

Chapter 83

“HAVE YOU EVER MET KING AARON?”

Alina was shocked by Luna Julie's sudden question.

“Why? Why do you think I have met him?” Alina asked.

“Nothing. I am just feeling like you know him.”

Alina shook her head. “I don't like that man. He is a merciless man who did not care about innocent people. He is a man who is blinded by his powers and abilities that if any one is blamed for something, he only believes his family. He is partial when it comes to his Royal family.”

Julie just asked her a simple question but she gave her a long answer. So it was clear that Alina knew King Aaron.

Julie thought she was from King Aaron's pack so, of course, she would have seen King Aaron when she was in her pack.

"Have you arranged everything?" Alpha Clark asked Alice.

"What arrangement, Alpha?" Alina asked confusedly.

Julie shook her head. "He is coming with her soon to be Queen. She will be our Queen too. The Queen of Lycans. We are not under their pack but we have their alliance so we need to take care of their needs."

Alina did not hear about that Unknown woman anymore.

"What can I do now?"

"Arrange the best bed room for them. They are royal couples. You should decorate a master bed room for them. We all know how kings are. They needed all these things with their partners. We can not offend him and his Queen."

Alina stood up instantly and nodded at them. "I am going to manage something then."

Alpha Clark and Luna Julie nodded at her and thought she was a very thoughtful woman.

But Alina went directly to her room and locked the door. She closed her eyes and rested the back of her head on the door.

‘Master Bedroom? Arrangements? Are they coming here for their honeymoon?’

She did not know how to control her heart. How would she control it tomorrow?

“He is your predator. Stop thinking about him. You only have one goal to achieve which is revenge. You will have to face him if you want to prove yourself right and take revenge on Crystal.” She said to herself.

—

It was an early morning,

Alina woke up earlier. She got ready and told her maid to leave her alone. She prepared herself today. She had to face King Aaron.

She did not do anything wrong, so she did not have to worry about it. Alpha Rick told her that she would be safe with him always. So there was no need to worry at all.

She went for breakfast and after that, She sat on the couch. Alpha Rick sat beside her.

“Are you nervous?” He asked her softly.

Alina looked up at him.? “No, Rick. I am just-“

Rick held her hand and patted it on her hand. “Don’t worry, I am with you. He can not do anything with you when I am here with you.”

Alina nodded at him. Beta Lucas and Gamma George noticed everything.

Beta Max told them that he had prepared everything for King Aaron and his soon to be Queen.

Beta Lucas got a call. He received the call.

“Yes, I am here. Where are you?” Lucas asked.

Everyone understood who had called him. It was King Aaron.

“Okay, come fast buddy. I am here in the pack house.” Lucas said and hung up.

He looked at Alpha Rick and said, “He is on the way.”

Alina felt her heart beginning to beat fast hearing that.

Alpha Clark looked happy when he heard that.

“I thought that he would change his mind but thank the Moon Goddess that he is coming here. It had been years since I had met him.”

Alpha Rick frowned at him. “Why are you so happy?”

“I did not like his father but I like him because of his behavior. That young man solved every problem at this young age. His power is something unmatched by anyone. He is just perfect.”

Alpha Rick rolled his eyes. “I know him, dad. He is not as perfect as you are thinking.”

“Rick! Stop it. His Beta and Gamma are here. Why are you saying this in front of them?” Luna Julie said in a lower tone.

“They all know about my personality so it doesn’t matter.” He said loudly.

Beta Max almost facepalm.

After half an hour, They saw a few expensive cars stopped in front of their pack house.

Alina looked at the main door coldly. She saw a few guards open the car’s backside door and a woman with a white dress came out of the car.

She was beautiful. She did not look like an arrogant woman but she was with King Aaron so somehow arrogance came to her with the wind.

Alina observed the woman. She got down from the car and then took out the phone to click a selfie as if she came here for a trip and it was not a pack house but a tourist spot.

Alina felt pain in her hand. She looked at her hand which was grabbed by Alpha Rick.

Alina turned her head to her side and saw Alpha Rick's grim face.

‘What happened to him?’ Alina thought.

She saw that Alpha Rick was behaving restlessly. He looked stressed.

“What happened to you, Rick? Are you okay?” Alina asked him.

Alina wanted to hear his answer but before that, she felt the scent that made her crazy like before. It was her mate's scent, King Aaron's scent.

She understood that he got down from his car and entered the pack house.

She closed her eyes and exhaled. She did not want to see this man who wanted to kill her without finding out the whole truth.

Alina felt Rick's grip tighten again. She hissed in pain and looked at him.

“Why are you behaving like this, Rick? What is wrong with you?”

She saw Alpha Rick staring at the girl who everyone called the soon to be Lycan Queen.

Alpha Rick mumbled,

“SHE IS MY MATE.”
