

Madam's 1871

Chapter 1871 - 1871 Ji Nan: What, I Was Rejected?

“It’s not easy to enter the First Research Institute. Are you ready?”

Xie Tingyun seemed to be especially familiar with the First Research Institute. Without waiting for the girl to answer, she supported herself up. “Wait for me.” magic

After walking to the bookshelf and returning with a few books, she stuffed them into the girl’s hands. “These are all professional books that will be used for the assessment. They have my notes on them. Read them first and tell me if there’s anything you don’t understand. I’ll explain them to you.”

She was afraid that Qiao Nian wouldn’t want them, so she stuffed them into her arms.

Qiao Nian only glanced at the books. They were basically books related to nuclear principles and black gunpowder. Among them were two hard-shell notebooks. It was obvious that they were Xie Tingyun’s precious notes.

She pursed her lips and did not know how to speak for a moment. She only whispered, “Thank you.”

Xie Tingyun pursed her lips and smiled. Her sickly face lit up. She knew that Qiao Nian would definitely go back and quickly prepare for the assessment, so she urged her to leave.

... .

Qiao Nian bumped into Nan Tianyi on the way out.

His expression was gentle and his attitude was warm. “Miss Qiao, are you going back? Do you want me to get someone to send you back?”

Qiao Nian was no longer staying in the hotel, so she pulled down the strap of her shoulder bag and politely rejected his kindness. "No need. My friend will come to pick me up."

Nan Tianyi immediately smiled and said, "Your boyfriend is here?"

Qiao Nian was originally quite calm, but upon his teasing, her expression became a little uncomfortable.

She paused, her tone light and slow. In the end, she did not deny it. "Yes, he's waiting for me outside."

Nan Tianyi had long guessed that the person who had been waiting for Qiao Nian outside half a month ago was her boyfriend.

However, Qiao Nian finally admitted that person's identity.

Nan Tianyi pondered for a moment and then said hesitantly, "...Miss Qiao, actually, Ji Nan is not a bad person."

"Huh? What's not bad?" Qiao Nian didn't understand what he meant at first and was a little casual.

The back of her head tightened when she did. Without thinking, she immediately said, "Don't say that. I don't have that kind of relationship with him."

She and Ji Nan...

Just the thought gave Qiao Nian goosebumps. "...It's impossible for Ji Nan and me. It's impossible forever!"

Forget it if it was impossible.

Nan Tianyi felt a little regretful, but he respected Qiao Nian's thoughts. He smiled and nodded gently. "I don't think that kid is worthy of you, either."

"It's not that..." Qiao Nian did not know how to explain it to him. It was mainly because it was not easy to explain this matter.

She did not have that kind of relationship with Ji Nan!

She believed that Ji Nan did not have that intention, either.

Nan Tianyi misunderstood. "I know. You don't have to be embarrassed. I just mentioned it casually. I won't tell that kid that you rejected him."

Qiao Nian was frustrated. The corners of her eyes were filled with anger, and she was even more at a loss for words.

Fortunately, Ye Wangchuan called at this moment.

Qiao Nian used the excuse of answering the call to interrupt Nan Tianyi and quickly left.

Nan Tianyi watched the girl leave. He took out his phone and sent a message to Ji Nan, who was implicated thousands of miles away.

At home, Ji Nan was getting up when he received the message. He had just filled a glass with water and taken a sip. Before he could swallow it, he saw Nan Tianyi's message.

[You were rejected.]

"Pfft!" He spat out a mouthful of water and looked at it carefully to make sure that his eyes were not playing tricks on him. His uncle-in-law had indeed sent 'you were rejected'.

Ji Nan rubbed his temples with a confused expression as he stared at his cell phone. He knew that he had never confessed to anyone before. How could he have been rejected?

How was he rejected?

Who rejected him?

Chapter 1872 - 1872 Signing Up First

The First Research Institute would hold a recruitment assessment every three years in early November. The goal was to recruit more outstanding people into the institute. Therefore, the scope of the recruitment assessment was not only limited to the Independent Continent but also people from other countries and regions...

The assessment this year was special. magic

In mid-October, the Nan family, which had not participated in the First Research Institute's assessment for the past 20 years, suddenly applied for a spot.

The First Research Institute had kept the news a secret.

Although all the forces wanted to know who the Nan family had nominated, no one found out that person's identity until the end of October.

This also shrouded the assessment in a layer of mystery. All the forces were waiting for the moment when the mystery would be revealed!

November 3rd.

Today was the day to sign up for the recruitment assessment of the First Research Institute.

All those who had been chosen to participate in the assessment needed to submit their personal information at the institute today. After they registered, these people could take the official exam in three days.

Those who did not submit their information would be regarded as giving up the opportunity. That person's name would be automatically removed from the assessment list...

Qiao Nian woke up early in the morning.

She washed her face with cold water and changed her clothes before coming downstairs for breakfast.

Gu San was coming out with a plate of toast slices. Upon seeing her coming downstairs, he greeted her warmly, "Miss Qiao, good morning. I placed your breakfast on the table."

"Morning." Qiao Nian pulled out one of the chairs from the dining table and sat down. She picked up her mug with ease. She felt a heading when she saw the hot milk in the cup.

Gu San happened to put the bread and noodles on the table. Seeing that the girl was staring at the milk in the mug for a long time without moving, he said to her briskly, "Miss Qiao, why aren't you drinking? That's milk that Master Wang specially instructed me to heat for you. Don't worry, I didn't add sugar."

Qiao Nian's close friends knew that she didn't like sweet things. When he heated the milk, he especially paid attention not to add sugar.

Qiao Nian further lost her appetite upon hearing this. She pushed the mug away. Then, she picked up a piece of toast, put it in her mouth, and asked lazily, "They're not up yet?"

Ye Wangchuan did not come alone this time. Other than Gu San, he also brought Qin Si and Bo Jingxing with him.

Qiao Nian did not ask why he had brought them.

“Master Wang woke up an hour ago. Mo Dong and Mo Xi are here. They’re discussing something in the study. Young Master Qin and Young Master Bo didn’t come downstairs. They should still be sleeping...” Gu San said as he looked upstairs.

Qin Si was wearing dark blue pajamas. His dyed purple hair was as messy as a chicken’s nest. He relied on his handsome face to maintain his appearance. Otherwise, his current image would be no different from a streetwalker.

He yawned all the way downstairs and walked to the dining table. He pulled out a seat beside Qiao Nian and sat down, then greeted her sleepily. “Sister Qiao, good morning. You woke up so early today?”

Bo Jingxing was dressed as refined and proper as ever. Upon hearing this, he pushed his gold-rimmed glasses up his high nose bridge and looked like a refined scum. He also turned his head and said gently, “I remember you’re going to the First Research Institute to sign up today? How do you plan to go, Miss Qiao? Why don’t I drive you?”

Chapter 1873 - 1873 It’s Just an Assessment, Why Make It So Complicated

“Sister Qiao, you’re going to take the exam today?” Qin Si finally reacted. Shocked and dumbfounded, he placed his hand on the table as he looked at her. “Why do I remember that your exam is in three days?”

Qiao Nian took a bite of her toast. “The official assessment will be in three days. I’m going today just to sign up.”

Bo Jingxing also told him the difference between registration and assessment.

Qin Si rubbed his head and complained speechlessly. “Isn’t it just an exam? It’s so complicated. They even have to sign up first! Not only do they have to sign up, but they could also be disqualified from the exam. Tsk! Sister Qiao’s previous Qing University entrance examination wasn’t as complicated as theirs.”

Bo Jingxing could not be bothered to talk to him anymore.

How could Qing University be the same as the First Research Institute of the Independent Continent?

One was the College Entrance Examination.

The other was a highly professional selection examination.

The two examinations were not the same thing. They couldn't be compared at all.

Gu San also said, "Young Master Qin, these two exams are different. The First Research Institute is very impressive. There's only one spot every three years. In short, she has to take exams, but they're different from ordinary exams."

The First Research Institute represented an extremely powerful force. Not to mention controlling this place, it was difficult for ordinary people to even enter the institute.

Ji Ziyin's current status in the Ji family was not only because she was quite talented in black gunpowder, but also because she had entered the First Research Institute and was valued by the Level 5 Experimental Manager, Gu Hengbo.

As one of the three big families in the Independent Continent, the Ji family valued the status of their members in the First Research Institute so much, let alone the people outside.

He was shocked that Qiao Nian could participate in this assessment back then.

After all, although the First Research Institute said that they were recruiting people from all regions, it was actually very difficult to get the qualification to register.

"In short, the First Research Institute isn't that simple. Miss Qiao is very lucky to have the chance to take the assessment," Gu San said with a sigh, looking proud.

Qin Si was not a clueless fool. Since he could join this small circle, he naturally had his own outstanding points.

He only felt that this First Research Institute was quite troublesome without understanding the situation. They had to hand in their information three days before the assessment.

He felt that there was no need. After all, it was just a test. magic

Wasn't the purpose of the exam to choose talents?

Shouldn't she pay more attention to the exam itself?

However, he did not argue with Gu San.

He immediately greeted him. "Master Wang."

He did not greet Mo Dong and Mo Xi. He only nodded at them indifferently as a form of politeness.

After all, he and Bo Jingxing belonged to the Ninth Branch and were not familiar with Bright Gate.

Mo Dong and Mo Xi knew that he and Bo Jingxing were Ye Wangchuan's friends, so they greeted them politely. "Young Master Qin and Young Master Bo."

Then, their gazes landed on the sleepy girl with her eyes half-closed and a piece of bread in her mouth. She took a casual bite as if she had yet to wake up.

Not showing the same politeness as they showed to Qin Si and Bo Jingxing, the two of them had almost the same reaction. Their expressions converged, and their rough faces became more respectful. They greeted the girl politely, "Miss Qiao."

"Hello."

Qiao Nian was more familiar with them after half a month of interaction. However, her attitude towards them was still average. She did not completely ignore them, but her attitude was very casual.

Chapter 1874 - 1874 Master Wang: You Can't Enter

Mo Dong and Mo Xi knew why.

Especially Mo Dong. Every time Qiao Nian only responded calmly, his ears felt hot and his face hurt.

After all, he had clearly looked down on Qiao Nian back then.

Later on, when he found out that Qiao Nian had destroyed the Chamber of Commerce Alliance's intranet system alone, he was slapped in the face.

"What time do you plan to go to the research institute?" Ye Wangchuan walked past them to the dining table and pulled out a chair on Qiao Nian's left to sit down.

!!

Gu San placed a piece of toast and a cup of cold black coffee in front of him and said softly, "Master Wang, your coffee."

"Thanks." Ye Wangchuan looked at the girl with his ink-black eyes. He picked up his coffee cup and lowered his head to take a sip, then said, "I'll send you there later."

"I'll go too." Qin Si immediately interrupted and scratched his head. "I also want to see what the First Research Institute looks like. Sister Qiao, it won't affect you, right? If so, I won't go."

Bo Jingxing took a sip of warm water unhurriedly and continued gently, "If you all go, I want to take a look too."

Ye Wangchuan glanced at the two of them.

Bo Jingxing lowered his head very 'coincidentally' and did not meet his gaze.

Qin Si did, but he clearly pretended to be 'blind'.

He really wanted to take a look at the First Research Institute.

At this moment, Gu San coughed and replied awkwardly, "Master Wang, why don't I drive?"

This meant that he wanted to go too!

In the blink of an eye, the team that had originally planned for one person to send Qiao Nian to register for the exam instantly expanded to four people. No matter how deep Ye Wangchuan's thoughts were, his lips couldn't help but twitch. He subconsciously looked in Qiao Nian's direction, as if asking for her opinion

Qiao Nian had already finished the entire piece of toast and drunk half a cup of milk. She could not drink the remaining half cup, so she simply placed it on the table and leaned back in her chair. Then, she said casually, "It won't affect me."

Ye Wangchuan placed his hand on his forehead and glanced at Qin Si coldly. "You won't be able to visit the First Research Institute even if you go. Not everyone can enter the institute. The access restrictions are tight. You can't enter without the iris verification recorded by the system. Entering without it is illegal."

"It doesn't matter. Let's wait outside."

Qin Si was not that interested in the institute. He wanted to follow them mainly to see where Qiao Nian was going to participate in the assessment.

After Qiao Nian finished her breakfast, she pulled out a chair and said to the people at the dining table, "I'll go up and get my bag."

Ye Wangchuan nodded slightly and stood up. "I'll get the car out."

* * *

The First Research Institute of the Independent Continent continent was divided into two parts. One was the external office area, and the other was underground. It was composed of many laboratories.

The place where Qiao Nian was going to sign up today was an area outside the institute, and it was only a very small area.

Even so, when the car arrived at the registration venue, Qiao Nian was still stunned by the futuristic building in front of her.

The oval-shaped building was different from the architectural style of any country. It was a very unique architectural style.

The outer walls were made of high-tech black material. They were made of glass, but it was impossible to see the inside.

The door was also installed with a typical iris verification system.

However, there were people outside to receive those who came to sign up today, so there were more people. Cars would park outside from time to time.

Chapter 1875 - 1875 This Is F*cking Ridiculous!

Ye Wangchuan parked the car and placed his hand on the steering wheel as he turned his head and asked the girl gently, "Do you want me to accompany you?"

"Okay." Ye Wangchuan did not ask which friend she was referring to.

The girl opened the door and got out of the car. Then, she called someone.

After a while, a slender figure walked quickly in their direction and greeted the girl energetically, "Big baby~ I've been waiting for you for half an hour. Why are you only here now?"

Not noticing the car beside her, she walked up to Qiao Nian, grabbed the girl's arm, and said, "Let's go. I'll take you to sign up."

"Wait a minute," Qiao Nian told her.

Under Zhou Zhou's puzzled gaze, she returned to the front passenger seat and knocked on the window.

Ye Wangchuan rolled it down, and the girl said to him naturally, "I'll go sign up now."

Zhou Zhou had heard Qiao Nian ask her to wait a moment, so she waited obediently at the side. Unexpectedly, Qiao Nian went to knock on the car window.

The car window rolled down, and a young man was sitting inside

From the way the two of them spoke, it seemed like their relationship was not ordinary!

Damn!

Zhou Zhou was in a bad mood.

This was because she had never thought that someone like Qiao Nian would fall in love. She had always thought that a big boss with such an IQ would probably die alone in this life

Unexpectedly, she had silently found a partner!

Zhou Zhou was about to crack. She suspected that she had seen it wrong, but when she blinked hard and looked again, Qiao Nian was still talking to the man.

This was f*cking ridiculous!

Moreover, Sun's partner looked a little familiar. She seemed to have seen him somewhere before.

The question was where?

"Send me a message when you come out. I'll be waiting for you outside." Ye Wangchuan reminded her.

"I know." The girl lowered her eyes. Her dark eyelashes were thick and long, and her facial features looked very clear. There was always a hint of impatience in her eyes. magic

However, at this moment, she restrained her surly aura. Her face was hidden under her baseball cap, making her look exquisite and fair. "It might take some time."

Ye Wangchuan hooked her fingers and checked the temperature of her fingertips. Realizing that they were a little cold, he tied a scarf around her neck. He buried the girl's chin in the scarf before letting go. His eyes were clear. "It's fine. I'll wait for you outside. It doesn't matter how long I wait."

Qiao Nian's lips moved. She wanted to say that there was no need to wait. Why don't they go back first? From the corner of her eye, she noticed the stunned woman beside her and felt an incomparable headache. She looked back at him and nodded.

Then, she turned around and said to the person who had been staring at her in a daze, "Let's go."

The slender woman sized up the car curiously and greeted Ye Wangchuan frivolously. "Handsome, we're leaving."

Without waiting for Ye Wangchuan to speak, she followed the girl and quickly walked into the building

Bo Jingxing was convinced. He sighed and said, "Miss Qiao is indeed Miss Qiao. She has a wide network. She even knows people in the First Research Institute."

He knew the situation in the Independent Continent better. He knew very well how awesome the First Research Institute was. The people there had extraordinary statuses in the Independent Continent.

Qiao Nian clearly had an extraordinary relationship with the person just now. At the very least, they were very close friends.

Chapter 1876 - 1876 So She's a Big Boss in Engineering Physics

Ye Wangchuan placed his fair hand on the steering wheel. His fingers were slender and well-proportioned, and he was extremely beautiful. He narrowed his eyes slightly when he heard this, but he did not say anything. magic

However, he knew very well who had just come to pick Qiao Nian up.

The person in charge of Laboratory 3 of the First Research Institute was known as the number one doctorate in the Engineering Physics Department. She was a physics genius with an IQ of 200, and the youngest person in the Physics Department, Zhou Zhou.

The First Research Institute was divided into eight laboratories. The people in charge of the laboratories were all different. The higher the number, the higher the level, and the higher the status in the First Research Institute

Zhou Zhou was only in her early thirties, but she was already firmly in charge of the third laboratory. It could be seen how powerful she was.

It was also beyond his expectations that Qiao Nian would know such a person.

Ye Wangchuan looked at the girl's back as she left. His eyes seemed to be focused.

At this moment, Qin Si asked Gu San, "Do you think Sister Qiao can pass the assessment this time?"

He added worriedly, "Initially, I wasn't worried that Sister Qiao wouldn't pass the exam. In the end, all of you told me that the assessment was difficult, making my heart waver"

Gu San pursed his lips and did not say anything.

After all, this concerned the First Research Institute. He didn't know if Qiao Nian could pass.

Bo Jingxing's reply was like a spring breeze. "This depends on fate. If she can pass, then so be it. If she can't, then forget it. Miss Qiao has at least tried. It's a good thing for her to try at her age. Don't you think so, Master Wang?"

Ye Wangchuan retracted his gaze at this moment. His deep eyes were distant, and there was a hint of arrogance between his eyebrows. He calmly pulled out his car key and played with it as he said calmly, "She will pass."

She will pass.

These three simple words were filled with confidence in Qiao Nian's strength!

Bo Jingxing, Qin Si, and Gu San looked at him in unison. They wanted to ask him why he was so sure that Qiao Nian would pass.

The words were on the tip of their tongues, but the three of them did not ask.

Under such circumstances, anyone who asked such a question would seem to be criticizing Qiao Nian. However, that was the First Research Institute of the Independent Continent, after all. How could it be so easy to pass the assessment

* * *

Qiao Nian and Zhou Zhou entered the research institute to sign up.

Zhou Zhou was from the First Research Institute and was very familiar with it. With her leading the way, Qiao Nian almost didn't need to find her way.

They also met many staff members on the way.

When the staff saw Zhou Zhou, they revealed surprised expressions and greeted her politely.

"Team Leader Zhou."

"Team Leader Zhou."

"Team Leader Zhou."

They encountered at least seven or eight people on the way. When they saw Zhou Zhou, they all stopped and stood at the side to greet her. At the same time, they sized up Qiao Nian with curious gazes.

Zhou Zhou nodded in response, but she did not stay long. Instead, she led Qiao Nian into an archive room.

The First Research Institute had a transcendent status and occupied a large area.

Even though they were only in a small area of the office area, it was still very spacious.

Today was the sign-up for the recruitment assessment. Many people had already arrived at the rest area outside the archive room.

Many people were obviously here to participate in the assessment like Qiao Nian.

Many people looked at them as they arrived.

Chapter 1877 - 1877 Why Is the Head of the Third Laboratory Here?

Qiao Nian was already used to such scenes. She pulled down the brim of her baseball cap. Under the light gray scarf, only her fair and exquisite chin was revealed. Many people could only see the outline of her face, but they could not see her facial features clearly.

They only felt that the newcomer seemed exceptionally young.

It was just a little unexpected that she came to the assessment of the First Research Institute at such a young age.

However, it was not that no young people participated in the assessment.

Therefore, everyone only glanced at the girl before looking away. Their attention returned to the queue to hand in their information.

The staff from the recruitment office who was supposed to collect the signup information had not arrived yet. The seats in front of the computer were all empty.

Zhou Zhou made a call upon seeing no one in front of the computers.

Then, she turned back. Her beautiful face looked a little depressed. "They're not here yet. I called them. Let's wait." magic

"Okay." Qiao Nian put her hands in her pockets and stood casually, not paying much attention to the others.

Seeing that she did not say anything, Zhou Zhou walked to the side and called the staff in charge of the recruitment registration to urge them to come over quickly.

... .

Not far away, Ji Xiao looked in the girl's direction in shock. He suspected that he had seen it wrong. "Qiao Nian? Why is she here?"

"Who's Qiao Nian?" Ji Hongfeng was beside him. Upon hearing this, he looked at Qiao Nian and recognized her at a glance. She was the girl they had met at the elevator of the Intercontinental Hotel that day.

Ji Hongfeng was stunned for a moment. He retracted his gaze and turned to ask Ji Xiao, "Uncle, do you know her?"

He looked at Qiao Nian again and pursed his lips. Then, he narrowed his eyes and said, "The person who brought her here seems to be the person in charge of the third laboratory, Zhou Zhou. I heard from Cousin Ziyin that she has a solitary and strange personality. She's usually alone. Other than the people from her third laboratory, she basically doesn't interact with the people from the other laboratories. She's not easy to get along with... Why would she bring her here personally? Who is that person?"

Ji Xiao had a headache now and was not in the mood to answer his question at all. Especially when he heard that the person who brought Qiao Nian over was the person in charge of the third laboratory, he became even more shocked. He took out his phone, planning to tell Ji Ziyin about the situation here first.

Ji Ziyin had been recuperating at home recently and had not come to the research institute.

He was in charge of accompanying Ji Hongfeng to sign up.

Logically speaking, outsiders were not allowed to enter the First Research Institute. However, he was from one of the three big families. The research institute gave him face and especially allowed him to enter... Before Ji Xiao came in, he did not expect to meet Qiao Nian here again.

Could it be that she... was also participating in the assessment?

He put the phone down again and looked in the girl's direction with a frown.

Coincidentally, the person in charge of the recruitment registration arrived at this moment. There was a commotion in the lounge. All the students looked in the direction of the staff, their eyes filled with excitement and admiration...

The staff who were sent here every three years to be in charge of registration were only some low-level members of the First Research Institute.

However, even so, they were from the First Research Institute.

For these outsiders who had yet to enter the research institute, even if these staff members were not particularly impressive, they were still in unattainable positions in their eyes.

Chapter 1878 - 1878 Never Seen This Person Before

After the commotion, everyone became nervous.

However, the staff member who had rushed over did not immediately sit down in his seat. Instead, he especially squeezed through the crowd and walked toward Zhou Zhou. He greeted her very respectfully,

“Leader Zhou, why didn’t you tell me in advance that you were bringing a friend over to sign up? I would have come earlier.”

He was very perceptive and looked at the girl standing beside Zhou Zhou. He was stunned for a moment before he immediately came back to his senses and continued to curry favor with Zhou Zhou. “This is your friend, right? She’s really young and promising.”

The lounge had been exceptionally quiet even since the staff member had arrived. Thus, everyone saw the staff greet and talk politely to Zhou Zhou.

Leader Zhou?

!!

Someone whispered, “Could that person be from the First Research Institute? I heard him call her Team Leader Zhou? Is that person from the First Research Institute so young?”

“I remember that the person in charge of the third laboratory is surnamed Zhou, but I don’t know her name. Could this person be her...” A short and fat man lowered his voice and was a little agitated. His face was red. magic

The surrounding people looked in Zhou Zhou and Qiao Nian’s direction in shock, and their eyes soon became fanatical.

This area was only the office area of the First Research Institute. It did not involve the laboratories at all.

It was difficult to see anyone so high up, not to mention one of the heads of the eight laboratories.

Someone noticed Zhou Zhou, and naturally, someone noticed Qiao Nian, who had been beside her.

The girl had a powerful aura around her. It was not especially to show off her ability, but it was enough to make people look at her.

She was wearing a dark-colored woolen sweater, a light gray scarf, and a black baseball cap. She stood casually at the side, and they did not hear her speak the entire time.

It also seemed like everything was under her control.

“I’ve never seen this person before. Does anyone know her? Which family is she from?”

“I don’t know.”

“The Ji family has Ji Hongfeng this year, and the Xie family has Xie Yu. The other factions don’t seem to have such a young girl...”

The forces of the Independent Continent were extremely complicated. Many small forces would also think of ways to get their people to seize this opportunity to take the assessment.

They were hoping for a miracle. If their people could enter the research institute, their faction would also rise with them.

Therefore, the people who came to participate in the assessment usually had the support of a faction behind them. Otherwise, whether it was experiments or research, they were all money-burning businesses. If they had no support, unless they were already very rich, it would be difficult for them to advance further with their talent.

However, she leaned against the side and did not take it to heart.

Finally, Zhou Zhou finished speaking to that person politely. She walked over with a smile and patted her shoulder. Then, she lowered his voice and said, “Baby, you’re the first to sign up. Hurry up and go. There are too many people here. We’ll leave after you sign up.”

“Okay.” Qiao Nian followed the staff member to the registration desk.

The staff member sat down and quickly turned on the computer.

Chapter 1879 - 1879 Sister Nian Represents the Nan Family!

The computer was turned on very quickly. At least, it was faster than most computers outside. There was no lag after it was turned on.

The staff quickly operated the mouse and entered the research institute's archive registration library. He pulled up a registration form and looked up at Qiao Nian gently. "Name."

The girl raised her head slightly. Her eyes were dark and bright. She raised the corners of her eyes and said in a low and gentle tone, "Qiao Nian."

The staff member quickly entered her name in the name column and asked her some more conventional questions like age and address.

He was slightly surprised upon learning that the girl was only 19, but he still calmly entered her age.

After asking the usual questions, he asked a few more professional questions like the laboratories that she was interested in joining in the future.

This was also related to the direction of distribution if there was a chance to enter the laboratory in the future.

"Black gunpowder and nuclear engineering."

Silence ensued in the lounge again. Everyone's hearts trembled.

Black gunpowder?

Everyone knew that the Ji family had a Ji Ziyin. She was blessed with talent in black gunpowder and was known as a once-in-a-century genius.

Ji Ziyin also entered the First Research Institute.

Now, she was starting to do Level 2 experiments.

Ordinary people might not be able to start an experiment independently after entering the research institute for eight to ten years, but Ji Ziyin relied on her astonishing talent to start an experiment in three years. In another three years, she successfully advanced from Level 1 to the current Level 2...

Ji Ziyin was in the same laboratory Qiao Nian wanted to enter.

Despite this pearl in front of her, this girl actually wanted to go in the same direction.

She was more or less overestimating herself!

The recruitment this time was probably not to find talents in this area. After all, with Ji Ziyin making up for this gap, they might want to find geniuses in other areas of study in the future.

Ji Hongfeng and Ji Xiao were also watching Qiao Nian sign up not far away. Ji Hongfeng's expression changed slightly when he heard her answer and he finally looked at the girl seriously.

Besides Ji Ziyin, he was already the best of the new generation in the Ji family.

This time, he was going to apply for physical engineering.

As for black gunpowder, he still needed time to slowly change directions.

This girl who came out of nowhere actually wanted to enter the black gunpowder laboratory...

“Does she know which direction she signed up for? Unless she performs above the norm for a genius in this assessment, her intention alone has already eliminated her!” Ji Hongfeng’s voice was slightly deep as he said slowly.

Ji Xiao’s expression tensed up, but he didn’t say anything. He just looked in Qiao Nian’s direction, his expression changing.

... . magic

The staff member in charge of registration was also shocked. However, Qiao Nian was brought here by Zhou Zhou. Although he had a stomach full of doubts, he still filled in the information according to the girl’s instructions.

Then, he looked up again and asked the girl one last question. “Who handed in your previous registration form? I don’t have your information on this. I’m going to pull your file.”

Qiao Nian nodded and looked at him calmly. “Nan Tianyi.”

This large bomb was thrown out.

The lounge, which had been silent for a few minutes, exploded again!

“Nan family...”

“It’s actually the Nan family?!”

Chapter 1880 - 1880 The Person I’ve Searched for Half a Month Is the Same Person I Was Investigating From the Beginning!

1880 The Person I’ve Searched for Half a Month Is the Same Person I Was Investigating From the Beginning!

“I heard that the Nan family was also participating in the assessment this time. It’s just that the person representing them had been kept a secret. I didn’t expect it to be true... The Nan family really found someone to participate in the assessment this year.”

Ji Xiao had tried calling Ji Ziyin, but he couldn’t get through just now. Later on, when he heard that Qiao Nian wanted to enter the research institute in the future, he tried to call her again. Before the call could go through, he heard a noisy discussion in the lounge.

The Nan family?!

Qiao Nian was representing the Nan family to participate in this year’s assessment?!

Ji Xiao’s hand trembled.

At this moment, the call went through and Ji Ziyin’s unhappy voice came from the other end of the call. “Second Uncle, what’s wrong?” magic

Ji Xiao opened his mouth but could not say anything.

Previously, they had thought that Ji Hongfeng’s entry into the First Research Institute was more important. They had found all kinds of connections and even looked for the Red Alliance to investigate the person chosen by the Nan family. Due to this, they temporarily did not have the energy to investigate why Qiao Nian had come to the Independent Continent.

Who knew that after investigating for half a month, the person they had been looking for was actually the same person they had wanted to investigate at the beginning!

Ji Xiao looked at the person at the registration desk in a mess. His throat was dry. “I have something to tell you...”

He ignored Ji Hongfeng and hurried out of the registration rest area with his phone.

...

Qiao Nian left after registering.

Zhou Zhou had also come out at the last minute. She still had to return to the research institute. She only chatted briefly with the girl at the door. Before she could say more, her cell phone rang.

Zhou Zhou took it out and looked down. It was a call from a member of her Level 3 laboratory. Not answering, she waved her cell phone and said to Qiao Nian, "Baby, I have to go back."

"Okay."

Qiao Nian had no objections.

Zhou Zhou looked at the Land Rover parked not far from the research institute and retracted her gaze. Looking at the girl again, she curled her red lips and said teasingly, "Your partner has to treat me to a meal another day~ We've known each other for so many years. I even said that I would introduce you to the high-quality young man beside me, but who knew that he would intercept me? No matter what, he should treat me to a meal. Otherwise, I won't acknowledge him as my brother-in-law!"

Although she said that she wouldn't acknowledge him, she was just joking. In fact, whether she acknowledged this 'brother-in-law' or not depended on Qiao Nian.

If Qiao Nian liked him, even if the other party was insensible, she would still acknowledge him.

Unexpectedly, the girl pulled down her baseball cap, revealing an exquisite and eye-catching face. Her expression was quite serious as she replied, "Yes, I'll tell him to treat you another day."

Zhou Zhou was speechless.

She was only stunned for a moment. Realizing that Qiao Nian was serious, she had an idea. It seemed that that person had a high status in Qiao Nian's heart. At the very least, he was not playing around.

Zhou Zhou's phone rang again at this moment. She glanced at it and saw that it was still a call from the research institute. However, this time, it was not from their Level 3 laboratory. Instead, it was someone she had only met a few times and had an ordinary relationship with.

She roughly knew why these people were looking for her. It was most likely because of the commotion Qiao Nian had caused at the registration office.

Zhou Zhou nodded slightly and patted the girl's shoulder. She did not tell her this and only said, "I'm going back. Let me know when you get to your residence. You have to prepare for your exams in the next few days. I won't disturb you anymore."

"Okay." Qiao Nian's eyes were relaxed, and her answer was as concise as ever.
