

Chapter 419 Seducing Tyson

While crying, Mabel winked at Cerissa, who had also broken free from Briar.

Tears welled up in Cerissa's eyes, making her pitiful.

She looked like the young version of Mabel. She was young and pretty like a freshly blossomed flower. And whenever she cried, she could make anyone's heart melt for her.

Cerissa knew her advantage, so she used it to her own benefit, and cried miserably until her eyes dried out. It looked as though she carefully squeezed out each drop of tear to make Tyson feel bad for her.

"I am Adrian Kane's daughter, Mr. Reyes, and I heard about the change of the ownership of Kane Group from my father. I really can't accept the fact that my family is not going to have any way out of this. The Semsy Group is such a large company, and you're very wealthy, so I am sure that the Kane Group must be insignificant to you. Can you please reinstate my father as the Kane Group's CEO?"

Cerissa thought that she could easily win over Tyson's sympathy with her pretty looks.

"My father is a very capable man. It was just his bad luck that caused him to fail the company, so please show him some mercy. I am sure he won't let you down again!"

But to her surprise, Tyson did not give a damn about her tears and sneered coldly.

He would only feel bad if Celia cried, and as for other women, he would not bat an eye even if they died crying.

"Has Adrien really stooped so low that he is asking his wife and daughter to beg me? Is he even a responsible man, a responsible dad?" Tyson voice was heavy with sarcasm.

Upon hearing that, Mabel feared that he might misunderstand Adrien and explained at once, "No, Mr. Reyes! It's not like that! Adrien did not ask us to do this. We came here on our own. We wanted to share his worries, and he has nothing to do with this. Please don't misunderstand him. He has always been good to us. He is a good man!"

A good man?

Tyson was shocked and amused when he heard that.

"Adrien has already transferred the company's shares to me, and the CEO has officially been changed. I can't continue to let him be the CEO because he doesn't deserve the position."

Tyson's decisive refusal stunned Mabel. "But what on earth did he even do wrong? He's been working hard to develop the company for so many years. You're the CEO of a much bigger company. Why do you even need to buy the Kane Group? It's such a small company!"

"You want to know what he did wrong?" Tyson sneered and continued, "I thought you should know it very well. I had some people investigate the Kane Group and Adrien. The company was founded by him and his first wife, Jenifer, but after her death, he drove away Jenifer's daughter and brought his mistress and his illegitimate daughter home. An immoral man like him deserves to be condemned even if he has the skills of managing a company."

His cold eyes were staring through Mabel's and Cerissa's souls. Although he was wearing sunglasses, they still felt like they were standing in front of a demon. After a short pause, Tyson turned to Cerissa. "Moreover, Adrien is not even a good CEO. The Kane Group has been through numerous crises in business, and regardless of whether I buy the company or not, the CEO will be changed sooner or later."

Mabel almost staggered when she heard that because it was unexpected for Tyson to know of such private details.

She knew that the Kane Group had never offended Tyson, so how could he want to acquire the company over such trivial matters? Was he against Adrien because he didn't like what he was doing? She could not believe that an odd man like Tyson existed.

However, since she knew that she was no match for the CEO of the Semsy Group, she had no choice but to change her strategy.

Mabel calmly glanced at her daughter.

Understanding the meaning of her glance, Cerissa decided to risk everything. She leaned against the car door, sneakily pulled down her shirt a little, revealing her cleavage and said in a charming and delicate tone, "Mr. Reyes, why don't you give it some thought? As long as you're willing to let us go, I can promise you anything you want, and I am not the kind to go back on my word."
