

Madam's 2061

Chapter 2061 - 2061 Shi Fu's Attitude Changed

Cao Yanhua did not dare to arrange anything for her.

Anyone with a discerning eye could tell that the Level 8 laboratory members led by Xie Xinyao were all ostracizing Qiao Nian, a newcomer who had appeared out of nowhere. Even if he found someone to help her, there was a high chance that no one would be willing to guide her sincerely.

Cao Yanhua had a headache. "Qiao Nian, why don't you follow me as usual and watch me do experiments?"

He also talked about this during lunch with Han Cheng, Xue Zhu, and Shen Qingfeng. However, in the end, he was only a team leader. Shi Fu had to decide on Qiao Nian's final arrangements. He could not decide.

Shi Fu came in as he was speaking.

As soon as Xie Xinyao saw Shi Fu, she immediately grabbed the experimental data and went over. "Teacher, we've sorted out the data for the experiment I was in charge of previously. Do you have time to take a look for us?"

Qiao Nian also noticed the commotion.

She turned around and saw a man in his fifties enter. The man was dressed in a Chinese tunic suit and looked very strict. He did not seem the talkative sort.

Shi Fu did not take the experimental data from Xie Xinyao. Instead, he looked down and said calmly, "Put it on my desk. I'll look at it later."

As he spoke, he walked around Xie Xinyao and walked toward Cao Yanhua and Qiao Nian.

Cao Yanhua instinctively placated Qiao Nian and lowered his voice. "The teacher is here. I'll ask him for you later."

Qiao Nian frowned. Her black hair covered her eyebrows, and her aura could not be restrained.

However, she still took a deep breath and forcefully suppressed her anger. She told herself that she had gotten in through the back door. It was normal for her to not be liked by these people.

However, Qiao Nian rarely encountered such a situation. In the past, when she encountered such things, she could just leave. However, this time, she could not do so.

If she had enough time, she would not have agreed to Feng Yu's proposal. Unfortunately, she had only taken a year off school.

A semester had passed, and there was only half a semester left now.

She was in a rush.

... magic

Shi Fu walked over.

Everyone in the Level 8 laboratory followed his gaze.

Little Chubby, who was beside Xie Xinyao, whispered, "Is Teacher looking for Qiao Nian?"

"Heh, how is that possible?" Xie Xinyao raised her eyebrows. She could not hide the coldness in her eyes. Her tone was also perfunctory and disdainful. "Don't you see that Senior Brother Cao is also there? He should be talking to Senior Brother Cao about the semiconductor experiment."

She had been in the Level 8 laboratory for so long. How could she not see that Shi Fu was very dissatisfied with this newcomer who had been parachuted in?

She crossed her arms and smiled, happy to watch the commotion.

Shi Fu quickly walked up to Qiao Nian and Cao Yanhua. His gaze landed on Cao Yanhua for a second.

Cao Yanhua was also very obedient and said respectfully, "Teacher."

"Mm," Shi Fu replied.

A short second later, he looked at Qiao Nian at Cao Yanhua's side.

Shi Fu seemed to have thought of something. His eyes darkened as he frowned and asked Qiao Nian in a low voice, "What's your research focus?"

Qiao Nian raised her eyebrows in surprise. "Weapon manufacturing and black gunpowder."

"Yes." Shi Fu nodded again. No one knew what he was thinking, but he fell into deep thought.

Since he did not speak, Qiao Nian was not in a hurry to do so either.

The others' expressions became subtle.

This was because everyone realized that Shi Fu's attitude towards Qiao Nian had changed. At the very least, he was no longer as cold as before!

Chapter 2062 - 2062 Do You Think Everyone Will Get in Through the Back Door Like You?

Shi Fu thought for a moment and looked up. "Few girls choose this direction of study. Why are you interested in learning this?"

“An old friend of mine majored in this field. I suddenly want to understand her, including what she loves.” Qiao Nian’s tone was calm and casual. It seemed casual, but there seemed to be a cluster of light burning quietly inside.

She had been investigating Ji Qing’s death for the past two years. During this process, she gradually came into contact with some things about her biological mother. She suddenly wanted to find out more.

Including the Ji family, as well as the weapons manufacturing and black gunpowder specialization that Ji Qing once loved.

Shi Fu did not expect the girl to be so frank with her thoughts. Instead, he changed his opinion of her and looked at her again.

However, Qiao Nian did not take the right path to enter the Level 8 laboratory, after all. Shi Fu only said calmly before turning to leave, “In the future, learn from me. As for how far you can go in the end, I’m not responsible.”

Shi Fu came quickly and left quickly.

Walking past Xie Xinyao, he remembered that she had looked for him previously.

Shi Fu deliberately stopped and said, “Don’t put the experimental data on my desk. Bring it to my office. I’ll help you take a look.”

“...Alright.” Xie Xinyao quietly hugged the folder in her arms tightly. Her expression looked extremely ugly, and her eyes flickered.

She forced herself to look not so bad. She squeezed out a smile that was uglier than crying and said, “Okay, Teacher.”

Shi Fu was not a meticulous man. He did not notice the subtle changes in Xie Xinyao’s expression. He nodded and left the laboratory.

After Shi Fu left, the other people in the Level 8 laboratory released their held breaths.

All of them looked in the direction of the girl.

Xie Xinyao quietly clenched her fists. Extremely frustrated, she suddenly threw the folder on the experiment table, causing quite a commotion.

Everyone in the laboratory looked at her.

She did not care.

Xie Xinyao's face was dark as she looked straight at Qiao Nian and said sarcastically, "Junior Qiao, you are good! Who did you find to speak up for you this time?"

Letting Qiao Nian experiment with him was equivalent to recognizing Qiao Nian as a member of the Level 8 laboratory. She could also follow up on the semiconductor project they were working on.

This project was so big that many people in the Level 8 laboratory wanted to join.

Including Xie Xinyao!

Cao Yanhua was about to congratulate Qiao Nian when she spoke.

He felt so awkward that he did not know how to proceed.

"Q-Qiao Nian, don't take it to heart."

Before he could finish speaking...

The girl moved.

She only straightened her legs slightly, and her powerful aura crushed Xie Xinyao until nothing was left.

This time, Qiao Nian did not spoil her.

They looked each other in the eye.

Meeting Xie Xinyao's exasperated and slightly angry gaze, she retorted coldly, "If you're not happy about it, you can find someone to speak up for you. No one tied your hands and feet to prevent you from doing so."

"You!" Xie Xinyao's fair face suddenly darkened. Her almond-shaped eyes were cold and solemn, and a strong sense of superiority could be felt in her eyes. She sneered. "Do you think everyone gets in through the back door like you?"

These words were too ugly.

Shen Qingfeng, Xue Zhu, and the others were all there.

Xue Zhu's expression changed. Shen Qingfeng also looked at the girl worriedly.

Chapter 2063 - 2063 Aren't You Afraid of Offending the Xie Family Behind Her?

However, the girl did not move at all, as if she was not affected by her words. "I don't know if everyone got in through the back door like me, but in First Research Institute, is there really a difference between a person's background and coming through the back door? Do you dare to say that you only relied on your own ability to enter the level 8 laboratory? It has nothing to do with your surname?"

Her tone was casual.

Xie Xinyao's expression suddenly changed. Two icicle-like gazes shot at Qiao Nian, wishing she could stab a hole in her.

“Qiao Nian, do you know what you’re talking about?” After her anger subsided, her usual domineering expression was restrained, revealing a mocking expression, as if she was watching an ant trying to move an elephant. “Do you think that since you know a few people, you can run amok in the Independent Continent just because the director personally pleaded for you, allowing you to enter the Level 8 laboratory?”

“You’d better remember what you just said. You’ll regret it!”

As for why Qiao Nian would regret it, Xie Xinyao did not say it explicitly.

However, everyone in the Level 8 laboratory had seen their argument.

Xie Xinyao was clearly using the power of the three families of the Independent Continent to warn and threaten Qiao Nian!

Cao Yanhua was just about to smooth things over.

However, Xie Xinyao’s expression made him pause. She quickly picked up the folder that had fallen on the experiment table and turned to leave. “I’ll give the experiment data to the teacher.”

“Junior Xie...”

Cao Yanhua’s outstretched hand missed. He could only watch her leave.

After Xie Xinyao left, the others in the laboratory did not dare to congratulate Qiao Nian. All of them quickly found something to do, ostracizing Qiao Nian from their circle.

Only Han Cheng walked over and said to the girl with a smile, “Congratulations.”

Qiao Nian pressed her baseball cap, her eyes cold and dry. “Thank you.”

Seeing her cool act, Han Cheng could not help but ask her, "Aren't you afraid of offending the Xie family behind her?"

Who was he referring to? magic

It went without saying.

Qiao Nian shrugged nonchalantly and said arrogantly, "I've already offended one family, anyway. One more won't make a difference. Besides, I'm just telling the truth."

"..."

This...

Han Cheng was speechless.

The First Research Institute was indeed not as glamorous and fair as it looked on the surface. Here, injustice and ostracization were everywhere.

Disciples with strong backing like Xie Xinyao and Ji Ziyin had many more opportunities than ordinary people.

Xie Xinyao entering the Level 8 laboratory was indeed not entirely based on her strength.

That was more or less related to her family's power.

However, Xie Xinyao was mad at Qiao Nian this time. Han Cheng knew well that Xie Xinyao's anger was not only because Qiao Nian had parachuted in, but also because their privileges had been bypassed.

Someone else had used privileges to a greater extent than they did.

This was the key to Xie Xinyao's anger.

Han Cheng's gaze became much gentler as he looked at the girl. He only said, "The three families have deep roots in the Independent Continent. It's very easy for you to suffer if you offend her. You have to be careful."

Qiao Nian did not expect him to remind her so kindly. She nodded slightly and acknowledged his kindness.

Cao Yanhua also reacted at this moment. He frowned, his dark face filled with seriousness, and reminded her, "Qiao Nian, you can follow me. I'll try my best to help you block her."

Chapter 2064 - 2064 So Master Wang Paved the Way Behind the Scenes

"The teacher asked you to join the semiconductor project. No matter how noisy she is, she won't dare to go against the teacher's wishes. You don't have to worry too much." He was afraid that Qiao Nian would be worried, so he comforted her considerably. magic

Qiao Nian was not worried about what Xie Xinyao could do. She just did not expect Cao Yanhua and Han Cheng to stand on her side.

She nodded with a slight "hum".

Coincidentally, her cell phone rang at this moment.

Qiao Nian used the excuse of taking a look at it to temporarily disengage from them.

She took out her cell phone and looked down.

It was Feng Yu.

Feng Yu still sent her a message through the group chat. It was a short sentence—

[Indigo Collar: Sun, do you know Master Cheng and Ye?]

Qiao Nian's doubts deepened. She pursed her lips and typed a message back with both hands.

After a while.

Feng Yu's reply came in.

[Indigo Collar: Shi Fu came to look for me at noon. He said that he received a recommendation letter. Master Cheng and Ye recommended you to him.]

Qiao Nian leaned against the wall and narrowed her eyes. She read the last half of Feng Yu's message again.

[Ye was once his favorite student. Shi Fu said that Ye never spoke up for anyone before. Since Ye wrote to him to recommend you, he wants to take a good look at your potential.]

Qiao Nian slowly put away her cell phone and lowered her eyelashes.

She already knew why Shi Fu had suddenly changed his mind.

It was because of Ye Wangchuan.

Ye Wangchuan went to look for Shi Fu and gave him a recommendation letter that included his and Master Cheng's combined recommendation.

This made Shi Fu change his mind midway.

Qiao Nian's fingertips were clearly cold, but her heart seemed to be on fire.

Under her eyelashes, the corners of her lips curled up. She had never tried to rely on others before, but it seemed like it was not bad to lean on them occasionally!

* *

Over the next week, Qiao Nian began to learn from Shi Fu.

Shi Fu was very busy.

He often had to deal with trivial matters other than experiments, so once he entered the laboratory, he would always devote himself to it and was rarely distracted.

He had agreed to guide Qiao Nian. Just as he had said, he basically only let Qiao Nian watch him operate from the side and rarely gave her a chance to do anything.

It was as if he was not responsible for whether Qiao Nian could understand anything or not.

Cao Yanhua was much better.

Every time Shi Fu brought the two of them to complete an experiment, Cao Yanhua would take the opportunity to let Qiao Nian record the experimental data to briefly sort out the steps and the knowledge points involved in the professional field.

Shi Fu's experiments were all at Level 8.

At first, Cao Yanhua was worried that Qiao Nian might not be able to learn it just by looking at it.

However, what surprised him was that Qiao Nian was extremely talented in this aspect. Basically, if he briefly went through it with the girl once, the girl would be able to grasp the key points and record them completely.

As time passed, Cao Yanhua and Qiao Nian became more and more in sync.

He began to hand some simple chores to her.

Anyway, he was watching from the side. If Qiao Nian did not do well, he could correct her immediately and not delay Shi Fu's experiment.

Because Qiao Nian had to keep up with Shi Fu's progress, and Shi Fu did not follow the normal process of guiding her, even if she had extraordinary talent in weapon manufacturing and black gunpowder, Qiao Nian still needed to devote herself to keeping up with their progress and spend more time and energy than ordinary people.

For the past week, she had basically left home early and returned late.

Chapter 2065 - 2065 Something Has Happened, Miss Qiao Is Still Visiting Relatives in Rao City?

When she returned to the villa at night, she had to stay up late to repeatedly observe the experimental videos recorded during the day. She had to use the simulation laboratory Ye Wangchuan had prepared for her to do it herself.

Qiao Nian was incredibly busy and barely had time for anything else.

They were under the same roof, but Qin Si was too free.

After Gu San returned from Beijing, he no longer needed to worry about anything big or small in the villa. The quality of the food also went from the miserable state when Gu San was not at home some time ago to the days of fish, meat, and various delicacies.

He had more than two choices for breakfast. He would no longer only eat a piece of bread every morning to fill his stomach.

The great tangible satisfactions caused Qin Si's heart to feel empty these few days. However, Qiao Nian was so busy that she had no time to play games with him.

Ye Wangchuan would not play games with him, either.

Only Gu San would occasionally play a few rounds with him when he was free.

On this day.

As usual, Qin Si lay on the sofa, picked up his cell phone, and howled in the group chat, preparing to pull people to play games.

He had just entered the game interface when Zhang Yang spoke on the voice chat. "Young Master Qin, is Miss Qiao still with her relatives in Rao City?"

"Huh?" Qin Si lazily occupied the big sofa alone. He stretched his legs and placed them on the coffee table, looking sloppy. "Ah, she's still in Rao City. What's wrong?" magic

Zhang Yang seemed to want to say something but hesitated. "I heard..."

"If you have something to say, just say it. Don't be a sissy." Qin Si was impatient. He was a little unhappy at his hemming and hawing.

"It's not that I don't want to say it. It's mainly because I've only heard of something and haven't confirmed it yet," Zhang Yang hurriedly explained upon seeing that he was angry.

He did not dare to leave him hanging anymore. "I heard that Uncle Jiang almost got into a car accident yesterday."

Qin Si had already recruited enough people and started matching.

Hearing this, his hands paused, and his expression suddenly became serious. He sat up straight, and his expression changed slightly. "Who did you hear that from?! Could the Uncle Jiang you're talking about be..."

The Jiang Family had two sons.

One was Jiang Zongjin, and the other was Jiang Zongnan.

He was not sure who Zhang Yang was talking about.

"... I'm talking about Miss Qiao's father, Uncle Jiang," Zhang Yang said vaguely. "I also heard it from a distant relative of my mother's who is a traffic police officer. He said that he was transferred over to be in charge of taking notes. I'm not sure about the details.

"I called to ask about it after that, but this news was covered up very well. I didn't manage to find out anything."

Zhang Yang was a smart person.

If this matter was only spouted by his distant relative, how could he not get anything out of them?

The more tightly this matter was covered up, the more it proved that there might really be such a thing.

Only then did Zhang Yang mention it.

"Young Master Qin, how long is Miss Qiao staying at her relatives' house in Rao City? When is she coming back?" Zhang Yang asked again.

"I don't know yet." Qin Si was in no mood to pay attention to him. "I'm not talking to you anymore. I'm leaving."

Exiting the game, he got up anxiously, preparing to tell Ye Wangchuan about this.

Unexpectedly, he had just reached the door when Ye Wangchuan and Gu San returned together.

"Master Wang, I have something to tell you." Qin Si hurriedly went up to him, planning to tell him about Jiang Zongjin's accident.

Who knew that before he could say anything...

Ye Wangchuan walked straight to the living room and instructed Gu San, "Call Mo Dong and Mo Xi back."

Chapter 2066 - 2066 Do All of You Only Dare to Play Dirty Tricks Behind My Back?

"I'll call them right now." Gu San did not delay. He did not even greet Qin Si and quickly brushed past him to make the call.

Qin Si's expression was solemn as he followed Ye Wangchuan into the living room. He watched as the man poured himself a cup of coffee and lowered his head as if he was sending a message to someone.

He looked up and asked, "Master Wang, you already know about Uncle Jiang?"

Ye Wangchuan had just sent a message to Qiao Nian. He looked up at him in surprise. "You know about it too?"

Qin Si instantly knew what to do.

He cursed silently in his heart.

He wondered which little brat was courting death by attacking Sister Qiao's father.

He touched his earlobe as he walked toward Ye Wangchuan and explained in a few words, "I just pulled Zhang Yang and the others to play games. Zhang Yang mentioned it to me. However, he's not sure. He said that he didn't find out the exact situation when he went to investigate later and that someone covered up the news."

Qin Si picked up his coffee cup, poured some coffee, and placed it on the table. "You also know that in Beijing, if something is covered up, that's the real big news."

"I was just about to tell you, but I didn't expect you to have already received the news." Qin Si sat on the sofa opposite him with a serious expression. "Is Uncle Jiang alright?"

"Uncle Jiang is fine." Ye Wangchuan held the coffee cup; the steam rising from the cup made his eyebrows look even more outstanding.

Qin Si was stunned for a second. He widened his eyes and waited for him to continue.

"And?"

He had an impatient personality and was as anxious as a dog chasing after him when he asked questions. "Master Wang, what's going on!"

"Uncle Jiang is just a university professor. Who would target him for no reason? The other party is probably targeting Sister Qiao!"

It was precisely because Qin Si had roughly guessed that this matter was related to someone who wanted to target Qiao Nian that he was rash and angry.

He punched the sofa, furious. "Do they only dare to play dirty tricks behind our back?"

“Previously, when Jiang Li was injured, they were also the ones behind it. This time, it’s Uncle Jiang. Are they done? If they have the ability, don’t hide behind like a chicken, a coward, or a scaredy cat! Let’s talk about it face to face. They don’t dare to shout directly and only dare to make a cheap shot, a cheap trick, behind our backs. It can be seen how despicable and shameless these people are.”

Ye Wangchuan saw that his eyes were red with anger and his face was red.

He covered his eyes and restrained his aura. “You don’t have to be so angry. Uncle is fine. The Ye family has always had someone secretly protecting him. This time, when the truck rushed out, that person had already pulled him away. Both of them only suffered some grazes on their arms and have already gone to the hospital to disinfect them. My grandfather also went to the hospital.”

“Elder Ye is there too?” magic

Ye Wangchuan said calmly, “He’s been in the hospital since yesterday.”

Qin Si’s anger dissipated and he let out a long breath. “It’s good that Elder Ye is there. No one will dare to behave atrociously with him around.”

Beijing was the Ye family’s territory.

With Ye Maoshan around, no one dared to be impudent.

“So that truck...” After Qin Si was slightly relieved, he perked up and immediately asked him.

Ye Wangchuan opened the drawer and took out a box of cigarettes. He took out a cigarette and lit it with a dark gaze.

“The driver is dead.”

Chapter 2067 - 2067 Master Wang: Investigate, Investigate to the Bottom of It!

He glanced at Qin Si from the corner of his eye and said slowly, "The truck's brakes failed and it hit a shop on the road. The driver died on the spot."

Died?

Qin Si's expression changed slightly. He suddenly stood up and cursed, "F*ck!"

If he died, it would mean that the clue died with him. There would be no evidence.

The other party was really ruthless!

They were obviously not giving them a chance to continue investigating!

After Qin Si cursed, he turned around, his eyes seemingly burning with unconvinced flames. "Master Wang, what do you plan to do?" magic

"Investigate!"

Ye Wangchuan crushed the cigarette butt in the ashtray and stood up to shake the ashes off his clothes.

One word, bloody and straightforward.

With that, he ignored Qin Si and walked toward his room. "I'm going to take a shower."

"It's only morning. Master Wang, why are you taking a shower at this hour?" Qin Si was stunned for a moment. Then, he lowered his eyes and saw the cigarette butt that Ye Wangchuan had extinguished. He instantly understood.

Sister Qiao was coming back later. Master Wang did not want to leave the smell of smoke on his body, so he was going to take a shower.

Qin Si was caught off guard and bore the brunt of their love again. He cried silently.

So why did he ask?

Qin Si slapped his stinky mouth. Tsk, what a cheap mouth!

He was depressed for a moment. Without delay, he quickly contacted his friend to see if he could find any clues...

* *

In the Level 8 laboratory.

Qiao Nian was finally in charge of some small experiments.

Today, Shi Fu would continue to tackle the semiconductor problem. He handed some of the chemical reactor data collection to Cao Yanhua.

Cao Yanhua handed the simple part to Qiao Nian. He was in charge of the more difficult data collection.

The collection of experimental data required a large number of experiments to support it. It was not a simple matter.

The part that Qiao Nian was in charge of looked simple, but it actually took a lot of effort and time.

What she was going to do was an experiment in the synthesis of tungsten molecules.

She had been circling around this experiment ever since she entered the laboratory. During this period, Xue Zhu, Xu Yi, and others helped her do some preparatory work.

Qiao Nian went to get the potassium permanganate needed for the last reaction.

The high-intensity experiment took her nearly four hours. Fortunately, the entire experiment went smoothly. All that was left was the final fusion with the potassium permanganate reagent, and she could wait to record the final experiment data.

Qiao Nian went to get the potassium permanganate from the laboratory herself. She had only dripped a drop into the test tube when she realized that something was wrong.

According to the chemical reaction results, a drop of potassium permanganate reagent should cause the rare metal in the glass test tube to quickly change color.

However, after waiting quietly for more than 10 seconds, not only did the rare metal in the glass test tube not react correctly, but it also began to oxidize and turn black.

Qiao Nian realized what had happened almost immediately.

She immediately opened the bottle of potassium permanganate reagent and fanned the mouth of the bottle with her hand. She smelled rotten eggs.

This was the smell of titanium sulfate!

Qiao Nian's usually cold face was solemn. She took the reagent bottle and walked out of the laboratory to ask the people outside.

"Who did this?"

The Level 8 laboratory was divided into two laboratories, one inside and one outside. The one inside was mainly used by Shi Fu, and the other outside was used by the others.

Recently, Shi Fu had been busy with the semiconductor project with Qiao Nian and Cao Yanhua, so Qiao Nian used the laboratory inside for her experiment in the morning.

She suddenly walked out holding a bottle of potassium permanganate. Cold and arrogant, her hostility could not be suppressed. Everyone looked at her.

Chapter 2068 - 2068 Sister Nian Takes Revenge on the Spot

Xie Xinyao and her team were in front of the experiment table, taking notes with a ballpoint pen. Her eyes flashed when the girl walked out, as if she was watching a show.

Xue Zhu and the rest were watching Cao Yanhua and Han Cheng do the experiment. Hearing this, she quickly walked over and tugged at the girl's sleeve. She asked softly, "Qiao Nian, what's wrong?"

"Aren't you doing experiments inside? What happened?"

Qiao Nian said expressionlessly, "Someone exchanged my potassium permanganate for titanium sulfate."

"What?!" Xue Zhu had helped her prepare for the experiment previously and knew that Qiao Nian's experiment would take a lot of time.

If she failed, she would have to start all over again. magic

Four hours was not four minutes.

Wasn't this a prank?

Xue Zhu had mixed feelings. She was worried and anxious. "How could that be? Then, your experiment..."

"It's ruined. I can only do it again," the girl said calmly, but her expression was cold.

In the next second, she said to everyone in the laboratory, “No one is coming out to admit it, right? I just need to check and I’ll know who did it. The reagents here are cleaned and wiped every day. No one’s fingerprints from the day before will be left.

“In other words, I only need to send this bottle to the laboratory for examination to find out whose fingerprints are on it other than mine. I’ll look for the laboratory records again and see who didn’t need to use it during the experiment but left their fingerprints on it. Then we’ll know who did it.

“This process is not troublesome. It won’t take long.”

Qiao Nian’s voice was low and calm, as if she had already seen through everything. Everything was within her control.

“I’ll ask again. Who did it?”

She was expressionless, but her aura was wild and surly. No one dared to speak loudly.

Cao Yanhua and Han Cheng looked at each other and subconsciously looked in Xie Xinyao’s direction.

As expected.

The two of them realized that Xie Xinyao’s expression had changed slightly. It was obvious that she had something on her mind.

Cao Yanhua did not want to blow things up. He walked over and patted the girl’s shoulder. He said in a low voice, “Qiao Nian, why don’t we forget about it?”

Xie Xinyao had always been domineering in the Level 8 laboratory. Other than listening to the teacher, she did not care about anyone else.

Many people in the laboratory had been ostracized and “pranked” by Xie Xinyao.

Back then, when Han Cheng first came in, he was tricked by Xie Xinyao once. Later, Xie Xinyao saw that Han Cheng was close to him and changed her attitude.

She kept calling him Senior Han from then on.

This time, it was obvious that Xie Xinyao had done this to Qiao Nian.

After all, Qiao Nian did not give Xie Xinyao face last time and embarrassed her in public.

“You don’t have to rush to give me the experimental data. I’ll tell the teacher. You can give it to me the day after tomorrow.”

Cao Yanhua still wanted to make peace.

Qiao Nian frowned, her eyes filled with ice. She pursed her lips and walked to the experiment table.

Under everyone’s incredulous gazes, she poured an entire bottle of titanium sulfate into Xie Xinyao and the others’ test tubes.

White smoke immediately came out of the test tubes.

Amidst the exclamations...

The test tube used by Xie Xinyao and the others exploded!

“Ah.” Xie Xinyao did not have time to dodge, and chemical reagents were splashed all over her clothes and arms. She immediately shouted in a sorry state, “Qiao Nian, are you crazy!”

Chapter 2069 - 2069 Slapping Her Face on the Spot, Sister Nian Knows

Also, implicated, the other members of Xie Xinyao's team jumped up and down. Each of them showed a bigger reaction than the other.

"What are you doing?"

"Ah, it's on me."

"Are you crazy?"

Unexpectedly, the girl only threw the bottle of potassium permanganate into the sink of their experiment table and dusted her hands. Looking up, Qiao Nian's dark, dry eyes met Xie Xinyao's. She said, "Next time, it won't just be a test tube."

"What do you mean..." Emotional, Xie Xinyao's finger trembled as she pointed it at Qiao Nian. It could be seen how angry she was at this moment.

About to go crazy from anger, her fair and pretty face was flushed red, as if it was about to spurt blood.

She could not believe her eyes as she glared at the girl with her almond-shaped eyes.

How dare Qiao Nian!

How dare she do this!

About to lose her mind, Xie Xinyao bit her lip and said angrily, "What right do you have to say that I did it? You're crazy. Even if you want to go crazy, you have to be aware of the place." magic

"Alright, Junior Xie, hurry up and wash your hands and change your clothes." Cao Yanhua stood between them and pulled Xie Xinyao away to prevent a fight from breaking out.

Xie Xinyao, on the other hand, trembled and looked at him in disbelief. Her tone was filled with disappointment. "Senior Cao, she got angry at me for no reason, but you still helped her."

Cao Yanhua looked in Qiao Nian's direction.

The girl was full of arrogance. It was obvious that as long as Xie Xinyao provoked her again, she would let her know what anger truly was.

Cao Yanhua felt helpless, but he was not a fool. He knew well what was going on. Xie Xinyao was definitely not innocent.

Xie Xinyao was still exasperated. "I want her to apologize to me!"

Cao Yanhua was silent for a second and did not try to persuade her anymore. He let go of her and said indifferently, "Qiao Nian is right. She can check the fingerprints on the bottle. We can find out as long as we check.

"Junior Xie, do you want to make things so bad that even Teacher learns about this?"

Xie Xinyao's furious expression froze. It was as if a bucket of ice water had been poured over her head. She was silent.

She was the culprit.

She did these things many times before.

In the past, her other victims were all like gourds whose mouths had been sawed off. They knew she was the culprit, but they did not dare to accuse her.

Not to mention that Qiao Nian had directly come to her, wasted her experiment, and warned her clearly.

Xie Xinyao could not breathe. Her chest was stuffy, and she panted slightly.

However, she did not dare to act rashly.

After all, Cao Yanhua and Qiao Nian.

One dared to say it, and the other dared to do it.

If they really told Shi Fu about this, with Shi Fu's impartial personality, he might chase her out of the Level 8 laboratory.

No matter how arrogant Xie Xinyao was, she was still afraid of this and did not dare to really go against Qiao Nian.

Cao Yanhua fell silent upon seeing that Xie Xinyao had given up.

He rubbed his swollen temples and turned to talk to the overly impulsive girl.

Qiao Nian was looking at her cell phone.

After she 'returned' the fake potassium permanganate reagent to Xie Xinyao, her cell phone vibrated. She looked down and saw a WeChat message.

It was from Ye Wangchuan.

Qiao Nian looked down in surprise and opened it.

[Uncle got into a car accident.]

The air around her instantly turned oppressive to the extreme. Cao Yanhua could not help but stop halfway.

Qiao Nian returned to the inner laboratory and picked up her baseball cap. Putting it on, she lowered the brim, picked up her shoulder bag, and strode out. "I won't be coming in the afternoon."

"Q-Qiao Nian, this afternoon..." Cao Yanhua thought that she was doing this because of Xie Xinyao.

However, the girl did not even look back.

Her back view was extremely cold.

She only said two words filled with hostility—

"Something's up."

Chapter 2070 - 2070 The Information They Found Was Pitiful

At noon.

Many people were in the villa.

Mo Dong and Mo Xi brought the members of Bright Gate's technical department over. magic

Mo Dong even went to look for the Hacker Alliance.

The huge villa was almost filled with computers. Gu San made coffee for everyone.

"Do you guys drink your coffee with sugar?" He put down three cups of coffee in front of the people from the Hacker Alliance, then turned his head and asked Mo Dong and Mo Xi.

Mo Dong wanted coffee with no sugar.

Mo Xi was much more refined. "I don't drink coffee. Please make me a cup of tea, and put fewer tea leaves."

"A cup of coffee without sugar and a cup of tea with fewer tea leaves, right?" Gu San asked.

Mo Dong and Mo Xi nodded.

He said, "Okay."

Then, he returned to the pantry to prepare coffee and tea.

Qin Si called his connections and asked his friends in Beijing to check on the truck. Walking out of his room, he saw many people in the living room. His eyebrows shot up and he revealed a surprised expression. Then, he took his cell phone and walked toward Mo Dong and Mo Xi. "Where's Master Wang?"

"Master Wang is still upstairs," Mo Xi replied.

Qin Si nodded. Seeing them in such a big formation, he could not help but ask curiously, "There are so many of you? How is it? Have you found out who was behind it?"

Mo Dong was the silent type. He did not speak if he did not have to. His scarred face looked fierce and taciturn.

He was quite a cool person.

On the other hand, Mo Xi looked much easier to get along with. Although he was also burly, his temperament was worlds apart from Mo Dong's. He looked more refined and polite.

Qin Si asked them if they had found anything. Mo Dong crossed his arms and looked straight ahead, not answering him.

Mo Xi, on the other hand, was much friendlier. His expression was solemn as he shook his head. "Not yet. We've checked the driver. The driver has a simple social relationship and his account is very clean. No one has transferred money to him. In addition, he's already dead. There's no evidence. We can't question a dead person, so..."

Therefore, even though they called the Bright Gate Technology Department and the Hacker Alliance of the Independent Continent over and the two sides worked together, the information they found so far was pitiful...

"However, as long as someone was behind it, traces will definitely be left behind. I believe that if we continue to investigate, we will be able to find the person behind it sooner or later." Mo Xi's tone changed, and he was filled with confidence.

At this moment, Gu San brought out the brewed coffee and tea and placed them on the coffee table. He turned around and said to the busy hackers, "Everyone, drink something and rest. We'll continue later!"

The dozen technicians and hackers all stopped what they were busy with. Everyone decided to rest for a while and continue later.

Mo Dong seemed to be very familiar with the people from the Hacker Alliance. He walked to a young hacker and asked, "How are things on your side?"

The other party was about 27 or 28 years old. He was pale and thin, and his hair was messy and long, covering his eyes. It appeared to be difficult to tidy up.

That person was drinking coffee. The computer in front of him was on, and a row of green codes flashed on the screen. It looked much more professional than the Bright Gate technicians.

"I'm checking the surveillance cameras near that house to see if he's had any contact with outsiders recently." The young man lowered his head and took a sip of coffee. He smacked his lips and

complained, "I didn't expect Country Z's Internet defense system to be so strong. It took me half a day to hack in."
