

Lucky Bride 535

535 Not Leaving A Copper Coin For Me

After finding the golden body, she felt relieved. This was her thing, the most important thing which she had to keep well.

After finding the golden body, they went down the mountain.

On the way down, Liu Yuanyuan felt a few people following her. She asked Liu Sanniang. "Venerable, do you want me to warn them?"

Liu Sanniang shook her head. "No need."

There was an opportunity on Hu Yu. She would just wait. The little fox demons only followed her and did not do anything else.

When Su Yanyu heard that there were foxes following them, he was a little afraid. He boldly walked in front of Liu Yuanyuan and followed behind Liu Sanniang.

Liu Yuanyuan did not say anything. She turned into a thumb-thick snake and wrapped around Su Yanyu's shoulder, blowing at his neck.

Su Yanyu felt a chill run down his spine and was even more afraid. He stared at Liu Sanniang and Chu Yan, afraid that he would lose them.

Feeling that his neck was cold, he could not help but reach out and instantly touch something cold. He was stunned. He tilted his head to look at it and screamed in fear. "Ah... snake..."

Liu Sanniang stopped in her tracks and turned around. Su Yanyu panicked. "Miss Liu, there's a snake..."

Liu Yuanyuan had already transformed into her human form and stood behind Su Yanyu. She looked at Su Yanyu in confusion and said, "Venerable, I think that he looks down upon me."

Su Yanyu looked at Liu Yuanyuan and felt aggrieved. "No, I don't dare to!"

He did not dare to look down on Liu Yuanyuan. This little girl looked young, but she was after all a snake demon who had cultivated for hundreds of years. She looked harmless, but in fact, she was extremely poisonous. She was the one who scared him just now.

Liu Sanniang reached out to Liu Yuanyuan. Liu Yuanyuan immediately turned into a small snake and slithered in Liu Sanniang's sleeve. She was extremely obedient. Liu Sanniang reached out and tapped the snake's head. "Stop fooling around."

Liu Sanniang looked at Su Yanyu. "Is Lord Su alright?"

Su Yanyu asked instead. "Are there really foxes following us?"

He was so afraid that he would be captured by the foxes again.

Miss Hu did not stink but the other foxes really stank. Just thinking about it was terrifying. Although Miss Hu did not stink, she was a demon.

Liu Sanniang could tell that Su Yanyu was afraid. "Your Lordship, walk in front. It's almost dawn."

The sky had already begun to slowly brighten. In the distance, there was already a red glow and a red sun that looked like a soft egg.

Su Yanyu quickly walked to the front.

When they went down the mountain, the sky was already bright. Su Yanyu asked again. "Miss Liu, are there many demons in Jiangzhou?"

He ran into demons just by stopping at a tea stall. Moreover, there was actually a nest of foxes in Fo Ying Mountain.

Liu Sanniang nodded. "In Jiangzhou, the spiritual beings who cultivate will find people who are fated with them to become their house spirits."

Su Yanyu nodded. "Miss Liu, can I go to see General Black?"

He was good at taking care of dogs. This time, he sneaked out because Marquis Su and Mrs. Su grounded him. He spent a lot of effort to come out and was alone.

Su Yanyu felt that he and Liu Sanniang were fated as well. After all, he could still meet Liu Sanniang under such circumstances. If not for Liu Sanniang, he did not know if he could have come down the mountain alive.

Liu Sanniang nodded. "Sure, Lord Su, you don't have to regard me as an outsider."

Su Yanyu smiled. He didn't take Liu Sanniang as an outsider, but he was afraid he was an outsider to Liu Sanniang.

After returning to the inn, Su Yanyu immediately went to see General Black. He wanted to take out some money to buy something good to eat for General Black, but when he touched his pocket, he realized that it was empty. Su Yanyu cursed angrily. "Damn fox, they're clearly trying to kill me for money. They didn't even leave a copper coin for me."

Su Yanyu was used to spending money like dirt. Now that his pocket was empty, Su Yanyu wanted to cry but couldn't shed tears. He cursed the foxes and looked at General Black. "General Black, I'm down and out for the time being. You... you won't dislike me because of that, right?"

When General Black saw Su Yanyu's downcast look, he nudged him with his paws.

Su Yanyu smiled. "Brother Black, I knew you were my best friend."

After washing up, Liu Sanniang went to the kitchen and cooked the rice. Then, she began to chop the chicken and prepare the ingredients. Chu Yan started the fire, and the two of them cooperated very well.

The chicken was marinated. When the ingredients were stir-fried, she would pour the chicken into the pot and stir-fry it. The fragrance overflowed soon.

Liu Yuanyuan came in from outside and said, "Venerable, the foxes that were following us have already gone back. The chicken you stir-fried is too fragrant. Those foxes were drooling outside."

Liu Sanniang nodded slightly.

The foxes liked to eat chicken. They were originally following Liu Sanniang to get information, but when they smelled the food, they drooled uncontrollably. Seeing that Liu Sanniang did not do anything other than cook, the foxes went back.

They thought that Liu Sanniang was up to something bad, but as soon as she returned to the inn, she suddenly became a cook. Moreover, this cook was extremely good at her job.

The foxes quickly found Hu Yu and reported what they had seen and heard. In the end, they even swallowed their saliva.

Hu Yu frowned. "She didn't do anything else?"

When such a master returned to the inn, she actually became a cook. Moreover, her culinary skills were actually not bad. Hu Yu was puzzled.

Hu Yu imagined the chicken and couldn't help but swallow her saliva. "Then, why did they go up the mountain?"

"Miss, we didn't see it clearly. They were looking for something at the source of the stream. We heard that there was a place where the flood dragon had been cultivating. We don't know if they found it or not. Later, they went down the mountain. However, after they left, we went to take a look. There was also the smell of our kind there. Although it was very faint, we could still smell it," the fox demons said firmly.
