

Madam's 2621

Chapter 2621 If Ziyin enters the Privy Council, he can also help a new generation

"I was planning to come back right away, but something happened to my body. The doctor told me to rest for two days, so I waited two days before leaving."

"I wanted to contact him later, but He Zhu didn't answer my call, so I texted her."

She meant that she had explained it to He Lin.

Ji Ziyin said on her mouth that the water was not leaking, but she had no idea in her heart, and she didn't dare to look up at Ji Lingfeng's face with a guilty conscience.

Ji Lingfeng's expression has always been light. No matter what she said, she didn't change. With a sigh, she said: "You can't take the plane because of your health, but it doesn't affect you going to the private banquet of the hidden family."

He knows everything? !

The cold sweat on Ji Ziyin's back suddenly came out.

Ji Lingfeng didn't want to talk nonsense with her, and said concisely: "Since you have your own ambitions outside, the Ji family can't keep you, and you don't have to come back in the future."

"Patriarch?!" Ji Ziyin cried out.

She was really panicked now.

Before Ji Lingfeng just excluded her from the list of new generation training, but did not say to kick her out of Ji's family.

Now Ji Lingfeng wants her to go out!

Ji Ziyin's heartbeat was thumping, and she didn't care about her dignity. She knelt on the ground of the ancestral hall and moved her knees over, begging for mercy with a panicked face: "Patriarch, I know I'm wrong."

"It's not just my own selfishness that I want to have a good relationship with the hidden family. I also want to find more friends for the Ji family."

"Patriarch, I'm going to enter the Privy Council soon."

"As long as I get in smoothly, I will definitely find a way to help the younger generation of the family to use talents, you believe me!"

Ji Hongyuan was stunned when he heard it. He didn't expect Ji Ziyin to do so many things behind his back, and even went to M country to please the hidden family...

He subconsciously looked at Ji Lingfeng's face.

Sure enough.

The middle-aged man looked polite and gentle, and seemed to be a good-natured person, but his deep eyes were covered with a layer of frost that could not be melted, and he was very hostile.

He knew exactly where Ji Lingfeng's death point was.

So Ji Hongyuan clearly understands that Ji Ziyin has crossed the red line.

Ji Hongyuan thought that Ji Ziyin was a good seed in the younger generation. If Ji Ziyin was kicked out of the house, wouldn't the younger generation of Ji's family only be able to look at that Qiao Nian.

He bravely stepped forward and tried to speak for Ji Ziyin: "Patriarch, she is young and doesn't know what happened in the past. You see that she is young and ignorant, this matter is..."

"Uncle Six." Ji Lingfeng said lightly and just called him.

"..." Ji Hongyuan knew that he was not enough, and pursed his lips, and stopped talking.

Ji Xiao and Ji Ziyin didn't realize the seriousness of the matter.

Ji Xiao himself crossed the river with a mud bodhisattva, and tried to say good things to Ji Ziyin: "Yes, patriarch, Ziyin is also for the good of Ji's family."

"The Hidden Family is a way out after all."

"Our Ji family can't keep huddled in a palm-sized place like Independence Continent. If we want to go further, we must join forces with outside forces."

"If Ziyin enters the Privy Council, he can also help a new generation..."

Ji Lingfeng listened to what he said. Hearing this, he sneered and covered his eyes with his hands. The expression on his face was similar to when Qiao Nian was provoked. His eyes were fierce and cold: "When did the Ji family need to be supported by others?"

Ji Xiao moved his lips and realized that he had said something wrong.

But in his heart he still thinks that the Ji family has been going downhill in recent years, and there is no one in the younger generation who can take the shot. If this is the case for a long time, the Ji family will decline sooner or later.

Chapter 2622 Ji Ziyin was kicked out of Ji's house

Ji Ziyin can curry favor with the hidden family by her own ability, and can enter the Privy Council, how good is it?

He didn't understand why Ji Lingfeng was so tough.

"Patriarch..." Ji Xiao still wanted to say something.

Ji Lingfeng saw that he was not angry, and interrupted him concisely: "I see that you have made a lot of contributions to the family over the years, and you didn't care about you. If you think it's unfair, you can leave Ji's house with her, and I won't stop you. "

Ji Xiao seemed to be caught in the second vein of the people, and instantly softened.

Ji Lingfeng didn't want to waste time with them: "Ji Xiao spent three days in the ancestral hall reflecting on himself. If he leaves in the middle, he should be removed from Ji's family."

"As for you..."

Ji Lingfeng looked at Ji Ziyin, whose face was as pale as paper, and said in a low voice, "Ji's temple is too small to hold a big Buddha like you. You can find a way out yourself, just follow that road to the dark, and don't look back."

Ji Ziyin is completely speechless now, she doesn't think she is wrong, but she doesn't want to accept the result!

Before leaving, Ji Lingfeng passed by the only standing Ji Hongyuan, and said, "Uncle Six, you are old, it's time to rest."

"..."

Ji Hongyuan looked at the back of his leaving and was speechless for a long time.

When Ji Lingfeng walked away, he couldn't see his back at all.

He turned to look at the two who were like mud.

Ji Hongyuan's temples were white, his face with Chinese characters was a lot older, and most of his energy had dissipated: "I've used up all my affection in Ji's house, you can do it yourself!"

After he finished speaking, he staggered out of the ancestral hall.

In the huge Ji family ancestral hall, only Ji Ziyin and Ji Xiao were left kneeling on the ground. Everyone in Ji Xiao panicked: "What should I do now?"

After a short period of discomfort, Ji Ziyin quickly adjusted her emotions, stood up with her support, pursed her lips, and her eyes were cold: "They don't want me, it's not that I don't want them, they just don't regret it in the future!"

She originally wanted to enter the Privy Council and take the opportunity to train her own staff.

Those in Ji's family are perfect.

In this way, she is pleasing with both ends, and why is she sitting firmly on the Diaoyutai.

The ghost knows that Ji Lingfeng's brain is watted.

He knew that she had already climbed into the relationship of the hidden family, and also heard that she personally confirmed that she was going to enter the Privy Council, and he could still ruthlessly drive himself out.

Ji Ziyin clenched her silver teeth, but had to accept the reality in front of her, and said in a sour tone: "I see what the patriarch means, I'm afraid he wants Qiao Nian to come back."

"Hehe, Qiao Nian's character is disgusting with dogs. Even if he wants to bring people back, people may not look at Ji's family, he's just afraid that he won't get his wish!"

After she finished speaking, she still felt uncomfortable, raised her chin slightly and turned her head to look at the plaque of Ji's ancestors placed on the stage, and whispered: "One day I will prove that I am the one who can bring the Ji family to the top. people."

Ji Xiao thought of his current situation, and was not in the mood to care about her.

Ji Ziyin patted the dust on her knees, straightened her spine, and strode out of the ancestral hall.

She will one day let everyone understand that she is right!

...

Qiao Nian didn't know that someone was saying behind her back that she hated dogs and had a bad temper.

As night falls, the Independent State enters April.

The weather is getting warmer.

Even after the sun goes down, there are hot and dry molecules floating in the air, and it seems that summer can be entered in a blink of an eye.

Qiao Nian used to live in the ring city and was used to the hot weather in the ring city. She just felt annoyed every month before summer.

Chapter 2623 Isn't it because Lu Zhi also went to dinner at noon?

The weather turned hot, so she only wore a thin T-shirt. Fortunately, the long sleeves of the T-shirt covered all her arms, so she didn't look so thin.

But she is still a bit thinner than the average person. Everyone else wears a coat outside. She doesn't wear a coat, just a peaked cap.

"Miss Qiao came out." Gu San was waiting for the girls to come out. He saw the person coming out of the research institute with sharp eyes, and immediately turned his head to report to the man beside him.

Ye Wangchuan picked up a cardigan and put it on his hand, and walked towards the girl.

"Whenever he sees Sister Qiao, his eyes are not straight, tsk!" Qin Si, a dead man, also came out, and he was so sensible that he didn't use it as a light bulb.

Gu San didn't dare to say that, and pretended to be dead with a straight face, pretending that he didn't hear it.

Qin Si glanced at him: "Why, let's talk in private, you don't have to take it so seriously, right?"

Gu San was hit by his elbow on his chest, and he said with eyes and nose, "I'm afraid that the wrong master will kill you when he hears it."

Qin Si: "... " Good TM makes sense, but he can't refute it!

After all, Ye Wuchuan became ruthless, his small arms and calves were not cruel enough.

As soon as Qin Si thought this way, he touched his chin and reacted, turning his head to look at the person who was pretending to be stupid: "You want to sue him?"

"I didn't say that." Gu San gave an expression that I didn't say.

Qin Si made a 'fuck' and quickly said to him: "You can't do things, I want to live two more years."

Whether it's the arrogant master or the sister Qiao, which of these two bosses is the one he can afford. He doesn't want to die!

...

On the other side, Ye Wuchuan had already walked over to the girl to take the shoulder bag for her, and handed over the jacket: "It's cold at night, put on a jacket, be careful you catch a cold."

"Uh." Qiao Nian was still too hot, so he wanted to go back and change into short sleeves and drink a bottle of ice Coke from the refrigerator.

But when she saw the coat handed to her, she still slowly reached out to take it. Instead of putting it on immediately, she looked at him: "Why are you here?"

Ye Wangchuan raised his eyebrows slightly.

He hasn't said: I can't come?

Qiao Nian seemed to see his heart, and quickly added: "Didn't I send you a message that I wouldn't be here to pick me up, so I'll go back by myself? I thought you wouldn't come, and you didn't tell me to come..."

Ye Wuchuan couldn't help but smile, his eyes fell on her, he reached out and took her hand into his coat pocket, and took her to the opposite side of Mali: "Take you to dinner."

Qiao Nian was distracted for a while, focusing on being held by his hand, the whole person was a little lazy and a little loose: "Huh?"

Why did he suddenly insist on taking himself to dinner?

"You didn't go to Ji Lingfeng's banquet at noon. I guess you didn't eat much, so I came to pick you up early and take you to a nice restaurant with spicy chicken." The man's thin lips were slightly red and his tone was soothing like spring water. Sounds like a gurgling stream.

"Oh."

Qiao Nian glanced at him slantingly, as if that was the case, and did not ask him if he heard that Lu Zhi also went to eat at noon, so he came to pick him up early.

She and Lu Zhi had a clear conscience, there was nothing to explain, and some things were easy to describe.

"I found the password of the USB flash drive." She remembered that her hard work these days had paid off, and she was in a good mood, so she shared the good news with him: "But I have to go back and verify it."

Chapter 2624 What is the content of the U disk

Ye Wangchuan held her hand tightly, raised his eyelids slightly, and smiled: "Congratulations~ What do you think will be in the U disk? Does it have something to do with the secret of the Ji family?"

"No." Qiao Nian and him were about to walk in front of Gu San and the others.

She stopped, tilted her head and said with certainty: "She is not the kind of person who puts personal feelings first. It should contain her work information."

After checking for so long, she also has a certain understanding of Ji Qing's character.

Ji Qing is a veritable workaholic.

She has clocked in at the First Research Institute more than anyone, including Shi Fu, who is dedicated to research, and is not as diligent as Ji Qing.

So Ji Qing found a way to leave a USB flash drive, and set an extremely complex password is definitely not to record the short-term contradictions in the parents.

The contents of the USB flash drive she left must have something to do with the research she did!

And this thing is also the real cause of her death at a young age.

"What are you two whispering about?" They walked over to Gu San in a blink of an eye, Qin Si leaned against the door and stood upright, looking at them suspiciously.

Ye Wangchuan quickly hid the previous surprise deep in his eyes, stretched out his hand to open the passenger door, and put Qiao Nian's bag in.

turned back and said to the girl, "Get in the car."

He said, asked Gu San for the car keys again, and said to the two: "Wait for me to drive, you two sit in the back row."

"Tsk, let me see you two show affection again, right?" Qin Si angrily opened the rear door, and didn't ask Qiao Nian what they were talking about before, and got in the car depressed: "The other day, the young master succeeded in getting rid of the order, he must All the dog food you have eaten this year will be returned to you! Humph."

Gu San gave him the car keys.

Ye Yichuan turned around to the opposite side and opened the door.

When Gu San got into the car, when he heard Qin Si was still there chattering, he couldn't help but remind him: "I remember Guan Yan seems to be Miss Qiao's friend, right?"

"So what?" Qin Si looked at him vigilantly.

Gu San took his seat in the back row, closed the door, and said with a smile, "It seems that her relationship with Miss Qiao is better than her relationship with you."

Depend on!

Qin Si was stabbed in the sore spot instantly and was speechless!

Next, when Ye Wangchuan drove to the restaurant, Qiao Nian could feel the sour eyes behind him constantly torturing him.

She rubbed her head with a headache, and simply played with her phone, trying her best to ignore the resentful gaze of someone behind her.

Qiao Nianshun sent Guan Yan a WeChat message: [You haven't been with him yet?]

She sent a message to Guan Yan, and saw an unread message Lu Zhi sent her three hours ago on WeChat.

Qiao Nian narrowed his eyes, and remembered the scene where they chatted alone at noon, his brows frowned slightly, and his mood became worse.

It happened that Guan Yan returned to her at this time.

Qiao Nian set Lu Zhi's avatar to Do Not Disturb mode, adjusted his mood, and opened the WeChat dialog with Guan Yan.

Guan Yan: [?]

Guan Yan: [Who are you with?]

Guan Yan: [Oh, you mean little white face?]

Guan Yan: [Not yet. Boss, you know that I'm used to roaming around, I'm not afraid of delaying others?]

Qiao Nian saw the innocent wink emoji she sent to himself, raised the corners of his mouth, leaned his elbows back loosely, and pressed his hands to the phone to edit the message: "You haven't always been in the grass, and the leaves don't touch your body. , are you afraid of this?]

Guan Yan: [You said I was like a scumbag!]

Chapter 2625 Sister Nian: That's the way to go!

in a minute.

Guan Yan: [I don't think he is your old friend? It wouldn't be great if I'm still as irresponsible as I used to be, so let's see.]

When Qiao Nian saw her say that, she knew that she had no feelings for Qin Si.

Then Guan Yan returned to her: [I's situation is not the same as yours and Ye Shao's situation, I have to think more about it, his family doesn't want to find a woman like me who licks blood, and I don't want to Being stuck at home all day and being taught by elders... I'll see fate with him!]

Guanyan: [If one day he can make me willing to put aside his edge for him, it's not that I can't choose a different path... It's just too difficult, and I can't promise anyone.]

Qiao Nian carefully read the two WeChat messages sent by Guan Yan, then raised his head and looked through the rearview mirror to see people who didn't know.

She withdrew her gaze, lowered her head slightly, and returned to Guan Yan: [Understand.]

She also didn't know what the internal situation of the Qin family was like.

Qin Si and Guan Yan do belong to two worlds to a certain extent. People from different worlds need a lot of courage to walk together, and they also have to go through many tests. It's not like saying 'I like you' to be together. Children play at home.

She respects Guan Yan's personal choice.

but...

Qiao Nian put his chin on his hand and thought about it seriously. It seems that apart from his life experience, Qin Si doesn't seem to be rich in Guan Yan, right?

In addition to Hongmeng, Guan Yan also has her share of dividends in the business of F continent.

She seems to have opened a company herself.

Properly a rich woman who does not show the mountains and waters.

If the Qin family sees Guan Yan and dislikes her for lack of money and background, then it will be... out of the big spectrum~!

*

Ye Wangchuan said that he took Qiao Nian to eat spicy chicken, but he really took Qiao Nian to a Chinese restaurant. The chef's spicy chicken skills are really good.

Qiao Nian ate a lot in the evening, and drank tea to digest.

Wait for them to finish.

The group went back to the villa first.

Qiao Nian entered the door and said, "I'll go back to my room first."

Qin Si kept her in the dark: "Sister Qiao, why don't you play two games? The people from our squad are still waiting for you."

"I won't play today~" The girl picked up her bag and walked up to the second floor.

Gu San came in, and when she saw that she was about to go up, he said, "Miss Qiao, I'll make you a cup of coffee and serve it up later. Do you want a latte or an American?"

As soon as he finished speaking, Ye Wuchuan took off his coat and put it on the sofa, and said lazily, "She just drank tea, I'll give her that bottle of water later."

"Okay." Gu San was very discerning and went in to make coffee for Ye Wangchuan and Qin Si. Before leaving, he didn't forget to ask Qin Si: "Master Qin, do you want a latte or an American?"

Qin Si yawned and patted his face: "American style."

He always wanted to sleep as soon as he was full. He had a cup of American style to refresh himself. By the way, he asked the next Guan Yan if he was free tomorrow.

"OK."

Gu San knew the taste of Ye Wangchuan, so he went into the kitchen to find coffee beans.

...

Room on the second floor.

Qiao Nian went back to the room, threw the shoulder bag on the bed, went in to take a cold shower, put on a T-shirt, and went straight to the computer desk.

The black laptop was not turned off, just slightly buckled.

She walked over, opened the laptop, pulled out the chair and sat down.

The laptop cuts to the host page in seconds.

Qiao Nian picked up the USB flash drive she had thrown aside, played with her fingers for a moment, and then inserted the USB flash drive.

The computer screen immediately fell into a white screen, and a string of text popped up on it.

Please enter your password.

Chapter 2626 Sister Nian's mother is also a boss

She had tried countless times before to unlock the password of the USB flash drive, so she was not surprised to see this. She got up and went to the bed to pick up her bag. Page.

Qiao Nian took the paper and sat back in front of the computer, and opened the piece of white paper that seemed to be torn off temporarily.

has a string of numbers written on it.

is exactly the same as the password required on the computer, it is all six digits.

Qiao Nian was about to enter the password according to the numbers on the paper, when there was a knock at the door.

She raised her eyelids, slid the chair away, leaned on it lazily and said, "Come in."

Ye Wuchuan came in from outside, walked over and said, "I brought you two bottles of water."

He unscrewed the cap of one of the bottles and gave it to the girl.

Qiao Nian took it, raised his head and gulully took two sips, then put the bottle aside: "Thanks."

She happened to be a little thirsty.

Ye Wuchuan put another bottle on it, and out of the corner of his eye he saw the scratch paper spread out on her desk.

Someone used a pencil to scribble and draw on the scratch paper, and wrote a lot of calculation formulas with flying handwriting. At first glance, it was Qiao Nian's handwriting.

He moved his hand for a while and turned his head: "Have you tried it yet?"

"Ah." Qiao Nian didn't hide it from him, and said slowly, "I was about to try, so you came in."

So she hasn't had time to try.

Ye Wuchuan folded his arms and leaned against the side. Hearing her words, he raised his eyebrows: "Can I take a look with you?"

Qiao Nian glanced at him and said nothing.

But she showed her attitude with practical actions. She put her hands on the keyboard and typed in the password she calculated, and then hit the Enter key...

Ji Qing has set up a self-destruction program on it. Once the password she just entered is wrong, the contents inside will be automatically destroyed.

Ye Wuchuan was rarely nervous, and stared at the computer screen for a moment.

The computer first flashed, and then a large amount of data began to jump out as if entering some kind of program, all of which were C language specially used for computer programming.

He wasn't sure if the USB flash drive had entered a self-destruction program, or it was normal.

However, Ye Wangchuan tilted his head to see the girl's calm profile, and then looked at the garbled characters on the screen and became calmer.

Looking at Qiao Nian's attitude, the password she entered should be right!

Sure enough.

The speed of the programming data rapidly turning on the computer screen starts to slow down, and then a progress bar pops up, and the progress bar starts to refresh from 1%.

10% refresh every minute.

Ten minutes later.

Complete 100% progress.

The picture on the screen cuts into a folder.

Qiao Nian saw the folder named 3 by Ji Qing, and he covered the mouse with his hand and gently clicked on the folder.

There are a total of 10 small files in the folder.

There are video formats and TXT formats.

Qiao Nian clicked on the smallest TXT file he had picked, and there were dense calculation formulas written on the notepad.

She pulled down and found more than 10,000 words.

"This is?" Ye Wuchuan was a little surprised by the contents of the USB flash drive. As she guessed, it wasn't the trivial things that the Ji family and the Yinshi family kept secret, but a lot of data.

Qiao Nian pulled the notepad to the top again, watched it carefully for a while, then took a pen and worked out a few formulas on the blank space of the previous scratch paper.

Chapter 2627 Shifu asked me to ask if you have considered it?

Ye Wangchuan didn't expect Ji Qing to leave something like this, he frowned, but didn't say anything.

Qiao Nian clicked on the video saved by the season and was surprised to find that there was not only a missile interception system in the U disk, but also the core technology of semiconductors!

And this semiconductor core technology of Jiqing is an advanced level that is not available in the world now.

The technology of 20 years ago, still no one has broken through, and no one can even touch the threshold. It is conceivable how awesome Ji Qing was when he was alive.

These are all scientific calculations of the highest level, and even she can't understand the secrets hidden in it at a glance.

Qiao Nian closed the folder, stretched out his hand and tore off the USB flash drive, lowered his eyes and said, "It will take some time before I know what she is working on."

Ye Wuchuan put his hand down and looked at her. He didn't know how to comfort her for a while, so he put his hand on the girl's shoulder and patted it gently: "You have found the password, at least things are starting to develop in a good direction, slow down. Take it slow, and sooner or later you will know the truth."

Qiao Nian wasn't too disappointed at first, and the result was unexpected: "Well, I probably guessed something."

The ten files in Jiqing's USB flash drive, if you throw any one out now, it will be a blast.

Twenty years ago, JiQing held these research results, and it is conceivable how many people are jealous.

The hidden family is probably one of them.

Just then.

Feng Yu's phone call came.

Qiao Nian answered the phone first: "Hello?"

Feng Yu asked her in an angry voice, "Have you returned from the research institute?"

Qiao Nian looked at the time approaching eight o'clock and said with a headache, "Well, I've been back for a while, do you have anything to do with me?"

"It's not a big deal." Feng Yu said so, but he was actually uneasy: "I just wanted to ask how you thought about the last time."

Qiao Nian's mind is full of the files left over from the last season of the U disk, and he didn't respond for a while: "Last time? What happened?"

Feng Yu just left the institute.

The driver respectfully opened the door for him: "Lao Feng, do you want to go back first?"

Feng Yu covered the phone receiver and replied softly, "Yeah."

The driver didn't dare to make a sound when he saw that he was taking the call seriously. After closing the door for him, he quickly went around to the front to drive.

Feng Yu got in the car and rolled down the window, and found that the sound of air convection was too loud.

He closed the car window again, sat wearily in the back row, and said carefully, "It's the one I mentioned to you, it's a new thing."

"you forgot?"

"It's the recruiter. Your mentor asked me again today." He lowered his voice and said vaguely, "He asked you how you're thinking?"

The driver drove in front of him without looking sideways. Although he could hear Feng Yu's words, he couldn't understand what Feng Yu was talking about.

It's not that Feng Yu doesn't trust the people around him, it's a matter involving the hidden family, he has always been cautious: "I just called to ask your opinion, after all, the time is coming up over there, if you have this intention, We have to communicate with the Ji family first."

Qiao Nian is the bloodline of the Ji family, but the big family pays attention to a justifiable name.

The bloodline that the Ji family does not recognize is not easy to participate in the recruiting of the Privy Council, even if it is a pure Ji family.

Feng Yu thinks very long-term.

He first confirmed her thoughts with Qiao Nian, and then went to contact Ji Lingfeng to test the tone over there.

Anyway, step by step.

Things will always move forward.

Chapter 2628 Can I give you an answer tomorrow night?

Qiao Nian's eyes were still on the computer, and he casually picked up his hand: "I haven't thought about it yet."

Feng Yu was anxious: "There are hard requirements over there, and time is running out."

"I've been busy these two days and forgot." Qiao Nian took his eyes back and lowered his eyes: "I'll give you an answer before tomorrow evening, okay?"

Feng Yuzhan showed a smile and said in a hurry: "Yes, yes, of course, you can think about it slowly, I will wait for your reply."

"Yes." Qiao Nian replied.

Feng Yu did not delay Qiao Nian's time in reaching his goal, and immediately said, "I won't disturb you if it's not early. I'll tell your tutor to save him a few days and nights of sleepless nights."

Qiao Nian supported his forehead, got up to get something, and put the phone next to his ear and said softly, "You also rest early."

"Okay." Feng Yu was in a good mood and promised her.

He hung up the phone and reopened the windows to ventilate.

The night wind from outside blew in, and Feng Yu's mind was much clearer. He called Shi Fu and said the answer he asked.

Then sat in the back row and pondered for a while, and dialed a phone number that was rarely contacted: "Ji Huang, it's me, Feng Yu."

"I want to discuss with you about Niannian." Feng Yu said cautiously, "Do you have time to come out and meet?"

**

The next day.

Qiao Nian took the things copied from the USB flash drive of last season, and locked himself in a separate laboratory for checking.

She first calculated the semiconductor formula left by Ji Qing.

Qiao Nian first took out the unused petri dish from the experiment cabinet, and told Xu Yi based on the raw materials recorded in it, and asked him to help him apply for some special materials at the management office.

Xu Yi took a leave of absence with Cao Yanhua to help the girl find materials since he received her news. It took half an hour to get it done, and he took the materials and went to find the girl.

"Knock knock."

"Come in."

The girl's voice was slightly hoarse, a little careless.

Xu Yi pushed open the door and went in. Seeing the busy girls in the small laboratory of less than ten square meters, he walked over lightly and put the things on the experimental table: "I brought the things you asked for."

"Well, let's put it there." Qiao Nian pointed to a place, his eyes were still changing in the test tube, and he couldn't find time.

Xu Yi put the things she put away in the place she said as required.

He didn't look around, nor did he move anything in the laboratory casually. After Xu Yi put the things away, he consciously stood aside and waited for Qiao Nian to finish his work first.

About ten minutes later, the chemical in the test tube changed. First there was green smoke, and then the liquid inside boiled up... It was about to explode.

The girl wearing goggles quickly pushed the test tube upside down into the stainless steel laboratory-specific washstand.

The next second, Xu Yi heard a dull explosion from the washstand.

is not loud.

Although he didn't see the situation inside the test bench, he could probably guess that the reason why the explosion sound was so small was because Qiao Nian covered the exploding test tube with something in advance.

Explosive experiment?

Xu Yiqingjun's face showed a hint of surprise.

"...still almost." The girl standing beside the experimental table tilted her head and muttered thoughtfully at the messy washstand.

She turned around and saw Xu Yi, stunned for a moment, and beckoned to the young man: "You came just in time, come and do me a favor."

Xu Yi was taken aback for a moment, then stepped forward: "Are you doing semiconductor experiments?"

Chapter 2629 Sorry for the two guests, we have no place

"Well." Qiao Nian nodded without concealment, tilted his head, and looked at him with dark and clear eyes: "I remember your research direction is semiconductors?"

Xu Yi pursed his lower lip slightly, and staggered his eyes uncomfortably: "En."

He said awkwardly: "But I haven't achieved anything yet."

Qiao Nian didn't care much and said to him, "Exactly, I have a few problems that I haven't been able to solve. You can help me find out."

She said and handed over an experimental formula for him to see: "Look at the formula above. The experimental results I made according to this formula are all scrapped. What part went wrong..."

Xu Yi took the scratch paper, stood there at a loss, frowned slightly, didn't read the formula, but looked at the girl first: "Are you sure you want me to read it for you?"

"?" The girl raised her eyebrows with dry eyebrows: "Otherwise?"

Xu Yi swallowed all the words, his expression gradually became serious, pursed his lips, and said in a low voice, "I will do my best!"

...

Xu Yi's qualifications and achievements in the research institute are inconspicuous, but his talent in semiconductors is the same as Qiao Nian's observation, and he is not inferior to Cao Yanhua.

Even Xu Yi is better than Cao Yanhua in talent.

He can always think about problems from unexpected angles. This tricky and unconventional method can often solve difficult problems more simply and effectively.

Qiao Nian is also an expert in weapon manufacturing, but she is not as good as Xu Yi in terms of knowledge in the field of semiconductor expertise.

Xu Yi joined in, greatly improving the efficiency.

At twelve noon, Qiao Nian had already solved the first physical formula left by Ji Qing, and the result was equally surprising.

Seasonal research seems to be targeted decomposition weapons.

As for the function of this thing.

Qiao Nian has no clue for now.

She saw that it was getting late, so she temporarily took off the goggles used in the experiment, and said to the young man who was still in the second verification: "Wait a minute, do you want to have a meal together, I'll treat you."

Xu Yi helped her a lot today.

She had also said before that she wanted to invite him to dinner, so she just happened to have lunch together.

Xu Yi was reluctant to go at first, but later Qiao Nian said that he went with Qiao Nian in order to thank him for helping him in the morning and continue to trouble him in the afternoon.

**

Qiao Nian took him to a western restaurant that Ye Wangchuan took him to before. The restaurant has a superior geographical environment and a light taste, which is more suitable for Xu Yi's taste.

She parked the car, and as soon as she stepped in, she was stopped by someone.

The waiter looked at the two with curious eyes, and said embarrassedly, "Sorry, two guests, our restaurant is full."

Xu Yi didn't expect that there would be no place, so he took the initiative to say to the girl, "Let's eat in another place."

Qiao Nian didn't care, it was full when it was full, and it was a big deal to change to another place to eat.

But she passed the waiter and saw that there were still several windows in the lobby, so she looked over there and said strangely, "Isn't there any vacancies there?"

The waiter looked in the direction she was pointing, and suddenly realized that he turned around and said, "There are people over there, so I won't let you sit."

She smiled again and bowed her head apologetically: "This guest, I'm really sorry, I can only trouble you to come to eat at another time."

Qiao Nian is not an unreasonable person, and she explained it to herself politely, she nodded slightly and was about to leave.

Chapter 2630 Let Sister Nian wait for him outside

Who knew that at this time, a few men in suits and leather shoes would rush in.

The leading man saw Qiao Nian, stopped, and unexpectedly stopped her: "Miss Qiao? Is that you?"

Qiao Nian and Xu Yigang walked down the steps, and when they heard the words, they reached out and raised their cap to reveal their beautiful eyes, and saw Simon in the crowd.

Simon is a tall man of about 1.8 meters, with the deep outline of a typical Westerner, his facial features are extremely three-dimensional and outstanding, and his blond hair and blue eyes are not elitist.

"It's really you." Simon saw her, walked over quickly with a smile, glanced at Qiao Nian and Xu Yi, and said in a second, "Are you here to eat?"

Qiao Nian had contact with him several times.

I saw him at Ji Lingfeng's banquet not long ago.

So she nodded and said more politely: "Mm."

"Why don't you go in?" Simon said.

Qiao Nian hasn't answered yet.

He remembered it later, patted his forehead, and said hurriedly: "This is the place of the Chamber of Commerce Alliance, wait a moment, I'll discuss with the people inside and see if I can give you a place."

Qiao Nian wanted to say no.

Simon had already explained to the waiter and went in in a hurry.

She didn't feel good and left just like that, so she had to stand outside and wait for someone to come out.

Xu Yi looked at her, pursed her lower lip slightly, looked inside without looking sideways, and waited outside with her.

...

In a very private place in the restaurant, Mrs. Lu, the Hacker Alliance and some forces from the Independent Continent all came.

Everyone is talking and laughing waiting for Simon to come over.

Among them, Ji Ziyin is held in the center by everyone, like the stars and the moon, and everyone's topics try to revolve around her.

Mrs. Lu even spared no effort to praise her.

Although the others were not as good as Mrs. Lu, they all tried their best to support her, and it was clear at a glance that they wanted to please.

Ji Ziyin is wearing a light-colored shirt today, with pleats tied at the collar of the shirt, which is very design.

She listened to others the whole time, only occasionally smiled and agreed, not arrogant or impetuous, looking smart and capable.

Simon came in from outside to attract a lot of attention.

A man with a short head just got up to say hello: "President Simon, everyone has been waiting for you, and it can be considered that we have been waiting for you. Our Miss Ji has been waiting for you for half an hour."

Ji Ziyin paid more attention to Simon's attitude, but just smiled and said, "I just came here, it's fine anyway."

The short-inch man wanted to curry favor with her, so he immediately laughed and said, "How can we do that? Today, we'll clean up Miss Ji."

He turned his head and said to Simon: "President Simon, you can punish yourself three cups later to make amends for Miss Ji."

A trace of displeasure flashed across Simon's eyes, but he waved his hands with different expressions on his face: "I'm not good at drinking, so I'll punish myself for one drink."

What else do you want to say with a short inch.

Simon didn't give him a chance, and then said to Ji Ziyin: "Miss Ji, it's like this, I have something I want to ask you."

He told Qiao Nian that he came here to eat, but he had no place.

Immediately embarrassed to discuss with Ji Ziyin: "Look, we still have so many seats here, why don't we give the outermost seat to Miss Qiao? There are green plants there, and the two sides will not interfere with each other's meals."

This is the site of the Chamber of Commerce Alliance. He took the initiative to discuss with Ji Ziyin that he has given Ji Ziyin enough face. Simon thought it was not a big deal, and Ji Ziyin should not be so stingy.
