460 Miss Liu Didn't Come

Su Yanyu threw away the spoon and spat out a few times. The stench in his mouth was so strong that he could not help but bend down and vomit.

As soon as the talisman touched Hui Zhen, it burned to ashes.

Hui Zhen's expression was extremely gloomy. She quickly reached out and tore off the talisman paper, but it was too late. The talisman paper had already turned to ashes. In an instant, she heard something shatter.

Hui Zhen looked at Su Yanyu with strong killing intent.

Much to her surprise, Marquis Su and Mrs. Su woke up. They immediately ran to Su Yanyu's side and patted his back. "Yanyu, quickly, spit it out... How much did you eat? You can't eat this."

Immediately after that, more and more people woke up. They seemed to have smelled an extremely strong stench and could not help but retch. "Urgh... What is this? Why does it smell disgusting?"

"Oh my god, is Suzhai Pavilion giving us rotten food? It stinks. Damn it, what are these?"

Mrs. Su looked at Hui Zhen coldly. "Master Hui Zhen, what are you serving us? Why does it stink? How can such a rotten thing be called food? We have to send you to the authorities."

Su Yanyu vomited until his bile came out. Only then did he slowly return to normal. "Yes, yes, yes. Take her to the authorities. My stomach hurts. I'm afraid I'm going to die. Mother... help."

Su Yanyu was not pretending. He really felt a terrible stomachache. The color on his face faded almost instantly. He held his stomach and wished he could roll on the ground.

Such pain was simply inhumane.

Those who often came to Suzhai Pavilion to eat also reacted. They held their stomachs and their faces turned pale.

Mu Cong was lying on the ground, foaming at the mouth. His brain felt like it was being pricked by countless needles, and his eyes kept rolling back.

Li Wei, Cheng Yan, and the others were not having a good time either. The entire Suzhai Pavilion was filled with a rotten stench.

People couldn't stand the smell and ran downstairs.

Su Yanyu looked at Hui Zhen who had suddenly become a white-haired old woman. She leaned against the table weakly, as if she had no strength at all.

The entire Suzhai Pavilion was permeated with a stench, and everyone's faces were pale.

Marquis Su and Mrs. Su were not severely affected. They didn't eat much and only felt a little uncomfortable, but they could still tolerate it. They sternly ordered the servants to report to the officials, and no one in Suzhai Pavilion was allowed to leave.

Today, they came prepared. Hundreds of officials were already standing nearby. With Marquis Su's order, they immediately surrounded Suzhai Pavilion.

A few Daoists nuns rushed in and supported Hui Zhen as they shouted anxiously. "Master, Master, what happened to you?"

Hui Zhen seemed to have suffered a huge backlash. Her expression was painful, as if she was enduring some unbearable pain. Blood flowed from the corner of her mouth.

Many black sins swarmed into Hui Zhen's body from all directions.

Hui Zhen felt as if the karmic flame in her heart was about to burn her alive. It was painful. The feeling of being burned alive was so painful that she'd rather die right on the spot.

The Daoists nuns also felt a burning pain in their hearts. They leaned against Hui Zhen and wailed in pain.

Su Yanyu panted heavily. "It's too scary."

The pain in his body had gradually subsided, but when he thought about it, he still felt a lingering fear. If he failed, he would die from the pain. Just now, he seemed to have seen many black things coming out of the diners' bodies and returning to Hui Zhen.

This... This black thing should originally belong to Hui Zhen.

Su Yanyu heaved a sigh of relief. If he hadn't been able to remain calm just now, he would be the one crying.

The commotion in here alarmed Yuan Hui and Xu Bo. They smelled a rotten stench and immediately felt that something was wrong. When they came over to take a look, the scene beyond their expectations.

At this moment, they realized that Liu Sanniang didn't come at all.

They were not here to deal with Liu Sanniang. Hui Zhen had made a mistake. She thought that as long as they could hold Liu Sanniang back, everything would be fine. However, she did not expect that Liu Sanniang had never planned to come.

When Marquis Su and Mrs. Su saw Xu Bo and Master Yuan Hui, they were stunned. They did not expect the two of them to be at Suzhai Pavilion as well.

It was not difficult to imagine what they were doing here. Marquis Su and Mrs. Su understood that they were the helpers invited by Hui Zhen.

However, there was no need to say these things out loud.

Marquis Su cupped his hands at Xu Bo and Master Yuan Hui and said, "With two masters around, I'm relieved. What did Master Hui Zhen feed us? The stench is nauseating. Please be the judge."

Xu Bo and Yuan Hui's expressions were very complicated. They were here to help Hui Zhen, but not only did the person they were asked to deal with not come, they were also asked to be the judge.

How could they be the judge?

Mrs. Su smiled and said, "Don't worry, Husband. The Emperor will definitely punish those who harm the people. Master Hui Zhen is a member of the Mystic World. If this matter is not investigated thoroughly, it will damage the reputation of the entire Mystic World. State Minister Xu Bo is an upright person, and Master Yuan Hui is highly respected. They are all people of the righteous path, so they naturally won't turn a blind eye to it."

Yuan Hui and Xu Bo were caught off guard. Before they could leave, they bumped into Marquis Su and Mrs. Su and couldn't just walk away.

Xu Bo said in a deep voice, "Greetings, Marquis. Greetings, Madam. This matter is serious. We naturally have to investigate it properly."

Yuan Hui also added. "State Minister is right."

The people from Xuanyi Department arrived very quickly. Wei Shilai could not help but feel that this case was going to be sensational.

Suzhai Pavilion was famous in the capital. But now, there was a horrible smell everywhere. The soup and food were emitting an unbearable stench. Serving people with rotten food was a crime.

Hui Zhen was captured. All the Daoist nuns of Suzhai Pavilion were held too. When Hui Zhen was taken away, her old face was scary. Her cold eyes swept across Su Yanyu and the others, and she asked in disbelief. "Where's Liu Sanniang?"

She looked around and did not see Liu Sanniang. She could not accept the fact that the damn girl didn't show up.

Su Yanyu said, "Why are you looking for Miss Liu? You must have ill intentions by giving us these stinky things. As a master of Xuanyi Department, Miss Liu will get to the bottom of it and not let you off."
