

Chapter 116 The Ring Was Sold

Celia was beginning to feel alarmed. She had a bad premonition in her heart.

Seeing Adrien act like that, she could tell that it might not be that easy for her to take back the ring!

The servant served her coffee, milk and juice, as well as exquisite desserts.

Holding her hand intimately, Adrien pushed the desserts in front of her and said with a smile, "Cece, have a taste of these desserts. They are quite delicious. We'll talk about the ring later.

You've lost a lot of weight. It must have been difficult for you all this time. I feel sorry for you. Although I know that you have always been dissatisfied with me, and you might not believe what I say, but I really care about you."

Celia wasn't a bit moved by these words and could tell that he was delaying things. She withdrew her hand and asked straight to the point coldly, "Dad, when will you give me the sapphire ring?"

Adrien's mouth twitched, and he went silent. He didn't answer for a long time.

Celia realized that something was indeed wrong!

Nonetheless, she remained calm and still gave Adrien a chance. "Dad, did you forget about our agreement?"

Even though she was so straightforwardly asking about the ring, Adrien still avoided talking about it.

Celia snapped. She gave up maintaining courtesy with him completely and took out the agreement. "It's clearly written on the agreement here. If I agree to marry Tyson for Cerissa, you have to return the ring to me."

She was really angry, at the same time, she was afraid that he would refuse. So, she restrained her temper and reasoned with him. "Dad, although so many things have happened, and I am disappointed in you, I still respect you very much. It's the truth. Yet, are you going to break your promise and let me down again?"

Adrien was looking at everywhere, except her. However, Mabel, who was sitting beside him, reacted quickly as she grabbed the agreement and tore it into pieces on the spot!

The pieces of the agreement flew all over the sky. Celia was caught off guard and her eyes widened in disbelief.

"Honey, you know that this conversation with her is pointless. Now, the agreement was torn up, and her only evidence is gone. Since she has no evidence, we don't need to be afraid of being sued or anything. Then again, does she even have the money to file a lawsuit?" Mabel commented complacently.

Celia was completely furious. She didn't expect these two people to be so shameless!

She stood up and glared at Mabel coldly. "Damn You! What is the meaning of this?"

Mabel didn't take her seriously at all as she condescendingly looked at Celia and snorted, "You don't know yet, do you? We have already sold the ring, and you can't do anything about it since this agreement is invalid now. Don't even think about taking the ring back."

Celia was so angry that she couldn't control her emotions anymore. She asked Adrien tremblingly, "What the hell is going on?"

With an embarrassed look, Adrien said, "Cece, don't be so angry. I couldn't help it either. The Kane Group is in a serious crisis this time. I had no choice but to sell your mother's ring..."

Cecil asked angrily, "Haven't the Shaw family invested in it?"

"Yes, the Shaw family gave me a sum of money to make up the deficit. But we still need a lot of money to continue to operate. I really couldn't borrow money anywhere else, so I had to sell the ring."

Celia's whole body shook and her eyes became red. "But that's the most important thing of my mother! How could you sell it? How can you treat her that way? Don't you even have any respect for her?"

Although Adrien felt a little guilty, he felt humiliated when he was faced with his own daughter's accusation. He shouted at her with a poised expression, "Enough! Your mother has been dead for so many years. What's the use of keeping her belongings? There's no use! What's more, the Kane Group is also a result of her painstaking work. She should be happy to save the Kane Group in its crisis with the value of her ring!"

Celia's clenched her fists. She was so furious that she was about to go crazy.

She shouldn't have expected Adrien to keep his promise as she knew what kind of person he was! She had just thought that he still had a little conscience!

"Don't you feel ashamed or guilty at all?" Celia stared at him and asked coldly.

When Adrien was about to defend himself, Mabel stopped him. She looked at Celia arrogantly and said, "Are you being so aggressive just for a shitty ring? How can you talk to your father in such a tone?"

"I'm talking to my father. It's none of a home wrecker's business!" Celia pushed Mabel away and asked Adrien directly, "Where the hell did you sell the ring? How much did you sell it for?"
