

## MADAM'S IDENTITIES SHOCKS THE ENTIRE CITY AGAIN Chapter 378

The music teacher beamed with joy. "Isn't it Old Nie? I was so shocked when the old man came today, and I thought I saw the wrong person. I have to go. Help me look for that student's information and then give it to me. Old Nie and the others are waiting for it."

"What's the name of the student Old Nie is looking for?"

Qiao Chen and Fu Ge were standing not far away and coincidentally heard their conversation.

The moment Qiao Chen heard Old Nie's name, her heart started to beat faster. She really didn't expect anyone to be better than her and manage to see him first. Curious and envious, she wanted to know who that person was.

She heard the music teacher report a name. "I think... she's called Qiao Nian?"

Shen Yugui subconsciously said, "Her surname is also Qiao?"

"Qiao Nian?"

Qiao Chen and Fu Ge were both rooted to the ground as they never expected to hear this name.

Qiao Chen's blood boiled. It was as if she was slapped in the face!

The two of them looked extremely upset.

Fu Ge's face was flushed, and he didn't come back to reality for a long time.

Previously, he searched for Cheng Wu and put down his pride to beg him to read Qiao Chen's information. However, someone from the music department just came to ask for Qiao Nian's information, and the rank of that person was even higher than Cheng Wu's. He was Nie Mi, someone who was basically untouchable!

How did Qiao Nian manage to get Old Nie to pick up her file in person?

"How can it be Qiao Nian?" Qiao Chen couldn't help but mutter with a pale face.

...

Qiao Nian had almost arrived at the Beijing branch of the Cheng Feng Corporation when she received a text message from Nie Mi. It was quite simple and only consisted of one line.

[Nie: Since you insist on joining the Chinese Medicine Faculty, I won't stop you anymore. I will show your information to Old Huang to see if he's willing to teach you.]

Qiao Nian raised her eyebrow. She paused and thought about how to reply to him.

Honestly, she didn't care about who her teacher was. When it came to learning, she believed in her own abilities.

The identity of her teacher might have some influence, but it wouldn't be a defining factor.

Just as she was deep in thought, she received another message.

[Nie: By the way, I heard the new song you uploaded. The melody is well written and you improved a lot. Are you really not going to consider letting me promote it for you?]

Qiao Nian remembered his blue verified “V” and knew that if he shared her new song, there would definitely be a sensational effect and she wouldn’t get peace for a long time.

She still had many things that she hadn’t uncovered such as her mother’s affairs and many incidents in the illegal zone... It would be very troublesome if she received too much attention.

She just replied with one word.

[QN: Don’t.]

At the same time, a surprised voice called her name. “Qiao Nian?”

She raised her head and saw Liang Lu leading a group of people out of Cheng Feng Corporation. She was looking at her from two to three meters away with a look of surprise and disgust on her face.

A few students around her asked curiously, “Professional Liang, do you know her?”

Liang Lu sneered at Qiao Nian and said in a mocking tone, “Of course I know her. Why wouldn’t I? She’s a top student from Rao City, and tomorrow, she will take Qing University’s independent enrollment exam.”

Everyone could sense the sarcasm in her tone, and no one in the group behind her dared to speak up.

They looked at the girl not far away in wonder and couldn’t understand how a young girl could have offended Professional Liang!

Liang Lu walked over and stopped in front of Qiao Nian. Suppressing the disdain on her face, she stared at her and asked, "You really came to Beijing?"

Qiao Nian raised her eyebrow and touched the brim of her hat. She placed her hands in her pockets casually and looked at her with wild eyes. "I've come to participate in the independent enrollment."
