Aiden was not happy with the fact Ruby talked to Hunter. This was not her place to do this, because

she was his mate and this was not appropriate for a woman to talk with the alpha, even though her

status was the luna of the pack.

Ruby must have learned about this from his mother, but then she conveniently forgot about it and

became very inappropriate with Hunter. He humiliated him with the way she interacted with the alpha

lycan.

And if Aiden could tell about that, of course, Hunter also could see that too, he saw Ruby's adoration

pretty clear. He was familiar with that kind of gaze and needless to say, he was disgusted by it.

Yet, he still responded to her, after all, she was still the luna of the pack and this was too early to

agitate them.

"You will know when she is here. Just wait for a moment, luna Ruby," Hunter said.

Ruby couldn't help, but blushed when he actually spoke to her. She thought, she would be ignored by

him and she was ready for the awkwardness that came after, but as it turned out, the alpha responded

to her question.

Therefore, she was smiling prettily. "I am looking forward to it."

Aiden couldn't hold himself back anymore at this point, as he frowned and took over the conversation.

"It's nice to see you here, alpha. I thought you will miss this celebration, since I didn't see you on the

first and the second day."

This was the last day of the celebration and alpha Hunter was the last, who came. In a way, this was an

insult, because it could be interpreted as him not in taking this invitation important enough.

"I was busy," Hunter replied. "There was someone, who was trying to enter my pack?"

Aiden's heart skipped a beat, but he regained his composure pretty fast, not letting alpha Hunter to see

that.

"Let's come over here," Aiden said. "This is a tradition for my pack to let the guess to see the baby,

because this celebration is about him. And because I don't know that you will come tonight the baby is

still in the nursery room. Let's go there."

Hunter smiled, it was so rare to see him smiling like this and this could mean a lot of things, which put

Aiden on alert, but when he spoke, his voice sounded graceful. "Thank you, but I will wait for my mate

to see the baby."

Aiden felt a little bit awkward, but somehow, he was excited to see Lilac again.

Right at that time, the room went silent for a while, before a gush of whispery tone filled the room and

everyone looked at a certain direction.

Out of instinct, Aiden and Ruby tilted their head to look what caught all the people's attention, but

Hunter knew immediately what, or rather who the caused of it, since he caught her smell the moment

she stepped into the room.

Her scent was intoxicating lately and he couldn't resist her most of the night, until both of them were

tired.

The reason why she was late, was because she needed extra time to prepare herself. Hunter wanted

Lilac to be the center of attention, he wanted her to look exceptional tonight and even more, he wanted

all the people to pay close attention to her.

Well, some part of it, might be because Hunter wanted to flaunt how well Lilac was when she was with him and he wanted a certain alpha to see what he had lost. It was a little bit entertaining to see the shitty look on Aiden's face, knowing he was still thinking of his mate and all he could do right now was regretting what he had done.

Aiden could regret all he wanted, it would be great if he ended his life because of that, though it was a little bit farfetched.

"You look so great," Hunter said when Lilac was already by his side.

Lilac was wearing a long dress, the color of lilac, like her name and had her hair tied up on top of her head, which showed her slender neck. Her dress didn't show much of her skin, but it hugged her voluptuous body perfectly.

"Thank you," Lilac said sheepishly, she actually blushed with the compliment. She didn't really care about the way people

stared at her when she walked into the room, but she turned very shy under Hunter's heated gaze. It

felt like he was going to eat her whole. Well, of course, in her mind, eating her in different way. "You

look gorgeous too."

Actually, it didn't need a long time for Lilac to prepare herself, but Hunter intentionally didn't wake her

up when she was sleeping, making her late for the preparation with the excuse this event was not really

important for her to attend on time and disturb her sleep.

Ruby balled her fists. She felt like Lilac was trying to one up her. She wanted to steal the light, where

she should be the only woman, who stood out tonight, because she was the luna of the pack and also

the mother of the future alpha.

Ruby's expression turned even more ashen when she caught the way Aiden stared at Lilac. There was

a mixed of annoyance, anger and adoration.

It was clear to say that Aiden was not happy with the fact Hunter touched Lilac, but he was also

dumbstruck by her beauty.

That thought was proven right when Aiden blurted it out without even thinking about it twice.

"You look so beautiful," Aiden said, his gaze was misty when he stared at Lilac.

On the other hand, Lilac simply spared him a glance and politely thanked him, but that was it, there

was no other interaction between them, Lilac acted as if Aiden did not even exist.

Chatper 127

Chapter 127

Ruby was very uncomfortable with how open Aiden's admiration toward his ex mate. He shouldn't have

felt anything now when there was no more mate bond between them. His bond was supposed to be

with her, but it felt very weak.

If she could say, the bond was as weak as a dry leaf.

5

However, what Ruby felt inside, didn't appear on her expression. Her face looked as gentle as before,

she carried herself better than before, because she didn't want to humiliate herself in front of Lilac,

though the luna of the lycan pack looked very graceful, no one could compare to her.

"Stop staring at me," Lilac said to Hunter in low voice, she could feel how his heated gaze fell on her

neck and this made her body shuddered. Her reaction to his attention was rather extreme, especially

when his hand that was on her waist caressed her body.

"Do you want to ditch the party?" Hunter asked again, his warm breath caressed her skin and ear, this

made Lilac blushed, knowing what the meaning behind his suggestion.

"Hunter!" Lilac hissed.

People didn't know that Hunter was teasing his mate, because all they could see was how lovey dovey

the two of them, which only made Aiden's blood boiled with anger.

Along the way to the nursery room, people stared at Hunter and Lilac, they couldn't believe that the

orphan, who turned out to be the mate of their future alpha, but then after some scandal and rejection

became the mate of the alpha lycan, could look so graceful. She looked like the real luna, not only

because that was her status, but because she carried herself perfectly.

Most of them thought, Lilac would be treated like a slave. The lycan wouldn't even glance at her

direction, because she was not part of them, they had heard how the lycan was a very territorial

creature and Lilac was an outsider, almost all of them pitied Lilac to be taken away as a symbol of

peace.

However, they were completely wrong and now they were dumbstruck!

If people could see how much progress that Lilac had and how well she was being treated by the alpha

lycan, let alone Aiden and Ruby. The two of them held the bitterness in their heart.

Finally, this seemingly long journey to the nursery room ended and when they entered the room, luna

Jasmine was there.

The firstborn was always special and luna Jasmine couldn't stop gushing over her first

grandson, she didn't care whether Ruby liked it or not, because as a new mother, she tended to be

very anxious when there were a lot of people around her baby, especially when they tried to touch him.

And right now, that was what they were trying to do. They made Azel uncomfortable and her precious

baby was crying.

The sound of Azel's cry squeezed Ruby's heart, in which she immediately rushed inside and took her

baby from Luna Jasmine.

"What are you doing?!" Luna Jasmine snapped angrily when the baby was being taken away from her.

She didn't even realize the other people inside the nursery room until Aiden warned her that there was

someone else there.

And when Luna Jasmine turned around, as she caught a familiar scent, which she thought would never

be here anymore, she was stunned beyond words, because right in front of her was standing a beautiful

young girl with clear eyes, the lilac dress she was wearing complementing her complexion perfectly.

For a moment, Luna Jasmine could only stare at Lilac. This was the exact young girl, that she wanted

for her son, but unfortunately, things didn't happen the way she wanted it to be.

"Lilac..." Luna Jasmine finally muttered her name.

"Long time no see, Luna Jasmine," Lilac said politely, but then she glanced at Ruby, whose face had

turned very ashen. "Should I call you just Jasmine, since the Luna of the pack is Luna Ruby now?"

The shock on luna Jasmine's expression shifted into anger, but then it changed in a split second with a

beautiful, sweet smile, the kind of smile that Lilac always saw whenever she forced herself to be polite.

"You can call me anything, Lilac," luna Jasmine replied gently, as if the problem in the past had been

forgotten and there was never a contention between them. "Alpha Hunter, nice to see you again."

"Jasmine," Hunter said her name, which he knew very well would upset her.

However, luna Jasmine was not an easy foe, she wouldn't let her emotion get the better of her. "I see

you just came now." She nodded. "I thought you were too busy to come, but I am glad you are here."

"We come here for something else, but because there is this ceremony, it will be polite for us to attend

to," Hunter replied, which made luna Jasmine glared viciously at him.

How could someone insult another person with such calm expression and decent

words? The way Hunter chose his words showed how wicked he could be.

Beside him, Lilac wanted to smirk, but she kept her expression impassive and shifted her attention

toward the baby in Ruby's arms. This was the baby that had severed the mate bond between her and

Aiden, but this was also the baby, who had saved her from this nasty pack and let her to meet with

Hunter.

She was more than happy to thank this beautiful baby boy, therefore, Lilac was all smiling when she

approached Ruby to see the baby.

“Who is his name?” Lilac asked with cheerful voice. After all, they came here to see the baby, right? So,

why not greeted this little one properly?

“Azal,” Ruby replied curtly. She didn’t like the name at all.

“Azal... what a beautiful name...” Lilac gushed. “Can I hold him?” she asked for permission.

On the other hand, Hunter had his eyes on his mate and then blurted out. “Do you want a baby?”

Chatper 128

Chapter 128

‘Do you want a baby?’

The question rang in Lilac’s ears, which turned them very red, especially when he said those word with

not so quiet tone.

Lilac immediately turned her body and caught Hunter’s innocent face, but in truth, there was nothing

about him that was innocent. There was no way he asked the question without any hiding intention.

“What?” Hunter raised his brows, as if he was confused with the look Lilac gave to him. “I only asked a

question. If you wanted it, I will be willing to give it to you.”

This time, not only Lilac, but Ruby, Aiden and luna Jasmine felt their heart jolted with the brazen and

lewd word that Hunter said.

How could he talk something so vulgar in front of so many people? Wasn’t he ashamed?

Yet, in Hunter’s mind what else to be ashamed when he teased his own mate. More so, who said that

he was not serious with what he was saying?

Lilac then tried to solve the situation, she cleared her throat and then took the baby from Ruby’s arms,

she held the baby's small figure and smiled softly. She disliked Ruby, but after seeing the baby's little

face, Lilac forgot about that.

"He is very cute," Lilac gushed over the baby, which left all of them stared at her with their own thought.

If Hunter was only teasing her earlier when he asked her about the baby, now he wanted a baby with

her for real. The way Lilac held the little one in her arms and how soft her expression was when she

made the baby cried.... Was something that would forever etch in his mind.

However, it was not only Hunter, who saw Lilac as a perfect mother figure, Aiden could see... he could

imagine a future with Lilac with their baby in her arms, instead of the baby that came from Ruby.

Lilac was his mate. She was the woman that should be with him, she was the woman that belonged to

him and was created only for him. The baby that she held, supposed to be the baby that came from her

womb if he didn't make a mistake with Ruby.

Lilac would be a perfect mother, someone that would be a perfect luna....

Luna Jasmine thought to

herself when he watched how Lilac teased the baby, she was very natural

with her little one, it was very different with Ruby.

Ruby needed to learn how to hold a baby, she looked so awkward when she held her own son. How

could the two of them were very different?

84%

Luna Jasmine balled her fists. Lilac was a woman that she had molded in such a way to fit with her

son, but now when she looked perfect and became a woman that she wanted, Lilac was no longer

within her grip. She couldn't help, but very angry...

Meanwhile, Ruby didn't have any other feeling, but hatred toward Lilac.

She could feel the way people stared at Lilac right now and how Aiden stared at his ex mate with such

devotion eyes that made her blood boiled, she wanted to claw Lilac's face and disfigure her. She

needed to find a way to control her hatred toward Lilac for taking everything from her.

"My baby doesn't look comfortable, come, give him back to me," Ruby said

begrudgingly, even though her statement didn't match with how Azel was laughing and looked very

happy when he was with Lilac.

And without waiting for Lilac's reaction, Ruby had taken back her son without any scrupulous, she

didn't even bother to hide her dislike toward Lilac.

+5

"You are being rude, Ruby. You shouldn't have done that," Aiden reprimanded her because he was

upset, since the image of Lilac was holding a baby was ruined. He wanted to watch a little bit longer

and let his imagination ran wild, thinking that was his baby and Lilac's.

On the other hand, Lilac didn't seem to care, she was only worried for the safety of the baby because

the way Ruby was taking back her son was not so gentle, because of that too, Azel started to cry, as

the baby felt the change of the atmosphere and the feeling of the person, who was holding him.

Luna Jasmine was not happy to see Ruby like this, she had taught this woman countless time, but not

even once, she showed her that her tutelage was actually working. She was a complete different from

Lilac.

Ruby kept making mistake after mistake.

“Come here, let’s get the baby to calm down,” luna Jasmine said with a smile on her face, as she

touched Ruby gently and escorted her out of the room. At this point, Azel was bawling.

But, everyone knew that her smile could only interpret as a disaster, because that was

what would happen.

“I am sorry for the interruption,” Aiden said, she didn’t even give a second glance at Ruby, who was

going out of the nursery room, since they wanted the baby to get some fresh air, giving a pitiful excuse

that the baby might be boring.

“You don’t need to worry, we only came here to see the baby and now we have seen him, we are going

to leave.” Hunter tilted his head. “Can you go to your mother and tell her to take off the necklace, since

it doesn’t belong to her anymore.”

For a moment, Aiden didn't respond to that, but then he was smiling, this smile reminded them of the

smile Luna Jasmine gave to them a moment ago.

"Sure, I will let my mother know about this, but before that, you can enjoy the party first, because my

mother is comforting my baby, it will take a while for me to get the necklace."

If the necklace was the only thing Hunter and Iris wanted, thus he was not going to give it as easy as

that.

"I think, I won this bet," Hunter smirked at Lilac, who looked at him sullenly.

The two of them were sitting on the long dining table with the other alphas and Lunas from the other

pack, while music and the sound of people's laughter filled the air.

People danced and interacted with each other, men and women teased and laughed loudly. This

festivity was very lively, but you couldn't see the mother and the baby anywhere.

Aiden just came and told them the baby had fallen asleep and his mate had retreated to their bedroom

to accompany their first son.

Probably she would return late at night when the festivity reached its peak.

"You have not won yet," Lilac hissed back at Hunter, but he rewarded her protest with a deep kiss,

which almost made Lilac forget there were hundred pairs of eyes that were watching them.

Actually, the bet between them was simply a silly game that they made on their way here, since Lilac

thought they would be able to leave the party as soon as possible, but Hunter disagreed with her.

And that was the root of their bet. Lilac said they were be able to leave before midnight, but Hunter

thought the opposite.

“I told you that he will cause us trouble.” Hunter whispered to her ear and glanced at Aiden. “Either

way, you should prepare my prize.”

Lilac blushed when she heard his rough voice teased her ear with his warm breath on her skin. She felt

weak and warm feeling pooled down there.

“He will always cause trouble no matter what,” Lilac replied, but her voice was a little bit hoarse. She

became self conscious and looked around, because she didn’t want to get caught when her body was

very hot like this. These shifters had a good sense of smell

after all.

“So, you know him so well, huh?” Hunter bit her earlobe, as a form of punishment, but once again Lilac

squirmed. She felt like she was not be able to hold it any longer if Hunter kept teasing her like this.

“Hunter, stop it, there are so many people here,” Lilac protested, but even she herself could hear how

weak her rejection was, which made Hunter laughed at her lame attempt to push him away.

“So?” Hunter put his hand on her thigh and rubbed it, which made Lilac took a sharp

breath. This lycan was insane!

Thankfully, Hunter spared her and stopped teasing when her face had turned very red, as red as the wine before them.

Just half an hour ago, Aiden approached them and said he couldn't find his mother, hence he couldn't

give the necklace to them, he also said that he had prepared a room for them, just in case he couldn't

find his mother and they had to stay overnight here.

Hunter said nothing, he simply smirked at the way Aiden tried to come up with his ridiculous story about

couldn't find his mother. There was no way something like that could happen.

"Hunter," Lilac called him.

"Yes, little one."

Lilac always felt giddy when he called her with this endearment name, though she didn't show it to him,

lest he became more cocky. "I feel like you have guessed it since the beginning and you have a plan

about this situation_

"Sometime, it's not good to be very smart, little one." Hunter then stood up and then stretched out his

hand for her to take, he wanted to dance with her.

"Hunter, I can't dance." Lilac was mortified. Among all the lessons she got from Luna Jasmine, dancing

was not her greatest strength. Her body always felt very stiff and her movement was no different from a

log of wood.

Hunter chuckled. "You will be able to dance if you are with me, love." He then took Lilac's hand and

kissed the back of her hand, as he pulled her to stand up.

People stared at them and once again, Lilac became the center of attention, especially when Hunter

took her to the dance floor and all the couples there moved to give them space unconsciously.

Lilac looked so pretty in her dress and the light fell on her red face, which made her look very adorable.

“Put your feet on mine,” Hunter said, he pulled Lilac so close to him until their body pressed together

and she felt his hardness on her belly, which made Lilac glared at him, but the wicked alpha only

grinned innocently.

Lilac did what she was told and put her feet on his, as he moved around the dance floor, leaving all the

hard work on him. His arm that wrapped around her waist was very steady and strong, it was a comfort.

“See? I told you that you can dance, you need to start trusting me more,” Hunter said

and Lilac laughed at how silly it sounded.

However, there was someone, who didn't look happy at all, from the look on his face, it almost felt like

there was a raging storm within him.

It was Aiden, he was standing next to the door, after giving a few order to his men secretly about his

next move when he caught the sight Lilac walked toward the dance floor and how bright she was. The

way she smiled was something he had never seen before.

When they were still together, Lilac always smiled at him shyly, but the smile she showed tonight was

one of pure bliss and happiness, which made Aiden's blood boiled.

More so when he saw how her eyes sparkled, filling with so much love with someone else. Love to

another man!

How she could do that to him? How she could move so fast? How she could dump everything without a

second thought and let him stuck with someone like Ruby?

Aiden's grip on his glass tightened, until it shattered into pieces and the sharp shard

drew blood from his palm.

He couldn't accept this!

Chatper 130

Chapter 130

Lilac was his, but why this bastard touching the woman that supposed to be his? The woman that

fated to be with him no matter what.

'No matter what'!

That must be enough reason for Lilac to stay with him and forgive him. Even when the mate bond

between them had disappeared and the rejection had occurred, Lilac shouldn't have fallen into another

alpha's arms!

She should find a way back to him, to this pack! To the place, where she belonged! She shouldn't go

again after this and Aiden wouldn't want her to leave anymore!

Blood trickled down from his wounded palm because of the sharp shard that stabbed his flesh from the

shattered glass. His eyes were enough to kill someone and put a strong curse if he were a magic user.

One could feel the depth of his hatred at this moment.

And right at that time, probably sensing a strong killing intent that came from Aiden, Hunter met his

eyes and he raised his brows, as he rested his chin on Lilac's shoulder. A smirk tilted the corner of his

lips, as he held his gaze and pulled his mate even closer to him.

The taunting was very clear, Aiden would be an idiot if he thought, Hunter did that unintentionally and

the fucking part of this was the fact he couldn't withdraw his from them. He had this urge to come

forward and separate the two of them, since the eyes

way they hugged each other was very inappropriate!

What the fuck they were thinking?!

Luckily, before Aiden could make any rash decision, Gabriel, his beta came to approach him. He had

seen the whole thing and realized his alpha was on the verge of lashing out. This wouldn't be good for

their pack if they provoked the lycan pack first.

No matter what, they were still within peace treaty and they couldn't afford to be the first person, who

breached it.

"Alpha, you need to go, you can't stay here," Gabriel whispered to his ear, but his grip on his shoulder

was strong enough to prevent him from carrying his impulsive action. "You need to go now. Don't let

him provoke you."

His sweet mate! The woman, who always looked very shy whenever she was around him, she couldn't

even look at him in the eyes and would blush with a single touch. She looked so beautiful in her lilac

dress, but the hands that wrapped around her body... he couldn't let that!

Thankfully, Gabriel stood in front of him to block the sight, so it saved the alpha from humiliating himself

by letting Hunter knew that he

got him.

“We need to go, luna Jasmine called for you. There is something she wanted to talk about,” Gabriel

said with urgency, which helped Aiden to get some clear mind.

Aiden didn't want to leave, but after some persuasion, his rationality kicked in and he left the scene.

“Why are you laughing?” Lilac asked when she heard Hunter's rough voice, laughing right to her ear.

“Is there something funny?”

Lilac finally lifted her head and looked at Hunter with a frown, she looked around, but she couldn't find

something that she deemed funny.

“Nothing,” Hunter said with his cheerful voice, he showed her his innocent face, there was no trace of

his wickedness and this only made Lilac became more suspicious.

“What is it?” Lilac narrowed her eyes and then became self conscious. Did she embarrass herself?

Was there something wrong with her dress? Or her make up? Or her hair? “Is there something wrong

with me?”

Hunter kissed her lips to stop her from her train of thought. “There is nothing wrong with you, Lilac.

Everything about you is beautiful and perfect.”

Hunter then kissed her lips again when she tried to protest and again and again, until Lilac gave up to

criticize herself.

“Do I hurt your feet?” Lilac was pretty worried that she hurt him because she had been standing on his

feet, while he moved with ease..

“Of course not.” Hunter tilted his head and smiled brilliantly. He looked like he was in a good mood. “I

am really enjoying the sight before me.” His eyes glued to Lilac and this made her blush again.

But then, there was someone that interrupted their moment.

Lilac almost forgot about her, even when she entered this pack house again for the first time after she

left, she didn't think about her at all, as if she was a vague memory that was placed on the back of her

mind.

But, here she was, the memory that she had left behind materialized into the person that once she

“Lilac, nice to meet you.”

“Aria.” Lilac’s body went stiff, she stared at her with indifference. She didn’t hate her, since she knew Luna

Jasmine was behind her action, but it almost costed her, her entire life and to think about it again, if that

horrendous scheme succeeded, she wouldn’t feel this kind of happiness with Hunter.

“Lilac, nice to see you.” Aria repeated her word and then shifted her attention toward Hunter. “Alpha

Hunter, it’s great to see you again.”

Aria looked shy, she had gathered her courage to approach them and Lilac appreciated it.

“Can I have a moment with Lilac?” She asked politely. “I want... I want to apologize for my action the

last time...” She stuttered a bit.

“Luna.”

“Pardon me?”

“Call her Luna Lilac,” Hunter emphasized Lilac’s title, as if he was going to engrave it in Aria’s mind, so

she wouldn’t address her recklessly.
