Chapter 133

Adrian's POV

I rubbed her back gently as I listened to her heartbeat. The moment felt so perfect and I felt so complete and at peace.

I removed my already flaccid cock from her and gently placed her on the bed. I made to stand up but she wrapped herself around me tighter, making my heart flutter wildly.

We did not undress fully before we had our moment, so her clothes were at a weird angle on her body which made her look even cuter.

I gently detangled myself from her and went into the bathroom to get a bowl of warm water and a small towel to clean her up. I gently removed her clothes and cleaned her up, taking extra time to clean her swollen pussy.

I tucked her into bed and made to leave but she held my hand. "Please, don't leave me", she whispered in a sad tone, tugging at my heartstrings.

“I’ll never leave you again, my Queen. Not if I can help it“, I kissed her forehead and she went back to sleeping.

My heart

broke for her and it took a lot of willpower to not find out what was going on with her. I was going to follow what Selene said and trust her in everything she decides to do.

I went into the bathroom, took a hot shower and might have fisted my

dick till I came too. You would if you were in my shoes, the memories of what we did and how sexy she looked in her choice of outfit made all my blood rush to my dick.

After spending almost 30 minutes in the shower, I left the bathroom to find Lola writhing on the bed like she was in pain. I rushed to her and tried to wake her up but she kept thrashing and crying in her sleep.

“Please, please, you can’t do that to me. I’m so sorry, I’m so sorry“, she kept on repeating while tears streamed down her face. I scooped her into my arms and gently rocked her while trying to get her to open her eyes.

“It’s okay baby. You’re okay. Please, open your eyes for me. I got you”, I said to her as I rocked her and wished I could take all her pains away.

She opened her eyes slowly and looked around in fear until she realised she was in my arms.

She hugged me tightly and cried into my chest.

“Was it a bad dream?” I asked and she nodded. “I love you so much, Adrian. You know that right?” She asked with a hiccup and I nodded. “I know you love me but

I love you more and I’d do anything for you, baby“, I said but she kept on crying.

“I love you. I love you so much. You and Crescent moon pack gave me everything I never had growing up. This is my home, you’re my home and I promise that this will pass soon“, she said like she was trying to assure herself.

“Is there something you’d like to tell me?” I asked her but she shook her head. “Not at all, Adrian“.

“Do you still want to go on the date you agreed to?” She changed the

topic and I allowed her. I'll allow her to tell me whatever is bothering her whenever she is ready.

"I'll go on a date with you, I already told you that", I kissed her forehead and she smiled a little. "Do you have an idea of where you want us to go?" I asked her and she blushed slightly.

"Shit, I did not think about that", she muttered and I burst out laughing. "Hey, stop laughing", she pouted, prompting me to laugh harder, "I just wanted to spend time with you, I did not put so much thought into it", she whispered before burying her head into my chest again.

I did not even realise she was completely naked while I had just a towel on. She felt so perfect in my arms. She was right, she's my home and I know that I'll just do about anything to protect her. Even if it meant setting the world ablaze.

"Where do you want to go? Is there some place you'd like to see?" I asked her after a moment of silence. "I don't know, I just want to be in a quiet place with you", she said softly and my heart pumped faster.

"We're one lucky bastard", Daxon said with pride in my head. "We sure are", I replied to him.

“How about I plan the date and you just look pretty and allow me to take care of you?” I asked her and she became red, making me chuckle softly.

“That’s totally fine too“, she replied and tried to stifle a yawn. “You’re feeling sleepy again?” She nodded her head and nestled closer to my chest.

“I’ll lay down with you, let’s get you thoroughly cleaned and changed“, I

carried her bridal style before she could protest.

“I can walk and clean up by myself“, she tried to argue but I shut her up with a kiss on her forehead. “And I want to do everything to make my Queen comfortable. You can’t hinder me from doing that“.

She stopped protesting and bathroom time went by quickly. I washed her body while she washed mine. She tried to take it further but I refused her.

I don’t think she’ll be able to take it if I decide to take her again, so I controlled my urges and took her back to bed.

After changing
and changing her into a boy short and one of my shirts, we
laid together to sleep. She seemed
disturbed and far away for a while before her breaths even
ed out and she snuggled deeper into me.

With my hands placed firmly on her body and her heartbeats
calming me down. I fell into a deep slumber myself.

Lola's POV

The nightmare that woke me up
was about Damon. He wiped everyone out and made me
watch as he tore my mate apart with Alysia by his side.

It was a heart wrenching sight and I don't ever want to go t
hrough that. It felt so real, like
a message was being passed across.

If I refuse to pay the price, my loved ones will.

Never, I'll never allow that to happen. Not if I can help it.
