

Chapter 95

“No, I have no connection with him.”

Aaron stared at her. Selena could not understand what he was thinking about.

“Okay, I get it. Now get out of my Room.” Aaron said and turned around. He headed to the cupboard and opened it to take out his clothes.

“But Queen Mother said-“

“NOW.”

Selena immediately nodded and left his room.

When Aaron saw she left his room, he went to the door and shut the door. He did not want anyone in his room.

He did not accept anyone in his heart., At least not anymore.

He came back to his aura again. His merciless attitude shadowed him once again.

He was silent for a couple of months after his father's death. But when he saw his father's killer, he was not silent anymore.

He only wanted to take revenge from her. He wanted her to live in a hell.

Next morning,

Aaron went to the dining room to have breakfast with his mother. He only went there to give his mother some time.

“Good Morning, mom.”

“Good morning, my son. I heard you didn't have your dinner yesterday?”

Aaron glared at Selena who was looking down at her plate.

“Did you set a spy on me, mom?”

“Don’t call her spy, Aaron. She is your soon to be Queen.” Daisy said.

She did not want Crystal as her daughter in law so she made a decision for her son. She went to the Lycan realm and found the best girl from there. They said Selena was a very good girl with morals and ethics.

So she handed out a proposal to her parents. Her parents were opportunists so they agreed with the proposal immediately.

Who would say no to her powerful son? She had already known that everyone would agree to marry with her son.

They saw Crystal enter the dining room. All the officials were there too.

Beta Lucas and Gamma George looked at her angrily. They wanted to kill this woman who destroyed their friend’s and Alpha’s life.

Their wolves were begging them to let them release so that they could tear up her body and kill her instantly.

But they controlled themselves and tried to be serene.

“My king, you are back!” Crystal said.

She pretended to be innocent in front of others. She did not even say anything about Aaron's choosing a mate for him.

She did not tell Daisy not to choose a mate for her son. She behaved like she was upset about King Atlas's death.

However, Daisy was not a fool. She knew her really well. She knew Crystal liked her son so she did not tell anyone and took home a girl like her likewise.

If Daisy did not see Alina killing her husband she would not do something like that.

Sometimes she thought why did Alina do that? She was the Queen once, she also had problems with her husband before but she did not ever think to kill him.

She despised Alina. She dared to kill Atlas, her mate mercilessly.

The moment when Atlas died she still remembered. Atlas told her Alina's name frequently. He might tell her to punish Alina.

"Did you have fun in the Blue Moon Pack?" Crystal asked Selena.

Selena did not like Crystal too much. She guessed that Crystal liked Aaron and wanted to grab her position on the throne.

“What’s so fun there? My king only went there for a meeting. We just spent one night there and came back the next day. I went with him to accompany him, we didn’t go there for vacation.” Selena replied.

Crystal frowned at her. She always tried to humiliate Selena but this woman was too clever for her. She knew when and how to talk back.

“keep quiet and eat silently.” King Aaron ordered them. They nodded to him and quite ate.

“How is Alpha Rick?” Daisy asked Aaron.

Aaron paused eating and looked up Daily.

“He is okay, why?”

“He is like our son. His father was a very strong Alpha so we agreed with the alliance with his pack. Hope everything will be okay with his son too.”

Aaron nodded at her. “Hope so.”

He said and continued eating his food.

After finishing breakfast,

Aaron went to his office. He called his officials in his office room.

One by one everyone went there.

Aaron told them to sit on the couch and made his way to the couch.

“I want every detail about Alina brown.”

Delta Darren and Theta Cooper were shocked. “What?”

They did not know Alina was alive. They felt bad when they heard she died in a fire accident. They adored her. So they were sad at that time.

However, now Aaron told them he wanted every detail of her. How?

“Aaron, What are you saying? She is dead.” Theta Cooper said.

Aaron glared at Beta Lucas who was silent. Then his eyes fell on Gamma Gorge.

“Why are you both silent now? Explain to them.”

Gamma George looked at Theta Cooper and Delta Darren who looked equally confused about what Aaron was saying.

“She is alive.”

Delta Darren and Theta Cooper’s eyes were widened.

“What did you say?? How?” Delta Darren asked.

Beta Lucas sighed and replied,

“I helped her. I helped her to escape from here.”

Aaron clenched his jaw upon hearing that again.

Lucas continued,

“I helped her because I knew she was innocent. She didn’t kill King Atlas.”

“Are you done?” Aaron asked.

Beta Lucas tried to make him understand again.

“Aaron, you are thinking wrong. She didn’t kill him. She is Alina, our Alina who was very childish and pure hearted. You know in your heart that you also didn’t believe it when you heard she killed your father.”

“ENOUGH.” Aaron yelled at Beta Lucas.

“Enough is enough. What you did was an equal crime like her. But I am not punishing you because I know that woman. She might manipulate you. Just like she is doing to Alpha Rick now. She is a characterless woman.”

All the officials were silent. They were thanking the Moon Goddess that Aaron did not kill Alina.

They heard him,

“Eyes on her for five days. She has lost two days from her one week. In these five days, she will step forward to my hell.”
