

Madam's 2231

Chapter 2231 Think About Who You've Offended

The Lu family had only shown signs of rising in the independent continent all these years because of Ji Lingfeng's praise.

Lu Yiming had a good relationship with Ji Ziyin in private.

In the several projects that the Lu family and Tian Chen were collaborating on, Lu Yiming had left a spot for Ji Ziyin to participate. Ji Ziyin had also gradually gained a foothold in the Ji family through these collaborations.

Lu Zhi instructed calmly, "Tell Lu Yiming that the collaboration between the Lu family and Tian Chen is over."

"Sure."

Jian Jin did not take it to heart.

Be it the independent continent or the illegal district, countless forces wanted to cooperate with Tian Chen. It was already a miracle that Lu Zhi was willing to give the Lu family face all these years.

However, the Lu family did not cherish it and got involved with Ji Ziyin.

Lu Yiming even fantasized about solving Ji Ziyin's problems.

Wouldn't he take a look at the relationship between their boss and Qiao Nian? Was it something the Lu family could compare to?

If not for the fact that Qiao valued kinship and insisted on returning to Rao City, it was hard to say who Tian Chen's current boss would be~

Lu Yiming even wanted them to help bully his own people. Where did he get his face from? He was too shameless!

Jian Jin took her things and walked out. "I'll talk to Lu Yiming."

Lu Zhi waved his hand and asked her to leave without looking up. "Go."

Jian Jin went out and closed the door.

...

Outside, downstairs.

Lu Yiming had been waiting for a long time.

He was on the phone with Ji Ziyin when Jian Jin came down. His tone was gentle. "I know. I'll try my best to help you. He has a good relationship with Elder Feng. There shouldn't be a problem if he's willing to help speak up for you..."

Seeing Jian Jin coming out of the elevator from the corner of his eye, Lu Yiming quickly finished comforting Ji Ziyin before hanging up and putting away his cell phone.

He knew that Jian Jin was different from the others in Tian Chen. She was one of the few people Lu Zhi trusted.

Not daring to be arrogant in front of her, he quickly approached Jian Jin and greeted her politely, "Miss Jian, does Lu Zhi have time?"

Jian Jin had never spoken much outside. She sized him up and said, "Are you here for Ji Ziyin?"

Lu Yiming nodded awkwardly and said politely, "She's in some trouble. I want to ask Lu Zhi for a favor.

"It's nothing. I won't trouble him too much," he quickly emphasized.

He was a little uneasy since he knew that Lu Zhi did not have a good impression of the Lu family. Thus, he was not sure if Lu Zhi was willing to help him.

However, he was still confident.

After all, Lu Zhi knew Ji Ziyin.

The two of them could not be said to be on good terms, but, at the very least, they were better off than strangers.

Jian Jin looked him up and down again, as if she were looking at a fool, and calmly relayed Lu Zhi's words to him.

Lu Yiming was stunned at first. He stood rooted to the ground in a daze.

He took a deep breath after coming back to his senses, causing his chest to heave up and down. He could not accept this outcome at all. "Miss Jian, can I ask why?"

Lu Zhi's attitude towards the Lu family had always been ambiguous, but he had taken care of them all these years. He did not understand why Lu Zhi would fall out with him just like that.

Jian Jin was about to leave, but when she heard his words, she stopped and turned around to look at him. She did not know if it was because of his overconfidence that he could ask such a ridiculous question.

However, Jian Jin still reminded him kindly, "Think about who you've offended." magic

Lu Yiming's mind went blank.

Who had he offended?

He did not seem to have offended anyone recently.

Chapter 2232 Reaping the Karma

The Lu family was not at the top of the independent continent. However, in the past few years, because of Lu Zhi and Ji Lingfeng, not many people dared to provoke them.

Lu Yiming could not think of who he had offended. His eyes were blurry as he said, "Are you mistaken? I've not offended anyone..."

Jian Jin crossed her arms and looked at him in amusement. She might as well be more straightforward with him. "CEO Lu has never cared about how stupid you are, but you seem to be even more stupid than he thought. You came just because Ji Ziyin asked you to? Before coming, did she tell you that she provoked CEO Lu not long ago and pulled a series of cheap tricks, and was even warned by him?" magic

Lu Yiming was shocked. It was obvious from his expression that he had only just heard the news.

Ji Ziyin had never mentioned this to him!

She only sobbed and told him that she had been tricked by a newcomer from the research institute and that the research institute wanted to expel her.

Lu Yiming remembered that Lu Zhi knew Feng Yu and wanted to ask him for help.

He had no idea what was going on, let alone that Ji Ziyin had offended Lu Zhi!

Lu Yiming's back was covered in cold sweat. He had already realized the seriousness of the matter.

Lu Zhi was serious this time!

"I..."

Jian Jin had always exuded the image of an older sister and did not have the patience to teach him how to be a person. She only sneered and looked at him mockingly. "Looks like Ji Ziyin didn't tell you anything."

"Young Master Lu, you should be more careful!"

"..."

Jian Jin was not stingy with stabbing him in the heart. "Originally, the Lu family had nothing to do with this matter, but you insisted on looking for trouble. Now that the Lu family is involved, think about how to answer to Old Master Lu and Madam Lu on your way back!"

After all, the Lu family had been doing well for a long time.

They really thought that only they had the final say in the independent continent. In fact, it was strength that really mattered.

People like Qiao and Boss were awesome wherever they went.

Lu Yiming's face turned pale.

Jian Jin could not be bothered to entertain him anymore. Before leaving, she said, "I won't send Young Master Lu off. Young Master Lu, be careful on the way back."

Lu Yiming watched as she got into the elevator. The elevator door closed, and before he could stop her, Jian Jin had already left.

He opened his mouth, but his heart was in a mess.

Lu Yiming was extremely frustrated. As he walked out, he found Ji Ziyin's phone number and called her.

"Who exactly is the newcomer from the research institute you told me about?"

...

Qiao Nian stayed in the villa for the next few days.

Every day, she would team up with Qin Si to play games. Otherwise, she would take the time to throw the little guy a few programming books to read. Occasionally, when the little guy came with questions, she would take him to practice on her computer.

Gu San saw that she was not affected at all. She was living so carefreely!

She did not care that the outside world was about to turn upside down.

In the beginning, the Ji family was unwilling to give up on Ji Ziyin, such a good seedling. They fought with the research institute and also thought of ways to reconcile with Nan Tianyi.

However, the effect was not very good.

Feng Yu's attitude at the research institute was unyielding. He had no intention of changing his mind.

Nan Tianyi also insisted that the Ji family give an explanation.

The three forces were in a stalemate for a few days.

Ji Lingfeng made a tough choice in the end—he gave up on Ji Ziyin!

The Ji family spread the news and began to nurture Ji Nan and Ji Hongfeng, someone from the side branch, to give the Nan family an explanation.

However, the Ji family did not want to give up on the research institute.

Chapter 2233 Feng Yu Lets Sister Nian Watch the Show

magic

Qiao Nian received a call from Feng Yu when she was playing games in the afternoon. She retracted her legs and got up casually to answer the call. "Hello."

On the other side of the sofa, Qin Si urged her, "Sister Qiao, where are you going? Hurry up. This round is about to start."

"I'll take this call. You guys play first." Qiao Nian leaned against the sofa and twirled a lighter in her hand as she spoke lazily.

Seeing that she was busy, Qin Si relayed it to the other team members. "Sister Qiao has something on. I'll take you guys on this round."

Zhang Yang was familiar with him and couldn't help but tease in the team voice chat, "Young Master Qin, are you sure you can carry us? Miss Qiao isn't here. Just don't start with five! Without Miss Qiao to back you up, we can only lose."

"F*ck, who f*cking started the game by fighting five! I'm giving the other party a chance. Otherwise, it would be boring to play one-sidedly."

"Yes, yes, yes." Zhang Yang smiled cheekily. "Then don't give the other party a chance. We can't do it..."

Qin Si cursed again.

Qiao Nian raised her eyelids and glanced in his direction. Resting her elbows on the counter, she lazily asked the person on the other end of the call, "Why are you looking for me?"

Feng Yu also heard the commotion in the background and smiled. "Ji Ziyin left the research institute today. Do you want to come and take a look?"

Qiao Nian raised her eyebrows. "It's confirmed?"

Feng Yu couldn't help but laugh. "Why? You don't believe me?"

He continued warmly before Qiao Nian could speak, "The First Research Institute will definitely expel Ji Ziyin. This matter is not negotiable, and I can't change my words.

"The Ji family has been in a high position for too long and has been blinded," Feng Yu said indifferently. "The First Research Institute doesn't belong to any faction in the independent continent. As the dean, I still have the right to decide to expel an internal member. It's useless no matter how many people they find to intercede... I won't change my mind."

This time, the Ji family had found many connections to intercede for Ji Ziyin. These people directly or indirectly approached Feng Yu.

However, in the eyes of most people, Feng Yu had no children or desires in this life. There was no point of entry to get into his good books, so they could only leave it unsettled.

After a few days of stalemate, the final outcome still disappointed the Ji family.

"She's coming to the First Research Institute to get something today. Are you... free to come and take a look?" Feng Yu called to ask if she wanted to come and watch the commotion.

Qiao Nian lowered her eyes, her cold chin looking a little cool. She was still playing with the metal lighter in her hand, looking quite arrogant.

"I'm not going. I don't have the habit of looking at people who are down on their luck."

Feng Yu couldn't help but laugh. "You, you..."

He thought about it and changed the topic. "If Ji Ziyin hears this, she'll probably be angry with you again."

Qiao Nian threw the lighter on the table and turned her head. Her eyes were dark as she said indifferently, "Her matters have nothing to do with me. I can't control her. She can think whatever she wants."

"The Ji family won't give up on her." Feng Yu suddenly mentioned.

"They can only support her before they find someone to replace her. The Ji family will think of a way to promote her and not let her decline like this even if she leaves the First Research Institute.

"The Ji family is determined to protect her this time."

Feng Yu said mockingly, "I didn't expect them to be so determined to protect a useless person with an undeserved reputation. It seems like there's really no one in the Ji family in this generation who can be used."

Chapter 2234 Is Miss Qiao Still in Rao City?

Qiao Nian grew a little frustrated. She looked over and saw Qin Si playing a game on the sofa and shouting excitedly.

The sharpness in her eyes dissipated by more than half, and she turned listless. "Whatever!" magic

She said a few more words to Feng Yu before hanging up.

Qin Si had just finished a round. Seeing that Qiao Nian had finished her call, he immediately called her over. "Sister Qiao, come on. Let's continue."

In the team voice chat, Zhang Yang quickly asked, "Miss Qiao, are you done? By the way, is Miss Qiao still in Rao City? When will she be back?"

Qin Si immediately retorted, "Why are you asking about this?"

Zhang Yang said embarrassedly, "My mother's birthday is in a few days. My family is hosting a celebratory meal. I want to invite Miss Qiao. The venue is on the first floor of the Imperial Mansion, the usual place."

Although the Zhangs were not one of the top families in Beijing, they were at least one of the middle families.

Back then, when Qiao Nian had just arrived in Beijing, many people thought that she was a bumpkin that the Jiang Family had found in the countryside.

Who would have thought that the bumpkin was actually a hidden big boss?

Zhang Yang had good judgment and knew how to conduct himself. Even though he did not think that an ordinary female high school student like Qiao Nian could be that impressive, he had always been polite to her. When he could help, he would always be at her beck and call and never spoke nonsense.

Who knew that he would accidentally cozy up to the right person? Look, the Zhang family was also getting better and better in Beijing these days.

Zhang Yang's mother was going to hold a grand banquet on her birthday this time. Zhang Yang would definitely want to call Qiao Nian along.

After all, if Miss Qiao was willing to come, it meant that Master Wang and Young Master Qin would come.

"Miss Qiao, are you free?" Zhang Yang asked carefully after telling her the date.

Qiao Nian pressed her forehead, feeling a headache. She hesitated for a moment before saying, "I'm sorry, it won't be convenient for me that day."

Zhang Yang immediately tried to smooth things over. "It's fine, it's fine. It's fine if it's not convenient for Miss Qiao. I'll treat you to a meal another day."

Qiao Nian had a good relationship with him. She thought for a moment and then said, "... I'll get someone to send you a gift."

Zhang Yang hurriedly said, "Miss Qiao, you're too polite. There's no need, there's no need. It's the thought that counts. I'll just tell my mother."

Qiao Nian had already sent a message to Guan Yan, asking her to choose a gift for her and send it to the banquet hall on the first floor of the Imperial Mansion that day.

Guan Yan replied instantly: [Okay.]

After sending the message, Qiao Nian said to Zhang Yang, "Say happy birthday to Auntie for me."

Zhang Yang knew that this meant she was going to send a gift to his mother. He was quite touched and did not want to be fake about it.

"Alright, I'll tell my mother."

"Thank you, Miss Qiao."

Qin Si could not stand it anymore and interrupted him. He looked up and asked the girl casually, "Sister Qiao, are you coming? Let's play a round."

Qiao Nian got up from the sofa without looking back. "I'm not playing anymore. You guys play."

Before going upstairs, she sent a message to Jiang Zongjin to tell him about Lu Zhi's collaboration with the Beijing Research Institute on the chip development project.

Jiang Zongjin quickly called her.

Chapter 2235 Slap in the Face, Scum Ji Is Leaving the Research Institute

Outside the First Research Institute.

The Ji family's private car was quietly parked by the roadside.

Ji Ziyin got out of the car with a pale face. The chauffeur held an umbrella for her and said worriedly, "Miss, I'll go in with you."

"I'll go in myself," Ji Ziyin said softly as she looked at the door of the research institute.

Her left hand was still wrapped in gauze. Her beige windbreaker wrapped around her thin figure, making her look dispirited.

However, her aura was still there.

Ji Ziyin bit her lip and looked at the entrance of the research institute with flickering eyes. She suppressed the unwillingness and hatred in her eyes and walked in step by step.

...

Everyone from the research institute was present today.

Many people heard that she would come back to get her things today.

They were discussing the fact that she and Xie Xinyao had been expelled from the research institute.

Along the way, Ji Ziyin heard all kinds of sounds floating into her ears.

"Ji Ziyin is here to get her stuff. Tsk, who would have thought that she would be expelled? I thought that she was going to enter the Level 8 laboratory some time ago, but who knew that she would be expelled in the blink of an eye? This is too tragic!"

"Back then, when Qiao Nian first entered the research institute, she secretly pressured the other rookie teams not to take her in. Only the worst and most inconspicuous Team 10 resisted the pressure and let Qiao Nian join them... Not long ago, everyone in Team 10 entered the Level 8 laboratory. Now, the previously glorious Ji Ziyin was chased out of the research institute. This is called change is the only constant, the wheel of fortune turns... One can't be too arrogant."

"Actually, if she hadn't targeted the 'Newcomer King' in the beginning, things wouldn't have turned out like this. Her team at that time had the best members. If Qiao Nian had joined her team instead of Team 10, she would have been the one to enter the Level 8 laboratory. Why would she have to go through so much trouble to enter the Level 8 laboratory..."

"Everyone says that she's a once-in-a-century genius in the Ji family. I don't think she's as good as that 'Newcomer King'. If she's really as talented as she says, why can't she enter the Level 8 laboratory? The dean would also be unwilling to give up on her."

"She's just bragging."

"I've always felt that Ji Ziyin is really not a genius compared to Qiao Nian. The difference between the two of them is too great."

Ji Ziyin felt as if she was constantly stabbed along the way. She felt like her heart was being twisted by a knife.

She walked as if she was stepping on a fire. With every step, countless words drilled into her ears, humiliating her.

She did not want to hear it, but the discussions surged over like a tide.

To protect her remaining dignity, Ji Ziyin could only pretend not to hear them as she walked towards the Level 5 laboratory with a straight face.

Gu Hengbo was waiting for her in the office. Hearing the knock on the door, he looked up and said, "Come in."

Ji Ziyin walked into the office with a pale and weak expression. "Teacher, I'm here to get my things."

Actually, she did not have much to take away. She mainly wanted to take the archives of the experiment records she had done in the research institute over the years.

Gu Hengbo stood up and handed her the file he had prepared earlier.

Ji Ziyin took the file silently and looked up.

Gu Hengbo spoke before she could say anything. "I've fought for you."

Ji Ziyin looked at him. magic

A rare trace of anger flashed across Gu Hengbo's usually stiff face, but he quickly regained his usual distance. "The dean and the others insist on expelling you. It's useless for me to speak up for you alone. No one else is on my side."

Ji Ziyin's grip on the file tightened. She lowered her head and said in a low voice, "I know. Thank you, Teacher."

An evil fire burned in Gu Hengbo's heart when he saw how 'obedient' she was.

He had finally found a good seedling and was nurturing her carefully. In the end, it was gone just like that. Who would be happy?

Chapter 2236 Hold On, I'll Give You Something

?

Gu Hengbo was very dissatisfied with the outcome of this matter.

However, he had already looked for Feng Yu several times, but the other party didn't give him any face. He even mentioned some of his past, making him very embarrassed.

Ji Ziyin's matter could only be left unsettled.

"Wait a moment. I'll give you something." Gu Hengbo came back to his senses and patted Ji Ziyin's shoulder. Walking back to his desk and pulling out a piece of paper from beside the computer, he returned and handed it to Ji Ziyin.

Ji Ziyin was slightly stunned and asked in confusion when she saw that it was a contact number, "Teacher, this is?" magic

Gu Hengbo said, "You heard that the dean is looking for an heir, right?"

Ji Ziyin was stunned for a moment before lowering her head. "I've heard of it."

"The First Research Institute will need an heir sooner or later. In the past, you had a high chance of fighting for this position. After all, Xie Xinyao's standards are only so-so.

"As long as you work hard, you will definitely surpass her during the holidays! At that time, it's not like you can't inherit the First Research Institute."

This was Gu Hengbo's plan from the beginning.

He was ambitious. Shi Fu was not the only stubborn person who only knew how to do research. He wanted more, so he naturally thought more.

Therefore, he racked his brains to pave the way for Ji Ziyin. Other than thinking highly of her background, he also wanted Ji Ziyin to inherit the First Research Institute in the future. His status would

rise with her and completely suppress Shi Fu to become the number one person in the research institute.

Now, his dream was shattered.

He was no less angry than Ji Ziyin.

"But you know very well that you've already lost this opportunity. And the most likely person to replace you is... Qiao Nian.

"She's more talented than you and has more tricks up her sleeve... You can only think of another way. Instead of taking the path of the research institute, take another path."

Ji Ziyin gripped the note tightly. Her heart pounded as she looked at him. "Teacher, what do you mean?"

Gu Hengbo had been in the First Research Institute for so long that he knew much more than outsiders. He smiled disdainfully and said, "Don't tell me you think the First Research Institute is the only place on the top of the academic world?

"Many existences in this world surpass the independent continent and the First Research Institute.

"Ordinary people can't come into contact with them at all. Those who can come into contact with them and know them call them... the reclusive family.

"They are an extremely huge force. Many forces in the independent continent are controlled by them. Their existence exceeds your current horizons. In fact..." Gu Hengbo pursed his lips and looked at her with a burning gaze. "They are also behind the Ji family."

The independent continent was already an independent place from the various large factions, but there was always someone better. There were some hundred-year-old families hidden behind history. They were low-key and powerful existences.

They controlled many things, but ordinary people could not sense their existence at all.

"The dean knows these people too."

Gu Hengbo paused for a moment. "I originally thought that if you successfully entered the Level 8 laboratory in the future and became a candidate chosen by the dean, you would have a chance to get the prerequisite to get into contact with the reclusive family. It would be better for him to introduce you to them than me..."

As the director of the First Research Institute, Feng Yu naturally knew more people than most.

Gu Hengbo had only touched the tip of the iceberg of that circle. It had already broadened his horizons, and he could not forget it even after so many years.

Chapter 2237 She Was Clearly the Successor Chosen by the Ji Family from the Beginning

The light in Gu Hengbo's eyes was doused. He frowned as he looked at Ji Ziyin and shook his head. "...But it seems like it won't work now."

Ji Ziyin's blood was already boiling from hearing about the reclusive family. Her heart pounded, and she couldn't help but ask, "Teacher, is there no other way?"

Since Gu Hengbo wouldn't mention this to her for no reason.

Sure enough.

Gu Hengbo pointed at the note. His eyes darkened as he said, "There are two paths in front of you now."

Ji Ziyin suddenly looked at him with bright eyes. She bit her lip and said, "Teacher, please speak."

Gu Hengbo walked back with his hands behind his back. "First, try your best to fight for the position of the dean's heir."

Ji Ziyin's heart suddenly sank, and she felt uneasy. "But the candidate the dean likes is..."

"We all know that the candidate he likes isn't you." Gu Hengbo interrupted her forcefully and looked into her eyes sharply. "As long as he hasn't announced the successor, you still have a chance to fight for it. If you don't fight for it, how do you know that you will definitely lose?"

Ji Ziyin pinched her palm and did not argue with him. Her lowered eyes were clearly thinking about the feasibility of this matter.

Gu Hengbo waited for her to slowly digest it herself, then said calmly, "This is the first path."

Ji Ziyin only felt that this path was very difficult to walk. She raised her head and asked, "Then, the second path..."

"The second option is in your hands." Gu Hengbo raised his chin slightly, indicating for her to look at the contact information on the note. He said in a soothing tone, "I know Mr. Martin, the butler of the reclusive family. That's his contact information."

Ji Ziyin's heart suddenly beat faster. Her throat dried as she looked at the note nervously. "Teacher, this is..."

This was the first time she had heard of the existence of a reclusive family in the independent continent.

However, she believed that Gu Hengbo was not lying to her.

This circle really existed.

However, she was standing too low and could not see it, let alone come into contact with it... But everything would be different once she could reach the tip of this circle!

Ji Ziyin's face had been pale and sickly ever since she entered the research institute to get her things. Only at this moment did the color gradually return to her face.

She wished she could contact this person immediately.

Gu Hengbo could tell that she was impatient and said in a bad tone, "That's right. This is their contact information.

"But Mr. Martin and I are just acquaintances. He won't take you seriously even if I introduce you to him.

"However, the dean is different."

Gu Hengbo had to admit that Feng Yu was much better than him in this aspect.

Gu Hengbo did not even look at Ji Ziyin as he said in a low voice, "The dean has an extremely good relationship with Mr. Martin. The two of them can be considered friends in private. The effect will be completely different if he's willing to introduce you to Mr. Martin... This is also why I mentioned it to you even though I knew that the first path was not easy.

"This opportunity will be Qiao Nian's once she's chosen as the successor of the First Research Institute! Think about it yourself."

If Ji Ziyin was still in heaven a second ago, now she fell into an endless abyss... magic

She had already suffered consecutively for the past few months. How could she be willing to be suppressed by Qiao Nian again?

She was clearly chosen as the next successor of the Ji family from the beginning.

Chapter 2238 Are You Free This Weekend? I'll Bring You to Meet Someone

Now, there was a big discussion in the Ji family about bringing Qiao Nian back...

Was the direct descendant's bloodline that noble?!

No matter how hard she tried, she could not replace it?!

Indignant, Ji Ziyin gritted her teeth. The string of jealousy in her heart was already stretched to the limit and could snap at any moment.

The corners of her lips curled up as she smiled at Gu Hengbo. Seeming to have figured it out, a faint light sparked in her eyes as she lowered her head respectfully and said, "Teacher, don't worry. I'll work hard! I won't let others take this opportunity from me."

Gu Hengbo was a shrewd person. He could see it clearly even if Ji Ziyin lowered her head and tried her best to hide her ambition.

Revealing a satisfied expression, Gu Hengbo nodded and returned to his desk to sit down. Then, he raised his hand slightly. "You can leave now."

Ji Ziyin held the note and respectfully bade goodbye before turning around and leaving the office in a hurry...

* * *

At the same time, at the villa.

Qiao Nian received a message from Lu Zhi: [Are you free this weekend? I'll bring you to meet someone.]

The girl had just ended the call with Jiang Zongjin. Her father was very happy when he received the news and immediately told Liang Conglin and the others.

An emergency video conference was immediately at Qing University.

Qiao Nian was also invited to participate and listened to the entire process.

However, she did not turn on the camera.

Jiang Zongjin, Liang Conglin, and the others did not know that she was in the independent continent and thought that she was staying at Aunt Chen's house in Rao City.

Nie Mi's intuition was more accurate.

As soon as the video conference ended, he called Qiao Nian and asked if she was actually not in the country. Qiao Nian did not hide it from him, but she told him not to tell anyone for now. magic

Nie Mi did not ask why she was in the independent continent. He did not say much after learning that Qiao Nian was not in Rao City. He only said that he would take care of her family.

At this moment, Qiao Nian had her legs crossed as she looked at the message on her cell phone. She replied a moment later.

[I'm going back to Beijing this weekend.]

Lu Zhi should not be busy.

Qiao Nian saw the other party typing as soon as she sent the message...

She waited patiently for a few seconds for Lu Zhi's message: [Why are you returning to Beijing?]

Qiao Nian put down her cell phone and looked at the little guy who had been staying in her room since she returned. The little guy was reading on her exclusive sofa.

He was engrossed in reading [C Language Introductory Programming] with a serious expression. The book was bigger than his face.

The little thing looked very serious. His face was chubby, but at this moment, he did not look like a five-year-old child.

Seeing him so serious, Qiao Nian couldn't help but say to him, "Chen Chen, rest if you're tired."

Ye Qichen said obediently without looking up, "Sister, don't worry about me. I'm not tired."

Qiao Nian pressed her finger against the bone between her eyebrows. She had a headache.

She had been downstairs for two hours, and Ye Qichen had been sitting here studying hard for all this time.

His focus was so intent, not letting his mind wander. He was even more serious than when she was in school.

Qiao Nian was worried that he had already fallen in.

Hence, she decided to go back at the last minute. It was only part of the reason for doing so, that Old Master Jiang's small pills were almost finished and she had to go back to deliver the medicine.

The main thing was to send Ye Qichen back. Otherwise, if he continued like this, it would be bad for the child's physical and mental health...

Qiao Nian looked down as she thought about returning to Beijing.

Chapter 2239 Chen Chen, I'll Find You a Teacher

Lu Zhi quickly sent another message.

[When do you plan to leave?]

Qiao Nian lowered her eyes and saw his message. She quickly typed a message back: [Saturday. The time is uncertain.]

She was afraid that she would not be able to get up in the morning.

Hence, she would see what time she woke up.

Lu Zhi went silent.

Qiao Nian did not care. She put her phone down and looked at the little guy for a few seconds.

She suddenly said, "Chen Chen, do you like programming this much?"

"Mm?"

Ye Qichen looked up in confusion. Upon seeing Qiao Nian's face, his eyes lit up and his ears turned red. He said shyly, "I... I like it."

He silently added in his heart: Because Sister likes programming, I like programming!

Qiao Nian did not know what he was thinking. She nodded, her exquisite face cool and valiant. "I'll find a teacher for you."

Ye Qichen blinked and asked in a small voice, "Sister, can't you teach me?"

Qiao Nian saw his disappointed expression. Her heart tightened and softened again.

She placed her hand on the computer mouse, not knowing how to coax a child. Her voice was a little low and hoarse. "I can teach you, but you need to learn systematically, not take the unorthodox path. I'll find a teacher to teach you systematically. You can learn from the beginning. It'll be helpful to you in the future."

Ye Qichen was not in the mood to study. Hearing this, he nodded in disappointment and forced himself to stay awake. He tried his best not to let Qiao Nian see it. "I'll study hard."

He was simply pitiful and obedient!

Qiao Nian had always been helpless against elders and children. Seeing him like this, how could she bear to make him sad? She walked over and ruffled the little guy's hair, then lowered her eyes and said, "It's not that I don't care about you."

Ye Qichen immediately looked at her aggrievedly. He grabbed his clothes tightly and stubbornly refused to say anything.

Qiao Nian knew his personality. She rubbed his head again and smiled. "I'm finding you a teacher just to make it easier for you to study systematically. It's not that I don't care about you. If you have anything you don't know, you can still ask me. I'll teach you when I have time.

"That teacher... is not bad."

Qiao Nian thought for a moment. "He specializes in software programming and is a little better than me in this aspect. I'll tell Auntie Ye."

The little guy had been following her for the past few days.

Of course, Qiao Nian could tell that the Ye family had found a professional teacher for the little guy.

However, the little guy was extremely talented in this aspect. Ordinary teachers' teaching methods were not suitable for him. Secondly, the teachers might not be able to keep up with his progress.

Instead of changing teachers, she might as well find someone to teach him systematically.

Qiao Nian asked him gently, "Chen Chen, can I?"

Ye Qichen was only six years old this year. Ordinary people would not care about the wishes of a six-year-old child, but Qiao Nian treated him like an equal.

Initially, Ye Qichen could not accept this sudden arrangement, but after Qiao Nian explained it to him, he was less resistant. magic

His beautiful face tensed as he lowered his head and thought seriously for a while. Then, he raised his head and looked at Qiao Nian with his big eyes. His small hand also grabbed the corner of Qiao Nian's shirt. "Sister, if you're still willing to teach me in the future, then yes."

"Mm." Qiao Nian turned around and said, "I'll tell Auntie Ye."

In addition, she had to tell someone else.

Qiao Nian first contacted the Red Alliance before calling Ye Lan.

Chapter 2240 The Zhou Family Is Nothing Once Sister Nian Makes a Move

At this moment, at the Ye family in Beijing.

Ye Lan was discussing this matter with Old Master Ye in the old residence.

"Dad, I want to discuss Chen Chen's teacher with you."

Ye Maoshan was playing with his bird at this moment. He put down the bird food and turned to look at her. "What's wrong with Chen Chen's teacher?"

He had been taking Rao City's "local specialty" that Qiao Nian gave him more than a year ago. He had become more and more energetic recently. His eyes were bright, and his white hair was combed neatly. He looked energetic and full of energy.

"Didn't he go out to play with that unfilial grandson?"

Old Master Ye grew dissatisfied at the mention of Ye Wangchuan. He wished he could get him back and beat him up personally. He said angrily, "He didn't come back and even took Chen Chen away with him. I think he wants me to die alone!"

Ye Lan felt awkward. She touched the bridge of her nose and explained, "Chen Chen missed Nian Nian and wanted to see her. Wangchuan had no choice but to bring him with him."

Sure enough.

Old Master Ye's anger eased a little at the mention of Qiao Nian. His brows relaxed and he looked at her. "Speaking of which, Nian Nian doesn't plan to come back yet?"

"She said that she still has to wait for a while." Ye Lan did not ask much about Qiao Nian's private matters. She knew her limits.

Old Master Ye stopped speaking about this. "By the way, why did you bring up Chen Chen's teacher? What's wrong with him?"

Ye Lan hesitated before saying, "Chen Chen is very talented in programming. Recently, the Zhou family came looking for me and said that Zhou Hengfeng was willing to teach Chen Chen. I was thinking..."

"How did they know that we were looking for a programming teacher?" Old Master Ye's face turned stiff and his expression quickly turned cold at the mention of the Zhou family.

Ye Lan shook her head helplessly. "The Beijing circle is only so big. Someone probably told them."

Shen Jingyan had been looking for her these past few days, wanting to mend their relationship, including Wei Ying. Wei Ying had restrained herself a lot recently.

Ye Lan continued, "Zhou Hengfeng is considered a talent in the local computing world. I think Chen Chen also needs a teacher who can guide him well. Zhou Hengfeng just wants to revitalize the Zhou family. We don't care about that. We just have to give him the remuneration that he deserves."

"I don't agree." Old Master Ye rejected her flatly before she could finish speaking.

He looked at her fiercely and said, "Have you forgotten about Zhou Wei? There's no need to mention this again! We're not looking for this teacher."

Ye Lan had been approached by the Zhou family through many connections before she gradually became tempted. But she fell silent when Old Master Ye mentioned Zhou Wei. magic

She was already ashamed of being tempted.

Hence, when Old Master Ye refused, she did not mention it anymore. She just sighed secretly and wondered what kind of teacher she should find for Ye Qichen.

She was thinking about this when Qiao Nian's message arrived.

Ye Lan was originally distracted. Seeing that Qiao Nian had sent her a message, she finally perked up and clicked on it.

She was stunned.

"Dad."

Old Master Ye had already picked up the bird food again and continued to feed the birds. Thinking that she was going to continue on the previous topic, he frowned. "I told you, even if our family can't find a teacher, we won't get Zhou Hengfeng to teach Chen Chen..."

"No." Ye Lan quickly interrupted him. She stood up and handed him the cell phone, then said excitedly, "It's Nian Nian. Nian Nian sent a message saying that she found a teacher for Chen Chen."

Ye Maoshan quickly took the cell phone from her and looked down.

Qiao Nian even revealed the teacher's name.

[Qiao Nian: Slim Waist Control from the Red Alliance.]

Ye Maoshan fell silent.

The words "Red Alliance" were enough to crush Zhou Hengfeng a hundred times, not to mention that Slim Waist Control was one of the main members.
