

MADAM'S IDENTITIES SHOCKS THE ENTIRE CITY AGAIN Chapter 594

He hadn't slept the entire night. Thinking that he didn't know how long it would be before he could go back, he slid his hand into his pocket and said gloomily, "Let's go and take a look first."

They'd know if the person Wei Lou called was a mule or a horse when he came!

After the matters here were over, he still had to spend time eating with Master Wang's sister who had come all the way from Rao City. He might even be responsible for arranging a hotel for the other party as a guide.

Qin Si's head hurt at the thought of the number Ye Wangchuan had sent.

He wasn't in the reception business. Anyone could do such a small matter. He didn't understand why he had to ask him to go personally.

Gu San said that she was quite young. The girl was only 18 and had not gone to university yet. Why did she come out instead of staying in school to study? She was probably someone with poor grades again!

Qin Si was very impatient with this kind of thing, but since Master Wang had personally asked, he still took it to heart.

However, he didn't understand what kind of person his sister, who came from such a small place, was!

It would be better if she wasn't a bumpkin. Beijing was only so big, and there were acquaintances everywhere. He didn't want the news of him bringing a bumpkin around Beijing's major attractions to spread in the circle in a few days.

"That's true. I wonder what kind of expert she is. Why don't we go in and take a look?"

Zhang Yang had no objections.

Jiang Xianrou had originally wanted to look for Liang Lu, so she had no objections. She shrugged and looked up. "Let's go together."

...

The atmosphere in the inner courtyard was heavy. Many people with business bags were here.

Liang Lu was also there.

She kept a straight face and tried to suppress her anger. This was not an occasion for her to lose her temper. She could only forcefully suppress her anger. However, she didn't want to speak and sat there with a long face.

Wei Ying was the first to lose his cool. He said coldly, "She's not here yet? When exactly is the person you mentioned arriving?"

Wei Lou was leaning against the wall. He was tall and had his arms around his neck as he looked at his phone. He had just seen the message Qiao Nian had sent him on the way. Thinking about the time, she should be arriving soon.

When he heard Wei Ying's words, he put away his phone and stood up straight. His hand slipped into his pocket and he looked cynical. "She's almost here."

Wei Ying couldn't stand his idling and disrespectful attitude the most and said angrily, "You said she would be here soon. It's been an hour and she's still not here! Wei Lou, are you done fooling around? This is a matter of life and death. It's not a place for you to fool around! You said you know a miracle doctor in Rao City. I've never heard of any expert in the country who is more powerful than Professional Liang!"

"Oh, that's because you're inexperienced."

Wei Ying was aggressive, but he said lightly that he was inexperienced and directly let Wei Ying punch cotton. Wei Ying was so angry that his expression changed on the spot.

When Qin Si and the others came over and saw such a fiery scene, he couldn't help but smack his lips. He turned to Zhang Yang and said, "Tsk, this Young Master Wei has a terrible temper."

Liang Lu was still here, but he was already so direct. No matter what, he still had a personality.

However, Qin Si did not agree with him.

After all...

No matter how high his status was, it was hard to guarantee that he would not fall sick in the future. After all, Liang Lu was a top expert in the medical industry in the country. If he offended her with one sentence, it would be difficult to look for her when he needed her in the future...

Jiang Xianrou's face was as calm as water as she looked at the young man coldly. Her eyes were filled with disdain as she said softly, "I heard that he has been holed up in Rao City and hasn't returned to the capital for a long time. He might have stayed in a small place for too long and can't figure out the situation. What kind of powerful doctor in a small place can compare to my mentor?"
