

## Chapter 77

### Anaiah's POV

Tears formed in my eyes and as if feeling my gaze on them, they looked up. The woman was Denise and my blood boiled, however, I didn't approach them, I went to the suite and locked the door. I sat on the bed and heard soft knocks on the door, it was Leon, I didn't open the door for him immediately.

'Babe, babe, open the door,' He slurs, was he drunk right now? I sniffled and crossed my arms against my chest

'ANA, I'll break this door down if you don't open it,'

He kept begging but didn't see through with his threat, the soft barging stopped and I lie on the bed as well, he can sleep in another room tonight.

I woke when the sunshine hit my skin and got out of bed. I went to the bathroom to brush my teeth and do my routine. I was leaving for the weekend to The Sunset pack to clear my head. I look in the mirror and scowl at my appearance, my eyes are puffy and red from all the crying I did last night but I didn't care.

I wore my royal blue pants and a white top, threw a blazer over it, and carried my designer handbag.

I was still looking in the mirror when Dan called out for me

'Luna, we have a situation out here,'

I can hear laughter, I open my door and I am dumbfounded. My mate is sleeping in a very uncomfortable sitting position, his back pressed against the wall.

Jack and Dan are laughing and taking snaps of him.

'Brotherman has been kicked out!' They laugh, however, the king is deeply asleep and snoring softly, his jet-black hair is disheveled and some is falling on his forehead. I crouch down and caress him, he stirs a little at the sparks and opens his eyes just for a second, and smiles before closing them again.

'Stop laughing and help me bring him in, please,' The guys calm their hysteric laughs and take him onto the bed, Leondre continues to sleep and sits next to him, staring at him.

'What happened last night? Why were you with her?' I have so many questions flooding my head but staying here any longer is making me sad so, I leave to go to my family. Opening a portal, I appear in front of the huge packhouse.

'Sister!' My brother's hands were already outstretched for me and I run into them, hugging him tightly and pouting, he pulls me away from him and lifted my face so that our eyes meet.

'What the fuck did he do?' Enrique growls, I hit his shoulder playfully and go passed him into the house.

'What did that Lycan mate of yours do to you?' He asks, I go up the spiral staircase and look at him in the eyes,

'I'm three weeks pregnant,' He slanted back a little bit, his mouth in an o shape and I continue to walk to my room, I knew what he was thinking just like Leondre, they think it's dangerous for a wolf to have a royal Lycan pup but they seem to forget that I'm a special and rare wolf with powers of my own, just last night, I commanded Leondre, I didn't know I could command a king! The most powerful Lycan in the realm.

'And Leondre is freaking out like a little bitch,' He says, lying next to me, we are both facing the ceiling.

'Hey! Respect my mate but yep,'

'Does he even know that you are more powerful than anyone, maybe even more powerful than him because you're female,' He says, amused. I smile, every day, I feel the power within me grow and my telekinesis is outlandish, I react very strongly and use it unintentionally

I explain what has been happening lately with my powers and he is impressed

'It's the baby, Ana, the hormones and you're growing and so are your powers,' I rub my belly and turn to face him,

'My baby,'

'Your baby will be so powerful, I'm scared for the world,' He laughs.

'But sister, you need to tame them, especially under the full moon,' I did read that they grow and cause damage hence I have to stay with my mate that time.

'I want to buy clothes,' I stretch out my hand and he looks at it, he sighs and gives me his black card. I need to forget what happened with Leondre and erase that image I saw in the foyer, him hugging another woman.

I text Samy and in twenty minutes, she comes happily.

I show her the card and she smiles widely, 'Wanna go shopping with me?'

'Yes!'

I open a portal to town and she jump in, we appear in town. We run through the stores and get the clothes we need and unlike Arya, Samy is also a lazy shopper like me but as we were going back, something catches my gaze.

Leondre's POV

I groaned waking up, I have a terrible headache,

'Babe,' I touch the side of the bed but my mate is not there, I open my eyes and sit up, going to check in the shower,

'Ana!'

Why do I feel horrible? I go downstairs in search of Anaiah but I don't find her, I freeze when my eyes dart to the foyer, and everything that happened last night rushes back to me

Oh fuck

'Yes, Fuck, you Moron,' My Lycan, Saga sneers.

My mate is pregnant and I was an asshole to her, SHIT SHIT SHIT, she saw me hugging Denise. I run back upstairs, scaring the omegas who are working and getting my phone to desperately call Anaiah.

The first ring, second she doesn't answer, I throw my phone against the floor and get into the shower, I know exactly where she went. The Sunset Pack. I need to speak to her.
