

Madam's 2451

Chapter 2451 Guan Yan Asked Qin Si Out to Buy Tonics

However, Qiao Nian only looked at her. The corners of her lips curled up into a faint smile. She raised her baseball cap, revealing a pair of dry eyes. "I won't go back to the Ji family."

The huge rock in Ji Ziyin's heart was removed. She couldn't wait to invite Qiao Nian to cooperate with her. "Since you're not coming back, I don't want the First Research Institute either. Our cooperation is a win-win situation!"

"I'm not done talking." Qiao Nian paused and looked up, revealing her cold jaw. Her lines were strong and sharp as she looked at her mockingly. "Ji Ziyin, don't tell me you think I don't know where the experimental project you're talking about came from?"

Ji Ziyin's expression changed slightly. Stepping aside and quickly turning cold, she put on airs. "I'm just giving you a chance. If you don't want to cooperate, forget it."

"Alright." Qiao Nian sized her up as if she couldn't be bothered to argue with her. Then, she walked around her and left.

An inexplicable sense of uneasiness surged in Ji Ziyin's heart as she watched the girl leave. She clenched her fists and called out, but Qiao Nian had no intention of stopping. She only left her with a cold back view and ignored her.

Feeling even more uncertain at her reaction, Ji Ziyin shouted at her departing figure, "The First Research Institute will decline sooner or later. You'd better consider my suggestion."

The girl walked away without looking back.

It was as if her words were nonsense!

...

Qiao Nian walked out of the restaurant and was about to take out her phone to make a call when she bumped into a man and a woman.

She was surprised.

Guan Yan also saw her. She left the man behind and walked towards her. "Boss, why are you here?"

She craned her neck to look inside, then turned back to look at the girl. "Out on a date?" she asked in an uncertain tone.

"No."

Qiao Nian guessed that Ji Ziyin would come out soon.

She did not want to meet such a self-righteous fool again, so she said, "Let's go."

Qin Si followed.

He was also a little surprised to see Qiao Nian. He thought that Ye Wangchuan was nearby and looked around for a long time, but he did not see him.

"Sister Qiao, you're here. Where's Master Wang?"

Qiao Nian left the restaurant with Guan Yan and found a place to sit. Guan Yan ordered two glasses of water and brought them over for her. Then, she pulled out a chair and sat down.

The moment Qiao Nian sat down, she took out a black laptop from her shoulder bag and turned it on. Then, she lowered her head as if she was talking to someone.

Qin Si and Guan Yan sat opposite her and watched as the girl typed on the keyboard.

Guan Yan was already used to it.

However, Qin Si could not help but exclaim at her typing speed every time he saw it.

Qiao Nian only logged into an app and sent a message to someone.

The reply came back quickly.

It was a simple 'OK'.

Retracting her gaze, she closed the dialog box and casually knocked on the computer.

Seeing that she was done, Guan Yan asked, "Boss, what happened?"

"Nothing."

Qiao Nian closed the computer and put it in her backpack. Then, she zipped it up and replied with a casual expression, "I want to take something back."

The corners of Guan Yan's mouth twitched as she recalled what Qiao Nian did not long ago.

At that time, Qiao Nian had also told her that she wanted to take something back.

In the end, she brought her alone to barge into the Ji family's Punishment Hall to find the USB drive Ji Qing had left behind.

This time, Qiao Nian wanted to take back something again.

She guessed that the independent continent was about to turn upside down again.

Chapter 2452 Sister Nian: Take It!

Guan Yan didn't even ask her what she wanted to take back. She put the supplements she bought on the table and pushed them to the girl. "By the way, I bought some medicine for you. Take a look and see if there's anything you can take! Slim Waist Control has also contributed. He's taking care of a child in Beijing and can't come, so he asked me to buy his share."

Qiao Nian looked at the small mountain of supplements in front of her. Her temples hurt. She looked at her and said with an impatient expression, "I can't take so many of them."

"It's fine. Take as many as you can." Guan Yan pushed all the supplements to her.

Then, she thought of something. "By the way, I haven't seen Daji in the group chat for a long time. I wonder what he's been busy with recently.

"Is the illegal district very busy?"

The three of them were in charge of the independent continent, the Red Alliance, and the mining industry.

Daji Plays With You was in charge of managing the diamond big boss. He usually interacted with the outlaws of Continent F. So, he stayed there and rarely came back.

However, he liked to appear in the group.

In the past, when they chatted casually in the group, Daji would show his face to join in the fun.

But recently, Guan Yan rarely saw him.

She was just asking casually and did not really take it to heart. After all, they were all adults and had their own things to do.

She forgot about this matter after mentioning it. Then, she introduced the supplements to Qiao Nian.

Qiao Nian listened to her absent-mindedly, but she had no intention of getting impatient. As she listened to Guan Yan, she lowered her head and picked up her phone.

At this moment, she received a WeChat message on her phone.

[D: There are a few people from the reclusive families nearby.]

Qiao Nian replied: [Take it.]

**

On the other side.

Ji Ziyin's negotiation did not succeed. Not long after Qiao Nian left, she left the cafeteria and asked the chauffeur to drive to the laboratory. She had to keep an eye on the progress to feel at ease.

Her laboratory was secretly funded by Yu Qingliu. This time, she had roped in many people from the First Research Institute.

Ji Ziyin had used the same excuse as before to rope in these people. She directly mentioned the reclusive families and Yu Qingliu.

Sure enough, many people were willing to work for her.

She also poached a few people from the Level 8 laboratory, including the few lackeys she had been playing with previously.

In addition, Xie Xinyao's small gang also joined her. Other than a fatty who was unwilling to give her face, most people were sensible.

This group of people went to the laboratory in private and continued to clock in at the First Research Institute.

Ji Ziyin's car stopped outside the laboratory.

She took the elevator up. As soon as she entered, someone greeted her attentively, "Miss Ji."

Ji Ziyin did not have a good impression of the person trying to curry favor with her. She only nodded and entered.

Although Liao Quan felt awkward, he still followed behind Ji Ziyin with a smile and reported the experiment's progress to her. "80% of the previous rotation wheel has been completed. There's still a little more left. It will take about three days..."

Ji Ziyin also checked the progress of the other projects on the tablet Liao Quan handed her.

Suddenly, she heard two muffled sounds outside. It seemed like someone had collapsed.

Before Ji Ziyin could react, people suddenly barged in. All of them were armed and looked like they were not to be trifled with.

Chapter 2453 Yu Qingliu Is Just a Low-Class Family

2453 Yu Qingliu Is Just a Low-Class Family

"Who are these people?"

"What's going on?"

"Didn't they say that we're working for the reclusive families? Where did these people come from? No one is managing them?"

The people in Ji Ziyin's laboratory retreated one after another and discussed animatedly. It was obvious that they were not confident. But that made sense.

It would be strange if anyone could remain calm when they suddenly saw so many people charging in with AKs!

These people were all holding AKs and looked like they were not to be trifled with. Their aura was also bloodthirsty.

No matter how they looked at it, these people did not seem to be playing.

"Miss Ji?"

The man in the lead had stubble on his face and deep facial features. He looked to be of mixed blood.

He carried an AK on his back and actually walked in casually. This was the independent continent, wasn't he afraid?

He swept away the things on the table, sat down, and grinned at Ji Ziyin. "Our boss asked you to return the item. Are you going to hand it over or do you want us to search for it?"

Ji Ziyin's face turned pale. She pinched her palm and pretended to be calm. "Who's your boss?"

"Ha." The man bared his teeth with a smile. He probably thought that her question was very funny. He asked her in front of everyone, "You stole someone's item. Don't you know whose it is?"

The entire laboratory immediately grew noisy again.

"He said Ji Ziyin stole something."

"What did she steal? The Ji family doesn't need to steal..."

"... That's hard to say. Have you forgotten about Bai Hui? Didn't Ji Ziyin collude with her teacher to steal other people's research results?"

These people deliberately lowered their voices when they discussed her, but in such a big place, Ji Ziyin still heard Bai Hui's name...

Her originally ugly expression became even uglier at this moment. She could only pretend not to hear it and force herself to stand in front to shield the rest. She warned in a low voice, "I don't know what you're talking about, and I don't know your boss."

"It's not too late for you to leave now. Don't force me to call someone over."

"Oh, who do you want to call?" The man looked rough. He restrained his smile and showed off his ability. "The reclusive families?"

Ji Ziyin's expression changed. "You know?"

What she meant was that these people knew that she had the backing of the reclusive families and still dared to come to the laboratory to cause trouble!

However, the other party's reaction was casual. Under her surprised gaze, he nodded casually. "Ah, I know."

The stubbled man glanced at the others in the laboratory, picked up the gun, and placed it on his shoulder. Then, he sneered and said, "Yu Qingliu's family status is low among the reclusive families. You don't even know this and still use his name to brag. It's not appropriate, right?"

Very few people in the laboratory could come into contact with anyone from the reclusive families. They did not know much and relied on what Ji Ziyin had revealed to them.

They all thought that Yu Qingliu was impressive and had a say in the reclusive families.

Who knew that they betrayed the First Research Institute to curry favor with a dispensable small figure?

Everyone's expressions changed drastically, and they were no longer as indifferent as before.

"Miss Ji, what does this mean?"

"Miss Ji, is what he said true? That's not what you told me back then. You said that Yu Qingliu represents the reclusive families..."

Chapter 2454 All Weaklings

"We're all willing to work with you only to be on good terms with the reclusive families!"

Among these people, Liao Quan's heart was beating the fastest.

Realizing that he had followed the wrong person, his heart pounded as he looked at Ji Ziyin in disbelief, as if he had swallowed ten thousand flies. "Miss Ji, is what he said true? Are you lying to all of us? Then, the experimental projects you asked us to do during this period..."

"Ha, she stole them from our boss," the stubbled man said with a snort.

"Stolen? Who did she steal it from?" Liao Quan could not accept this outcome even more.

This time, the person in charge of the Level 5 laboratory, Gu Hengbo, was fired. One of the eight laboratory head positions was vacated.

He had a good chance of being promoted.

Although he might not be able to take over the Level 5 laboratory, once Feng Yu transferred someone to fill the gap, he would have a chance to fill their vacancy...

It was because Ji Ziyin told him that he could use this opportunity to get close to the reclusive families that he gave up the opportunity and chose to betray the First Research Institute.

In the end, someone was telling him that everything was just a fantasy!

He had been deceived.

Liao Quan could not accept this.

Ji Ziyin's stern oval face tensed up. She looked at the man coldly. "I'll say it again. I don't know what you're talking about! I didn't steal anything! If you don't leave, I won't be polite anymore."

"Okay."

The stubbled man raised his hand and turned around to say to his subordinates, "Stop talking nonsense with her. Search!"

"How dare you!" Ji Ziyin's fair face was red. Anxious and angry, her bright eyes were poisonous as she scolded in a low voice!

However, the stubbled man only raised his eyebrows at her. He slammed the AK on the table in front of her and sneered. "I even came armed. Do you think I dare?!"

His men began to rummage through the laboratory in a well-trained manner.

These people were not easy to deal with.

The places they walked past were basically left in a mess. All kinds of experimental equipment were smashed on the ground. If there was nothing in the laptop, it would be smashed.

Only the sound of things being smashed could be heard in the huge laboratory.

Ji Ziyin's followers were all weaklings. No one dared to say a word when the AK was stuck on their heads.

All of them had no courage. They were even inferior to Xu Yi!

"Boss."

Soon, someone came to report.

"Found it."

That person took out a black-covered notebook from Ji Ziyin's bag and handed it to him.

The stubbled man took it and casually flipped through the pages.

He looked up and saw that Ji Ziyin was flustered, but she still maintained her composure and did not get into a conflict with him. He raised his eyebrows and raised his chin slightly. "Bring her cell phone."

Ji Ziyin's expression changed and she struggled to get it back. "What are you doing? Let go!"

A black gun barrel was pressed against her forehead, and Ji Ziyin instantly stopped moving.

The stubbled man instructed his subordinates, "Bring it to me."

The subordinate brought Ji Ziyin's bag over and handed the man her cell phone.

There was a password on Ji Ziyin's phone.

She was not particularly worried at first, but then she saw the man deftly checking the documents on her cell phone as if he had unlocked the password.

Chapter 2455 My Boss's Name Is QN

Before she could move, the scumbag impatiently threw her cell phone and bag on the ground. He took out a lighter from his pocket, lit it, and threw it on the bag.

He also grabbed the alcohol lamp on the shelf of the experiment table and poured the alcohol on it.

A raging fire instantly started.

Ji Ziyin could only watch helplessly as her bag and cell phone were burned cleanly...

"Let's go."

The scumbag man looked at the burnt bag on the ground and waved his hand to his subordinates.

Before the group of people left, he suddenly stopped and turned to look at Ji Ziyin and the group of stunned people. "Didn't you ask who our boss is?"

Liao Quan and the others subconsciously looked at him with blank eyes...

The scumbag was not afraid that they would find out. His eyes were fierce and domineering. "It doesn't matter if I tell you."

"Who is it?" Ji Ziyin's throat was dry as she suppressed her anger and asked in a hoarse voice.

The stubbled man smirked and looked at her like she was an ant. He slowly retracted his gaze. "QN."

"Boss only asked me to take her item back, not deal with you. You're lucky."

Done speaking, he walked away without looking back.

Only Ji Ziyin, Liao Quan, and the others were left standing there, reminiscing about his words.

QN.

Who in the independent continent didn't know the name of this abbreviation?

"Their boss is... Qiao Nian," Liao Quan muttered. There was only regret left in his heart.

He was filled with regret. If he had known that Ji Ziyin and the reclusive families were so useless, he would not have betrayed the research institute and secretly come to seek refuge.

Great...

As Feng Yu's successor, Qiao Nian must be aware of what they had been doing these days to send someone over.

Even if Liao Quan regretted it ten thousand times, he knew that he had fallen for it this time!

Previously, he had clearly drawn a line with Ji Ziyin and wanted to work wholeheartedly in the research institute. If not for his greed... how would he have fallen to this point where he could not turn back!?

Liao Quan instinctively turned to look at the expression on Ji Ziyin's face, only to see that the other party's head was lowered, and her lowered hair covered her eyes, making her expression unclear.

...

Qiao Nian drank the water for the entire afternoon until sunset. It was almost 6:30 PM, and Qin Si's butt was flat from sitting all this time.

Qiao Nian's cell phone rang.

The girl grabbed it and read the message. Only then did she look up, put the phone back, and say to them, "Alright, let's go."

Guan Yan was a smart person. She immediately stood up. "I'll get the car."

She walked away elegantly, leaving Qin Si and Qiao Nian waiting for her there.

Qin Si returned after paying the bill. Seeing that Guan Yan was gone, he asked, "Sister Qiao, did you see where she went?"

"She went to get the car." Qiao Nian put away all her things, slung her shoulder bag over her left shoulder, and walked to the side of the road coolly and valiantly with one hand in her pocket.

"Sister Qiao, wait for me." Qin Si quickly followed.

Just as he reached the side of the road, a black SUV slowly stopped in front of them.

Qin Si was still wondering why the car was parked randomly.

The car window rolled down to reveal Gu San's face. Gu San smiled brightly and greeted them warmly. "Miss Qiao, quickly get in the car."

Chapter 2456 Master Wang: Thank You, Boss, Boss Is Generous

Qiao Nian's eyebrows went up when she saw the man sitting in the front passenger seat. She looked at her cell phone and then opened the back door. At the same time, she placed her bag inside and followed him in. A little sleepy, she narrowed her eyes and casually bent her long legs.

Then, she asked in a low voice, "You set up surveillance cameras for me?"

Ye Wangchuan crossed his arms and said lazily, "Am I such a person?"

Qiao Nian looked at him through the rearview mirror and nodded in agreement. "You are."

"Pfft!" Gu San could not help but laugh.

Ye Wangchuan glanced at him sideways and said lazily, "Are you enjoying the show?"

"No." Gu San quickly suppressed his laughter and explained to Qiao Nian on his behalf, "Miss Qiao, we didn't follow you. Master Wang and I came out to buy groceries and saw you on the way. We didn't call you and went shopping. When we came back, we saw you and Young Master Qin waiting by the roadside."

Qiao Nian realized that she had misunderstood him. She nodded and touched the tip of her nose.

Ye Wangchuan seized the opportunity. "God Qiao misunderstood me. Aren't you going to compensate me?"

Qiao Nian looked at him and paused for a few seconds. She silently took out her cell phone from her pocket, found his WeChat, and pressed a few buttons...

Beep.

Ye Wangchuan's cell phone vibrated. He unhurriedly grabbed it and looked down.

[QN transferred ¥99,999.99 to you.]

Amazing!

The corners of his lips curled up into a smile. He shamelessly accepted it. Then, he turned his head and said to the girl sitting in the back row, "Thank you, Boss. Boss is generous. I wish you a happy life~"

"Ahem." Qiao Nian coughed to hide her embarrassment. She lowered her eyelashes and played with her cell phone. She sent Guan Yan a message, telling her that there was no need to send her off.

Qin Si, on the other hand, was carrying bags of health supplements. He turned around and looked around, but Guan Yan had yet to arrive. Ye Wangchuan said while he hesitated, "Get in."

"But..." Qin Si was still thinking about Guan Yan.

However, Ye Wangchuan's eyes were relaxed. He said with a gaze that saw through everything, "She's already in the car. Do you think Guan Yan will come to send you off?"

Qin Si looked at the girl inside the car and instantly understood. He did not waste any more time and got into the car.

Qiao Nian waited for him to get in. Then, she put away her cell phone and said, "She has something on and won't be coming. She asked me to thank you for shopping with her today. She'll give you something later."

70% of the things they bought today were paid for by Qin Si. Guan Yan did not fight with him. Qin Si felt that this was normal. It was very normal for men to foot the bill when shopping with women. He thought that Guan Yan thought the same. At least, he did not want to split the bill too clearly. He was quite happy.

In the end, it was just that she did not say it back then. It was not that she did not remember it in her heart.

Qiao Nian did not know what he was thinking. She rolled down the window and supported her chin with her hand. She turned around thoughtfully. "... It's probably diamonds."

Qiao Nian remembered. "Some time ago, she got a 20-carat pear-shaped blue diamond. It suits you quite well. I think she's referring to that. Anyway, she has a lot of such things."

Qin Si was speechless.

20 carats, natural blue diamond... at least an eight-figure sum.

He silently looked at the man in the front seat through the rearview mirror and smacked his lips. Although as a man, he definitely would not want Guan Yan as a gift, he could not help but sigh in his heart. No wonder Master Wang liked to live off women!

Chapter 2457 D: I'll Mail It to You?

Ye Wangchuan seemed to feel his gaze. He turned his head and met his gaze, then raised his eyebrows with a faint smile. "Why are you looking at me?"

"No, no." Qin Si quickly looked away, not daring to say what was on his mind.

Ye Wangchuan clearly knew why he was looking at him, but he still deliberately looked sideways at the girl in the back and asked, "What do you want to eat tonight? I'm cooking."

"Mm?" Qiao Nian was still replying to Guan Yan. Her mind had yet to process the situation. She was supporting her chin and thinking, and she was just about to say 'spicy chicken'.

"No spicy chicken. It's too spicy." Ye Wangchuan's gaze inadvertently went to her right shoulder, seeming to see her unhealed wound through the fabric. "You can't eat chili these days, so hotpot and spicy chicken won't do."

Qiao Nian grew disinterested when he said that. "Whatever."

"Alright." Ye Wangchuan smiled slightly. His voice was bewitching and seductive. "Then, I'll stew chicken soup for you and make a few side dishes."

As long as Qiao Nian did not eat spicy food, nothing else mattered. Hence, she replied casually, "Yes."

However, she was looking at the message on her cell phone.

This time, it was still that D from before.

[I've got it. Should I mail it to you?]

[Mm.]

Qiao Nian sent him the address.

D quickly showed that he was typing. A second later, he replied: [Alright, pay attention to the delivery.]

Qiao Nian closed the dialog box and calmly opened the game page, then started a solo game.

* * *

"You said that Qiao Nian sent people to the laboratory?" Yu Qingliu's expression was ugly as he stood up from behind the office chair.

Ji Ziyin pursed her lips tightly. The humiliation and hatred on her beautiful face could not be suppressed. She lowered her head slightly and covered her eyes with her bangs, then said in a low voice, "Her people even said that your family is inferior among the reclusive families. They said that they're not afraid of your revenge."

"How dare they!"

Yu Qingliu hated it the most when others talked about the Yu family's status among the reclusive families. In his extreme anger, he swept everything on the table to the ground.

He placed his hands on the table and panted heavily. His face was filled with anger and hatred. It could be seen how much Ji Ziyin's words had agitated him.

"Did they really say that?" He was not a fool.

After his anger subsided, the first thing Yu Qingliu did was interrogate the woman standing in front of him. "He really said that he's not afraid of my revenge? He doesn't take the reclusive families seriously, either?"

Ji Ziyin did not dare to look into his eyes. She quietly clenched her fists and angrily said, "They didn't say that directly. However, he said that the Yu family is inferior in the reclusive families' circle. You won't even be able to bring this up to them. Everyone in the laboratory heard it."

She looked up. "If you don't believe me, you can ask the others."

Since she was not afraid of him asking the others, Yu Qingliu believed what she said.

The anger slowly disappeared from his gaze. There was no expression on his face, but his expression was extremely cold. He waved at Ji Ziyin. "Go back."

Ji Ziyin had thought that he would be angry and settle the score with Qiao Nian. She had never expected this reaction from Yu Qingliu. "Elder Yu?"

"What? Is there anything else?"

Yu Qingliu had already turned back and picked up the documents on the ground. Seeing that she was still standing there like a block of wood, he looked at her impatiently.

Chapter 2458 The Ji Family's Direct Line of Descent Is Famous For Being Insanely Bold

Ji Ziyin felt her hair stand on end from his gaze. She did not dare to provoke him now. She originally had a stomach full of words to say, but in the end, she only said, "I-It's nothing."

She was indignant, but she could not show it. She could only say gloomily, "Then, Elder Yu, I'll leave now."

"Okay." Yu Qingliu did not raise his head and only gestured for her to leave.

Seeing that he really had no intention of settling scores with Qiao Nian, Ji Ziyin left Yu Qingliu's villa in disappointment.

Following the sound of the car driving away, Yu Qingliu slammed a folder on the ground again. "This Qiao Nian is too much!"

At the same time, in an inconspicuous corner of the study, a bearded man walked out from the shadows of the cabinet and looked at him. "Elder Yu, what should we do now?"

His position was tricky.

The shadow cast by the bookshelf covered his tall figure. Ji Ziyin had been here for so long, but she did not notice anyone else in Yu Qingliu's study.

The bearded man looked in the direction she had just left and retracted his gaze. He lowered his voice and said, "This Ji Ziyin doesn't have good intentions, either. She came to tell us this because she wants you to stand up for her."

"Tsk! She has a good plan. She didn't mention a word about those people saying that she stole something. She only mentioned that they provoked the reclusive families."

Yu Qingliu waved his hand, his expression dark. "I don't care about her little schemes. What I care about is what they said."

A ball of fire formed in Yu Qingliu's heart when he thought of someone casually saying that the Yu family was just an unpresentable low-rate family in the reclusive families' circle, and he had nowhere to vent.

"Then—" The bearded man couldn't figure out what he was thinking and hesitated.

Yu Qingliu quickly composed himself and said in a low voice, "Let's leave it at that for now. Appease those people in the laboratory. Tell them that as long as they can complete the experiment project, we will not treat them badly!"

The bearded man agreed easily. "Who are the people who barged in today? Aren't we going to give them an explanation?"

Yu Qingliu's heart ached again when he thought of Qiao Nian. He raised his hand to stop him. "Ignore her for the time being."

"She's tougher than I thought."

The bearded man did not quite understand what he meant and looked at him in confusion.

There was someone who could be considered difficult to deal with for the reclusive families?

Yu Qingliu saw through his thoughts and snorted. "She even dared to blow up a submarine in Victoria Harbor. She made a move in the international waters of the independent continent and killed seven or eight people from the K Organization. Do you still think it's unbelievable that she ordered people to barge into the laboratory?"

"It was her?!" The bearded man had long heard about the explosion in Victoria Harbor, but he did not associate it with Qiao Nian.

At this moment, he looked at Yu Qingliu in shock.

Yu Qingliu could not be bothered to explain too much to him. He only said, "I underestimated her in the past. Her style of doing things does indeed have the demeanor of a direct descendant of the Ji family."

The Ji family's direct line of descent was famous for being insanely bold.

After interacting with people like Ji Ziyin for so long, he almost forgot how fierce those people were.

Speaking of which, the person above...

Yu Qingliu only dared to think about it in his heart. He did not even dare to think too deeply about it.

Chapter 2459 Sister Nian: My Parcel?

He frowned and raised his hand to the bearded man. "You can leave. I want to be alone."

The bearded man walked out and silently closed the door for him.

Outside the door.

A few people from the Yu Family were guarding outside. When they saw him come out, they immediately whispered, "Boss, what did Elder Yu say? Should we make a move?"

The person who spoke made a throat-slitting gesture. Clearly, he had done this kind of thing many times in the past.

The bearded man had just heard about Qiao Nian's terrifying deeds from Yu Qingliu. He looked at him as if he was looking at an idiot and sneered. "Make a move? Do you think this is Country M? You think you can make a move just because you want to?"

"Not to mention that you don't even know the other party's true strength, just because she's Feng Yu's successor, if you dare to attack, the First Research Institute and Feng Yu will definitely not let you off!" Moreover, the other party was a hidden weapon big boss with a new missile.

Attack her?

It would be more appropriate for them to 'send food' to her!

The bearded man glanced at them and said expressionlessly, "Stay here! Elder Yu will tell us if he has any plans. If he doesn't say anything, stop talking and you can live a few more years."

* * *

In the villa.

Qiao Nian did not know that someone wanted to kill her.

She had just finished dinner.

Ye Wangchuan personally cooked four dishes and a soup. All light-flavored. However, in the end, he could not bear it and decided to make a separate dip for Qiao Nian. There was a little chili oil in it.

This bit of chili oil was better than nothing to someone like Qiao Nian who loved spicy food. It was not much different from not having it. She took only a few bites before putting down her chopsticks.

After dinner, Qin Si consciously cleaned up the dishes while Gu San washed them...

Soon, the doorbell rang.

Ye Wangchuan had just come out of the study when he saw the girl playing games on the sofa. He touched his earlobe and walked towards the door lazily and elegantly.

Opening the door, he saw a delivery man standing outside. The other party seemed to be shocked to see him. He quickly sized him up and asked, "Excuse me, does Miss Qiao Nian live here?"

Ye Wangchuan looked at the other party's appearance without batting an eyelid. He was really ordinary. Even if he was thrown into a sea of people, he would not be able to recognize him.

"She's here." He stepped aside to let him pass, indicating that she was inside.

That person craned his neck to look inside. Seeing the girl sitting on the sofa playing games, he felt relieved and naturally handed over the package. "This is Miss Qiao's express parcel. Please check and accept it. If it's convenient, help me sign it."

As he spoke, he took out a pen from his pocket. He looked like the perfect delivery man.

Ye Wangchuan did not expose him. He took the pen from him and signed his name on the form.

The other party tore off the top sheet and handed him the package, then hurriedly said, "Thank you for acknowledging. I won't disturb you anymore."

Ye Wangchuan could feel the weight of the paper box in his arms. It was light. There seemed to be nothing inside.

When he looked up, the delivery man was already gone.

"Tsk." He clicked his tongue. His exquisite eyebrows were like a painting. He took the package and closed the door before turning around and walking towards the living room.

The girl had just finished playing a game. She picked up her glass and took a sip of water. Seeing a delivery box in his arms, she raised the corners of her eyes and asked, "My parcel?"

Chapter 2460 Wasn't She the Diamond Big Boss?

"Yes, it was just delivered." Ye Wangchuan handed it to her and smiled, then casually said, "The recipient is S. The delivery man asked to see you before handing me the package..."

'Qiao Nian' could not be abbreviated to an S no matter how hard one tried.

Therefore, the other party couldn't be an actual courier!

Qiao Nian also saw the recipient's name S written flamboyantly on the delivery form. She lowered her eyes and shook the box.

There was more than a notebook inside. It seemed to contain something else.

The two items collided inside.

Qiao Nian tore open the package, opened the box, and poured out the contents.

In addition to a black-covered notebook, a blood diamond the size of a pigeon egg rolled out of the box onto the sofa.

Qin Si and Gu San had just come out and heard Ye Wangchuan talking about the recipient. Qin Si asked, "What S?"

He turned to look at Qiao Nian. "Sister Qiao, when did you change your name?"

"Oh." Qiao Nian responded perfunctorily. Then, she picked up the blood diamond and threw it at him. The diamond drew a beautiful arc in the air. "Take it."

Qin Si only saw a crimson arc and caught it steadily. He had yet to see what Qiao Nian had thrown at him when the girl said, "It's a gift from Guan Yan."

He looked down and saw a raw stone the size of a pigeon's egg lying quietly in his palm. It was not blue, but a natural red like blood.

This kind of red diamond was much rarer than blue diamonds. Naturally, it was much more expensive!

If a blue diamond of this size was worth about an eight-figure sum, then a red diamond was worth at least a ten-figure sum. Such a raw stone could buy a villa in Beijing!

Qin Si's eyelids twitched, and the stone in his hand became hot. He wanted to return it to the girl without thinking. "I can't take this."

Qiao Nian did not take it. She put her hands behind her back and said, "I didn't give it to you. If you want to return it, go find her. I'm only responsible for handing it to you."

Qin Si had a headache. He didn't know whether to take the diamond or not. In the end, he thought for a moment before hurriedly returning to his room. "I'll call her."

Qiao Nian watched him leave and then retracted her gaze. Her gaze landed on the black leather notebook, and she reached out to pick it up.

Most people might think that this notebook was insignificant when they saw such a huge raw diamond, but the truth was the opposite.

There was a price to the diamond.

This notebook was a priceless treasure.

Ye Wangchuan already knew what was going on when he saw the notebook. He raised his eyes slightly. There was a faint light in his eyes. "So, the person who delivered the package is from the Red Alliance?"

Qiao Nian put the notebook back, pursed her lips, and looked up at him. "No."

Ye Wangchuan did not believe it, but he still nodded.

Qiao Nian put down her notebook and said in a lazy tone, "It's from the diamond big boss."

Wasn't she the diamond big boss?

As Qiao Nian spoke, she took her laptop and cell phone and got up. As she turned around, she said to Ye Wangchuan and Gu San, "I'll go up. You don't have to call me tonight."

Stopping and turning around, she said to Ye Wangchuan, "I'm going to the hospital to see my teacher tomorrow."

Ye Wangchuan saw the girl's black eyelashes drooping. He stuffed his hand into his coat pocket and said handsomely, "I'll go with you."

"Mm," Qiao Nian replied and returned to her room with her things.
