

Chapter 80

Alpha Rick was shocked. “WHAT??”

Alina nodded at him.? “Yeah.”

He furrowed his eyebrows. “What are you saying, Alina? You can not do this.”

Alina closed his eyes. ‘Even Rick does not believe this. But you believed it, King Aaron.’

Alpha Rick put his hand on her shoulder. “I know there is something wrong. Tell me what happened.”

Alina looked up at him and told him the whole truth.

She told him how late King Atlas behaved rudely with her and told his son to marry someone else, how he said to Alina that she had to cross his dead body to become a Queen.

She told him about her best friend who was a powerful witch and set up everything with her from the childhood because she was King Aaron's mate.

She told him how Crystal tricked former Queen Daisy's mind with illusions by black magic.

She told him how she wanted to escape but King Aaron caught her and put her in a dungeon. He gave her the death sentence and before running away she almost died.

She told him everything.

Alpha Rick was just listening to her.

"I didn't know you had to endure all of these things."

Alina looked away from him and exhaled.

She did not want to share anything with anyone but what could she do? He gave her shelter, he would make her the Luna of this pack, and the biggest fact was she had to prove herself that she was not the murderer. So she needed him. She did not want to use him for her purpose so she would do his Luna's duty properly.

“Are you okay?” He asked.

“Yeah, I am okay. Thank you so much, Rick. Sometimes I thought if you were not there to help me, I would die.”

“Don't say that. We will find a solution and proof to everyone that you are not the real murderer.”

Alina nodded at him. He let her cry in his arms. He somehow liked this woman. She was not like others. She was strange but a good woman. Alpha Rick could see potential in her.

After some minutes Alpha Rick left her room. Alina got in the bed and tried to sleep.

‘Tomorrow morning I could be with them and ask them about my parents.’ She thought and continued to try to sleep.

In the morning, Alina woke up and got ready for today. Today this lack arranged a meeting for Lycans. She had already known that Lucas and George would come here today.

She went downstairs and saw a few maids talking about the officials of the Lycan territory.

“I heard the Lycan king will come here too.”

“Yeah, I also heard that. I heard he will come tomorrow.”

Hearing what those maids were saying, Alina felt goose bumps all over her body. She felt fear running down her spine.

‘The Lycan King? Why would he come here?’ Alina thought.

After some time she met with Alpha Clark and Luna Julie.

“Did you eat?” Luna Julie asked.

“No, I was waiting for you two.”

They had their breakfast and sat on the couch. They talked about their pack related facts. All the problems that should be solved by Alpha Rick.

“Do you know that the Beta and the Gamma came here from your pack?” Julie asked.

Alina looked at her and nodded.

“Yeah, I know about it.”

Julie stared at her. She did not know why she felt like this whenever she saw Alina. She felt like she would be a very powerful woman very soon. But how could she be so powerful? She was a normal Omega.

“Alina.”

“Yes?”

“Are you hiding something from us?”

Alina shook her head. She was hiding her past from them. But last time she told everything to Alpha Rick and now she was feeling relaxed. She did not have to worry anymore because the Alpha of this pack knew everything about her.

“I am not hiding anything. Your son knows each and everything about me.”

Clark and Julie glanced at each other and then looked at Alina while nodding their heads.

Alina was nervous because she was eager to meet Beta Lucas. She felt sorry that Beta Lucas had to take a risk of his life to help her.

Without him helping her, she would be dead. She owed it to Beta Lucas.

She saw the Theta and Delta of the pack come out of the meeting room.

“What happened inside?” Alina immediately asked Theta.

“Nothing special, just visiting the pack and all. They are telling us that King Aaron will come here to visit our pack. So we don’t have any time to prepare everything for him. We have to work from now.” The Theta replied.

Alina tightened her grip on her gown. ‘So the maids were telling the truth. He is coming here?’

“What Beta Lucas said?”

“Beta Lucas and Darren said king Aaron will come here with his soon to be Queen.” The Delta said.

“Q-Queen?” Alina was shocked to hear that.

She thought she forgot and hated that man. But when she heard he was coming here with his soon to be Queen, she felt pierced in her heart.

“Is she a witch?” Alina asked.

“What are you saying? Of course not.”

Alina frowned upon hearing that. She thought Crystal had succeeded in her mission.

“Then?”

“His soon to be Queen is a Lycan.’

Alina was stunned. ‘So you have already chosen a woman like your standard, just like what your father said. Nice.’ Alina thought about Aaron.

Alpha Clark and Luna Julie were listening to them and observing Alina. They could see how sad Alina was looking.

Few seconds later,

The door of the meeting room opened and all the people from the meeting room came to the living launch.

Alina was looking down but when the sound of footsteps came to her ears, she looked up and saw Beta Lucas and Gamma George talking with Alpha Rick and his other officials.

Beta Lucas halted walking when his eyes fell on the woman who was sitting with a middle aged couple.

His eyes widened.

“A-ALINA!!!”
