.

Miao Zhen said with difficulty, "If you agree to marry your daughter to Tianyou, I can save your life. In two days, the formation I set up will be activated. At that time, everyone in the fishing village will die."

Mr. Xu did not expect Miao Zhen to not give up even at this moment. He said angrily, "I won't agree to it. Give up."

Mr. Xu looked at Liu Sanniang. "What you want to do won't succeed. Miss Liu said that this is your retribution."

Miao Zhen looked at Mr. Xu viciously. He had deliberately poked her sore spot.

Mr. Xu no longer looked at Miao Zhen. He couldn't be bothered to waste time with her. How could there be such a person who thought that everything she did was right and everyone else was wrong.

Why did she have to use the lives of the entire fishing village in exchange for Zhang Tianyou's health?

What Mr. Xu hoped for the most now was for Liu Sanniang to open her eyes. Mr. Xu felt that Liu Sanniang was a living Buddha. She was here to save the world. She gave off a very warm feeling that made people want to believe in her wholeheartedly.
