

MADAM'S IDENTITIES SHOCKS THE ENTIRE CITY AGAIN Chapter 379

Liang Lu looked at her mockingly and raised her voice. She seemed surprised and repeated what Qiao Nian had said. "You're here to sit for the independent enrollment examinations?"

Standing there nonchalantly, Qiao Nian raised her eyebrows and said casually, "Yes."

"Haha." Liang Lu couldn't help but laugh. Making no effort to hide her contempt, she asked condescendingly, "Do you think you will really be admitted into Qing University with your grades?"

When she returned to Beijing, she had looked into Qiao Nian's previous examination grades. Qiao Nian's primary school results were decent, good enough to be considered at the top in her school. But after she went to junior high school, her results started to worsen.

Rao City was a small city. She was also not attending a famous school. In her monthly and final examinations, she only got average grades within her class. Her school ranking was also average, and she had nothing special to speak of.

Her grades would look even more pathetic if they were put up for comparison beside the Beijing rankings.

Liang Lu had been teaching for more than a decade. From her childhood, she was a high-achieving and studious person. She didn't look up to students who did not have the talent for studying. She believed that students who couldn't study only had themselves to blame as they were unwilling to work hard. As long as they were willing to work hard, she believed that it was possible to do well in the examinations.

She looked at Qiao Nian with no sympathy. She crossed her arms around her chest and lifted her chin. She narrowed her eyes and said with an arrogant expression on her face, "I have taken a look at your results. I admit that you have made a lot of progress since you entered First High School in Rao City. You have also scored well in the previous two examinations. But it's impossible for you to pass the independent enrollment examinations for Qing University."

After she finished her sentence with a firm tone, with a slight smile, she said, "But maybe a miracle will happen."

After all, the Chinese Medicine Faculty would also be participating in the independent enrollment examination this year. But according to the unique testing nature of the previous years, no students would be willing to go to this faculty.

Maybe the school would allocate a student to the Chinese Medicine Faculty for them to save face.

Qiao Nian wanted to study something no one else wanted. Maybe the Chinese Medicine Faculty would be able to pick up some junk during the independent enrollment examination this time.

She took a deep breath and turned to think. She felt that she didn't need to argue with someone who wasn't on the same level as her. She pursed her red lips slightly and straightened her clothes. She lifted her chin and said, "Qiao Nian, I'm looking forward to your performance tomorrow. I hope that you will not disappoint me. Since you're here in Beijing, it would be a pity if you don't even get a chance for an interview."

Qiao Nian couldn't understand why she resented her so much just because she rejected the offer from the Clinical Department.

However, Qiao Nian had encountered many people just like Liang Lu since she was a child. She didn't care about what she said. She nonchalantly shrugged and answered casually, "I don't think you will be disappointed tomorrow as long as I perform at my usual standard."

She was speaking the truth.

However, Liang Lu felt that Qiao Nian was provoking her. She immediately sneered and said, "Is that so? Sometimes, I really admire your confidence. I shall look forward to your performance tomorrow and see how much you can live up to my expectations."

From the corner of her eyes, Qiao Nian spotted Su Mo coming down to pick her up. She glanced at Liang Lu with an angry sneer and said softly, "It's your choice."

With that, she ignored her and walked towards the Cheng Feng Corporation.

Liang Lu didn't expect her to be so arrogant and leave without a proper goodbye. Angry, Liang Lu glared at Qiao Nian so hard that her eyes almost popped out. She couldn't calm down for a long time.

Qiao Nian was so domineering despite her average grades!

The students following behind Liang Lu watched the slender figure walk away. They walked over and asked in a curious tone, "Professional Liang, she's also going to Cheng Feng Corporation."

"Maybe she has a relative working there." Liang Lu retracted her gaze with a disapproving look and said to the others, "Let us go, too."
