

Chapter 131

“M-MY K-KING!!!”

Crystal was shocked when she saw Aaron was the one who grabbed her hand. Fear was the only thing raising in her heart. She did not know what Aaron heard or what he was thinking right now. Aaron's glowing red eyes were darting at her.

Alina opened her eyes and looked at Crystal who was looking at someone like she was seeing a ghost.

When Alina turned her eyes to Crystal's hand and the man who was holding it, it was Aaron. Behind him, Delta Darren also came there.

Alina left a sigh of relief. The worry about seeing an innocent person getting killed in front of her eyes left her heart. Selena was okay now. She did not have to save Selena anymore. Aaron came to save Selena so she was out of burden.

She felt a sharp pain in her arm. When Crystal stabbed her arm, she felt pain but now after feeling relief, she was feeling severed.

She heard Crystal. “M- My King, it’s good that you came here, otherwise she would kill your future Queen.”

“N-No-” Selena tried to say but felt something in her throat as if someone was wrapping something around her neck although no one was doing anything with her physically.

Crystal continued, “My King, if you don’t believe me then you can ask Silvia. She is Beta Lucas’s mate. She will not lie to you and she is very fond of Alina. She would never lie about Alina, right?” Crystal said and tried to yank her hand but who had more strength than the king of Lycans?

Alina looked away from Crystal and tried to process everything. Her mind was getting blurry. She knew Aaron would believe Crystal because Silvia was the eyewitness this time.

Crystal made the same plan to choose a perfect pawn for her. Last time she used Daisy who cared for Alina and this time she chose Silvia who supported Alina.

Suddenly, Alina heard the sound of a broken bone and a loud scream after that.

She turned to the person who just screamed. It was Crystal. Crystal's hand was broken by Aaron.

She turned to Selena and saw she fainted the moment Crystal screamed.

At the same time, Silvia also fainted. Alina felt everything was over now. The thing she came to stop was now had finally over.

They did not faint because of the scream but because of Crystal.

Crystal stopped chanting her spells which stopped their minds and broke every spell which was spell bound to their minds.

She remembered how Silvia was shocked when Crystal went to kill Selena. Silva was shocked because she could not believe Alina was going to kill Selena. She had never thought of Alina as an evil woman. She was traumatized and could not believe her eyes.

Alina felt dizzy because of the wound on her hand. The pain was increasing each second. She lost her balance and was about to fall to the ground but two arms wrapped around her waist and did not let her fall.

When Aaron saw her losing balance he left Crystal's hand and held Alina in his arms. He bent down and put Alina's head on his lap.

He saw the wound on her arm. It was like someone made a hole in her arm. The wooden stake ripped her skin and made it void.

Aaron's red eyes were scanning Alina's face carefully. Her eyes were closing slowly.

He glared at Alina and ordered with his deep voice. "Don't you dare to close your eyes."

Alina tried to open her eyes wide when she heard that. Aaron patted her cheek. "I said don't close your eyes." He said when he saw her struggling to keep her eyes open.

"My King--"

Delta Darren interrupted Crystal when she again started talking. "Stop your fucking mouth bitch. It is all because of you."

Delta Darren warned Alina from the start but Alina did not listen to him and believed that evil witch. From the start, all the officials knew how she was. But they had no idea that she would become like this. She became a murderer. When Alina told every official about her, they believed her

because they knew Crystal was a very powerful witch and could do that too.

Beta Lucas and other officials came there. When Lucas saw Silvia lying on the ground, his steps halted. He bent down to her and tried to find if she was wounded anywhere.

“Silvia is fine.” Delta Darren assured him.

Lucas nodded and turned his head to Aaron. He saw Aaron patting Alina’s cheek while Alina was fighting with herself to keep her eyes open. His eyes fell on Alina’s wound and then at behind Alina. Selena was lying on the ground just like Silvia.

Beta Lucas told Theta Cooper and Gamma George to take Selena and Silvia back to their rooms. They nodded.

Lucas could leave with his mate but his first priority was his king who was his best friend. Aaron needed him right now.

Meanwhile, Crystal saw Aaron was trying to help Alina. She did not like it. The pain in her hand was something she could not stop. She was lost in Aaron. She felt numb all over her body and mind when she saw Aaron there. She was so lost that she stopped chanting inside her head and her black magic was broken.

She knew who Aaron was. No magic in the world could affect his head, not even his official one.

So they did not see her as Alina.

Crystal was scared inside her heart. She tried to explain again.

“My king, don’t feel sympathy for this woman. She tried to kill our Queen. She said she wanted to be the Queen which is why she killed King Atlas. Now Selena was going to be the Queen so how could she accept that? So she tried to kill Selena and I just saved our future Queen. My king, you should not save her but kill her immediat-“

Before she could complete she felt a tight grab on her neck. Beta Lucas’s grip was so tight that it would leave bruises.

“Dare to say a single word. You killed King Atlas and then you tried to kill Selena just now. You always make a pawn who becomes the witness. This time you choose my mate. HOW DARE YOU PLAY WITH HER MIND?” Beta Lucas yelled at her.

Crystal felt that she was losing her breath. Closing her eyes she felt like she was coming close to her death.

Alina watched Crystal and Lucas with her blurry sight.

Aaron did not interfere in the conversations, not even he turned to them. Her whole focus was on Alina only. He looked desperate. His eyes turned back to normal from red when Alina's eyes met his eyes.

"I will make everything right." He said in a lower tone.

Alina shook her head. "I-I..."

"Ssh. You don't have to say anything."

Crystal saw all of this and her eyes also turned glowing green when her heart beat almost stopped because of the pressure on her neck.

She used her power and grabbed Lucas's wrist. Her nails came out long and black, piercing into Lucas's wrist.

Beta Lucas wheezed in pain. Her nails were poisonous. Delta Darren tried to snatch Lucas's wrist from Crystal's grip.

Beta Lucas did not care about his hand but tightened his grip on her neck, he would kill her by hook or by crook.

Aaron saw that and growled at Crystal. The growl was so loud that the whole pack house was almost shaken up.

Because of the growl, Crystal left Beta Lucas's wrist and fell to her knees with a thud.

Beta Lucas also left her neck and let Aaron handle her. Other officials came back and saw that.

Aaron wanted to kill Crystal now but he did not want to leave Alina. He could kill her later but now Alina's health was the most important thing to him. He already mind linked the pack doctor and he was on the way. He pressed his hand around her wound so that b***d could not come out more.

Aaron ordered his officials. "Put her in the main cabin of the forest dungeon."

Beta Lucas frowned. "We should kill her right now, Aaron."

Crystal's head was down. Hearing their conversation she chuckled. Everyone looked at her.

She did not raise her head but said,

“Do you all think I am that fool?”

She lifted her head and looked at Aaron directly. The man who was in her eyes from the start was now talking about killing her.

She dreamed of becoming his Queen from her childhood. Though it was her mother’s plan, she dreamt of this equally.

Now her dream was totally broken.

However, she was the most powerful witch. How could she just die in front of a simple failure of her plan?

She smirked at Aaron. Aaron’s eyes turned red.

“You will kill me but what about your mother, my king? You have to lose her too with me.

The poison I used on her and the spells I bound her with, are deadly.

IF YOU KILL ME, SHE WILL DIE WITH ME.”
