

MADAM'S IDENTITIES SHOCKS THE ENTIRE CITY AGAIN Chapter 754

The person from Team 2 was not polite. "Sure. You said that the programming she gave was fine and that this is happening because of a virus. We have to resolve the virus now, right? Deal with it first."

"You..." Liao Xu was so angry that the scar on his face twitched.

He wouldn't have sat in front of the computer for so long if he had a way to resolve this virus.

Although he was certain that it was because of a virus, the other party's virus was very advanced. His current ability couldn't resolve the virus in the USB drive.

The other team members pressed his shoulders to stop him from being angry.

Luo Qing raised his wrist to look at the time, and the anxiousness in his eyes increased. He didn't care about the argument in the house and asked anxiously, "Team Leader Zhou isn't here yet?"

In 20 minutes, it was their turn to showcase the driverless operating system.

Now, there was a problem with the system.

The most powerful person in this aspect was Zhou Wei.

Since Liao Xu couldn't resolve it, he could only depend on Zhou Wei.

Therefore, he was quite anxious.

At this moment, someone jogged in and said unevenly, "Team Leader Luo, Team Leader Zhou said that she's still held back and can't come over. She told you to think of a way yourself."

With that, the entire room fell silent.

The veins on Luo Qing's temples bulged. He didn't expect Zhou Wei to not come at this time.

Wasn't this embarrassing the entire Ninth Branch?!

His eyes darkened as he almost fainted from anger.

Fortunately, he had sharp eyes and agile hands and held the table to prevent himself from being angered to death by Zhou Wei's coquettish actions.

Liao Xu didn't expect Zhou Wei to not come, either. He was stunned for a moment and subconsciously looked at Luo Qing with a worried expression. "Boss, what should we do?"

Everyone knew that Zhou Wei was the best at this aspect in the Ninth Branch. Zhou Wei had always been monitoring the driverless system.

If Zhou Wei didn't come, they might not be able to clean up the mess today.

Luo Qing's mind was blank. It was like his throat was blocked with cotton. He was furious at Zhou Wei, but he couldn't think of a good solution.

Liao Xu and Chen Zhu had already prepared for the worst. They asked him, "Why don't you tell Master Wang?"

Luo Qing thought about how Gu San had not returned yet and looked at the time on his watch. His eyes darkened. "Wait a while more."

"?"

At this moment, no one knew who he was talking about.

The fire was already burning, why was he still waiting??

No one spoke. Everyone looked at each other and exchanged glances. No one knew who Luo Qing was waiting for.

It was only when Qiao Nian and Gu San appeared that Liao Xu, Chen Zhu, and the others knew who he had been waiting for.

Qiao Nian!

Liao Xu almost heaved a sigh of relief. For some reason, he calmed down a lot.

He was one of the few people who had seen Qiao Nian's skills with Luo Qing in Rao City. He personally recognized Qiao Nian's level.

As soon as Qiao Nian entered, he gave up his seat and greeted her. "Miss Qiao."

As long as it was someone led by Luo Qing, Team 1 was basically polite to Qiao Nian.

Only the people from Team 2—Zhou Wei, in particular—looked disapproving and disdainful when they saw Qiao Nian.

The girl walked in from outside and did not care about the others' gazes. She walked straight to Luo Qing and said simply, "I heard that a bug appeared in the programming?"

"Miss Qiao, you're here." When Luo Qing saw her coming, he had the same reaction as Liao Xu and heaved a sigh of relief. He led her to the computer Liao Xu had used previously and suppressed his anxiousness. "Yes, the code will always mess up halfway. This has never happened before."

"Let me see."

The girl didn't waste her breath and spoke simply.
