

## **Madam's 2171**

### Chapter 2171 - 2171 Ji Ziyin Didn't Succeed and Even Suffered a Loss

Not giving them a chance to continue being an eyesore, she gestured and said, "Please."

Ji Xiao and the others were embarrassed. They did not achieve their goal and even left in disgrace.

Jian Jin only sent them to the elevator. Upon reaching the first floor and leaving Lu Zhi's sight, the faces of the people who had been tricked by Ji Ziyin darkened. They stopped in their tracks and looked coldly at Ji Xiao. "The Ji family is really scheming. Are you using us as guns?"

At first, they did not understand why Ji Ziyin would involve them for no reason since she had Lu Zhi's address. She even wanted them to compete 'fairly'.

But how could they not understand after the shocking scene just now?

Ji Ziyin and Ji Xiao were playing them like monkeys!

The expressions of the people from the Chamber of Commerce Alliance were the ugliest. One of them sneered and said, "I don't think it's the Ji family. I think it's Miss Ji Ziyin's idea."

"You've misunderstood..." Ji Xiao did not expect to be exposed in public and now be surrounded to settle scores.

Before he could finish speaking, the person from the Chamber of Commerce Alliance did not give him a chance to make excuses and interrupted him. "At this point, Mr. Ji, don't tell us there's a misunderstanding. Do you think we are children! Go back and tell Miss Ji that we'll remember her 'great kindness' this time."

They were almost scared to death just now. They held their breaths the entire time and did not dare to say a word.

Although they were innocent, they also offended Tian Chen by following Ji Xiao here.

They had clearly not done anything, but they offended Tian Chen and Lu Zhi. How could they not be angry and hate Ji Ziyin's scheming?

The others showed the same attitude and said similar harsh words to Ji Xiao.

They probably didn't have much to say.

After they finished speaking, they could not be bothered to listen to Ji Xiao quibble and left.

Ji Xiao watched as they left angrily. He couldn't make a single person say. He stood rooted to the ground and did not recover for a long time.

Previously, he had specially chosen a few families with some power in the independent continent but were not as powerful as the Ji family. magic

Now that they had offended these people, with their personalities, even if they did not dare to do anything to him and Ji Ziyin because of the Ji family, they would take a bite once they had the chance and would not mind kicking them when they were down.

Moreover, these people were considered connections that he and Ji Ziyin had worked hard to build for a long time. In this way, these relationships were all destroyed.

Feeling a splitting headache, Ji Xiao quickly went out to look for Ji Ziyin.

...

Ji Ziyin also received a call from Lu Zhi.

She accepted the call and greeted him politely. "CEO Lu, I didn't expect to receive your call."

Before she could finish speaking, the man's indifferent voice came from the other end of the call. "Ji Ziyin, didn't I warn you not to play tricks with me?"

Ji Ziyin's expression changed and she grabbed her clothes tightly. "CEO Lu, what do you mean?"

"I'll make it clearer."

Lu Zhi calmly said, "Ji Ziyin, listen carefully. I have already decided on a partner for the chip project."

Chapter 2172 - 2172 CEO Lu, Can I Ask Who It Is?

Ji Ziyin pinched her palm, and her breathing was about to stop. "CEO Lu, can I ask who it is? I'm really curious to know who is more suitable to cooperate with Tian Chen on this project than the Ji family."

"That's not surprising, right? Anyone in the independent continent will want to know who the person who won this cooperation is."

Ji Ziyin seemed calm, but her heart was already in her throat. She was so nervous that her back was tense.

"Or is it inconvenient for CEO Lu to say?"

Not affected by her provocation, Lu Zhi ignored her for a full minute before saying casually, "It doesn't matter if I tell you. Country Z's research institute, the Qin family."

Ji Ziyin blurted out, "Country Z?!"

In the past two days, she had thought of countless possibilities. For example, someone from the royal family of Country M or some force in the illegal district. Or Xie Xinyao's family, who was also eyeing this project covetously...

However, Ji Ziyin had never thought of Country Z.

Chip technology was one of the hottest technologies in the world right now. Country Z's Qi family appeared on an exchange forum in the illegal district last year and was slightly in the limelight.

Other than that, Country Z could be said to be uncompetitive in this aspect.

Moreover, Ji Ziyin did not expect Lu Zhi to choose the Qin family instead of someone with a powerful background.

She understood the situation in Beijing. There were only a few families at the top of the pyramid, and the Qin family was barely one of them.

Among them, the Young Master of the Qin family was very close to the young master of the Ye family.

As a result, the Qin family's status in Beijing rose.

The Qin family was promising.

However, their potential was not enough to challenge the forces in the independent continent. She really could not understand why Lu Zhi chose the Qin family...

"I've already discussed this with the Qin family and the contract has already been signed. The collaboration for this project is already a sure bet. There's no room for negotiation." Lu Zhi's ethereal voice reached Ji Ziyin's ears at this moment, like a blow to her head. magic

Ji Ziyin immediately saw stars and could not breathe. She could not accept this outcome. "CEO Lu, isn't your decision too hasty?"

"The Qin family is not a good partner. You have a better choice. I really don't understand why you chose them in the end..."

“A better choice?” Lu Zhi sneered and asked, “Who’s the better choice you’re talking about? You? Or the Ji family behind you?”

Ji Ziyin was not humiliated. Instead, she took a deep breath and said, neither servile nor overbearing, “Even if CEO Lu doesn’t cooperate with me, there are still so many forces in the independent continent for you to choose from. Even the Lu family’s main family is stronger than the Qin family...”

“It’s actually very simple. I don’t think highly of the Ji family’s younger generation! No one in the younger generation can take over the family.

Chapter 2173 - 2173 Repeated Humiliation, Ji Ziyin Lost All Face

Ji Ziyin seemed to have been slapped. She bit her lip and her eyes flickered. “CEO Lu, what do you mean?”

Lu Zhi could not be bothered to beat around the bush with her and said indifferently, “Ji Ziyin, everyone outside is bragging about how you’re a once-in-a-century genius. But you’re... not qualified to me.”

Ji Ziyin’s face turned pale.

“I’ve told your Patriarch this, and he tacitly agreed,” Lu Zhi said coldly. “That’s why I told you to put away your thoughts and not embarrass yourself.

“If you don’t look for me, you can continue to swindle others with the title of a once-in-a-century genius. If you continue to look for me, I don’t mind ruining your reputation in the independent continent.”

Ji Ziyin gripped her cell phone tightly, her fingers exerting so much force that her knuckles turned white. “I never said that I was a once-in-a-century genius.”

Lu Zhi did not listen to her explanation. He only asked her calmly, “Have you seen a genius?”

Ji Ziyin did not say anything.

Lu Zhi smiled. “I’ve seen one before.”

He had seen geniuses before. Ji Ziyin was really not worthy of this word.

“For Lu Yiming’s sake, I’ll let you off this time.” Too lazy to continue talking to her, Lu Zhi said coldly, “Remember, don’t disturb me in the future!”

The busy tone sounded. Lu Zhi had already hung up without giving her a chance to explain.

Her snow-white face suddenly turned red, as if she was extremely aggrieved. Under the chauffeur’s trembling gaze, Ji Ziyin suddenly threw her phone out of the window.

With a bang, the phone shattered into pieces.

“M-Miss.” Scared out of his wits, the chauffeur got out of the car trembling, wanting to pick up the pieces.

Ji Ziyin stopped him fiercely. “You’re not allowed to pick it up!”

The chauffeur did not dare to move.

Ji Ziyin’s fair face was red from the excessive humiliation. She tried to calm down for a full three minutes but failed.

It was not until Ji Xiao came out of the hotel and walked to the car that he saw the chauffeur standing outside at a loss and the phone fragments on the ground.

He was stunned for a moment before asking the chauffeur, “What happened?”

The chauffeur shook his head in confusion and stole a glance at Ji Ziyin in the car. He did not dare to speak nonsense and silently lowered his head to stare at the ground.

Seeing that he did not seem to know, Ji Xiao walked to the window and knocked on it. Then, he asked the person inside, "Why did you smash your phone?"

Ji Ziyin opened her eyes and pinched the palm of her hand, trying her best to breathe evenly. She brushed it off uninterestedly. "It's nothing. My hand slipped."

Ji Xiao looked at the cell phone fragments on the ground. Ji Ziyin's cell phone had been smashed to pieces. No matter how he looked at it, it did not look like it could be destroyed like that if it only slipped from her hand.magic

However, he was smart enough not to get to the bottom of the story. Instead, he frowned and mentioned the meeting. "By the way, let me tell you. Lu Zhi guessed that you gathered these people behind his back to look for him. He mentioned you in front of them. He seemed angry. Those people were also furious when they found out that they were used by us. They threatened to get back at us one day."

Ji Ziyin had already guessed this outcome when she received Lu Zhi's call, but she did not expect him to be so ruthless. "You said that Lu Zhi told them that I used them?"

Chapter 2174 - 2174 Qiao Nian, Let's Talk

"Yes." Ji Xiao nodded with a straight face. His inverted triangular eyes were gloomy. "That's more or less what he meant. So, after the people from the Chamber of Commerce Alliance and the Arbitration Alliance came back to their senses, they had strong opinions about us.

"We basically parted on bad terms."

Ji Xiao was being polite.

When they parted ways in the hotel, the faces of the people from the Chamber of Commerce Alliance and the Arbitration Alliance turned red with anger. They were obviously very dissatisfied with him and Ji Ziyin.

Ji Xiao looked at the woman in the car and asked, "What do you plan to do next?"

Ji Ziyin grabbed a corner of her clothes and did not speak for a long time. Then, she let go and looked up at Ji Xiao expressionlessly. "Investigate Beijing's Qin family. I don't believe they don't have a backer. Otherwise, Lu Zhi wouldn't have chosen them."

"Beijing's Qin family?" Ji Xiao asked.

Ji Ziyin's eyes narrowed slightly as if she was thinking about something. "Start investigating Qin Si. He's also in the independent continent. Someone must have helped him get to know Lu Zhi. I want to know who that person is!"

\* \*

Qiao Nian still didn't know that someone had racked their brains to find out about her.

She had stayed in the research institute for the past few days ever since she chatted with Feng Yu. She usually lived a simple life in the research institute and villa.

Occasionally, Nan Tianyi and Xie Tingyun would call her or ask her to eat at the manor.

They explained to her in private what had happened in the hospital that day. Xie Tingyun also felt guilty. However, the old lady was her biological mother. No matter how dissatisfied she was, she could not force her 70-year-old mother to apologize to Qiao Nian in person.

After that day, Qiao Nian clearly met Xie Xinyao less often in the laboratory.

Xie Xinyao seemed to be avoiding her.

However, they were from the same laboratory. Even if Xie Xinyao deliberately avoided her, they would still bump into each other from time to time.

Qiao Nian didn't care.magic

Xie Xinyao's face would always be dark every time she bumped into her. It was unknown what she was thinking.

Monday.

Qiao Nian completed Shi Fu's task as usual.

She could already come into contact with some simple semiconductor experiments with Shi Fu now. She had a high comprehension of this aspect and moved quickly.

Shi Fu gradually began to teach Qiao Nian some complicated experimental projects step by step after realizing this.

Qiao Nian became busy because of this.

Basically, she was the first to arrive and the last to leave the laboratory.

She stayed in the laboratory the longest, but she rarely participated in the gatherings. She was usually a little more alone. At most, she would talk to the three people from Team 10, or Cao Yanhua and Han Cheng would chat with her.

At first, the people in the Level 8 laboratory were not convinced by her.

Then, over time, everyone realized that Feng Yu had not given Qiao Nian an easy way into the Level 8 laboratory by letting her get in through the back door.

She was really capable!

Qiao Nian had recently participated in several experimental projects that were beautifully done. This way, a small group in the laboratory shut up and stopped talking about her sudden appearance.

At six in the evening.

Qiao Nian changed her clothes and picked up her bag. She then casually put on her baseball cap and lowered the brim.

However, someone blocked her way as she walked out of the laboratory.

“Qiao Nian, let’s talk.”

Silence.

The girl raised her head slightly. Her dark eyes were a little cold and impatient, but she followed the other person.

Chapter 2175 - 2175 Successfully Provoking Sister Nian, Xie Xinyao Is Very Capable

Xie Xinyao found a quiet corner of the stairs and stopped, then turned around and asked directly, “I heard that the dean is about to announce his heir?”

The girl stopped a step behind her. A little interested, she glanced at her lazily and asked, “Who did you hear this from?”

Xie Xinyao’s face darkened as she said coldly, “Don’t worry about this. Just tell me if the dean is going to announce his heir.”

Qiao Nian put her hands in her pockets and did not spoil her. “You should ask the person who told you about this, not me. I’m leaving if there’s nothing else.”

She turned to leave.

How could Xie Xinyao allow her to leave? She grabbed the girl’s arm and said sternly, “You’re not allowed to leave until you make yourself clear!”

At first, Qiao Nian could tolerate her on account of Xie Tingyun. However, Xie Xinyao seemed to have misunderstood something. She clearly took herself too seriously!

Qiao Nian gently twisted her wrist. No one could see how she did it.

Xie Xinyao cried out.

Already in so much pain that she let go and took half a step back, Xie Xinyao held her hand angrily and stared fiercely at the girl. "You! You dare to attack me?"

Qiao Nian only gently flicked the clothes she had grabbed and looked at her coldly. "Tsk, do you think you can still remain standing if I attacked you?"

Xie Xinyao seemed to have endured a great humiliation. She gritted her teeth and stared at her. "Qiao Nian, you've already snatched my position in the laboratory and relied on my aunt to get close to the dean. How many benefits do you want from our Xie family to be satisfied? Don't you have any shame?!"

Qiao Nian was already turning around to leave when she heard this.

Her eyebrows twitched fiercely.

Originally not planning to pay attention to someone like Xie Xinyao, now she subconsciously stopped in her tracks, turned around, and glanced at the resentful and dissatisfied woman. She asked coldly, "Who told you that I relied on Aunt Xie to meet Feng Yu?"

Xie Xinyao did not expect Qiao Nian to dare to call the dean by his name. She seemed to be quite familiar with him.

She was not confident, but she did not let it go. "Didn't you use my aunt's connections? You're just a bumpkin from Beijing. What right do you have to know a person like the dean? You probably took advantage of your pretty face!"

These words were a little too much.

Qiao Nian suddenly turned back and grabbed her chin, pushing her against the wall. Her aura was cold and ruthless, directly suppressing Xie Xinyao.

“Xie Xinyao, who told you that the people from Beijing are bumpkins? Are the people from the independent continent superior to others?” magic

“Isn’t that so?”

The independent continent itself was above all regions.

“Heh.” Qiao Nian’s eyes were dark as if the stars were waiting to be ignited. “That’s what you think. The independent continent is nothing in my eyes! I advise you to think more in the future. I’ll let you off on Aunt Xie’s account this time, but it doesn’t mean I’ll let you off next time.”

Xie Xinyao’s lips had long turned pale. She did not expect Qiao Nian to have such an aura. She only glared at the girl indignantly.

Qiao Nian suddenly felt that it was meaningless to continue. Letting go, she put on her usual expressionless face and reminded her coldly, “Don’t provoke me again. I’m a lazy person, but if you continue to cause a scene in front of me, I don’t mind taking some time out for you.”

With that, she turned around and walked away.

Xie Xinyao’s limbs had long gone limp from her aura.

Chapter 2176 - 2176 Someone Looked for Xie Xinyao, Let Me Tell You a Secret

Xie Xinyao reluctantly heaved a sigh of relief after the girl left. She grabbed her chest as if she could finally breathe and panted heavily.

She also slid down the wall and sat on the ground for a long time.

After recovering a little, she propped herself against the wall and got up.

It was getting late outside, and not many people were left in the research institute.

Xie Xinyao's lips had already bitten through the skin. She was slightly indignant and resentful as she walked out with a cold expression.

"Miss Xie."

Someone called out to her just as she walked out of the research institute.

Xie Xinyao looked over and saw a black private car parked by the road not far away.

The window rolled down, revealing the face of the person inside.

They smiled at her and invited her kindly. "Miss Xie, how about you get into the car? I'll send you back."

Xie Xinyao was from a prestigious family and was also a genius.

Other than being repeatedly frustrated by Qiao Nian, she still had arrogance in her bones and the temper of a difficult young lady.

Moreover, she had just suffered at Qiao Nian's hands and was in a bad mood. Therefore, upon seeing an unfamiliar person, Xie Xinyao did not give them a good expression. She refused without hesitation and turned to leave. "I'm not free!"

The person in the car did not seem surprised at her attitude. They smiled and lowered their eyes confidently. Their long eyelashes trembled slightly. "Miss Xie, I know a secret you may be interested in. Are you sure you don't want me to send you off?"

Sure enough.

Xie Xinyao stopped and turned her head with an impatient expression. "What do you mean? I advise you not to play games with me."

The person was not anxious. They clearly knew how to control her. "I just want to tell Miss Xie a small secret out of friendship."

Although Xie Xinyao stopped in her tracks, she did not immediately turn back. Instead, hesitation flashed across her beautiful face.

She knew very well what it meant to get into the car.

The other party was definitely up to no good.

Once she got into the car, it was equivalent to taking the bait.

The person in the car had been waiting for this moment.

Seeing that Xie Xinyao could not make a decision, the person in the car calmly threw out some shocking news. "Miss Xie, don't you want to know more about your aunt? For example, the reason your aunt held that banquet previously."

Xie Xinyao suddenly looked at them. Her beautiful face was filled with sharpness. "You... what do you know?!"

The person opened the door for her readily. Under her gaze, the person. Obviously, they knew a lot. "Get in, Miss Xie."

Silence.

Xie Xinyao's eyes flickered and she clenched her fists. After hesitating for some time, she could not resist her curiosity and walked towards the car.

The other party's chauffeur quickly got out of the car and opened the door for her. Xie Xinyao quickly got inside, and the black private car quietly drove away from the research institute.

...

At the same time, Qiao Nian had just arrived home.

Bright Gate's stronghold was especially lively today.

She saw Mo Dong and Mo Xi as soon as she got out of the car. Then, she saw a few unfamiliar faces.

They all greeted her politely.

"Hello, Miss Qiao."

"Miss Qiao."

"Hello, Miss Qiao."

Bright Gate was filled with burly men. All of them greeted her shyly, stealing glances at her. It was really painful to the eyes.

Chapter 2177 - 2177 Sister Nian: Is There a Bright Gate Gathering Today?

Qiao Nian pulled down the brim of her baseball cap and asked Gu San, who had just closed the car door, "...Is there a Bright Gate gathering today?"

Gu San looked at her and shook his head in confusion, looking even more confused than her. "No. Today's not special..."

Qiao Nian put her hands in her pockets and glanced at the person who had entered. She narrowed her eyes and asked impatiently, "Why are there so many people in the villa?" magic

Gu San scratched his head. "Master Wang called them over."

Qiao Nian was speechless. She raised her hand and rubbed her eyebrows, then said helplessly, "He's back?"

Gu San nodded and reported Ye Wangchuan's schedule honestly. "Master Wang arrived at two in the afternoon. He's been back for half a day."

Ye Wangchuan went out yesterday afternoon and did not return at night.

Qiao Nian didn't know where he went, either.

At noon, she received a message from a certain someone asking her to come back after the experiment in the afternoon and not go out for a meal.

Qiao Nian was still wondering what had happened when she entered the villa. Why were so many people from Bright Gate gathered here?

The four-story villa was very spacious. It was decorated in a low-key and reserved Chinese style. The furnishings were all mahogany furniture, looking restrained and luxurious.

Qiao Nian saw many people in the living room as soon as she entered.

The old and young filled the living room.

Everyone possessed a murderous aura that could not be suppressed. Mo Dong and Mo Xi had the same aura when she met them.

Qiao Nian was almost certain that these were the people in charge of Bright Gate.

Mo Xi and Mo Dong were also present.

Mo Dong sensed something and looked over.

Noticing the girl, he immediately called out respectfully, "Miss Qiao, you're back."

"Miss Qiao is back?" Mo Xi asked after hearing the commotion. He also looked over and saw that Qiao Nian and Gu San had indeed returned.

Before he could say hello, a commotion broke out in the living room. A small figure separated from the crowd and went straight into the girl's arms.

Qiao Nian reacted quickly and caught him.

Thump!

The small figure bumped into her arms firmly and looked up. His beautiful face, unique to the Ye family, was filled with unconcealable joy. He looked like he was about to cry as he looked at her and called out aggrievedly, "Sister."

The jaws of the burly men dropped.

After all, when their boss asked them to meet this Little Young Master not long ago, despite looking young, he was calm and steady.

After gathering here, they introduced themselves to him one by one.

His face was straight the entire time as he played with his electric game console. From time to time, he would look up at them. Anyway, it was impossible to tell if he was afraid.

One had to know that these people were on the knife's edge all year round.

Even if they tried their best to restrain their wild aura, ordinary children would probably be so frightened that they would cry when they saw them.

However, not only did Ye Qichen not cry, but he was also not afraid of them. At such a young age, his personality was surly, solitary, and cold. It was completely unlike children of this age.

Chapter 2178 - 2178 Master Wang, Has This Little Devil Always Been So Dramatic?

At this moment, seeing him obediently throw himself into the girl's arms like an ordinary child and curry favor with her in all kinds of cute ways, who could accept it?!

Gu San was not surprised. He silently walked to the sofa and said, "Master Wang and Young Master Qin, we're back."

Qin Si's attention was on Ye Qichen and Qiao Nian. He looked as they started talking as if no one else was around. He turned his head and asked the person beside him in shock, "Master Wang, has your little devil always been so dramatic?"

Ye Wangchuan glanced at the obedient Ye Qichen, who looked like a good baby. He smiled and leaned back lazily. "You'll get used to it."

Their Old Master and Ye Lan were used to Ye Qichen's antics. Anyway, the little devil had always been attached to Qiao Nian.

As long as Qiao Nian was around, Ye Qichen would be so obedient that their hearts would soften.

As for Qiao Nian's absence... Even their Old Master could not suppress him. The little guy was the only king. He would not submit to anyone!

"Ahem." Qin Si looked at the little guy talking to Qiao Nian and clicked his tongue. "I've never seen anyone change their attitude so quickly. I still can't accept it. Every time he sees me, he looks at me like I'm a fool and can't be bothered with me. But he's so obedient every time he sees Sister Qiao. He acts

cute for her in all kinds of ways. I usually give him many gifts. Why can't I get Little Young Master's heart? Sigh, I'm so depressed."

At this moment, Ye Wangchuan stood up and looked down at him from the corner of his eye. He said casually, "If you want a child to like you, just give birth to one yourself. I think Aunt Qin will be so happy that she won't keep urging you to get married anymore."

Qin Si quickly waved his hand with a terrified expression. "Don't! I just want to play with other people's children. I didn't say I wanted to have one myself."

Ye Wangchuan smiled and put his hands in his pockets, then said lazily, "Then bear with it!"

Qin Si lost his temper and did not say anything else.

Something suddenly occurred to him as he watched Ye Wangchuan walk toward Qiao Nian. He suddenly slapped his thigh and cursed. "That's not right. The little devil isn't your son."

The little devil's attitude towards Ye Wangchuan was only so-so. His attitude toward him was a little better than toward ordinary people. Compared to his performance in front of Qiao Nian, his uncle was like someone he picked up from a trash can.

What was Master Wang so smug about? If he had the ability, he should compete with Sister Qiao!

Unfortunately, no one could hear his thoughts. Only Gu San patted his shoulder comfortingly. His expression seemed to be saying, "It's not the first time you've seen Master Wang being a troll."

"Young Master Qin, forget it. Be careful that Master Wang tells Madam Qin that you want a child."

"..."

Qin Si's hair stood on end as he imagined a scene. He instantly cowered.

...

Qiao Nian played with the little guy for a while before seeing Ye Wangchuan from the corner of her eye. She stood up and asked him, "Why did you bring Chen Chen here?" magic

"Your birthday is coming up. He made a fuss at home about celebrating your birthday. The old master couldn't take it anymore and asked me to go back and pick him up." Ye Wangchuan mercilessly exposed the little guy's devilish side.

Ye Qichen blushed and looked at his uncle unhappily.

Ye Wangchuan looked back with a faint smile as if saying, "If you refute me, I'll continue to expose you in front of your sister."

Chapter 2179 - 2179 Saying That Sister Nian Is a Layman, Aren't You Looking for a Beating?

As expected, Ye Qichen pursed his lips and looked away first. He looked a little depressed, but his small hand grabbed Qiao Nian's sleeve, showing that he was still in a good mood.

Seeing that he was rarely honest, Ye Wangchuan did not continue to expose him. He said to the girl, "Chen Chen even prepared you a gift."

Ye Qichen was thinking about his life in the first month of the lunar calendar. Hearing this, he looked at Ye Wangchuan with his beautiful eyes.

Then, he slowly took out a gadget from his pocket, opened his palm, and handed it to Qiao Nian. "Sister, happy birthday."

His face was red and he was clearly a little embarrassed. He said shyly, "Grandma found a teacher for me. It's the first gadget I learned to make. It's for Sister!"

At first, Qiao Nian thought that it was a small toy or something.

Only after she picked it up did she realize that it was an aircraft the size of a glass bead.

Qiao Nian was an expert in mechanics and electronics. Slightly surprised, she quickly and deftly turned on the switch to check the system.

She realized that the programming was actually not bad.

Although this small aircraft did not reach a world-class standard, as the creation of a child, it could be seen that Ye Qichen was talented in computer programming.

Qiao Nian played with the aircraft carefully before putting it away. Then, she lowered her head and asked, "Are you learning computer programming?"

Ye Qichen nodded.

Qiao Nian nodded and said, "You did a good job, but there are a few places you can modify. I have a few books in my room. Come up with me and I'll give them to you."

Ye Qichen's eyes lit up at her praise. He nodded like a chick pecking at rice. Then, he grabbed the corner of Qiao Nian's shirt. He was very obedient.

Qiao Nian liked him, to begin with. She stroked the little guy's hair and said to the man in front of her, "Is it convenient for me to bring him upstairs now?"

"It's convenient." Ye Wangchuan did not look at the dozens of people in charge of the main halls of Bright Gate standing at the side. He only said, "Bring him up."

Qiao Nian held Ye Qichen's hand as she went upstairs.

Ye Qichen couldn't wait to have a chance to stick to Qiao Nian. He left carefreely without looking back. His eyes were only focused on his sister, and he had already forgotten that he had an uncle.

After the two of them went up.

Among the dozens of people in charge of Bright Gate, someone mustered his courage and said, “Master Wang, I think Little Young Master is quite talented in computer programming. If you hand him over to a layman to teach, won’t you lead him astray? Little Young Master is so young, it’s easy to be led astray...”

Before he could finish speaking...

Before Ye Wangchuan could speak...

Mo Dong pulled the man over and said earnestly, “You can say this here. Don’t say this when you go out, lest you embarrass our Bright Gate.”

That person was clueless. “The Hacker Alliance...”

“The people from the Hacker Alliance want to ask this ‘layman’ for guidance, but they haven’t had the chance,” Mo Dong interrupted him expressionlessly.

People in the Hacker Alliance wanted to consult Qiao Nian?

The people from Bright Gate whispered to each other. However, Mo Dong had always been sincere and said whatever was on his mind. He was not the kind of person to exaggerate things.

Mo Dong had already spoken. Although everyone felt that it was unbelievable, no one was so tactless as to question him. magic

Chapter 2180 - 2180 I'm Not Doing It For This Reason

Since Ye Qichen had come to the independent continent, Qiao Nian basically returned to the villa to accompany the little guy when she was not at the research institute.

After a few days of contact, Qiao Nian quickly realized Ye Qichen’s talent in computer programming, especially in machine manufacturing. Ye Qichen’s talent surpassed that of ordinary people.

He was definitely a good seedling in this field.

Curious, she asked Ye Wangchuan in private and he told her that Ye Lan's husband, who had passed away early, was in robotics research.

Qiao Nian checked later and realized that the little guy's father was not only in robotics research but also one of the earliest people in the country to come into contact with the concept of future robots. He was definitely a big boss!

Unfortunately, this big boss-level figure died in a serious traffic accident at the age of 36.

After Qiao Nian checked Ye Qichen's background, she basically understood where the kid's talent came from. magic

In the next few days, other than playing games with the little guy, she would also give him some programming books.

The Ye family had a special teacher.

Ye Qichen was a loner, but he had perfectly inherited the Ye family's genes. He was extremely smart and could understand the knowledge in the books by himself a long time ago.

Qiao Nian realized that he knew the words in the book, so it saved her energy.

Ye Qichen had been staying in her room for the past few days. Most of the time, she and the little guy stayed on the same sofa.

She was busy with some experiments, so Ye Qichen obediently read his book.

The little guy was smart. He would take the initiative to ask her questions when he didn't understand something.

Qiao Nian would put down what she was doing and teach him step by step.

The two of them got along exceptionally harmoniously.

\* \*

On the other side.

Xie Xinyao seemed to have a lot on her mind and had no appetite ever since she went into that car that day.

Mother Xie could tell that she was distracted for the past few days. She asked her a few times if something had happened to the research institute, but Xie Xinyao did not say anything.

However, from that day onwards, she spent more and more time in the manor. Basically, as soon as she left the research institute every day, she did not go home immediately. Instead, she went to the manor to visit Xie Tingyun.

Mother Xie was extremely surprised by how attentive she had been recently.

Mother Xie called her several times to ask, "Xinyao, why have you been going to your aunt's place every day these past few days? Don't tell me you're still thinking about that?"

She was talking about what had happened at the hospital.

And who Xie Tingyun would leave her future connections and assets to!

Mother Xie was a sharp person. "Your aunt is stubborn. She said so much to your Grandma last time. She won't change her mind so easily in a short time.

"It's useless for you to go to her now. She won't change her mind just because you visit her every day. Mom and Dad will slowly think of a way for you..."

"I know." Xie Xinyao had just arrived at the manor. She was frustrated at her mother's persuasion. She only looked at the old butler who was leading her in front and lowered her voice. "That's not the reason I'm doing this."

"Then you..."

Xie Xinyao saw Nan Tianyi and Xie Tingyun sunbathing in the garden outside. Her eyes flickered as she said to Mother Xie, "Mom, I see Aunt. I won't talk to you anymore."

She hung up and took a deep breath before walking towards Xie Tingyun and Nan Tianyi.

"Aunt and Uncle." Xie Xinyao forced a smile and greeted them.

"Yes," Nan Tianyi replied.
