

Chapter 512 Ronald And Alita Are Acting Strange

After taking a long detour, Tyson finally drove the car back onto the expressway again.

Celia looked out the window and was lost in thought. Moments after, she finally said, "Tyson, something feels a little off."

Tyson raised an eyebrow and asked in confusion, "What's wrong?"

"I think Ronald and Alita are acting a little strange."

The mention of Ronald caught Tyson's attention as he was an important client of the Semshy Group. "What's so strange about how they act?" asked Tyson curiously.

Celia paused to gather her thought. "Alita is just Ronald's assistant. Even if he wants to talk to her about something, there is no need to call her to his private residence, right?" she inquired.

Tyson thought that Celia was overreacting and dismissed his curiosity. "Maybe he has something urgent for her to do. Didn't Alita mention that a dozen of his assistants resigned before? Maybe it's because he scared them away by always asking them to do things in the middle of the night. Don't worry too much."

"Maybe you're right. But I'm still a little worried. I heard that he is a playboy. What if he is actually thinking of taking advantage of Alita?"

The more Celia brood on the issue, the more anxious she became. "If he dares to take advantage of Alita, I will definitely kill him. Oh god, I'm really worried about her. How about I call Alita and ask her to put me on speaker while she works?"

She was about to take out her phone when Tyson stopped her firmly. "Cece, don't overthink. Ronald saw us dropping off Alita at his place. He knows he wouldn't get away with it if something were to happen to her. He would have given up having any wrong ideas at that time."

Celia thought for a moment and understood his perspective. She felt more relieved and said, "You're right. He probably wouldn't dare to do anything to Alita. If anything happens, I will protect Alita."

Tyson smiled, "You are so cute. Can't you hope that something good happens to her instead?"

He quickly drove back home. Once they reached home, the two of them got ready for bed. They lay down on the bed together for a while and were soon cuddling in each other's arms.

Celia felt an indescribable sense of ease in Tyson's arms.

The truth that she was a substitute bride was finally out and the relationship between Tyson and her was not affected. Their relationship was even growing stronger.

She finally felt a weight lifted off her chest and fell asleep assuredly in Tyson's arms.

The next day, Tyson got up early, as usual, to make breakfast. He woke her up to eat and drove her to work after.

When she arrived at the company, Celia immediately

switched on the computer to continue her unfinished design. She did not want to delay her work any further. She even skipped the morning meeting to focus on her work.

The draft was a dress that Celia designed for Brea. She couldn't wait to finish it and show it to Brea.

When she was done and was about to go, she heard colleagues gossiping.

"Why didn't Celia and Kiley come to the company yesterday?"

"I'm guessing that Celia went back home and had sex with her husband late into the night. After all, she drank a lot and the two of them are still young and energetic."

"What about Kiley? I heard that she left in a taxi to a hotel. Was she meeting someone there to have sex?"

"That's impossible. Isn't she still single? I haven't heard that she is dating anyone recently."

The gossip made Celia's face flush. She stood quietly out of sight as she wanted to avoid any awkwardness.

She didn't expect that her colleagues would gossip about her sex life with Tyson. She also didn't expect that Kiley would miss work yesterday.

She suddenly recalled Kiley's unusual behaviors at the party.

Celia felt that there was something amiss with Kiley then.

A sudden fear crept through her. Had she not switched the glass of wine that Kiley poured for her, the one being sent to the hotel would have been her.

The sudden realization made Celia wonder. Kiley could have risked going to jail if she was caught drugging her.
