Chapter 136

TWO HOURS BEFORE THE COMMOTION.

There was no one else inside the library, aside from Grace and Hunter. That woman was certain the

alpha would fall for her. She always had this idea in her mind that Hunter wanted her and always

wanted her only.

Lilac was a small hiccup between them, where she was replaceable, but in the end, Hunter would be

with her again. The only time they spent together was very great to be forgotten, at least for Grace,

thus she thought, Hunter would feel the same.

The alpha lycan was only a little bit lost right now...

There was no way he would forget so easily how great their love making was. Therefore, this was

Grace's chance to get him back from that useless woman.

"Hunter, I want you. I only want you. You know that we mean to be together. We grew up together."

Grace made her advance toward Hunter, while the alpha stared at her with disdain, but she

misinterpreted it as his desire to have her, just like what happened in the past.

Grace's delusion mind took her to another level of destruction.

"Are you the one,

one, who had sent me the letter about the other lycan pack?" Hunter asked her coldly. Right now, the

distance between them was only a step away and he could smell her disgusting scent that made him

wanted to throw this woman out of the window.

Hunter might be very gentle and careful with Lilac, though he would tease her every now and then, but

he couldn't care less about another woman.

Grace tilted her head.. "I will tell you if you kissed me," she said playfully. She stretched out her hand

and wanted to touch his chest, but Hunter grabbed her wrist before she could touch her. "Careful, you

might hurt me..." Grace was being coquettish now.

However, Hunter was having none of it.

"Aw!" Grace was still smiling, but she was slightly frowning now when Hunter tightened his grip around

her wrist, instead of loosening it. "Hunter... you hurt me..." she was still being coquettish right now,

thinking the alpha only wanted playing a little bit rough with her, but that was not Hunter's intention at

all. There was no playing rough with her.

"Tell me everything about the lycan pack," Hunter emphasized every word he said. He looked at her

dead in the

Hunter growled viciously at this stupid, blind woman, who couldn’t tell what was good for her. “I am

going to kill your father and let you watch as his head fell on the ground.”

Hearing that, Grace chuckled. “My dear alpha, I have heard that threat before, but you didn’t do

anything to my father.” She called him out on this bluff.

That was right. Hunter had made that threat before, but he didn’t go through with it because there was

a reason for that. A reason that he was not ready to reveal yet. He couldn’t find a better time to talk

about this with Lilac. Because his woman should know

about it first before he made a move on Kellan.

“I am right when I thought you still care about me. I know that you always care about me, but the

situation is complicated for both of us.” Grace made a bold move to kiss Hunter, but she was thrown on

the floor instead.

The alpha lycan pushed her so hard on the ground, which made her screeched in pain, but he didn’t

even flinch to see how much this woman was in so much pain, as he moved toward her slowly and

pressed the heel of his feet against her hand, which made Grace screamed in so much pain.

Now it was real. Hunter didn't want to play rough with her, he had every intention to hurt her and he

made sure she knew about it. He made sure she understood that.

"Now, I will ask you the same question. Answer me. What do you know about the other lycan pack.

Where are they and what they are up to. What is the connection between your father and them?"

Hunter had tortured Kellan, but the old man refused to spill a word.

He knew how that man could be very obstinate. But, of course, Hunter had a plan ahead. He would

tread this carefully.

What a bunch of fool hey thought they were when they assumed, they could play him in their hand.

"I will not say anything!" Grace screamed. "You can't do anything to me! This is not the lycan pack!"

Grace was always a spoiled daughter and now she acted like one,

"Let's see what I can do." Hunter released her hand from his heel and walked toward the locked door,

he didn't need to look for the key, as he broke it down, which made Grace looked at him, terrifying of

how strong he was.

This might be slow game that Hunter was playing, but he would make sure, he would get the answer

he wanted, in one way or another.

Meanwhile, at the main gates, the warriors and the guards, who were there were dumbstruck to see

three hundreds lycan warriors marched toward them. They looked ferocious, this reminded them of the war that happened not so long ago.

Were they under attack?

However, the

ma of the lycan pack shifted into his human form and demanded to see alpha Aiden. Rye dragged a

beaten up man and kicked him around.

“Tell alpha Aiden to explain this!” Rye shouted loudly. He growled viciously, followed by the howling of

three hundreds beast. “Your alpha sent spies to our pack!”

Chatper 137

Chapter 137

Everything was within Hunter’s grasp, he had a hunch that Grace was being sheltered in Aiden’s pack,

especially after he got his hand on the spy that tried to gather more information in his pack. It had been

confirmed the spies were from Aiden.

Aiden seemed to have found more capable people to endure torture, because the three spies didn’t

seem to be able to keep his mouth shut once the pain registered to their mind.

After Hunter broke down the door, he grabbed Grace by her hand and dragged her to the main hall,

where the party was still very lively, it was about to reach the peak of midnight and everything went

south the moment Hunter threw Grace right in the middle of the room for everyone to see.

“What the meaning of this alpha Hunter?!” Alpha Jeremiah shouted at Cane, he was one of the alphas

from the six packs. His mate was standing behind him, but he stared at Cane, mortified by what he was

doing, especially when he saw how pitiful that woman. Whoever she was, who was being humiliated.

“Are you trying to ruin the party?!”

The other alphas disagreed with Hunter’s action too.

“Where is your manner!? How could you treat a woman like that?!” Alpha Zeke chimed in.

And with that, the room was filled with many people complained about what Hunter had done, the

woman talked to each other in low whisper, making the room buzzed with their voices.

“No wonder he acts like that, he is the alpha lycan. Do you know that the lycan is a barbarous creature?”

“Yes, I know. But, how could he treat a woman like that?”

“I feel sorry for Lilac to be with him. She must want to go back to this pack so badly.”

“Who is that woman by the way?”

And the same thing was said over and over again around the room. All of them stayed away from

Hunter, as if he was a plague and asserted their opinion about the lycan pack was a barbaric pack, who

didn’t know any mannerism.

And among these talks, which filled with disdain, Hunter stood tall there, was not affected by what they

said, he waited for the right moment, or maybe the right person to walk into the main hall. He didn’t

need to look for him because eventually the commotion would reach his ears and he would come

running.

Meanwhile, Lilac was having her own time with Luna Jasmine when both of them heard the commotion

and Lilac felt this gleeful feeling that Hunter's plan worked well.

"I know exactly where is my mate and I know what he is doing. Why don't we go to see what my mate

is up to?" Lilac's demeanor changed drastically, which made Luna Jasmine ball her fists in anger.

This was the timid woman that she had guided to be a perfect Luna, but she became the Luna

of another alpha! All of her hardwork to mold her had gone to the drain!

Right at that time a man came to approach Lilac, whispered something to her ear. This was the guard

that Hunter had left for her, which meant, Lilac has never really been alone all this time, there was this

man, who watched over her from the shadow.

"I think I should let you know where Hunter is. Why you don't come with me?"

Lilac said with a smile

plastered on her lips. She looked very beautiful when she was being condescending like this and this

made Luna Jasmine felt this uneasiness that crept in her heart.

What was going on?

"Come," Lilac said with a grin. "Let's meet with Hunter."

+5

The guard that approached Lilac was Ryan, he was assigned to watch her every movement, he was a

young guard, who would be a warrior one day and this was his first important assignment from the alpha.

Needless to say, the young guard was impressed by how well Lilac handled Luna Jasmine. He was in

awe by how well she was speaking and how good she was at humiliating her opponent without even

throwing nasty words or even cursing them.

Ryan glanced over his shoulder at Luna Jasmine and could tell that the Luna was not at all happy, she

was fuming mad and it was understandable.

Meanwhile, they walked toward the main hall where everyone had gathered around and there were

three people in the middle of the room.

Hunter, Aiden and Grace.

Lilac didn't seem too shocked to see Grace was there, because Hunter had told her he assumed the

woman sought shelter from this pack and all this time, Kellan had been in contact with alpha Aiden.

"There, my mate is there." Lilac pointed her finger at where Hunter was. She didn't approach him,

instead she stood beside Luna Jasmine as if she was accompanying her to watch this good show that

was about to begin. "Luna Jasmine, you shouldn't have sheltered a criminal like Grace."

Luna Jasmine was trying so hard to keep her expression straight, but deep down, she was boiling. Her

anger reached the roof as she listened to what Lilac said.

“Do you know that Grace had tried to kill me twice?” Lilac asked. “I have a scar on my back because of

her.” That was not true, there was still a little bit mark because of her last wound, but the healer in the

lycan pack said it would heal, but took a longer time, since her healing ability was not as good as the

lycan.

Luna Jasmine looked genuinely surprised with this revelation. She didn’t know about it. “Wh- what do

you mean?”

2/3

“Hunter is really mad at her. Her crime is not only because her father had tried to stage a coup against

Hunter, but because she herself was trying to kill me.” Lilac could see the horror in Luna Jasmine’s

eyes.

But, right at that time, there was a woman entered the main hall, wailing.

Chapter 138

Chapter 138

The woman, who was wailing was no other than Tania, Grace’s mother. She managed to escape from

the lycan pack the same day like Grace, once they learned Kellan’s attempt to kill Hunter had failed

and the alpha wanted his family to be detained.

Hunter actually planned to kill them right in front of Kellan, he wanted to see how far that man could

hold off to watch his own family was being butchered because of him.

Yes, Hunter was a sadist whenever he let his beast’s side to take control, he would have done that if it

was not for one reason that he still kept it as a secret.

If it was not for that reason, he wouldn't need to take a roundabout route like this to get to his point.

"Please, please... don't hurt her... don't hurt her..." Tania was wailing. She was rushing here

immediately the moment she learned the alpha had captured Grace. She had tried to talk her daughter

down, so she wouldn't cause trouble and focus on finding a way to save her father, but she went me

ntal the moment she learned Hunter was here.

And today Tania's concern was proven right. She had tried to confine Grace inside her bedroom, but

she actually went out and found Hunter on her own, despite knowing they should hide from the alpha

lycan.

"Please, please... please, alpha Hunter. I beg you. For the sake of the good relationship between your

mother and I." Tania knelt down, while hugging her daughter, who kept trying to go to Hunter.

Fut

h her obsession over Hunter and Tania had to admit that.

Grace was a little bit sick in the head Her daughter's obsession was not normal anymore.

However, Hunter shifted his attention toward Aiden instead and spoke loudly. "You sheltered criminals

from my pack in your pack!" Hunter glowered. "Explain this!"

Everyone had heard about the family of criminal that had ran away from the lycan pack and what

happened there, but they didn't know the face of that family at all. Let alone to shelter them, they didn't

even want to get involved and find trouble with this alpha lycan.

But, the fact that Aiden was actually the one, who had sheltered the family was a shocking news for all

the alpha present.

All the guests watched closely of the two pitiful women and realized they were indeed the lycan. The

lycan had their own distinguish feature, you would be able to see it upon close inspection, that was why

they were able to tell, especially from their scent.

Most of the lycan would have this woody scent, since they lived deep inside the mountain, their

domain was a terrain that surrounded by mountains.

Therefore, when Hunter said the two of them were the criminal from his pack, they believed that, since

the only lycan pack they knew was Hunter's pack.

The information about the other lycan pack had not yet made public.

“Explain about them,” Hunter said in dark voice, which made the room fell into a deafening silence. “Do

you want to stage a war against the lycan pack? This is clearly a breach of peace treaty.”

Aiden didn't have a word to say, neither he had an excuse to retort him. But, this only made his hatred

toward this alpha lycan deepened.

“I don’t know them,” Aiden replied without thinking. He gritted his teeth because of the humiliation that he had to endure. If he could, he would end Grace’s life and her mother right there and then. They didn’t even say a word about the other lycan pack to him and he still wait for them to speak, but now they caused him this big trouble!

“What bullshit are you saying?” Hunter narrowed his eyes, as he shifted his attention toward the two women. “I will take them back to my pack.”

“You can do as you please,” Aiden replied, his voice didn’t falter at all, but you could tell he was trying his hardest to keep his anger in control.

And right at that time, Gabriel came to report the situation at the gate. It became more and more

concerning because the gamma from the lycan pack, Rye had caused trouble and right now they

threatened to forcefully go inside the pack if they were not allowed to return the three men they had

captured to Aiden themselves.

Their threat was a real deal, as per now their warriors were on the brink of a battle.

“This is not right!” Alpha Derryl from Red Moonlight roared, he glared at alpha Aiden and alpha Hunter.

“What the meaning of this!? We are here for a celebration not for a battle!”

“You need to ask that to alpha Aiden, I am not the one, who breached peace treaty!” alpha Hunter

roared angrily and this silenced all the protest.

Luna Jasmine was so scared. This alpha lycan was very scary when he lost his cool, she had seen it

once and she didn’t think that was a nice experienced, no matter what the circumstances.

However, Lilac looked very calm. She had known about this beforehand, Hunter had explained to her

about his plan, though there were a few things that went differently, but it was still within Hunter's

grasp.

"My gamma will definitely make it through the gates if you didn't say a word to invite him in and

introduce the three men that you sent to help Kellan escaped from my dungeon." Hunter tilted his head,

the look on his eyes filled with malice.

Hearing this, there were an uproar, demanding Aiden to explain the situation, since none of them

bought it when he said that he didn't know these two women. He was the alpha of the pack, there was

no way stranger could come into the pack without his knowledge.

Aiden was being forced to make decision, but above all else, he felt this humiliation and luna Jasmine

felt the same thing. She glared at Grace viciously. This woman was very stupid to actually

approach Hunter on her own. She couldn't understand how she couldn't think with her brain that it was

out of question for her to stay away from Hunter and kept herself hidden.

"Bring the gamma from the lycan pack here?" Aiden finally gave his order. He was cornered.

With that. Gabriel and Al went to fetch Hye and a few people that would come with him. This situation

However, Grace was still there and in her crazy mind, the sight of Lilac was a sore in her eyes. She

didn't hesitate to stand up and was about to attack her.

Chapter 139

Chapter 139

“No! Grace!” Tania looked mortified when she watched how her daughter was about to attack Lilac, she couldn’t get her in time.

But fortunately, before something horrendous could happen to Lilac and she got hurt again because of

Grace for the third time, Hunter had moved faster. There was no way this filthy woman would be able to

room. Her body was hurled against the wall before she stopped skidded on the floor and a loud scream

filled the room, along with Tania’s voice, the old woman was screeching, while the other people held

their breathe.

Hunter was being generous with Grace when he only broke a few of her ribs.

Even Lilac was surprised to see how harsh Hunter’s reaction was. On the side line, Rubby had the

same feeling, she was shocked when she just entered the main hall and was served with this sight.

Ruby came here because she heard a commotion from the main hall and the party unavoidably was

being stopped.

But what greeted her was this violence sight. Yet, after she learned why Hunter did that, she felt this

jealousy in her heart. Aiden wouldn’t have done something like that for her. She resented the fact that

she was willing to give up everything to have a man like alpha Hunter in her life. Someone, who would

protect her and couldn’t care less about anything else.

Ruby had seen Hunter before, but she had never seen him in this light... everything about him made

her body warmed.

The way he held Lilac in his arms and asked whether she was fine after the violence sight... she

wanted all of that.

"This will end quickly, after that let's go back to our pack." Hunter wrapped his arm around Lilac's waist

protectively, he didn't even hold himself back when he showed his affection toward her.

"Okay. I am a little bit sleepy," Lilac said.

They acted very casually when in front of them Tania and Grace were wailing, crying their hearts out,

while the other guests were staring at Hunter with disdain and the look of fear. It was still unacceptable

to hit a woman, but then they didn't know what kind of woman Grace actually was...

"You look pale." Hunter caressed her cheek. He was way more concern about Lilac's complexion than

the people's judgment on him.

After all, their opinion about the lycan had never been good and now he proved it to them that they

were right about it.

"I am fine, maybe because I was outside for long." She was with luna Jasmine before this in the

garden, it might be the night wind that made her felt tired than usual.

However, Ruby was not the only person, who felt her body warmed with the sight of Hunter's

affection toward Lilac, but Aiden too. In fact, the alpha felt his body was boiled. The sight of them

burned every cell in his body and set fire in his heart.

He wanted to pounce onto Hunter and took him down for his audacity to touch Lilac, his mate. He

hated it when someone else touched her, especially when she looked so beautiful like tonight, as if the

moon goddess herself, who had crafted this woman. The woman for him.

Not only that, Aiden felt this burst of anger toward Hunter because of the way he had humiliated him in

front of so many eyes!

“Alpha Hunter, you shouldn’t have hit a woman no matter how angry you are,” Aiden said, he was trying

to be righteous here, this was his reckless attempt to one up Hunter in front of so many eyes,

portraying him in a bad light.

Unfortunately for him, Hunter didn’t care about such thing. He didn’t even grace Aiden with his respond

and simply focused on Lilac. He asked Ryan to get a chair for her and let her sat down because Lilac

refused to go back to their carriage first. She wanted to be there and watch everything unfolded.

“You b itch! You b itch! Stay away from my man! Stay away from him! Hunter is mine!” Grace shouted

at Lilac, she seemed to forget that Hunter was the one, who had kicked her away.

“Stop it, Grace! Stop this!” Tania was crying, she looked horrible with the way Grace acted. She looked

crazy.

As her mother, Tania was well aware of her daughter's infatuation toward Hunter, even before what happened, Grace already showed her strong obsession on him when they were little. But, there was nothing she could do, but to keep her in her bedroom back when they were still in the lycan pack.

"I am going to kill her! I am going to kill her mother! Let me go!"

The people were stunned by the audacity that Grace displayed, she openly threatened Lilac, the alpha lycan's woman.

Now after they saw this, they didn't feel really bad for Hunter to kick her.

A few moment later, they could hear another commotion that traveled from outside of the main hall, it

seemed Rye and a few lycan warriors along with the three people that they claimed was sent by Aiden had made their way here.

Rye came with three warriors, where each of them were restraining one man, who they claimed the people that Aiden had sent to free Kellan.

"Good evening everyone. I

me that murderous look ow this is the least you want to happen in this festivity, but don't give

me that murderous look." Rye said with light tone. The gam ma looked very calm, despite realizing he

was the one, who had ruined this festivity.

Rye grabbed one of the men and then threw him in the middle of the main hall.

And now, all of the people's attention there was no longer on Grace, which upset the woman, because

she couldn't get the attention she craved.

Hunter was very cruel with his method and no one would be able to deny how efficient he was. Not only

he managed to catch the three people, but his sources were able to get important information about

them.

These three men were Rubby’s family.

Brian was her father, this was the man with the look of rogue, a man who growled a lot when he was

being dragged here and the younger one was Banco, Rubby’s eldest brother, someone who had

tortured her to work harder and take the money from her back when she was still with them and the

third man was Rubby’s uncle, Derek, he was Brian’s younger brother.

These men had created hell when Rubby still stayed with them. Aiden knew that, but why he chose to

get them here and involve them in whatever sickening plan he had. He knew very well how much

Rubby hated them.

But now, her nightmare was right before her eyes when she thought she already managed to free

herself from them.

“You don’t look happy with the gift from us, luna Ruby?” Lilac asked, she looked relax, sitting on her

chair while observing Ruby’s reaction to see the three men. “You don’t like it? Because you have been

away from your village for so long, so I thought you will be happy to see them again, aren’t they your

father, brother and uncle?”

Lilac was also shocked to learn these three people’s background and realized how shallow Aiden could

be when he hired them to get the job done. They were literally rogue, how could Aiden expect a clean

job from them when they didn’t have the skill?

Ruby felt her throat was very dry when her father called her name harshly with demanding tone like he

used to do. She felt like she was that little girl again, who was helpless and hopeless against

them.

“Ruby! Come here and save us!” Brian growled, as he treated his daughter like he used to do it. Their

wound had healed, but because of the silver chain around their ankles and wrists, there was nothing

much they could do. “How dare you only standing there and do nothing?! You are the luna of this pack,

right?! Tell him to do something!”

Brian even had the audacity to get Aiden into this. After all, he was the one, who ordered them and

gave this task, thinking if they failed, they would be killed, but this was out of Aiden's calculation. He

didn't think Hunter would bring them here instead. Alive.

"Alpha Aiden! Save us! Save us!" Banco started wailing and crawling toward Aiden, the torture was

very brutal, if he was not a shifter with a great healing ability, he was sure that he would have died by

now.

"This is the gift from me and alpha Hunter," Lilac said to Ruby, her eyes pierced through Ruby's heart,

even though Lilac was smiling kindly at her. "I hope you like this reunion. More so, the baby should

know his family too, right?"

Ruby couldn't utter a single word. She was not even sure when exactly she turned around and rushed

out of the main hall, she was vomiting in the garden. The thought of her family was close

"Are you still saying that you didn't know them, alpha Aiden?" Hunter put his focus back on Aiden,

whose face had turned a few shades darker. If he could, he would have pounced onto Hunter and killed

him right there and then, unfortunately, he was not the strongest and he would put himself in greater

trouble if he did that.

With this alone, it had proven that he had breached the peace treaty between the werewolf and the lycan.

“Here! Take this and leave!”

Suddenly luna Jasmine grabbed her necklace until it snapped and then threw it on the floor. This was

the same necklace that Aiden promised to give it to Hunter when he let his healer to help during the

labor.

However, things had escalated too quickly and this was not only about necklace. It was a whole

different thing entirely.

“Take that and leave!” Luna Jasmine was not a fool, she could see how her son was in dire situation

and her first instinct was to save him, she needed to make this alpha lycan to go. “You only came here

for the necklace, right? Not for the festivity and the celebration of the heir for the pack.”

“I am afraid there will be no pack to inherit for your grandson if alpha Aiden couldn’t come with a

reasonable reason about why he sent these people to our pack and shelter criminal here.” Rye took

over-Hunter’s role to question them.

“How dare you to say something like that!”

There was more commotion that happened, but then alpha Derryl shouted. His voice boomed inside

the main hall, silenced everyone.

“If alpha Aiden was proven for the crime, he needs to stand for trial! This has nothing to do with the

other pack! If alpha Aiden was guilty, he needed to pay for his own crime!”

Alpha Derryl’s suggestion

got a lot of support from his fellow alpha, they were relieved because they could get away from this

trouble that alpha Aiden caused, after all they didn't want to go for another war with the lycan. "Alpha

Aiden's action didn't represent the rest of the five packs!"

Lilac blinked her eyes, she stared at her mate with eyes full of admiration because everything went as

On the other hand, Aiden looked like he was going to kill Hunter instead...
