

Belong to the Lycan Alpha

Chapter 102

“Should I impregnant you?” Hunter whispered, which made Lilac widened her eyes in shocked before she punched his arm lightly for his comment and this only made the alpha laughed.

Warriors outside of their carriage looked at each other as this was the first time for them to hear their alpha laughed out loud like this.

One thing that Lilac started to learn was; ‘Hunter’ in front of other people and ‘Hunter’ in front of her was very different. Rye told her about this, though he only mentioned it briefly, but Lilac was smart enough to catch the gist of his explanation.

“What? You don’t want to have my baby?” Hunter kept whispering to her ear and enjoyed the way the red color crept on her cheeks. He liked it when she was flustered and speechless, unable to find a word to retort him. She had a smart mouth, but he liked it when she used it in different way.

“Hunter!” Lilac cried out loud because of how bold his words were, but she couldn’t do anything when she was trapped between his powerful arms.

Thankfully, Hunter couldn’t tease her any longer when Rye told them they had arrived at the meeting point and it was time for them to go out.

He then added in low voice, just enough for the people inside the carriage to hear him. “If you want to make babies, please restrained yourself until we finished our meeting here, okay? After that, you can do whatever you want and get no matter how many babies you can give birth.”

Lilac opened the window immediately and glared at Rye for his comment, but the gam ma was already running away while chuckling.

“Your gam ma bullied me!” Lilac sulked, she felt a little bit annoyed now, but Hunter only laughed and caressed her cheeks.

“Do you want to go out with me?” Hunter asked, he pulled Lilac into his arms again and buried his nose against the crook of her neck. He liked to do this even more after he marked her.

Now he understood what it felt to have a mate, a soulmate of

your own, someone that you knew you would spend the rest of your life with, someone that wouldn't let you be alone and someone who would always be by your side.

Therefore, not only Hunter started to correct other people the way they addressed Lilac, but he started to show other people how much he spoiled her too, which made everyone shocked.

Chapter 102

They had never known that their alpha had this side in him.

"Hm...." Lilac thought about it and received a peck on her lips.

"If you want to come, we will go together, but if you don't want to go, you can stay here. It will not take long," Hunter said lightly.

Meanwhile, on the other side, where Aiden and his warriors were, they had been waiting for Hunter and Lilac to come out of their carriage, but the two of them took their time well, which aggravated Aiden a lot.

Right now, he asked Ruby to stay inside the carriage, he would tell her if he needed her to go out, thus even though Ruby wanted to stand by his side, she stuck inside the carriage.

In this situation, Ruby already imagined what kind of nasty words that Luna Jasmine would say to her because Aiden didn't want to bring her along, despite he was the one, who told her to come. All the mistake must be on her shoulders.

Feeling grievances in her heart, she hugged herself and felt the baby moved in her stomach, she nudged the bump and this was the only thing that could bring smile onto her face. She loved her baby no matter what. She would die for her child even if she had to keep up with the way Aiden treated her and how cruel Luna Jasmine was.

“I will be strong for you, baby...” Ruby whispered to her baby inside her stomach with her red rimmed eyes, but when the carriage door opened, she saw Aiden was smiling at her. His smile looked very genuine and true.

This sight confused Ruby, because this must be her hallucinating because there was no way Aiden would smile like this to her.

It had been so long when the last time Aiden was smiling very genuinely to her. It must be the beginning of their meeting when he smiled so gently and treated her like

treasure.

But right now, after a rough night, he was treating her well again?

Ruby rubbed her eyes and blinked her tears away, afraid her vision was blurred by her sadness and it messed up her mind, but the truth was right before her eyes. Aiden was actually smiling at her genuinely.

What was wrong with him?

“What are you waiting for? Why don’t you come out? Come here, I will help you to go out.” Aiden stretched out his hand for her, so she could have a safe exit from the carriage.

Chapter 102

Even his voice was so gentle!

Ruby felt there was something extremely wrong with Aiden, but her helpless mind desperately thought her mate had come to his sense and finally would treat her well.

“Be careful with your steps. I don’t want you to get hurt,” Aiden said. He then escorted Ruby to meet with the other alpha and luna.

The way he held her and how he whispered to her ear made Ruby even more confused, but for a brief second she enjoyed it. This was something she had always wanted, something that she only dared to imagine to get it back.

However, all of her imagination and short happiness needed to be shattered ruthlessly.

Upon seeing Lilac and alpha Hunter, Ruby realized why Aiden suddenly acted like this toward her and the reason why he changed one hundred eighty when he introduced her to his former mate.

“We are expecting our first child in a few months,” Aiden said.
