

## MADAM'S IDENTITIES SHOCKS THE ENTIRE CITY AGAIN Chapter 913

The woman was first stunned before she spat out a mouthful of hot cocoa. It happened to spray his face, and she couldn't help but convulse with laughter. As she laughed, she waved her hands and apologized to him. "I'm sorry... I'm sorry... I didn't do it on purpose. Hahaha!"

Slim Waist Control wiped the 'saliva' on his face expressionlessly. He was already trampled until he was speechless.

"Can you f\*cking stop laughing before you apologize? Can't a person be more sincere???"

"Hahaha..." There was another series of heartless laughter. Then, the woman finally suppressed her laughter. It was just that her expression made it obvious that she was holding it in. "Then... I think you can consider Sun's suggestion. Selling your body in the red-light district is actually... quite profitable. With your looks... you might be able to accompany seven or eight people in a night."

With that, she couldn't help but laugh again.

"Hahaha, Sun is quite funny!"

Slim Waist Control: "..."

Humor? Bullsh\*t!

'He' was clearly serious.

How was 'he' humorous?

...

When Qiao Nian received the message from Slim Waist Control, Nie Mi had already hung up.

She looked at the message about Ji Qing and stared at it for a long time.

[Slim Waist Control: I found out that Ji Qing is related to the Ji family. You know the Ji family, right? They're considered a force in the illegal district. It's just that they have always kept a low profile. Not many people in the country know about this family. Have you heard of Ji Nan? The investor. That's the Ji family.]

[Slim Waist Control: I found out that Ji Qing seems to be from the Ji family, too. I didn't find anything else.]

The Ji family...

Qiao Nian turned off the Red Alliance software and opened a programming system. No one knew how she did it, but the computer database was constantly updating.

Soon, information regarding the Ji family popped up on the screen.

This information was definitely detailed, and no one else in the country could find out.

She finished reading ten lines at a glance.

She had a rough understanding of the Ji family now.

The Ji family was also from Beijing in the beginning. Later on, they gradually moved their power and family to the illegal district. In addition, the Ji family's style of doing things was very low-profile. They knew very little about the Ji family in the country. Other than people from the top circles in Beijing, many people didn't know of the Ji family's existence...

It could be said that the Ji family was low-key but had extraordinary strength.

It was not much worse than the Ye family!

She had not expected her biological mother to be related to the illegal district.

The waters in Beijing seemed to be deeper than she had imagined!

Qiao Nian twined the pieces of paper in her hand and lowered her dark eyelashes. With a calm expression, she smiled and turned off the computer.

It wouldn't take long to find out. Anyway, she was not in a hurry. She wanted to take it slow. She wanted to see what secrets were hidden here!

...

Downstairs, Ye Wangchuan had already figured out why Qing University had been calling Qiao Nian.

He did not react much. He hung up the phone and threw it on the sofa.

On the other hand, Gu San's mouth was agape as if he had swallowed an egg. He couldn't come back to his senses for a long time. He chased after Ye Wangchuan anxiously and asked, "Master Wang, is Miss Qiao really planning to participate in this medical competition?"

What a joke!

Miss Qiao had not signed up for Qing University yet, and she was not even a freshman.

Were the people from the Chinese Medicine Faculty crazy?

Ye Wangchuan's eyes were calm as he picked up a fruit candy from the table and tore it open. However, he did not seem interested in eating it and casually threw it into the trash can.

His voice was a little deep. "The Chinese Medicine Faculty has already submitted her application form."

Gu San was speechless.

The form was already submitted. This meant that only Qiao Nian would be representing the Chinese Medicine Faculty this year!
