

## MADAM'S IDENTITIES SHOCKS THE ENTIRE CITY AGAIN Chapter 926

Jiang Xianrou was like the moon surrounded by stars in a crowd. Her teacher was Liang Lu, and Liang Lu was one of the judges this time. Everyone basically agreed that this medical competition was between her and Qi Lanyin. It all depended on who would win.

A participating girl who she knew and was close to asked her in a low voice, "I heard that your school's Chinese Medicine Faculty has registered for a participant this year. Is it a freshman?"

Qiao Nian's school promotion banquet was very grand, but it was mainly to alert the upper class. In school, not many people knew her name.

The girl only knew that this new student had a powerful background and was a national top scorer who came from a small city.

"Is the Chinese Medicine Faculty crazy? Even if they can't find anyone to participate, they shouldn't have found a freshman to do it. I heard that someone saw her still reading an entry-level medical book backstage..."

Nanjing University and Qing University had always been ranked at the top of the national high school rankings. Although they usually had a competitive relationship, in this competition, everyone belonged to the same country's medical field. They didn't want to be looked down upon by the overseas students!

Under such circumstances, no one felt comfortable that the Chinese Medicine Faculty had found a newcomer to participate.

"It seems like the last candidate for this year has been internally decided." Nanjing University's girl pouted and said softly, "Besides, the Chinese Medicine Faculty has nothing to do with the clinical department. At least, it has a school title. This year, Qing University will refresh the worst results in school history!"

From the beginning to the end, Jiang Xianrou had an extremely cold expression on her face. She didn't interrupt and only stood there listening. Occasionally, she would arrogantly raise the hair by her ears. Her beautiful face was filled with arrogance as if she did not even care to mention Qiao Nian's name.

Only when the overseas representative appeared backstage did her calm eyes fluctuate a little.

The young girl's domineering aura was no different from that at the airport. She had only arrived ten minutes earlier, but she didn't look at the person who was about to compete with her.

She walked straight over and stopped in front of Jiang Xianrou. She tilted her head and sized her up with her clear eyes. "You're Jiang Xianrou from Qing University?"

Her tone was really impolite!

Jiang Xianrou was also a highly respected existence in the capital city circles. When had anyone ever spoken to her in such a manner? Furthermore, she was Liang Lu's disciple and one of the top students in

medicine. She immediately raised her chin slightly and did not lose out. "You're Master Carlos' student?"

Qi Lanyin smiled and felt that she was being pretentious. Not saying anything else, she arrogantly said, "The competition will start in five minutes. I'll congratulate you in advance for getting second place this year. As for the first place, I won't stand on ceremony. After all, I'm here. There's definitely no chance for you to get an award in the country. You can only work hard next year."

Not only was Jiang Xianrou furious from her direct provocation, but the other participating students were also furious from her provocation.

This person was too arrogant!

She was getting more and more arrogant every year.

If they took away the honor of first place again this year, they didn't know how Qi Lanyin would trample on Chinese Medicine.

However, her teacher was one of the honorary presidents of the International Medical Association. She was a true expert in the medical world. No matter how angry they were, they knew that with Qi Lanyin's strength. If she said she would take first place, she might really take first place.

"Oh, you can also get first place. Isn't the first place from the back this year reserved for your school's Chinese Medicine Faculty?"
