

MADAM'S IDENTITIES SHOCKS THE ENTIRE CITY AGAIN Chapter 930

Qin Si heard someone talking about Qiao Nian from behind. The words were quite unpleasant.

He had a bad temper and couldn't suppress the anger in his chest. The impetuous anger was pressed against his eyes, and Qin Si forcefully held it in.

Young masters like them were used to running amuck in Beijing. If not for the fact that today was special, he would have already quarreled with the man behind him.

However, he suppressed his anger today.

He looked at Qiao Nian's score on the LED screen and asked the man beside him anxiously.

Ye Wangchuan narrowed his eyes slightly and held his hands. He had the same attitude as Old Master Ye. His eyes were extremely dark as he looked at the girl on the stage without looking at the screen. He said calmly, "Wait a little longer."

Qiao Nian wasn't someone who would rank last. If she wasn't confident of getting a good result, she wouldn't have agreed with the Chinese Medicine Faculty to participate in this competition.

Since she was here, her dictionary did not have the words "last place"!

Qin Si stared at his calm eyes for a long time and was angry for a while. He turned his head away and continued to stare nervously at Qiao Nian's results.

...

The first round of the competition lasted for an hour.

At 40 minutes, Qi Lan Yin's score had already reached 50.

Jiang Xianrou was in second place with 41 points. In other words, she had basically lost the chance of fighting for first place with Qi Lanyin.

From the speed at which the two of them were answering the questions, it could be seen that the two of them had done similar questions. Qi Lanyin's accuracy was slightly higher than Jiang Xianrou's.

Perhaps it was because the pressure was too great, or perhaps the later questions were getting more and more difficult, but everyone in the venue realized that Jiang Xianrou had slowed down.

Sometimes, it would take a few minutes without rising by a single point. It was a little more than 40 points.

Qi Lanyin was about the same as before. Each time her score was refreshed, it would increase by one or two points. According to this speed, Qi Lanyin's final score wouldn't be less than 55 points.

The total score was 60 points. If Qi Lanyin got more than 55 points in the first round, it would be much more difficult for Jiang Xianrou to surpass her in the second round of individual answers.

In the camera, Qi Lanyin's expression clearly relaxed. She gave a disdainful smile and was as slow as if she was playing. She was arrogant and domineering. When he saw the medical students in the stadium, he was furious!

This was obvious humiliation!

The venue gradually fell silent. No one wanted to speak, mainly because no one had expected Jiang Xianrou to lose to Qi Lanyin by 10 points in the first round.

When the results on the big screen were refreshed again, a small change caused someone to cry out in the stadium.

More than half an hour had passed since the examination. In the beginning, everyone was surprised that Qiao Nian from the Chinese Medicine Faculty was ranked last. Then, they mocked her, and finally, they couldn't be bothered to mock her anymore...

Everyone in the venue, including Shen Yugui, was used to Qiao Nian's name being in last place. Unexpectedly, this time, the 66th place became the second-last place from before, Zhong Peiyun from the Shen University's Medical Department.

Qiao Nian's ranking seemed to have increased.

However, many people did not notice which place she was now.

Qin Si, Gu San, and Zhang Yang were staring at the big screen and counting the rankings, looking for Qiao Nian's name.

They searched for a long time but couldn't find the person they wanted to see on the last page.

"Why is Miss Qiao's name gone?" Gu San looked through it carefully and did not find Qiao Nian on the last page. He looked at Qin Si in frustration and asked, "Young Master Qin, have you seen Miss Qiao's name?"
