

MADAM'S IDENTITIES SHOCKS THE ENTIRE CITY AGAIN Chapter 493

Wei Qi was still lying on the bed in a coma. The city hospital's doctor had already completed the medical report.

It was true that Wei Qi had three broken ribs and many soft tissues on his body. There was no need to talk about his face. When Qiao Nian hit him, his face had already swelled up like a pig's head. Even his biological mother might not recognize him.

It was just so magical.

Since Wei Qi had been beaten up so badly, he should have been at least a few levels of disability. However, he had done all the necessary examinations, including CT scans, cerebral scans, and electrocardiograms. The results of the examinations were only light injuries!

It was as if Qiao Nian knew how to find a place to hit someone. She completely avoided the places that could easily be categorized as a disability.

Those with discerning eyes had seen Wei Qi's condition before. They knew that he would need to lie on the bed for at least ten days to half a month before he could get out of bed. His ribs were also broken, and he would need at least three months to recover.

However, according to the results, it was only a light injury. It couldn't even be considered a moderate injury! Wasn't that infuriating?

Cai Gang heaved a sigh of relief after hearing this outcome. He also had the confidence to challenge Wei Dongshan.

"What do you mean?"

"According to you, she did nothing wrong by sending Wei Qi to the hospital?" Wei Dongshan sneered and looked at him angrily. "Heh, what a joke!"

Cai Gang looked calm as he stood in front of him. His attitude was respectful, but his words were firm.

"Director Wei, you might not be aware of this situation. Usually, such minor injuries are not enough to form a criminal case. At most, it will be a civil suit. Qiao Nian should be responsible for Young Master Wei's medical expenses and a certain amount of psychological comfort. As for the rest, I'm afraid it's debatable. Furthermore, we're still investigating this matter and have not found out the reason for the fight between the two parties..."

In Wei Dongshan's words, Qiao Nian's actions were considered "intentional assault". But in his words, it became "a fight between the two parties."

It seemed like a few words, but it actually affected the nature of the entire matter.

According to Wei Dongshan, Qiao Nian was definitely going to jail this time.

However, according to Cai Gang, it was hard to say if she would have to pay compensation.

Fight each other.

As a grown man, he had been beaten by a female high school student. Wasn't he embarrassed? How dare he ask for compensation? It was already good enough that he didn't tuck his tail between his legs and admit his bad luck.

Wei Dongshan didn't expect him to have the guts to go against him and insist on protecting Qiao Nian. He narrowed his eyes and looked at him for a few seconds. Then, he leaned back in his chair first and looked at the "insensible" Cai Gang sharply.

"Alright, you can say that she just hit him and that it's not illegal, but you can't deny her assault. She caused trouble on the streets and had a bad influence. According to the school's rules, the school has the right to punish a student like her by revoking her school records. I can wait while you guys investigate, but I will definitely not let such a bad student continue to go to school! I want to revoke her school records and expel her. If a person can't even learn their morals well, they will be a social malignant tumor in school. Instead of letting her waste our education resources, it's better to leave them to the students who need them!"

Canceling her school records was not a small matter. Expelled students couldn't take the college entrance examination or be admitted to a university. It was equivalent to ruining a student's future.

Qiao Nian was in her third year of high school this year, and it was time for her college entrance examination. If she was expelled at this time, this matter would become huge.

Cai Gang was anxious. He raised his voice and said, "Director Wei, it won't do anyone any good to blow this matter up. You will regret this."
