

MADAM'S IDENTITIES SHOCKS THE ENTIRE CITY AGAIN Chapter 599

Qiao Nian sighed but did not say anything. At this age, she believed that Wei Lou knew what to do.

“How confident are you?” Wei Lou lowered his eyelashes and rarely put away his cynical expression. He tilted his head and asked her seriously.

Qiao Nian thought about it and answered, “70%.”

“The Old Master is old. I can’t guarantee 100% success,” she explained.

Wei Lou looked at the unconscious old man on the bed and then at the girl beside him. The girl was still wearing a cap. Her facial features were very prominent, and she looked cold and not to be trifled with. However, her expression was very serious. It could be seen that she was 70% confident!

Wei Lou knew her for a long time.

He knew very well that Qiao Nian’s 70% confidence was at least 90% for people like Liang Lu.

His grandfather was 70 years old. At the age of an old man who understood the heavens, it was already not bad if she had 70% confidence!

“Do I go ahead?” Qiao Nian was in no hurry to open her acupuncture bag and waited for him to make a decision.

Wei Lou’s tense back relaxed. He looked at her and raised his hand to touch his earlobe. The ear studs shone charmingly. He smiled and said loudly, “Of course. Why not? I already invited you over. It’s not a loss if we don’t do it. Anyway, at most, I’ll sink with you.”

His father had given Wei Ying a military order.

The elders of the family were all gathered here. To a certain extent, he was already tied to Qiao Nian. If they were going to cause trouble, they could just do so together.

Qiao Nian glanced at him with a fierce gaze. She opened the acupuncture bag and revealed a row of acupuncture needles of different lengths. The corners of her lips twitched wildly. “Don’t worry, I’ll try my best not to let you sink. If you really fall, I can only say that you’re unlucky.”

Before Wei Lou could speak, Liang Lu, who had followed them in, snorted coldly and mocked softly, “Hah, I’ve never heard of a technique that can use acupuncture to draw out blood clots!”

Her voice was not loud, but she was an expert in this aspect.

Many people looked at her when she spoke.

Qiao Nian heard it too and looked up. When she saw Liang Lu, she thought for a moment and remembered her face. She matched it with the person in her mind and replied impatiently, "If you haven't heard of it, read more!"

— She had never heard of a technique that could draw blood with acupuncture.

— Read more if you haven't heard of it.

"Pfft." Qin Si couldn't help but laugh from behind.

After laughing, he held back his laughter and looked at Liang Lu, whose face was turning green and red. Then, he looked at the arrogant girl who was holding down the brim of her hat. He lowered his voice and said to Jiang Xianrou with a faint smile, "Your cousin has quite the personality."

"...She's ignorant and ill-mannered!"

Jiang Xianrou's delicate face was almost dripping blood from anger. With that, she pulled a long face and disregarded her previous thoughts of not getting involved with Qiao Nian. She said angrily, "Qiao Nian, you're only in your third year of high school. You don't even know any medical skills in university. Do you know Old Master Wei's identity? Why are you acting so recklessly?"

With Old Master Wei's identity, she could become famous after treatment.

If anything went wrong, the consequences would be severe.

At Liang Lu's level, she was still unwilling to take over this troublesome mess in the beginning.

Qiao Nian was only a high school student. She had never even learned basic medical knowledge systematically. What did she know? How dare she appear on such an occasion?

If Old Master Wei died, their Jiang family would be implicated by her!

Qiao Nian raised her eyes and saw Jiang Xianrou in the crowd. A hint of surprise appeared in her eyes as she looked at Wei Lou with a headache. It seemed like he was looking for trouble.
