

## Belong to the Lycan Alpha

### Chapter 106

“You left very sudden, I don’t have time to apologize to you at that time, so I want to do it right now, even though this is very late.” Rubby looked uncomfortable, but she still had her deathly grip around Lilac’s arm, thus she couldn’t do anything about it. “Can you forgive me?”

Lilac wanted to laugh out loud. What did she say? She didn’t have time to apologize and her leaving was too sudden?

Even if she wanted to lie, at the very least, she should have made it more reliable and believable. The stupidest people in the room could call her out for such lame lie.

However, Lilac didn’t have the energy to entertain her. She glanced at the five representatives that came with Aiden and Ruby. She nodded at them to make Ruby paid attention to the way they looked at them.

“You need to stay away from me, or else, they will harbor any suspicion.” Lilac considered herself kind enough to warn Ruby about this, though she rejected her request to have a private talk with her.

“We didn’t do anything, we only talk,” Ruby retorted. That was the truth, they didn’t do anything atrocious or something.

“The problem is they didn’t think the same. You need to be able to read the situation,” Lilac said lightly. She didn’t have any obligation to teach her anything, but she wanted her to let go and don’t cause trouble for her, because if she pushed her away, Lilac was afraid if Ruby pulled some trick and accused her of harming her.

Lilac didn’t know Ruby at all, but for the fact she was willing enough to be with a man that she was well aware had his own mate, Lilac knew that she didn’t want to be associated with that kind of woman.

M

“You are a luna now, all of your action and your words represented the alpha, so you need to take care of yourself and carry yourself well,” Lilac advised her.

t

For a moment, Ruby only stared at Lilac with this blank expression, but after that, she laughed out loud, as if Lilac just told her something really funny.

“I am sorry, I am very sorry..” Ruby wiped her tears with the back of her hands, but she was still laughing and holding onto Lilac, as if she didn’t want to let her go. “I didn’t mean to laugh.”

mare but you

“You didn’t mean to take did. You didn’t mean to laugh, but then you did.” Lilac met Ruby’s eyes, there was this anger that flickering there.

If she didn’t want to let her go, it was fine too, but it didn’t mean the two of them would

have a civil conversation. Even though Lilac didn’t want Aiden anymore and even if that man begged her to returned to his side, she wouldn’t go a step toward him, but the pain of his betrayal and how lightly Ruby put this matter, she simply couldn’t accept that.

Despite anything, luna Jasmine had taught her well and she had learned a lot under her tutelage, where she could gain her confidence and find the right word to say.

“Lilac, please... I am really sorry, I was laughing because I felt like I were talking with luna Jasmine. She had told me about that countless time,” Ruby confessed.

Meanwhile, Lilac didn't object that, because that was the truth. Luna Jasmine had taught her everything and she knew that the luna would teach the same thing to Ruby.

"Can't you forgive me this time?" Ruby asked, no, she was literally begging to Lilac, as if she was being bullied by her, though the truth was not like that at all.

Lilac tried to wriggle her arm, but she couldn't get away from her. She frowned because her grip was very tight.

"Whether I forgave you or not, it doesn't matter. We will not meet with each other often," Lilac said unhappily. "Now, let me go or I can make a scene and embarrassed you further."

While saying that, Lilac nodded at the five representatives, who stared at the two of them with ashen expression. They were not happy with the situation because clearly the alpha and the luna from Golden Claw pack was up to something for them to talk in private.

"Watch your step and everything that you said, you need to live up your title as the luna and remember that the honor of your mate could be tarnished because of a second stupid and reckless action."

Those words came from luna Jasmine, he was the one, who told Iris about that. She remembered every word of it like a lullaby.

Therefore, she had never felt freedom.

Her last year was spent with so many thing that she needed to learn and Lilac threw the words toward Ruby because she could see how the girl was struggling with her lesson and more so, she wanted to agitate her more by reminding of those annoying reminder.

As if Lilac's arm was on fire, Ruby startled and immediately let go of her arm, as she stared at her. There was this flicker of fear and annoyance in those blue eyes.

After that, Lilac went back to the carriage and closed the curtain, so no one would know

what she was doing inside.

For now, she was going to wait until Hunter returned and asked him what he was talking about with Aiden.

Lilac peeked from the curtain and saw Aiden and Hunter were talking in serious manner, but while the lycan looked like he was walking in the garden, the other alpha looked like he was going to blow his top at any second.

Because of the distance, Lilac couldn't hear what they were talking about, thus she shifted her attention toward Ruby, who was right now being interrogated by the other representatives.

"What do you mean with this, Ruby?" Danny asked her on behalf of the other.
