

Madam's 1891

Chapter 1891 - 1891 Sister Nian's Not in the Last Place

The corners of Ji Xiao's mouth curled up as he looked up at the rolling screen and smiled. "Anyway, the results will be out in an hour. Let's wait. We also have to wait for Hongfeng's results to come out. We can take a look together."

One was first, and the other might be the last.

Just imagining the tragic comparison of the results later made him want to laugh. He couldn't wait to see the show.

* * *

Ji Hongfeng didn't come out until the exam ended.

He found Ji Ziyin and the others and waited for another hour before the results began to appear on the rolling screen.

The results of the first round of the theoretical assessment were released quickly.

The first batch was those placed in the 81st to 83rd places.

No matter how abnormal Ji Hongfeng's performance was, he would not have gotten into this ranking. In the past, the Ji family would definitely not especially look at this ranking.

However, this time, both Ji Ziyin and He Lin paid attention to the last place to search for Qiao Nian's name.

When the 81st to 83rd places came out, He Lin couldn't wait to read it. He reluctantly heaved a sigh of relief when he realized that Qiao Nian's name wasn't there.

At least, she was not in the last three places.

The corners of Ji Ziyin's mouth twitched and her eyes darkened. "It seems that the Nan family didn't just find anyone..."

He Lin smiled noncommittally. "That's right. It seems that her results are better than we thought."

Ji Ziyin looked at him and became even more suspicious. After all, He Lin was paying too much attention to Qiao Nian's results!

However, she quickly turned around and hid her emotions. She looked at the rolling screen again and said calmly, "There's still 71st to 80th places. Let's wait and see."

The 70th to 80th places were not much better than the 81st to 83rd places. They were also part of the poor scorers.

It was just that it was not as ugly as the last three places.

She estimated that Qiao Nian would at most squeeze into this batch. It was already heaven-defying luck that she did not directly get into the three last places.

...

At the same time, Bo Jingxing, Qin Si, and the others were also paying close attention to the rankings on the scrolling screen.

Qiao Nian's name was not among the last three places.

Bo Jingxing was fine. He had not expected Qiao Nian to appear so early in the first place.

After all, that person was not someone who would be in the last place.

No matter how difficult the questions were, Qiao Nian was still the top scorer in the College Entrance Examination. She would not be ranked last in the theoretical exam.

As expected, Qiao Nian's name was not among the 81st to 83rd places...

Right on the heels of that were the 71st to 80th places. The ranking, names, and scores of the candidates were released.

71st place, Deng Yi, 43 points.

72nd place, Bo En, 41 points.

...

Then, the bottom row was the score of the person ranked 80th. The score was very poor, only 33 points.
magic

Bo Jingxing frowned and turned to Ye Wangchuan. "Why are the results so much worse than in previous years? Could it be that the questions for this year's exam are more difficult?"

He had seen the results of the 70th to 80th places of previous years. They were generally above 40 points. This year, the 80th place only scored 33 points, a full seven points less.

Seven points did not seem like a lot.

However, there was a ten-point difference.

For example, the previous 80th place could say that she scored 40 points, but this year, she could only say that she scored 30 points.

There was still a lot of difference between 30 and 40 points.

Ye Wangchuan did not speak. He only raised his head slightly and looked at the rankings and results on the rolling screen.

After being rebuffed, Bo Jingxing ran to ask Qiao Nian, "Miss Qiao, did you feel that the questions were especially difficult compared to previous years?"

Chapter 1892 - 1892 Qiao Nian's Name Has Never Been Mentioned

Qiao Nian had just replied to a few messages and was leaning against the side of the car with her legs propped up. She casually raised her eyelids and looked over. After thinking for about half a second, she remembered what Bo Jingxing had asked her and narrowed her eyes. She was a little sleepy. "It was alright. I didn't feel anything special."

Compared to Qin Si, Bo Jingxing, and the others, she was too calm as the person involved. magic

...

Qiao Nian did not look up when the name list for the 81st to 83rd places came out.

She was also looking at her cell phone and replying to messages when the 71st to 80th places came out.

The girl did not seem worried that she would be in these rankings.

Bo Jingxing was speechless. "...Then Miss Qiao, how do you think you did this time? What ranking do you think you will get?"

Qiao Nian finally finished replying to the last message. She put her phone back into her pocket and glanced at him, not restraining her arrogance. She estimated seriously and looked up at him. "Likely first place."

Likely... first place?

Forget about being first, she even thought the odds were high.

Bo Jingxing was speechless.

How could someone who could calmly say that she would get first place in the examination of the Independent Continent's First Research Institute be ordinary?

...

After the 71st to 80th places came out, the list of those ranked 61st to 70th quickly appeared on the rolling screen.

Bo Jingxing realized that Qiao Nian's name was still not among them. He calmed down and waited quietly for the list of the top 40 to come out.

He had previously estimated that Qiao Nian's results would be in the top 40. This year's questions were difficult. He hoped that the 40th place would get 90 points.

* * *

Ten minutes later.

The list of 51st to 60th places was also out.

As soon as the results were out, some were happy, while others were sad.

When some people saw their names appear on the list, they scratched their heads in pain, beat their chests, and sighed...

Some people who had not seen their names yet were also extremely nervous. They stared fixedly at the ranking on the rolling screen, afraid that they would see their names in the rankings too early.

“The 51st place this year actually scored less than 60 points. According to this score, it can’t be that the top 40 scored less than 90 points, right?”

“When I received the paper, I felt that this year’s questions were especially difficult... It seems like everyone thinks the same... Sigh!”

“If the top 40 scores are less than 90 points, more than half of the people will be eliminated in the first round this year.”

“Why are we so unlucky...”

The crowd gathered outside the First Research Institute was looking at the results.

The results of the 51st to 60th places were out. The 51st place only scored 59 points. Many people could not sit still anymore.

There was a flurry of discussion.

Ji Ziyin also saw the scores, but she did not see Qiao Nian’s name. Her expression changed a little now. She turned her head and asked Ji Hongfeng, “You did the paper. Are this year’s questions very difficult?”

Ji Hongfeng’s usual confidence and arrogance disappeared. His expression darkened as he looked at her and replied in a low voice, “The questions this year are quite difficult. They’re even harder than the previous years’ questions. I’m not confident about the last few questions in paper B.”

“Even you’re not confident?” Ji Ziyin understood Ji Hongfeng’s level. If he was not confident, she reckoned that most of the people who participated in the assessment were not confident that they could do it.

She looked at the scrolling screen again.

This time, the 41st to 50th places were revealed. Ji Ziyin looked down but still did not see Qiao Nian's name.

She couldn't help but mutter, "Could she have entered the top 40?"

He Lin did not expect Qiao Nian to still not be on the list of the 41st to 50th places. While surprised, he was also a little nervous.

He wanted to see Qiao Nian's score!

Chapter 1893 - 1893 Qiao Nian Entered the Second Round?

Ji Xiao stubbed out his cigarette in frustration and walked over. "The 41st place scored 79 points. It seems that the top 40 might not be able to enter the second round of assessment."

Ji Ziyin nodded and continued elegantly, "The research institute doesn't recognize rankings. They only look at scores. You can only enter the second round if your score passes the mark. If your scores aren't high enough, you'll be eliminated even if your ranking is high! The competition this year is quite fierce..."

In the past, she would definitely have entered the second round in 40th place. This year, she would not be able to enter the top 40. It depended on the results of the 31st to 40th places.

However, Ji Ziyin was optimistic. After all, the 41st to 50th places were much better than the 51st to 60th places. The scores also began to increase greatly.

It seemed that the earlier the results, the closer they were to each other.

!!

The 40th place was also a watershed.

Ji Xiao's eyebrows moved slightly. He wanted to tell her that Qiao Nian's name was not out yet.

However, he glanced at He Lin beside him and silently swallowed his words.

Like Ji Ziyin, he did not want He Lin to notice Qiao Nian too much.

This was because Qiao Nian had shown her talent in black gunpowder at the banquet. It would not do them any good if she was fancied by the Ji family and was roped in.

After all, Qiao Nian had long become enemies with them. magic

Such a person who could not be used by them and had a certain talent naturally had to be as far away from them as possible...

Ji Hongfeng was still telling Ji Ziyin about the difficult questions on this examination paper when the rolling screen refreshed, and the list of 31st to 40th places came out.

Ji Ziyin thought that Qiao Nian's name would definitely be on it

She estimated that even if Qiao Nian stepped on dog shit, she would only be at this ranking. She did not expect that her name was still not among the 31st to 40th places.

However, the 31st place already had 88 points.

In other words, the possibility of the top 30 entering the second round was very high.

This time, Ji Ziyin's expression darkened completely. She lowered her eyes and chuckled as if she was just sighing, but her tone was not very good. "I didn't expect her to enter the top 30. The Nan family really won't choose any random person. I underestimated her..."

At this moment, He Lin's expression completely relaxed, and no longer gloom or disappointment could be seen on his face. He did not hide his smile as he said, "That's right. I didn't expect Miss Qiao to enter the second round. It's really surprising."

Ji Ziyin glanced at him sideways and immediately retracted her gaze. She also smiled. Although she still maintained her politeness on the surface, her smile did not reach her eyes.

"The 31st place already has 88 points. The top 30 will definitely reach 90 points. Sister Qiao, you're good. You've entered the second round!" Qin Si saw the latest results. He was happier than anyone else when he saw that Qiao Nian's name was not on the list.

Joy colored his eyebrows. He was in high spirits as he helped Qiao Nian calculate. "31st place scored 88 points. The 30th place might not reach 90 points, but the 29th place will definitely break into the 90 points. You'll reach the passing mark if you get 90 points! Those who pass will be qualified to participate in the second round of the assessment! Sister Qiao, you're going to advance for sure!"

Qiao Nian was leaning against the car arrogantly with her arms crossed as she looked at the results. No longer playing with her phone, her head was raised slightly, revealing her snow-white and exquisite jawline.

She only raised her eyebrows with a noncommittal expression at Qin Si. She was arrogant. "I never thought that I wouldn't make it to the second round."

I never thought I wouldn't make it to the second round...

In other words, she had never thought that she would score less than 90 points.

Chapter 1894 - 1894 Face Slap, Sister Nian's in the Top Ten!

The corners of Qin Si's eyes twitched as he looked at her with a complicated expression. "Sister Qiao, this is the First Research Institute's assessment, after all. Can you... act more worried? Otherwise, I'll be very shocked."

She had almost made the recruitment assessment of the Independent Continent's First Research Institute feel like a high school monthly examination. Qin Si was really dealt a blow.

Gu San was also shocked.

Bo Jingxing was a little better, but his eyelids twitched twice, and he looked at the girl with admiration.

He really thought that Qiao Nian was joking when she said that she would be first. However, when the list of those ranked 31st to 40th places came out and Qiao Nian's name was not on it, he knew that she spoke seriously. She was not joking at all.

!!

First place...

She even handed in her paper in advance.

First place in the first round of the recruitment assessment of the Independent Continent's First Research Institute...

Bo Jingxing couldn't imagine the reactions of the various factions when they saw the results.

Qiao Nian thought seriously about how to appear 'worried'. Ye Wangchuan reached out and buttoned her coat, tucking her in. He lowered his eyes and said in a low voice, "Ignore him."

His breath was close.

It was very ambiguous.

Qiao Nian nodded and did not say anything else.

The list of people in the 21st to 30th places was soon out.

Everyone was looking for Qiao Nian's name.

Nothing.

Just like before, her name was still not on it.

Then, it was the 11th to 20th places. It was the same.

After that would be the top ten. magic

As long as she entered the top ten of the first round, even the people from the research institute would pay attention to her.

However, there was only a list and not a ranking.

The last list that was refreshed on the rolling screen was collectively called the first batch.

"What's going on?" Qin Si immediately realized that the refreshed list on the rolling screen did not have a ranking or score. He pointed at the rolling screen and asked.

Ye Wangchuan's lazy voice sounded. "The First Research Institute's assessment's top ten is called the first batch. They won't announce the results immediately. We'll have to wait 10 minutes before the rankings are released. Let's wait a little longer..."

"Master Wang, how come you..." Qin Si was halfway through his sentence when he thought of Qiao Nian's heaven-defying actions every time. He looked at him and stopped speaking. "Forget it, I won't ask."

He was about to ask Ye Wangchuan how he understood the rules of the First Research Institute's assessment, but after thinking about it, he suddenly did not want to know.

Qiao Nian's name was third.

Two names were at the front.

However, Ye Wangchuan said that this was not the last ranking. It was just a batch list. The rankings were not released yet.

Gu San took out his phone, took a photo of the rolling screen, and sent it to the group.

He followed Ye Wangchuan to the Independent Continent and had more contact with the people from Bright Gate. In private, he had frequent contact with Mo Dong, Mo Xi, and a few of Ye Wangchuan's main connections in the Independent Continent. They had privately formed a group to facilitate contact.

Gu San: [@Everyone: [Picture].jpg]

No one in the group talked at first, but he suddenly tagged everyone. He sent out a 'showing off' sticker and nothing else.

The others clicked on the photo when they saw the message.

At a glance, they saw the rankings on the rolling screen. Qiao Nian's name was on the first batch of rankings for the first round of the First Research Institute's assessment.

Gu San went into hiding after sending the photo. Ignoring the group messages asking him about the situation, he switched his phone to silent mode and put it back into his pocket.

Chapter 1895 - 1895 Crushing Ji Ziyin!

Ji Ziyin's expression turned ugly when the name list for the first batch was out. She couldn't even maintain her smile. Her expression was dark and solemn.

Top 10.

She had never thought that Qiao Nian would enter the top ten.

No matter what Qiao Nian's ranking was in the end, just the fact that she could enter the top ten after handing in her paper in advance was enough to be recorded in the history of the First Research Institute.

She was just being sarcastic when she said that Qiao Nian knew how to 'create history'. Now, Qiao Nian was really going to make history!

"This Qiao Nian also entered the top ten..." Even Ji Hongfeng noticed the people on the list. His thin lips pursed and his expression darkened.

"Hehe, the Nan family hasn't let anyone participate in the assessment for 20 years, but this time, they suddenly asked her to represent them. She must have some skills," Ji Ziyin said coldly, but her mood was not as calm as her tone.

Ji Hongfeng did not say anything else. He raised his head and stared at the rolling screen with confidence. "The first place will definitely be with us."

The corners of Ji Ziyin's lips twitched and she could no longer smile.

He Lin was also looking at the list, no less surprised than Ji Ziyin. Other than shock, he was more excited.

He never expected Qiao Nian to enter the top ten.

Previously, he had estimated that she would be ranked 70th at most. Now, it was the complete opposite. Qiao Nian was not in the last ten but in the top ten.

He Lin was a little excited.

He seemed to see the Ji family's future...

Although this was only a small assessment and Qiao Nian would still have a long way to go when she returned to the Ji family...

However, based on the girl's aura, he could see the hope of the Ji family's direct descendant rising.

"...I wonder what her ranking will be in the end." He Lin sighed.

Ji Ziyin gave a fake smile and did not reply.

Ten minutes passed.

The name list on the scrolling screen was refreshed. Everyone was paying attention to the scrolling screen and knew that this refresh would be the last ranking.

The top 10 were eye-catching.

Moreover, it was the First Research Institute's assessment's top ten.

Everyone looked at the scrolling screen almost at the same time.

2nd place, Ji Hongfeng, 101 points.

The total score for the AB paper was 120 points. magic

101 points were already considered a high score, but he was only in second place.

Ji Ziyin and Ji Xiao's hearts sank almost at the same time as they looked at his result, and they instinctively looked at the first place.

The first place was firmly placed above Ji Hongfeng's name.

How arrogant!

1st place, Qiao Nian, 120 points.

... .

"Full marks?"

"F*ck, am I seeing things? Full marks?"

"Full marks for the first place?"

"What's going on?"

"Damn, I'm witnessing history!"

The crowd waiting for the results outside became noisy.

It was mainly because Qiao Nian's score was too heaven-defying.

Full marks?

She could get full marks for the First Research Institute's assessment?

What kind of result was this!

Back then, Ji Ziyin's score was only 114 points, and she even broke the record of the assessment and caused quite a stir in the research institute.

However, Ji Ziyin was a little famous, to begin with. Everyone knew that she was a genius among the Ji family's younger generation and had been taught by the family's famous teachers since she was young.

Ji Ziyin's score still caused a sensation at that time despite being carefully raised, not to mention Qiao Nian, a nameless person. She suddenly represented the Nan family, who had not participated in the assessment for 20 years, and scored full marks in the first round!

This shock definitely surpassed Ji Ziyin getting a high score back then.

Chapter 1896 - 1896 Qiao Nian Represents the Nan Family, Not the Ji Family!

"Full marks..."

Ji Ziyin looked at the results on the rolling screen in a daze, her eyes filled with disbelief.

He Lin could no longer hide his excitement and said excitedly, "Good!"

Ji Xiao wasn't in the mood to pay attention to his attitude. He was completely stunned.

Ji Hongfeng's face was also ashen. He pinched his palm, unable to accept this outcome.

The first place was actually not him...

He was defeated by the other party.

Ji Hongfeng felt as if he had been slapped. His ears were buzzing and he could not calm down at all. His mind was blank.

“Qiao Nian actually scored full marks.” Ji Xiao came back to his senses and his expression turned ugly. “I didn’t expect the first place in the first round of the research institute’s assessment this year to not be from our Ji family.”

The Ji family had already won first place in the first round of assessment for several years in a row. They never thought that the first place would be snatched today...

Moreover, it was given to the Nan family, also one of the three big families.

The Nan family would have a new name in the Independent Continent after today.

“She...” He Lin was so anxious that he almost revealed Qiao Nian’s identity. Fortunately, when Ji Xiao looked at him, he stopped in time and only pursed his lips. His joy was instantly halved as if someone had poured a bucket of cold water over his head.

That’s right. Even if Qiao Nian was a direct descendant of the Ji family, no one knew about this.

Moreover, she represented the Nan family this time!

Not the Ji family! magic

He Lin’s heart turned cold, and his excited expression froze. Facing Ji Xiao’s surprised gaze, he could only hurriedly hide his complicated feelings and say perfunctorily, “For her to be able to get such results, it can be considered a new record in the First Research Institute. I wonder if the research institute will make an exception and accept her after knowing her results.”

Full marks.

No one had ever scored full marks in the first round of the First Research Institute’s assessment.

It was not impossible for Qiao Nian to enter through the back door.

He Lin's hot blood had mostly subsided. He looked at her and asked anxiously, "Miss Ji, is the research institute so strict?"

"The First Research Institute's rules had always been strict. The research institute won't make an exception for anyone easily. Besides, she's not from the Independent Continent." Ji Ziyin stood tall and thought for a moment before saying, "There will be many people with high scores in theoretical examinations every time in the recruitment assessment. If the research institute breaks the rules and makes an exception every time, the recruitment examinations would have long become a mess!"

She was very confident about this.

It was useless for Qiao Nian to get full marks in the first round. As long as she could not pass the second round, she would still be eliminated.

Ji Ziyin felt a little better at this thought. She turned back and patted Ji Hongfeng's shoulder, then said in a low voice, "Don't be discouraged. Take the second round seriously. She hasn't systematically learned experiments, so she can't surpass you in the second round. As long as your overall score is higher than hers, the spot in the research institute this time will still be yours."

"I understand." Ji Hongfeng clenched his fists and his expression darkened. He was no longer as arrogant as before. "I'll definitely do my best tomorrow!"

Chapter 1897 - 1897 The Research Institute Was Shocked

The next round would be held the day after the first round. Firstly, the people who participated in the first round were tired, and secondly, the research institute needed time to prepare.

Therefore, the people who stayed behind mostly wanted to see if they had entered the second round or not. They also wanted to see their scores.

They were not going to undergo the second round of assessment immediately.

“Yes.” Ji Ziyin’s expression softened a little, but her overall expression still looked heavy.

* * *

The second round of the assessment would be held tomorrow.

Qiao Nian went back with Qin Si and the others after she finished looking at the scores.

She received a call from Nan Tianyi as soon as she arrived at her residence.

Qiao Nian got out of the car and picked up her bag with one hand. “Uncle Nan.”

She had become familiar with him during this period of time. As she called his wife Aunt, Nan Tianyi also asked Qiao Nian to call him Uncle.

“I heard that you passed the first round of the assessment? You even scored full marks?” The male voice on the other end of the cell phone was filled with joy for her.

Qiao Nian entered the residence and informed Qin Si and the others before going upstairs with her bag.

After getting upstairs, she casually answered Nan Tianyi’s question. “Yes, I was lucky.”

“This is not something that can be done with luck.”

Xie Tingyun was in the First Research Institute back then. How could Nan Tianyi not know how abnormal their assessment was?

Therefore, he did not believe her explanation at all.

However, he was all smiles and did not insist on arguing with Qiao Nian about whether she was lucky or not. Instead, he said, "Just now, the people from the research institute called me to ask about you. I didn't say much. I only said that you were studying at Qing University."

Qiao Nian had already returned to her room and pulled open the curtains. Sunlight shone in through the glass window, illuminating the room.

Then, she went to the desk and pulled out a chair to sit down before answering him. "It doesn't matter if you tell them. They'll know why I came to the Independent Continent sooner or later."

"That's true," Nan Tianyi replied. He pondered for a moment and added, "Then, I'll tell them the truth when they call again later."

Right on the heels of that, Nan Tianyi told her that the entire research institute was shocked about her results.

Qiao Nian was not interested in this. Instead, she asked him about Xie Tingyun's health.

After understanding that Xie Tingyun's health had been good for the past few days and that her various indicators were gradually recovering, she told Nan Tianyi about the medicine and hung up. magic

Qiao Nian had just hung up when an unfamiliar number called in.

She held the phone with her slender fingers with narrowed eyes as she looked at the Independent Continent number displayed on the screen.

She waited a full five seconds before picking it up. "Hello?"

The person paused for half a second before reacting. Then, he hurriedly said, "Hello, Miss Qiao. I'm He Lin, the one who sent you a message previously. Have you seen my message? It's like this. The Ji family wants you to come back. Look at your..."

Qiao Nian did not wait for him to finish and hung up expressionlessly. She then immediately blocked the number.

Next, she threw her phone on the desk, picked up the hard-shell notebook Xie Tingyun gave her, flipped to the question that Ye Wangchuan had told her yesterday, and looked at it again.

Chapter 1898 - 1898 I Can Already Do Level 5 Experimental Simulation Questions

Ye Wangchuan's explanations were always easy to understand.

She gradually understood many experimental data that she could not understand previously.

However, an experiment could not be done just by looking at recorded data. It still needed to be done personally. Otherwise, unimaginable deviations would occur when it was really done.

Qiao Nian looked at the records in Xie Tingyun's notebook for a while before getting up and walking over to her laptop. After turning it on, she found the software for the simulation laboratory she had downloaded previously...

* *

The next day, at the First Research Institute's entrance.

Everyone who had passed the first round yesterday had arrived. Only Qiao Nian had not arrived yet. However, judging from the time the big boss came yesterday, the possibility of her coming today was high.

"Only 29 people passed the first round of assessment this time. You're second in the first round. You still have a chance of getting first place in the overall results."

Ji Ziyin was wearing a thin beige windbreaker. Its length was a little above her knees. She was tall and had a good figure. So, the windbreaker caused her to stand out. As she stood at the entrance of the research institute, many of those who came to participate in the assessment stole glances at her.

Some people recognized her and discussed her secretly.

“That person is Ji Ziyin? The genius from the Ji family?”

“I heard that she can already carry out Level 2 experiments independently. She’s the first in the research institute’s history and has improved very quickly...”

“Nonsense. She’s a once-in-a-century genius in the field of black gunpowder. Didn’t you see that Old Master Gu took her in as his disciple? How can you compare to her? Geniuses are different from ordinary people like us. Don’t even think about it.”

“She looks very young...”

“She’s only in her early twenties. She’s young, to begin with!”

“Damn, she can enter the research institute in her early twenties and even independently carry out Level 2 experiments. Tsk... Damn.”

Everyone did not dare to speak too loudly.

However, Ji Ziyin was standing at the door, so she could more or less hear them.

She was used to hearing a series of discussions when she appeared since she was a young girl, so she did not take it to heart. She raised her eyes slightly and looked at Ji Hongfeng, who had stayed up late last night doing experiments and had only slept for three hours. “I’ve already paved the way for you to enter the research institute. You have to get first place in the second round today and enter the research institute successfully. Do you understand?”

“I know.” Ji Hongfeng had found a teacher from his family to stay up late with him last night to learn the experiments. It was not completely ineffective. Much more energetic after yesterday’s blow, he was emitting confidence from the inside out.

Simulation experiments were much simpler than actual experiments.

Ji Ziyin had been in the research institute for six years before she could carry out the Level 2 experiment independently. Ji Hongfeng had not entered the research institute but could already solve Level 5 questions.

However, they were not on the same level.

Ji Hongfeng's ability to complete the simulation questions for the Level 5 experiment also showed his future potential and his own strength.

"Mm, that's good." Ji Ziyin was relieved.

It was almost time, so she didn't delay Ji Hongfeng and told him to go in first.

After Ji Hongfeng entered, Ji Ziyin was not in a hurry to leave. She waited at the door for a while more.

Chapter 1899 - 1899 He's Here For Qiao Nian!

The second round of assessment was about to begin.

She finally saw a black Land Rover parked steadily outside the First Research Institute.

They were here!

Ji Ziyin subconsciously pursed her lips and tensed up.

Sure enough, a girl got out of the car. The girl was still wearing a baseball cap today, but she was not wearing a sweater. She was also wearing a windbreaker. The short black windbreaker looked valiant and handsome on her. The girl was wearing a pair of leather boots. Her legs, wrapped in jeans, were straight, long, and well-proportioned. She was especially eye-catching!

!!

It was Qiao Nian.

Ji Ziyin recognized her at a glance.

The second round of assessment was beginning in ten minutes.

However, the girl was not anxious. She calmly took her bag from the passenger seat and placed it on her left shoulder. Then, she spoke to the person in the car before closing the door and walking slowly into the research institute.

Ji Ziyin watched the girl enter the research institute before taking a deep breath and walking to the lounge outside.

He Lin and Ji Xiao were also here today.

They could not enter the place of the second round of assessment. They stayed in the hall outside with the other accompanying people who had come to participate in the assessment and waited for the final results.

He Lin's eyelids raised slightly when he saw Ji Ziyin coming over. His expression did not show, but he routinely asked her if Ji Hongfeng had entered.

He did not have much of a reaction when he heard that Ji Hongfeng had already entered. He replied calmly, as if he did not care much.

Instead, he looked in the direction of the door several times, as if he was looking for someone.

Ji Ziyin's eyes darkened when she saw his abnormal actions. After all, He Lin had been acting quite abnormal since Qiao Nian got first place in the first round yesterday.

She was basically certain that he was here for her!

As for why He Lin had specially made these two trips for Qiao Nian, she had yet to find out.

The second round was an hour longer than the first round. Yesterday, the theoretical exam ended at 11:00 AM, and today, the experimental exam ended at 12:00 PM. magic

However, after today's exam ended, it would not be like yesterday when they still had to wait an hour for the results.

Instead, they would announce the final results of the assessment on the spot.

Ji Ziyin told Ji Xiao the rules of the second round of assessment and found a place for herself to sit down and wait.

Ji Hongfeng had already conquered the Level 5 simulation experiment this time. She did not believe that Qiao Nian could still turn the tables!

...

The second round would be held in a large lecture theater. The lecture theater was the size of a small basketball court, and all kinds of experimental equipment were placed inside.

In addition to all kinds of experimental equipment on each experiment table, there was also a desktop computer. This computer was the simulated experimental computer that would be needed later.

Qiao Nian was the last to enter. The front row had been occupied, leaving only one seat in the last corner.

She raised her eyebrows and walked towards it.

Yesterday, she was also the last to enter the examination hall. At that time, not many people paid attention to her. Everyone was nervous about the upcoming assessment.

But today's situation was very different!

From the moment Qiao Nian appeared at the entrance of the lecture theater, almost everyone's eyes were on her.

The girl moved all the way to the corner on the left of the last row.

They stared until the girl put down her shoulder bag as if nothing had happened, put it on the seat, and turned on the desktop computer.

Only then did the probing gazes gradually retract.

Ji Hongfeng arrived early. He occupied the third seat in the first row, right in front of Qiao Nian.

Chapter 1900 - 1900 The Heads of the Level 6 to Level 8 Laboratories Didn't Come

Just now, when everyone was paying attention to the girl, he had also followed everyone's gaze to pay attention to her every move after she came in. Seeing that the girl had casually turned on the tap on the experiment table and even rinsed her hands, his thin lips tightened and a determined glint flashed across his eyes!

Five minutes later.

The heads of the major laboratories arrived.

Several big bosses from the research institute were here.

The lecture hall fell completely silent. magic

Everyone had forgotten the existence of Qiao Nian, who had operated against the heavens yesterday. They all looked at the people in charge of the few laboratories on the steps and held their breaths nervously.

Although Ji Hongfeng was a little stronger than the others and was not as nervous, he was still a little nervous. His eyes were filled with yearning as he looked at the people on the stage.

The research institute still attached great importance to its recruitment assessment every three years. It was usually very difficult for the heads of the few laboratories to get together. This time, it could be considered a reunion for them.

According to tradition, the heads of the laboratories above Level 5 this year were all absent.

However, the person in charge of the Level 5 laboratory, Gu Hengbo, came.

As the person in charge of the Level 3 laboratory, Zhou Zhou was also there. She exchanged a few pleasantries with the others and looked around the lecture theater for Qiao Nian. Soon, she saw the girl in the corner of the last row.

She winked at her playfully, then restrained her smile. She continued to exchange pleasantries with the others in a serious manner.

“Everyone, it’s about time.” Gu Hengbo ended the lively conversation after everyone exchanged pleasantries. Then, he took out the experiment questions.

The others also took out the leather bags they had brought.

Zhou Zhou brought the experimental questions from the people in charge of the Level 6, Level 7, and Level 8 laboratories. After handing them to Gu Hengbo, everyone distributed the questions

Simulation experiments were also a type of experiment.

The First Research Institute always divided the experiments into eight levels. Every time the recruitment assessment was held, the person in charge of each level laboratory would prepare an experimental project for the participants to choose to complete the experiment. Then, they would score them according to the different levels and experiment completion rates.

Of course, the score for the Level 8 experiment was the highest.

However, ordinary people could not do such a difficult experiment.

This was also why the people in charge of the Level 6 to Level 8 laboratories could not be bothered to come!

However, no matter how high-level the experiments the participants could perform, according to the rules, every laboratory would come up with experiment questions.

Therefore, the questions distributed to everyone were also Level 1 to Level 8 experimental projects.

There were many people in the lecture theater. Zhou Zhou couldn't show that she was close to Qiao Nian, so she only mouthed a few words of encouragement to her.

Then, she continued to distribute the questions to the others.

Qiao Nian received the questions for the eight experimental projects.

She opened them roughly and was in no hurry to start.

Ji Hongfeng went straight to the Level 5 experiment questions. He directly picked out the Level 5 laboratory questions from a pile of documents and put the other documents aside to do the basic preparations.
