

Madam's 2101

Chapter 2101 - 2101 Sister Nian, I Recently Started to Dislike the Three Great Families

“Senior Sister Xie, Qiao Nian is here.”

“She really dared to come.”

“I thought she didn’t dare to come anymore. Tsk, as expected of the Newcomer King. She’s really thick-skinned.”

“She really dared to compete with Senior Sister Xie.”

There was a commotion in the Level 8 laboratory.

Everyone stared at the girl. However, the girl’s aura was too strong. Even the members of the Level 8 laboratory did not dare to speak loudly in front of her. They only dared to discuss her behind her back.

Whenever Qiao Nian glanced in their direction, they were all so frightened that they fell silent.

“Qiao Nian.” Xue Zhu heaved a sigh of relief and smiled.

Shen Qingfeng greeted her respectfully, “Miss Qiao.”

Cao Yanhua, Han Cheng, and Xu Yi all relaxed.

Qiao Nian walked over to them and asked lazily, “What happened yesterday? How does she want to compete?”

“Xue Zhu didn’t tell you?” Cao Yanhua didn’t expect her to walk over casually without even knowing anything.

She didn't take Xie Xinyao seriously at all!

However, Cao Yanhua felt that it was normal for Qiao Nian to do such a thing.

It seemed that he had never seen the newcomer king he thought highly of taking anyone from the research institute seriously.

Previously, the Ji family's genius, Ji Ziyin, was rumored to be very powerful. Hadn't she never given a damn about her before?

Qiao Nian put down her bag and said, "She told me, but I don't know what they want to compete in."

It was rare for Cao Yanhua to be speechless. He rubbed his brow and explained, "Xie Xinyao wants to compete with you in the experiment you didn't complete yesterday."

"Wasn't that experiment assigned by Teacher?" Han Cheng smiled. "Xie Xinyao wanted to prove through that experiment that she was more suitable for the semiconductor project than you."

As long as Xie Xinyao produced the data faster with higher accuracy than Qiao Nian, to a certain extent, it indirectly proved that she was more suitable to be Shi Fu's assistant than Qiao Nian.

This competition seemed fair.

In fact, she was very shameless.

After all, Qiao Nian had only been in the research institute for less than three months, but Xie Xinyao had been here for seven years. They were not on the same starting line.

However, Xie Xinyao wanted to compete "fairly" to prove that she was more skilled.

How unfair. magic

“The people from the three big families like to play this game.” Han Cheng had been tricked by Xie Xinyao in the same way before. He sneered.

Cao Yanhua glanced at him but did not refute.

Qiao Nian nodded and looked in Xie Xinyao’s direction, unconcerned. She cracked her knuckles. “It just so happens that I don’t like the people from the three big families these past two days. If she wants to compete, so be it. As long as she doesn’t cry after losing.”

Was she that confident?!

Han Cheng, Cao Yanhua, and Xu Yi all looked at her.

The girl’s expression was calm and composed, and she couldn’t hide the arrogance between her eyebrows. Qiao Nian seemed to be too lazy to restrain her arrogance. She was even more eye-catching than before.

Xie Xinyao was originally very outstanding, but she looked ordinary in comparison.

After being stunned for a second, Cao Yanhua recalled something and said, “By the way, this experiment requires an assistant. You have to choose a few team members. I don’t think anyone in the Level 8 laboratory is willing to help you.”

He paused for a moment and said with a serious expression, “If you choose Han Cheng and me, I’m afraid they’ll gossip. Moreover, the two of us aren’t enough. You need another person.”

Qiao Nian rested her chin on her hand. She understood. “You mean I need three helpers?”

“Yes.” Cao Yanhua nodded and asked her, “What do you plan to do?”

Without thinking, Qiao Nian smiled and looked at Xu Yi and the others lazily and arrogantly. She raised her chin slightly. "Well, there are just the three of them here."

Chapter 2102 - 2102 Xu Yi, What Do You Think?

She was talking about Xu Yi, Xue Zhu, and Shen Qingfeng.

Cao Yanhua and Han Cheng were both stunned.

Before Cao Yanhua could speak, Han Cheng, who was leaning against the experiment table, sized her up. He couldn't help but say, "Qiao Nian, do you mean you don't need my and Yanhua's help?"

Almost everyone in the Level 8 laboratory thought that Qiao Nian would ask them for help to make up the numbers. Xie Xinyao also thought that Qiao Nian would choose them. Then, she would find someone else from the Level 8 laboratory to make up the numbers.

They had been conflicted since yesterday. Apart from the two of them, there was a high chance that no one else was willing to offend Xie Xinyao.

Who knew that Qiao Nian didn't have that intention at all?

Qiao Nian raised her eyebrows and said disapprovingly, "There's no need."

Han Cheng was speechless.

She looked at the three stunned people at the side and asked in a low voice, "Are you guys confident? Do you want to cooperate once more?"

She made it sound so easy.

Xue Zhu bit her lip and subconsciously looked at Xu Yi and Shen Qingfeng. She was not confident. "It's not a matter of whether we have confidence. Qiao Nian, this competition is very important to you. We're afraid of implicating you."

Qiao Nian nodded and looked at the usually handsome man with her dark eyes. "Xu Yi, what about you? What do you think?"

"Me?" Xu Yi was stunned for a moment, his mind wandering. magic

"Yes." Qiao Nian crossed her arms, looking very relaxed. She didn't take the competition with Xie Xinyao seriously. "What do you think? Are you afraid of implicating me?"

Xu Yi pursed his lips and subconsciously avoided her gaze.

He was silent for a few seconds. Suddenly, he clenched his fists and looked at the girl solemnly. "No, I'll do my best to help you as long as you believe me."

"Xu Yi, you..." At first, Xue Zhu didn't understand what Xu Yi meant, but she wasn't stupid. She quickly understood the deeper meaning behind his words.

She fell silent as well. No one knew what she was thinking. After a few seconds, she seemed to have made up her mind. She looked at Qiao Nian and corrected herself. "Qiao Nian, if you believe us, we'll definitely help you with all our might. I was just worried..."

Before she could finish speaking.

The girl pressed down on her baseball cap. Her lips curved up as she interrupted her. "There's nothing to worry about. This is enough."

For a moment, Xue Zhu didn't know how to respond. Actually, she was still a little worried.

She was not afraid of losing, but she was afraid of implicating her friend.

Qiao Nian seemed to know what she was thinking. She straightened up, her aura extremely strong. Her gaze swept across Xue Zhu, Xu Yi, and Shen Qingfeng.

She smiled and said in an exceptionally relaxed tone, "Have you forgotten how we won the group assessment and obtained the right to visit the Level 8 laboratory?"

Xu Yi and the others all looked at her. Xue Zhu was slightly stunned and seemed to have calmed down a lot. Her tense expression relaxed.

Qiao Nian said firmly, "Don't worry. We won before, and we can still win now!"

Her casual words ignited the flames that the three of them had been suppressing in their chests for several years. That feeling of excitement was like a fire burning in their hearts.

They no longer seemed so scared of the challenge!

Xue Zhu took a deep look at the girl and lowered her voice. "Thank you, Qiao Nian."

She said what Xu Yi and Shen Qingfeng were thinking. They actually wanted to say this too.

Chapter 2103 - 2103 Sister Nian: Are You Done?

The members of Team 10 were not born to be at the bottom. They were just too disappointed in some of the research institute's systems, so they gradually began to give up on themselves.

But Qiao Nian was willing to believe them.

Qiao Nian was willing to bet her future on giving them a chance to prove themselves.

Who wouldn't be touched?

Xue Zhu took a deep breath and smiled brightly. She hooked her arm around the girl's shoulder and gritted her teeth. "F*ck, I'll fight them to the death!"

Wasn't it just Xie Xinyao?

They even stepped on Ji Ziyin.

So what if she stepped on Xie Xinyao from the Level 8 laboratory!

* *

Shi Fu arrived at the laboratory at 8:40 AM.

He was carrying a large pile of experimental materials in his arms. As soon as he entered the laboratory, Xie Xinyao and the others surrounded him.

"Teacher."

"Vice Director."

Surrounded by everyone, Xie Xinyao stood in the middle of the crowd and said, "Teacher, I'm ready."

Shi Fu frowned and looked at her for a moment before remembering what he had agreed to yesterday. He immediately felt a headache coming on and couldn't stand it anymore. "Yes."

He walked in and saw the girl who had run away yesterday afternoon.

Shi Fu stopped in his tracks. Although his expression was not good, he still asked her in a low voice, "What about you? Are you ready?" magic

Qiao Nian had just recruited Xue Zhu, Shen Qingfeng, and Xu Yi. Hearing the question, she turned around and saw Shi Fu.

She lowered her gaze calmly. "I'm ready."

Shi Fu was angry and regretful upon seeing her unruly expression. He sighed slightly and said in a soft tone, "Who are your team members?"

He didn't even ask Xie Xinyao this question.

Indeed.

Xie Xinyao's beautiful face changed slightly. Her expression quickly darkened, and the way she looked at Qiao Nian became very unfriendly.

She knew very well that Qiao Nian couldn't find people, but she said with magnanimous concern, "That's right, Qiao Nian. Have you found them? If not, I can get Little Fatty and the others to help you."

As soon as she finished speaking.

The lackey beside her immediately waved his hand sarcastically and said, "Don't, Senior Sister Xie. She doesn't like me. I don't know any semiconductor experiments, either. I shouldn't cause trouble for her."

Xie Xinyao glared at him, and he shrank back.

She retracted her gaze 'helplessly' and looked at the girl again, then said, "I'm sorry, he's just like this. Don't take it to heart."

After a series of combination punches, she finished singing all the good and bad praises.

Qiao Nian watched her performance lazily and asked casually, "Are you done?"

Xie Xinyao's dignified and magnanimous expression instantly couldn't be maintained. Her expression cracked slightly.

Qiao Nian ignored her and introduced her team members to Shi Fu. "I've already found the members of the team. They're the members of my previous team."

"Xue Zhu, Xu Yi, and Shen Qingfeng."

She introduced the three of them. All of them had tense expressions and were extremely nervous. Their hearts were beating faster.

None of the three of them wanted to embarrass her. They greeted Shi Fu very respectfully, "Hello, Vice Director."

"Yes." Shi Fu nodded and looked at the girl in surprise. He pursed his lips and said, "As long as you make the decision."

He walked towards the laboratory.

Walking to the door, Shi Fu said to the two groups, "You can start. I'll see your results in three hours."

"Okay," Qiao Nian replied.

Xie Xinyao sneered. With a dark expression, she turned around and said to the person beside her, "Let's get ready."

Chapter 2104 - 2104 Xie Xinyao Is Determined to Embarrass Qiao Nian

Before she turned around, she didn't forget to remind Cao Yanhua and the others, cold and arrogant, "Senior Brother Cao, since you're not members of her team, you can't help her. Otherwise, it's unfair to me. I can only tell the teacher that she cheated."

Cao Yanhua frowned. He was clearly displeased that Xie Xinyao had specially reminded him about this.

He lowered his expression and said in a muffled voice, “Don’t worry, Qiao Nian and I aren’t as dirty as you think. A competition is a competition. I won’t interfere.”

“That’s good.” After receiving his assurance, Xie Xinyao heaved a sigh of relief. She focused on her teammates and quickly began to work.

Seeing that they had already begun, Cao Yanhua turned to look at the unhurried girl and said worriedly, “Qiao Nian, are you alright?”

The girl only pressed down on her baseball cap to hide her exquisite and eye-catching face. Her tone was slow as she said, “You should ask them if there’s any problem.”

“There’s nothing wrong with me. I’m just afraid that they can’t afford to lose!”

Qiao Nian didn’t say much to him. She called Xue Zhu and the others to her experiment table.

...

The internal competition of the Level 8 laboratory this time was almost semi-public.

There were four people on Xie Xinyao’s side and four on Qiao Nian’s side.

The remaining Level 8 laboratory members could watch this competition up close. There was almost no possibility of cheating.

Xie Xinyao had only chosen this method to compete with Qiao Nian under everyone’s noses because she was extremely confident in her abilities.

Her goal was very simple—to let everyone know who was the most suitable to work on the semiconductor project with Shi Fu!

She was filled with confidence. The team members she chose were also the three most skilled people in the laboratory. They were carefully selected by her. magic

If it weren't for the fact that Cao Yanhua and Han Cheng were unwilling to help her, she would have even considered choosing them...

An hour passed quickly.

Cao Yanhua and Han Cheng were both watching the progress of the experiment.

Han Cheng walked over to Cao Yanhua and gestured with his chin. "How is it? Who's faster?"

Cao Yanhua looked at him solemnly. "Xie Xinyao and the others are a little faster.."

"Is that so?" Han Cheng said in a low voice.

He was clearly not surprised by this result. He lowered his voice and said to Cao Yanhua, "If Qiao Nian loses, will she really lose the right to participate in the semiconductor project?"

Cao Yanhua shook his head and said nothing.

After a while, he looked towards Shi Fu's laboratory. His gaze drifted away as he said, "I don't know what Teacher is thinking."

This competition had been unfair from the beginning. He did not believe that Shi Fu could not tell, but he did not stop them, so he could not guess what he was thinking.

* *

In the laboratory.

Shi Fu rolled up his sleeves and recorded the data of the chemical experimental reactions on the computer.

At this moment, his phone on the table suddenly lit up.

Shi Fu glanced at it from the corner of his eye. He put down what he was busy with and picked up. "Hello."

"I heard that your laboratory has a competition today?" Feng Yu's voice was filled with laughter. No one could tell what he was thinking.

Shi Fu frowned and did not hide it from him. "You've been telling me that she's a genius. Little Ye and Master Cheng also told me that she's extremely talented. I just wanted to see if she has extraordinary talent in this area like you said. Otherwise, I don't want to waste my time on her."

Chapter 2105 - 2105 Why Not? Let Them Compete

In the beginning, he was to mentor Qiao Nian.

Feng Yu had only asked him to allow Qiao Nian to enter the Level 8 laboratory. He could just ignore her and pretend that she didn't exist.

However, later on, he received recommendation letters from Master Cheng and Ye Wangchuan. Both of the letters recommended Qiao Nian to him, saying that the girl was exceptionally talented.

Only then did Shi Fu change his mind.

During this period of time, he had been taking Qiao Nian along with him and asking her to learn from him.

"This was an accident." Shi Fu's voice was low. "I didn't want to make things difficult for her at first, but she didn't come to the laboratory yesterday afternoon. The others in the laboratory had a problem with her and told me they wanted to compete fairly with her. I also wanted to see how far she had learned during this period of time. Hence, I agreed to that person's suggestion."

"You're talking about Xie Xinyao?" Feng Yu knew the people in the research institute very well and immediately guessed who it was.

"Yes." Shi Fu faced it calmly. "I'm not targeting her, nor do I have any intention of making things difficult for her."

Feng Yu smiled and said in a relaxed tone, "I know you don't mean that. We've been friends for so many years. Do you think I don't believe you?"

"If you weren't willing, you would have rejected me from the beginning. Since you let her enter the Level 8 laboratory, you won't deliberately make things difficult for a newcomer like her."

Feng Yu said it so casually that Shi Fu felt a little embarrassed. "Why don't I tell them to forget it and stop the competition?"

"No," Feng Yu said calmly. "Why not? Let them compete!"

"I also want those eyes inside and outside the research institute to see the skills of the person I like. I want them to see what a genius is. Otherwise, if a talented child appears in their family in the future, they'll publicize that their family has produced a genius."

"... Geniuses aren't just anyone. The so-called geniuses must be blessed by the heavens. Those people aren't worthy."

"Director, do you trust her that much?" Shi Fu still didn't believe that Qiao Nian had learned so much in just half a month. He only hoped that she wouldn't lose too badly to Xie Xinyao later.

"I don't just believe her." Feng Yu hesitated. "She's trustworthy. You'll know later. Also, she did have something urgent to do yesterday afternoon. Come to me later and I'll explain."

"Okay," Shi Fu replied. He understood how much Feng Yu valued Qiao Nian and weighed the pros and cons again.

He had just hung up and put the phone down when Cao Yanhua knocked on the door and entered.

Shi Fu looked at the time. It had only been an hour and a half. Thinking that Cao Yanhua had come in to talk to him about the semiconductor project, he sat down calmly and said, "Come in."

Cao Yanhua quickly entered and greeted him respectfully, "Teacher, Qiao Nian is done."

Shi Fu turned around in shock and looked into his eyes. "You said she..."

"Qiao Nian's team has completed the experiment."

Cao Yanhua was also in a daze. He didn't understand. Half an hour ago, Xie Xinyao's team was still ahead of Qiao Nian's team. Why did Qiao Nian's team surpass them in half an hour?

"Teacher, they're waiting for your evaluation outside."

Surprised, Shi Fu stood up and said to him, "Let's go out and take a look." magic

Cao Yanhua followed him out.

Chapter 2106 - 2106 Tsk, Don't Tell Me We've Been Conspired Against

Outside, everyone looked at Qiao Nian's group in disbelief. They whispered to each other and discussed.

Seeing Shi Fu and Cao Yanhua come out, they immediately fell silent again. They all looked in Shi Fu's direction, waiting for the final outcome.

"Are you done?" Shi Fu walked to Qiao Nian's experiment table and asked softly, looking quite calm.

Qiao Nian turned on the tap and washed her hands. Shen Qingfeng answered, "Yes, Vice Director. We're done."

"This is our result." With great foresight, Xue Zhu handed the data they had obtained from their experiment to Shi Fu.

Xu Yi did not speak and cleaned up the table alone.

The four of them had a clear division of labor. It was obvious that they cooperated extremely well and had a tacit understanding.

Shi Fu was not in a hurry to look at the results. Instead, he walked toward Xie Xinyao's group and saw that they were still speeding up their experiments and recording data...

He stopped someone and asked, "How long will it take for your group to complete?"

"Teacher, we..." This person was also one of the members of the Level 8 laboratory. At this moment, he looked troubled, ashamed, and angry. He lowered his head, too embarrassed to look at Shi Fu.

None of them had expected a bottom-of-the-line laboratory team member to be faster than them.

If news of this got out, they would all be embarrassed.

"We..." He stammered. From time to time, he would turn back to look at the equipment on the experiment table. Clearly, he was not confident.

Fortunately, Xie Xinyao could keep her cool. She interrupted and said, "Teacher, we still have half an hour."

"We didn't do it quickly this time, but I believe that the experiment doesn't rely on speed to win. Instead, it depends on the accuracy of the data."

There was clearly a hidden meaning in Xie Xinyao's words. She looked at Qiao Nian and the others and said confidently, "If we blindly pursue speed but the experimental data we get is wrong, we might as well do every step of the experiment seriously! I believe the data we get is closer to the accurate data."

"Yes." Shi Fu nodded, not refuting her.

He took the experimental data from Qiao Nian and the others and walked to the computer at the side. He turned around and said to Xie Xinyao and the others, "Finish it. I'll wait for your data to come out."

As he spoke, he began to turn on the computer in the simulation laboratory and asked Cao Yanhua to summarize the experiment competition. magic

He had to use the computer simulation laboratory to obtain precise data on the experiment results first.

On Xie Xinyao's side, when her teammates saw that Qiao Nian's group had completed it first, they were already a little relaxed.

Fortunately, Xie Xinyao's prestige in the Level 8 laboratory was still there. She pursed her lips, her arrogant face filled with stubbornness. She turned her head and said to them in a low voice, "Alright, do not be affected by the outside world. Continue the experiment. I believe we won't lose as long as we do every step well!"

She had already spoken.

In addition, what she said to Shi Fu previously made sense. The team members were comforted by her and calmed down, immersing themselves in the experiment.

...

On the other side.

Xue Zhu heard Xie Xinyao's words clearly. She turned her head and said to the girl who had just washed her hands and was wiping them calmly, "Qiao Nian, have we been conspired against? Tsk~ So scheming!"

The girl was not wearing a baseball cap during the experiment, revealing an exquisite and eye-catching face. Her appearance was extremely eye-catching.

Throwing the tissue into the trash can, Qiao Nian raised her eyebrows and looked in Xie Xinyao's direction. With just a glance, she retracted her gaze in boredom. "Oh, probably."

Chapter 2107 - 2107 Big Boss Lu Said That You've Been Targeted by Several Forces Recently

It didn't matter if Xie Xinyao's words meant anything to them.

Experiments never relied on words.

Experimental data would never lie.

Hence, Qiao Nian didn't take Xie Xinyao's righteous words to heart, because there was no need to be so loud.

As long as the results were out, it was obvious who was right and who was wrong.

No matter what she said, it would just be a waste of saliva.

"You don't have to bother with her." Just then, Xu Yi walked over after cleaning the experiment table. He placed the things beside Xue Zhu and said, "The experiment depends on the results."

Xue Zhu nodded. "I know the experiment depends on the results. By the way, shouldn't we check it again? I'm still not sure."

"Qiao Nian is keeping watch. Don't worry." Shen Qingfeng also joined them. He smiled upon hearing this. He was very confident in Qiao Nian.

Xue Zhu relaxed. She waited with the three of them for Xie Xinyao and the others to finish their experiments before comparing the results.

Qiao Nian's team completed it first. Coupled with the fact that she still had to wait for the results of Xie Xinyao's group, she didn't chat with Xue Zhu and the others. Instead, she grabbed her bag, took out her cell phone, and took it out. She found a quiet corner and leaned against the wall, playing with her phone.

She hadn't looked at her cell phone for two hours.

Many messages were waiting to be read.

Among them was a message from Feng Yu asking her if she was competing with someone.

Then there was Zhou Zhou. She seemed to have heard the news from Feng Yu. She had called her, but she didn't pick up, so she sent a message.

Qiao Nian flipped through the messages. Other than the news from the research institute, there was another piece of news that was especially important.

It was from Lu Zhi an hour ago.

[Lu: Recently, other than the Ji family, several forces have been investigating you. Be careful. Don't go too far.]

Qiao Nian narrowed her eyes; they were filled with endless darkness, as if there was wildfire in them.

Apart from the Ji family, how many other forces were investigating her?

Why were they investigating her?

She looked at the message and fell into deep thought. She did not reply for a long time.

* *

Just as Qiao Nian was thinking about something, Xie Xinyao was finally done.

They couldn't wait to compare the experimental data.

In order to ensure the accuracy of the final results, Xie Xinyao even specially checked again. In the end, she double-checked before handing the experimental data to Shi Fu.

"Teacher, we're done."

Shi Fu's gaze was still on the computer. He said calmly, "Put it there." magic

When Xie Xinyao went to hand in her set of experimental data, she saw that the simulation laboratory on the computer had already produced the data.

She stole a glance at the results.

11.2.

Xie Xinyao heaved a sigh of relief.

Their result was 11.02.

They would definitely win this time if that was their final result.

Compared to the computer data, their data only had an error value of 0.18. This error value was already extremely small in the experiment. It was almost negligible.

Xie Xinyao put down the data and quickly walked away, returning to her experiment table.

The other team members were still waiting for her.

All of them looked uneasy. Clearly, compared to Qiao Nian's group, they produced the results half an hour later. This made them very uneasy.

Xie Xinyao noticed it and patted one of them on the shoulder. Then, she said in a low voice, "Don't worry, we'll definitely win."

Chapter 2108 - 2108 Shi Fu Gave Xie Xinyao a Chance

"Huh?" That person looked at her in surprise.

Xie Xinyao raised her chin slightly, her eyes filled with coldness. "I just looked at the data on the teacher's computer. The teacher's computer concluded that the element content is 11.2."

Their result was 11.02.

The members of the team immediately reacted the same way as her. They heaved a sigh of relief and patted their chests, calming down a little.

...

Both sides had already submitted their experimental data. Now, it was time to compare the results.

After all, this was not a formal competition. It was just a small conflict in the Level 8 laboratory. It was not an exam that required a few mentors to grade.

The two groups were just competing to see who could do it better, faster, and more accurately.

Seeing that Shi Fu had obtained the data from both sides, Cao Yanhua sat in front of the computer. He repeated the simulation experiment several times. One moment, he frowned, and the next, he fell into deep thought.

He just had to step forward and urge, "Teacher, you can announce the results."

Shi Fu was still looking at the experimental data on the computer. After a few computer simulations, it was still 11.2. He already knew what to do.

"Teacher?" Cao Yanhua called out to him carefully again and said in a low voice, "Junior Sister Qiao and Junior Sister Xie are still waiting for the results."

Shi Fu looked away.

He turned around and glanced at Cao Yanhua first.

Cao Yanhua was confused. His heart was in a mess. "Teacher, Junior Sister Qiao and the others..."

Cao Yanhua was actually more concerned about the results of Qiao Nian's group. Hesitant, he said in a low voice, "After interacting with her for this period of time, I think Junior Sister Qiao is actually quite talented. It would be a pity if she was expelled from the Level 8 laboratory because of this small matter. So, Teacher, I..."

"You want to speak up for her?" Shi Fu gave him a strange look and took two folders. Without hesitation, he pulled out a chair and stood up. "Let's go."

Cao Yanhua knew Shi Fu's personality. Shi Fu hated it when others got in through the back door or formed cliques in the laboratory.

Seeing Shi Fu leave, he hesitated for a moment and could only follow him.

* *

"The instructor has come out."

"Stop talking. The instructor has come out."

"..." magic

As soon as Shi Fu came out, the noisy discussion in the Level 8 laboratory gradually quietened down. Everyone was waiting for the final outcome.

Everyone's expressions were tense, including Xu Yi, Shen Qingfeng, and Xue Zhu. They were clearly a little nervous.

Shi Fu did not look at them. His gaze searched the laboratory for a while and finally saw a girl leaning against the wall with her head lowered, playing with her phone.

Compared to Xie Xinyao and the others, she was too calm.

From her calmness, it was as if she had known the outcome from the beginning. She would not be affected by her surroundings.

He had seen this kind of calmness from a powerful person before.

Shi Fu retracted his gaze and looked at Xie Xinyao's team.

Xie Xinyao was clearly not half as calm as Qiao Nian, even though Shi Fu could tell that she was trying hard to make herself look less concerned about the outcome.

However, Shi Fu still noticed that her fists were clenched at her sides. The bulging veins on the back of her hand betrayed her unstable heart.

He couldn't help but shake his head and feel that it was a pity.

Shi Fu looked at Xie Xinyao with a pair of wise eyes and asked, "Have you thought it through?"

Xie Xinyao had not expected Shi Fu to ask her this before announcing the results. She already felt inexplicably uneasy, but she couldn't back down in front of everyone.

Chapter 2109 - 2109 Humiliated on the Spot, Xie Xinyao Is Really Humiliated

She could only meet her mentor's gaze and bite her lip. "I'm just unconvinced and want to prove myself. I've thought it through. The research institute has always stressed capability. There's no reason for our Level 8 laboratory to let a newcomer join an important research project."

"Yes." Seeing that she was resolute, Shi Fu looked away and did not leave her hanging. He announced the results in front of everyone. "I compared the experimental data of the two groups. Qiao Nian's group is closer to the final result, so they won."

His tone was extremely calm, as if he was just announcing an unimportant result.

However, the laboratory was dead silent. Everyone was stunned.

They were extremely shocked by the result.

Someone even blurted out what everyone was thinking. "What a joke! The people from our Level 8 laboratory lost to a 'death team' that's always at the bottom? Senior Xie and the others lost... This, this is impossible, right?"

Cao Yanhua and Han Cheng were both on Qiao Nian's side, but they were equally shocked by Shi Fu's announcement.

Forget about Qiao Nian.

She was obviously heaven-defying.

It was not that unbelievable for someone like Qiao Nian to create a miracle or two.

However, Shen Qingfeng, Xue Zhu, and Xu Yi had been in the First Research Institute for a long time. They had not been doing well. Even the rookie team outside the Level 8 laboratory was not too impressive. magic

The three of them and Qiao Nian alone could easily crush Xie Xinyao. This was too unbelievable!

Han Cheng looked at Xu Yi and the others and praised, "You guys are good."

Although Xu Yi was expressionless and as cold as ever, his clenched fists and fingertips were trembling. Obviously, he was not calm.

"I don't believe it." This was Xie Xinyao's first reaction. She couldn't care less and opened her mouth to say, "I've seen the data on your computer. The result Mentor got was 11.2. Our result was 11.02. There's only a difference of 0.18 between the two results. How can we lose with such a small difference... I don't believe this result."

She was short of explicitly suspecting that Fu Shi was protecting Qiao Nian and deliberately saying they had lost the competition.

Shi Fu did not spoil her. He simply placed the two folders on the table and said to everyone openly, "These are the results of the two experiments. Qiao Nian's group finished half an hour earlier than you did. Next is yours. The results are all here. You can look at them yourself."

Shi Fu spoke rather rudely.

If Xie Xinyao had enough EQ, this matter would end here.

However, she couldn't take it lying down. She gritted her teeth and checked the two folders in front of everyone.

The result of their portion was 11.02.

Xie Xinyao took out the results of Qiao Nian's group and saw the data at the end—11.2!

Her face turned snow-white when she saw the number clearly. The feeling of being slapped in the face in public and the buzzing in her ears made her bite her lips until they almost bled!

11.2?

It was the same result!

Impossible!

How could anyone be able to make the experiment results exactly the same as a computer!

Qiao Nian...

Xie Xinyao looked over. The girl was still playing with her cell phone as if the noise in the laboratory had nothing to do with her.

Xie Xinyao's fingertips trembled slightly, still in shock.

11.2.

How did she do it?

Chapter 2110 - 2110 Team Leader Zhou, Can You Help Us Ask Qiao Nian?

The news of Xie Xinyao's loss quickly spread throughout the First Research Institute like a rocket.

While everyone was surprised, they valued the members of Team 10 that they had once looked down on.

After all, before the December group assessment, the three people from Team 10, be it Shen Qingfeng, Xue Zhu, or Xu Yi...

The three of them were unknown in the research institute.

They were not eye-catching at all.

In the blink of an eye, these few people, together with the legendary "Newcomer King", formed the new Team 10. They actually defeated an official member like Xie Xinyao, who had been in the Level 8 laboratory for several years. They even won beautifully!

This was unprecedented in the First Research Institute. It was as shocking as an ant shaking an elephant, causing everyone to raise their eyebrows.

Including the people in charge of the major laboratories!

When Zhou Zhou went to the Level 2 laboratory to deliver experimental materials to the person in charge, she saw him together with the person in charge of the Level 4 laboratory talking about this.

"I'm leaving it here for you." Zhou Zhou put down the documents and prepared to leave.

Unexpectedly, the other party stopped her. "Team Leader Zhou, wait a moment."

Zhou Zhou stopped and turned around. She looked at him in surprise and asked, "What's the matter?"

The person in charge of the Level 2 laboratory was a short and fat middle-aged man. He had a good personality and was strong-willed. He was easy to get along with.

He had a good relationship with the other people in charge. He was a good old man.

Previously, when Gu Hengbo was targeting Qiao Nian, he had even extended an olive branch to Qiao Nian because he cherished talented people. He had thought of getting Qiao Nian to be in their laboratory. However, later on, Zhou Zhou stood up and got Qiao Nian to the Level 3 laboratory.

The person in charge of the Level 2 laboratory pulled her over with a smile and asked her impatiently, "Team Leader Zhou, have you heard the news from the Level 8 laboratory this morning?"

"You're talking about Xie Xinyao and Qiao Nian?" After he nodded, Zhou Zhou combed her hair and leaned lazily against the edge of the desk. "I've heard of it. What's wrong?"

The other party rubbed his hands in embarrassment and smiled and then said, "Are you on good terms with the Newcomer King?"

Zhou Zhou: "What?"

She paused for a moment before glaring at him in disbelief. "What? Are you trying to poach her?" magic

"No, no, no." He quickly waved his hand. Then, even more embarrassed, he said, "It's like this. Among the three members of Team 10, two of them are newbies in our laboratory. Then, there's someone

called Xu Yi. He's a Level 4 laboratory assistant. We've discussed it and want them to return to the laboratory. We plan to focus on nurturing them..."

He scratched his head in embarrassment. "Do you think it's convenient for you to ask Qiao Nian to let them know?"

Shen Qingfeng and Xue Zhu were assigned to the Level 2 laboratory when they entered the research institute. Xu Yi was talented and strong. Back then, he was chosen by the person in charge of the Level 4 laboratory.

Logically speaking, they should be like Ji Ziyin and would not usually stay in the laboratory, but the person in charge of the laboratory would be in charge of guiding them.

However, there were too many people in the research institute.

Every person in charge had a lot of subordinates. In addition, they were usually busy and had a lot of things on their hands. Inevitably, they did not have the energy to pay attention to the growth of the newbies in their laboratory.

He had missed out on a good seedling.

The person in charge of the Level 2 laboratory and the person in charge of the Level 4 laboratory got together to come up with a solution.
