

## Chapter 418 Unexpected Blocking

The news of Adrien's leaving quickly spread throughout the Kane Group.

The majority of Kane Group employees rushed outside to watch the humiliating exit of their former boss.

All the employees in the company glanced at each other. They couldn't help but feel concerned about themselves. They genuinely wanted to ask Tyson if they would lose their jobs.

However, because Tyson was exuding a strong aura, no one dared to approach him.

It was obvious to everyone who bothered to look that he was specifically targeting Adrien. Who among Adrien's previous employees would have the guts to inquire into this matter?

There was little anyone could do but quietly brace themselves for the possibility of being laid off.

After all, each king or queen had a group of ministers to help them run the country. A new owner had taken over the company's operation. Logically speaking, this would have a major impact on the employees.

Unexpectedly, Tyson provided reassurance to each employee at the Kane Group.

Tyson took the initiative to interact with the employees, and his demeanor was far more laid-back than in the meeting room earlier.

"You don't have to be worried about being fired. The Kane Group will operate normally. All employees who choose to remain will not be dismissed. However, I may alter the style of operation and modify part of the content of your work soon. You are free to accept the compensation and resign if you cannot deal with the changes. I'm going to compensate you more than is stipulated in the contract."

On hearing this, the employees were relieved. They instantly stated their desire to continue working diligently for the Kane Group.

The employees' stance made Tyson pleased. Seeing this, Briar respectfully bowed to Tyson and said, "Mr. Reyes."

Everyone else at the Kane Group recognized Tyson in his new role as president and addressed him as Mr. Reyes.

"In a few days, I will assign someone to take care of the takeover. You may now proceed with your work."

Tyson let the employees return to their workstations and left for a meeting with a few top executives. He rapidly handled the Kane Group's plans and left, intending to return to the Semshy Group.

For Celia's sake, he assumed leadership of the Kane Group, although it was just a small company. But his primary focus was still on the Semshy Group.

Briar followed him closely as he left.

The two quickly reached the basement parking lot. Nobody was in the vicinity apart from the two of them. Briar had just opened the door to let Tyson get into the car when two ladies appeared out of nowhere, reached for the car door, and prevented Tyson from getting in.

"Wait! Please don't leave!"

Tyson had to take a step back with a frown. As soon as he looked at the two women before him, he recognized them.

It was Cerissa and her mother, Mabel!

Even though Tyson also hated these two women, he was now known as Nolan Reyes. Therefore, he acted as if he was unfamiliar with them. He inquired with indifference and hostility, "Who are you? What do you intend to do?"

"Today, Mr. Reyes's schedule is quite packed. You had best be reasonable and not bother him. Otherwise, don't blame me for being rude," Briar scolded.

After Cerissa and Mabel shared a look, Mabel ran up to Tyson, grabbed his sleeve, and pleaded, "Mr. Reyes, please give me a minute or two. I have something to say!"

Tyson grimaced and shook her hand off in disdain. He gestured at Briar to remove the two women from his personal space.

Briar caught on right away and pulled the two women away. Tyson strode forward and sat in the car swiftly. He locked the door and rolled down the window.

"What do you want to say?"

Since Tyson wanted to know Mabel's motive, he questioned her instead of directly leaving. Hearing Tyson's question, Mabel was filled with hope.

She believed her plan would succeed, so she promptly shed crocodile tears and escaped Briar's hold. She rushed to the car and asked while bowing, "Mr. Reyes, you are Semshy Group's president, right?"

"I'm Adrien's wife, Mr. Reyes. You are a big shot in the business industry. Therefore, we are fortunate that you have acquired the Kane Group. The Kane Group, however, is our lifeblood. If you obtain it, our family will perish from starvation. Therefore, I implore you to let the Kane Group and us go!"
