

MADAM'S IDENTITIES SHOCKS THE ENTIRE CITY AGAIN Chapter 433

The teachers in the large classroom were a little tired from watching more than 30 students continuously. When interviewing the last few students, everyone wasn't very interested and gave low scores.

Until they turned to the last page, saw the introduction on the student file, and suddenly became interested.

Qiao Nian.

The results on the file were not outstanding, but the results of this examination were too impressive.

Several teachers who didn't participate in the revision of the papers saw the 650 points written on the file and thought they had misread it. They asked the people next to them, only to find out that she was really a genius student with perfect scores.

Shen Yugui was one of the few teachers who thought he had misunderstood.

He hadn't participated in this paper revision, nor had he seen the transcript.. He suddenly saw the student's name and grades on the last page of the file and was taken aback.

The score written in a big font on the file was too eye-catching, and few people could miss it.

He looked at the student's name column again.

Qiao Nian.

He had seen this name twice, once when he was collecting student files and heard it from a teacher in the music department.

The second time was when he had been invigilating the examination. He had seen a girl who started the paper from the back, and her name was Qiao Nian.

She got a perfect score?

Shen Yugui was surprised.

Because no one had scored a full score since the school was founded. At least, he had never heard of anyone.

This time a student actually got a perfect score.

He instinctively looked at Cheng Wu and Liang Lu with envy and loss in his eyes.

This time they hadn't recruited students into the Chinese Medicine Faculty. None of the students he liked had chosen their department. They were either snatched away by other departments, or they thought about it and ended up telling him euphemistically that they still wanted to take the college entrance examination.

The Chinese Medicine Faculty had repeated this scenario so many times that he was numb to it now.

Only this time, Liang Lu had humiliated their department so much at the admissions meeting. He wanted to fight for his face and recruit a student no matter what...

This Qiao Nian was the last student to enroll this time, and with this grade, even if she was a good seed, she had nothing to do with them.

She would most likely choose the Finance or Clinical Department.

Shen Yugui sighed in his heart. He obviously felt uncomfortable, but no matter what, he could only endure it like a man.

He lowered his head and flipped through the file in his hand. He didn't even have the desire to raise his head.

What was the use of being greedy?

He didn't even look up, but Nie Mi was extremely excited. The people who had been sitting there before were originally bored and hadn't even reacted to a good student like Qiao Chen. But now, their spirits were raised through the roof, and they were staring scorchingly at the door.

Soon, a thin figure walked in.

The girl was wearing a hoodie, her jeans wrapped her straight and long legs, and she wore a peaked cap to hide a delicate face.

As soon as she walked in, she immediately caught the eyes of the teachers present.

Cheng Wu couldn't wait to say, "Ah, please introduce yourself."

Qiao Nian walked to the middle of the classroom and said concisely, "I'm Qiao Nian. Hello, teachers."

This introduction was really simple, and the simplicity was almost negligible.

Nie Mi smiled helplessly. It wasn't surprising that she would introduce herself like this.

Qiao Nian had such a character.

She didn't beat about the bush. She always spoke with her strength!

Cheng Wu looked at her file and was determined to win. "I read your information, and it says that you came from Rao City. This year Rao City's students have done well, and several students have emerged. I won't beat about the bush. I've seen your grades, and I admire you very much. I still lack a student to guide. If you're interested in studying finance, I can make you my personal student!"
